**Wedding in High Life.**

NEWPORT, R. I., July 11.—Miss Charlotte White, daughter of the late Augustus White, and Harry O. Havenney, Jr., son of the late Theodore Havenney, were married today at Swanhurst, a summer residence of the bride's uncle, George L. Rivers, of New York. The ceremony was attended by Miss Lily O'Brien and Natica Rivers, her cousins. The bride was Mrs. C. Havenney, formerly of the bridegroom, and the ushers were Edward Decker, of Brooklyn, and J. M. Carmick, of Chicago, classmates of the bridegroom at Yale. The Rev. W. R. Dean, of St. Mary's Church, officiated.

**San Francisco's Plague.**

SAN FRANCISCO, July 11.—In the United States Circuit Court today Judge Morgan held that Dr. J. E. Kinyoun, local health officer, had not been guilty of contempt of court in requiring persons leaving this city during the plague to secure health certificates on travel within the borders of the State. The judge found that the health officer had not been restricted and that the let- ters of injunction against the health officer had not been violated.

**Bonded Merchandise.**

SAN FRANCISCO, July 11.—The Pacific Steamship Company and the Oceanic Steamship Company have been bonded to appraise merchandise between this city and Honolulu.

# SITUATION IN CHINA IS IMPROVING DAILY.

## Li Hung Chang Says Legations are Still Safe.

### IMPERIAL DECREE SHOWS THAT GOVERNMENT OPPOSES BOXERS

#### The Emperor Still Alive--Dowager Expresses Regret For Ketteler's Death-- Foreign Troops.

VICEROY LI HUNG CHANG.

PARIS, July 11.—The Chinese Minister here informed M. Delcasse that Li Hung Chang had called him from Canton, under yesterday's date, saying that he had just received a telegram from Peking asserting that the soldiers and rebels who surrounded the Legations had gradually dispersed.

**TIENTSIN BOMBARDED.**

BERLIN, July 11.—The German Consul at Tientsin cables that the foreign settlements were continually bombarded by the Chinese from July 6th to July 8th. July 6th 2,000 Boxers attacked the French settlement and were routed by the Russians. The British and Japanese forces, July 7th, bombarded the Chinese batteries. Toward evening Chinese shells penetrated the roof of the German Consulate and caused an outbreak of fire, which was extinguished after slight damage had been done.

July 6th the Peiping sailed for Taku with the German wounded. River communication between Tientsin and Taku has been safe since the Chinese fort moved between the two towns was captured. The railroad from Tong Ku has been repaired to within three miles of Tientsin.

Nearly all the families of foreigners left Tientsin for Taku July 4th.

The German Consul at Che Foo telegraphs that the Governor of Shan Tung announces that, according to reports on July 4th, the foreign Ministers at Peking were out of danger and the revolt was decreasing.

**EDICT OF EMPRESS DOWAGER.**

NEW YORK, July 11.—A dispatch to the Herald from Shanghai says:

An edict of the Empress Dowager, promulgated on June 30th, has just been published in Shanghai. Her Majesty expresses sorrow for the death of Baron von Ketteler, the German Minister, who, she says, went to the Tsung Li Yamen on the day of his death against her wishes.

Her Majesty expresses regret that the capture of the Taku forts should have complicated matters, but orders that the Boxers be suppressed and the foreign Legations in Peking protected. The whole tone of the edict is to hold the foreigners blameless for the gravity of the crisis.

Two hundred and fifty white refugees from Tientsin have arrived in Shanghai.

**EMPEROR STILL ALIVE.**

LONDON, July 11, 2:02 p. m.—Although Shanghai today repeats the statement that both the Emperor and the Dowager Empress are alive and telegrams from Chinese officialdom again testify to the safety of the Legations, the assertions no longer stimulate hope here and pessimism will prevail as long as the authorities, who, on their own showing, are able to get messages to the coast, fail to send confirmation of the safety of the foreigners from some of the Legations in Peking.

London sees in the disappearance and reappearance of prominent people at Peking and the efforts apparently making to shift the blame from one to the other, and in the attempts to represent themselves as victims of, instead of principals, in the recent occurrences, only preparations for a subterfuge and defenses in view of the approach of the troops of the Pow-

ers and the tragedy they may discover on reaching the Chinese capital.

According to a dispatch from Shanghai, the fighting at Tientsin July 6th was the heaviest which has yet occurred, the Russians alone burying 250 men. The allies are becoming exhausted by constant fighting.

A dispatch from Canton says Li Hung Chang is keeping excellent order there. Robbers and pirates are executed publicly and frequently, and the people are cowed and afraid to disturb the peace.

**JAPAN'S ARMY REINFORCEMENTS.**

PARIS, July 11.—At a Cabinet council today the Minister of Foreign Affairs, M. Delcasse, read a telegram from Tokio confirming the news that Japan will send immediately to Taku a complete division of 15,000 men.

A dispatch from Chee Foo dated July 7th says the orphanage at Shan Tung (7) has been pillaged.

**ENGLISH MILITARY PLANS.**

LONDON, July 11.—It was strongly rumored in service and play clubs that the Government was preparing to send 100,000 Indian troops to China in the autumn. A Foreign Office officer said to a representative of the Associated Press that no such force could be possibly spared from India, nor was it possible for Great Britain with her present responsibilities to send out such a force. Wherever secured, however, he added, it may safely be asserted that strong British reinforcements will be on their way to the Far East before the end of September.

**AMERICAN TROOPS LAND.**

WASHINGTON, July 11.—The following telegram has been received at the Navy Department from Admiral Remey:

"CHEE FO, July 10.—Secretary Navy: Arrived yesterday. Two battalions Ninth Infantry and one battalion marines, Col. Meade, landed today to proceed to Tientsin. Allied forces at Tientsin engaged in maintaining their defenses. Ordered Solace here to take sick and wounded to Yokohama hospital. Oregon proceed soon to dock at Kure, towed by chartered steamer and conveyed by Nashville. Just learned from Admiral Seymour at Tientsin foreigners there are hard pressed."

**AN IMPORTANT DECREE.**

WASHINGTON, July 11.—An Imperial decree, dated 24 day of 6th Moon (June 29), was received by telegraph today by Minister Wu from the Taotai, of Shanghai, transmitted on July 1st, from the Treasurer of the Chih Li province, who received it by special courier on June 26th from the Board of War, who in turn received it from the Privy Council in Peking. The decree is as follows:

"The circumstances which led to the commencement of fighting between Chinese and foreigners were of such a complex, confusing and unfortunate character as to be entirely unexpected.

"Our diplomatic representatives abroad, owing to their distance from the scene of action, have had no means of knowing the true state of things, and, accordingly, cannot lay the views of the Government before the Ministers for Foreign Affairs of the respective Powers to which they are accredited. Now we take this opportunity of going fully into the matter for the information of our representatives aforesaid.

"In the first place there arose in the provinces of Chih Li and Shan Tung a band of rebellious subjects who had been in the habit of practicing boxing and

# FAST TRAIN HELD UP

## Illinois Central Flyer Robbed.

### A LOT OF MONEY TAKEN

#### Wreckers on the Baltimore & Ohio Try to Capture Heavy Gold Shipments.

PADUCAH, Ky., July 11.—The Illinois Central fast train from New Orleans to Chicago was held up and robbed this morning at 1:20 o'clock two miles south of Wickliffe, Ky. The train was flagged and when it stopped the bandits entered the cab. The fireman, J. J. Frysch, was struck on the head with the butt of a revolver and badly hurt. The robbers, six in number, cut off the engine and express car and ran a mile and a half to Fort Jefferson, near the Ohio river and within sight of the Missouri shore. Here they blew the express safe open and secured all the valuables it contained and crossed into Missouri. They dropped one package containing \$50,000 on the Kentucky side and another package on the Missouri side, both of which have been recovered. The robbers did not attempt to molest the passengers.

A special train, with bloodhounds and an armed posse, left Jackson, for the scene, and it is expected that Missouri officers are hot on the robbers' trail. About \$100,000 was secured, in addition to the money dropped by the robbers.

**TRAIN WRECKERS AT WORK.**

PHILADELPHIA, July 11.—According to officials of the Baltimore & Ohio Railroad, it is expected that Missouri officers are hot on the robbers' trail. About \$100,000 was secured, in addition to the money dropped by the robbers.

Examination disclosed the fact that the switch had been tampered with. The railroad officials have placed detectives on the case and have offered a reward of \$500 for the arrest or conviction of those tampering with the switch.

# A PLOT TO KILL THE PRESIDENT

## Chairman Odell of New York Thinks He Has Found One.

NEW YORK, July 11.—The World says: A plot to assassinate President McKinley has been frustrated. It was concocted by a group of Spanish and Cuban conspirators, who had headquarters in New York. One of the plotters weakened and sent a warning letter to a member of the Republican National Committee. This letter was placed in the hands of Secretary Charles Dick, who referred it to Chairman Odell of the New York State Committee for investigation. Chairman Odell engaged a detective, who speedily verified certain allegations made in the warning letter. Thereupon Mr. Odell reported to Secretary Dick and laid all the facts before Chairman Mark Hanna.

NEWBURGH, N. Y., July 11.—Chairman B. B. Odell, of the Republican State Committee, said today concerning the alleged plot to assassinate President McKinley:

"I read the account in a newspaper this morning with reference to an alleged plot to assassinate President McKinley and also as to the part which I am supposed to have taken in the matter. I have nothing to say upon the subject except that an investigation which I started with the State committee detective on the line on what I supposed to be political information, led to the discovery of either a crank or a Baron Munchausen; and on the principle that an ounce of prevention is worth a pound of cure, it is probable that my report to Secretary Dick is the cause for the extra care now being taken of the President. I have nothing further to say on this subject except that I regret that someone has been indiscreet enough to make up of a trifling matter the gigantic plot disclosed in the newspapers."

WASHINGTON, July 11.—It was stated at the White House that no word had been received there to the effect that President McKinley will return to Washington Saturday. As far as the officials

at the Executive Mansion know, there has been no change in the President's original plans.

