WAILUKU, MAUI, H. T., SATURDAY, JULY 17, 1909

NUMBER 22

## Will See Great Races

Maui Seeks to be Racing  
Center.

Encouraged by the support given the race course at Kahului during the past years the Maui Racing Association has decided to bid for the leading horses of the islands at the next meet on July fourth.

A meeting of the Association was held Monday evening at the Maui Hotel which was well attended.

The report of the Secretary which was as follows was read and adopted.

Wailuku, Maui, July 7th, 1909.

To the officers and members,  
MAUI RACING ASSOCIATION?  
Gentlemen:

It is my pleasure to submit to you herewith my report of receipts and expenditures for the season just ended, and I have no doubt it will be gratifying to you to know that, while the balance of cash on hand is small, yet we have the satisfaction of knowing that every bill against the Association has been paid in full, even Taxes which have stood against us for the past seven years.

The Association has never been on the footing it is today, and I sincerely trust that each member will interest himself sufficiently to stimulate good clean sport, and constitute himself a committee of one to secure good members for the Association, thus encouraging good horse racing, as well as other lines of sport which the Association may care to enter.

It is needless for me to mention the fact that Hilo has received a set back in horse racing, and this is our opportunity to grasp the chance to promote it all the more on Maui. This however, cannot be done unless members interest themselves in furthering the interests of Maui, and keep talking of the success which the Maui Racing Association is.

Now that the Association is on a very good standing, let me suggest that the organization be kept in tact on a business basis, and to this end would respectfully suggest that the Association re-elect Mr. D. L. Meyer to the secretaryship of this Association. He is the right man in the right place, and no one appreciates more than the writer, the valuable service he has rendered in the past.

Before turning over the books to him however, I would request that you allow me to spend a few dollars in some new stationery and books. Heretofore, the Association has never been financially able to buy even a book, but the success of our Association for the past year or two leads me to a little extravagance which I would ask that you bear with me by allowing the expenditure.

Thanking the members of this Association for their hearty co-operation, believe me,

Very truly yours,

J. GARCIA,  
Secretary.

The financial report showed the payment in full of all outstanding accounts including the payment of taxes and back salaries which had not been paid for years.

In accepting the report of Secretary Garcia a vote of thanks was tendered him for the able manner in which he conducted the financial end of the association.

The history of racing in the past on Maui was gone into and while it was conceded that the horses on this island had not always been well matched it was admitted that all racing here during the past number

## Irrigation Congress

Attracts Great Interest on  
Pacific slope.

San Francisco June 30.—Every American is deeply interested in all matters pertaining to reclamation, irrigation and forestry, consequently all are interested in the coming meeting of the National Irrigation Congress, which is to convene at Spokane, Washington, August 9.

The primary objects of the Congress are to save the forests, store flood waters of the streams, reclaim deserts and make homes on land now desolate, and at these meetings there is always actual demonstration of the possibilities of the West in development along these lines.

The Pacific coast is vitally interested in the work of this Congress, and every organization as well as individuals, should aid in having a good representation at the Spokane meeting. The meeting held in Sacramento two years ago was well attended and its action was not only of interest but of real practical value to the entire State.

Colonel H. D. Loveland, who has devoted much of his time to the meeting of the National Irrigation Congress, and similar organizations, was elected vice-president of the Congress at the meeting held in Albuquerque last year. This honor was given to California because of the great interest shown by her delegates and especially because of his active work in the cause.

Commercial organizations are especially urged to send delegates to the coming session of the Congress, to take active part in the proceedings and obtain the knowledge that is always disseminated by the men who have given their lives to the study of the problems which are discussed.

of years had been clean and that the best horse had always won.

The Hawaiian Star has the following comment of the races at Hilo.

"The Hilo race track scandals of last Monday seems likely to result in a general movement to take part, at least, of future races away from that city. It is not Hilo that is objected to by the sports and public, but it is a hui of crooks which has apparently grafted onto the town in such way as to be hard to shake off. Honolulu and Maui, if the present talk carries, will see that Hilo is enabled to lose her crooks.

In the meanwhile the suggestion of the Hawaiian Herald, published in yesterday's Star, that an inter-island racing association be established, the programs to be pulled off consecutively at Hilo, Kahului and Honolulu, seems to meet with considerable favor, among horsemen. There has been a kind of sentiment heretofore in favor of letting Hilo have the horse races as her share in Hawaiian programs; but certainly the promoters of the idea did not calculate that the arrangement would send racing completely to the bow-wows.

Around the clubs where horsemen are in the habit of touching shoulders, or comparing notes, it is generally agreed that Honolulu will never again take an active part in a Hilo racing program until one or more meets in other parts of the Islands has served to clear the track of sharpers. To this end there is a disposition to encourage and support, even at this early date, any movement to pull off the next meet at Kahului and to keep a kind of "quarantine" on Hilo until the stench has cleared away.

## Fruit Crop Heavy One

California Profits by Heavy  
Rains.

San Francisco, June 30.—Advance statements regarding the fruit crop have been fully borne out and reports received by The California Promotion Committee from all sources indicate that this will be a very heavy fruit year.

There is strong demand for labor in all agricultural districts, with good wages and promise of permanent employment. Demand for women and girls in the canning and drying establishments over the State is especially urgent.

Colonization effort is receiving great impetus, and many desirable settlers are coming to all parts of the State.

Increased inquiry regarding California is noted throughout the East and in Europe, and a number of colonies are being formed to locate in the State.

Great activity is shown in railroad extension work in several parts of the State, and a number of new electrical lines are being projected.

During the month much interest has been displayed in California by investors of Holland and other European financial centers.

California is already feeling the impulse of the Alaska-Yukon-Pacific Exposition, and many tourists are visiting the State, which is coming to be more and more recognized as an all year resort. Tourist travel for the coming year bids fair to break all previous records.

G. Ah See, the Market street merchant, will leave next Wednesday for Canton, China, where he expects to remain for six months on a vacation.

In all the talk and kicking, however, attention is drawn to the fact that all Hilo trackmen are not to be censured for the sins of a few. It was plain last Monday, and is freely admitted at the clubs here, that a large majority of the sportsmen of Hilo tried to keep the races clean; but that they too, were tricked by the daring sharpers. The offer of Mr. Moir, for instance, to pay all purses out of his own pocket seems to indicate that he is smarting under the storm of criticism; when, as a matter of fact, so far as the Star knows or is able to find out, there is not nor has there ever been one particle of criticism of the work of the judges.

