SENATORS
WILL HEAR
MANY PLEASHilo Visit to Be
Made Next
Week.SCHEDULE OF
DAYS' HEARINGSAll Sessions of Commission Will
Be Open to Citizens Who
Are Interested.

All of this week and two full days of next week will the commission of Senators of the United States continue their investigations here and then, leaving on Wednesday, they will proceed to Hilo to continue their work.

This was decided upon last evening after the first day's hearings had given a line upon what will be brought before the body. While there was little work done which appears, the members of the commission heard some statements and visited the Quarantine island, had a long talk with the Governor and scheduled its work for today.

The first hour this morning will be given over to a statement by Governor Dole, and after that Land Commissioner Boyd will have time. A. S. Humphreys will argue the claim of the former Queen for the crown lands at 11 o'clock, and the commission will devote any portion of the day remaining to the discussion of various matters that have been suggested. Among these is the memorial of the Builders and Traders' Exchange.

Senator Mitchell said last evening: "Our examinations here are open to the press and public. There will be no star chamber sessions. On the contrary, everything will be open and above board. Any citizen wishing to learn what we are doing will be welcome at our rooms."

Committees of the Chamber of Commerce, the Planters' Association and the Merchants' Association will wait upon the commission at once and proffer their services for the collection of information if needed and for any other purpose for which they may be needed by the commission during its stay.

It was past ten o'clock when the commission got down to work. There were any number of introductions to be made and the members of the party met several of the persons who are to appear before them later and as well heard the statement of Land Commissioner Boyd.

The work of the body will be done largely in the rooms of the Naval Station formerly devoted to the uses of the engineer, on the mauka side of the building. These contain desks and chairs and the one opening upon the lanai will be used as the main meeting room of the commission. In fact, however, there will be devoted to the uses of the commission the principal portion of the upper story of the structure, for there will be waiting rooms made of the annex and the callers will have plenty of space to move about while waiting for their turn at the witness chair.

The session of the commission yesterday was devoted in large part to going over the ground preparatory to framing a general scheme of hearings. The commission first went into executive session and heard a statement considered what should be the plan of holding the hearings in the future. It was agreed that there should be nothing done until there had been a number of subjects opened for their discussion and they at once drafted a letter to Governor Dole and Secretary Cooper, which is as follows:

Sir:—The sub-committee of the Senate Commission on Pacific Islands and Porto Rico, commissioned to investigate the general conditions of the Islands of Hawaii and the administration of affairs thereof, is now in session at the rooms of the Naval Station in this city and before proceeding with the general investigations have deemed it proper that you as Governor of the Territory should have the privilege of presenting any statement you might deem proper to make to the committee bearing upon the general question of legislation in the interests of the people and government of the Islands.

We shall be glad to hear from you if convenient and agreeable to you either in writing or otherwise at our

rooms on tomorrow, Tuesday, September 9, at 10 o'clock a. m.

We are, with great respect,
JOHN H. MITCHELL,
J. R. BURTON,
A. G. POSTER.

Several memorials were received. One letter from Bishop & Company calls attention to the fact that the silver currency of Hawaii has not yet been redeemed by the Federal Government and another from the Builders and Traders' Exchange, going into several subjects, all affecting the present condition of the Territory and setting forth the various subjects which it disposed of in the proper form would, in the opinion of the writers, tend to readjust the affairs of the country. The memorial reads as follows:

To the Honorable Committee of the United States Senate, Honorable John H. Mitchell, Chairman:
Gentlemen:—The present deplorable condition of the affairs of the Territory of Hawaii, in its relation to the general government of the United States, renders it incumbent upon representative local business organizations to call your attention to matters of public welfare.

ISOLATION.
The Hawaiian Islands are so distant from the mainland—in fact the most distant large insular body in the world—that there is necessarily a multiplication of governmental, social and business institutions, and attendant expenses out of all proportion to the character and number of inhabitants as compared with continental United States.

EXPOSURE.
Situating directly in the highway of the Pacific, with frequent, often almost daily, steamship communication with Oriental and Australian ports, en route to and from the Pacific coast, Hawaii and Hawaii are extremely exposed to the violent epidemic diseases such as create public apprehension and terror. This occasions public expenditure beyond comparison with the numbers and wealth of this community. This expenditure is ceaseless, as by vigilance only is the safety of health secured.

Hawaii, at its present sole expense, stands as a guard and quarantine between the Orient and United States ports.

EXPENSE OF LEPER MAINTENANCE.
While the number of these unfortunate beings, the lepers, is gradually decreasing, yet at the present they and their children and attendants, public charges, segregated on the Island of Molokai, number 1009, costing the Territorial government to maintain, \$138,260 annually.

To comprehend what a charge this special misfortune imposes on this small community, let your committee call to mind the charge is equal to the people of the continental United States maintaining 507,000 persons in complete idleness, at an annual cost of \$70,095,800. Such a burden would seem to the people of the United States as too onerous to be borne.

In addition, Hawaii is obliged to maintain all other enlightened institutions, prison, reform, charity, hospital, and educational establishments.

RACE AND SOCIAL CONDITIONS.
In Hawaii Occidental and Oriental civilization meet in a contest paralleled in no other country on the globe. The Oriental alien as a body insist on the corresponding standard of living and family status to that of the white man, the danger of the overthrow of Caucasian civilization will cease. To attempt to regulate by law these differences, is well nigh impossible. It is in the power of the national legislature, and particularly in the power of the national Executive Department, the Army and Navy, to throw their government patronage in support of the civilization they embrace and expect to have preserved for them and their successors.

