#### NOTICE TO MARINERS.

During the process of Deepening the Channel at the entrance to Honolulu harbor the Dredger will be in operation night and day.

At night there will be a Danger Signal placed on the forward derrick of Dredger, about 30 feet above sea level, which can be seen by all vessels approaching the harbor. The Signal consists of 3 Red lights and a White light—as in the diagram—the red lights being about 3 feet apart, with the white light in the center.

All steamers crossing the Bar will stop at a safe distance from the Dredger and give one blast of their whistle, which will be answered by a single blast from the Dredger, to be followed by three blasts from the Dredger when the passage is clear and they can proceed.

The Tug will be on hand when not otherwise engaged to assist sailing craft in passing the Dredger when necessary.

### THE DAILY BULLETIN.

Pledged to neither Sect nor Party,  
But Established for the Benefit of all.

WEDNESDAY, AUG. 3, 1892.

Our new type has apparently attracted the poets, as molasses attracts flies. Two effusions of rhyme struck us to-day, one of which is referred.

There have been changes in several road boards, in the six months since the election, caused by death or resignation of members. The Minister of Interior has the power to fill vacancies. This provision was probably designed to save the people the trouble and the country the expense, of special elections.

A prize essay on tobacco raising is concluded in this issue. Hon. J. Marsden, of the tobacco committee of the Planters' Company, has some tobacco seed to be distributed to persons who are prepared to go into the culture, and will at an early opportunity give us for publication the conditions under which the seed is to be given.

#### THAT MILLION SUIT.

When the "million dollar suit" was entered by the Waikapu Sugar Co. against the Hawaiian Commercial & Sugar Co. the BULLETIN published a short description of the nature of the case. The plaintiff corporation desired a jury trial of the issues, but the matter ultimately came to a suit in equity—the H. C. & S. Co. suing for a bill of partition. It was on this the hearing was held this week.

The lands in question are known as the Waikapu Commons, an area of twelve to fifteen hundred acres, unequally divided by a range of sand hills. At the hearing the H. C. & S. Co. admitted having occupied one-third of the lands held in common by itself and the W. S. Co., of which each company has an undivided half interest. The H. C. & S. Co. has planted a portion of the side it occupied and put a fence around their cane fields. The Waikapu Co. has had the use of all the remainder of the land, planting some of it—a few hundred acres, or all it had water for—and devoting the rest to pasture. Having more water than the other company, the H. C. & S. Co. was able to plant more land.

The question for the Court to decide is, both having a half interest in the whole territory and each having occupied a separate part of it, whether one company can have an accounting of the other. The claim of the Waikapu company was that the Hawaiian company had ousted it from half the land and should pay it one million dollars as compensation for illegal exclusion and its share of the profits of the sugar raised by the H. C. & S. Co. No ousting was shown to have taken place. Neither Mr. Macfarlane nor

Mr. Cornwell of the complaining company had ever protested against the planting of cane by Mr. Spreckels' company. They had never asked for the use of any portion of the land that was fenced in by that company. Mr. Macfarlane, although stating that he had tried for a long time to get a division of the land, could not say that he really wanted a division of the land but payment for use of it from the other company.

Mr. Spreckels claimed in Court that the land was used by his company under a verbal agreement with Mr. W. H. Cornwell, but the latter denied knowledge of such an agreement.

#### THE PLANTERS' MONTHLY.

The Planters' Monthly for July contains, besides a variety of selections bearing on sugar raising, letters from Mr. Andrew Moore, manager of Paauhau plantation, and Prof. Hilgard, of the agricultural station connected with the California University, on the subject of seed cane. Mr. R. A. Macfie, Jr., formerly manager of the Kilanea plantation, Kauai, writes a letter from Brazil, giving much information about the sugar industry in that country. He tells of the distillery attached to each sugar factory, whereby "all the molasses, filter press and tank washings, and sweet waters of all kinds, can be converted into a valuable product." Also, he tells of central factories in successful operation, and has the following reference to labor:

I am just leaving Bahia and do so with a certain regret, as I have found the country and climate pleasant, and certain of the people most hospitable and agreeable. A Hawaiian planter cannot but be struck with the facility with which cane can be grown without the heavy expenses of the Hawaiian Islands, the great advantage of cheap negro labor, and the superiority of a settled population compared to the ever changing aliens that Hawaiian planters depend on for labor. It is a real pleasure to see the many dirty but happy children that surround each negro hut and give it a homelike air, that one may look for in vain amongst the Chinese and Japanese quarters of the islands.

