COUNTY MONEY WORRIES QUINN

Supervisors Warned to Cut Expenses to Keep Out of Debt.

Something is wrong with the finances of the City and County of Oahu, for a warning was sounded by Supervisor Quinn at last night's session that the board must go slow about appropriations, cut down expenses wherever possible and save the dollars so that the city and county will not be plunged into debt. In addition, the supervisors confessed themselves unable to find out just where the city and county, financially, is at present, owing to the general mixup in regard to payrolls, bills and expenditures. In fact, the supervisor stated that the City Engineer had already been instructed to cut down the working expenses of the outside districts.

This announcement produced a feeling of uncertainty among the board members, for one road which it was desired to have built, on the island belt system, cannot now be laid until July or August. It was a rather lugubrious story which Mr. Quinn related, and it may result in a general adding and subtracting of figures to find out where the county is at.

The meeting was doctored up with the usual "1, 2, 3" Logan formulas, where the Mayor passed measures up to the board and Mr. Logan called for the votes. Several budgets of maintenance bills for road work in local and outside districts were passed in from the roads, bridges, garbage and parks committee, and passed "1, 2, 3." The committee on public expenditures passed in another budget for office expenses of the several departments, and the Auditor was given authority to cover a hurry-up expense for new sets of books. The fire department bills for \$601 for supplies were also allowed.

Petrolitic Oil Roller.

The report of the roads committee on the need of a new portable engine of 20-horsepower for Ewa road district was allowed, on the showing that the present old one is becoming dangerous to life. The board also approved of the recommendation of the roads committee for a Petrolitic oil road roller, to cost about \$750; disk sike harrow, \$75; Monarch cultivator, about the same price. Bids will be called for.

The same committee reported on a former communication from F. S. Dodge, agent of the Bishop Estate, in regard to tenancy by the county of certain Kakaako lots, the tenancy expiring on December 31, 1908. The committee recommended that the county should purchase the lots.

(Continued on Page Two.)

WILL DISCUSS FREE TRADE

Manila's Measure Will Come Up Before Chamber of Commerce.

H. M. Pitt, Manila's business representative, who passed through Honolulu on the Teno Maru en route to Washington, had a conference with President Morgan and Secretary Wood of the Chamber of Commerce yesterday in regard to the free trade proposition which Manila's commercial interests are laying before Congress. Mr. Pitt gave cogent reasons in favor of the scheme, particularly dwelling upon the point that Hawaii's best interests lie in cooperating with the Philippines in securing free trade. Mr. Pitt believes with other Honoluluans that the only source of danger, if any at all, lies in Cuban sugar being imported duty free into the United States.

An interview with Mr. Pitt appears in another part of this issue, and in lieu of his presence here today at the meeting of the Board of Trustees of the Chamber, his views therein will be presented to the Chamber, together with a resolution favoring the Philippines request for free trade. Mr. Pitt is to appear before the San Francisco Chamber of Commerce on arrival on the Coast and will endeavor to secure the backing of that body, which in turn is expected to request its congressional representatives to take favorable action on the matter when the Philippines free trade measure comes up for discussion.

The Chamber of Commerce meeting will be held at 3 p. m. today.

RESIGNATION OF BRECKONS ASKED

Washington Cables Tell of the Government's Decision.

WASHINGTON, February 9.—The President expects Breckons to heed Senator Warren's letter and resign immediately. Otherwise he will be removed.

E. G. WALKER.

This is the cablegram that was received yesterday morning by the Advertiser, and its posting was the first information that Honolulu had of the decision of the President and Attorney General Bonaparte in connection with the charges that were filed with the Department of Justice by Rev. Mr. Thwing, about five months ago.

Acting upon the cablegram that was received by the Advertiser, the afternoon papers sought to confirm the message, and it was done through an Associated Press cablegram reading as follows:

WASHINGTON, February 9.—Attorney General Bonaparte says he understands that District Attorney Breckons of Hawaii will resign. He has thus far declined to discuss the matter.

The confirmation of the first cablegram by the unqualified statement of Attorney General Bonaparte, to the effect that he expects Breckons to resign, proves that the report is correct and that if the United States Attorney does not already know of the decision against him he will soon ascertain the exact situation through the receipt of the letter that has been forwarded to him by Senator Warren of Wyoming, his sponsor in the Senate.

Breckons Confident.

Breckons insists that the report of Special Agent Harr of the Department of Justice is not hostile to him, and that he is practically vindicated, as far as the Thwing charges are concerned, by the investigator from Washington. This view of Harr's opinion, however, is hardly borne out by the action taken by the Washington authorities. While the report is not believed to impeach the integrity of the United States Attorney, it is known to include a number of matters that could be embraced under the head of "indiscreet professional conduct," with the extremely important finding that he is not in sympathy with the majority of the people and their ideas of his powers and duties.

All this has evidently proven enough for the President and Attorney General Bonaparte to reach the conclusion that it would be better for all concerned to have Breckons resign.

Ready to Resign.

"I have a copy of the Harr report," declared Mr. Breckons yesterday, "and it is favorable to me. It indorses my efficiency and honesty and there is nothing in it to cause me worry. I did not receive the report through official channels, and so am not at liberty to disclose its contents. I have not received any communication from Washington and have not heard from Senator Warren. If my superiors ask me to resign, I will do so at once, but I repeat I have nothing to worry about."

This was the answer of the United States District Attorney to the positive cable from Washington that the Department of Justice will give him an opportunity to resign, and if he does not, that he will be summarily removed.

(Continued on Page Five.)

WANT APPROPRIATION FOR THE EXPOSITION

With a request that the Territorial government duplicate the Federal appropriation of \$25,000 for the Alaska-Yukon exposition, August Kaudsen, Commissioner of the Alaska-Yukon exposition and Special Agent Lloyd Childs were callers upon Governor Frear yesterday. The Governor listened to the argument advanced in behalf of the \$25,000 appropriation and he promised to give the matter his thoughtful consideration.

"We think that the Territory should make the appropriation," said Commissioner Kaudsen, in speaking of the matter. "While it is not probable that the money would be all spent it would establish a needed precedent in that connection. Regarding simply from the standpoint of promotion work the money could not be used more advantageously. The Territory will undoubtedly derive great benefit from a first-class display of its varied commercial products and resources at the fair. We are going ahead with the work in a careful and systematic way and while there would undoubtedly be a surplus of considerable amount if the appropriation is made we would have a definite basis for figuring. We hope that the Governor will decide to recommend it and that the Legislature will consider it favorably."

SPECULATE ON ECONOMY REIGN

Office-Holders Would Like to Know the Governor's Intentions.

What recommendations will Governor Frear make in his message regarding the proposed consolidation and reduction of some of the Territorial departments, is the question that is just now agitating the officeholders. The Governor has intimated in rather a broad fashion that he thinks the force could be materially reduced and a plan of consolidation carried out with material profit to the Territorial Treasury. The absolute needs of the departments in the way of labor have been taken up separately and the Chief Executive has secured about all the information that can be had bearing upon the subject. The conclusion that he has drawn therefrom are looked for in his message.

Cutting Estimates.

Governor Frear has been devoting practically all of his time to the message during the past week and it will be ready for the printer Friday.

Secretary Mott-Smith is continuing his strenuous pre-legislative labors as the financial dictator in the way of cutting departmental estimates. Yesterday he was in conference with Superintendent of Public Instruction Babbitt and Auditor Fisher, and the estimates submitted by Superintendent Babbitt were taken under consideration. The result of the conference after a careful perusal of the figures and consideration of the absolute needs of the Department of Public Instruction resulted in about \$50,000 being lopped from the grand total. The same procedure is being adopted in regard to all the departmental estimates and when the Governor, Territorial Secretary and Auditor get through with their labors in this direction everything will be ready for the first legislative gun to be fired.

SUBSTITUTE PRINCESS IS FOUND FOR OAHU

Although every section of the big Washington's Birthday Floral Parade is certain to far eclipse the efforts of any previous years, and the various subcommittees are enthusiastic and confident of results, the ups and downs of Will McInerney's Island Princesses Committee seems to be holding the center of the stage just at present.

Yesterday Mr. McInerney was notified by Dr. Hodgins that, owing to the condition of Mrs. Harry Holt's health, that lady would be unable to represent Oahu in the procession, as had been planned. Later it developed that there is a possibility that Mrs. Holt will be permitted to take part, but in case this is not possible, another splendid rider has been secured as a substitute in the person of Mrs. Vivian Richardson of Waianae. It is doubtful whether there is a more graceful equestrienne in the Territory than is Mrs. Richardson, and as a result of the assurance that she will serve in case Mrs. Holt is unable to do so, McInerney's face was wreathed in smiles last evening.

E. A. Knudsen, who left for his home in Kauai last night, promised to do what he can to secure a representative from the Garden Island. As soon as he finds out how things stand, he will communicate with the committee by wireless. The chances are good that Kauai will come through with her princess all right.

If this proves so, there will remain only two princesses to be supplied—for Kahoolawe and Lanai. The committee has been offered splendid horses for the princesses from these little islands, but they have not as yet been secured. They will be selected from among the Honolulu riders.

Mr. McInerney is anxious to secure about half a dozen more boys and girls with ponies, to fill up the number of the princesses' guard of honor to about forty, and would be pleased to hear from any who would care to take part. The children will be dressed in white, and wear red sashes and caps. They will carry small banners of the colors chosen to represent the several princesses. Ex-Police Captain Robert Parker has agreed to ride with the princesses section and see that no harm comes to them or their juvenile escort.

Iroquois in Parade.

A member of one of the committees stated last evening that he had been informed that the crew of the naval tug Iroquois want to reproduce their staunch little craft in a float and take part in the parade, but have not been able to secure the use of an automobile for the purpose. It is probable that the automobile committee, of which J. M. Dowsett is chairman, will

(Continued on Page Four.)

COMMODORE OF ANEMONE DEAD

The Millionaire Yachtsman Who Came Here in 1906 Dies in New York.

Commodore Charles Leaming Tutt, who visited Honolulu with his fine yacht Anemone on the occasion of the first transpacific yacht race, which was won by the yacht Lurline of Los Angeles, and second by the Anemone, died suddenly in New York City at 2 a. m. January 21. Death, which was due to heart failure, complicated with pneumonia, came unexpectedly. The funeral was held in Denver, his home town. He was forty-five years of age, and is survived by his wife and two sons.

Honoluluans remember Commodore Tutt as a genial, whole-souled man, a clean sportsman, a lover of the great sport of kings upon the sea. His entrance in the transpacific race was due solely to his desire to assist the local people in getting up a race that would be memorable. He came around the Horn with his yacht, went to Los Angeles and started for Honolulu, coming in second. His yacht was always a center of social interest, and while giving many entertainments and dinner parties aboard, he and his party were greatly entertained in town. In the party were his son, William Thayer Tutt, Judge E. C. Stimson, and the late Prof. E. Ahlers of Colorado. They were a jolly party. The race occurred in the month of June, 1906.

Besides holding a leading position in business and financial circles of Colorado, Mr. Tutt was fond of society and club life. He was a member of the Rittenhouse Club of Philadelphia, the Cheyenne Mountain, Country, Town and Gown and El Paso clubs of Colorado Springs; the Denver Club, the Arlington Club and the Portland Rowing Club of Portland, Oregon, and the South Coast Yacht Club of Los Angeles. He was a self-made man. Shortly after his marriage, Mr. Tutt opened a real estate office in Colorado Springs with a branch office at Pueblo. He was one of the earliest of the business men of Denver to see possibilities at Cripple Creek, and in the latter's first year he staked out the famous C. O. D. claim, which he sold for \$250,000.

