

# The Garden Island.

ESTABLISHED 1904. VOL. 16. NO. 43.

LIHUE, KAUAI, TERRITORY OF HAWAII, TUESDAY, NOVEMBER 2, 1920

SUBSCRIPTION RATES, \$2.50 PER YEAR 5 CENTS PER COPY

## ALL READY FOR ARMISTICE DAY

The program for Armistice Day has rounded into shape and all that is necessary is for the day to come. Its a big program and is prepared so as all can have a good time, from the eldest down even to the school kiddies; the polo game being the big feature of the day. Victory medals, which have arrived, will be presented just prior to the polo game.

Well, let's take a look at their program and see for ourselves. Starting at 9 A. M. the High School boys clash in the first exhibition American football game ever played on Kauai. They have formed two teams, called Senior Sophomores and Junior-Freshmen. Both teams are evenly matched, and rivalry is high.

At 10:00 A. M. the horse races get under way (whether the football game is over or not) and will be pulled off in fast order. Seven races are on the program: 3/4 mile open, 1/4 mile three year olds, 3/4 mile open, 1/4 mile open, 1/2 mile open, 1 mile Cowboy relay race and 3/4 mile Kauai bred ponies for the Spalding cup. Sakamoto's "Lady" already has one leg on it, won last 4th of July. The races will be over by 12:30 P. M., when there will be an intermission of half an hour.

S. W. Meheula is serving all kinds of lunches—luau, chop suei, sandwiches, coffee, soda water, lemonade and everything else that comes in the eating line. Just take a look at his counter and your appetite will rise rapidly.

In the morning while the races are being pulled off, the grammar schools will battle for the supremacy in play ground baseball. Waimea vs. Kapaa and Koloa vs. Lihue, the winners playing in the finals, the winner taking home the pennant.

At 1:00 P. M., after everybody has had their fill, Kekaha, Waimea, Koloa, Lihue, Kawaihau, Grove Farm, and Kilauea, all get a chance to show their respective pulling power in a great tug-o-war contest, twelve men per team. Kekaha won last year and is training hard at present to hold on to their laurels. With so many teams entered there might be some of the preliminaries pulled between races in the morning. The prize for the tug-o-war is \$50 cash.

After the tug-o-war the grammar schools will have a couple of foot races—100 yards dash for pupils over 75 pounds, and 50 yards dash for pupils under 75 pounds. Then comes the one mile relay foot race, with 8 men to a team. Enthusiasm is high and a close race is expected. Kawaihau, Kilauea, Lihue, Grove Farm and Koloa have entered teams. With 20 men out practicing every night for the Grove Farm team, the others better keep their eyes open and watch for the unexpected.

At 2:00 P. M. the Boy Scouts of Kauai will come together in their first public competition. They have gotten up a program which will take half an hour, and the Kauai Legion has prizes for them.

Everybody who sees their name in the Victory Medal list published in another column, be ready and on hand near the grand stand at 2:30 P. M., and step up lively and get your medal.

After the presentation of the Victory Medals a reasonable amount of time will be allowed for the crowd to get to the polo field, and then the 17th Cavalry, which invaded Maui, will clash with the Kauai Legion in a six period game. Lt. Caldwell, V. C. and five enlisted men have arrived with the polo ponies. They came on the Kilauea, Kapaa, Lihue, Koloa, Eleele, Waimea and Kekaha. This gives all a fair chance to get parking space for the polo game, and bleacher seats for the rest of the program, in advance.

## Hallowe'en Dance Is a Grand Success

The American Legion's complimentary costume dance to the ladies' auxiliary at the Lihue armory last Saturday evening was a gay affair and a decided success. Stately Colonial dames and damsels, Mack Sennet beauties, demure Chinese maids, beautiful harem ladies, cow girls, and a vamp, cow boys, Chinamen, man-o-war men, Julius Caesar, and many other characters, too numerous to mention, all mingled together in one happy and care-free throng.

Mrs. K. C. Ahana, as a Chinese lady, and H. H. Jones, as a cow boy, won the prizes as the best costumed lady and gentleman.

Alapaki Smith, with his bunch of jazzsters, furnished the music in their usual pleasing and efficient manner.

### DR. E. N. YOUNG RESIGNS

Dr. E. N. Young, of Lihue, has handed in his resignation as plantation physician and to the board of health, to take effect on December 31. He will leave in the early part of December to join his family at their old home in Southern California.

Dr. Young has made a host of friends on Kauai and the news of his intended departure for the mainland is received with sincere regret.

Dr. Young is an excellent physician and a skilled surgeon, and his unselfish devotion to duty during the two flu epidemics on Kauai has won him a high place in the affections of hundreds of people in the Lihue district.

Dr. J. M. Kuhns, of Kealia, who is well and favorably known throughout the Island, will succeed Dr. Young at Lihue.

### VICTORY MEDALS ARRIVE

The Adjutant of the American Legion, Kauai Post No. 2, Dept. of Hawaii, has received the following Victory Medals: Henry Sheldon, C. J. Fern, Wm. K. Akana, Alfred Souza, Kinjiro Watase, Junichi Fujita, Hideo Miyake, Onye Yoshi Kazu, Herman Brandt, Simeon Dias, Hubert Christian, N. E. Weight, D. K. Hayselden, Henry Kama, Fred G. Bechert, A. H. Case, Albert S. Bush, Hideo Ishimoto, Filemino Bieay, Dionis W. Iba, Martin Balbueana, Balbino Villamor, Pedro Souza, Macario Uabane, Philippe Beonala, Elodin Canburo, Bernado Param, Isadoro Ceralde, Donicio Compru, Cornoplo Coga, Benton Venhamo, Modesto Nabong, Macario Hilarion and Agapito Simana.

### AN UNUSUAL CASE

A rather unusual case came up yesterday in the Lihue district court in which civil action was brought by one of the Wailua homesteaders against the board of health dentist for the schools because he had removed a tooth without consulting the parent or giving him a chance to be heard from. Furthermore, it was alleged that he had slapped and otherwise handled the boy roughly. The facts were admitted, but the judge acquitted the defendant on the ground that the tooth was so badly gone that the boy was better without it, and that plaintiff had recourse to a criminal suit. Further proceedings were stayed by an amicable settlement out of court.

\*\*\*\*\*  
up a good fight, with Messrs J. M. Spalding, Philip L. Rice, Marcus Monarrat, and either Foster Horner, C. A. Baggott or James Corstorphine for fourth man.

A real and big day for all is surely to be had. Tickets are now on sale at Kilauea, Kapaa, Lihue, Koloa, Eleele, Waimea and Kekaha. This gives all a fair chance to get parking space for the polo game, and bleacher seats for the rest of the program, in advance.

## TEACHERS ASSN. HOLDS MEETING

The annual meeting of the Kauai Teachers' Association was held at the Lihue Social Hall on October 29th, 1920. The meeting was called to order at 10 a. m. by Mr. W. McCluskey, and "The Star Spangled Banner" was sung by the Association with Mrs. L. Sheldon as leader.