In the meanwhile, Hilo may purge herself of her sharpers and swindlers, in which case the matter may present itself in a different light when the fair Second City again assumes the role of hostess. As the matter now stands, however it would be a hard matter to attract a corporal's guard to Hilo for any sort of a track meet."

There will be another meeting of the members of the association on August 17th at which time it is proposed to change the by-laws.

It is proposed to change the date of the annual election to January at which time a programme will be adopted for the races and time given for the selection and training of the horses by the racing men.

Every effort will be made to get the horses here from Hilo and Oahu and any attempt by the crooks who ran things so disastrously at Hilo to repeat their work here will be sat on instantly by this association which has the reputation for square dealing and compelling all others to do the same or get off their track.

## Sheriff Was A Prisoner

Angry Japanese Hold Jarrett  
Prisoners.

Awed by the gleaming bayonets and brown carbines of a dozen determined police officers, three hundred dogged strikers sullenly gave way to the representatives of the law at Waimanalo plantation yesterday afternoon, and allowed sixteen of their number to be brought into the city in an automobile, prisoners.

It was a spectacular ending of an eventful day on Waimanalo plantation, where the Higher Age propaganda had led the plantation laborers to request the discharge of certain employees, which request Manager Chalmers refused.

An assault upon one of the men, whom the laborers wanted dismissed, followed the demand of Sunday, and yesterday morning Sheriff Jarrett, accompanied by a Japanese interpreter, went over to the plantation to arrest the assaulants. Following the arrest, the Sheriff was penned up in the office of the plantation surrounded by a determined mob of Japanese, who only gave way when three mounted police officers, armed with carbines, dashed up to the office, followed by two automobiles filled with foot police armed with Springfields. Bayonets were fixed the instant the men arrived, and the crowd was forced backed from the building, permitting the imprisoned Sheriff to leave.

Honolulu was electrified, or at least the planters were, when they heard that trouble had occurred on the broad acres of peaceful Waimanalo, famous for its early day brilliancy, when Hon. John Cummins entertained royalty and had a private racecourse.

The news first came to Irwin & Co., agents of the plantation, that an assault had taken place upon a laborer who did not desire to join in the strike. They beat him, and he complained to the manager, who reported to the agents. Sheriff Jarrett was communicated with, and he went to the plantation in an auto. On his arrival, he arrested four Japanese implicated in the assault, each of whom was identified by the injured man. They were taken to the office and questioned. The auto was prepared for the return trip to Honolulu, and the Sheriff began loading the men in.

This was the signal for action on the part of the crowd. The men surged forward, surrounded the auto, shook their fists under the noses of the officers, and made threats. One man shouted: "Me make (die), no pilikia; all right." An effort was made to get the prisoners away. Immediately the crowd swarmed over the machine, preventing the chauffeur from working his levers. So suddenly was the movement begun and ended that in an instant the prisoners had been rescued and were being absorbed by the crowd.

Sheriff Jarrett had as his assistant only the diminutive, but plucky, Japanese interpreter, Townsend, and Officer Jones from Koolau. They recaptured two or three of the prisoners and retreated toward the office door. The machine by this time was occupied by rioters, who declared that if one man were arrested, everybody

## FRICITION BETWEEN TAFT AND COMMITTEE

Taft Firm for Corporation Tax.--W. O. Smith Favored as Successor to Kuhio.--Evelyn Thaw Testifies Against Husband.

(SPECIAL TO THE MAUI NEWS.)

Sugar 96 deg. test 3.92 Beets 10s 5 1/4d.

HONOLULU, July 16.—Hanakahi of the postoffice money order department has been arrested for breaking into the stamp office and abstracting stamps valued at \$27.

Doctor Atcherley will be examined for his sanity tomorrow.

Jack Atkinson favors W. O. Smith as the successor of Kuhio.

Papers found in Bakers room at the Young Hotel indicate insanity.

M. F. Scott narrowly escaped being crushed by a falling safe in the judiciary building yesterday.

WASHINGTON, July 16.—There is friction between Taft and the conference on the tariff. Taft has refused to consent to striking out the corporation tax amendment. He will ask congress to authorize a bond issue of \$40,000,000 to carry on the Panama canal during the fiscal year.

ATHENS, July 16.—Several villages have been destroyed by earthquakes. Many persons have been killed or wounded.

The whole province of Elif was thoroughly shaken up.

WHITE PLAINS, July 16.—In the Thaw insanity investigation yesterday, Evelyn Thaw testified that Thaw had threatened to kill her if he is released.

CITY OF MEXICO, July 16.—Great enthusiasm is being evidenced here over the coming conference between Taft and Deas.

PARIS, July 16.—A son has been born to the Princess De Sagan.

TEHERAN, July 16.—Fighting in the street continues. The Shah has taken refuge in the Russian Legation.

SAN DIEGO, July 16.—John D. Spreckels has bought the Kanyama Railroad.

CROMER, July 16.—A British submarine sank today. It was the result of a collision with a cruiser. Thirteen persons were drowned.

PITTSBURG, July 16.—There are 25,000 strikers in this section today.

HONOLULU, July 15.—Japanese contractors at Waimanalo have formed a union for protection against the High Wage Association and strikers. No further trouble is expected there.

Doctor Atcherley was arrested in the Advertiser office last night while telling of the mysterious telephonic communications from the man in the attic. He said Overend of Honokaa was the electrician in the case. The Doctor resisted arrest and was half carried and half dragged to the station.

The mortars at Diamond Head were tried yesterday. Neighboring houses were shaken and pictures were knocked from the walls.

The Chamber of Commerce will have a home building.

The Bank of Hawaii will take the Kula bonds.

Fred Harvey has been appointed engineer of the Kula pipe line. The Gore and the site of Honolulu Hale are favored for the city hall.

Hackfeld & Co. have decided to abandon bill board advertising and confine their efforts to newspapers.

PITTSBURG, July 15.—Five thousand workmen in the pressed steel car plant have gone on a strike. Rioting is in progress. Many have been injured by flying bricks.

SAN FRANCISCO, July 15.—Weston has completed his walk from New York to this city in 105 days.

LOS ANGELES, July 15.—No decision in the Papke-Flynn fight. Flynn had the best of it.

CHICAGO, July 15.—Amid a great turmoil wheat closed at 1.27 yesterday.

TOKIO, July 15.—A rumor has it that Uchida will succeed Takahira.

