THE HAWAIIAN STAR.

The Hawaiian Star is the paper that goes into the best homes of Honolulu.

VOL. VI.

HONOLULU, H. I., TUESDAY, FEBRUARY 27, 1906.

No. 2492.

THESE DOCTORS DISAGREE

HOWARD AND HOFFMAN AT RIGHT ANGLES.

One Shouts "Plague" and the Other Says "No Plague"—Clash of Professional Opinion.

At 1 o'clock this morning Dr. Hoffman returned a verdict on the supposed plague case at Kailih camp, giving typhoid fever as the cause of death. It will be remembered that yesterday afternoon Dr. Howard gave to The Star his diagnosis, stating that he had no doubt but that the case was one of plague and that the man would die during the afternoon. The man died on schedule. An autopsy was held. This morning Dr. Hoffman wrote out and signed the following statement of the condition of the man as he found it: "Body well nourished. No glandular enlargements. No fluid in either pleural cavity. No pneumonia or pleurisy. Heart normal. No fluid in pericardium. Swollen retro peritoneal glands. Typhoid ulcers in bowels denoting second week of illness. Two quarts of wine in bladder. Spleen enlarged."

The victim's name was Sheong Wing. Dr. Hoffman examined him three days ago and declared that there were no symptoms of plague. He never saw the man after that. It was yesterday that the suspicious symptoms appeared, and in the afternoon Dr. Howard declared the case to be plague.

The matter does not end where it is. Dr. Howard is not satisfied with the conclusion of Dr. Hoffman and will most probably insist upon a re-examination. In fact there are hints of developments of more than usual interest in the matter. The body of the Chinese is being held by the Board of Health, pending the conclusion of the discussion.

BROKE QUARANTINE.

The Transport Warren is Refused a Clean Bill.

The transport Warren had a lot of trouble over her bill of health before she got away yesterday afternoon, being delayed a day by efforts to get a clean bill of health. She did not get such a bill and is likely to be severely watched at San Francisco. Dr. Carmichael declined to give the steamer any papers and all captain Hart had were statements by Dr. Wood and others, telling exactly how the steamer had been treated here. She broke quarantine by taking several workmen from the Honolulu Iron Works on board, as well as a number of other people. For this reason Dr. Carmichael refused to clear her.

The Warren was all ready to go on Sunday afternoon, but it was after one o'clock on Monday before her captain had done trying to get clearance papers. The delay cost about a thousand dollars. Quarantine at San Francisco will cost a thousand a day.

The Warren could not avoid the call here, which promises to cost the government so dearly. She was seriously crippled in her steering apparatus and might have had much trouble if she had encountered stormy weather.

THE QUARANTINE WHARF.

Cotton Bros. & Company expect to be able to turn over the quarantine wharf tomorrow to the Chamber of Commerce. The finishing touches are being put on it today. Within a week at most the wharf will be in service.

Foreign vessels with goods for the other islands will discharge upon it and there the transshipments will take place without any necessity of any vessels coming to the city's wharves.

NEW ADVERTISEMENTS

OFFICE FOR RENT.

HOTEL STABLES AFLAME

PROPERTY BEING BURNED THIS AFTERNOON.

Rat Proof Fence Around the Sides Toward the Block—Other Houses to go Hay on the Ground.

The Hawaiian Hotel stables are being burned by the fire department this afternoon. It was the intention to start the blaze at 1 o'clock but the engines were not placed in time. There were some details at the stables that were not completed. Yesterday the work of placing a rat proof fence around the premises, facing the interior of the block, began. Sheet iron for the purpose was stripped from the roof of the stables. The fence was finished about noon today. It starts from Richards' street at the dividing line between L. W. Hough's barn yard and residence lot and runs straight back to the two story house in rear of the Alakea house, belonging to Dr. Herbert. There it veers east, takes in a cottage on the premises occupied by Mr. Hammer and then cuts off the cottage formerly occupied by Manager Lucas of the Hotel.

These additional buildings, including Hough's stables, the Hammer cottage and the Lucas cottage, were condemned by the Board of Health last yesterday.

After a second examination of the stables it was decided not to tear them down. Inside were several tons of hay which, it was found, could be distributed over the soil and would have the effect intended. This hay was spread plentifully about the stables and in the washing alley.

The wind is fine for the fire. There is a slight breeze from the northward but not enough, it is thought, to endanger any other property. All the engines of the department are out and at work. They occupy the hydrants near the Y. M. C. A., back of the Executive building and at the corner of Richards and King.

Most of the land burned over belongs to Mrs. Brown. The Hotel stables lease would expire in ten months. The section of the lot occupied by Mr. Hough and a part of that of the stables on that side belongs to the Bishop Estate.

PASSENGER TRAFFIC DILEMMA.

No Suitable Quarantine Home Can be Secured.

The steamship companies and Dr. Carmichael have been unable to secure a suitable building for the quarantine of intending cabin passengers. They have made efforts in every direction. None that is suitable can be obtained. The result is that the alternative is presented, either of stopping travel altogether, or of continuing the method which has been in vogue, throwing the responsibility for the decision as to whether a vessel and her passengers shall be sent to quarantine or not upon the authorities on the other side. No decision has been reached yet as to which of these alternatives will be chosen.

In the past, intending passengers have been under observation here for fifteen days, reporting daily to Dr. Carmichael, living in locations of approved sanitary conditions, and promising to remain at home except to go to the Consulate to report to Dr. Carmichael. While this method gives some security, it is at least a reduction of the liability to exposure to infection, it is far from satisfactory. Many intending passengers do not remain at their homes as they should. The result is that the bill of health issued here can state nothing stronger than the facts, and both ship and passengers are liable to be sent to quarantine at the end of the voyage.

It was to avoid this that the plan of a strict isolation here for fifteen days prior to departure was proposed. But it seems now that it must be abandoned for lack of a suitable place where cabin passengers can be asked to go for this fifteen day quarantine.

PLAGUE IN MANILA.

"The plague in Manila," said General Wheeler Sunday, "is something like it is in Honolulu. There was a start, a flurry, more or less excitement, and then the disease became endemic. When I left there was no alarm whatever and I do not believe the situation will ever be serious, for it was then well in hand."

"As to Honolulu I am at a loss to determine why there should be so much excitement. Of course there is the damaging effect upon business, but, really, in the States, in small towns, have known diptheria to cost more lives in a week than the number credited to plague since it appeared on December 12. You have a touch of a dreadful malady but are handling it in the right way."

"When my wife gets to yawning," said the man with the frayed cuffs, I preserve a dignified silence." "Yes, I heard about it," said the man with the blue overalls. "I heard your hired girl telling our hired girl that you was the best hand at settin' round an' sulkin' she ever seen."—Indianapolis Journal.

You're Another

Sufferer from the result of poor repair work. But if you bring your Bicycle, Gun, Typewriter or any article of fine mechanism to us when it needs repairs, and it will be overhauled and put in such shape that it will meet with your thorough satisfaction.

Better still, telephone us 565, and we will.

LOOKING AFTER SAILORS

THE PROBLEM FOR THE CAPTAINS.

How the Shipping Master is Useful. Inverness-shire Men Offer to Go Back to Captain Peattie.

A law that will require the discharge of seamen immediately on reaching any port is what many captains would like to see enacted, as a means of preventing such trouble as that recently experienced by the Inverness-shire. The case of the latter is a good example of the extreme difficulty of making laws that will do justice to both master and sailor, on deep water vessels, and has a good deal of bearing upon the question that has been much discussed here lately, of the use of boarding house men. When two of the latter came to Honolulu some of the captains in port talked of "land sharks" and said that such men were not needed here, while other captains said that the aid of shipping masters was necessary to them.

Laws have been made and amended for the protection of Jack and at the same time to make him fill his contracts, till both sailors and masters are now both very closely bound by rules, but the result, so far, has been very successful. The sailor is still bunched and the master is still put to heavy expenses by crews that break their agreements. When a ship comes to a port like Honolulu, where wages are high, the captain often finds that the crew is made up of an objectionable manner and doing very bad work. This means that the man who does this has concluded that he would like to leave the vessel. He expects to finally make the captain so disgusted that a discharge will result, in which case the captain has to pay him off and ship another man in his place at a good deal of expense. If the man happens to be of the sort to "work" the others he is likely to have a hard time of it. The discharge of one in a short time, and this is what is said to have happened to the Inverness-shire. In a port where men are scarce, to be without a crew may become a very serious matter for a large ship.

