ON TO KLONDIKE

"Billy" Eassie Leaves Today for the Gold Fields.

HOW HE PACKED UP THINGS

Some Surplus Baggage—A Popular Old-Timer—Will Return—Has a Plan of Campaign.

"Yes; I intend to leave you tomorrow," said Wm. Eassie, the Kauai Klondike pilgrim at the hotel yesterday afternoon. Mr. Eassie was deep in packing pictures and various belongings and in arranging a score of bouquets and leis that had been sent

WM. EASSIE.
(Photo by Williams).

to his cottage. The visitor was offered a selection from a dozen boxes of cigars and about a score of packages of candy. Eassie has friends.

"When I commenced to get ready to get ready," said "Bill," "I thought that I would begin at the beginning, but now I see it's best to commence in the middle and work about four different ways."

Then he started in to pick things from a big pile in the center of the room and toss them into four trunks like a railway mail clerk fires letters into bags. "I'm going to leave a lot of this plunder in San Francisco," he said. "Maybe I'll leave some of it here in Honolulu. Now, there's no sense in taking any of these umbrellas or slippers to the Klondike. Of course, this linen duster is all right, because the person who presented it to me had the excellent forethought to paint a picture of Kilauea in eruption on the back of it. Some of these native hats I might use to strain the gold out of the sand, but this old hula skirt and these calabashes will only be extra dunnage. That picture of a Iuau I'll carry next to my heart, but this dinky chair cover, while it's mighty neat and has 'love the giver' lettered in, will never be any use up there. I've been in Alaska before and the mosquitos are not as big as they say. I wouldn't take three nuggets for that handkerchief case. It's a beauty, but it goes into storage."

And so "Bill" went on with the packing and his comments. "Am I coming back? Say, Old Man, I'd rather be lamp post in Hawaii than Governor of Klondike with a train of lackeys and Legislature that didn't ask questions. I plan to get back two years and I'll make it one if I can. I'm taking along 500 pounds of taroena and I might start and walk back when that runs out. But this is not excursion, Old Man. I'm making a business trip with other people's money and my own and I want so badly to succeed that it hurts me already. And I said, I've been in Alaska, and I know now where I'm going and what I propose to do. I'll go in there with sufficient capital, with a good outfit and with proper tools and machinery. I'll take my time preparing, will make a trip to the East and when I leave San Francisco for the gold fields will not be carrying any impediments. Of course I think a good deal of Eassie, but it will be the greatest day of my life when I can report to the people here who have shown confidence in me in every way that something worth while has been accomplished."

And the best of it all is that "Bill" means every word he says and that the people here who have known him for 20 years believe in him implicitly.

Than the expedition headed by Mr. Eassie there will not be one in all Alaska followed by more sincere good wishes. Mr. Eassie has hundreds of warm personal and business friends throughout the group. For eleven years he has been chief engineer at Colonel Spaulding's Koolau plantation on Kauai, where Geo. Fairchild is manager. Before that he was on other estates in the same capacity. He was identified with the installation of the electric light plants here at the palace of King Kalakaua and in Nuuanu valley. Mr. Eassie is an American and has always been known as one of the "get there" kind. His energy, backed by his experience and his recognized business ability should insure a real crown of success for this venture. Mr. Eassie leaves by the steamer today. Aug. Conrad, one of the best boys the Islands have produced, goes with him. Dr. Lindley also goes in the direction of the gold fields and carries with him Aloha Nui.

Rugby Outlook.

"The Rugby movement here now," said A. St. M. Mackintosh yesterday, "is just like it was in Portland when a few of us interested in the game proposed it for that town. At first there were smiles, then inquiry and interest and finally genuine enthusiasm. In addition to advertising the meeting to be held at the Arlington this evening, about every football player of the town has received a personal invitation. Success seems now about certain. The people will like the game. I am positive that the spectators will enjoy Rugby better than Association. Perhaps the main difference is that only the man with the ball can be tackled and that interference is unknown. Some of the prettiest work is in passing. The finished players have it down to a science. It now seems very likely that we can have our big charity final before summer."

An Important Mission.

Rev. John M. Lewis, formerly pastor of Palama chapel, but now settled on Maui, with headquarters at Wailuku, is in the capital for a few days. He has met all his old friends and has been cordially welcomed. Mr. Lewis, since leaving Honolulu a month ago has been all over the Island of Maui and has quite familiarized himself with his field. He likes the work and is already able to report progress. In the city just now Mr. Lewis is looking after several matters. The most important of these is arrangement for the reception, upon the arrival of a Coast steamer Thursday, of the lady who is to become Mrs. Lewis.

To Enter Business.

W. Savidge, who for a long time has been bookkeeper for the Hawaiian Gazette Company, has resigned and will leave the company at the end of this month. Mr. Savidge is a Honolulu man who is an expert accountant and who has good business ability. He has many friends here and all will wish him success in a business venture that he proposes to undertake at once.

Blue Ribbon Meet.

There is talk now of one more and the final evening of bicycle racing at Cyclomere park. The suggestion comes from Mr. C. S. Desky and has received the warm endorsement of a number of wheelmen and others interested in the sport. The idea is to have a blue ribbon meet as a testimonial to Manager C. L. Clement. Mr. Clement has done more for bicycle racing here than any other man who has been connected with the sport and has found that his enterprise did not result in the annexation of a young Klondike.

Water Pipes Break.

There were two breaks in water mains on Sunday. The first was in Palama. The repair force had finished up with that one but a few minutes, when there was a call again for services. This time the location was on Emma street, where a fine flood was running down. The natives called to the job worked hard and had the break fixed in a remarkably short time.

A Full Line

Of all descriptions of carriages came to Honolulu by the Zealandia. Everything about them is "fine," even to prices, and anyone who desires a real good rig at a fair price will do well to call and look them over at Nos. 520 and 522 Fort street (G. Schuman's).

MORE DISCUSSION

Attorney-General Smith Answers Criticisms of Health Board.

SOME WARM REMARKS IN SENATE

Message From the President On Joint Resolutions—Questions Asked in the House.

SENATE.

Twenty-first Day, March 14.

After the usual opening exercises the following message was received from the President which, on motion of Senator Brown was referred to the Judiciary Committee.

To the Senate of the Republic of Hawaii:

My attention having been called to a resolution adopted by the House of Representatives on the 7th instant, relative to a practice followed by officers of the Department of the Attorney-General, I deem it of sufficient importance to justify me in addressing a communication to the Legislature upon the subject.

The purpose of this message is not to discuss the merits of the alleged methods in use in the Department of the Attorney-General, but to submit to the consideration of the Legislature the question of practice raised by a resolution of this nature when passed by only one branch of the Legislature. Aside from the enactment of statutes, the Legislature has the power by joint resolution of taking action in certain cases. But a resolution seeking to direct or control the action or course of the Executive branch of the Government, when taken by one House without reference to the will of, or expression of opinion by the other, presents serious considerations, involving the possibility of placing the Executive in the dilemma of receiving rival and conflicting resolutions from the two branches of the Legislature, aimed at influencing or controlling its action.

