FORENSIC TREAT IN CIRCUIT COURT

Judge Humphreys Gives
a Long and Brilliant
Oral Decision.

AN INSIDE VIEW OF THE LAW'S DELAYS

Members of Bar Put In a Word—
Judge Davis Makes Some Pep-
pery Remarks on the
Former Regime.

A more brilliant array of legal talent was never seen in a Hawaiian court room than the assemblage at the opening of the Circuit Court this morning. Practically the entire bar was present. It included Attorney Generals of many regimes and many members of the higher judiciary of the present and past. Judge Estee of the United States District Court was there. So was Dr. C. B. Wood, president of the Board of Health, summoned as a witness in the first Chinatown fire insurance case. Judges Humphreys and Silliman sat on the bench. The large attendance of lawyers was for the calling of the jury calendar. There was a forensic treat in store for the assemblage which was probably unexpected.

Judge Humphreys delivered an oral decision on the motion of Robertson & Wilder to reinstate on the calendar five appeal cases from the Koolauoko District Court, which had been dismissed by the Court for non-appearance when called up for hearing. The Judge spoke without notes for nearly half an hour, quoting facts and authorities on the merits of the motion and literature on the question of the calendar's congestion. Stenographer Case was more to be pitied than the lawyers whose wishes were disappointed, as Judge Humphreys is a rapid speaker.

The facts relating to the dismissal of the cases were reviewed, the Court claiming that if there had been misapprehension as to when the cases were to be called it was not to blame. Upon Mr. Robertson's statement by affidavit that he was familiar with the facts and law of the case, that the defendants had a good defense and would suffer injustice from not having their cases heard, the Court held that this last was but "a conclusion of law." Authorities were quoted to show that the facts constituting the defense should have been related in sufficient detail to guide the Court. Regarding the matter of distance of residence of the parties and witnesses, the Court said a telephone message would have sufficed to give them timely notice. There was nothing on the records to show that, although these appeals had been pending one or more years, even subpoenas had been served on witnesses.

Judge Humphreys discussed the congested state of the calendar. Part of the causes thereof had been made evident to him while a member of the bar. Merchants losing patience with slow paying customers would bring suit for the debts in the District Court judgment being found against the debtor he would appeal to the Circuit Court, trusting to the law's delays to stave off payment for perhaps several years. Thus the calendar had become congested with a mass of dead wood. Very few fresh cases comparatively, were on the present term calendar. Some of the cases were from one to six years old. The Court had decided one case at this term which began in the year 1891.

If a condition were not to become chronic such as had once made a byword of the British chancery court, something had to be done to rid the calendar of its accumulation of dead wood. Judge Humphreys here read the brilliant description of British chancery by Charles Dickens. He quoted authorities to show that when a case was properly dismissed for non-appearance of the appellant, the Court did not have jurisdiction to reinstate the case. In the absence of Hawaiian statutory direction, there was technically but one day for the appearance of parties. That was the first day of the term according to the common law. The parties and witnesses must make an appearance that day, and be ready for trial at any time during the term.

The Court found the affidavit supporting the motion insufficient in law, and overruled the motion to reinstate the case.

Mr. Robertson noted exceptions to the ruling.

W. O. Smith by leave addressed the Court. He wanted to promote a friendly understanding between the bench

and bar. The bar could hardly be held altogether responsible for the congestion of business. Within the past few years there had been unforeseen interruptions to the regular occupancy of the bench. There were terms, also, when a very few cases took so long for trial that they crowded out the greater part of the calendar. Then there was the recent plague visitation, which had seriously interfered with the business of the courts.

Geo. A. Davis also desired to make a few observations. From his having presided in that Court, during a short time in "the dying days of the Dole oligarchy," he claimed to have special knowledge of the situation. From his experience at the bar prior to that time he declared in effect that predecessors of the present Court had not always acted with impartiality in assigning cases for trial. There were three or four attorneys who could obtain precedence to which they were not entitled. Over and over again he had been denied a hearing of his cases when they were fully entitled to the right of way. Mr. Davis concluded by saying he strongly supported the position just taken by the Court.

Sidney M. Ballou asked a question regarding law partnerships, putting a hypothesis as to one member of a firm having a case before one judge when another of the firm's cases, which happened to be in charge of the same member, was called for trial before another judge. Would they be compelled to go to trial with the latter case right then? Judge Humphreys answered that where firms took more practice than they could well handle, they should either procure more help or be content with such business as they could overtake. The courts were established for the benefit of the public.

The calling of the jury calendar then began.

At the Orpheum.