After the minutes of the last meeting had been read by Mrs. Mesick, the election of new officers was placed before the Association. Mr. McCluskey appointed a committee on nominations for president. The committee nominated Mrs. Mesick, Mrs. Sheldon and Mrs. Wright and the Association used the "Shut Eye" ballot in voting which resulted in Mrs. Mesick being elected as president. Mr. McCluskey then retired and Mrs. Mesick took the chair. The election of officers continued with the result that Mrs. Wright was elected vice-president, Mrs. Carlotta Lai secretary, and Mrs. Wedemeyer is acting treasurer for Mrs. Bridgewater, who is on leave of absence.

The question of a raise in salaries was brought up and after reports had been read by Mr. Simpson and a suggestion made by Miss Thompson that the raise asked for be uniform with that of the other associations, it was decided to ask for a 25 percent raise in salaries.

The pension law reports were read by Mr. Simpson for that committee. Letters from the Superintendent were also read and it was moved by Mr. Brodie seconded and carried that the association gave its approval to the Kauai pension reports as well as to the Honolulu communications.

The Recreation Club which was started by Dr. Curtis last February was called to order and each division held a meeting to elect officers and make plans to continue the good work which was stopped by the flu last March.

The musical part of the program was a rare treat. Mrs. Ahana rendered a solo in her usual charming manner. The duet by Mrs. Ahana and Mrs. Bowen received unusual applause. In the afternoon Mrs. Sheldon sang by request which was enjoyed by all. There was so much applause that nothing but an encore brought silence. There was a wonderful chorus of eight Kapaa teachers with Mrs. Sheldon as leader. The first selection was in English with an encore in Hawaiian. Both were beautifully rendered and enjoyed by all.

The visiting speaker of the day was Dr. Hoag of Los Angeles, who gave an interesting talk on "Types of Children." Dr. Hoag spoke in such a practical manner that each teacher could fit in children from her class as he lectured about the mis-fit child, the precocious child, the feeble minded child, the child found in courts and the child as he faces his daily school work. Facts from Dr. Hoag's own experience and facts from noted world criminal cases as he retraced the adult to child types made the talk most interesting.

Just before lunch an invitation was read by Mrs. Mesick from Dr. Mighton the Chiropractor, who placed his Ladies' Rest Rooms at the disposal of the teachers.

The ladies of Lihue invited the Association to the Armory and there was a delightful surprise for all. A delicious lunch was served and more than enjoyed by all.

In the afternoon an address was given by Mr. Page of Kilauea. This was of unusual interest to teachers as the subject was "The Relation of the Public Schools to the Community."

(Continued on Page 8)

## Personals

Dr. and Mrs. Hoag and son Junior return to Honolulu today.

Mrs. J. I. Silva, of Eleele, returned last Friday morning from a visit to her old home in California.

Mrs. K. B. Morgan has returned from Honolulu, accompanied by her mother, Mrs. W. M. Monroe, who arrived on the Manoa last week.

Rev. R. W. Bayless, agent of the Hawaiian Board for Kauai, is called to town to-day to attend a special meeting of the board workers. He will return Friday.

Miss Margaret Pepper has resigned her position with the Board of Health and now takes charge of the Mahelona Hospital. Miss Pepper is in demand and Kauai is fortunate in being able to keep her.

R. W. Atkinson, manager of the Hawaiian Dredging Co., came over from town this morning in connection with the work which that firm is doing for Ahukini Terminal & Railway Company.

### MOKIHANA MEETING

The regular monthly meeting of the Mokihana club will take place to-morrow afternoon. Miss Ashford from Honolulu will be the speaker of the occasion on the theme, "The Woman Voter." The hostesses will be Mrs. W. H. Rice, Jr., Mrs. W. N. Stewart, Mrs. J. H. Hogg and Mrs. J. A. Hogg.

### AUXILIARY WANTS BETTER MOVING PICTURES ON KAUAI

The following resolution by the ladies of the American Legion of Kauai is along the line of a good deal of public interest and conviction. We heartily endorse the request, and trust that, taken with similar demands, it may result in a better service in moving pictures:

Women's Auxiliary Kauai Post No. 2, American Legion.

Oct. 22nd, 1920.

### RESOLUTION

RESOLVED That the Women's Auxiliary of Kauai Post No. 1, American Legion strongly urge the proper authorities to supervise the moving pictures shown on the island of Kauai, with the purpose of maintaining a good and wholesome standard to all the pictures; and that a copy of this resolution be published in the Garden Island, and a copy sent to the Board of supervisors of the County of Kauai.

### THE CHAMBER OF COMMERCE SUPPER

The annual banquet session of the Chamber of Commerce will be held on Friday evening at the Mokihana Hall. There will be special attractions which promise to make it an unusually interesting and enjoyable affair. The supper will be furnished by the ladies of the Trail and Mountain Club, and from advance indications it will be a mighty good one, served with much grace and charm.

If you know a good thing when you hear of it, you won't miss that meeting!

### IN THE CIRCUIT COURT

Things have been moving slowly in the Circuit Court. One of two cases were disposed of last week. Friday the Court took a recess, awaiting important witnesses which were to arrive this morning, and things will go forward again to-morrow morning.

### ON THE WILHELMINA

Among those arriving in Honolulu today on the Wilhelmmina are the following Kauaians: Mr. and Mrs. H. D. Wishard, Mr. and Mrs. S. W. Wilcox, Mrs. E. H. W. Broadbent and Miss Alice Broadbent. They will all arrive on Kauai by the Kilauea next Friday morning.

### LIHUE UNION CHURCH

Regular services next Sunday. Communion service will be observed at 11 o'clock. An opportunity will be given for reception of new members at this service. Identify yourself with this church. Share its joys and help solve its problems.

R. W. BAYLESS, Pastor.

## Two Good Soccer Games Last Sunday

With one game 0 to 0, and another 1 to 0, indicates that there were two corking good games of soccer played last Sunday; and such was the case.

The 0 to 0 game between Koloa and McBryde was played on the Eleele field, and the good showing made by Koloa in holding their more experienced opponents scoreless was the surprise of the day. The wise ones, however, say they knew it all the time—and just to watch Koloa's smoke from now on.

Koloa has got a fast bunch of forwards and it would not be at all surprising if they did pull themselves out of the hole and start for the top.

Lihue-Makaweli

The Lihue-Makaweli game at Lihue park went to the home team by a score of 1 to 0 after two fast thirty minute halves.

Hutton made the only goal of the day in the first eleven minutes of play. He got possession of the ball and carried it down the field for about forty yards. When within some forty feet of the goal he shot the ball between the posts by as pretty a kick as has been seen this season. He repeated the performance 15 minutes later, but one of the Lihue players was off side, so the goal did not count.

In their enthusiasm the Lihue forwards seemed to be unable to keep off forbidden territory and were penalized repeatedly for being off side.

This was the first game played at Lihue this season and was witnessed by a large crowd of fans from both Makaweli and Lihue.