CLEVELAND, Ohio, July 11.—Senator Hanna today denied the report that a plot to assassinate President McKinley had been discovered in New York.

"This," said Mr. Hanna, pointing to the story of the alleged plot published in the morning papers, "is the first I have heard of it. There is absolutely, to the best of my knowledge, no truth in it."

# The Neely Frauds.

WASHINGTON, July 11.—A conference of Government officials was held today in the Department of Justice on the case of C. F. W. Neely, charged with embezzling Cuban postal funds and now in jail in New York, pending the settlement of the question of his surrender to the Cuban authorities for removal to Havana for trial. At the conclusion of the conference Attorney General Griggs said it had been called for the purpose of advising with United States Attorney Baldwin of New York in the preparation of the case, which will be heard by Judge Lacombe on the 23d instant. The Judge, it was stated, had insisted on the Government going more deeply in the evidence than was usual in such cases, and an effort will be made to fully meet his views in the matter.

# Colonial Cruiser Ashore.

ST. JOHNS, N. F., July 11.—The Colonial cruiser Fiona is ashore near Codroy, within a few miles of the scene of the wreck of the British Mareotis, bound from Montreal for Liverpool, which went ashore June 25th at Cape Anguille, on the southwest coast of New Foundland. The Fiona struck during a dense fog and it is feared she will not get off. The steamer Regulus tried vainly to tow her off, but failed. Wrecking tugs have been ordered to her assistance.

# HER MAJESTY'S GARDEN PARTY

## It Leads to an Exciting Scene in the Commons.

LONDON, July 11.—The Queen's garden party at Buckingham Palace today was an especially brilliant function. Her Majesty came from Windsor to attend the party and drove about among the thousands of guests, who included the members of the royal family, the diplomatic corps and other distinguished people. The members of the United States Embassy and Consulate were present in full strength.

The garden party gave rise to an extraordinary scene in the House of Commons. The usual humdrum Wednesday business was in progress when an adjournment was moved to enable the members to attend the function at Buckingham Palace. John Dillon, Irish Nationalist, objected, saying that business interfered with such a purpose.

Fred. Maddison, Radical, who followed, protested in an excited manner against what he considered to be "flagrant abuse of Governmental power and gross waste of the time of the House." He declared that a single clause of the agricultural holdings bill then under consideration was worth more than all the royal parties with all "the royalty thrown in."

These remarks brought forth angry shouts of "Withdrew!" and, on the demand of the Speaker, Mr. Maddison withdrew his expressions.

# REPUBLICAN LEADERS.

## They are Gathering at Cleveland—Hawaiian Delegation.

CLEVELAND, Ohio, July 11.—Cornelius N. Bliss, ex-Secretary of the Interior, and National Committeeman Payne, of Wisconsin, arrived here early today. Both were closeted with Senator Hanna for an hour or more discussing it, it is understood, the personnel of the new National Executive Committee.

Shortly after noon Senator Lodge joined the conference.

Asked if he would be a member of the new National Committee, Mr. Bliss said that he preferred not to discuss the matter. He stated that he had come to Cleveland to accompany the Notification Committee to Canton tomorrow, as the guest of Senator Hanna.

While Mr. Hanna maintains that all members of the new Executive Committee have not been decided on, and that the personnel of the committee cannot be made public until Friday, it is learned from excellent authority that at least four members have been finally chosen. These are H. C. Payne, of Wisconsin; J. H. Manley, of Maine; Senator Scott, of Virginia, and R. C. Kerens, Missouri.

The Hawaiian delegation to the Philadelphia National Convention, escorted by Senator Clark, of Wyoming, called on Senator Hanna today. Subsequently the party left for Canton.

Between forty and fifty survivors of Major McKinley's old regiment, the Twenty-third Ohio, will accompany the Notification Committee to Canton tomorrow.

# Indians Are Sullen.

SOLWAY, Minn., July 11.—The blanket Indians at Red Lake are in a sullen mood and trouble is feared. The Government is erecting a \$20,000 school at that point and these Indians seriously object to any attempts at civilizing them. They refused annuities from the Government for a number of years, claiming that the Government has not given them their just portion of the Indian money. White settlers near the reservation are arming themselves and gathering together fearing an attack. Arms and ammunition have been sent from Solway and a call will probably be made for State troops. The Indians are holding war dances nightly.

# Cholera in India.

SIMLA, July 11.—Cholera has appeared in severe epidemic form at Kohat, twenty-five miles south of Peshawar. Two hundred and seven cases and seventy-seven deaths occurred among the Sepoys and camp followers between July 2d and July 9th. The prospect for the monsoon are slightly more favorable.

# SMALLPOX BREAKS OUT IN THE GOLD HUNTERS' CAMP AT NOME

WASHINGTON, July 11.—The Treasury Department today received a telegram from Lieutenant Jarvis of the revenue cutter service, saying that there had been twenty cases of smallpox to July 2 at Cape Nome, and asking for medical officers and supplies.

The telegram is dated Cape Nome, July 2, and was sent to Port Townsend, the nearest telegraph station. Lieutenant Jarvis was sent to Cape Nome as the special representative of the Treasury Department. He does not say whether these cases have appeared in the crowded camps or on ship-board. Two vessels that started for Cape Nome recently found smallpox on board shortly after leaving Dutch Harbor, and it is thought the cases spoken of are on board these vessels, although there are many chances that the disease has broken out ashore. The Treasury Department has ordered 1,000 vaccine points sent to Nome, and a number of physicians also have gone there.

# Keen Kutter Kuttler

And other Keen Kutter goods just received. These fine goods are getting to be as well known here as they are in other parts of the United States.

### Conference of Property Owners.

### PROPOSED PLAN SHOWN

#### Improvements Discussed With Superintendent of Public Works Yesterday.

Chinatown property owners and representatives of holders of land there met with Superintendent of Public Works McCandless yesterday afternoon at 2 o'clock in the old throne room at the Capitol for the purpose of considering the proposed street extensions. Mr. S. M. Damon and Mr. Dodge, representing the Bishop Estate interests; W. F. Allen, W. A. Henshall, representing several Chinese property owners; L. K. Kentwell, Assistant Superintendent of Public Works, James H. Boyd and a few others were all that responded to Mr. McCandless' call.

Maps and blue prints of the proposed extensions of Smith, Kekaulike and Maunakea streets were exhibited by Mr. Wall, who explained the details of the plan outlined. Mr. McCandless asked for suggestions from those present as to what course should be pursued.

Mr. Damon said he could not act at the time without first consulting the trustees of the Bishop Estate, through whose holdings much of the street system proposed will run. No one was willing to offer any suggestion as to what figures were desired, or whether government land would be asked for in exchange. Mr. Damon thought that the maps should be placed in a conspicuous position in the office of Mr. McCandless, where they could be inspected for a week by all interested, and by that time he thought the Bishop Estate would have some plan to offer.

As the street lines are now dotted on the maps, several properties will almost be taken up entirely, leaving very little land of practical value for building purposes unless bought in by neighboring owners. In other cases the cutting through of streets will afford frontages to certain property, which will give it increased valuation, compensating the owners several fold for the loss of strips for the streets. The Bishop Estate is affected by the extension more than any other properties, but in its case the advantage seems to be entirely on its side. It was suggested that those property owners who gain by the extensions should be willing to assist those whose properties are cut down to such small strips as to be unavailable for business purposes, and therefore comparatively valueless. There seems, however, to be a disposition on the part of some of the owners to hold out for all they can get, and there may yet be obstacles in the condemnation proceedings which may hold back extension operations for some time.

Mr. McCandless gave notice that the maps would be placed in his office for daily inspection for one week, and propositions will then be received by him.

The extensions proposed are: Of Smith street from King to Queen street, one block; Kekaulike street from King to Beretania, crossing Pauahi street, two blocks; Maunakea street from Beretania street to Vineyard, crossing Kukul street, practically three blocks; Smith street from Beretania street to Vineyard street, practically three blocks. The total number of running feet estimated in these extensions is 2,060, with streets above Beretania running mauka 56 feet wide, and those below King street running makai 50 feet wide.

The Kekaulike street extension from Hotel to Pauahi will cut through the property of Kahauomaka, for which C. P. Laukea is agent, James Campbell, Chong Sang, Kuanu (w) and C. K. Al. Kekaulike street from Pauahi to Beretania will cut through the property of Sam Kamapau, Lan Yan, Cow Chang, government land, Wahilani and Kaunahana.

Smith street from King to Queen street through the property of J. I. Dowsett Estate, Gilliland Estate, government property and John Meek. The Iron Works are located on the government land which the street cuts through.

Smith street from Beretania to Vineyard street through property of Kahauomaka Church, Leihulu, a jog of the Bishop Estate, and on the mauka side of what was known in plague times as Block 15, the street goes through the Bishop Estate only. From Kukul street to Vineyard the Bishop Estate property is encountered. Mrs. C. A. Brown, Kepiki Harlow, Alkoe and E. A. Maunakea street from Beretania to Kukul street goes through the property of C. Long, Fishel, Ah Chock, Chock Tong, A. Perkins, Yee Chow, Mele Kawa (nearly all), and taking in portions of Achi lane.

Maunakea to Vineyard goes through the Bishop Estate, Mrs. V. McLeod and D. Gilliland. A proposed street through Block 15

from Nuuanu to River street cuts through land of Mrs. Drew, West, Bishop Estate, Leihulu, C. Rose, Chock Tong, Cow Chong, L. Perkins, Methodist Japanese Church, Magoon lane and Ahana.