The brightest first part the colored company has given us so far is in this week's bill. All the songs are catchy, in fact a better selection could not have been made. The quartet arrangement of "Because" while surprising is disappointing on account of the utter disregard of the original theme.

Jerry Mills' trip to "Kyoko" was one of the hits of the evening. Her rendition of Uncle Tom's Cabin in five minutes will make you laugh for half an hour. It is positively one of the funniest little travesties ever given and yet Mr. Wise shows that he has the ability to play a legitimate Uncle Tom that any performer would be proud of.

John Pamplon, the Nubian Prince, seems to have an inexhaustible repertoire of juggling tricks, some of which might cause even a darker skinned person than Master Onions to turn white.

There are a number of individual turns well worth the price of admission alone.

ONE-FIFTH SURRENDERED.

London, July 31.—A dispatch received at the War Office today from Lord Roberts materially modifies yesterday's statement of the surrender of 5,000 rebels under Generals Prinsloo. It now appears that Generals Prinsloo, Villiers and Crowther surrendered with 986 men, 1,432 horses, 955 rifles and a Krupp 9-pounder. Some of the leaders in more distant parts of the hills hesitate to come in on the plea that they are independent of General Prinsloo. Lord Roberts adds that he has directed General Hunter to resume hostilities forthwith and to listen to no excuses.

Look Out for Squalls.

The Pilot Chart for August says: Occasional cyclonic storms of no great intensity may be encountered between the parallels of 19° N. and 20° N. along the sailing route from San Francisco to the line and return. Heavy thunderstorms are also likely to occur along the coast of Mexico and Central America and in the doldrums, or region between the trades. Squally weather may be expected in the vicinity of the Hawaiian Islands.

Lawless Continued.

Lawless, upon being released from the police station yesterday went off on another spree, notwithstanding the lecture of Judge Wilcox in the forenoon when he was up on three charges of drunkenness. On this forenoon's charge Lawless was fined \$2 and costs.

TO MAKE SHOES FOR THIS MARKET

Henry Hill on the Way to
Honolulu With New
Scheme.

BELIEVES GOOD FIELD FOR MANUFACTURING HERE

Long Associated With Large American
Shoe Makers in Lynn—W. R.
Castle Gives Favorable
Mention.

Lynn, Mass., July 24.—Lynn men are deeply interested at an effort shortly to be made to develop the shoe industry along American lines in the Sandwich Islands.

Wednesday noon Henry Hill, former chairman of the Democratic Committee, will leave Lynn bound for Honolulu, where he will inaugurate what promises to be an important business enterprise. Soon after the Republican convention at Philadelphia, Mr. Hill had a long interview with W. R. Castle.

They discussed the shoe business and conditions existing there. Mr. Castle was strongly of the opinion that the time was ripe for the establishment of an American shoe factory in Honolulu. If the right man could be obtained to furnish the expert knowledge of the business required, Mr. Castle argued that with a population of 150,000, Hawaii offered a good market for footwear. The island is so situated that Honolulu is practically in close relation with almost all of the Pacific oceans, whose islands contain millions of people who are fast learning to enjoy the benefits of advancing civilization.

One of the things to which they turn first as a luxury is the shoe. Once used, footwear becomes a necessity, and Mr. Castle informs Mr. Hill that already there is a demand for footwear, which can be vastly increased under the judicious business methods. So far as the manufacture is concerned, day labor can be obtained for a dollar to a dollar and a half. Chinese and Japanese there naturally seek factory work and, with very little teaching, speedily acquire the intricate details of manufacturing industries.

Mr. Hill has had an experience in the shoe business that eminently fits him to teach the various processes through which the material passes in the transformation from the hide to the article.

DELAY OF ALLIED TROOPS CAUSES SHARP CRITICISM

(Copyright, The Associated Press.)

Tien Tsin, Wednesday, July 25, via Shanghai, Thursday, Aug. 2.—Pending the order to advance to relief of the legation at Peking, the events at the Chinese capital are seemingly but slightly regarded. High officers are entertaining nightly at elaborate dinners with military bands playing operatic airs. Foreign residents and friends of the besieged in Peking who came to Tien Tsin to await news or to accompany the expedition are intensely dissatisfied with the progress of operations. They accuse the army of indifference and of magnifying the difficulties to be encountered in reaching Peking. President Tenney of the Tien Tsin University, who has volunteered to guide the army to Peking, said today:

"This business is not progressing in accordance with Anglo-Saxon traditions. Twenty thousand soldiers are staying here while women and children of their own race are starving and awaiting massacre eighty miles away. Military and naval officers meanwhile wasting time in bickering over petty politics, is a sorry spectacle. It will be a large blot upon the reputation of every commanding officer here if the white people in Peking are allowed to perish without a desperate effort to save them."

