BALLOON BURSTS AND KILLS TWO

(Associated Press Cable to The Star.)

LONDON, August 14.—Two persons were today killed outright and six people were seriously injured by the explosion of the balloon of Captain Lovelace of New York. The accident occurred before the ascent was made and while the balloon was still moored.

FLEET BOYS WIN BATTENBERG CUP

AUCKLAND, August 15.—The cutter crew of the U. S. S. Louisiana, of the American Atlantic fleet, is the winner of the Battenberg cup, defeating local competitors.

AUCKLAND, August 15.—The American Atlantic fleet of sixteen battleships in command of Rear Admiral Charles S. Sperry steamed away for Sydney, Australia, at six o'clock this morning.

ADMIRAL COGSWELL DIES IN FLORIDA

JACKSONVILLE, August 14.—Retired Rear Admiral James K. Cogswell, U. S. N., died here today.

NEW MAN FOR MAYOR

The name of J. P. Cooke, for first mayor of Honolulu, is being discussed among Republicans not committed to any of the other three—Hustace, Lucas and Lane—who have come out for the nomination. Hustace and Lucas are in line to have a warm scrap over the nomination and it is likely if Cooke will agree to it, that he will be brought forward as a compromise to unite both sides. Cooke is away now on a vacation on Maui, and it is not known whether he would tackle the campaign or not. He has some supporters who want to see him get into the contest.

Some Men

shrink from making out a will, as though it were inviting a visit from Death.

And so their wills are drawn up hurriedly in the shadow of death, or not at all, and their affairs are left in a tangle.

We draw up wills in proper legal form without charge.

Public Funds Depositories

GOVERNOR FREAR IS EXAMINING THE LAWS OF VARIOUS STATES ON THE SUBJECT WITH A VIEW TO PRESENTING A SCHEME TO THE LEGISLATURE—WOULD GIVE COMMUNITY USE OF THE MONEY OTHERWISE LYING IDLE.

When the next Legislature meets one of the most important matters which will be brought to its consideration by Governor Frear will be that of depositing Government funds in the local banks. When asked what stand he took in this matter Governor Frear made the following statement this morning: "That will be one of the matters which I shall call to the attention of the Legislature at its coming session. I have not gone very deeply into the subject as yet, but have noted it with many other matters which I wish to look up. Nearly six months ago I obtained copies of the laws in many states in which the public funds are placed on deposit with banks under various restrictions. Before I prepare my message to the Legislature I shall go through these and see what appears to be best. "I imagine that some plan by which the Treasurer may, with the consent of the Governor, deposit the Territorial funds to such amount as he may see fit, in the local banks would be best. It would be far better to have these funds where they may be of some use to the general public, than to have them locked up downstairs. At times we have as much as \$600,000 or \$700,000 in the vaults, which is locked up and of no use to anyone. If it were on deposit in the banks, under proper restrictions, of course, it would be available to the general public and the Government would also receive interest on it."

FEDERAL BUILDING SITE LOOKED AFTER

COLLECTOR STACKABLE IS NOTIFIED FROM WASHINGTON OF APPOINTMENT AS CUSTODIAN OF THE VACANT LOT—DISTRICT ATTORNEY BRECKONS MADE REPRESENTATIONS OF THE MATTER. THE POSITION IS ONE THAT CARRIES NO PAY.

E. R. Stackable, the Collector of Customs for this port, has been appointed the custodian of the Federal building site. He will receive no pay for the work but possibly his new position may bring him the prerogative of acting as umpire of the newspaper carriers' baseball games which are played each afternoon on the ground over which he has now jurisdiction. The appointment came as the result of a letter to Washington from United States District Attorney Breckons, who stated that the Collector of Customs was, he believed, according to law the custodian of public buildings in this city, but that he was unable to find anyone authorized to act as the custodian of a public building site. He went on to say that in case of trespass on the ground by a circus, merry-go-round or perhaps some place of bad character, it would be a question in whose name to bring action, stating at the same time that even if there was trouble there would be no question, as the undesirable establishment would be got rid of first and action in the courts brought afterwards. As the result of this letter Mr. Breckons received by the last mail a copy of a letter from Acting Secretary of the Treasury Beekman Winthrop, to Collector Stackable, notifying the latter of his appointment as custodian without compensation.

INDO-CHINA ROW IS NOT SERIOUS

PARIS, August 14.—The Indo-China situation is not considered serious here.

SACRED SINGER SANKEY SILENT

NEW YORK, August 14.—World-famous Evangelist and Singer Ira David Sankey died in this city this morning.

Sankey was born in Edinburg, Lawrence County, Pennsylvania, August 28, 1840, and would have been a sixty-eight years of age two weeks from tomorrow had he lived. He was the son of Honorable David and Mary S. At 15 he joined the Methodist Episcopal church and later became a leader of the choir. He was Sunday school superintendent and president of the Y. M. C. A., at New Castle, Pa. At the Indianapolis convention in 1870 he met Dwight L. Moody and became associated with him as a solo singer in evangelistic work in the United States and abroad. Later he lectured extensively. He compiled many works of sacred songs. "Sacred Songs and Solos" had a circulation of over 50,000,000. He composed many of the most popular gospel songs of his day, including "The Ninety and Nine." He lived in Brooklyn, N. Y., having an office on Fifth Avenue, New York.

Stone tools, machinery and polishing supplies. Hawaiian Iron Fence & Monument Works Ltd.

RESERVOIRS ARE FILLED

AN AMPLE SUPPLY OF WATER—SLUICING GOES AHEAD MERRILY AT THE DAM.

There is enough water in the Nuuanu reservoirs at present to set all fears in regard to drought aside for the time being. In the big reservoir No. 4, which contains many million gallons, the valve is wide open and the water is passing out over it. The same condition exists at the electric light station, where the valve is also open. In No. 1 there is eleven feet, in No. 2 ten feet and in No. 3 nine feet of water, which means that there will not be any scarcity for some time.

The sluicing is going along merrily and Contractor Whitehouse is smiling all over at the amount of dirt which is being carried down the big flume to the fill. Superintendent of Public Works Marston Campbell is just as much pleased and is spending a good deal of time at the dam, taking a close personal interest in all that is being done.

Hawaiian Promoters

APPOINTMENT OF TWO CHAMBER OF COMMERCE REPRESENTATIVES WILL BE DUE SHORTLY.

The Hawaii Promotion Committee as now constituted is nearing the end of its term. According to James F. Morgan, president of the Chamber of Commerce, who was asked about it this morning, there is no rule of rotation governing the membership of the committee. Those who have attended the meetings regularly and are willing to serve longer have a good chance of being reappointed for another year. Two members are appointed by the president of the Chamber of Commerce, along with the standing committees of that body. Two others are similarly appointed by the president of the Merchants' Association. These four members elect the fifth member. It will be the duty of the new president of the Chamber of Commerce, after his election next week, to appoint that body's representatives on the committee. The Promotion Committee now consists of F. L. Waldron, (chairman), W. T. Lucas, J. A. McCandless, J. L. McLean and W. E. Brown. H. P. Wood is the secretary on salary, as he is also of the Chamber of Commerce.

CONTRACT IN DOUBT

LUCAS BROTHERS STILL HAVE A CHANCE OF BUILDING THE FORT SHAFTER ADDITION.

Lucas Brothers have not quite given up hopes of being awarded the contract by the War Department for the additional buildings at Fort Shafter, for which their bid figures aggregate between \$135,000 and \$140,000.

"We ought to know for certain by Monday's mail how it stands," John Lucas said this afternoon.

"Our figures were lower than the San Francisco firm's for certain portions of the work, but it is the whole thing or nothing with us. We cannot look at a contract for parts of the construction."

ON PUBLIC MISSION

Manager Goodale, of the Waiaina Plantation, called on Governor Frear this morning before leaving for the coast. He will attend the National Irrigation Congress, which will meet at Albuquerque, New Mexico, in the near future. He may also represent this Territory at the Lake Mohonk conference, where other delegates from Hawaii will be Admiral Very, Gorham D. Gilman, Titus M. Coan and D. L. Whittington.

THE DREDGING IS SUSPENDED

TROUBLE OVER THE HARBOR WORK AS A RESULT OF A DISAGREEMENT BETWEEN THE FEDERAL AUTHORITIES AND THE HAWAIIAN DREDGING COMPANY OVER WHERE TO DUMP MATERIAL—WHO ORDERED WORK STOPPED?

The work on the dredging contract in Honolulu harbor has been stopped and the prospect is that it may not be commenced for some little time, possibly not before the completion of a long law suit. The trouble has arisen over the specifications for the contract which was made between the Hawaiian Dredging Company and the United States. Neither the dredging company nor the Government officials wish to have anything to say in regard to the matter at present, though when Captain Ottwell returns from Molokai tomorrow morning he may be able to make a statement.

Engineer Burbank, the second in command under Ottwell in the office of the Army Engineers in this city, declined to be interviewed when seen this morning just after he had left the office of U. S. District Attorney Breckons. W. F. Dillingham, of the Hawaiian Dredging Company, also did not care to talk for publication. U. S. District Attorney Breckons stated that the matter had been brought to his attention and that the dredger had stopped on account of the fact that there was a disagreement in regard to the specifications. When asked whether the dredge had been stopped by the orders of the company or of the Government engineers, Mr. Breckons refused to answer, saying that if the matter came into the courts that might be a mooted question.