LABOR SITUATION.
It is not in the province of this committee to attempt recommendations as to the labor problem confronting our main and almost exclusive industry, the raising of sugar. We do request your keen attention to the fact that skilled labor is being driven from employment, from the Islands, or to a lower, meaner and almost intolerable scale of living, through the competition of alien labor. Private selfishness cannot be controlled. We, however, most emphatically protest against any action of the United States government, through its local and official representatives, in employing, directly or indirectly, through contracts, contractors, or otherwise, alien labor.

So far as Hawaii is concerned, such action by United States officials or contractors undermines the body politic, and must react on the general welfare, social and political.

We believe all United States contracts or enterprises requiring nominal skilled labor should, by law if possible, or by Executive instruction, be confined to labor other than alien, and on a scale of compensation permitting American civilized standards of living.

POLITICS AS RELATED TO BUSINESS.
The peculiar political and specially legalized economic conditions existing for many years in the Hawaiian Islands produced a bias, and expectation of continued special privileges that many, even of our most intelligent and interested citizens, could not overcome during the earlier periods of annexation. On their support and patriotism this Territory must rely for sound economic conditions. Their better judgment will ultimately prevail, and a campaign of education and more elevated politics be inaugurated. It is doubtful if a peaceful community can be secured by discrimination in suffrage.

Business has been unfavorably affected by many apprehensions as to the course of general and local government, and the misgivings still exists. However, there are enough good, intelligent citizens who, by sound, unselfish measures and public education and moral force can control local affairs. The coming election this fall will disclose

(Continued on Page 5.)

ACHI, ISENBERG
AND M'CANDLESSThird District Senators Chosen by
Joint Convention Last
Night.

SENATORS, THIRD DISTRICT—W. C. Achi, D. P. R. Isenberg, L. L. McCandless.
REPRESENTATIVES, FIFTH DISTRICT—Nainoa, Benjamin Naukana, J. M. Ezera, Henry C. Vida, J. L. Kaulukou, James Shaw.

When Chairman of the Territorial Committee Clarence Crabbe called the Republican convention to order there was a full attendance of members of both District committees. As soon as the meeting had quieted down the chairman called for nominations for permanent chairman, and J. P. Cooke nominated Senator Crabbe. There was no other nomination and Mr. Cooke put the motion which was carried unanimously. William Savidge was then chosen secretary and the committee on rules prescribed simply an order of business. Judge Luther Wilcox was chosen interpreter on nomination of D. P. R. Isenberg.

The roll call had not proceeded very far when the name of F. C. Smith was called. Frank L. Hoogs rose and said that he held a written proxy from Dr. G. W. Burgess who had been regularly chosen by the precinct club, but whose place had been declared vacant, and Mr. Smith elected. He therefore claimed a seat.

G. B. McClellan said that the Fourth District committee had declared the seat vacant and made the election regularly. He therefore moved that the proxy of Burgess be not received.

Hoogs explained that the proxy came by the Korea and Brooks said that owing to the fact that the vacancy had been declared by the committee and the election made at the last meeting, the matter should simply go over for the present. The motion was withdrawn and the roll call proceeded. This showed every member but one present.

Chairman Crabbe found that the candidate for delegate had slipped into the room and unobserved had taken a seat at the rear of the hall. In announcing his presence he named as a committee to escort him to the platform D. P. R. Isenberg.

AMERICA'S PROGRESS STIRS
IRE OF A LONDON JOURNALThe Saturday Review Speaks Solemnly of a
Coming War Between England and United
States Over Matters of Trade.

LONDON, Aug. 30.—"A hate rivalry which may some day be settled by the arbitrament of the sword" seems to fairly sum up the Saturday Review's opinion of the relations between Great Britain and the United States.

Discussing President Roosevelt's pronouncement on "Monroism," the always bitterly anti-American Saturday Review uses the President's speech as a text on which to enunciate a long sermon on "American Greed and Hypocrisy" and the danger threatening the British empire from the United States' future expansion. It says in reviewing the history of the Monroe doctrine:

"It is unfortunate, if not exceptional, that the United States cannot be satisfied with the plain, straightforward policy of self-interest without attempting to explain it as a disinterested and highly moral position. It was on this basis that the war with Spain was undertaken, resulting in the Philippines being annexed and Cuba being put under the heel. South America's natural resources are enormous, but the individual states cannot act together. It is plain that they will not long resist American extension southward, and American 'protection' from European aggression will soon incubate into occupation by the United States."

Proceeding to discuss the effect of "Monroism" on the British empire, the Saturday Review says:

"The United States is the only great power separated from the British empire by nothing but a land frontier, and

it is the settled object of the United States ultimately to include Canada. The United States is commercially growing fast at our expense, and judging from its present progress the power of the United States in wealth and numbers will soon exceed that of any rival we have, possibly excepting Russia, whose position in relation to the United States territorially is not nearly so critical.

"Under these circumstances it is surely clear that the power we need be most concerned about is America. Acute territorial and commercial rivalry already results in an ultimate trial by force. It is the only final settlement. If that is so the policy of either country must be to avoid doing anything which can increase the other's power or give it points in the struggle. On that principle the United States has steadily acted in opposing us diplomatically, never conceding a point."

