IMMIGRATION TO BE STOPPED.

Astute Men Will Try to Checkmate
More Astute Brethern—Portuguese
Plan of Campaign—To Visit the Executive "Horse Foot and Dragon."

The information contained in Attorney General Smith's letter to the Minister of Foreign Affairs, published only in the Advertiser, regarding the shipment of laborers from China and Japan, seems to have been the one thing needful to start an anti-Asiatic movement among the white bread-winners in Honolulu.

That such a movement has been mooted is known to a number of people, but the scheme to block Asiatic immigration has been talked of only in out-of-the-way places and among men who were known to be loyal.

Yesterday the matter took a more definite shape, and the leaders of the scheme talked it up with others and decided upon a plan to put an end to immigration of students and coolies until all dangers from black plague have ceased.

While the affair is largely in the hands of white labor classes, it is entirely free from the saloon element. One may visit each of the thirteen licensed saloons and the half dozen "speakeasies" and not hear the subject talked of. But go around the establishments where men most affected by coolie labor are employed, and it is uppermost in the thoughts of the employees.

"We recognize the fact," said one of them, "that the Government is inclined to allow Japanese immigration to continue under the terms of the treaty with Japan, but we fail to see where an abrogation of the treaty will do other than add to the life of the Republic. If the Government will not abrogate the treaty, then we will show our displeasure by a concerted movement against the Japanese. Not a revolution, understand, but a decided opposition to their crowding out the white laborers and mechanics who have aided in establishing and maintaining the Government against opposition."

From this individual it was learned that a committee would visit individuals known to oppose Asiatic immigration, and secure their support if possible.

Minister Cooper was questioned regarding the affair and stated that he had heard nothing of it.

"To do that which would savor of revolution would be giving the Japanese a peg upon which to hang their hats. Everything now between the governments is pleasant and the relations are cordial. I cannot believe there is any truth in the rumor."

J. M. Vivas, the Portuguese leader, admitted that he had been approached. "The Portuguese will join in any movement to stop Japanese immigration. We have done what seemed to be all that is possible to convince the Government of its mistake. Our next move will be to march every Portuguese man, woman and child to the gate of the Executive grounds and show the Government some living examples of the poverty among them caused by Japanese competition."

Replying to the question as to the name of the person who wanted his assistance in the suppression of Japanese, Mr. Vivas said:

"I cannot tell you his name, because I do not want to do anything that would hurt him in his business. I have been boycotted since I became an active champion of my people; I do not want to inflict injury on others. You may say that the Portuguese will join any body that will pursue a lawful course in the suppression of this class of immigration."

Views on the Situation Among
the Candidates.

McKINLEY SURE OF NOMINATION.

Morton's Chances Hopeless and Reed a Back Number—All Unite on Ohio's Napoleon—"Me Too" Platt Turned Down—Quay Still Anxious.

ST. LOUIS, June 15.—The money plank of the platform has been agreed upon. It is a victory for the Middle West, but is perfectly satisfactory to the extreme east.

This is the resolution:

"The Republican party is unreservedly for sound money. It caused the enactment of the law providing for the resumption of specie payments in 1873. Since then every dollar has been as good as gold. We are unalterably opposed to every measure calculated to debase our currency or impair the credit of our country. We are therefore opposed to the free and unlimited coinage of silver, except by international agreement, which we favor, and until such agreement can be obtained the existing gold standard should be preserved. We favor the use of silver as currency, but to the extent only that its parity with gold can be maintained, and we favor measures designed to maintain inviolable the money of the United States, whether coin or paper, at the standard of the most enlightened nations of the earth."

THEIR MONEY PLANK.

Republicans Will Declare Against Free Coinage.

ST. LOUIS, June 15.—Joseph Howard, in his special correspondence, says: This is the eve of the convention, and a mighty unpleasant eve at that. The weather would appear to be in harmony with the delegates. Your news men will tell you that they haven't anything to tell you. The situation is absolutely unchanged. No one has entertained a moment's doubt of the certainty of McKinley's nomination, so there is no novelty in this situation. Platt came here claiming sixty votes, and tonight he has fifty-nine and a half, so there doesn't appear to be much alteration in that arithmetical problem. The gold men have insisted right along that the platform would be satisfactory to the people of the country who believe there should be 100 cents' worth of metal in every Governmental obligation. Tonight everybody concedes that the platform in that respect will be as strong as expert intelligence can make it.

—e one live topic of conversation or gossip and of effort today is the Vice-Presidential candidate.