Another publication made during the year has been part 1 and 2 of Volume of "Hawaiiensis," part 1 by R. C. L. Perkins and Prof. August Forel and part 2 by E. Meyrich. Part 1 treats of bees and wasps and part 2 of moths and butterflies. The material for these was secured by R. C. L. Perkins. This work too has been highly commended by those whose judgment in such matters is of worth. This work was published in London as the expense of securing the material was borne jointly with the Bishop Museum and the British Museum and a British Scientific Society.

The collection of shells in the museum has been much enriched and has been arranged according to plans suggested by Dr. Dall of the Smithsonian Institution, who has accepted the post of Honorary Curator of Conchology to the museum.

The departments of ethnology and natural history have been much added to during the year. When the annex is completed the available space of the museum will be more than doubled.

Owing to the conditions that have prevailed for three months past the preparation and filing of the report has been delayed somewhat, and the financial statements are those for the year ending October 12, 1899. The report however shows practically the work of the museum for the year 1899.

The total revenue of the museum was \$28,035.50 and the total expenses \$20,438.68 leaving a balance on revenue account of \$7,596.82. But the total amount disbursed was \$63,967.71. Of this sum \$41,219.56 was expended on account of the annex, now well on toward completion, and \$1,666.87 on account of the building on the lot on Fort street belonging to the trustees, which when completed will be leased to or for the use of the Kamehameha Alumni Association. The difficulty in procuring well seasoned Koa lumber for the cases for the annex will probably delay the completion of the annex ready for specimens for some months.

The financial statement of the museum at the end of the fiscal year was: cash on hand, \$39,401.73; bills receivable, \$259,796; Hawaiian Government 6 per cent bonds \$30,000. The total receipts of the year were \$103,669.44; total expenditures, \$63,967.71.

The visitors to the museum during the year were 8,399, of whom 5,234 were whites; 1,111 Hawaiians, 272 Portuguese; 1060 Chinese, Japanese 691; others 41.

OLAA'S PATRIOTISM.

OLAA, February 22.—Olala plantation made Washington's Birthday a holiday for all its employees. It is believed it is the only plantation that did. Flags were flying everywhere. The management of Olala is American.

NEW SUGAR COMPANY.

The Wahluwa Sugar Company, with a large tract of land at Wailua, this island, has applied to the Minister of Interior for incorporation. It is to be capitalized at \$500,000 with the privilege of increasing to \$3,000,000. Dr. A. E. Nichols is president of the company; John Emmelhuth is vice-president; G. M. Whitney treasurer and L. Schweitzer secretary.

AT THE OLD STAND.

General blacksmithing and carriage repairing business in all branches at the old stand, Fort street, W. W. Wright.

SURPRISING LOW PRICES.

A very complete line of Gents' furnishing goods, and the very latest styles can be secured at L. B. Kerr & Co., Ltd. at prices that are surprisingly low.

ZONOPHONES.

Zonophones are the popular talking machine records never break nor wear out. Cash or installments at The Bergstrom Music Co.

The Only "Hawaiian Scenic Calendar"—the best ever published—just the thing to mail home—beautiful views—elegant work—sweet music—something that will delight those who have only read, but who have never seen the "Paradise of the Pacific."

For sale only by The Golden Rule Bazaar.

MAY LOSE THE AQUARIUM

CONDITIONS SURROUNDING THE MARINE PARK.

Year's Work of Bishop Museum—Two Extremely Valuable Works Published Annual Report of Trustees Filed.

The free public marine aquarium and marine zoological laboratory for the harbor park near the entrance to the harbor may not be realized. The trustees of the Bishop Museum in their report to the Circuit Court, just filed, say that the location of the Honolulu Iron Works near the reservation for the park, and the purpose of owners to devote other land near it to manufacturing purposes, may make the park an unsuitable place for the marine laboratory and that they may therefore be unable to avail themselves of the provisions of Act 50, session laws of 1898 authorizing them to establish the aquarium and marine zoological laboratory there.

The Museum has made some valuable publications during the year. One of them is a monograph, "Hawaiian Feather Work," by Prof. W. T. Brigham. It is Volume I, Number 1 of the memoirs of the Bernice Pauahi Bishop Museum. It is a complete treatment of the subject, copiously illustrated by photo-engravings, with a number of colored plates made abroad at great expense. The work is from the museum press and is a fine example of the printer's art. The edition is limited and its distribution has been confined to the leading scientific institutions with which the museum exchanges, and to persons whose interest in the museum entitles them to the courtesy. The price of the copies sold has been \$10 each. The work has received very flattering commendation from scientists. It is the only work of the kind ever published. Many inquiries in regard to it have been received, and it may be that the trustees will publish a less expensive edition omitting the colored plates. The inquiries received in this regard are of such a kind as to believe that several thousand would find ready sale.

Another publication made during the year has been part 1 and 2 of Volume of "Hawaiiensis," part 1 by R. C. L. Perkins and Prof. August Forel and part 2 by E. Meyrich. Part 1 treats of bees and wasps and part 2 of moths and butterflies. The material for these was secured by R. C. L. Perkins. This work too has been highly commended by those whose judgment in such matters is of worth. This work was published in London as the expense of securing the material was borne jointly with the Bishop Museum and the British Museum and a British Scientific Society.

MAN OVER BOARD AGAIN

HOW THE ARNOLD LOST A SAILOR.

John Muller, An Orphan Who Shipped at Bremen, Meets Death in the Ocean Near Hawaii.

Another ship entered the harbor yesterday with an off-report story of a man lost overboard and drowned in the open sea. The German ship Arnold, Captain Johannson, lost one of her men on the fourteenth of this month, as she was approaching the islands. The man was lost under rather unusual circumstances, the weather being calm and the vessel moving quite slowly. The captain says he does not know how it happened that the unfortunate man fell into the water.

John Muller was the name of the man who was drowned. He was an orphan who shipped with the vessel at Bremen. At half past nine Muller left the wheel and went to the fore-castle head, says the ship's log, in telling of the accident. "The mate saw him there and in the galley. The weather was good. Soon afterward the carpenter went to the fore-castle and Muller was not there. The mate came forward looking for him at the same time. The mate called Muller's name several times and the captain came on deck to see what was the matter. All hands were called up, but Muller was not there. The captain saw him in the water, about a ship's length off. We put the helm up and lowered a boat, while the sailmaker went aloft to look for the man. The sailmaker sang out that he had gone. The boat went to where he had been seen and found only the life buoy that had been thrown and a piece of paper. The ship sailed back over the place, but Muller had sunk. The ship was making about five knots an hour, under a light northwest breeze. There was a choppy northwest sea."

The man who fell overboard made no outcry of any kind. How he happened to tumble from the bow of the vessel in calm weather is something no one on board can explain.

REPAIRS CANNOT BE MADE

REPORT ON BARK SEBASTIAN BACH.

Captains Do Not Think It Advisable to Try and Make the Vessel Seaworthy Again.

The old British bark Sebastian Bach will probably end her career in Honolulu. She is anchored outside, having called here in distress, and in such condition that seamen do not think it worth while to attempt to repair her. The bark is a very old one and is all wood. Captain Woolley has written to the owners for instructions.

The Sebastian Bach is owned in Hongkong and was on her way from there to the coast with ballast, when she encountered a storm that almost sent her to the bottom. Her second opened, some plates came off, the bulwarks were smashed in and she sprung a leak. The captain steered for Honolulu to get repairs and has been anchored outside the harbor for about a week.

A board of surveyors consisting of three captains in the harbor visited the bark to report upon her condition. The result of their examination of her was a report that she cannot be made seaworthy again, except at a cost exceeding her value. She has outlived her usefulness as a deep water freight carrier, and considering her age and weakness Captain Woolley is to be congratulated on having weathered the storm that caused her to come here.

FUNERAL SERVICES.

The funeral of the late Solly Walter will take place on Wednesday the 28th instant at 3:30 p. m. at Nuanuan cemetery. Rev. Alexander Mackintosh will conduct the services. Friends and acquaintances are thus notified.

THE WEATHER.

Weather Bureau, Honolulu, 1 p. m. Wind light northeast; weather clear. Morning minimum temperature, 67; midday maximum temperature, 80; barometer, 9 a. m., 30.07, steady (corrected for gravity); rainfall, 24 hours ending 9 a. m., 0; dew point, 9 a. m., 65; humidity, 2 a. m., 57 per cent.

NEW SUB-DIVISION.

