PLANTERS RE-ORGANIZE

F. M. Swanzy Elected President
of the New Association.

REPORTS READ AT THE MEETING.

Prof. Maxwell Tells About Fermenta-
tion of Sugars—Committees Named
to Preserve Forests—End of an In-
teresting Session—Discussions—Etc.

After two days' session the Plant-
ers' Labor and Supply Company has
passed out of existence and a new
name substituted, under which much
better results are hoped for. The new
board of officers have assumed their
respective duties. Much interest was
manifested in the meeting just con-
cluded, perhaps more than on previous
occasions. The various reports read
were full of matter germane to the
cultivation and production of sugar

F. M. SWANZY, PRESIDENT HAWAIIAN SUGAR PLANTERS' ASSOCIATION.

and other commodities. From the
tone of expressions made, it is evident
the association intends to work in ear-
nest and for the common good of all
concerned.

As the Hawaiian Sugar Planters'
Association, the new name of the
body, much broader results are hoped
to be obtained in all branches of the
work carried on by the old associa-
tion. The change has been under con-
sideration for some time, but it has
taken much labor to so perfect its
organization that beneficial work may
be carried out. The by-laws of the
new association are lengthy and em-
brace all that is requisite for success-
ful operation. Full reports of the
meeting will be published later in the
Planters' Monthly, official organ of
the association. These will be read
with interest by all those engaged in
the production of sugar, and other
adjuncts necessary to carry out that
work.

The second and final day's session
of the Planters' Labor and Supply Com-
pany opened at 9:30 a. m., Tuesday,
with President Schaefer in the chair.
J. M. Horner read a report on plan-
tation transportation. Of late years,
flumes, railroads and tramways had
been vastly improved over the prod-
ucts of previous years. This, of course,
increased marvellously the yearly out-
put of sugar. A wrought iron wagon
was recommended for use in moun-
tain districts. The report was accepted
and recommended published in the
Planters' Monthly.

Secretary Kote read by-laws under
which the reorganization of the com-
pany was asked. Under these it is
hoped to make the work more effec-
tive and broader than it was possible
to do heretofore. The organization
will hereafter be known as the Hawa-
ian Sugar Planters' Association, new
officials having been named to
carry out the provisions of the work.

It was unanimously voted to elect
the old board of trustees. Then fol-
lowed a lengthy and interesting paper
on the effects of fertilization, prepared
and read by Mr. Morrison.

Professor Maxwell also read a treatise
on the same subject, from which the
appended are excerpts.
Fertilization, in its broadest and
plainest meaning, includes the provid-
ing of the chemical elements of
food by which plants live and grow,
and of those mechanical conditions of
the soil in which vegetation most
easily thrives.

All soils contain materially smaller
or greater amounts of all the elements
upon which plants feed. Some soils
possess these elements in such abun-
dant and relative balance of propor-
tion, and with a measure of availabil-
ity, that at once constitutes them
"good lands." These lands may be
cropped for a considerable length of
time, and without giving to them any
plant food, before it is observed with
certainty that they are losing
strength. Again, other soils may
possess the abundance of all neces-

sary food constituents, but not in a
state that the plants can use; or
there may be no even balance in the
relative amounts of the elements pres-
ent, certain being in excess and others
in actual want. Moreover, there can
be a well-balanced supply of all sub-
stances required, and in a sufficient
measure of chemical availability, but
bad physical conditions, such as a too
coarse or too close nature of the soil,
and the excess or dearth of moisture,
render the food supply inert. Now,
where any of these conditions unsuit-
ed to fertility combine we find "poor
lands."

These lands, however, which origi-
nally possess all the elements which
make crops in ample abundance, must
give out with time. The most vital
mineral elements of plant food are
present in the soil in relatively small
proportions. We have found the soils
of the islands as a whole to contain
about one-third of one per cent. of
lime, potash, phosphoric acid and
nitrogen respectively, and there are
analyses which show that on an aver-
age, in each 100 tons of our soils, 16
tons, and in a few examples 28 tons, of
metallic iron are contained. It is
true that one-third of one per cent. of
lime, or of the other three elements, in
the soil would be ample for a vast
number of crops of cane were it avail-
able. If these elements in the soil
were available, however, what would
be the end of a system of agriculture
which continues to draw upon the soil and
place nothing in return? Exhaustion
must be the result! And such a sys-
tem is one of *plunder*, and in set op-
position to modes of fertilization
which aim to maintain and increase
the fertility of soils, not only by mak-
ing good the substance which crops
have taken out but by providing in
greater amplitude the special ele-
ments of food that certain plants re-
quire.

In the report on soils, by way of
explaining the reasons why in the
beginning only partial analyses were
being made it was stated that "the
only elements of plant food which we
purchase in fertilizers are nitrogen,
phosphoric acid, potash and lime." Account is not taken of any other
constituents which are found in the
organisms of plants. Therefore our
attention will be given to the four ele-
ments mentioned, and first in the
order to *Nitrogen*. This element is
of the greatest moment to the life
and growth of plants. It is a consti-
tuent of the albuminoids, and these
bodies compose in great measure the
living protoplasmic fluid which is
contained within and moves between
the minute cells which form the in-
terior structure of plants. At this place
Professor Maxwell went into an ex-
haustive examination of the needs of
the cane based upon the nature of the
soils, which was explained in his re-
port on soils to which attention was
called yesterday. He shows that
nitrogen is the "great want of our
soils," and discusses that element as
follows:

The source of the organic nitrogen
present in soils is not only a question
of scientific interest, it may be made
to involve the further practical sub-
ject of green fertilization. The cane
gives up to the period when the cane
gives its attention more exclusively
to making and storing up sugar in its
cells; consequently it is at the begin-
ning, and during the early part of its
life, that the cane demands nitrogen.
Sugar is composed exclusively of the
elements carbon, hydrogen and oxy-
gen; therefore in the making of sugar
by the nitrogen does not directly en-
ter into it. As a matter of experience we
know that excess of nitrogen prevents
the formation of sugar, by prolonging
the period of growth and preventing
a normal maturity.

In our mauka virgin soils, the nitro-
gen content is found to be almost
three times greater than in the low
land virgin soils. The rainfall upon
the average of the mauka lands, so
far as the data in hand show, is not
quite up to the period when the cane
gives its attention more exclusively
to making and storing up sugar in its
cells; consequently it is at the begin-
ning, and during the early part of its
life, that the cane demands nitrogen.
Sugar is composed exclusively of the

By request Prof. Maxwell spoke of a
recent visit made to Hamakua, Ko-
hala and Hilo districts. He was very
much surprised to find so much dead
timber rotting on the ground; the
sight was something awful in his
estimation. Investigation proved
that the rainfall had materially de-
creased, mainly on account of the for-
ests being denuded; cattle had been a
chief factor in destroying both the
timber and undergrowth. Water was
the chief fertilizer of these islands,
and unless care was taken in preserv-

straction is so minute and the rate so
slow that experiments, so far, have
not detected it. At this time, how-
ever, we have no need to consider at
length the secondary sources of nitro-
gen, all of which element I consider
came originally from the nitrogen of
the atmosphere, as certainly does the
element carbon, and we are interested
in speaking of a few well known
plants that are believed to be special
gatherers of nitrogen from the air, and
are valuable green fertilizers.