The program, as at present arranged, assuming that the name of Senator Quay will be presented, calls for two speeches by the chairmen, temporary and permanent, and five by the presenters of candidates: Foraker, who will name McKinley; Depew, who will speak for Morton; Lodge, who will eulogize Reed; Baldwin, who will spout for Allison, and possibly Governor Hastings, who is to go through the farce with Brother Quay.

PLATT TURNED DOWN.

Contested Cases Nearly All Declared Against Him.

ST. LOUIS, June 14.—The spell in the Empire State is broken. Svengali Platt has lost the potency of his political power. After an all-night contest before the National Committee, ending at 4 o'clock this morning, a decision was reached in the cases of the contested districts, and the anti-Platt delegates were slated in all of them but one, where the contestants abandoned

GENERAL DIMOND DYING IN NEW YORK.

Stricken While en Route to
Carlsbad, Germany.

HIS SON HARRY ATTENDS HIM.

A Victim of Brights Disease—Ill for Several Months—Head of a Famous Commission House—Connections in Honolulu—Head of State Militia.

The family of Major General W. H. Dimond received word yesterday that the General is very ill in New York. He is at the Gilsey House and his son Harry is with him, says the San Francisco Examiner of the 16th inst. At first it was reported that the General was dead, but the dispatch from Harry Dimond said that he was still alive. Since receiving this dispatch the family has been waiting with anxiety for further news.

General Dimond has been a very sick man for several months. Last week, acting on the advice of his physicians, he started for Europe, hoping to regain his health there. His son Harry accompanied him. That his condition was very precarious was known to his family when he started, but they hoped for the best.

General Dimond is the managing partner of the firm of Williams, Dimond & Co. He is a leading Republican and is commander of the National Guard of this State. He has a wide circle of friends in the principal clubs, of nearly all of which he is a member, as well as in the Knights Templar, Odd Fellows, Knights of Pythias, Loyal Legion and Grand Army, to all of which orders he belongs. The general has many friends in the East and in Hawaii, where he was born. He has been superintendent of the mint, chairman of the Republican State central committee and once a truly secured his party's nomination for Governor.

His family consists of three sons and two daughters. The Dimond girls set prior to their marriage a couple of years ago, and since being wedded they have always entertained largely. They were very popular with the debutantes as well as the younger married people.

Miss Eleanor Dimond and Paul R. Jarboe were married at Trinity Church on September 10, 1894, and two weeks later Miss Mae Dimond became the wife of Joseph S. Tobin at the Dimond residence on Washington street.

There are three sons, Edwin R. Dimond, who resides with his family at 2204 Pacific avenue, Harry Dimond, who was born in Honolulu, and is unmarried, and W. W. Dimond, whose business is in Honolulu.

When his daughters were married General Dimond kept house with his son Harry at the Washington street residence, while his daughters sought their own homes. The lonely life did not suit him, and since the death of his wife his daughters have been his constant companions. So he leased the Coleman residence and the three families occupied it in common. They entertained extensively during the past year. The General has been engaged in building a permanent home for himself on Webster street, near Broadway.

W. W. Dimond, son of the General, whose store is in the von Holt block, had no particulars beyond what was in the newspapers, and two telegrams from his brother Harry. One, dated the 16th, stated that his father had been unconscious for twenty-four hours and that his condition was hopeless. The other was dated the 17th and merely stated that his condition was then unchanged.

SOUTH AFRICAN REFORMERS FREE.

Pay Fines of \$25,000 and are
Released From Custody.

AFFAIRS IN CUBA BADLY MIXED.

No Money to Pay Spanish Soldiers.
General Lee Says Situation is Desplorable—Protection of Sugar Industry—Peace in the Far East.

WASHINGTON, June 11.—United States Vice-Consul Knight at Cape Town, South Africa, cabled the State Department to-day as follows:

"Reform leaders released, with fine of \$25,000 each. No banishment." This closes the Hammond incident.

LONDON, June 12.—All of the London papers this morning dwell upon the commercial instinct of the Boers in fining the Reformers. The Times says: "It will be a considerable addition to the flourishing revenues of the Transvaal. But, after all, persons engaged in the perilous business of revolution-making must expect to pay when they lose. On the whole, however, President Krueger has let off the 'little dogs' cheaply. The punishment is substantial, but it cannot be pronounced vindictive or even excessive."

"The release of the Reformers ought to mark a distinct step forward in the reconciliation of the two races. Time will be needed to assuage the passions and prejudices aroused, but unless they are kept alive by continued provocations they will subside ere long. We are too busy and practical a race to nurse a grudge unless the wrongs that cause it remain unredressed."

The article concludes with a tribute to President Krueger for acting up to the spirit of the friendly assurances he gave to the British authorities, and urges the redress of the grievances of the Uitlanders, saying: "The President has begun well. We hope, in the interest of his own countrymen, as well as that of our own, that he will not lightly weary in well doing."

