HILO TOWN IS PANIC STRICKEN.

Sheriff William Would Not Allow

Hall Passengers to Land

PROVISIONS ARE GROWING SHORT.

Hilo People Will Use Armed Force to Prevent Passengers from Being Landed—Steamer Hawaii Chartered to Bring Rice to the Plantations.

In a private letter, dated September 5th, from a well-known resident of Kau, Hawaii, the following accurate information regarding the attempt of the captain of the steamer W. G. Hall to land passengers and freight at Hawaii ports, is contained:

"The Hall arrived at Punaluu this morning with freight and passengers, but Deputy Sheriff Williams telephoned over from Hilo not to allow any passengers or freight to be landed. By the time his message arrived at Punaluu, all the passengers had been landed on the wharf. They were, however, refused permission to leave it.

"When the Deputy Sheriff heard passengers had been landed he ordered William Yates, his deputy in Kau, to have them sent on board the Hall again, and in case of resistance being offered, to use force.

"The Deputy Sheriff sent the following note to Captain Simerson: PUNALUU, Sept. 5, 1895.

CAPTAIN SIMERSON, on board steamer W. G. Hall.

DEAR SIR:—According to strict orders of G. H. Williams, Deputy Sheriff of Hawaii, I hereby notify you that it is his orders that you will not land any passengers or freight on the island of Hawaii.

Respectfully yours, W. J. YATES, Deputy Sheriff for Kau.

"It seems that a mass meeting of citizens had been held at Hilo Court House September 4th. A committee had been appointed to confer with the agent of the Board of Health in regard to the landing of passengers and freight on the island of Hawaii. They concluded to allow nothing but the mail to land.

"The same committee met this morning with the agent of the Board of Health in the Sheriff's office in Hilo. Deputy Sheriff Williams' action in not allowing the Hall to land anything but the mail was fully endorsed.

"The passengers made a most terrific kick, but concluded to go aboard again, as there was no other alternative.

"Nearly everybody, except the planters, back Williams in the stand he has taken. The report from Hilo is that if the planters try to land any freight or passengers from Honolulu the citizens will meet them half-way with rifles. If the planters do attempt anything it will have to be with force.

"Had the passengers from the Hall landed and gone to the volcano, there would have been a guard put on the road from Hilo to the volcano and nobody from this side would have been allowed to go to Hilo. We would in this case have been in quarantine.

"The citizens are red hot against the Board of Health for sending up the Chinamen from the quarantine station. I understand from good authority that the Kilaua Hou landed the Chinamen before the physician received his instructions from the Board of Health. The people say, had they known they were to be landed along the Hawaiian coast, they would have stopped them, and that on a very short notice too.

"A guard is to be put on at Kahuku ranch to stop all communication between this and the Kona district, as the Hall landed freight all along the coast on her way up. A passenger or two were landed also.

"The Hilo planters have chartered the steamer Hawaii. She will leave tomorrow morning for Kauai and the windward side of Oahu in search of rice. She expects to get supplies from either Kauai or Koolau, Oahu. The plantations have enough provisions to last them from two to three weeks.

"Planters on the other side are writing by this mail to their agents and will have them charter a steamer in San Francisco. She can come direct to Hilo with a load of supplies.

"The new telephone line from here through Kona is now within two miles of Hilo, and Lakaio, the Deputy-Sheriff telephoned this morning that they were to hold a mass meeting of the people from all the districts and send a petition to the Government asking them not to allow any more passengers or freight to be landed in Kona. The Sheriff's orders are not to allow the Hall to land any freight on her way down."

ANOTHER ACCOUNT.

KAU (Hawaii), Sept. 6.—The Hall arrived at Punaluu at 6:30 o'clock this morning with tourist passengers and freight, the former taken direct

from the Australia without landing in Honolulu, but notwithstanding this fact and that the Hall herself had not been alongside the wharf in Honolulu or any of her crew having been ashore and carrying a clean bill of health from the Board of Health, imperative orders in compliance with the wishes of the Hilo people was telephoned over that passengers and freight should not be allowed to be put ashore, the passengers were allowed to reach and land on the wharf and a conference took place on the telephone between Dr. Capron and Deputy Sheriff Yates of Kau on the one side and Sheriff Williams of Hilo on the other, the former gentleman putting the fact before Mr. Williams that as the Hall had left Honolulu with a clean bill of health, that the passengers had been transferred direct from the Australia without touching shore and that Captain Simerson carried a permit from the Board of Health to land passengers and freight, there could be no danger in putting the same ashore, but no arguments could prevail against the stolidity of Williams whose only reply to all arguments was that nobody nor nothing was to be allowed to land and on learning that the tourists were on the wharf he gave an emphatic order that they be ordered into the boat and if resistance was offered that force should be used to compel them to comply.

Some rather emphatic language was used during the conversation on the wire, such as "If the Board of Health, we can run this island ourselves and will do it," and it was plainly developed that Hilo has reached a stage of first-class panic.

Amongst other things that were said was that if the Hall landed freight, Kau would be quarantined.

If this farce of quarantining a healthy vessel is kept up, we in Kau shall soon be in a state of famine, there is about one week's supply of provisions on hand and when that is gone there is nothing but starvation to face us.

It is said that the steamer Hawaii is chartered by Hilo planters to go look for rice round the islands, but there is little comfort in this as it is not likely she can gather enough to serve all the plantations.

There are many rumors around as to what the Hilo people have threatened to do under certain circumstances, such as, if any attempt was made to land in Hilo from any vessel coming from Honolulu armed resistance would be made and that if it had been known that the Belgic Chinamen were to be landed by the Kilaua Hou at the different plantations, that an army of Hiloites would have been detailed to resist such landing. Taken altogether it can be said that Hilo people are in a very dangerous state of panic in which they are not capable of thinking of anybody's rights but their own, in fact they seem not capable of thinking at all but are wholly carried away by the impulse of their panic stricken nerves.

PRECAUTIONS AT LAHAUNA.

Another Meeting of Citizens—Object to Landing Chinese.

LAHAUNA (Maui), Sept. 5.—Wednesday morning, August 28th, a call was circulated for a citizens' meeting to be held in the Lahaina court house at 7 o'clock in the evening. Judge Kahalo was in the chair. In the absence of Mr. Nahaolele, John Richardson was chosen interpreter. The chairman stated that the meeting was called for the purpose of ascertaining the news regarding the cholera. A letter from W. O. Smith to Dr. Davidson was read by the secretary. It stated that there had been six definite cases of cholera in Honolulu, five proving fatal; but that there had not been a new case for three days at the time the letter was written. The secretary also read a letter from Cecil Brown to F. H. Hayselden stating that one condition on which the Mokolihi had been allowed to go out was that there was to be no mingling of the crew with the people on shore. It was noted in the discussion that no orders to that effect had been received at Lahaina and that the condition had not been observed here. The secretary then read a letter from Sheriff Andrews to Deputy-Sheriff Baldwin, saying that the action of Dr. Davidson in refusing to allow the freight of the Kasala to be landed at Lahaina had met with general approval.

Mr. Hayselden reported that the services of the committee appointed at the last meeting had been accepted by the agents of the Board of Health, and that they had been at work. Mr. Baldwin spoke appreciatively of the work done by the committee. As it was generally conceded that the work to be done was entirely too great for six men to accomplish, fourteen more were appointed to work under the direction of Dr. Davidson. The meeting then adjourned subject to the call of the chair.