Subsequent to 1894, when Mr. Tutt built and operated the plant of the Cripple Creek Sample and Ore Company, for several years his operations in mining were varied and almost uniformly successful. By judicious investments and the exercise of remarkable business talents, he added largely to his fortune, and in 1896, with Spencer Penrose and C. M. MacNeill, he organized the Colorado-Philadelphia Reduction Company, which later expanded into the United States Reduction and Refining Company, and which built the first reduction mill in Colorado City, now a part of the Standard mill. The same men organized the National Gold Extraction Company in 1899 at Florence, and built the reduction plant there, which now forms one of the main plants of the U. S. R. & R. Company. The town of Gillett in the Cripple Creek district was founded by Mr. Tutt and Spencer Penrose.

Mr. Tutt was several times president of the United States Reduction and Refining Company, the United States Smelting Company, of the Waldo Smelting and Refining Company, of the Granite Gold Mining Company and several other concerns, in all of which he owned large interests when he died. He was also one of the pioneers in the smelting business in Oregon and one of the largest stockholders in the Takilma Smelting Company, of which he was elected president on several occasions. He was also heavily interested in Nevada in both the mining and smelting business and owned a large amount of real estate there and in California. His holdings in the Utah Copper Company of Bingham, Utah, are also very extensive. In his own State he was largely interested in several of the sugar refining companies and with other Colorado Springs capitalists had aided materially in the development of several large irrigation schemes on the western slope, notably in Gunnison and Mesa counties.

DREDGERS AT PEARL HARBOR NEXT WEEK

Superintendent George Denison of the Oahu railway, who is to have actual charge of the dredging at Pearl Harbor for the Hawaiian Dredging Company, stated last evening that in all probability the dredger Reclamation would be the first to be towed down to Pearl Harbor, and the Governor soon after. Both machines may be moored at Pearl Harbor by the end of next week and ready for business. Just where each one will be put to work depends upon the selection of site made by Engineer Parks, U. S. N., of the Honolulu Naval Station. He may decide to start the first dredger just inside the entrance to the channel. Which dredger is put to work there will depend largely on the nature of the bottom at that place.

CHINESE WANT SAME RIGHTS AS THE JAPANESE

Memorialize Roosevelt on School Question and Suggest Appeal to the Courts—Canal Bond Issue Defeated.

(Associated Press Cablegrams.)

WASHINGTON, February 10.—A Chinese memorial, addressed to the President, complains of discrimination in the general treatment of Chinese in the schools as compared with Japanese, and enters a strong protest. It proposes to have the school laws tested in the courts, as President Roosevelt threatened in case discrimination was followed up against the Japanese.

CANAL BONDS DEFEATED

WASHINGTON, February 10.—There was a long discussion in both Houses yesterday about a change in the administration methods of the canal, the debate involving its construction and type. The Inter-oceanic Canal Committee of the Senate has reported the bill adversely which calls for a \$500,000 bond issue.

A CALIFORNIA CONFERENCE

SACRAMENTO, February 10.—The Governor was in conference last night with the leaders and opponents of the anti-Japanese agitation. Those present refused to divulge the result.

CHINESE OFFICIAL CHANGES

PEKING, February 10.—Hsu Shih Chang, Viceroy of Manchuria, has been appointed president of the Board of Communications. Hsi Liang, Viceroy of Yunan, has succeeded Chang.

DUVALL FOR PHILIPPINES

WASHINGTON, February 10.—General Duvall has been appointed to the command of the Army in the Philippines.

THE AFTERNOON REPORT.

BERLIN, February 9.—King Edward and Queen Alexandra arrived here today and were welcomed with great ceremony. An attempted demonstration by the unemployed of the city was suppressed.

SALEM, Oregon, February 9.—The resolution directed against the Japanese was defeated in the Senate today.

CARSON CITY, Nevada, February 9.—The anti-Japanese resolution was tabled in the State Senate today. This probably disposes of it.

WASHINGTON, February 9.—The Senate Naval Committee has agreed to recommend an appropriation for the construction of 25,000-ton battleships.

WASHINGTON, February 9.—The attempt to confirm the appointment of Crum, the negro Collector of Customs for Charleston, has been abandoned for this session.

SAN FRANCISCO, February 9.—Twelve jurors have been passed for the Calhoun trial. The peremptory challenges will be made tomorrow.

WASHINGTON, February 9.—The appointment of Selden B. Kingsbury, successor to Judge Kepoikai, was confirmed today.

PARIS, February 9.—France and Germany have signed an agreement for the control of Morocco.

EASTERN BUSINESS MEN ON JAP TROUBLE

NEW YORK, January 29.—An important movement with respect to the Japanese question in California was inaugurated today at a meeting of the Board of Trade's transportation committee on foreign and insular trade. It was decided to "report to the board that the merchants of New York appeal to the merchants and manufacturers of all other states to cooperate with them in impressing upon the people of California the unwisdom of persistent discrimination against the people of Japan, which has shown its title to the respect of the world at large, that has proved itself to be a great factor in the civilization and progressive influences of the world and whose trade is of importance to this country."

At the conference, which was composed of the committee and others interested in the Japanese trade, were representatives of the General Electric Company, Kuhn, Loeb & Co., A. A. Van Tyn Company, the National City Bank, the China and Japan Company, and Muller, MacLean & Co.

The committee strongly deprecated the agitation in California, and expressed the fear that its continuance will seriously affect the amicable relations between Japan and the United States. It was pointed out that while Japan sells us thirty millions more annually than we sell Japan, it is also true that the \$69,000,000 of goods which she sells us consists almost entirely of raw materials not produced in this country, such as tea and raw silk, while the \$39,000,000 of goods which we export to Japan consist of manufactured articles, the products of our factories and workshops.

WANTS HAWAIIANS AT ROSE FESTIVAL

Portland Oregonian.—John Gill, who has just left Portland for an extended visit to the Hawaiian Islands, carried with him an official invitation to the insular government to send a party of business men to this city at the time of the next Rose Festival. The invitation includes a request to have representation in the street pageant "The Spirit of the Golden West," which was made a part of the program of the last fête here.

Governor Frear will be urged to arrange for an official delegation to be present at the festival, the argument being used that from here the party may go on to Seattle and take in the Alaska-Yukon-Pacific Exposition, in which Uncle Sam's mid-Pacific possessions have a vital interest.

In preparing the invitation, President R. W. Hoyt pointed out that the Territorial government of the Islands has as yet not conducted a business men's excursion to the Pacific Northwest, and he adds that all vigilance will be shown in the effort to induce the steamship and railroad companies to grant a special rate if the Hawaiians will agree to arrange for a trip of this character. President Hoyt further added that there will probably not be another as favorable opportunity of seeing the best there is to see in this part of the country as next June, when the two leading cities of the Northwest will give expositions on magnificent scales.

Ex-Governor Carter, who has been a some time visitor to Portland, will be appealed to, to use his influence to bring about the necessary arrangements for the proposed trip.

DATE SET FOR HALEIWA GO-AS-YOU-PLEASE RACE

March 14th Set for the Big Event---Committee of Prominent Athletic Authorities Asked to Act.

The Haleiwa go-as-you-please race meeting was not largely attended yesterday afternoon, but there were enough enthusiasts present to voice the general sentiment, and all preliminary details were arranged.

The date was set for Sunday, March 14, and the race will start from Fort Shafter at half-past nine. The starting line will be across the road at the top of the hill above the end of the King street car line, between the guardhouse and the hospital.

The bicycle race will start half an hour earlier from the end of the car line. The difference in starting places is due to the fact that the foot-racers do not want a hill in front of them at the start, while the cyclists do not want a down slope. By changing the starting points in this way both difficulties are obviated.

It was also decided that a nominal appearance forfeit would be asked of every man entering the race. This amount will be fifty cents and will be returnable on appearance at the starting line ready to enter the race.

The reason of this action was that past experience shows that there are many people who like to gain a little newspaper notoriety by stating that they will enter a race, when they have no idea of doing so. To obviate this, and to give the management an exact idea of how many will actually start, the forfeit will be enforced. All those who arrive at the starting point in time and who start off when the signal is given, will have their entrance fee returned to them. Any forfeited fees, and it is not likely that there will be any, will be donated to a suitable charity.

It was impossible to appoint a committee at the meeting as there were not sufficient representatives of different institutions present. The following who were present were appointed, Messrs. George Lowe, to represent the cyclists, Ayres and Densham. It was also decided to ask the following to act

on the committee of management or to appoint somebody to act for them. Lieutenant Chilton of Company G, Twentieth Infantry, Fort Shafter; Mr. Blanchard of the High School, Mr. Arnold of Oahu College and Mr. Hopwood of Kamehameha and Mr. Cheatham, who so ably did the work of making the last walking race the success it was.

It will be up to this committee to define the course, to name the judges and to make arrangements generally. There was a general expression of hope that those named would consent to serve as they are all men of athletic experience and are in a position to do much to make the event the success it should be.

A member of the committee will go to Haleiwa today to confer with Manager Bidgood of the Haleiwa Hotel, as to arrangements at that end of the line. Mr. Bidgood has expressed his willingness to help the event along and will probably charter a special train to leave Honolulu just after the start, so that those interested will be able to see the start and get to the finishing line in time for lunch, before they have to watch out for their favorite to come romping down the road in the lead.

Mr. Bidgood will also make special arrangements for the comfort of visitors that day. As well as the regular lunch and dinner, he has suggested putting in a lunch counter so that hungry arrivals may get something good to eat no matter what time they arrive. There will be special accommodation for competitors and something for them beside the elusive chance at the Haleiwa cup.

Owing to the comparatively slim attendance at the meeting it is impossible to give a very good idea of who will enter the race. Most of the probable starters were unable to attend and many of them thought that the other fellow would be there and so it would be all right if he did not go.

All details will be published as soon as the members of the committee chosen have consented to act and have got together and, in the meanwhile, those who figure on entering the great go-as-you-please race may start breakfasting on two boiled eggs and otherwise getting as fit as possible.

COMPANY G WINS ANOTHER ONE

Company G at it again. The baseball team handed it to Company E yesterday afternoon by 9 to 6, and won the game in the latter end of it, too.

Company E started out with a two-spot, which was copped by G in the second and third with a one and a two. Then E tied in the last of the third, and things looked exciting, especially when E made a three-strike in the fourth. But the G boys bucked up and handed out three each in the sixth and seventh, thus winning the game by a good margin. Both pitchers twirled an excellent game.

The official score was:

COMPANY G—	ABRBH	SB	PO	A	E
Renner, 2b-cf	5	1	2	2	3
Rowe, 3b	5	0	1	0	2

A real sea snake was captured by some Hawaiian fishermen, three miles off Waianae, a few days ago. It looked as large as the real sea serpent to the captors, but finally was coiled into a quart jar and preserved for the Bishop Museum, where it will be on view. This is the second snake of its kind to be found here, the other one being found dead on the shore near Kahuku by a Kamehameha schoolboy. It has nasty looking jaws and a skin that has much the appearance of alligator hide.

BOLOMEN MAKE ALL-STAR RUN

Here is a story on Mique Fisher that leaked out only yesterday and the joke is on the rest of the bunch just as much. It happened in Manila and provides the reason for Mique saying that he could beat any two hundred and twenty pound man in a sprint, in this case he would have beaten En Sue himself.

