VOL. V.

HONOLULU, H. I., WEDNESDAY, JUNE 1, 1898.

No. 1593

FLAG FOR THE CHARLESTON

KAPIOLANI WILL REWARD THE SERVICE TO KALAKAUA.

Presentation to be Made to Captain Glass Tomorrow Morning—Historical Facts.

At 10:30 tomorrow morning Queen Dowager Kapiolani will visit the U. S. S. Charleston for the purpose of presenting the ship with a large American flag as a token of her appreciation of the kindness of the officers of the war vessel immediately preceding and following the death of her late husband in California in 1891.

The flag is fourteen feet in length and is all fine silk. It was made with great care by Hawaiian ladies, the Queen Dowager supervising the work. The presentation will be made by Kapiolani to Captain Glass. On the occasion the Queen Dowager will be accompanied by Prince David Kawananakoa and several ladies.

The incident to which this function has special reference will be remembered by all. In November, 1899, King Kalakaua, then in rather bad health, visited California as the guest of Admiral Brown on the Charleston. He was well received and shown every attention in San Francisco. Shortly after his arrival there, however, he was taken quite ill. Reports of his condition reached the islands about the middle of January.

On January 20, 1891, the King breathed his last, at the Palace hotel. Admiral Brown personally supervised the arrangements for embalming the body, and was detailed in the Charleston to return the remains to Honolulu.

On January 29th the Charleston was sighted off Koko Head. The cock billed yards on her masts told in advance of what had happened. Thousands upon thousands of people, natives and foreigners, gathered on the wharves to see the warship come in. The body was promptly transferred from her to the Royal Palace.

The acts and expressions of Admiral Brown on this occasion greatly impressed the native Hawaiians, and ever after that they held an immense Aloha for him and for his ship, the Charleston. The hookupu given him a short time later was quite the grandest thing of the kind ever undertaken in Honolulu. Standing on Brewer's wharf the admiral was literally buried under a flood of leis, and fruits and produce, a small quantity from each native, was piled ten or fifteen feet high all around him.

In her bereavement the Queen Dowager did not have the opportunity to remember the Charleston. She has always had the matter in mind, however, and will at this time show her recognition of the services of the good ship.

MAJOR BARTLETT.

Major H. A. Bartlett and wife, who formerly lived here, but for the past year or two have been living in California, were passengers on the S. G. Wilder. They brought down a pair of fine carriage horses and expect to remain here some time and thoroughly enjoy Honolulu.

Mr. P. Ketcham of Pike City, Calif., says: "During my brother's late sickness from sciatic rheumatism, Chamberlain's Pain Balm was the only remedy that gave him any relief." Many others have testified to the prompt relief from pain which this liniment affords. For sale by Benson, Smith & Co., wholesale agents for the Hawaiian Islands. All druggists and dealers.

ART AND SCIENCE.

At the World's Columbian Exposition art and science was thoroughly exemplified. The greatest achievements of modern times were on exhibition. Among the many beautiful displays none attracted more attention than that made by the Singer Sewing Machine Company. It won the enthusiastic praises of all. B. Bergersen, Agent, Bethel street.

NEVER BEFORE OFFERED.

The ladies are flocking to L. B. Kerr's millinery sale, and those who are competent to judge express the opinion that such values were never before offered in this or any other country.

MESSENGER SERVICE.

Honolulu Messenger Service deliver messages and packages. Telephone, 378.

No fewer than 1,173 persons have been buried in Westminster Abbey.

Fine Repair Work.

When your Bicycle, Gun, Typewriter or any article of fine mechanism needs repairing and you wish a job which is certain to prove satisfactory, bring it to us and we will fix it for you and guarantee it fully.

We take pride in turning out only the very best of work and will call for and deliver it to any part of the city.

Pearson & Hobron

312 Fort street. Telephone No. 565. Opposite Lewers & Cooke's.

EXTRA EDITION, 8 P. M.

