

A. (Rehabilitation)
5 (Summary)

8 July 1947

Kwajalein Dist.

The rehabilitation program in this area consists primarily of encouraging the natives to help themselves and develop initiative in coping with their problems. Aside from the RONGERIK (Ex-BIKINI) situation, in which all phases and possibilities are being considered, it remains a matter of education and example to be emphasized by the field personnel on periodic visits.