TRIAL OF JAMESON.

The Prosecution Has Presented All of Its Evidence.

LONDON, June 12.—The trial of Dr. Jameson and the other Transvaal raiders was resumed today. The prosecution closed with the production of the famous cryptograms exchanged between the various parties interested in the raid. Sir Edward Clarke, for the defense, intimated that unless further proofs were forthcoming regarding the proclamation of the foreign enlistment act, and its application to the case, he should hereafter submit that the court had no jurisdiction. The trial was adjourned until Monday.

FOR BEET SUGAR.

Western Delegates Will Present Resolutions at St. Louis.

ST. LOUIS, June 14.—California, Nebraska and Utah will urge the adoption of a declaration in favor of encouraging the beet sugar industry. National Committeeman H. M. de Young of California says he expects this proposition to receive the support of all the States where cereals are produced, because the beet industry will give a crop paying \$50 an acre, where corn and wheat pay only \$5 and \$10. Last year California produced 40,000,000 pounds of beet sugar. The following is a draft of the plank to be proposed:

"The practicability of successfully growing sugar beets throughout the United States having been clearly demonstrated, we believe the expansion of this industry will materially add to the wealth of our farmers and increase the value of our farming lands. And we therefore favor such a measure as will

Increase the production of all of the \$125,000,000 now sent to foreign countries in payment for this indispensable article.

"We advocate sufficient protection to develop a national sugar industry. We favor adequate protection to any new industry which will help our agricultural class. For instance, a national sugar industry."

HUSTLE FOR PREMIERSHIP.

Balfour and Chamberlain Playing Their Cards.

LONDON, June 13.—The great race for the Premiership of England between Arthur Balfour and Joseph Chamberlain has become extremely interesting to close observers. The rivalry between these two statesmen has always been keen, but the actual race commenced when they became members of the same cabinet. Chamberlain's opportunity came with Jameson's raid into the Transvaal, and he took it boldly. The ground he then gained he has more than maintained, and in the opinion of expert politicians he is now too far ahead for Balfour to catch up with him. How great is the muddle into which Balfour has got Parliamentary business is sufficiently demonstrated by the fact that despite the Government majority of nearly 150 there is a legislative deadlock in the Commons, and the Conservative leaders have been compelled to resort to the desperate expedient of summoning a meeting of the rank and file to talk over the situation.

TERRIBLE DEVASTATION.

Consul General Lee Speaks on Affairs in Cuba.

HAVANA, June 11.—"The war now being waged in Cuba is devastating the island," said Consul General Lee. "I understand enough of the situation to know that the destruction of property between the lines of the contending forces is enormous. 'Bodies of troops from both the Cuban and Spanish armies, and bands of men belonging to neither side, rob and burn because there is no authority between the lines to restrain them. 'The property of American citizens is suffering greatly, and will continue to suffer until peace comes. Peace should come immediately. But there is no peace and will not be for a long time if it depends on a decisive victory by one side or the other.'"

FINANCIAL TROUBLE IN CUBA.

Pay of Spanish Troops Three Months in Arrears.

MADRID, June 10.—In official circles the report in denied that Spain has received a note from the United States suggesting friendly intervention in Cuban affairs.

A dispatch received here from Havana says the administration there is in serious financial trouble. The pay of the Spanish troops is reported to be three months in arrears, and in consequence the soldiers are believed to be discontented. Another dispatch from Cuba says the insurgents recently exploded a dynamite mine, wounding eight citizens.

PEACE IN THE FAR EAST.

Removal of All Probability of Complications.

CONSTANTINOPLE, June 14.—The speech made by Count Goluchowski, the Austrian Prime Minister, has removed all probability of complications in the far East and has destroyed Greek hopes of intervention of the powers. The German Ambassador at Constantinople is supporting the action of the French and Russian Ambassadors in giving friendly counsel to the Porte.

Pacific Fleet Command.

WASHINGTON, June 13.—It is reported in naval circles that Rear Admiral Ramsey, present chief of the Bureau of Navigation, and who retires next spring, will take command of the Pacific squadron in August, succeeding Rear Admiral Beardslee, whose two years' sea duty expires in that month. Admiral Beardslee is said to be opposed to relinquishing his present billet and is making strenuous efforts to retain it. Commodore Howell made application some months ago for assignment to the Pacific squadron, but was refused, which is taken as an indication that it is reserved for some officer of high rank.

Sailors Killed by the Sun.

LONDON, June 12.—A special from Bombay says the British second class twin screw cruiser Bonaventure, flagship of the 2nd India squadron, flying the flag of Rear Admiral Edmund Drummond, lost seventy men by sunstroke on the voyage from Colombo to Pondicherry.