The Lihue soccer field is in prime shape this season, thanks to the good work of Bill Wright, who has had a gang of men working on it for the past three weeks. The ground has been made perfectly smooth, the grass cut short and the lines made permanent by being grooved. At each corner has been sunk a piece of iron pipe to hold the flags. The proposition of moving the grass off the big field was a serious one until Bill took his troubles to County Engineer Middleton, who solved the problem by offering the services of the county's big power lawn mower, which made short work of the job. The community, as well as the players owe Bill a vote of thanks.

### WIDE AWAKE CANDIDATES

The Republican candidates surely deserve success if there is any virtue in faithful, hard work.

Beginning with Thursday, Messrs. Coney, Hayselden, Hoopli, Hoopale and Fernandez made a house to house canvas of the whole Island. They undertook to reach every little hamlet and every lone householder who was also a voter, however securely he might be hidden away in secluded valley or inaccessible ravine.

Especially arduous was the trip up the Waimea Valley, and one or two of them were "all in" when they got through. Needless to say the ordinary voter was very much pleased to see such consideration and interest, and has shown his approval at the polls.

### LEGISLATORS INVITED TO MEET SUPERVISORS

County Clerk J. M. Kaneakua has invited the Kauai members of the next Legislature to meet the board of supervisors at the County Building at 11 o'clock to-morrow (Wednesday) for the purpose of discussing the needs of the County.

### STEAM SCHOONER WILLMINGTON ARRIVED AT AHUKINI FRIDAY

The steam schooner Wilmington arrived at Ahukini from Ureka, Cal., early Friday morning with 5000 fence posts, 5000 railroad ties, a quantity of rails and redwood lumber.

## MINSTREL SHOW COMING TO KAUAI

On the evening of Nov. 24th, at the Tip Top Theatre, Lihue, the people of Kauai will have the opportunity of attending a regular old-fashioned "Nigger Minstrel" show—with end men, bones, tamborines, jokes, songs and dances, in everything.

The occasion is to be a benefit for the Lihue public library and is to be under the joint auspices of the Lihue Union church and the Mokihana club.

A minstrel show is something that has not been attempted on Kauai in a number of years, but a canvas of the situation discloses the fact that there is an abundance of high class minstrel talent "in our midst," and they have offered their services free gratis for nothing to help the cause of the library.

Beside the regular minstrel "first part", there is being arranged a splendid variety program which will far surpass anything ever attempted on Kauai before.

### WEEK-END AT HALEMANU

Messrs. McCluskey, Grinnell and Townsend, of the high school, were the guests of Mr. E. A. Knudsen of his Halemanu home in the Waimea mountains for the last week end. They saw the wonderful sights of that interesting country under most favorable conditions and were delighted with all they saw. They are particularly enthusiastic about the Kala-lau panorama, where they saw the abyss below them fill with cloud almost instantaneously and then as quickly melt away. In the meantime their own shadows were projected on the mist in gigantic proportions.

### ALL THE WAY FROM BONNIE SCOTLAND

D. D. Cruickshank, of Makaweli, returned from Honolulu Friday morning accompanied by his wife and two children, David and Cecilia, who arrived on the Tahiti Thursday from Vancouver. They come all the way from Scotland, a journey of 8000 miles.

### KAPAA NOTES

Mr. H. Grote, manager of Kealia Store, who has been living in the Wilcox residence at Waipouli with his family, moved into his new home at Kealia last week. Mr. W. F. Horner of the Bank of Hawaii, with Mrs. Horner, will occupy the beach house at Waipouli.

\*\*\*\*\*  
Sunny K. Hung, special sports correspondent of the Honolulu Star-Bulletin, is spending a short vacation with Bun Hee of Kapaa. "Sunny" returned from a trip to New York and other eastern cities only about a month ago.

\*\*\*\*\*  
The Kawaihau relay team has been completed for the 11th and several "dark horses" will make their initial appearance before the public at Waipouli on Armistice Day next week. Mr. A. S. Bush has announced that Kawaihau's team will have more than an even chance to win the event.

\*\*\*\*\*  
Mr. Henry Van Gieson, homesteader of Kapaa and Chief Ranger of Court Waiialeale, local order of the Foresters recently organized, left for Honolulu on Saturday and will be away several weeks on business.

\*\*\*\*\*  
Mr. W. A. Fernandez, republican nominee for the House of Representatives, is making preparations for his term in the next Legislature by "breaking in" his brother, Antone Fernandez, into all the mysteries of the art of successfully operating a string of picture theaters.

## Wall & Dougherty

JEWELERS

Mr. J. D. Dougherty is now touring the Island of Kauai with suggestions for the Holidays in the form of precious stones, jewelry, engraved greeting cards and stationery, and the latest importations of gift novelties.

## "WE, AND OUR CHILDREN"

Dr. Ernest B. Hoag, the mental expert, who arrived last Friday morning, occupied the Lihue Union Church pulpit last Sunday and spoke substantially as follows:

"We speak of the last as the Woman's century, with even more of truth may we think of the present as the children's century. Looking back a few years to a more primitive period we realize that a wonderful advance has been made, for which we are all profoundly grateful,—but after all we have hardly made a beginning as yet on an intelligent understanding of children, and an intelligent treatment of them.

"For convenience we may consider the Child under three aspects,—in the Home, in the School, and in the Social institution.

"It stands to reason that the first prerequisite for dealing with the child is an understanding of him. Now it ought to be an easy thing to understand a child, for we have all been children, and all we have to do is to go back into our own childhood and recall how we looked at things and how we felt. But, as a matter of fact, that doesn't seem to be such an easy thing to do. We have forgotten, and only the high lights stand out in our memory—and the consequence is that we more or less read back into the child's mind the outlook of the adult, and attribute to him our own ideas and ideals, or the ones that we think he ought to have.

"In order to be convinced of this we have only to look over the great mass of children's literature which we have as the outcome of the interest in children of late years. It is almost all very strongly stamped with the adult point of view. It is the adult translated, and very often very poorly translated, into the language, but not the thought of the child.

"The child is in a way a savage, that is, he is undeveloped, and simple and primitive. Now one of the strongest characteristics of the savage is self expression through dramatics. You find this strikingly indicated in the language, as well as in the habits and customs of the American Indians. Their vocabularies and their language idioms, are strikingly picturesque and dramatic.

"The same is true, I understand, of your Hawaiians.

"The dramatic avenue of self-expression is one of the utmost importance to children and should be cultivated much more sedulously than it is.

"A sense of humor is one of the most valuable and redeeming assets for any child. The youngster who has an eye out for the funny side of things, who can stand to one side as it were, and can look at his problems and his troubles in an impersonal sort of way, will be saved a whole lot of heart-ache and disappointment. One of the world's greatest child psychologists, though he didn't know himself as such was Charles Dickens. In some of his immortal books he has interpreted to the world the child mind with the child experiences and the child outlook, and he has done it with that large sense of humor which has made them doubly interesting and entrancing. More than any master of literature he has understood the child mind.

"Above all things else in a child's life, fear is a thing to be deplored and guarded against to the uttermost. Many a child's mind and imagination are poisoned for life by some vague but horrible sense of fear at the dawn of his developing powers. Sometimes it is fear of the dark, of ghosts, of goblins, of nameless terrors, the subconscious memory of which beclouds and darkens the whole life. The utmost care should be taken to preserve children from any such threatening cloud of imaginary evil.