HONOLULU, July 14.—All is quiet at Waimanalo. The Sheriff said last night before returning there that he did not like the looks of things.

The rioters on trial show weakness of defense on the cross examination of the prisoners.

The editor of the Japanese Chronicle has been arrested on the charge of publishing obscene matter about Soga of the Jiji.

A warrant has been issued for the arrest of Toilelsen, the captain of the Rainbow.

LONDON, July 14.—A dispatch from Teheran states that the nationalists attacked the barracks of the Cossacks facing a severe fire of shrapnel but failed to dislodge the Russians.

A thousand nationalists entered the city and proceeded to occupy the portion of the city in which are the parliamentary building. The Shah is expected to seek relief in a foreign Legation. He has been deserted by his body guard.

TOKIO, July 14.—A new agreement has been framed for the transfer of the Korean Judicial Autonomy. The powers will be notified in a day or two.

AMOY, July 14.—One hundred and seventy four death from plague and 36 from cholera have occurred here within the past fortnight.

SATURDAY, JULY 17, 1909

**Automobile Accidents.** Considering the great number of Japanese would be horsemen who are on the public roads at all times the infrequent happening of accidents attributed to automobiles can be accounted for in but one way and that is to the care of the drivers of automobiles on this island.

The Japanese are pretty fair imitators of the white men in almost every thing except riding horse back. In this they are hope less failures. They can neither ride nor control a horse and if a horse can be made to become frightened at an automobile the Jap seems to be able to bring that condition about sooner than any one yet.

A Japanese on horseback almost invariably turns his horses head away from an approaching auto and then pulls on the bridle and backs his horse into the machine if that is possible. If an accident is averted it is entirely the work of the driver of the machine. If an accident does occur the Jap wants damage for his own culpable stupidity. We have frequently seen just such acts as we have described and we think it is about time the public and the officials should know the true conditions and place the blame where it rightfully belongs.

In this connection we quote the following from an editorial in the American Machinist of New York City to show the relatively small proportion of accidents due to automobiles.

"The entire subject of accidents is receiving a large amount of deserved attention, but of all the numerous sources of accidents, a minor one, the automobile, receives more attention than, perhaps, all others combined. It is in this city especially that much space has been devoted by the daily papers to automobile accidents, and while such accidents have deserved all the attention they have received, the fact, nevertheless, remains that accidents and fatalities far exceeding in number those due to the automobile pass unnoticed except when they are accompanied by spectacular features.

"The police records of this city show that between January 1 and April 10 there were 434 vehicular accidents within the city limits, of which 162 were due to street-cars, 167 to horse-drawn vehicles, and 90 to automobiles. Looking at the matter in a larger way, the report of the Board of Health for this city for 1906, the last which we have at hand, shows a total of 3,871 deaths from violent causes, not including murders and suicides, this being an average of over 10 per day, most of which passed unnoticed, which they would not have done if caused by automobiles. The explanation of the prominence given by the daily press to automobile accidents is undoubtedly that the machine is a new factor in our civilization and that the accidents caused by it are public in their very nature, added to which is the proper indignation at the recklessness of a few automobile drivers and their attempts to use their machines as means of escape when this recklessness leads to serious consequences. That such drivers need a sharp taste of the law we would be the last to deny, and in bringing this about the present agitation is the natural and perhaps necessary means. At the same time it remains true that the automobile is not the leader as an engine of destruction that many have come to regard it, the commonplace street-car and the horse-drawn wagon, which pass almost unnoticed, leading it in large numbers as the above figures testify.

The matter has been largely complicated by the improvement in our streets due to the introduction of asphalt pavements, which has brought about a large increase in the number of pedestrians who cross the streets where they should not. In a legal sense the pedestrian has the right of way on the crossing but not elsewhere on the highway, and while this is the last reason that can be given for any lack of care by an automobile-driver, the fact remains that the prevailing practice has largely increased his difficulties as well as the pedestrian's danger.

"When the ordinary speeds of automobiles and of horse-drawn vehicles are compared it is at first sight surprising that the latter should be a more prolific source of accidents than the former. The result is doubtless due to the superior control of the automobile-driver over his vehicle. The quickness and certainty with which an automobile may be brought to a stop can only be fully appreciated by those who have operated one of the machines. But for this and for the further fact that it is scarcely possible for it to run away, the two classes of vehicles would doubtless change places as sources of accidents."

**Officials Criticized.** We are in receipt of a communication from a leading business man of Maui severely criticizing some of the County and Territorial officials for patronizing Oriental auto hacks in preference to those owned and driven by Hawaiians and whites.

Certain officials are scored for acting as runners for an oriental auto. Deputy U. S. Marshall Harry Holt is criticized for employing an orientals auto while on Maui on official business in preference to autos owned and driven by American citizens.

The communication seems to be in keeping with words of criticism that are frequently heard on the streets lately whereby those who patronize chink restaurants in preference to citizen restaurants come in for much adverse criticism.

LA PAZ, July 14.—The situation is more quiet here. The wife of the Argentine minister took refuge in the fort.

LONDON, July 14.—The House of Lords defeated the bill to require compulsory service in the army.

LOS ANGELES, July 14.—Sammis has been elected Grand Exalted Ruler of the Elks.

PHILADELPHIA, July 14.—Heat killed five yesterday.

## New Board Objects

## Commissioners of Education Criticise Legislature.

Monday, July 12.  
If subsequent sessions are to be judged by the first meeting of the Commissioners of Public Instruction this morning, the public will soon become aware that there are some "alive wires" on the Board. In no gentle manner the new Commissioners criticized the last Legislature, and paid their respects to the Board of Supervisors.

It was the first session under the new Act of the Legislature, and the restrictions thrown around the authority of the Commissioners has caused them to break out in indignation. Commissioner J. T. Moir of Hawaii did not hesitate to charge that the new power vested in the Board of Supervisors meant that politics would sooner or later enter into the matter. Commissioner Aiken of Maui said it was a backward step of the Legislature, about all the power the new Commission would have, would be to "growl."

Superintendent Babbitt, executive officer of the Commission referred to the harm done by the Legislature in abolishing the three Normal inspectors. He said it was a great blow to the work, and must be overcome by some new scheme. He then outlined a plan by which a Supervising Principal could be appointed, and paid under the head of a regular principal, to act as a teacher or teachers, or in other words have general jurisdiction over and visit regularly all district schools, and regulate the work of the teachers.