The bunch was invited to go out a little way into the country and spend New Year's day at a country place owned and kept up by the "Exiles," a coterie of bachelors who club it in Manila. The trip was made by automobile and the start was made after dinner on the last night of the old year.

Mique and Brick were in the tannery of the front machine while one of the Exiles sat next to the chauffeur. After they had gone a little way they came to where two roads met and the chauffeur bore to the right. The other man told him to stop and argued with him in a loud voice saying that the road was not safe on account of bolomen.

"Aw, that's all right," replied the chauffeur. "They all get drunk to-night for the new year, they won't bother us, we'll take a chance anyhow." Then he released the clutch pedal and the machine started forward. Mique picked up his ears at this and inquired if there were any danger of being held up. He then implored them to turn back and take the other road but the Exile quieted him inquiring, however, if he were heeled. Both Mique and Brick admitted carrying guns so the man in front told them they had better give them up as there was more danger for the two in the front seat.

Needless to say Mique grew very nervous and spoke disconsolately of the wad he carried. "If we ever get held up by bolomen, you won't have any need for a wad," was the calming remark from the front seat. It was just after this that the inevitable happened. The car was stopped and surrounded by a mob of yelling savages, all waving fearsome looking knives.

The two brave (?) men in the front of the car did great execution with their borrowed guns and several bolomen bit the dust, but the attack was too fierce and the Exile yelled to Mique and Brick to tumble out of the back of the machine and sprint back to town for help. It took them about half a

second to get running and they never stopped until the lights of Manila came into view.

About that time Mique sat down and said that he could run no farther, but suddenly jumped up and went on again when the distant sound of yells reached his ear. He was using his wad as a running cork in one hand and held the other to his heaving side.

Then from behind came the welcome tooting of an automobile horn and they knew that they were saved. It was their own car and the two men in it loudly proclaimed that the bolomen had been repulsed. Of course they tumbled when the other cars came up and went scotching further along the road to pick up other stragglers who had also been induced to run, for help.

The jokers were sworn to secrecy and the story was well guarded until yesterday when it dropped somehow and here it is.

MIQUE MAKES GOOD FINALLY

Mique made good before he left. After shouting up and down Fort street for a whole day about being robbed of thirty dollars, he finally was hustled out onto the wharf while the Tenyo Maru was getting ready to leave, a course was marked out, and he ran McDuffie thirty yards and—was badly beaten.

The commencement of the pilikia goes back to before the race that was supposed to have been run on Sunday. Mique stated that he would run any two hundred and twenty pound man on the Islands fifty yards for any kind of money. McDuffie took up his bet and placed his money, which was covered. Then a local bartender wagered Mique thirty dollars that he would not run. Mique did not run and the stakeholder gave the money to the bartender.

Mique went up in the air. Inveective rolled from his lips like cider from a cask, and such epithets as "Robbers," "Gang of thieves," and "Holdup bunch" were free and frequent. Then Mique began to get game. He said that he would run McDuffie down the street and give the thirty to the tag-girls if he won. Nay, that he would give the whole sixty. But the bartender said he would not stand for it unless Mique bet fifty more. Then Mique left Hotel street and wandered to the Young Hotel roof garden, where he appealed to the moon and rang the bell for the waiter.

That was on Monday. Yesterday he waited half an hour before the boat was due to leave. Then McDuffie appeared. "I tell you what I'll do," roared Mique; "now," "Wow," yelled the crowd, and Mique was hustled down the gangplank and a course stepped off in no time.

Thirty yards was the distance, and Mique and McDuffie toed the line. "Go," yelled the starter, a venerable athlete with a cane and side whiskers. But it was a false start; McDuffie did not move. Mique went back and again the signal was given. This time they both started, and the big Scotchman came flailing down the wharf and finished a few yards ahead of the mag-nate.

When Mique had breath enough, he smiled and said: "Well, boys, it's all off; no more thirty-dollar talk," and everybody cheered.

STARS LEAVE FOR THE COAST

The All-Stars left on the Tenyo Maru last night and were sent away with leis and alohas galore. They all looked glad to be on the last stage of their journey back home, and smiled beamingly whenever a hearty hand was thrust out to grasp theirs and a cheery voice wished them "Good luck."

It is needless to state that there were many of the fair sex to see them off, and Danzig came down the wharf with a bevy of loveliness surrounding him that made Red Dog remark, "If only I could be called Dan for short."

The boys had not been here long enough to climb round our hearts in the way that the Santa Clara and Keio boys did, but they were a grand bunch of athletes, and professional ball-players though they may be, no more gentlemanly and kindlier mannered company of sportsmen has ever touched these shores. Every fan in town will join in wishing them the very best of good luck for this season and for all the years to come.

The Y. M. C. A. "Live Wires" handed it to the Punchbowl Tigers in a hot game of basketball last evening, by the score of 24 to 17. The lineup was: Y. M. C. A.—K. Klemme, center; E. Klemme and B. Brown, forwards; Benny and Botello, backs; Tardis—Phillips, center; J. Mendonca and Gomes, forwards; Alameda and A. Mendonca, backs. Timekeepers, Baptist and Crockett; scorer, Freitas; umpire, Branco; referee, Dr. Hand.

SULLIVAN IS THE FAVORITE

Ringside Seats Arranged in Tiers—Marines Take Lot of Tickets.

Now that the night of the big bout between Dick Sullivan and Peterson is getting near, the fans are dividing into partisanship sides and each side is talking more or less with money. Sullivan, as may be imagined, is the favorite but not so very much of a favorite, as Peterson has gained a host of admirers here by his active workouts.

The odds that prevail now vary from 10 to 8 to 10 to 9 with Sullivan on the long end. It is said that there is plenty of Peterson money to be had when the odds lengthen, but that the backers of the mahini are waiting until they can get a better price than at present.

The Orpheum management has instituted one great improvement that will be of interest to all ringsiders. The left side of the stage, that is left facing the audience, has been arranged in four tiers of seats so that ticket holders on that side will have a clear view of the ring, no matter in which row they sit. The advance sale has been unprecedented and those who want to take advantage of the tier innovation had better get in early with their orders or they may find themselves stuck down in the orchestra.

Marines Get In Early.

Camp Verry is certainly taking an immense interest in the coming entertainment. This is undoubtedly greatly due to the initial appearance of Nelson, their middleweight champion, who is to box Hercules eight rounds. Yesterday Captain Fay of the Marines, called on Joe Cohen and explained that there were a hundred and fifty of the men who wanted to be present in the Orpheum but that they would not be paid till February 19 and many of them were without the wherewithal to spare. So Joe handed over two hundred tickets and took Captain Fay's guarantee in return.

This was a pleasant courtesy on both sides and Mr. Cohen wishes it understood that he will be glad to accommodate any of the other camps in the same way.

Hardest Day's Work.

Dick Sullivan did his hardest day's work yesterday at Fort Shafter. He went nine rounds altogether with three different sparring partners and they were all fast ones. First he did three periods with Hercules and made the tyro work his hardest. Then McFadden came on for three more and finally Frankie Smith stepped out and kept the middleweight hustling for three more fast goes.

Sullivan likes to box with lighter men as he finds that it improves his speed and he is quite capable of keeping his hard punches working on the bag. Smith's boxing by the way, was a preliminary to light work in case of another match with Reilly, of which there is a good possibility in the near future.

Nelson at the Camp.

Nelson has transferred his training quarters to the camp and now works down in the Very gymnasium instead of at the Orpheum. This place is ideal for training as it is open except on the mauka side and the ocean is close by for a swim after work. Nelson, being a Dane by birth, is very fond of the water and never feels his day's work complete unless he has had a dip.

Peterson is slacking off in his afternoon work a trifle. His hardest boxing has been done and, from now on, he will do only comparatively light work. Young Scotty, who is working with him, is coming along well and has it all figured out where he will outbox soldier McCollough and land a sleep-producer when he has him buffaloed.

The soldier has been working faithfully every day at the camp and the boys of the Twentieth feel sure that he has it over his opponent. He has made himself a favorite in every appearance here by his fearless boxing and the go between him and Scott bids fair to be a hummer in every way.

MONGOLIANS ARE GREAT WRESTLERS

Those whose knowledge of the Oriental is confined to a casual acquaintance with the local Chinese market gardener will be surprised to hear that away in the northwest of Mongolia are great six-footed wrestlers whose physical development would compare favorably with Sandow.

F. A. Larsen, a missionary of the British and Foreign Bible Society, tells in "The Bible in the World" of the great athletic contests at Chitung. A city of tents springs up like the Prophet's gourd. Where was a bare plain is seen a canvas city of 15,000 people, who have journeyed to see the festival. Five hundred trained wrest-

lers are at hand to participate. The Mongol wrestlers are very strongly built, and a good many of them stand about 6 feet. Their muscles are unusually developed. In their wrestling they showed great strength, lifting each other high in the air. The best of them would probably be considered good wrestlers in any country. The man who wins three years in succession has the honor of becoming the Bogdo's champion (a kind of free nobleman). He has the privilege of taking what he needs, whether food to eat or horses to ride, from any man in the State. He is respected as a big man everywhere. The champion was a man about 30 years of age, 6 feet tall, and had a very broad, high chest. He had hard work to get the victory this year. He fainted when wrestling with a young man who was very strong and quick. It was a strange sight to see them—a few at a time—wrestling from morning till evening in the hot sun day after day. They keep on until the best of the 500 trained wrestlers gains the victory. They sweat, bleed and faint, and get hurt without showing any temper, yet each is keen to get the victory. They salute one another after each match by taking hold of each other's hands, and apparently enjoy the sport.

Sport Notes

The next interscholastic soccer games will be next Saturday, on Kamehameha field. High School will play Punahou in the first game, and the Kams will meet Aliolani College.

Here is the lineup of the league grounds baseball team. It looks like a hot one: Chi Bai, c.; Lota, p.; Jim Winne, 1b.; Akina, 2b.; Henry Chillingworth, 3b.; Sing Chong, ss.; Kingland, lf.; Bob Chillingworth, cf.; Pau Fa (En Sue's brother), rf., and Will Prestidge, manager. Look out, Fort Shafter.

The league grounds ball team would like to accept Fort Shafter's challenge for either Saturday or Sunday afternoon. The game to be played at the league grounds, instead of at the camp.

Bill Burns and Jack Bliss, the pitcher and catcher who carried the Hawaiian team to victory last Sunday, were presented by the league trustees with souvenir cuff-links yesterday. The links bore the Hawaiian coat-of-arms on one button and the date and occasion engraved on the other.

Mainland Sport Brevities

The Olympic club of San Francisco will hold a track meet on Washington's birthday. As well as the usual events there will be the now almost usual Marathon race.

Schiel and Needham will wear the big mitt for the Giants this season.

Hal Chase is certain to be reinstated if this desirable consummation has not already been effected.

Brick Devereaux has the managerial bee in his bonnet. He may blossom forth with a team of his own before very long.

The Palm Beach motor boat regatta will start on February 16 and finish on February 19.

CROWDS WATCH WOMAN SWIMMER

MELBOURNE, Dec. 27.—Fourteen swimmers yesterday essayed an eight-mile swim in the Yarra from Hawthorn to Prince's Bridge. Of the six who succeeded none finished less fatigued than the one lady competitor (Miss Ruby Boobier). The swim was organized by the Richmond Swimming Club, and in order to lend variety to the event Alexander Lamb and his pupil, F. Marr, agreed to dive from the bridges en route. Not to be outdone by the sterner sex, Miss Boobier left the water at the Botanical Bridge, and in company with Lamb and Marr sealed the parapet. For a few seconds the girl poised herself on the narrow ledge, cool and confident. Then she sprang forward and entered the water with a clean shallow dive. The cheering was tumultuous. The progress of the swimmers was watched with interest by hundreds of people, who followed in motor boats and smaller craft, while crowds walked the full course along the river bank. Miss Boobier said she took part in the swim just to show that a woman's powers of endurance were equal to those of a man. Miss Boobier is a native of Bendigo, and is 18 years of age.