"We are at length beginning, somewhat dimly, to realize the exceeding value of play in the education of children. Two or three generations ago play as play, as a recognized prerogative of childhood, and a recognized element of education, was an unheard of heresy. Sunday was a day of prison walls and silence, the word play, might not even be whispered. And during the rest of the week only such play could be sneaked in as might be able to escape the vigilant eye of parents who didn't believe in play themselves, and who would tolerate it only when nothing else could be found to do.

"The real American knows less about play than any other modern nation. The English are more given to play than we are, and get far more out of it. Gradually the spirit of play is leavening our people. The automobile is an important factor of

this change. For many a business man, his car is the only recreation, the only play he gets. Roosevelt was one of the great men of our time, with a personality that has left its impress on his time in half a dozen different ways. I venture to predict that the quality of Roosevelt which will carry his memory the farthest was his enthusiastic devotion to play. And that in the popular mind he will be remembered not as a politician or a statesman, or a builder of the Panama Canal, but as a father among his boys, ever ready for a game. Even when in the White House with all the cares of state, he managed to have the regular games, in which not only the children participated, but diplomats and senators as well. Read his letters to his children, if you want to know what the real Roosevelt was.

"Now, on the other hand, while all sympathy and interest and kindness should be shown to the child, there are evils on that side of the line which must be carefully guarded against.

"Beware of pampering a child, especially beware of pampering the only child. Because of his position in the family he is very seriously handicapped. Where there are several children they educate one another. This the only child misses.

"Every child at an early age should learn to face the problems of life as they come to him, fairly and squarely, and should not be allowed to evade them, or squirm out of the issue. He must learn courage and persistence, and patience and responsibility, and self control, and if he fails to do so he will almost assuredly fail all through life. Over 90 per cent of the failures of life come from this class—they have been only children, spoiled, and not trained to face the problems of life squarely, and meet them manfully. It is from this class too, that suicides and drug fiends come.

"Look out for the solitary child, who wants to crawl into his shell, and live in an imaginary dream world of practical inactivity. He is a poor mixer—he can't give and take—he is contented to enjoy his visions of great things, but that is as far as he wants to go—or at any rate, as far as he gets. This is really a form of mild mental derangement, known as dementia precax, which should be guarded against and corrected as soon as possible.

"In regard to the child in the school. The ideal education is the education that you don't know that you are getting—it comes so easily, so naturally and so pleasantly. The education that involves drudgery and grind—that is irksome and unpleasant—there is something fundamentally wrong with such a system of education. Education ought to be a thing of joy and happiness—a delight, just as play is. The things that we do best are the things that we like best to do, and every child should be encouraged to do these things. Of course this does not mean that he should be turned loose in the whole intellectual bill of fare to take or neglect just what he likes best, but that he should be allowed to learn in his own way, and that children shouldn't be run through an educational mill as sticks of cane are run through a sugar mill.

"And in this connection I venture to propound the worst kind of educational heresy. Our educational system as at present run has been a deplorable failure—simply atrocious. It involves a vast amount of inefficiency and wastage. Less than 50 per cent of the children of the schools ever get through the eighth grade, even where the age limit is sixteen years. They have been flogging away on an eighth grade course when they were really on a fifth grade run. Individuals differ very early. These differences should be recognized, and the children treated accordingly, otherwise their education is a failure.

"Very few people probably, realize that we have in the United States half a million feeble minded persons—persons whose development was arrested early in life—at 9, 10, 11, 12 years. They have never grown mentally beyond that. Now these people are a burden on the community. They have no means of usefulness of support because their education was not suited to their needs and their capacity. It is out of this class that the degenerates come, the tramps, the ne'er do wells, the ruffians, and a large proportion of the criminals.

"Special attention should be given to this large class, and such special education as would fit them for usefulness and self support."

## HEALTH TALK

### DISEASES OF CHILDREN AND THEIR EFFECTS IN AFTER LIFE

It is rare indeed to find a child whose vertebral column is perfectly normal. The constant activity of children, running, jumping and tumbling, the postures in which they sit in school and a hundred other causes too numerous to mention tend to produce subluxations of the vertebrae and impinge the nerves leading to important organs of the body. This being true, and it has been repeatedly proven not only by palpation but in the dissecting room and by means of the X-Ray, the after-effects of childhood diseases can be accounted for as follows:

Nerves which are impinged, or pinched, at the place where they leave the spinal column cannot carry an adequate supply of energy to the organs to which they lead, resulting in these organs becoming weakened and susceptible to disease; or, if the impingement be severe, there may be immediate failure of the organ to function properly.

The child contracts tonsillitis, for instance, through a subluxation of certain vertebrae. The tonsils become enlarged and ulcerated; toxins, or poisons, are absorbed into the blood stream, are carried to all parts of the body and act upon those organs which have become weakened.

The tonsillitis is soon "cured" because the disease runs its course ordinarily in a few days, but the subluxation causing it has not been removed. The tonsils remain weak and liable to a second or third infection.

To depend upon nature is entirely too uncertain; to correct the spinal fault Chiropractically is by far the better course, since there is then no doubt as to the results.

I feel it is the duty of every Chiropractor to explain to parents the serious consequences which may result from some apparently unimportant sick spell their children have had, so they may have the youngsters' spines examined and all subluxations corrected.

Children who receive spinal adjustments during their sickness are extremely fortunate, since not only is the cause of their trouble permanently removed, but subluxations which would have caused much suffering later are also corrected. While Chiropractic spinal adjustments are highly effective in relieving complications after they have arisen, still it is much better to correct the subluxations as soon as possible, even though no disease has manifested itself, for if there has been sickness there is apt to be trouble at some later time, and an ounce of prevention is worth a pound of cure.

### SCHOOL NOTES

#### Kauai High

Dr. Hoag favored our school with a visit Monday morning. Instead of the customary talk that visitors usually give, he entertained us by giving us an examination. The mere mention of the word "examination" gives the normal school boy and girl a sort of sinking feeling, but if all exams could be modeled after the one Dr. Hoag gave us, the name would soon lose its unpleasant interpretation among the school children.

Our math teacher, Mr. Homer Townsend has arrived at last. He is two months late, but nevertheless he is very welcome. His arrival takes a great deal of extra work off the hands of Mr. McCluskey, who has had the mathematics classes until our regular teacher should arrive. We have all our faculty now except the commercial teacher.

Our three men teachers, Mr. McCluskey, Mr. Townsend and Mr. Grinnell, took a very interesting trip to Kalaheo last Saturday. Mr. Townsend, who had arrived on Kauai only the day before, received a very favorable first impression of our island, which we hope will stay with him always.

The rumor is afloat that our worthy graduate of last year, Henry Wedemeyer, has gone and gotten engaged. If this is so we want to know who the poor girl is so we can console her. Henry is a fine chap—brave, honest and pious, but we have all agreed that he is entirely too young and frivolous yet to even think of such a serious thing as matrimony.

