Annual Report Narrative
THE DIVISION OF LAND MANAGEMENT
FY 1972-1973

Land Management (p. 9 current report)

The Division of Land Management is responsible for the public lands management program of the State. This program includes the development of public lands for residential, agricultural, resort, industrial and other uses; the disposition of public lands to meet approved public and private needs; acquisition of non-public lands and other properties to meet the needs of public agencies; and the inspection of public lands and enforcement of conditions of disposition contracts.

Division staff activities include review and analysis of land use requests; recommendations for specific uses, or for non-use; inventory and appraisal of public lands; title searches of public and private lands; negotiations for dispositions and acquisitions, and processing land use requests from receipt to disposition or acquisition. The staff works closely with the Department Planning Office in land use and project planning. Close liaison is maintained with the engineering staff of the Division of Water and Land Development in carrying out land development projects.

Land Development (p. 11 current report)

During FY 1972-1973, two major construction and three design contracts were let. The construction contracts are for houselot developments on the Islands of Hawaii and Kauai. One of the design contracts is for a 40-houselot subdivision at Kahei, North Kohala, Island of Hawaii; one is for a combination farm/houselot subdivision at Keonipoko, Puna, Hawaii, and the third is for design of roads and utilities for Sand Island, Oahu. Construction contracts amounted to \$390,500 and design contracts \$191,000, for a total of \$581,500.

Most important acquisitions of the year were the 3.92 acres for the Honolulu Civic Center at a cost of \$4,827,700; the 0.314-acre addition to the Hilo Library, \$70,000, and the 2.837-acre Snug Harbor site for the University of Hawaii Marine Expeditionary and Oceanographic Research Facility off Sand Island Road at 100% public benefit discount for educational purposes through the Department of Health, Education and Welfare. Equally important was the purchase, for \$80,850, of 3 acres in Waiawa for a National Guard Armory site.

From the public lands of the State, the Public Lands Management Program provides lands for residential, agricultural, resort/hotel, industrial and many other uses including recreation, water development, parks and open space. Lands required for uses of State and local agencies are generally set aside by Governor's Executive Order but some lands are leased to other agencies, particularly so to the University of Hawaii as, by law, any land set aside to the University becomes its fee property. While only the Governor can set aside lands by executive order, every such set-aside must have the prior approval of the Board of Land and Natural Resources and is processed by the Division.

Lands for residential uses have usually been sold at public auction but there is an increasing emphasis on disposing such lands by drawing. Short-term use of lands for all uses is provided through revocable permits and licenses.

During the current fiscal period, the program made disposition of 124,609 acres of land in 291 transactions. Sales in fee produced a one-time return of \$1,522,000. The sale of leases, permits and licenses will generate direct new revenues of \$836,115 per year.

LAND DISPOSITIONS 1972-1973

	Number	Acreage	Value
Executive Orders	26	2,711	*
Sales in Fee	121	31	\$1,521,911
Leases**	26	423	48,816
Revocable Permits***	118	123,493	787,299

*Executive Order lands are set aside without charge

**Detailed listings are contained in the Appendix

***The unusually large acreage and annual rental shown for revocable permits is due primarily to the expiration of a number of pasture leases on the Island of Hawaii and placing the lands under interim revocable permits.

The program is responsible for the active management of some 500,000 acres of public lands, and for administrative review of the use and status of some 240,000 acres of lands set aside to government agencies by executive order and proclamation. In addition, there is the responsibility for the disposition of State lands within the Conservation District, including the 802,000 acres of Forest Reserves and Watersheds, and the vast areas of the submerged lands off-shore to the three-mile limit. Activity in the submerged lands area is expected to increase as the restrictive laws relating to ocean mining and other similar activities are clarified and some of the restrictions modified. A start was made by the 1973 Session of the Legislature in the modification of the Shoreline Setback Law to permit mining of submerged lands no less than 30 feet deep and 1,000 feet seaward of the high-water mark.

As of June 30, 1973, there were 834 general leases in force covering use of 324,928 acres of public lands. Some 950 revocable permits covered approximately 151,874 acres. Land uses under these contracts included residential, agricultural, commercial, industrial, hotel/resort, some government uses and many miscellaneous uses. Annual rentals collected from the leases, permits and licenses totalled \$4,044,000 for the fiscal year.

PUBLIC LAND USES

Total Public Lands.	507,060 acres
Special Sale Agreements (residential)	69
General Leases	
Residential.	134
Agricultural	235,820
Water Licenses	27,593
Business & Industrial.	714
Public Uses.	44,217
Homesteads	
Certificates of Occupation and 999-year Homestead Leases	136
Right-of-Purchase Leases	112
Fee Homesteads (Conditional Sales)	672
Revocable Permits & Licenses.	151,874
Unencumbered Public Lands	29,269

The Division staff made 2,022 inspections of public lands during the year, to determine status of use and compliance with terms and conditions of disposition contracts; to investigate possible soil erosion and noxious weed

problems and make recommendations for correcting those found; to check for unlawful use such as squatting, dumping, etc.; and to make recommendations for present and future use and management of the lands.