Professor Maxwell, at this point,
gave some extremely interesting data
showing the effect of sea spray upon
the character of the cane, and then
spoke of phosphoric acid as follows:

Phosphoric Acid.—Phosphorus, the
vital element of this acid, is a con-
stant constituent of vegetable organ-
isms. It is present in some kinds of
albuminoids and invariably, in some
proportion, in plant oils and fats.
During the course of a long study of
the functions of phosphorus in plant
and animal life I found that the phos-
phorus present in the mineral form
as phosphate passed into plants, where
it was chiefly found in the composition
of the vegetable fats. Further, in the
hen's egg, where these phosphoric
fats are present in large amounts, the
phosphorus, during the hatching of
the egg, went out of the fats and back
again to bone phosphate, where it was
found in the bones of the chicken.
These movements of the element in-
dicate to us how vital it may be to
growth, and we, perhaps, shall not
fully appreciate the value of the phos-
phoric acid in fertilization until we
better understand the physiological
character of its action. I fully be-
lieve this. In concluding the report
on fertilization, Professor Maxwell
referred to the business features of the
subject as follows:

In the selection and purchase of the
great elements of fertilization that
have been considered there are certain
purely economic or commercial con-
siderations to which a word requires
to be given. Nitrogen, phosphoric
acid and potash, like sugar or iron,
have definitely understood market
values, which depend upon the com-
pounds in which these elements are
present. For example, nitrogen, per
pound may be said to be most valu-
able as ammonia sulphate, next as
nitrate, and very variable in the dif-
ferent organic manures. When a fer-
tilizer is purchased the amounts of
these elements should be determined
and the data taken to calculate the
chemical value. It is strictly neces-
sary, however, that the formation
which these elements are contained
in a mixed fertilizer should be stated
in order to assess its value, and enable
us to say the soils and climatic con-
ditions in which it should be used.
The examination our "soils" has shown us
that fertilizers *must* be applied; and
our present in the factory, consid-
erations on "fertilizations" indicate to
what extent the mode of application
is controlled by the season, location
and climatic conditions.

The following new officers were
named by the board of trustees and
declared elected:

President, F. M. Swanzy.
Vice President, Jno. F. Hackfeld.
Secretary, C. Bolte.
Treasurer, F. C. Jones.

AFTERNOON SESSION.

F. M. Swanzy, the new president,
occupied the chair at the afternoon
session Tuesday. Most of the time
was consumed in hearing reports on
various subjects of interest to the as-
sociation and on which committees
had been appointed. Commissioner
Marsden told of what had been done
in the matter of preserving the forests,
touched on numerous needs in that
line and otherwise furnished valuable
and interesting data. His report was
listened to with marked attention on
the part of the members, and at the
conclusion of his paper loud applause
was given. Lack of space prevents a
more full account of the commission-
er's paper.

In commenting on the suggestions
enumerated in Commissioner Mars-
den's report, Mr. Schaefer said he felt
sure the Government took great in-
terest in the matter of preserving the
forests. President Dole had inquired
into the matter when on his visit to
Hawaii. The chief executive had in-
formed him that the Government was
willing to appoint a commission to
deal with the subject. The speaker
referred to sections on the big island
that had been fenced and improved,
much of the work having been done
by private capital. Unless some steps
were taken in the near future, much
damage would result to several dis-
tricts on the island of Hawaii.

Several gentlemen made remarks
touching the matter under discussion,
the consensus of opinion showing that
some action must be taken in the
premises, and that, too, as soon as
possible. President Swanzy thought
the Government made a mistake in
leasing mauka lands for raising coffee.
In order to raise coffee the growers
were compelled to clear the forests;
the timber lands were valuable to
sugar raisers as windbreaks. He
favored asking the Government to be
more careful in issuing leases for coffee
culture.

By request Prof. Maxwell spoke of a
recent visit made to Hamakua, Ko-
hala and Hilo districts. He was very
much surprised to find so much dead
timber rotting on the ground; the
sight was something awful in his
estimation. Investigation proved
that the rainfall had materially de-
creased, mainly on account of the for-
ests being denuded; cattle had been a
chief factor in destroying both the
timber and undergrowth. Water was
the chief fertilizer of these islands,
and unless care was taken in preserv-

ing the supply, serious results would follow the production of cane. He considered the most important water point of the islands.

W. M. Giffard believed it expedient that committees be appointed in the several districts, whose duties should be to look into the water supply and preservation of forests.

FERMENTATION OF SUGARS.

As a result of Prof. Maxwell's trip to the sugar plantations a most careful and complete report on fermentation of sugars had been prepared, which was read by the director. In order to collect information bearing on the subject a series of questions was prepared and delivered to the various agents, who sent copies to each of the plantations from which depreciated sugars had been received, which, with the professor's observations, enabled a conclusive statement to be made upon the subject. Prof. Maxwell's paper dealt upon the depreciated polariscope tests, which was mainly caused by fermentation. He described the various mills visited by him and gave the causes of the depreciation much attention. Comparing the tests made at the plantations and at San Francisco a considerable difference was noticeable, chiefly in sugars of No. 1 grade. Reference was made to other grades, showing gains and losses by rebelling, etc.

Discussion of Prof. Maxwell's paper brought out many facts and theories regarding the manufacture of various grades of sugar. Chemist Crawley made a few remarks about the methods employed in Louisiana and at other places, which showed plainly that the gentleman had had much valuable experience in that branch of sugar-making. He thought a proper solution of the question of fermentation had been reached in the South by use of soap and water. It was the custom there to whitewash the mills inside and out after the season's work had been completed.

President Swanzy made a few remarks concerning the launching of the new organization, thanked those present for their attendance, and expressed the hope that much benefit would result from the meeting just concluded.

Before adjournment, however, a motion by Commissioner Marsden to have committees appointed in the several districts of the islands, to report on forest preservation at the next meeting, prevailed, after which the session closed with a vote of thanks to the retiring officers for valuable assistance rendered the association.

WANTED TO DIE BADLY.

Chinese Murderer Attempts Suicide Once More, but Fails.

Wong Look, murderer of the Chinese lad Ah York, made another futile attempt at suicide yesterday morning in the Circuit Court, while awaiting sentence. Since his last attempt Look has been confined in Oahu jail under rigid surveillance. He was taken to court yesterday morning at 10 o'clock by Officer Espinda, who remained in charge of the prisoner. The two were seated near an open window in the Judiciary building. While Judge Magoon was engaged in other matters, Wong Look made toward a window and jumped out before any one could reach him. Beside from a number of bruises incident to his two-story fall, the prisoner escaped serious injury. He was taken to the police station and returned to court in the afternoon, at which time sentence of life imprisonment at hard labor was imposed upon him.