Mr. Babbitt said that when the Legislature fully realized the harm they had done, and the importance of the work the act might be remedied later, but it was his purpose to meet the situation as it was and handle it to the most valuable way possible. Inspector Cox outlined a detail plan and told of the conditions existing which demanded careful attention.

"I can't see what good the Commission is unless we have some power," said Commissioner Rice. "We are certainly handicapped by lack of authority to do anything except in the matter of teacher," said Commissioner Moir.

The general opinion of the entire Commission was that too much authority had been given to the Supervisors, and none to them. As a matter of fact Superintendent Babbitt told them that practically speaking, the Commissioners were an advisory board and their only authority rested in their control over teachers.

"From what I have seen of some of the Supervisors," said Aiken, "I don't think much of some of their fine points regarding air, light and ventilation."

"I don't know what we can do about it," remarked Mr. Moir.

"Give us publicity," suggested Commissioner Judd, "the power of the press is great."

Aiken asked: "What if some of these Supervisors want to put up a schoolhouse and tell us to put in a teacher. Would we have to do it?" Superintendent Babbitt consulted Act 100. "The Supervisors have absolute authority in the way of buildings repairs and furnishings. About all the Commissioners can do is in the matter of teachers."

Finally it was agreed that nothing could be gained by crying over spilled milk and Superintendent Babbitt suggested that a resolution be drawn up and passed asking all principals and teachers to submit to the Board all requirements in the way of material supplies and furnishings. Mr. Aiken made a motion that blanks be sent by the Board to principals on which to make requisitions, which was unanimously passed.

Mr. Babbitt then outlined his plan for a new supervising principal. His office is to be in the office of the Superintendent. He is to be in constant touch with all principals, and give instructions as to certain studies, lesson plans, and efficiency of schools. One of the most unfortunate situations that faces the Board is the grade conditions. Over-aged children are often found in under-graded schools, while vice versa is found to be true. Inspector Cox also saw that hundreds of plantation children have been found to attend a half dozen schools in two years, on account of their constantly shifting from one plantation to another.

Mr. Babbitt also has another plan to make the principals in various high schools, supervising principals over certain districts, in this way directing and keeping in touch with all that is going on. He said it would be the duty of the traveling Supervising Principal to advise each Commissioner as he traveled over the districts the progress of the schools, inefficiency of teachers and condition of grades and pupils.

The Commission voted to perfect a system to substitute the work of the former normal inspectors, at the January meeting. The Commissioners were all present as follows: A. F. Judd and Mrs. May Wilcox of Oahu, J. T. Moir and Miss Ella H. Paris of Hawaii, W. H. Rice of Kauai, and W. O. Aiken of Maui.

## Supervisors At Work

### Many New Duties and Responsibilities.

(Continued from last issue.)

Pettibon by Wm. Anahu and 25 others practically asking for the impeachment of Deputy Sheriff Devauchelle of Molokai was presented and referred to the Police Committee, W. P. Haia, the Sheriff and Supervisor Meyer for investigation and report. The trouble arose from a dispute over the custody of a minor now with Mrs. Anahu, and it seems through the promptings of other alleged interested parties, the deputy sheriff wrote a letter to Mrs. Anahu, hence the threat of impeachment proceedings.

The Clerk of the Road Department, S. Keliinok, was allowed a house telephone to facilitate getting road work reports from the outer districts.

County Auditor Wilcox wrote in reference to the new law regulating the expenditure of public funds, asking that copies of contracts and notices of calls for bids, be filed at his office whenever contracts are made hereafter. Granted.

Also asked for transfer of certain pay rolls approved to be paid from road tax of Molokai to the general funds. Allowed.

Also presented a requisition for one steel fire proof safe and a number of sections for Globe sectional filing cases. Granted.

Adjutant General J. W. Jones of the First Infantry of Hawaii, wrote to say the reason of the delay in delivery of the Colt automatic gun was on account of some alterations being made to the gun at the Government arsenal, as it is desired to have the gun fixed up with the latest improvements before shipment.

Manager Walker of the Kahului Store wrote an offer to sell to the County a number of new fire extinguishers, and took the opportunity to extoll the virtues of the Minimax variety of fire extinguishers over that of any other kind. The "Badger" extinguishers' people have had the monopoly of "soda water" fire snuffer trade to date, and should wake up. Referred to the Chief Engineer of the Fire Department.

R. P. Hose wrote to say he would discharge the duties required in connection with the Lahaina water works to July 10, as desired.

Dr. F. Burt, Sanitary Inspector, reported having inspected a number of poi factories and that sanitary conditions in Lahaina were good. He noted the town of Lahaina had been unusually free from typhoid fevers for over a year. Filed.

Dr. McConkey, the Makawao Sanitary Inspector, reported sanitary conditions in the district prime. He deplored the practice of storing water in small tanks, as that furnished an excellent media for breeding mosquitoes; the practice of leaving rotting refuse and stable manure exposed for breeding the house or "typhoid" flies, the most active known agent for spreading dangerous diseases like typhoid and tuberculosis, should be remedied. He mentioned a tubercular patient, Kaahue by name, living with his large family in a small house at Keokeo, Kula, Maui, thereby also exposing to infection by "white plague" the large family of his kindhearted native host, Hahualani. He had looked over a large tract of Government land at Keokeo, at the 3000 feet elevation, suitable for a site for a home or farm for tuberculous people, and recommended that the County fathers do something towards establishing a home for victims of the white plague at Keokeo, and ended his recommendation with the suggestion that if the board felt bored over the report he hoped the waste basket was open and handy to receive it. This sally brought smiles and laughter, and

Chairman Pogue said that when the present lease on said Government land expired in two years hence, the County Board of Supervisors would be ready to take up the matter of establishing a County farm for tuberculous people of the pattern recommended by Dr. W. F. McConkey.

Fish & Food Inspector Maikai of Wailuku reported having inspected several restaurants and poi factories in various sections of the district, and over 14,000 fresh fish sold during the month.

Fish & Food Inspector Makekan of Lahaina reported having inspected several poi factories and places where edibles were sold and found same kept in good condition, also inspected 14,500 fresh fish during the month.

Dr. St. Sure, Sanitary Inspector of Wailuku reported the sanitary condition of the town of Wailuku constantly improving. Had ordered two stables and a hog pen removed from portions of the town, and recommended building a crematory for incinerating garbage and refuse. Filed.

Report of the Committee showing cash in the County Treasury by actual count to be \$24,146.10 was presented and filed.