REPORT OF A BATTLE IN THE WINDWARD PASSAGE.

Admiral Sampson is Said to Have Sunk Another Squadron—No Official Confirmation of the Engagement can be Secured.

THE BOYS IN BLUE.

The Boys in Blue are here. Just before sunset the City of Peking, crowded from stern to stern, sailed majestically into the harbor, followed by the Australia and the City of Sydney.

Never were men or ships greeted more enthusiastically. Every steam whistle in or near the harbor screamed forth its welcome. The soldiers answered lustily with cheers and the waving of caps.

It was an inspiring sight. The big wharves were crowded. The steamers that took out the reception committee, the James Makee and the Waiialeale, were gaily decked out with bunting. The latter came in ahead of the Peking. The Makee remained behind to escort the sister ships.

The men will probably be allowed to come ashore tomorrow.

Colonel James M. Smith in speaking to a Star representative, said:

"If the boys go on shore at all, it will be as a unit, in one body and under the eyes of their officers."

They will not be allowed shore leave tonight.

Only 50 men out of 1,300 were sent on the trip down on the Peking. There was more sickness among the officers than the men.

Mr. Davis of the New York Sun and Mr. Boeringer of the New York Herald and Call are on the Australia.

The Australia has five cases of measles on board and is in quarantine.

Just before the fleet sailed President McKinley issued a call for 75,000 additional troops.

In the expedition are twelve companies of the Oregon National Guard, twelve companies of the First Regiment of California, four companies of regulars of the Fourteenth, and one company of heavy artillery.

Vice Consul Boyd returned on the Australia.

RUMORED BATTLE.

WASHINGTON, May 24.—Sensational reports of a battle in the Windward Passage in which Admiral Sampson is said to have sunk the entire fleet of the Spanish have reached Washington from Madrid, from London and from Port au Prince, by way of New York, but up to a late hour tonight no official confirmation of the engagement could be secured in any quarter, and Secretary Long, when seen just before midnight, reiterated the statement made in the official bulletin posted just before the navy department closed to the effect that no information had been received indicating "that an action had occurred in the Windward Passage."

WASHINGTON, May 24.—The Navy Department today received a telegram from Admiral Dewey reading as follows:

MANILA, May 20, via Hongkong, May 24.—Secretary of the Navy, Washington: Situation unchanged. Strict blockade continues. Great scarcity of provisions in Manila.

Foreign subjects fear an outbreak of the Spanish soldiers, and they will be transferred to Cavite by the foreign men of war in the harbor.

Aguinaldo, chief of the rebels, who was brought here from Hongkong on the McCulloch, is organizing a force of native cavalry and may render assistance.

DEWEY.

BATTLE DENIED.

WASHINGTON, May 23.—At the navy department there was posted an official denial of the reported engagement off Mole St. Nicholas last night. News of a battle is, however, looked for at any time.

REPORTED ALLIANCE.

NEW YORK, May 23.—A World ca-

ble from Jamaica, W. I., says:

The signing of a treaty of defense between the United States and Great Britain is announced in a dispatch received here by the military authorities on Saturday.

HAWAIIAN RESOLUTION.

WASHINGTON, May 23.—Speaker Reed today assured Congressman Tawney of Minnesota that he would permit Newlands' Hawaiian annexation resolution to be brought up before the close of the present week.

NOT FOR THE PHILIPPINES.

GIBRALTAR, May 24.—The fleet and expedition assembled at Cadiz is not going to the Philippines. The bulk of the military massed at Cadiz has been sent to Algeciras to make room for the battalions coming from Barcelona.

The Cadiz squadron will sail for the Canaries to await orders.

Madrid, in countermarching the expedition to Philippine turned everything upside down.

All the officers lost their heads. The soldiers are trooping up and down the country in all directions, like a lot of sheep in confusion.

MONTEREY COMING.

The San Francisco Call of the 25th says:

The coast defense monitor Monterey went to Mare Island yesterday afternoon to be placed in proper order for the long run to Manila.