"We, on the other hand, have usually gone out of our way to help the United States. In the matter of the isthmian canal we lost ground and America gained. The only balancing advantage would be such consequent and active friendship on the part of America that we might count on her as meeting us half-way by abstaining from injuring us. Of such friendship the Saturday Review has shown again and again that there is neither evidence nor likelihood. There is no question of liking or disliking the Americans. It is simply a question of which shall ultimately get the better of the other side. The controlling factors make it impossible to put the position of the two countries in any other way."

The Republican committee of the Fourth District will meet this evening for the purpose of nominating candidates for the lower house of the Legislature. The meeting will be in the Castle & Cooke hall.

name of D. P. R. Isenberg he was giving to the convention a man who would be a tower of strength to the party. He was a man who had a great following among the Home Rulers and would as well draw heavily from among the ranks of the Democrats. He had the confidence alike of the capitalists and the working men and no better senator could be found on behalf of the people of the Territory.

Every precinct of the District sent a man to the front to second the nomination of Isenberg and after this was done the Fifth had its chance.

W. W. Goodale rose when the first precinct was called and declared that as the representative of the entire district he would place in nomination the four candidates of the district who, alphabetically, were W. C. Achi, G. H. Huddy, John C. Lane and L. L. McCandless.

The recess for caucuses resulted in a degree of disappointment on both sides. The Fourth District men decided unanimously that F. C. Smith was entitled to the seat from the sixth precinct. The Fifth District did not caucus at all. W. C. Achi refused to call the delegates together, although there was a constant demand for such action.

When the convention met and Chairman Cooke announced the decision as to Burgess, F. L. Hoogs rose and made a protest, saying it was shabby treatment to be accorded such a good Republican. He said there was no more active worker than Dr. Burgess and that such action was unwise. J. A. Gilman said this was admitted but that there was no assurance that Dr. Burgess would be here to work. Chairman Crabbe said it was purely a matter for the Fourth and he would have to recognize that Mr. Smith was entitled to the seat.

The tellers then appointed were: Fourth District: G. W. R. King, Jonah Kumalee and Samuel Johnson; Fifth District: J. L. Holt, R. Gilliland and William Henry.

The chairman then announced that there would be three candidates to be voted for and that it would take a majority vote to nominate. The votes were found to be correct and the counting proceeded. There was little excitement during its progress and it was not until the announcement was made by G. W. R. King that there was any demonstration. The vote as declared was Isenberg, 81; McCandless, 62; Achi, 57; Lane, 48, and Huddy, 13.

Amid applause J. D. Avery, on behalf of John C. Lane, moved that the nominations of Isenberg, Achi and McCandless be made unanimous. There were cheers on all sides and the resolution passed with the utmost enthusiasm.

Immediately there were cries of "speech" and D. P. R. Isenberg, whose appearance was greeted with cheers, arose. He said: "Our delegate has given us our motto: It is 'Work.' I ask every one to work. You have nominated us and now it is our duty to get out and work in unison." This sentiment was echoed by both McCandless and Achi.

On motion of Avery it was declared the sense of the convention that the commission to frame a city and county bill should be selected at once. The convention then adjourned.

FIFTH DISTRICT REPRESENTATIVES.

As soon as the joint session had adjourned Chairman Achi called the convention to order and the minutes of the last meeting were read and approved.

Avery moved that the committee break up into caucuses according to the sub-districts for nominations for representatives, so that there be a chance to settle any differences. The roll was called first and then the motion was passed.

After a series of caucuses the convention reassembled and at once determined upon their candidates.

The first and second precincts had only one nominee and Nainoa was declared by the convention unanimously chosen.

W. W. Goodale announced that the candidate from the third, fourth and fifth precincts was Ben Naukana and no other candidate appearing he was declared the candidate.

Nawaakoa announced that J. M. Ezera was the only candidate from the sixth precinct and he was nominated by acclamation.

Judge Wilcox arose from the seventh precinct and said it gave him great pleasure to announce that this precinct was unanimously in favor of the nomination of Henry C. Vida. There were cheers as the convention declared him the nominee.

When the eighth and tenth precincts were called it was reported that J. M. Kaneakua had eight votes and Judge Kaulukou had one. The chair gave notice that there were two more candidates, William Crawford and William Kwai Fong. The convention then proceeded to vote. Charles H. Clark and James Davis acting as the tellers. The votes resulted as follows: J. M. Kaneakua, eighteen; J. L. Kaulukou, eighteen; one vote being thrown out as it was cast for Henry Vida. The second ballot resulted: Kaulukou, twenty-one; Kaneakua, sixteen.

The ninth had four candidates, James L. Shaw, J. W. Kalakieia, John Apio and A. W. Seabury. The convention proceeded as follows: Shaw, thirteen; Kalakieia, eight; Apio, two; Seabury, twelve; two votes rejected. There was a motion at once to confine the voting to the two highest men on the next ballot and the result was: Shaw, twenty-five; Seabury, twelve. Shaw was declared the nominee and the committee adjourned amid cheers.

FOURTH DISTRICT MEETING.

The Republican committee of the Fourth District will meet this evening for the purpose of nominating candidates for the lower house of the Legislature. The meeting will be in the Castle & Cooke hall.

STRAINED
ISTHMIAN
RELATIONSNicaragua May be
Attacked by
Colombia.A BATTLE IN
VENEZUELASevere Fighting Is Again Reported
From Cape Haytien—Ameri-
can Warships on Hand.

PANAMA, Aug. 30.—Referring to the announcement from Washington that Colombia had protested against the action of Nicaragua in assisting the Colombian revolutionists, it is asserted in Government circles here that on August 25 the revolutionist gunboat Padilla while at Corinto, Nicaragua, was visited by Nicaraguan officials and that there were big celebrations aboard the warship.