Weyler Wants a Change.

HAVANA, June 10.—Captain General Weyler has cabled Generals Inclan, Munex and other chiefs of Pinar del Rio province to take part in an important conference here. It is believed the discussion is based on a proposition to change the plan of campaign.

Portugal as a Mediator.

NEW YORK, June 10.—A special to the Herald from Rio Janeiro says: Full details of Portugal's offer to mediate between England and Brazil in relation to the Trinidad affair have been received by President Moraes.

RUDOLPH WINS.

Supreme Court Decision in the Nevada Bank Suit.

The Sugar Stock Put up as Security for a Debt of C. A. Spreckels Cannot be Sent to Hawaii.

SAN FRANCISCO, June 16.—Rudolph Spreckels has won a Supreme Court victory in his suit against the Nevada Bank relative to sending out of this country stock given by him as security. The Superior Court order dissolving a preliminary injunction was yesterday reversed.

In 1894 C. A. Spreckels purchased of Claus Spreckels Hawaiian bonds for \$700,000, pledging collateral securities exceeding the amount of the debt. As additional security, Rudolph Spreckels pledged 5,000 shares of the Paauhau Plantation Company, valued at \$500,000, under agreement with Claus Spreckels that it should not be transferred out of the owner's name upon the corporation books until after the maturity of the debt. In December, 1894, Claus Spreckels transferred and assigned the debt and securities to the Nevada Bank. One-half of the debt was paid and one-half of the securities transferred to the owners. The bank threatened to send the stock certificates to Hawaii and cause them to be transferred from the owner's name.

A preliminary injunction was dissolved by the Superior Court and Rudolph Spreckels appealed. Justice Henshaw, in the opinion handed down yesterday, said:

"In the case of a pledge, unless this particular form of procedure be necessary for his protection, it will not be adjudged to be within his rights, for the effect of it might be to imperil upon the other hand valuable rights and privileges of the pledgor. Thus, as here, it would give rise to questions involving the right to vote the stock at corporate elections, questions as to who should receive and retain dividends, questions of the removal of the stock to foreign jurisdictions, and the like. * * * It is not the law of this State, nor is it the law generally, that a transfer upon the books of the corporation is essential to the creation of a valid pledge."

THE VERDICT RENDERED.

Second Performance at St. Louis College—Large Audience.

The St. Louis College Literary Society gave another very enjoyable performance of "Falsely Accused, or Waiting for the Verdict," at the College Hall last night. The beautiful drop curtain rolled up at 7:30, after the swelling notes of the overture of Rossini's "Tancredi" had brought everyone to the verge of expectancy.

The cast was excellent and J. A. Thompson the ideal hero. A Fernandez as "Blinky Brown" kept the audience in constant merriment; in fact, in his own words, "there is nothing like it." Fred Weed as Lieutenant Florville looked every inch a soldier, and on two or three occasions grew eloquent. C. H. Rose as old Jonathan Roseblade was good, as were all who took part.

The hall was decorated with works of art in pencil and crayon, the year's work of the students, and the musical part of the performance was, thanks to Brother Frances, a grand success, notably the violin solo of Charles Cooper, who played a "Hungarian Fantasia" by Carleton with a masterly hand. Brother Thomas was stage director, and consequently everything ran smoothly.

A great many people were present, among whom were seen the Bishop of Panapolis, Mr. and Mrs. Thos. May, Mr. and Mrs. J. Tucker, Captain and Mrs. Simerson, Mr. and Mrs. Goodman, Chief Lawless of the Australia and many others.

TRAINING FOR BICYCLE RACES

An Old-timer's Condensed Manual on the Subject.

An old-time trainer and racing man has summed up the big books on training diet, etc., into the following concise and practical ideas on the subject. "To train for a bicycle race, ride on a track, if possible, or on a good road, ten miles at a reasonably good rate, every day in the week, except Sunday. Practice starts Monday, Wednesday and Saturday for about twenty minutes, and Tuesday and Friday ride half a mile against time, with a pace-maker, if possible. Two weeks before the race takes place practice starts twenty minutes each day, and ride a half-mile against time four times a week. For diet avoid liquids as much as possible, except water; eat beef and chops, which are moderately rare, boiled potatoes and plain vegetables; avoid sweets in the main, and eat nothing fried. Aside from this the food question is not so important as the time of eating, which should be absolutely regular. Breakfast between 7 and 8, the same time every day; a hearty lunch, which should be practically a dinner, at 12:30 to 1, and a dinner or supper at 10 and get up at 7. This may well be considered a severe course of training, and is only for a seasoned rider."—Ex.

