THURSDAY, AUG. 16, 1894

Somewhat, having read that the American League had paid all its debts, wants to ask how much it owes now.

"Excellencies" are piled on thick in the Iowa General Assembly's resolution of taffy to the Republic of Hawaii. It must grieve President Dole and his Ministers to have him so mis-called, when one of the first acts of the Councils of the Republic was to prohibit the use of all faddol titles. The trouble with our rulers is that they are too severely democratic in profession for the pronounced oligarchs in practice which they are.

PRO TEMPORE LEGISLATURE.

Weekly Meeting of the Executive and Advisory Councils.

Chairman W. C. Wilder called the Councils to order and offered the opening prayer at 1:35, other members present being: President Dole, Ministers Hatch, Damon and Smith, Councillors Ena, Waterhouse, Allen, D. B. Smith, McCandless, Bolte, Mendonca, Morgan, Nott and Emmeluth.

Secretary Rodgers read the minutes of last meeting.

Minister Damon read the weekly financial statement. It showed ordinary receipts of \$17,421.34, and from sale of Government bonds \$12,000. The Interior Department yielded \$2475, Customs \$5583, fines, etc., \$1466.40, Post Office \$2367.61, taxes \$3193.15, Hilo Water Works \$811.85, and revenue stamps \$580.30. Payments amounted to \$30,747.55, of which general expenses of the Provisional Government took \$1286.25 and the military \$2993.24. The net indebtedness is now \$15,980,015.25.

President Dole reported that the Executive had applications for important franchises, one being for an electric street railway in Honolulu and another for the Hamakua railway. The Executive doubted whether these matters should be dealt with by these Councils, and he therefore submitted the matter for individual consideration in the meantime.

Minister Hatch read a communication from the State Legislature of Iowa, U. S. A., enclosing a resolution passed by that body as follows:

Whereas, The people of the Hawaiian Islands have cast off the fetters of an effete and dissolute monarchy and have assumed a position among the republics of the earth; Therefore

Resolved, by the General Assembly of the State of Iowa:

That we the representatives of two millions of prosperous, happy, liberty-loving people, who have adopted as a State motto, "Our liberties we prize and our rights we will maintain," hail the new republic of Hawaii and send a message of greeting, admiration and cheer to our brethren across the sea.

Resolved, That we commend the courage, determination and constancy of the founders of the new republic and bespeak a glorious future for their state.

Resolved, That these resolutions be referred to his Excellency the Governor, with the request that his Excellency the Governor transmit the same with appropriate message to his Excellency the President of the Hawaiian Republic.

I hereby certify this resolution originated in the Senate and is known as Joint Resolution No. 9.

(Signed) E. R. HUTCHINS,
Secretary of Senate.

HENRY STONE,
Speaker of the House.

WARREN S. DENSON,
President of Senate.

Approved April 24th, 1894.
[SEAL] FRANK D. JACKSON,
Governor of Iowa.

The communication was applauded, and, on motion of President Dole, it was resolved that a committee be appointed to reply to it. Messrs. Hatch and Allen were appointed.

A letter was received from the Schuetzen Club, relating to the labor commission bill, and ordered to be considered with the bill.

Minister Damon introduced a bill making special appropriations for the use of the Government during the two years which will end with the 31st day of March, A. D. 1896. It authorizes the expenditure of loan funds and surplus receipts of the Postal Savings Bank for public works. There is \$120,000 for harbor works of Honolulu. Roads, bridges and landings are allotted \$98,150. New buildings, vaults, magazines and hospitals receive \$75,000, of which the new market gets \$25,000, new laundries \$10,000, lighthouses \$22,800 and central fire station \$6000. Additions and improvements to water works are allowed as follows: Honolulu \$112,000, Hilo \$5000 and Wailuku \$15,000. There is \$3635.13 for the Volcano road. The total amount of the bill is \$459,001.59. It is provided that money above the amount of \$500 shall only be expended under tender and contract, excepting the item, "Road to Kailua Homesteads, Hawaii, \$3600."