Cyclometer Park has been subdivided into lots which are now offered for sale. These lots are particularly suitable for manufacturing sites, storage warehouses and residence purposes. Parties seeking locations conveniently near to the business portion of the city will find this a most desirable property. For terms and particulars, apply at the office of Bruce, Waring & Co., Progress block.

ABOUT THE SAME COST.

Everything a man needs to supply his burned laundry can be obtained at L. B. Kerr & Co., Ltd. at a little more than the cost of a wash bill.

HAS FEW EQUALS.

For light running, easy adjustments, and good work the Singer Sewing machine has few equals and no superiors. B. Bergersen, agent, Bethel street.

FOR CAMARINOS' REFRIGERATOR.

Per S. S. Australia—Peaches, Grapes, Oranges, Lemons, Limes, Celery, Cauliflower, Cabbage, Pears, Plums, Fresh Salmon, Flounders, Halibut, Crabs, Eastern and California Oysters (in Tin and Shell), all Game in Season, Turkey, Chicken, New crop of Nuts and Dried Fruits, Onions, Burbank Potatoes, Swiss, Parmesan, Rockford, New Zealand and California Cream Cheese, Olives. All kinds of Dried Fruits.

Note: Heads, Bill Heads, Statements at the Star Office.

DEATH OF SOLLY WALTER

WIDELY KNOWN SAN FRANCISCO ARTIST.

Soldier, Traveler and Citizen of the World He Has Had a Large Influence on the Pacific Coast.

Solly Walter died yesterday afternoon of consumption. Waikiki Inn, aged 53 years. Conformably to his own request, the body was incinerated. The Board of Health for this purpose giving the use of the government crematorium, at daybreak this morning. The mortuary urn will be placed in the vault at Nuanuan cemetery at 3:30 o'clock tomorrow afternoon. There will be a service there conducted by Rev. Alexander Mackintosh.

Solly Walter was a citizen of the world in the best sense of that term. Born in Vienna, he served as a cavalry officer in the war of 1866, an attaché of the colonel of his regiment. His family is one of prominence in Austria, several members of it occupying prominent positions in the government, a brother being government director of railroads. Solly Walter had artistic tastes and an artistic temperament. He early devoted himself to a sincere study of art in the ateliers and under the best masters in Paris. He visited many parts of the world, living for a considerable time in Constantinople, all the while doing much meritorious work with palette and brush.

He came to America about 1878, and married in New York in 1881. Coming to San Francisco soon afterwards, he found that city just awakening to a general appreciation of art, and in the beginnings of a popular art education which has been manifested in many ways and has brought it to an art plane of which it may have pardonable pride. It was in this awakening period that Solly Walter found his life work. As a teacher of drawing and painting, he attracted by the thorough, genuine and clear views he had of the principles of art and the simple, forceful and persuasive way he had of presenting them, very many to his classes besides those who came with the distinct object of learning the technique of drawing and painting. His classes were a center of art education and art appreciation. And in this way he had a large place and a large though untrumpeted influence in San Francisco and on the coast.

But his work was not confined to his classes. As an illustrator and designer he was indefatigable, resourceful and apt. Never forgetful of the true aims of pictorial art, he had a practical sense in the adjustment of the mechanical means of reproducing illustration, to the effect he desired to produce, that made him an important factor in the evolution of newspaper and magazine illustration on the Pacific coast. His work has appeared in nearly every periodical publication in San Francisco, and gave him a wider reputation and made his name more public than his class work, though the latter was nearer his heart. He was a member of the Bohemian Club of San Francisco, and some of his best work, the most con amore efforts of his pencil and brush, was done in the service of that club and is preserved among its many and valuable treasures.

His health began to fail some months ago, and about six weeks ago, accompanied by Mrs. Walter, he came to Honolulu on the barkentine Archer in the hope that the sea voyage and the climate here would benefit his health. In this he was disappointed. For some days before his death it was evident he was steadily sinking. Everything that medical skill, the devotion of his wife or the attention of friends at the Inn could do, was done. He passed away at 2:30 o'clock yesterday.

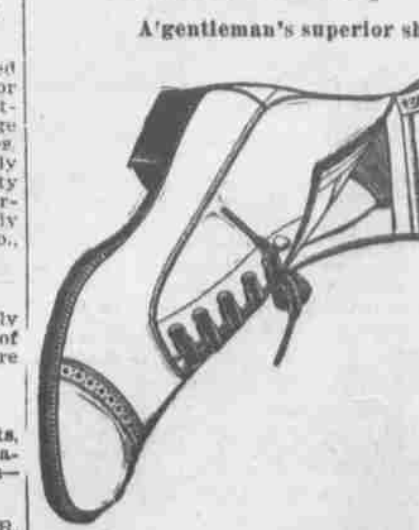

THE ORPHEUM.

"The Cheerful Liar" presented last night by the Orpheum Stock Co., should prove an excellent drawing card. Full of laughter, full of ludicrous complications, and played with breeziness and rapidity. The "Cheerful Liar" was an unqualified success. Of course there were a few first night litches, but only a very few, less than the average stock company's Monday night performance. The characters are well drawn the climaxes well worked up and plenty of "gingers" and go put in from start to finish. With the introduced specialties in each act and Miss Beresford's comicalities the whole program is well worth a visit.

Arrived, February 17, U. S. transport Conemaugh, Roberts, from San Francisco with horses and mules.
Departed, Sunday, February 25, bk. Andrew Welch, Drew, for San Francisco with sugar.**MEMORANDA.**

The bark Holywood did not manage to get away till yesterday afternoon. Captain Tippi has resigned as assistant harbor master. He has had several months of very hard work lately, moving vessels around the harbor. The bark C. D. Bryant has 17,000 bags of sugar on board, at Kaanapali. She is expected to leave at the end of the week for San Francisco.

The coal vessel, having an lining along the water front now. The Lancing went to the Pacific Mail wharf this morning to discharge. The Aspic is at the Inter-Island wharf and the Glenessin at the Oceanic.

The lumber people own a good part of the water front, nowadays, it appears. Nimble legs and a quick eye are needed by those who attempt to make the passage from Fort street to the Pacific Mail wharf.

The report that the ship Posidon had trouble with her crew is an error. Captain Chamberlain had a fine lot of men and all of them were well satisfied with the ship and the master.

STRUCTURAL IRON ARRIVES

The ship W. F. Babcock, Captain C. L. Colley, bringing the structural iron for the big buildings to be erected at Kakaako by the Honolulu Iron Works, arrived off the harbor Friday afternoon and dropped her anchor to await her turn to enter. The Babcock's cargo is one of the most important that ever arrived here and contains the largest lot of heavy iron work that has ever come. The ship was 160 days out from New York and had been expected for several days.

The structural iron on the ship Babcock includes some of the best pieces of steel that will compose the columns on which the heavy buildings are to rest. All of the structures to be put up by the iron works are to be of iron and steel, including the walls and roofs. Some of the pieces are of enormous weight and the work of unloading the vessel will be quite a task for the stevedores. There are plenty of facilities for the job, however, and no trouble is anticipated.

For several months the Honolulu Iron Works has had a large force of men engaged making cement foundations for the new buildings. The foundations as they are now show by far the most elaborate plan of buildings of the kind on the Hawaiian Islands. The foundations cover several acres of ground. They are solid cement to a depth several feet below the surface and the rising about two feet above. On these stone resting places the steel columns will be placed. There will be months of work in erecting them, fastening the connections and completing the whole task of erecting the buildings but when all is done the iron works will have a series of steel and iron buildings that will afford facilities for almost any kind of work. Visitors to Hawaii will find in the mid-Pacific a collection of machinery buildings and works that would do credit to a large mainland metropolis.

The Babcock has 335 tons of freight in all, carrying some general supplies. There are 3312 pieces of structural iron on the ship and 2316 barrels of the same. These were all made expressly for certain parts of the buildings. In addition the vessel carries 31 boxes of hardware, 1700 steel rails 1575 kegs of nails, 150 tons of pig iron and an immense quantity of other building material. Captain Colley had a most valuable cargo in his care, not only in cost but in its worth to the consignees. The structural iron was made to order and its loss would have meant an indefinite delay in replacing it. The work of preparing the big buildings was done in New York.

TRANS PACIFIC LINES.

Every mail from the coast brings new reports of proposed steamship lines to Honolulu, San Francisco and Seattle running neck and neck in a sort of race to see which can send the most. The latest two are from the ever-active Great Northern and the Santa Fe. The Northern Railway has let a contract for the building of 100 steel cars of 100 tons capacity each, to be run in conjunction with the large steamers. Hill is having built for Hawaiian and oriental trade. The Northern wants to be the first road that will be in a position to cut freights overland for the orient and its immense order of cars will enable it to handle the business cheaply.