It will be apparent to you in this connection that when matters of Executive administration are under discussion in the Legislature or in either branch thereof, the opinion of the Legislature upon the subject matter becomes of great importance to the Executive. **SANFORD B. DOLIE.**
Executive Chamber, March 11, 1898.

A communication was received from the President announcing that his signature had been attached to an act relating to Circuit Courts, an act relating to appeals from Circuit Courts and an act relating to interest on money.

A communication was received from the House of Representatives announcing the passage of and transmitting substitute bills 4, 7, 19 and 21.

A petition was received for an appropriation of \$100 to pay for the transportation of the body of the late Judge Austin from Paauhau to Hilo. The late Judge was at the time of his sudden death on official duty. The Attorney-General asked that the petition be laid on the table for further consideration. He explained that the appropriation would not be establishing a dangerous precedent as it was clearly an extraordinary case.

Senator Lyman reported from the Committee on Public Lands on items in bills 4 and 5 in that Department recommending their passage. The reports were received and placed on file. Further time was given the Judiciary Committee for consideration of the bill for the registry of vessels.

The House bill relating to coroner's jury was reported printed.

The Committee on Public Instruction reported from Senator Lyman recommending the appropriation of \$80,000 for school houses, increasing the item in the bill by \$5,000 because of the need of houses throughout the Islands other than those provided for in the bill.

The Attorney-General, speaking to a question of privilege said: In regard to the discussion that was held last Friday relating to the accounts of the Board of Health, I would like to explain that I was engaged in the lower House, so was not aware of the discussion held here, and had no opportunity to make any explanation in regard to the matter.

I am satisfied that there was a good deal of misapprehension on the part of the members of the Senate in regard to the matter, and in view of the publicity given to the report in the papers, rendering such manifest injustice to the Board of Health and the members of the Board of Health, it is my desire to call attention to the various matters mentioned in the remarks published.

Expressions were used to the effect, that the Board of Health "did not know where it stood." That "the books needed a very thorough overhauling" and "the adoption of a better system." That it was time that "the Auditor-General or a Legislative Committee straightened things up," and that "the

accounts were being kept in a slipshod manner."

These expressions, I am sure, were under a misapprehension, because the fact is that the books are being kept in the Board of Health in a very thorough and complete system; as a matter of fact the same system is used as that in the Attorney-General's Department, which was commended so highly by the other committee. Every detail is accounted for; there are between five and six thousand vouchers, and a matter of twenty-thousand items during the period, and every voucher is checked and everything accounted for with accuracy. I have had experts go over the accounts and they found everything in order. The difficulty arose in the matter of presenting unpaid bills after the accounts were made up. As far as things that were ordered from the office of the Board of Health are concerned, the requisitions are kept on file, the vouchers are all checked and every detail accounted for in a very thorough manner; but bills are incurred in the outside districts, by the Hospitals at Wailuku, Maui, the Insane Asylum and other places which do not go through the Board of Health and are for their own immediate supplies, of which the Board of Health cannot have any knowledge until the bills come in. As early as October notices were sent out from both the Department of the Attorney-General and the Board of Health, to have every account sent in by December 31st, and the books were kept open until January 15th. Every effort was made to get the accounts in; but in spite of all our efforts the accounts were not all sent in. Then the accounts were kept open until the Appropriation Bill for Unpaid bills was made up to that time, but even after that, after the books were kept open until the last moment, additional accounts kept coming in, which were added on another list, and made the amounts differ from the statement originally made. The attention of the Chairman of the Committee was called to this, and I thought I had explained it to him. As I am informed, up to the present time not a member of this committee of the Senate has examined the books of the Department. The matter of these unpaid bills, coming in, of which we had no knowledge and of which we could have had no knowledge, led to this misapprehension. I do not think there was an intention on the part of a single member of the Senate to do an injustice; but from the statements published a false and erroneous impression has been created, which caused indignation on the part of the members of the Board, which I could not help but share. I do not think, however, that there was any intention to do an injustice, and an examination of the accounts of that Department will prove that they are in order. There are vouchers for every item. A detail book is kept showing everything, from a pal-ai account for Malulani Hospital to a bag of potatoes for the Leper Settlement. Every voucher is checked and balanced and the accounts are correct.

In regard to the statement that no report had been made of the trip of Dr. Wood and myself to Japan and China and also of the trip of Dr. Day later, I would call your attention to the Report of the Board of Health, in which a report was made in detail of these precise matters, taking up every point. It is not need to add anything to these reports, which are made in full, covering every detail.

In regard to the statement that the enforcement of the quarantine laws is unsatisfactory, I have this to say: That it is not altogether satisfactory, as it is in some particulars beyond the control of the Board of Health. The United States Department has a Sanitary Inspector at Hong Kong. The Hawaiian Government has one at Yokohama, Kobe, Nagasaki, Hong Kong and Amoy. The people coming here from China have their effects disinfected by the Hawaiian Sanitary Inspectors, but there are always on board the same ship people from China, going through to San Francisco, steamer passengers, who are not required to have their clothing and effects disinfected, and for that reason the protection is only partial. A year ago I had a talk with Surgeon General Wyman of the United States Marine Hospital Service which resulted in his sending Dr. Brooks to investigate this matter and we sent Dr. Day from here to confer with the United States Marine Hospital Service.

MORE DISCUSSION

(Continued from First Page.)

ed States medical officers and our medical officers, in order to make the arrangement more perfect.

Objections have been raised on the part of the British authorities at Hong Kong to our regulations being enforced, and further objections have been raised on the part of the Japanese Government. Difficulties have also arisen with the steamship companies in reference to the regulations. The steamer Kinai Maru, when she sailed from Kobe had been thoroughly disinfected, the effects of the passengers had been disinfected and the passengers subjected to a quarantine lasting for more than a week before leaving, and still the small-pox broke out, after reaching here, after more than twenty days from the time the quarantine had expired.

To investigate all these matters, Dr. Day was sent to meet Dr. Brooks. He made a very thorough report which is published in the report of the Board of Health.

In regard to the value of those quarantine regulations; the results produced by those trips; the appointment of Sanitary Inspectors and inaugurating the system now in vogue; all I can say is that the cholera, black plague and small-pox has been epidemic in all those ports during this time but through the enforcement of those regulations we have been able to carry on trade and commerce with those ports and keep up communication with them without interruption. We had the lesson of our own cholera epidemic in 1895; and the black plague was prevailing in China when Dr. Wood and I went on. We saw plague patients in Hong Kong in every stage of the disease. Dr. Wood consulted with the medical officers there who were treating the disease and was enabled to get full information on this subject, which will prove invaluable. In the matter of small-pox, investigations were made as to the vaccine virus they used. Great uncertainty was found to prevail as to the efficacy of vaccination. Many people from Japan had been vaccinated and still small-pox would appear among them.

