PINKHAM OPPOSITION IS BEATEN

THAYER TO TAKE THE CHAIR

Acting-governor Mott-Smith
Cables For and Gets Vac-
cation Leave

HIS HEALTH DEMANDS
RESPIRE FROM WORK

Will Sail on Saturday for Cal-
ifornia—Attorney-general's
Department Affected

Attorney-general W. W. Thayer will
be "Governor Thayer" after next Sat-
urday and for a period of uncertain
length.

Acting Governor and Secretary of
the Territory E. A. Mott-Smith will
sail on the Siberia next Saturday for
San Francisco on a vacation trip that
will extend at least until December 3
and possibly longer.

Following a lively exchange of cab-
legrams between Honolulu and
Washington, D. C., authorization was
received this morning by Mr. Mott-
Smith for his vacation trip. Nearing
a physical breakdown as a result of
his long-continued public service and
particularly the events of his last two
years in office, brought to a climax
since Governor Frear went to the

W. W. THAYER
Hawaii's chief executive after next
Saturday

mainland, the secretary cabled to
Secretary of the Interior Lane last
Friday urgently requesting a brief re-
prieve from official duties. Since then
cablegrams have been flying back and
forth and today came the permission.
The series of cablegrams is as fol-
lows:

October 17.—Secretary Mott-Smith
to the secretary of the interior:

Request permission to leave territory
October 25, return December 3.
Territorial affairs will not suffer more
than now. I cannot further impair my
health. Both Frear and myself ab-
sent short time; no harm.

October 17.—Dr. George Herbert
to secretary of the interior:

As Mott-Smith's physician impera-
tive he stop work and leave territory
October 25 for change.

October 17.—Mott-Smith to Govern-
or Frear:

See my today's cables secretary in-
terior.

October 21.—Frear to Mott-Smith:

Secretary decides you may go. Un-
derstanding that Thayer will act for
governor. Secretary will cable per-
mission. Senate committee meets to-
day, concerning Pinkham.

Mr. Mott-Smith received the final
cablegram this morning with a smile
that betokened it was good news for
him.

"I have felt the strain of the last
few weeks severely, and I intend to
take a real vacation now," he said.
"I won't do a bit of business while
away."

Will Spend Vacation in California.
He plans to spend the vacation in a
California auto trip, joining Mrs.
Mott-Smith on the coast, where she
preceded him some weeks ago. His
plans, however, are indefinite, and he

Senate Committee Reports on Nomination Favorably Williams Loses; He Will Carry His Fight to Floor

Wilson's Nominee For Governor Wins
Big Point and Confirmation is Prac-
tically Certain—President Desires
Early Action

(Special Star-Bulletin Cable)

WASHINGTON, D. C., Oct. 21.—The senate committee on
Pacific Islands and Porto Rico held a meeting this morning
and ordered a favorable report made to the senate on the
nomination of L. E. Pinkham for governor of Hawaii. A quor-
um of the committee was present.

Senator John Sharp Williams of Mississippi was heard in
opposition to Pinkham's confirmation, and after the commit-
tee decided to make a favorable report on the nomination,
Senator Williams announced that he would carry the fight
against Wilson's nominee to the floor of the senate.

The confirmation of Mr. Pinkham is now considered cer-
tain. President Wilson is insisting on early action.

C. S. ALBERT.

(Associated Press Cable)

WASHINGTON, D. C., Oct. 21.—L. E. Pinkham's nomi-
nation was favorably reported on this morning.

WOOD TO VISIT MAINLAND FOR FAIR COMMISSION

With a view to conferring with the
heads of the Panama-Pacific Exposition
with regard to whether Hawaii
will be allowed to exhibit exclusively
in its own building, or else be forced
to abandon entirely the plans for a
structure, H. P. Wood, secretary of
the Promotion Committee and chair-
man of the Hawaii Fair Commission,
will leave for San Francisco in the Si-
beria Saturday, returning to Honolulu
by the same steamer. Accompanying
Wood will be A. F. Taylor, the local
newspaper man, who goes to San
Francisco to assume charge of the
recently installed branch of the local
Promotion Committee.

"The Hawaii Fair Commission
thinks that, in view of the fact that
there is opposition on the part of the
exposition officials to our plans to
have all the Hawaii exhibits in one
building, I should go to San Francisco
as a representative of the commission
with full power to act in any matter,"
said Wood this morning when discus-
sing his proposed trip. "I have been
authorized to state to the exposition
heads that, if Hawaii is forced to di-
vide her exhibits she will withdraw
her building. I have no doubt but
what the officials will accede to the
wishes of the local commission. In
case they do, I have been authorized
to direct the architect to advertise for
bids for the construction of the build-
ing."

During his stay on the mainland,
Wood will go to Los Angeles as a
delegate of the Honolulu Chamber of
Commerce to participate in the exer-
cises which are to be held in that
city in celebration of the opening of
the giant aqueduct which is to supply
the city with water, light and power.
He will also go to San Diego on busi-
ness matters.

GERMAN CRUISER IS COMING HERE FROM THE ORIENT

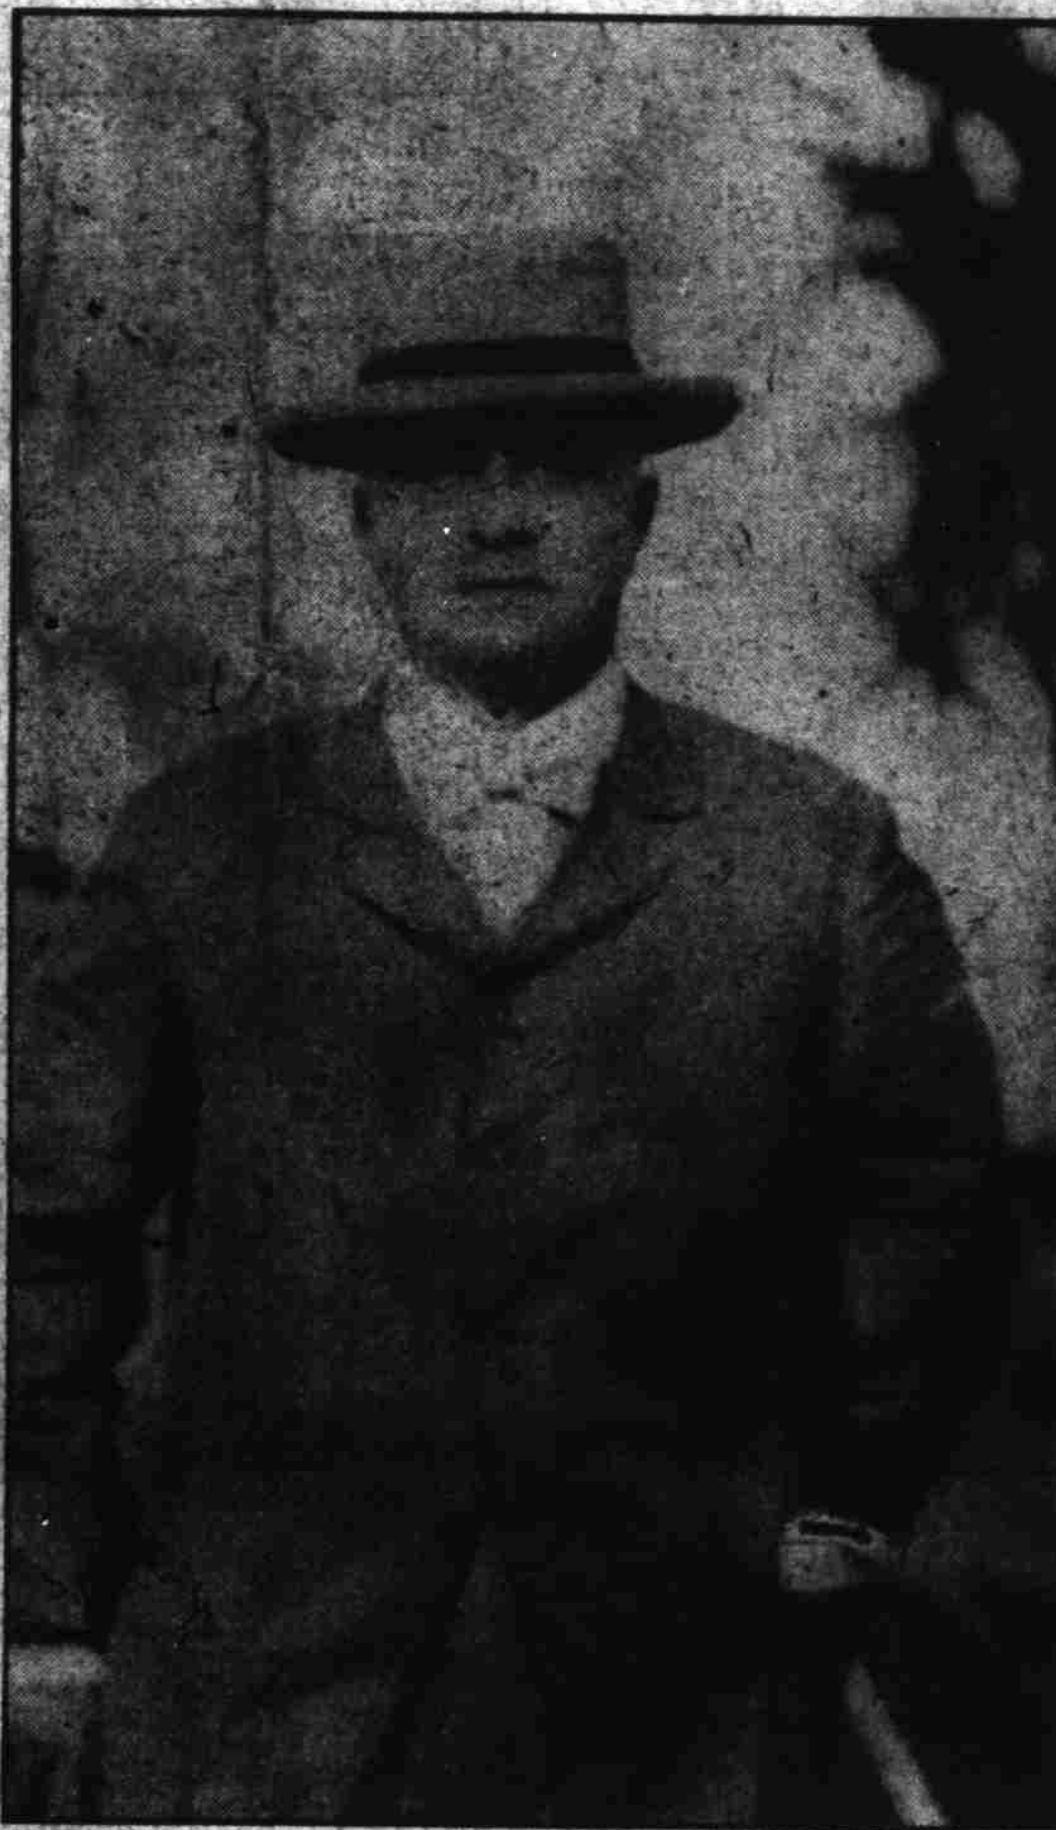

The German cruiser Nurnberg, on
her way from the Asiatic station and
presumably ordered to Mexican wa-
ters because of the international
troubles there threatening, will ar-
rive in Honolulu on November 1, ac-
cording to news received by cable-
gram today by H. Hackfeld & Com-
pany, and originating at Yokohama.