The Santa Fe company is making its way to San Francisco and, it is stated, will run its first train in to the city about the first of May next. An agent of the road is quoted as saying that the company will probably find it absolutely necessary to establish a trans-Pacific line.

FILIPINOS IN HILO.

HILO, February 24.—Hilo has had an invasion of army transports and likewise of Filipinos. Eight destitute Filipinos from the Omaha Exposition are being transported home on the Leelanaw.

IS A CHANCE TO DO SOME ONE A KINDNESS.

If the reader of this should chance to know of an one who is subject to attacks of bilious colic he can do him no greater favor than to tell him of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It always gives prompt relief. For sale by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Islands.

Novelties in Neckwear

Are among the timely things of the new year. Never in the history of neckwear has there been so many varieties made of the very choicest silks. Pattern designs are characteristics of these new fashions. String Ties, Puffs, Scarfs, Four-in-Hands, English Squares and many other of the latest patterns are to be found in our stock. A fine article of neckwear has become a necessity for him who would be well dressed. No part of his dress is more conspicuous, and when the best can be bought for what inferior goods cost, no one should pass by the bargains we are now offering.

The New Year Begets New Things

For the boys. Have you ever stopped to think what a difference there is in the makes of boy's clothing? Many suits are bought because the price is low. It is often the price that governs the purchaser, and not the quality or the substantial makes. This theory seems to be based on the idea that any kind of a suit is good enough for a boy, as he will soon wear it out. That is not good economy, for if you would pay a little more, and consider quality and make, you would have a suit for the boy that would always look well and outwear two suits of the inferior grades. To buy the best is money in pocket; to buy the poorest is money wasted. We make a specialty to keep the best at popular prices.

"THE KASH"**The Tea Department**

Is one of the special features of our business. Thirty years of close application, study and varied experience enable us to select teas unsurpassed both in quality and price. For richness, strength, quality, tone, flavor and purity we claim our teas unsurpassed.

For rich aromatic blends of great strength, combining the delicious "Fragrance of the Orient," we specially recommend our "Maltese Cross" blends. These are the perfection of the tea expert's skill. Their sale is very large and steadily increasing, demonstrating the value of judicious blending.

BERLIN, February 16.—A report was received today from Dr. Robert Koch, the germ expert who for two months has been investigating in the Dutch East Indies the origin and nature of malaria. Dr. Koch writes that he has tamed a lot of giant orang-outangs. These have been subjected to the stings of insects of various kinds, and the results are as follows: The only insect whose virus he has discovered and which will be used for inoculation which will act as a cure and preventive of malarial diseases. Seven monkeys were infected with malarial blood taken from patients suffering from tertian and tropical ague, but were not affected. It was found that man was the only host-bearer of malarial parasites after infection by mosquitos and other insects.

TUESDAY, FEBRUARY 27, 1900.

How about the rat campaign. Will E. Fisher seem quite willing to plan a campaign if he is given the requisite authority.

Kentucky seems to have laid aside its feuds and is waiting till the courts give their decisions. As soon as that is decided, one may look out for some lively shooting. Kentucky means to give the United States a thorough exposition on the theory of the majority governs, and side lights on how a minority accepts it. Corpses follow.

The United States is certainly going to have a fine exhibit at the Paris exhibition. The total number of exhibitors is three times greater than the total number of exhibitors from France at the Chicago exhibition. It is a pity that the Hawaiian exhibit did not go forward with the American exhibit. It would have been far less costly and there would be some certainty of its being displayed. As things now stand there seems considerable doubt as to whether the Hawaiian exhibit will go forward at all.

Macrum's charges of having his correspondence opened are serious if they are substantiated. But it seems very curious that the first heard of them is after the Consul had severed his connection with the State department. Macrum was Consul at Pretoria when the war broke out and cabled home to be relieved. Adelbert Hay, son of the Secretary of State, replaced him. He may be sore on this account. Young Hay seems to have made a good impression in Pretoria.

It is very sad to think of Colonel Little in Washington doing the "remittance" act, and staving off creditors in the Olaa squatters send forward another contribution. Seeing the extraordinary success Colonel Little has had in preventing the poor man from acquiring land save by the most expensive methods, four hundred dollars, which the Olaa squatters send as a final contribution seems to be quite inadequate. The gallant Colonel would no doubt be willing to remain permanently in Washington, at the expense of the squatters, and transact all Hawaiian land business—for a consideration.

RATS! RATS!

After the great fuss that was made about rat killing the subject seems to have died down, and be hardly thought of any more, yet there is real danger in the rodents, and other countries are indefatigable in their efforts to eradicate them, and we should use like precautions. Had the poison which was first used proved thoroughly effective, the excitement over the chase and capture of the rodents would have received a fillip which have done much towards bringing about their extermination. It was unfortunate that matters turned out as they did.

But because from some cause or other there was a failure in the first organized attack upon the rats there is no reason why the city should sit down and give up the fight—as well give up the fight against the plague—and that we have by no means done. But the killing of rats is as much a part of the fight against the plague as quarantine regulations and the destruction of infected property.

The Citizens' Sanitary Committee should take up the campaign again. It may be necessary to carry it on on different lines, or to make additional effort, outside of poisoning. There has been a great deal of fun made about the official rat poison, but the fault with it was, as was pointed out in an editorial note of The Star a week ago, that it was not thoroughly mixed. It takes a long time to thoroughly permeate a mass of lard or fat with strychnine, and the probability is that the material was too hastily prepared. This would account for its killing in some cases, and not doing so in others. But be this as it may, it is absurd for a laugh or two to turn the citizens from grappling with a serious problem.

We have to meet the rat question, and we will never be sure we are free from plague until we have killed off the rats. It can be done and it must be done.

TWO BILLION.

The billion dollar limit was considered something in United States commerce some years ago, but the two-billion-dollar has been crossed both by U. S. commerce and the circulation of money. Who of the parties who gave their blood and their sweat a century and a quarter ago would have dreamed that such wealth would come to the country they had and fought for?

The total foreign commerce of the United States, for the year 1899, according to the Bureau of Statistics amounted to \$2,074,345,342 while the total money in circulation on February

1, 1900 amounted to \$2,003,149,355. These figures are stupendous, but of course one is dealing with a stupendous nation. For instance the total resources of the National Banks on December 31 were \$4,475,343,924, and the deposits in the savings banks aggregated \$2,230,366,954, making the total resources of the banks in the United States considerably over six billions of dollars or over one billion of pounds sterling.

These figures are of course taken from one of the most reliable of financial papers. They are simply appalling to the ordinary mind, but they show what industry and peace will do for a people. To make progress in billions one would argue was a slow process, but the United States have proved that it is not so slow as many would think.

The figures show prosperity of an unprecedented kind. The total money in circulation in this present month of February is one-third greater than it was at the commencement of the financial year of 1897, the actual increase being close on to \$500,000,000. And it may be noted that sixty-one per cent of this increase was gold.

We all know here the unpleasantness of a double standard. Debts here have to be paid in American gold, but much money is received in either Hawaiian or American silver, and the consequence is that gold is at a premium. As soon as we get our organic law this difference will disappear and American silver will be as good as gold. The little petty differences which afford so much friction, and so much unnecessary calculation, will disappear and we will live under the Aegis of a double billion dollar country, which after all is far better and more effective than the aegis of the fabled Minerva, whose pocket book was a very slim one, and whose shield, in consequence might have been as slight. After all when you go in for armor, it is well to have a long purse.

The Hilo Tribune takes occasion to have an ugly fling at Attorney-General Cooper, whose mission to Hilo it tries to show was of no avail, and was mismanaged, in contrast to the visit of Dr. Wood. Now from all that one can learn of that visit both from the reports in the Hilo papers and the statement of Mr. Cooper himself, there was considerable friction between Hilo and the Board of Health and Hilo and the rest of Hawaii and after that visit it was certainly allayed. The Attorney-General made arrangements which were satisfactory all round. In point of fact the attitude of Minister Cooper laid the way to Dr. Wood's visit being accepted as a matter of course. It seems somewhat ungracious to hit Mr. Cooper over the shoulder of Dr. Wood. Mr. Cooper had a troublesome task and did it well.