From sources on the waterfront it was learned that the trouble arose over the fact that the Government engineers insisted that dredged material must be pumped into a certain place, which was more than 3,000 feet away, that being the maximum distance which is required under the contract. When the company refused to do this on account of a claim that it was not according to the specifications, and that they would not be unable to handle so much material if forced to pump it an extra distance, it is stated that the order was given by Engineer Burbank to stop the dredge. This is where the trouble comes in. The dredging company is under contract to complete the work within a given time and if the work has been stopped by a Government official it would hardly seem right that they should be held down to the time limit, providing that they can show that they were going ahead with the work properly when the order to shut down was given. This is a matter which must be fought out here between the company and the engineers or officers go back to Washington. The only way in which the matter can be settled would be through a suit brought in the courts. In the meantime, Captain Ottwell being on Molokai and no one having full authority in the matter, the dredges are not working, all the men are laying off and there is nothing being done on the contract. It is probable, however, that an amicable adjustment can be easily made when the engineer officer returns from Molokai, where he has gone in connection with the establishment of the new lighthouse.

STRIKERS' PLACES NEARLY FILLED

(Associated Press Cable to The Star.)
WINNIPEG, August 14.—A third of the places vacated by the eight thousand mechanics of the Canadian Pacific railroad, who are on strike, were filled this morning.

THREE HOURS IN DIRIGIBLE AIRSHIP

BERLIN, August 14.—The Parseval dirigible balloon has proved a success. A most satisfactory voyage of three hours has just been completed.

A MESSAGE FROM AUSTRALIA

Messrs. Williamson & Co., Junghans, Queensland, writes: "Chamberlain's Colic, Cholera and Diarrhoea Remedy enjoys a great reputation in these parts. It has effected some really remarkable cures, and there is scarcely a home without a bottle." For sale by all dealers, Benson Smith & Co., agents for Hawaii.

BROADWALK Barefoot Sandals

We have a new shipment of these famous Sandals on hand. For ease, comfort, and wear, they have no equal in the sandal line.

They have proved to be as popular with our patrons as they are in the East, for they are especially suited to the Honolulu climate.

Call and see them. All sizes in black and tan, from \$1.25 to \$2.50.

Times of the tide are taken from the U. S. Coast and Geodetic Survey tables. The tides at Kahului and Hilo occur about one hour earlier than at Honolulu. Honolulu standard time is 10 hours 30 minutes slower than Greenwich time, being that of the meridian of 157 degrees 30 minutes. The time whistle blows at 1:30 p. m. which is the same as Greenwich, 9 hours, 0 minutes. The Sun and Moon are for local time for the whole group.

THE LOG-BOOK

Yesterday's Pauwau polo games resulted in Maui and Oahu 4. Castle and Shingle scored for Oahu.

The Naval training ship Buffalo, with stores and supplies, is expected to accompany the Pacific fleet here next month.

Captain Rose, formerly of the U. S. Navy, is of the opinion that the sand banks at Kahili, Kilauea, Kauai, should be looked to for a supply for the Pearl Harbor concrete work instead of the expense of bringing sand from the mainland.

VICTORIA, B. C., Aug. 4.—As a result of the expected ruling of the Interstate Commerce Commission effective November 1, on business across the Pacific in connection with United States railroads which will be obligated to raise their rates for the railway haul, the Nippon Yusen Kaisha will establish a new service commencing

In November to carry Japanese merchandise to Atlantic ports of the United States by way of the Suez Canal, according to advices received by the steamer Montague, which reached port last night. Japanese newspapers received by the Montague comment at length regarding the action of the Interstate Commerce Commission and United States railroads. Some of the vernacular papers take the ground that the action is to be construed as unfriendly to Japan.

When the transport Sheridan was outside last evening, having left the harbor about 5 o'clock for Manila, via Guam, she stopped to land Stewart Tait in the pilot boat. He was stowing away and a charge of embezzlement was lodged against him here. His friends, however, say he is innocent of any such wrong.

VALLEJO, August 1.—In an effort to complete work on the cruisers West Virginia, Maryland, California and South Dakota before the 20th of the month the hours for the night shifts at Mare Island have been continued, and instead of work being concluded at 1 o'clock this morning, as has been done during the past week, a force worked until 6 o'clock. More than 700 men are now engaged in installing the new fire control systems aboard the vessels, and while it is doubtful if the work can be concluded before the ships leave, an effort is being made to get the jobs in such shape that they can be finished by the machinists aboard the ships on the cruise to Samoa. Orders for the vessels provide that they shall be ready to sail from Mare Island on the 20th, and they will leave San Francisco four days later. Bids have been opened in Washington for 1,480,000 pounds of provisions for the cruisers, and arrangements have been made with the Southern Pacific whereby the Government freight will be given the right of way over the roads in order that it may be delivered on time. The order for provisions is in addition to the \$95,000 worth that have been authorized purchased in San Francisco in advance of the formal approval of the bureau.

The Buffalo, Captain Frank M. Bostwick commanding, has been detailed to accompany the Pacific fleet to Samoa, and will carry provisions for the cruisers. The Buffalo's original orders provided for her to join the Atlantic fleet at Manila with stores, but these were revoked as her services were needed with the Pacific fleet. The collier Saturn and the Solace will also accompany the fleet, the latter carrying the stores for the eight torpedo boats which are to be sent to the Philippines.

The new turbine steamer Tenyo Maru, which is now making a very fast run to America, has earned warm praise from Mr. John Lambert, Lloyd's Surveyor, who is a passenger. Writing from Yokohama to Mr. Matsuda, local manager of the Toyo Kisen Kaisha, Mr. Lambert says: "Just a line to tell you I am delighted with the ship. She is a splendid vessel in every way and I am extremely pleased to have the opportunity of traveling in her on her maiden voyage. Everything has gone well, not a hitch of any description, and you have to look out of the port to know whether the vessel is going or not as there is such an absence of vibration."

The Tenyo Maru left Hongkong on June 2 on her maiden trip arriving at Keelung on June 3 at 3 p. m. an average speed of 18 knots per hour. From Keelung to Shanghai she reached an average of nearly 19 knots, and this speed was maintained to Nagasaki. She left Yokohama on June 15 with a cargo of 6750 tons, including 1929 bales of silk and 38,450 case of tea and a total of 302 passengers. The T. K. K. has received a cable that she arrived at Honolulu on the 23rd inst., making the trip from Yokohama to Honolulu in the quick time of 8 days 5 hours.—Overland China Mail.

WEEKLY WEATHER BULLETIN

FOR THE WEEK ENDED AUGUST 8, 1908.

Honolulu, August 10, 1908.
The mean temperatures were slightly higher than those of the preceding week on Molokai, in the Kohala and extreme northern portion of the Hilo districts of Hawaii, at all but one station on Oahu, and in the Lahaina and Hamakua and portions of the Koolau and Wailuku districts of Maui; elsewhere they were somewhat lower.

The rainfall was above the average of ten or more years at all stations having such records in the Kohala, Hamakua, Hilo and Puna districts of Hawaii, and in the Koolau district of Oahu; and below the average elsewhere. The departures from the average, in inches, in the several islands and districts were: Hawaii—Kohala and Hamakua +0.48 to +0.77, Hilo +0.50 to +1.87, Puna, +0.87, Kauai, +0.72 to 0.82, and Kona -1.76; Oahu—Koolau +0.05 to +0.08, and -0.05 to 0.28 in the remaining districts; and Kauai, Kauai, -0.10 to -0.31.

The greatest amounts of rainfall, in inches, were reported from the Hilo and Puna districts of Hawaii and ranged from 2.39 to 6.31. In the remaining districts the amounts were: Hawaii—Kohala 1.54 to 1.85, Hamakua 2.02, Kauai 0.00 to 0.90, and Kona 0.09 to 0.11; Maui—Koolau, Hamakua, Hamakua and Puna 1.60 to 2.69, and 0.00 to 0.24 in the remaining districts; Oahu—Koolau 0.17, Koolau 0.36 to 1.44, Honolulu and Ewa 0.07 and 0.08, and Wai-anae 0.00; Kauai—Koolau 0.95, Puna 0.73 to 0.90, and Kona 0.08 to 0.84; and Molokai 0.00 to 0.30.

There was more rain than during the preceding week at all stations on Kauai, at all in the Koolau, Koolau, and Honolulu

EDISON TO QUIT TOILING FOR MONEY

WIZARD OF ELECTRICITY ABOUT TO BEGIN ROVING COMMISSION IN INTEREST OF SCIENCE.

NEW YORK, August 3.—Thomas A. Edison has begun to gratify an ambition he has cherished many years and the laboratory at Llewellyn, N. J., will see comparatively little of him henceforth. Mr. Edison's ambition has been to give himself a roving commission to prove science and to steer clear of commercialism.

Toward the end of this month he is going with his wife on a month's trip to the Pacific Coast. He may stay longer if the fancy strikes him. The change doesn't mean that Mr. Edison is going to stop work. It simply means he is going to do the kind of work he wants to do regardless of its commercial value.

There is nothing green about the grass widow who can rope a na rich old bachelor.

districts of Oahu, in the Kula and Hana and northern portion of the Koolau districts of Maui, and in the Hamakua, Hilo—excepting at Oohala, Puna and Kau, and portions of the Kohala and Kona districts of Hawaii. The greatest excesses occurred in the central and southern portions of the Hilo and in the Puna districts of Hawaii and ranged from 1.43 to 4.37 inch; elsewhere the differences were not material.

Serious drought conditions obtain in several parts of the section, and especially so in portions of Maui.

The following table shows the weekly averages of temperature and rainfall for the principal islands and for the Group:

| | Temperature | Rainfall |
|-------------------|-------------|--------------|
| Hawaii..... | 71.8 deg. | 2.48 inches. |
| Maui..... | 75.0 deg. | 1.16 inches. |
| Oahu..... | 77.9 deg. | 0.37 inch. |
| Kauai..... | 76.2 deg. | 0.70 inch. |
| Molokai..... | 75.9 deg. | 0.15 inch. |
| Entire Group..... | 74.5 deg. | 1.54 inches. |

At the local office of the U. S. Weather Bureau in Honolulu, partly cloudy weather generally prevailed, with measurable rain on two dates amounting to .07 inch, .28 less than the normal for the week, and .04 more than last week's. The maximum temperature was 82 deg., minimum 70 deg., and mean 72.9 deg, 1.4 deg. lower than the normal, and 0.5 deg. higher than the previous week's. The mean daily relative humidity ranged from 65 per cent to 69 per cent, and for the week was 67.3 per cent. Northeastly winds obtained on each day, with an average hourly velocity of 9.1 miles. The mean daily barometer was from .02 to .07 inch above normal, and the mean for the week, 30.03 inches, was .05 inch above normal.