Everywhere We Go

We find some one who has been cured by Hood's Sarsaparilla, and people on all hands are praising this great medicine for what it has done for them and their friends. Taken in time Hood's Sarsaparilla prevents serious illness by keeping the blood pure and all the organs in a healthy condition. It is a great blood purifier.

Hood's Pills become the favorite cathartic with every one who tries them. 25c. per box. HOBSON DRUG CO., wholesale agents

A COMPLETE WRECK

A Story of Peculiar Interest to Women.

How the Life of a York State Woman was Wrecked—Life Lost Its Joy—But the Clouds Passed and Happiness Came Again.

(From the Binghamton, N. Y., Republican.)

We have heard so much talk throughout the country of late concerning Mrs. Martha Gates of Maine, Broome County, N. Y., that yesterday a reporter of the Binghamton Republican, interviewed her for publication, and her story which will interest all women, is as follows:

"I was born in Hartford, Cortland County, New York, 42 years ago. I have been married 21 years and am the mother of eight children. About two years ago I was afflicted with troubles incidental to my sex and suffered agonizing pain. The trouble continued to grow worse, until last winter I was compelled to take to my bed. I called in a regular physician, but his treatment did not seem to do me much good, and only relieved me for a little time, after which my condition became worse than before. I was absolutely unable to attend to my household duties. I could hardly feed myself so weak had I become. I had to be waited upon day and night and was a physical wreck. There was very grave doubts about my ultimate recovery. The best hope the doctor could hold out to me was that I might be able to get around again and attend to my household duties after remaining in bed a few months longer. But instead of getting better I grew steadily worse. One day I happened to read in the paper about Dr. Williams' Pink Pills for Pale People and decided to give them a trial. Immediately after taking them and before I had used a half a box I saw a marked change for the better in my condition. All this time, however, I was confined to my bed. I continued taking the medicine until I had used four boxes and by that time I was able to be about and around again. The improvement has been steady ever since. I am still a little weak, but am growing stronger as fast as nature, aided by Dr. Williams' Pink Pills will let me. I have great faith in these pills and shall use them hereafter. My husband, who felt real miserable all the Spring, took them and they made a new man of him. I have also used them for my daughter, aged 19 years, who has found them very beneficial for troubles incidental to her sex. So far as I am myself concerned I consider it a wonderful cure."

Mrs. Gates has lived in North Maine for many years, and is highly respected. Any statement she makes is cheerfully acquiesced in by her friends and acquaintances.

An impoverished condition of the blood, or a disordered condition of the nerves, is the fruitful source of most ills that afflict mankind, and to any thus affected Dr. Williams' Pink Pills offer a speedy and certain cure. No other remedy has ever met with such great and continued success, which is one of the strongest proofs that Dr. Williams' Pink Pills accomplish all that is claimed for them. They are an unfailing cure for locomotor ataxia, partial paralysis, St. Vitus' dance, neuralgia, rheumatism, nervous headache, palpitation of the heart, nervous prostration, diseases depending upon vitiated blood such as scrofula, chronic erysipelas, etc. They are also a specific for troubles peculiar to females, curing all forms of weakness. In men they effect a radical cure in all cases arising from mental worry, overwork, or excesses of any nature.

These pills are manufactured by the Dr. Williams Medicine Co., Brockville, Canada, and 46 Holborn Viaduct, London, Eng. They are put up in round glass bottles, the wrapper covering which bears the full trade mark, "Dr. Williams' Pink Pills for Pale People." As there are imitations of this wonderful remedy, see that the above trademark is on every package you purchase, and promptly refuse all imitations and substitutes.

Dr. Williams' Pink Pills are sold by The Holister Drug Co., Honolulu, wholesale agents, and all dealers in medicine.

Wanted to Die Badly. Chinese Murderer Attempts Suicide Once More, but Fails.

Wong Look, murderer of the Chinese lad Ah York, made another futile attempt at suicide yesterday morning in the Circuit Court, while awaiting sentence. Since his last attempt Look has been confined in Oahu jail under rigid surveillance. He was taken to court yesterday morning at 10 o'clock by Officer Espinda, who remained in charge of the prisoner. The two were seated near an open window in the Judiciary building. While Judge Magoon was engaged in other matters, Wong Look made toward a window and jumped out before any one could reach him. Beside from a number of bruises incident to his two-story fall, the prisoner escaped serious injury. He was taken to the police station and returned to court in the afternoon, at which time sentence of life imprisonment at hard labor was imposed upon him.

Everywhere We Go. We find some one who has been cured by Hood's Sarsaparilla, and people on all hands are praising this great medicine for what it has done for them and their friends. Taken in time Hood's Sarsaparilla prevents serious illness by keeping the blood pure and all the organs in a healthy condition. It is a great blood purifier.

Hood's Pills become the favorite cathartic with every one who tries them. 25c. per box. HOBSON DRUG CO., wholesale agents

FLOWER MISSION.

Independence Park Pavilion a Bower of Beauty Last Night.

Most Elaborate Decorations Ever Seen in Honolulu—Substantial Sum Realized.

Independence Park pavilion was converted into a perfect bower of beauty last night by the untiring efforts of the ladies of the Flower Mission, who have for several weeks past worked in aid of the endowment of a free bed at the Queen's hospital. It is characteristic of the ladies of Honolulu that whenever a call is made for help in the cause of some worthy object they are willing to lay aside everything else in order to supply the need. When the last request came to the ladies of the Flower Mission they did not forget the reputation of Honolulu ladies and labored since that time for the happy and successful climax of last night.

The decorations were, perhaps, the most elaborate and attractive of any that the pavilion has seen since its first opening. Arranged as curtains at the main entrance were two Hawaiian flags. Every post, pillar or rafter in the hall was covered with ferns, palms, bananas and other greens. Forming a ceiling for the main part of the hall were large flags of different nations, loaned by the Bennington officers and kindly placed in position by men from that vessel. The incandescent electric lights resting upon these flags made a very pretty effect, although it was a source of considerable worry in the beginning that the lights could not be placed below the flags without cutting them.

At the left of the entrance on both sides of the hall were distributed Japanese lanterns, hanging from the rafters at various lengths. In the vicinity of the lanterns on the mauka side was stationed the Hawaiian band, and on the makai side were arranged the refreshment tables.

Turning to the right upon entrance, a scene of marvelous beauty was displayed at the farther end of the hall. It needed but little imagination to feel one's self in fairy land. The whole lower end was devoted to the flower stand. In the center of this booth was constructed an arch of ferns and palms. Hanging above like a star was a red incandescent light. From the center was suspended a lavender light of the same kind, while halfway down on either side of the arch were green and red lights respectively. The arch was beautiful, but the masses of flowers directly underneath surpassed other arrangements. Orchids, chrysanthemums, roses, asters, marigolds and various kinds of flowers piled together carelessly, made one of the most attractive places. A few feet away on either side of the main arch were two smaller ones devoted to dancing badges. Here, for the small sum of twenty-five cents, one could purchase the right to dance through the medium of a small white satin bow, which the young ladies in charge invariably pinned on the lapel of the coat. Above each of these small arches were wide strips of white paper, behind which were respectively a red and yellow incandescent light. Red flowers were used to decorate one arch and yellow flowers the other. Mrs. Macfarlane, Mrs. Renjes, Miss Agnes Walker and the Misses Cornwell attended the flower stand, while Mrs. Porter, Boyd, Miss Kulamann Ward overlooked the interests of the badge department.