THE Pacific Commercial Advertiser

A MORNING PAPER.

WALTER G. SMITH - - - - - EDITOR

WEDNESDAY : : : : : FEBRUARY 10

It would not surprise this office if a small earthquake, centering in Washington, D. C., would soon be felt in Hawaii.—Advertiser, January 13, 1909.

HAWAII IN SUMMER.

While Hawaiian winters, despite their February sloppiness, attract the bulk of our tourists and afford a welcome change from the cold weather of the north, the most agreeable time to visit these islands is in the summer. Many travelers are finding this out and coming here then, choosing summer by preference even to autumn or early spring. They have learned that the tradewind tropics have no relation to the enervating and disease-spreading heats of the miasmatic tropics; and that one may be as comfortable here as at Bar Harbor, Newport or Atlantic City—indeed, more so, because of the absence of that quality in the heat which produces rashes and sunstroke and because of the almost unending visitation of the trades.

Summer in Hawaii is picnic time, when one may depend upon the weather. It is the time, as in the northern climates, of fruits and flowers. Automobileing, yachting and surfing are then at their best. It is the time to fish along shore and hunt in the high mountains for wild goats and pigs. Outdoor life is then seen at its best and society, from its country houses, extends a delightful though unconventional hospitality. About the first of May one may put his umbrella and rubbers away—for the rain that falls will then be merely liquid sunshine—and garbing himself in negligee and panama may "loaf and invite his soul." It is lotus time. Those travelers who think winter in Hawaii is lotus time, too, may be right. It is surely warm and pleasant and the white suit and the straw hat abound; and to the man from the North it is full of summer charm and beauty; but after all, if he goes away when summer wraps the land, he loses the best of it. "Then if ever come perfect days," when earth and air and sky and sea are in tune and there is paradise enough.

THE CENSUS-TAKER.

The directorship of the census in these islands requires a man of organizing talent with the head of an accountant, a man given to painstaking work and accustomed to handling a large business. The salary of \$5000 is no more than the incumbent should be able to earn in private life.

It is reported that the appointment will be disposed of by the Delegate, which is not quite true. He will be consulted as a matter of course, but so will other people. This journal, from its knowledge of the method employed and its personal knowledge of Mr. North, the head of the census bureau, has no hesitation in urging any qualified man who wants the local place to apply for the appointment. He may be sure that no snap-judgment has been or will be taken in so important a matter and that no small-fry politician will have the inside track.

King Edward in his relation to the jingo sentiment of England is where President Roosevelt stands in his relation to the jingo sentiment of the Pacific Coast. Both are doing their best, despite intemperate outbreaks of their countrymen, to keep the peace. Precisely at the time a "wave of militarism," directed against Germany, is sweeping through the English press the King and Queen go to Berlin to visit the Kaiser. There is and will be a great parade of royal friendship, very likely political conferences are to be held which will do something for peace and will, at least, have a depressing effect on the war party. There is not the slightest reason why England and Germany should fight, in any event.

All the movement for one-man power and centralization in city government will likely prove to have been an ephemeral fad. In the few cities trying it the method is still a new broom that may sweep clean for a while.—Star.

As the one-man charter was made for Brooklyn half a generation ago—Seth Low being the first mayor under it—and as it has been steadily gaining since in municipal favor, the remark about its being an "ephemeral fad" begins to sound a bit antique.

The confirmation of Judge Kingsbury was reported some time ago, but it seems not to have taken place until yesterday. An earlier message, which was construed as announcing a confirmation, probably meant that Judge Kingsbury's name had been sent to the Senate, the original one, the first of the series of three, merely giving news of the President's decision as between Kingsbury and the other candidates. There has been a mix-up of the news, but all's well that ends well.

It is not likely that many fresh Japanese immigrants are entering California. Some are coming in from Oregon and Washington to get a better climate, and those in California are shifting about and forming rural communities. To say that the Federal figures of human imports and exports are far wrong is to disregard the ability exercised through the custom houses of the United States, Canada and Mexico to keep tab on Japanese travel.

The Honolulu police have had so little to do in years past with white vagrants that they are shy of arresting them, though these gentry are beginning to show themselves all over town. But it is time to begin before this city becomes a tramp rendezvous. The police will make no mistake in running in these fellows, all of whom can be profitably used on public works.

The President, in a speech at Harvard, spoke of "eminent lawyers who put their great abilities at the service of unprincipled speculators desiring to violate the law," in terms which made it impossible for smaller lawyers, with the same proclivities, to hold office under him.

The President is right in urging Congress to pass a law to require ocean-going steamships to be equipped with wireless plants. There is almost as much reason for such a measure as there was for the original laws making provision for life preservers and lifeboats.

If Mr. Crum was named for Collector of the Port of Charleston, S. C., because he was a good man for the place, he should be confirmed. If, on the other hand, he was named simply because he is a negro, the Senate is right in holding up the nomination.

What? Getting anxious about County and City finances already? Why do that? The taxpayers, in the presence of the Great Boon, are willing to pay any price for it.

Now the Chinese are protesting against discrimination. That trip to Africa must look more and more alluring to the President with each incoming mail.

That high tenor sound at sea last night, which was supposed to be a distant siren whistle letting go, was Thwing.

Mr. Bonaparte has nothing to say. Neither has the gentleman at this end. The facts speak for themselves.

France and Germany have agreed over Morocco and another war soon has come down from the tree.

Isoi will have to get another attorney who will be a brother to him before the next Fleet week.

The Floral Parade gives promise, this year, of being the best of the series.

This is the year when Washington's birthday yields the right of way.

A patch in time, as roadmaker Quinn is demonstrating, saves nine.

There are signs of returning sanity in the western legislatures.

AMUSEMENTS.

There will be a public band concert on Wednesday evening at 7:30 at Aala Park:

PART I.

March—United Flags.....Gabriel
Overture—Poet and Peasant.....Suppe
Ballad—Alice Where Art Thou.....Asher
Selection—Soldiers Parade.....Hume

PART II.

Vocal—Hawaiian Songs.....Ar. by Berger
Selection—The Pageant.....Williams
Waltz—Toreador.....Boyle
Finale—Vivat.....Zikoff
The Star Spangled Banner.

Opening of Park Theater.

The opening of the Park theater, the new open air moving picture show on Fort street, last night was a great success. Harry Werner, the manager, had a hard time to get ready in time for the announced opening but he and his assistants worked from early in the morning and succeeded in rigging up the machine so that it would work, before nightfall.

The outside of the fence on the Fort street side was strung with electric lights and a festoon of colored lamps decorated the tree that stands in one corner of the enclosure. The weather was perfect for the opening and not a sign of rain marred the event.

Nine films were passed through the machine and the large crowd appreciated every one of them. This is a large order for a moving picture show, but Mr. Werner states his intention to run as many every day and to change the program entirely twice a week. The open air theater is an innovation here but the promoters are confident that it will be a great success as soon as the rainy season is passed.

The Art Theater.

There is a fine program on at the Art Theater this week, and crowds of people fill the auditorium every night. In the afternoon the place is well patronized by women and children. The collection of pictures shown there is one of the best that has ever been presented by the management of this theater. In "The Dream of the Opium Fiend" there is an object lesson which shows why the people of the Chinese Empire should be stopped from using the dope. The "Air Ship" is another good picture, which should not be missed by anyone interested in science. The admission at the Art is ten and twenty-five cents for adults and five cents for children.

The Empire.

If it was not for the superiority of the pictures shown at the Empire it is not likely the place would be so well patronized all the time. The frequent changes seem to be enjoyed by people who have the motion picture craze—epidemic, it has become—because they are always clear and distinct. Admission to the Empire is ten cents for adults and five cents for children.

SUBSTITUTE PRINCESS

(Continued from Page One.)

be able to help the boys out in this matter.

Pa-u Riders Getting Ready.

"I can have seventy-five pa-u riders in my section, and all good riders, too, if I can only get horses and saddles and bridles for them," declared Charlie Chillingworth, chairman of the pa-u committee, yesterday. At the present time he has fifty-five busy getting their pa-us and other trappings ready, and is busy trying to scare up the necessary horses. Harry von Holt has promised to help him out in this matter, but anyone who can spare a horse or two, or the saddles and bridles, will be helping very materially if they will make the fact known to Mr. Chillingworth. The pa-u riders this year will be divided into three sections, distinguished by different colored pa-us or skirts. There will be just the three colors of costume, and they are being made up now, by four experienced Hawaiian women. Several thousand yards of material are being used for this purpose, and the result promises to be one of the most striking features in the whole procession.

VIGOROUS OLD AGE

Even ruddy-cheeked youth is not more beautiful than the mature vigor of healthy old age. This, however, is not seen so often as it should be, partly because many persons mistakenly suppose that weakness and ill-health are inseparable from ripe maturity of years.

Yet in the majority of cases enfeebled old persons require nothing but the simple, natural treatment afforded by

Stearns' Wine of Cod Liver Extract

which acts by increasing the appetite, aiding digestion and putting more iron into the blood. It has neither the taste nor smell of cod liver oil, but is as pleasant to the taste as a superior table wine. It is as valuable to old persons as to young ones and many of its most remarkable effects have been achieved with the aged. Get it at your chemist's and be sure you get STEARNS'—the genuine.

Meets every first and third Thursday evening of each month at 7:30 o'clock in Fraternity Hall, Odd Fellows' Building, on Fort Street.

N. FERNANDEZ,
Kuanha.

SUIT WON, BUT MONEY IS LOST

A Problem in Arithmetic and Constitutional Law Baffles.

If you were plaintiff in a suit for violation of contract; secured a judgment for \$15.00 in the District Court; had the amount cut in half by the defendant's appeal to the Circuit Court and was then taxed \$16.75 for costs, did you win a triumphant victory at law or did you lose?

This is the baffling problem that involves legal procedure, arithmetic and the Constitution of the United States that Thomas Carpenter and his attorney, George A. Davis, are trying to figure out. Their calculating produces a deficit of exactly \$9.25 and this, they maintain, is in direct and pernicious violation of Section 10, Article 1 of the Constitution of the United States. The \$9.25 refuses to "down" and its constitutionality has been passed to the Supreme Court of the Territory for judicial determination.

The suit was the result of a dispute over the work done on the interior of the Art theater and the appeal was heard in Judge Lindsay's court. He reduced the judgment from \$15 to \$7.50. Carpenter then paid to the costs under Article 4, Section 1892 of the Revised Laws of Hawaii, which reads: "If the defendant against whom judgment is rendered, appeal, and the amount recovered in the court below be reduced one fifth or more, costs shall be awarded to the appellant."

An Important Decision.

An opinion which has an important bearing on the legal aspect of roads in residence tracts was rendered yesterday by the Supreme Court. The opinion was written by Justice Wilder and it holds that a portion of a highway known as Road H running from Campbell avenue to Kamaaina avenue in the Kapiolani tract, near Kapiolani Park, must be maintained as an unobstructed road and cannot be closed.