#### Cheap Money.

FOURTH LETTER.

#### EDITOR BULLETIN:

When a learned professor makes the declaration that "every cheap money experiment that has ever been made has resulted in precisely the same demonstration" as the Rhode Island cheap money, "and the same fate awaits all those of the future," he does not depend upon historical facts to support his declarations, nor reason, but upon the supposed ignorance of his readers who he thinks will receive his bold declarations as facts not to be disputed and as reasons most profound. The \$600,000,000 referred to in my last communication never depreciated a farthing, neither was it redeemable in coin on demand. This alone should prove the falsity of his declaration, but I will refer to other cases.

Mr. Jefferson, in a letter dated June 24, 1813, directed to a member of the Committee of Ways and Means of the House of Representatives, says: "In the war of 1755, our State Virginia—availed itself of this fund, by issuing a paper currency, bottomed on a specific tax for its redemption, and to insure the credit, bearing an interest of five percent. Within a very short time, not a bill of this emission was found in circulation. It was locked up in the chests of executors, guardians, widows, farmers," etc. "We then issued bills bottomed on a redeeming tax but bearing no interest. These were received and never depreciated a single farthing." Dr. Franklin makes a similar statement respecting an issue of a paper currency by the colony of Pennsylvania in 1723.

When the act of Congress of Oct. 12, 1837, authorizing an issue of Treasury notes was pending, Mr. Calhoun advocated the measure in strong terms. The following is an extract from a speech delivered by him Sept. 19th prior to the passage of the bill. He said: "It may throw some light on this subject to state that North Carolina, just after the revolution, issued a large amount of paper, which was made receivable in dues to her; it was also made a legal tender, but which, of course, was not obligatory after the adoption of the Federal Constitution. A large amount, say between four and five hundred thousand dollars, remained in circulation after that period, and continued to circulate, for more than twenty years, at par with gold and silver during the whole time, with no other advantage than being received in the revenue of the State, which was much less than one hundred thousand dollars per annum."

By the above it may be seen that there have been issues of cheap money not redeemable in coin, that never depreciated. Notwithstanding the Century writer's prediction that "the same fate awaits all those [issues of cheap money] of the future" as the Rhode Island cheap money, it is logical, that if there

ever was a cheap money issue not redeemable in coin that did not depreciate, other issues may be made that will not depreciate, if embodying the same principles and surroundings. We claim the issues of the Bank of Hawaii, having all the virtues of the currencies referred to above and some advantages not possessed by them, should certainly be as acceptable as they were, as a money for home use.

J. M. HORSNER.

(To be continued.)

#### Lee's Road.

#### EDITOR BULLETIN:

In reply to the letter written by a few tourists in your issue of the 25th inst., I reiterate my statement that the road is in bad condition and that but little has been done to it since it was first constructed. Those who have not been over it must understand that it is over pasture land a great part of the way, the present track is in many places the best one of two or three, the others having been abandoned after being worn, blown and washed away, so that if the course were limited as an ordinary road is, by a fence, it would be totally impassable.

Did a few tourists notice between the half-way house and Julian Monserat's pasture the different courses that had been abandoned and the same in the H. A. Co's pasture on approaching Pahala? And do they not think the present course must in many places very soon be either repaired or abandoned?

I cannot but think that the imagination of this lady and gentlemen must have been swollen by the rare atmosphere of Kau at the time they passed from the Volcano House to Punaluu, or that they were blind and felt hot.

