## SEATING PLAN ADOPTED

ARRANGEMENTS FOR THE PUBLIC TOMORROW.

Mrs. Afong will Superintend the Decorations of the Ball Room—Preparing for the Great Event.

Arrangements for the flag raising are pretty well advanced at the Executive building. The platform for the officials has been completed and it only remains to decorate it with flags and bunting. This platform is built out on a level with the first landing of the steps leading to the main entrance of the building, covering most of the first flight of steps and extending outwards about twenty feet. It is forty feet in length at the front. There will be seven rows of seats on either side, with nine chairs in a row, and in the rear two rows of seats on either side, with twelve chairs in all. These seats are for officials.

In the rear of this platform and on either side of the steps on the grass plots are driven a couple of stakes, to which banyards will be attached. On the right of the steps will be stationed a color sergeant and squad of the National Guard of Hawaii, in charge of the Hawaiian flag, and on the other side a color sergeant and detail of the U. S. S. Philadelphia in charge of the American colors.

On the outer sides of these flag details on the grass plots on both sides of the steps will be placed tables for the press. The position is some ten feet below the platform and thirty feet in the rear of the speakers. From this position it will be difficult for the newspaper representatives to either see or hear.

On each of the balconies will be placed all the chairs that can be put on them, about 500. On the right and left of the platform and fronting the grass plots have been placed rows of benches, which will be raised in. These seats and those on the balconies are reserved, but at 10 o'clock this morning they were nearly all taken, though scarcely half a dozen personal applications were made the hour previous.

Nothing has yet been done towards decorating the ball room. Mrs. Afong was asked by the President to take charge of the work. It is understood that she and her daughters, with other volunteers, will commence decorating this afternoon.

The electric lighting has been given to the direction of Major Potter. A force of men from the Electric Light Works were attaching the globes to the wires this morning, and everything is expected to be ready for a trial tonight. An immense red, white and blue shield over the main entrance will be a prominent feature. As at present arranged this will be the disposition of the troops: The United States forces will occupy the main avenue fronting the stand while the National Guard will be given the space on either side of the stand. The Citizens' Guard, Sharpshooters' Grand Army and kindred organizations will be assigned stations as near the stand as possible. Whatever space remains may be occupied by the general public without restriction of any kind.

### HILO HOSPITAL.

The report of the Hilo hospital shows that in July there were five patients in the institution on the 1st of the month, eight admitted during the month, eight discharged, three deaths and two left in the hospital at the end of the month. Receipts for the month had been \$101 and expenditures \$132.08. Miss Wheelwright has been appointed as one of the nurses in place of Mrs. Howe, who goes to the Lihue hospital.

The Rev. W. B. Costley, of Stockbridge, Ga., while attending to his pastoral duties at Ellenwood, that state, was attacked by cholera morbus. He says: "By chance I happened to get hold of a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and I think it was the means of saving my life. It relieved me at once." For sale by Benson, Smith & Co., wholesale agents for Hawaiian Islands. All druggists and dealers.

### AT YOUR SERVICE.

If you want a brand new wagon or buggy, or want rubber tires placed on your old vehicle, you will be sure to find Schumann's Carriage Repository the proper place to go. In fitting rubber tires, all goods used and workmanship are guaranteed to be first class. Warehouses, Fort street, next to Club Stables.

### Fine Repair Work.

When your Bicycle, Gun, Typewriter or any article of fine mechanism needs repairing and you wish a job which is certain to prove satisfactory, bring it to us and we will fix it for you and guarantee it fully.

We take pride in turning out only the very best of work and will call for and deliver it to any part of the city.

## KAUAI RAILWAY EXTENSION

PRELIMINARY SURVEYS BEING MADE.

The Route From the Present Terminus of the Road to the Pali is Being Studied.

Plans for the completion of the Kauai railroad around the island are being rapidly made. Preliminary surveys are now being made and the final surveys will follow.

B. F. Dillingham has been personally over the ground at the head of a surveying party. They started ten days ago and are expected back tonight.

The party went over the Pali and starting at the foot of it began a topographical survey and examination of the coast line through Koolau, Kahuku, Waiwala, to Waiwala. On this expedition only such surveys are being made as will give definite data regarding the character of the route, the engineering difficulties to be overcome and an approximate estimate of the cost of each section of the distance. The determination of the exact route as well as surveys from which detailed plans and specifications can be made, will be done later. The present purpose is to acquire such information to lay before the directors and shareholders as will enable them to act advisedly and with knowledge of the cost and time required for the work.

### ADMIRAL DEWEY'S PEDIGREE.

1. Thomas Dewey came from Sandwich, Kent, England, in the year 1633, to Dorchester, Mass. He removed about 1648 to Windsor, Conn., where, on March 22, 1638, he married the widow Frances Clarke. He died at Windsor, April 27, 1698.

2. Joseph Dewey, born 1641. Settled first at Westfield, but subsequently removed to Lebanon, Conn. He married, in 1662, Hepzibah Lyman.

3. Josiah Dewey, of Lebanon, Conn., born 1666.

4. William Dewey, of Lebanon, Conn., born 1692; died 1750.

5. Simon Dewey, of Lebanon, Conn., born 1718; died 1751.

6. William Dewey, settled at Hanover, N. H., born 1746; died 1813.

7. Captain Simon Dewey, of Berlin, Vt., born 1770; died 1863.

8. Dr. Julius Y. Dewey, of Montpelier, Vt., born 1801; died 1877.

9. Admiral George Dewey, born 1837.—Washington Post.

### PUMPING PLANT MATERIAL.

The Maui this morning took an immense quantity of pipe, boilers and other material for the new pumping plant on Lanai; also 25 mules for the Molokai ranch.

### WITH THE LITIGANTS.

Found Not Guilty of Assault and Battery.

The three Chinese from Waianae who have been on trial for assault and battery before Judge Stanley and a jury, have been discharged, the jury having brought in a verdict of not guilty, late yesterday.