U. S. DEPARTMENT OF AGRICULTURE.
WEATHER BUREAU.

The following data, covering a period of 33 years, have been compiled from McKibbin and the Weather Bureau records at Honolulu, T. H. They are issued to show the conditions that have prevailed, during the month in question, for the above period of years, but must not be construed as a forecast of the weather conditions for the coming month.

Month August for 33 years.
TEMPERATURE.
(1890-1907). 18 years.
Mean or normal temperature, 78 deg.
The warmest month was that of 1900, with an average of 80 deg.
The coldest month was that of 1894, with an average of 77 deg.
The highest temperature was 88 deg. on the 10th, 11th, 15th, 1896; the 4th, 1897; and the 9th, 1901.

The lowest temperature was 63 deg. on the 23d, 1894.
PRECIPITATION.
(Rain, 1877-94, 1905-7). 21 years.

Average for the month, 1.50 inches.
Average number of days with .01 of an inch or more, 14.
The greatest monthly precipitation was 4.47 inches in 1888.
The least monthly precipitation was 0.16 inch in 1894.
The greatest amount of precipitation recorded in any 24 consecutive hours was 2.51 inches on the 13th, 1881.

RELATIVE HUMIDITY.
Average 9 a. m., 66 per cent; average 9 p. m. 72 per cent; (1893-1904.)
Average 8 a. m., 68 per cent; average 8 p. m., 70 per cent; (1905-7.)

CLOUDS AND WEATHER.
(1890-1907.) 18 years.
Average number of clear days, 11; partly cloudy days, 18; cloudy days, 2.

WIND.
(Direction 23 years; velocity 3 years.)

The prevailing winds are from the N.E., (1875-94, 1905-7.)
The average hourly velocity of the wind is 8.9 miles (1905-7.)
The highest velocity of the wind was 31 miles from the N.E., on the 10th, 1907.

Station: Honolulu, T. H.
Date of issue: July 30, 1908.
* 9 o'clock averages from records of Territorial Meteorologist; 8 o'clock averages from Weather Bureau records.

HARRIMAN TALKS
OF PROSPERITY

But He Warns The People Who Grieve Him By Opposing Railroads.

BETTER TIMES ARE AT HAND.

The Magnate Says The Worst Is Past And Business Aspect Encouraging.

CHICAGO, August 3.—Although it was a hot day and in the vacation season, E. H. Harriman "the railroad wizard," found time here today to give out an interview which was a trumpet note of economic and financial optimism and a solemn caution and warning to the American people. Incidentally, Mr. Harriman took a rap at the Hepburn bill.

This is the first time Mr. Harriman has discussed the supervision of railroads by the Federal government, and pointed out its defects as seen through the eyes of a man who controls 23,000 miles of railroads in America. He emphasized the statement that he was against the Hepburn bill or any railroad legislation unless it carried along with the provisions for publicity and regulation also protection for the railroads of this country.

Harriman particularly called attention to the fact that he had stated his objections to one-sided railroad legislation to President Roosevelt when he conferred with him in 1905 and that the same year he had expressed these same views in writing to William H. Taft then Secretary of War.

REGULATION AND PROTECTION.

"The Hepburn Act in itself would not be harmful," said Mr. Harriman, speaking slowly and deliberately, as though he intended that every word should carry weight.

"I said when I talked to Mr. Roosevelt," continued Mr. Harriman, "I favored regulation and publicity if coupled with protection, so as to permit the movement of traffic along lines of least resistance and at least cost. This can only be accomplished by co-operation between the Government and the transportation lines. Unless they are willing to grant the one, they should not enforce the other."

"The principle of regulation is proper and the method should have the most careful consideration by those qualified to do so—as I told the President."

"Were you in favor of the Hepburn bill, introduced in the last Congress?" "I was—with the provision for protection as I just outlined."

PANIC IS PAST.

In speaking of the recent financial distress Mr. Harriman declared that the worst had been passed and that money is becoming more plentiful. He said, however, that the people must cease viewing the railroads with the constant eye of suspicion. He declared that he entered into the recent deal affecting the Gould roads to save the situation, but he declined to disclose any details of the settlement between Mr. Gould and himself.

The money scarcity he said, was due to "an abnormal condition of the public mind." And he plainly hinted at the Federal anti-trust war as the immediate cause.

After imposing on his questioners the obligation of "quoting me for just what I say," Mr. Harriman settled back and intimated that he was ready to be quizzed.

PROSPERITY ASSURED.

"Is the advance of securities justified by conditions, actual or prospective?" was the first question asked.

"Yes," was the instant reply. "I have every reason to think so."

"How long will this advance continue?"

"As long as conditions remain nat-

ural and normal and the people continue in a normal state of mind. The decline was due to abnormal causes that ought not to have existed."

"Ordinarily, people engaged in legitimate business are not harmed by speculative reaction. The reaction in this case was due to an abnormal condition of the public mind, which produced serious injury to legitimate interests."

"The worst is passed," he continued. "Better times are visible on the horizon. Conditions are improving. The crop outlook is excellent. The business aspect is encouraging. The open and receptive mind with which the people now view the situation gives grounds for optimism."

"But let me say something:

SUSPICIONS UNGROUNDED.

"The American people must get over the idea that there is a mystery in the railroads. There is no mystery, and there never was any mystery. The people must stop this constant looking askance this searching for the ulterior motive that does not exist. There are no grounds—there is no reason—for suspicion."

"The railroads suddenly found themselves without business when the financial stringency came last November. As a result the roads have been making efforts to readjust business relations throughout the country."

"The psychological effect of the situation has passed. Certain evidences of its economic effect remain, but these are gradually growing better. For a time it was satisfactorily. The conditions made purchasing on the part of the railroads absolutely impossible. The railroads are heavy spenders, and when they stop spending the effect is felt in every branch of industry and commerce."

THE PROPER PLACE.

He was having some words with her chaplain.

"I'll kiss—I'll kiss her right under your nose!" he said, defiantly.

"Oh, well," said that lady, "vicarious kissing like that I can see no objection to."—Boston Transcript.

The Hawaiian Star

DAILY AND SEMI-WEEKLY.

Published every afternoon (except Sunday) by the HAWAIIAN STAR NEWSPAPER ASSOCIATION.

SUBSCRIPTION RATES.

Local, per annum \$ 8.00
 Foreign, per annum 12.00
 Payable in Advance.

Entered at Post Office at Honolulu, Hawaii, as second class mail matter.

Subscribers who do not get their papers regularly will confer a favor by notifying the Star Office; Telephone 365.

The Supreme Court of The Territory of Hawaii has declared both THE HAWAIIAN STAR (daily) and THE SEMI-WEEKLY STAR newspapers of general circulation throughout the Territory of Hawaii, "suitable for advertising proceedings, orders, judgments and decrees entered or rendered in the Courts of the Territory of Hawaii."

Letters to THE HAWAIIAN STAR should not be addressed to any individual connected with the office, but simply to THE HAWAIIAN STAR, or to the Editorial or Business Departments, according to tenor or purpose.

GEORGE F. HENSHALL MANAGER
 FRIDAY AUGUST 14, 1908

HARVEY'S CREDITABLE SPEECH.

Frank Harvey's address last night at the Aala Park meeting was full of good local political advice. It would greatly injure the cause of local good government and our progress towards statehood to have our political controversies degenerate into race-line voting. Of the Hawaiian it may be said that he stands conspicuous among the small-numbered peoples with whom Anglo-Saxon expansion has come into contact, in that he was felt fitted for free suffrage at once and was taken freely into the national family of citizens, not merely without restriction, but in the matter of abandoning English language qualifications for voting, under terms even denied to Caucasians in many states of the Union. The record therefore shows no excuse for working up a race campaign, and those who engage in it are either political knaves or lack intelligence. Mr. Harvey did a service to his people in his strong protest against such campaigning. The Star has maintained all along that little would come of the agitation for a color line, and that Hawaiians would continue their record of voting on an intelligent basis. The political drift of the hour indicates that the contention is to be borne out. It isn't likely that many voters gifted with common sense will follow the Atcherley leadership.

Judge Quarles offers a rather boomerang argument against Taft, as far as local issues are concerned, when he accuses Taft of being too much controlled by Roosevelt. Roosevelt is the greatest friend Hawaii ever had and if he were going to boss Taft as president,—which is a charge utterly at variance with Taft's known character,—Hawaii could not want anything better.

Of course there can be no intelligent Hawaiian objection to the new Board of Health's resolution regarding leprosy. A decision to make efforts to cure leprosy is the first consideration rather than efforts to quarantine and isolate, is what Hawaiians, the people most concerned, have long contended for.

INTERNATIONAL CIRCUMLOCUTION.

In any ordinary controversy at law, if a claim for damages incurred in South Africa, after being ineffectively prosecuted for thirteen years, was suddenly found to depend upon the matter of adjudicating a mining claim in New Zealand, the parties interested would probably rub their heads and decide that the courts had gone crazy. Yet that is about the present development of the famous British claims by Honolulu citizens, for damages growing out of the 1895 difficulty here. They are bundled with the Newfoundland fishery diplomatic discussion. With the merits of the claims we don't propose to deal,—the matter may be left to any proper tribunal if it can ever be got before one. But the absurdity of the method of decision is quite beyond description. If the claimants had a just claim thirteen years ago, there is no way to do them justice now. Some have gone to hear the decision of a Court that makes no awards in money. But what of a civilization that can do no better in adjudicating Hawaii claims, between two friendly nations, than to let them drag along with Newfoundland fishery and other unconnected questions, while the claimants die off? International diplomacy is surely a wonderful thing.

