SHINTO RITUAL FOR ITO ASHES

THE COUNTY AUTO LANDS OFFICIALS IN MUCH PILIKIA

HILO, November 1.—The County automobile started for Kau at 3:30 a. m. Sunday. Sheriff Fetter was chauffeur, with County Attorney Beers, Supervisor Shipman, Treasurer Lalakea and Deputy Treasurer Lyman all bound for Honouliuli to get the steamer to Kailua. The machine got as far as 22 miles Glenwood, when the chain broke. The machine hobbled back down hill to town, getting here at 5:30 p. m., Beers returning with Fetter and giving up his trip. Lalakea and Lyman had to go on as witnesses. They could not catch the regular stage leaving volcano house at 6 a. m. so hired a rig for themselves. Shipman also going on with them. The two witnesses have to pay for their rig out of their regular mileage allowance as witnesses. One of the arguments in buying the auto was that it cost nothing to keep, did not eat, cheaper than horses. The first month cost \$60 for repairs besides gasoline. Second month ended yesterday, details to come.

TRANSPORT BAND AT SMITH RULES MOANA TONIGHT FOR GENERAL

In honor of the officers and ladies on board the transport Logan, arriving today, the Moana hotel will give a dance this Thursday evening. The 18th infantry band one of the best bands in the army will play throughout the evening. Local Army, Navy and society folk are cordially invited to be present.

SUMNER'S NEW TRUST.
John K. Sumner has filed at the registry office a revocation of the trust deed given by himself to Carlos A. Long, and has given A. V. Gear his power of attorney instead. This means that the latter will in future handle the property of old man Sumner—or what's left of it.

APPOINTMENTS ALL CONFIRMED

The Senate this afternoon confirmed all the nominations submitted by the Governor in his message at the opening of the session. The motion to confirm was by Senator McCarthy and there was no objection.

Have your typewriter, cash registers and adding machines repaired by the Office Supply Co. They have a complete repair department for this work.

NEW RICE MILL.
The K. Yamamoto Rice Mill is the largest as well as the finest in the islands. All the machinery is of the very latest pattern. The famous Tengu Rice is cleaned at this mill. With the large cleaning capacity they are able to handle considerable outside party work which they guarantee.

Talks on Wills

No. 7.

THE INVESTMENT FEATURE

A Trust Company has advantages for the investment of funds not open to an individual executor or trustee. Funds do not lie idle on its hands. Consider also the experience and financial connections of our Board of Directors.

Secure these benefits by naming as your Executor the

Hawaiian Trust Co., Ltd.

923 Fort Street.

President W. O. Smith of the Senate this afternoon ruled in favor of the handling of general legislation at this special session of the Legislature, after which Senator Baker moved that only bills so far introduced be considered, which was carried; and then Senator Coelho bringing about Committee of the Whole on consideration of the bills introduced, the fishing license bill was passed and the inheritance tax bill lost on the vote cast by President Smith.

LOGAN ARRIVES

Transport Logan, from Manila, via Nagasaki, docked this afternoon. She is en route to San Francisco with the Eighteenth Infantry, headquarters and band. This is the first of thirty infantry regiments to complete three separate tours of duty in the Philippines.

HANAKAHI TAKES HIS MEDICINE

Harry Hanakahi pleaded guilty to embezzling postage stamps of the value of \$25 in Honolulu postoffice Judge Woodruff sentenced him to six months imprisonment at hard labor and payment of costs. Hanakahi was a clerk in the postoffice and being suspected was watched and caught in the act of larceny.

Oka was acquitted of harboring alien women by a verdict of the jury in the Federal court last night.

COURT ITEMS

Judge Whitney has given judgment in favor of Luahelani Kauwa against Mary E. Foster for the possession of an undivided one-half interest in one share of the Hui Aaina of Kahana. No damage being shown none is presumed by the court.

A motion for a new trial has been filed in the \$10,000 damage suit of Edward Campbell vs. H. Hackfeld & Co., Ltd., by Magoon and Weaver and Clem K. Quinn for plaintiff.

Divorce suits filed today are Shimizu Osami vs. Misato Osami and Iyo Tani vs. Bunjiro Tani.

Judge Robinson approved the final accounts of W. O. Smith, guardian of Friday Gay, a minor.

LAST DAYS OF SALE.

Thursday, Friday and Saturday are last days of the big Thanksgiving linen sale at Sachs' Dry Goods Co. Don't miss this opportunity.

A meeting of the stockholders of McCabe, Hamilton & Renny Co., Ltd., will be held at the office of the company Friday, Nov. 12th, 1909, at 3 p. m.

Legislature May Legally Take Up Other Business

SESSION NOT NECESSARILY RESTRICTED TO SUBJECT OF CALL

The end of this morning's sessions of the Legislature saw the House about done with its work, and the Senate in the midst of an earnest discussion of whether it should take up other business than that for which the special session was called, particularly the various Coelho bills. It was generally conceded that the legislature has a legal right to take up any business, but a resolution against doing so was introduced by Chillingworth. It is stated on good authority that the House will decline to take up other business even if the Senate tries.

THE HOUSE. THIRD DAY.

Kalefopu's bill to appropriate \$10,000 for the purpose of defraying the expenses of the House for the special session, came up for third reading and of course, passed unanimously. Nobody suggested that the members do their work for nothing.

Senate concurrent resolution 1, to the effect that the school fund commission investigate into possible methods of

(Continued on Page Five.)

THE SENATE. THIRD DAY.

Knudsen presented a report from the committee on ways and means upon Coelho's bill to provide for the payment of inheritance tax to the counties, a majority recommending its passage. Chairman Knudsen while approving of the purpose of the bill dissented from the majority on the ground that the special session should not take up matters for which it was not called, recommending therefore

(Continued on Page Five.)

BOLD ROBBERS TAKE \$50,000 FROM LINER IN NEW YORK HARBOR

(Special Cable to The Star by the United Press).

NEW YORK, November 4.—Robbers, aboard the American-Humburg steamship Prince Joachim, today exploded the safe in the purser's office and managed to effect their escape with fifty thousand dollars in gold while the vessel was anchored in this harbor.

The crime is one of the boldest perpetrated in this for many years. At present there is no clue to the identity of the thieves who are supposed to have been passengers aboard the liner awaiting an opportunity to get at the cash in the purser's cabin.

CAMP VERY IS SOON TO BE SWALLOWED UP

FOUR HUNDRED MARINES STATIONED NEAR SEWER OUTFALL EXPECT BEFORE LONG TO BE TRANSFERRED TO PEARL HARBOR BARRACKS—PRESENT FORCE TO BE MULTIPLIED BY TEN OR MORE—TO ENTERTAIN COLONEL DENNY TONIGHT.

Within a short time there will be between four and five thousand men of the United States Marine Corps stationed on this island, most of whom will find barracks at Pearl Harbor, thanks to the presence of Colonel Denny, U. S. M. C., who arrived here recently to consult with the officers of the Marines already stationed here, in regard to quarters for the men of this branch of the military service.

Some months ago The Star stated that there would be stationed here something like four or five thousand members of the Marine Corps, and about that time there was considerable discussion as to whether or not men would be taken off the vessels of war and stationed on land.

Such was Roosevelt's recommendation; and then came Taft and a sort of stay in the proceedings; it seemed that the proposition of taking men off the battleships and cruisers was forgotten, but now the question is revived.

"The Marines were practically ordered, for the time, to remain on the ships," said a Marine officer this morning, "but were ordered to do no work. About all the Marines aboard ship are supposed to do since Teddy's agitation, is to look over the side now and then and see if the water is still there."

At Camp Very, near the sewer outfall, are nearly four hundred Marines who expect soon to be ordered to Pearl Harbor.

Tonight the officers of Camp Very give a dinner at the University Club to Colonel Denny who is here to make preliminary arrangements for the Pearl Harbor barracks.

The present force is the nucleus, and the four hundred men at Camp Very expect very soon to be multiplied by ten, or more, and moved to Pearl Harbor, where they will constitute the greatest force of United States Marines under the flag.

VICTIM OF ASSASSIN GIVEN LAST HONORS

(Associated Press Cable to The Star.)

TOKIO, November 4.—According to the imposing and impressive rites of the ancient religious cult of the Japanese, a species of ancestor-worship in its essence, known as the Shinto ceremony, the mortal remains of the late Prince Ito, assassinated by a Korean at Harbin, were today given interment.

Designated by the United States Government to represent America at the obsequies, Ambassador O'Brien attended the funeral ceremonies. The popular attendance and sympathetic demonstration was the most impressive observed in years.

DR. COOK GETTING POLAR FACTS READY

(Associated Press Cable to The Star.)

NEW YORK, November 4.—Dr. Cook, who discovered the north pole on April 21, 1908, and whose original data are in the hands of the Copenhagen scientists for inspection, is now engaged in assembling facts concerning his arctic trip to establish without doubt the truth of his assertions concerning his discovery.