The opinion of Justice Wilder is in part as follows:

"The owner of this tract of land had it platted and laid out in blocks and lots with avenues running through intersected by roads every few hundred feet, and began selling lots in the latter part of 1896 at which time the defendant bought the whole of block 9 which extends along one side of road H from Campbell avenue to Kamaaina avenue, and he subsequently acquired all the land fronting on the other side of road H between these two avenues. In the meantime plaintiffs purchased two lots on road H about half a block up from Campbell avenue. They bought on the faith of the representations of their grantor that road H, at least between the two avenues in question, which was then staked out and surveyed, would be kept open. The grantor before selling any of the lots offered all of these avenues and roads, including the one in question, to the government for public highways, but the offer was refused by the then minister of the interior."

The opinion holds that the road in dispute must be maintained as a public highway by virtue of the fact that it is necessary to the convenience of the residents in the vicinity and appeared on the original plans of the tract.

Insane, Says Expert.

Called as an expert alienist, Dr. N. B. Emerson declared yesterday that he considered George Kalekiki insane and a victim of epileptic mania. The statements made by Dr. Emerson is a strong point in the plea of insanity which Attorney Achi is building up for Kalekiki, who is charged with murdering his wife last August in Kalihi.

The aged father of the accused man was also placed upon the witness stand by the defense yesterday, and he testified to what he considered the irresponsibility of his son since early childhood.

The defense will probably rest their case today, having but a few more witnesses to call in an effort to prove that Kalekiki has never been of sound mind, that he was not responsible when he killed his wife.

Deficiency Judgment.

A deficiency judgment against Louise McGrew was filed yesterday in accordance with the court decree confirming the report of the commissioner in the foreclosure proceedings brought by the Honolulu Library and Reading Room Association against Louise McGrew and Frank E. King. The sum of \$1260, with interest at 8 per cent, from February 2, is ordered to be collected from Louise McGrew, and if it can not be secured from her execution is to be had against King.

An order of notice, setting March 1 as the date of hearing the petition for the probate of the will of James H. O'Neil, was signed by Judge Robinson yesterday.

A stipulation was filed yesterday allowing Bessie R. Burns a week from February 9 to file an answer to the brief of Julia H. Afong, defendant in the case.

Attorneys for Booth.

David Kaumana, charged jointly with Charles W. Booth on a grand jury indictment for arson in the second degree in connection with the burning of Booth's Pacific Heights residence, was released yesterday on a bond of \$2500. The case came up in Judge De Bolt's court for hearing on demurrer to the indictment, but it was continued until Thursday afternoon. Attorneys J. A. Magoon and A. G. M. Robertson will be associated with the counsel for the defense.

U. S. District Court.

The special term of the U. S. District Court will open on February 15. On reserved plans to indictments there are seven criminal cases on the calendar. Among them is that of J. T. Stayton, formerly assistant postmaster, charged with opening mail. There are two petitions for discharge in bankruptcy, by S. A. Cutter and S. A. Green. Harry H. Holt of the U. S. Marshal's office left for Hawaii yesterday to serve subpoenas on witnesses in the case of Moses Koki, charged with defrauding the government while employed at the Waimea postoffice.

REGULARS IN "BREAD LINE"

Many Pensioners Have Been Back Door Patrons for Years.

"Speaking of men coming to the Union Grill for a handout," said Manager John Deter yesterday, "it is nothing new to us. There are a lot of people who visit our back door, and generally, if they're not drunk, they get something. Why, there is one pensioner on our list who has had means there every day since the Grill opened about eight years ago. He is an aged Italian, who gets his breakfast and late lunch regularly. He never has dinner with us. He has a free room at or near the Sailors' Home. He is unable to work. As long as I can remember his favorite resting place has been on the Advertiser stairs."

"There are lots of newsboys who keep hunger off by waiting at the back door for pieces of bread and odds and ends. That saves them so much from their earnings from paper sales."

"It's an old custom, and we seldom turn anybody away, except as I have said, drunks. I have tested the drunk proposition. They touch us for money to help them out. I have tried a dime here and there, and then have followed the men up. Sure enough they drop into the saloon where they can get the longest glass of beer."

It is said there are a lot of men in town who apparently dropped down to the Islands to bum, and that there are hard cases on the list. Many of these are men dropped off the transports who stow away. Transports coming from Manila or San Francisco drop the stowaways off here. There is no way to stop this custom, as it is an American port, the first the transports strike either way.

Many men, however, have been regarded as hard cases, merely because their clothes are rough. Many of these are mechanics who came here to get work on government jobs. Some of them are working, and owing to the fact that they are in town infrequently their appearance gives rise to the idea that they are bums. A few of the real bums have been picked up and forwarded to the Reef.

ADDRESS BY PRESIDENT GILMORE

Dr. John W. Gilmore, president of the College of Hawaii, will address the members of the Kiloana Art League, under the auspices of the Literary Circle on Saturday morning at half past ten.

The subject will be "Bryant, the Pioneer Poet and Editor."

All members are entitled to the benefit of these Saturday morning literatures, and are here notified and invited.

LOCAL BREVITIES.

The band will play this morning at the departure of the steamer Alameda.

It is rumored that acetylene gas may be substituted for kerosene as the illuminant for the lighthouses in Hawaii.

There will be a special meeting of Hawaiian Lodge No. 21, F. and A. M., in Masonic Temple at 7:30 this evening. Work in third degree.

Work on the construction of the new one-story reinforced concrete theater building at the corner of Hotel and Bethel will commence next month.

On account of the fact that the barkentine Irigard has not one-half her cargo yet, she will be delayed several weeks longer than usual at this port.

The annual meeting of the Civic Federation will be held on a date to be set next week. Marston Campbell will be the chief speaker at the assembly.

Mr. Swahn, for many years cutter with S. Roth of this city, has accepted a position to take charge of the tailoring department of L. B. Kerr & Co., Ltd.

Honolulu Aerie 140, F. O. E., will meet for important business at K. of P. Hall at 7:30 this evening. All members are earnestly requested to be present.

The Sunday school board of the Methodist church will hold its annual election of officers and teachers Wednesday evening after prayer meeting. All members are urged to be present.

Twelve koa tables and fifty chairs of the same material are being built here for the Seattle fair. The furniture will be placed in Hawaii's building at the fair, and will be utilized in the pineapple display.

It is rumored that "Sonny" Cunha is to be Tweedledum in the tableaux from "Alice in Wonderland," at the Opera House on February 18. His counterpart will be hard to find, and the identity of Tweedledee is wrapped in mystery.

The funeral of the late George Sea, Deputy High Sheriff of the Territory, was held yesterday. The St. Louis Alumni Association took charge of the funeral arrangements, as the deceased was an active member of the organization. The remains were buried at the Catholic cemetery.

Robert Bond of Trent & Co., sold for clients eight hundred shares of Oookala sugar stock at \$16 per share yesterday. The stock was bought by R. W. Shingle of the Waterhouse Trust Company, who also represented clients. The transfer of stock yesterday does not change the control of the company.

Thursday evening, from 8 to 10 o'clock, the members of the First Methodist Episcopal church will give a reception to Bishop Smith and his daughter, and to Dr. and Mrs. Jones, the new pastor and his wife, in the parsonage adjoining the church. All members and friends of the congregation are invited to attend.

ENGAGEMENT ANNOUNCED.

The formal announcement of the betrothal of Theodore Seymour Hall and Miss Ruth Houghton is bringing to the young people the sincerest best wishes of a host of friends. Miss Houghton is the daughter of Mr. and Mrs. Charles S. Houghton, a family well known on both sides of the bay. She has been popular with the younger set.

Hall is the son of Mr. and Mrs. W. W. Hall, a pioneer family of the Hawaiian Islands. He attended the University of California, and also Harvard.

No date has been named for the wedding.—S. F. Chronicle.

SIXTH EDITION

of "Hawaiian Securities," the "Green Book" of stock and bond information, issued annually by Jas. F. Morgan, will be ready for distribution in a few days.

DON'T TAKE THE RISK.

When you have a bad cough or cold do not let it drag along until it becomes chronic or develops into an attack of pneumonia, but give it the attention it deserves and get rid of it. Take Chamberlain's Cough Remedy and you are sure of prompt relief. For sale at all dealers. Benson, Smith & Co., Ltd., agents for Hawaii.

Land Commissioner Pratt left for Kauai last evening to attend to the sale of some Waimea house lots.

Mrs. E. J. Lord will leave on the Alameda today for San Francisco, whence she will go to Washington.

A. L. C. Atkinson is mentioned as a successor to U. S. District Attorney Breckons, but it is not known that he is a candidate.

Mrs. Lewis Turner, wife of the manager of the Pacific Development Co., of Puna, with her son Curtis, left on the Mauna Kea for Hawaii yesterday.

Harry Whitney and Jack Lucas were passengers on the Mauna Kea, which sailed yesterday at noon for Hawaii. They will return with the boat on the next trip.

E. M. Watson, who is one of the attorneys representing Treasurer Trent in the county contest, was called to Kauai on urgent business. He left last night.

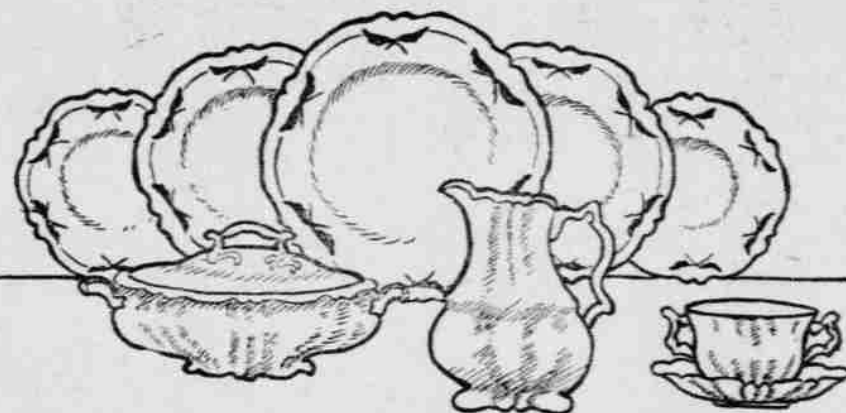

P. L. Peters will leave for the Coast on the Alameda today. His wife has been very ill of late, and it will be necessary to take her to the steamer in the ambulance.

Mrs. Kirk Porter of Honolulu, who has been the guest of Santa Cruz relative and friends for several months, will sail for her home about January 23.—Santa Cruz News.

H. W. Kinney, the local newspaper man who recently accepted the editorship of the Hilo Tribune, left for his new post on the Mauna Kea. Many friends were at the dock to bid him aloha.

R. K. Bonine had pilikia yesterday when returning in a big automobile from Waikiki, where he had been taking moving pictures. The auto broke down, and the expert photographer was forced to pack his luggage into a trolley car.

Mrs. J. W. Saunders, wife of Captain Saunders of the Pacific Mail company, leaves for San Francisco today

THE ELASTIC DECORATED DINNER SERVICE.

No: It is not made of rubber, made of clay. But it admits of extension, and is, therefore, figuratively speaking, elastic.

You can buy a few articles today and add a few more to the collection tomorrow—or a month from now. First thing you know you have a service for a large gathering, same decoration. Is not that elasticity? We control for this vicinity the choicest elastic patterns made.

All prices. Take a look at them.

"IN A BAD WAY."

Many a Honolulu Reader Will Feel Grateful for This Information.

When your back gives out; Becomes lame, weak or aching; When urinary troubles set in, Your kidneys are "in a bad way." Doan's Backache Kidney Pills will cure you.