VENEZUELA AND HOLLAND.

The world will watch with considerable interest if President Castro of Venezuela gets his country into a war with Holland. One after another Castro has offended the Powers, but they have found no way to deal with him. They would like to see him well punished. The Monroe doctrine stands in the way of the larger powers, but Holland would not be suspected of trying to violate it, so might be given a free hand. There seems to be no doubt that the offense was given by Castro. As the Washington Star describes the growing trouble:

"The measures taken by the Venezuelan government against the Dutch government, and directly against the Island of Curacao, brought about depressed business conditions in that island, whose people asked Queen Wilhelmina of Holland to take steps to improve the relations between the two countries in a permanent manner. Curacao complained of the seizure by Venezuela of Dutch vessels plying between Aruba and Curacao, both Dutch possessions, and the imprisonment of the crews; the opening of official correspondence by Venezuela, the decree issued by President Castro prohibiting the trans-shipment of freight at Curacao and of many other antagonistic measures.

"The culminating act of hostility to the Dutch government was the recent dismissal by President Castro of J. H. De Reus, the minister resident in Caracas of the Netherlands. The minister's passports were sent to him by Senor Paul, the Venezuelan minister of foreign affairs.

"Queen Wilhelmina's government replied to this by sending the warship Gelderland to Puerto Cabello for the purpose of taking M. De Reus away."

Holland's little navy might make a great deal of trouble for Venezuela, but it is hard to see how she could do any very great damage to Castro, who frankly avows that he doesn't want any foreign commerce or capital, and relies upon land defenses to resist invasion.

SUGAR COMPARATIVELY NEW FOOD.

An article in the Literary Digest calls attention to the fact that general use of sugar is a modern phenomenon. The ancients were unfamiliar with it, and the rapidly increasing consumption of it in various countries is a new thing. Paris Cosmos is quoted to the following effect: "Cane-sugar was made by the Chinese at a very remote epoch. In the West it was known much later; Pliny, Varro, and Lucan, among the Romans, at the beginning of our era, just make mention of it, and it was then known under the names of 'Indian salt,' 'Asian honey,' and 'Arabian' or 'Indian juice.' In 1090 the Crusaders, on their arrival in Syria, found cane-sugar there for the first time, and it became part of the soldiers' ration. In the following centuries sugar-cane was intro-

NEWSPAPER MEN RUNNING CAMPAIGNS

More newspaper men are to be engaged in the active management of the political campaigns this year than ever before in the history of the great parties. In fact, the most important work—the planning and carrying on of the fight for victory of both the Democrat and Republican organizations is in their hands.

The Republican campaign committees have taken the lead, and there is every promise that before a fortnight the scramble to sign distinguished journalists will be lively.

Norman E. Mack, editor of the Buffalo Times, has been chosen chairman of the National Democratic Committee, the most important office in the campaign organization. He is the kingpin, the man at the throttle, the commanding general of the Democratic forces. Mr. Mack has been a member of the National Committee since 1890 and is a well seasoned veteran in the political arena.

BURTON ASSISTANT SECRETARY. In the meantime John R. Burton, a newspaper man and a former McCarran Democrat of Brooklyn, who now bears the unequalled endorsement of Charles F. Murphy of Tammany Hall, will sit at the head of the table in New York as assistant secretary of the national committee. Mr. Mack will meet with members of the national committee in New York the latter part of the week, and map out the details of the campaign.

Colonel Henry Watterson, of the Louisville Courier-Journal, has been appointed chief of the Bryan newspaper brigade at the meeting of the sub-committee of the Democratic National Committee in Chicago on Saturday. The candidate himself has announced that he will prepare a number of editorials for Democratic newspapers to be used during the campaign over his signature.

RIDDER WILL HELP. Herman Ridder will collaborate with Col. Henry Watterson and other Democratic editors in an advisory capacity to the national Democratic press

bureau. Josephus Daniels, editor of the Charlotte Observer, of Charlotte, N. C., will be the head of the executive press bureau and will be assisted by Willis J. Abbot. A general advisory committee to the national committee is to be headed by John E. Lamb of Indiana.

The Democrats will not rely alone on The Commoner and the American Federationist, the official publication of the American Federation of Labor. They are already arranging to meet the Republicans on their own battle ground, and will engage the services of all the newspaper men that they can secure to scatter the doctrines of the Democracy.

REPUBLICAN BUREAU. The literary bureau that Chairman Frank H. Hitchcock of the National Republican Committee organized to support the Taft pre-convention campaign will be increased and continued. Experienced, diplomatic newspaper men will be sent out in all directions, under the instruction of Hitchcock.

They will not only see that Taft news gets into the various newspapers, but they will act as a secret service force to report the doings of the enemy to their chieftain. It was in this way that Hitchcock was able to keep such an accurate card index on developments before the Chicago Convention.

The Republican Congressional Committee has adopted similar tactics. When it became desirable to find a secretary to succeed Representative Loudenslager, slated for the chairmanship of the committee, Representative Dawson, an Iowa newspaper man was selected because he knows Republican news when he sees it.

The Independence Party, at the convention held in Chicago this week, nominated John Temple Graves, formerly editor of the Atlanta-Georgian, but now with the editorial staff of the New York American, for vice-president.

William Randolph Hearst was made chairman of the National Independence committee.

BRIGHT EDITORS

Of course, the boat rocker might plead that he acquired the habit while he was in the cradle.—Milwaukee Sentinel.

Paris is threatened with a strike of 3,000 bakers. Of course, it is more dough that they want.—Cleveland Plain Dealer.

Judging from the names of the winners, the Olympic games must have originally been written O'lympic.—New York American.

"Changeless Change," is the title of a recently published sonnet. It sounds suspiciously like a counterfeit 10-cent piece.—Chicago Record-Herald.

One Massachusetts mother has taken no chances. She has named her twins Taft and Bryan.—Rochester Democrat and Chronicle.

The Oklahoma star is now on the flag. It will surprise many Oklahomans to discover that it hasn't crowded several others off.—Cleveland Leader.

A Pittsburg man claims that it cost him \$100,000 to get his wife. Doubtless the chief item of expense was getting rid of his other one.—Washington Herald.

The muzzled dogs of Washington now know what the high officials in the town have endured throughout the Roosevelt Administration.—Houston Post.

A CHANGE FOR THE BETTER. Miss Lillian B. Hill, the advertising expert, said at a clothier's banquet in Grand Rapids:

"I am glad you clothiers now advertise, new print pictures of men's and boys' fashions. Thus you smarten up the country, and you help to abolish the cutting down of the father's clothes for the son.

"You have educated our little boys to dress, and few of them could bear to wear their fathers' garments made over by mothers' awkward hands as in days of yore.

"It was not always so. I remember how in the distant past my little brother rushed whimpering into my room one night.

"Oh, dear," he whimpered, 'pa's had his beard shaved off, and now I guess I've got to wear the old red thing.'—Washington Star.

THAT SETTLED IT. He—"They say that people who marry soon grow to look alike."

She—"Then you must consider my refusal as final."—Illustrated Bits.

deduced into the island of Cyprus, into the Nile Delta, on the north shore of Africa as far as Gibraltar, into Sicily, and into the Kingdom of Naples; then into Spain in the fifteenth century and thence into Madeira and the Canaries. In 1644 the French took it to Guadeloupe and shortly afterward to Martinique and Louisiana. The Portuguese introduced it into Brazil, and the English into Jamaica."

your'n, Ike," said a prominent citizen of Polkville, Ark. ?

"You betcha!" proudly replied the parent of the prodigy. "He can swear like a pirate, and the little feller's only 5 years old and haint' never been in sight of the ocean in his life, neither."—Exchange.

A celebrated divine was to preach in a small village one Sunday, where he had been several times. The family who entertained him had a little daughter who was usually fond of attending service. When the other members of the family were ready to go little Nellie firmly refused to go with them.

"I do not want to go to church," she declared.

"Why, what is the matter?" asked her mother very much surprised, "are you ill?"

"No, but I heard Parson D. before, and I do not like him," said little Nellie.

"Oh! Nellie, that is a very wicked thing to say," replied her mother, "tell me why."

"Well," said Nellie rather confusedly, "he preaches so long that I cannot keep awake, and he preaches so loud I cannot go to sleep, so there!"

The true test of greatness is to convince the other people that you are great.

Blessings often come disguised, but we can always recognize the wolf at the door.

If we have to die to be appreciated most of us would rather not be appreciated.

The way of the transgressor may be hard, but he can generally afford pneumatic tires.

No, Maude, dear, a hack writer is not one who gets up the advertisements for a cab company.

It always takes two to make a quarrel, but the quarrelsome man seldom has any difficulty in finding the other one.

"You editors take life too seriously," remarked the poet. "I would take yours with positive glee," retorted the editor.

A woman is always more economical than a man. Where a man will manufacture a lie out of the whole cloth a woman will use the remnant.

"I tried to pay suffragists a compliment last night in my speech, but it didn't seem to be appreciated."

"What did you say?"

"Leave large footprints on the sands of time."—Tit-Bits.

"Every man is the architect of his own fortune," quoted the Wise Guy. "Yes, but he wants to keep solid with

the building inspectors," added the Simple Mug.—From the Philadelphia Record.

MR. CLEVELAND'S "IF-IST."

Grover Cleveland was all his life a preacher of optimism," said a Princeton man the other day. "All his lectures breathed the spirit of hoping for the best, of looking on the bright side of things. I was fortunate enough to have the entree to his home in Princeton, and on one occasion I made so bold as to compliment him on this pronounced trait of his character.