President Tenney and others who are occupied with the conditions think there were sufficient troops here to push forward and pursue the Chinese after the fall of the native city of Tien Tsin. That the position of the legation demand that the army take extraordinary precautions by securing the surrounding country and commanding animals and wagon and that boats sufficient for purpose of transportation might be improvised, is the prevailing opinion of civilians and many officers, notably Japanese and

foot covering. Another advantage is found in the abundance of goats in the Territory and some tanning is already being carried on. With the general movement toward the Orient in commerce, Hawaii is becoming a ready place on the voyages, and shipping from South American, Californian, Chinese and Japanese ports is constantly touching there.

In entering upon the undertaking Mr. Hill is assured of the hearty cooperation of Mr. Castle, who suggested that Mr. Hill obtain some references that might serve to give confidence to business men of Hawaii, and the following were secured: Letters from such people as Lieut.-Gov. John L. Bates, Gen. A. P. Martin, Chairman of the Boston Water Board, in whose factory in Hudson Mr. Hill was superintendent for five years, Mark J. Worthington, for whom Mr. Hill has been superintendent, Maurice V. Bresnahan and Charles E. Harwood, who, in the strongest terms, expresses his confidence in Mr. Hill's skill in the shoe-making line. Walter O. Faulkner, who, from 1886 to 1888, was superintendent of the government's electric light plant at Honolulu, furnished a strong recommendation, as well as personal letters of introduction and commendation to well known Hawaiians.

On his trip Mr. Hill will stop for a short time at San Francisco and then continue to Honolulu. He has already established relations with some of the best known shoe supply firms and leather establishments in Lynn and manufacturers of the latest type of shoe machinery. It is his intention to erect and equip a factory on thoroughly up to date American lines, turning out a shoe made with special reference to the conditions found to prevail in the islands in the Pacific ocean.

Mr. Hill was born in Leicester, England, and for the past 25 years has been connected with the shoe industry in Massachusetts. For the past five years he has been a resident of Lynn, and has been superintendent of the Solid Shoe Co., for Mark J. Worthington. Before coming to Lynn he was superintendent for A. P. Martin & Co. in Hudson.

Mr. Hill is well known in Lynn and has been prominently connected with several of the reform movements, in which he has put the same energy which has characterized his life. He is a member of the Chestnut Street Congregational church, and is a working member of several of the temperance organizations. He was quite prominent in the "Good Government" movement of several years ago, and was one of the trusted advisers of the managers. He will carry with him the best wishes of all of his large acquaintance, and news from his new venture will be awaited with interest.

Mr. Hill has arranged to take a line of sample shoes from Lynn to Honolulu, and will have some of Tufts & Friedman's men's goods, samples of A. E. Little & Co.'s socks, and of Seymour & Jackson's women's goods.

Americans, confirm this view. The

comment is made that European officers are too attached to book theories to utilize resources of the country and that they would rather stay in Tien Tsin according to rules than to start for Peking without a perfect equipment.

General Dorward of the British forces, and other high officers, take an optimistic view of conditions at Peking, saying they think the legations will manage to hold out.

On the surface the best of feeling prevails among officers and soldiers of the several nations represented here. All are fraternizing, but the lack of organization and the supreme commander handicap progress. While people at Tien Tsin are entirely ignorant of diplomatic negotiations abroad concerning Chinese affairs, the lack of harmony here among the representatives of the powers hinders vigorous action.

The Japanese are giving a splendid exhibition of organization. Their whole machine moves like clockwork. There have been forwarded from Japan small boats or lighters for moving supplies and stores, and every regiment is landed quickly and without confusion and started for Tien Tsin within a few hours after its transport has been anchored in the harbor. The management of the Japanese army and the bravery, spirit and intelligence of the Japanese troops are a revelation that commands the respect and admiration of all foreign officers.

The heat is intense. The temperature reached 100 degrees during the week and yesterday it was 104.

Disregard of all sanitary regulations by certain troops is a serious menace. The streets are full of refuse and an insufferable stench pervades the town. The police and sanitary work compares unfavorably with the American work in the Philippines.

MAUI WANTS THE FEDERAL COURT

Attorney Geo. Hons a
Consultation with
Judge Estee.

ALIENS ARE WAITING FOR NATURALIZATION

The Judge Is Favorably Disposed But
Doubts His Jurisdiction and Con-
sults the Authorities at
Washington.