Here is local evidence to prove it: H. S. Swinton, of Honolulu, Hawaii, says: "I was afflicted with backache for twelve years and was unable to get relief. Seeing Doan's Backache Kidney Pills highly advertised and believing that my kidneys were disordered, I procured the remedy at the Hollister Drug Co. I found that it was benefiting me and I continued its use until cured. Doan's Backache Kidney Pills have been so well tested in my case that I highly recommend them to other kidney sufferers."

Doan's Backache Kidney Pills are sold by all druggists and stockholders at 50 cents per box (six boxes \$2.50) or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

Remember the name, Doan's, and take no substitute.

HONOLULU, HAWAII TERRITORY, WEDNESDAY, FEBRUARY 10, 1909.

MORMON PRESIDENT IS COMING TO THE ISLANDS

Joseph F. Smith, president of the Church of Jesus Christ of Latter Day Saints, known generally as the Mormon Church of Utah, will arrive in Honolulu about February 26 on the Oceanic steamer Alameda. He will be accompanied by his first wife, and by Bishop Woolley, who has charge of the Mormon Church interests in the Hawaiian Islands.

Joseph F. Smith, a nephew of the prophet Joseph Smith, who was killed at Carthage, Ill., while in prison, has been president of the church for about six years, succeeding Lorenzo Snow. While John Taylor, Wilford Woodruff and Lorenzo Snow succeeded respectively to the presidency, Joseph F. Smith with George Q. Cannon, formed one of the presidency's council, a triumvirate of the church's leading men in ecclesiastical matters, who are the president's principal advisers.

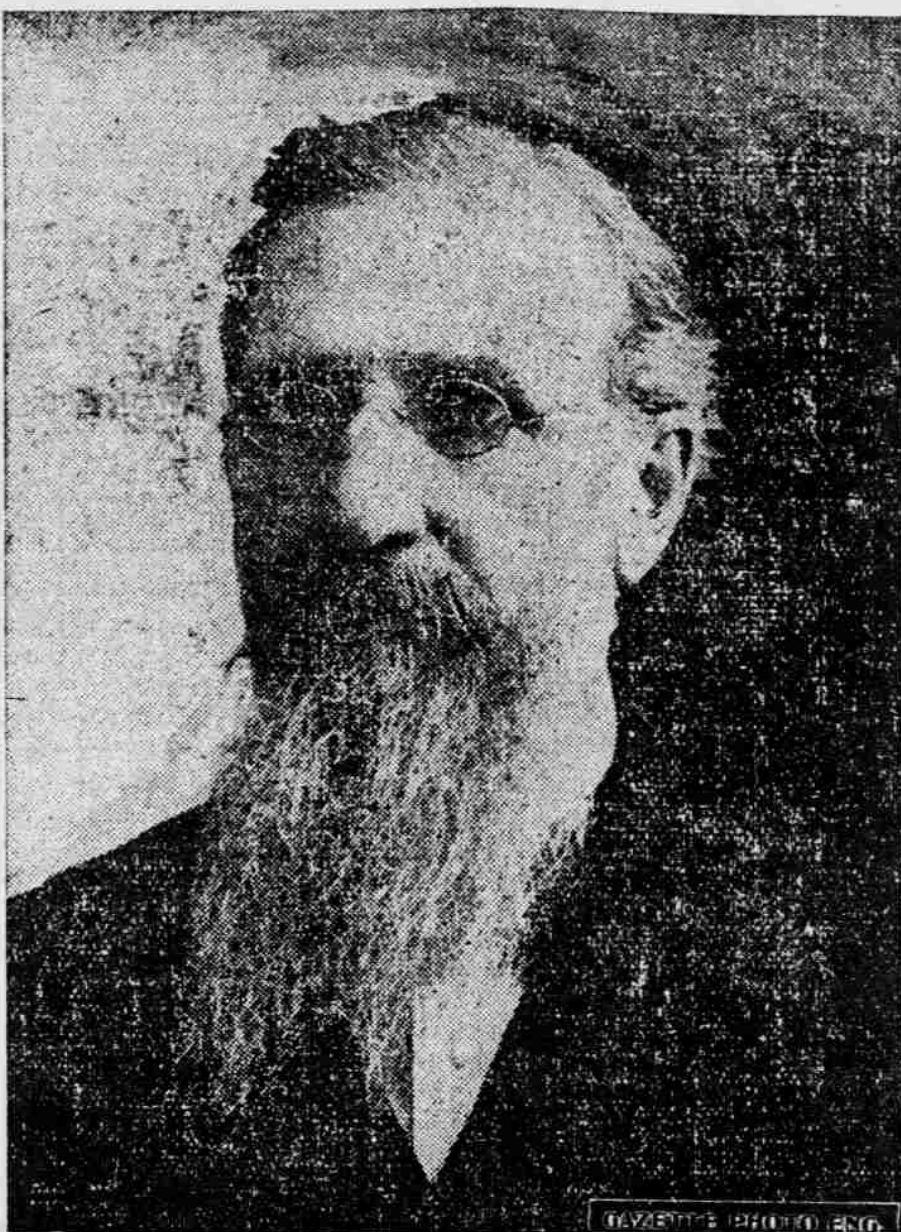

Elder Abram Fernandez has received word from Bishop Woolley that the president is coming to Honolulu for rest. He will be here several weeks, returning to Salt Lake in time to be present at the annual conference in April. While here he may visit the other islands. The church, in addition to having a flourishing and typical Mormon settlement at Laie, where a small sugar plantation is conducted, has a very large number of adherents throughout the islands. Many young missionaries from Utah are in the islands constantly, quietly proselyting among the Hawaiians, each one generally remaining here from two to four years. All young Mormons in Utah are expected to spend two years of their early manhood on mission tours throughout the world.

Joseph F. Smith is a man of commanding appearance, and is regarded as one of fine executive ability. Throughout his long years of association with the first presidency the church has become an allpowerful factor in ecclesiastical, political and commercial matters in the west, principally in Utah, Idaho, Wyoming, and extending up into British Columbia.

Mr. Smith first came to Hawaii in

1854 on a proselyting mission when he was but fifteen years of age. He stayed here four years and visited Hawaii twice in later years, the last time about thirteen years ago. The members of the mission were Ezra T. Brown, Lorenzo Snow, Almy Smith, Joseph F. Smith and Wm. Cluff. According to a statement made by Bishop Woolley sometime ago they were a committee to look up suitable lands on which to locate, having been deprived by Gibson of lands already acquired. Joseph Smith learned the Hawaiian language easily. On the hundredth day after his arrival he is said to have made a discourse in Hawaiian to the assembled natives. His second visit was in 1886 when he stayed two and a half years. It was at this time that many of the leaders of the church were harassed by the Federal authorities in regard to the polygamy doctrine of the church.

It was related of Joseph Smith and his party that came here in 1854 that the committee went to Lanai and while going ashore the boat capsized and Lorenzo Snow was drowned, or supposed to be. The body was recovered by divers. E. P. Adams, formerly well known in Honolulu, had a store at Lahaina. He offered his services to have the body taken to his house for a funeral. The four elders refused to deliver the body to him. They administered the rite of "laying on of hands," until the drowned man came to life again. This was the Lorenzo

PRESIDENT JOSEPH F. SMITH OF THE UTAH MOORMON CHURCH.

Snow, president of the church in after ed. This miracle is yet told among the years, whom Joseph F. Smith succeed- Mormon people here.

A GROUP OF WIVES OF JOSEPH F. SMITH, PRESIDENT OF THE UTAH MORMON CHURCH.

As president of the church Joseph F. Smith resides at the famous Bee Hive house in Salt Lake city, the White House of Mormondom. The house was at one time the official residence of Brigham Young, who also used the Lion House as a residence for his numerous wives. The present residence derives its peculiar title because of a gilded ornament in the shape of a bee hive on the topmost cupola of the house. The bee hive is found in the official seal of the State of Utah which is called the Bee Hive state. President Smith was accused of practising polygamy, and was fined. It is supposed that he has or had four or five wives. His first wife accompanies him to Honolulu.

When the Hawaiian band passed through Salt Lake City on its memorable tour a couple of years ago the members were entertained by the church and Joseph F. Smith showed his interest in the bandmen in many ways which were greatly appreciated by them. Queen Liliuokalani has been entertained at the Bee Hive house both by Lorenzo Snow and Joseph F. Smith.

LECTURER FROM HAWAII.

CLYDE, January 12.—Lottie L. Tillotson of Hawaii will give an eloquent entertainment and lecture in Masonic Hall on Thursday evening under the auspices of Vandenberg Chapter, Order of the Eastern Star.

Miss Tillotson has traveled and studied extensively in Japan, Hawaii, Alaska, Mexico and Central America. The Masonic orchestra will furnish music for the occasion.

The value of gold never depreciates, and the supply never equals the demand. We're going to help the supply. Buy "Mayflower" stock. Buy it now!

MAYFLOWER

A RIP-SNORTER

MAYFLOWER

in the aggregation of successful mines around us is the great "Champion," a photo of which can be seen in our Prospectus, and which has a production record to date considerably in excess of \$15,000,000.00. It is mining now from the 2400-foot level, and affords another demonstration that the formation in our district is exceptionally regular and particularly conducive to deep mining operations. The "Champion" owns an immense plant, having enlarged its milling capacity several times to handle its increasing ore tonnage. And if we have our case sized up just right, as we are sure we have, it will be necessary for us to expand the "Mayflower" Plant also, in due time, for exactly "Champion" reasons. In the meantime we are going after a record with our present 20-Stamp equipment which can handle 80 tons of ore a day and grind out minimum dividends, according to our figuring, of about 80 per cent per annum to the Stockholder who secures his holdings at 25 Cents a share.

This is an investment which you should glare into at once. You'll find it will look better to you the more you investigate it, and the better you get acquainted with it. You cannot get away from the absolutely proven and convincing facts about the "Mayflower." There is not a single question you can ask about the proposition which cannot be answered to your full and complete satisfaction. The property and its record are there to speak for themselves. The Mine has a production at its credit to date of nearly One Million Dollars; in equipment of all kinds it is second to none in the district; it owns more timber than it will ever need for uses of its own; it controls its own water-power, a very valuable asset; its 160 acres of ground are held under the U. S. Patent title; it has the raw material in the shape of eight quartz veins and an auriferous gravel channel, and facilities for the cheapest and most scientific method of mining the goods. If this is not a genuine gilt-edged proposition for even the most cautious and sagacious of investors, then we never heard of one. Grab hold of some stock, while the price remains at 25 Cents. But get a hump on yourself and be speedy, for it will cost you 35 Cents by the dawn of March 1st. Play ball today. BUY "MAYFLOWER" STOCK. BUY IT NOW!

Relief From Headache Is Yours If You Want It

You have only to get a box of Stearns' Headache Wafers at your chemist's
and take one of the little tasteless wafers.

This is the most popular headache cure in the world and has been sold for
almost twenty years; the only reason that so many people buy it over and over
is that it does what it should—cures headache promptly, safely, pleasantly.

No one needs to suffer from headache when

Stearns' Headache Wafers

are at hand. It is well to keep a box in the house all the time, for headaches al-
ways come without warning. This will drive them away as quickly as they came.
Stearns' Headache Wafers are so much better than others that it will pay to
insist on having STEARNS' and no other.

Army and Navy News

Charles P. McAvoy, class and room-
mate of Secretary of the Navy New-
berry while they attended college, ar-
rived on the transport Buford from Ma-
nila to be inspector in charge of the
dredging work at Pearl Harbor. The
arrival of Mr. McAvoy was rather un-
expected. He has called at the navy
station, and as soon as the Hawaiian
Dredging Company is ready to go
ahead with the work he will immedi-
ately begin his inspection on be-
half of the government.