At the right, on the mauka side of the hall, was the candy table, simply overflowing with the daintiest of confections and presided over most gracefully by Mrs. Day, Miss Harriet Lewers and Miss Kate McGrew. The combination of yellow lights and pale green hangings, with touches of ferns and palms artistically distributed, was something that attracted the attention of all.

Directly opposite on the other side of the hall was the fancy table, where Mrs. Von Holt, Mrs. Faye and Miss Madeline Hartwell did good work in dispensing the many articles on sale. The electric lights above the booth were arranged in a rather unique manner each being furnished with a small flat basket as a shade. The Hawaiian mat over the center of the booth was delicately lined with ferns and other greens. The green curtains at either side blended pleasingly with palms and banana leaves.

Not a seat at the ice cream tables was vacant for more than a few seconds during the evening. Mrs. F. R. Walker, Mrs. Fuller, Miss Pinder, Miss Sadie Carter, Miss Soper, Miss Hartwell, the Misses Robertson, Miss Grace Robertson and others were the ladies who through whose energy the tables were successfully managed.

The lemonade booth, neatly secreted in a bower of ferns, attracted the thirsty. Miss Margaret McIntyre as "Rebecca at the well" was assisted by Misses Helen and Bessie Afong. No one went by this place without first tasting of the contents of the two never-ceasing wells.

One of the main attractions of the evening was the stereoscopic show kindly given by Messrs. Baird, Hedemann and Dr. Pratt. The lantern was placed on the music platform, and the pictures thrown upon a canvas on the opposite side of the hall. The audience was taken for a trip to Japan, and the excellent views presented had the effect of making most realistic the thought that one was really traveling in the land of the Mikado. F. M. Swanzy's explanations of the various views presented gave those present a good idea of what they were seeing.

During the sale of various articles the band furnished dance music, many taking advantage to trip the light fantastic. An auction of remaining goods was held after the principal articles were sold, and quite a sum was realized therefrom. It is thought from a rough estimate that over \$700 will be realized by the ladies from the sale of tickets and fancy articles. There were over three hundred people present. To Mrs. Swanzy, Mrs. S. C. Allen and the other ladies who assisted in the work which terminated so successfully last night is due the thanks of an appreciative public.

Concert at Makee Island.

Sans Souci Seaside Resort.

The pleasantest, quietest, shadiest and most perfectly appointed seaside resort on the Islands. It is only four miles from the heart of the city and within easy reach of the trams, which run every twenty minutes or oftener. Elegantly furnished detached cottages or rooms are obtained on easy terms. The table is superior to that of any of the city hotels and all the modern conveniences are provided.
Picnics and bathing parties can obtain extra accommodations by telephoning in advance.
The bathing facilities of Sans Souci are superior to those of any place on the beach.
4157-11

THE PERKINS WINDMILL

Is new in this country, but in the United States, THOUSANDS are in use, and on account of their superior strength and easy running qualities, they have taken FIRST RANK among windmills.

We have just received a car load of Mills and can furnish on short notice STEEL GALVANIZED MILLS of 8, 10, and 12-foot diameter and WOOD MILLS of 8, 10, 12, 14, 16 and 18-foot diameter. We have DIRECT MOTION windmills for places where there are steady strong winds, and geared mills which will run in very light winds, but cannot pump so fast as the direct motion mills. Some of our mills have oiled bearings of the most approved kinds, and some the CELEBRATED GRAPHITE BEARINGS, which will run for years without any oil; also STEEL GALVANIZED TOWERS, 30 and 40 feet high.

SEND FOR THE

Perkins Catalogue

And read the description of the geared mills for farmers and stockmen. With the use of shafting and pulleys they can be made to grind corn or barley, cut fodder, turn a grindstone and saw your wood.

Wooden Towers can be erected if preferred, and we give directions for the timber and erection. We have also Gould's Lifting and Force.

for house or windmill use. We can furnish redwood tanks, also, of all sizes from 600 gallons to 10,000 gallons made in the best way and of the best clear redwood.

The perfect satisfaction that the Perkins Windmills and the Goulds Pumps have given wherever they have been used and properly adjusted is a guarantee of their success. Try the Perkins Mill and get something that will stand the strongest wind and yet work well in the lightest Southerly wind.

WALLACE R. FARRINGTON, - - EDITOR.
WEDNESDAY, : NOVEMBER 27, 1895.

AS THE result of the recognition of Thanksgiving day as a national holiday in this country, the notice formerly issued by the American Minister has not been published this year. Our holiday calendar, as made up at present, practically does away with the offices of the American Minister in this direction. This ought to be a fore-runner of the time when the diplomatic and consular corps in Hawaii will be no more and all people of the islands shall take their orders from headquarters at Washington, D. C.

ALTHOUGH the Government has not reached the point of being a public weather prophet, Dr. Lyons of the survey department is keeping a careful record of the meteorological conditions of the country that is interesting as well as valuable. In order to help out the weather prophets and keep the people in daily touch with what is going on "overhead," we have added to our weather report the observations made every evening at the Government station at Punahou. These give the temperature, the humidity of the atmosphere and the barometric pressure, all of which give statistical proof of the good name our climate has always borne.

WAS THE PRINCIPLE SOUND?

During the early months of the present year the supporters of the Republic, through their executive officers, opened a campaign against would-be revolutionists with the announced intention of pursuing a course that would put an end to the biennial attempts at government overthrow that have characterized the history of this country for some years past. The prevailing sentiment resulting from past experience was, that a vigorous policy toward the public offenders must be carried out in the interest of public peace and the commercial welfare of the islands. Consequently a military commission was organized, and every mother's son who had a hand in the political troubles of January was treated to a sentence that was certainly a guarantee that he would not take an active part in politics for some years to come. A new principle was thereby established. The kind treatment of conspirators in years gone by had proven ineffective, and the time had come when the law must be given full sway and sentiment must take a back seat.

Hardly a twelvemonth has passed and we find the sentiment that was cried down with such ferocity again coming to the front, the country settling back into the custom that has obtained for the last decade, and the conclusions drawn from the history of those years of semi-occasional internal strife thrown to the winds and considered of no further use. The good people of the country practically place themselves in the position of having been active participants in a first class political farce in which their better judgment was overshadowed by the spirit inspired by the martial music of the hour. The political prisoners who firmly asserted their innocence in January now come forward and admit their complicity with the affair, and the adherents of the vigorous principle of January offer an apology for having been so hot-headed as to put these men to the inconvenience of paying a short legal penalty for their misdeemeanors.