GREEK REVOLUTIONIST MADE A PRISONER

ATHENS, Greece, November 4.—Lieutenant Tibaldos and his fellow revolutionists have been captured by the loyal naval forces and confined pending trial.

All those who rose against the government and were involved in the revolt of eight torpedo-boat destroyers, led by Tibaldos and which attacked the shore batteries, are now in custody.

Seven of the eight revolting torpedo-boat destroyers were seized by the government on the day following the uprising, but Tibaldos escaped with one of the ships of war.

Chase was given and this morning the leader of the mutiny was made a prisoner.

STRANGER SAYS HE IS DOUBLE VILLAIN

PARIS, November 4.—At the trial of Madame Steinhell here today, for double murder, a sensation was caused by the sudden confession of a stranger. He declared that he it was who was guilty of the double crime. Court proceedings were interrupted and delayed, though the police are inclined to doubt the guilt of the confessor, believing it to be but a dramatic attempt at saving the woman.

NEW ORLEANS, November 4.—General Zelaya is advancing upon Rama, the rebel base.

WASHINGTON, D. C., November 4.—Official reports received here today announce the fact that the Nienangwa rebels are gaining.

MACON, Ga., November 4.—President Taft delivered a speech here today before a large gathering of people of this city and from the suburbs. This afternoon the President proceeded to Savannah.

MUSCULAR PAINS.

Hundreds of testimonials could be furnished showing the great pain relieving power of Chamberlain's Pain Balm in cases of muscular rheumatism, lameness or soreness of the muscles from many cause. It is for sale by all dealers, Benson, Smith & Co., agents for Hawaii.

Times of the tide are taken from the U. S. Coast and Geodetic Survey tables. The tides at Kahului and Hilo occur about one hour earlier than at Honolulu. Honolulu standard time is 10 hours 30 minutes slower than Greenwich time, being that of the meridian of 157 degrees 30 minutes. The time whistle blows at 1:30 p. m. which is the same as Greenwich, 0 hours, 0 minutes. The Sun and Moon are for local time for the whole group.

LOGBOOK

The Trans-Pacific Freight Bureau, which includes the Canadian Pacific Nippon Yusen Kaisha, Portland & Asiatic Co., China Mutual Steam Navigation Co., Ocean S. S. Co., Great Northern S. S. Co., Bank Line, Ltd., and Osaka Shosen Kaisha, operating steamships from Puget Sound, has issued a supplementary tariff under which applies from Seattle are now \$6 a ton measurement to Yokohama, Kobe, Nagasaki, Moji and Hongkong, and \$6.50 a ton to Shanghai. Old glass in barrels or boxes is \$8 a ton deadweight to the first six ports and \$8.50 to Shanghai. Lard and jar compound is \$6 a ton deadweight to the first ports and \$6.50 to Shanghai. In addition, rates are quoted to Cebu and Iloilo by way of Manila, which are \$4 a 20-cwt. for flour and \$4.75 a ton for general merchandise, either weight or measurement. The rate to Zamboanga on the flour is \$6 per 20-cwt. and \$6.75 a ton for general cargo.

On October 23 Captain Rees' promotion to the grade of Admiral should have become effective, but on account of President Taft touring the States it is probable that the President has not had time to sign up new commissions.

Between three and four thousand marines are to be stationed at Pearl Harbor naval station when that base is established, according to Colonel Denay, chief constructing quartermaster of the United States Marine Corps. In March or April of 1910 actual construction work will be commenced on the first marine barracks and from six to eight or ten sets of officers quarters at the naval station.

ORIENTALS PLAY TWO GOOD GAMES

Two baseball games in celebration of the birthday of Emperor Mutsu-hito of Japan were played at Honolulu Athletic Park yesterday afternoon. The Hawaiian band was in attendance.

Victory was wrested from what seemed sure defeat by the Chinese over the Japanese in a game between the Mu Hocks and the Fusos. With a score of 4 to 1 against them the Mu Hocks went to bat in the ninth. And it was after two men were out that they did things with the stick. Three hits in succession made four runs good, a win of 5 to 4.

In a game between the Asahis and the Banais, the latter were made to sing their name in a low key. It was a sort of seesaw scoring, which ended 6 to 4 in favor of the Asahis. Credit for the result is largely due to a double play executed by Moriama.

All members of the National Guard, interested in the military league field meet, to be held November 27, are requested to attend a meeting to be held in the bungalow at half past seven Friday evening.

WAIT FOR BENGOUGH.

Mr. Adams has received an intimation that the Makura may arrive on Monday in which case Bengough the Great will appear at the Opera House Monday night, and perhaps in the afternoon of that day. He should be seen by all who can get tickets for he is an entertainer par excellence.

His success in Sydney was so great that the management were obliged to extend his season to twice its original length. Speaking of his first appearance, the "Sydney Morning Herald" says, "Bengough, cartoonist, poet, editor, reciter singer and comedian proved himself on Saturday evening in the first named capacity amongst the newspaper artists of the English speaking world. This is saying much, but his work was not only rapid but distinct with animation and character. Bengough can hold his own amongst the best of the entertainers who have from time to time visited this country. One of the events of Saturday night was his very spirited delivery of his own lines upon "The Visit of the Yankee Squadron" as spoken by an enthusiastic tar back again in America after being feted in Australia. This journey round the world had taught the young tar a lesson, which, in homely language, he urges upon all the nations of the earth. "This style of war is our invention," he cries. "Don't get killing folk and turnin' cities into smoke. Call on and see your neighbors ports, and join with them in kindly sports" and when he wound up his account of his stay in these parts with "The finest spot in all that cruise was the glorious land o' the kangaroos" the hall rang with applause, and Bengough was recalled again and again. He really ought to include his heart-inspired "Yankee Squadron" verses in every programme.

THE AMERICAN GEOGRAPHERS BACK PEARY

(Associated Press Morning Service.)
WASHINGTON, November 4.—The
National Geographic Society examiners
yesterday reported unanimously, after
an examination of the records of both
Commander Peary and Dr. Cook, that
Peary discovered the North Pole on
April 6, 1909.

On October 15 the geographic society
requested the University of Copen-
hagen to waive its first claim to the
Cook observations, as American
scientists were impatient at delay and
felt that this was a matter that should
be settled in America. A message was
also sent to Commander Peary request-
ing him to hurry forward sufficient
data upon which to act. Dr. Cook on
that date sent a letter to the secre-
tary of the geographic society stating
that the Copenhagen University
was then acting on his data, and in
due time the geographic society would
have an opportunity to pass judgment
upon his claim of having reached the
North Pole on April 21, 1908.

PRINCE ITO'S FUNERAL.

TOKIO, November 4.—The funeral
ceremonies at Hibiya Park over the re-
mains of the late Prince Ito, assassi-
nated at Harbin, were the most impres-
sive display of a popular demonstration
of public sympathy, and the most wide-
spread ever known in Japan.

Ambassador O'Brien represented the
United States at the funeral ceremonies
having been designated by Secretary of
State Knox to act for the American
government.

(The funeral was to take place on
Thursday, November 4, which is today,
the difference in time between Honolu-
lu and Tokio correcting the apparent
discrepancy in the date. There is a
difference of sixteen hours between
here and Tokio. At midnight in Hon-
olulu last night, Wednesday, the time
was 4 o'clock in Tokio this afternoon.
Japanese flags are at halfmast in Hon-
olulu today out of respect to the
funeral of Prince Ito. Had the ac-
tual time been observed it would have
been awkward, unless the rule had
also been observed advancing the lo-
cal date of the Emperor's birthday.
Yesterday the sunburst flag was flying
in festive style all over Honolulu for
the latter event.)

TAFT'S CONGRATULATIONS.
WASHINGTON, November 4.—Presi-
dent Taft cabled birthday congratula-
tions to the Mikado.

ARBITRATION WITH JAPAN.
WASHINGTON, November 4.—Secre-
tary Knox, addressing the members of
the Japanese commercial body now
touring the States, at a banquet given
by the Japanese embassy suggested an
arbitration compact between Japan
and the United States. The sugges-
tion was received with applause and
was cordially received by the Japanese
and other guests present.

THE DURATION RECORD.
MOURMELON, France, November
4.—Aviator Farman aeroplaned one
hundred and forty-four miles yesterday
in four hours and six minutes, estab-
lished the world's duration record.

LABORITES CONTROL.
SAN FRANCISCO, November 4.—
The political complexion of the new
board of supervisors elected Tuesday is
as follows: Labor, eleven; Republican,
five; Democrat, two.

**SAVE MONEY BY BUYING CHAM-
BERLAIN'S COUGH REMEDY.**

You will pay just as much for a
bottle of Chamberlain's Cough Rem-
edy, as for any of the other cough
medicines, but you save money by
buying it. The saving is in what
you get, not what you pay. The
sure-to-cure-you quality is in every
bottle of this remedy, and you get
good results when you take it. For
sale by all dealers, Benson, Smith &
Co., agents for Hawaii.