Among the local inspectors who have
passed the required examinations and
received assignments for duty on the
dredging work are Bruce Cartwright,
Jr., Mr. Van Huizen, who has been an
assistant to Superintendent Rath of
the Palama Mission; Mr. Warren, who
has been an inspector on work con-
nected with the Hawaiian Dredging
Company's operations in the Honolulu
harbor, and Mr. Benton, who has been
acting as an inspector while the navy
was making borings at Pearl Harbor
preparatory to the issuance of the
specifications on which the Hawaiian
Dredging Company based its bid.

No Removal for Some Time.

The naval authorities are not likely
to transfer their headquarters to Pearl
Harbor within the next year, nor is it
likely that the Honolulu naval station
will be transferred to the Army. The
dredging of Pearl Harbor and the chan-
nel will not be under way for some
time, and until there is sufficient sea-
way and depth so that supply steamers
and sailing vessels can go into the har-
bor, little of the permanent building
will be done. Thus far specifications
for the buildings have not been issued
by the Navy Department. The sites
for the buildings have been selected,
and the clearing of the reservation will
be something of a job in itself. The
bids for the drydock will be opened
on February 13, but it may be some
time before the ground is scratched.
Not until the work on the drydock is
well under way will any effort be made
to commence the erection of the sta-
tion buildings.

As to the Honolulu naval station, the
pay office is likely to be continued
there even after the Pearl Harbor sta-
tion is occupied, and that may not be
for about three years. The coal supply
on hand at the local naval station is
large and may not be utilized entirely
for three years, even if new supplies
are not added.

As to the Army, it expects to have
the channel wharf turned over to it
through a deal to be effected by the
War Department with the Territorial
government. Already a portion of the
big naval reservation on the Waikiki
side of the channel has been allotted to
the use of the War Department for
storehouses and for a base for subma-
rine mine work. It is expected that
the quartermaster department will main-
tain its coal yards on this reservation
in close proximity to the channel wharf
so as to cut down long hauls to and
from the wharf. The deal for the
channel wharf was referred to in this
paper several months ago, about the
time Captain Humphrey, former quar-
termaster here, went to Washington.
The taking over of the channel wharf
for War Department purposes was a
pet hobby of Captain Humphrey. Here-
tofore the War Department had to use
the naval wharves for its transports.

Pearl Harbor's Future.

The establishment of the naval sta-

THE BRIGHT SIDE

of life. It is a feeling common
to the majority of us that we
do not get quite the amount of
happiness we are entitled to.
Among the countless things
which tend to make us more or
less miserable ill health takes
the first place. No doubt a
crippled liver with the result-
ing impure blood, is the cause of
more mental gloom than any
other single thing. And who
can reckon up the fearful aggre-
gate of pain, loss and fear ar-
ising from the many diseases
which are familiar to mankind;
like a vast cloud it hangs over
a multitude no one can number.
You can see these people every-
where. For their life can scarce-
ly be said to have any "bright
side" at all. Hence the eager-
ness with which they search for
relief and cure. Remedies like
WAMPOLE'S PREPARATION

have not attained their high po-
sition in the confidence of the
people by bald assertions and
boasting advertisements. They
are obliged to win it by doing
actually what is claimed for them.
That this remedy deserves its
reputation is conceded. It is
palatable as honey and contains
all the curative properties of
pure Cod Liver Oil, combined
with the Compound Syrup of
Hypophosphites and the Extracts
of Malt and Wild Cherry. No-
thing has such a record of suc-
cess in Scrofula, Influenza,
Throat and Lung Troubles, and
emaciating complaints and dis-
orders that tend to undermine
the foundations of strength and
vigour. Its use helps to show
life's brighter side. Professor
Reddy, of Canada, says: "I have
much pleasure in stating that I
have used it in cases of debility
and found it to be a very valu-
able remedy as well as pleasing
to take." You cannot be disap-
pointed in it. Sold by chemists.

tion at Pearl Harbor will be the basis
of the creation of a large community
about the harbor, and its is expected
that the harbor will be a favorite place
for sailing cruises, launches, motor-
boats, and that not only islanders but
visitors will have there a new attrac-
tion. That Pearl Harbor will be busy
in future is anticipated by service men,
who expect the constant presence of
warships of various classes.

N. G. H. Order.

The following General Order, No. 8,
has been issued by Colonel Ziegler of
the First Regiment, N. G. H.:

In pursuance of General Order, No.
1, A. G. O., dated January 25, 1909,
companies and detachments of the First
Infantry, National Guard of Hawaii,
stationed at Honolulu, will assemble
under arms at the drillshed on Fri-
day, February 12, 1909, at 7:30 a. m.,
to participate in the parade to be held
in commemoration of the one hun-
dredth anniversary of the birth of
President Lincoln.

Watertown Doings.

The dredger Pearl, bought by the
Hawaiian Dredging Company from the
Oahu Railroad Company, was put on
the marine railway Monday to be over-
hauled and extended thirty feet in
length. The dredges Governor and Re-
clamation are in readiness to be put to
work, but President W. F. Dillingham
of the dredging company states that he
has not yet fixed the date when the big
machines will be towed down to the
harbor. As before stated, this will de-
pend upon the state of the dredging
camp, Watertown. McCandless Bros.
are now drilling for water on the
Moanalua estate to provide fresh water
for the camp. This will be piped some
distance. The water question threat-
ened for a while to be a serious one,
and as it is, the freshest water must
come from a long distance. Five miles
of water pipe have been ordered. The
pump to force the water this long dis-
tance will be run by an electric motor.
Tanks will be located on Salt Lake hill.
The company is still at work on the
spur of railroad which will give the
camp almost direct communication
with town. Thirty men are at work
around the camp, clearing the ground.
Lucas Bros. are to build five houses
for the use of employees and heads of
the work. Two dormitories will house
the workmen. The restaurant outfit
is already on the ground, and the man
in charge is catering to the employees.
A laundry will be started soon.

The Political Paymaster.

A recent number of The Nation, in
quoting criticisms of President Roose-
velt from the Army and Navy Regis-
ter, says: "The Register is also ex-
cited over the assignment to the fine
new Army biller, that of paymaster at
Honolulu, of Major Beecher B. Ray,
the 'political paymaster,' who was
given leave of absence to work for
Mr. Taft's nomination and election
during the greater part of 1908. The
extent and usefulness of Major Ray's
'pull' are hardly surpassed in the
Army today—and this under the ad-
ministration of an ardent believer in
the merit system."

HAWAII PLEADS FOR FEDERAL SUPPORT

Editor The National Guard Magazine:
Your November editorial in re national
match is timely and, I believe, strikes
the keynote in holding that the solu-
tion of the question of expense inci-
dent to the national match now borne
by the various states and territories
is to be found in holding the competi-
tion under the provisions of section
15 of the militia law. There is no
good reason why section 15 should not
apply and many reasons why it should,
the first and foremost of which is to
have the organized militia attain in
all respects to the discipline and effi-
ciency of the regular force. No logical
reason can be advanced for sending regu-
lar troops to the national match, which
is in fact a great encampment, under
one set of rules, and the organized
militia under another set as is at pre-
sent the case in so far as discipline is
concerned, the regular troops attending
under the Army regulations and the
organized militia attending under their
own state regulations. Such a state of
affairs should at once cease for the
common good.

There is no reason why the discipline
of the regular service, which is always
greatly relaxed for rifle practice, should
not be in evidence in the national
match in 1909, which will be the case
should the competition be held under
the provisions of section 15 of the
militia law. To hold the national
match under the provisions of section
15 necessarily means the passing of a
specific appropriation for such purpose,
which would relieve the states and ter-
ritories of their burden. In so far as
Hawaii is concerned it is a question
whether we can afford to send a team
in 1909, the expense of our team
in 1908 being over \$7000, almost one-
half of our allotment and practically
prohibitive. Our water transportation
from Honolulu to San Francisco and re-
turn costs \$1800, being thus \$1800 more
than is borne by any other state or
territory for transportation, and unless
we are relieved in whole or in part of
the expense incident to sending a team
it is probable that Hawaii will be un-
represented at the national match in
1909.

J. W. JONES,
Adjutant General, Hawaii.

PHILIPPINES AND HAWAII

Interests Are in Common Says
Leading Man of
Manila.

Identical interests of the Philippines and Hawaii with respect to trade development are regarded by H. M. Pitt, one of the foremost commercial men of Manila, who is aboard the S. S. Tenyo Maru en route to Washington, as fundamental reason why Hawaii should withdraw its opposition to free trade for the Philippines as regards the sugar and tobacco products of the great archipelago.

Mr. Pitt goes to Washington as the representative of the Merchants' Association of Manila, the leading commercial organization of the Philippines, to lay before Congress the reasons why the Philippines believe they should be admitted to a parity with the remainder of the United States as to a market for its main productions. On arrival at San Francisco Mr. Pitt will begin his campaign by giving an address before the Chamber of Commerce, his address teeming with interesting figures and arguments as to why the Pacific Coast should fall in with the Philippines' request. Personally and by letter Mr. Pitt hopes to reach every Chamber of Commerce in the United States.

Just what Mr. Taft may say in his message to Congress on free trade is uncertain. During his candidacy for the presidency some of the states were opposed to him on the ground that free trade for the Philippines meant injury to their own productions in beet sugar, etc. Mr. Taft modified his views somewhat to meet this objection, but Mr. Pitt is of the opinion that if the commercial bodies of the United States now call upon their senators and representatives in Congress to give the Philippines an equal footing in a trade sense with Hawaii, Porto Rico and continental America, Mr. Taft will sign any favorable bill that comes before him for his signature.

Mr. Pitt states that the opening of the Philippines to free trade will mark an advance in commercial supremacy for American manufactures in the Orient, which will make the United States a bulwark of political and commercial strength in that part of the Pacific, and with the commercial movement toward the Far East Hawaii will share in the prosperity. He says that the United States are committed to the imperial policy and the Philippines are the base for strategic, political and business advancement. Near the Pacific coast, he says, the United States has Hawaii for a guard to the western coast of the United States and the Philippines will be the base for the Oriental trade which will necessarily pass through Hawaii. Both Hawaii and the Philippines must work shoulder to shoulder for a larger navy for the Pacific. Referring to the interests of Hawaii and the Philippines with regard to sugar, Mr. Pitt said:

"Sugar is a past event in Hawaii and Porto Rico, for you have both practically reached the limit of production, and therefore you have nothing in that line to hold out for capital. What the Philippines will do will be to fill up the gap of demand that you cannot supply. As to reciprocal trade relations, take, for instance, Cuba. We buy sugar, tobacco, etc., paying over about \$100,000,000, and sell Cuban goods valued at about \$50,000,000, leaving the balance of trade in favor of Cuba. We buy coffee and rubber, etc., to the extent of nearly \$100,000,000 from Brazil and sell her only about \$15,000,000 to \$18,000,000, leaving the balance of trade to Brazil. The balance of trade in favor of Java is about \$12,000,000. The balance of trade in favor of India is about \$50,000,000 and Japan, about \$28,000,000.

"The United States is buying these stuffs from these countries and does not get any compensating trade in return, when by a reciprocal arrangement Porto Rico, Hawaii and the Philippines could produce everything that the United States is buying from these foreign places.