The Nurnberg has been stationed
in the Orient since soon after going
into commission. She is a vessel of
3,470 tons, 13,400 horsepower engines
and capable of making 25 knots an
hour. Her length is 116.8 meters.
She carries 16 officers, 14 deck offi-
cers, 292 petty officers and men, a
total of 322. The Nurnberg is armed
with 10 four-inch guns and her arm-
ament also includes two torpedo tubes.
She was built in 1906-8 at the Imper-
ial yards, at Kiel. Her officers are
Commander Moersberger, Lieutenant-
commander Düncker, Lieutenantcom-
mander Kind, 1st Lieutenants Key-
dell, Hammerle, Ehlers, Berendt, 2d
Lieutenants Zeye, Schreiber, von
Fischer, Ensigns Count von Spec-
Franken, Chief Engineers Kleedehn
and Bruhnsen; Paymaster Hang.

A reception for the Nurnberg and
entertainment for her officers and
men will probably be arranged with-
in the next few days, but as the news
was received only this morning, no
plans have yet been made.

Mrs. Alvira C. Field, indicted for
selling liquor without a license at
Wahiawa, on a federal reservation,
was arraigned today. She entered a
plea of not guilty and her case was
continued to the call of the next cal-
endar in federal court, when it will be
set for trial. She was released on
\$250 bail.

HE WAS PICKED BY PRESIDENT WILSON—NUF SED

L. E. PINKHAM

Whose appointment as governor was favorably reported by the senate com-
mittee today

SMOKE BOMBS PUT END TO THE INITIAL WAR EXERCISES

LAURENCE REDINGTON,
Staff Correspondent with 1st Hawai-
an Brigade.

IN MANUEVER CAMP NEAR
JONES' PANCH HOUSE, Oct. 21,
12:30 p. m.—When three smoke bombs
rose skyward this morning at a
o'clock the Red and Blue armies
ceased hostilities and a maneuver,
highly interesting from a practical
standpoint, but productive of very lit-
tle real fighting, came to an end.
From noon yesterday the invading and

defending forces had been in a state
of war and at times through the
night various points in the outpost
lines were in contact but there was
no extended engagement.

The Reds, numerically, were much
weaker than the Blues, consisting for
the most part of advance cavalry
whose mission it was to harass the
enemy on the front and flank. For
that reason there was no concerted
attack. Just before midnight a small

(Continued on page three)

SUGAR INDUSTRY PERMANENT IN THE ISLANDS

Group of the men who have been active workers in the arrangements and action of the Mill Engineers' convention:
From left to right, standing—S. T. Carr, secy., J. E. Kennedy, H. McCubbin, Irwin Spalding, treas., James Ogg, H. S. Truscott. Seated—W. G.
Hall, J. E. Sheedy, chairman, E. Kopke and R. R. Hind. Those not otherwise identified are members of the mill engineers committee. Messrs.
Hall and Kopke served as temporary chairmen of the meetings.

Hawaii's sugar industry will never
die. Tariff bills may come and go,
reducing the tariff on sugar or taking
it off entirely, but the industry on
these islands, by making the most of
its opportunities, will continue to
prosper. Hawaii is now brought to
face a grave problem, occurring by
reason of the tariff reduction on su-
gar, but she will successfully solve it
by greater efficiency and economy.
This is the sentiment of the mill
engineers, expressed this morning.
They are now completing the last ses-
sion of their first annual convention,
which opened yesterday morning
when more than seventy engineers
gathered in the assembly hall of the
Library of Hawaii building.
Before they convened this morning
they were taken on a tour of inspec-
tion to the Inter-Island Steam Navi-

SENATORS PLAY HOOKEY CONGRESS CAN'T WORK

Leaders of Upper House Threaten To Use Force to Compel
Attendance of Negligent Members—Resignation Alter-
native of Work

(Associated Press Cable)

WASHINGTON, D. C., Oct. 21.—The leaders of both parties are join-
ing in an attempt to secure fuller attendance at congressional sessions.
The attendance is so uncertain that often no quorums are obtainable and
no business can be transacted. Party leaders demand that the senate ab-
sentees either resign or go to work. They even threaten the use of force to
compel their attendance.

Sulzer's Election Conceded He May Deadlock Assembly

(Associated Press Cable)

ALBANY, N. Y., Oct. 21.—The candidacy of William Sulzer, deposed
governor, for the assembly on the Progressive ticket for the 48st side dis-
trict of New York is the chief topic of political conversation here. Even
his worst enemies concede that he is so popular in this district that he will
be elected. Many believe that he will either be able to gain the speaker-
ship or deadlock the legislature.

Japan Granted Big Railroad Concession By Chinese Gov't

(Associated Press Cable)

TOKIO, Japan, Oct. 21.—An important concession and one likely to
give Japan a commanding position in the great expected trade developing
in China, has been granted Japan by the new Chinese republic. The con-
cession gives Japan the right to extend the existent southern Manchurian
railroads into exceedingly rich agricultural districts.

First Blizzard of Season Hits Chicago; Traffic Blocked

(Associated Press Cable)

CHICAGO, Ill., Oct. 21.—The first blizzard of the season is on, a gale
and freezing weather striking Chicago last night. Traffic is stopped by
heavy snow-drifts. One person is dead and six injured as a result of the
blizzard.

Zeppelin And Royalty at Dirigible Victims' Funeral

(Associated Press Cable)

BERLIN, Germany, Oct. 21.—Count Zeppelin, the kaiser and kaiserin,
their sons and a thousand officers of the army and navy today attended
the state funeral over the bodies of those who perished in the disaster last
week to the Zeppelin dirigible L-11 on her trial trip.

Portola Festival to Begin

(Associated Press Cable)

SAN FRANCISCO, Cal., Oct. 21.—The Portola Festival begins tomor-
row, with several days of gay festivities planned, including a big swim-
ming meet in which the Hawaiian team is entered. Two lineal descend-
ants of Vasco Nunez Balboa, the noted adventurer who discovered the Pa-
cific Ocean in 1519, are present and will be featured in the carnival cere-
monies.

Roosevelt Reaches Brazil

(Associated Press Cable)

RIO DE JANEIRO, Brazil, Oct. 21.—Col. Theodore Roosevelt arrived
here today on his South American trip. He will deliver a course of uni-
versity lectures. His arrival was the signal for unusual military honors.

\$50,000 TO BE EXPENDED ON FAIR BUILDING

Taking immediate action upon the
receipt of a cablegram from Architect
C. W. Dickey, which was to the ef-
fect that the Hawaii building at the
Panama-Pacific Exposition cannot be
erected for \$35,000 under the present
completed plans, the Hawaii Fair
Commission, meeting in special ses-
sion at the Promotion Committee this
morning, adopted a resolution where-
by not less than \$50,000 of the money
now in its hands will be used in the
construction of Hawaii's exhibit pal-
ace. The entire committee, which is
composed of H. P. Wood, chairman;
John Hughes, John Wise, J. N. S.
Williams and C. E. Wright, was pres-
ent.

Following the recent criticism
which accused the commission of
spending more money on the Hawaii
building than was advisable, Chair-
man Wood wrote to C. W. Dickey, the
architect who recently completed the
plans, asking him if, under the pres-
ent plans the building could not be
erected for \$35,000 instead of \$50,000
as previously planned. The negative
answer was received this morning by
cable, and Commissioner Williams of-
fered a resolution whereby the com-

FOSTER AND ROSS LOSE IN SUPREME COURT IN DRAINAGE LITIGATION

H. H. Foster and Edward Ross have
finally lost in their effort to check
the work of the Honolulu Construc-
tion & Draying Company on the street
and drainage improvement work in
the Punchbowl district, the supreme
court handing down a decision this
afternoon affirming the decision of
the lower court in this case.

The two contractors sought an in-
junction restraining the construction
company and their petition was de-
nied in the circuit court. That de-
cree is now affirmed.

JAPANESE WILL CELEBRATE THE 1ST ANNIVERSARY

In celebration of the first anniver-
sary of the inauguration of Emperor
Yoshihito of Japan, Hisakichi Itake,
consul general for the Japanese in
Honolulu, will be the host at a recep-
tion and dance to be held at the
Young Hotel on the evening of Octo-
ber 21, beginning at 8 o'clock. Invita-
tions are to be issued to all prom-
inent residents of the city, and it is
said that the majority of the guests
will be Americans. Queen Liliuoka-
lani will be among those present.
During the afternoon and evening
the Japanese of Honolulu will engage
in celebration at the consul's resi-
dence, Nuuanu street.

Prince William Frederick of Wied,

MADSEN TO COMMAND LURLINE

Captain M. A. Madsen, for 14 years master of the big ship John E. a navigator who has made a number of trips as skipper in the Matson Navigation Company's Hawaiian and Honolulu steamers, is reported by officers in the Mauna Kea to have arrived at Hilo on Monday afternoon. The Enterprise brought freight and a few passengers from San Francisco, in returning to the coast the vessel will be given a very small quantity of sugar, the bulk of the cargo to be made up of preserved pineapples and various lines of island products.

Back From the Kona Coast. With a wide variety of products from the Kona and Kau coasts of Hawaii, the inter-island steamer Mauna Loa returned to this city this morning. The list of passengers was a small one. The freight included autos, horses, mules, crates of turkeys, chickens, 35 crates of pigs, 15 head of cattle, 36 hales of sisal, 99 sacks of taro, 124 bunches of bananas, 1687 sacks of coffee, 4490 sacks of sugar, and 236 packages of sundries. The Mauna Loa is to sail for a return call at windward Hawaii ports on Friday noon.

Heavy Rain Delayed Loading. A succession of heavy showers and rain squalls is declared as responsible for the delay in loading and discharging cargo in the inter-island steamer Mauna Loa during the stay at Honolulu. The steamer, Waialeale is reported to have been passed at Mahukona.

Brought Cattle Only. Fifty head of cattle from the island of Maui constituted the total cargo brought to Honolulu this morning in the inter-island steamer Lurline. This vessel is reported to have met with good weather on the homeward trip.