Mr. Pogue reported in the matter of an indigent referred to him for investigation, that he found Pahukahili (w) to be a paralytic, staying with her daughter, Mrs. Pali, who is almost totally blind. Mrs. Pali had been medically advised that she could get her sight restored by getting them treated now, and she was preparing to sell some cattle to pay the expenses of staying in the hospital the required two months for treatment, in the meantime there would be no one to look after the paralytic. He had arranged for the care and board of the paralytic at \$12.50 per month while Mrs. Pali was in the hospital. Approved.

Letter of Marston Campbell transferring the Wailuku-Kahului water works to the County was read, together with the inventory of the property, and the form of receipt desired by the Superintendent of Public Works. All the County Supervisors was required to sign the receipt.

County Treasurer Baldwin desired the assistance of W. E. Bal to aid in collecting water rates in Wailuku to July 16th and that of R. P. Hose in Lahaina. Granted. Verbal request of the Lahaina National Bank to be paid a commission for water rates collected by them for the Treasurer at Lahaina was denied on motion of Mr. T. B. Lyons.

Matter of supplying the County Treasurer with revenue stamps to be attached to licenses issued was brought up. Chairman Pogue stated that as the Territorial Treasurer had refused to supply the stamps desired on the order of the Territorial Auditor who demanded that the County pay cash for the revenue stamps, he had advanced the County Treasurer \$500.00 for buying the stamps. On motion transaction was approved and payment of the money advanced authorized. Suggestions were made that the County Treasurer get revenue stamps from the Territorial Treasurer and keep the same to be accounted for with the cash of his office. This arrangement was agreed to and the Treasurer was asked to present same in the shape of a resolution for adoption by the board.

Report of County Attorney Coke was presented, and the matter of some differences between the deputy sheriff and district magistrate of Hana was referred to the Sheriff and County Attorney for investigation.

The following very interesting report of the County Attorney was submitted.

Wailuku, Maui, July 7th, 1909. To the Honorable Board of Supervisors of the County of Maui, Wailuku, Maui.

Gentlemen: I have the honor to report that during the month of June just past, my department has prosecuted before the District Courts of the various districts of this County, 121 persons

sons for offenses ranging from ordinary misdemeanors to crimes carrying therewith capital punishment. In the above cases there has been 118 convictions and 3 acquittals.

A detailed report from each district shows the following:

District Court of Wailuku.  
No. of persons prosecuted... 39  
Convictions... 39  
Acquittals... 0  
Percentage of cases won... 100  
Fines, Costs and Forfeitures of bail... \$352.00

District Court of Makawao.  
No. of persons prosecuted... 19  
Convictions... 19  
Acquittals... 0  
Percentage of cases won... 100  
Fines, costs and forfeitures of bail... \$114.00

District Court of Lahaina.  
No. of persons prosecuted... 14  
Convictions... 14  
Acquittals... 0  
Percentage of cases won... 100  
Fines, costs and forfeitures of bail... \$45.00

District Court of Hana, at Kipahulu.  
No. of persons prosecuted... 32  
Convictions... 29  
Acquittals... 3  
Percentage of cases won... 90 1/2  
Fines, costs and forfeitures of bail... \$159.00

District Court of Hana, at Hana.  
No. of persons prosecuted... 16  
Convictions... 16  
Acquittals... 0  
Percentage of cases won... 100  
Fines, costs and forfeitures of bail... \$53.00

District Court of Molokai.  
No. of persons prosecuted... 1  
Convictions... 1  
Acquittals... 0  
Percentage of cases won... 100  
Fines, costs and forfeitures of bail... \$13.00

Recapitulation.  
Total number of persons prosecuted... 121  
Convictions... 118  
Acquittals... 3  
Percentage of cases won... 97 1/2  
Fines, costs and forfeitures of bail... \$736.00

At the term of the Circuit Court of the Second Circuit held during the month just past at Lahaina, my department handled all of the criminal business, both before the Grand and Trial Juries. A number of important criminal cases were disposed of and the entire work of our department was successful and satisfactory in every particular. Five indictments were returned by the Grand Jury, and pleas of guilty or convictions were had in all of these cases, as follows:

Territory of Hawaii v. Chong Moon Chung, indicted for Burglary in the First Degree, plead guilty, and sentenced to prison from two to twenty years.

Territory of Hawaii v. Frank Ortis and John Leopoldo, indicted for Duelling, plead guilty, Ortis fined \$200.00 and Leopoldo fined \$75.00 and costs of Court.

Territory of Hawaii v. Chong Sing, indicted for Larceny in the Second Degree, plead guilty, and sentenced to prison for six months.

Territory of Hawaii v. Peter Adams, a police officer, indicted by the Grand Jury for Extortion, plead guilty, and sentence suspended for 13 months.

Territory of Hawaii v. Ah Ling, indicted for Carnally abusing a female under 12 years of age, found guilty by a Jury of Assault with intent to commit said crime and sentenced to prison from three to ten years.

Territory of Hawaii v. Kau Pahoa, on appeal, charged with prostitution, sentenced to prison for three months.

Territory of Hawaii v. Harry White, on appeal, charged with soliciting, appeal withdrawn and fine of \$100.00 and costs paid.

Territory of Hawaii v. Tranito Paneto, on appeal, charged with Larceny in the Second Degree, sentenced to prison for 6 months.

Territory of Hawaii v. Liliko Kaunani, on appeal, charged with Larceny in the Second Degree, case continued to the October term.

The above covers the entire scope of criminal work at the last term of the Circuit Court, except certain other matters which were investigated by the Grand Jury and no action taken.

The Grand Jury in its report recommend that the County Attorney proceed to Keanae on this island and personally investigate certain alleged irregularities regarding the payment of road laborers at that place, and it is my intention to comply with this recommendation as soon as possible.

I desire to call the Board's attention to the successful work of the County Attorney's department at the Lahaina Term of the Circuit Court.

It has been said that the outside County Attorneys could not handle important work of criminal prosecution before the Circuit Courts without availing themselves of the superior knowledge, experience and legal acumen of the Territorial Attorney General department.

The result of the work at the last term of the Circuit Court wherein the prosecution was successful in every case should go a long way towards dispelling this impression.

I am informed that the Chief Justice of the Supreme Court has considered it unnecessary to appoint a second District Magistrate at Honouliuli, District of Makawao. I am inclined to think that the Chief Justice is not familiar with the inconvenience which the denial of this appointment will cause to the people of the vicinity of Ulupalakua. These people live some 25 miles from the District Court of Makawao, and the recent drought has killed off most of their horses which makes it practically impossible for them to attend Court at the Makawao Court House.