Since these regulations went into effect both cholera, small-pox and plague have prevailed in the Eastern ports. By the report received last week from Hong Kong plague is more widespread in India than it has been for some years. It is present in Hong Kong, China and Formosa. Small-pox is endemic in all these ports. Cholera has ceased at the present time. It is at its height in summer. The facts are that however defective the regulations have been, owing to their enforcement we have gone on here as usual, in spite of the fact that those three serious epidemic diseases were existing in those ports, our commerce has been uninterrupted. Small-pox was introduced by the Kinai Maru with one thousand people in the quarantine station but it was kept right there; stopped through the efforts of the Board of Health. The enforcement of those regulations has been of immense value to this country.

Whatever may be said about the cholera epidemic, the matter has been so fully investigated that the strictures made were uncalled for, and were extremely annoying to those who were connected with it. This is a personal matter, but the remarks were so thoroughly unjust that they ought not to pass without comment.

Another comment was made in regard to the secret sessions of the Board of Health. I wish to say on this point that the Board of Health adopted the plan of holding open meetings some years ago, excepting on occasions like this: when charges have been made against the professional conduct of physicians in the employ of the Board, or employees of the Board, (personal matters), where it would serve no public purpose to publish the details. With those exceptions the meetings of the Board have always been open; and the records of proceedings made public.

I do not wish to make any lengthy remarks, but simply to say in regard to the members of the Board of Health, consisting of three physicians and three laymen and myself, as Attorney-General ex-officio, that they have had a great deal of work to do and great responsibilities. It has been most disagreeable work. The trips to Molokai involve a great deal of discomfort and hardship.

In regard to the two junketing trips which we have been charged with, I would say that when Dr. Brooks of the U. S. Marine Hospital Service came here on his return from Japan, with instructions to investigate the sanitary conditions of this country, he was given every facility. He wished to go to the Leper Settlement, and a visit was arranged for. A small steamer was chartered for the purpose. It seemed to us, in view of the charges that had been made in the United States, about the extent of leprosy in this country, and in connection with the subject of annexation, and so many attempts have been made to misrepresent the facts, that it was deemed important for that officer to have an opportunity to make a thorough investigation. His report to the authorities at Washington was such as to be of very great value to this country.

Dr. Ashburton Thompson, Health Officer of New South Wales also visited the country to investigate the subject of leprosy in this country. Leprosy had appeared in that colony to such an extent that he had been sent to investigate leprosy. As a scientific man he gave it a thorough investigation. He was taken to Molokai, and his views do not agree in some respects with the medical men in this country. Great difference of opinion prevails on this subject, as to the degree of contagion of leprosy, what degree of segregation should be carried out, etc. A commission appointed to investigate the subject in India reported against both of those propositions. That report created great interest throughout the world. We took Dr. Thompson to Molokai in the interests of science.

In regard to Dr. Alvarez going to Berlin to the Leprosy Congress. It was considered of the greatest importance to have a delegate there from this

country. It was a gathering of the scientific men who had to deal with leprosy, from all over the world, and the results of that meeting have been most important. A permanent organization was perfected to discuss the subject of leprosy and the reason for its appearance in so many parts of the world. In view of all the money that has been spent in this country and all the study that has been given to the subject in all parts of the world; there being so much doubt and disagreement as to its proper treatment; no positive cure having yet been discovered; we deemed it important to have him go.

In regard to the amount of work done by the Board, it has to deal with quarantine matters; leprosy, with its ramifications, with the serious relations it has to the homes and people of this country, especially the Hawaiians. That alone involves a tremendous responsibility. Those 1,100 people at the Leper Settlement and their friends, are a world by themselves; shut off from the rest of mankind; dependent for everything furnished them from a pin to a house with all their social and religious difficulties, and business matters. All this involves a great deal of work in the Board of Health. I look upon the work of the last five years with a great deal of satisfaction. From time to time improvements have been made in the system; and the indisposition to go there, on the part of the people, has been to a great extent reduced. Leprosy seems to be under greater control. Although there are still 1,100 people there, the doctors report leprosy disappearing all over the Islands. This is explained by the fact that the mortality rate is not as great now. In former times most of those brought in were in the advanced stage, and their life after reaching Molokai was short. Most of those brought in now have it in their earlier stages and do not die so soon; and the number remains about the same, although it is decreasing throughout the Islands.

There is the Baldwin Home for boys; the Bishop Home for girls; the Kapoli Home for non-leprosy children at Kalihi; the Hospitals; the Insane Asylum; the matters under the Act to Mitigate; the Inspection of Slaughter Houses; the Market; the matter of the removal of Garbage and Sewerage; of Tuberculosis in Cattle; the Port Physician; the City Dispensary; besides the ordinary matters which come up for settlement. All these matters involve an amount of work upon those disinherited, public spirited men which very few understand. Their work has not been altogether what they wished, and they have not accomplished as much as they desired; but they have accomplished an amount of work which speaks for itself.

I would ask you specifically to examine the accounts that have been kept, to verify what I have said. It seems to me in view of these facts that the strictures that have been made were so unjust and so unfair, and unintentionally so untrue, that they should be answered. I first thought of calling a special meeting of the Board of Health; but believing the charges were made through misapprehension, I thought it better to make this statement.

Senator Waterhouse said on behalf of the committee of Finance that they considered the Board was made up of men well qualified to fill their positions. The committee had made no charges against them, but they did criticize the book keeping of the Department.

He wished to say that it was made to appear that the committee had made false statements. He quoted from the investigation of the committee that they had found one account wrong by one cent, showing that the bookkeeping was not in a business manner; another account was footed up incorrectly. There were three bills not in regular form and the committee considered they were justified in making such a report. The committee's report had certainly been received by the Senate. Senator Baldwin said that the remarks of Friday had placed the Board in a false light. It seemed from the remarks made this morning that it was not the books of the Department that were in a bad condition, as he had understood that they were, but the items of the Secretary's report to the Finance Committee. He did not wish to be unjust to the Board and if the books of the Department had not been examined by the committee, the committee should be empowered to do so in order that there might be no unjust criticism. The Senator was informed that the committee had been empowered to make such examination.

Senator Brown explained his remarks of last week at which time he had said that bills of last year were remaining unpaid while bills of January were being paid and that he could not understand this method. He had been reminded, after leaving the Senate Chamber that outstanding bills of November and December were of last period and that of course they could not be paid without special authority.

Senator McCandless said that on Friday he made his statements backed up by documentary evidence. "This morning," he said, "there appeared in the morning newspaper a scurrilous article blackguarding me and attempting to intimidate me from making criticisms of the members of the Government."