Considerable indignation is felt at Lahaina at the manner in which the Board of Health seems to have trifled with the matter of quarantine. Provisions and feed are brought from Malaea in whale boats, because the Hall is commanded not to carry freight between ports here lest the disease be spread by the sailors, who left Honolulu a week ago. Yet Chinamen are landed at Kahului by sailors who left Honolulu much later. This seems to need an explanation. If the Board had given the people the benefit of the doubt and kept the Chinamen away till the contagion was

building, 12x40, would be completed Sunday and supplies for workmen sent down to the camp as soon as possible. The same party which had been employed digging graves on the Makiki Puncbowl slope would do the work at the new place.

President Smith asked that he be given the authority to appoint J. A. Cassidy and W. L. Wilcox agents of the Board of Health. Unanimously granted.

President Smith thought it necessary to put the Mokoli in quarantine at once for the purpose of conveying supplies to the settlement at Mokoli. They were running short of supplies.

It was decided to allow no vessel of any description whatever to leave this port for ports on the other islands without written permit from the Board of Health. This action was taken on account of a certain sailing vessel trying to leave port lately.

President Smith recommended raising of quarantine on several places. Rufus Spalding wanted to know if the milk supply of the city had been investigated.

Dr. Wood did not see that such action could do any good. Milk should be boiled anyway.

Dr. McGrew was asked to offer some advice with respect to improving the cholera situation. He had seen people fishing in the country districts. Had learned that it was absolutely necessary for them to do this or starve. Some of the places were so far away from town that natives could not come to the depot of supplies of the relief committee. Would arrangements be made for sending food into these country districts? Dr. McGrew thought care should be taken with respect to classifying every suspicious appearing sickness as cholera. Careful diagnosis should be taken. Did not mean to criticize the work done by physicians. Merely wanted to emphasize the need of care.

President Smith was only afraid physicians had gone a little too far the other way.

Dr. McGrew, in continuing, said it was the time of the year when cholera, morbus, diarrhoea and other diseases akin to these, were prevalent. Called attention to the first cases in Lunali Home.

Dr. Wood said he had been treating a young Hawaiian girl for diarrhoea for the space of a week and had succeeded in stopping it. Later he had traced cholera in three cases to that girl.

No more business remained to be transacted and the Board adjourned.

REGARDING STEAMER RIO JANEIRO.

A meeting of the Board of Health was held Sunday morning at 9 o'clock instead of the afternoon, as usual. There were present President Smith, President Dole, Drs. Emerson, Wood, Day; Ministers Hatch, Damon and King; Messrs. Lansing, J. T. Waterhouse, Kellogg, Reynolds, Hackfeld, Subr, Swanzy, Walker, Giffard, W. F. Allen, Canavarro, Gonsalves, G. W. Smith, Kennedy, McIntyre, Schaefer and others.

President Smith read the consular bill of health of the steamer Rio de Janeiro stating that there were 27,575 cholera cases in Japan with 17,892 deaths to date from beginning of present outbreak. She had 263 Chinese and 20 Japanese immigrants for this port and had one death at sea. There were 580 tons of freight for this port—300 tons Japanese freight and 280 tons from Hongkong. The question seemed to be what should be done with the freight. The immigrants had been landed yesterday.

T. F. Lansing moved to have the steamer placed in quarantine six days before discharging freight.

J. F. Hackfeld said nothing would be gained by placing the vessel in quarantine. Fumigate the freight and then allow her to discharge.

J. T. Waterhouse said the danger would be in the handling of the freight.

Dr. Wood was of the opinion that the freight would not be in any safer condition for handling at the end of five days than it was at the present time. It should not be landed until fumigated.

G. W. Smith said fumigating with sulphur fumes would be sufficient if kept up long enough. The fumes would permeate the wood and the interior of packages, except sealed metallic containers.

W. F. Allen was of the opinion that if the freight could be properly fumigated it should be landed. Otherwise it should not.

Dr. Day said the only way of having the work done properly was to break the original packages and subject them to sulphur fumes for forty-eight hours.

G. W. Smith believed that the warm, moist air in a ship's hold was just the right medium for propagating the germs of cholera and they would swarm from one end of the ship to the other, through the clean freight and everything else.

T. F. Lansing held that if there was danger of cholera germs getting down into the artesian water supply from the bodies of the cholera victims, there would be danger to a much greater degree from freight in the same hold.

J. A. Gonsalves was of the opinion that nothing should be landed except mails. B. F. Dillingham agreed with Mr. Gonsalves that not a pound of freight should be landed from the Rio de Janeiro. [Applause.]

T. F. Lansing favored notifying the agents that no freight would be allowed to be landed and requesting the Minister of Foreign Affairs that no more freight be received from any Japanese port until further notice.

Consul Canavarro said no freight ought to be allowed to land; likewise no passengers from Japan. This was the time for Honolulu to take radical measures when her own people were being stricken. The quarantine station was needed as a hospital for the sick here. If the disease should get in among the poor people residing on the slopes of Puncbowl there would be great danger to the children on account of their numbers.

Dr. Day said the principle of modern quarantine was to disinfect and make clean that which was unclean.

W. M. Giffard said, as the freight was not absolutely required here, there would be no hardship encountered in refusing to allow it to be landed.

Motion to recommend not to land any freight from the Rio de Janeiro carried unanimously.

F. A. Schaefer asked if the vote

taken covered return of freight from San Francisco.

J. B. Atherton said the action taken covered return of the freight. The general public numbering about sixty prominent citizens retired and the Board proceeded to take action upon the above recommendation.

Minister Hatch suggested that the Board keep in mind the precedents of the "Madras case" and continue the quarantine from time to time; that the crew of the Rio de Janeiro with no outside help, be required to handle her own freight and that said freight be transferred to a hulk. Let her be quarantined outside and give her the option of going on or remaining in quarantine. After further discussion the following resolution was read:

Resolved, that in the opinion of the Board of Health the steamship Rio de Janeiro is infected so as to endanger the public health and that a quarantine of at least seven days outside of the harbor must be performed by said vessel before any freight will be allowed to be landed from said vessel, and that thereafter all freight now on said vessel must be fumigated to the satisfaction of the Board before being landed.

On motion the resolution was adopted.

THE SANITARY INSPECTORS.

The committee of ten appointed by the Board of Health to divide the city into districts and to provide for inspectors to make a thorough house to house visitation and render accurate reports on the situation in the various districts, have done their work. People will now have the satisfaction of knowing that all cases of sickness will be reported and the matter of concealment almost if not entirely done away with.

As soon as the committee was given authority by the Board of Health to start the work, the city was divided into twenty districts and a competent person placed over each. Under him were appointed deputies. Saturday was spent in organizing.

The head man of each district called his men together, provided them with books and gave them instructions as to mode of procedure.

The inspectors were up and stirring early Sunday morning with their books in their hands and ready for business. Each house was visited, a complete census taken and a thorough inspection of premises gone through with.

Today everything will be in complete working order and anything that was left out Sunday will be attended to.