I regret to advise the Board that there appears to be a great deal of friction between the Deputy Sheriff and District Magistrate at Hana, which is calculated to become injurious to the public service. I have concluded that it would be necessary for both the Sheriff and myself to visit this district and undertake to adjust affairs there.

I note by the report from the Deputy Sheriff of Hana that in one case, where two parties were charged with adultery and found guilty, the male defendant was fined \$10.00 and the female \$5. The law expressly provides in this class of cases that the punishment in the case of the man shall be not less than \$30.00 and the fine in the case of the woman defendant, not less than \$10.00. It will be seen by this, that the Judge either through ignorance or gross disregard of his duty, has placed himself above the statutes of this Territory.

Respectfully submitted,  
JAS. L. COKE,  
County Attorney of Maui.

## Makino Has Bad Record

### Japan Times Scores Strike Leader.

The following is from the Japan Times of June 18:

We do not hesitate to accept as fairly correct the official dispatch on the strike condition in Hawaii, which we publish elsewhere, though it is in some respects at variance with press telegrams hitherto received on the subject. Nor do we make this assertion gratuitously. We personally know something of the antecedents of the agitator Makino, whose name must be now familiar to our readers through the cuttings we have recently reproduced from a Hawaiian paper and also through Mr. Castle's interview. To our knowledge he is not at all a man incapable of doings ascribed to him, and it is very unfortunate that a character like him together with Negoro, who is not known to us, should have gained any sort of influence in a place like Hawaii, where

## Just Enough

Many people need nourishment and **Stout** is recommended by very prominent physicians. For this particular trade we have imported it in half-pints, just enough and no more. No waste. We have also just received a consignment of **Lexington Club Whiskey** in bulk and in bottles. There is none better.

to Suit the Climate.

all unprejudiced reports have hitherto agreed in saying that our laborers are squarely treated, being themselves well content. We are also not unacquainted with the views ventilated through the Nippu Jiji; they are certainly not those likely to be countenanced by any intelligently informed and fair-minded Japanese. Taken all together we should regard the strike at Hawaii as nothing very serious, which would soon readjust itself satisfactorily to both sides if left to the employers and the employed, inasmuch as our laborers in Hawaii have not yet developed any symptoms of organized hostility toward capital.

As to the alleged illegality of action on the part of the Hawaiian authorities in connection with the arrest of the Nippu Jiji's editor and others, it is practically denied by the official dispatch, though details are still lacking. In any case it will be rash to form any off-hand opinion on the strength of press advices which are obviously biased. And if there should be felt any anxiety in any quarter as to whether the Imperial government would interfere in the matter one way or another, we should regard it as wholly unnecessary. The Japanese in Hawaii are under the protection of the Hawaiian government or call it American government to be more particular, and we should have more than mere newspaper dispatches and expostulations from interested parties before our government is moved to any sort of action. In the circumstances it is most desirable that the public in America and at home be not misled by one-sided sensational reports.

## Maui Girl Weds Abroad

### Miss Ysabel Mossman Marries Business Man.

The Chronicle of June 30th has the following relative to the marriage of Miss Ysabel Mossman of this island.

Oakland, June 29.—A pretty romance, which had for its interested parties E. O. Locke, a wealthy young hardware merchant of Portland, Or., and Miss Ysabel Mossman, the daughter of a retired plan-

ter of Maui, Hawaiian islands, culminated in a wedding to day at the St. Mark Hotel, Miss Mossman and her sister, Kate, were both at school in Portland, where Miss Ysabel first met Locke.

An attachment was formed between them, which proved so strong that when Mrs. Mossman and her sister, Kate, came from the islands to take her two daughters home with her and they reached this city on their homeward journey, Miss Ysabel flatly refused to go any farther, saying very decidedly that she intended staying right where she was and marrying Locke. Nothing remained to be done but wire the girl's father asking his consent to the wedding. This was done, young Locke appeared on the scene, and the wedding took place to-day at the St. Mark with the usual accompaniment of white satin and orange blossoms. Miss Kate Mossman acted as bridesmaid for her sister, and George Keller, son of J. M. Keller of this city, was Locke's groomsmen. The ceremony was performed by Rev. Alexander Allen of St. Paul's Church.

### BY AUTHORITY.

The Board of License Commissioners for the County of Maui will hold a meeting at the public room in the Masonic Temple, Kahului, on Thursday, the 22nd day of July 1909, at 2 P. M. to consider the application of L. Apana for a Second Class License, Saloon, to sell intoxicating liquors in a one-story frame building situated at Nahiku, Maui immediately above the old government road at said Nahiku, under the provisions of Act 119, Session Laws of 1909.

All protests or objections against the issuance of a license under said application should be filed with the Secretary of the Board not later than the time set for said hearing.

June 25th, 1909.  
D. C. LINDSAY,  
Sec'y, Board of License Commissioners.

The Board of License Commissioners for the County of Maui will hold a meeting at the public room in the Masonic Temple, Kahului, on Thursday, the 22nd day of July, 1909, at 2 P. M. to consider the application on the Kaupakalua Wine & Liquor Company for a Fourth-Class License to sell wine manufactured by said company from grapes grown in the Territory of Hawaii, at their place of business at Makawao, Maui, in the premises now used by them at said Makawao, under the provisions of Act 119, Session Laws of 1909.

All protests or objections against the issuance of a license under said application should be filed with the Secretary of the Board not later than the time set for said hearing.

June 25th, 1909.

## Locals and Personals

Miss Aiona came up from Honolulu Tuesday evening.

Louis von Tempky returned from the city Tuesday evening.

J. Vincent of the Waiakoa school returned from the city Tuesday.

Miss A. F. Johnson was a passenger from the city by the Maunakea.

Ben Waggoner returned from Hana Wednesday. He is now at the Maui Hotel.

Mr. H. S. Simpson of E. O. Hall & Son is on Maui this week in the interest of his firm.

E. Moses the photographer took a number of fine pictures of the court room and building this week.

Mr. and Mrs. Charles Campbell and some of their friends of Puenene were picking up two Valley Sunday.

Moses Kauhiamahu, the teacher in the Kahului school went to the metropolis this week for his summer vacation.

J. M. Dowsett of Honolulu has been a visitor to Maui for a few days. He returned to Honolulu by the Claudine.

H. P. Robinson returned to Honolulu Wednesday after a visit of a few weeks with his parents who reside in Paia.

Two nephews of W. H. Field of the Maui Hotel are spending their summer vacation in Wailuku and at Kapanui.