I have no ill feeling at all towards Mr. Lee. I recognize his energy in making a way for travel from Punaluu to the Volcano, and I hope the Legislature will pass a bill to buy his road, but at its actual cost. The figures given by me in my former letter, as to the cost, are such as were given by Mr. Lee in conversation at the time he built the road. I think if anything the amount I have given is a little over that mentioned by him. I shall answer nothing more on this subject, and, notwithstanding the objections of a few tourists, I still sign myself

#### Police Bench Vacancy.

There was no session of the Police Court to-day owing to the continued confinement of Police Justice Foster to his house. The criminal calendar is a heavy one. Mr. W. Luther Wilcox, a District Justice, although interpreter for the Legislature, offered to sit before going to the House, but the captain of the watch thought it unnecessary.

Mr. Enoch Johnson, District Justice for Ewa and Waianae, was summoned this morning from that place to sit as Police Justice in this city during the absence of Police Justice Foster through illness. Justice Johnson consulted Judge Dole as to his jurisdiction this afternoon. The consultation resulted as follows: Mr. Johnson being District and Police Justice of Ewa and Waianae, could not sit as such in Honolulu. Deputy Police Justice W. L. Wilcox will sit as Police Justice to-morrow.

#### Rev. J. D. Paris Dead.

The venerable retired missionary, Rev. J. D. Paris, died at his residence, Kaawaloa, July 28, in the 83d year of his age. An obituary sketch by one of his old friends has been received and will appear to-morrow.

#### BURIED ALIVE.

Terrible Fate of a Portuguese Laborer on Punchbowl.

A fatal accident happened at 2 o'clock this afternoon at the sand quarry on Punchbowl to a Portuguese named John Silveira. The story of Joseph Cook, luna at the quarry, seen on the spot by a BULLETIN reporter, is as follows:

John Silveira applied for work this morning, but was refused. He pleaded so hard, saying that he was penniless and needed money for food, he was set to work digging at the sand bank. Twice he was warned not to dig in underneath, but work from the top, yet he still persisted in the contrary course. The luna left him working by himself and went to Victoria street, where there was a gang of men working. He had been gone there but a little while when a native rushed up and said that the embankment where the Portuguese was working had caved in.

A gang of workmen soon arrived and cleared the hard sand from off him, but it was too late, as the man had been smothered to death. He was cut in several places and presented a pitiful sight. His widow, who is left penniless, was distracted and ran round like a wild woman. She said that her home was bare of the necessities of life. Deputy Marshal J. A. Mehrten empaneled a jury on the spot, who were sworn over the dead body. A coroner's inquest will be held to-morrow afternoon at 1:30 o'clock.

#### PIRACY AND MURDER.

A Series of Tragedies on a Vessel from San Francisco.

News has been brought to Yokohama by the schooner Saipan of a terrible case of murder and piracy on the high seas, the perpetrators of which were seen in irons by some of the men of that vessel before their departure from the Caroline Islands for Yokohama. A few months ago the schooner Undine, of 180 tons burden, owned, it is believed, by Mr. Crawford of San Francisco, sailed from that port for the South Sea islands in command of a Captain Castella. The vessel's complement consisted of the master, mate, five men before the mast, a supercargo and the steward, all shipped in San Francisco. The vessel touched at Honolulu, and while lying there a man called on board and asked leave to accompany the cruiser to the South Seas. He announced himself as the brother of the mate, and his request was therefore readily granted. About three days out from Honolulu one of the two brothers shot the captain in cold blood in his cabin, and the same fate befell the too inquisitive supercargo on his going below to discover the trouble. The rest of the men were called aft, and it is said, were plied with poisoned liquor. All were made away with by the two desperado brothers excepting the steward, who is said to have been offered a bribe of \$1000 to remain "mum," the men further threatening him with sure death if he revealed the horrible tale. Touching at an island a crew of natives were shipped to take the places of the murdered men, and the cruiser then proceeded to the Ascension Islands. A pilot was engaged to take the vessel into one of the harbors there, and to him the steward seems to have disclosed the murder of the unfortunate Castella and his men. On getting ashore the pilot at once informed the authorities, and the vessel was boarded by the military and the two pirate brothers arrested and placed in irons, being afterward conveyed to Manila in one of the government mail boats.—S. F. Call, July 18.