### RUDOLPH BINDT MARRIED.

#### He Weds Miss Johnson of Petaluma, California.

News of the marriage of Rudolph Bindt of this city will be received with pleasure by his many friends. He was wedded in Petaluma, California, the last of June and will arrive here with his bride on the bark Planter which sailed from San Francisco on July 14. The Petaluma Argus has the following concerning the wedding:

A happy marriage took place Wednesday afternoon in this city the fact of which will come as a delightful surprise to our people. Miss Clara Belle Johnson, only daughter of Henry Johnson, was wedded to Rudolph Bindt of Honolulu, at the Johnson home in Cherry valley. The home was beautifully prepared for the occasion and the parlors were a mass of beautiful blossoms. The bride who is a handsome blonde was attired in a white gown and the groom wore conventional black. A delicious repast followed the ceremony. After a few hours spent in receiving friends the young couple took the train for San Francisco. They will remain in that city a few days and then go to Honolulu where a beautiful home is fitted and furnished awaiting them. The bride is a native of Kohala, H. T., and the groom a native of Kohala. When a child Miss Johnson came to this city with her parents and attended school. A few years ago she returned to the Islands and there met her future husband. She has been home again several months. Mr. Bindt is an agreeable young man. He is employed in the Honolulu Gazette, the biggest printing plant in the Hawaiian Islands. The paper corresponds very favorably with the San Francisco evening dailies. Mr. Bindt is assistant foreman of the shop.

## ALLEGED MURDERER IS CLEVERLY CAPTURED

Tanaka, the Japanese special officer, captured Arimoto, an alleged Japanese murderer, yesterday in a cane field near Ewa and brought him to Honolulu under arrest. Arimoto, together with an accomplice named Meta, murdered a countryman at Kahuku about four months ago in a quarrel over cards. The latter was cut in the stomach, on the hand and in the back. Arimoto and Meta fled and were hotly pursued for three days, when Meta was run down. He was tried in the police court, but discharged on account of insufficient evidence to convict him of murder. Arimoto disappeared as though the earth had swallowed him up. A reward of \$500 was offered, but no word or sign of him was made public, although some of the police officers made diligent search. Meta has been constantly under police surveillance since his release, and upon news being received of Arimoto's apprehension Meta was placed under arrest and is now in Oahu prison. Tanaka, by some secret means, obtained information of Arimoto's whereabouts, and three days ago went to Ewa and there played the role of a friend and secret society member, and at last heard that Arimoto was living in a shanty in the middle of a great cane field.

Tanaka filled Arimoto up with liquor and brought him into Honolulu. Arimoto has been supplied with provisions by friends for four months, and was under the protection of the "Rising Sun" secret society of this city, of which he was a member, which was paying the expenses of his concealment. This latter fact accounts for the reward of \$500 standing unheeded by the Japanese, as they were in duty bound to protect their countryman. Tanaka is very proud over his success, but there seems a doubt as to whether he has any right to the \$500 reward offered for the murderer. It is believed that some arrangement can be effected by which he will receive some remuneration for his clever capture in the face of odds. Arimoto when registered at the station house was intoxicated, due to Tanaka's supplying him with a plentiful amount of saké. Meta claims now that Arimoto was the murderer, and Arimoto makes counter charges, and admits that he was present when the deed was done. Arimoto's case comes up in the police court this morning.

### A GOOD COUGH MEDICINE.

Many thousands have been restored to health and happiness by the use of Chamberlain's Cough Remedy. If afflicted with any throat or lung trouble, give it a trial, for it is certain to prove beneficial. Coughs that have resisted all other treatment for years have yielded to this remedy and perfect health been restored. Cases that seemed hopeless, that the climate of famous health resorts failed to benefit have been permanently cured by its use. For sale by Benson, Smith & Co., Ltd., wholesale agents.

## EVANGELIST M'COMB ARRAIGNS THE CRIMPS BEFORE SAILORS AT JOYFUL NEWS MISSION

SEVERAL sailors warned J. Leslie McComb, an evangelist, yesterday, that it would be well for him to look out for himself, as they were afraid that certain people on the water front with unsavory reputations were planning revenge upon the earnest young exhorter. The seamen who undertook to warn McComb have been in the habit of attending regularly the nightly meetings at the Joyful News Mission, corner of King and Nuuanu streets.

On Tuesday evening the mission was crowded with sailors and citizens, sailors for the most part. McComb addressed the meeting in his usual earnest and eloquent manner. He spoke of crimps and shanghai methods, of blood-money and the traps and snares laid by shipping masters. The men present were enthusiastic, and applauded heartily the sentiments expressed.

"The best way to avoid the influence of the shipping masters," said the speaker, "is to keep sober, stand together and stick up for your rights and liberties as men." McComb referred to Lewis and Turk by name several times during his discourse, and although he made no charges against them, he drew the sailors' attention to the crusade against the crimps by the respectable newspapers of Honolulu. In speaking of the necessity of being free men, he cried: "The everlasting curse of God shall rest upon money wet with the blood of humanity. This shameful traffic in human flesh, carried on in so many of the ports of the world, must cease, and it cannot be wiped out altogether until sailors make up their minds that they will not be handled as slaves, and that they will be independent, free, fearless and manly men."

Many of the sailors were surprised at McComb's fearlessness in arraigning and thus defying the crimps. Hence the warning which he received yesterday.

## THE PACIFIC Commercial Advertiser

WALTER G. SMITH - EDITOR.

THURSDAY JULY 19

Fused, refused and confused sums it up for the Populists.

Here and there a Middle-of-the-Grave Populist is having an untimely resurrection.

Judge Eate evidently thinks that the Hawaiian bench is not up to much in the matter of law. He must have met Judge Little.

With seventy warships building for the United States Navy it looks as if your Uncle Samuel was getting in the swim at last.

There is growing impatience in London over the Boer who won't surrender in time to let a British Army corps leave for China.

With small-pox raging at Cape Nome and with the prospects of scant supplies and an autumn falling in August, the outlook for the Arctic Argonauts is not all yellow sand and bank accounts.

The Advertiser again "points with pride"—as the convention phrase goes—to its telegraphic contents. More than half of this morning's budget is later than the story of the files and has all the freshness of a new discovery.

Hawaii's welcome at the conventions was a compliment that all our people appreciate. Republicans and Democrats vied with each other in making the delegates feel at home in American politics. The latter will return with a high idea of their new fellowship and will leave plenty of admiring and hospitable friends behind them.

There is nothing very tangible in the story of a plot to kill the President, but it may easily be true. The President is a shining mark for cranks and of these the name is legion. The man who tried to kill President Jackson was half insane; the assassin of Lincoln was an unbalanced genius who thought to make himself an American Brutus; the murderer of Garfield was a political lunatic. Going about without military escort as the Republican Chief Magistrate always does he is a visible temptation to that large class of degenerates in whom the presence of a national ruler of any title sets regicidal blood.

### ASTOR RAISES A STORM. A Characteristic Example of His Discourtesy.

LONDON, July 7.—William Waldorf Astor's recent paragraph in his own paper, the Pall Mall Gazette, saying, "Captain Sir Berkeley Milne of the Naval and Military Club, Piccadilly," formerly commander of the royal yacht Osborne and a well-known clubman, attended a concert at the Astors' without an invitation, is making a great commotion in London society, and threatens to seriously affect Astor's position therein.

It seems that Captain Milne was dining at the house of a well-known lady, who asked him to go with her party to Astor's concert. This is said to have been done in London and Captain Milne unhesitatingly accepted. On arriving, Astor, instead of shaking hands with the Captain, asked the latter his name. Milne told him and said that Lady — brought him with her party. Astor responded that he had not the pleasure of his acquaintance, requested him to leave and added that he would insert a notice in the newspapers.

Captain Milne retired in confusion, and from the Naval and Military Club, the same night, sent Astor a letter of apology and expressed the hope that he would allow the matter to drop. In spite of this, Astor, in his paper the next afternoon, inserted, as called at the time, the following paragraph: "We are desirous to make known that the presence of Captain Sir Berkeley Milne of the Naval and Military Club, Piccadilly, at Mr. Astor's concert last Thursday evening was uninvited."

Captain Milne's many influential friends, who include the Duke of York, are furious, the Duke and other naval officers regarding Astor's conduct as an insult to their profession, as well as to a personal friend whose position in London society is unquestioned. The members of the Naval and Military Club are also indignant at the fact that Mr. Astor dragged in the name of their club. The whole matter, with Captain Milne's letter, has been placed before the Prince of Wales and society is awaiting the next move.

NEW YORK, July 11.—A dispatch to the Journal and Advertiser from London says:

William Waldorf Astor's sudden departure for Germany at the very height of the season, the cancelling of all his engagements here and the recall of the invitations which he had issued for house parties on next Sunday and on Sunday week at Cliveden are universally regarded as signaling the close of his social career in London.

It is openly declared here that the Prince of Wales, who is the supreme arbiter of English society, has cut him. In consequence of his insulting treatment of Captain Sir Berkeley Milne last week, and London is only too ready to take its cue in this matter from the future King, as Mr. Astor, in spite of his wealth and of the magnificence of his entertainments, has made many enemies by his idiosyncrasies and his extraordinary arrogance.

Confirmation is given to these stories of Mr. Astor's fall from royal favor by the fact that his name is conspicuously absent from the list of guests asked to the Queen's garden party at Buckingham Palace tomorrow, for which over a thousand invitations have been issued.

### Accident to a Picnic.

CHICAGO, July 11.—As a Sunday school picnic party of 100 children and their teachers were descending a wooden stairway leading from the Halstead viaduct to the Burlington tracks today, the stairway collapsed and fifty children were precipitated ten feet to the ground below. The following were seriously injured:

JESSIE OLDS, aged 12.  
JAMES K. MILLER, 14.  
LOUIS PETRI, 12.  
ANNIE KRUEGER, 11.

Fifteen others sustained painful bruises. The debris fell across the Burlington tracks and blocked the traffic for over an hour.

Sheriff Coney brought down from Kauai a Japanese who escaped from the Lihue jail and has been at large for about eight months. He was caught lately near Ewa and was sent back to Kauai on the steamer W. O. Hall.