Following are the districts into which the city has been divided, together with the head of each:

1. James A. Low—Makai King, east line from Tram to Nuuanu stream and sea.
2. T. A. Lloyd—East Kamehameha School, mauka King, west Liliha.
3. Brother Francis—Mauka King, west Nuuanu stream, mauka Beretania, west Nuuanu street, makai School, east Liliha.
4. Henry Smith—Nuuanu street, mauka Beretania, west Alapai, east extension Emma up Puncbowl, makai School.
5. H. Holmes—East Nuuanu street, makai Beretania west of Nuuanu stream.
6. A. V. Gear—East Nuuanu street, makai of Beretania and west of Alakea to sea.
7. J. H. Fisher—Beretania, Queen, Alakea and Puncbowl streets.
8. C. B. Wilson—Makai Queen street to sea, between Alakea and Old Plantation.
9. F. J. Lowrey—Puncbowl to Waikiki road makai of Beretania.
10. H. E. Cooper—Makai of Beretania from head of Waikiki road to and including Waikiki and Moiliili.
11. Wm. Auld—Waialae beyond ridge from sea mauka.
12. Antone Perry—Palolo.
13. Walter Dillingham—Manoa, mauka of Beretania, east of Punahou.
14. George P. Castle—Above Beretania, Makiki to Alapai.
15. D. L. Naone—Pauoa Valley mauka of School and Puncbowl.
16. George Carter—Nuuanu Valley mauka of Pauoa and Judd streets.
17. C. B. Ripley—Mauka of School, makai of Judd, east of Liliha, west of Puncbowl hill.
18. A. Fernandez—Kalihi.
19. Wm. Mutch—Moanalua.
20. Jos. Marsden—Nuuanu avenue to Puncbowl hill. Bounded by School street and Pauoa road.

QUARANTINE SIGNAL CODE.

The following code is printed for the benefit of mariners. It may be used by all steamers in quarantine:

Hawaiian flag, and house flag at the fore, meaning: Want immediate medical assistance.

Hawaiian flag at the main, 7 a. m., noon and 5 p. m.: All well on board; to fly fifteen minutes.

White flag at the fore—Want water.

White flag at the main—Want provisions.

White flag and house flag at fore—Want coal.

House flag and white flag at the main—Send off boat.

Hawaiian flag, house flag and white flag at fore—Police signal.

The flags to be hoisted in the order they are written by E. F. CAMERON, commanding U. S. S. Claudine.

The Williams Typewriter

Possesses every feature that is essential to a completely equipped, high class writing machine. Compared with other writing machines, it equals each of them at their strongest points, and excels each and all of them in many respects, while in several leading and important features it accomplishes results that are particularly desirable: results that have been steadily sought for by typewriter inventors from the first, but which have never before been reached.

This machine is in no sense an imitation of any of its predecessors, but in its plan of construction is a new departure, and marks a decided advance in the art of typewriting.

In its direct and simple mechanism, the manner of writing, the type-arm action and the construction and movement of the carriage, many principles, novel and original, are introduced.

Expense of maintaining, comparatively nothing. The finest work, no ribbon machine can approach it.

LEADING FEATURES: Visible writing, positive alignment [no tilting of carriage], unequaled speed, direct inking, strongest manifolding, durability, compactness, portability.

No Other Typewriter can Equal the WILLIAMS on any of Above Points.

For further particulars and investigation of the machine, call or address "W. 6," Hawaiian Gazette Company.

Disease before it really gets started. Then it is easy.

During the cholera epidemic in New York, the SUN offered a valuable prize for the best formula for a cholera remedy.

Among the number submitted was one which the Board of Examiners found that gave the very best results. This was awarded the prize and has since been called

SUN CHOLERA MIXTURE.

Anticipating a strong demand for cholera remedies we have put this up in bottles ready for immediate use. Would you not feel better to have something of the kind in the house to take before a physician can reach you?

25 Cents per Bottle.

MINISTER IRWIN MAKES DENIAL
Japan Has no Designs on the Hawaiian Islands.

Hon. R. W. Irwin, Hawaiian Minister to Japan, was recently interviewed by Colonel Cockerell for the New York Herald, on the alleged scheme on the part of Japan to absorb the Hawaiian Islands.

"This style of talk is pure nonsense," said Minister Irwin. "Some sincere friends of the Hawaiian Government talk in this way in order to hurry action in the United States, and many insincere people indulge in it. Japan truly has no designs upon Hawaii. If she ever had she would have shown her hand when President Cleveland proposed to restore the Queen. She had two men-of-war at Honolulu at the time, and her action could have been made decisive. There are 25,000 Japanese in Hawaii now. The question of suffrage there was settled when the constitution was adopted. Anybody may become a citizen and voter by becoming naturalized and renouncing his allegiance to his native country. The Japanese who are in Hawaii are contract laborers. They intend to return to Japan when their terms of service expire. "As soon as Formosa is opened up the Japanese will cease going to Hawaii. Formosa will be the great field for Japanese labor, for there the men can secure permanent homes and be all the while under their own flag. The Japanese do not care to alienate themselves. Formosa will be developed as a great sugar producing island. Japan will do the refining, and this sugar will compete with the Hawaiian product in the United States. As to Japan having designs upon Hawaii it is absolutely unfounded, as I know."

NO CROWDS ALLOWED.**Relief Workers Resent an Uncalled for Editorial Attack.**

The ladies who are working hard to relieve the sufferings of the native Hawaiians are very much incensed at the Independent, an afternoon paper published here. The editor calls their distributing quarters a "hash house," and intimates that the place ought to be closed, because it will be the means of drawing crowds.

The ladies admit that a crowd was present on Saturday, but most of the people came out of idle curiosity. Many people were fed in the kitchen and departed as soon as their appetites were satisfied. Three-fourths of the food supplies was sent to different portions of the city or else called for. They say they must have some place to feed people who are without homes, and cite the Molokai sailors as an instance; these men sleep in a boat; have no place to eat; are without funds and must be provided for. Policemen are on guard and people who have no business around the relief station will be moved on.

One prominent worker said yesterday: "We are surprised at the course taken by the Independent; its editor claims to be a champion of the Hawaiians; he has a peculiar manner of showing it. He is certainly working against their welfare."

The Energetic Secretary.

The name of Mrs. Emma Nakuna was omitted from the list of officers of the Ladies' Hawaiian Relief Committee. She has been one of the leading spirits in the movement since its very beginning and has shown untiring effort in behalf of the needy Hawaiians.

BISHOP WILLIS AND CORPORATE WORSHIP.

Bishop Willis again declares, in a published letter, that the Board of Health have no right to interfere with the "public" recognition of the Supreme Being, or with "public" voice of prayer, and, as we understand him, the Lord will not lend his ear, unless he is worshiped in a "corporate capacity," that is to say, that private and fervent worship is good as far as it goes, but that unless he, Bishop Willis worships, in his church, in a "corporate capacity," the Lord will turn a deaf ear, and, of course, will never regard for a moment the supplications of "the Puritans of Honolulu."

As the Board of Health will not permit this "corporate" worship, the Bishop, tragically praises himself, extends his scornful fight at the Board, and exclaims:

"Will it be said, Honolulu, having dethroned its earthly sovereign, has proceeded to disown all open allegiance to the Kings of Kings?"

In other words, because the simple earnest Christians of Honolulu fear that gatherings even in churches, may spread disease, and therefore prevent such gatherings, they are pagans and lunatics and back-sliders.