# THE LEGISLATURE.

FIFTY-FIFTH DAY.

WEDNESDAY, AUG. 3, 1892.

## Morning Session.

Assembly convened at 10:05. Prayer by the Chaplain. Minutes of the previous meeting were read and approved.

Noble Williams from the Printing Committee reported Bill 128 printed and ready for distribution.

Rep. Waipulani gave notice that Opium Committee No. 2 would hold a meeting in the House at 8 o'clock to-morrow morning for the purpose of meeting the deputy-sheriff and witnesses subpoenaed from Ewa.

Minister Widemann presented the following answers to questions of Rep. Smith relative to the issuance of \$10 certificates:

(1) I have signed certificates of deposit of the denomination of ten dollars for the amount of ten thousand dollars and they have been issued. That is, passed out from the Treasury, on last Saturday. (2) They were issued under a mistake, as the law of 1890, in which the ten-dollar certificates was omitted, was absolutely unknown. Ignorance of the law, I know full well, is no excuse for disobeying it, and I must therefore take all the blame due to this inadvertent action of mine.

The Minister said, further, that it was too late to retrace the steps taken, when he was made aware of this law, the issue had been begun. Since then he had taken pains to retrieve the error and the bulk of the issue had been returned and was now again in the Treasury.

Noble Thurston said that the other day he had felt called upon to call the Minister a ten-cent financier, but he must acknowledge that a rise of 100 percent had been made, and the Minister should now be classified as a \$10-financier. (Laughter.)

Minister Widemann laughingly said he was glad that the member appreciated the advance, it could not be said that the Minister had not improved. (Laughter.) The \$10 note was the most useful of all the notes issued. He had had a conversation with a prominent man in the community (he believed he was the author of the law of 1890), and he had urged the speaker not to withdraw the \$10 note from circulation. It was with this latter purpose in view that he would now introduce, under suspension of the rules, a bill to provide for the issuance of \$10 notes.

The Minister read for the first time a bill to amend Chapter 6, Laws of 1890, relative to the Currency.

Minister Spencer asked for and was granted further time in which to answer questions propounded by Rep. Pua and with reference to the Superintendent of the Leper Settlement.

Rep. Waipulani offered a resolution that \$600 be appropriated for a wharf at Kailua, Kona, Hawaii. To Committee on Public Lands.

Rep. Akina offered a resolution that \$500 be appropriated for extending a wharf at Waimea, Kauai. To Committee on Public Lands.

Rep. Aki offered a resolution that \$1500 be appropriated to repair the water head at Waimea, Kauai. To Public Lands Committee.

Rep. Nahinu presented a petition, under the guise of a resolution, which was returned on account of being out of order.

At 10:35 Rep. R. W. Wilcox moved the Order of the Day, and the motion carried.

The Assembly resolved into Committee of the Whole, Rep. Nawali in the chair, and prepared to proceed with the consideration of items in the Appropriation Bill.

Noble Cornwell moved that the Committee take up for consideration the deferred item of "Queen's Guard," \$50,000.

Rep. Bush was opposed to considering the item or introducing it at the present time, and several good reasons could be advanced for deferring action. There was a Bill before the House which had not been reported on by the committee having it in charge. The number of soldiers at present in employ was no protection for the Queen, and as far as ornament was concerned the least said the better.

Noble Cornwell contended that the time was proper, and right now the item could be considered. If the Bill spoken of passed, then the item in the Appropriation Bill could be changed on the third reading. It had been expressed that a desire was evident to railroad this item through. If he had so intended the opportunity had been offered during the past week, but he would not take advantage of it. If the members, on consideration, considered that the amount was too large they could cut it down, but he hoped that they would now, at least, consider it.

Rep. Kamaoia favored the consideration of the item.

Noble Thurston said that he was not often found on the same side

with Rep. Bush; he had had three libel suits against the member and tried to get him imprisoned but did not succeed. In this argument, however, Rep. Bush could not be sounder if he was Gladstone. He did not propose to discuss the merits of the military bill but did think that the item should not be discussed now. It was out of the regular order, as both absent members and those present knew that the items under discussion were in the Department of the Minister of the Interior, and no deferred item should be taken up until after that Department was ended.