It has been the wonder of dealers here what becomes of all of the stoves imported to Honolulu. Every vessel arriving brings from one to eighty (ours is the eighty lot), and very few of the stove men have old stock.

By our introduction of the "Jewel" Stoves and Ranges the importation of stoves will diminish, at the end of two years. We say two years, because by that time all other makes of stoves will have burnt or rusted out and their places will be taken by

We believe our \$12 Jewel Stove is better than any on the market as it has the following features:

Large Wide Ovens, Quick Bakers. Handsome Carved Ornamentation in latest design. Tin Lined Heat Retaining Oven Doors. Large Broad Oven Shelf and Top Shelf. Nickelled Oven Door Panels and Towel Rod. Large End Wood Feed Door. Long Continuous Fire Box for large Wood. Broad Smooth Hearth Plate. Heavy Casts and Centers. Cut Long Center that will not warp. Rods protected from contact with Fire. Cut Top Plate that will not crack. Kickers for opening Oven Door with Foot. White Enameled Cast Reservoir, very durable. Ornamented Japaned Flush Reservoir Top Lids. Has every essential feature for a serviceable stove.

A Model Plant is not complete without Electric Power, thus dispensing with small engines.

Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pump, Centrifugals, Elevators, Flows, Railways and Hoists; also furnish light and power for a radius of from 15 to 26 miles.

Electric power being used saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers and Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also attention is given to House and Marine Wiring.

MINISTER DAMON IS HOME AGAIN.

Right Royally Entertained by San Francisco Merchants.

INTEREST MANIFESTED IN HAWAII

Agreeable Results of the Wine Bill. Business Men Satisfied—Want the Coffee Project—Guatemala Lost to California—Entertained at Dinner.

Among the passengers on the Australia yesterday was the genial Minister of Finance, S. M. Damon, who returned after accompanying his wife as far as San Francisco on her journey to the East. Mr. Damon is the picture of health, and it is evident from his remarks that he has a warm feeling for the people across the sea. He declined to say anything as to himself personally, on the ground that he had been too much before the public prior to his departure, but he spoke in most glowing terms of his treatment by the business and professional people of San Francisco.

"This is the first time," said the Minister, "that I have ever had the honor and pleasure of being received and entertained by the people there because I was Minister of Finance and representing the Republic. From the moment that I arrived there I was met by representatives of the press and received calls from business and professional men who wanted to inquire as to the future prospects and prosperity of the islands. And it would surprise you to know the number of persons in various walks of life that inquired after the President. The demonstration impressed me, and I feel sure that if President Dole should ever visit the States he will find an ovation awaiting him in San Francisco."

"Did you hear any expression of opinion regarding the repeal of the duty on California wines?" was asked.

"Yes! the passage of that wine bill has brought about the kindest feelings among the people who, from reports that have been circulated, imagined we were not friendly toward the people of California. I had the pleasure of meeting the Vice-President and many of the members of the California Wine Association, as well as many individual wine-growers. I was overwhelmed with attentions from these gentlemen, because, as they said, it was not the matter of duty saved, but the action was an evidence of the friendly relations on the part of the people of Hawaii toward those in California."

"I do not believe," continued Mr. Damon, "there has ever been an Act passed within three years that has done so much to cement the ties of friendship between the people of California and ourselves. Those whom I met, not alone people who are engaged in producing grapes and wine, but the business men generally, wanted me to convey to President Dole and the Government their warmest expressions of satisfaction with the measure."

"Next to the interest felt in the wine Act was that shown by people who wish to embark in coffee. I had calls every day from men who are interested or who wish to become interested in that enterprise. From remarks made by commission men whom I met I infer they are anxious to control the output of the islands and this because they have lost all the business of Guatemala on account of the action of German and English bankers who have advanced large sums of money and who monopolize the entire coffee product exported."

"One dealer in coffee was anxious for my opinion as to the outlook, and possibility of securing the trade for San Francisco. I told him, as I did others, that the best thing for him to do was to visit the islands and look over the field for himself. The people there seem to be greatly interested in coffee, and I think a large amount of California money will be invested here in that industry."

"One thing I wish to speak of as illustrating the friendly relations existing from the people there toward us. The night before I left, Charles Webb Howard, who had just returned from a visit to the islands, entertained me at a dinner at the Pacific Club as the Minister of Finance. The table was surrounded by the leading professional men of the city."

"The generous remarks regarding the friendly relations between the two Governments by such men as Horace Pratt, one of the foremost political speakers on the Pacific Coast; Dr. Stebbins, pastor of the Unitarian Church; Ex-Senator Horace Davis,

Charles R. Bishop, Captain Eldredge and others, were most flattering. The decorations of the room were most artistic, and those on the table superb, the center piece being an enormous bank of American Beauty roses."