George Hons, the wide awake attorney, with Waikuku interests always possessing him propounded an interesting question to Judge M. M. Estee of the United States District Court. He has asked the eminent jurist if it is not practicable for him to go on circuit, as it were, for the holding of a session of the Federal Court at Waikuku for the benefit of the people of the island of Maui.

The attorney represented that it was very desirable, if not necessary, that the Court should visit Maui. For one thing, there was a large number of aliens belonging to a good set of people, on Maui who wished to become American citizens. In many cases it would be extremely difficult for these persons to come up to the capital.

Judge Estee stated that he was willing, ready and anxious to hold court at the principal towns of the other islands. His jurisdiction in the matter, however, was doubtful. He would refer the question to the Government at Washington, in the meantime submitting it to District Attorney Baird for looking up the law upon it.

Mr. Hons was advised by the Judge to have his request backed by a petition from the people of Maui. He has accordingly written to H. P. Baldwin advising him to that effect. Mr. Hons is highly gratified at the cordial manner in which Judge Estee has received his proposal.

WILL VISIT HAWAII.

Tacoma, July 25.—Judge Johnson Nickens, former mayor of Tacoma, will be a passenger on the ship John Currier, now loading at Seattle for the Hawaiian Islands. The voyage will be taken as an outing for Mrs. Nickens, who has been in poor health for two months past, and a sea voyage has been suggested by her physicians. Capt. Lawrence of the John Currier, is an old friend of Judge Nickens. Judge and Mrs. Nickens will spend several weeks on the islands, where they have many friends, and return on the ship.

NEW AMERICAN CITIZENS

Judge Estee held a short session of the Federal Court this morning. The following aliens were naturalized: Axel F. Linda, Joe Batchelor, H. Bergersen, Geo. E. Thompson and Wm. C. Roe.

The Court adjourned till 10 o'clock Monday morning.

TO ASCERTAIN VOTE.

Captain C. J. Campbell, one of Honolulu's good Democrats, leaves for Kauai in the Kauai this afternoon, his object being to make a canvass of that island to find the strength of the Democratic vote. Captain Campbell told a Bulletin reporter (in strict confidence) that he expected all kinds of success. He would capture the whole island.

Governor at Kailua.

When the Mauna Loa left Kailua, Governor Dole was in attendance at a luau at the home of Kaelemakule, one of the most prominent natives in the Kona district. The feast was given in honor of the Governor. It is understood that Mr. Dole's plans are first to go to the McGuire ranch at Huelo and from there to the ranch of Eben Low in the Waimea district.

PORTUGUESE LABORERS.

J. S. Low of Hind, Rolph & Co. was seen this afternoon in connection with the story in the San Francisco Examiner of the 3d inst. on the sending forth of forty Portuguese on the John G. North. He stated that these laborers were undoubtedly meant for Hawaii plantation, the property of the Hinds. The John G. North is bound for Honolulu and Mr. John Hind himself was in San Francisco at latest accounts. This, of course, explains away the "mystery" of which the Examiner tried to solve.

The vessel is owned by Hind, Rolph & Co. and Mr. Hind is sending the laborers. Why shouldn't the captain of the vessel bring the Portuguese to the islands?

DUNREGGAN IN PORT.

As stated in yesterday's extra of the Bulletin, the Dunreggan was safely hauled off the rocks at Diamond Head at eight bells yesterday afternoon, the Fearless and Elen hauling away at a great rate. She was towed in by the Fearless although the Elen tried to get the Fearless to let go. Captain Brokaw made himself very well understood when he sent his refusal over the intervening waves. The Dunreggan put up a pilot signal soon after getting free of the reef and Pilot Macaulay went aboard from the Elen. The vessel is now at the old fishmarket wharf. As soon as she has discharged her cargo, a survey will be held by the Board appointed yesterday to ascertain the extent of the damages.

As stated yesterday, she was making about four inches of water an hour. This comes from a springing of the rivets and not from any leak.

The question of salvage will be submitted to the proper parties later on for arbitration.

THE NEW DISPENSARY

Superintendent of Public Works McCandless says he has not been approached, since coming into office by any committee of the Board of Health with regard to the projected new building for a dispensary, morgue, etc. Possibly Governor Dole had been seen by the Board. Mr. McCandless is surprised to hear that the Board had received an oral report on the subject this week, as if the matter had been under negotiation between the Board and his department.

McGurn's Mitimus.

Albert McGurn is now at the police station awaiting the pleasure of the Marshal. The mitimus in his case is in the deputy sheriff's office. The Sheriff is commanded to keep McGurn in custody until the sum mentioned is paid. Albert has the fifteen dollars in his pocket but he is thinking whether or no he will pay it. He rather inclines toward the idea of paying as he interprets the language of the mitimus to mean that, even if he should go to jail for a hundred years, the money would still have to be paid.