Noble Cornwell said that other members and the Minister of Finance had moved the consideration of deferred items, and he judged that he had a perfect right so to do as well as any other member. His course was correct.

Noble Ena was not in favor of consideration of the item at present. The House was not in possession of desired information. He favored an appropriation for the Queen's Guard but considered that the military bill should be reported on first.

Minister Parker favored consideration of the item now. The report of the committee on the military bill was ready. Opposition to consideration was made by those who intended to oppose the appropriation.

Rep. Bush said that the mover knew that there were four members absent who would vote against the appropriation and that was a reason why he (Noble Cornwell) desired the consideration now.

Noble Cornwell—Who are the four members?

Rep. Bush—Well, there is Noble Geo. Wilcox for one; Noble Walbridge, two; Rep. Smith, three; and Noble Kamao, four.

Noble Cornwell—No! no! not Kamao!

Noble Thurston (to Noble Bush)—Toll him Noble Kamao; he is also absent.

Rep. Bush—Yes, Noble Kamao. Noble Cornwell—Well, we have Noble Neumann.

Rep. Bush—Yes. And who else? The Chair called the members to order and requested them to speak to the question and never mind counting noses.

After three quarters of an hour's argument, Noble Cornwell finally withdrew his motion and stated that he would bring the matter up for consideration on next Monday.

Repairs and Furniture Government Buildings, \$14,500.

On motion of Noble Thurston, seconded by the Minister of the Interior, the above item as well as items of Landing and Buoys and Roads and Bridges were deferred.

On motion the item, "Barglar Proof Vault Treasury, \$3810," had consideration deferred until the report of the Finance Committee was presented.

On motion deferred item, "Salary of Secretary of Board of Immigration, \$3900," was taken up.

Noble Marsden moved that the item pass at \$2400. The incumbent was satisfied with that amount of salary, and was well paid for the work done.

Noble Thurston considered that the office could be eliminated. He moved it be struck out.

Rep. R. W. Wilcox moved that the item read to include "Inspector," at \$3600.

Rep. Bush said that the office was unnecessary. From his own experience in the Interior Department he knew that the work could be done very satisfactorily by the regular clerks.

Noble Baldwin was in favor of retention of the item as recommended by Committee on Ways and Means.

Noble Macfarlane favored a division in the nomenclature of the Immigration Bureau. He considered that immigration for labor purposes required consideration as they deserved. Thought that labor should be paid for by the planters and the expenses connected therewith. This work could be done by a clerk of the regular staff in the Interior Office.

Minister Spencer said that the office was a most desirable one. It was eminently proper that the labor immigrants should be properly housed and that their sanitary surroundings should be looked after. The incumbent was a clerk in the Interior Department, he only occupied a separate room. He had performed his work in a satisfactory manner, in fact very satisfactorily. He hoped the \$1,200 per year asked for would pass.

On motion the item passed at \$2,400.

Noble Thurston announced that a committee would visit the dredge this afternoon, leaving Brewer's wharf at 1:30 o'clock. He extended an invitation to members to accompany the committee.

At 12:05 the Committee rose and the Chairman reported the work performed.

At 12:07 the Assembly, on account of a visit of members to the dredge, adjourned until Thursday morning.

## H. M. S. Champion.

From 'S' animals' wooded shore,  
Skimming the waters o'er,  
The trade winds swiftly bore  
H. M. S. Champion.

At Oahu's isle she stayed,  
Where middies, undismayed,  
Cast chaff at many a maid  
On board the Champion.

They danced and flirted free,  
These "heroes" of the sea,  
But are you sure they'll be  
Always the champions?

I think there'll come the time  
When in old England's clime  
Fair hair and eyes sublime  
Will beat the champions!

Adieu, most pleasant bark,  
No cloud nor men's cry dark,  
But a white stone shall mark  
Thy stay, O Champion!