The staff also made 683 appraisals and rental reviews of public lands to recommend rentals for revocable permits and upset prices and rentals of lands to be disposed at public auction. A total of 90 land title searches, title memoranda and abstracts was made. Staff also received and recorded 442 deeds and indexed and filed 291 documents (special sale agreements, leases, permits, licenses, etc.) issuing from the Division.

Over 80,000 files were maintained and several thousand requests for information and service from public and private sources were handled.

PUBLIC TRUST FUND CEDED LAND PROCEEDS Land Management Program

	ACTUAL 1972-1973	ESTIMATED 1973-1974

NOTE: Total area figures are compiled from 1967-68 census study; others are estimates.

¹ Includes fee simple and ceded land.

² Includes Hawaii State land which is managed by the county governments and various State agencies, and Hawaiian Homes Commission lands.

³ Included private landowners who own less than 1,000 acres in fee simple and county land which was acquired by purchase or gift in the name of the counties.

⁴ Includes Kure Atoll, Lisianski Isl., Laysan Isl., Gardner Pinnacles, French Frigate Shoals, Necker Isl., Nihoa, Lehua and Kaula.

A 40-lot residential subdivision at Waiakea, Hilo, Hawaii, is scheduled for completion and sale in FY 1973-1974. The 28-lot Mango Grove increment of the Wailua, Kauai, Houselots will also be completed and offered for sale during the coming fiscal year.

Also on Kauai, the 29-lot Hanapepe Heights Houselots subdivision has been completed and will be sold in August, 1973. The 14-lot Waimea Heights subdivision has been delayed and will be completed and sold during FY 1973-1974.

On Maui, the 71-lot increment of Wahikuli Houselots was completed and sold. Sale was at public auction in keeping with sale of prior Wahikuli increments. The Hanapepe Heights lots will be sold by drawing but the Waimea Heights houselots will probably be sold at public auction. The Kahei, Keala-kehe and Puna houselots on Hawaii are also planned for disposition by drawing.

Division responsibility for Sand Island development will cease with completion of the present design contract and construction of the roads and utilities to serve the park and other future developments. Some 150 acres are being developed to park use and another 100 acres are being kept in reserve against future needs -- park or industrial. Fifty acres are being set aside to the City and County of Honolulu for its sewage treatment plant; 40 acres are going into expansion of the Foreign Trade Zone, and most of the remainder is planned to be set aside to the Department of Transportation for waterfront activities and waterfront industrial use.

Revenues generated by the Division program continues to exceed \$4 million for lease and permit rentals and land and water licenses. Over a quarter million dollars was realized in collections from the sale of public lands and interest on deferred payments during the fiscal year.

Public Land Management (p. 38, 39 & 40 current report)

The public land management program of the Department is concerned primarily with the State-owned lands classed as Public Lands, and to a lesser degree with the State-owned lands within the Conservation District as defined by the Land Use Commission. By statutory definition, the Public Lands consist

of all State-owned lands, including submerged lands to the three-mile limit, except public roads, lands in the Forest Reserves and Watersheds, the Hawaiian Home Lands and lands set aside to State and County agencies by Executive Orders and Proclamations of the Governor of Hawaii. The Public Lands are available for sale, lease, license, revocable permit, and for public use, and are disposed by the Board of Land and Natural Resources to meet approved public and private needs.

STATE-OWNED LANDS

	<u>Acres</u>
Hawaiian Home Lands.	192,000
Forest Reserves and Watersheds	802,052
State Parks & Historic Sites	15,584
Public Use (Executive Orders Only)	239,522
Public Lands (Sec. 171-2, HRS*)	507,060
TOTAL	<u>1,756,218</u>

*Hawaii Revised Statutes

The Division maintains an active program for the acquisition of non-public land and facilities for public purposes. This activity provides lands and other realty for programs and projects of the Department and services the needs of other agencies of the State, and occasionally the requirements of the several county governments.

During the 1972-1973 fiscal year, the Division completed acquisition of 27 parcels of property consisting of 30 acres at a cost of \$5.5 million. Also acquired were three leases for \$1,800 a month rental, and 25 rights of entry for Leilehua School for survey purposes.

Of the total of 55 acquisitions, 31 were for the Department of Education; 30 for school purposes and one for addition to the Hilo Library. For the Department of Accounting and General Services, 14 parcels were acquired at a cost of \$5,238,347 for 11.369 acres. One water line easement was acquired for the Division of Water and Land Development and 9 parcels were acquired for State Parks; 7.693 acres at a cost of \$208,755.