## WILL ESTABLISH CIVIL SERVICE HERE

WASHINGTON, July 6.—At the request of the Philippine Commission, through the Secretary of War, F. M. Kiggins, chairman of the central board of examiners, United States Civil Service Commission, has been assigned to duty on the Philippines. This assignment is made to establish civil service examinations to test the fitness of applicants in the transfer of the Philippine government from the military to a civil basis. The selection of Mr. Kiggins, it is understood, was arranged between Judge Taft, president of the Philippine Commission, and President Proctor, of the Civil Service Commission, last April when the Philippine Commission was holding its sessions in Washington.

Mr. Kiggins' recognized ability and his long experience with the Civil Service Commission render him well qualified for the important work required in the organization of a civil service system in the Philippines. He is a graduate in law of both Georgetown and Columbian Universities and received the degree of master of diplomacy from Columbian University last May. He is also well known in various circles in the city, being a pastmaster of B. B. French Lodge, F. A. A. M., a member of Washington Commandery, K. T., and a member of Almas Temple of the Mystic Shrine.

Mr. Kiggins will stop in Hawaii on his way to the Philippines to organize a board of civil service examiners and establish civil service examinations in that island. The executive departments have recognized places in Hawaii and Porto Rico as classified under the new civil government acts would be classified if they were in the United States. In view of this understanding, the Civil Service Commission is taking the necessary steps to apply the civil service rules throughout our new possessions.

Professor Alexander has a letter from the president of the Civil Service Commission of the United States under date of July 6, telling of Mr. Kiggins' mission and explaining its scope.

### MUST BE REMODELED. Board of Health Refuses Permit For Territorial Stables.

Dr. Wood, president of the Board of Health, advocates the prohibition of earth-lined cesspools throughout the entire business district and the surrounding portion of the town bounded by School, Liliha and Alapai streets.

At yesterday's meeting of the Board Dr. Wood introduced a resolution embodying his ideas, but the other members of the Board thought it a trifle too radical and it was tabled for the present. The resolution was as follows:

Whereas, the custom of excavating cesspools into the porous layer of the soil and depositing therein albuminous and other organic waste, including the excrements from human beings and animals, and allowing such organic waste in a soluble state to permeate the soil to a point of saturation in thickly populated districts, is in itself a pernicious custom and

Whereas, the population of Honolulu has greatly increased in the last two years and is at present rapidly increasing, and

Whereas, typhoid fever has become a prevailing disease in Honolulu and the Territory in general, and

Whereas, the city has just received a severe and expensive demonstration of the evils of such soil pollution, therefore be it

Resolved, That the excavating of cesspools, except such as are made watertight by cement or other impervious material, be positively prohibited in that portion of the city of Honolulu bounded feet Ewa of Liliha street, from the east to School street, thence to the summit of Punchbowl, thence to Alapai street, thence to the sea, and so to the starting point.

Dr. Emerson thought the measure too radical, as he said it would be very expensive for many people in the district mentioned, notably on the slopes of Punchbowl to take care of such cesspools, and keep them properly excavated. Some of the other members agreed with him and the resolution was laid on the table.

The report of the committee appointed by the Board at its last meeting to report on the matter of the Pantheon building, reported the resolution that was informally adopted by a majority of the Board last Saturday, was formally read and adopted.

### THE WRECKED SAALÉ. Horrible Scenes on the German Death Ship.

NEW YORK, July 11.—Three more bodies have been recovered from the hull of the burned steamship Saalé, making thirty-six found on that vessel. One of the three, a mere skeleton with a few shreds of flesh on it, was found in an after corner on the starboard side in the saloon. The second body found had the head burned off. The three bodies were nude and were so disfigured by burns and decomposition that identification was impossible.

Down in the saloon of the Saalé not a splinter of the woodwork remains. From one iron side to the other everything except the metal has been burned away. The iron floor is warped and blistered into hillocks, and six inches of mud, charcoal and debris cover the floor of what was the saloon of the steamship. Nothing remains except the iron bases of the seats that were screwed to the floor around the tables.

The Saalé probably will be raised today. It has not yet been decided what will be done with the hulks. One of the captains aboard the wreck said a boat would be sent up from quarantine to disinfect the vessel.

A number of longshoremen are busy emptying the Main of her cargo. After that is done repairs on her will begin immediately.

In the Bremen the wreckers are closing up portholes and doing such other work as will be necessary for floating her.

### Party For the Neill Company.

The management of the Hawaiian hotel gave a very pleasant party to the Neill company last evening. The lanais were specially decorated for the occasion and the Quintette club furnished the music for the dancing which continued until after 11 o'clock. Afterwards there were refreshments, served in the dining room. Beside the guests of the hotel and the members of the Neill company there were a number of guests from the city in attendance.

### CHAS. WILDER MARRIED.

His Bride Was Miss Grace Burr of San Francisco.

Miss Grace Burr, daughter of Mr. and Mrs. Amos Burr, has given her friends a genuine surprise, having been married yesterday in New York to Charles Wilder, who, until recently, occupied the post of Hawaiian Consul-General at this port. Particulars by telegraph tell that the marriage was at noon in the Church of the Holy Apostles, and that the Rev. W. D. Williams was the officiating clergyman.

The interesting tidings savored at first of an elopement, but Mr. Burr, who is the local agent of the New York Central, says that the family were cognizant of all the plans. Miss Burr left this city about three months ago, presumably to visit some friends, but it was decided that Mr. Wilder was to join her, and that together they would make the return trip. Miss Burr made a stay in Chicago, and since that time has been with friends in New York. Mr. Wilder was a delegate to the Democratic Convention, representing Hawaii, and immediately upon adjournment left for New York to meet his betrothed.

Mr. Wilder belongs to one of the best known and wealthiest families in the Hawaiian Islands. He succeeded Samuel McKinley, brother of the President, as Consul-General, a position which he held until two months ago, when it was abolished by reason of the island becoming a territory.

Mr. Wilder's father is head of the steamship company which bears his name, and the family is identified with other large Hawaiian enterprises.

Mr. and Mrs. Wilder will travel in the East and expect to reach this city a month hence. Later they will journey to Honolulu, but expect to make their permanent home in this city.

### THE GOVERNOR'S COUNCIL.

Routine Matters Discussed by Heads of Departments.

In the Governor's council yesterday Treasurer Lansing presented a letter that had been sent by the Registrar of Elections to Jonathan Shaw, collector of taxes, calling attention to the fact that according to the Hawaiian election law he was required to furnish the Boards of Registration with a list of those people who had paid their poll tax, but after considerable discussion it was decided that this portion of the law was a dead letter since the change from a Republic to a Territory. The objection of the Hawaiian Fertilizer Company to the payment of a tax on the sale of imported merchandise on the ground that the raw material only was imported and the goods manufactured in the Islands, was also reported by Mr. Lansing, and he said that he had not been able to see the matter as the company had desired for there was nothing in the law that would justify the exemption.

The articles of incorporation of the L. Turner Company of Hilo were reported by the Attorney-General as not in due form as they neglect to specify the different classes of merchandise in giving the valuation of the goods in hand.

Changes in the terms of exchange of land with Charles Booth relative to the widening of Beretania street and the extension of Vineyard street were reported by Mr. McCandless and were approved by the meeting.

The Bishop Estate presented an offer to deed a piece of land at Kakaako for the straightening of the streets if the Government will build a wharf between the Naval wharf and the Marine Railway. Captain Merry, U. S. N., who is in command of the port is alleged to favor the plan.

### WANTS NO MORE CESSPOOLS.

Dr. Wood Advocates Their Abolition in Business Districts.

The Territorial Stables were refused a building permit for their new structure on King street by the Board of Health yesterday. It appeared that the company proposed to cover a lot 156 by 244 feet in extent with one structure under different roof part of it to be used for stores, part for a lodging house and part for stables for 102 horses, and as there was no air space between the buildings the Board decided to refuse the permit, so the company will have to entirely remodel its plans. S. M. Ballou appeared before the Board for the company, and he stated that the company would do everything in its power to keep the building in sanitary condition. He believed that the reason for the adverse report on the building was due to its juxtaposition to the Kawaiahao seminary.

Mr. Lowrey moved that the building permit be granted provided an air space of five feet be maintained all about the three sides of the building devoted to the stables. Mr. Ballou said that this amounted to a practical prohibition of the building, but the Board passed the resolution.

### Reformer Goes Home.

Quite unexpectedly Leung Chi-tso, the Chinese reformer, left on the Nippon Maru for Yokohama. There is something of mystery in connection with his departure. He is alleged to have received several brief cablegrams, via San Francisco, telling him to come back to Japan at once as his presence there was desired as soon as possible. Some of the members of the Bow Wong society in Honolulu take this to mean that matters are now ripe for the Society to strike its long expected blow for the restoration of the young emperor. One of the telegrams received from the Orient is alleged to have been from Li Hung Chang, the famous Chinese statesman, who is said to be a sympathizer with the reform party and may now be willing, considering the critical state of affairs in the Celestial kingdom to openly avow his connection with the organization. Leung booked on the Nippon as Kashimabala, the name he assumed when he secured naturalization papers in Japan. He took a first-class passage and was accompanied by Sun Cheong of this city.

### "Want of Watchfulness

#### Makes the Thief."

Many cases of poor health come from want of watchfulness. But if you keep your blood pure no thief can steal your health. The one effective, natural blood purifier is Hood's Sarsaparilla.

Disordered Blood—"My father has long been troubled with disordered blood and weak back. Hood's Sarsaparilla made him strong and healthy; he works every day." A. S. Wykes, S. Easton, Pa.

Humor—"When I need a blood purifier I take Hood's Sarsaparilla. It cured my humor and is excellent as a nerve tonic." Josie Eaton, Stafford Springs, Ct.

## IS A MUNICIPAL FORM OF GOVERNMENT WANTED?

Views of Prominent Citizens.

### ALMOST ALL AGAINST IT

Increased Burden of Taxation  
Principal Argument Urged  
Against Change.