The decision in the Inverness-shire case condemns the men of that ship to lose about two years wages. It is claimed that so strong a decision is absolutely necessary. But landmen who do very much worse things than the Inverness-shire men did, suffer no such hard penalty. Take the case under consideration for a moment. The landsman is paid by the week or the month. These poor devils would be paid at the end of the very indefinite voyage. They work for so long well. Then they lose their temper and they lose all along with it. It is true that discipline must be maintained in ships, but this is a mighty deal of wrong done to the sailor man. The trouble is that the sailor is ignorant, he is unable to represent his case when called as a witness, and he has property against him. And yet how unflinchingly he works to save property at the risk of his life, half the time in his career. The decision in the Inverness-shire case is probably good law, probably absolutely necessary for the keeping of men in proper discipline but none the less it is one that may be challenged at a higher tribunal than there is in this world. The men were wrong. Of that there is no doubt. Was not their punishment greater than their crime?

NO CATCHING AT STRAWS.

Drowning men, they say, will catch at straws. Naturally enough, because they see nothing better to catch at. It is the principle of any port in a storm. All the same the straw does not save the drowning man, nor is the tempest-tossed mariner likely to find a safe harbor every time he runs for the shore. The scientifically constructed life preserver is better than a straw, and to know how to ride out a storm is better than to trust to luck in finding a port in time of need. Just so it is in disease and all manner of sickness. When your life is threatened by disease you naturally desire a mode of treatment founded on absolute knowledge—a treatment that has proved effective in other cases like your own. This is the common sense of the subject and no one will dispute it. And it is because the well-known effective remedy

WAMPOLE'S PREPARATION never fails in the complaints for which it is recommended, that it enjoys the confidence of the people and the medical profession everywhere. The doctor who prescribes and the patient who takes it are not catching at straws. For it does what it is said to do on the same principle that water puts out a fire. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites, Malt and Wild Cherry. It quickly arrests the loss of flesh in wasting diseases, builds up the body, and expels from the blood those pernicious germs which cause Fevers, La Grippe, Scrofula, Bowel Complaints, Throat and Lung Troubles, etc. One bottle convinces. Effective from the first dose. "You cannot be disappointed in it" Sold by chemists everywhere.

WILL E. FISHER

Real Estate Agent & Auctioneer
FORT AND MERCANT STS.

THE SLAUGHTER OF RATS

COLONEL FISHER SAYS IT IS A
SCIENCE.

Recent Efforts Not on the Right Plan.
Strategy Ought to be Used with the
Rodents.

Colonel Will E. Fisher, who has been talked of as the man for the rat-killing business, says that if he were given a free hand he thinks he could rid the city of rodents in a short time. Fisher says he has been up against the game before and knows all about the rat-slaughtering business. The late campaign was a very unscientific one, in the opinion of the colonel.

"The killing of rats is a business that some men have got down to a fine point in the large cities," said Colonel Fisher. "In London and other places there are professional rat-killers who have studied the best way to get rid of the rodents, and the result of their knowledge ought to be applied here. It is of no use to spread poison about, in any sort of packages. Just as soon as a rat eats the stuff and dies, every other rat tumbles to the game, and the poison is of no use."

"Rats are very foxy animals. They need to be coaxed and handled with strategy. If I were trying to poison rats, instead of giving them a lot of poison, I would leave food around for them, night after night. Let it be for getting to divisions in the suburbs every night. Then, when all the rats in the neighborhood have got into the habit of going after the stuff, set the poison. This will get them all. You can get all the rats in town almost in one place, if you begin putting out stuff that they like."

"Kill rats? Why I'd guarantee to rid the whole town of its rat population in very short order, if I had a free hand. I've seen and talked to the professionals who understand all about the business, and know something about handling rodents."

RAT CATCHING AT HILO.

HILO, February 24.—Tomorrow has been designated as "rat catching" day in Hilo. Eighty volunteers have been called for ten or twelve to be mounted and as many more to be in vehicles for getting to divisions in the suburbs. The Benson, Smith & Company official rat poison will not be used. The poison will be prepared and spread on slices of bread and meat. The volunteers are requested to bring with them a basket or box large enough to hold about fifty slices of bread.

Dead rats are to be paid for at the rate of ten cents each.

MAUNA LOA.

HILO, February 24.—A large column of smoke was seen on Sunday last arising from Mauna Loa, at a point between the head of the '81 flow and the cone of the '99 outbreak. This had disappeared however on Tuesday.

AMERICA AT PARIS.

Will be Seven Thousand Five Hundred
American Exhibition.

CHICAGO, February 15.—Commissioner-General Ferdinand W. Peck left this afternoon for Paris.

Before leaving, the Commissioner-General said: "We feel that our great task on this side of the ocean is about done. We have, during our eighteen months' labor, succeeded in finding among the manufacturers and producers exhibitors for every group and class whom we believe will present the best in their respective fields that our country affords. Our organization has been practical and effective, and members of our staff have scoured the country from San Francisco to Boston, covering territory over 3000 miles in width and visiting more than fifty great cities, in order to obtain the best in every department."

"We shall have about 7500 exhibitors, which is ten times as many as we had in Vienna in 1874, six times as many as in Paris in 1878 and five times as many as the United States had at Paris in 1889 and three times as many as France had at Chicago in 1893."

MACRUM'S CHARGES.

WASHINGTON, February 15.—Charles E. Macrum, former United States Consul at Pretoria, in a signed statement just issued charges the British censor in South Africa with delaying his official cablegrams to the State department and with opening his letters both to and from the department. The State department has begun an investigation of the charges.

EX-PRESIDENT ROBBED.

INDIANAPOLIS, February 15.—Ex-President Harrison has just made the discovery that he was the victim of a sharper and forger while he was in Paris last summer, and, while declining to say what amount of money was secured by the thief, it is intimated that it was very considerable, being the dividends due Mrs. Harrison from there or four sources.

CHOYNSKI WINS.

CHICAGO, February 16.—Joe Choynski defeated Peter Mather in a six-round contest at the Second Regiment Armory this evening. The Irish champion was decisively outpointed, but stayed the limit, despite blows that dazed him. At the end he was tired and staggering, and carried a swollen eye where the California landed with his left.

Commissioner's Sale of Real and Personal PROPERTY.

Pursuant to an order made by Honorable A. Perry, First Judge of the Circuit Court of the First Judicial Circuit, filed the 31st day of January, A. D. 1900, I am directed to sell at public auction, subject to confirmation by the Circuit court,

ON SATURDAY, MARCH 3, A. D. 1900.

At 12 o'clock noon of that day, all the right, title and interest of Genevieve Dowsett, Marion C. Dowsett, being an undivided one-twelfth interest each of said minors, and also the one-twelfth interest of Madeline C. K. Dowsett and Annie H. K. Dowsett, minors, in estate of James I. Dowsett deceased, in and to all those certain pieces and parcels of land situated on the Island of Oahu, Maui, Hawaii and Molokai, and more particularly described as follows:

1. The land situated in Nuuanu Valley, Island of Oahu, deeded in deed from John H. Wood to the Honolulu Dairy Company, dated April 30th, 1892, and recorded in the Registry of Conveyances in Honolulu in Liber 136 at pages 174 to 177, containing an area of 271 acres, more or less.

2. The land situated at Kapalama, in Honolulu, Island of Oahu, known as the Akepo lot, being a part of Royal Patent No. 5572, and described in deed made by Kaeas and J. W. Akepo to James I. Dowsett, dated the 3rd day of February, 1882, and recorded in Liber 73 on pages 210 to 212. Containing an area of 112 acres.

3. The land situated at Aiea, in Honolulu, described in deed from A. Francis Judd to David Kahanu, dated March 21st, 1870, recorded in Liber 29 on pages 424 and 425, and the land described in the deed from John O. Dominis and E. Mahial, Administrators of the estate of Josiah Kakuhi, to David Kahanu, dated June 7th, 1896, and recorded in Liber 21 on pages 315 and 316, and in a deed from Kahananui and Keohokili, her husband, and Kaluahuine to David Kahanu, dated September 14th, 1866, and recorded in Liber 22 on pages 106 and 107.

4. The land situated at Kakaako in Honolulu, described in the deed from Moekolohe and Nainoaheua to David Kahanu, dated March 30th, 1880, and recorded in Liber 63 on pages 415 and 416. Containing an area of 1-5 of an acre.

5. The land at Aiea on Liliha street, in Honolulu, described in the deed from Nika and Punialakala, his wife, and Ke-aka to David Kahanu, dated October 9th, 1869, and recorded in Liber 29 on pages 40 and 41; also the land described in the deed from John Thomas Waterhouse and Eleanor, his wife, to David Kahanu, dated January 25th, 1878, and recorded in Liber 66 on pages 63 and 64; also land described in the deed from Kia Nahaoleleu and Nahaie to David Kahanu, dated January 10th, 1876, and recorded in Liber 49 on pages 385 and 386. Containing an area of 3.03 acres.