TAMMANY FIRING DEFEATED BOSS

A special cable to The Star yesterday stated that Boss Murphy of
Tammany was to be retired, as a result of the defeat of the Tammany
ticket in Tuesday's election. Murphy has been at the head of Tammany
nearly ten years. It is said that he has made more money even than
Richard Croker, whom he succeeded.

ASSOCIATED CHARITIES.

For the past two months the Asso-
ciated Charities has expended \$693.45
for relief. From the U. S. S. West
Virginia minstrel show \$100 was re-
ceived and from W. G. Irwin \$1000.
There have been 353 calls at the
office, and the manager has made 41
visits. Twenty-nine new applications
for relief were received, and there
were 57 recurrent cases. Twenty
families were supplied daily with
milk. Four persons were sent to the
hospital on S. F. S. beds. Transpor-
tation was secured for three persons
—to Kauai, to Korea and to the
Coast. Eleven persons were directed
to employment. Expenses were paid
for three children at Kawaiahae Sem-
inary.

A stove was procured for one fam-
ily, and other assistance given to
keep the blind father from begging
from house to house, as he had been
doing for months, occasionally going
to Kauai to reap the harvest there.
The public is cautioned against giv-
ing to this man, as relief is given
from the A. C. office.

AFTER SUFFERING TEN YEARS

Cured by Lydia E. Pink-
ham's Vegetable Compound

MARLTON, N.J.—I feel that Lydia E.

Pinkham's Vegetable Compound has

given me new life.

I suffered for ten

years with serious

female troubles, in-

flammation, ulcer-

ation, indigestion,

nervousness, and

could not sleep.

Doctors gave me

up, as they said my

troubles were

chronic. I was in

despair, and did not

care whether I lived

or died, when I read about Lydia E.

Pinkham's Vegetable Compound, so I

began to take it, and am well again and

relieved of all my suffering."—Mrs.

GEORGE JORDY, Box 40, Marlton, N.J.

Lydia E. Pinkham's Vegetable Com-

ound, made from native roots and

herbs, contains no narcotics or harm-

ful drugs, and to-day holds the record

for the largest number of actual cures

of female diseases we know of, and

thousands of voluntary testimonials are

on file in the Pinkham laboratory at

Lynn, Mass., from women who have

been cured from almost every form of

female complaints, inflammation, ul-

ceration, displacements, fibroid tumors,

irregularities, periodic pains, backache,

indigestion and nervous prostration.

Every suffering woman owes it to her-

self to give Lydia E. Pinkham's Vege-

table Compound a trial.

If you would like special advice

about your case write a confidential

letter to Mrs. Pinkham, at

Lynn, Mass. Her advice is free,

and always helpful.

THURSDAY.....NOVEMBER 4, 1909

THE SALOON AS A LOCAL ISSUE.

"Gentlemen:—After today's issue of The Star, the enclosed
advertisement will no longer appear in The Star, being of a
class of advertising which we have decided not to publish here-
after."

Last month, as the above letter sent to various advertisers indicates,
saw the last of retail liquor advertisements in the columns of The
Star. For some time they have been gradually stricken out. The
management has declined the breweries' advertising business and, as
old time contracts have expired, it has declined to continue publish-
ing paid notices which are in any way an advertisement of a retail
saloon, or of the saloon as an institution. This is a step taken within
recent years by most of the largest and highest class newspapers of
the country, and by practically all the better class weeklies and maga-
zines. As far as The Star is concerned, it is carrying out a profound
conviction that the saloon as an institution is so harmful in the com-
munity that no newspaper of standing should consent to lend it the
slightest countenance.

It is quite impossible to follow the local records of crime and tragedy
without reaching the conclusion that, no matter how the larger prob-
lem of liquor is viewed, there are too many saloons in Honolulu, and
some of them in unfit hands. It is the duty of the license commission,
we believe, under the present law, to take the aggressive against these
places, and further, it is the duty of all the political parties to take
up the liquor issue being pressed upon them, with a view to strength-
ening the liquor law so that the saloon evil may be destroyed. Hono-
lulu's possible great future, as a residence town whose climate at-
tracts all peoples, will be greatly hastened by a successful campaign
to eliminate the saloon.

The issue is probably going to be the most prominent one in the
political campaign a year from now. As a newspaper standing for
Republican principle we believe it is the duty of the Republican
party to take the lead in improving the liquor law now in force and
for which it can justly claim credit. Without going into the diffi-
cult moot question of Prohibition, most citizens will agree that saloons
are an evil and, those who are well informed on the subject, that some
Honolulu saloons are a curse to the community. The facts in support
of this view can be shown as occasion arises. We think that the vot-
ers will render a verdict that way if given a chance,—and we shall
urge that the Republican party give them that chance. National
political issues do not count very much here, and our politicians always
fight largely on local issues. The most important of all local issues
is the harm the retail saloon is doing to our population.

SHEBA TEACHES US A LESSON.

Editor Sheba is the author of a most worthy literary effort to edu-
cate his countrymen, by means of a romance, in the knowledge of the
laws of this land. The book will doubtless be of much benefit and it
shows, what has been shown before, Mr. Sheba's most conscientious
and broadminded realization of his duties as an editor,—editor being,
as a recent decision held, a synonym for teacher. The book recounts
the adventures of a Japanese youth who came to Hawaii 18 years ago
and began a career of crime. He started with misdemeanors and grad-
ually rose, so to speak, to the higher grades of felonies. Weaving into
the thrilling story of his adventures some clear explanations of the
laws he violated, the author has produced a work which must certainly
produce a very good effect.

The work is for Japanese and is in the Japanese language. How-
ever, it contains at least one thing that should be educative of Ameri-
cans. Says a description published in The Star yesterday and, be it
explained, written by a Japanese: "He (the hero) escapes the punish-
ment on technicalities of law, but in course of time he meets with Col-
onel Lovejoy of the Salvation Army, repents his innumerable crimes,
and becomes a respectable citizen."

Could there be a more naive slap at our system of criminal prosecu-
tions than this? The hero, be it observed, pursues an expanding career
of crime for eighteen years and though he naturally learns law from
the inside, being in a constant tussle with it, he comes out on top every
time, through "technicalities." Evidently Editor Sheba has not watch-
ed our courts for nothing. The hopeless contest is finally ended by the
Salvation Army. "Innumerable crimes" failed to land the doughty
hero in jail, but finally the Army landed him as a convert and, it may
be presumed, he lived happily ever afterwards, like the married heroes
of days preceding the problem novel and the sad ending.

Mr. Sheba wrote for the purpose of educating Japanese. But he
has produced something that ought to educate Americans.

The National Geographical Society has decided that Peary is en-
titled to a medal for discovering the North Pole. Now let the Uni-
versity of Copenhagen decide that Cook did it first and the library of
Cook and Peary literature will grow like an international banyan tree,
while a bewildered public will wander hopelessly lost amid the jungle
of arguments.

Commercial News

BY L. D. TIMMONS

The stock market was stronger by
considerable odds today than in months
past. Stocks already on the upgrade
were forced farther ahead than had
been calculated for them, while stocks
hitherto dormant assumed vigor hard-
ly expected of them just yet. All
down the line the bulls had the best
of the day's frolic, and seemed to be
in almost undisputed possession of
large parts of the situation this after-
noon.

The most sweeping advance was in
Onomea. Yesterday as high as \$52.25
was bid for this stock. It was gener-
ally felt that even better figures were im-
minent, but few there were who ex-
pected what happened. From that point
there was a wild sweep upward to
\$56.00, at which 60 shares changed
hands. This deal was followed by a
sale of 75 shares at \$57. At the close
of the session there was an offer of
another block of 50 shares at \$57, and
an offer of \$57 for ten shares.

Another lively center was Qahu.
First there were sales of 100 and 10
shares at \$32.50, followed, however, by
115 shares at \$33. There the quota-
tions stuck, \$32.875 being offered and
\$33 still asked when the session closed.
From \$119.50 at the close yesterday,
Waihua swept up to \$120, sales of 20,
25 and 35 shares being made at that
figure. On the boards this morning
\$121 was offered, but holders were de-
manding \$122—an advance of approx-
imately \$4 a share this week.

Ewa also experienced a little of the
boom effects. Between boards 20 and
5 shares sold at \$30.875, which was
yesterday's top market. On the
boards, however, 100, 100, 40, 10 and 10
shares changed hands at \$31. At the
close of the session \$30.875 was offered,
but holders were still demanding \$31.
Ten shares Pioneer sold on the
boards at \$182.50. For the stock \$183
was offered and \$185 asked.
Olaa also fluttered a little, 10 shares
selling at \$5.75, followed by 25 at
\$5.625. A sale of \$500 Olaa bonds was
made at \$100.25.

Between boards 100, 65 and 100 Mc-
Bryde changed hands at \$4.50 and 10
on the board at the same. At the
close \$4.50 was bid and \$4.625 offered
for the stock.
Side sales were 20 shares Wailuku
at \$280 and \$1,000 Hilo Railway sixes
at \$100.25.

TRENT GOING EAST.