For some time the asserted need of a municipal government for Honolulu has been argued. The Advertiser yesterday asked the views of a number of prominent citizens, all of whom are property owners and most of whom are heavily interested in Honolulu. The following interviews, brief as they are, speak for themselves and tell plainly the opposition to a municipal government at the present time:

#### ATHERTON OPPOSED.

J. B. Atherton was firmly opposed to transforming Honolulu into a municipality. The increased taxes, he said, would not be commensurate to the benefits which Honolulu as a city would receive. "No, sir, I don't think, as a business man and a taxpayer," said Mr. Atherton, "that a municipality is an absolute necessity. With the property assessments increased and a territorial and city tax added, the percentage would rise from one per cent to two and a half or three per cent."

#### NOT YET, SAYS HALL.

W. W. Hall has not given the subject much consideration, but he thought in time the necessity would arise for a municipality. "No," said he, "I don't think it is imperative just now to hasten the change, but say in a year or so. We ought to become adjusted to the conditions arising out of the change from a Republic to a Territory, and then think of municipal government. As to the matter of increased taxation? Well, taxes are increasing and the city valuations have gone up tremendously, according to the figures of the assessor. Taxable property which was worth probably \$10,000 or \$11,000 has been put up as high as \$20,000, and property which gives little or no revenue has taken the same course, but I don't think it could find a purchaser at the assessor's figures. However, I am of the opinion, even in the face of the increase of taxes, coming from territorial and municipal taxes, that we should have a municipal government. We want good streets and good sidewalks—there are many improvements which I could name. Under the present circumstances these we only get here and there, simply taking our chances on getting appropriations for such purposes. The municipal taxes would provide for these features, and Honolulu would become greatly improved. Yes, I favor a municipal government."

#### CARTER AGAINST IT.

George R. Carter, a prominent member of the Civic Federation movement, a large property owner and one who has many estate interests to look after, said: "Well, to tell the truth, when the proposition was first broached, I thought it was a foregone conclusion that Honolulu must by natural causes become a municipality. I thought the change of government made it a necessity. Since then, however, I have heard the matter discussed pro and con, and am now convinced that Honolulu need not become a municipality, at least for the present. The taxes will increase from about one per cent to three per cent, and the burden will fall upon the property owners to such an extent that the benefits to be derived from a municipal government will certainly be well paid for. There will be a city tax and a territorial tax, just as there is in any other Territory of the United States."

## THE MAINLAND SUGAR MARKET

The Latest Prices—Doscher is Out of the Combination.

NEW YORK, July 11.—Sugar—Raw firm; fair refining, 4 3/4c; centrifugal, 35 test, 4 1/2c; molasses sugar, 4c.

NEW YORK, July 11.—The Tribune says:

Wall street is interested in a report that Chas. E. Doscher has withdrawn from the National Sugar Refining Co. of New Jersey, of which he has been a director and a large stockholder, and has retired permanently from the sugar business. The report is accepted as true, although Mr. Doscher could not be found when an effort was made to secure a confirmation from him. One of his fellow directors was quoted, however, as declaring that Mr. Doscher's retirement was not the result of any disagreement in the board.

The National Sugar Refining Company of New Jersey was incorporated on June 2 at Trenton with \$20,000,000 capital, one-half being preferred stock and one-half common. It was a consolidation of three of so-called "Independent" companies—the National Sugar Refining Company, capitalized \$1,000,000 in stock, the Mollenhauer Sugar Refining Company, capitalized at \$1,000,000 and the New York Sugar Refining Company, with a capitalization of \$600,000 stock and \$2,400,000 bonds.

The National and Mollenhauer had all along been on friendly terms with the American Sugar Refining Company, while the New York, controlled by Mr. Doscher, had been a strenuous competitor of the trust. It was therefore taken by the street as an indication that the sugar war was over when the Doscher refinery was connected with the National and Mollenhauer, and in fact, the raising of the price of refined sugar, which has been going on rapidly during the last few weeks, began at just the time of the new company's organization, the trust announcing each advance and the Arbutkles and the new National company promptly making the new rate.

States. There will be a large number of city officers to be paid, and money must be called in to pay their salaries. We have lost the custom house revenues by the change to a Territory, and that gap must be filled in some manner. I have changed my opinion very much in regard to this matter, and do not now favor the municipality movement. If we go along as well under the Territorial form as under the Republic, there is no reason why we should not pursue the even tenor of our way. The Legislature can provide for Honolulu's needs as in the past, and probably can do it as well as a city council would. Furthermore, there is the proposition of fixing the responsibility upon one man. One man is better than a dozen boards. There can be no jobbery. If there is, the responsibility is fixed upon that one man, and I don't believe the one man will abuse his power. He has not half the opportunity that a large number of officers and boards possess."

#### TENNEY SAYS NO.

E. D. Tenney was most emphatic in his stand against municipal government for Honolulu. He opposed the measure on account of the increased taxes, which would lift the property owner almost off his feet if additional percentages were laid against him. He referred to the municipality of San Francisco, which he said was almost driving the money men out of the State. In San Francisco, he said, he believed that railroad bonds were taxed by the municipality, which cut down personal revenues materially.

"Yes, sir, I am opposed to a municipal government for Honolulu, first, last and always," said Mr. Tenney, bringing his fist down upon his desk to forcibly explain his position on the subject. "Honolulu pays for what she has already, and she will have to pay for it always, but I don't believe we should be taxed for additional expenses when we can get along without that being done. The general improvements of the whole Territory will have to be participated in by the city as much as today, with the exception that we will be supporting an expensive list of city officials. Politicians will shout and say we must have a municipal government. On the contrary, I believe the business men, taxpayers and property owners will, after mature consideration, say that a municipality is not necessary, and they ought to be the ones whose opinion should be valued, for they have to pay the bills. You can say positively for me that I am against making Honolulu a municipality."

#### BOWEN DON'T LIKE IT.

W. A. Bowen said he was not a student of political economy and had not given the subject as much thought as it warranted. In some ways, he said, he had first thought a municipality would be the proper thing for Honolulu, but finally said that he was unalterably opposed to the proposition on account of the general increase of taxes, both city and territorial. "You can say for me that I do not favor the measure," said Mr. Bowen in conclusion.

#### THRUM NOT CERTAIN.

T. G. Thrum said he had not had an opportunity to give the subject proper thought since it was first brought to the public's attention, as he had been up to his ears in the work as Registrar of Conveyances and his private business. He was non-committal but promised to study the subject.

#### SOPER AND WATERHOUSE.

Colonel Soper was of the opinion that the question raised by the increased taxation was a sufficient argument against a municipality. On that ground he was firmly opposed to it. "I don't believe we should form a municipal government here," said the Colonel. "If the people of Hilo wish to become a municipality, let them have it. But for Honolulu I for one say 'No.' I don't think the time is ripe yet for it. We can afford to wait, especially in view of the additional expense we would be put to to maintain a city government." Henry Waterhouse had not had an opportunity to look the matter up, having just returned from a visit to the Mainland. He preferred not to commit himself one way or the other until he had studied the question over.

## FAVOR INDUSTRIAL SCHOOL TRAINING

Meeting of the Gen S. C. Armstrong Association Yesterday.

The General S. C. Armstrong Industrial Association held its annual meeting in the High School building yesterday afternoon at 2 o'clock. About thirty teachers were in attendance and exhibited so much enthusiasm in the work that it was decided to hold an additional meeting today at the same hour.

The work of the meeting consisted in the reading and adoption of the minutes of last year's meeting, and the hearing of reports from the various schools of the Islands relating to industrial school pursuits. Mr. Robert Low, the president, read reports upon the progress of the agricultural and manual training work during the year, and these will be printed and distributed to all the teachers in the Islands. Considerable discussion was had over the subject matter of the reports and elicited the fact that the teachers were jubilant over the results. Most of the discussion concerned the report of Mr. Andrews of the Hauula school which was published in full in the Advertiser a short time since. This was considered the best report of all relating to agricultural work.

Certain reports expressed the discouragement resulting from lack of water, bad soil and other features which had prevented a successful year in the line of work mapped out. Others while temporarily discouraged at such failures, were determined to try again. One teacher reported having great success in teaching a large number of girls the art of cooking.

During the present session a large exhibit from the different schools of the Islands is open to the inspection of visitors. This exhibit consists of water-color work illustrating stories and lessons, mat and fan weaving, wood carving, and many other industrial displays. The Association will close its session at the close of today's meeting.

**ENGLAND REFUSES FUNDS**

Bishop Willis Writes a Warm Let-  
ter to Missionary Society  
Abroad.

Through the Luccan Magazine published yesterday it is learned that the English Society for the Propagation of the Gospel has withdrawn its support of the Anglican Church here. The Anglican Bishop has a lengthy article on the matter in the magazine, in which he states his hope that he will be able to weather the stand until the local Church is united with the Episcopal Church of the United States. The article is in the form of a letter addressed to the secretary of the society in England, and begins as follows:

"Your letter of May 4th is before me. It informs me that after June 30th, of the present year, this diocese, created by the Church of England as the advanced post of the Anglican communion in the Pacific ocean, knitting together East and West, will cease to receive any aid from the Society for the Propagation of the Gospel. The meaning of this is that the Bishop who has been at his post for twenty-eight years is not only to be deprived of the amount voted for his own maintenance, but is to lose also a grant of £400 a year, on which he has depended to make up the stipends of English and Chinese clergy, most of whom he has ordained, and who have therefore a claim on him for their support. Thus, not through war, famine or other calamity, but by the deliberate vote of the standing committee of the S. P. G., which for two centuries has been the War Office of the Church of England for spreading and maintaining Christ's Kingdom in the world, the garrison of one of the most distant outposts is refused all further supplies. The opening of the bicentenary year of the S. P. G. is to be marked by the Luccan Magazine being abandoned as a beleaguered city. "Neither in the letter of the Bishop of New York, to which you refer, nor in any communication that has reached me during the last two years, has a word been written containing or even implying an assurance that the Church in the U. S. A. is prepared to assume at present any of the financial responsibility towards the diocese hitherto borne by the Society. All that is offered until October, 1901, is Episcopal oversight.