6. The land situated on King street, in Honolulu, described in the deed from P. M. Hatch to James I. Dowsett, dated October 18th, 1888, and recorded in Liber 115 on pages 68 and 69. Containing an area of 17-100 acres.

7. The land situated at Kapahala, Kapalama, in Honolulu, being a portion of Apana 1, Royal Patent 2256, L. C. A. 2440B, described in the deed from Thomas Carry and Mary, his wife, to James I. Dowsett dated June 14th, 1887, and recorded in Liber 106 on pages 193 and 194. Containing an area of 1900 square feet.

8. The one undivided half of the lands situated in Honolulu, known as the land of Kahaohao and Kahololo, L. C. A. 153 to Wm. Sumner, dated March 5th, 1849.

9. The land situated at Puhawai, Waianae, Island of Oahu, described in Royal Patent 1073, L. C. A. 7465, and in the deed of Pine and Kinikaku to James I. Dowsett, dated April 30th, 1888, and recorded in Liber 110 on page 256. Containing an area of 6.74 acres.

10. The land situated on Pearl River Bay near Honolulu known as Puuloa, containing an area of 2244 acres, and described by metes and bounds in the deed from Kekanonohi to Isaac Montgomery, dated September 7th, 1849, and recorded in Liber 4 on page 4.

11. The land situated at Honolulu, at Ewa, on the Island of Oahu, comprising 86 acres, more or less, now under lease to Sing Chong & Co.

12. The land situated at Kapalama, Island of Oahu, described in Royal Patent 2256 issued to John Meek, and comprising 9 58-100 acres; and also the land situated at the same place, part of the III of Kahuopu, described in L. C. A. 8215, Apana 1, Part 1, and comprising 1 728-1000 acres, more or less, which said two last mentioned parcels of land are now held under lease dated September 15, 1896 by Y. Ah In.

13. The land situated on the Island of Maui, known as the Kaka Ranch, comprising all the lands described in certain Royal Patents and deeds as follows: All the land described in the deed from Parker N. Makee and others to James I. Dowsett, dated March 3rd, 1886, and recorded in Liber 101 on pages 200 et seq.; also the leasehold estates in the following lands: Lease of the Hawaiian Government of the Ahiapua of Kanaia, to Catherine N. Makee, Number 292, dated February 9th, 1867. Lease from John M. Kapena to James Makee dated December 22nd, 1876, and recorded in Liber 47 on page 496. Containing an area of 21,650 acres.

14. The land known as Kauli situated at Ewa, Island of Oahu, being part of Hoana. Containing an area of about one acre.

15. The land with an orange grove situated at Hana, Island of Maui. Known as Dowsett's land. Containing an area of 1 1/2 acres.

16. The land situated on the Island of Molokai described in Royal Patent 2230.

17. The land situated at Waipio on the Island of Hawaii known as Dowsett's land.

18. The land situated at Kapulu in Honokaa, Island of Hawaii, formerly leased to J. M. Horner & Sons and now occupied under said lease by the Pacific Sugar Mill. Containing an area of 17 1/2 acres.

Also the leasehold estates in the following lands: The land of Halawa, the land of Kahauki, the land of Leilehua, the land of Mikilua, the land of Nana-kuli and the land of Alea, all situated on the Island of Oahu.

Also all the live stock belonging to the Estate of James I. Dowsett, deceased, comprising 6,000 head of cattle, more or less, 60 head of oxen and bulls, and 212 head of horse and mules.

Also all and singular, the lands, chattels, choses in action, and property, real and personal, belonging to the Estate of James I. Dowsett, deceased, or to which said Estate may be at any time, whether herein enumerated and specified or not.

Terms of sale are cash in U. S. Gold. Deed at the expense of purchaser. For further particulars apply to

Hawaiian
Electric
Company.

The "cleanest, brightest, safest and really in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."

This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light.

Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

We have a complete stock of everything in its line and have just received a lot of the very latest designs.

All Tired Out

Pale, Thin, Poor Blood, No Energy.

These are the symptoms of impure blood, starved blood. Take out the impurities, feed the blood, and health quickly returns.

Mrs. George Mitchell, of Yule St., Buninyong, Victoria, send us her photograph with the following story:

"I suffered terribly from general debility. I had no energy. I was tired in the morning as at night. It did not seem possible for me to keep up. I was thin and pale and my blood was very poor. I had no appetite. I gradually grew weaker and weaker. When almost completely exhausted I read about

AYER'S Sarsaparilla

I immediately tried it and began to improve at once. A few bottles completely restored me to health."

You cannot get the best results from Ayer's Sarsaparilla if your bowels are constipated. Take just enough of Ayer's Pills each night to cause one good free movement of the bowels the day following.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

SENATE CURRENCY BILL

THE BIMETALLIC THEORY IS ABANDONED.

The Gold Dollar made the Standard Unit of Value—National Debt Reduced at 2 per cent.

WASHINGTON, February 15.—The Senate substitute for the House currency bill was passed by the Senate today by the decisive majority of 46 to 29. Prior to the final passage of the bill amendments were considered under the ten-minute rule. Only two of these amendments were adopted, viz, one offered by the Finance Committee opening the door open to international bimetalism, and one by Nelson of Minnesota, providing for national banks with \$25,000 capital in towns of not more than 4000 inhabitants. The free silver substitute offered by Jones, the leader of the Democratic side, was defeated by a majority of 19, the vote being 47 to 28.

The bill as passed, consists of ten sections. It provides that the dollar of 25 8-10 grains of gold nine-tenths fine, shall be the standard unit of value, and that all forms of United States money shall be maintained at a parity with it, and that the treasury notes and greenbacks shall be redeemable in gold. The Secretary of the Treasury is to set apart a fund of \$150,000,000 in gold for the redemption of these notes, and to maintain this fund at a figure not below \$100,000,000 he is empowered to sell bonds of the United States bearing interest at not exceeding 3 per cent.

It shall also be the duty of the Secretary of the Treasury, as fast as standard silver dollars are coined, to retire an equal amount of the treasury notes and issue silver certificates against the silver so coined. Under certain provisions, too, gold certificates shall be issued against the gold held in the Treasury. No United States notes or Treasury notes shall be issued in denominations of less than \$5 and no silver certificates in denominations of more than \$10. The Secretary of the Treasury is also authorized to refund the bonded debt of the United States in thirty-year bonds bearing 2 per cent interest, the principal and interest of these bonds to be paid in gold. The 2 per cent bonds shall be issued at no less than par. Any national banks, by depositing with the United States bonds of this country, shall be permitted to issue circulating notes to the face value of the bonds deposited, no bank being allowed to issue circulating notes in excess of the amount of the paid-up capital stock of the bank.

COFFEE MARKET.
Rising Markets Everywhere and Bright Outlook for the Grower.

Otis, McAllister & Company's coffee circular dated February 7, says: "Rising markets have been the rule everywhere since our circular of January 6th. The causes have been numerous: confirmatory estimates of 9 @ 9½ millions of bags for the growing Brazil crop—now-a-days not regarded too large; Bubonic Plague scare at Rio and Santos, which Ports have been since officially declared free from this infection; abnormally heavy and steady reduction in official figures of the World's Visible Supply, the decrease since October 1st amounting to 1,474,000 bags; and last but not least, sentiment, which has proven one of the strongest factors. There is no doubting now that prices went unwarrantably low and with this firm platform as a basis coffee could move in but one direction if given only the slightest encouragement. The enormous decrease in Visible Supply indicates movement rather than consumption, and it will be interesting to note at some future time how much of this disappearance will make its re-entry to be sold again. Locally, business has been very active but somewhat hampered by the paucity in first hands of moderate priced coffees, to which qualities the demand mainly runs. In addition to the list of importers' sales given below fully 10,000 bags in the aggregate have been turned over several times between dealers. Low grades are in great request and relatively higher than any other description. The markets close from steady to firm at the advance.

"Stocks in first hands consist of 22 bags Costa Rica, 53 Nicaragua, 2,271 Salvador, 8,458 Guatemala and 2,574 Mexican; in all 13,479 bags as against 9,163 bags same time last year.

PRICE ON HIS HEAD.