In the Vida-Carty damage case an answer of general denial has been filed.

In the case of C. S. Bradford vs. D. Porter and W. S. Wise, plaintiff has filed an amended bond for costs.

In the case of Helen P. Clark vs. J. K. Kaula et al., a bill to declare and execute a trust, Judge Stanley has made an order requiring all rents due and to become due until the final decision of the case to be paid into court. James A. Thompson is appointed to collect the said rents, pay taxes and water rates, etc.

In the case of H. M. Von Holt et al. vs. Rt. Rev. Bishop Gulston et al., the plaintiff has filed notice of discontinuance.

In the equity suit of W. C. Achi vs. Uvini Johnson and others, the defendants, Maud Auld and Edith Morton, have filed their answer, setting up their claim to the premises in dispute.

In the damage suit of the Kahului Railroad Company vs. Hawaiian Commercial Company, the demurrer was argued and submitted before Judge Stanley yesterday afternoon.

You Tai withdrew his appeal from the sentence of the lower court for opium in possession.

### THE SHARPshooters.

Every member of the Sharpshooters Company is ordered to be present at the meeting at 7:30 o'clock tonight as the question of the future status of the organization is to be decided. There are two propositions, one to join the National Guard as a military organization, the other to be mustered out and form a rifle club for sporting purposes only. The question must be decided tonight.

### WHY NOT BUY A SINGER?

You want a sewing machine? Then why not buy a Singer? There has been more of them sold than any other make. They wear longer, run lighter and do better work than any other make. They have never been a cut price machine, the workmanship on the Singer will not admit of cut prices. A few dollars in the original cost between a good machine and a poor one counts for nothing. B. Bergerson, agent, Bethel street.

### KERR'S CLEARANCE SALE.

There was hardly standing room in Kerr's big store today. His clearance sale is the cause of the rush. Goods are being sold at panic prices.

## TOMORROW'S CEREMONIES

EXERCISES WILL BE STRICTLY OFFICIAL.

Later There May be Some Impromptu Speeches, but No Regular Program has Been Arranged.

The ceremony will be strictly official. The Annexation Club program has been declared off and there will be no popular demonstration over the flag raising, except such as may develop spontaneously after the ceremony is over.

This morning Admiral Miller sent his reply to the Annexation Club's request to participate in the ceremonies and a meeting of the executive committee was called at noon when the Admiral's reply was read. It was of such a nature that the committee had no other recourse than to abandon their program, and after a discussion lasting nearly an hour this was decided on.

There are no changes in the official program already published, but immediately after the ceremonies proper are over the Hawaiian National Guard will be marched to the parade ground where the silk flag formerly used by the U. S. S. Boston's battalion will be presented to the regiment either by President Dole in person or through Minister Cooper. This ceremony will take but a few minutes, and the men will then be marched back to the Executive building, whence they will escort the naval contingent back to the boats, marching behind the American flag just presented to them. From the boat landing Colonel Fisher will take his command back to the drill shed, where the men will be formed into companies and the oath of allegiance to the United States administered to them.

They will then sign the new company rolls after which they will disperse.

It is likely that some impromptu speech making will take place about this time, and very likely in the drill shed, but no program has been arranged in advance.

Sensors and representatives received official invitations to the flag raising this morning.

Rev. G. L. Pearson will officiate as chaplain at the ceremonies tomorrow. He has been officially invited to do so by the Hawaiian government through Minister Cooper.

The Hawaiian flag will be lowered to the ground and the American flag will be hoisted from the ground. The banyards to be used were brought by Admiral Miller on the Philadelphia. The flag pole has been thoroughly tested.

President Dole will formally present the sovereignty of the Islands to Minister Sewall. The national salute to the Hawaiian flag will be fired. The band will play Hawaii Ponoi. Taps will sound and the flag will be lowered. Minister Sewall will read the proclamation of the change of sovereignty. At the bugle call the American flag will go up. The band will play the Star Spangled Banner. Then there will be the salute to the new flag.

### COOKE-LOVE WEDDING.

The marriage of Clarence H. Cooke and Miss Lily Love takes place this evening at 8 o'clock, at the residence of the bride's mother, Mrs. Fanny Love. The bridesmaids will be Miss Stella Love and Miss Kate Kelley, and the groomsmen Montague Cooke and J. P. Waterhouse. The bride will be given away by her brother William A. Love. Rev. H. Isenberg will officiate. Mrs. E. A. Mott-Smith will play the wedding march.

### THE PARADE GROUNDS.

The grounds in front of the drill shed were thoroughly wet down this morning and all traces of the recent encampment removed. One of the steam engines belonging to the fire department was used to pump the water required.

### CAR SERVICE TOMORROW.

All day tomorrow ten minute cars will run on Heretania street, and fifteen minute cars on King, running through to Waikiki.

### FRESH IMPORTS.

By the S. S. Alameda, Camarinos received cherries, rhubarb, asparagus, celery, cauliflower, fresh salmon, crabs, flounders, oysters (in tins and shell), apples, grapes, figs, lemons, Burbank potatoes, pure olive oil, dried fruit, new crop of nuts, raisins, etc. California Fruit Market, King street.

### NOW IS THE TIME.

The clearance sale at Kerr's dry goods store offers the opportunity of a lifetime for genuine bargains. Fine goods are being sold for a song.

### WHEELS.

That wheel easily, safely—strong to endure, lasting and sure—are Sterling Bicycles. They are made to be right in every part and respect. Nothing shirked, nothing neglected. Mechanical perfection. The kind you want. Tried once, never abandoned. Pacific Cycle and Manufacturing Company, Agents.

### FLAG RAISING WEEK.

Until the end of the week exceptional values will be offered in lace curtains, curtain muslin, bedspreads and sheeting. Table linen and napkins. At N. S. Sachs Dry Goods Co.