"One Senator told me this morning that he would hesitate before making any criticism of a member of the Government as he did not want to lay himself open to be attacked with such scurrilous articles. My criticisms were honestly given but were evidently resented by the Board of Health. Other Senators have told me that the morning paper has not published the proceedings of this body fairly. The two afternoon papers were the only ones that did so. That is the manner in which this paper is held. I will state that I propose to do my duty as I have in the past to the best of my knowledge and ability and hold myself answerable to my constituents."

"I am a member from the Island of Oahu, but I consider it my duty to represent the people of the Republic of Hawaii, the blackguards of the morning newspaper to the contrary."

Senator McCandless said that the Board of Health evidently had an organ which proposed to intimidate the Senate from making criticisms.

The Senator also said that this paper had reported in the proceedings of Friday that other Senators had held views directly opposite to his, which stated

ment was a falsehood. "I believe in the Board of Health and in their capacity individually, but I believe that honest and healthy criticism is good for that body. If we do not criticize them they will begin to think that they are immaculate."

Senator Schmidt, who was a member of the Finance Committee making the report on the Health Department items, supported Senator Waterhouse in his assertions that the books of the Department were not kept in a business-like fashion.

Items in the Public Lands Department on salary of Clerk and pay of sub-agents and rangers were passed in the salary appropriation bill.

These items finished the bill and the authorizing clauses and the clauses making provisions for the payment of the salaries were then passed, the bill passed the third reading and went to the Enrollment Committee.

Senator Schmidt, under suspension of the rules, introduced a bill amending the act relating to the returning of taxes. Senator Brown moved the passage of the bill on first reading and said that the Act of 1896 was not construed by the Tax Assessors of Honolulu in the manner in which it was intended by the Senate, that is the mercantile houses should not return the items pertaining to Schedule E. The bill passed the first reading and went to the Printing Committee.

Substitute House Bill 7 relating to acts authorizing the conviction of accused persons was referred to the Judiciary Committee. Substitute House Bill 4 amending an Act relating to the service of summons passed first reading. Substitute House bills 19 and 21 to allow assignees to maintain actions in their own names in certain cases passed the first reading.

Senator Schmidt asked certain questions from the Minister of the Interior relating to indemnities allowed to property holders of Honolulu dealing part of their property to the Government for the purpose of widening streets.

Senator Wilcox moved that a committee of five be appointed to join with the House committee to visit the Molokai settlement. The motion was carried. Senators Holstein, Baldwin, Hocking, Wright, Northrup have expressed a wish to be on the committee and will be appointed.

At 11:30, the Senate adjourned.

HOUSE.

At the opening of the House yesterday morning, Minister Damon presented his answers to questions propounded by Reps. Kaao and Robertson as follows:

To Kaao—"During the period of 1884 and 1886, the sum of \$1,000,000 in Hawaiian coin was introduced into the country."

"Of this, \$500,000 was coined into dollars, \$350,000 in halves, \$125,000 in quarters and \$25,000 in dimes."

"At the present time the dimes, amounting to \$25,000 have practically disappeared from circulation and, as near as I can judge probably \$75,000 of the other coins have disappeared leaving \$90,000 in circulation and special deposit."

"In reply to questions 2 and 3, I have to say that at present the Treaty of Annexation is under consideration at Washington, and it is the usual practice when a Treaty is under consideration with Foreign Powers, to limit discussion as to what the probable action would be in event of ratification taking place."

"Should annexation take place Congress, and Congress only, would have authority to regulate the state of Hawaiian currency."

Robertson—"Tabulated statement of capital stock, paid-up capital, assets and taxes paid by corporations for the year 1897. The summary taken from the statement is as follows: 37 sugar corporations with capital stock of \$28,692,000, paid-up capital of \$20,354,755, assets of \$21,602,754.69 and total taxes of \$185,517.72 paid for the year 1897; 57 business corporations with capital stock of \$9,452,755, paid-up capital of \$9,087,765, assets of \$14,886,708.45 and taxes of \$35,906.88 paid during the year 1897. The grand total is as follows: Number of corporations, 94; capital stock, \$38,144,775; paid-up capital, \$30,422,520; assets, \$36,489,463.14; taxes paid in 1897, \$221,424.60."

Minister Cooper announced that the President had signed the bills relating to the reorganization of the Judiciary, terms of Circuit Courts, Appeals to Circuit Courts and interest on money.

In answer to questions propounded by Rep. Gear, Minister Cooper presented the following communication of the President of the Board of Health:

"The question is: 'In the estimated expense of the Board of Health, has provision been made for a food inspector?' If so, has a law or regulation been considered to make his work effective?"

"In reply, I would state that the Board of Health has had under consideration the matter of inspection of food but has not made a request for a specific appropriation for the inspector. It was deemed by the Board that, for the coming period, occasional inspections and for specific purposes would probably be sufficient."

"No additional law or regulation has been proposed by the Board of Health. It was considered that the existing law in regard to the control over causes of disease or sickness, would be sufficient for the present purposes."

"If, however, it is considered best to have a thorough and systematic inspection of all food supplies, it would be necessary to have a regular paid inspector and more ample provision in regard to his duties."

A message from the President dealing with a resolution recently adopted by the House and directing the actions of the Attorney-General in the matter of warrants of arrest, was read by Minister Cooper. The wisdom of passing such a resolution with the concurrence of the Senate, was questioned. Rep. Robertson stated that there was a great deal of force in the remarks of the President. The rules of the House were undoubtedly defective along the line of joint resolutions. He therefore recommended that the message be referred to the Committee on Rules and that the Senate be informed of the wish of that committee to confer with the Committee on Rules of the Senate. This motion carried.

The following petitions were presented:

1. Kaal—For \$28,000 for building of roads in the District of Hana, Maui.
2. Kaal—For \$1,000 for a bridge over the stream at Kipahulu.
3. Kahaulelio—For \$10,000 for fixing and widening the road from Pukoo to Halaia, Island of Molokai.

The following resolutions were introduced:

1. McCandless—Resolved that an item of \$1,000 be inserted in the appropriation bill for a bridge over Kipapa gulch, Ewa, and changing the grade out of the gulch.

2. McCandless—Resolved that an item of \$5,000 be inserted in the appropriation bill for fixing Campbell Avenue.

3. Wilder—Resolved that an item of \$5,000 be inserted in the appropriation bill for the extension of the Kaihi road to Punui.

All the above petitions and resolutions were referred to the Committee on Internal Improvements.

Rep. Pogue was granted an extension of time for the special committee to which has been referred the bills on electric railroads.

Rep. McCandless propounded the following question to the Minister of Finance:

"Please state how much money has been received from taxes on coffee lands for the years 1896 and 1897." Minister Damon asked for two weeks' time to answer this question as it was necessary for him to get data from Hawaii. Granted.