It is further asserted that the Colombian Minister at Washington, Senor Conecha, asked the Nicaraguan Minister there, Senor Corea, to cause the detention of the Padilla, which he refused to do. There seems to be no doubt that the situation is grave, for while Colombia is concentrating a large army on the Atlantic coast it is said that Nicaragua has sent a note to the other Central American governments asking them for assistance in the event of Colombia declaring war on Nicaragua. The Colombian Government, on the other hand, is endeavoring to maintain the most cordial relations with the other Central American republics.

ADVANCE GUARD REPULSED.

WASHINGTON, Aug. 30.—At Cua, a town twenty miles from Caracas and on the railroad which runs to Santa Cruz, in the Orinoco country, the advance guard of General Matos' army has been repulsed by Venezuelan Government troops, according to a cablegram received at the State Department from Minister Bowen at Caracas. No details of the engagement are given.

Minister Bowen says that the Holland Government has ruled the blockade of Venezuelan ports, declared by President Castro, ineffective. This is the move which has long been anticipated and to which it is not thought the Venezuelan Government will offer any resistance.

FIGHTING IN HAYTI.

WASHINGTON, Aug. 30.—Fighting has been renewed in Hayti. Whether or not the situation is critical is not evident in the telegram received under date of yesterday at the State Department from Minister Powell at Port-au-Prince. He says there are reports in the capital of heavy fighting, which began the day before (Thursday) near Cape Haytien. General Nord, he says, leads the provisional government army, while the revolutionists are under command of General Jumeau. The villages of Limbe and Marmelade are reported to have been totally destroyed.

The United States cruiser Cincinnati, commanded by McLean, is now at Cape Haytien, where it relieved the Machias. American interests, of which there are a number on the island, are well protected. The Cincinnati will, however, remain in Haytian waters until entire quiet is restored.

The Maine Falls Short.

WASHINGTON, Aug. 30.—The Maine in her trial over the Cape Ann course last Saturday failed to make 18 knots per hour as specified in the contract between the government and William Cramp & Sons. As a result, unless a new trial can be had, the builders will forfeit \$3500. They say the trouble was due to poor coal.

Congressman Loud Renominated.

SAN JOSE, Aug. 30.—Eugene F. Loud was unanimously renominated for Congress by the Fifth Congressional District delegates this afternoon.

The Sherwin-Williams Paint

(PREPARED)

Made to paint buildings with outside and inside has this guarantee in plain letters on every can: "We guarantee that this paint, when properly used, will not crack, flake or chalk off, and will cover more surface, work better, wear longer and permanently look better than other paints, including Pure White Lead and Oil. We hereby agree to forfeit the value of the paint and the cost of applying it, if in any instance, it is not found as above represented."

SUMNER IS NOT INSANE

Says Prosecution Is Malicious One.

JUDGE GEAR DISQUALIFIED

George Davis Gets a Call Down From Henry Highton. Answer Filed.

A three cornered contest has developed over the property of John K. Sumner, in which the old gentleman himself intends to play a very important part. Sumner filed an answer yesterday to the complaint of his sister, Maria Davis, alleging that he is insane, and who asked to be appointed his guardian; and which the defendant declares to be both "false and malicious." The matter was before Judge Gear yesterday morning and the Court intimated that he could not try the case because he was disqualified, as at one time he was attorney in a similar attack upon Sumner's mental capacity. The old man is anxious for an immediate trial in order that he may prove his sanity. Davis objected to the early hearing in his usual strenuous manner, and as a result received such a caustic dressing down in reply that the erstwhile loquacious attorney was rendered speechless.

In an answer filed yesterday Sumner denies that he is insane or ever has been, and alleges that he is "fully able and competent to transact business and to care for and control his own property," and adds further, "that the allegation in said petition that he is insane is both false and malicious."

The respondent admits that the petitioner is his sister and nearest relative, and alleges "that for some reason inexplicable to him, and influences which are mercenary and injurious, by reason of said relationship, the said petitioner assumes the right to regulate and control, or to obstruct and interfere with, the actions of this respondent in relation to his own property, real and personal."

Sumner admits being the owner of property worth \$150,000, and answers further that he is a resident of Tahiti, being engaged there in the cattle business, and is in Honolulu to attend to his business here, and also to defend a suit against him by the Oahu Railway and Land Company, but which suit was about to be settled when this new proceeding was instituted. Sumner further answers that the petitioner or her son, R. W. Davis, who was instrumental in bringing the suit, was not consulted in regard to the Oahu Railway and Land Company suit, or his property interests, "and this respondent proposes to exercise his own judgment, and to act upon his own will, in the disposal of any fruits or avails of the said suit, if compromised, or of his property generally in said Territory, and alleges that the object and purpose of this proceeding is to interfere with and delay this respondent in the negotiations aforesaid and to compel him to act under the directions and instructions of the said petitioner and her advisers in the management and control of his property." The respondent also answers that his business interests in Tahiti require his attention, and asks that he be not unduly delayed in the Territory, alleging "that this proceeding is unfounded, vexatious and malicious."

Mr. Henry Highton, who appeared for the defendant, asked that the hearing be had immediately as his client did not wish to be unnecessarily delayed in returning to Tahiti. Davis jumped to his feet and as usual began sawing the atmosphere in his most eloquent manner trying to convince the court that the suit should take its regular course. He contended that the summons gave the defendant two weeks to answer and consequently the case could not be called up until September 20th, which is made the return day. He said also that two or three interests had to be protected, and protested against going to trial until he had prepared for it. He said further that he could prove Sumner to have been insane by the record in other cases all of which had first to be investigated.