President Dole explained that the exception in question was unavoidable owing to various compromises that had to be made with plantation owners.

The bill passed first reading.

The ocean mail contract bill passed second reading, with an amendment that coal storage should be limited to coal actually required for contracting steamers. Mr. Emmeluth moved this amendment.

The labor commission bill came up on third reading.

Mr. Morgan believed that the provision that the commissioners serve without pay would be a dead letter. The age of miracles was past, and they could not expect competent men of business in Honolulu to leave their own affairs while absent on the other islands pursuing their investigations.

Mr. Ena moved to refer the bill to the first Legislature to be elected.

Minister Smith moved an amendment to pay the commissioners such sums as may be decided by the Executive Council. He urged the importance of pressing the matter through without delay. Taking up a statement in the Schuetzen Club letter to the effect that the planters had never considered anything in labor immigration except cheapness, he denied the accusation and cited movements of the planters to get civilized labor from Norway and other European countries.

Minister Damon, while he seldom disagreed with his learned colleague, thought the Councils were drifting too rapidly toward oligarchic rule. This proposed provision would put the absolute control of a large expenditure of money into the hands of the five men composing the Executive Council.

Minister Smith again argued the importance of prompt action. They had to carry on the government of the country, and this was one of the most vital matters with which they had to deal. More labor must be obtained very soon, not perhaps so much for sugar raising. There were possible developments in the sugar industry which would diminish the demand for cheap labor. But other industries were coming up, for which labor must be obtained.

Mr. Waterhouse thought there were men in Honolulu sufficiently interested in the question to make them willing to serve on the commission without pay.

Mr. Morgan said it would be all very well for some of the wealthy sugar men to serve gratuitously, but they should not expect a mechanic to leave his workshop and business for nothing. Possibly an enthusiast like Mr. Emmeluth might be willing thus to sacrifice himself, but at the same time it was more than the public had a right to expect.

Mr. Emmeluth supported the amendment, if the pay were limited to \$5 a day.

President Dole spoke in favor of compensation. He was on the Judiciary Commission which served without pay, but were it not that he was on the bench at the time he could not have given his time without compensation. He moved an amendment making the compensation such as the Legislature might determine.

The President's amendment was accepted and carried.

On the final passage the question was raised by Mr. Waterhouse as to whether the Ministers had the right to vote.

Chairman Wilder said it required the Executive and Advisory Councils sitting together to form this body.

It was decided the Ministers could vote.

The bill passed by a unanimous vote.

Minister Smith announced that work on the Kau road would begin forthwith.

Mr. Morgan—What about Kona?

Minister Smith—One at a time.

At 2:58 the Councils adjourned till next Thursday, Minister Smith suggesting that they ought to consider the question of franchises mentioned by the President.

Mechanics' House, corner Hotel and Nuuanu street. Lodging by day, week or month. Terms: 25c and 50c cents per night; \$1 and \$1.25 per week.

MORTGAGEE'S NOTICE OF SALE

NOTICE IS HEREBY GIVEN THAT pursuant to a power of sale contained in a certain mortgage made by Antonio Ross and wife of Honolulu, to Cecil Brown of the same place and of record in the Office of the Registrar of Conveyances in Liber. Vol. on pages 25, 26 and 27, and by said Cecil Brown duly assigned to E. H. Hayseiden, trustee under the last will and testament of J. G. Hayseiden, deceased, by execution of record Liber 147 on page 215 of the said mortgage, I intend to foreclose said mortgage for breach of condition therein contained. Notice is also given that the property covered by said mortgage will be sold at Public Auction, at 12 o'clock noon, on SATURDAY, the 17th day of August, at the auction rooms of J. F. Mendenhall in Honolulu. The property in said mortgage described is:

All that certain parcel of land situate at Kailua in said Honolulu, containing an area of 39.23 acres and being a portion of the premises described in Royal Patent No. 250, and conveyed to said Antonio Ross by J. F. Mendenhall, administrator of the estate of Domingo Lopez Ramos by deed dated the first day of April, 1887, of record in the Hawaiian Registry of Deeds in Book 10, on pages 24 and 25.