"The interests of Hawaii and the Philippines are mutual. We have got to stand together. It is utterly foolish for Hawaii to fight against free trade for the Philippines, because, as I have said, Hawaii has reached the limit, practically, of her production of sugar. She can not gain anything by fighting the Philippines.

"The big point in the Philippines is to get capital started there. It is a long way off in the first place, and in the second place there is a feeling that the islands are not yet absolutely tied to the United States. If we can get an absolutely free trade bill through, it will give assurance to capital, that it will always have the same guarantee.

"Free trade means a tacit agreement on the part of the United States Government that the Philippines will always be held as United States territory, and while we know that the heads of the government intend that, still it has never been possible to give it public expression, because the attitude we assumed at the beginning of American rule in the Philippines gave the possibility of an inference that we would withdraw from the islands and turn them over to the Filipinos. "Instead of trying to antagonize our interests with the American people, as was done two years ago by the representatives of the Honolulu Chamber of Commerce, it is to the interest of Hawaii to help us, for the time is coming when we will have to demand protection for coffee, fibers, fruits and a variety of other things that can be produced in Hawaii, as well as in Porto Rico and the Philippines, and which today have a free entry into the markets of the United States, no matter from what country they come. "The point in this is that capital in

the United States can invest in industries in Cuba, Mexico, Central and South America where they have advantages that are not offered by United States territory, and yet every product will be admitted into the United States markets on the same basis as like products of the so-called insular possessions of the United States. And a better inducement is offered to capital by foreign countries than in the actual territory of the United States.

"I am delegated by the Manila Merchants' Association to go to the United States and place the facts before the trade and commercial bodies with the purpose of enlisting the cooperation of these organizations and to induce them to demand of their representatives and senators in Congress that a bill providing for absolute and unqualified free trade, between the Philippines and the United States, be passed at the first opportunity.

"The bill they are framing in Washington now is a compromise measure which provides for the free admission of products to the United States with the exception of sugar and tobacco, and upon these two products there will be a limitation as to the amount that may be admitted. As far as tobacco is concerned it is not of so great importance, as the tobacco production is not great and we have a good market for it now. The tobacco production of the Philippines can never be a menace to the United States. But as to sugar, there is a whole lot more importance attached, and it is of the most vital interest to the Philippines.

"Tobacco and sugar are the only articles produced in the Philippines for export upon which there is a duty. Anything else we produce is admitted free to the United States, so they do not afford any special inducement to capital.

"The United States only uses about 50,000 tons of the grade of sugar we produce today. It is a lower polarization than others. The Philippines has produced for export approximately 150,000 tons a year. Now, the United States only buys as much as it requires of this grade of sugar and that amount is only a percentage of the amount the Philippines have to sell.

"In order to produce such a grade of sugar as we can sell readily we must install modern mills and equipment which means for a plantation of reasonable size an investment of not less than \$1,000,000 gold. With a limitation of the amount of sugar that might be exported, duty free, to the United States from the Philippines, the possibility of reaching the amount set in this limitation is almost present, and capital will not invest in the industry with the prospect that it may have to market its sugar to the United States on the basis of the world's parity.

"As far as production of sugar is concerned, in 1895 Hawaii produced 121,000 tons; Porto Rico, 50,000; beet sugar (U.S.), 20,000. Today Hawaii is producing nearly 500,000 tons and Porto Rico 225,000; there is somewhere between 450,000 and 500,000 beet sugar tons, which represents an increase of several hundred thousand tons in the United States, and the United States has absorbed that entire increase and was obliged to import more sugar from foreign countries in 1908 than it did in 1895. Since 1880 the per capita consumption of sugar has doubled in the United States and the total consumption trebled.

"It is incorrect to say that Philippine sugar will interfere with Hawaii's production. We are in the same boat with a unity of interests. We must work together and show the American people that it will profit them to produce every dollar's worth of products they can in the Philippines, Hawaii and Porto Rico that they are today buying from Mexico, Central and South American countries and from which they get no compensation.

"The opening of free trade in the Philippines will mean that the manufacturer will have to carry large stocks there to supply Orient markets. China is developing very rapidly. The imports over there run into the several hundred millions, and in a few years will reach a billion. No European can carry large stocks over there. If free trade is given the Philippines the American manufacturers can undersell and will make the Philippines a base of supplies from which the Chinese trade can be supplied directly. That means American trade will dominate the Oriental markets."

Mr. Pitt proposes to lay before President Taft the proposition of having the American consuls in the Far East hold a conference at certain stated times at Manila, where American trade conditions may be studied and discussed and each representative thereby keep in better touch with the supply of American goods for Oriental markets. This is similar to the plan H. P. Wood, secretary of the Promotion Committee, advocated, which was to have a conference of all American consuls in Pacific ports at Honolulu.

Mr. Pitt has been engaged in promotional statistical work at Manila for several years, and has written many articles of value on free trade and sugar development in the Philippines. He is a Utah man, born in Salt Lake City, where for many years he was manager of one of the national financial agencies. At the opening of the war he served his country by enlisting in a regular regiment, passing through Honolulu in 1898. After leaving the service Mr. Pitt engaged in business in Manila and is now regarded as one of its foremost citizens. He is accompanied by his wife and children.

A POPULAR REMEDY IN SOUTH AFRICA.

Chamberlain's Cough Remedy has been in South Africa for a number of years, and the fact that it still retains its popularity as a cure of coughs, colds and croup is certain proof that it gives satisfaction. Morum Bros., general merchants at Tarkastad, Cape Colony, make the following statement: "Chamberlain's preparations have a steady demand all the year round and continue to be popular. We always keep a stock of these medicines on hand." For sale at all dealers. Benson, Smith & Co., Ltd., agents for Hawaii.

Stop Women And Consider

This Fact—that in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers twenty-five years.

The present Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, was for years under her direction, and has ever since her decease continued to advise women.

Many women suffer in silence and drift along from bad to worse, knowing well that they ought to have immediate assistance, but a natural modesty causes them to shrink from exposing themselves to the questions and probable examinations of even their family physician. Such questioning and examination is unnecessary. Without cost you can consult a woman whose knowledge from actual experience is great.

MRS. PINKHAM'S STANDING INVITATION:

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women. A woman can freely talk of her private illness to a woman; thus has been established this confidence between Mrs. Pinkham and the women of America which has never been broken. Never has she published a testimonial or used a letter without the written consent of the writer, and never has the company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest.

Out of the vast volume of experience which Mrs. Pinkham has to draw from, it is more than possible that she has gained the very knowledge needed in your case. She asks nothing in return except your good will, and her advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Mrs. Pinkham, care of Lydia E. Pinkham Medicine Co., Lynn, Mass.

CHAS. LAMBERT, ProprietorTHE GRANDMOTHER OF THE
MONSARRATS IS DEAD

The Monsarrats have just received news of the death of their paternal grandmother, Mrs. William Thorne, of Bristol, England. Mrs. Thorne died at Bristol on December 10 last. She was born in Dublin, Ireland, June 1, 1808, and was 100 years six months and nine days old at the time of her death.

She visited her son, the late M. C. Monsarrat, in Honolulu in 1869, arriving here on June 29 of that year in the steamship Idaho, having come across the continent by rail in seven days from Chicago to San Francisco. There are a number of old Kamaainas here who will remember her.

Mrs. Thorne was married twice, her first husband being Mr. John Lynam Monsarrat, late of London, Canada, and her second husband Mr. William Thorne, late of Sherborne, Dorsetshire, England.

She was a woman of wonderful personality and of deep religious belief, and retained all her faculties until her death. She was able to write all letters up to a year before her death, when by reason of failing sight she was obliged to dictate them, with the exception of the address and her signature, which she wrote herself.

In a letter to her eldest grandson,

MRS. WM. THORNE, OF BRISTOL, ENGLAND, TAKEN AT THE AGE OF SEVENTY-NINE YEARS.

written about two years before her death, she said that she had to give up reading all books, except the Bible, on account of failing sight, but naively added that she was finishing a life of Martin Luther.

ALLAN HERBERT'S REPORT TO
HAWAIIAN HUMANE SOCIETYHonolulu, T. H., January 20, 1909.
To the Directors of the Hawaiian Humane Society, Honolulu.

I have the honor to present my first report as a member of the Relief Committee.

Visited the government pound, found no animals there at present.

Visited territorial stables, found horses and mules in good condition and well fed.

Gave advice about the sanitary conditions of the stables.

Have visited all the public livery stables. Have given advice which was well received.

Visited six Japanese and three Chinese livery stables. Stalls for horses in bad order. Advice given and accepted.

Visited the dog pound. Nothing doing. Keeper said that there was no money for roping dogs.

Our Police Court.

Some remedy should be found to prevent a sentence of from three to four years of an infant of eight, ten, or twelve years of age, to a reformatory for young criminals.

No child should be sent to the reformatory with a criminal class, until he has reached the age of fifteen, unless the facts of each case be laid before the Governor or before some other special officer and he approves of the sentence.

In all cases the evidence on which the child was convicted or committed, should be reduced to writing, and a copy thereof transmitted to the Governor so as to become a record of his office, and this evidence should be taken by deposition, not by filling in a printed blank on which they are based.

Parents or guardians should be compelled to reform their children at home. It should be made a punishable offense on the part of the parent or guardian failing to make such an attempt.

A superintendent of a reform school in California told the writer some years ago, thus: "Twenty-four hours or less in jail breaks down whatever barrier may exist between the child and the criminal. However innocent he may be, once in jail, he is placed, in his own mind at least, in the criminal class."

Truant schools ought to be organized in counties as part of our educational system. The reformatory should be the last resort towards the reformation of children.

The Children's Court in Denver, Colo. The writer visited Denver in July last, and became very much interested in Judge Lindsey and his juvenile court.

Colorado characterizes child law-breakers as juvenile delinquents. Its law provides that juvenile offenders must be tried apart from adult criminals, and that whenever possible they must be released, under the care of a probation officer rather than sent to the reformatory. In nine cases out of ten, the first offender is released on probation.

Each boy brought into court is given a card setting forth a number of questions that bear upon his conduct. This card he is required to present at court every other Saturday morning.

Commitment is always the last resort. The result is that ninety-five per cent. (95%) of the boys are treated successfully without commitment.

Judge Lindsey says: "I had endeavored to act in each case as I would if my son were before me in my library at home charged with some misconduct."

Our Territorial Prison.

I desire to call your attention to the inhuman practice of marching our unfortunate prisoners through our public streets twice a day to and from their work. Some of the unfortunate prisoners may only serve out a few months' sentence. Is it not degrading and humiliating to the man, his mother, sister or wife, to witness this parade from the street corners? I know of no place in the civilized world where such a thing is permitted. This treatment of prisoners has haunted me for years, sleeping or waking, and have called public attention to it for the past thirty years. If you can do anything to

remedy it, it would certainly be a humane act as it is work for the Humane Society.

Probation has been practised in Boston nearly a quarter of a century. Over ninety per cent. (90%) do well and are discharged, and only six (6) or seven (7) per cent prove incorrigible. Roxbury inspector said in his report: Probation has saved many of both sexes from exposure, shame and loss of situation in cases where they had committed their first offence, and not only saved them for the time being, but for all times.

The indeterminate sentence that has produced such astonishing results in the Elmira, New York, reformatory is also worthy of attention. The length of residence of the convict is left to the discretion of the management. He is treated as a moral patient to be built up into an honest, self-supporting character.

Having visited our Territorial prison, I desire to commend the management as having been ably conducted.

A. HERBERT,
Relief Committee, Humane Society.