\*\*\*

#### Hanamaulu School.

Beginning October 18th, warm lunches are being served to the school children. Miss Helene Steinwand has this feature under her supervision.

On Wednesday, October 27th, the teachers at the school cottage gave a party in honor of one of their number, it being her birthday. The occasion coming so near Hallowe'en, the rooms were very prettily decorated to that effect. The games played were in keeping with the rest of the scheme and there wasn't a dull moment during the whole evening. Delicious refreshments were served, and the birthday cake cut, and what with pumpkins, black cats, and ghosts, when the guests took their departure they felt as though they had spent a real old fashioned evening.

Hanamaulu school has the honor of being the first school to organize a Girl Scout Troop on the island of Kauai. They have had several very well attended meetings and they are planning on having much helpful and interesting work during the year.

Miss Blanche Dyer spent the week end with Miss Minnie Brown of Kapaa.

\*\*\*

#### Waimea School.

A good morning hour was spent last Monday morning when Mr. Frank Scudder of the Hawaiian Mission Board, talked to the pupils of the school. Mr. Scudder has a speaking appointment at Waimea any time he comes to the island.

Practice is going on for the cantata in November. A variety of singing, dancing and comedy stunts will be offered, every one of them by the children of the school.

The kindergarten has received three dozen chairs, brooms, etc. and quite an assortment of kindergarten supplies. The enrollment is 50, with that many in daily attendance.

Waimea school took the opening game of playground ball from Kekaha to the tune of 48-4, or thereabouts. When the score hit the 40 mark the score keeper went home, knowing there was no use for him to stay.

Waimea ball team took Elele to the mat to a score of 44-4 last Friday. This week the team crosses bats with Kalaheo. On November 11 we go to the American Legion meet at Waipouli field. A strong team from the other side of the island will meet Waimea on that day.

The school kitchen is regularly serving from three to five times the number of lunches ever before served in this school. The lunch is always five cents.

The latter part of the month Waimea will be offered the first school concert and pageant that has been held here by school children only. Mrs. Wright reports the numbers are progressing in a satisfactory manner.

All the teachers attended the County Association meeting last Friday. The day was a profitable one. Lihue showed us every hospitality in keeping with such a meeting.

The Athletic Association voted to receive girls into their organization. Forty-seven joined. Girls' teams will hereafter accompany the boys, playing a game with the girls' team of the school at which the boys are playing. Girls' practice started last Monday. The Association voted to enter an evening of general athletic events with Kekaha. The program will be held on the new Kekaha amusement court and playground.

## FINE,—BUT NOT PRACTICAL

The ideal is one thing—the actual quite another,—and the two must needs stand apart. Practical considerations must always limit theoretic ideals.

Dr. Hoag's arraignment of the present school system as "simply atrocious" in its inefficiency and wastefulness, is based on the ideal which demands an individual system of education for each individual child. In theory that is all right, but practically it is out of the question. Why, we can't get enough money to pay our teachers properly now, on a basis of one teacher to 30 or 40 or more pupils! What would it be if we had a private teacher for each individual child? What would our education budget run to if we had say twenty times as many teachers as we have now, with twenty times as many school cottages and school buildings, and twenty times as much school equipment? Where would the tax payer "get off"?

## PRESENT FOOD WASTE

Federal authorities at Indianapolis have started an investigation to determine who was responsible for many cars of fruit and vegetables having been left standing in the railroad yards while the contents decayed and became worthless. This is an inquiry which really means as much to people right here on Kauai as it does to citizens of Indianapolis.

The practice is declared to have prevailed at other points on the mainland within the past few months, too. In fact, fruit and vegetables have been allowed to rot at such an alarming rate since the prices have begun to decline that the United States government has stepped in to investigate and, if possible, punish those guilty of such acts. As a rule the railroads have been slow to assist in ferreting out the parties really responsible, and it has been hard to tell whether the blame should rest on the shippers or the commission houses to which the foodstuff was consigned. But now even the railroad officials are becoming alarmed, and promise greater co-operation in the investigations.

Unless someone is punished there is a great danger that the law of supply and demand will be worthless, for food sharks will be able to regulate the supply, and thereby fix prices to suit themselves, at the expense of the producer at one end of the line and the consumer at the other. The strong arm of the federal government is now raised. Let us hope it descends, and quickly, upon the guilty, for a penitentiary sentence or two would be sufficient to stop this practice before it becomes general.

## RUSSIA-POLISH TRUCE

The fact that Russia and Poland have agreed to "bury the hatchet" brings great relief to the world, and especially to the nations of Europe, among which there is a hope that this is a beginning of the end of a struggle that has and even now menaces Europe and the world.

Poland and Russian delegates signed the peace articles on Wednesday, October 6th, and hostilities ceased on the following Friday. Russia yields to the demands of the Poles upon practically every point at issue. The new boundary established by the treaty gives Poland a corridor between Lithuania and Russia, and extends along the lines of the German battle front of 1915 clear round to the Roumanian border. The contracting nations have agreed to a mutual exchange of prisoners, war and political, restoration of archives and other property taken by the Russians from the Polish legation at Moscow, under the Soviet regime, and the restoration of art and other historic objects taken from Moscow since 1772. The treaty provides also for the mutual non-payment of indemnities, except for property taken and destroyed by both countries without military necessity. In all other respects the armistice conditions are similar to the original declaration of the Poles, except in the boundary settlement. It includes the whole eleven points of the Polish peace draft formulated by the Riga delegation, and four others, making a total of fifteen points.

The lines defined by the Poles and accepted by the Soviets is based upon ethnographic lines, and for that reason should be more satisfactory than some arbitrary line that has no relation to national unity.

Thus the first steps have been taken toward a world peace, as far as appears upon the surface; but beneath the silver cloud there is a determination on the part of the Soviets to again attack Poland, when Russia shall have disposed of other enemies and have accumulated the men and material for another drive to extend the domain and influence of Bolshevism.

Bolshevism is now threatened from within and from without. General Wrangel is press-

ing hard upon the southern frontier, and the peasants are rising in revolt. The cessation of hostilities with the Poles will permit greater strength to be brought to bear against Wrangel and for the suppression of the restless peasantry that grows bolder and more determined, from week to week, to throw off the yoke of the Soviets. The French General Wégand is, however, aiding General Wrangel.

On the Lithuanian frontier the Poles are having plenty of trouble and fighting is severe. It cannot last long, however, for the Poles, freed from their Russian enemies may be able to make short work of the Lithuanians, provided they insist upon prolonging a struggle that can have but one end.

## THE ONLY WAY

William H. Rankin, president of one of the greatest advertising agencies in this country and an expert in every known form of advertising, addressed a meeting of business men in New Orleans recently, and among other things he said:

"Newspaper advertising helped to win the war and has come into its own—very largely, I think, because of the splendid work done through the newspaper advertising pages for the Red Cross, Liberty Loan and every war-time activity. Nearly every department in Washington is clamoring for paid newspaper advertising space. The army has just completed a successful campaign, spending over \$200,000 in newspapers. And a campaign costing even more is being pushed to secure naval enlistments. Seventy-five per cent of all money appropriated by Uncle Sam goes into newspaper advertising."