"The ground on which the Society, after reconsidering the question, has finally determined to abandon the Diocese of Honolulu rests on the following communication, received by you from the Bishop of New York, in reply to an inquiry made by yourself:

"It is entirely competent to the American Church to take over the charge of church work in Honolulu at any moment. We cannot elect a Bishop of Honolulu until the meeting of our General Synod, but our canons provide a mode by which the presiding Bishop may assign to any neighboring Bishop the care of any territory which needs Episcopal supervision."

The Anglican Bishop discusses the status of the Church here and says that no Bishop of the United States can be assigned here until in pursuance of an enabling act of the Diocesan Synod of the Anglican Church in Hawaii, the estate of the corporation is made by appropriate words of transfer subject to or conformable with the constitution and canons of the Protestant Episcopal Church in the United States. The Bishop says: "As to the extent and value of this estate: When I came out in 1872 the property owned by the Anglican Church, then styled the 'Reformed Catholic Church,' did not comprise more than two acres in fee simple, the value of which, with buildings, did not exceed \$10,000. At the present date the Anglican Church in Hawaii owns thirteen acres in seventeen different lots on the Islands of Oahu, Maui and Hawaii, the total value of which, with the church, parsonage and schoolroom thereon, is over \$100,000. This does not include a valuable property on which a Boys' Boarding School has been conducted since 1872, and not being owned by the corporation.

"The readiness of the Bishop and Synod of the Anglican Church in Hawaii to take the necessary steps for bringing the diocese under the constitution and canons of the Church in the United States cannot be more plainly stated. All that is asked in return by those offering to hand over their valuable property to the Church in the United States is that the Church will respect the integrity of the Church in Hawaii on receiving it into union with itself, a request which admits of no other interpretation than that the See of Honolulu be preserved unimpaired."

The Bishop goes on addressing the Secretary of the Propagation Society: "Is this the reward that the Church of England gives, through the instrumentality of the Society, to those who go at her call to plant the Church beyond the limits of the British Empire? How do you reconcile it with the promise that you made me in 1893, when the tidings reached you of the overthrow of the monarchy, and the first attempt to obtain annexation to the United States before President Harrison's administration expired? You then wrote me as follows:

"My Dear Bishop:—If you are annexed to the United States you may rely on the Society doing its best to tide you over the change. Yours very sincerely, HENRY W. TUCKER."

"Notwithstanding the straits in which the action of the Society places me, my duty is clear. It is to remain at the post to which I was called by the Assembled Head of the Church, who for twenty-eight years has accepted my ministry with all its imperfections and shortcomings. I cannot believe that it is his will that the foundations that have been laid should be torn up, and the stones of his temple thrown down.

"But were I now to abandon my post, as I infer I am expected to do, much of the work of the last twenty-eight years would be broken up before October, 1901. There is every reason to fear that our Chinese congregations, an important, increasing and earnest element in the Anglican Church, unable to maintain their clergy and teachers, would be scattered.

"Consequently, though perplexed by the unpredicated and, as it seems to me, uncalled for action of the Society, I am not in despair, but trust that help will be forthcoming to enable me to continue at the post to which the

Church has sent me, and maintain what has been wrought, until the diocese passes by constitutional methods into union with the Church in the United States. Believe me, very sincerely yours,  
"ALFRED HONOLULU."

The Family Friend.

No remedy has as good a right to that title as Kickapoo Indian Oil. It is good for internal and external use; it is pain's most powerful panacea. No one can say "I won't" have neuralgia, rheumatism, earache or any other acute pain, but everyone who has a bottle of Kickapoo Indian Oil in the house can say with confidence "I won't" have neuralgia or any other pain long. The power of this oil over pain is marvelous. Toothache, earache, headache, neuralgia and rheumatic pains, dysentery, diarrhea, cholera morbus, colic, cramps, and all acute pain yield instantly to it. You are always proof against pain with a bottle in the house. Hobson Drug Co., agents for Kickapoo Indian Remedies.

**METEOROLOGICAL DATA  
FOR MONTH OF JUNE**

Temperature mean for the month, 77.6 F.; normal, 75.9; average daily maximum, 84.7; average daily minimum, 72.2; average daily range, 12.5; greatest daily range, 18.0; least daily range, 8.0; highest temperature, 88; lowest, 67. The month was the warmest June on record.

Barometer average, 30.22; normal, 30.02 (corrected for gravity); highest, 30.99; lowest, 29.87; greatest change in 24 hours, .06. The barometer readings were very uniform through the month.

Relative humidity, 67.9 per cent; normal, 70.5; mean dew-point, 65.1; normal, 65.5; absolute moisture, 7.03 grains per cubic foot; normal, 6.99.

Rainfall, 0.38 inches; normal, 1.50; rain-record days, 14; no rain, 18. Greatest fall in one day, .41. Luai kaha rainfall, 6.38, being the highest of any station in the group; Kapolei Park, 0.95.

The arctic well level fell from 33.62 feet above sea level to 33.53. The flooding of rice land occurs in July.

Trade-wind days, 29; (5 of N. N. E.); normal number of trade-wind days, 26. Cloudiness, tenths of sky, 3.1; normal, 4.0. Approximate percentages of district rainfall: Hilo, 34 to 56; Hamakua, 62 to 70; Kohala, 62; Waimea, 102; Kona, 52 to 120; Kauai, 60, except Pahala, 23; Oahu, 49; Lower Puna, 110; Maui varies from 15 to 300 per cent; probably 60; Oahu, 60 per cent; Kauai, 50 to 60.

Average temperatures: Pepeekeo, 100 feet elevation, 80.5 mean maximum and 70.1 mean minimum; Waimea, 2,730 feet elevation, 75.5 and 63.0; Kohala, 555 feet elevation, 82.1 and 71.2; Kealahou, 1,584 feet elevation, mean at 6 a. m., 64.1; Kula, 4,000 feet elevation, highest 88, lowest 67.5.

## A Few Facts About Vehicles

It is not the wheels or the axles or the springs or the painting or the trimming that makes a high-grade vehicle. It is a perfect combination of these various parts. A vehicle to withstand the effects of our tropical climate must be provided with ALL these important essentials.

**OUR VEHICLES HAVE THEM.**

We are the sole agents for the just celebrated O'BRIEN VEHICLES. These are the Buggies and Runabouts that have won medals and diplomas wherever exhibited, and are the only Vehicles which are equipped with the O'Brien Patent Spring, the strongest and easiest riding spring made.

We have also in stock at all times a full line of Surreys, Phaetons, Buggies, Runabouts, etc., direct from the factory of the H. H. Babcock Co., N. Y. These Vehicles are built by skilled mechanics, from carefully selected stock, and are the perfection of the carriage-builder's art; are fitted with Babcock Patent Self-Oiling and Dust-Excluding Axles, Bradley Quick Shift Shaft Couplings, Bailey Fifth Wheel, and Happy Thought Gear. We have been appointed SOLE AGENTS for these Vehicles in the Territory of Hawaii, and are prepared to guarantee them in every respect.

Don't get one just as good. Get THE BEST for business or pleasure. It costs as much to import cheap Vehicles as it does good ones. New stock has been received ex "Australia," "Irving," "Helene" and "Mary E. Foster."

Come and see the latest in up-to-date Vehicles, and get our prices before you make a purchase.

KING STREET  
ABOVE BETHEL.

The British steamer Moana which arrived from San Francisco yesterday morning, bringing one day's later mail and news from the mainland than was brought by the Nippon Maru, sailed for the Colonies in the afternoon at 3 o'clock, carrying the following passengers from Honolulu: Mr. and Mrs. Branson, Mr. Elkington, Rev. C. D. Buck and wife, A. A. Brown, Mrs. McKensie and Miss Keyes.

**THE METEOR'S CAPTAIN.**

One of the most popular of the merchantmen now in port is the fine four-masted schooner Meteor of which Captain Henry Lass is master. Captain Lass has sailed in the coast lumber trade for many years, and, though still a very young man, has a vessel that makes him the envy of many of the other masters of the lumber fleet. The real commander of the Meteor, however, is tiny Master Lass, just four months old, whose accomplishments in navigation, about the cabin, are truly wonderful. Captain Lass and family are most comfortably fixed on board the vessel and his friendly relations with other skippers of the port are attested by numerous visitors.

**NAGASAKI DIRECT.**

SAN FRANCISCO, July 11.—The transport Sumner will sail next Monday for Nagasaki with a detachment of the Fifteenth Infantry and will go direct to the Japanese port. The fact that the Sumner is under orders to pass Honolulu and all possible haste in reaching Nagasaki with the troops is regarded as proof that the Americans are to take an active part in the quelling of disturbances in China.

**READY BY AUGUST.**

SAN FRANCISCO, July 7.—Rapid progress is being made in getting the new steamer John S. Kimball ready for sea. She is expected to be ready for her trial trip by August 1st. The machinery is all in place, and the staterooms and social hall are about finished. Captain Thwing's room, on the upper deck, will be 12x16 feet in size, finished in mahogany.

**ADAMS TO CRUISE AGAIN.**

SAN FRANCISCO, July 7.—The training-ship Adams, which has been lying off Goat Island since her return from Astoria a few days ago, will go to Mare Island Monday to take on provisions and prepare for another cruise with apprentices. The trip recently completed proved to be very satisfactory to all concerned, the apprentices showing aptitude for their work, with a few exceptions, and 120 out of 147 passed the second-class examination. The boys to go on the next cruise have been stationed on Goat Island.

**NEW SCHOONER AEOLUS.**

SAN FRANCISCO, July 9.—The new schooner Aeolus, which was launched ten days ago at Captain Matthew Turner's yard at Benicia, was brought to this city yesterday afternoon and is at the bulkhead between Mission wharves 1 and 2. The vessel was built for the Jahuit Company, in the Marshall Islands, and will sail for the islands in about a week with a cargo of general merchandise and four passengers. The Aeolus has accommodations for eight passengers. She is commanded by Captain Wellbacher and has a length of 100 feet, with beam of 24½ feet and depth of 10 feet. The Aeolus will remain in the Marshall Islands trade.