The Missouri came into port Saturday and took on three thousand five hundred tons of sugar and departed Wednesday.

Miss Maud Woods left for Seattle recently, where she will help to do the honors at the Hawaiian Building.—Kohala Midget.

S. Kelinow was called to Kona by wireless Tuesday to be at the bedside of his wife who is seriously ill at the home of her parents.

George Maxwell has accepted a position with the Advertiser as compositor. He left on the Claudine on Wednesday for his new field of work.

Jack Sprat took anti-fat. His wife took anti-lean.—Today the blooming both of them are sleeping 'neath the green.

Miss Armin von Tempky and Miss Holden, who has been engaged as a governess for the von Tempky children went to the city this week for a short visit.

Doctor P. A. St. Sure returned Wednesday from a trip around East Maui. He visited the rubber plantations of Nahiku and returned by way of the crater.

Mr. and Mrs. James Kirkland went to Honolulu this week where they will take a steamer for Victoria. They will visit the Seattle Exposition and later their old home in California.

A. M. Brown of Honolulu was a passenger to Maui Tuesday. He was up on business connected with certain interests of the Cornwell ranch. He returned to the city Wednesday.

One of the best games of the season is expected at Kahului between the Kahului Railroad team and the Wailuku Sugar Company team. Both teams are good and a close game is expected.

Manager Bennesson of the Kahului Club House has taken out a full hotel license and will strive to get his share of the tourist and local trade. The new house will be called the Club Hotel. The beach and sea baths will be among the attractions of the place.

Miss Hibbard of San Francisco and Miss Jones of Berkeley were guests of Mrs. Campbell of Puenene this week. The young ladies are touring the islands and expect to see most of the places of interest before leaving for home. They returned to Honolulu by the Claudine on Wednesday.

Among the new teachers engaged for Punaohu for next year is Harold Clark, second son of the founder of the Christian Endeavor Society. Francis E. Clark of Boston. Mr. Clark is a graduate of Dartmouth, and though a young man, has travelled extensively, having once journeyed around the world with his father.—Kohala Midget.

Prescott Wayne Smith, Ph. D., and wife (nee Miss Ivy Girvin), sailed on the Steamer Hilonion, after doing the Volcano and spending a week at the Alexander place on Tantalus. They will go from San Francisco to the Seattle Exposition, where Dr. Smith has charge of an exhibit, and expect afterwards to make their home in Seattle.—Kohala Midget.

Superintendent J. N. S. Williams of the Kahului Railroad Company went to the city Wednesday to assist in the conference of Federal, Territorial and steamship representatives relative to wharves at Kahului. Word has been received here that the U. S. Engineer will be here in a few weeks to make surveys and recommendations to Congress relative to Kahului harbor. The report on the commercial aspect has already been made by Major Winslow.

R. B. Crawford the genial head book keeper of the Kahului store returned from a short business trip to the city Tuesday evening.

Mr. and Mrs. W. G. Scott left for Honolulu by the steamer Mauna Kea last night. They will sail for the Coast next week and take in the Yukon-Alaska Exposition.

Harry Holt of the U. S. Marshalls office of Honolulu came up Tuesday evening from Honolulu and took Morouna's Auto for Huelo. He returned to the city the following day by way of the Claudine.

A very pretty wedding ceremony took place last Saturday evening at St. Anthony's Church, Wailuku, Miss Rose Garcia and Mr. Chas. P. Bento were the contracting parties. After the ceremony a reception was held at the residence of Mrs. A. J. Rodriguez, mother of the bride, where a large number of friends gathered to wish the happy pair prosperity. Mr. and Mrs. Bento left by Tuesday night's Mauna Kea to Hilo and the volcano where they will spend their honeymoon.

Acting manager of the Kahului Store E. J. Walker demonstrated the effective qualities of the Minimax fire extinguishers Monday before a crowd of some seventy-five Wailukans. Three large dry goods boxes were broken up and saturated with coal oil and set on fire and after burning five minutes were attacked by the Minimax which extinguished the fire in thirty seconds. Many sales have since been made as a result of this practical demonstration.

Mr. C. D. Lufkin of Wailuku, Maui, sells the Inner Player Piano, now so extensively advertised in the magazines. If you want a piano of any style or price it will be to your interest to consult him. When in the East last Spring Mr. Lufkin renewed business relations with piano manufacturers with whom he had done business before coming to these islands. It will be to your interest to ring up Mr. Lufkin if you contemplate purchasing a piano. The Inner Player can be seen in Wailuku by calling on Mr. Lufkin.

## NOTICE.

During my absence from the Territory, Mr. John Medeiros will act for me with full power of attorney.

## Fire Destroys Another Home

Mrs. Louisa Mossman and Children Homeless.

Fire destroyed the home of Mrs. Louisa Mossman on Main street on Monday of this week.

At the time of the fire Mrs. Mossman was away and no one home but the little girls. When they noticed that the house was on fire they gave the alarm and neighbors tried to put out the flames but there was no water in the house as the same has been fitted up since the injunction was granted about a year ago which makes it impossible to get water into any house that was not supplied by water at that time.

The firemen turned out at once and did what they could to get water on the flames but all of the clothing and furniture and even the walls of the house were destroyed before the flames were extinguished.

Owing to the fact that there was no water to be had until the firemen got a stream of water through their hose and too that they had a long up hill pull to the scene of action it was impossible to do much toward saving anything of value.

The mother and children were left without anything to wear except the clothing they wore at the time and without food. Friends at once took them in and a subscription was taken up by Rev. Canon Ault who bought clothing for them.

Mrs. Mossman has to work to support herself and children and in order to do so goes out and sews by the day for families in town. This keeps her away most of the time but this is necessary as the children must have food and clothing.

The house is practically destroyed as no part of it can be used but will have to be rebuilt.

There is but one of the five children old enough to assist in the support of the family. That is Harry. He is employed by the Maui Auto Company in their garage.

How the fire started is not known. There was no insurance.

IN THE CIRCUIT COURT OF THE SECOND JUDICIAL CIRCUIT, TERRITORY OF HAWAII.

In the Matter of the Estate of HATSUTARO YAMANO, deceased.

NOTICE TO CREDITORS.

Notice is hereby given to all persons having claims against the Estate of HATSUTARO YAMANO, formerly of Hamakua, Maui, Territory of Hawaii, to present the same to the undersigned, Jutaro Kuwabara, administrator of said estate, at his place of business in Hamakua, Maui, within six months from date of publication of this notice, or they will be forever barred.