Hongkong Maru Sighted.

The Hongkong Maru from China and Japan, was sighted at 12:25 p. m. She will probably not sail until tomorrow morning.

The steamer Eldsvold after a longer stay in port than was at first thought necessary, left early this afternoon. While taking one of the sailors aboard from the police station Captain Flint of the harbor police had quite a struggle. The sailor ended by going aboard peacefully. This was the fellow who threatened to "do up" the whole police force and any one else who might happen to come along.

To intending purchasers of rugs, we would state, that just before the change in tariff, we received a large assortment of **Japanese Rugs**.

By buying these rugs before the change, a saving of about fifty per cent (50%) was effected, which our customers are to profit by, as we do not intend, for the present, to increase the price of these rugs, but to sell them, while they last, at the old prices.

Under these conditions, a buyer, here, now, can buy these for much less than they are sold for on the mainland.

We have made a display of these rugs in our large central show window, where their beautiful designs and harmonious colorings are sure to attract attention.

FOR PRESIDENT.

WM. McKINLEY.

FOR VICE-PRESIDENT.

THEO. ROOSEVELT.

While the grand jury is engaged in straightening out all things of a public character, it might take up the question of officeholders not American citizens, who under the decision of the Attorney General are not eligible to office.

Ross Bryan having manipulated the Democratic convention now declares his intention of managing his own campaign. After the November election he will have plenty of time and material for writing another book entitled, "The Rise and Fall of a House."

The pioneer effort to establish a boot and shoe manufactory in Hawaii will attract universal interest among the business men, more particularly those enthusiasts who see future industrial safety in diversified industries. Honolulu should at least offer every inducement to aggressive financiers who are willing to take the initial trial step.

Murderous duplicity still epitomizes the horrors of the Chinese campaign. Although the legation members were alive at last accounts, it was through no fault of the Chinese government, and even now the barbaric horde in Peking stands ready to slaughter the foreigners should an advance be made for their relief. At the same time it appears that the capture of Tien Tzu was a large factor in putting the fear of humanity in the heart of the heathen. What wonder is it that the popular voice demands that the onward march of relief be not delayed.

LIBERAL GOVERNMENT.

Road board appointments by the Superintendent of Public Works give promise that the Territorial administration as rapidly as possible is putting the "one man one office" policy in force. In former days the district magistrate of Waiolu for instance was general pooh bah of the district, serving as chairman of the road board, school teacher and holding such other offices as might be on the list. Following the good Republican principle of distributing responsibilities and thereby doing away with centralization of power, Supt. McCandless has made the first break towards impressing citizens of the outside districts that they ought not to evade public duties and will have a proper representation on all administrative boards.

The old-time centralized system still obtains in other districts and in other departments. Having set the example the Superintendent of Public Works can undoubtedly be depended upon to continue the good work, thereby demonstrating to the people of the Territory that Republican administration means popular representation. Now let the other departments fall into line with the same broad-minded spirit. There are citizens enough in the Territory to fill all the offices though many of the positions are honorary.

DAVIS RETURN THANKS.

During the last days of the oligarchy I had the honor to preside over the Circuit Court of the First Circuit. I tried to do my duty. My record on the Bench and as a practitioner is at least secure from suspicion. Sultors, jurors and the commercial community have never attributed to me the conduct or character of adventurer, neither does the Governor of this Territory. I therefore return my thanks to the editor of the Pacific Commercial Advertiser for its editorial comment this morning.

Yours sincerely,

GEO. A. DAVIS.

Honolulu, Aug. 10, 1900.

Duty on Imports From Hawaii.

New York, July 27.—The Board of Classification of the United States General Appraisers today announced its decision in a test case regarding the right of the Government to assess merchandise imported from Hawaii and overruled the protest of the importers, W. H. Crossman & Bros., and affirmed the assessment of the duty by the Government. This decision covers the passage of a joint resolution of Congress of July 7, 1898, admitting Hawaii and the passage recently of the law declaring Hawaii United States territory. The status of Hawaii since it became a regular territory of the United States was not passed upon.

Humbert Buried in Rome.

Rome, August 1.—The Ministers have unanimously decided that the body of King Humbert shall rest in Rome. Fifteen thousand troops will pay the last honors.

Moanalua Is Scene Of Delightful Party

The reception at the country home of Mr. and Mrs. S. M. Damon, Moanalua, last night, in honor of Miss Alice Wall and Frederic C. Smith, was attended by a very large number of people. A conservative estimate placed this at a point between three and four hundred.