"And about bonds, Mr. Damon. Will there be a demand for those under the new loan?"

"The depression over there was such that financial matters of Hawaii were not made a subject of conversation. The banks have loaned a great deal of money on wheat, which has gone down to such a low figure that nothing can be done."

Now is the time to provide yourself and family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a safeguard against an attack of bowel complaint during the summer months. It costs but 25 cents and is almost sure to be needed before the summer is over. This remedy never fails, even in the most severe cases, and is in fact the only preparation that can always be depended upon. When reduced with water it is pleasant to take. For sale by all druggists and dealers. Benson, Smith & Co., agents for H. I.

WALLACE R. FARRINGTON, EDITOR.

TUESDAY, - - - JUNE 23.

Kona coffee, according to Williams-Diamond's circular, is among the only coffees that hold their own in the world's market. Of course Kona coffee is but a name. It is really Hawaiian coffee which commands the market. Much of the coffee recently shipped is from Puna, and the grade of coffee there is as good as any that comes from the windward side. The coffee-growers of the Islands should feel elated.

Whose duty is it to look after the Judiciary building? It certainly is no credit to the Government. The corridors are filthy dirty, they are piled up with all sorts of truck which has been there for months. The back veranda has been arranged as a sort of trap to catch Judge Perry and put an end to his budding judicial honors. In fact, it is time that attention should be called to the condition of the place. It should be the duty of some person to thoroughly supervise the cleaning of the building. Public buildings are the pride of a State, but it is impossible to take pride in the confusion of trash about the Judiciary building.

An instance of excellent discipline is told by Captain Younghusband in his book on the Chitral. The State is very subject to earthquakes. One day the captain and a brother officer were sitting in the room of one of the hill forts when a prolonged shock of earthquake was felt. When the two officers heard the parapet of the fort rattling down and the floor of the room began to heave like the cabin of a ship, they concluded it was time to get out and bolted down a passageway to get into the open air. A Sikh sentry was on guard in the passage. As they dashed down, the sentry remained stock still and saluted as they passed him. It was a wonderful case of the influence of discipline. As good in its way as that of the historic Roman soldier who stood at his post at the gate of Pompeii when the population was flying from the city and Hades had broken loose.

From the telegrams received about General Dimond there seems very little likelihood of his being alive when these lines are penned. For his lifetime the General has been a strong friend of the Islands. He came here in his youth and married his first wife here, Miss Nellie Waterhouse. When the war of the Rebellion broke out he obeyed the moral call of duty and joined the Union forces. He returned to the Islands after the war, but finally settled in San Francisco in 1868. Since then there is hardly any one who went from the Islands to San Francisco who has not experienced kindness and hospitality from the General. He has been a factor in the work of making the Pacific Coast people understand the necessity of the Islands to the Great Republic. Hawaii is indebted to him for staunch support through good and bad report. If the sad news proves correct Hawaii has lost a very good friend.

The final action of the American Committee of Twenty-One in declaring for a program distinctly American will merit the approval of every fair-minded citizen. The meeting at which the committee was elected was called by the American representative and the members would be assuming a responsibility entirely without their province by including Hawaiian events in their program. The Hawaiian citizens have no cause for complaint at the failure to combine the programs, since the invitation to co-operate should have come from Hawaiians to Americans and not from Americans to Hawaiians. The Americans held to a point of propriety which they could not well overlook. Next year it is to be hoped that the citizens of Hawaii will awake earlier in the season, thereby preventing the question of dual celebration from assuming any disagreeable and entangling phase. So far as the general public is concerned, no one will stop to ask what powder is being burned for this Republic or what for the American Republic. The committees have settled the fine points and the public will join heartily in every event of the day.

ADVERTISE.

The possibilities of this island for the cultivation of coffee are sufficiently brought to the notice of people who pass through the city or who are enquirers from abroad. There is much land in the sheltered valleys which would raise very fine coffee, quite as good as that raised in Kona or Oahu. It is good to see people flocking into

the Kona and Puna and taking up land, building homes and adding to the prosperity of the State; the more of that class that go there the better. But it is decidedly the duty of Oahu to bestir herself and tell of what advantages for coffee-growing she is possessed.

It is to be presumed that the Oahu Railway and Land Company is very much interested in such a matter; but every merchant in Honolulu is also interested. More population means more trade, and more population of the proper kind cannot be obtained without bidding for it.