Passengers Arrived. Per str. Mauna Kea from Hilo via way ports: E. A. Mott-Smith, W. O. Smith, L. P. Clark and wife, Mrs. Starkey, Miss Starkey, F. Kohler and wife, Miss A. Williams, C. S. Morris and wife, Miss H. O'Brien, Owen Williams, L. S. Thompson, Geo. F. Henshall, A. T. Short, Mrs. A. Fraga, W. T. Balding, wife, child and maid, J. S. Boyle, R. L. Coleman, O. R. Soares, W. T. Frost, E. E. Lucas, A. S. Hargie, Mrs. D. Forbes and 3 children, C. A. Wood, A. Selner, K. H. Ping, K. A. Mian, Hook, Mrs. W. M. Weir and 2 children, J. D. Dougherty, J. W. Waldron, Geo. F. Davies, C. A. Drew and wife, J. W. Roberts and wife, K. Miyasawa and wife, I. Schallin, V. Straube, J. A. R. Vieira, C. R. Wright, Miss M. Millan, J. G. Rothwell, H. W. M. Mist and wife, J. N. S. Williams, Master Mist, K. Mittani, Mrs. Inosata.

Per M. N. S. S. Lurline from San Francisco—Miss Anna Conklin, Miss Lydia McFadyen, Miss Ethel M. Geer, Mrs. I. Steinbeck and infant, J. E. Pythor, C. A. Steinback, Arthur H. Beeton, Mrs. Arthur H. Beeton and two children, Master Francis Beeton, R. G. Bell, H. C. Doherty, T. F. Sedgwick, A. C. Howard, J. D. Proud, Miss M. O'Donnell, Master T. A. Chorn, Norman Gaston, Mrs. Quinn and 4 children, C. S. Carlsmith, Mrs. C. S. Carlsmith and maid, Miss M. Carlsmith, Master W. Carlsmith, Master M. Carlsmith, Master L. Carlsmith, Miss E. E. Lowe, F. J. Hare, Mrs. F. J. Hare, J. C. Golden, Miss M. Wood, Mrs. G. Larimer.

Per str. Mauna Loa from Kona-Kau ports, Oct. 21.—A. J. Aho, S. Aho, H. G. Bertelmann, K. Kanda, Mr. and Mrs. C. Akul, Sing Sang Wo, E. H. Back, N. Muller, J. G. Smith, S. Hango, Mrs. Mingo M. Mauna Kea Completes Pleasant Trip.
The best of weather favored the inter-island flagship Mauna Kea on the last round trip to Hawaii. In returning from Hilo and way ports this morning the vessel brought a fair number of passengers and a general cargo. The freight list included 10 tons of ice, 236 feet of native lumber, 10 cords of wood, crates of celery, 23 crates of cabbage, 2 autos and 152 packages of sundries. The Mauna Kea is scheduled to sail for Hilo at 10 o'clock tomorrow morning. In addition to a list of cabin passengers, a score of members of a theatrical company will take passage to McGregor's Landing.

Drew Takes Over New Duties.
To take over his new duties as general claim agent for the Matson Navigation Company, Charles A. Drew, the well-known steamship man, was an arrival from Hilo in the steamer Mauna Kea this morning. Drew has been identified with the Matson line for a number of years. He entered the service as a purser and gravitated to the big liner Wilhelmshafen. At a time when business at Hilo warranted a special representative, the popular official was selected to fill the billet. With the creation of the new office of claim agent, Drew was believed to be the right man in the right place and he was prevailed upon to accept the position. He will make his headquarters at Honolulu, and open an office with Castle & Cooke.

Enterprise Has Reached Hilo.
With a fair cargo for the island of Hawaii, the Matson Navigation steamer Enterprise is reported by officers in the Mauna Kea to have arrived at Hilo on Monday afternoon. The Enterprise brought freight and a few passengers from San Francisco, in returning to the coast the vessel will be given a very small quantity of sugar, the bulk of the cargo to be made up of preserved pineapples and various lines of island products.

Back From the Kona Coast. With a wide variety of products from the Kona and Kau coasts of Hawaii, the inter-island steamer Mauna Loa returned to this city this morning. The list of passengers was a small one. LOCAL AND GENERAL

Phillip Guerrero, arraigned before Judge Robinson today on a charge of first degree burglary, pleaded not guilty. The hearing is set for Thursday morning, October 30.

C. G. Bockus will speak at the Y. M. C. A. on Thursday night upon the subject "The Trail of '98." He will tell of his experiences as a "musher" on the Alaskan trails among the gold hunters.

Of the thirteen deaths from contagious diseases in Honolulu during the first half of October 12 were due to tuberculosis and one to typhoid fever. Such is the semi-monthly report of Registrar M. H. Lemon of the territorial board of health.

The trial of Frank Enos, James Alohiha and Titus Lovell, indicted for first degree burglary, has been set for next Thursday morning at 8:30 o'clock. The trio were arraigned before Judge Robinson this morning, all pleading not guilty.

Daniel Hoopi this morning pleaded not guilty in Judge Robinson's court to the charge of assault and battery, on which he was indicted by the territorial grand jury last week. C. P. Peterson was appointed to represent him in court and the hearing was set for Wednesday morning, October 23.

Sirilo Bondee this morning pleaded innocent to the charge of assault and battery and Judge Robinson, before whom he was arraigned appointed attorney Leon M. Strauss as his counsel, setting the trial for the morning of November 5.

The members of the local chapter of the Daughters of the American Revolution held their first meeting of the new year yesterday afternoon when they met at the residence of Mrs. Theodore Richards, Kinross street. "Patriotic Music" was the topic of discussion, there being a number of interesting papers read touching on the history of famous old songs and life sketches of the authors.

"No news at all," E. I. Spaulding, treasurer of the corporation holding W. G. Irwin's property in Hawaii, said after going through the court mail this morning with reference to the post box for the property. The mail and premises at Waikiki had been leased to four young men from the mainland who intended converting the place into a first-class hotel. "There is probably nothing in it," was his conclusion from the absence of advice.

An announcement from the office of the quartermaster at Schofield Barracks is to the effect that 55 cavalry horses, no longer needed for the public service, will be sold at auction at the barracks on the afternoon of November 8, beginning at 1 o'clock. The sale will be continued on subsequent days until all the horses are disposed of. All animals are to be removed by the purchaser on the day of the sale, and no force will be furnished for the animals after they are sold.

That he had given her the money to place in George A. Bower's hands for investment in the oil business was the assertion made on the witness stand in circuit court yesterday by Mrs. J. F. Ryland, defendant in the suit brought by Bernard Libman to recover \$100 which he said he had loaned her. The woman averred it was no loan but merely passed to her as transferring agent. The court failed, however, giving judgment in Libman's favor.

James Louis McQueen told on the witness stand in Judge Whitney's division of the circuit court this morning his version of the domestic troubles that led to the wife's application for a divorce. He said despite their differences he was and is yet willing to forget and forgive all and breaking into the marital relation. He proposed no other witnesses to corroborate his story of the affair, and the hearing was concluded, the court taking the case under advisement with the decision to come later.

A suitable monument to the memory of the late Rose O. Davison, for many years special officer of the Humane Society, will be considered at a meeting of that organization in the mauka pavilion of the Young hotel at 10:00 o'clock tomorrow morning. It has been proposed to have this memorial in the form of a public drinking fountain, with a trough for dogs and horses. Officers for the coming year will be elected, and reports read covering the work of the society during the last year.

VESSELS TO AND FROM THE ISLANDS

[Special Cable to Merchants' Exchange]

Tuesday, Oct. 21.
HILO—Arrived, Oct. 20, S. S. Enterprize from San Francisco.
YOKOHAMA—Arrived, Oct. 8, S. S. Mongolia Oct. 7.
SAN FRANCISCO—Arrived, Oct. 21, S. S. Honolulu, hence Oct. 14.
NEWCASTLE—Arrived, Oct. 21, S. S. Boverie, hence Sept. 30.

Aerograms.
S. S. PERSIA—Arrives from San Francisco Friday 9 a. m., and will probably proceed to Yokohama at 10 p. m. same day.
DIAMOND HEAD—1 p. m., Oct. 21—Bark S. C. Allen's position unchanged; deckload of lumber has been discharged.

SAM CARTER SHOWING SIGNS OF IMPROVEMENT

Sam Carter, taken during the boys' aeroplane contest conducted by this paper.

Sam Carter, who has been ill at the Queen's hospital for the last few days, suffering with hemorrhage due to an injury which he received in a practice game last week, was reported by the hospital authorities this morning as being slightly better. Carter's injury is a peculiar one, and it is believed that the blow which he received splintered a bone in his nose, severing an artery and causing continuous bleeding spells. The wound was cauterized yesterday afternoon. Carter, suffering a slight hemorrhage again last evening. The members of the student body of the McKinley High School, which school Carter attends, sent the young man a huge bunch of roses and other flowers this morning, with a note attached wishing him a speedy recovery. Carter is a popular member of the school and one of the fastest football players ever turned out by that institution.

JAPANESE SEEK TO SAVE BARK ALLEN

The position of the bark S. C. Allen off Diamond Head remains practically unchanged according to reports received from the wreck this morning. At each succeeding high tide, the big dredger Gaylord maintains a terrific strain upon the bark through a number of steel and manila cables. The dredger anchors to which the dredger is moored, are holding fast. The last of the deck cargo of lumber is being discharged. This material is being put into rafts and towed into the harbor. All salvage is under the direction of the insurance underwriters.

There seems to be a general opinion among shipping men that the vessel cannot be moved, though the Hawaiian Dredging Company appears to have sufficient confidence in the success of its mission to risk between two and three thousand dollars in the venture through the extension of time allowed them to pull at the bark.

PUBLIC UTILITIES COMMISSION IS IN SESSION THIS P. M.

The public utilities commission in session this afternoon may decide whether it will proceed against the Wahaiwa Water Company, seeking to compel that firm to pay the fees which it has thus far refused to contribute to the new regulating board. All the plantation water and irrigation concerns have declined to recognize the commission's jurisdiction, arguing they are private business companies, not public utility corporations. It is likely the Wahaiwa Water Company will be cited in a court action, making a test case out of which the commission's attitude toward the other firms of similar character may be governed.

Prince Taro Katsura, former premier of Japan, died in Tokio after a prolonged illness.

Custer county, Nevada, was visited by a tornado which wrecked many buildings in the country districts. Many people were injured but none fatally.

The Washington Federation of Women's Clubs condemned the wearing of slit and x-ray skirts, calling them "the agents of the devil." Mrs. Georgiana Tower of Philadelphia has brought suit against Charlemagne Tower, former ambassador to Germany, for the alienation of affections of her husband, Charlemagne Tower, Jr., to whom she was secretly married in 1911 while she was still a student at Yale.