The grounds and home were beautifully decorated. The former were hung about with numbers of Japanese lanterns. The house was most attractive but the best decorations were to be seen in the dancing pavilion where hundreds of malle with ferns, palms and flowers scattered about, made an inviting place. This pavilion was brightly illuminated throughout by the new Transcendent Lights of the Washington Light Co., aggregating exactly 4500 candle power. These lights were also placed on the lawn and particularly at places where the refreshments were served.

Trains at 8 and 8:30 o'clock took the guests to Moanalua. Once at the Damon place, they were welcomed by Mr. and Mrs. Damon and Mrs. S. E. Damon and were then introduced to the two young people for whom the event had been arranged.

The night was a model one, the air cool and dancing a delight. On the lawn were many seats for the guests. Under an algeroba tree was a large bowl of lemonade kept constantly filled by waiters dressed in white. Refreshments were served at about 11 o'clock and the return to town was made on trains leaving Moanalua at midnight and a half an hour later.

It has been a long time since such a delightful event has been enjoyed by Honolulu society people. The beauty of the country home of Mr. and Mrs. Damon, the enchantment of the Hawaiian music and general atmosphere of hospitality, made it a pleasurable thing to contemplate. To the host and hostess go the sincere thanks of their guests for a royal good time. And to Miss Wall and Mr. Smith go congratulations as sincere and wishes for future happiness.

Labor for Hawaii From Porto Rico

San Juan, Porto Rico, August 2.—T. Alexander, the representative of the Hawaiian Planters' Association, who has been here for some time, sailed for New York yesterday. Mr. Alexander, who has traveled all over the island and persuaded many Porto Ricans to emigrate to Hawaii said that he believes they will prove good workmen and creditable citizens of Hawaii.

He left local agents with power to contract with emigrants. His plans, however, seem to be undeveloped, as transportation for those whom he has engaged has not been arranged.

BRITISH AT STANDSTILL

London, July 30, 3:45 a. m.—Operations in South Africa have again arrived at a sort of standstill. Pretoria telegrams announce that Lord Roberts has returned there with his staff, apparently finding it useless to spend his energies against a constantly retreating foe.

Commandant General Botha, with several thousand Boers, like General Christian De Wet, has thus far eluded General Roberts' grasp.

General Delarey is besieging General Baden-Powell at Rustenburg, in western Transvaal. The relief forces sent to General Baden-Powell's assistance, under Colonel Hickman, proved too weak to be effective and was obliged to fall back on Pretoria.

The operations have been hampered with bad weather, thunderstorms and deluges of rain, accompanied by intense cold. Lieutenant MacLaren and three Highlanders have died of exposure as well as many horses and cattle.

A dispatch to the Daily Telegraph from Lourenco Marques says President Kruger is now at Watervalende. He adds that a fight is expected and, if the Boers are beaten President Kruger will trek through Swaziland to Delagoa Bay and take a steamer for Europe.

HAWAII'S RAILWAY POST.

Washington, July 27.—The Post-office Department has announced the establishment of the first railway mail service in Hawaii. The line runs around the island of Oahu, carrying the mails between Honolulu and Kahuku, via Aiea, Pearl City, Waipahu, Honolulu, Waianae and Waiolu, a distance of seventy-two miles each way. Mails are carried six times a week or as much oftener as trains may run. The service began June 14th.

New King and Queen.

Monza, Aug. 1.—The King and Queen of Italy arrived here this evening. In the midst of a touching demonstration of welcome to King Victor Emmanuel two strangers cried "Viva l'Anarchia." They were arrested and narrowly escaped lynching at the hands of the furious crowd.

An Elberfeld dispatch announces the arrest there of Giuseppe Bernardi, accused of declaring that Emperor William's turn to be assassinated would come next. He denied the charge, but is believed to be an anarchist.

Avery Sues King
For \$5000 Damages

Eugene Avery has brought suit against W. C. King in the District Court of the United States, claiming \$5000 damages for trespasses. These consist of his having been arrested and, to regain his liberty, required to deposit \$200 bail, on a charge of embezzlement preferred against him by defendant.

And, by reason of such proceedings, "the plaintiff has been injured in his reputation and suffered great pain of body and mind and was prevented from attending to his business and in proceeding to his home in the said city of San Francisco, in the State of California, the said plaintiff having made all arrangements and having purchased a ticket to proceed on board the steamship Australia from the port of Honolulu to his said home in the city of San Francisco."

A third ground of damages is the counsel fee incurred by plaintiff for defending himself from the charge and obtaining his release from imprisonment.