Floot on your way serene,  
In storm or battle keen,  
To be, as you have been,  
Great Britain's Champion!

Chow.

## STOCK SALE.

Doesn't Look Like the Bottom Falling Out.

The sale of the Inter-Island Steam Navigation Co.'s stock and Government bonds by J. F. Morgan at noon to-day was well attended and the prices realized were far from disappointing. Inter-Island Co.'s stock started from the par value \$100 and ran up to \$105, the whole ten shares being bid in by H. von Holt.

Twenty-five hundred 6 percent bonds were then put up in a batch of 500 with the privilege of 1000. Bids began at \$95 and 1000 were finally knocked down to Mr. J. F. Hackfeld at \$98. Mr. H. Waterhouse started another batch at \$95, and Hon. W. F. Allen went one higher and 1000 6 percent bonds were taken at that figure—\$96. Mr. J. Philp took the remainder, 500, at the same price.

## THE LEGISLATURE.

FIFTY-FOURTH DAY.

TUESDAY, Aug. 2, 1892.  
Afternoon Session.

The Assembly reconvened from recess at 1:45 o'clock and discussion of lines 7 and 8, of Bill 33 A, relative to duties, was continued. The subject matter of the lines mentioned was "Chinese clothing manufactured or imported from China, ready made and wearing apparel of every description made up whole or in part, twenty-five per cent."

Considerable discussion ensued on the matter, the prevailing opinion being that it discriminated unjustly against Chinese and was besides in contravention to treaties existing. On motion the ayes and noes were called on a motion to strike out, the result being 30 in favor of the motion to eight against, and the item was struck out, the following members voting against, viz:—

Ministers Widemann, Spencer, Nobles J. M. Horner, Dreier, Reps. Pua, Bush, A. Horner, Kaunamano—8.

Absent.—Minister Parker, Nobles Kauhanu, Baldwin, Cornwell, Thurston, Kanoa, Reps. Ashford, Nahinu, White, Edmonds.

Noble Neumann gave notice of reconsideration a week from this day.

Rep. Smith believed that such notice could not be given. A motion to reconsider should be made and acted on within twenty-four hours.

After a few words on each side the question was allowed to quietly subside.

Line 9 of Section 1, (one of the deferred items) relative to "Chinese provisions and general merchandise, twenty-five percent," was brought up and with but little argument was, on motion, struck out.

Sections 1, 2 and 3 of the Bill were then passed as amended.

Section 4 was amended to read "All laws and parts of laws inconsistent with this Bill are hereby repealed," and passed.

Noble Neumann now moved to strike out the enacting clause. Noble Marsden objected to any such action. He could not understand why such a motion should be made after three days of time being well expended on the Bill. He moved the clause pass.

Rep. Smith thought that Noble Neumann was endeavoring to perpetrate one of his usual jokes or else was in one of his ugly moods and felt spiteful. He supported the motion to pass the clause.

Noble Neumann said that it was not intended as a joke, his motion. The members would learn by-and-by that they were now passing a worthless Bill. There would be a chance to wrestle with several existing treaties before the Bill was in operation. The reputed parents of the Bill, the Ways and Means Committee, even had been disposed to turn their backs on this child of theirs.

Noble Macfarlane said that the measure had been discussed during three days, and he considered, with the other members, that it was a good revenue measure. He favored the bill passing.

Rep. Kaunamano drew the attention of the members to the fact that in line 9 of Section 2 the duty to be levied on tea read "10 cents per lb." in the old law the duty was placed at "10 percent."

On motion, the vote passing the section was reconsidered, the item changed to read "percent" instead of "per lb." and then again passed.

The enacting clause and entire Bill was, on motion, passed to engrossment and ordered for third reading on Thursday next.

Noble Neumann under suspension of the rules read for the first and second time a bill to amend Section 915 of the Civil Code to provide for the appointment of acting police justices in case of the illness, temporary absence or disqualifications of police justices. Bill passed to engrossment and ordered for third reading on Thursday.

By request leave was granted to Nobles Neumann, Kanoa and Wilcox, and Rep. Smith.