Dated Honolulu, July 13th, 1894.

For further particulars apply to:

F. H. HAYSEIDEN,

Trustee of the last Will and Testament of J. G. Hayseiden, deceased, or to

CECIL BROWN, Attorney.

The sale of the above property under foreclosure is postponed until SATURDAY, September 1, 1894, at the same time and place.

The conditions in Honolulu during the past eighteen or twenty months have been such that to awake now and find the harbor free from a warship would be like witnessing the play of Hamlet with Hamlet out of it. Not that it is necessary to have a vessel of this character present at all times, but the people are so accustomed to seeing them, and there has been such an interchange of hospitality among the officers and citizens that neither the "Champion" nor the "Philadelphia" should be allowed to leave except upon the assurance that they will be replaced by as good ships with as efficient and agreeable officers. We say "as good ships" because it would smite the dignity of the people here, if, after a season or so of vessels of the White Squadron the foreign governments should consider this place too insignificant for this place above a wooden hulk. This would hardly be, however, after the advertising we have had. It is not so much what a man or a locality is as what the world is led to believe is the case.

When a person tells you that they have used a piece of rubber hose for eighteen months without its having a break in it, don't ask where it was bought but come to us and get a piece like it—we sell that sort in preference to the inferior grade that wears out when you look at it. We have earned a reputation for selling good rubber hose, and we do not propose to lose it by dabbling in an article that will not give satisfaction.

Genuine Hawaiian Salt is an article used more than people imagine. When we took the agency for the sale of the entire product of one works we did so because we had investigated, not only the demand for such an article, but the quality. Experts whom we called to our assistance decided that ours is the best for all purposes. You can get a bag or a hundred tons as your needs call.

We are selling fine Porcelain Lined Bath Tubs with as much ease as we do nails or anything else in every day use. We bought them to sell, not to keep, and we put a price on them that brings them within the reach of almost anyone. The other articles we sell in Enamel Ware—closets, sinks, wash stands, enamel pipe and such things as are used in sanitary plumbing—not the cheap don't-care-how-sort, are sold by us at such low prices that there is no reason why people should contract disease through causes which ensue from using bad materials in plumbing. Our assortment is large and contains articles of the most improved designs.

The strikers in the United States have learned that though the Declaration of Independence declares all men to be endowed with certain unalienable rights and among these are "life, liberty and the pursuit of happiness," the government does not provide the power to assist one man in the exercise of his right to the injury of his neighbor; Jones may give up work, if he wishes, but if he attempts to stop Smith at his employment and he objects, Jones cannot look to the army to assist him in depriving Smith of one of his "unalienable rights." A few years ago the price of stoves was high; it continued so until we introduced the "Pansy" and practically gave them away. It would be depriving other dealers of a right they now enjoy if we attempted to force them to stop charging exorbitant prices for such goods, and they would deprive us of a certain amount of pleasure derived from doing good, if the dealers would attempt to force us into increasing our prices. We have a sort of declaration of independence and we look to the public for assistance in enforcing its tenets. Having "right" on our side and "might" represented by our customers we experience no difficulty.

German Music.

The Mannerher held its usual meeting last night above the Pacific, corner of King and Nuuanu streets. Rehearsal of various part songs under the able leadership of Professor Yarnley was had, and the business was the order of the day—or evening rather. The main feature after the election of new blood was the consideration of a picnic to be held on Sunday next. Arrangements announced were satisfactory to all the members present and very pleasant time is anticipated. The picnic will take place at Wai-ale, beyond Diamond Head. After business a pleasant social time was had by the members and friends, and various solos and choruses were sung to the great pleasure of those present. A concert will be given by the club in the near future.

Accident to a Girl.