In the light of the present attitude of the enemies of this Government there is no more sound reason in liberating the political prisoners today than there was in exercising general clemency on the first day of February. If the men who lauded the action of the mili-

tary commission are prepared, as they seem to be, to admit that they made fools of themselves, the best thing they can do is to be honest and wipe every vestige of punishment meted out to the offenders, from the political boards of the country, and the quicker done the better. If on the other hand, the principle on which they based their January arguments holds good all the year round consistency necessarily demands that they shall stick to it. The Council of State will today pass an opinion on the soundness of that principle. If it was weak in the case of Seward, Walker and Rickard, it was weak in the case of Wilcox, Wise, Gulick and every other political prisoner now on the reef.

While we bear the political prisoners no personal ill will, this paper has held, and continues to maintain, that the January principle was sound and the people of the country should adhere to it.

A. L. COLQUHOUN, who was sent to Nicaragua by the London Times to report upon the feasibility of the canal project, has arrived at the conclusion that the work must be carried on under the auspices of "some strong government, which without doubt must be the United States." As to the political aspect, he believes that confidential communications have passed between the United States and Great Britain and no objections have been made and in consequence of the Clayton-Bulwer treaty the canal will have to be neutralized as was the Suez canal. "The object of the bill passed by the United States Senate, it is practically clear, is to acquire control of the canal. This is a matter which concerns not only the United States but the world at large, more especially Great Britain. But for the obstacles hindering the United States Government itself in undertaking the construction, it would have been completed long ago. The work is so great, the benefits are so transcendent and the interests involved are so vast and complex that it should be removed from the chances of private enterprise, affected as it would be by the fluctuations of the money market and the attitude of the governments of Nicaragua and Costa Rica." Mr. Colquhoun places the cost of building the canal at \$200,000,000.

F. Morgan, auctioneer, on SATURDAY, the 30th day of November 1895, at 12 o'clock noon. KAU CHONG SING. 4149-td

Timely Topics THE AERMOTOR -:- AND -:- Steel Tower.

In as much as most of our remarks have been confined to the pumping Aermotor we wish to call your attention this week to the geared motor for barns. Undoubtedly sometime in the past you have concluded to equip your mill with shafting for grinding of corn and feed for your stock, and perhaps attach a grind stone and buzz saw, and sent away for a catalogue for estimated cost and the location of your building for horizontal and vertical shafting, but finally came to the conclusion that the cost and difficulties of constructing were too great to warrant the expenditure. Now here is where the Aermotor does away with all those great obstacles and petty annoyances. In our plan you have only to secure the vertical 8x8 mast in position, put the Aermotor on one end and the grinder on the other. The mast then holds it all. You can belt to different machines and drive your pump and feed grinder at one time. The feed grinder is always in position. You have only to turn a hand screw to adjust the lower grinding ring sufficiently close and it is already for use, or in an instant you can put on a belt to run any other machine. The saving of power effected by having all bearings rigidly connected in one casting and therefore in proper place, is no less important than the matter of convenience allowed too. The Aermotor runs in half the wind required by other mills, and regulates in a strong wind as well as in a mild wind. It handles the pump the smoothest of any mill made. An eight inch stroke Aermotor will throw more water with less wind than any of the old style mills.

If you are in need of a mill buy an Aermotor and your neighbors will congratulate you on your foresight.

TO ALL WHO USE PAINT:

The undersigned, L. C. Ables and H. P. Walton, purchased from Charles J. Wagner, the inventor of Peerless Preserving Paint the exclusive right to manufacture, use and sell the PEERLESS PRESERVING PAINT in the Hawaiian Islands.

On the 26th day of September, 1895, the Republic of Hawaii granted to L. C. Ables and H. P. Walton, a Patent No. 110, granting to them the exclusive right to make, use and vend PEERLESS PRESERVING PAINT throughout the Hawaiian Islands.

The Republic of Hawaii has also granted to L. C. Ables and H. P. Walton the exclusive use of the words PEERLESS PRESERVING PAINT as a trademark throughout the Republic of Hawaii for the term of 20 years.

Certain parties in San Francisco have recently been sending to Honolulu under the name of PEERLESS PRESERVING PAINT a spurious article not only inferior to the genuine paint, but one which is positively injurious to any metal to which it may be applied.

We hereby warn all persons against being defrauded into using any but the genuine PEERLESS PRESERVING PAINT, which can be obtained only of Ables and Walton.

We also hereby warn all persons against buying, selling or using any article under the name of PEERLESS PRESERVING PAINT, except that sold by us as such buying, selling or using will be a direct infringement of our Patent and Trade Mark, and a violation of our rights, subjecting the persons buying, selling or using such paint to a claim for damages by us in accordance with the Hawaiian Law.

PLANTATION DESERTERS.

Three Japanese Arrested at Pearl City by Toma.

Toma, the crack Japanese officer who says he is now a thorough Hawaiian, was sent to Pearl City Monday night to arrest three Japanese deserters—two from Spreckelsville plantation, Maui, and another from Koloa plantation, Kauai. At Pearl City he asked the assistance of the sheriff of that place, as he thought there might be some trouble. The men were known to have friends who might try to prevent their arrest. Together the two went to a low frame hut on the outskirts of a marsh in the vicinity. As was expected, there were several Japanese in the hut. They were all engaged in the work of scraping fishing nets. Since the escape of the three men from the plantations mentioned, they had been fishing to make a living. As the Japanese officer approached the crowd they arose of one accord and came toward him. Toma asked them for their names, but received fictitious ones for his trouble. He then told them their names and said it would be better for them to make a clean breast of the whole matter, as the facts regarding them were well known. Thus confronted, they made no further attempt at concealment and surrendered themselves. On the morning train yesterday they were brought to the city.

HONOR THEIR BENEFACTOR.

Bust of C. R. Bishop to Be Put in Schools.

Several months ago a proposition was made by the board of trustees of Oahu College to the board of trustees of Kamehameha school that both institutions combine to expend a certain amount of money for the purpose of having a bust made of the Hon. C. R. Bishop, with that gentleman's consent, one copy of each to be placed in the institutions mentioned.

This plan found instant favor, and the work of making the bust was put in the hands of Allen Hutchinson, the sculptor. Mr. Hutchinson went to San Francisco afterwards and remained long enough to complete the work, returning recently.

The bust is one of the finest likenesses ever made of Mr. Bishop. His friends are delighted with it. Only two busts will be made, one to be placed in Oahu College and the other in Kamehameha school.

THE DISTRICT COURT.

Cowan Embezzlement Case Not Finished—Lucas Committed.

Grace Kahalewai plead guilty to the charge of disobedience to parents in the police court yesterday morning. Sentence was suspended until moved on by the prosecution.

In the embezzlement case of H. Cowan, defendant objected to the jurisdiction of the court to further proceed with the hearing of the case. Objection overruled. Joe Dias was the only witness examined. The case will be continued today.

In the case of Albert Lucas for embezzlement, defendant waived examination and was committed for trial to the Circuit Court.

The wife of Mr. Leonard Wells, of East Brimfield, Mass., had been suffering from neuralgia for two days, not being able to sleep or hardly keep still, when Mr. Holden, the merchant there, sent her a bottle of Chamberlain's Pain Balm, and asked that she give it a thorough trial. On meeting Mr. Wells the next day he was told that she was all right, the pain had left her within two hours, and that the bottle of Pain Balm was worth \$5.00 if it could not be had for less. For sale at 50 cents per bottle by all dealers. Besson, Smith & Co., agents for H. I.