The following notices of bills to be introduced, were given:

1. Kahaulelio—"An Act to amend Section 4, Chapter 9 of the Penal Code, relating to assault and battery."

The Attorney-General answered the questions propounded by Rep. Achi and relating to the police officers of the Islands and their pay. The answers were prepared by Marshal Brown. Following is a summary:

Total number of regular police officers, Island of Oahu, 98; commissioned as officers, such as clerk, 4; total, 102; total pay per month of whole police force, \$6,527. Total number of regular police officers, Island of Hawaii, 53; total pay per month of whole police force, \$2,727. Total number of regular police officers, Island of Maui, 42; total pay, per month of whole police force, \$1,878.50. Total number of regular police officers, Island of Kauai, 22; total pay per month of whole police force, \$1,176. Total officers on Islands, 249 and made up of the following: Marshal, Deputy Marshal, 3 Sheriffs, 3 Sheriffs' clerks, 4 clerks in police headquarters, 22 Deputy Sheriffs, 20 Police Captains, 8 Police Lieutenants and 187 Police Officers. The above does not include jailors, turnkeys and prison huns. Report referred to Printing Committee.

Rep. Achi's bill relating to Article 97 of the Constitution (Apportionment) was indefinitely postponed.

The Attorney-General gave notice of his intention to introduce an amendment to Article 63 of the Constitution relating to Titles of Laws, which did not become law last year on account of insufficient advertising.

At 12 m., House took a recess until 1:30.

AFTERNOON SESSION.

House Bill 37 relating to libel and slander brought up in second reading by title and referred to the Judiciary Committee.

House Bill 39 relating to tax appeal court, brought up in second reading by title and referred to the Finance Committee.

House Bill 41 relating to license for steam laundry brought up in second reading by title and referred to the Committee on Commerce.

House Bill 42, relating to duty on spirituous liquors, etc., brought up in second reading by title and referred to the Finance Committee.

House Bill 43, relating to internal police, brought up in second reading by title and referred to the Judiciary Committee.

House Bill 44, relating to fisheries, brought up in second reading by title and referred to the Public Lands Committee.

First reading of Senate Bill No. 8, relating to extension of streets in Honolulu, read through and passed.

Second reading of House Bill 34, relating to Court stenographers with report of the committee recommending its passage. Report of committee adopted.

House Bill 30, relating to regulation of practice of pharmacy; taken up in second reading with the committee report. The bill was referred to the Judiciary Committee.

House adjourned at 3:15 p. m.

SONS OF ST. GEORGE.

Social and Reception for a Traveler Guest.

The Sons of St. George gave a smoker and entertainment to Oscar S. Swinnock of Los Angeles, Cal., in their hall, Fort street, last evening. Mr. Swinnock is on his way to the Colonies and the members of the Sons of St. George according to their usual custom, gave him a most hearty reception. He was so much impressed with the kindness and hospitality shown him, that he could not restrain the words of thanks that came to him and made a short speech that the members most heartily appreciated. The festivities of the evening started with a supper, after which came a musical program. The brotherly cup was passed around and good fellowship reigned on all sides.

Rushing Work.

Contractor Fred Harrison is improving splendidly an opportunity given him by Colonel Macfarlane to prove once again that in the line of making buildings he is a "hustler" premier. Mr. Harrison will in a short time now finish the two-story brick kitchen for the hotel. The new two-story cottage, on which a hard and fast time limit was placed by Colonel Macfarlane, is, under the direction of Mr. Harrison, rising up as if by magic. Seldom in Honolulu has there been a chance to see such work. The lumber was rushed to the site and in a couple of days after the frame was up. Now the forces are putting finishing touches on both the exterior and interior and even the plumbers have appeared and are moving fast. Mr. Harrison will certainly have the work completed within contract time.

Wet and Arrested.

Antone Rosa and J. F. Colburn were arrested yesterday afternoon by Fish Inspector Kellipio for driving their carriage into the fishmarket proper. It was during the heavy rain that the two men named arrived at the market. Theirs was a carriage without a top and to keep from getting wet they drove into the market from the side opposite the Electric Light station. They were immediately put under arrest and taken to the police station. There the Fish Inspector claimed that he had been given notice by the Minister of the Interior to allow no carriages to go in to the place. The men arrested claimed there was no law prohibiting their going into the market with a carriage and in this they are right. Mr. Kellipio will make his complaint to the Minister of the Interior ad interim. Messrs. Rosa and Colburn were allowed to go.

Able's Trick Pencil.

"Lem" Ables was showing to Ed. R. Stackable and few other friends yesterday a new pencil that he picked up down in the Colonies. It is a heavy, bulky, odd looking affair, but is a wonder in its way, as Mr. Ables readily demonstrates. With this pencil, by manipulation of a rubber, Mr. Ables is able to write any color. Being a good fellow he parts with the secret without money and without price, and considers it a good advertisement for his business. Mr. Ables has about made up his mind that he will not return to the Colonies at all.

Sailor Injured.

At about 4:30 p. m. yesterday, one of sailors of the ship Iroquois, now at Sorenson's wharf, fell down the hold and was badly cut about the face and it is believed, injured internally. The ship is empty so that the distance from which he fell was great. It is a fortunate thing he was not killed. The patrol wagon was sent to the ship and the injured man removed to the hospital.

Exclusive Use.

At the newly opened Criterion Barber Shop numbered shaving cups will be found which can be rented for a nominal sum, and thus insures the patron of having exclusive use of the cup.

Interpreter.

Judge C. F. Peterson did not arrive by the W. G. Hall as was confidently expected. He was at Waimea and could not get to the nearest port of departure of the steamer before her time of sailing. He is expected back on one of the small steamers that will arrive during the week.

This state of affairs makes it necessary for Judge Wilcox to remain in the Police Court and J. E. Bush as translator in the House of Representatives.

The Favorite

IS THE FAVORITE place for the finest liquors only, and the best distillers of the United States, Canada and Great Britain are represented. Best brews of Beer, either on draft or in bottles, may be had at all times. W. M. Cunningham, Proprietor of this well-known resort, has been in the business for many years, and is a connoisseur in liquors. His establishment is always orderly, and, with the services of his assistant, Mr. Thompson, customers are promptly supplied. Bethel and Hotel streets is a favorite corner for the lovers of cold Beer or fine Wines and Liquors.

W. N. ARMSTRONG - EDITOR

TUESDAY, MARCH 15.

THE PARTY AND THE GOVERNMENT.

The rumor that the dominant party intends to force a change in the Cabinet is not correct, if our information is accurate. The attitude of several members of that party in the Legislature naturally breeds such a rumor, as there is a marked display of a hostile spirit towards the Attorney General at least. We do not believe that there is yet any settled plan of attack on the Cabinet.

Appearances are misleading. The American element of the community expects that proceedings in the Legislature here will be conducted as they are in the 45 Legislative bodies of the American States, and in the American Congress.