A St. Louis young woman, granted a divorce from her husband, because he insisted upon her arising at a late hour to make rabbits for him and his friends, hugged and kissed her lawyer and turkey-trotted from the court-room.

HAWAIIAN MAY BE MADE GOAT FOR ASSAULT

Sheriff Jarrett probably will prefer charges of assault and battery against John Kalekani, a Hawaiian youth, who, according to a preponderance of testimony received at the investigation of brutality alleged to have been displayed by Bicycle Officer Berry Sizemore, is credited with having administered blows upon the stomach of Ko Sung Woon, a Korean who figured in an arrest following an affray at the corner of Kukui and Nuuanu streets a week ago.

Kalekani admitted yesterday afternoon that he had hit the Korean a body blow at a time that the prisoner was engaged in a struggle with the police officer. He denied that Sizemore had used his club or had kicked at the Korean while he was prostrate. After Sizemore had taken his prisoner to the box the second time, Kalekani claims to have disappeared from the scene.

"Kalekani admits having laid hands on the Korean, which according to existing laws constitutes an assault," stated Sheriff Jarrett this morning. "It would appear from the gist of practically all testimony that it was the blow on the stomach that rendered the Korean unconscious."

Motorman Hanson, employed on a Nuuanu Avenue Rapid Transit car, gave brief testimony this morning, in which he claimed that during the moment that his car stopped at the scene of conflict, he did not see Sizemore use his club or kick the prisoner. He claims to have seen a considerable portion of the struggle while Sizemore was attempting to summon the patrol wagon.

Sheriff Jarrett interrogated Ko Sung Woon, the Korean who figured in the assault and who was today discharged from the Queen's hospital. The Korean claimed that Sizemore not only used his club but his feet in administering punishment. He admitted that he had drunk some liquor before the arrest and that he had become involved in a wordy argument with a Hawaiian woman. According to his story he used no profanity and all the swearing and obscenity came from the woman. He denied running away from the officer but admitted that when the officer was attempting to get his keys, he slowly walked away only to be recaptured by Sizemore. The Korean was of the opinion that Sizemore hit him in the solar plexus.

Ko Sung Woon was stripped of his clothing and Dr. Emerson, police surgeon, completed a physical examination. The Korean complained of internal pains, the location of which were carefully noted by Dr. Emerson. The Korean stated that he was wholly conscious until the blow which reached the pit of his stomach, then all became a blank until he came out of a trance at the hospital. The Korean declared that he had been struck in the back of the neck though the officers failed to locate any marks there this morning.

Sizemore is still under suspension. Sheriff Jarrett admits that the investigation has developed a wide variety of stories concerning the affair. To effect the statements from three or four witnesses, including the prisoner, who declare that the officer used his club with disastrous effect, are at least a dozen others who are equally positive that Sizemore did not employ his stick or use his feet in an attempt to subdue the man. The testimony will be transcribed, reviewed by the sheriff, and then passed up to the civil service commissioners for final action.

Likewise, a committee has been appointed on the Big Island and is now working toward a suitable association to organize the districts in order that the visitors may come to Honolulu together. Everybody on the Big Island is talking carnival and they are going into the celebration on a big scale.

Dougherty made arrangements which he believes are sure to lead to an inter-island baseball series during the carnival week. His plans are to have three teams formed in Honolulu, these to compete with a team each from Hawaii, Kauai and Maui. Baseball boosters on the Big Island assured him that they would get together the strongest team possible and send it to Honolulu. He received a letter this morning from Jack Bliss, captain of the coast team which he had expected to bring here for the celebration, requesting Dougherty to at once let him know if the services of the nine would be needed. "If we are going to use this team, we must let the captain know at once," said the director-general, "for the team will soon break up for the winter."

The supreme court this afternoon granted a temporary writ of habeas corpus for Rose Ferguson, a young Hawaiian girl who was recently taken from her husband on Maui and placed in the Girls' Industrial School in Honolulu. The petition for the writ was filed by the husband's mother, Mary Ferguson, through the firm of Andrews & Quarles. Papers in the case were sent out for service today, and a hearing on the advisability of making

SMOKE BOMBS PUT END TO WAR EXERCISE

(Continued from page one)

detachment of Red cavalry was captured near Wahiawa. The reserve, consisting of the 1st and 3rd battalions of the 2nd Infantry was not called into the maneuvers at all until half an hour before it ended, when the Red cavalry was reported on the ridge south of the maneuver camp and in rear of the Blue line. D company was sent out on the rush, traveling on the Kunia road and A company was sent out a few minutes later to support it.

When the exercises ended a cavalry machine platoon (Red) was just over a crest a few hundred yards ahead of the Infantry point and a troop of Red cavalry was reported to be at Robinson's station.

Another 15 minutes of the war game would, undoubtedly, have brought on a sharp engagement.

WAR GAME ALMOST SIMULATES REALITY

By LAURENCE REDINGTON. (Star-Bulletin Staff Correspondent in the field with the Blue army.)

WITH HEADQUARTERS 1st HAWAIIAN BRIGADE, NEAR CASTNER, Oct. 21.—Conditions more nearly simulating actual warfare prevailed yesterday, last night and in the early hours of this morning than have been the rule here during the more strenuous maneuvers of last week. The inaction of the morning, and the uncertainty of the afternoon, according to officers who have been through the real thing time and again, lent the final touch of reality, while at headquarters the commanding general and his staff pored over the war map of this section, and marked off the position of the defending and invading forces, according to information that came in at frequent intervals over the buzzer lines laid by the signal corps detachments, whose duty it was to maintain the lines of communication, and keep the Blue commander in constant touch with the scattered units of his command.

All last night the Blue Infantry and cavalry held the high ridge north of Schofield Barracks, a line of outposts covering practically the entire territory from Wahiawa to Kolekole pass. The three provisional troops of dismounted cavalry under Lieutenant Colonel McDonald, held the extreme right of the line, guarding the bridges near Wahiawa, and preventing a turning movement of the Reds around the Blue right flank. The 25th Infantry, in command of Colonel Kennon, occupied the high ground north of the Kolekole gulch, with a company of the 1st Infantry, holding Malie point, and another company of foot soldiers holding Kolekole pass. The third squadron of the 4th cavalry was here, there and everywhere along the front and flanks during the afternoon and night, one troop, together with a company of Blue Infantry, repulsing an entire squadron of Red cavalry toward the left of the defense line early in the afternoon, this being the first contact of the maneuver.

General Macomb, who Sunday, pursuant to department orders, assumed command of all troops in the Lihuehwa section, maintained headquarters until 5:30 yesterday afternoon at brigade headquarters of the maneuver camp, and there, during the afternoon, he was in constant communication with the advance under Colonel Kennon, the position at Malie, and that at Kolekole pass.

Field company B and the platoon of telegraph company H, signal corps, working under the command of Captain Gibbs, with Lieutenant Black sent in command, did excellent service, and not once during the afternoon and strenuous night did the lines of communication break down. As soon as General Macomb laid his plans of campaign, and issued his orders, the big reel carts of the signal corps started to string their lines of single conductor wire along the ground, and neither gulches nor ridges stopped the snake-like progress of the talking wire. Over rough ground and favorable alike, the signal men strung their line, and in a surprisingly short space of time General Macomb was talking to his commanders from three points of vantage along the front. In one instance, owing to a detour necessary to avoid a gulch, the 5-mile reel gave out on a single line, and it was necessary to call on the reserve supply of buzzer wire, and then send back for a still further supply, before the communication was complete.

Headquarters shifted. Towards darkness, General Macomb decided to transfer his headquarters to a point near the high water tower at Castner, where the Blue artillery had taken up a position earlier in the day, and within a few minutes of his announced decision, the signal corps had "legged in" its lines to the new point, so that when the brigade commander was half way between stations, accompanied by his staff, the operators at the first headquarters cut out their instruments, and were ready for further duty almost by the time General Macomb arrived at the working station near Castner. All afternoon and night three points of communication were maintained, and at all times the situation was as clear several miles to the rear of the outpost line as it was among the outguards themselves. In addition to the buzzer lines, the signal troops maintained visual communication with the cavalry command near Wahiawa, so that General Macomb kept a finger constantly on the pulse of action, and directed the main

ARMORY TO BE READY FOR USE BY DECEMBER 1

The contractors in charge of the construction of the new national guard armory have informed Col. John W. Jones that, providing their plans are sanctioned by the superintendent of public works, the floor of the building will be turned over to the guard for drill purposes about December 1. Colonel Jones said this morning that, in case this were done, the heads of the guard would be in a position to take up their offices in the new building by the first of the year.

Lieutenant Arthur L. Bump, recently appointed inspector instructor of the N. G. H., received an official welcome into his new duties last evening when he was called upon by the officers of the guard in his headquarters at the bungalow. The meeting lasted until a late hour, during which time the new inspector went over the plans which he has in mind for the strengthening and betterment of the guard. Arrangements were considered for a course of class work for the officers, these courses to include lectures.

IMPROVEMENT FUND SHOWS A GOOD BALANCE

J. Bicknell, city and county auditor, sent out a quarterly report yesterday afternoon showing the amount of disbursements and amount on hand in the different funds for the three months ending September 30.

One of the interesting features of this report is that concerned with the permanent improvement fund, out of which \$25,393.62 was spent in three months' period, leaving a balance in the fund of \$45,797.37. In the general fund it is shown that the overdraft at last report was \$33,168.16, while the amount disbursed this quarter was \$150,889.52.

In the school fund the receipts for quarter were \$10,338.28, the amount expended being \$9263.64. In the road tax the receipts for the quarter were \$26,577.61, disbursements \$20,425.96.

Police Notes

James Riley will be obliged to serve six months at the city and county jail, having been found guilty of the theft of several razors, when arraigned at district court this morning. Riley was placed under arrest at the instance of Acting Captain of Detectives Kellett, who recovered a portion of the stolen booty.

Wm. Naalcone, a Porto Rican, has been sentenced to serve 30 days at the reef upon a charge of petty larceny. Naalcone is declared to have called upon a fellow countryman and during the absence of the owner helped himself to several garments. The defendant was also arraigned upon a charge of assault and battery, a fine of \$5 being added in this case.

On the front that one sector of the defensive line was menaced by Red cavalry, and the second battalion 2d Infantry, was marched with little or no delay to the support of the 25th.

Then followed a long period of inaction for the reserve, consisting of the first and third battalions of the 2nd Infantry. The men were ready to fall in at a moment's notice, and had been so since noon, with blanket rolls made up, and a two-meal ration in the haversacks. Towards 9 o'clock, when it looked as though the reserve would not be called on until the early morning hours, the men were ordered to quiet down, and take all the rest possible, and this was done after a fashion, although nearly everyone slept with one ear to the ground and one eye open, ready to jump to the sound of the bugle.