PRAY FOR PARDON.

Political Prisoners Ask for Executive Clemency—Meeting Today.

A special meeting of the Council of State was held yesterday to consider numerous petitions for clemency for political prisoners. The session lasted for several hours, but no decision was reached. Applications for pardon were received from W. H. Rickard, J. E. Bowler, W. T. Seward, C. T. Gulick, J. W. Bipikane and a number of Hawaiians, the latter supplemented by a petition signed by some 400 of that nationality. It was concluded to act upon the applications singly. Several of the Hawaiians prayed for consideration and expressed regret for the part played by them in the late uprising.

The merits of the petitioners were discussed at length, and the Council adjourned without action. Another meeting will be held today, when definite action will be decided on.

Healani Dance.

Members of the Healani Boat Club and their friends will enjoy an informal dance tonight at the boat house. The Kawaihau Club will furnish music for the occasion. Boats will be available for moonlight parties. Refreshments will be served during the evening. The club wishes it understood that no printed invitations have been issued, the members and such friends as may be invited by them will be cordially welcomed.

An Important Office.

To properly fill its office and functions, it is important that the blood be pure. When it is in such a condition, the body is almost certain to be healthy. A complaint at this time is catarrh in some of its various forms. A slight cold develops the disease in the head. Droppings of corruption passing into the lungs bring on consumption. The only way to cure this disease is to purify the blood. The most obstinate cases of catarrh yield to the medicinal powers of Hood's Sarsaparilla as if by magic, simply because it reaches the seat of the disease, and by purifying and vitalizing the blood, removes the cause. Not only does Hood's Sarsaparilla do this but it gives renewed vigor to the whole system, making it possible for good health to reign supreme. HOBSON DRUG CO., wholesale agents.

The Beauty

OF SOME PIANOS

Is only "case deep." It is much easier to make a handsome case than it is to put music into it. A tolerable mechanic can do the one—the other requires the best thought of a musical artist. The

Kroeger Pianos

All have handsome, tasteful, durable cases, but in their factory constant, careful, studious attention is given to the production of a perfect and lasting tone. The beauty and honesty of a Kroeger begins with the varnish on the case and goes straight through to the iron plate that holds the strings. We'd like to show you the inside of a Kroeger.

PUBLIC PARK AT HILO.

Pleasure Resort to Be Made
Along New Beach Road.

WORK ON ELECTRIC LIGHT SYSTEM

Series of Social Entertainments—Public
Kindergarten—Streets to Be Widened—
"Tribune" Makes Its Appearance—Dance on Thanksgiving Night.

HILO (Hawaii), Nov. 23.—Residents of Hilo are steadily adding enthusiasm to their ideas of improving the picturesque and growing little town. At present there is a movement on foot to have a large tract of land along the new and splendid beach road set aside for a public park. It is proposed to beautify the place—already charming in its location—with palms and grass plots, and make it otherwise attractive. The project meets with approval on every hand, and it is to be hoped that ere long we shall be able to boast of such a pleasure resort, where all will be welcome to enjoy the shaded walks and sloping lawns as they stroll or loiter about enchanted by the music of the Hilo band.

The new road is a great improvement to the town. Mr. Wilson runs a bus hourly between Hilo and Waiakeia or Kaneohe for the small sum of ten cents, making it convenient for people traveling between the two points.

The Electric Light Company is getting ready for business. Men are actively engaged digging post holes for the new system, and soon many of our cozy homes and most of our business houses will be lighted by brilliant electric lights.

Surveys are being taken for the widening of Waianuenue street. Just how soon work will commence is not known. Much of the beauty of the gardens along the avenue will be lost when the labor of cutting out graceful palms and pretty shrubbery begins. Already the hearts of the artistic and esthetic are sore over the loss of one old landmark. The great clump of bamboos that for twenty years has been sending out stalks in the north-west corner of the Court House yard, has been cut down to make room for poles and wires of the telephone and electric light companies. How many turned wistfully away and sighed: "Woodman, spare that tree!" as they saw the ax felling the bamboos.

The dear little tots of Hilo have been made the recipients of unusual attention lately. On Monday last little Miss Margaret Scott entertained her tiny friends at her parent's home, Waiakua. The day was stormy, but with few exceptions proud mamma's ventured out with their precious charges to join in the festivities arranged for them by Miss Margaret's elders. The spacious lanai was at the disposal of the little guests, and there they played games, romped, and made merry. The sight of the scampering, rollicking innocents at play and later as they gathered around the table was most bewitching.

A juvenile dancing class, in charge of Miss Severance and Miss Lyman, meets every Tuesday afternoon for practice. The class numbers sixteen, all under twelve years of age, and it is a pleasure to see how readily the lads and lassies take to learning this graceful art.

There are now nearly sixty children enrolled at the public kindergarten. A decidedly pleasant and sociable time was had at the residence of Mr. and Mrs. H. C. Austin last Thursday evening. Invitations were extended to some ten or twelve couples to play cards. After several games had been played refreshments were served.

The Hilo Social Club met and were entertained at the home of Miss Severance this week. The program for the evening consisted mainly of shadow pantomimes and quartet singing. A great deal of amusement was caused by the production of a scene in a restaurant, where a hungry celestial flounders himself asking for a meal. The gormandizing of the "heavenly Chinese" and the post-mortem at the final were signals for "audible smiles." The shadows cast by the "Oahu Girl" were also funny. This scene was accompanied by singing and playing of the "ukelele."

Judge and Mrs. Austin spent a few days in Oahu this week.

Mrs. Severance, Miss Severance and Miss Lyman of Chicago have gone to Seyconeth for a couple of weeks.

Mr. Grant, Superintendent of the Electric Light Company, is able to be out again after a week's illness.

Mr. and Mrs. H. C. Austin returned last evening from a trip through Pana.

The Hilo Tribune made its first appearance this afternoon at 4 o'clock, just as the mail closes for the Kinau. Over a thousand copies will be sent out this week.

The new drug store has begun business. Invitations are out for a cotillion to be given on Thanksgiving evening at Spreckels Hall.

We are having most beautiful weather now. Mornings and evenings have been quite cool, the thermometer frequently being below 60 in the morning. There is a great deal of snow on Mauna Kea.

The brig Lurline is about due. She left San Francisco on the 10th of this month.

The bark Santiago will be the next vessel due.

WE NEVER FOLLOW

BUT

Always Lead

In bringing before the public, the newest and most fetching wares in our various lines.

Our importations this year even surpass all former efforts; embracing a few lines not heretofore carried, but which are so closely connected with the finer jewelry trade that we thought it best to add them to our stock.

First and foremost is the large collection of

Rudolstadt
Art Pottery

which though new to this market is not entirely unknown to our connoisseurs. In some respects it closely resembles several of our English Potteries; yet it possesses characteristics in colorings and decorations so distinctively its own that you see at once its difference from other makes. The assortment is unusually large, and contains absolutely NO DUPLICATES, affording every one an opportunity to provide for themselves a choice piece, without the fear of finding another dozen of the identical pattern, in as many homes.