That certainly ought to be of interest to Kauai merchants, or anybody, for that matter, who has something to sell. If Uncle Sam spends three-fourths of his advertising money in newspapers, isn't it pretty good argument that newspaper advertising is better than any other kind? Doesn't it show that it beats billboard and fence signs and loud and gaudy stuff stuck along the highways?

Isn't it pretty good argument that, to get the worth of your advertising money the biggest part of it—at least three-fourths of it—must be spent for newspaper advertising?

Your Uncle Sam's experts are the finest advertising men in the world. And if they have spent millions in testing it out and find the newspaper to be the best advertising medium in the world, isn't their tip worth something to you?

## SHAME THAT IS REAL

The fact that several American business men have been holding interviews daily with Leonid Krassin, head of the Bolshevik Trade Mission in London, regarding the opening of commercial relations with Russia, is a shame and a disgrace to the principles of Americanism.

There is no doubt there would be plenty of business as a result of such a negotiation; but can the United States or any other civilized nation afford to take the step, to "eat crow," or to associate commercially or otherwise with a nation that unreservedly boasts of its depravity; that it is at war with morality and decency, a nation that is writing its history in blood and shame, and a nation that does not hesitate to declare its intentions to conquer the world and destroy existing civilization and set up in its place the Red Dragon of Bolshevism; a nation whose emissaries are today working in every country of the globe, distributing its degrading and demoralizing propaganda, stirring up strife and trouble of every kind; blowing up buildings and committing all sorts of crime?

Can the United States afford to open commercial relations with such a nation that its profiteers may revel in filthy lucre, while the nation's honor is sacrificed upon the altar of mammon. Let not this shame come upon us. Let not the stars and stripes be sullied by men who would sell their own souls and the honor of their wives and daughters for filthy gold.

Villa is to be allowed to settle on a ranch with the distinct understanding that he mustn't raise Cain.

One southern editor says that every time he prices a new suit he has to revise his version of hell.

Wheat dropped sixty cents at harvest time. Goodness, but how we wish they had to harvest paper.

Near-beer has its faults, but it doesn't make a man go home and beat his wife and children.

#### Y. W. C. A. NOTES

The Kapaa Girls' Club will probably meet each week on Friday night. They think to divide their evening into two parts: one serious, including business first, then some such work as dramatics or memory gems or talks on American girl ideals, together with music and singing; the second part to be fun time, including relay games, charades, etc.

"I wonder," they asked in much earnestness,

Who'd send us each month the 'St. Nicholas'.

And the 'Modern Priscilla', how glad we would be,

If each month we that magazine too, might see.

And do you suppose we might go yet a span

And ask for that nice 'American'?

Or the 'Ladies' Home Journal', indeed it would do.

Why, we'd read every page of it through and through.

Because we girls of Kapaa, want soon to meet each week in a dear little room

For business quite serious, and then when that's done

We want to end up with a half-hour's fun".

A group of Filipino mothers in Ke-

kaha may soon organize themselves into an English class.

Five of the mothers of the Koloa English class, in their ambition to progress in the use of our tongue, have entered night classes under the direction of Mr. Greenley, welfare worker on Koloa Plantation.

Some mothers of Puhi Camp are eager to enter night classes in English. As soon as the electric lights are installed we hope to accommodate them.

The Happy Hour Club of Puhi Camp wants an evening meeting weekly. They expect to arrange for it when the light fixtures are completed.

#### KAWAIHAU STARTS A JUNIOR BALL LEAGUE

The Kawaihau junior league opened its season Friday with a double header at the Kapaa ball park. The Allies defeated the Pacifics in an exciting game by the score of 17 to 11. Kenneth Aliou at short and Johnny Ferreira at first starred for the winners, while the Pacific's catcher and shortstop, Yoshitomo and Takeo were the stars for the losers.

In the second game the Asahis defeated the Makees by the close score of 10 to 7. The playing of Shigeso of the Asahis and Joe Lizami for the Makees were the features.

Saturday's games were marked by the victory of the Allies over the Asahis by the lopsided score of 16 to

4. The Asahis had an off day and did not play up to their usual form.

The Halaula Champions replaced the Makees and defeated the Pacifics by the score of 16 to 7. The Pacifics were greatly strengthened by the addition of some new players, but were unable to get into their stride.

A midget team has been formed and all boys under 85 pounds are eligible. This league will play on Saturdays and holidays the same as the junior league. At present there are four teams entered—two teams from Kapaa and two from Kealia. There is no weight limit in the junior league, but all players must be school boys.

#### JUNIOR BASE BALL LEAGUE FOR LIHUE.

John Fernandez has organized a five team Junior base ball league for Lihue district to be composed of teams from Grove Farm, Hanamaulu, Lihue, Nawiliwili, and an all-Filipino team.

The idea is to give the boys from the various camps in the district a chance to play ball, and also to develop material for the big league.

The opening games will be played at Hanamaulu and Puhi on Sunday afternoon, November 7th. The schedule of games has been arranged so as not to interfere with the present soccer series.

**BALL GAMES  
AT KAPAA**

Coming back with a vengeance after that fearful wallop given them by the Pacifics the Sunday previous, the Libertys regained their batting eye in the first game of the regular doubleheader of the Kawaihau League, and took H. R. Johnson's Farmers into camp by the score of 6-4.

The score would indicate a rather close game, but the result was not much in doubt after the Libertys secured a brace of tallies in the third frame. Four other runs followed later in the game, but the opposition could not overcome the lead of the Libertys, although they once filled the bases with none down, and Johnson did his best to rattle the Chinese lads with his continuous chatter. Fast work by the Liberty infield pulled the team out of a dangerous hole in this inning and nullified the best efforts of the Farmers.

M. Teves heaved for the losers and the Libertys were able to straighten out quite a number of his slants at critical moments. Mechanical errors in the field however, were responsible for several of the six runs he allowed. Akana, for the winners, was rather unsteady, but good support held down the score.

The Libertys played without the services of their captain and catcher Soong, who did not show up for some reason or other. W. S. Lee, a recruit, took his place behind the bat and did well enough considering his inexperience, but his pegging was a joke. Henry Aki, the talkative manager of the Libertys, also made himself conspicuous by his absence, and the team faced the situation of starting the game without either captain or manager being present to look after its affairs.

The second game of the afternoon was much more interesting, the Allies nosing out the Pacifics by the close score of 4-3, thereby tying the Libertys for the honor of leading the league.

The winners drew first blood in the third by scoring a single tally, but the Pacifics soon tied it up and went into the lead by one run. The Allies gathered momentum in the 6th and went into the lead by two runs. The losers managed to score another in the 7th but were helpless in the last two innings.