Mr. Highton replied that any record in any other case had nothing to do with the case at bar. He said that the law presumed Mr. Sumner to be of sound mind until he was proven insane, and that the respondent was entitled to have the suit determined as soon as possible. No matter what counsel on the other hand said, respondent is entitled to justice according to law, and under the presumption that every man is able to take care of his own property. He said it was a novel proposition unknown to any court in Christendom to compel a defendant to wait to answer until the time fixed in the summons. If there is such a rule or statute in Hawaii it is pure, unmitigated nonsense. Mr. Highton said that if he had had recourse to the records of past cases he might be able to give counsel on the other side a dose of his own medicine. Concluding he said that Mr. Sumner is anxious to go to Tahiti, and if insane he wanted to be declared so and committed to an insane asylum; if not, he certainly had the right to attend to his own business in his own way.

Davis got up to reply, but Highton asked how many arguments he was entitled to under the rules of practice, and he sat down again. Judge Gear did not pass upon the question as to trial, but stated that there was a serious question in his mind as to whether he could go into the matter at all. He said that he had been engaged as counsel in a similar case when it was sought to

have a receiver appointed for Sumner, and that the Court was in a peculiar position, as he had once thought Sumner to be insane, and did not think he was qualified to hear the present case. An opinion upon this question will be given this morning.

SUBMISSION SET ASIDE.

In the case of Lum Ah Lee et al. vs. Ah Soong et al., Judge Robinson yesterday set aside the submission in order to allow the plaintiffs to introduce further evidence as to the amount of damages suffered by them by reason of the defendants interfering with their water supply in Manoa valley. The court holds that from the evidence at hand it is impossible to ascertain any definite amount of damage. He holds, however, that the acts complained of were not of a character to call for punitive damages, but that the plaintiffs are entitled to pay for the destruction of the 49 patches of taro due to lack of water. The case is set down for trial for Monday, September 15th. An appeal is taken from the ruling of the court.

COURT NOTES.

The Aurdend divorce case has been continued until the November term. The annual accounts of the Bishop Estate trustees has been referred to M. T. Simonton as master.

The accounts of W. F. Allen, guardian of the Ofpergelt heirs, have been approved.

Nina I. Flint has asked for \$35 per month alimony from Harry F. Flint. She alleges that the defendant receives a salary as policeman of from \$75 to \$100 per month, "besides perquisites." She says Flint paid her \$25 per month pursuant to agreement, but no longer does so.

The accounts of Pilliaau, guardian of Kamaka and Papauauea, have been approved.

Aw Chung has been appointed administrator of the estate of Leong Hoy.

THE BIG TEST OF FIGHTING STRENGTH

NEWPORT, R. I., Aug. 30.—The army of defense and the attacking squadron under Admiral Higginson spent the first 24 hours of the period of preparation in strengthening their forces. The Massachusetts heavy artillery came from Boston today, part going to Fort Rodman, at New Bedford, and six batteries coming here as additional reinforcements to Fort Adams and Fort Greble. The army also received in addition to the Rhode Island Signal Corps of 20 men.

The forts in this vicinity are now practically on a war footing and the men behind the guns, mortars, searchlights and at the various signal stations are ready for war, imaginary though it be. The principal event in this city today was the arrival of the Massachusetts troops. The heavy artillery came first, followed by the naval militia. The artillery on reaching here was at once split into companies and sent by tugs to the three forts at the entrance of Narragansett Bay. The naval brigade found the gunboats May-

WHAT'S THE USE

of your bagging with yourself about the price of your new Spring Suit or Top Coat. You see some clothes advertised in such tempting language, at such low prices, that you feel like "saving money." Now, don't save money in the wrong direction.

You should never pay less than \$15.00 if you want a really good Suit of Clothes or Top Coat and as much more as you can afford.

If you will invest \$20.00 or \$25.00, we assure you that the interest on the investment in the way of additional service, comfort and pleasure of knowing that you are wearing really fine clothes, will more than repay you the few extra dollars that you spend in this direction; you can better cut off your expenditure in any other direction rather than for clothes. There are no ready-to-wear clothes that can compare for general excellence with those that bear this label. The lowest priced Suit or Top Coat that we have of this make is \$15.00, and from that they range all the way up to \$35.00; but, you can only get as good as these by having them made-to-measure by the very best tailor, who would charge you at least twice as much.

Suits and Top Coats, - - \$15.00 to \$35.00.

INJUNCTION IS DENIED

The Territory Wins Income Tax Case.

FIRST VICTORY IN FEDERAL COURT

Complainants Must Bring Suits in Equity After Tax Has Been Paid.

Judge Estee yesterday sustained the demurrer in the case of Peacock et al. vs. Assessor Pratt and the bill of complaint in the income tax test was thrown out of court. The plaintiffs will now be compelled to file separate suits to recover the tax already paid, if under protest, or pay this year's assessment under protest, then sue for recovery. The effort to prevent the collection of the income tax by injunction has proved a failure, and some other remedy will now be pursued by Col. Fitch.

Judge Estee did not pass upon the constitutionality of the law, simply denying the right of the complainants to proceed by injunction.