"Yes, I suppose I am what you might call an optimist," he said with a twinkle in his eye, 'but I hope I am not an if-ist.'

"An if-ist, I repeated. 'What is an if-ist?'

"An if-ist," said Mr. Cleveland, "is a person who is a slave to the little word if, whereas an optimist hopes for the best in a sane manner. The if-ist is never quite sane. I once knew an if-ist who was lost in the Maine woods with a companion on a hunting expedition. As night came on they made camp, but, although they were hungry, they had shot no game, and had nothing to eat. With a perfectly serious face this fellow looked at his companion and said:

"If we only had some ham, we'd have ham and eggs, if we only had some eggs!"

NO, INDEED, NO ANGEL.

There is an eternal masculine in there is an eternal feminine, and in the young masculine animal of the human race the idea that it is not consistent with his dignity and strength of character to be considered too good develops early. This was shown the other day by a very little man named Vincent, who is so small that his knowledge of the use of words is as yet very rudimentary. The little girl, who is older, had returned from Sunday school, and grand-mamma had asked her, on general principles, what the lesson was about.

"Oh, about angels," replied the little girl indefinitely, and, then, seeing a possible application, she turned to the baby, adding, "And you are a little angel, aren't you, Vincent?"

Baby might have been expected to be pleased at this compliment, affectionately given, but not at all. He screwed up his small face, threw all the force of his small mind into the putting together of the proper words, and burst out:

"No—I had boy."

A little girl hates to be kissed by a man almost as much as a big girl doesn't.

The Regal Duke

Every Man who wants a conservative style in his foot-wear will find his preference in the DUKE.

No other plain toe shoe quite measures up to this model for comfort and service. The uppers are cut from the famous King Kid.

The shoe is made without tip or toe box, and the sole is guaranteed to be of real Oak Bark Tanned leather, finished with light extension welt.

The inside linings, facings and stays are selected expressly for the Duke, and are stitched with Japanese silk thread.

Price:—\$3.50 and \$4.00.
 Custom Bench Special, \$5.00.

CASES PENDING AT WASHINGTON

THIRTY THOUSAND DOLLARS HUNG UP IN COTTON BROS. APPEAL.
NATURALIZATION BY CIRCUIT JUDGES AND MORITA KAIZO'S
NECK ARE JOINT ISSUES—RAPID TRANSIT TAXES AND SCHEDULES—QUESTION OF INVIOABILITY OF SEAMEN'S WAGES.

Attorney General Hemenway is up to his eyes in work at present, for he has but one month left before his departure for Washington where a number of extremely important Hawaiian cases come up before the Supreme Court of the United States. He will leave this city by the Korea on September 20 and will go directly to Washington, possibly taking up the John Marks case before the Circuit Court of Appeals in California on his return to the coast.

The most important cases which will come up are the Territory vs. Cotton Bros., the appeal of Morita Kaizo and the Lanai land matter. In the first the local courts have awarded the Territory a verdict of \$25,000, which, with costs and interest to date has now reached nearly \$30,000. The Territory needs this money and the Attorney General will try to get it. The Morita Kaizo appeal is on the ground of alleged irregularity in the granting of citizenship by circuit judges of the Territory. It is a matter of life or death for Kaizo, who is under sentence of hanging.

The case which has been the most talked of, however, is the Lanai suit, in which L. L. McCandless is attempting to defeat the Lanai exchange, which was arranged by Governor Carter and which occasioned a good deal

of denunciation when it was made. McCandless will be represented in Washington by A. B. Brown, of the firm of Britton & Gray. He states that the case is in a very good position on the calendar and will probably come up at the October term.

There are two tax appeal cases of the Rapid Transit Company to come up also, but the one which is of most interest to the public and to the street railroad company may not be heard. This is the Liliha street case. It is far back on the calendar and in order to have it come up it would have to be taken up out of its regular order. Another trouble in this case is that the records have not yet been printed and without these it would be hard to prepare a brief. Both the Attorney General and the company would be glad to have this matter settled in the near future.

There is but one more case which Attorney General Hemenway will handle, that being the case of Holt vs. Tullett. In this case the Supreme Court of the Territory rendered an opinion that a seaman's wages could not be garnished after a judgment. Governor Frear, at the time on the Supreme bench, gave a dissenting opinion. There have also been decisions by the local Federal court which held that the garnishment under such circumstances could take place.

BLACK EYE, DIAMOND, \$50, AND BOAT GONE

DISSATISFIED YACHTSMAN GETS HALF CENTURY ON A JEWEL,
LEAVES TOWN AND, THROUGH POWER-OF-ATTORNEY, SPRINGS
CLAIM FOR STONE'S RETURN, THEREBY SPOILING EDDIE TAIT'S
LITTLE TRIP TO THE ORIENT FOR A WHILE.

A row aboard the Seattle yacht Gwendolyn II, which raced from San Pedro to Honolulu, a black eye for one of the crew, Billie B. Jack, who claimed that the master of the yacht had abused him, and a case of "hard-up" for Jack, with a few other peculiar circumstances, have all placed a live sport who recently honored Honolulu with his presence in an embarrassing position.

Eddie Tait was the other day approached by Billie B. Jack, black eye and all, and Jack produced a three-quarter karat diamond, set, which he said he was willing to dispose of for a consideration, as he had been roughly handled aboard the yacht and was anxious to get to San Francisco on board the P. M. S. S. Manchuria.

Tait says he bought the diamond for fifty plunks, giving his check and Jack went away satisfied, leaving on board the Manchuria as he had planned if he could raise the money.

Then Tait, who has for weeks been

planning to leave Honolulu for the Orient to go into the show business, saw an opportunity of saving passage money by traveling in the transport Sheridan which left here yesterday.

Tait has honorable discharges from various transports, having for over six years served in the steward's department in the transport service and he knows nearly everybody employed on the trans-Pacific transports.

He rightly figured on being able to work his way, and as a matter of fact was not aboard as a stowaway as has been stated erroneously.

It appears that Jack left a power-of-attorney with Jack Roberts and \$50, asking Roberts to pay Tait \$50 and recover the diamond. But Tait claims that it was not a loan, but a sale, and he has witnesses, he says, to prove it.

The matter came up in police court this morning and was continued until this afternoon. E. A. Douthett represented Roberts, acting for Jack, and E. C. Peters appeared for Tait.

WAY SOUTH FOR \$100,000,000

S. S. ETHELWOOD OR S. S. AWAHOL SEEKING SOUTH SEA HIDDEN
PIRATE LOOT TO CALL AT HONOLULU FOR COAL AND PROVI-
SIONS ACCORDING TO LATEST PLANS OF CAPTAIN BROWN, SOLE
SURVIVOR OF DEPOSITORS.

Options have been obtained on the steamship Ethelwood of the United Fruit Company and the tramp steamship Awahol, by Captain James Brown, the only survivor of a number of adventures claiming to have buried \$1,000,000 of treasure in an island in the South Seas, about 1,500 miles from Australia, and one of these boats with Brown at the head of an expedition under a Massachusetts charter will, within a few months, pass from San Francisco, by way of Honolulu, to recapture the gold.

Captain Brown's treasure-seeking vessel will coal and take on provisions

at Honolulu in December or January, according to present plans.

It is estimated that between sixty and one hundred million of dollars worth of treasure lies hidden somewhere near the Cocos Islands.

There are several skeletons involved in the treasure hunt, for the bones of men who died for jealousy of the pirate wealth are still holding a ghostly vigil over the millions.

Considerable violence attended the collection and hiding of so much glitter.

This treasure is said to be in various forms: In doubloons, ingots of silver

and gold, coins and jewels, souvenirs of the time when pirates stripped sacred edifices of the sun and other holy houses on the South American coast.

There are pearls ranging in size from babies' tears to ladies' eyes and larger; there are anciently revered ornaments of gods and goddesses and little goddesses, no doubt.

Buried under two or three fathom of coral, in a cave, are precious things the Monetuzumas may have known. Captain Brown is the only one who knows exactly where all these riches are and he helped to bury the world of wealth. So he says.

Fifty-eight years ago Captain Brown, of Providence, R. I., shipped in New York as second mate bound for the West Indies. At Jamaica he met Captain Henry Smith of the schooner Sea Foam. Brown joined the Sea Foam and was told by Captain Smith, after being at sea some time, that the real mission of the vessel was to do to the Cocos Islands after treasure which had been buried there by his father.

His father, master of the schooner Black Witch, of Salem, Mass., was on the coast of Peru and Mexico while the Spaniards were fighting the Peruvians in 1820 and came in contact with their treasure-laden ships, from which he took treasure amounting to between sixty and one hundred millions, including diamonds and other jewels, church ornaments and loot from old temples, all being taken to the Cocos Islands and buried.

The Sea Foam arrived at the hiding place, secured the treasure and moved it to another island in the South Seas.

There all the crew except three died, being poisoned by the captain. The schooner went ashore and was destroyed. Brown, the captain and the steward set out for Australia in the longboat with nearly a million of the treasure. On the terrible voyaging to Australia the captain killed the cook and attempted the life of Brown, Brown killing him in self defense.

Three weeks later Brown, alone in the longboat with a million in wealth, reached Australia.

Now he is fitting an expedition, a regular treasure-seeking corporation, to go after the big pile buried where none but he knows. Should his plans not change and he comes here, there will doubtless be men on the Honolulu waterfront who will want to join—if they may.

It is the schooner Hermann over again.

IMPORTANT CONVENTION

Governor Frear stated this morning that he hoped that there would be a large and strong delegation from this Territory present at the next session of the Trans-Mississippi Commercial Congress, which will be held in San Francisco commencing on October 9. His attention was called to the fact that Attorney General Hemenway would be on the mainland at that time and the Governor stated that it would be very good if he could get through his work in Washington in time to get back to the congress. He also said that he hoped that a large delegation of business men from this city would be there.