The Bishop reminds us of the venerable and well-known ape in the Zoological gardens of Calcutta, who becomes melancholy, refuses to eat, pulls the hair of other apes, and chatters wildly if he is not allowed to occupy a particular perch at meal times. This perch he regards as a sort of "corporate" institution, necessary to his own well being and to that of other apes, and those who keep him away from it he regards as miserable Puritan apes who wish to be wicked and destroy his peace of mind.

LILIUKALANI.

The incidents of the release, by parole-pardon, of the ex-queen substantially closes another scene in the miniature historic drama of Hawaii.

Whether the act, urged by some, if not many, supporters of the Government, and finally done by the Executive, is a wise one is no longer open to discussion. There need now be no quarrel with the fact. Many good and loyal people endorse it, many good and loyal people do not endorse it. When the actual history of the insurrection of January 6th is written, and it has not been written yet, it may appear that those who favor leniency advocate the wisest course. An honest, impartial discussion of the character of that event at the present time would stir up bad blood among the supporters of the Republic. So the subject may be left to future consideration.

While the ex-queen is now only a citizen, she has it in her power to do much for her own race, and much which may command the respect of the dominant element here; that is, the white alien races. Fortunate indeed will it be for her if she call to herself some wise adviser, who will recommend her to follow a few simple rules of conduct, which will cost her nothing but may be of great benefit to herself personally, and of decided benefit to the people she once ruled over. Even the unobtrusive example of the Queen Dowager is not an unworthy one for her to follow.

No one expects that she should clearly see the drift of political events, because she is a Polynesian; but every one can hope that she will, without anger or malice, accept the inevitable; that is, make the best of it. No doubt the great danger is that bad white advisers will confuse and distract her. The people who can really aid her are not anxious to volunteer their services. But experience

may have taught her that it would be wise for her to take the pains to consult persons whom she knows to be honest and intelligent.

A DIET AND HYGIENIC SOCIETY.

There are a number of intelligent, educated women in this city who have leisure, and would be much happier if there were some important subject toward which they could direct serious attention.

The subject of the proper diet, clothing and hygienic conduct in general would not be held in contempt by great male scientists, so that there is no occasion for women to consider the subject mere "rubbish," as the Arkansas women regarded the encyclopedia.

The subject touches the life, health and prosperity of men, women and children. As the best life on earth depends largely upon the physical conditions, there can surely be no more interesting or broader study than that of ascertaining the best hygienic conditions, and the food, and its preparation, of a race that has entirely changed its environment.

The doctors say that more than one-half of the mothers do not know how to take care of their children. If so, it is time they learned how.

Browning societies have their uses, of course, but these and similar societies call for no special mental work, and are therefore rather luxuries, or pastimes.

A society for hygienic treatment calls for some hard work. The prevailing nervous diseases are covered by it. The "new woman" calls for hard work, and brain work, and challenges men in the scientific field. Now is her opportunity, and one open to those who abandoned the cooler climates.

No conclusions which women may easily reach would probably affect men with fixed habits, and who are content with things as they are, even if they are miserable, and weak, and tire out altogether too quickly. But the physical condition and growth of the children may be vastly improved by persistent study and experiment, and comparison of ideas.

Of course it will be said that the women can't fix their attention on this or any other subject, and that the woman "who knows it all" will spoil any effort in this direction, and, at least, all of them will prefer inhaling the sweet odors which ex-hale from the rotten masses of scandal. But the times are gradually changing. If women, heretofore, have not shown a scientific turn of mind, it is because it had no place in "evolution," whatever that is. Their brain power we believe to be equal to that of man, but working itself out in quite different, but equally important, ways.

It is singular that so few educated women have ever studied the chemistry of cooking. It may be explained on the theory that "evolution" has not required it. Has the opportune moment arrived? If so, let the movement begin.

Timely Copies

September 5, 1895.

American women are the only women in the world who do not by their dress indicate whether they are married or single. Of course those who follow in the wake of European etiquette would not appear with their daughters wearing a hat without strings, but the universal American woman buys what she likes, regardless whether it be matronly or not and what is worse her daughters will select articles of dress only suitable to married women.

In no other country is this the case. The independence of American women of today is something that the balance of the civilized world look upon and admire, and down deep in their hearts wish that the social form as regards dress were not so stringent.

Twenty years or even ten years ago, if a woman was to be seen riding astride they were classed as very manish and forward and must be kept at a respectable distance.

Greater still has been the emancipation of women of Paris, gay Paris, and today a traveler can see numberless women in knickerbockers and short coat jackets on promenade. The more conservative look at them from the corner of their eyes and wonder how they can be so bold, but the time has come when women in general have become indifferent to the comments that may be cast at them as regarding their dress.

The only comfortable way for a woman to ride a bicycle is to put on the bloomers and they deserve a great deal of credit in adopting the costume most applicable. Speaking of bicycles, we wish to remind you that our stock of *Monarch* has been replenished and will be delivered at our store today. The *Monarch* is still *Monarch* and cannot be superceded. In a racing wheel we offer you the *Tribune*. A purchaser of a *Tribune* may feel assured that he has got the finest bicycle in both design, quality and finish that good machinery and experience can produce.

While there has been no effort made to advertise the *Tribune* wheel through the medium of racing machines, and have so far refrained from hiring men to ride them in races or breaking records, the *Tribune* racer has, nevertheless, earned a world wide reputation as an extremely fast and easy running machine and many riders of prominence have chosen it as their mount. The Cycloidal Sprocket has much to do with the popularity of this wheel as its advantages in sprinting are beyond all question, and racing men who have given a trial could not be induced to ride without it.

We wish to call your attention to the Alaska Refrigerator which was awarded the premium at the Midwinter Fair as the most compact, accessible and every way most suited to modern use. Warranted not to sweat and preserve ice and food better than any other.

Auction Sales.

By James F. Morgan.

Mortgagee's Notice of Intention to Foreclose and of Sale.

NOTICE IS HEREBY GIVEN that by virtue of a power of sale contained in a certain mortgage dated the 31st day of December, A. D. 1891, made by CHARLES MOLTEMO, of Honolulu, Island of Oahu, to Robert McKibbin, of said Honolulu, recorded in the office of the Registrar of Conveyances, in Liber 122, folios 358-364, the said Robert McKibbin, Mortgagee, intends to foreclose said mortgage for a breach of the conditions in said mortgage contained, to-wit: the non-payment of the principal interest when due.

Notice is also hereby given that all and singular the lands, tenements and hereditaments in said mortgage contained and described will be sold at public auction at the auction room of James F. Morgan, on Queen Street, in said Honolulu, on MONDAY, the 9th day of September, A. D. 1895, at 12 o'clock noon of said day.

The property in said mortgage is thus described, viz:

All that certain piece or parcel of land situate at Kamiliwai, Manana, Ewa, in said Island of Oahu, and being the same premises described in

Royal Patent No. 233, Land Commission Award No. 7446 to Kamamaka, containing an area of 1 acre 2.06 fathoms and that were conveyed to the said Charles Moltemo by deed dated November 24, 1890, and recorded in Liber 133 on folio 255.

All that certain unencumbered piece of land situate at Manana-nui in said Ewa, being Apana 2 of Royal Patent No. 175, Land Commission Award No. 7439, and bounded and described as follows:

Apana 2—House lot at Manana-nui, Ewa, Island of Oahu.