The court in passing upon the matter said that the allegation as to the condition of the Territorial treasury did not appear material. The court says:

"There is no question in this case as to the power of the Legislature of the Territory of Hawaii to pass general taxation laws. Under the Act of Congress entitled 'An Act to provide a government for the Territory of Hawaii, passed by the Fifty-sixth Congress of the United States of America, on the 27th day of April, 1900, and approved on the 30th day of April, 1900,' and which under its terms took effect on June 14, 1900, it is provided 'that the legislative power of the Territory shall extend to all rightful subjects of legislation not inconsistent with the Constitution and laws of the United States locally applicable.'

"Rightful subjects of legislation' are those subjects upon which Legislatures have been in the practice of acting with the consent and approval of the people they represent.

"The power to tax is in its very nature inherent in all governments and is under our political system, vested in the various legislatures, and in Congress for certain national taxes, limited only by Constitutional provisions. And it has been held by the Supreme Court of the United States that a Territorial Legislature has all the powers of a State Legislature except as limited by its Organic Act, the Constitution of the United States, and the Acts of Congress.

"Therefore, taking into consideration these general principles, and the decisions of the courts, and in addition thereto, the language of section 55 of the Organic Act, which is the fundamental law of the Territory, there can be no question as to the general power of the Legislature of Hawaii to legislate upon all questions of taxation in relation to providing a local system of revenue to carry on the government of the Territory of Hawaii; the only limitation being that such legislation shall not be 'inconsistent with the Constitution and laws of the United States, locally applicable.' The passage of the Act complained of was undoubtedly within such legislative power subject to the constitutional and congressional restrictions referred to.

"This being clear it alone remains for me to consider whether this court sitting as a court of chancery has the power or jurisdiction to enjoin the collection of this Territorial tax which was regularly levied under an Act of the Territorial Legislature, while acting within its general powers granted by Congress. Can this be done even if such Act is unconstitutional and void? I do not think it can. It certainly cannot be done if there is an adequate remedy at law; and it seems clear to the court that in this case there is a complete and adequate remedy at law.

"One of the chief reasons given for equitable relief in this case is the avoidance of a multiplicity of suits; that each of the complainants would be obliged in the event that he were to pay the tax under protest upon the ground that the same was illegal, to bring an action for the recovery of the sum so paid; or that in the event that each of the complainants refused to pay the taxes each would be subjected to a suit by the Tax Collector and Assessor for the collection of the same, all of which might, as it is claimed, be avoided by the determination of the question of the legality of the tax by a court of equity.

"But is the multiplicity of suits that complainants claim may be avoided by this court taking action, such multiplicity as is contemplated in equity? No one of these complainants would be subjected to more than one suit, either upon a refusal to pay or a payment under protest and a consequent suit to recover."

After quoting a number of authorities in support of his finding as to multiplicity of suits Judge Estee says: "The law seems to be clear that when a person, by the compulsion of the color of legal process, pays moneys unlawfully demanded, or is deprived of his property by seizure, he may recover it back."

Concluding the court holds: "The reason why the courts have so uniformly refused to restrain the collection of taxes whether illegally assessed or not unless it be shown that the circumstances of each case brings it within some well known branch of equity jurisdiction, rests chiefly in the

STRAIGHT TALK

And straightforward honest dentistry may be found to differ. You can put almost anything on paper, but the only kind of dentistry that will stand the test of time and not give trouble afterwards is the kind being turned out daily by the skilled expert dentists. If we claimed to be the only competent dentists in the world and far superior to all others, to the average mind how easy it would be to see how recklessly we were handling the truth. We do not claim to be "knowalls" nor the only good dentists in the world, but do claim to be experts and to give the people good honest dentistry at very low prices. Visit our swell up-to-date offices in Arlington Block.

fact that such injunctions are attacks upon the other independent and coordinate branches of government, and such injunction would, if lightly issued, operate as a restraint upon all government.

In this case no fraud is alleged, nor is there any other equitable point called to the attention of the court save the avoidance of a multiplicity of suits, which does not seem to the court to be true.

"Let the demurrer be sustained and the bill dismissed with costs assessed to complainants."

A FOOLISH OLD IDEA.

It was once thought that a medicine was all the more beneficial for having a nasty taste and smell. We now know that such an idea is perfect nonsense. There is no more reason why medicine should offend the senses than why food should do so. Therefore, one of the greatest chemical victories of the past few years is what we may call the redemption of cod liver oil. Everybody knows what a vile taste and smell this drug has in its natural state. No wonder most people declare they would rather suffer from disease than take cod liver oil, and the emulsions are quite as foul and abominable as the plain oil, no matter what may be alleged to the contrary. Now it is one of nature's laws that a medicine which disgusts the nose and the palate, and also sickens the stomach, can have no good effect as a medicine, because the system cries out to be delivered from it. In

WAMPOLE'S PREPARATION the desired miracle is wrought, and we have the valuable part of the oil, without the other. This effective modern remedy is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. The palate accepts it as it does sugar, confectionary or cream. Taken before meals it goes to the very secret stronghold of digestive disorders: prevents and cures Nervous Dyspepsia, Scrofula, Throat and Lung Troubles and all diseases due to impurity of the blood. Dr. G. C. Shaanon, of Canada, says: "I shall continue its use with, I am sure, great advantage to my patients and satisfaction to myself." Has all the virtues of cod liver oil; none of its faults. Effective from the first dose. Sold by all chemists.

THE PACIFIC
Commercial Advertiser
WALTER G. SMITH - - EDITOR
TUESDAY : : SEPTEMBER 9.
YOU MUST REGISTER AGAIN.
That you registered two years ago is not enough; you must put your name on the books again.
If you don't register you can't vote.
So far the Hawaiians are making the best use of their opportunities. All others, qualified to vote, should hasten to get in line.
The emergency is so great this fall that neglect to register is a default in citizenship.