## OREGON BOYS AT CAVITE

LETTER FROM A MEMBER OF THE FIRST EXPEDITION.

He Describes the Trip, the Capture of the Ladrones, the Landing and Conditions Near Manila.

Paul F. De La Vergne has just received a most interesting letter from Ralph H. Moulton of Company L, Second Oregon volunteers, who went through here on the first Manila expedition. It is dated at Cavite, July 4, and is written on blanks used by Spanish officers in making their reports. Signatures of various officers appear on these blanks, giving an additional interest to the letter. The part of the communication descriptive of the trip, the landing and of Cavite is here given:

We arrived here in Manila bay on July 30, and the following day commenced to land. My company was next to the last and it was dark before we touched land. We were landed on the wharf at Cavite arsenal and immediately took up our quarters in the buildings vacated by the Spanish troops. The quarters are very old, built of brick and adobe, with tile roof and flooring. There is plenty of light through windows, there is no glass, only grated bars, and where the windows are cased it is with small pieces of very thin shell, cut about 2 1/2 inches square. We sleep on cots made after the fashion of a screen door and laced with rattan. They are very comfortable to sleep on, much nicer than anything I have struck since I have been in service. They are placed on stands which raise the cot about a foot from the floor. But to make this story more connected I had better start in at the first. We had a very nice trip from Honolulu out to the Ladrones Islands. We lay there for a couple of days, but we were not allowed on shore. The Charleston shelled a fort there on the morning we arrived and the following day a party of marines and two companies of our regiment made ready to go ashore. They were towed part way in when a boat put out from shore with a flag of surrender. The garrison surrendered and was taken on board the Sydney, 50 men and 6 officers, 108 rifles, half Mauser and half Remington, with nearly ten thousand rounds of cartridges. The Remington guns were used by a company of natives. They were disarmed and turned loose, much to their gratification. The following morning we sailed for Manila, arriving in about seven days. The Ladrones do not seem to be very much good as they are now. If the place was in touch with the world they might be very wealthy. They have a mail communication every three months. We arrived here on the 25th day out from San Francisco, and maybe you think we were not glad to be on shore again. So far we have had no scrimmage. We are about ten or more miles from Manila in a line and further by the line of march we will take up. Cavite lays on a point of land which is quite wide here, but further toward the mainland it narrows to a width of 100 feet. We can hold the position against any move the Spanish can make against us and will probably move on the town when the second expedition arrives. The city of Manila is completely surrounded by the insurgents. The night we came ashore the Spaniards moved out from Manila 5,000 strong, but were driven back inside by the rebels with a loss of 700 killed and wounded. There are about 3,000 prisoners here in the barracks guarded by the insurgents. They are a sorry looking set and are begging for cigarettes continually. The insurgent soldiers would make you laugh for a week; they are very small people and they handle a gun in great shape. The gun is nearly as tall as the man. When Dewey seized the arsenal he allowed the natives to take all the property they could carry away, but the Spanish dumped a lot of shells in the bay before they left. Their flight was very hurried however. The natives said the breakfast was left on the tables uncut. One of our men conversed with a Spanish lieutenant; the lieutenant said the Americans fought like demons; it was all over in three-quarters of an hour. The Spanish ships are sunk all around the bay, and some of them are burned. There are four or five of them that remind me of the wreck of the Maine. That score was fully wiped out here, only in a different manner. The city presents a very pretty view from the bay, all the buildings look white and nice; on closer inspection the appearance may not be as satisfactory. I wish you could see this place. It covers a vast amount of land and some of the buildings must be very old. There are plenty of bronze cannon and mortars, but all muzzle loading and consequently of little service. The bronze guns would be fine in a park and I hope the American government will take a lot of them home. The mortars are finely moulded and inscribed. Some have "Ferdinand VI" on them. The prison and firing section are in plain view. The wall where the executions took place is full of bullets, many are being dug out by the boys as relics, a little too gruesome for me. My memory will be sufficient for many of such things. Our trip out was tame, very poor food, and everybody on board looked back on the stay in Honolulu with fond recollections, and wished we had a chance to repeat the visit.

If you have a house for rent tell it in The Star.

## CHAMBER OF COMMERCE

SENDS ACKNOWLEDGEMENTS TO SAN FRANCISCO.

Local Merchants Send Thanks for the Flag and Reciprocate in the Sentiments Which Accompanied It.

The reply of the local merchants to the San Francisco Chamber of Commerce for the gift of a flag goes forward by this afternoon's mail, in the shape of the following letter, which has been suitably engrossed:

Honolulu, H. I., Aug. 10, 1898.

To President and Members of the Chamber of Commerce, San Francisco, Cal., U. S. A.

Dear Sirs: By the steamer Alameda, on the 20th ulto, we received your kind favor of the 13th ulto., to the Honolulu Chamber of Commerce, accompanied with the gift of a beautiful American flag. You say in your letter "we know you will unfold it to the island breeze with pride and honor as an emblem of civilization, humanity and progress, and that henceforth we will not only work with you for the furtherance of mutual relations, but will stand together under one flag."

We reciprocate most fully and heartily in the sentiments expressed in the above, and we assure you that this Chamber will ever do what it can to cement the cordial relations now existing between us, and to further our mutual commercial interests.

We thank you for the flag which will be raised over our Chamber at the same hour that another is raised over the Executive Building by Admiral Miller on behalf of the United States, showing thereafter that these Islands have become part of the great republic, and we henceforth are one with you.

Assuring you of our kindest regards, we remain,

THE CHAMBER OF COMMERCE  
ITS COMMITTEE.

### ANOTHER TRANSPORT SECURED.

The Steam Schooner Samoa Coming to Honolulu.