Morita heaved for the losers and as usual he pitched a good game, but Shirai at third and King at second made enough errors between them to give the opposition the game. King, a left hander, and playing a position which he had no right to occupy, was particularly off color, booting several easy chances and also missing a great chance for a double play due to his handicap of having to turn around to throw to first after receiving a toss from Tsuchiro at short. Besides the errors, exceedingly poor baserunning and failure to realize that one run instead of several were needed, helped the Pacifics lose. In the 9th, a runner got to first safe with none down, but here was where Captain King of the Pacifics refused to heed the advice of the rest of the players and ordered the next batter to hit it out instead of sacrificing. The result was a pop fly which resulted in a double play and all chances of tying the score vanished with this piece of "outside" baseball.

Next Sunday the Allies and Libertys will meet and the winner of this game will have the championship of the first series almost within their grasp, as the losing team will only have a chance to tie the winner provided they lose their last game of the series. The Pacifics and Johnston's Farmers will battle for the cellar championship in the curtain raiser.

Standing of Teams.			
Libertys	3	1	.750
Allies	3	1	.750
Pacifics	1	3	.250
Farmers	1	3	.250

**Y. M. C. A. NOTES**

The Y has received a bound copy of "The Stars and Stripes" containing every issue of that notable soldiers' journal published overseas during the war. It is available for all interested at the County Y office and will be exhibited in the Armory on regular game nights.

The business night school at Lihue has started with an enrollment of 24 students. Mrs. E. F. Wood is the instructor.

The English classes at Lihue number over 50 students. Hanamaulu is starting with an enrollment of 35.

# Adequate Pay for Teachers

By B. P. Claxton

(Read before the National Education Association.)

Teachers worthy of places in the schools in which American children are prepared for life, for making a living, for the duties and responsibilities of democratic citizenship, and for eternal destiny can never be fully paid in money. Men and women worthy of this highest of all callings will not think first of pay in money or in any other form. For teachers, as for all other workers, Ruskin's saying holds: "If they think first of pay and only second of work, they are servants of him who is the lord of pay, the most unnerect fiend that fell. If they think first of the work and its results and only second of their pay, however important that may be, then they are servants of Him who is the Lord of work. Then they belong to the great guild of workers and builders and saviors of the world together with Him for whom to do the will of Him that sent Him and finish His work was both meat and drink."

Workers paid largely in kind.

It has ever been and probably must always be that workers of whatever sort received the largest part of their pay in kind, as millers take toll of the grist they grind. Those that work with material things that have easily measured cash values receive their pay chiefly in money or in things whose values are most easily measured in money. Other rewards will be less in proportion and in importance. Those who work largely for other than the material results that can be measured by money must continue to be content to receive a large part of their pay in the consciousness of work well done for a worthy cause, and in participation, by faith at least, in the results, both near and far away in time and in space.

The Teachers' spiritual rewards.

Teachers who do their work well and who, either in fact or by faith, see the world made better as a result; individuals made healthier, wiser, happier; sin and suffering made less; the common wealth made more; social purity and civic righteousness increased; public laws made more just; patriotism broadened and purified; State and Nation made stronger and safer against attack from without and decay from within; and the world lifted on to a higher plane and into a brighter sunshine and a purer atmosphere, are possessed of wealth unseen and for most unseeable.

All true teachers will think on these things and many of the best will be attracted to and held in the profession by them. It will be all the worse for the profession and the world when it is not so.

But this should not be made an excuse for putting public or private education on a charity basis, nor for paying teachers the miserably low wages they are now paid. It should not be made an excuse for paying such wages as will not permit school boards and superintendents to fix reasonable minimum standards of qualifications for teachers because young men and women who expect to teach cannot afford to incur the expenses necessary to prepare themselves to meet the requirements of such standards. It should not be made an excuse for failing to increase the pay of teachers, as the pay in other professions is increased, in recognition of proved merit and in proportion to increasing ability gained through experience, continued study, and constant devotion to duty. Improved salaries benefit the schools and the nation.

Not for the sake of the teachers primarily, but that the schools may be made fully efficient; that children may be well taught; that the material wealth of State and Nation may be increased so that we may have the means of paying our debts, building our highways, caring for our unfortunates, and meeting other public expenses and at the same time have enough for all the people to live in comfort; that our democracy may

be preserved, purified, and made more effective; that scientific discovery, useful invention, and artistic expression may be promoted; that we may act well our part in the commonwealth of the world, we must pay such salaries as will bring into the schools as teachers men and women of the best native ability, men and women strong and well organized physically, mentally, and spiritually; men and women of the finest culture and the most thorough and comprehensive education, academic and professional, and so adjust their salaries as to enable them to hold all those who show themselves most capable and best fitted for the work. In this most important of all our enterprises we cannot afford to pay less.

Many able men have taught.

Our traditional policy of paying to young and inexperienced men and women with little or no question as to their professional preparation salaries almost as large as we pay to those who have had many years of successful experience had at least one merit. It brought into the schools large numbers of young men and women of unusual native ability and of strong character and sometimes such men and women having also good scholarship and fine culture, willing and eager to do the best they could while saving from money to start them in business or home making, or to enable them to prepare themselves for those professions for which adequate preparation is required and demanded. Many of the ablest men and women in all walks of life have been school teachers. A good-sized ex-teachers' association could be formed of members of any recent Congress of the United States. We have just nominated two ex-teachers as candidates for the Presidency. Unfortunately, however, most of these have remained as teachers in the schools only till they had begun to gain some little comprehension of their task and some little skill in executing it. But despite their lack of preparation and experience it was good for boys and girls to come in contact with them. From this contact many gained inspiration and purpose.

Other occupations pay better.

The time has now come when men and women of unusual native ability and strength of character can make more money in any of hundreds of occupations than they can in teaching. A few of them will teach while waiting to find themselves, or to make money for a start in business, or for paying for preparation for other work. They will accept employment which is at the same time more attractive and more remunerative. From now on schools will be taught (1) by unprepared and inexperienced young men and women of mediocre ability and less, while waiting for the maturity which is required for employment in the minor and more common occupations; (2) by the left overs of such men and women who have failed to find more attractive and remunerative employment elsewhere, but have not wholly failed as teachers; or (3) by men and women of better native ability, stronger character, more thorough education, and the professional preparation which will enable them to succeed to such an extent that they may be induced by the payment of adequate wages to continue to serve their country in a high and valuable way as teachers.

This is the real crisis in education. We have come to the parting of the ways. Which shall we accept? Makeshift teachers of the first two classes we may continue to get in sufficient numbers by paying salaries relatively as large as those paid in 1914. To have the same relative value and purchasing power as salaries paid in 1913-14, the present salaries and salaries for some years to come must be approximately twice as large as they were then.

We must have strong teachers. For teachers of the third class—and we should be satisfied with no

other—we must pay salaries larger relatively than we have paid at any time in the past, and must adopt a policy which will give such recognition to teachers of unusual ability as will hold them in the service of the schools against the temptation of better pay elsewhere. Temporary increase in pay of teachers will not be sufficient. There must be guaranty of good wages in the years to come as will induce young men and women of such native ability and character as good teachers can be made of to accept teaching as a profession and take the time and spend the money necessary to prepare themselves for it. The demand for professional preparation and continued service, coupled with inadequate pay, can only result in supplying the schools with teachers of small caliber, unfit to become the inspirers and guides and educators of those who are to make up the citizenry of the great democratic Republic, solve the problems, and do the work of the new era. Such teachers are not fit seed corn for the new harvest to which we should and do look forward.