Commencing at the South corner, thence North 51° E. 121.44 feet along mud fence, thence North 40° W. 148.50 feet, thence South 55° W. 142.10 feet along Kamamaka, thence running South 40° E. 148.50 feet to place of commencement, area 3.66 square chains more or less, and being the same premises that were conveyed to the said Charles Moltemo by deed dated October 2nd, 1891, and recorded in Liber 133, folios 492-493.

ROBERT MCKIBBIN, Mortgagee.

Terms Cash. Deeds at expense of purchaser. For further particulars apply to J. M. MONSARRAT, Attorney for Mortgagee, Dated Honolulu, August 16, 1895. 1081-8t

The above sale has been postponed until WEDNESDAY, October 9th, A. D. 1895, at the same time and place as mentioned in the above notice.

James F. Morgan,

4092-2t AUCTIONEER.

GUARDIAN'S SALE.

In the Circuit Court of the First Circuit—Hawaiian Islands.

Guardian's Notice of Sale.

EX-QUEEN'S QUIET DEPARTURE.

Terms of the Parole—Pardon Signed By the President.

Mrs. Dominis Must Reside in Washington Place, but Otherwise is Free to Move About the Island.

At 3:30 p.m., on Friday, the 7th, an orderly on guard at the Executive building, announced to the ex-queen, the approach of Colonel McLean who carried the parole-pardon signed by the President. On entering the room with Major Potter, the ex-queen, clothed in a holoku, was seated by a table with her work basket and a basket of flowers upon it; and on the floor was a glass vase filled with water and holding gold fish. Mr. and Mrs. C. B. Wilson were present. Colonel McLean did not require her to rise, but proceeded to read to her the contents of the parole-pardon instrument. Major Potter followed and read a letter of instructions or regulations, which required her to maintain her residence in Washington Place, with freedom of movement over the island but without privilege of residing at any other place permanently or temporarily, without authority from the Government.

Colonel McLean then informed her that the guards were removed and she was free. She smiled and thanked him.

At 5:30 the ex-queen, dressed in a black skirt and black hat, descended the steps of the Beretania street side of the building without assistance and with ease, and in company with Mr. and Mrs. Wilson entered a carriage and were driven to Washington Place. Later on, several express wagons containing her effects used while she was imprisoned, were taken to the same place.

NEWS FROM JAPAN.

Some Items Taken From a Late Japan Mail.

Yokohama reports that during a fortnight, cholera in a populous district attacked 9,000, and killed 5,000 persons.

A Japanese seal fishing company has been organized by Tokyo capitalists to compete with foreign sealers off the coasts of Japan.

The Minister of Finance issued on the 19th ult., a notification permitting the Bank of Japan to add 10,000,000 yen to its capital. The money will be raised in 50,000 shares.

The hearing of an appeal brought by John Thomas Bush, a colored seaman of the U. S. S. Yorktown, against a decision of the U. S. Consul at Nagasaki, on a charge of having murdered a Japanese named Uyenura Kwanjiro, has concluded at the U. S. Legation, Tokyo, the man being sentenced to confinement for three years and fined \$1,000.

A disastrous railway accident recently occurred in Japan. A train conveying 400 Japanese soldiers was derailed between Kobe and Hiroshima, and 140 of the troops were killed by the mishap. The soldiers were returning from the war. The railway line between Kobe and Hiroshima runs parallel with the sea, and at the time a storm was raging, and the waves swept the train off the rails into the sea.

ORIENTAL LUXURY AT HOME

The wonders of the Orient lay revealed before the eyes of all who care to see them, and that, too, without it being necessary to journey to lands across the seas.

The Oriental never does any more work than is necessary, and when not working, his engrossing care is to make himself comfortable. In many respects the art of living appears better understood in the East than in our bustling Western world. There is now hardly a fashionable home that has not its Oriental room or rooms, or at least its cozy corner; sometimes the latter is Japanese in effect, sometimes Turkish; but whatever it is, be sure it is the result of an inner craving for the beautiful things of life.

Porcelain Ware, Silks, Cushions, Rugs, Mattings, Chinese Silverware, Open-Work Linen Doilies. TO CLOSE THEM OUT FROM THIS DATE, LADIES' SHIRT-WAISTS WILL BE SOLD AT \$1.00 EACH. THESE ARE MADE FROM NO. 1 CREPE. PITH HATS, COLORED AND WHITE, HAVE ALSO BEEN REDUCED FROM \$2 TO \$1 EACH.

Four-in-Hand Neckties, which will be sold for 20 cents a-piece or \$2.25 a dozen.

I make a specialty of taking orders for matting ranging from plain solid to others with colors so blended as to be almost too pretty to use. Crepes will be made in any design imaginable.

Do not fail to visit the store, examine my stock and samples. It costs nothing to look. A. BARNES, New Republic Building.

At Hawaiian Gazette Office.

CHOLERA IN JAPAN.

The Japan Mail prints the following interview with Dr. Eldridge on the subject of cholera in Japan:

Up to June 14th there have been 1382 cases in Japan itself, representing probably the invasion of at least a hundred different localities, and yet, with the exception of certain of the military posts at which the imported cases were first received, and where it has been most successfully handled and restricted, the disease has, in every instance, been stamped out with the occurrence of the first half-dozen cases. Considering that thousands of troops and coolies are now returning to their homes, that the land quarantine of cholera is, for many reasons, most difficult, and that it is generally ineffective, and that infection of the most malignant type may be carried by one suffering from what is apparently a slight indisposition, the work accomplished this year by the Japanese in controlling and limiting the spread of cholera is not only marvelous, but, I think, unprecedented. So far as I know, there is no record of such successful sanitation to it is in the work of the English sanitary authorities, in 1892; but in this case the points of outbreak were very few, and the machinery for control, though no more perfect, theoretically, than that of the Japanese, has been the growth of a century, and has the advantage of an almost unlimited supply of thoroughly educated and experienced men as its instruments.

Remember that, until a few years, the introduction of even a single case of cholera practically ensured a wide-spread epidemic, that the sanitary system of Japan dates from 1877 only, and that its officers have had to be educated and trained ab initio; that, as a matter of fact, the government has had, so far, during the present emergency, no advice or assistance whatever from foreign experts, and the success of the Japanese in this great battle against disease and death can be appreciated at its true value.

Whether, with the setting in of the hot weather, and the even wider distribution of the disease by the still returning members of the expeditionary forces, the present superb results can be continued, remains to be seen; but whether complete control of the pestilence be, or be not, within the power of the authorities, the management of the situation up to date is an achievement unparalleled in the history of sanitation.

BICYCLE :-
:- DIGEST.

The Bicycle has established itself. It is an institution. Though it has become a necessity of modern life, it has not ceased to be a source of pleasure and those who ride it for business purposes still find their greatest enjoyment in the saddle.

Taking it for granted that you have decided to ride, and naturally want the best wheel for your money, we wish to point out to you some of the superior features of the BARNES' SPECIAL.

One taking and distinctive feature of the Barnes' wheel, is the method of brazing the frame joint. When a Bicycle is reinforced from the outside it resembles a sore thumb with a rag around it—an apt but homely simile. Our joint is not a sore thumb. The connections are punched from steel formed into pieces of such shape that they encircle one tube, rendering it doubly strong and project therefrom to form a stud at the desired angle over which the adjoining tube can be fitted and brazed firmly. The steel connections are secured on each side by secondary pieces, and all of them brazed as one piece serve as a pointed reinforcement to the second tube.