The steam schooner Samoa is the latest transport to be secured by the government. The Samoa is owned by G. R. Henife, a well known lumber merchant of San Francisco. She was built five months ago by the Fulton Iron Works Company, of San Francisco, and her present voyage to St. Michael was her initial trip. She has a net tonnage of 250 tons and has a large amount of freight space. Her passenger accommodations are not so large as on several other vessels of her class, and she will probably be used by the government as a freight ship.

### ABERDEEN'S SUCCESSOR NAMED.

Earl of Minto Appointed Governor General of Canada.

LONDON, July 25.—The Earl of Minto has been appointed governor general of Canada, to succeed the Earl of Aberdeen.

Gilbert John Elliott, fourth Earl of Minto, was born in 1845, has been in the Scots Fusilier Guards, was a volunteer in the Egyptian campaign and commands the South of Scotland volunteers, with the rank of colonel. He is a Liberal, and retired from the army in 1870.

Keep awake while on earth, and wear McInerney's shoes. Your last sleep will be a long one.

### MESSANGER SERVICE.

Honolulu Messenger Service deliver messages and packages. Telephone, 378.

### FRESH FRUITS.

Received by the Alameda and Mariposa: Cherries, Pears, Peaches Plums, Navel Oranges, Apricots, Apples, Lemons, Limes, Nuts, Celery, Rhubarb, Cauliflower, etc.

## TRADE OF THE HERMIT KINGDOM

The foreign trade of Korea underwent a remarkable development during 1897, says the London Financial News. Its value reached a total of \$2,375,626, against \$1,391,271 in 1896, \$1,395,792 in 1895, \$1,105,789 in 1894, and \$998,335 in 1893. Last year's figures include the export of gold dust, amounting to \$205,527, hitherto entered in the returns as a separate item; but even excluding the export of gold the trade of 1897 still shows an increase of \$778,828 over that of its predecessor, and if the present rate of progress should be maintained our consul general says the somewhat sanguine prediction of a recent writer that the trade of Korea will attain a total of \$10,000,000 sterling within the next quarter of a century may possibly be realized. British imports generally, which had shown a decline in the previous year, have not only recovered their former position, but have made a very marked advance. Lancashire will rejoice to hear that Korea may now fairly be regarded as a promising market for Manchester goods, the annual import of which averages about \$300,000, and is likely to develop very considerably. The total trade in cotton goods rose from \$361,664 to \$851,768, of which about two-thirds was represented by the British import. Of this trade the United States will have a very considerable share within the "next quarter of a century."

## THE KAISER AND JERUSALEM.

Another thing may be said here in regard to Germany. It is quietly understood among public men there that the Kaiser has something up his sleeve with regard to Turkey. His hold upon the Sultan is as absolute as it is amazing. The peaceful clock evacuation of Thessaly in which Salisbury himself did not believe is to be ascribed altogether to William's commanding influence. He has taken up the part at Constantinople of the Sultan's friend and backer which England used to play, and he can do it infinitely better because he has no nervous humanitarian public sentiment at home to hamper him. Do not be surprised if out of this combination of Lutheranism and Islam a very striking result proceeds. Nearly 700 years ago a German Emperor secured the cession of Jerusalem into Christian hands, though it did not long remain there. It is more than hinted to me that when William proceeds to the Holy Land in October and consecrates the new church of Jerusalem on the 18th, he may be able to announce something which will electrify the whole Christian world as to the future custody and destiny of the Holy City.—London Letter.

MODERN PROJECTILE.Something About the Shell and  
Shot that Sent Cervera's Fleet to  
the Bottom of the Sea.Now that the thunder of the big  
guns on the American battle ships  
has awakened the echoes of the Cu-  
ban hills, it is interesting to know  
something of the projectiles which  
have been fired from the American  
guns and something of their de-  
structive power, says the Philadel-  
phia Inquirer. A number of the  
ships now in Cuban waters have  
been equipped at League Island,  
and Philadelphia firms have assisted  
in their equipment.A firm in this city has supplied  
the Brooklyn and the Minneapolis  
with shells. The Brooklyn has  
been taking part in the bombard-  
ment of the fortifications, and was  
equipped to her full capacity with  
explosive shells.The Brooklyn carries eight eight-  
inch breech-loading rifles, twelve  
five-inch rapid fire guns, twelve  
six-pounders and four one-pound-  
ers.The projectiles used in the six  
and eight-inch guns are all explo-  
sive shells carrying dynamite.Each five inch shell carries twen-  
ty pounds of dynamite, while each  
eight-inch shell carries nearly fifty  
pounds.The Brooklyn was equipped with  
324 eight-inch shells and 638 five-  
inch shells. The amount of ex-  
plosives in these shells therefore is  
the enormous quantity of over 25,-  
000 pounds of dynamite.Notwithstanding the great de-  
structive force as represented by  
these shells, it is entirely over-  
shadowed by the shells of the  
twelve-inch guns of the Iowa and  
the thirteen-inch guns of the Indi-  
ana.Each shell of the thirteen inch  
guns of the Indiana weighs 1,350  
pounds unloaded and can carry  
175 pounds of dynamite.When it is considered that the  
mine which so completely wrecked  
the Maine is believed to have con-  
tained not over 400 pounds of dyna-  
mite, and probably not nearly so  
much, it can be readily compre-  
hended what destruction is wrought  
by a shell from a thirteen-inch gun  
which the American gunners can  
so accurately place just where it  
will do the most good.The method by which these  
shells are exploded differs very  
materially from that employed sev-  
eral years ago.The old form of shell was ex-  
ploded by a fulminating cap, on the  
extreme point of the shell. If a  
shell of this description struck a  
glancing blow it would not explode.  
But the shells now in use are ex-  
ploded by retardation. By simply  
passing through some light obstruc-  
tion, like the body of a man, the  
shell will be exploded. This effect  
is produced by an inner mechanism  
which, when the outer part of the  
shell is retarded by any means,  
plunges forward and explodes the  
dynamite.There is no danger of an explo-  
sion in the gun at the moment of  
discharge because the movement  
is in the opposite direction, the in-  
ner plunger being forced backward  
instead of forward. The outer  
surface of the shell is as finely turned  
and polished as that of an armor-  
piercing solid shot. By having no  
percussion cap on the point it al-  
lows it to be made nearly as fine as  
the point of a needle.This perfect symmetry of the out-  
er surface means more than would  
appear at first sight. The course of  
the projectile through the air is  
more rapid and accurate than that  
of the older form. Its power of  
penetration is greater and therefore  
more destruction is wrought. A  
twelve or thirteen-inch shell ex-  
ploding against the side of even the  
heavy armored battle ships, as  
shown by tests made at the prov-  
ing grounds, will crack and twist  
the plates and tear them loose from  
their fastenings.For armor piercing purposes,  
however, it has been found that  
solid shot of small diameter are the  
most effective. A ball from a six-  
pounder has pierced thirteen inches  
of solid steel at a range of a mile.  
The projectile was apparently un-  
injured, its points being as sharp  
as before the test.HOPE ABANDONED.  
"For fifteen years I suffered with  
indigestion and my whole system was  
broken down. I almost abandoned  
hope of recovery. I took Hood's Sas-  
saparilla and its effects were marvel-  
ous. I am now able to sleep well,  
have a good appetite and have gained  
in weight." James Wilder, Oro-