Dated at Wailuku, Maui, this July 16, 1909.

Lufkin, Administrator of said estate, at his place of business in Wailuku, Maui, within six months from date of publication of this notice, or they will be forever barred.

Dated at Wailuku, Maui, this July 16, 1909.

C. D. LUFKIN,  
Administrator of Estate of Chong Yee.  
July 17, 24, 31, Aug. 7.

## CARD OF THANK.

Mrs. Louisa Mossman wishes to thank all those who assisted at the fire which destroyed her home on Main street this week. She also wishes to express her appreciation of the assistance rendered by those who contributed toward the relief of her self and children.

## Production Of Beet Sugar

Is Steadily Increasing in the States.

The U. S. Department of Agriculture has issued the following statement relative to the sugar industry:

Though sugar can be extracted from many plants, the world's supply of sugar comes at present from only two plant species, sugar cane and sugar beets, and it comes about equally from each. The former is grown only in tropical or sub-tropical climates, the latter only in temperate climates.

The great bulk of the beet sugar consumed is made in European countries, Germany, Russia, Austria-Hungary, and France being the leading producers. But in recent years the young and rapidly growing beet-sugar industry of the United States has come into prominence. There are now 64 active beet-sugar factories in this country located in 16 different States. Last year the farmers of these States harvested about 365,000 acres of beets and delivered to the factories 3,415,000 tons of beets. From these nearly 426,000 tons of refined sugar was made. The yield of beets per acre was 9.1-3 tons, and the yield of sugar per acre of beets was 2,334 pounds.

The U. S. Department of Agriculture has just issued its annual report on "Progress of the Beet-Sugar Industry in 1908". One marked feature of progress is seen in the improved quality of the beets grown. The entire beet crop for 1908 averaged 15.34 per cent of sugar in the beets. The factory processes have also been improved until the refined sugar produced is about four-fifths of that contained in the beets.

One of the instructive features of this report is an account of the use of by products. The beet pulp from which the sugar has been extracted is a valuable stock food, and vast quantities of it are fed in the fresh state to cattle and sheep. It finds especial favor with dairymen. A dozen or more factories have installed plants for drying pulp. With this is mixed molasses, the product being put on the market as "dried-molasses-beet-pulp." The molasses is also extensively used in the manufacture of alcohol.

The prospects for further development of the industry are reported to be good. Plans are on foot for the building of several new factories.

## TO OUR PATRONS

## Sheriff Was A Prisoner

(Continued from page 1.)

should be arrested and carried to Honolulu.

Jarrett and his men locked the door of the office and the Sheriff gave warning that any man who attempted to open the door or force an entrance would be shot. He pronounced his revolver to show that he was in earnest.

In the office was a telephone, and soon Jarrett had Deputy Sheriff Rose on the wire, explaining to him his predicament and asking for a relief force. The deputy immediately dispatched three mounted officers to Waimanalo. They rode hard and covered the distance in remarkable time. At three o'clock a force of ten officers and specials, fully armed, went over the Pali route in an auto, and at 3:30 Deputy High Sheriff Doyle, a photographer, and two newspaper men followed in another machine.

When the second auto reached the office all the plantation laborers were massed in front of the building, some sitting, others standing. On the veranda the sharp-pointed bayonets of the Springfields showed plainly where the foot police were on guard. The three mounted men were nearby. The Sheriff was on the veranda. Doyle immediately stepped before the assemblage and told the men that the wisest course would be to disperse and not interfere with the officers on duty, or try to prevent the Sheriff from making the arrests on the authority of the warrant which he had in his pocket.

Some started to leave, others passed comments, receiving sharp rebukes from one or two men in the crowd. Then something happened. The Sheriff identified several in the crowd as men who had obstructed his way, and officers quickly placed them under arrest. They were rushed into the office and interrogated. Some were "cocky." One brazenly said that he had only stopped the auto in order to find out whether the men were guilty or not, before allowing the officer to take them to Honolulu. Another admitted that he had said he did not care whether he died or not. One a barber, said he was not with the crowd, but a spectator, and wanted to see whether or not any of his patrons got hurt. All were positively identified by the Sheriff and he ordered them all taken to Honolulu.

In one big auto six prisoners were placed under the guard of a newspaperman; the second auto held another sextet, also under guard of a newspaperman, and the third and last auto contained the assaulting trio and the complaining witness, under guard of Deputy High Sheriff Doyle.

It was necessary for the police, both foot and mounted, to force the crowd back at the point of the bayonet, as the autos prepared to leave the premises. As the first auto passed by the crowd, one of the prisoners shouted "Banzai, Banzai," and was cheered in return. The mounted officers followed the auto procession to the railroad track returning immediately to the office Sheriff Jarrett and his officers will remain at Waimanalo until sometime today.

The arrested men were brought to the police station and are being held for investigation.

Following are the names of the arrested men: Yamamoto, Higashi, Kabayashi, Kimura, Nakagawa, Sukamoto, Ozaki, Inura, Ota, Nakai, Fukui, Tamura, Kamori, Doi, Asami, Hiroshi.

## REMEMBER

The Sunlight "OMEGA"  
and Forget the Rest

**REMEMBER** that the FEEDING or DROPPING DEVICE is the most IMPORTANT part of a generator and yet it is the part in which most generators are defective.

The **INDIRECT FEED**, with which the OMEGA is equipped, is recognized as THE perfected feed and the greatest improvement made in generators since the carbide feed replaced the old fashioned water-feed. It places the **Sunlight OMEGA in a class by itself.**

There is no other "just as good."

**Before Buying** "post" yourself thoroughly on generators. Get an education on the subject. Our new catalogue gives it to you. GET IT. READ IT.

Ask anyone or all of the many satisfied owners of an OMEGA.

## Globe-Wernicke Office Safeguards

The impression created upon a customer's mind when entering any Office or Store where clerical work is being conducted in a quiet, orderly manner, inspires far greater confidence, than where there is evidence of rush and worry because of unfilled papers, neglected correspondence, unsightly books, etc.

Wherever G-W Filing and Book Cases are used, be it in the Office, Store or Home, one will find that regulations are cheerfully observed, that every book is in its proper place, because of the greater convenience due to mechanical devices and safeguards.

Your inquiry for any particular outfit, NO MATTER HOW SMALL, will be given careful and individual attention.