Bearings—First quality tool steel hardened and ground to such a degree that there is no possibility of their becoming worn. On such grounds as these fair, frank and honorable, we solicit the patronage of the bicycle riding public. An examination will prove that they are all we claim for them.

The Beauty

OF SOME PIANOS

Is only "case deep." It is much easier to make a handsome case than it is to put music into it. A tolerable mechanic can do the one—the other requires the best thought of a musical artist.

The Kroeger Pianos

All have handsome, tasteful, durable cases; but in their factory constant, careful, studious attention is given to the production of a perfect and lasting tone. The beauty and honesty of a Kroeger begins with the varnish on the case, and goes straight through to the iron plate that holds the strings. We'd like to show you the inside of a Kroeger.

Pianos kept in tune for one year gratis. Old instruments taken in part payment. Tuning and Repairing a specialty.

LATEST NEWS FROM MAUI.

Sanitary Precautions Being Taken in Every District.

A PLEASANT GARDEN PARTY.

Policeman Iwiena Kills a Chinaman in Trying to Arrest Him—Death of Thomas W. Everett—People of Island Object to Landing Chinese Laborers.

MAUI, Sept. 5th.—The Haiku garden party which occurred during the evening of August 30th, on the grounds of H. P. Baldwin, was a most brilliant and successful event. Surrounding a pretty dell were booths of various colors and designs, huge Japanese umbrellas with tete-tete tables, and the quaint little stage imaginable with its green curtain stretched between two royal palms. A myriad of colored lights twinkling here and there amid the foliage, shed soft lustre upon the scene. A large audience of natives and foreigners appreciated a pleasing program which consisted of vocal and instrumental music and an exhibition of wax works. C. H. Dickey acted the part of the lecturer, Dickens, showing to the public, wax models of some of the most famous characters in his novels. F. E. Atwater merits special mention for his assumption of the character of the immortal Pickwick and Miss Richards' negro melodies to the accompaniment of the banjo, were much applauded. Misses Millie Beckwith and Hattie Watson presided at the candy and lemonade tables, Misses King and Minnie Baldwin at the flower stand, Misses Aiken and May Baldwin at the souvenir booth, Mrs. Dickey dispensed coffee and sandwiches, and Mrs. H. G. Alexander had charge of the post office most conspicuous with its red, white and blue bunting. One hundred and forty-five dollars, a much larger sum than was anticipated, was raised for the benefit of native Sunday schools and other charities. The Ladies' Aid Society is to be congratulated on the success of their entertainment.

On Sunday afternoon, August 25th, a mass meeting of prominent citizens of Wailuku and Makawao districts was held at Wailuku court house to consider ways and means against a possible cholera epidemic. After sundry speeches by Drs. Aiken, Armitage and Raymond the following sanitary committee was chosen by the fifty or sixty gentlemen present: Dr. Armitage and Messrs. Chillingworth, Friel, Carter and Campbell for Wailuku; Messrs. Maynard and C. B. Miles for Kahului; Dr. Raymond and Messrs. D. Center and George Rudolph for Spreckelsville; and Dr. P. J. Aiken and Messrs. H. P. Baldwin, James Anderson, C. H. Dickey and W. H. King for Makawao. L. von Tempky was afterwards appointed to look out for the Kula section. S. F. Chillingworth presided at the meeting which continued from 3:30 to 5:30 p. m.

During Saturday night, August 24th, between 8 and 9 o'clock Henry Iwiena, a Wailuku policeman, shot and killed a Chinaman named Ah Quai at Camp 3, Spreckelsville. Several days previously Ah Quai had been a witness in an opium-in-possession case which was tried in Wailuku. Deputy Sheriff Carter directly after the trial swore out a warrant against Ah Quai for perjury, but before the paper could be served the Chinaman escaped and hid in the cane for four or five days. It was while serving the warrant during the night of the 24th that Iwiena shot Ah Quai who was again trying to escape. Iwiena has waived examination and has been committed for trial.

During the past week or more, people on the plantations, ranches and in fact everybody has been busy disinfecting their premises. The Wailuku committee has caused one plank of the sidewalk all along Market street to be taken up and brought to light all manner of filth, "everything except a dead baby," as one of the committee remarked. Market street leads through the Chinese settlement.

Fred S. Armstrong is chief inspector of laborers' quarters on Pala plantation.

In case of cholera Wailuku people will use for a hospital the old "small pox" pest house erected in '81. This building is situated near the beach, between Kahului and Wailuku.

Makawao people will place their hospital on the southwestern boundary of Grove ranch.

Ex-Governor Thomas W. Everett died at his residence in Wailuku yesterday, the 4th inst., at 5:30 p. m. Mr. Everett has been a most prominent citizen of Maui for many years. He was Deputy Sheriff and Sheriff for more than forty years, and Governor of the island for several years. He was born in Boston, November 4, 1822, and during his residence of forty or fifty years on Maui has always been most highly esteemed for his honest and upright character. Professor Everett of Harvard College is his cousin. The funeral will take place this afternoon at 2 p. m.

Three of the Mauao Seminary teachers and a number belonging to Government schools are detained in Honolulu.

Deputy Sheriff Carter, in the absence of Sheriff L. A. Andrews in Honolulu, is acting as the chief executive officer of the island.

During Thursday, August 29th, the steamers Mokoli and Kilauea Hou arrived in Kahului, the former bringing the mail and the latter 100 Chinese laborers. These Chinamen came on the ill-fated Belgic and were imported by Awa for work on Spreckelsville plantation. The authorities at first denied them the privilege of landing at Kahului, but finally permitted them to come ashore without any luggage. Since then they have been quarantined at Camp 4, Spreckelsville. The people of Maui have been most uneasy since the

arrival of the Belgic's passengers, and would have been better satisfied if the celestials had been immediately sent back to Honolulu.

No. 1 flour is selling in some stores at \$2 a bag. This acts harshly with the poor native, for recently he has been compelled to use flour for poi instead of taro. In Makawao a barrel of poi is now worth \$3.25, while formerly it was sold for \$1.50. In case of a famine Maui has Kula beef, corn and potatoes to draw on.

During Tuesday evening, August 27th, Misses Richards and Greene gave a most successful concert in the Paia foreign church.

The alligator pear crop is a large one this year for Wailuku.

The Queen and the St. Julien are the vessels still in Kahului harbor. It is said that the bark St. Julien draws more water than any vessel that has ever entered Kahului.

Weather—Light rains in Wailuku and Makawao.

Unhappy Kau District.

A correspondent writing from Kau states that unless provisions arrive soon there will be a famine. The residents of the district do not approve of Deputy Sheriff Williams' action. The writer also states that Hilo people threaten to put guards at the Volcano House if Kau does not cut off communication with Kona.

Feeding the Poor.

The Ladies' Hawaiian Relief Committee is doing most creditable work in the line of providing food for destitute natives. Their headquarters are directly back of Castle & Cooke's store on Bethel street. Saturday and Sunday the ladies were kept very busy, 1136 and 1138 natives respectively being provided for.

Persons having empty lard or other tin containers will confer a great favor on the Hawaiian Relief committee by leaving same at the kitchen, Bethel street, in rear of Castle & Cooke's store.