As previously reported, Avery was discharged in the District Court. Davis & Gear are his attorneys.

This is the first case at law brought in the Federal Court of the Territory of Hawaii.

Electric Railway.

Contracts have been let for material, and the work construction, equipping and installation placed in the hands of a competent electrical engineer to be fully completed by June 1st. Having an independent power plant we are prepared to furnish electric power for lighting, heating and other purposes, to our home builders at most reasonable rates.

As Promised.

Our reservoirs are now completed and water mains laid so as to supply each lot. Permits for making water connections will be granted on application.

An inspection of the attractive homes now building, or the names of purchasers of lots, will convince anyone that PACIFIC HEIGHTS is the choicest and most select of all the residence sites of Honolulu.

Ministers Still Live And Advance Rumored

Powers Doubt Ability of Combined Force to
Combat Chinese Hordes --- Duplicity of
Empress Causes Demand for Speedy
Retribution --- Conger Despatch
Unquestionably Genuine.

New York, Aug. 3.—A special to the
Tribune from London says:

There are fresh rumors of an advance
upon Peking, but these are probably
premature. The outposts have been ex-
tended as reinforcements have been
received at Tien Tsin and there may
have been a reconnaissance in force,
but it is not yet clear that the allied
army is prepared to undertake the re-
sponsibility of a march upon the capital,
or that it has the equipment re-
quired for a rapid and successful
movement.

It is doubtful if a column more than
20,000 strong can be spared for this ex-
pedition after adequate provision has
been made for the defense of Tien Tsin
and Taku, and this would not be suffi-
cient to effect the reconquest of the leg-
ations. On this account military men
are disposed to believe that the col-
umn will be held back until it is fully
equipped for the work.

There is no lack of guns, but there
are inadequate supplies of ammunition
and the transport service is defective.
Veterans of the Chinese service as-
sert that the column ought not to start
until there is a reasonable chance for
an irresistible movement toward Pe-
king, for the legations will be in dan-
ger from the moment when the depar-
ture of the battalions is announced.
It is not believed that the relief col-
umn can reach Peking even by forced
marches in less than a week.

There has been a marked change of
opinion among members of Parliament
within twenty-four hours respecting
the expediency of a rapid march on
Peking, and this is the result of Dr.
Morrison's clear account of the dupli-
city of the Chinese Government. It is
now known that the attacks upon the
legations was organized by the Govern-
ment and persevered in until Tien Tsin
was captured and that the Imperial
soldiers instead of protecting the for-
eigners have treacherously assailed them.

Chinese mendacity has overshot the
mark. It has convinced well informed
men here that the Boxer movement has
been transformed into an official agen-
cy and that there has been no at-
tempt on the part of the Empress to
intervene on behalf of the foreigners.
Public opinion has been stiffened by
the evidence that the Chinese carna-
lilla is seeking to make use of the for-
eigners as hostages and to dictate
terms of settlement with its hands on
the throats of the women and children
and there is a tone of inflexible deter-
mination in the newspaper leaders and
the declarations of members of Parlia-
ment that the legations must first be
rescued and then there will be time
for talking about friendly indemnity
and a modus vivendi with Europe,
American and Japan. This is the bur-
den of every dispatch which comes
from continental capitals.

Mr. Broderick's speech in the House
of Commons was the most definite ex-
planation of British policy yet offered
from the Foreign office.

Another brigade has been ordered
from India and Shanghai will be ade-
quately protected. The rescue of the
legations will be the first urgent work
undertaken in connection with the
powers. When that object has been
accomplished the maintenance of the
integrity of China will be the objective
point of British diplomacy and noth-
ing will be done to precipitate the par-
tition of the empire. Mr. Broderick
does not explain what measures will
be adopted to bring about the retire-
ment of the Russians and Japanese
when Peking has been occupied.

Recent dispatches were not decisive
in any quarter. There were fresh ru-
mors of the massacre of missionaries,
detailed explanations of Admiral Sey-
mour's work on the Yang Tse river,
reports of Russian embassments on
the north and belated accounts of the
defense of the legations, with definite
information respecting the fine work
of the American marines in seizing and
holding a portion of the great wall
and thereby securing four legations
against an attack from a commanding
position.

A prominent member of the diplo-
matic corps states that there is much
incredulity among the embassies here
respecting the genuineness of dis-
patches purporting to come from the
besieged legations, and that suspicious
are entertained that some of them
have been forged. This view is not
shared by officials here. They accept
without reserve the accounts of the
siege given by Sir Claude MacDonald
and Dr. Morrison.