Miss Amy Roe met with an accident on Mount Tantalus yesterday afternoon. Amy with other girls had been romping among the mountains and were on their way home. Coming down the embankments on the Punchbowl slopes the girl fell, breaking her right arm between the wrist and the elbow. It was three hours before she reached home. Dr. Cooper was sent for and he set the arm. Last night the patient suffered severely, but to-day she is resting easy.

N. Braham says that a Chinese artist painting a sign on the side of the Honolulu Soap House fell off the ladder, but his life was saved by his dropping in a tin of soft soap awaiting shipment. Out of gratitude for his escape the artist went inside and bought 17 bars of hard soap for \$1.25.

G. R. Harrison, practical piano and organ maker and tuner, can furnish best factory references. Orders left at Hawaiian News Co. will receive prompt attention. All work guaranteed to be the same as done in factory.

LADIES' COLUMN.

The guessing contest is over. The Dress Pattern was won by Miss Lena Brans, who, though the nearest on her guess, was \$3.00 below the value, while Mrs. Harry Lewis, who wins the second prize, was \$310 over the value. Out of the 1682 people entering the store during the week 1563 won prizes in getting out and out bargains; 1563 people purchasing goods out of 1682 entering the store is touching high water mark. The goods and prices have done it, and show conclusively that you know where to get your money's worth.

This week Embroideries, Laces, Fedora, Real Torchon, Valenciennes, Black Spangled and Beaded Laces in latest novelties. Also we want to call your special attention to Ladies' Ribbed Vests in Cotton at 10 cents, 12 1/2 cents, 15 cents and 25 cents; these have only to be looked at to cause you to buy them.

Fine Pure White and Egyptian Lisle at 75 cents. All-wool Ribbed Vests in White and Natural Colors, Silk Ribbed Vests and Merino Ribbed Vests.

These goods we carry in Low Neck, no sleeves, and High Neck, 4 sleeves; they are beauties and new goods.

We open a large stock of New Goods brought by the "Australia," the last of this week.

Chief Clerk Hassinger of the Interior Office auctioned off at noon a tract of Government land in Kilauea and Punalaea, Hilo, containing an area of 49.37 acres. The upset price was \$246.85, and cost of surveying \$52. R. Low got the land for \$250.

JUDICIAL NOTES

Proceedings at Circuit Term—Gazette Libel Case.

In the Circuit Court to-day Api, found guilty of malicious injury by a foreign jury, was sentenced to four months imprisonment at hard labor. L. Ahlo vs. Tai Lung, assumption. Verdict rendered for defendant. C. W. Ashford for plaintiff; F. M. Hatch for defendant.

J. E. Gomes vs. Hawaiian Gazette Co., trespass on the case. Jury retired at 2:45 o'clock this afternoon. A verdict of \$500 damages was returned. C. W. Ashford for plaintiff; W. R. Castle for defendant.

T. W. Rawlins vs. Honolulu Soap Works Co., damages \$10,000. Case now on.

Six tax appeal cases from the District Court have been filed with the clerk of the Supreme Court.

Judge Henry E. Cooper rendered a decision this afternoon in the matter of Gaspar Sylva vs. Kalo et al., ejectment. Jury had been waived in this case. The case was over certain property which plaintiff claimed as heir through relation of wife with defendants. Judgment was entered for plaintiff for the interest covered by the deed of Lealea and others. Hartwell and Rosa for plaintiff; W. R. Castle for defendants.

ON EXHIBITION.

The Wheel, Medals and Winners in Recent Bicycle Events.

The Rambler with which the different bicycle events were won on Saturday, August 11th, has been placed on exhibition, with the medals won by Henry Giles, champion of the Hawaiian Islands, N. Halstead, Prince Cupid and Goro Nacayama. Photos of the winners are also exhibited, with the trainers of Giles. In a conspicuous place is a tin medal won by John T. Wright on August 5th at Kapiolani Park, and also one won by James Spencer. Both medals are suitably inscribed. The race, which was a quarter-mile dash, was won by Mr. Wright, Spencer being such a close second a leather medal was awarded him by his admirers. The time made was 1:08 and 1:05 respectively.