A DOGBERRY DECISION.
It seems that the Utah Supreme Court has decided that Hawaiians are Mongolians, and inasmuch as Chinese are also Mongolians, that therefore a Hawaiian is a Chinaman, and as such cannot contract a lawful marriage with a Mormon girl. The luminous logic and learning of this decision is only equaled by another decision made in 1854 and preserved to the world in the fourth volume of the California Supreme Court Reports, where, in the case of the People vs. Hall, the Supreme Court of California decided that a Chinaman is both a negro and an Indian.

"The appellant," said Chief Justice Murray, "a free white citizen of this State, was convicted of murder upon the testimony of Chinese witnesses."
• • • The act of April 15th, 1850, provides that 'No black or mulatto or Indian shall be allowed to give evidence in favor of or against a white man.'
• • • The word 'black' may include all negroes, but the term 'negro' does not include all black persons. By the use of the term black we understand it to mean the opposite of white. • • • The Legislature adopted the most comprehensive terms to embrace (under the word black) "every known class or shade of color." A Chinaman, is the conclusion of the court, being yellow, is black, and being black, is a negro, and as such his testimony cannot be received against a white man.

But not content with classing poor John as a negro, the court directed its logic toward demonstrating that he was an Indian: "When Columbus first landed upon the shores of this continent, in his attempt to discover a western passage to the Indies," said His Honor Judge Murray, "he imagined that he had accomplished the object of his expedition and that the island of San Salvador was one of those islands of the Chinese Sea lying near the extremity of India which had been described by navigators. Acting upon this hypothesis he gave to the islanders the name of Indians, which appellation was universally adopted, and extended to the aboriginals of the New World as well as Asia. • • • The countries washed by the Chinese waters • • • were denominated the Indies, from which the inhabitants had derived the generic name of Indians."

The conclusion of the Court was that a free white American ought not to be hanged for a murder that was only witnessed by a lot of yellow skinned, long queued, rice eating Chinamen, who were in law not only woolly-headed, thick-lipped negroes, but also scap-hunting, unbreeched, howling Indians. The syllabus of these two decisions is that a negro is an Indian, that an Indian is a Chinaman, and that a Chinaman is a Hawaiian, or it may be stated correlatively that a Hawaiian, being a Chinaman, is therefore an Indian, and being an Indian, is consequently an African.

Courts are grand things, but their logical antics sometimes make one's head buzz.

A SUCCESSFUL DELEGATE.

The remark of a distinguished visitor that a Delegate in Congress, to get things, should be in accord with the party in power, is not met by the statement, which we hear from Willkrats, that Missouri, a Democratic State, got from a Republican Congress an appropriation for the Louisiana Purchase Exposition.

In the first place the men who asked for this help were not Delegates; in the second place the Exposition scheme is an affair of all the Louisiana Purchase States the majority of which are Republican; and in the third place, expositions being national, politics does not cut much of a figure with them.

A Delegate having no vote is not sought after by parties in Congress; but when he belongs to one he gets help as a matter of course. If he belongs to none he is treated as a nonentity and cannot hope for favors. If he belongs to the minority party he only gets what the majority is willing to give away and that is very little indeed. His constituents, therefore, benefit most when he and the majority party are in accord.

The next Congress promises to be Republican. In that case a Willkrat Delegate would be a failure per se, while a Republican Delegate, especially a man of the Prince's standing, would naturally come in for some of the good things which the right sort of a Delegate gets for his constituents.

The Prince has nothing to apologize for or to explain away. He is a good citizen and business man and a safe candidate. His standing at Washington is assured in advance.

It will be two months tomorrow since Captain Rosehill left port for Marcus Island and some word from or of him ought to come within the next fortnight.

THE SENATORIAL TICKET.
Three strong men were nominated last night on the Republican ticket as Senators from Oahu. They are:
Paul Isenberg,
L. L. McCandless,
W. C. Achi.
Each one stands for something worth while in this community and all taken together are broadly and thoroughly representative of the whole people. It ought not to be difficult to give them rousing majorities.

The Republican campaign begins well. Now all together!

A DEBT TO REPUBLICANS.

Hawaiians who want to preserve their suffrage should ally themselves with the party that gave it to them, not with the Democrats, for the latter have fought with the cartridge box and the ballot box to confine the suffrage to white men, irrespective of whether the men of color voted with them or not.

That is now and always the Democratic doctrine. In the South, where the Democrats rule, an Hawaiian would find himself without civil rights, simply because he has a brown skin. In the North where the Republicans are in a majority, he would be treated as well as a white man. Here in Hawaii the Republicans have been quick to give the Hawaiians every political opportunity and in the convention which named the Prince there were more Hawaiians than white men. There are more Hawaiians than white men in office under Governor Dole today. One of the strongest planks in the Republican Territorial platform is the one which stands for the maintenance of Hawaiian suffrage.

Wilcox himself declares that the Republicans were his firm supporters in Congress from the President down. His platform reiterates it. The Delegate has not specified a single Democrat who helped him in any way, although he mentions the desire of one Southern Senator to have the Home Rulers become Democrats. On every hand, he says, he found Republican encouragement.

A party with a record like the Republican—the one which gave Hawaiians their suffrage and has always extended a helping hand—ought to receive the support of Hawaiians generally. Assuredly when Tillman rallies his fellow Democrats to carry out his threat to classify the Hawaiian with the negro and treat him worse, it will be to Republican protection that the native voter will have to turn.