PEKING, February 16.—An Imperial edict just issued commands Li Hung chang to desecrate and destroy the tombs of the ancestors of the Chinese reformer, Kang Yu Wei, and offers 100,000 taels for the capture of Kang, dead or alive. Though the edict purports to emanate from the Emperor, it is evidently the work of the Dowager Empress, whose bitterness toward the reformer is thus further evidenced. Kang Yu Wei, who is about 40 years of age, is a Cantonese, and for some time was a teacher at the Native College in Canton. Ten years ago he went to Peking, where he became one of the founders of the Reform Association, and although he never held an office of any importance, being in fact but a junior secretary of the Board of Works, yet he succeeded in winning the notice of the Emperor by means of memorials to the throne advocating the introduction of reform, and eventually the Emperor granted him the now historical audience, when Kang's eloquence moved the Emperor to astonish China and the world at large by the series of decrees which, among other innovations, were to alter the character of the literary and military examinations, to constitute a national currency and to found a university at Peking. The attempted reforms, it will be remembered proved abortive, and resulted in the return of the old order of things with the Empress Dowager, the flight of Kang and the execution of the other principal reformers, who went to their death much like the Christian martyrs of old, affirming that "for every head which fell that day a thousand others would rise up for liberty and reform."

HILO'S SANITARY FIRE

WAS ATTENDED BY THE "BEST PEOPLE."

The Serrao Residence and Store Reduced to Ashes—Practice for Fire Department—Inventory of Property.

HILO, February 24.—The Hilo Tribune today publishes the following: Hilo's first fire within the memory of man took place February 16, and this was a purely artificial affair, carefully arranged under Government supervision, and attended by the "best people," who apparently enjoyed the novelty to the utmost. The Serrao store, at the corner of Waiānuenu and Front street was fired at 4 p. m., fire extinguishing apparatus having been carefully provided beforehand to insure the non-spreading of the flames to the other buildings which line the makai side of Front street, and are so dear to the Hilo soul. Everything went off most successfully. The Serrao block with its general merchandise, assorted microbes and resident rats burned beautifully, and in less than an hour only a few sheets of badly warped corrugated iron survived the flames. The firemen in the meantime had used the hose and the one-horse engine to such good advantage that the spectators were deprived of the pleasant excitement of watching the neighboring house catch fire. The Serrao residence was reduced to ashes on Saturday, together with all its contents, except the family, who were considerably removed to Cocanau Island, where they will pass a fifteen days quarantine. The inventory made of the total property destroyed amounts to not far from \$8,000. The figure set on this matter by Mr. Serrao differs but slightly from that of the Government.

THE MISSOURI.
SAN FRANCISCO, Feb. 17.—Captain Dillon of the hospital transports Missouri has asked for a survey of the vessel and Major W. L. Arthur, the surgeon who has been in charge of her ever since she entered the service has been relieved from duty.

1900 Ramblers are here

Out of sight too, regular beauties. We received but 20 by this "Australia," all the San Francisco house could spare on account of the great demand there. Call and see what a 1900 Rambler looks like and you will want one, but come soon as several are sold to arrive and as we had no stock when these got here 20 will not last long.

Repair Work

This is our strong point as we have the best repair man in the islands and are thus able to guarantee our work. We undertake any kind of bike repairs, no matter how badly a wheel is smashed up we can make it as good as new. We know we are not located well at present and our customers and selves are put to a good deal of inconvenience, but a good start has been made on our new quarters and after a few months we will show you bicycle and sporting goods quarters that will be a credit to any city in the United States. In the mean while we will have to hoomanawanui.

If the next Australia brings us what we have ordered in the wheel line we will have something interesting to tell you when she comes. When you want to rent a wheel come to us.

Passengers are requested to purchase tickets before embarking. Those failing to do so will be subject to an additional charge of twenty-five per cent.

The company will not be liable for loss of, nor injury to, nor delay in, the delivery of baggage or personal effects of the passenger beyond the amount of \$100.00, unless the value of the same be declared, at or before the issue of the ticket, and freight is paid thereon.

All employees of the company are forbidden to receive freight without delivering a shipping receipt therefor in the form prescribed by the Company, and which may be seen by shippers upon application to the pursers of the Company's steamers.

Shippers are notified that if freight is shipped without such receipt it will be solely at the risk of the shipper.

A BENEDICT'S STORY.

A willowy form,
A steed of steel,
A firm control,
Of a whirling wheel.

A glint of ribbons,
Of hose, of lace,
A healthy glow,
On a pretty face.

A graceful movement,
A watching smile,
And the girl is down,
The road, a mile.

What? Was I in it?
Well, I should smile!
My Sterling was built
For speed and style.

The P. C. M. COMPANY,
In Ehlers' Block,
Supplied my mount
From their high-grade stock.

Well, away I flew,
With scorching speed
And—Thus won my bride,
Or, my Sterling did.

THE PENITENTIAL SEASON

ASH WEDNESDAY, TOMORROW,
BEGINS LENT.

Daily Lenten Services of the Cathedral
Congregation—Announcement of Subjects of Discourses.

Tomorrow is Ash Wednesday, the first day of Lent. It is so-called from the custom introduced by Gregory the Great of sprinkling ashes on the heads of penitents.

Lenten services will be held by the Cathedral congregation daily. Rev. V. H. Kitcat, parish priest has issued announcement of these services. He says, addressing the people of his parish:

"The approach of Lent reminds us once more of the duty of considering our position in the sight of God. The affairs of life press upon us daily and tend to thrust out of sight all thoughts of the spiritual life. Let me urge you therefore to make use of the Lenten season to consider your ways. Special services, of which notice is given, will be provided in the hope that they may be helpful. But we must remember that what God looks for is a broken and contrite heart. And if you co-operate with the Holy Spirit to seek this disposition in the sight of God you will find that Lent will prove no mere ecclesiastical observance but a lasting blessing to your souls."

The Lenten services are as follows: On Ash Wednesday, there will be a celebration of the Holy Communion at 6:30 a. m.; Morning Litany and Communion at 11 a. m.; Pulpit Address at 3:30 p. m.; Special Services with Address at 8 p. m. Matins will be said daily, (except Thursday and Saints' Days) at 7 a. m.; Evensong, (except on Wednesdays) at 5 p. m. On Thursdays and Saints' Days there will be a celebration of the Holy Communion at 6:30 a. m.; Matins at 9 a. m. A short service with address will be held every Wednesday evening at 8 p. m.; the address being given by the Rev. Brian C. Roberts. The Litany will be said, and a short address given on Wednesdays and Fridays at noon by the Rev. V. H. Kitcat.

The services on Sunday will be at the usual hours. The subjects of the sermons are as follows:

Sundays, 11 a. m., "The Atonement," St. John, Rev. V. H. Kitcat; "The Prodigal Son," Rev. B. C. Roberts; "The Atonement," St. Peter, Rev. V. H. Kitcat; "The Miracle of the Loaves," The Rt. Rev. the Bishop; "The Power of Prayer," Rev. B. C. Roberts; "The Humiliation of the Redeemer," The Rt. Rev. the Bishop.

Sundays, 7:30 p. m., "The Problem of Pain," Rev. B. C. Roberts; "Loss of the Birthright," The Rt. Rev. the Bishop; "The Unconquered Message," Rev. B. C. Roberts; "The Atonement," St. Paul, Rev. V. H. Kitcat; "From Prison to Vice-royalty," The Rt. Rev. the Bishop; "The Passion," Rev. V. H. Kitcat.

Wednesdays, 8 p. m., "The Mission of the Master," "Conscience," "The Beauty of Holiness," "The Test of Character," "The Apportioning of the Burial," "The Denial."

Wednesdays and Fridays, 12 noon, "Thoughts on the Passion from Prophecy."

TROUBLE ENDED AT OLAA.

HILO, February 24.—The Japanese charged with assaulting a luna on Olua plantation was convicted on Wednesday and sentenced to six months hard labor.

The trouble among the Japanese on Olua is said to have originated from mischief makers who led the laborers to believe that their contract only called for nine hours work in clearing fields and that the luna under whom they worked was responsible for their being required to work ten hours. Firm dealing with the ring-leaders in the outbreak and a clear explanation to them of the terms of their contracts, has it is believed, straightened out matters, and removed apprehension of further trouble.

ARE THERE NO FIG LEAVES?

The ladies of Hilo have been devoting their time this week to the manufacture of garments new for the Serrano family, who would otherwise emerge from their Cocanuto Island quarantine in the primitive state of the Garden of Eden.—Hilo Tribune.

ASIATICS IN TOWN.