WATER: WATER!!

The Supply in Nuuanu for Honolulu Residents.

The Nuuanu water supply stands as follows to-day: In Reservoir No. 1 there is six inches of water; in No. 2 there is twelve inches; in No. 3, three feet. There has been but little rain in the valley. While the water supply is slowly decreasing residents on the slopes of Punchbowl are wondering why the Superintendent of Water Works does not wake up and station an engine at Thomas Square and pump a few drops of water into their pipes, which have been dry for the past two weeks. The cry on the hill is, "Water, water."

When moving into our present home I found a bottle of Chamberlain's Pain Balm left by a former tenant. On the label I found the statement that it was good for cuts and burns. I can testify to the truth of this. Nothing in all my experience has found its equal for treating blisters or burns. F. E. BARRETT, Manager Le Sueur Sanatorium, Le Sueur, Minn. Pain Balm is also a sure cure for rheumatism. For sale by Benson, Smith & Co., Agents for the Hawaiian Islands.

THE PALI ROAD ROBBERY.

Man Arrested on Suspicion of Having Been In It.

About 4 o'clock yesterday afternoon a man named W. H. Coulter was brought to the Police Station and locked up. He is suspected to have been one of the men who held up and robbed a Chinaman on the Pali road Tuesday afternoon. Coulter was seen walking towards the Pali that afternoon, and he will be held until the Chinaman comes to town to identify him if he is the man.

Coulter is the man with whom Lieutenant Holi had trouble some time ago. A man was posted up as a deserter from H. B. M. S. Champion, and the officer suspecting Coulter, arrested him. Coulter resisted and Holi drew a pistol. At the Station the description did not tally and Coulter was released. He has been living at Kakaako since, and has not been known to have any work. The police suspect him of having committed other robberies.

The Chinaman who was assaulted was brought to town at 10 o'clock this morning. He was driven from Kaneohe to the Pali, where the police wagon was waiting for him. When seen at the Police Station he presented a pitiful sight. His head, face and hands were covered with blood and dirt. The Chinaman had evidently not taken the trouble to wash himself, probably wanting to preserve all marks possible for evidence. He was carried from the wagon into a cell on a stretcher. His name was ascertained to be Kum Toon, a laborer on a rice plantation at Koolan.

Coulter is suspected of having committed a series of robberies in town during the past few weeks. Detective Larsen and his able assistants have located a "nest" in an old boiler near the Pacific Mail wharf, where Coulter has been sleeping at times. Several odd pieces of jewelry, including an old silver watch with the initials "C. M. C." engraved on the cover, were found in the boiler. On the inside of the watch was a likeness of C. M. Cooke's mother. The watch was therefore easily identified as the property of Mr. Cooke. Three silver labels for wine bottles were also found. These labels belong to fine brands used on warships and by wealthy connoisseurs, probably came from someone's pantry. Larsen, Kokona and Puni went to Coulter's lodgings at Kakaako, this side of the Hawaiian Rifle Association's butts, and brought up all his clothes. On a vest were two Egyptian medals with the name William Coulter engraved on them. He had won them in the Egyptian war. Two fine suits of clothes and a five-dollar hat were among his belongings. A box of 30-caliber cartridges was also found. Coulter will appear for trial in the District Court to-morrow.

THEY AGREED FOR PEACE

Chinese and Japanese Representatives Instruct Their People.

Ever since the arrival of the S. S. Australia bringing San Francisco papers containing sensational reports of war between China and Japan, the citizens of these countries have been on the qui vive of excitement, which has been further aroused by a meeting of Japanese held on Monday evening. This feeling has been so intense that Mr. Fuji, Consul General for Japan, has issued an order that all citizens of Japan who are resident in the Hawaiian Islands, keep the peace and not conflict with citizens of China. All public demonstration is prohibited, as nothing official has been received from the home governments—China or Japan—that war had really been declared.