Richard H. Trent of the Trent Trust
Company, and treasurer of the City
and County of Honolulu, will sail in
the Manchuria next Saturday for a
business and pleasure visit to various
points in the States. His first im-
portant stop will be at Cincinnati, the
home village of Brother Bill Taft, and
from there the county treasurer will go
to Memphis, his former home. Mr.
Trent will be away less than two

months, returning here in the Mongo-
lia on December 27.

BANK MEETING CALLED.

The directors of the First National
Bank have issued a call for a meeting
of stockholders to be held on Decem-
ber 6 for the purpose of acting upon
the proposal to absorb the Bank of
Hawaii. The date is set more than
a month ahead on account of the fact
that some of the stockholders reside
on the mainland, and must, under the
regulations, be given the chance of re-
presentation personally or by proxy at
the meeting.

This meeting, it is probably safe to
say, is merely a matter of form, made
necessary by the rules, inasmuch as
the business to come before it is al-
ready "cut and dried," so to speak.
There is no longer any question but
that the deal with the Bank of Hawaii
will be put through without opposi-
tion at any hand.

COTTON AT KUNIA.

A. W. von Valkenberg spent all of
yesterday on the cotton plantation of
his company at Kunia, and returned in
a most cheerful mood concerning the
prospects of the baby industry launch-
ed by himself and his co-experimenters.
About twenty-five acres are now in
cotton, and a part of it is starting to
bear. The gin recently purchased will
soon have all the work it can handle
for a while, preparing the lint for mar-
ket.

The cotton company is going ahead
with the work of preparing other land
for planting. A steam plow has been
moved over from Waihua and this is
used to break the hard ground.

In respect to the cotton which will
shortly be ready for shipment Mr. Van
Valkenberg said this morning: "This
first lot of cotton will be offered in the
world's markets as superior grade,
and will be sold as such. Whether
we will sell it in Europe, America,
Japan or elsewhere I do not know;
but I do know that we will take our
time about it and so place the cotton
that it will do us good as an advertise-
ment. We are not forced to sell it
at any particular time, and will wait
for the highest figures obtainable."

ALAMEDA SATURDAY.

The following wireless has been re-
ceived by the Agents of the S. S. Ala-
meda.

"Alameda, November 3, 8 p. m.—Fine
weather, light breeze and smooth sea,
921 miles. Will arrive about 7 a.
m. Saturday."

PROMOTION COMMITTEE.

After attending to routine business
this afternoon, the Promotion Com-
mittee will adjourn to the old foundry
of the Catton, Neill Company in Queen

THE BARGAIN PIANO.

Thayer Piano Company, Hotel street opposite Bishop, has put up a fine \$450 Starr piano which will be decreased in price at the rate of \$5 a week until sold. The instrument has been on this descending scale five weeks now and is down to \$425. As it has dropped lower and lower, interest in the unique method of sale has increased. Somebody is in for a great bargain. Who will it be?

IN THE HOUSE
(Continued from Page One.)

endowing the College of Hawaii, came down from the upper body and on motion was referred to the education committee.

Speaker Holtstein stated that he had on his desk a communication from Mrs. Mary Atcherley. As the Senate had taken the initiative in the matter, he thought it would be advisable to refer it to the Health Committee rather than have it read into the record, especially as it was addressed primarily to the Senate.

The House took up for third reading Castro's joint resolution 1, to create a Commission on Advances to Homesteaders. Castro moved the resolution pass its third reading, and the vote was taken without preliminary debate. The resolution was adopted unanimously.

At 10:21 the House, in Committee of the Whole, resumed consideration of the bill to amend the Organic Act.

On motion of Douthitt the committee voted to reconsider its action on Section 4. Douthitt then offered an amendment to the effect that a provision be inserted allowing the territory to issue bonds for the development of natural resources and public lands. The object of the amendment is to make it possible to put into effect Castro's resolution to create a Commission to assist homesteaders by making advances to them. Douthitt explained that without such an amendment, Castro's resolution would be inoperative on account of lack of funds to carry its objects into effect.

Furtado moved the amendment be adopted. The motion carried and the section was adopted as amended.

At 10:32 the third day of the session, the House finished its work in the bill. Rice moved the resolution as amended be adopted and that the committee of the whole rise and report the House, recommending the adoption of the concurrent resolution, which carries with it the recommendation to Congress of the administration bill to amend the Organic Act.

The motion carried without opposition and the committee rose, and at 10:55 reported, asking time to make a written report. A recess was taken, subject to the call of the chair.

At 11:26 the House was called to order and Chairman Cohen of the Committee of the Whole made his report, recommending the adoption of the concurrent resolution with the attendant bill as amended.

The adoption of the report was a mere matter of formality, the House voting unanimously in favor of adoption. The resolution being concurrent, needs but one reading.

Senate bill 1, appropriating \$5000 for the purpose of defraying the expenses of the upper house, passed its first reading.

On suggestion of the Speaker the House voted to reconsider its action on the concurrent resolution, for the purpose of taking and aye and no vote. The roll was called in the motion to adopt, all the members present going

A GOOD AVERAGE.

Adelaide—How did your summer campaign pan out?
Angelica—It was fairly successful. I captured five engagement rings and only two of them turned out to be paste.

on record as being in favor of the resolution.

Rice asked to be excused for two days as he had important business to attend to. The permission was granted. There being no prospects of any work for the afternoon, the House adjourned until ten o'clock tomorrow morning.

IN THE SENATE
(Continued from Page One.)

that the bill be laid on the table. Similar reports were made on Coelho's bills to exempt small fishermen and peddlers from license fees and appropriating \$50,000 for the relief of persons released from the Leper Settlement, Knudsen dissenting as in the first case.

With regard to the license bill the committee says: "Your committee believes that the loss of revenue to the Territory would be so small that it would not be noticed, whereas the enforcement of the law in such cases might create a real hardship and drive all the sellers of flowers and leis out of business."

The various reports were laid on the table to be considered with the respective bills.

House bill No. 1 providing for seasonal expenses of that body passed first reading.

LAHAINA LANDS.
Coelho with a speech presented the following concurrent resolution, which was referred to the committee on public lands:

Whereas, prior to, and at the time of, the Grand Mahele of Lands in the Kingdom of Hawaii, and thereafter during the labors of the Commissioners to Quiet Titles appointed in pursuance of the Act to Organize the Executive Department of the Hawaiian Islands, approved April 27, 1846, certain of the lands of the Hawaiian Kingdom, situate at Lahaina, Maui, which were intended to have been awarded to private claimants under said Act, but which were not specifically so awarded, were used and occupied and have ever since continued to be used and occupied as private holdings under claims of ownership therein by private parties; and

Whereas, the parties then respectively so using, occupying and claiming the same, and their successors in claim and estate have, in many instances, continued, thence to the present time, to exercise all the functions of private ownership therein, and to pay taxes thereon to the government, as assessed from year to year during many years last past; and

Whereas, such said claimants respectively have in good faith held, and paid taxes upon such lands in the belief that they were legally entitled to claim and hold the same; and

Whereas, the Governor of the Territory has directed the Attorney General of the Territory to institute proceedings of ejectment against the parties above referred to; and

Whereas, it would be inequitable to now disturb them in their possession thereof and claims therein, and it is desirable that their rights therein should be recognized by law:

Now therefore, Be It Resolved, that it is the sense of the Legislature of the Territory of Hawaii in Special Session assembled that the parties holding the lands as hereinabove referred to be not disturbed in their possession thereof and claims therein until the present land laws are modified or amended so as to enable them to perfect their title under more favorable and just considerations.

Be It Further Resolved, that certified copies of this Resolution be transmitted to the Governor of the Territory, the Attorney General and the Commissioner of Public Lands.

PAY OF OFFICERS.
Brown presented a resolution apportioning the pay of officers of the Senate as follows: Clerk, \$12 a day; assistant clerk, \$9 a day; sergeant-at-arms, \$5 a day; messenger, \$3 a day; janitor, \$3 a day; chaplain, \$25 the session.

President Smith called attention to the fact that the pay proposed for

the assistant clerk was one dollar more than that paid at the regular session.

Quinn moved to amend the resolution to make the pay of the assistant clerk the same as last session. Lost, 5 to 4.

Makekau moved that the sessional pay of the chaplain be \$50 instead of \$25.

Quinn regarded it an outrage to have raised the pay of the assistant clerk. The session might only last a few days, but the people looked to them to be economical.

Makekau contended that the proposed raise of the chaplain's pay was not out of proportion to the \$200 allowed to Senators.

The amendment carried, 6 to 5, on a show of hands.

LAND FOR PERSONS RELEASED FROM LEPER SETTLEMENT.
Harvey presented the following resolution:

Resolved, that it is the sense of the Legislature of the Territory of Hawaii in special session assembled that the Governor of the Territory set aside suitable public lands for the purpose of placing such of the persons who were segregated at the Leper Settlement at Molokai and who were examined since April 1, 1909, and found free of the disease of leprosy and ordered to leave the Settlement, as may apply to locate thereon, upon such terms and conditions as the Governor may prescribe.