**PHILADELPHIA TO CRUISE.**

SAN FRANCISCO, July 8.—The Adjutant-General of the State has received word from Washington that the cruiser Philadelphia will be available for the naval militia of California the first week in August for a cruise along the coast. While most of the Reserves would delight in being aboard the Philadelphia for several days, regret is expressed among the officers that the cruise cannot be made during or immediately following the Admission day celebration here in September, and in the Marion instead of some other ship. An effort is to be made, however, to secure the presence of all the naval militia divisions in the State for the cruise.

**VESSELS LIBELED.**

SAN FRANCISCO, July 4.—The J. D. Spreckels & Brothers Company filed a libel yesterday against the British ship Musselberg to recover \$12,733. This amount is claimed as compensation for damage to a cargo of cement shipped to this port from Antwerp. Other libels filed yesterday were these: Knud Larsen and Hans Jensen against American bark Fort George to recover \$153.30, due as wages; Walter C. Larson against the Kotzebue Sound Transportation Company and others to recover \$240 for services as engineer on the steamer Santa Rosa to recover \$200 for personal injuries; Oscar Carlson against the same steamer to recover \$750 for personal injuries.

**A YEAR'S TONNAGE.**

WASHINGTON, July 2.—The Commissioner of Navigation states that during the fiscal year just closed the total tonnage of American vessels officially registered amounted to 417,034 gross tons. Full returns from Honolulu will not be received for a fortnight, but about 38,000 tons of Hawaiian vessels were entitled to American documents under the act of Congress creating the Territory of Hawaii. Porto Rican vessels entitled to American documents aggregated less than 1000 tons.

The most important additions of the year have been large steel vessels built for the trade of the Great Lakes. They include the James J. Hill, 6025 gross tons, the largest merchant vessel built in the United States. On the Pacific seaboard the largest vessel built is the

steamship California, 5879 gross tons, launched at San Francisco, which will be the pioneer vessel in opening up regular steam communication between Hawaii and the ports of the United States. The steel ship Edward Sewall, 3306 gross tons, and the steel bark Kaulani, 1570 gross tons, are two square rigged vessels built. Hawaiian vessels registered at San Francisco since June 14th aggregate 8631 tons. The vessels constructed on the Pacific seaboard during the year comprise 37,386 gross tons.

**FAST SAILING.**

SAN FRANCISCO, July 7.—The British bark Galgate, Captain Griffiths, a big four-master, made a record-breaking run on her voyage from Shanghai to the mouth of the Columbia, covering the distance from buoy to buoy in twenty-seven days. The nearest approach to this record is said to have been made by one of Renton, Holmes & Co.'s four-masted schooners, which made the run from Shanghai to the Sound in twenty-eight days. Vessels from Shanghai are less frequent visitors here than those from Yokohama and other Japanese ports, and the wonderful run of the Galgate can be better understood when it is stated that the voyage from Shanghai to the Columbia river is generally conceded by shipmasters to be fully a week or ten days longer than the run from Yokohama. The record passage from the latter port to the Columbia river is a fraction less than twenty-two days, the Selkirk making the record run about three years ago.

The Galgate's biggest day's performance was 295 miles, but in a ten-day run she reeled off over 2600 miles, an average of over eleven miles an hour, and a speed which would bother most of the tramp steamers to maintain.—Portland Oregonian.

**SHIPPING NOTES.**

The ship Balclutha sailed yesterday for the north to load lumber for Sydney.

The schooner Robert Lewers cleared yesterday for Honolulu with a cargo of merchandise.

Beadle Brothers have bought the steamer Point Arena from H. Templeman and Captain Hansen.

The Pacific Mail steamer Rio de Janeiro will be due today from Hongkong, Yokohama and Honolulu.

The transport Hancock will be the next Government vessel to arrive from Manila, and will be due in about ten days.

The German ship Louise, out 221 days from Tampa for Yokohama, has been listed as overdue and 30 per cent reinsurance is quoted upon her.

Andrew Jackson has been appointed captain of the schooner North Bend, and Captain Mikkleson has been given command of the schooner Claudina.

SAN FRANCISCO, July 5.—The schooner Mary Dodge arrived yesterday from Honolulu with 6180 bags of sugar.

SAN FRANCISCO, July 6.—There is only a limited amount of disengaged tonnage in port, and crop reports favor wheat holders. No spot charters have been reported lately.

SAN FRANCISCO, July 7.—The brig John D. Spreckels cleared yesterday for Guam with a cargo of general merchandise for the Western Commercial Company, and will probably sail today.

SAN FRANCISCO, July 8.—The bark Santiago sailed yesterday for Hilo with a cargo of general merchandise. The steamer Curacao sailed yesterday for Ensenada, La Paz, Guaymas and Mazatlan.

The British steamer Victoria, formerly in the transport service, has been chartered by Dunsuir to bring coal from Nanaimo. The collier Universe, now in port is making her last trip here, having been chartered for other business.

SAN FRANCISCO, July 9.—The new schooner William Olsen, commanded by Captain Hutman, sailed yesterday on her maiden voyage, with Willapa Harbor as her destination. She will take a cargo of lumber thence to Honolulu, when she will enter the Mexican coast trade.

**UNCLE SAM'S NAVY.**

Seventy Warships Now Under Construction.

WASHINGTON, July 8.—Seventy warships are under construction, or have their designs in preparation, for the United States navy. This formidable fleet is described in a statement just issued by Rear Admiral Hichborn, chief constructor. The statement gives the names of twelve battleships, six armored cruisers, nine protected cruisers, four monitors, one gunboat, sixteen torpedo boat destroyers, fifteen torpedo boats and seven submarine torpedo boats under construction or for which designs are being prepared.

Four of the battleships—the Kentucky, Illinois, Alabama and Wisconsin—are of seventeen knots speed and will be completed within a year, three—the Maine, Missouri and Ohio, are of eighteen knots, and five of nineteen knots have their designs in preparation. Six armored cruisers are all of twenty-two knots. Six of the protected cruisers are of seventeen knots and three of twenty-two knots. Four monitors are of twelve knots speed.

The construction of a gunboat for the great lakes, authorized in 1898, is suspended pending an arrangement with Great Britain as to the armament each nation shall maintain in those waters.

The torpedo boat destroyers are of twenty-nine and thirty knots, and the torpedo boats of twenty-six, twenty-eight and thirty knots. The submarine boat Plunger is under construction at Richmond, Va., and arrangements are being made for contracting for six additional submarine boats of the Holland type. Including the Texas, the battleship fleet of the United States will consist of eighteen vessels, and an armored cruiser squadron, counting the New York and Brooklyn, of eight vessels.

"We are getting a respectable navy now," is the comment of Rear Admiral Hichborn.

The Machias, which has been watching United States interests on the Isthmus of Panama and at Colombian ports for the last seven months, sailed today from San Juan for Hampton Roads.

## Just a Cough

This is its story:  
At first, a slight cough.  
At last, a hemorrhage.  
At first, easy to cure.  
At last, extremely difficult.

**Ayer's  
Cherry  
Pectoral**

quickly conquers your hacking cough. There is no doubt about the cure now.

For over half a century Ayer's Cherry Pectoral has been curing colds and coughs and preventing consumption.

Put up in large and small bottles.

A cure is hastened by placing over the chest one of

### CLERGY DISAGREE ON CREMATION

Anglican Bi-hop Says That  
Mr. Mackintosh's Views  
are Wrong.

The Anglican Bishop of Hawaii does not agree with Rev. Alexander Mackintosh on many subjects. Especially does the former oppose the latter's views on cremation. In the Anglican Church Chronicle, of which Mr. Mackintosh is editor, the latter, writing on the Catholic Church's opposition to incineration, said:

"What matters it what happens to the worn casket which has contained it (the soul)? We need not expatiate on the importance of cremation to the health of those who remain. In the case of natural death, when no infectious disease has been its cause, the Christian burial service could be held over the body in the presence of the relatives and friends, and cremation to follow. The dust should be given to the dust, perhaps not at once, but as soon as possible after cremation. We trust our own friends will do this favor for us when our time comes."

The Anglican Bishop, in his publication, the Diocesan Magazine, the July number of which appeared yesterday, has the following to say about Mr. Mackintosh's views:

"If Mr. Mackintosh is so anxious to be cremated, his wishes can no doubt be gratified by leaving directions in his will, but we sincerely trust that no clergyman of the Anglican Church will be found to carry out the above program, which would turn the Christian burial service into a farce, the original purpose and intention being wholly changed and nothing remaining but the semblance of a solemn rite without reality or meaning."

"We are glad to know that such a practice would never be tolerated in the United States army. Our readers may remember that the report was current when the remains of Captain Satterlee were brought to the Cathedral, before being put on board the Australia, that the form of committal would be gone through outside the Cathedral and the customary salute be fired. 'To do so,' said Col. Mills, 'would be as contrary to my instructions as they are to the order of the Church. On no account will a salute be fired until the body has been consigned to its last resting place.'"

At the Hampton Court Conference the Puritan section of the clergy asked for leave to read the whole of the burial office in the church so as to avoid the risk of getting their feet wet and catching cold by going to the grave side. But they had no hearing at all.

"It will now be seen that Mr. Mackintosh's proposal to go through the order of burial, and then let the body be carried to a furnace, is entirely contrary to the intention of the burial service. If a body is to be cremated it should be as a preparation for burial, which should follow the accustomed order immediately."

### MORE SALOONS.

Orpheum Granted a License and  
Also C. R. Dement.

Thirsty Hawaii will have further opportunity to satisfy itself. The Governor's council yesterday recommended various saloon licenses to be granted. The Orpheum took immediate advantage of the opportunity and last night patrons of the cafe adjoining the theater ordered what they wanted in the line of intoxicants and were freely served.