THURSDAY, AUGUST 11, 1898.

All heartburnings about the flag raising ceremonies are laid aside and everything will go smoothly now. It was a good idea to put off the ball till 9 o'clock, for the fireworks can then be satisfactorily seen by all.

A lady writing from Washington, where she is now on a visit, says it is far more exciting to live in Honolulu than in the capital. Most of the men have gone off to the war and things are really dull. Well, we certainly have had an exciting year of it so far, and are not likely to have as exciting a one for some years to come, if ever again. What we want now, after the flag is raised, is to settle down to a quiet life for a time.

The beet sugar export of Germany for the year 1897 was probably the largest that ever will be reached. The total was 2,616,775,425 pounds. The reason given for a reduction in output is that the prices obtained did not yield the manufacturers a profit. Of this large amount 660,000,000 pounds of refined sugar, and 530,000,000 pounds of raw sugar, went to England. The consumption of sugar now is something enormous, and there are yet countries which can be opened up and the consumption largely increased.

In every public function the reporters of the press are accorded proper accommodations where they can hear and see to the best advantage. Since they are the eyes and ears of the public this is their proper due. The reporters are more important at a public function than any one present, as a fact, because they are the historians of the event, and upon them depends the proper statement of what takes place. At the White House in Washington a special room is set aside for the press. At the inauguration of the President, at the coronation of the Czar, at the Queen's jubilee, every facility was allowed to the press. It is a good rule and it should always be followed out.

**FIXES.**

Today is the last issue of The Star under the Hawaiian Republic. Tomorrow it will be issued as one of the papers of the United States of America, and will be entitled to a place among American journals. One naturally becomes reminiscent at such a moment as this. The great issue for which The Star was established has been fought and won. The Star has faithfully stood as the exponent of its party during the whole period of its existence. It has always believed in the value of annexation, and it has preached annexation week in and week out for years.

It will take all people a little time to settle down into new conditions. There will naturally be changes, but the changes will be gradual, and we will accommodate ourselves to them as the years go on. The very conservative amongst us will not like the changes, but the progressive will. The strong conservative never wishes for any change. Were he to have ruled the world, we should still be living in caves, for no doubt the conservative cave man objected to the progressive cave man who took to building a hut, but the law of the world is change. Times change and we change with them.

Much which bothered us in times past will bother us no longer. We shall no longer be hanging on to independence by our eyelids, wondering what power would snap us up eventually. We retain our independence, but we have the strong arm of the United States to help us keep that independence. Instead of being a single stick easily broken, we now form a portion of a big bundle, which it is impossible to break.

It is all nonsense talking about losing independence through annexation. Each state, each territory, of the Union, is independent and interdependent. What better can a weak country like this wish. We shall manage our internal affairs to suit ourselves. Our debt of \$4,000,000 is taken off our hands, and we cease to pay interest upon it, which is a saving to our pockets. The bulk of our trade is with the United States; all goods from the United States will come here free of duty, for we are a part of the United States. Instead of our sugar planters wondering from year to year

whether the tariff would drive them to seek another market, they are now assured of a free market for their sugar for all time, and tariff legislation will no more affect them. There will be no gloomy period of depression when every one from planter to huckster was trembling lest the reciprocity treaty should be lost.

That there may in the change be features we may not like is true. But any such features will be counter-balanced by the great advantages that we shall gain. Stability and prosperity are the main ingredients in the happiness of mankind, and both of these we are now assured of. There is nothing to mourn over, nothing to be sentimental over. We enter upon a larger inheritance and we become tomorrow independent by right and not independent by sufferance, as we were in the past.

**MANY FLAG RAISINGS.**

The present flag raising will be final. There have been a good many flags raised over Hawaii. Over a hundred years ago Vancouver raised the British flag. Later the Russians raised their flag at Honolulu and at Waiman, Kanai. Then the British held occupation under Lord George Paulet. Then we had the two months protectorate of the United States, and now we have the final and irrevocable amalgamation with the United States, and may Old Glory float proudly over this advance post of Western civilization for many a century to come.

Looking at the past one can but realize how slight has been the tenure of monarchy upon these islands. It was only in the forties that they emerged from barbarism, from the condition of such groups as many of the South Sea islands are today. Only a few years after they had been recognized as belonging to the family of nations their own sovereign was trying to make a deal for annexation to the United States, and from that time on there has ever been annexation in the air—as it were. The true, recognized Hawaiian monarchy, lasted just fifty years.