For such teachers as we would have in our schools, what may be considered adequate pay? The answer is very easy and short. Such pay as may be necessary to get and keep them. In a conference of the leaders of national civic and patriotic societies which met recently at my request in Washington it was agreed that to be considered adequate the wages of teachers should be as much as men and women of equal native ability, education, special preparation and experience receive for other work requiring as much time, energy, and devotion, and involving approximately as much responsibility.

Just how much this will mean in dollars and cents in any community, I do not know. To determine the amount in any State, city, or country district will require a careful and comprehensive study. But it can quite easily be arrived at approximately, at least, for the country at large.

Average salary should be \$2,000.

The average wealth production of the adult worker of the United States is not far from \$1,250 a year—probably somewhat more. The average for men and women of ability, preparation, and industry of such teachers as we are talking about cannot be less than \$2,000; it is probably nearer three or four or five thousand dollars. But in view of the fact that teaching is by its very nature an altruistic calling, and also because it may reasonably be supposed that the purchasing power of the dollar will increase considerably within the next few years and the cost of living as measured in dollars relatively decrease, let us agree on \$2,000 as an average salary for teachers in the elementary and secondary schools in the United States. This is three times as much as the average for the year 1917-18 and more than 150 per cent above the average for the year 1919-20.

If the pay to beginners is so fixed

that the average for all teachers in the first year in urban and rural elementary schools and high schools is \$1,200, this will allow other salaries of \$2,500, \$3,000, \$3,500, and \$4,000. Salaries of \$5,000 or more may be held out as rare prizes for those who have gained experience and have proven their worth and who are willing and able to pay the price of such great and fine service as is recognized by unusual rewards in other professions.

The money can be raised.

Can we pay such salaries? With such proper and useful economies, as may be easily brought about, including consolidation of small rural schools and the adoption of a well arranged work-study-play plan in the city schools, the total number of teachers in the public elementary and secondary schools of the United States need not exceed 750,000 within the next five or ten years. At an average wage of \$2,000, it will take a billion and a half dollars to pay 750,000 teachers. Increase this by 50 per cent—a liberal amount—to pay for administration, supervision, buildings, equipment, and supplies, and we have a total of two and a half billions and only \$140,000,000,000 quarter billions—a quarter of a billion short of Spaulding's two and a more than the amount the Department of Labor reports that we paid last year for tobacco in its various forms. Our part in the World War, in which we fought for freedom and democracy, cost us not less than fifty billions of dollars all told. At 5 per cent the annual interest on this amount is two and a half billion dollars. Without education there can be neither freedom nor democracy. Unless we educate all the people in such a way as to enable them to possess these in fullest measure we shall have spent our money for naught and the men who sleep in France and Belgium shall have died in vain.

Can we pay the debt and pay in like proportion for education? The answer is we cannot well do the one without the other. Our power to produce and to pay will and must depend on the health, knowledge, skill, purpose, and will of the people, that is, on their education.

How much can we afford to pay for education? Since education is a factor which cannot be eliminated from the wealth-producing power of the people and since all wealth depends on education, we can as a people afford to increase our appropriations for education until the increase in cost becomes more than the increase in the productive power which comes through education. No people have ever yet found the limit.

Will the people pay? The wealth is theirs, the children are theirs, the schools are their agents, owned and supported for the education of their children and for the attainment of all that this means and can be made to mean for their own happiness, for the individual welfare of their children, for the production of material wealth, for the individual and common good, for the public welfare, for civic righteousness and social purity, for strength and safety of State and Nation, and for all that patriotism means and all that supports life and makes life worth living. I have faith to believe that when the people are made to understand this they will respond. They have never failed. They will not fail now.

## Lihue Hotel Bedecked With Holiday Novelties

A very attractive display of cards, books, leather goods and Holiday novelties is making the Lihue Hotel look like a party from November 2nd to 5th.

The occasion is the visit of Miss Morrison who has brought a splendid selection of Holiday Goods from the Christmas stocks of the Hawaiian News and Thrums, Ltd. The friends and patrons of these two popular Honolulu firms—now consolidated—will be pleased to know that Miss Morrison has decided to give them her personal assistance this year in making their Christmas selections.

The public is invited to inspect these beautiful novelties from Tuesday to Friday.—Adv't.

## Bring in Your Car

For the first time in several months we have caught up with our shop work, due to the fact that we have added two first class mechanics to our staff and we have also completed assembling the last shipment of Ford Cars.

We will receive another large shipment of Fords on the November Lurline, but until that time we will be able to take care of more than the usual amount of outside repairs.

Remember that your car should be oiled and greased and all the little squeaks and rattles taken out every thousand miles, as well as a thorough inspection for worn or defective parts. This can be done at small expense and means a great saving in depreciation and will prevent future expensive and unnecessary repairs.

BRING IN YOUR CAR

#### TEACHERS' ASSOCIATION HOLDS MEETING

(Continued from Page 1)  
 Mr. Page urged the teachers to form Parent Teachers Associations in all communities. All enjoyed this lecture and felt the need of it.

Mr. Grinnell gave a short talk, withdrawing his paper on "Child Study", as Dr. Hoag had spoken so fully, but the Chair, knowing that the teachers were anxious to hear Mr. Grinnell, urged the reading of it. This was greatly enjoyed. Mr. Grinnell gave the association a rare treat in showing the flesh eating plant from Waialeale. This is a rare plant in the world's growth so there was a general rush after the meeting to observe it.

Mr. Sessions moved that a vote of thanks be extended the ladies of Lihue for the splendid lunch served was seconded and carried.

Mr. Cooley set Jan. 16th for the next Principals' meeting to be held at Koloa at 2 o'clock in the afternoon.

Mrs. Bowen's motion to thank Dr. Hoag for his talk was seconded and carried.

Mr. Brodie's motion was seconded and carried which was a resolution from the Association to the Supt. of Public Instruction that a Mental Expert be appointed for the schools of this Territory and that the resolution be sent to the Legislature by the Supt. The Chair called for "Aloha Oe" which was lead by Mrs. Louise Sheldon, and sung by the Association.

Smiles on the faces of the guests at the Lihue Hotel register great satisfaction with the new regime in the Hotel dining room.

At last we have a real first class dining room on Kauai and it may easily be expected that it will be a popular place for people to come from all parts of the Island. This is not an advertisement, but merely the expression of the permanent hotel guests.

#### ATTRACTIVE DISPLAY OF DRAPERIES

M. F. Callisto, of the Bailey Furniture Co., Honolulu, who has been furnishing the H. D. Sloggett home with new draperies, has an extensive display of the latest draperies at Lihue Store. The public is cordially invited to call and inspect same. The draperies will be on display until Saturday afternoon, Sept. 6th.—Adv.

#### TO ALL FREEMASONS ON KAUAI

You are invited to attend a meeting on Monday, November 8th, at 7:30 P. M., at the Lihue Court House, to arrange for a Banquet Meeting to be held some time in December. 2t