The universal rule in all those bodies is for the members of a party to stand by the Government it has put into power. This rule is carried so far that even just criticism of public officials is strictly taboo. Gross frauds committed by officials who are members of the party are concealed. If sensitive and highly conscientious members of the party are aware of wrong doings, they investigate the matter privately, and if there is error, correct it behind the door, instead of bobbing up in public and exposing the party weakness. All dirty linen is washed strictly in private, excepting by the ignorant or the irrepresibles who lost their tempers. The first and most important rule in practical politics, is to present solid front to your opponents.

The fact that members of the dominant party are trying to annoy the Government of its own creation, creates the impression that they wish to change it. The real truth is that they are inexperienced politicians, and do not seem to have ever heard of the way politicians conduct their business in America or Great Britain.

A lady was shocked at the sight of a naked small child tottering along a village street. "Madame" said her companion, a celebrated novelist, "it's only a case of pure innocence." We incline to the belief that in exposing the nakedness of the Government of their own party, these members do it only in "pure innocence."

We delicately intimated once that some of the members had much to learn. But the editorial member from Honolulu, instantly struck an attitude, and proudly pointed to the roll of veteran and illustrious statesmen in the House, and left us to infer that they had closed up the book of political knowledge because there was nothing in it.

Honest and intelligent members of the Legislature naturally require very many expectations from the Administration regarding its proceedings. Friends of the Government will quietly seek the departments and obtain full explanations in a business like way. If they finally discover that wrong has been done, they should then, from the Mugwump point of view, rise up in public, point the finger of scorn at the Government, and refuse to be bound by party ties. If governed by the general political rule, they will stand by the party and say nothing.

The conduct of several members of the dominant party justifies the belief, that they are crippling the Government of their and our, own creation. They seem to be quite too willing to gloat over what they think are "rotten" spots in the record.

In taking this course, they refuse to follow the example of party men elsewhere, and they may be morally right about it. It is not "good politics" however.

It is said that white men cannot work in the tropics. Perhaps it may be as equally true that white men can't legislate wisely in the tropics. We are learning something every day.

INTIMIDATION.

No, Senator McCandless. The "blackguards of the morning paper" cannot intimidate you. They cannot do so, any more than a mosquito can dislodge the mountain of Haleakala, by striking it head on. So you can do your fearless duty.

You accused the Board of Health of "junketing" at the public expense and of improper keeping of accounts. We looked into the matter at once, and saw that you were in the wrong. Even to this day the books of the Board have not been examined. No man can "honestly" make a charge of this kind until he has made an "honest" investigation. No man has the right to slander another, because he "honestly" believes the slander. He must look out for his facts first. You did not.

So you attempted to hold up to de-

vision the Government you aided to create. You do not, as you say you do, "represent the Republic of Hawaii," but you misrepresent the Republic when you, in its name, accuse its servants of such crimes and negligence.

When you prove, and your associates agree with you, the charge of "junketing" and bad bookkeeping, "the blackguards of the morning paper," will take a big dose of the medicine of humble apology.

MR. DAVIES' APPEAL.

Time enough has passed since Mr. T. H. Davies issued his appeal to the natives, in behalf of harmony, upity and political cooperation with the whites, for some response. At least there should be a sufficient response from which to gather the trend of the native mind.

We have taken the trouble to make many inquiries regarding the character of any response, but so far, it does not seem to be all favorable to Mr. Davies' hopes. We do not as yet speak positively on the subject, because in fairness to Mr. Davies, abundant time should be allowed for the slow action of the native mind.

From the data we have, our opinion is that the natives, instead of regarding Mr. Davies as their honest and true friend, look upon him as a deserter, a "traitor to the cause."

Mr. Davies would serve the country well, if he could keep the natives in permanent line for good government. We are sure that no honest and careful reader of the various histories of political growths, would expect for a moment that he can. It would be just as easy for an American statesman, who believes in the separation of Church and State, to convince the mass of Englishmen that they ought to disavow the Church from the State, as it would be for Mr. Davies to convince the natives that they are wrong in their political feelings. We do not say that the natives have any strong political feelings. The astonishing fact, revealed by the Queen's book, that, since the overthrow, they have not given one dollar

Prices 25 cts., 50 cts., \$1.00. Plan at Wall, Nichols & Co.

to aid in the "recovery of their rights," indicates its real strength.

But behind that is the racial feeling of suspicion of the white. The great majority of natives, unfortunately, thriftless in their ways, attribute their lack of prosperity to the grasping and selfish conduct of the whites, including Mr. Davies. Nothing pleases a thriftless person, all over the world, so much as to be told that his misfortune is not due to his own failures, but to the injustice of others. The wicked white man has told the native for many years that the missionary robbed him, and that Mr. Davies, who is a prosperous man, has also robbed him. Any assertion to the contrary, he does not believe. This is a solid political fact. The men who will "play" the native for his vote, will always put this fact before him, and then promise "to see justice done to him." And the native will be "played," and then be left out in the cold.

If further responses from the natives confirm those now received, we shall regard Mr. Davies' appeal as a most interesting and valuable lesson in political literature.

We wish Mr. Davies a pleasant voyage. And we hope that he will find time to consult some of those able statesmen in England, who have had so much experience in dealing with questions identical with our own.

Senator McCandless has introduced into the appropriation bill an item to reimburse Consul C. T. Wilder, which provides for the payment to him of \$2,500. Will the Senator explain the need of the "relief?" Several hundred other persons here would like "relief" too.

Cheap
AND
Powerful.

A walk through most any section of this city at night when all is still will cause anyone to wonder why more sickness does not exist. The obnoxious orders from defective sewerage and many other causes ought to be overcome and that at once.

5 CENTS A GALLON.

Look after your cesspools, water closets and garbage barrels. They are fever producers. Keep them free from offensive odors.

It saves doctor's bills.

ODORLESS AND HARMLESS.

Much simpler and more convenient than Chloride of Lime, Carbolic Acid and many other disinfectants. Used in all the prominent Hospitals and Public Buildings throughout the United States.

Hood's
Sarsaparilla
Cures

Permanently Cures

Scrofula,

which is one of the worst afflictions of the human race, and comes from impure blood.

Eczema,

a most offensive and uncomfortable affection of the skin, also due to impure blood.

Salt Rheum,

a torment to the flesh, a disfigurement to the body, and a drain on the system, also due to vitiated blood.

Pimples,

which so disfigure the skin, and make the human face divine anything but a thing of beauty, but which are Nature's advertisement of foul blood.

Catarrh,

which very often comes from a chronic affection of the circulation, is a constant offense to one's self and all his friends.

Rheumatism,

which all authorities now attribute to various acidities in the blood, which this great blood purifier of the age, Hood's Sarsaparilla, corrects.

Hood's Sarsaparilla

Is sold by all druggists. \$1; six for \$5. Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills are the best after-dinner pills, aid digestion. 25c.

HOBSON DRUG COMPANY,

TIMELY TOPICS

March 10, 1898.

Will You Lubricate?