A pamphlet has come to hand from the United States of Columbia which sets forth all the information obtainable about the culture of coffee in that country. The pamphlet is published in French and circulated in Belgium with the object of attracting immigrants. Something of a similar character should be prepared for the islands. It is a matter that either the Government, or the Chamber of Commerce should take up. Advertising a business pays and so does advertising a country.

MR. DAVIES GENEROSITY.

Theo. H. Davies has been talking. The Montreal witness has had the benefit of Mr. Davies' views on Hawaiian affairs. Either Mr. Davies has been misreported or his regard for facts is not as exact as we have always credited him with.

In the course of remarks upon the Constitution, the amazing statement is made that "the native population has simply to a man refused to take the oath." Now this is absolutely untrue. A very large number of Hawaiians work for the Government, and every one of them has taken the oath. Thus the police force is largely made up of Hawaiians. Among the school teachers are many well-taught Hawaiians. Many of the District Judges are Hawaiians, so are the Deputy Sheriffs. Of the House of Representatives the Speaker, Mr. Naone, was an Hawaiian and six of the members are Hawaiians. The fact is the Hawaiians of sense long ago accepted the situation. Of the "young Christian men" over whom Mr. Davies is so pathetic that he would draw tears from the eyes of a rattlesnake, with a few exceptions they have taken the oath and gone back to work again for the Government. Some of them are actually ungrateful enough to think that Mr. Davies gave them unsound advice when he got off that brilliant phrase, "Sacrifice everything but your honor!" If after rapsodizing in the above manner and persuading those unfortunate young men to cut off their noses to spite their faces, Mr. Davies had given them employment they might regard him with somewhat different feelings to what they now do.

When you are in receipt of an income which occasionally runs up to half a million or so you can afford to rapsodize. It is just men like Mr. Davies and the political Bishop who have kept a number from taking the oath, who otherwise would. Their influence is waning and the strength of the Government party is increasing. Very likely Mr. Davies would like his statement that the "native population to a man refused to take the oath" to be true, but unfortunately it is made out of whole cloth and somewhat clumsily cut.

SUGAR, RICE AND COFFEE.

Extracts From Williams, Dimond & Co.'s Latest Circular.

SAN FRANCISCO, June 15.—Our telegram from New York this afternoon states that there is nothing doing in raws, buyers having withdrawn from the market, and it is impossible to quote.

Last sale, 2 13-16c for 96 test centrifugals, ex-ship, wharf or store. Market nominally unchanged, but sales could not be made except at a decline. Granulated, 43-4c.

London beet sugar, 88 per cent test, f. o. b., June, 10 11-12; market opened quiet and closed strong, with firm and generally improving tone. London beet sugar, 88 test, f. o. b., October, December, 10 11-12; crops unchanged. Trust certificates, common, 122 1-2; preferred, 103 3-4.

RICE.—Market continues very dull and we quote price of Hawaiian at 31-4c, less 1 1-2 per cent for cash.

KONA COFFEE.—The market is entirely bare with the exception of one firm's holdings, which, however, is reserved for their own use. We quote price, 19 3-4c to 20c. The last sale from second hands went at 19 1-2c for 20 bags.

Generally speaking, the coffee markets of the world are extremely quiet and tending downward. Kona and the strictly fancy grades of Central Americans are the only coffees which hold their own.

JOINT PROGRAM VOTED DOWN.

More Money for Ball Committee—It will be an Event of the Year—Resignation Accepted—Fireworks and Sports to be Handled by Hawaiians.

There was a special meeting of the American Fourth of July Committee at the Arlington last night, and after a two hours' session the disagreeable tangle resulting from the combination of the Hawaiian and American holidays was unsnarled. The committee withdrew from the dual position taken Saturday evening and became a solid American combination with a solid American program.

At the opening of the meeting Secretary Smith read the following communications from Dr. McGrew and A. V. Gear:

HONOLULU, June 22, 1896.

Geo. W. Smith, Esq., Chairman of Executive Committee for the Fourth of July Celebration:

"Dear Sir—You will have the kindness to withdraw my name from any committee on which it may appear for the Fourth of July celebration. When the meeting was called by Charge d'Affaires for the United States, I supposed it was for the express purpose of celebrating the Fourth as we have done here for years, as an exclusively American day; but from the action taken by the meeting on Saturday night last it seems to be intended merely as an adjunct to a Hawaiian celebration.

I am ready and willing to respect any and all days set aside as a holiday for the Republic of Hawaii, but I am not quite ready, as an American, to have a meeting for the celebration of the Fourth of July called for Americans and then have it swallowed up and appropriated as a Hawaiian affair.

Yours respectfully,
JNO. S. MCGREW.

HONOLULU, H. I., June 20.