Mr. Fuji called on Mr. Goo Kim, Chinese Commercial Agent, and after an interview the latter decided to issue a similar order. Posters were sent out this morning advising Chinese to keep quiet. No one is allowed to discuss the China-Japan war.

National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS

THE UNDERSIGNED HAVE BEEN APPOINTED SOLE AGENTS FOR these SHREDDERS and are now prepared to receive orders. The great advantages to be derived from the use of the NATIONAL CANE SHREDDERS are thoroughly established and acknowledged by Planters generally. The large number of Planters using them in the United States, Cuba, Argentine Republic, Peru, Australia and elsewhere, bear witness to the above claim. The use of the SHREDDERS very largely augments the quantity of cane the mill can grind (25 to 50%), also the extraction of juice (5 to 12%). It is a great safeguard, making known at once the presence of any pieces of iron, stakes from cars, or anything which would be liable to damage the mill, and allowing ample time to remove same before damaging the mill. The SHREDDER is very strongly made, and from the manner of its operation it cuts or tears these pieces of wood or iron without often breaking the SHREDDER; and if anything breaks, it is simply some of the knives or cutters, which can be quickly and economically replaced. The SHREDDER, as its name indicates, tears the cane into shreds of varying lengths, perfectly opening it and allowing the mill to thoroughly press out the juice without requiring the immense extra power necessary to grind or crush the whole cane. The SHREDDER spreads the shredded cane uniformly and evenly to the mill rolls, and does away with the necessity of spreading the bagasse by hand between the mills, where regrinding is in use. No greater amount of boiler capacity is required to operate the SHREDDER than that which was sufficient for the mill, for the above reasons. We furnish full working drawings for the installation of our SHREDDERS, enabling any competent engineer to successfully install and start them. In ordering SHREDDERS from us, please send small sketch, showing the diameter and width of the mill rolls with which SHREDDER is to be connected, also the side (either right or left hand as you face the delivery side of the mill), upon which the mill engine is located, also the height from floor line to center of front mill roll shaft, and distance center shaft to front end of bed plate. These SHREDDERS are now being used by the Hilo Sugar Co. and Hilo Mill, Kohala, where they are giving great satisfaction. Prices and further particulars may be had by applying to:

Ways of Winning Husbands.

Women have been known to win husbands by acting on a maxim that the way to a man's heart is through his stomach. The story is told of a learned English judge who asked a woman to marry him because she, knowing his weakness, had mixed a salad so artistically that he declared he could not live without eating another.

The judge soon repented of his folly in allowing his palate to control his judgment when selecting a wife and not a cook. The lady had a foolish nature—an old proverb declares any fool a competent salad-maker—and she also had a temper which so tormented her husband that he would prolong the sessions of his court far into the night.

"Gentlemen," he was accustomed to say, when the counsel or jury murmured at the lateness of the hour, "as we must be somewhere, we cannot be better anywhere than we are here."

In his "Book About the Table," Mr. Jefferson tells us of a young London epicure who was won by a lady through her excellence in making boiled custards.

Three young ladies were staying at his mother's house. Knowing that they had prudential reasons for wishing to marry him—he had a fortune—the young man resolved to select a wife from one of them, and to let his choice be determined by their skill in cookery, the art he valued above all others.

Without revealing the purpose of his proposal, he craftily broached the subject of cookery, led the girls to boast of their skill, and then suggested that they should compete in making boiled custards. Each competitor should have the same materials and opportunities, and be allowed a private room for her peculiar kitchen.

The proposal was merrily accepted, and it was also agreed that the young man and his mother should act as jurors to decide on the merits of the custards. When the three custards were produced, Fanny's was so clearly the best that the two jurors did not hesitate to proclaim her the victor.