THE CLARION

PRESENT SESSION OF CONGRESS THREATENS TO MAKE NEW RECORD

Tariff and Banking Measures Have Caused Lawmakers in Capital to Work Overtime

By C. S. ALBERT.

(Special Star-Bulletin Correspondence)

WASHINGTON, D. C., Oct. 9.—Woodrow Wilson, President of the United States, will probably go down in history as the man who, under his call, convened and kept in session the longest special meeting of the two bodies in Congress ever called upon to enact a tariff law or pass upon any other measure which was demanded by the people of this country or agreed upon as a matter of party policy.

The present session of Congress, called by the President to frame and enact a tariff bill, has been in session nearly 190 days, that is, counting Sundays and holidays which are usually observed at the National Capitol, but in the present instance, have not been strictly adhered to. In view of the demand made upon the Chief Executive and Congress for the passage of the tariff bill at the earliest stage possible.

In the opinion of the oldest members of Congress and those who have been employed at the National Capitol for the past twenty-five years, the present session promises to eclipse in length of days that of any other in the history of the Republic. It is true that the tariff bill is now the law of the land and that the new banking and currency measure has passed the House and is now before the Senate committee in charge of the bill. President Wilson is insistent that a new banking and currency measure must pass Congress and receive his signature before the adjournment of the present special session.

From the best information obtainable, it is generally conceded that the session now at work will continue operating within a few days of the regular session of Congress, which, under the constitution of the United States must convene on the first Monday in December. The calendar shows that this meeting day takes place on the very first day of December.

ber. Therefore, it would surprise no one in Washington, acquainted with facts and conditions, if the present session, simply merges itself into the regular session. This is why you hear in Washington the expression that "members of Congress have certainly earned their salaries this session."

The special session of the Sixty-first Congress, which was called by President Taft to pass a tariff law, was at work from March 15, 1909, until Aug. 5, 1909, just 144 days.

The special session of the Sixty-second Congress, was called to meet on April 4, 1911, and remained in session until Aug. 22 of that year, having worked 141 days in all.

When the special session of the Fifty-fifth Congress was called together by President McKinley, it took 181 days to place the Dingley tariff law on the statute books, it being in session from March 15, 1897, until July 24, of the same year.

The special session of the Fifty-eighth Congress was called together Nov. 9, 1903, and remained at work until the regular session of that year, which met on Dec. 7, consuming but 29 days in all.

On Aug. 7, 1893, the special session of the Fifty-third Congress was called to meet, and remained at work until November 3, of the same year, being at work but 89 days.

Olas fell an eighth point in a sale of 100 shares at this morning's board, Pineapple advanced a point to 36.50 for 5 shares. Between sessions 45000 Waiatua five sold at par, and 10 shares of Oahu at 12.25, no change in either case. Several leaders are being held for slight advances on last previous sales.

A friendly thought is the purest gift a man can afford to man.—Carlyle.

WILSON CONTROLS

The confirmation of Mr. L. E. Pinkham as governor of Hawaii is practically assured by a favorable report on his nomination from the senate committee on Pacific Islands and Porto Rico. If the opposition to Pinkham had any great hope of winning, that hope was in beating Mr. Pinkham in committee, for Senator Williams of Mississippi is the leader of the opposition, and Williams's colleague, Senator Vandaman, is a member of the committee. A fight on the floor of the senate is indeed a forlorn hope, even to a man of Williams's skill, when the fight is against the president, against members of his own party and against most of his political opponents. That the president has done some skillful maneuvering with the district attorneyship there is little doubt, and this maneuvering has been directed toward winning support for Pinkham from southern senators.

INTERREGNUM

No one in the territory will begrudge Secretary E. A. Mott-Smith the well-earned vacation upon which he starts next Saturday, even though his suddenly-planned trip leaves the territory almost without a directing hand. Mr. Mott-Smith has been doing the work of two and three men for the last six years and many times in those six years he has been doing even more. He has reached the limit of his physical strength and a rest is imperative. Mott-Smith has plenty of hard work ahead in the organization of the public utilities commission, delayed and upset by the ups and downs of the governorship. If the commission is ever going to amount to anything, its chairman must be able to give it uninterrupted and vigorous work of the most enthusiastic kind.

Attorney-general Thayer will hold down the executive chair in capable style and there is no reason why territorial affairs will become any more upset than they have been during the long months of gubernatorial controversy. It is possible that as soon as Mr. Pinkham is confirmed he will qualify in Washington, naming his secretary to take charge here at once and assume the acting governorship until his own arrival.

WHEN OPINIONS DIFFER

"I am fighting the old system in the only way in which it can be fought. I am fighting for an uncontrolled Republican party."

This is no declaration of personal hostility, no announcement of war on the bosses. It comes from Massachusetts and it accompanies a very sensible, honest and interesting speech in which Congressman Augustus P. Gardner points out why he has split with the Republican state committee in his campaign for the governorship. As mentioned in these columns last week, Gardner refused to follow the platform that the state convention laid down for him. He asked that Chairman Charles E. Hatfield resign, because Hatfield was out of sympathy with the objects of the campaign. The committee responded by passing a vote of confidence in Hatfield. Then Gardner made a statement in which, among other things, he said:

"I know Mr. Hatfield to be a decent, honorable and loyal man, and a man of his word. Nevertheless, Mr. Hatfield's views on public questions are not my views, and his methods are not my methods. Moreover, I believe that there are some members occupying strategic points in the make-up of the committee who secretly hope for my defeat."

"It is a singular fact that the very people who for years have been clamoring for a leader who will shake off the shackles of the old system have suddenly started to sing a different tune. It is the same old story. I am fighting the old system in the only way in which it can be fought. I am fighting for an uncontrolled Republican party."

There is much admirable candor and equanimity of spirit about this statement. Evidently Congressman Gardner can keep his temper even while fighting hard. Furthermore, he is not afraid to part ways with his organization when he believes the organization wrong.

The encouraging thing about the Massachusetts campaign is that the younger generation is not afraid to assert its political beliefs, even if those beliefs are not held by the "elder statesmen" who have been running Massachusetts for many years. Some of that spirit is needed in Hawaii. There is not the slightest reason in the

THE ROSE DAVISON MEMORIAL

No memorial more nearly expressing the spirit in which a life of fine service was spent could be decided upon by the Humane Society than the drinking-fountain now proposed in honor to the memory of the late Rose C. Davison.

Miss Davison's work as humane officer has left an enduring mark on the city. She was the friend of the child neglected or abused by its parents, of the horse subject to the cruelty that is all too prevalent in Honolulu, of the dog stoned and chased into frenzy or panting with thirst; she was the friend of all the homeless, the unfortunate, the maltreated, the persecuted. She had a warm heart and a practical hand, a firm hand.

If Rose Davison were now living, she would be at the fore in any movement to erect public drinking-fountains. In the last months of her life, she often expressed to her friends the hope that Honolulu would soon awake to the need for fountains and troughs where the thirst of the animal as well as of the man might be quenched in cooling waters. Every driver in Honolulu knows that there should be half a dozen horse-troughs scattered through the city, for many of those who handle horses, particularly the Orientals, will drive all day without giving their animals food or drink, a treatment not far from torture in warm weather. A drinking-fountain for man and beast, for all who might seek its cool waters, would well symbolize Miss Davison's broadly humane spirit.

The hundreds of residents of this city who know and have reason gratefully to remember Miss Davison's work in Honolulu can help to perpetuate her memory by joining the Humane Society in its memorial plans. For the membership fee of one dollar a year, anyone may become a member of the society.

SAN FRANCISCO TRADE HIT

Here is a perfectly logical San Francisco view of the sugar tariff situation:

C. D. Bunker, prominent broker — "Apparently the new tariff will hurt California interests. The tariff in the main is a good one. The worst feature about it is the abolition of the duty on sugar. This appeals to San Francisco strongly, as it will hurt Honolulu and the Hawaiian islands. The islands are heavy buyers in the San Francisco market. They distribute a great deal of money here, and a great deal of this merchandising will be withdrawn from us. I don't think the question of duty will make sugar one cent cheaper to the ultimate consumer."

Attorney-general Thayer will succeed to the duties, titles, honors and emoluments next Saturday, including the acting governorship, the acting secretaryship, the acting chairman of the board of archives, and the acting everything else.

Now that the tariff law is in force, "cheap foreign labor" is already invading the United States to compete with the home product. Witness Mrs. Pankhurst's visit, and think of its effect on Secretary Bryan's Chautauqua tours.

The currency bill is expected to be reported out to the senate late in November. It will be some time in December before the bill goes to conference. The date for final passage is entirely problematical.

Mr. Bryan may further the entente cordiale with Great Britain by substituting Land at Vera Cruz for Mrs. Pankhurst, not to speak of eliminating competition.

Attorneys for Harry K. Thaw are reported to have "taken the offensive." So far as most people are concerned, Thaw has been offensive for a long time.

Now the fish vendors are to be given 30 days to clean up their stalls. Thirty days if they don't clean up sounds more like business.

Good thing President Wilson decided to admit Mrs. Militant Pankhurst. She'd have started a hunger strike at Ellis island.

Sulzer having lost out at Albany, has decided to see what's doing at Armageddon.

Several gubernatorial boomlets were suddenly squelched by this morning's news.

Personal Mentions

MR. AND MRS. H. PHILLIPS of Kaimuki will leave next Tuesday on a two weeks' pleasure trip to Kauai.

WILLIAM O. SMITH was numbered among the returning passengers in the steamer Mauna Kea from Hilo.

MISS M. CASE, with the nursing staff at Queen's Hospital, returned from a trip to the coast in the Lurline.

MISS M. O'DONNELL has returned from a tour of the world as a passenger in the Matson Navigation steamer Lurline.

ACTING GOVERNOR E. A. MOTT-SMITH is back from a business and pleasure trip to Hawaii. He was a passenger in the steamer Mauna Kea.

F. J. HARE, a federal postal official, returned to the islands today as a passenger in the Matson Navigation steamer Lurline.

GEORGE T. HENSHALL has returned from a conference held with Director General Dougherty of the Mid-Pacific Carnival at Hilo.

FRANK J. WOODS, the Hawaii rancher, is a visitor to the city, having arrived in the Mauna Kea this morning from windward ports.

JOHN H. WISE, now identified with a homestead scheme in Waimea district on Hawaii, returned to Honolulu in the Mauna Kea this morning.

OWEN WILLIAMS at the head of Wells Fargo interests in these islands, has completed an inspection of the Hilo branch. He was a passenger in the steamer Mauna Kea.