Be it further resolved that a certified copy of this resolution be transmitted to the Governor of the Territory.

Referred to committee on public lands.

GENERAL LEGISLATION.
House joint resolution for the relief of homesteaders passed first reading on motion of McCarthy.

Chillingworth, referring to the action just taken, suggested that the question should be determined now whether other matters other than the proposed bill to amend the Organic Act could legally be taken up at this special session.

President Smith did not regard it proper to take up general legislation except in cases of emergency, but this House resolution was not foreign to the special business of the session. It might help in the problem of amending the Organic Act.

Chillingworth accepted the ruling.

ORDER OF THE DAY.
Senate bill No. 1 appropriating \$5000 for the sessional expenses of this branch passed third reading.

Coelho's bill increasing the salaries of certain officers of the County of Maui came up under the report of the special committee recommending its passage.

A motion by Coelho to adopt the report of the committee, which would pass the bill on second reading, was lost on a show of hands.

This was the first setback to general legislation at this special session, but the battle royal was yet to come.

THE FIGHT ON.
Coelho scored the next point in the game when his motion to take up reports of the committee on ways and means upon certain bills carried.

Then he moved the adoption of the majority report recommending the passage of Senate bill No. 3, relating to license fees for the sale of fish, etc.

President Smith called attention to the fact that the bill was foreign to the purpose for which this session of the Legislature was called.

Quinn, called for a ruling of the chair on the question of general legislation.

Coelho argued at length for the legality of the procedure in question. The constitution of the State of New York specifically prohibited legislation at a special session foreign to the purpose for which the Legislature was called. Our Organic Act did not prohibit it, which the speaker regarded as a significant fact. In 1904 the Attorney General filed an opinion on the question, and at the special session of that year Mr. Knudsen, then a member of the House, voted in favor of a bill not related to the special

ALWAYS FRESH AIR.

One of the features of Haleiwa is the pure fresh air at all times. It is one of the things that goes far toward keeping people healthy and happy. The meals and service at Haleiwa are all that the most exacting person can demand. Among the attractions is the golf links, admitted to be the best on the island and so located that the maximum pleasure is to be had out of a game. The tournaments there are always as exciting as a golf tournament can be and the meals furnished after a turn are most enjoyable. The management caters to automobile parties and provides meals for them at a short notice. The road down at this season is particularly fine.

THE LEGISLATURE

AFTERNOON SESSION

THE HOUSE

Afternoon Session—Second Day. (Wednesday, November 3.)

At the afternoon session Governor Frear was on hand, and as soon as the house had gone into committee of the whole, and taken up the land law amendments, he explained in simple words of one syllable the purport of the proposed amendments. He went through the bill paragraph by paragraph.

Regarding the paragraph which provides that those who have lived ten years or more on public land shall be given the preference for acquiring title to it, Sheldon wanted to know if five years' residence would not be enough. The Governor replied that that was his original idea, but the conference had changed the figure to ten. He thought five years' residence would be plenty, the provision being primarily intended, of course, to give the Portuguese on Punahele opportunity to acquire title to the lands which they have been occupying so long as subtenants. However, he said, there are Hawaiians scattered throughout the Territory who are living on government land who will also benefit by that provision in the bill.

After Governor Frear had finished his explanation and been excused, Kalohele moved to amend paragraph three on as to cut out the provision for the forfeiture of all rights on noncompliance with the terms of certificates, leases or agreements. Rice offered an amendment, to strike out the words "work a forfeiture of all rights thereunder and." The amendment was carried.

Rice moved that the first, second and third paragraph as amended pass. This carried without opposition.

Afonso offered a grammatical and purely technical amendment to paragraph four. Rice, Afonso and others squabbled over this as if it were really important. A speech by Douthitt settled the question and "may" became "shall." Paragraph four passed as amended.

SHELDON AMENDS.

Sheldon moved to amend paragraph six, providing for giving preference in homesteading to persons who have for ten years resided on public lands, by changing "ten" to "five," in other words, giving the preference to persons who have for five years resided on the land. This, of course affects principally the Portuguese on Punahele who are living on government land subleased to them. The amendment was adopted.

Afonso moved to change another "may" to "shall."

Rice further amended to change "person" to "citizen," so as to bar any noncitizens from preference rights. The citizen should have this preference right, he said but never the alien.

Afonso saw he was cornered and withdrew his amendment. Rice wasn't seconded and the paragraph passed as amended by Sheldon.

The next paragraph, in reference to churches, Sheldon moved to amend by substituting "five" for "ten," for the length of time the church land must have been occupied to be patented. Carried.

Paragraph 8, relating to sales or exchanges of public lands exceeding forty acres in area or \$5,000 in value, passed as in the bill, though a contest over it had been anticipated.

ASSISTING HOMESTEADERS.

Reverting to the first paragraph Douthitt suggested that the legislature be authorized to negotiate a loan to assist homesteaders, in conformity with Castro's joint resolution to create a commission to assist homesteaders.

Castro thought it would be wise to have something in the bill to enable the Territory to develop natural resources. But he would prefer he said to pass the amendment for a day, so he could determine whether or not the congressional act providing for the conservation of natural resources applies to Hawaii.

Sheldon broke in with a motion that the committee rise and report progress. But Cohen put Douthitt's motion to reconsider the action on section 4. The motion was lost by a close vote.

"We have now finished the bill," remarked Cohen.

Afonso moved that the bill pass as amended. Douthitt insisted on the motion that the committee rise and report progress, and the motion carried. The passage of the bill was prevented for the time being. The committee rose and reported.

Nobody having anything else to present, the house adjourned.

You will find that it will well repay you in satisfaction to give personal attention to the selection of ornamental locks and hinges for your new house. The largest assortment is to be found at Lewers & Cooke, Ltd.

THE SENATE

SECOND DAY. Afternoon Session. Wednesday, November 3.

A communication from Mary H. Atcherley was the first thing brought before the senate at the afternoon session. President Smith announced its receipt on calling the session to order, saying it was of great length. Yet there were matters in the letter which might properly be referred to the judiciary committee, being in relation to the lunacy commission and the administration of the asylum. He read passages from the concluding part of the letter, which spoke of murderous plots against Dr. Atcherley.

Knudsen demurred to reference to the judiciary committee as, at the regular session it had thrashed out the Atcherley matter. Chillingworth also objected, saying it was a shirking of the senate's duties. The letter should be considered in committee of the whole. In answer to the president's statement that the insanity of Dr. Atcherley had not been decided, or the lunacy commission in existence, at the time of the regular session, the speaker said the judiciary committee did have the Atcherley grievances in consideration. Sheriff Jarrett was before the committee on a complaint that he had unlawfully locked the doctor up.

On a division it was referred to the judiciary committee.

Kalama presented a report of the special committee on the bill raising the salaries of certain officers of the County of Maui, recommending its passage.

Coelho moved the report be adopted. Makekau that it be laid on the table to be considered with the bill. The amendment prevailed.

THE ORGANIC ACT.

Knudsen was called to the chair in committee of the whole to consider the proposed amendments of the Organic Act in a concurrent resolution. It was decided to read the congressional bill section by section, those to which no amendment was offered to be taken as recommended for passage.

Section 1, amending section 5 of the Organic Act, making the Constitution of the United States and laws thereof not locally inapplicable have force in the Territory, passed without comment. Makekau, on section 2, relating to salaries, moved to make the sessional pay of members of the Legislature \$1000 instead of \$600, as in the bill, for a regular session.

Smith thought a thousand dollars not excessive, but doubted if it would pass congress. It might seem like opening their mouths too wide. Such a provision was liable to endanger the whole bill. The regular session was limited to sixty days and \$600 was a fair indemnity. He moved the section pass as in the bill.

Chillingworth and Harvey in duet seconded the amendment to the amendment.

Coelho was surprised at the opposition of the Oahu members to the amendment, as they voted in 1905 for a resolution of Senator John C. Lane for \$1000.

Smith suggested that, if the bill was to be amended, it should be to make it \$600 for a regular and \$300 for a special session.

Robinson said they were asking congress to increase the Governor's salary 100 per cent. He did not think it was going beyond the mark to ask for a similar increase of the pay of legislators. He moved an amendment to the amendment, making the pay \$800 for a regular and \$400 for any special session.

Kalama wanted to defer consideration, as the house had done so.

Knudsen advised that the senate act independently and if its decision was different from that of the house send the matter to conference.

There were eight votes for the amendment—\$1800 for a regular session and four for \$800 regular and \$400 special. AID FOR HOMESTEADERS.

McCarthy, on section 3, relating to public indebtedness, moved the following amendment:

Resolved, That a new section be added to the bill to read as follows:

That section 55 of said Act is hereby amended by adding thereto the following:

"Provided that nothing herein or in this Act contained shall prevent the legislature of the Territory from loaning and advancing money for necessary permanent improvements to needy citizens or those who have declared their intention to become citizens, taking up public lands for homestead purposes and making provision to secure such advances and the repayment thereof, nor from voting subsidies to individuals or corporations or both to secure efficient, prompt and cheap transportation to market by land and sea of the products and freight of the citizens of the Territory if and provided

such legislation as the same is enacted receives the express approval of the President of the United State."