Three days later Fanny was engaged to the youthful epicure, and three months later they were married. About a year after the marriage it was discovered that in the interval between the agreement for the tournament and the time for entering the lists Fanny had bribed the housekeeper with two sovereigns to furnish her with a half-pint of cream, in addition to the specified materials.

She made the victim of her artifice an excellent wife, nevertheless, and years afterwards was heard to say, "My dear girls are all that I desire. They are clever, lively, lovely, and of the sweetest temper. But what is to me far more important, they are incapable of artifice."

Extracts from a Young Wife's Diary.

Monday—"Observed to Charley at the breakfast table this morning that I thought a change of scene would be beneficial to us both. He replied that it would be impossible for him to get away from business at present."

Tuesday—"Ventured to remark that, when we took a trip, it would be just splendid to go to Paris. He seemed vexed at the renewal of the subject, and said quite decidedly that there was no use to talk about it. Rotundity or the fat of Man at the furthest is all he can afford—*he* says."

Wednesday—"Wrote to dear mamma, inviting her to pay us a visit, and requesting an answer by telegraph."

Thursday—"Made no allusion to our going out of town, but I followed Charley to the front door and kissed him affectionately as he left."

Friday—"Received a despatch from dear mamma, saying she would come next week. Left it lying open on the table in Charley's room."

Saturday—"Charley says he has been able to arrange his business; we're off to Paris by the early train on Monday."

Maybe Not.

Patrick Flannigan was a witness in a case where truthfulness compelled him to give some testimony against the man on trial, who was a particular friend of his. Patrick's ordinarily rich brogue had recently been rendered more than usually intelligible by an accident to which he referred with feeling in the course of his testimony.

He was frequently called upon to repeat his answers, which were evidently made under protest, and between these constant requests and the long words with which the air of the courtroom seemed to Patrick to be filled his anger rose and his confusion steadily increased.

"Don't prevaricate," said the Judge at last, as Patrick returned a surprisingly incoherent answer to a question addressed to him.

"Prevaricate, is it?" cried Mr. Flannigan, with angry resentment. "O'm thinkin' maybe it's yerself wouldn't be able to hilt prevaricatin' when three av Yur Honor's front teeth had been knocked out av yer head, sorr!"

Life Is Misery

To many people who have the taint of scrofula in their blood. The agonies caused by the dreadful running sores and other manifestations of this disease are beyond description. There is no other remedy equal to Hood's Sarsaparilla for scrofula, salt rheum and every form of blood disease. It is reasonably sure to benefit all who give it a fair trial.

LUCOL

IS THE

BEST PAINT OIL!

Save Half the Amount of Your Oil Bill Through Saving in Pigment.

Every painter should use Lucol instead of Linseed Oil, because:

1. Lucol is more durable than Linseed Oil.
2. Lucol is more economical than Linseed Oil.

PROOF THAT LUCOL IS MORE DURABLE.

Six years of actual use in exterior house painting in California (the most trying climate for paints), in the burning heat of the Arizona Desert, the Arctic cold of Alaska, and on the Atlantic coast, have fully and practically shown that Lucol always outwears Linseed Oil under the same conditions. All the acid works in San Francisco have discarded Linseed Oil for Lucol.

ILLUSTRATE THIS YOURSELF.

Put strong ammonia on Linseed and Lucol paints. The Linseed paints are destroyed in a few minutes; the Lucol paints are practically unaffected.

PROOF THAT LUCOL IS MORE ECONOMICAL.

Break up 1 1/2 lbs. paste white lead in one pint of Lucol, and the same quantity in one pint of Linseed Oil. Spread the paints on similar dark surfaces for comparison. The Lucol paint spreads as far as and covers much better than the Linseed paint. To get equally good covering with the Linseed paint you will use 2 1/2 lbs. of white lead to one pint of Lucol. This means a saving of 1 lb. of paste lead to each pint of Lucol used, or 6 lbs. to every gallon, equivalent to your saving more than half the first cost of the Lucol.

Lucol is not in competition with cheap Linseed Oil substitutes.