LOKRIK A. THURSTON, vice-president and general manager of the Hilo Railway Company, has arrived in San Francisco and is registered at the Bellevue hotel.

A. C. HARWOOD and J. D. Propd, identified with the Order of Elks at Coalinga, were arrivals in the steamer Lurline this morning. They will spend a vacation in the islands.

MISS ANGIE CONKLIN and Lyca McFadyen, and J. C. Golden, vaudeville and theatrical performers, were numbered among the passengers to arrive from the mainland in the Lurline.

MRS. GEORGE LARIMER of Cedar Rapids, Iowa, arrived in Honolulu on the Lurline to visit her son, Arthur E. Larimer of the Y. M. C. A. Mrs. Larimer intends remaining in Honolulu indefinitely.

MRS. G. LARIMER, mother of Secretary Larimer of the local Y. M. C. A. official staff, was an arrival from the coast this morning in the Matson Navigation liner Lurline. Mrs. Larimer will make her home in this city.

CARL S. CARLSMITH, Mrs. Carlsmith and four children are back from several months spent along the Pacific Coast. Carlsmith attended to some business matters while away. They will proceed to Hawaii within a short time.

CHARLES A. DREW, who has been appointed to the office of claim agent with the Matson Navigation Company with headquarters in this city was a passenger in the Mauna Kea from Hilo this morning. Drew has been representing the Matson interests at Hilo for some months past.

S. W. TAY, sanitary engineer for the territorial board of health, returned to Honolulu this morning after a week's tour of inspection over Maui. He reports health conditions on the Valley Isle to be excellent, particularly among the plantation camps, where a large number of new improvements are being installed.

NEW OIL FIELDS DISCOVERED IN MEDITERRANEAN

ROME—It is curious that although the existence of oil in Sicily, especially in the district of Nicotia, in Central Sicily, has been known for centuries, very little has been done to develop the industry.

With the exception of a short and inconclusive experiment made by a French company 12 months ago, no boring for petroleum has taken place

LITTLE INTERVIEWS

—ALBERT HORNER: There is no pineapple disease on Kauai.

—CHARLES DESKY: Business in all lines seems to be picking up here and real estate along with it.

—D. KALAUOKALANI, JR.: My new home will be finished pretty soon. The carpenters have almost finished their work.

—SEN. ALBERT F. JUDD: If the trustees of Bishop estate put up the building on Bishop park it will mean a great thing for Honolulu.

—ALBERT HORNER: Anyone who has thought that Wilson is anybody's fool has another "think" coming. His course has been uniformly constant.

—PAUL SUPER: It certainly pays to advertise. We had 111 men and boys in attendance at the physical department of the Y. M. C. A. yesterday.

—R. M. CROSS: Somebody has quoted me as calling the Y. M. C. A. the "bachelors' retreat." I am sure that I referred to it as the "bachelors' and benedicts' retreat."

—MAYOR FERN: I read no more about Madame Pushi and her hula dances. What's the matter? Why don't she go ahead and get her hula sense?

—SUPERINTENDENT J. W. CALDWELL: Well, at any rate, Mr. Thayer will have Auditor Fisher and myself to help him hold down that lid.

—JAMES DOUGHERTY: I have been touring the different islands on matters of business pertaining to the 1914 Floral Parade. I believe it is a good policy to give the work an early start.

—TREASURER D. J. CONKLING: Now, if Governor Thayer would just arrange for that bond issue, so I could go East and turn my office over to Thayer too, he would be quite a busy man, wouldn't he?

—A. F. JUDD: The Star-Bulletin's suggestion for a convention of engineers to discuss our public problems in their field has been very favorably received. Such a convention would do great good.

—W. W. GOODALE: The appointment of Mr. Pinkham as governor is one of President Wilson's acts of which I cordially approve. I hope that confirmation will speedily follow the favorable report.

—ATTORNEY GENERAL W. W. THAYER: If Mott-Smith has been burdened with affairs of state as heavy they have broken his health, how long do you suppose I'll be able to bear them, with the further addition of my own office duties?

—"SCOTTY" SCHUMAN: The Town team is going to show the fans some of the fine points in the art of football playing Saturday. I have every confidence that we can beat the Oahu College players. What's that? Yes, I am captain of the Town team.

—MOTT-SMITH: That little clause in the Organic Act, "Or until his successor shall be appointed and qualified," is the cause of it all. It's what has held Governor Frear and myself all these months. Of course that sleep-walking stunt of mine a few weeks ago had something to do with my own present physical condition—or lack of it.

—E. M. WATSON: Well, I do not feel sorry that the senate committee has favorably reported Mr. Pinkham's name. The thing now looks like it might be settled at last. This long wait has been very disagreeable. However, Senator Williams certainly can make a good fight on the floor of the senate, and he has many friends who will help him.

in the island until the inception a few months ago of regular boring by an English company which has taken up a large area near Nicotia.

This boring is still in the preliminary stages, but the indications are most promising, and surface investigations have produced most remarkable results. A large extent of oil rock and some oil-bearing shales have been discovered, and in one place a spring of surface petroleum of good quality has been found by means of a tunnel driven 20 feet into sandstone rock. Similar discoveries have been made in other parts of Sicily, and a German syndicate will begin boring very shortly in the southeast. At Nicotia petroleum indications are on a large scale, the physical conformation of the country being very favorable to the presence of enormous quantities. The importance of large deposits of petroleum on an island in the middle of the Mediterranean cannot be easily overestimated for war purposes, now that war vessels of all types and nationalities are to be adapted to consume oil fuel.

MAUI NEWS

(Special Star-Bulletin Correspondence)

WAILUKU, Maui, Oct. 20.—Mr. and Mrs. William L. Deppa, who have been away on an extended trip for several months, are now back in Lahaina. Their host of friends are glad to welcome them again.

That man who knows Haleakala as well if not better than any other Maui man—Louis von Tempeky—conducted a party consisting of Mr. and Mrs. Frank F. Baldwin, Miss Armine von Tempeky, W. S. Chillingworth and C. E. Myers through the crater to the other side. Five days were spent within the great pit, and aside from one day when it rained very heavily, the whole experience was a most delightful one. W. H. Weller joined the party for two days. All came back highly enthusiastic over their experiences on the outing. It was the first time that Mrs. Baldwin had camped in Haleakala.

Maui grand jury was in session a short time Wednesday. Five true bills were found and Police Officer Souza of Pala who had been accused of wrong doing by certain Japanese was exonerated. Judge Kingsbury delivered to the grand jury a charge, in which he took pains to tell the jurors of their duty to their country by getting at the facts and exposing of crime. He said that sometimes lawyers go too far in their defense of their clients, and wink at perjury in an attempt to get the client off.

Miss Annie Wodehouse, whose father died Wednesday last, took the Mauna Kea last week.

George Wilbur and family have left for a two weeks' vacation. They go immediately to their homestead. Mrs. Wilbur has been spending a few weeks

BOARD OF HEALTH COMMISSION MEET IN SHORT TIME

Although the civil service commission of the Territorial Board of Health has been organized several months the members have been unable to make much headway in the formulation of the service rules and regulations under which the members of the health department are to be placed. Thus far much of their time has been given to a study of similar systems in vogue on the mainland, and Dr. J. S. B. Pratt, president of the health board, says that at best the job of formulating rules which will satisfactorily meet local conditions must be slow.

It is understood, however, that a meeting of the commission, which consists of George P. Denison, chairman; William C. McDonagie and Dr. F. F. Hedemann, will be held sometime in the next two weeks when an announcement of progress on the regulations may be made.

The attendance in the physical department of the Young Men's Christian Association is growing in response to effective advertising, according to a statement made by General Secretary Paul Super this morning. In all physical activities yesterday, the attendance was 111. The afternoon businessmen's club drew 20 men; the employed boys' class kept 63 youngsters hustling, and all other classes and games were well attended. The officers of the association are finding that "it pays to advertise."

In Wailuku, she will remain at Pauwela after Mr. Wilbur's vacation is over.

The Whist landing is being pushed along rapidly. Hugh Howell, the contractor, hopes to have it ready for passenger service and freight traffic by the end of November.

BOWER AGAIN ENTERS PLEA OF NOT GUILTY

George A. (Bert) Bower, the opium addict indicted Saturday by the federal grand jury on a charge of opium smuggling pleaded not guilty in federal court this morning. The court hearing on the case was continued until called for the ensuing calendar. Bower meantime being released on his personal recognizance. He already is under heavy bail on charges, previously preferred, of violating the white slave statute.

Mrs. J. F. Hyland, the woman indicted with Bower and accused of complicity in the same smuggling attempts has been given until next Friday morning to enter her plea. She was out on her personal recognizance until noon today, at which time she was required either to produce \$500 bail or return to jail.

Edward Hackfeld..... 31 min.

SAN FRANCISCO.—Shattering all prior women's records for the perilous swim across the waters of the Golden Gate, little 12-year-old Myrtle Wright—known also as "Babe"—distinguished herself yesterday by accomplishing a feat which more than once has defeated the efforts of stronger and more hardy swimmers. Just 35 minutes and 40 seconds after entering the water the child touched the barren rocks of Lime Point on the Marin county shore. Mrs. Myrtle Wright, her mother, made an even better record, covering the distance in 33 minutes flat.

Today, little Miss Wright bears the distinction of being the first child to even try, let alone accomplish, the feat she set out to perform. And she, with her mother, has cut down a previous record to an extent that probably means it will stand unparalleled for years to come.

Edward Hackfeld made the swim in 31 minutes flat.

HAIKU AND PAUWELA FARMERS IN MEETING

(Special Star-Bulletin Correspondence)
WAILUKU, Maui, Oct. 20.—At the first meeting of the Haiku and Pauwela homesteaders at the Kuahli school house last Saturday night there was a large attendance. People came not only from this region but also from Makawao and Pala. This school house will be used for the Sunday school work of the district and here church services twice a month will be held.

The affair was the monthly meeting of the farmers of the district. Clarence O. White read a very able paper upon pineapples, and referred especially to the work of the pine growers in the new district. W. I. Wells dwelt upon diversified farming, and also spoke upon local conditions. Both papers were listened to very eagerly, and it is expected that in the future papers of equal interest and merit will be given from time to time.

After the papers had been read the remainder of the evening was spent in music and a delightful time socially. The gathering broke up after refreshments were served.

GIRLS! GIRLS! TRY IT, BEAUTIFY YOUR HAIR

Make it thick, glossy, wavy, luxuriant and remove dandruff—Real surprise for you.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Dandarine hair cleanse." Just try this—moisten a cloth with a little Dandarine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Dandarine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp; forever stopping itching and falling hair. But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25-cent bottle of Knowlton's Dandarine from any druggist or toilet counter, and just try it—advertisement.