M'KINLEY HIGH SCHOOL

BUILDING TO BE OPEN FOR PUBLIC INSPECTION ON FRIDAY, SEPTEMBER ELEVENTH.

According to Superintendent Babbitt of the Department of Public Instruction, the new High School building is going ahead rapidly towards the final completion. He states that it will be a model of its kind and that Honolulu will certainly be proud of its memorial to William McKinley.

It has been decided to set apart Friday, September 11, as the day on which the public will be invited to make an inspection of the building and its furnishings. By that time everything will be in place for the commencement of the school term which will start on the following Monday. A program of some kind will be arranged for but its character has not yet been decided on.

TRY IT FOR A DAY.

There is something about the atmosphere of Haleiwa that builds up the system quicker than any tonic one may take. Maybe it's the food and the atmosphere combined; they're both pure and there is plenty of each. The rooms at Haleiwa are mosquito-proof, the service is good and the golf links all that the most enthusiastic golfer could dream of. Take a run down a day, letting Manager Biddgood know if you will remain longer, and see if you are not benefited.

Fine Job Printing, Ste. Office.

WALLACH EXPECTS TO RETURN HERE

SAN FRANCISCO, Aug. 4.—J. Lor Wallach, who disrupted the islands of Hawaii recently over his alleged cure for leprosy, returned yesterday on the liner Siberia.

He failed to get an opportunity to try the efficacy of his cure, was fined by the Board of Health at Honolulu for practicing medicine without a license, and was excommunicated by the white inhabitants of the islands, but he returns confident that he could have cured all the 800 patients at Molokai if he had been given the chance.

The native Hawaiians idolized Wallach and thoroughly believed in his power to cure, which the doctor swore by affidavit he could do and had done. The Home Rule party took up the doctor's cause and demanded of Governor Frear that he give Wallach the opportunity he desired, but still the doors of the leper colony were closed to him.

Some of the regular Democrats and Republicans, fearing the power Wallach was gaining, even requested that he be given some of the lepers upon whom to experiment, and all the lepers offered to take the cure. But the authorities on the islands dubbed him a "quack," and so yesterday he returned to prepare for a fresh attack upon the islands later.

MRS. ATCHERLEY GIVES CORRECTION

Mrs. Atcherley says that what she telephoned the Advertiser was "that the Hawaiian Sons are to have a mass meeting Saturday evening or a week from then to express their disapproval of the Board of Health's attitude towards the natives who desired to be treated by Dr. Atcherley, their repudiation of the new policy of the board as a 'trick' and their commitment to legislative measures directed toward the eviction of that board from the public service."

As printed in the morning paper the "attitude" was represented to be towards Dr. Atcherley instead of his would-be patients, who, Mrs. Atcherley says, have been rushed away to Molokai.

A LEGEND.

A little legend of the Saviour when a child, came into our mind this morning, and while likely some or many of you are familiar with the same, we are tempted to write it out.

The legend says, that our Saviour, when a very little boy, was playing, in the moist clay or mud; and, some of the children were trying to fashion a little bird out of the clay, and would then say, in merry way: "Fly up my little bird, fly up, into the sky!" (So there must have been birds, in Bethlehem.) And the Saviour also stooped down with them, and He made a little bird, then saying too "Fly up little bird, fly up into the sky." And to the wonder of the children, that gazed awe-stricken as you and I would do, it flew up into the sky, farther than their eyes could see.

And they all ran home to tell their mothers of the wonderful work of the God-child, Jesus.

SPORTS

RIVERSIDES TURNING OUT BIG MATERIAL

There was a time when it was said that the Riverside League was like a little frog in a big pond. But the frog grew and a little later it was said that the Riverside were like big frogs in a small pond.

But now the pond is growing. There are the makings in the Riverside League of men for the biggest teams in the island, and in a way, the Riversides are a school for baseballists.

Most of the boys in the Riversides, however, want to stay with the league. If they join other bigger leagues to fill out or to work against visiting aggregations they invariably want to get back into the old league. This is well enough in a way, but not conducive to progress.

In the big league teams there are men who will soon be dropping out

of the game, pleading that they are getting too old to play longer, or pressure of business or the like, and then it will be that men from such a league as the Riversides will step upward and make their bow to the public in the bigger games. Recruits may always be had for the Riversides and the Riversides have the whole town to draw from.

All power to the Riversides, they are a credit to Hawaiian baseball!

There was talk of the Riversides putting a team against the Santa Clara, but, as has been noted, that is all off.

What the Riversides would like to do now, as has been hinted several times, is to have it out with the Keelos at Aala Park.

Maybe that wouldn't draw a peach of a crowd!

ALL-HAWAII TEAM CHOSEN

The All-Hawaii team which will play the Santa Clara nine on Sunday afternoon has been selected by the captains of the big league, St. Louis, Kamehameha, Diamond Heads and Punahou, as follows:

Joy, catcher.
Reuter, pitcher.
Eddie Fernandez first base.
Vanatta, second base.
Hampton, third base.
Burns, shortstop.
Olmos, right field.

En Sue, left field.
Kia, center field.

Following is the schedule of games as determined:

Tomorrow, August 15, 3 p. m.—Punahou vs. St. Louis.

Sunday, August 16, 3 p. m.—All Hawaii vs. Santa Clara.

Saturday, August 22, 3 p. m.—Punahou vs. Santa Clara.

Sunday, August 23, 1:45 p. m.—Keelos vs. Diamond Heads to be followed by St. Louis vs. Santa Clara.

SPORTING SPOUTS

The Kapiolani League will hold a meeting this evening, at the Kaimuki pumping station.

Yesterday's defeat of the Oahu polo men on Maui marks the third successive defeat for Oahu, first by Maui, then by Kauai and now again by Maui, teams in the island, and in a way, the it is about time there was an injection.

NEW YORK, Aug. 1.—The American athletes who participated in the Olympic games at London, with such signal success, will be given a most remarkable reception upon their arrival here August 25, according to the program which was announced today.

The speakers will include President Roosevelt, W. J. Bryan, Gov. Hughes, Mayor McClellan, President McGowan of the board of aldermen, and Chairman P. J. Conway of the reception committee. The ship bearing the returning athletes will be escorted up the bay by a United States gunboat. As they pass up the North river, the whole city will extend its welcome from the windows of the skyscrapers and every point of vantage. From the dock there will be a parade to the city hall and the exercises will be held in City Hall park.

For the benefit of the Advertiser, Joe Cohen says: "Why, the percentage for base stealing is just the same as the percentage for batting or for anything else. Figure out how many tries a man makes and how many times he makes his tries good, then figure your percentage. There's nothing to it. Of course to figure this out, the scorer has to keep accurate records of the game. From a properly kept score it can be seen just how every play came up, how the men were advanced around the bases and how many out trying to steal. A man has to reach first safely before he can begin to figure in the stolen base averages. When he is advanced he gets no credit. If he makes a home run every time or goes out at the bat or on first, he never gets into the column. A man on first steals second, steals third and goes out trying to steal home. His average is two out of three or .666. There's nothing hard about that."

AN ENGLISH OPINION OF YANKEE ATHLETES.

LONDON, Aug. 4.—The Times, commenting on the olympiad, says: "We have learned some useful lessons, especially that in the speed and strength we are far behind the Americans, and that in field events our men were as children by the side of the American athletes, or, to put it differently, they were as amateurs compared with professionals."

Our men have not been taught so well; in many cases they have not been taught at all; but they run and jump and throw the hammer simply by the light of nature.

"Our haphazard methods of training served very well indeed so long as we had only each other to contend with. If we are to compete against the world,

especially against such business-like athletes as the Americans, with any hope of improving, we must be business-like, too. Then the question arises as to whether it is worth while to make a business of sport. Probably it isn't; so we shan't go far wrong in the cause of true sport if we stick to our antiquated methods."

RIVERSIDE GAMES.

Bernard Kelekolio announces the second series of games of the Riverside League to begin Sunday. The schedule covers games for each Sunday as follows:

Aug. 16.—Chinese Alohas vs. Japanese A. C.; Aalas vs. Palamas.

Aug. 23.—Aalas vs. Chinese A. C.; Japanese A. C. vs. Chinese A. C.

Aug. 30.—Palamas vs. Jap. A. C.; Chinese A. C. vs. Chinese Alohas.

Sept. 6.—Aalas vs. Chinese A. C.; Chinese Alohas vs. Palamas.

Sept. 13.—Chinese A. C. vs. Palamas; Japanese A. C. vs. Aalas.

Sept. 20.—Palamas vs. Aalas; Chinese Alohas vs. J. A. C.

Sept. 27.—Chinese A. C. vs. Japanese A. C.; Aalas vs. Chinese Alohas.

Oct. 4.—Chinese Alohas vs. Chinese A. C.; Jap. A. C. vs. Palamas.

Oct. 11.—Palamas vs. Chinese Alohas; Chinese A. C. vs. Aalas.

Oct. 18.—Aala A. C. vs. Japanese A. C.; Palamas vs. Chinese A. C.

NO MAN CAN LIVE TO HIMSELF.

Men do not choose their parts in life separately and individually in our day, as they did in the days of our fathers. The men are becoming rare now who have business of their own, undertaken upon their own individual capital and built up and conducted independently upon their own responsibility. Professional men are rare who rise to the top of their profession without attaching themselves more or less intimately to institutions or corporations of some sort—doctors to hospitals, lawyers to great corporate undertakings, men of science to the great enterprises in which science is applied. Each man finds himself a small part of some great whole, whose operation is decided by votes taken about long tables in directors' rooms, whose morals are composite morals, a compromise combination of what the material interests of the body dictate and what the enterprise of its managers suggests, the character of every man who participates being merged in the general compound.—President Woodrow Wilson, in Leslie's Weekly.