The mover offered remarks in support of the amendment, relating the difficulties and obstacles with which homesteaders are now confronted.

On motion of Baker the amendment was deferred until it could be printed.

McCarthy on section 5, relating to public lands, said the section was the one on which a scrap was anticipated, therefore he moved its consideration be deferred until the rest of the bill had been considered. Carried.

Section 6, relating to disqualifications of judges and jurors, passed.

So did section 7, relative to the public property ceded to the United States by the resolution of annexation.

Baker, on section 8, relating to salaries of officers, moved to make the salary of the Governor's private secretary \$2400 instead of \$2,000.

Harvey moved it pass as in the bill. Carried.

Section 9, to legalize naturalizations by circuit judges prior to June 29, 1906, passed.

AID TO EDUCATION.

Coelho moved to insert a new section to read:

Section 11. That a new section be inserted as section 103A, to read as follows:

"There shall and hereby is set apart as a permanent appropriation, one of the annual revenues of the customs district of Hawaii, the same to be a permanent endowment, the income from which is to be devoted to the public schools of the Territory for teachers' salaries and school supplies."

The mover said that this emanated from a member of the school fund commission. It would hurt us nothing to ask for it. There was need of the local revenues for appropriations for other purposes. The territory was educating oriental children, who never in God's world would become American citizens, yet it was a duty which must be performed.

Smith said there were three distinct propositions originating with the school fund commission. That introduced by Coelho provided for the income only of one-third of the customs receipts to be applied to education. A proposition handed to him provided for the direct application of the one-third to the schools. While he doubted the propriety of inserting any provision relating to the matter, which had often been discussed heretofore, he would submit the proposition for consideration along with the other. It was the following:

JOINT RESOLUTION.

"Be It Resolved by the Legislature of the Territory of Hawaii:

"That in order to provide a sufficient fund for the proper support of public schools and the furtherance of education in the Territory of Hawaii, the congress of the United States of America is requested to provide that one-third of all the customs duties collected annually by the United States upon foreign imports into the Territory of Hawaii be set apart each year and made available for such purposes, and that the delegate to congress from the Territory of Hawaii is requested to present in the congress a bill to accomplish such purposes."

It was voted to have the amendments type before further consideration.

Coelho moved that the committee rise and report progress.

Smith wanted to take up the deferred land laws section. Answering Coelho he urged that the senate to not wait for the house.

McCarthy thought that all the other proposed amendments to the bill should be disposed of first. Otherwise the senate would become stalled up.

Smith contended that the other sections had nothing to do with his one. By a vote of seven to four on a show of hands the committee rose and reported progress.

Robinson presented a report of the education committee on resolution No. 1, relating to quarters and appliances for the College of Hawaii, recommending its passage. Adopted.

At 2:50 the senate adjourned.

ADDRESS BY REV. WESTERVELT

The Rev. W. D. Westervelt of Honolulu (formerly of Chicago), has consented to give his stereoscopic lecture of 100 slides on "The Hawaiian Islands" at the College Chapel on Thursday evening of this week at eight o'clock. The admission will be free, and all are invited. This lecture was given, among other places, at the Congressional Summer Assembly at Frankfort, Michigan, the past season, and it awakened so much interest that Dean Lee, who was present, invited him to stop off at Topeka on his homeward journey and give it at Washington for the benefit of the students and the general public. Prof. Wilcox, of K. U., who also heard it, asked him to give it at the University. The lecture is exceedingly instructive and highly entertaining. Mr. Westervelt will also speak at the Thursday chapel upon "The Folklore of the Hawaiian and other islands of the Pacific," a subject in which he is an expert.—Washington (Topeka) Review.

TRY TO BOOST COTTON PRICES

BOSTON, October 10.—A gigantic movement is in progress throughout the leading cotton textile districts of the world looking to a general curtailment of production during the remaining months of this year and during 1910.

The principal reasons advanced for the movement are the gradual increase in the cost of raw material in the southern states and in Egypt, and the failure of the dry goods markets to respond in a way which would assure continued profit to manufacturers during the next 12 months.

The curtailment movement had its inception in Lancashire the greatest cotton goods producing district in the world. In Lancashire the yarn spin-

ners have been running their mills on short time for two months, and recently many other English mill owners voted to shut down two days each week until November 8.

On September 15 the Arkwright Club of Boston, representing 14,000,000 out of the 17,000,000 spindles in New England sent out to all the cotton mills in this district, which is second in the industry to Lancashire, forms of agreement for signatures for a curtailment. The investigations of the executive committee of this club convinced it that no difficulty would be experienced in securing the signatures representing 7,000,000 spindles.

The proposition calls for the suspension of work for 224 working hours between the date of the agreement and August 1, 1910, to become effective when no less than 7,000,000 spindles have been signed up.

In certain cotton producing and selling centers the claim is made that the present curtailment movement is largely an attempt to hold down the price

of the staple. The officials of the operatives' unions in several New England cities profess to see in the campaign an attempt to avoid an advance in wages, but the officials of the Arkwright Club deny that the wage question has anything to tempt to avoid an advance in wages.

The cotton mills of New England, including yarn mills employ upward of 200,000 hands.

PRIVIDENCE, R. I.—All the leading cotton mills in Rhode Island are to close for 30 days and perhaps longer, according to the statements of agents made here, on account of the high price of raw material.

BACKACHE.

Backache is a very common affliction and is caused by the nerves of the spinal column being affected. Dr. Miles' Nerve Tonic will relieve the pain by soothing, strengthening and curing the nerves and equalizing the nerve force. If first bottle does not benefit, get your money back from your druggist.

"The Elevator To Success Is Not Running--- Take The Stairs"

If you have been waiting for a rich uncle to get jerked hence and leave you a big fortune, give it up. He may live twenty years more.

If you thought that the way to make money was to save for several years and then buy a big city block, give it up. City blocks are hard to get, and you will lose the worth of two or three of them while you are waiting and saving.

If You Want to Save Money and Make Money Take the Common Sense Method

•HERE ARE THE RULES:

- (1) Buy a place you know is good and has promise of growing better all the time.
- (2) Take something easy that you know that you can handle. Don't attempt big things until you have successfully handled smaller ones.
- (3) Buy close home where you can see what you have and keep your eye on it.
- (4) Buy for future advance rather than present worth. Get something that in all reason ought to be better next year.
- (5) Take on all you can possibly handle. If you have enough to pay down on one lot, take three instead and pay part on each. The all-cash method is too slow for good money-making.
- (6) Act at once. Don't let grass grow under your feet. Delays never pay dividends.
- (7) Undeveloped property always pays bigger than developed property.

If you make an investment in the KAIMUKI NEW OCEAN VIEW DISTRICT, your savings will have a splendid opportunity to grow with the city.

If you have any doubt about the city growing, think about the new buildings to be erected soon, including the Federal building and a \$150,000 Y. M. C. A. building, the millions of dollars to be spent by the U. S. Government for military and naval improvements, the increasing millions of our agricultural and other products, the assured advantages to be derived from the Panama versally recognized as the best and a few other delightful and healthful climate is being universally recognized as the best, and a few other things that makes it easy for us to understand why Honolulu has the most promising future that ever confronted an American city.

Invest your savings at home where they will grow. The size of our lots in the Kaimuki New Ocean View District are 11,250 sq. ft. each, and our prices are \$500.00 for corner lots and \$400.00 for inside lots with liberal installment terms.

NEWS IN A NUTSHELL

Paragraphs That Give Condensed News of the Day.

Noite's is the place for a good, quick meal at a low price.

The 57th regular meeting of the Hawaiian Entomological Society will be held at 3:30 this afternoon in the entomological rooms of the H. S. P. S. Experiment Station Keeaunoku street. Exhibition of specimens, E. M. Ehrhorn. Sugar Cane Mealy Bugs, Jacob Kotinsky. A New Rhipis, Messrs. Fullaway and Kotinsky.

Forcegrowth makes lawns grow luxuriantly. Order from E. O. Hall & Son, corner Fort and King streets.

The Wireless office is open on Sunday mornings from eight to ten o'clock and each week shows an increase in the number of messages filed.

Carter's photo and library paste is unquestionably the best in the market. Sold in glass jars, tubes and pencils by Honolulu Photo Supply Co. The Honolulu Draying and Construction Company's steam roller, dragging several wagons loaded with road material, broke an axle in front of the Rapid Transit Power House this morning, delaying Rapid Transit traffic for some time.

For decades Noite's has been the noonday rendezvous of the busy business man. Everything cooked right and served quickly.

In police court this morning the case against "Phoney" Davis was continued for a future hearing. He was at midnight yesterday arrested by License Inspector Fennell and charged with selling liquor without a license. Detectives Kellett, Olsen and Kamaoia attended Fennell in his raid and the second story of a frame building on Richards street below Queen was the place raided.