The special order of the day was the consideration of Bill 73 relative to an amendment of Article 76 of the Constitution by changing the word "King," to "Sovereign." Majority report in favor and a minority report against the change, were read.

The ayes and noes were called on the adoption of the majority report and passage of the bill and it was lost by a vote of 31 noes to 7 ayes, the Ministers being prohibited from voting, and as follows:

Ayes—Nobles Pua, Hoapili; Reps. Nawahi, Kaunamano, Kaunamano, Waipulani, Kanealii—7.

Noes—Nobles Berger, Ena, Macfarlane, Peterson, Cummings, Williams, Horner, Hind, Marsden, Young, Baldwin, Cornwell, Walbridge, Anderson, Thurston, Wilcox, Kanoa, Dreier; Reps. Bipikane, Aki, Pua, Kauli, R. W. Wilcox, Bush, Koahou,

Horner, Kaula, Iosepa, Aki, Smith, A. S. Wilcox—31.

Absent—Neumann, Kauhanu, W. Y. Horner, Wilder, Ashford, Kapahu, Nahinu, White, Edmonds.

The bill was, by order of the President, tabled.

Bill 59 relative to the codification of the penal laws of the Kingdom was read a third time and passed.

Bill 57, providing for the appointment of one police justice and two district judges in the district of Hilo, Hawaii, and further providing that the said district be divided and made into three separate judicial districts, came up on third reading.

After some little debate a motion was made that the bill pass, and also that the ayes and noes be taken on the motion. Carried, and the ayes and noes were called on the passage of the bill, resulting in favor by a vote of 23 to 14 as follows:

Ayes—Ministers Parker and Spencer; Nobles Macfarlane, Pua, Cummings, Hoapili, Cornwell and Kanoa; Reps. Bipikane, Pua, Kauli, R. W. Wilcox, Bush, Nawahi, Koahou, Horner, Kaunamano, Kamaooha, Waipulani, Kanealii, Kaula, Iosepa, and Aki—23.

Noes—Nobles Peterson, Williams, J. M. Horner, Hind, Marsden, Young, Baldwin, Walbridge, Anderson, Thurston, Wilcox and Dreier; Reps. Smith and A. S. Wilcox—14.

Bill 21, relating to the suppression of diseases among animals, was read for the third time and passed.

Bill 53, relating to the keepers of stallions, was read a third time and passed.

Noble Cornwell gave notice of a meeting of the Military Committee, and immediately thereafter the Assembly, at 3:40 o'clock, adjourned.

Mr. J. P. Blaize, an extensive real estate dealer in Des Moines, Iowa, narrowly escaped one of the severest attacks of pneumonia, while in the northern part of that state during a recent blizzard, says the Saturday Review.

Mr. Blaize had occasion to drive several miles during the storm, and was so thoroughly chilled that he was unable to get warm, and inside of an hour after his return he was threatened with a severe case of pneumonia or lung fever. Mr. Blaize sent to the nearest drug store and got a bottle of Chamberlain's Cough Remedy, of which he had often heard, and took a number of large doses.

He says the effect was wonderful, and that in a short time he was breathing quite easily. He kept on taking the medicine, and the next day was able to go to Des Moines. Mr. Blaize regards his cure as simply wonderful. Fifty cent bottles for sale by all dealers. Benson, Smith & Co., Agents.

## ANHEUSER-BUSCH

Brewing Association.