It is ascertained from a high authority that the requirements of the Monterey are few, and that but a short time will be needed to put the vessel in shape for the voyage.

WHAT SCHLEY IS DOING.

JAMAICA, May 24.—The waters to the south of Cuba have suddenly become the scene of great naval activity. Commodore Schley, who left Key West Thursday with the battleships Massachusetts and Texas, the armored cruiser Brooklyn and the armed yacht Scorpion, is believed to be now cruising off Cienfuegos and Santiago de Cuba.

The battleship Iowa followed Commodore Schley on Friday, but was overtaken off San Antonio on Saturday by the torpedo boat Dupont, with secret instructions. The battleship immediately increased her speed to the limit and when last seen was guarding the entrance to the passage between the Isle of Pines and Cuba. The Dupont rushed on toward Cienfuegos.

Five British warships are now in the vicinity of Jamaica.

CHANGE THEIR PLANS.

GIBRALTAR, May 23.—It is believed to be the present purpose of the government to send the Carlos V and two destroyers to Cuba, provided that Admiral Cervera can get into Havana, which is his purpose.

The Pelayo and Alfonso XIII, one destroyer and the Giralda will remain at Cadiz for the present, and the government will dispose of them as events indicate.

The troop ship Patricio Satrustegi with a thousand soldiers on board, left Barcelona on April 24th for the Philippines, but was ordered back from Aden, and is now at Suez. There are forty thousand tons of coal at Cadiz and thirty thousand tons more are expected this week.

THE LATEST.

LONDON, May 25.—A dispatch to the Financial News from Port au Prince says:

Admiral Cervera is believed to have divided his fleet.

It is reported that the Vizcaya and Alphonso XIII have been destroyed.

FOREIGN TEACHERS.

According to the latest statistics, says the Japan Times, the number of foreign professors in the service of the Japanese government schools is 41, including 15 Germans, 13 Englishmen, 4 Frenchmen, 3 Americans, 1 Belgian, 1 Italian, 2 Chinamen, 1 Russian, 1 Korean, 1 Swiss, and 1 Spaniard. The foreign teaching staffs of the respective schools are distributed as follows: The College of Law, 4; College of Medicine, 2; College of Engineering, 2; College of Literature, 4; College of Science, 1; College of Agriculture, 2; Higher Commercial school, 5; Higher Normal school, 2; Foreign Languages school, 7; First Higher school, 5; Second Higher school, 2; Third Higher school, 1; Fourth Higher school, 1; Fifth Higher school, 2; and Yamaguchi Higher school, 1.

THE SHASHI OUTRAGE.

A mob rose at Shashi, China, and the Japanese Consulate and Customs buildings, etc., were totally destroyed by fire. Mr. Yaitaki, the Japanese Consul there, took refuge elsewhere.

Hupei is a province, says the Jiji, renowned for the prevalence of the anti-foreign spirit among the people, as may be inferred from the fact that serious objections were raised to the opening of Shashi in that province, according to the Baku treaty, some time ago, which was, however, enforced by the government. The recent disturbance at the port is reasonably attributed to the instigation of the ignorant in consequence of the anti-foreign spirit. The premises of the Japanese Consulate were destroyed by fire and inexcusable insult was given to the representative of the Japanese government.

The Jiji continues: It is absolutely necessary that the government should immediately ask compensation for the losses sustained, and the punishment of the rioters, as well as of local officials implicated, besides obtaining a guarantee that precautions will be taken to prevent the recurrence of such outrages in the future. It is in a spirit of sincere friendship and sympathy, concludes the writer, that we advise the Chinese government to pay more attention to the control of the people in the open ports to insure which she should not even hesitate to ask the assistance of the other powers.

All the Tokyo papers concur in the views of the Jiji, in expressing sympathy with China in her present extremity, and in affirming that no more than compensation for losses, and the punishment of the ring leaders of the riots, etc., will be demanded.