Hawaiian Lodge will hold a stated meeting this evening at 7:30 o'clock for work in the second degree.

The annual meeting of the Catholic Ladies' Aid Society will be held at the Convent at 3 o'clock on Friday afternoon.

Capt. W. C. Johnson and Haymond Sheldon, 18th Infantry, will play tennis this afternoon at 3:30 with Roth and Gee on the Beretania courts.

Dr. Victor S. Clark, the census commissioner, says in an interview that one of the features of next year's census will consist of statistics of the sugar industry in Porto Rico, Louisiana and Hawaii. Another innovation will be the recording of the experience of all who have either military or naval service to their credit, the information to be used partly in national guard plans.

Noite's is open from early morning until 7:30 p. m. Standard meals are served at all intervening hours. Dining hall is large and cool.

It is expected that the commission of Captain Rees, commandant of Honolulu naval station, raising him to rear admiral will be signed by President Taft on his return to Washington.

R. B. Marshall, chief geographer of the United States Geological Survey, has made a report to Marston Campbell, head of the public works, lands and survey departments. He recommends that the topographic work by the Territory for the conservation scheme begin on the island of Kauai.

Next Thursday and Friday free lectures at Young Hotel on "How to Learn French or German in Five Weeks."

Among the Governor latest appointments sent to the Senate is that of George W. R. King to be Deputy Auditor of the Territory in succession to H. C. Meyers, resigned. Mr. King has been in the Audit office ever since the audit law came into effect on July 1, 1898, giving perfect satisfaction to the different chiefs and deputies in that time.

Otto Wix has returned from Kauai with a fine collection of his pictures which he will exhibit here.

Judge Whitney gave judgment for defendant in the suit of M. F. Scott vs Joe Maria alias Joe Maria Pedro.

Jacob S. Bailey has filed an answer and cross libel to his wife's divorce suit. He says she being drunk ejected him from home.

It is stipulated that the Dreier inheritance tax case be tried without a jury. The estate claims a refund of \$11,864 from Treasurer Conkling.

The Woman's Exchange is laying in a big stock of curios for the holiday trade. Drop in and see their nice display.

business which nevertheless became law.

From this Coelho argued rapidly in favor of his various bills, contending that some of them came under the

category of emergency. Young men were deprived of their constitutional right of voting by one law he sought to have amended. Small dealers in fish and even the women selling flowers on the street corner in Honolulu were liable to arrest today unless the merchandise license law. In loud and impassioned tones, proclaiming himself a Republican, he appealed to his colleagues and to the president by name not to obstruct the measures of needed relief for various classes of the people.

Quinn again asked for a ruling before going ahead.

Chillingworth thought Coelho was correct in his legal contention, but the question with him was whether it was good policy to take up other legislation than that for which they had convened. He felt much sympathy with Coelho, who was one of the hardest working members of the Senate. Some of his bills were very desirable, but it was for the Senate to decide whether it was good policy to take them up now. He concluded by moving:

"That it is the sense of the Senate that no subject matter foreign to the object for which this session has been called shall be considered."

Coelho said that if this were adopted even the bills appropriating legislative expenses would be illegal.

McCarthy stated his opposition to taking up foreign matter.

Baker agreed with Chillingworth that it was up to the Senate as a matter of policy. Except for emergency he did not think it proper to go into subjects outside of the call. Some of Coelho's bills were of an emergency nature, the speaker giving instances of hardships that they would avoid.

Robinson did not think it right to raise the question now, or bring in a motion to quash everything of a general character already done. The resolution should have been introduced at the opening of the session.

Knudsen, asked by the chair for his opinion, said he believed if a bill contained a matter of emergency and the Governor signed it, it would be legal. He agreed that it was a question of policy. It was not fair to introduce general legislation when some members were absent in Europe and on the Coast. He thought it would be wise policy to refrain from general legislation. Some of the laws proposed to be amended had been in force but a few months and there had not been time to see how they were working. He believed he could give a ruling in favor of the legality of admitting general legislation, yet would vote against taking up matters of that character.

Coelho in closing said the matter should have been brought up on the first day. He heartily agreed with the sentiment that there should be a limit, and on introducing his string of bills the first day he announced that he would have no more. On the other hand the Senate had the power, as exercised sometimes at regular sessions, of setting a day beyond which no new measures should be introduced. It could have taken such action at the outset, as it could have decided the present question but did not. Moreover the passage of his bills would not cost the Territory one extra cent.

President Smith suggested a recess until two o'clock to give members time to investigate the question. This was on motion adopted and the Senate rose at 11:20.

Dr. Victor S. Clark, census taker, has approved the appointment of Alfred Finley Thayer as correspondence clerk in the Honolulu office, which is to be established in the executive building as soon as the Legislature is through with its labors, and appointment coming from Washington on recommendation of Governor Frear and one or two other prominent Honoluluans.

Thayer is at present on the writing staff of the Bulletin. His new duties will be to handle correspondence for Dr. Clark while the latter is touring the islands. There will be no other appointments until the preliminary census work has been accomplished, when enumerators will be selected.

Decided Bargains

BISHOP TRUST CO. LADIES DEPT.

The Bishop Trust Company, Ltd., beg to announce that on January 1st, 1910, they will open a Ladies Department in connection with their Trust business, where ladies, desirous of saving money, or with property interests, or funds to invest may call or correspond and receive advice as to opening a bank account, putting their funds out at interest, buying real estate, stocks or bonds, or investing in any other class of security. Under the laws of the Territory a woman can hold property in her own right.

The Bishop Trust Company feel that they have been fortunate in securing for this Department the services of Miss J. T. MacIntyre, who is well known to the business community of Honolulu as the manager for eight years past of Bishop & Company's Savings Bank. Miss MacIntyre will have an office in the Bishop Trust Co's building on Bethel street, where she will be found daily from 9 to 12, after the 1st of January.

All accounts and transactions strictly confidential.

AMERICANS TO USE A FOREIGN PORT

THE ONLY WAY TO COMPETE WITH FOREIGN SUBSIDIZED STEAMSHIP LINES—A PLAN TO SHIP FROM A MEXICAN PORT EHUS AVOIDING COASEWISE AND RATE REGULATIONS.

Unless the United States changes its policy in short order and decides to foster its shipping by subsidizing its vessels the rapidly increasing Oriental trade will soon be entirely controlled by foreigners; the Pacific Coast ports of the United States will be alive with shipping flying the flags of foreign nations; foreign bottoms will be feeders for the transcontinental lines; and American exporters will have to depend upon these same foreign bottoms to carry their products to the Oriental markets.

That the United States should be placed in such an inglorious position on the high seas as to be dependent upon foreign vessels for its commercial existence is a disgrace upon the niggardly policy heretofore carried out by this government.

Subsidizing steamships belonging to Japan have captured the cream of the Pacific Ocean freight. China will also enter this field with subsidized ships and control the rapidly increasing freight from that country. The United States, whose flag at one time proudly floated in every port of the world, and was a recognized maritime power, now has the humiliation of knowing that in the foreign trade her day is past—because the law-makers of this country have opinions of their own, and cannot learn from the advancement of other nations, which have adopted the plan of subsidizing their ships.

President Taft has proclaimed himself in favor of subsidy for American vessels; members of the congressional delegation which recently returned from Hawaii were loud in their statements to the local press that they favored subsidizing American ships, and some of the same delegation who had probably never before taken a voyage to off-shore ports, also expressed their surprise at not having sighted an American flag at the peak of a ship while on their junketing trip.

Not only has the policy of the government of the United States virtually driven the American flag from the seas and diverted capital to foreign countries, but it is about to drive considerable freight to foreign ports for export, thereby not only enriching the port at which the freight is reshipped, but bringing into the trans-Pacific carrying trade the ships of still another European power to handle American export products for the Orient.

American capital must find investment. Millions of American money is invested in foreign-built ships flying foreign flags, that carry on a trade between the United States and foreign ports. But the latest scheme to invest capital and incidentally divert trade from Pacific Coast ports of the United States, and which is chargeable to the shortsighted policy of this government in its non-support of American shipping, is the proposed construction of a new railroad line from the Atlantic seaboard to Topolobampo, Mexico.

Edwin Hawley, a coming railroad magnate, realizes the possibilities of the Oriental trade and has decided to enter that field. He also realizes the utter impossibility of attempting to transship freight from rail to American bottoms and successfully compete with foreign-built vessels, under the policy now in existence in this country.

To put himself on a footing with his competitors, Hawley has decided to ship freight originating in the United States and gathered by his lines, from a Mexican port, thence in foreign vessels to the Hawaiian Islands and Oriental ports. At the present time he has control of a line of roads stretching from the Atlantic seaboard to Kansas City.

A traffic agreement has been arrived at between the Chicago & Alton and the Kansas City, Mexico & Orient road, in course of construction between Kansas City and Topolobampo, Mexico, a distance of 1659 miles, which agreement will be extended to the Hawley roads.