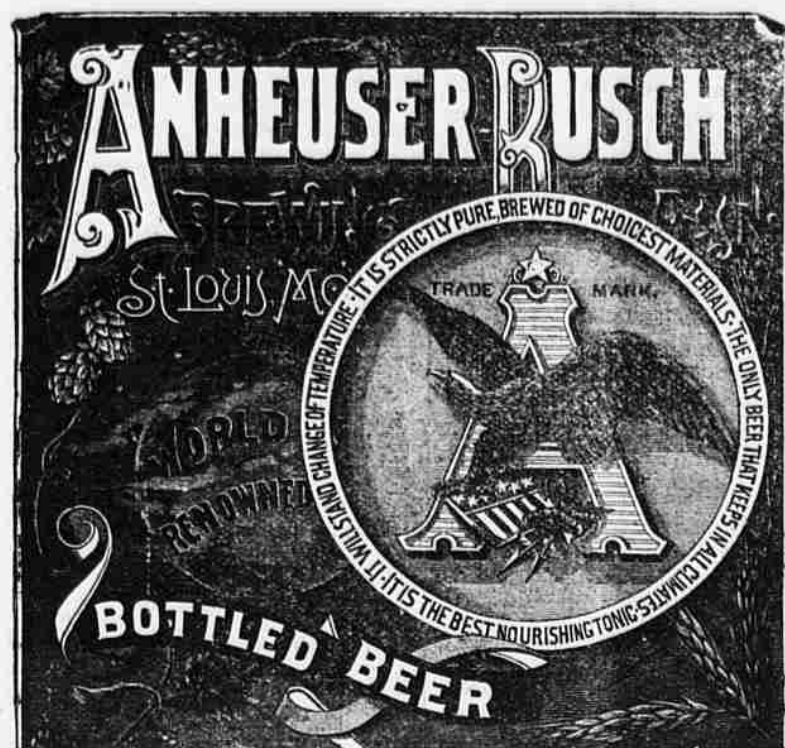

St. Louis, Mo.

## BREWERS OF FINE BEER

EXCLUSIVELY!

Manufactured from Pure Malt and Highest Grade Hops!

No Corn or Corn Preparations used in place of Malt, as is done by other Eastern Breweries, in order to cheapen the cost of their Beer, and to compete with our world-renowned and justly famed article.

With the Completion of the New Brewhouse, the Brewing Capacity is the Largest of any Brewery in the World.

BREWING CAPACITY: 6 Kettles every 24 hours, 6,000 Barrels, or 1,800,000 Barrels per year.

CONSUMPTION OF MATERIAL: Malt, 12,000 bushels per day—3,600,000 bushels per year. Hops: 7,500 lbs. per day—2,250,000 lbs. per year.

No Corn or Corn Preparations are used in the manufacture of the ANHEUSER-BUSCH BEER. It is, therefore, the highest priced but the most wholesome and really the least expensive for its superior quality.

ANNUAL SHIPPING CAPACITY: 100,000,000 Bottles and 5,000,000 Kegs.

The ANHEUSER-BUSCH Co. have carried off the Highest Honors and the Highest Class Gold Medal wherever they have competed. At all of the International Exhibitions throughout the world their Beer Excelled All Others!

This Company have prepared a Special Brand of their Highest Grade Beer for the Hawaiian Islands, known as "SPECIAL BREW," with a handsome label and in White Bottles, which, with their best "EXPORT ANHEUSER" in Dark Bottles, heretofore imported, we will now supply to the Trade in Quantities to Suit.

INSURE

—IN THE—

Equitable Life Assurance Society

Of the United States.

An Eminently Conservative and Safe Company.

The consideration of first importance in judging of the condition of any financial institution (and notably of a Life Assurance Company, the majority of whose contracts extend over long periods of years) is its Surplus Strength. The EQUITABLE has, over and above all liabilities, a Larger Surplus than Any Other Assurance Company.

FINANCIAL STRENGTH.

Assets, Dec. 31, 1891, - - - \$136,198,518.38

Liabilities, including the Reserve on all existing Policies (4 per cent. Standard), and Special Reserve (toward the establishment of a 3 1/2 per cent. valuation of \$1,500,000) - - - 109,905,537.82

Surplus, - - - \$ 26,292,980.56

This Surplus remains after making provision for every obligation, on a rigid calculation of liabilities, based on the standard prescribed by the Insurance Law of the State of New York, which assumes that Assets will be invested so as to realize interest at the rate of 4 per cent. per annum. In addition to this, in a spirit of conservatism, the Directors of the Society, on the recommendation of its Finance Committee, have set aside a Special Additional Reserve, looking toward even a more stringent and conservative future standard of value than the law now prescribes.