But the GREAT CONSIDERATION is the lowness of price.

Whilst it grades with the finest potteries produced, we can afford to sell it at BARELY ONE-HALF the price of similar wares in other makes. That is a matter which you cannot afford to overlook.

QUALITY THE HIGHEST.
PRICE THE LOWEST.

Following this line closely, comes our immense assortment of choice pieces and cuttings in American cut glass.

Having in stock only the very best make, and this in a very complete variety, we feel justified in saying that it is possible for us to give you the choicest of the choice, and in such varieties of shapes, that many of the large houses in the States could not better supply your wants.

WE CLAIM that our make of Cut Glass is the WHITEST and most BRILLIANT produced, taking the highest awards at the Paris Exposition, where it came in competition with every make of cut glass in the World. The enormous sales during the past two years fully convince us that there is no doubt in your minds as to the merit of our goods.

We are also showing a new assortment of fine leathers, with and without mountings, notably among which are some handsome chateaux bags in Seal, Lizard, Kangaroo and Morocco. You well know the difficulty of trying to purchase a really handsome bag, and we feel sure you will appreciate the addition of this line.

We will enumerate a few more of our new specialties in our next "ad." In the meantime, it will be well to have your pick of those lines spoken of. You know there is always a choice, and the first comer gets that.

H. F. WICHMAN
LABORERS FOR THE PLANTERS

HAVING JUST RETURNED FROM Japan, where I have been in the interests of the labor supply for our plantations, I am prepared to furnish any number of laborers under the only practicable plan yet put forth.

MY PLAN as set forth in the prospectus of Ogura & Co., requires the planters to pay the passage money of the laborer to this place and other expenses after arrival, \$25 passage money for each male and \$20 for each female.

After investigation of the subject, I am satisfied that it is the only plan by which laborers can be recruited for this place and be reasonably sure of obtaining them.

I most respectfully request that your orders be placed with me as soon as possible in order to secure the approval of the authorities here and to enable me to have the laborers recruited quickly.

G. E. BOARDMAN,
4159-1w 1709-1m Agent for Ogura & Co.

Valuable Lease
FOR SALE.

The Government lease of the land of Napali, Kauai, containing 12,000 to 14,000 acres. While much of this land is mountainous, there are some beautiful and fertile valleys; some hundred acres, suitable for coffee, and a large tract for pasture; several acres of taro in all stages of growth; about 25,000 coffee trees planted; 30 cows. This lease has 21 years to run. Annual rental \$55.

THE old idea that

Consumption

is hereditary and incurable is now known to be a mistake. Scientists have proved beyond a doubt that consumption is contagious, but that there is danger of contracting the disease only when the system is in such a run-down condition that it is unable to resist the germs.

Angier's Petroleum Emulsion

is an antiseptic Food-Medicine that will do more than any other remedy to prevent and cure consumption. It is far superior to cod liver oil and is much pleasanter to take.

THANKSGIVING.

SPECIAL NO. 1.

Keep
Him
Home

If there's one way of inducing a man to stay at home, it's to make home comfortable for him.

Just imagine papa, hubby or brother trying to resist the temptation to lay off on one of our

PORTIERE DIVANS

He simply can't do it, and when you own up to him that you only paid

\$12.00

for it, if it's hubby, he will pass off into a dream of his bachelor days, only to awake and offer thanks for the great change and comforts of home.

Sit beside him in one of our handsome

WICKER ROCKERS
OR WICKER CHAIRS

Tell him you bought it for only

\$5.50

and you will awaken an interest in him for the comforts of life. You will be surprised at the effect.

TRY IT, IT WILL KEEP HIM HOME.

LOCAL BREVITIES.

Time today.
Coptic tomorrow.
Football tomorrow.
Healani Boat Club dance this evening.

C. M. Cooke will return on the next Australia.

No paper will be issued from this office tomorrow.

The Anglican synod commences its session today.

Remember Thanksgiving dinner at the Richelieu.

Regimental parade at 8:30 tomorrow morning.

The Woman's Exchange will not be open tomorrow.

Moonlight band concert at Makee Island this evening.

Dr. Russell has a professional card in this paper.

Dr. Lindley gave a dinner to a few friends last night.

Miss Cahill will have her second fall opening today and tomorrow.

None of the Waterhouse stores will be open on Thanksgiving day.

Thanksgiving services will be held in most of the churches tomorrow.

Dr. Lindley, of Kona, Hawaii, is in town again. His friends are glad to see him.

The leading grocery stores will be kept open until 10 o'clock tomorrow morning.

The Honolulu Soap Works Company has a notice of registration of label and trade mark in this morning's issue.

Thanksgiving services in Central Union church tomorrow morning at 11 o'clock. Subject: "Christian Citizenship."

The forestry and agricultural department is still kept busy giving orders for plants from the Government nursery.

Ladies' day at the courts of the Pacific Tennis Club from 3 to 5:30 p. m. today. Lady friends are cordially invited.

Three hundred Japanese laborers whose contracts have expired are in town intending to leave by the next steamer for Japan.

Read L. B. Kerr's new adv. He explains all about "that store on Queen street," and it is so popular with the Honolulu shoppers.

A small amount of opium was found among the outgoing freight by the Claudine yesterday. One of the guards captured the drug.

Adjourned annual meeting of stockholders of the Onomea Sugar Company will be held at the office of C. Brewer & Co., Ltd., 2 p. m. today.

One hundred dollars reward will be paid for the return of a gentleman's tan leather card case containing papers valuable only to the owner.

The Mounted Reserve will have a moonlight drill this evening on the Makiki baseball grounds. Every member is ordered to turn out fully equipped.

John Bush, principal of the Kilaua School, Kauai, has been licensed by the Bishop of Honolulu as a lay reader and now holds a service every Sunday.

Secure yourself of a good mince pie and other dainties for your table on Thanksgiving day from the Elite Ice Cream Parlors. Give your orders in good season.

Several of the sugar planters returned to their respective homes yesterday by the Claudine, after attending the annual meeting of the Planters' Association. Several will leave by the Hall today.

Morgan sells a number of fine bred trotting animals at his salesrooms noon today; also express wagon and one new phaeton. The stock to be sold are registered, and guaranteed pedigrees go with the sale.

Prof. Berger's musicians will have a busy day tomorrow. In the morning they will play for the regimental parade, possibly at the football game in the afternoon, and at the Hawaiian Hotel in the evening.

The house of J. T. Waterhouse has exclusive control of the sale of the National cash register in this country. W. C. Weedon will probably represent the firm in placing the registers throughout the country.

The Thanksgiving service of the second congregation of St. Andrew's Cathedral will take place at 10 o'clock Thursday morning. The choir will sing Te Deum in D, major by Woodward, Jubilate in A by Bridgewater, and an anthem, "Ye Shall Dwell in the Land," by Stainer.

Wilder's Steamship Company's office will be closed on Thanksgiving day.