From today we enter upon an entirely new regime. The past with its successes and its mistakes, is a sealed book, to be put upon the shelf and consulted as an historical curiosity. We take up an entirely new ledger, write fresh heads, and start with every hope of a grand success as members of Uncle Sam's successful firm.

**SELWYN MEMORIAL.**

Memorials of the late Bishop Selwyn are to take the form of a new church in the Solomon Islands, scholarships for the education of the natives, a picture of Selwyn College, and the completion of the woodwork of the chapel of that college.

**GET YOUR STRENGTH BACK.**

We all like to be strong. We like to feel our muscles creeping under the skin, as though they wanted us to call them to act and to work. But what is strength? What creates it? In five words—*strength comes from digested food.* When this vital process is retarded, what should you expect to follow? Why, weakness, to be sure, and by and by Torpid Liver, Loss of Flesh, Mental Despondency, then a Hacking Cough and, very likely, either a slow Consumption that may make you miserable for years, or a quick one that will send you to the churchyard in six weeks. That's how strength goes and what happens afterwards. If there is any power to help in such cases it is

of the nutritive properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, rendered tasteless and odorless, combined with the Syrup of Hypophosphites Compound, Extracts of Malt and Wild Cherry Bark. It is a medicine made in the light of modern science, with all experience to go by. It has no rival; its merit is wholly its own. It is no out of date mixture, but an effective remedy squarely up to the times and in fact ahead of them. Genuine gives results from the first dose. Palatable as honey. Admiral Dewey's fleet was lubricated with Vacuum Oils, obtained at Hongkong. At the same time Vacuum Oils were in use ashore in the sugar and jute mills of the Philippines.

The British Navy and the Japanese navy regularly use Vacuum Oils, and various battleships and cruisers of every other nation obtain them at various ports around the world where stocks are carried.

Vacuum Oils are so well known and highly thought of by the naval officer, the mill owner, and the machinery user everywhere, that one hundred and twelve foreign warehouses are required for their distribution. The reason is—they lubricate most. Other oils sell for less by the gallon, but Vacuum Oils cost least by the day.

### AN AMERICAN ARMY POST

LOCATION FOR IT NOW BEING  
SOUGHT.

Many Places Examined, but No Selection Yet Made--Not Easy to Find Just the Place.

Colonel Barber is not having as easy a time in selecting a site for the new military post as has been anticipated. Suitable places have not yet been obtainable near town, and it is likely that some time will yet elapse before a permanent site is chosen.

As it will be impossible to coop up the men of the Honolulu garrison in the small vessels which will bring them down, and at the best it will be two months before suitable buildings could be made ready for occupancy, something has to be done at once.

"There is but one thing to be done," said a prominent military man, "and that is to use the drill shed and parade grounds temporarily. The shed will make a good mess room and the men can sleep in tents or on the floor of the shed. The old barracks could easily be turned into comfortable quarters for the officers. Everything about the place will belong to the American government after noon tomorrow, and there is no reason why their troops should not use it. The place is too small for a permanent post but it will do very well for a couple of months. The old barracks will accommodate a hundred officers, the drill shed will hold probably 800 cots and the rest of the men can sleep in tents. The cots could be moved out in the day time and tables for the men's meals set up on trestles. The kitchen and paraphernalia could be put together in twenty-four hours and there you are, with little or no expense to Uncle Sam, who will have plenty of time to look around and secure the best permanent site he can for his money."

P. S. C.

The following circular has been mailed to members of the above organization:

Friends of P. S. C. Greeting: Now that annexation is assured, the time has arrived when political organization has become a part of our duty. We are now in a position to use our influence for the good of our Country, as well as for our order. It is our object to prepare ourselves for the obligations imposed upon us under the new conditions.

It is the desire of officers of the No. 1 Council P. S. C. that all members should be present at our next meeting, Wednesday, August 10, 7:30 p. m. We can then formulate such plans as are deemed necessary to carry on the work. Come.

Thorough Course of Hood's Sarsaparilla Completely Cures.

There is danger in impure blood, Disease and suffering are surely coming to those who neglect this threatening symptom. Read this:

"Gilliam, Missouri.

"C. I. Hood & Co., Lowell, Mass.:

"Gentlemen:--My troubles began with nervous headaches, which would last me for two or three days. The doctors pronounced my trouble dyspepsia, but they could not do anything for me, and advised a change of location. At the age of 55 a tumor formed on my spine, which

Was Very Painful

but did not rise or discharge. The doctor thought best to cut it out, but I objected.

It finally broke and discharged a great deal. The doctors said they could do nothing for it. Then the tumor began to rise inwardly and discharge. I read much about cures by Hood's Sarsaparilla and thought I would try it. Before I had finished taking one bottle I was much relieved. I continued the use of Hood's Sarsaparilla, and after taking 12 bottles I was entirely cured. I am now well, have a good appetite and feel that I owe my life to Hood's Sarsaparilla."