Rev. Dr. Alexander Mann, rector of Trinity Church, Boston, and the candidate of the Low Church element, was elected president of the House of Deputies at the New York convention of the Protestant Episcopal Church. He defeated Rev. W. T. Administrator of Estate of Joseph

Customers like to trade at stores that, when necessary, are well lighted. Dimness or actual darkness usually hurts trade. Make your store a cheerful, well-lighted place with Westinghouse Mazda lamps, bought at the Hawaiian Electric Co.

Don't disappoint the kiddies—or the grown-up kiddies—on Friday the 31st, Halloween! Celebrate with a party or a dinner or something to make the occasion remembered. And get the decoration, ornaments, favors, etc.—consistent with the day—at the Hawaiian News Co. in the Young building.

POPULAR THEATER

This week has started off well at the comfortable little Popular theater. Started so well, in fact, that the other features of the week will have to be extra good to come up to the standard set by the main picture last night—which was "The Stronger Men." This two-reel feature was a gripping dramatic story of the great Northwest, and the audience was thrilled and pleased as the plot unfolded in all its strength.

This feature repeats tonight, although the supporting four pictures of comedy, drama and "just a story" will change daily, as usual.

On Wednesday night the principal picture will be "Not Like Other Girls," a clean little comedy, well played.

Friday brings that much talked of picture, in two reels, "Romance of the Utah Pioneers," a photoplay that will make you sit up and do some heavy thinking.

Brazil has sold the new superdreadnought Rio de Janeiro to Turkey.

LOWER COURT REVERSED IN INSURANCE SUIT

Reversing the decision of Circuit
Judge Robinson and instructing that a
decree be entered in favor of the
plaintiffs, the supreme court yester-
day handed down its decision in the
case of Julia Gomes et al against the
Sociedade Lusitana Beneficente de
Hawaii.

The suit was one wherein Julia Go-
mes and her four sisters urged the
recognition of a declaration written
by her father, Manuel da Silva Per-
reira, in which he sought to give
them a portion of the mortuary bene-
fit due his family from the benefit
society following his death. The pay-
ment to the plaintiffs was opposed by
the society and by the widow, Per-
reira's second wife, on the ground
that the declaration, drawn while Per-
reira lay ill in the hospital at Elele,
Kauai, by one Carvalho, agent for the
society at that place, was not on the
form regularly prescribed by the soci-
ety for such documents.

This contention was upheld in the
lower court, but the supreme court
finds as neither the agent nor Perrei-
ra had the blank form required by the
society's by-laws, the declaration is
invalid also that the use of the mark
instead of the full signature by the
sick man was sufficient under the cir-
cumstances. The death benefit
amounted to \$1500. Of this, Perreira
willed that \$100 go to funeral ex-
penses and mass for the repose of his
soul, \$700 to his widow and the re-
maining \$700 be divided among his
five daughters.

In its syllabus the supreme court
says:

"Where the by-laws of a benefit so-
ciety prescribe a form of declaration
to be used by members in disposing
of mortuary benefits and provide that
members 'whenever practicable' shall
use the blank forms supplied by the
society, and the testimony shows that
at the time of making a declaration
the member was ill at a hospital at a
place distant from Honolulu where
the office of the society was located,
and that neither the member nor the
local agent of the society possessed
one of the society's blank forms, the
use of a declaration not of such form
is permissible."

Oahu College Notes

William Alexander, a graduate of
Oahu College, through hard work has
made a place on the Yale News. He
occupied the editor's chair for the
September 26th issue. The Yale News
is the oldest college daily in the states
and has a circulation of 2500.

The heirs of Mrs. Martha Chamber-
lain have presented to Punahou M. P.
Chamberlain's collection of shells and
corals. This valuable collection will
be scientifically classified and labeled
and placed in the Bishop Hall of Sci-
ence.

A new locker room is being built un-
der the boys' dormitory to take the
place of the old boys' locker room,
which was previously in Old School
Hall.

The work of changing Old School
Hall into its original form is almost
completed. This hall when finished
will be used entirely for music.

Dixon Nott, who graduated last year,
recently was seriously hurt in a fresh-
man rush at Williams College.

MELANOHOLY WOMEN

Should Profit by Mrs. Hur-
ley's Experience—Her Own
Story Here Told.

Eldon, Mo.—"I was troubled with
displacement, organic inflammation and
female weakness. For two years I
could not stand on my feet long at a
time and I could not walk two blocks
without enduring cutting and drawing
pains down my right side which in-
creased once a month. I have been at that
time purple in the face and would walk the floor. I could
not lie down or sit still sometimes for a
day and a night at a time. I was ner-
vous, had very little appetite, no ambi-
tion, melancholy, and often felt as
though I had not a friend in the world.

"After I had tried most every fe-
male remedy first, without success,
my mother-in-law advised me to take
Lydia E. Pinkham's Vegetable Com-
pound. I did so and gained in strength
every day. I have now no trouble in
any way and highly praise my medi-
cine. It advertises itself."—Mrs. S. T.
HURLEY, Eldon, Missouri.

Remember, the remedy which did
this was Lydia E. Pinkham's Vegetable
Compound. For sale everywhere.

CASTORIA

for Infants and Children.

Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize
that of all the children born in civilized countries, twenty-two per cent., or
nearly one-quarter, die before they reach one year; thirty-seven per cent., or
more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority
of these precious lives. Neither do we hesitate to say that many of these infantile
deaths are occasioned by the use of narcotic preparations. Drops, tinctures and
soothing syrups sold for children's complaints contain more or less opium, or
morphine. They are, in considerable quantities, deadly poisons. In any quantity,
they stupefy, retard circulation and lead to congestions, sickness, death. Castoria
operates exactly the reverse. It causes the blood to circulate properly, opens the
pores of the skin and allays fever.

The signature of *Dr. H. Fletcher* guarantees genuine
Castoria

Physicians Recommend Castoria.

"I have used your Castoria in cases of colic in
infants and have found it the best medicine of its
kind on the market." J. G. BURROUGHS, M. D.,
Chicago, Ill.

"A medicine so valuable and beneficial for chil-
dren as your Castoria is one of the best I have
ever used in my practice." J. S. BURROUGHS, M. D.,
Omaha, Neb.

"Have used your Castoria on various occasions
in suitable cases and have found it a reliable and
efficient laxative, especially in the various diseases
of childhood." CHAS. EDWARD GARDNER, M. D.,
Brooklyn, N. Y.

"Your Castoria is a splendid remedy for children,
known the world over. I use it in my practice and
have no hesitation in recommending it for the com-
plaints of infants and children." J. A. BOARDMAN, M. D.,
Kansas City, Mo.

Children Cry for Fletcher's Castoria.

In Use For Over 30 Years.

THE CASTORIA COMPANY, 23 NASSAU STREET, NEW YORK CITY.

HOW BOOSTING HELPS CITY IS SHOWN BY LETTER FROM COAST

Honolulu Man Tells How Cali-
fornia Attracts and Holds
Visitors to State

How boosting helps your home
town is very well set forth in the fol-
lowing extract from the letter of a
Honolulu man traveling on the Pa-
cific coast.

How knocking hurts your home
town is also brought to the reader's
notice.

This letter is worth the while of
every resident of Honolulu to read,
mark, learn and inwardly digest:

"Have taken several trips around
the coast. The Key route trolley trip
is one of the best, if not the best
offered. Was all day seeing with
guide, going from San Francisco to
the Oakland side and all over the
city there, visiting Thousand Oaks
addition, Piedmont and its beautiful
park, the university and grounds, etc.,
winding up at Idora park at 4 o'clock
and taking a 50c course dinner at the
Key route inn. The whole trip for
\$1 and the admissions alone, which
were included, were worth over 50c.

"It is a wonderful place, where life
and activity are abundant, and
growth on all sides.

"Everyone seems to be a booster
and the guide was impartial in his
praise of every city. No one ever
mentions the word 'Earthquake' but
speaks of the 'Fire' or 'Disaster,' and
then in the same breath calls atten-
tion to the marvelous growth since."

"If Honolulu had such united
boosters for a year even, I be-
lieve they would not only be
boosters but boosters in that
time and would really have
something upon which to base
their boasting. Too many tour-
ists come away with more tales
of our weakness which are all
made too prominent, and too few
are filled with stories of our won-
derful climate, scenery, bathing

and other lures of the tropics.

"Mrs. X is in touch with many
wealthy people in Long Beach, Los
Angeles and Pasadena, and only a
few days ago we visited a lady who
had \$100,000 to spend for a home.
She wants one on a hill and talks
of one overlooking San Francisco
with a view of the Golden Gate. Some
one has led her to think that all Ho-
nolulu homes are worn eaten and
that the sight of natives, clothed
only in sunshine, is common, and she
spoke of these things in contempt.

"Even California fleas are made fun
of, but I have heard no one mention
a single failing of California in such
critical tones.

"Here is another reason for Ho-
nolulu taking a jump at itself and
try to stop the croakers and, if
necessary, round them up, put a
proper ramp on them, for if a
few united men made up their
minds to get them all named and
classified, they would become
ashamed of themselves and
would try to get on the side of
Honolulu, the Beautiful, the Pa-
radise of the Pacific."

"San Francisco is not like the old
San Francisco, but has become a city
of hotels, apartment houses and
homes of workers. It seems as if the
large residences and beautiful
grounds are no more and this class
of homes are across the bay and they
say are in other adjoining cities.

Presume the automobile is respon-
sible somewhat for this and so the
suburb and its environs, instead of
being the homes of workers with
their little gardens, are occupied by
owners of autos and so become too
valuable for the every day man who
is thus left in the small city house
with no garden. Municipal railways
would, perhaps, change this, but now
as soon as certain limits are reached
the conductor collects another fare,
thus these concerns are being run
for a few, and not for the benefit
of the many, as they should be run."

JAMES WAKEFIELD TO ADDRESS AD CLUB

Harbor Commissioner James Wake-
field is to give the Honolulu Ad Club
a talk on "Harbors and Their Rela-
tion to the Commerce of the Terri-
tory," at the luncheon to be held in
the sixth floor dining room of the
Young hotel tomorrow noon, 12 to 1
o'clock.

The topic is of vital importance to
every citizen of Hawaii and Mr.
Wakefield is specially well qualified
to handle it, having recently made a
tour of the States and also of this
territory to thoroughly inform him-
self in harbor equipment and what
Hawaii needs.

Business men of the city are in-
vited to the luncheon, price 50 cents,
whether they are members of the Ad
Club or not. The Ad Club aims to
interest all men in whatever is for
the upbuilding of Honolulu and Ha-
waii.

It will be a good live wire session
with a little music thrown in.

The Seattle health commission has
ordered razed to the ground a hotel
on the waterfront because a rat in-
fested with bubonic plague germs
was found in the building.