Geo. W. Smith, Chairman of the General Committee of Americans for the Fourth of July Celebration:

Dear Sir—I hereby tender my resignation from your committee, as I understood that the committee was called to consider a distinctly American celebration, and from the action taken this evening I do not consider it such.

Respectfully,
A. V. GEAR.

Resignations of members of the ball committee were then read. On motion the resignations of Dr. McGrew and A. V. Gear were accepted. The resignations of members of the ball committee were tabled for further consideration, it having been stated that the cause for these resignations was the small amount of money appropriated for the ball. The members felt that a function appropriate to the occasion could not be carried out on \$150.

As a member of the committee, Dr. Grossman pointed out the impossibility of making the ball a success with such a small amount of money. Acting upon his suggestion, the committee appropriated \$350 additional, making the total amount for the ball \$500.

At this point one of the members questioned the advisability of the vote taken on Saturday evening, favoring a joint program for the American and Hawaiian celebrations. Further discussion brought out the point that the committee had been appointed at a meeting called by the American representative, and it was not a proper proceeding for the American committee to appropriate funds for the Hawaiian celebration or to issue a joint program. Notwithstanding that many Americans would participate in and contribute funds for the Hawaiian celebration, it was not proper for the American committee to go beyond the bounds expressed in the call for a general meeting.

The discussion was a sharp one and finally resulted in the reconsideration of the vote. The whole program mapped out at the previous meeting was then stricken out and the following program for the American celebration adopted:

Ball Friday evening, July 3d, at Independence Park.

Salutes, morning and evening of July Fourth.

Literary exercises and basket picnic at Independence Park.

This leaves the sports and the fireworks to be looked after by the committee of Hawaiian citizens which is arranging the details of the Hawaiian celebration.

This Hawaiian committee will arrange the time of its events so that the programs will not conflict.

The matter of program having been settled satisfactorily, the appropriations were then reconsidered and \$1,375 was apportioned among the various sub-committees. This includes \$500 to be placed at the disposal of the ball committee. It is anticipated that those who resigned from this committee will reconsider their action in view of the additional funds granted. There is every reason to believe that this event of "the night before the Fourth" will equal if not eclipse any social function of previous celebrations.

POLICE COURT NOTES.

Schweister Fined \$500 for Selling Merchandise Without License.

In the Police Court yesterday morning Kum Chan plead guilty to the charge of selling goods of foreign product without the requisite license. Sentenced to pay a fine of \$5 and costs.

Nahale (w.) plead guilty to the charge of failing to present herself for the examination required of persons of her stamp. Sentenced to sixty days' imprisonment at hard labor.

Yong Tai and Chu Fong Leong plead guilty to the charge of unlawful possession of opium and were sentenced to pay \$5 and costs each.

J. Kahananui, a native well known in police circles, plead guilty to the charge of vagrancy and was sentenced to six months at hard labor.

Motion for dismissal in the case of Mary A. Rose for malicious injury was granted.

M. Schweister was found guilty of selling merchandise without a license and was sentenced to pay a fine of \$500 and costs.

W. P. Hickey plead guilty to two

charges of profanity. In one case he was sentenced to pay \$1 and in the other \$4 and costs.

FIELD DAY MATTERS.

Meeting of H. A. A. Last Night. No Complaints from Athletes.

A meeting of the H. A. A. C. was held last night to hear any complaints that might be made regarding the events announced for field day, June 27th.

None of the athletes appeared to offer any suggestions for the arrangements for running of jumping races, so that the matter was quickly disposed of and only bicycle events will take place. The boys who take part in the events other than bicycle races seem to be perfectly satisfied with the arrangements. The entries will close at Thurman's on Wednesday.

Kate—I went to a stereopticon entertainment the other night with young De Spooner.

Laura—Did you enjoy the views?

Kate—Very much indeed. It was just like going through a tunnel.—Detroit Free Press.

JOHN HAYS HAMMOND.

Hammond, the mining engineer sentenced to death for conspiring against the Transvaal republic, is a native of San Francisco and a graduate of Yale. He is 39 years old and received \$60,000 a year. His sentence has since been commuted.

Filling an Engagement of Four Weeks at Manhattan Beach.

A letter from one of the members of the Hawaiian National Band, dated "Manhattan Beach, Chicago, Ill., June 9th," was received by a member of his family yesterday. At the time, they were filling a four weeks' engagement at the completion of which they intended going to Kansas City, Dallas, Tex., back to Chicago and to other principal cities of the United States. Their engagement would take them up until October to fill. It was the intention of the boys to start for home soon after this, arriving in Honolulu just before Christmas. They were all anxious to get back and once more dip their fingers into the poi bowl.