COLD FEET.

You have cold feet because your blood does not circulate freely, which is due to the weak condition of the nervous system. Dr. Miles' Nervine will give strength and force to the nerves, stimulate and equalize the circulation, and your extremities will have the same warmth as other parts of the body. At the same time improve your general health. If first bottle is not beneficial you get your money back.

One of the good results attained in having the fleet sail from San Francisco instead of Los Angeles was that only 129 stragglers were left behind.—Los Angeles Express.

TREASURES DISPLAYED

INTERESTING EXHIBITS AT CHAMBER OF COMMERCE—GIFT OF BENEVOLENT OLD LADY.

At the monthly meeting of the trustees of the Chamber of Commerce yesterday, the desk looked like a jeweler's bargain counter at Christmas. Before the meeting was over there were three glittering objects on the desk. Most conspicuous was a handsome loving cup of silver on an ebony base, presented to the chamber by the Chamber of Commerce of San Pedro, Cal., "commemorating Harbor Day, and the Trans-Pacific Yacht Race, July 4th, 1908," as the inscription says.

Next was a fine old calabash of koa wood, bearing a silver plate inscribed: "To Hawaii's Good Friend, Gorham D. Gilman, from the Honolulu Chamber of Commerce, July 4, 1908." Mr. Gilman for many years before annexation was Hawaiian consul general at Boston, where he is the senior member of a wholesale drug house. Both then and since he has taken a warm interest in Hawaiian affairs, including eagerness relative to Hawaii's representation at the Mohonk conference each year. In the prime of life Mr. Gilman was a prosperous merchant at Lahaina.

Lastly there was a gold ring, accompanied by a letter from the donor, Mrs. Henrietta Beardsley, an elderly resident of San Pedro. She addressed the chamber directly, saying: "I extend my greeting and ask that this wedding ring be given to the first one of your members who may choose an American bride. May the blessing of God and good and love be and abide with you."

This gift with its message aroused a consuming mirth, no doubt from the fact that many of the membership of the chamber are grizzled patriarchs, a large proportion of whom took American brides in the long ago.

President J. F. Morgan was authorized to go ahead with the publication of the annual report in book form, a thing never done before. Between him and Secretary H. P. Wood an elaborate review of the work of the chamber for the year just closing, together with a comprehensive fund of information regarding the industry, commerce and resources of these islands, has been prepared. The book will be sent to other chambers, libraries, promotion committees and newspapers in addition to supplying the members of the local organization with copies.

The annual meeting of the chamber was fixed for Wednesday next at 3 p. m., the president being authorized to appoint a nominating committee for officers.

With the president and secretary there were present F. J. Lowrey, A. W. T. Bottomley, E. D. Tenney and W. Pfotenhauer.

CABRERA ORDERS MEN POISONED

A RETURNING PHILADELPHIAN TELLS OF THE UNSAFE CONDITIONS THAT PREVAIL.

SAN FRANCISCO, August 4.—"In Guatemala men are torn from their families and poisoned in jail. Wives of men whose property is confiscated have been turned over to the prisoners in the jails."

These were the words of Harry S. Polen, a well-to-do young man of Philadelphia, who for the past five months has been roughing it in Guatemala for health and pleasure, and came back to the United States yesterday in the steamer San Jose. He was shadowed by a native policeman nearly all the time he was in Guatemala, but having nothing to conceal, experienced no inconvenience. He says he was offered a position in a prospective revolutionary army designed to invade Honduras.

"A Spaniard who owned valuable property," said Polen, was thrown into prison on a trumped-up charge, and poison administered to him, while his wife and children were sent out of the country. In this manner Cabrera became possessed of the man's property. The whole country is demoralized. Citizens of other countries are, of course, not molested, but the Guatemalans themselves—God help them!

"Cabrera recently planned to violate the peace treaty with Honduras that was promulgated and ratified through the good offices of the United States Government by inducing a Captain Christian, who was formerly in the service of President Bonilla, to import seven Americans from Washington, D. C., to stir up strife on the border, thus affording Cabrera a pretext for invading the neighboring republic and attempting to overthrow Bonilla's government. The scheme was exposed in the nick of time by one of the lieutenants. Arms had been cached near the border by Cabrera's agents, and a big army was to have descended upon Honduras."

PROMOTION COMMITTEE

ITEMS OF REPORTS AND DISCUSSIONS AT THE WEEKLY MEETING YESTERDAY AFTERNOON.

A revised edition of the "Crossroads of the Pacific" map has been prepared, and 150 copies of it will be sent out in an early mail by the Hawaii Promotion Committee.

Mr. Otremba, the wood carver, will have the koa mantelpiece for Mark Twain's house finished by the end of this month.

President Gibson of the Manila Chamber of Commerce on his visit to Honolulu told Secretary Wood that his chamber was following the promotion methods of the Honolulu body.

A. Claude Braydon, a public lecturer, is coming here in the Siberia with an assistant to procure material for an illustrated lecture on Hawaii.

Allice Hegan Rice, author of "Mrs. Wiggs of the Cabbage Patch," will shortly revisit Honolulu. The foregoing items formed with the weekly letter of the secretary, the subjects of report and discussion at the meeting of the Hawaii Promotion Committee yesterday afternoon.

VETERAN MARINER IN PENITENTIARY

The Father of Twenty-Three Children Sentenced for Embezzlement.

STRIPPED WHALER GAYHEAD.

Paid to Guard The Vessel He Takes Away Everything Portable From Her.

SAN FRANCISCO, August 4.—Captain Richard W. Nye, mariner, 64 years of age and the father of twenty-six children, twenty-three of whom are living was sentenced to serve three years in San Quentin prison by Judge Melvin in Oakland yesterday, after he had pleaded guilty to felony embezzlement. Nye has been married twice both times in South America. His wives are dead and as all his children live in Chile and Peru, it is doubtful whether they will hear of their father's disgrace.

For more than half a century Captain Nye has sailed the seas. During that time he has circled the globe a half dozen times.

He has filibustered on the South American coast; he has played pirate in the South Seas and he has commanded vessels under seven flags.

The specific crime with which Nye was charged was the theft of \$90 worth of ship's equipment, including sails, brass fixings and machinery, though Assistant District Attorney W. H. L. Hynes charged that Nye was responsible for the theft of more than \$3,000 worth of fixings of the whaler Gayhead, of which vessel the mariner was watchman.

Nye says he was under the influence of a drug when he stole and that the men who had drugged him and who claimed to be his friends benefited therefrom, but since his arrest have disappeared. He did not make his plea on the stand, however, but pleaded guilty.

As to Nye's family, he himself says he was married twice. His first wife was a native of Peru. He met her on one of his many trips to that country. She was a member of a well-to-do family. By that marriage he became the father of fourteen children. The eldest of these is living today and is past forty years of age.

Nye's second marriage was at Talcahuano, Chile. He married a cousin, whose name was also Nye. Nine children survive that marriage, while three died at birth. Both wives are dead, the second dying six years ago.

Four years ago Nye sought buried treasure in the Cocos Isles. He was disappointed. Later he came to Alameda, where he secured the position of watchman on board the whaler Gayhead, owned by C. W. Fisher.

A WELL KNOWN REMEDY.

There are few peopl in this country who have not used or at least heard of, Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is the first thing they think of when they or any member of the family are stricken with diarrhoea, pain in the stomach or cramp colic. It has probably saved the lives of more people than any other medicine in use, and once it has been used in a home and its valuable properties become known, they rely upon it as confidently as on their family physician. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

LOEB AND WRIGHT IN ANANIAS CLUB

President Roosevelt Refutes Their
Statements About Dismissing
Cadets.

WRIGHT STANDS HIS GROUND

Insists Statements He Made Were
Correct Despite Oyster
Bay Edict.

NEW YORK, August 13.—President
Roosevelt issued an official statement
at Oyster Bay today, which flatly con-
tradicted public statements hitherto
made by Secretary of War Wright and
Secretary Loeb as to the case of the
eight West Point cadets, who were re-
cently dismissed for hazing.

The President places both men fairly
in the Ananias Club. Loeb, who has
meekly shouldered the blame for many
things in the past, had nothing to say,
but General Wright, in Washington to-
night, stuck to his ground in a manner
which seemed to promise to add to the
sensation.

WRIGHT HOLDS GROUND.

The new War Secretary repeated his
original remarks upon learning that
his "chief" had denied their accuracy.
Apparently he puts the issue right up
to President Roosevelt again.

With a double-edged stroke of his
pen, the President accused both Wright
and Loeb of giving out information
that was untrue. He denied Loeb's
statement that the cadets had been
dismissed, and could only be reinstated
by act of Congress. He denied Wright's
statement, made later, that the cadets
had been reinstated, and that he (the
President) had signed the dismissal
order only to scare them.

PRESIDENT'S STATEMENT.

The President's statement was as
follows:

"No action whatever has been taken
by the President in the cases of the
cadets. The statements that they were
originally ordered dismissed and that
they had been ordered kept out being
equally erroneous.

"An appeal was originally made to
the President to interfere. He declined
to take any action or to interfere in
any way until the Secretary of War
had expressed his opinion, the view
of the department being, seemingly,
that the cadets should be turned out,
the Secretary not having come to any
final decision.

"The Secretary then notified the
President that, instead of making any
report, he would like to discuss the
matter with the President in person.
He accordingly came, and the discus-
sion was held, but no final decision
was reached, the Secretary stating that
he was not able to make a final and
definite recommendation as to all the
cases and preferred to make none as
regards any until he could do it as re-
gards all.

"The President has not yet heard
finally from the Secretary, and, there-
fore, has come to no final decision.

"This is the first announcement that
the President has made in the matter
at all, and he never at any time has
come to any decision, one way or the
other, excepting to state that he would
probably follow the views of the de-
partment."