The mates and steward of the ves-
sel Glenesien testified before a
British court of inquiry at Portland,
Or., that the captain had been drink-
ing on the day of the disaster.

Federal soldiers took control of
Piedras Negras, the Constitutional
capital, without firing a shot. The
rebels marched quietly away and
were not pursued.

10 CENT "CASCARETS" IS YOUR LAXATIVE

Best Liver and Bowel Cleanser and
Stomach Regulator in the World—
Work while you sleep.

Get a 10-cent box.
Put aside—just once—the Salts,
Pills, Castor Oil or Purgative Waters
which merely force a passageway
through the bowels, but do not thor-
oughly cleanse, freshen and purify
these drainage organs, and have no
effect whatever upon the liver and
stomach.

Keep your "insides" pure and
fresh with Cascarets, which thor-
oughly cleanse the stomach, remove
the undigested, sour food and foul
gases, take the excess bile from the
liver and carry out of the system all
the constipated waste matter and poi-
sons in the bowels.

A Cascaret tonight will make you
feel great by morning. They work
while you sleep—never gripe, sicken
and cost only 10 cents a box from
your druggist. Millions of men and
women take a Cascaret now and then
and never have a headache, bilious-
ness, Coated Tongue, Indigestion, Sour
Stomach or Constipated Bowels. Cas-
carets belong in every household.
Children just love to take them.—ad-
vertisement.

Special sale of high grade pianos
and player pianos at Thayer Piano
Co., this week; 156 Hotel St.—adver-
tisement.

Roller towels have been abolished
in government buildings at Washing-
ton.

SUGAR INDUSTRY WILL PROSPER ON THE ISLANDS

Such Is Decision Reached by
Mill Engineers Now in
Convention

(Continued from page one)

gation Company's new drydocks, and through the power plant of the Hawaiian Electric Company, where a new turbine is being installed. By 10 o'clock they were gathered again in their convention quarters when H. McCubbin, of the Pioneer Mill at Lania, finished the address he gave yesterday on the subject of "Milling," after which a discussion began on the paper read by James Ogg yesterday on "Evaporators and Clarifiers." The latter was devoted mainly to the subject of centrifugal clarification and pre-heating.

There was a lively discussion of both of these papers, different ideas being argued and tested, sometimes illustrated on the blackboard, placed in the room for that purpose. It was almost noon before the morning session, which was an extra meeting of the engineers to finish the business impossible to dispose of this afternoon was over.

Two papers are being read this afternoon, one by J. E. Kennedy of Hakalau on vacuum pans and the sugar rooms. This paper will be followed late this afternoon with one from H. S. Truscott of Makaweli on labor saving devices and general topics, and the remainder of the session will be taken up with discussions on the two papers.

R. R. Hind presides this afternoon. One of the features of Kennedy's paper related to the relative merits of the calandria pan and the coil pan, the latter one of which is in general use throughout the territory. The delegates seemed strongly inclined to favor the calandria, its many advantages, as affirmed by Kennedy, being endorsed by other engineers who have had experience with such pans.

The convention will come to a close with an annual banquet of the Hawaiian Engineering Association which will be given at the Commercial Club this evening at 7:30. Now that the sessions are almost over, there is a growing feeling that the mill engineers should meet annually. The idea is strongly endorsed by them and it will probably be acted on formally this afternoon.

The extra session this morning cut short the inspection tour, but it was sufficiently long for the engineers to obtain a very clear idea of the mechanical workings of the two plants named. They first visited the Inter-Island drydock, the principal features of which were explained by Superintendent J. E. Sheedy. The dock will cost \$500,000 when completed and will be capable of handling a steamer the size of the *Wilhelmina*. It may later be extended making it 460 feet over all. A demonstration of the sand blasting machine which is used to scour the metal parts of the dock before they are painted was given. The painting of the wings of the dock itself, pointed out Superintendent Sheedy, will cost \$10,000. The expense is due to the necessity of using a certain paint to overcome the effect of salt water on the metal when the dock is submerged.

Ten of the ten-inch centrifugal pumps will be used in raising a vessel, which will be driven by a couple of 200 horse power electric motors, the current to be furnished by the Hawaiian Electric Company. The dock will be ready for use in a month. The engineers were greatly interested in the description of the plant as given by Superintendent Sheedy.

From there they went to the Hawaiian Electric Company plant, where they were shown through by W. H. Marvin, who described all the machinery under his care, giving a clear idea of the technical features.

Excavations are now underway to put in a new turbine dynamo of 3,000 k. w. Two such machines of an earlier model and of less power are now being used, one producing 750 and the other 1,500 k. w. One of the features of the new machine is that it has four times the capacity of the smaller dynamo while it occupies only the same space and weighs no more.

Following the dinner this evening the delegates will leave for their homes.

Two more delegates arrived from Hawaii this morning to attend the last sessions of the mill engineers' convention. William Mapier, engineer of the Niihau mill of Kohala, and Henry Hind, assistant engineer of the Hawi plantation mill, were the two arrivals. They were present at both sessions of the convention today and will appear at the dinner this evening.

One hundred and ten members of the Mexican chamber of deputies were arrested by order of President Huerta. The members of the Catholic party were permitted to go to their homes. The reason for the order was the refusal of the deputies to reconsider a motion which the president claimed was in excess of their authority.

Louis A. Sarecky, campaign secretary for Governor Sulzer, shouldered the blame for unreported contributions and confessed on the witness stand to having forged the governor's signature to deceive a bank.

The triennial general convention of the Protestant Episcopal church has opened in New York city.

A three-year-old girl, traveling alone from Germany to San Francisco, has arrived safely at Cheyenne.

In order to impress the nation and the army the inauguration of President Yuan Shi-Kai at Peking will be made especially elaborate and impressive.

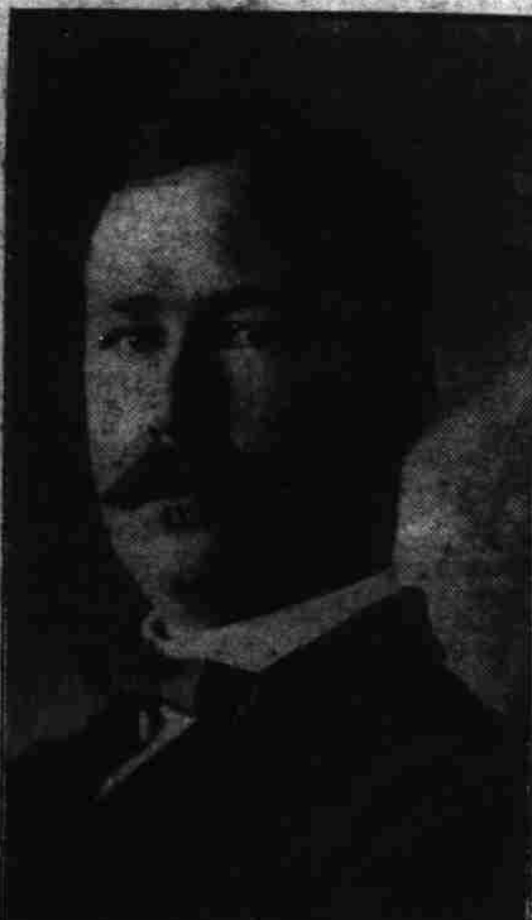

THAYER WILL FILL CHAIR FOR THE GOVERNOR

(Continued from page one)

will not decide just what to do until he reaches San Francisco.

When the acting governor called in Attorney General Thayer this morning and informed him of the sudden change in the tenor of events gubernatorial, that official good-humoredly expressed the opinion that he would have most of the duties of the governor to perform without any of the governor's special rights and privileges.

"I can't really hire or fire anyone," said Thayer laughingly. As a matter of fact, the attorney general will be "acting for the governor" and while the scope of his jurisdiction in this capacity was not fully gone into this morning, he will be somewhat restricted as an executive. This will not prevent a very large amount of work coming up for

SECRETARY E. A. MOTT-SMITH
Who will take a vacation that has been coming to him for several years

his consideration and action, for he will be acting both for the governor and for the secretary of the territory. Mott-Smith announced this morning that in all probability A. J. Gignoux, who is one of the three public utilities commissioners, will become chairman of the commission while he himself, now the chairman, is away from the territory.

Mott-Smith has been acting governor six times and only once in that time has left the territory. He said this morning that this is the first real vacation he has been able to secure in six years. There is a possibility that he need not return on December 3, as by that time L. E. Pinkham may have qualified as governor. In case Pinkham desires to do so, he may qualify at Washington and name a secretary and acting governor by cable. If this is done, Mott-Smith may prolong his vacation a few weeks.

Hawaii County Affected.
The acting governor's departure on his vacation will mean some hustling by County Attorney W. H. Beers and his assistant, W. H. Heen of Hilo, who sent word to the attorney general only this morning that because of the rush of court business on the east side of the Big Island they would be unable to attend the fall term of circuit court at Kailua.

They asked for assistance, and Thayer was preparing to send his second assistant, Leslie Scott, to that city to represent the territory or county in the term scheduled to begin next week. But on being informed of the manifold new responsibilities which are to be thrust upon his office Thayer today was compelled to alter the plan. He is now sending word to Beers that Scott cannot attend the Kailua session as his services will be in demand here. Unless the Hawaii county attorney can arrange to appear there in person or by his assistant, it may be found necessary to appoint an addition deputy for that work.

C. U. CHURCH HAS ADOPTED NEW POLICY

The standing committee of Central Union Church met in the parlor of the church last evening with Dr. Doremus Seidler, presiding, at which time a new and important departure in church policy was decided upon. Hereafter, the members of the committee and the pastor will remain in the church each Sunday morning following the sermon or services, to receive those persons wishing to apply for membership in the church. Previously, if anyone wished to join, they had to wait until the meeting of the standing committee, which was held each month, but under the new arrangements men and women may make official application immediately after the sermon which leads them to decision. This is a forward step in the policy of Central Union.

MANOA IMPROVEMENT CLUB NAMES OFFICERS TONIGHT

Officers of the new year will be elected and reports of committees for the year past received tonight at the adjourned annual meeting of the Manoa Improvement Club, which meets at 7:30 o'clock at the Tennis Club grounds.

in the Young Building.

"Feltoid" Casters

We all realize the intensely annoying damage done by ordinary relentless hard wheel Casters, and know that the salvation of our rugs, carpets and hard wood floors depends on the use of casters which will protect them.

"FELTOID" Casters are the only ones that accomplish these results, as they are the only Casters made with a hard body and a soft tread. If you wish to prolong the life of your floors and floor coverings, discard all of your present casters, substitute "FELTOIDS" and be happy. We shall be glad to give your figures for making this change.