Scrofula

The Worst Case the Doctors Ever Saw

Hood's Sarsaparilla Perfectly Cured

"C. L. Hood & Co., Lowell, Mass.:
"Dear Sirs:—I wish to testify to the great value of Hood's Sarsaparilla. For some time I had been troubled with scrofula, which early last winter assumed a very bad form.

Sores appeared on my face and hands and gradually increased in number until they reached to my shoulder. The doctors said it was the worst case of scrofula they ever saw and also went so far as to say it was incurable. I tried ointments and other remedies but to no avail. A friend recommended Hood's

Sarsaparilla, and although I was completely discouraged, as a last chance I resolved to give it a trial. After taking one bottle I noticed the sores had commenced to heal. After the sixth bottle

They Were All Healed.

I continued to take it, however, until I had used nine bottles, and now I am perfectly well."

Miss KATIE ROSENKRANTZ, Ulster, Penn.

LOCAL BREVITIES.

Three furnished rooms, with board, are for rent.

A report from Lunalilo Home yesterday stated that all was well.

The Hawaiian Relief Society will deliver food supplies from 11 to 4 p. m. daily.

Dr. Myers sends in his report from the hospital at 3 o'clock every afternoon.

The next steamer for San Francisco will be the Alameda, due here on the 19th inst.

The Sharpshooters will not meet this evening; the election of officers has been deferred.

The subscription list of the Hawaiian Relief Society is open at the Union Feed Company.

A brake, phaeton and some household effects are for sale at Sunny South, Waikiki road.

The Board of Health did not meet yesterday afternoon; a meeting will be held this afternoon.

An office building will be erected at Halawa, the new burial spot; the foundation was laid on Saturday.

Archie Gillsan, the wharf superintendent for Hackfeld & Co., has been made captain of a steam launch.

Senator Hocking, of Maui, is still in town. Between the Legislature and the cholera he has had a long stay.

Several feet of water collected in the marshy land along the Waikiki road after the rains of Friday and Saturday.

No vessel can leave for any port in the group without a permit from the Board of Health. This is a new order.

The Rio Janeiro brought word that cholera had broken out on board of the Italian cruiser Umbria, lying at anchor at a Japanese port.

Mrs. Bacon was the only passenger that left on the Rio Janeiro from this port; Captain Smith was willing to take all that he could accommodate.

Rev. S. H. Davis was landed at Kailua by the steamer W. G. Hall; as a result the other districts on Hawaii have quarantined North and South Kona.

The Williams typewriter is the latest product in that line. It is an excellent writer and is warranted in every way. For particulars address "W. G.," this office.

Sanitary inspectors commenced work yesterday and visited houses in all parts of the town, taking a census and looking up the sanitary condition of the city generally.

Six leading business firms subscribed \$500 cash for the purpose of furnishing food and other necessities for Hawaiians. Up to Saturday night \$7700 had been subscribed.

Some people were inclined to criticize the Board of Health yesterday for allowing the Rio Janeiro to land her passengers. A member stated that the "Madras case" guided them.

The Citizens' Sanitary and Relief Committee request all citizens who are willing to volunteer their services as sanitary inspectors, to hand in their names at the office of Carter & Kinney, Fort street.

A report comes from Hilo to the effect that the Claudine's passengers will meet with a warm reception and not be allowed to land. Sheriff Hitchcock may straighten out the matter if the steamer goes tomorrow.

Postmaster Oat received but an hour's notice yesterday about the forwarding of mail on the Rio Janeiro. People were notified at once that the mail would close at noon, and many took advantage of the opportunity to write.

Mrs. Carroll, who died at the cholera hospital, was a professional nurse and is said to have contracted the disease while waiting on a native woman named Bishop. The dead woman leaves a married daughter and some young children.

There was some talk yesterday of formulating a plan to prevent the landing of the Rio Janeiro's Chinese. The leaders of the movement were more than surprised to learn that the immigrants had been taken to the quarantine station on Saturday night.

"Alex" Bolster, a compositor employed in this office, celebrated his 64th birthday yesterday. There is a saying that a man is as old as he feels; "Alex" states that he does not know who wrote it, but says it is good stuff and fits his case admirably. He is just twenty. The employees of this office presented the veteran with a bunch of "phat takes" last night, as a slight token of esteem.

DEATH OF C. L. DODGE.

Expired at the Hospital Late on Saturday Night.

C. L. Dodge, of the Hawaiian Star, died at the Cholera Hospital on Saturday night after lingering nine hours. Drs. Day and Wood stood by his bedside to the last, but their combined efforts could not save him.

The deceased had been suffering with a bowel complaint for several days, but his condition did not grow serious until about noon on Saturday. He remained at his office until after 1 o'clock, and then reported at the Health Office. He was taken to the hospital, reaching the place at 2:30 o'clock. The doctors reported favorably on his case until 6 o'clock. The patient then took a bad turn and did not rally.

The deceased came here from San Diego in charge of the Star plant. He had formerly been in the employ of Walter G. Smith, who was editor of the paper at that time. He was made foreman of the paper, and served in that capacity until the journal was turned over to himself and E. A. Towse. He has since been manager, and was considered an energetic and capable business man.

The deceased was a member of the Odd Fellows. He was an expert of the local Typographical Union. He leaves a mother and sister in San Diego.

FOR SALE

AT A GREAT BARGAIN!

- 1 Columbus Phaeton.
- 1 Top Brake.
- 1 Reliable Family Horse and Harness.
- 1 New Process Gasoline Stove.

Also articles of Household Furniture, all in fine condition and will be sold cheap for cash owing to departure. These articles will be sold Monday, Tuesday and Wednesday of this week at
SUNNY SOUTH, Waikiki Road.
4093-74

Call for Volunteers.

THE CITIZENS' SANITARY AND Relief Committee request that all citizens who are willing to act as Sanitary Inspectors, hand in their names at once at the office of the Committee, at Carter & Kinney's Office, Fort street.
F. B. MCSTOCKER, Secretary.
Honolulu, September 8, 1895.

DIAMOND HEAD—Sept. 6, 10 P.M.

Weather, clear; wind, fresh N.E.

The Bennington left for Lahaina on Saturday.

The steamer J. A. Cummins leaves port this morning.

The steamer Waimanalo will leave port at 11 o'clock today for Waimanalo, Heeia, Kaneohe, Waihole, and will receive freight for the above points, subject to a permit from the Board of Health.

The Dimond has finished discharging; her captain expects to get away in about two weeks' time. Prospects for a load for the S. G. Wilder are not good and the chances are, the vessel may leave for San Francisco in ballast.

The five day quarantine will be up tomorrow for most of the island steamers lying at anchor outside. Considering the action taken by Sheriff Williams on Hawaii and the residents of Kauai, the departure of the steamers is doubtful.

The cabin of the Muriel, the new vessel now being built for planter Hind, will be 24 feet long, running the width of the vessel, and a house on deck, 29 feet in length and 15 feet 6 inches wide, will accommodate the galley and the donkey engine. The former will be handsomely fitted and elegantly furnished for the comfort of passengers.

The American three masted schooner Corona, Captain McAllep, arrived on Saturday, 40 days from Hokodate, with 600 tons of crude brimstone for Hackfeld & Co. The captain reports an uneventful voyage. The vessel will commence to discharge tomorrow. This is the captain's first visit to Honolulu; he has made one voyage to Maui. The Corona is a smart looking vessel.