OF THE CLOVER CLUB.**And Was Allowed To Continue an  
After Dinner Speech Without  
Any Further Interruptions.Ingersoll, the imperturbable Bob,  
was invited to attend a banquet at  
the irresistible Clover Club, says  
the New York Press. "It is im-  
possible to accept," he said. "I  
know your custom too well. I will  
be called upon for a speech and  
will be unmercifully gayed. I  
never could stand it. I refuse to  
put myself in such a position." The  
club decided to waive its con-  
stitutional prerogative in his case  
and he was informed of the fact.  
"Then I gladly accept the invita-  
tion," he said "and will surely be  
on hand." He was.No sooner had the gallant icono-  
clast reached his feet than a chap  
down at the end of the room began  
to interrupt. He was the only one  
in the club to say a word, but he  
was very annoying, and Bob re-  
marked: "I came here as a guest  
with the understanding that I was  
not to be interrupted. There was  
an agreement to that effect." The  
man retorted: "I never heard of any  
such agreement." The breaker of  
images said: "My friend, you re-  
mind me of a story. There was a  
day set apart by the beasts of the  
fields, the reptiles and the birds of  
the air for a general peace. Ani-  
mals in the habit of preying on  
each other agreed to meet together  
in one grand accord. A fox pass-  
ing a chicken roost on the way to  
the meeting invited a hen to accom-  
pany him, and when she politely  
declined informed her of the peace  
agreement. 'Well, Mr. Fox I will  
go under those conditions,' she said  
and they trotted along side by side,  
through the field."Presently the bay of a pack of  
hounds, was heard, and Mr. Fox  
started to run. 'Why do you run,  
Mr. Fox?' said Mrs. Hen. 'Re-  
member the peace agreement.' Re-  
straining himself, Mr. Fox trotted  
on, but the pack drew nearer and  
nearer, until he could stand it no  
longer. 'Mr. Fox,' urged Mrs.  
Hen, 'don't be afraid. Remember  
what you told me about the peace  
agreement. No hound would hurt  
you to-day. Trot along with me  
and don't be in the least alarmed.'  
He could almost feel the breath of  
the hounds. 'Mrs. Hen,' he whis-  
pered, prepared to spring away, 'I  
do well remember the peace agree-  
ment, but there may be some fool  
hound in that pack that hasn't  
heard of it. Good-by.'When the colonel had finished  
this story there was a dead silence,  
and he concluded his speech with-  
out further interruption. The "fool  
hound" who sat at the further end  
of the room didn't say another  
word.**COPPERS IN CALIFORNIA.**"The war with Spain is doing  
with the 1-cent piece what retail  
traders and the Postal Department  
failed to do," according to the San  
Francisco Chronicle. "The measure  
which Congress framed for raising  
revenues with which to carry on  
the war makes it necessary for  
every one engaged in business to  
handle the copper cent. The tele-  
graph cannot be used without af-  
fixing a 1-cent revenue stamp on  
the written message, and no check  
can pass over the counter of a bank  
and be honored without similar  
treatment. This war measure has  
thus forced on the Pacific coast  
without opposition a coin which it  
would have taken years of coaxing  
to persuade it to accept by any  
ordinary process."**DENSE POPULATION.**The greatest density of popula-  
tion in the world is claimed for  
Bombay, and is only disputed by  
Agra. The population of Bombay  
amounts to 760 persons per acre in  
certain areas, and in these sections  
the street area only occupies one-  
fourth of the whole. If the entire  
population massed up in the streets  
for any purpose, the density would  
equal 3040 persons per acre.About one month ago my child,  
which is fifteen months old, had an  
attack of diarrhoea, accompanied by  
vomiting. I gave it such remedies as  
are usually given in such cases, but  
as nothing gave relief, we sent for  
a physician and it was under his care  
for a week. At this time the child  
had been sick for about ten days and  
was having about twenty-five opera-  
tions of the bowels every twelve hours,  
and we were convinced that unless it  
soon obtained relief it would not live.  
Chamberlain's Colic, Cholera and Di-  
arrhoea Remedy was recommended,  
and I decided to try it. I soon noticed  
a change for the better; by its con-  
tinued use a complete cure was  
brought about and it is now perfectly  
healthy.—C. L. BOGGS, Stumpston,

## FAR EAST FINANCIERING

HOW THE MIKADO SUSTAINS HIS PAPER MONEY.

Drawing on the Chinese Indemnity Fund to Purchase Bonds—Wants to Keep His Bonds at Home.

When paper money in this country fell to a great discount in consequence of its inconvertibility, says the Japan Herald, together with an excess issue, the expedient which Russia had resorted to in order to diminish the discount on the paper rouble—that of buying large amounts of them by means of interest bearing bonds, was imitated by Japan with the same sort of result, and when kinsatsu had thus been brought up to the neighborhood of par, the treasury had by that time got funds enough into its possession to do away with the inconvertibility of the government's paper. The operation was, therefore, successful in its object, but the country was saddled with interest bearing bonds. The same sort of operation is now being effected by the purchase of bonds by means of drawing on the Chinese indemnity fund, from which 13,000,000 yen have been already supplied, with more to follow. This operation by the Bank of Japan has been some little time in operation, and has been entered upon for two reasons, one being to raise the market price of these obligations, lest foreign investors in these securities should get hold of them at a low price, the other reason to relieve the scarcity of money which universally prevails and is so severely felt.

### ADJUTANT SIMONSON.

Soon to Visit His Aged Mother in Denmark.

Adjutant and Mrs. Simonson of the Salvation Army, after two years service on the islands, are making a farewell tour preparatory to leaving. After a fourteen years absence from his early home, twelve of which have been spent in the Salvation Army work, he has obtained permission to visit his aged mother in Denmark. It is his earnest desire as well as his that he make this visit before she passes away. In order to enable him to make the long journey, an effort is being made by members of the army and their friends to raise a sufficient sum to defray the necessary expenses.

During Adjutant Simonson's service in the islands the work of the army in all its branches have been diligently and successfully carried on. Nearly a thousand have professed conversion through the labors of the army during that time. One of the officers of the army describing the work done says: "Drunkards have been saved, families reunited, homes made happy, the fallen rescued, orphans cared for, the sick and dying attended and prisons and hospitals faithfully visited. War Crys are weekly distributed in these institutions and on Molokai. In Honolulu hundreds of sailors are converted and we frequently hear of them conducting meetings among their mates in mid-ocean, getting them saved at sea. The ships are visited and assorted army literature is distributed to them."