**Relief Force Delay
Worries Officials**

(From Thursday's Extra.)
WASHINGTON, Aug. 3.—Bad news
came this morning from Admiral Re-
my in a report indicating that serious

resistance had developed to the pro-
gress of the Peking relief column. His
advice confirms the opinion of the ex-
perts here that the fights reported
near Tientsin being nothing more
than the result of reconnaissance. Still,
a scouting party 800 strong is no in-
considerable force, and the fact that
the Japanese suffered severely is re-
garded here as proof positive that the
relief column will have some lively
fighting ahead.

A feeling akin to indignation was
expressed here by the press report of
the Tientsin of the apparent indif-
ference of the commanders to the criti-
cal state of the legations at Peking.
The War Department officials are
satisfied that Chaffee, at least, is
blameless for he undoubtedly is exer-
cising all of his influence with the
other commanders to get the column
in motion. Meanwhile the sharp check
received by the Japanese scouting party
is an indication of what he might
experience should he take the desper-
ate chance of pushing forward alone.

Secretary Hay and Minister Wu ad-
ded much to their credit today when a
dispatch came from United States Con-
sul Fowler at Chefoo, apparently re-
moving all doubt as to the authenti-
city of the famous Conger cipher dis-
patch.

Is Minister Wu Ready to Leave

(From Thursday's Extra.)

WASHINGTON, Aug. 3.—The ab-
sence of the Chinese Minister from the
State Department yesterday, in spite
of the fact that it was diplomatic day,
taken in conjunction with the exceed-
ingly sharp note of Secretary Hay
which the State Department has made
public, was the subject of speculation.
Minister Wu explained his absence on
the ground that he had no news to
communicate and his appearance at the
department this morning was awaited
with considerable interest. The Min-
ister came in the course of the morn-
ing, imperturbable as usual. He an-
nounced that he had absolutely no
news from China and had come to the
department simply to see if Secretary
Hay was any better off. His interview
with the Secretary was exceedingly
brief, the shortest in fact in the whole
course of the present trouble.

Advance on Peking Is Sure Death

(From Thursday's Extra.)

SHANGHAI, Aug. 2.—Lin Kun Yi,
Viceroy of Nanking and Sheng, ad-
ministrator of telegraphs and rail-
ways and Taotai of Shanghai, have
both declared officially that the for-
eign Ministers are held by the Chi-
nese Government as hostages and that
if the allies march to Peking they
will be killed.

It is stated that only the Russians
and Japanese, 23,000 strong, are start-
ing for Peking.

Another Chinese exodus from Shang-
hai has commenced. It was caused by
disquieting rumors published in the
native and some foreign newspapers.

CONGER DESPATCH AUTHENTIC

(From Thursday's Extra.)

WASHINGTON, Aug. 3.—A Cabinet
meeting was held today which lasted
about an hour. The Remey despatch
telling of the check to the Japanese
scouting party was read but was not
considered as of serious importance as
affecting the general advance. It was
stated that the Government has no as-
surance that a general advance against
Peking has been begun by the Ameri-
can or military contingent of the inter-
national force.

The Fowler despatch was also dis-
cussed and one of the members said
that it was accepted as putting an end
to any possible controversy as to the
authenticity of the original Conger
cipher despatch.

The President's plans have not been
changed by any developments since
his return to Washington and he will
start back to Canton tonight as pre-
viously arranged.

Meade's Day to Sail.

S. F., Aug. 1.—The Army transport Meade is scheduled to sail at noon today for Nagasaki, en route to China or Manila, but on account of the difficulties occasioned by getting troops and their baggage on board promptly she may be delayed. The transport, however, will sail as soon after noon today as possible. She will take, in addition to a number of cabin passengers, the Third Battalion of the Fifteenth Infantry, consisting of companies I, K, L and M, and Companies B, G, H and I of the Third Cavalry. Three representatives of the Associated Press will also sail on the Meade, and Professor C. C. Plehn and wife will also be among the passengers. Professor Plehn was recently appointed by the Philippine Commission to take the census of the Philippines.

Hancock Finally Departs.

S. F., July 30.—The transport Hancock sailed for China, via Nagasaki, yesterday morning at 8:20 o'clock, after lying in the stream off Folsom street since midnight Saturday. The transport was delayed in leaving the dock by the failure of many of the marines to return from shore leave on time and by a fight that occurred between two of them. She has aboard batteries O, D and I of the Third Artillery, 500 marines and 300 recruits. In addition to the troops the transport will carry a large amount of rations, clothing and medical supplies, and is expected to reach her destination by the middle of August.