When shown this in Washington,
Secretary Wright replied as follows:

"The fact is that the President ap-
proved the findings at West Point and
transmitted the approval here. But
accompanying the approval was a let-
ter to me, in which he said that it was
not final, and that he would like to see
me and talk the matter over with me.

"I went to Oyster Bay and talked it
over with the President, and the cadets
have been restored. I thought it best,
if there was to be any punishment, it
ought to be in the academy and not
outside.

"Colonel Scott is to come here to-
morrow or the next day, and we will
then arrange how the discipline is to
be applied. Our talk will relate to this
subject, and not to any other."

Further than this Secretary Wright
would not go, but he was emphatic in
his declaration that the cadets had
first been dismissed with the approval
of President Roosevelt and then rein-
stated with the President's approval,
since it was following the Secretary's
trip to Oyster Bay that the announce-
ment of the reinstatement was made.

As the matter rests now Wright says
the cadets are to return to the acad-
emy; the President says it is not set-
tled whether they are to return or not.

LOEB NOT SEEN.

It was noticeable that the Presi-
dent's official statement was not given
out by Secretary Loeb as in his in-
variable custom. It was handed to the
newspaper men by Assistant Secre-
tary Forster. Rumor at the summer
capital had it that the President was
very much wrought up over the whole
affair and had expressed verbal views
with even more than his usual
emphasis.

Secretary Loeb's statement that the
eight cadets had been dismissed was
made first on July 25th. Seven news-
papermen called at his office in Oyster
Bay, according to their daily custom,
and in discussing the day's news asked

him if any disposition had been made
of the hazing cases. Mr. Loeb said:
"The President has signed an order
dismissing the cadets from the acad-
emy."

On July 28th, Mr. Loeb met the
same group of correspondents and
volunteered as though eager to have
it made as public as possible, this
supplemental statement:

"The cadets have been dismissed and
it will be impossible for them to get
back their places in the academy un-
less Congress takes some special ac-
tion in their behalf."

Anything given out by Secretary
Loeb is understood to be from the
President himself. These two state-
ments were given out with that un-
derstanding and were accepted by the
correspondents.

Secretary of War Wright arrived at
Oyster Bay on July 31st and when
seen by the correspondents at the
railroad station said substantially this:
"I have come to talk over with the
President regarding his approval of
the dismissal of the West Point
cadets."

The secretary conferred with Presi-
dent Roosevelt that day and remained
over-night at Oyster Bay. On the next
day, August 1st, he said before start-
ing back to Washington:

"The cadets have been reinstated
and will return to the academy to re-
ceive whatever punishment Colonel
Scott may mete out to them."

General Wright added to this by ex-
plaining that while the President had
not signed the order of dismissal it
had not been "promulgated" because
he (the secretary) had not yet placed
his signature to it.

In explaining his desire that the
boys should have another chance at
West Point, Secretary Wright said he
had been greatly impressed by their
manly bearing when they called in a
body to see him. He was particularly
impressed, he remarked, by the young
man who confessed he had been the
ringleader in the hazing operations
and who asked that all the punish-
ment be visited upon him because he
was the most guilty.

General Wright thus stated, un-
qualifiedly, that the cadets had been
dismissed and later reinstated, both
of which assertions the President's
statement of today denies.

TAKE NO RISK.

If you have heart trouble, do not fail
to take Dr. Miles' Heart Cure. In do-
ing this you run no risk, because it
cures when everything else fails. It is
so sure to help you that every druggist
is instructed to return your money if
first bottle does not prove beneficial. In
either case you take no risk.

BRYAN LIKE TAFT'S
CANNED SPEECH METHODS.

FAIRVIEW, LINCOLN, Neb., Aug.
13.—The use of the phonograph by Can-
didate Taft has a means for the dis-
semination of his speeches as reported
in the dispatches from Hot Springs,
Va., today excited the liveliest inter-
est of William J. Bryan, so much so
that he gave out the following state-
ment to regard to it.

"The Republican papers have been
making fun of me for using the pho-
nograph as a means of reaching the
public, but since the Republican can-
didate has followed the example I pre-

sume that the criticism will cease and
that this will now be regarded as a
dignified method of discussing public
questions. It looks as if the Demo-
crats were going to have a hard time
this year protecting their patents
from infringement.

"The Republicans seem bent upon
imitating not only our platform, but
our campaign methods. There is, how-
ever, some advantage in the fact that
we are setting the pattern this year."

Give us continuous contentment and
you may have perpetual motion—pro-
viding you can get it.

MISS GEORGIANA BISHOP, THE NATIONAL GOLF
CHAMPION.MISS GEORGIANA
BISHOP

YOU WANT The News First.

You Want Your Ads Read

Here Is Some Advice—

Honolulu more than any other
city in the World, is a place where
the Evening Paper gets the news
first. The clock here is over two
hours behind the clock at San
Francisco, four hours behind
Chicago, five hours behind New
York and ten to eleven hours
behind the clocks in the Europe-
an capitals.

This means that when The
Star is going to press THE DAY
IS CLOSED in Washington, Chi-
cago, New York and Europe and
almost over in San Francisco.
The news of the day is here for
The Star.

Under modern conditions it
takes, practically no time to pre-
pare and transmit news and THE
STAR gets every evening the
cable dispatches giving

The News Of All the World

For The Day Just Ended—

Here are some of the features that go to make the evening paper
the predominating factor in an advertising campaign:

It is delivered at the home each night when the whole family has
plenty of time to read it.

It is carried home by the business man when his day's work is
done and it stays there. A morning paper is usually carried down
town by the head of the family and hurriedly read.

The evening paper is not read hurriedly, but thoroughly, so that
all the advertisements receive their share of attention.

It presents the store news a little ahead, giving the prospective
purchaser time to plan a shopping tour for the next morning.

The evening paper presents the news the day it happens. The
morning paper the day after.

The evening paper presents the news first. The morning paper
merely elaborates it.

The evening paper prints daylight news. The morning paper takes
what is left.

GOOD TASTE AND JUDGMENT

DEMOCRATIC RATIFICATION

LARGE CROWD AT AALA PARK LISTENS TO SPEECHES—COLOR LINE POLITICS DENOUNCED.

Considering the menace of showers which existed all evening, the attendance at the Democratic rally at Aala park last night was large. A goodly number of both white and native women were in the audience. Proceedings were enlivened by the county band.

G. J. Waller, national committeeman for Hawaii, presided. In a well delivered opening address he bespoke the congratulations of the local democracy to the delegates who had represented Hawaii at Denver. He said the destinies of our great nation could not be confined to safer or worthier hands than those of William Jennings Bryan, and in nominating John Worth Kern for Vice President the convention had done itself credit. He believed that Hawaii particularly had occasion for rejoicing at the results of the national convention, not only in the selection of the presidential ticket but for the recognition this Territory received in the national platform. E. M. Watson's leading hand in this as a member of the committee on resolutions, was praised by the chairman with acknowledgment of the loyal and generous support of his colleagues—Frank R. Harvey, Charles McGonagle, Allan Herbert and James L. Coke. The chairman left to delegates present the relation of the story of the convention, and concluded in these words:

"I feel justified in saying that the coming election looks big with promise to the Democratic party, both nationally and locally; and I call upon the rank and file in Hawaii not only to continue, but to double their energies during the coming campaign, so that the work so auspiciously begun may be crowned with success."

Frank R. Harvey, after some remarks on the convention and a eulogy on Bryan, made a strong speech against a drawing of the color line, pronounced symptoms of which among the natives were the first things he noticed on his return from Denver. Cries to vote only for Hawaiians rang in his ears. That was the most foolish talk possible and he warned his hearers that if they refused to vote for a white man on account of his skin the Hawaiians would be liable to have the franchise taken from them.

R. H. Trent hammered in the point against the Republicans that they allowed only two delegates from Hawaii seats in their convention, while the Democrats cordially welcomed six delegates from here to seats in their convention. After he had ridden behind Bryan in an automobile, here in Honolulu, he realized that the Democratic candidate for the Presidency was a bigger man by far even than his previous high opinion of him stood. He mentioned an incident of Bryan's stopping to shake hands with a native policeman on the street, which he thought a Republican in a similar case would have been above doing.

J. J. Fern made a vigorous address, backing up Mr. Harvey's denunciation of color line politics. He thought the registration difficulty created by the Honolulu municipal act should be referred to the Supreme Court for settlement.

Allan Herbert humorously gave away his colleague, Mr. Harvey, for the impression he made on the ladies with the California delegation, which the Hawaiian delegates accompanied in a special train to Denver. He also told of the prodigious hookups of wines, fruits and eatables carried on the train. The women of Denver ask for equal pay for equal work, whether it is done by man or woman. Firstly, a matter of economic justice and, secondly, in order that the woman may have the same freedom and independence as the man and be under no temptation to accept, for the sake of a comfortable subsistence, a marriage that does not appeal to her heart. Having dealt with the ladies the speaker referred to the Hawaiian land plank in the national platform. He came to Hawaii many years ago and had lived here under three kings and a queen. He wanted for himself neither office nor lands, being well provided for, but he did want to see houses for the homeless and lands for the landless. They had the power to bring the government back again to the people by voting the Democratic ticket. The Republicans had been running the country for many years, but in Honolulu forty or fifty thousand people were herded while outside were thousands of acres of land lying idle. There was no use fooling with Achi and the Home Rule party. They must be either Democrat or Republican.

E. M. Watson told of the insertion of the Hawaiian land plank in the national platform. When, in answer to a question from an "American from Minnesota," he had stated that the native Hawaiians were American citizens who could take up public lands, the questioner said there could be no objection to the plank and it was forthwith inserted. The speaker said the Molokai were offered land on Kauai which had not been offered to the natives and Portuguese, and since the Molokai left there was no word