The steamer W. G. Hall returned to port Sunday morning with her passengers and all freight for Kauai. She landed seven people and some freight at Lahaina. When Captain Simerson reached Punaluu, he was informed by Deputy Sheriff Yates that Sheriff Williams would not allow any passengers or freight to be landed, so the anchor was raised and the vessel put back to Honolulu without touching at any port.

A Gallant Court.

In a case before a Paris court, in which a popular actress has had to appear as a witness, the judge seems to have shown considerable diffidence about asking the lady, as he was in duty bound to do, what was her age. Evidently he considered that such a question put to a witness would be a direct incitement to perjury, so he asked her age before she had been sworn.

"How old are you, madam?" he said. After a little hesitation the lady owned to being 29 years of age. "And now that you have told the court your age," continued the gallant judge, "you swear to tell the truth, the whole truth and nothing but the truth."—Cincinnati Times-Star.

Change Ordered.

"I guess I'll have one of those Methodist broiled today," said the king of Mibwpa.

"May it please your royal highness," ventured the high chief steward, "the Presbyterian batch is much the fatter."

"You do what I tell you," thundered the monarch. "I have been eating Presbyterians for a week now, and the court physician has ordered a change of diet."—Indianapolis Journal.

LANDED HER IMMIGRANTS ONLY.

Steamer Rio Janeiro Takes Hawaiian Freight to San Francisco.

Captain Smith Takes the Mail From This Port—Alarming Spread of Cholera in Japan—Many Deaths.

The P.M.S.S. Rio de Janeiro, Captain Smith, arrived on Saturday, 11 days from Yokohama, and came to anchor outside. E. Suhr, of Hackfeld & Co., the agents for the Mail company, went out in a launch and explained the situation to the captain; the latter was not alarmed a bit, and wanted to steam inside and land his passengers and freight at once.

The steamer came in at sundown and anchored in the stream; her 263 Chinese and 20 Japanese immigrants were landed at the quarantine station, after Port Physician Day had satisfied himself that there was no disease on board of the ship.

She had 560 tons of freight for this port but it was not allowed to be landed, pending a meeting of the Board of Health.

The Board decided yesterday morning that no freight would be allowed on shore on account of the alarming spread of cholera in Japan. The captain was notified and he immediately ordered fresh fires and left for San Francisco about 4 o'clock with one passenger from this port and the Hawaiian mail.

The vessel brought word to the effect that cholera was spreading in Japan; and in Kobe alone, the last report was 27,000 cases with 17,000 fatalities. The Japan mail says that the disease is still very prevalent in over thirty districts of Japan. Osaka's death rate from the disease is the highest.

THE MERCHANT NAVY.

Uncle Sam to be Asked to Furnish Guns for Ocean Greyhounds.

Congress at its next session, it is expected, will furnish the \$500,000 asked by the Secretary of the Navy for buying guns for the auxiliary cruisers. Of course, this sum will only go part way toward providing armaments for the merchants vessels which Uncle Sam proposes to employ in the event of war. Mr. Herbert has said that at least 41 of the ships subsidized under the postal contract ought to be armed with as little delay as possible. To accomplish this would require 158 four-inch guns, 159 five-inch guns and 6 six-inch guns. All these would be of the rapid fire kind. To them would have to be added 377 six-pounders, three-pounders and one pounders.

Should there be war, more than two score of the swift steel and iron steamships which now peacefully ply the waters of the Atlantic and Pacific under the United States flag would be transformed into terrifying destroyers of commerce within a few weeks time. Once aloft in their new guise they would quickly wipe the trade of a hostile nation off the seas. Obviously, they could tackle armored vessels of war, but from the latter they would not have much fear under ordinary circumstances, inasmuch as they could run away. Being so swift, they could harry the ocean like tremendous birds of prey, while nothing short of steel-walled ships would be able to withstand the showers of explosive projectiles discharged from their rapid fire guns.

The fearful effectiveness of these rapid-fire guns astonished the naval experts who witnessed the battle of the Yalu and other sea fights of the war between China and Japan. The projectiles literally riddled the opposing ships, stranding the decks with dead and dying, cutting everything to pieces, and setting fire to the woodwork. Metamorphosed into auxiliary cruisers each of the four great steamships of the American line—the New York, the St. Louis, the St. Paul and the Paris—would carry 10 five-inch guns. Each gun of this kind is supposed to throw 28 shells a minute; in action, giving time for aiming at a moving target, it would discharge about 18 shells a minute. Each of these shells weighs 50 pounds, being made of steel and filled with powder.

The money wanted by the navy for arming the mercantile vessels is for the purchase of certain equipments in addition to the guns themselves. None of the subsidized ships have at present mounts for guns; that is to say, carriages and tracks. European powers which grant subsidies to steamship companies for like purposes have all the arms and equipments ready for them, the masts, shells and ammunition being stowed away in store houses, ready to be put upon the vessels at a few hours' notice. Some of the Atlantic liners that come into the port of New York, sailing under foreign flags, actually carry part of their mounts and other equipments for war in their holes as ballast. In case of a declaration of hostilities, on their return to Europe they could get the mounts ready, and be prepared to take aboard the guns and ammunition as soon as they reached the other side.—Washington Star.

FITS CURED

(From Dr. S. Journal of Medicine.)
Prof. W. H. Peck, who makes a specialty of Epilepsy, has without doubt treated and cured more cases than any living Physician; his success is astonishing. We have heard of cases of Epilepsy lasting for years, but we have never heard of a cure so quick and so complete. He publishes valuable work on this disease which he sends with a large bottle of his absolute cure, free to any sufferer who may send his P.O. and Express address. He is now wishing to cure a case of Epilepsy. Prof. W. H. PECK, P. D., 4 Cedar St., New York.

INDURINE.

A COLD WATER PAINT
ESPECIALLY DESIGNED
FOR INSIDE WORK ON
FACTORIES AND PUBLIC
BUILDINGS.

It is a dry powder which can be prepared for use by simply stirring in COLD WATER and can be applied by anyone and will always produce good work.

It is VERY WHITE, extremely reflective and hardens on a wall like stone and will take any tint.

It will last for years, and is unaffected by gases.

One coat covers better than two coats of oil paint or whitewash.

It can be used on any surface and for all classes of work, even for the finest decorating.

OUTSIDE :- INDURINE

Cold Water Kalsomine.

Adapted for Dwellings, Offices and Public Buildings, or any other place where KALSOMINE is used. It will not rub, discolor or scale off.

LUCOL.

A new Paint Oil. It comes raw and boiled; is superior to Linseed, and covers with one-third less lead and pigment to the gallon.

Of Interest to Managers of Plan-

tations.

A Model Plant is not complete without Electric Power, thus dispensing with small Engines.

Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pumps, Centrifugals, Elevators, Plovers, Railways and Hoists; also furnish light and power for a radius of from 15 to 20 miles.

Electric Power being used saves the labor of hauling coal in your field, also water, and does away with hired engineers, and only have one engine to look after in your mill.

Where water power is available, it costs nothing to generate Electric Power.

The Hawaiian Electric Company is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers, and all Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also attention given to House and Marine Wiring.

TREO. HOFFMANN,
Manager.