In our imagination we hear the mighty gasp that ascends to the clouds from a doubtful though expectant multitude of thirsty souls. Doubtful, because of the apparent absurdity of such a proposition coming from us. And yet we mean every word we say, and as a new method of advertising, repeat, "Will you lubricate?"

We have just received a large shipment of the famous COLORADO brand of lubricants, which for density of viscosity, high fire test and perfect working qualities, cannot be excelled. Here is a list of a few specialties:

"COLORADO"

CYLINDER OIL
ENGINE OIL
VALVE OIL
HEAVY MINERAL CASTOR OIL
CAR BOX OIL

And where high speed machinery is employed, the celebrated "Colorado" DYNAMO OIL.

The above oils are very extensively used on these Islands, and have invariably given the greatest satisfaction—as witness the large number of testimonials from our Customers who all endorse our statement that "no better oils than the 'Colorado' brand are to be found anywhere in the world."

We have also on hand a new supply of

AXLE GREASE
in tins and boxes and also in 25lb. tubs.

It is really a superior article and sells at a low figure. Also

BLACK ASPHALTUM
for painting smokestacks, pipes, etc., etc.

LORD NELSON IN CANADA.

Leslie's Weekly tells the following story of Lord Nelson, which is not generally known: A pretty little romance gives Nelson's memory a sentimental interest in Canada. During his service at Quebec, in 1782, when he was but 24 years of age, he became infatuated with a beautiful Canadian girl, Mary Simpson, daughter of a great Canadian merchant of the period. At the time of Nelson's visit she was but 16 years old, marvelously beautiful and witty. On October 14, 1782, Lord Nelson's ship the Albemarle was ready to sail and he had a very sad and tender parting with Mary Simpson, and went down the St. Lawrence to board the man-of-war. The next morning arrived and the Albemarle did not leave anchor, and Captain Nelson was seen coming back to Quebec in a boat. A friend of Nelson's, a man prominent in Quebec at the time, espied him and asked him what had happened. Nelson is quoted as having said: "I find it absolutely impossible to leave this place without again waiting upon her whose society has so much added to its charms, and laying myself and my fortune at her feet." Nelson's friend protested against such a rash act, and told him that, "situated as you are at present, your utter ruin will inevitably follow." "Then let it follow," replied Nelson, earnestly, "for I am resolved to do it." But despite his intentions, the stronger will of his friend prevailed, and he was fairly carried back to his ship and forced to leave behind the girl he loved; and it was many years before he gave up the hope of possessing her, for Nelson never returned to Canada and Mary Simpson died in spinsterhood.

Aala Park.

That portion of Palama called Aala, and near the Nuuanu stream, will most likely be granted by this Legislature the boon of a bit of a recreation ground for the children and the grown people of the thickly populated neighborhood as well. Members of the Government and a number of the Legislators are very much in favor of the plan and a step in the direction of accomplishing what has so long been desired by a number of people interested will soon be taken.

Probate Matters.

Final receipts of the administration of the estate of the late R. W. Meyer have been filed.

The will of the late Chas. T. Gulick has been offered for probate and approved. Mrs. Gulick is named as executrix and is accordingly so appointed by the Court.

Rev. Ft. Valentine, administrator, files the will of the late Anna Cahill. The principal bequest is to a married sister of Miss Cahill at Louisville, Ky.

To the Asylum.

Nancy Kaalaelae, the woman who was taken to the police station Sunday night on account of having manifested unmistakable signs of insanity, was examined by Dr. Emerson yesterday morning and adjudged insane. It is the doctor's opinion that the woman is only suffering from temporary derangement. She will be well again before long. The woman was sent to the Insane Asylum for treatment.

A Sign.

In prefacing his remarks on House Bill No. 32, amending the Session Laws of 1892, Representative Robertson remarked: "It seems to me that the fact that the members from Hilo are in favor of the passage of the bill, is a recommendation in itself since it is so seldom that this happens."

Decision to Come.

The special bicycle supreme court set up by Mr. Desky to review the finding of the referee in the dispute that arose on the closing night of the last meet as to King and Damon in an amateur event, has reached a decision, but the same could not be made public yesterday. One of the judges denied the report that he had held out against awarding the race to Damon.

A Kipling Poem Rejected.

Rudyard Kipling declined payment from the London Times for "Our Lady of the Snows" and the "Recessional," on the ground that he would not receive money for patriotic poems. Mr. Kipling later sent to the Times a poem entitled "The Destroyers," which described the action of torpedoes, for which contribution he would have accepted payment, but the editor of the Times, thinking this poem would clash with the elegant verse of the two preceding ones, declined to print it.

Arrangements have been made to permanently preserve the tone of Her Majesty's voice. The latest type of phonograph will be sent to Windsor Castle, and into this instrument Her Majesty has consented to speak a certain message, which will be permanently preserved on the cylinder, and kept in the British Museum.—London Mail.

BY AUTHORITY.

ACT 2.

AN ACT

TO AMEND SECTION 33 OF THE ACT ENTITLED "AN ACT TO REORGANIZE THE JUDICIARY DEPARTMENT" APPROVED NOVEMBER 25TH, A. D. 1892, RELATING TO THE TERMS OF THE CIRCUIT COURTS.

Be it enacted by the Legislature of the Republic of Hawaii:

SECTION 1. Section 33 of the Act entitled "An Act to reorganize the Judiciary Department" approved November 25th, A. D. 1892, relating to the terms of the Circuit Courts is hereby amended so as to read as follows:

"SECTION 33. The terms of the Circuit Courts may be continued and held from the opening thereof, respectively, until and including the twenty-fourth day thereafter, Sundays and legal holidays excepted. Provided, however, that any such term may be extended by the presiding Judge for not more than twelve days after the expiration of the said twenty-fourth day."

Approved this 12th day of March, A. D. 1898.

SANFORD B. DOLE,
President of the Republic of Hawaii.

ACT 3.

AN ACT

TO REPEAL SECTION 1139 OF THE CIVIL CODE RELATING TO APPEALS FROM DECISIONS OF CIRCUIT COURTS.

Be it enacted by the Legislature of the Republic of Hawaii:

SECTION 1. That Section 1139 of the Civil Code be and the same is hereby repealed.

SECTION 2. This Act shall become a law from and after the date of its publication.

Approved this 12th day of March, A. D. 1898.

SANFORD B. DOLE,
President of the Republic of Hawaii.

ACT 4.

AN ACT

TO AMEND SECTIONS 1480 AND 1481, CHAPTER 35, OF THE CIVIL CODE AS AMENDED ON MAY 14TH, 1898, AND SECTIONS 1482 AND 1483 OF THE CIVIL CODE, RELATING TO INTEREST ON MONEY.

Be it enacted by the Legislature of the Republic of Hawaii:

SECTION 1. Section 1480 of the Civil Code be, and the same is hereby amended so as to read as follows:

SECTION 1480. When there is no express contract in writing, fixing a different rate of interest, interest shall be allowed at the rate of six per cent. per annum, for all moneys after they become due on any bond, bill, promissory note, or other instrument of writing, for money lent, for money due on the settlement of accounts, from the day on which the balance is ascertained, and for money received to the use of another, from the date of a demand made.