The European section of the city, particularly the business portion, is daily filled with Chinese and Japanese from the detention camps. They are out of work and, for the most part, out of cash. For hours yesterday there was a swarm of Asiatics along Fort street. With Chinatown burned they looked as much at sea as they doubtless felt. Gradually the men scattered, most of them finding work in town.

A GOOD THING.

There's one good thing when they feel dry.
That business men cannot pass by,
For far and wide it's fame you hear,
They stop to drink of "Rainier" beer.
On draught or in bottle at Criterion.

BUSINESS MEN'S MEMO.

Tuesday, February 27.

Fifth assessment of five per cent or \$1.00 per share on the assessable stock of McBryde Sugar Co., Ltd., is due and payable March 1, 1900 delinquent April 1, 1900. The sixth assessment of five per cent due March 15, 1900 delinquent April 1, 1900.

Two and one-half per cent assessment on the assessable stock of Olua Sugar Co., Ltd., is due and payable October 1, 1899, and 2 1/2 percent additional the 1st of each succeeding month, including July, 1900.

Third assessment of 10 per cent or \$2 per share on the assessable stock of Nahiku Sugar Co., is due March 1, 1900.

Sixty per cent assessment on the 10,000 new issue of shares of Waiakua Agr. Co., Ltd., due Jan. 15, 1900, delinquent February 15, 1900.

Fifth assessment of five per cent or one dollar per share on the assessable stock of Kamalo Sugar Co., due February 1, 1900, delinquent March 1, 1900.

Eighth assessment of 10 per cent on Rapid Transit & Land Co. due February 1st, delinquent March 1st.

Seventh assessment of 10 per cent on the assessable stock of Kona Sugar Co., Ltd., due February 2, 1900.

The sixth assessment of 10 per cent or \$5 per share on the assessable stock of Kihel Plantation Co. is due and payable March 1, 1900.

The fourth assessment of 10 per cent or \$10 per share on the assessable stock of Maunaloa Sugar Co., Ltd., is due January 1, 1900 delinquent January 31, 1900.

Fourth and last assessment of 25 per cent on the assessable stock of Olua Sugar Co., Ltd., due February 1, 1900.

TORTURING DISFIGURING HUMOURS

ITCHING, BURNING, AND SCALY ERUPTIONS
OF THE SKIN AND SCALP, WITH
LOSS OF HAIR.

The agonizing itching and burning of the skin, as in Eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurement, as in pimples and ringworm; the awful suffering of infants and the anxiety of worn-out parents, as in milk crust, tetter, and salt rheum—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura remedies are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy, have made them the standard skin cures and humour remedies of the civilized world.

Those who have suffered long and hopelessly and who have lost faith in doctors and medicines may make trial of these great curatives with the most gratifying success. The treatment is simple, direct, agreeable, and economical, and is adapted to the youngest infant as well as adults of every age. *Bathe the affected parts with Hot Water and Cuticura Soap to cleanse the surface of crusts and scales, and soften the thickened cuticle. Dry, without hard rubbing, and apply Cuticura ointment freely, to allay itching, irritation, and inflammation, and soothe the heat, and lastly take the Cuticura Resolvent to cool and cleanse the blood.* This sweet and wholesome treatment affords instant relief, permits rest and sleep in the severest forms of eczema and other itching, burning, and scaly humours of the skin, scalp, and blood, and points to a speedy, permanent, and economical cure when all other remedies and even the best physicians fail. The SET, consisting of Soap, Ointment, and Resolvent, or each separately, may be had of all chemists and stores where medicines are sold throughout the world.

BY AUTHORITY

NOTICE TO SHIPPERS.

In the matter of disinfection or fumigation of freight, shippers will make no distinction between that destined for points on the Island of Oahu and that destined to points on other islands.

The original cases must be opened and the straw or loose paper wrapper or sawdust or other packing material removed from each bottle or tin, each bottle or tin is then to be dipped in an approved disinfecting solution; the interior of the original case is then to be washed out with disinfectant; in re-packing the already disinfected bottle or tin no wrapper may be used unless same has first been fumigated or disinfected; the filled case is to be closed up and the entire exterior is to be disinfected.

In cases where the tinned or bottled goods have no loose paper or straw wrapping, or where they are not packed in saw dust or any similar substance the entire original package, after two or more large openings have been made in it, may be dipped in a disinfecting solution; but great care must be exercised to ensure the thorough disinfection of each tin or bottle and the whole interior of the original package as well as the whole exterior surface of such original package.

Shippers having the interests of the entire island community at heart will exercise very cheerfully every precaution and assist rather than impede the efforts of the Board of Health in preventing a further spread of bubonic plague in these Hawaiian Islands.

Willful infringement or careless disregard of these or other regulations of the Board of Health on the part of shippers will be followed by the immediate withdrawal of privilege of shipment of any goods whatever by those engaging in such infringement or carelessness.

NEWS IN A NUTSHELL.

Bits of Paragraphs that Give Condensed Notes of the Day.

The steamer tomorrow should bring four days later news.

There are now 175,000 bags of sugar ready for shipment on Kauai.

See Bruce Waring & Company for choice of lots at Cyclometers Park, now subdivided.

The office formerly occupied by the Hawaiian Stock Exchange on Fort Street is for rent.

It is planned to have the next entertainment of the Triangle club at the Y. M. C. A. hall.

Hopp & Company are in receipt of new pattern sideboards. Also some exclusive center rugs.

The ship "Tillie E. Starbuck," which arrived last night from San Francisco, entered the harbor today.

The Hawaiian vessel Star of Bengal which was a ship last time she was here, has been changed into a bark.

Work of burning the house and stables on the Asylum road from which the last plague victim came was completed this morning.

C. R. Frazier and J. E. Davis had charge of the musical program at the meeting of the Triangle club last evening.

The steamer Mikihala arrived this morning from Kauai, with 512 bags of sugar, which will be put on the ship Lucile.

Rebecca A. Dodd and R. W. Cathcart have been appointed executors of the estate of the late James Dodd without bonds.

A number of country teachers will go into quarantine tomorrow at H. S. Townsend's place in Manoa valley preparatory to leaving for the other islands.

A man named Paddy Ryan, claiming to hail from Honolulu, has been given three months in jail in a Washington town for certain irregular money transactions.

Lokalia and J. Daimana have filed in the Supreme Court claims against the government in the sum of \$245.50 for goods destroyed in the great Chinatown fire.

Board of Health guards and laborers are today thoroughly cleaning up the burnt district at Union district. All debris is being removed and the ground is being swept.

The steamship Alameda, with several days' news, is due from San Francisco tomorrow. She is expected at daylight unless she has to wait at the other end for British mails.

George J. Campbell has been discharged as receiver of the estate of the late J. I. Dowsett and is instructed to turn over the accounts to J. M. Dowsett, administrator.

The services of the Second Congregation of St. Andrew's cathedral on Ash Wednesday (tomorrow) will be morning prayer at 8:05 o'clock and evening prayer at 5 o'clock.

Dr. A. E. Nichols has been presented with an elegant charm by his workers at Battery camp in appreciation of his splendid work and uniform conduct to the men there employed.

Frank Armstrong is one of those who will go into quarantine at once with the intention of leaving for the coast by the first opportunity. He goes over for treatment of his eyes.

The commission is now plotting the lands of Kawa pond near Oahu prison which will be exchanged with the Oahu Railway Company for lands required for harbor extension.

The Bishop Estate has offered the Government all the land it requires on the southwest side of town for the widening of King street on condition that proper sidewalks and fences be provided.

The band had a large audience on the grounds of the Executive building last evening. Among the features was the singing of a selection from Il Trovatore by Mrs. Alapai, Miss Kellian and the band in chorus.

WHY THEY EMIGRATE.

It is reported from Queenstown that steamer bookings for the United States are unprecedentedly large, and 50 per cent above the normal. Most of the applicants for passage are young men who are supposed to be members of the militia reserves and seeking to escape the possibility of being called into service for South Africa. The war is, of course, extremely unpopular among the masses of Ireland, and the promise that the British government may have to resort to conscription will doubtless start a large emigration movement to this country. Imperialism seems to be about to deliver a finishing blow to that fair island—Springfield Republic.

EQUAL OF KAHUNAISM.

A report from Corner, Grant county, this state, shows that there still exist some people who believe in witchcraft. Two families on North Mill creek have been prevented from sending their children to the public school on account. It is alleged, of their "league with the devil." The mischief charged is the bewitching of rabbit snares. The parents appealed to the board of education, without, so far, obtaining relief. The matter has caused considerable excitement.—Baltimore Sun.