There will be a special choral service of the Second Congregation, St. Andrew's Cathedral, on Thanksgiving morning. The offertory will be devoted to the Society for the Propagation of the Gospel in Foreign Missions.

Manager Lucas of the Hawaiian Hotel will spread a first-class Thanksgiving dinner for his guests tomorrow evening. The Hawaiian band will give a concert in the evening to round out the pleasure of the evening.

The annual Thanksgiving entertainment of the Kawaiahao Seminary will be given Friday evening, November 29th, at 7:30 o'clock. Cradle songs of different nations will be rendered in costume. Other musical selections will complete the program.

Messrs. George R. Carter, J. Q. Wood and Frank Kruger have consented to act as umpire, referee and time-keeper respectively in Thursday's football game. The Hawaiian band may be in attendance. The two teams will proceed to the grounds in busses decorated in their respective colors. Louis Singer has given his team the name of "Reliance."

The Mohican came into port yesterday morning after cruising off port for several days.

The bark Coloma will sail today for Hongkong. Her delay was caused by the accident to one of her sailors.

The W. G. Irwin finished discharging at noon yesterday. She will be given a cleaning while waiting for sugar.

The Marie Hackfeld was to have sailed at 2 p.m. yesterday. The weather was unfavorable so she will probably sail today. Her destination is San Francisco.

Newell, a deserter from the Manuel Laguno and Foster the man concerned in the Kaulani yacht theft were given the option of leaving the country or doing time in Oahu prison. They decided to leave and have been given work on the bark Coloma bound for Hongkong.

The following island steamers sail today. W. G. Hall at 10 a.m., for Maui and Hawaii ports; Mikahala at 5 p.m., for Kauai ports and Iwalani for Lahaina, Kukuiaale and Honolulu. The Mikahala delayed one day for the planters who wish to return to their Kauai homes.

The following overdue vessels have been reinstated: The ship Bareraig (Br.), Claue, from New York, April 25, for Shanghai; ship Lady Lawrence (Br.), Jones, from Newcastle, N. S. W., July 11, for Valparaiso, Caleta Buena and Queenstown, and bark Noddleburn (Br.), Mason, from Newcastle, N. S. W., June 25, for Tocopilla, at £90 premium each; bark E. G. T. (Br.), Johns, from Sunderland, Aug. 23, for Quebec; bark Nordlyset (Nor.), Olsen, from Glasgow, July 19, for San Francisco, and bark Trinidad (Br.), Greene, from Auckland June 19, for New York, at £20 premium each.

Charity on the High Seas.

When the British cruiser Porpoise arrived here last week, says the Japan Advertiser of Nov. 5th, she carried as a sick-bay passenger William Knox, a hunter belonging to the American sealing schooner, Golden Fleece, who had been put on board the man-of-war in apparently a dying condition on Sept. 2d, last. That was on the homeward voyage of the schooner. She had captured some 1,100 skins of which 208 were to the credit of

Knox's rifle. It was 200 miles off Petropavlovsk that they met. Knox had inflammation of the lungs and was barely strong enough to be taken on board the British man-of-war to be examined by the doctor. He wanted medicine, but the doctor said that medicine was no use; the man wanted to be taken care of. As a matter of fact the odds were that William Knox had not more than two weeks to live. However they nursed him and doctored him, and gave him whatever delicacies they could and landed him here nearly as well as he ever was in his life. William Knox is a man of few words, and compliments do not seem in his line, but he would like to inform all who care to know that nothing on the broad stretches of the North Pacific could have exceeded the kindness of the British man-of-war men to the derelict hunter of an American sealing schooner.

SAILOR BADLY INJURED.
Falls From the Foretop in a Fit. In the Hospital.

"When accidents come, they come in a bunch," said a gentleman on the water front yesterday morning, and it does seem as if such were the truth. For the last month there has been quite a series of distressing accidents on this island. The latest happened yesterday morning aboard the Coloma, anchored in naval row between the lighthouse and the Bennington. A seaman by the name of Gustav Siran, a Swede was working in the foretop, when of a sudden he took a fit. He called for assistance and the second mate hurried to prevent him from falling, but it was too late. The man hung on to the rigging for a few seconds and then fell on a boat directly beneath. Falling head foremost the lower part of his face struck the boat first. The lower left side of his nose was taken off and the upper lip cut to the bone the whole length of the mouth. The lower teeth struck the keel of the boat and made an indentation eighth of an inch. His forehead also received some very severe knocks.

A boat was sent for Dr. Hibbet, of the Bennington, who responded immediately and did a most satisfactory piece of work on the injured portions of the unfortunate's face. At 1 o'clock several men were sent with a stretcher from the Bennington and the man was removed to the Queen's hospital, where, at last reports, he was doing very well under the excellent treatment received there. The exact extent of the man's injuries is not yet known. Captain Noyes intended sailing for Hongkong, but the accident delayed him until today.

FITS CURED

(From U. S. Journal of Medicine.)
Prof. W. H. PEEKE, who makes a specialty of Epilepsy, has without doubt treated and cured more cases than any other physician in this country. We have heard of cases of 20 years' standing cured by him. He publishes a valuable work on this disease which he sends with a large bottle of his absolute cure, free to any sufferer who may send their P.O. and Express address. We advise anyone wishing a cure to address, Prof. W. H. PEEKE, F. D., 4 Cedar St., New York.

For Yokohama and Hongkong.

The A1 Steamship

Hawaiian Lime

AT RETAIL.

IN BARRELS OR IN BUCKETS

(Including container) 50 CENTS per Bucket.

PACIFIC HARDWARE CO., Limited. (Special terms on large lots for shipment.)

Indurine

A Cold Water Paint Especially Designed for Inside Work on Factories and Public Buildings.

It is a dry powder which can be prepared for use by simply stirring in COLD WATER, and can be applied by any one and will always produce good work.

It is VERY WHITE, extremely reflective and hardens on a wall like stone and will take any tint.

It will last for years and is unaffected by gases.

One coat covers better than two coats of oil paint or whitewash.

It can be used on any surface and for all classes of work, even for the finest decorating.

Outside Indurine.

This Is for Outside Work.

Such as Fences, Outbuildings and Laborers' Quarters. It is a thick paste to be diluted with cold water; stands rain and exposure, as well as oil paint, and costs but a fraction as much.

COLD WATER KALSOMINE

Adapted for Dwellings, Offices and Public Buildings, or any other place where KALSOMINE is used. It will not rub, discolor or scale off.

LUCOL.

A new Paint Oil. It comes raw and boiled; is superior to linseed, and covers with one-third less lead and pigment to the gallon.

P. and B. Compounds and Papers.

OF INTEREST TO MANAGERS OF PLANTATIONS.

A Model Plant is not complete without Electric Power, thus dispensing with small engines.

Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pumps, Centrifugals, Elevators, Plows, Railways and Hoists; also furnish light and power for a radius of from 15 to 20 miles.

Electric Power being used saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers and all Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also attention is given to House and Marine Wiring.
THEO. HOFFMANN, Manager.

G. WEST, Commission Merchant.

Importer and Dealer in

Carriage Materials

Of Every Description, including