SECTION 2. That Section 1481 be, and the same is hereby amended, to read as follows:

SECTION 1481. Interest at the rate of six per cent. per annum, and no more, shall be allowed on any judgment, recovered before any Court in this Republic, in any civil suit.

SECTION 3. That Section 1482 be, and the same is hereby amended, to read as follows:

SECTION 1482. It shall in no case be deemed unlawful to stipulate by written contract, for any rate of interest, not exceeding one per cent. per month, provided the contract to that effect be signed by the party to be charged therewith.

SECTION 4. That Section 1483 be, and the same is hereby amended, to read as follows:

SECTION 1483. No action shall be maintainable in any Court of this Republic, to recover a higher rate of interest than one per cent. per month, upon any contract made in this Republic; provided, however, that this Section shall not be held to apply to contracts for money lent upon bottomry bonds, or upon any maritime risks, nor upon contracts made prior to the passage of this Act.

SECTION 5. This Act shall take effect from and after the date of its publication.

Approved this 12th day of March, A. D. 1898.

SANFORD B. DOLE,
President of the Republic of Hawaii.

What Is the Meaning Of a Guarantee

?

It is confidence in the article you sell, sufficient to warrant you to stand by it under all circumstances.

That's the confidence we have in our goods, and that's why we are not afraid to stand by them, not only before, but after they are sold.

All other goods perish, or are consumed in a short time and the dealers' responsibility soon ceases, but a choice piece of Jewelry or Silverware lasts forever, and the Jewelers' responsibility with it.

It is to your advantage to purchase such, where the guarantee is your safeguard, where great distance does not make the guarantee valueless to you, and where it is the honest endeavor to give satisfaction in every instance.

OUR STOCK

Certainly offers advantages not to be found elsewhere in the city of choice goods, entirely new, and absolutely new in design. We know the prices are right.

H. F. WICHMAN

A Model Plant is not complete without Electric Power, thus dispensing with small engines.

Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pump, Centrifugals, Elevators, Plovers, Railways and Hoists; also, furnish light and power for a radius of from 15 to 30 miles.

Electric Power being used, saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers and Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also, attention is given to House and Marine Wiring.

THE NEXT SHOOT

Department Trophy Team
Soon to Compete.

Shoot Will Be Ordered for an Early
Day Next Month—Encampment
to Be Held in July.

For the meeting of the Board of Of-
ficers of the First Regiment last even-
ing at military headquarters there was
the best attendance for six months.

It was announced by Colonel Fisher
that the order for the company team
shoot for the Department Trophy
would be ordered opened the first week
in April.

In the matter of uniform a motion
was passed requesting the colonel com-
manding to ask for full dress uniforms
for the officers of the National guard
and in case these could not be had to
request that at no function hereafter
officers be expected to appear in other
than fatigue uniform.

Major Jones made a statement con-
cerning the proposed encampment for
next month, he being chairman of a
committee upon that subject. He gave
the assurance that the encampment
would be held probably in the month
of July and advised that company of-
ficers begin preparations.

Lieut. C. M. V. Forster was elected
treasurer of the Board of Officers to fill
a vacancy caused by a resignation.

Suggestions were solicited as to
amendments that should be made to
the military law during the sitting of
this Legislature. No amendments were
offered by any of the officers at the
meeting.

An amendment to the by-laws of the
board was offered changing the regular
meeting time from a Monday evening
in each month to a Sunday forenoon.
This amendment goes over for one
month. There is some opposition to it.

Races Are Postponed.

At a consultation held yesterday the
promoters of the special race meet ar-
ranged for Kapiolani park track and
announced for Saturday afternoon next,
decided upon temporary postponement
of the show. This step was deemed
wise on account of the recent unfavor-
able weather and the unsettled condi-
tion of the reservoirs and tanks send-
ing down the showers. Six gentlemen
of the city have guaranteed all the ex-
penses of the proposed racing and na-
turally wish to have as favorable a day
as may be. For a week or 10 days now
it has been impossible to work horses
on the track and of course with the
bicycle men training has been out of
the question. One of the promoters
said last evening that in his opinion
it would be at least a month before the
races could be given. The program will
not be changed and all the horses that
have been brought here from the other
Islands will remain.

Exquisite Millinery.

The millinery exhibition at N. S.
Sachs Dry Goods Company's store is a
positive treat for the ladies. The stock
of hats, togues and turbans, is much
larger this year than ever, and in-
cludes all the latest and most striking
novelties in Easter and spring goods.
Among the dainty hats appear a num-
ber of choice samples from Paris and
New York, which will surely please the
most fastidious.

Dame Fashion, it appears, has de-
cided that turquoise blue and a beau-
tiful shade of tawny orange are to be the
correct colors for this season's wear.
Many new and striking samples of
headgear in these colors, also in sem-
bridge, the new pink, may be noticed
in the N. S. Sachs establishment, which
still, as in past years, remains the
leading store in Honolulu for the vo-
taries of fashion.

Research Club.

For the information of those inter-
ested in the Young Men's Research
Club, and those who were unable to
attend the meeting of last week, it may
be stated that the time for reorganiza-
tion is two months off yet. Two more
meetings, closing the season as at pre-
sent scheduled, will be held at the home
of Rev. D. P. and Mrs. Birnie. After
that the society will be without a home.
The committee appointed and announc-
ed will, during the next month or two,
work out and submit a plan to the
members. This will probably include
a formal organization scheme and sug-
gestion for a meeting place down town.
The departure of Rev. Mr. Birnie from
the Islands is deeply regretted by the
club members.

Easter Notice.

Ladies wishing new millinery for
Easter are asked to wait for the arri-
val of Miss Killen's new stock, which
will be here by the Zealandia. A
choice line of new goods are being
personally selected by Miss Killen,
who is now at the Coast, for this pur-
pose, and upon her return she will
have a grand opening of new goods of
the very latest patterns.

519 Fort St. M. G. SILVA, Propr.

HAMAKUA PLANTATION,
PAAULO, HAWAII, H. I.

MR. J. G. SPENCER,
PACIFIC HARDWARE CO.,
Honolulu.

DEAR SIR:—The Secretary Disc Plow I pur-
chased from you is giving us satisfaction. We
are using it to plow under a crop of lupins. They
are three feet high and very thick. Your plow
turns them completely under, at the same time
plowing the land fourteen inches deep.

I feel satisfied that with this plow the draft
for the same quantity and depth of work is as
6 to 8. That is, with the old plow, to do the same
work, it takes 8 good mules; with your plow it
takes only 6, and they are less tired at night.

Please send me another plow by first schooner
leaving for this.

You are at liberty to use this in any way you
may see fit. Yours truly,

A. LIDGATE.