The license granted the Orpheum and for which \$1,000 was paid yesterday, allows the restaurant to serve liquor of any kind to its patrons but not over a bar. It is specifically stated that those drinking and paying for the liquor must not do so in the room in which the liquor is kept. The granting of a license will probably mean the reopening of the theater in the near future with a low-priced entertainment.

C. R. Dement was given a saloon license for a place in the Perry building on Hotel street. Dement tried to obtain a license for a saloon on the waterfront but failed. Macfarlane & Company were given a dealer's license for Wailuku, Maui. C. T. Green asked for a license to sell light wines and beer at Kahului. License was not granted. J. McClellan of Wailuku, Kauai, was given a license.

### DEATH BENEFIT UNPAID.

Caroline Silva Sues a Portuguese  
Society For Insurance.

Caroline Silva has applied in the Circuit Court for a writ of mandamus against J. G. Silva, president of the Portuguese Mutual Benefit Society of Hawaii, to compel him to turn over a death benefit which is due her. Her petition states that her husband, Manuel Silva, died on December 10th, 1894, at Waimanalo, Oahu, and that he was a member of the Portuguese society which was formed for the purpose of rendering aid to its members in cases of sickness and death. The society has, however, refused to pay her husband's death benefit, and this she wishes paid her.

Judge Humphreys ordered that an alternative writ of mandamus issue, returnable today.

The defendant in the case has filed a demurrer to the complaint and this will probably be argued this morning.

### TROUBLES OF THE DUDOITS.

The Wife Sues For Absolute Divorce  
and Makes Charges.

Emma C. Dudoit resents the alleged unfaithfulness of her husband, Charles Dudoit, and has applied to the Circuit Court for an absolute divorce from him. Her complaint sets forth that she was married to Dudoit by Rev. Mr. Manase at Pauko, Molokai, on July 9th, 1897. She accuses her husband of sustaining improper relations with one Annie Kamaka, and likewise alleges that he has failed to support her since September, 1898. A. G. Correa is Mrs. Dudoit's attorney.

### Insurance Answers.

There were eight answers filed yesterday by insurance companies to complaints for non-payment of insurance on buildings destroyed during the Chinatown fires.

### Denies Liability.

Bijut Komatso has filed an answer in the Circuit Court to the breach of promise case filed recently by Otoni. The answer denies each allegation in the complaint.

### Administratrix Discharged.

Judge Stanley yesterday ordered the final discharge of Mrs. Charlotte King as administratrix of the estate of James A. King.

## LOCAL BREVITIES.

Henry Brown of Cincinnati left Honolulu for the mainland yesterday.

Arrangements of sales will be held at the auction rooms next Friday.

Meeting of Olan stockholders today has been postponed until August 1st.

St. Andrew's Cathedral Sewing Society is holding its annual sale of goods and fair on December 1st.

Handwritten notes stop at the all night sessions. For sale of goods and at Union Harbor.

Peachy has been appointed to the District of Hawaii.

Dr. French was recommended for a license as a physician.

The bills of a number of Chinese who were employed outside of the District during the plague to cook for some of those within the detention camp were presented to the Board and referred to Dr. Garvin with power to approve or reject them.

Dr. Garvin reported that he had made no progress in the matter of reducing expenses and the matter will be further considered at the next meeting of the Board.

It was voted that the warehouse known as the Asia warehouse be turned over to the Board of Education for the use of the children now attending school in the Royal School, which has been condemned as unsafe, and Dr. Garvin was directed to see that what property remained in the building belonging to the Board be stored elsewhere or cleared away.

**Vessel for Micronesia.**

Word comes from Rev. Walter Frear, agent for the American Board, in San Francisco, that the trading vessel "Queen of the Isles" will touch at Honolulu on her way to Jaluit. She is to leave San Francisco about July 19th and will probably reach Honolulu about August 5th and will remain one or two days only. She takes as missionaries Mr. and Mrs. Gray, Miss Foss and Miss Palmer, to re-establish the mission at Ponape. Friends desiring to write to any of the Micronesian missionaries will please have their letters ready before the 5th of August, as this will be the only direct communication with those islands, during this year.

**Bruder to Marry.**

STOCKTON, July 2.—Miss Jessie Crow, daughter of J. T. Crow of Crow's landing, is visiting Miss Nellie Smith of this city. Miss Crow recently returned from Honolulu, which place she visited after her graduation from Mills Seminary. While there she met a Mr. Bruner, who is the United States Government Inspector of Roads, and a wealthy coffee planter. Since Miss Crow's return to the United States Mr. Bruner has also made a trip to this country, and it is whispered that when he again returns to Honolulu there will be a bride with her.

**Criterion to Move.**

The Criterion Saloon is to be removed from its present location to the corner of Bethel and Hotel streets, the property now occupied by the Porter Furniture Company. There will be a saloon on the ground floor and up-stairs there will be places fitted up for private lunches. Charles McCarthy, proprietor of the saloon, secured the lease yesterday for a term of nine and one-half years beginning July, 1901. McCarthy also expects soon to receive papers conveying to him the one-third interest in the Pantheon Saloon which was owned by James Doid.

**Prayers for the President.**

Now that the United States are the sovereign power in the Islands the Anglican Church will cease to utter prayers for the safety of the Queen as hitherto and will instead pray for the President, the Governor of the Territory and the Senate and House of Representatives of Congress as all Episcopal churches do in the States. Bishop Williams gave out the official orders in the last number of the Diocesan Magazine, announcing the changes in all the forms of prayers. They are substantially the same as those of the Episcopal church.

**Yarick, the headless driving hero of the runaway incident on King street Tuesday afternoon, was fined \$4 and costs for drunkenness yesterday. The charge of headless driving was not pressed.**

One of the best known Honolulu men, who has accepted a position with the Hawaiian Electric Light Co., has been employed for the past month at the Electric Light Co. and after the first month will continue at the same work.

THE PEOPLE'S PROVIDER

## THE MOLOKAI TRIP.

## The Board of Health Goes on Friday Night.

It is expected that all of the members of the Board of Health except Dr. Cooper and George W. Smith will go to Molokai on Friday to inspect the settlement at Kalaupapa. The Board will go on the steamer Mikabala, sailing from Honolulu on Friday evening at 9 o'clock and returning some time Saturday evening. Besides the Board there will be several other physicians, a limited number of friends of the colonists, representatives of the newspapers and one or two others.

Dr. French was recommended by the Board of Health yesterday as Government physician at Hanalei, Kauai, in place of Dr. Schwaile, who has resigned.

Dr. J. S. McDonough was recommended for a license as a physician.

The bills of a number of Chinese who were employed outside of the District during the plague to cook for some of those within the detention camp were presented to the Board and referred to Dr. Garvin with power to approve or reject them.

Dr. Garvin reported that he had made no progress in the matter of reducing expenses and the matter will be further considered at the next meeting of the Board.

It was voted that the warehouse known as the Asia warehouse be turned over to the Board of Education for the use of the children now attending school in the Royal School, which has been condemned as unsafe, and Dr. Garvin was directed to see that what property remained in the building belonging to the Board be stored elsewhere or cleared away.

## Vessel for Micronesia.

## Criterion to Move.

The Criterion Saloon is to be removed from its present location to the corner of Bethel and Hotel streets, the property now occupied by the Porter Furniture Company. There will be a saloon on the ground floor and up-stairs there will be places fitted up for private lunches. Charles McCarthy, proprietor of the saloon, secured the lease yesterday for a term of nine and one-half years beginning July, 1901. McCarthy also expects soon to receive papers conveying to him the one-third interest in the Pantheon Saloon which was owned by James Doid.

## Prayers for the President.

Now that the United States are the sovereign power in the Islands the Anglican Church will cease to utter prayers for the safety of the Queen as hitherto and will instead pray for the President, the Governor of the Territory and the Senate and House of Representatives of Congress as all Episcopal churches do in the States. Bishop Williams gave out the official orders in the last number of the Diocesan Magazine, announcing the changes in all the forms of prayers. They are substantially the same as those of the Episcopal church.

Yarick, the headless driving hero of the runaway incident on King street Tuesday afternoon, was fined \$4 and costs for drunkenness yesterday. The charge of headless driving was not pressed.

One of the best known Honolulu men, who has accepted a position with the Hawaiian Electric Light Co., has been employed for the past month at the Electric Light Co. and after the first month will continue at the same work.

## LADIES' STANLEY WAISTS

That nerve-racking cough by using a reliable remedy. We are putting up a preparation which is a decided comfort to people afflicted with a cough which invariably follows an attack of La Grippe.

This preparation of ours is compounded in precise proportions, and it alleviates the irritated membranes of the throat and removes the soreness from the lungs. It does not stupify—IT CURES. It is for this reason that so many prefer

## Putnum's Cherry Cough Comfort

to any other remedy.

You commence to feel the easing effects after the first dose.

There is nothing objectionable about this cure—but just the reverse, as it is a very agreeable and pleasant preparation.

## ALSEN PORTLAND CEMENT

WE HAVE JUST RECEIVED a large shipment of this celebrated Cement, which is the STRONGEST AND MOST SERVICEABLE CEMENT MADE, and will permit the admixture of a larger amount of sand and gravel, with less loss of strength, than any other brand; it is therefore the most economical.

ALSEN has no equal in color, fineness and sand carrying capacity. It weighs less per bushel, measuring about 10 per cent more cement to a barrel than other brands, which very materially reduces its cost as compared with other cements. It is therefore an economical cement to use, and specially adapted for fine concrete work.

The following tests, made in actual work by Col. D. C. Houston, Corps of Engineers, U. S. A., at the sea wall arounds; seven days, 600 pounds; thirty days, 1000 pounds; ninety days, 1200 pounds. It is as follows: Tensile strength per square inch—One day, 384 pound Governor's Island, New York Harbor. For sidewalks it gives the best color and the most durable wearing surface.

A few of the large contracts in which Alsen Cement was used: Cable R. R., Baltimore, 35,000 barrels; Quebec Harbor Improvement, 20,000 barrels; Northern Pacific R. R. Bridges, 20,000 barrels.