The Kansas City, Mexico & Orient road has an agreement with the Hamburg-American Steamship Company by which the latter will inaugurate a new trans-Pacific line between Hongkong and Topolobampo upon the completion of the rail line.

The exports from this country via this route would consist of iron, steel, packing products and agricultural commodities; and from the Orient, minerals, live stock, coal, timber, silk, wool, cotton and manufactured furniture.

Although the rail haul from the Eastern seaboard to the Pacific would be 1000 miles shorter and 500 miles shorter from Kansas City, as Topolobampo is that distance east of San Francisco by shortest present dispatch, the steamer route would be considerably longer. This proposed combined route of rail and steam would be a strong antagonist to American-capitalized trans-Pacific steamships, and in the event of keen competition for freight and consequent cutting in rates, would entail heavy losses to the American owners, as the latter could not successfully compete with the subsidized craft of foreign nations unless assistance was rendered by congressional provision.

The idea of using a Mexican port for the trans-shipment of freight from this country to the Orient in foreign bottoms, more than likely was in the mind of the late E. H. Harriman, when he conceived the scheme of extending his rail lines to Guaymas, Mexico.—American Asiatic.

THE NEGLIGENT VOTER.

Municipal elections are soon to be held in many cities in this country and the partisan newspapers are at present busily engaged in admonishing voters to "register now." Party leaders are hard at work organizing their forces and routing business men out of their political lethargy to insure their eligibility on election day. This is the first stage of the actual process of exercising the suffrage, the most important, indeed, inasmuch as the unregistered citizen is as helpless as a minor or an unnaturalized alien. One of the most remarkable phenomena in our American system of self-government is the indifference of a large percentage of people to the matter of electoral qualifications. So many law-abiding, honest citizens fail in this important duty that the professional politician, the man to whom the manipulation of municipal affairs is a business—and a most profitable one—has little difficulty in controlling primaries and elections.

The outcry for direct nominations represents a real evil in our affairs, and one for which the people themselves are responsible through their lack of intelligent practical interest in the preliminary work of selecting candidates. As long as municipal affairs are regulated on the basis of party organization, it is the duty of every citizen to participate in the activities of that party with which he is affiliated, to reduce to the lowest possible point the danger of professional partisanship and the utilization of the municipal machinery for corrupt ends.

It is a favorite argument of the women who advocate the extension of the suffrage to their sex that they would not neglect so important an obligation as that of registering as voters. Probably for some time after the change they would be diligent, but it is not unjust to suggest that they might flag in their interest after a few seasons and find themselves the objects of as great a solicitude on the part of the leaders as are their husbands and fathers today.—Washington Star.

OOD Artistic Work

at the Crossroads

A visitor at the Seattle Exposition, a first-class foreman printer, called for information about the chances of going to Hawaii to introduce good American, artistic printing. By way of answer he was handed a splendid circular, in colors and half-tones, just issued from the Printing Department of THE HAWAIIAN STAR NEWSPAPER ASSOCIATION, LTD. He said he would change his mind about coming here to teach. * * *

Our Printing is always clean and artistic, and our prices are the lowest.

We guarantee quick delivery.

Telephone 365

HAWAIIAN STAR NEWSPAPER ASS'N, LTD.,

McCandless Bldg. Bethel Street

When you need good printing, don't worry, just send it to the STAR. We do the rest.

Be Not Deceived

There is only one cleanable Refrigerator and therefore GERM PROOF, and that is the Gurney Refrigerator handled by us.

No other make has ever stood the test and by means of the removable ice chamber as well as removable shelves, drain pipes, traps, etc., we have solved the problem.

Assail us where you will you cannot help but admit our claim. All other makes fail when it comes to keeping the ice chamber pure, sweet, clean and germ proof, but

THE GURNEY

Listen to idle talk and arguments put forth in favor of cleanable provision compartment. All refrigerators have this feature. You cannot deny that unless ALL COMPARTMENTS can be kept absolutely pure and wholesome that a refrigerator is germ-proof. Go from the provision chamber to the receptacle for the ice and it is here where all other makes fail. There's the weakness that cannot be overcome by them.

The Gurney with its removal ice chamber feature has supplied the great want and therefore.

Is the Only Cleanable

Come in and bring forth your arguments and if we fail to convince you we are ready to take your decision. A full line always on hand. They are used in almost every household. Do you possess one? If not why not, it costs no more than other makes.

Two Great Press Associations Cable News to "The Star"

The Star, Retaining Membership In The Associated Press, Greatest Newsgathering Organization In The World, Has Also Joined The United Press, Its Great American Rival. * The Star Now Gets Cable Service Every Day From Both

Up to now Honolulu's newspapers have been served almost exclusively by the Associated Press. * Splendid as that service has been, and still is, we believe that a supplemental and independent report from its rival association will be of great value. * In harmony with the progress Honolulu is making as a community, The Star has improved its telegraph service by adding the service of the United Press Associations. * In the reporting of great events, it will at times be of the deepest interest to compare the two reports of these great newsgathering organizations.

REPAIRING THE WHITE HOUSE

WASHINGTON, October 15.—Congress sets apart thousands of dollars a year for maintenance and repairs at the White House. The latter cost quite as much as the former, due to the fact that the house is visited yearly by great throngs of people who leave behind them trails of wear and tear that demand prompt attention.

The annual house cleaning and repairing always take place while the President and his family are absent for the summer, and this work for the current season is now drawing rapidly to a close. It is expected that the house and grounds and the enlarged executive office will be in readiness for occupancy by the time Mrs. Taft returns to Washington from Beverly, about the middle of the present month. Certainly everything will be in first-class condition by the time the President returns, a month later.

The President has approved a plan to finish the interior of his private office in the enlarged executive building with wood grown in the Philippines. The parquet flooring of the office will be of Tuscan Calao wood, dark green in color, which grows abundantly in the islands. The furniture in the President's office will be covered with the skin of the carabao, or Philippine buffalo, brought from the Philippines for this special use. So much for the President's good will for the little brown men.

The White House has been given a new coat of paint during the summer, prior to which several coats of the old paint were carefully removed. The building has never presented a cleaner and more inviting appearance than at present. Inside, the green room has been redecorated, the furniture reupholstered and the woodwork repainted. All the other parlors have been gone over carefully and put in first class condition for the return of the presidential family, but no radical changes have been made in either furniture or decorations.

As a whole, however, the interior will present a most attractive appearance, and this will last pretty well through the social season, which will begin early in the winter. Mrs. Taft, while she will take things more philosophically than she did last season, has invited her sister to help her in receiving, and plans are under way to make the Taft's first winter in the

White House memorable socially. This will be the easier because of Mrs. Taft's fondness for social affairs, and her finely developed musical and artistic tastes.

The new addition to the executive offices rests on the tennis court, where President Roosevelt passed so many hours of his time. It provides spacious rooms for the use of the President, the cabinet, the President's staff of clerks, and has besides a private room for the President, adjoining his public reception room, into which he was at will, retire for quiet talks with visitors and government officials. This new addition, for the first time in the history of the government, gives the President official quarters somewhat in keeping with the dignity and importance of his high office, although they are still, and probably will continue to be so, far inferior to those provided by other great world powers for executive use.

A good deal of attention has been given the furnishing and decorating of those parts of the enlarged offices which the President himself will use. The walls of the President's office into which accredited visitors and others

having appointments will be ushered, show a room of oval shape, somewhat resembling the famous blue parlor in the White House, and of about the same size. The walls will be gray-green in tint, giving a metallic effect. Over a cream enamel wainscot around the room will be an embroidery of stars and stripes in gray-green and gold.

Adjoining this room is the President's private office a smaller room, to be used for semi-private conferences. Its general tone will be rose red, with furniture of the lounging type and a rug, darker than the walls and draperies, on the floor.

The furniture of the old cabinet room whose walls and draperies will be light gold in tone, giving the room a cheerful appearance. A rug of suitable color will be on the floor.

Secretary Carpenter will have a new office, as spacious as the old one, and its walls will be tinted a soft melon green. The rug will be of dark red ground with the border reflecting the wall tone.

TO DEPORT ALL NEGROES.

ROME, Ga., Sept. 18.—Rome will be the national headquarters of a new

order, known as the Order of True Americans, which has for its object the settlement of the race problem by the deportation of the race problem by the deportation of negroes.

The Rev. J. R. Lamb, the founder of the True Americans and national president was here today making arrangements for the publication of a paper to set forth the principles of the order.

The objects are to secure territory for the American negroes outside of the United States, to purchase at an honest price all lands in America owned by negroes, to repeal the Fifteenth Amendment to the Constitution, to disfranchise every negro voter in America, to remove every negro to the territory secured for this purpose and to establish the race in a government of its own as an independent nation.

President Lamb says the order has lodges in every Southern State and in some Northern States.

Where is your money? Why not put it in a saving account at the Bank of Hawaii, Ltd., where it will earn four and one-half per cent interest?