### ARMIES OF THE WORLD.

The latest addition to the military census of the world presents some queer figures. At the present time Europe has 3,500,000 men under arms. The following are the figures of the different armies on a peace footing:

Denmark	10,000
Servia	20,000
Holland	22,000
Greece	25,000
Portugal	36,000
Roumania	47,000
Belgium	52,000
Sweden and Norway	57,000
Spain	80,000
Switzerland	125,000
Turkey	180,000
Great Britain	200,000
Italy	240,000
Austria	350,000
France	370,000
Germany	580,000
Russia	896,000

The above armies employ over 550,000 horses in time of peace. The standing armies of all civilized nations amount to 4,610,000 soldiers with 700,000 horses. The figures in time of war are:

Turkey	700,000
Spain	190,000
Servia	210,000
Sweden and Norway	430,000
Roumania	100,000
Denmark	60,000
Belgium	167,000
Austria (including all reserve forces)	2,600,000
Italy	3,000,000
Russia	5,000,000
Germany	4,500,000
France	4,380,000
England	660,000
Japan	500,000
South American Republics	600,000
China	850,000
United States	200,000

### A PRACTICAL GIRL.

She did not hesitate to express alarm concerning the young soldier's future. "Have no fears," he exclaimed very cheerily. "We have a colonel who is both gallant and discreet, and subordinate officers who are intelligent as well as brave."

"I know all that, Harold, dear. But what kind of a cook have you?"

### THE BEST REMEDY FOR FLUX.

Mr. John Mathias, a well known stock dealer of Pulaski, Ky., says: "After suffering for over a week with flux, and my physician having failed to relieve me, I was advised to try Chamberlain's Colic, Cholera and Diarrhoea Remedy, and have the pleasure of stating that the half of one bottle cured me." ## WHO IS SO RICH

that he would wantonly desire to throw away money?

We don't care what high-priced tailor has been making your clothes, but will guarantee that Stein-Bloch clothes are their equal in cloth-quality, style, workmanship and fit.

A comparison of prices would make your tailor look foolish, and the best of it is, that here you have to submit to no tiresome measurements, only one try-on and wear the garments the day you buy them, to say nothing of your money back for the asking. Will your tailor do this?

### NEWS IN A NUTSHELL.

Bits of Paragraphs that Give Condensed Notes of the Day.

The Glenfarg sails at 5 o'clock. All the banks close tomorrow. Mail for the coast closes at 4. Wilson's circus is showing in Seattle with fair success. The Central Meat Market will close at 10 o'clock tomorrow. The transport St. Paul took a quality of mail for Manila yesterday. The Metropolitan Meat Market will close at 10 a. m. tomorrow morning. The Japanese cruiser Naniwa has gone to Manila. The Naniwa always seems to be around when there is any chance of a fight. A Chinaman is under arrest for passing opium to men in the prison gangs at work on the street. Dr. C. A. Peterson has been given a sort of roving commission as agent of the Board of Health. Cars every ten minutes tomorrow on Beretania street; every fifteen minutes on King to Waikiki. Rev. Isenberg will hold services at the Y. M. C. A. hall on Sunday, August 14, at 11 o'clock a. m. Lund Kai has been fined \$50 for opium in possession. He is a noted Chinese gambler and opium fiend. J. H. Schneck and F. L. Dortch have purchased the John Eua tract near Punahou College, paying \$20,000 therefor. Horn's bakery has displayed in the window a handsome forty pound wedding cake for the Cooke-Love wedding this evening. The Golden Rule Bazaar will remain open this evening. Mr. Webb has a big stock of flags and bunting for decorative purposes. Two sailors, who deserted from the C. D. Bryant, were arrested this morning and are being held until they can be shipped on some other outgoing vessel. Every member of the Sharpshooters' Company is urged to be present at the meeting this evening at 7:30 o'clock. The question of disbanding will be considered. The Foreign Office publishes an executive notice in this issue, to all civil officers of the government, directing them to be at the Judiciary building on Friday afternoon. The leading grocers have a notice in this issue to the public, announcing that their places of business will close at 10 o'clock a. m. Friday. Only one delivery will be made. The Bergstrom Music Company, Ltd., will give a grand opening on Saturday afternoon and evening, August 13th, at their new store in the Progress Block. The public is cordially invited. President W. O. Smith announced at the meeting of the Board of Health yesterday that the members would be required to take the oath of allegiance to the United States, after which their usual functions and authority would continue. Lieutenant Cedric of the French army, who has been serving in Tonquin, is a through passenger on the Glenfarg. He is going back to France on leave of absence. With him is Mr. Dumerest, a civilian in government service in Tonquin also.

KAPIOLANI HOME.  
The report of the treasurer of the Kapiolani Maternity Home to the Board of Health yesterday shows that institution to be flourishing financially, there being \$2,994.38 on hand. The expenses for last month were \$293.13.

GOING TO THE COAST.  
E. C. Smith, the Pearl City pineapple raiser, leaves for the Coast this afternoon on the Glenfarg on a combined business and pleasure trip, the first in many years.

LEFT OVER SOLDIERS.  
There were quite a number of soldiers from the St. Paul who were left here. They have been rounded up by the officers of the New York regiment and are quartered at the Sailors' Home. The boys reported to Consul General Haywood as soon as they found they were left and were by him directed to report to the officers.

DRINKING WATER AND TYPHOID.  
Munich used to be notorious all over the world for its numerous cases of typhoid fever. At present, owing to a pure water supply, it is so rare that enough cases cannot be had to illustrate the disease in the hospital clinics. The death rate per hundred thousand from typhoid fever is now four, while in Chicago it is 160.

## GRAND OPENING.

The Bergstrom Music Company, Ltd., will hold a grand opening at their new music store in the Progress block, Fort street, on Saturday afternoon and evening, August 13, 1898. The public is cordially invited to be present and inspect their fine stock of pianos and musical instruments. BERGSTROM MUSIC CO., LTD. Honolulu, August 10, 1898.

## Good as Gold

Daniel Webster once said to a young man that asked him his chances in future life about studying law. His answer was, "There is always room at the top." We are there in the Shoe business, in quality, style, fit, and prices to please and ease the feet of our customers.

Call in and see for yourself, an inspection will do no harm.