NEW QUARTERS.

The Bergstrom Music Company has moved into its new quarters in the Progress block, and will immediately proceed to fit up an ideal music store. It is the intention of the company to handle sheet music, string, musical instruments of all kinds, in addition to the celebrated Kroeger pianos. By the next steamer from San Francisco their goods will commence to arrive, and in a very short time Honolulu will have a music store equal to any on the Coast.

STILL INCREASING.

The patronage of the Criterion barber shop is still on the increase. Many shops derive an increase for a time, but it drops off again, while at the Criterion barber shop the motto still stands good, "Once a patron, always a patron."

AN INVINCIBLE COMBINATION.

Tom Cooper, one of the fastest and best known National Circuit chasers, who holds a record that is the envy of every bicycle rider, will this year ride a "White" bicycle, which is noted for its durability and workmanship. The Pacific Cycle and Manufacturing Co. will from now on handle this wheel so well known in the United States.

FRESH IMPORTS.

By the S. S. Zealandia, Camarinos will receive cherries, rubarb, asparagus, celery, cauliflower, fresh salmon, crabs, flounders, oysters (in tins and shell), apples, grapes, figs, lemons, Burbank potatoes, pure olive oil, dried fruit, new crop of nuts, raisins, etc. California Fruit Market, King street.

If you have an article for sale tell the public about it through the columns of The Star.

GOOD CHANCE OF A PRIZE

AMERICANS COULD CAPTURE THE SPANISH BOAT QUIROS.

Lying Peacefully at Carolines With No Knowledge of War—May Destroy Missions.

There is just now a magnificent chance for a "bonus" for a small party of enterprising Americans at the Caroline Islands in the South Pacific. Lying close to the shore at Ponape is the small Spanish gunboat Quiros, a wooden vessel of about 1,000 tons. She has on board about 125 men, one small shell gun and three rifle cannon, besides the small arms and the equipment of a man of war.

A sea captain who has just returned from the Islands states that he could have captured the vessel if he had known of the war when down there. The natives of Ponape are death on the Spaniards. They are fairly armed and would not hesitate a moment to try their luck on their masters and oppressors.

On shore is a garrison of 200 men, armed with very poor ordinary rifles, and little ammunition. Officers and men of the Quiros are in the stockade nearly all the time, leaving a sergeant's guard to see that the warship does not float off. They are exceedingly careless. The plan the captain would have tried was to have assembled 400 or 500 natives in the bush on the point near the ship. At a signal from him a rush would have been made in boats upon the vessel and before the sailors knew what was happening the fight would have been over.

The Quiros is one of the poorest excuses for a warship afloat. One shot from the Bennington would reduce her to kindling splinters. At the same time she figures as one boat in Spain's great navy and has some material of value on board. Something over 300 men could be captured with her. There are in the neighborhood also several Spanish merchant vessels of various sizes and values. Most of them are small, however.

Another part of the situation is the critical position of American interests there on account of the war. It is hardly possible that the news of hostilities will reach Ponape in several months, unless indeed it is carried over from the Marshall Islands in a small boat. A British steamer from New Zealand touches at Jaluit in the latter group every two months.

There are American missions at Ponape and most of the neighboring Islands. The mission schools are at Kusie, a short distance away. Assisting the mission work are the schooners Robert W. Logan and Hiram Bingham. The latter has a naphtha engine aboard and is rated as a steamer. Both are under the American flag.

If able to catch them the Quiros would immediately overhaul these vessels. She would then proceed to Kusie and destroy the missions of the American Board and kill or capture the missionaries. The Spaniards have been unfriendly to the missions for years and would undertake the latter task with considerable joy.

It is now certain that the Morning Star will not leave for the Islands until either the war is over or the Quiros is made way with. She will wait at this port until advised arrive from Washington. It is just possible that she may be ordered to San Francisco to await developments.

ONLY THREE DAYS MORE.