Mr. Bryan, in his Commoner, berates the Republicans because they do not "yield to the demands of the people." Mr. Bryan, it appears, still sticks to 18 to 1. Why doesn't he "yield to the demands of the people" as expressed twice by overwhelming national majorities, and drop the silver issue? Bryan should talk less and set more examples.

If the County Clerk of Salt Lake will ask one of the leading Mormons whether his ruling on Hawaiians is correct he will learn something to his advantage. Many of the saints have worked in this field and are quite able to distinguish between Mongolian and Polynesian strains.

It has been raining hard in the Eastern States much of the time since the Martinique explosion and there has been an abnormal quantity of rain in Europe. The relation between volcanic and meteorological phenomena is well worth studying.

POPE ANNOYED AT TALK OF PRESS

ROME, Aug. 30.—The reports relative to the creation of another American cardinal are unfounded, or at least premature. For 15 years efforts have been made to secure another American for the Sacred College, but it was found that the American episcopacy was not sufficiently favorable.

Di Censola came to Rome to advocate that Archbishop Ireland and the late Archbishop Corrigan both be promoted, to avoid their rivalry, but New York's geographical position was regarded at the Vatican as being too near Baltimore to permit of Archbishop Corrigan's appointment.

With the passing away of Corrigan, the situation was much altered and it is considered that a satisfactory solution of the Philippine question might bring recompense to Archbishop Ireland for his services in the affair. At the Vatican it is said that newspaper talk will only delay Archbishop Ireland's chances, as the Pope is always irritated at anything being imposed upon him by the press.

Monsignor Guidi, the apostolic delegate to the Philippine islands, will be nominated Archbishop of Stavropol, the only titular archbishopric vacant. The Osservatore Romano will tonight officially announce both the appointment to Manila and the confirmation of the episcopacy.

Monsignor Guidi, after receiving an official letter this morning saying the Pope wished to give him a special mark of his benevolence and has appointed him apostolic delegate at Manila, asked for an audience, which the Pope immediately granted. Monsignor Guidi thanked the Pontiff for the honor conferred on him and the Pope said that from the moment it was apparent that the negotiations regarding the friars' lands would be continued at Manila he thought that Monsignor Guidi was the most competent and most fitted to carry on the delicate negotiations.

The apostolic delegate in the Philippines was also received by Cardinal Scott, prefect of the propaganda, who said to him: "I love you as though you were my son."

After his consecration Monsignor Guidi will be instructed to proceed to his post immediately, arriving there about November 7. He will take with him an English prelate as his secretary.

GLASGOW, Aug. 30.—Twenty-three persons were seriously injured today by a collision between two passenger trains. One of the trains was standing at the station and the other crashed into it, telescoping two carriages. Most of the injured persons sustained fractures of the limbs.

KAUAIANS WANT TO HEAR CUPID

Prince Kuhio Kaianianaole, Republican candidate for Delegate to Congress, returned yesterday from a visit to Kauai, where he went on legal business. He said last evening that he had refused to address meetings during his visit there, as he did not want to open the campaign until everything was ready. While in Lihue he met many Hawaiians from all over the island of Kauai, and from all he had the same expression, a desire to hear a discussion of the questions of the day. To these he explained his position and he found the Hawaiians, almost all of them Home Rulers, ready to listen, and many admitting the truth of his contentions. He confined his statements to arguments as to the benefits which would come from making the islands Republican, and promised that he would return and address the people later in the campaign. He said he was glad to find that the people were ready to study and learn all about the political conditions and was certain that this meant the success of the Republican party.

Train Wrecked by Tornado.

WASECA, Minn., Aug. 30.—Two persons were killed, three fatally injured and more than a score of others hurt tonight in the wreck of a train which had been hurled down an embankment by a tornado. A westbound train on the Chicago and Northwestern Railroad, consisting of an engine, a baggage car and two crowded passenger coaches, was struck by a tornado while running at the rate of 35 miles an hour, two miles from Meridian. The passenger car and baggage cars were hurled 18 feet down the embankment to the fence guarding the right-of-way. A brakeman had been lighting the lamps when the crash came and the wreckage was ignited by the spilling of oil.

WILDER'S STEAMSHIP CO.

A Second Excursion to the Volcano by Steamer Helene.

STEAMER HELENE, NICHOLSON, Master, will sail from Honolulu on Saturday, September 13th, at 12 noon, arriving in Hilo Sunday afternoon in time to connect with train, reaching the volcano the same evening; returning, passengers will leave the Volcano House Wednesday afternoon, connecting with the steamer that evening, arriving at Honolulu early Friday morning.

Three days and three nights at the volcano. Latest reports indicate that the volcano is increasing in activity from day to day.

Inasmuch as the crater of Kilauea may become extinct, this may be the last opportunity for seeing it in activity.

Tickets for the round trip, first-class accommodations all through, \$40.00. Passengers are requested to book early that suitable reservations on the train and at the Volcano House can be made.

EXCELSIOR LODGE NO. 1, I. O. O. F.

Aching Joints

In the fingers, toes, arms, and other parts of the body, are joints that are inflamed and swollen by rheumatism—that acid condition of the blood which affects the muscles also.

Sufferers dread to move, especially after sitting or lying long, and their condition is commonly worse in wet weather.

"It has been a long time since we have been without Hood's Sarsaparilla. My father thinks he could not be without it. He has been troubled with rheumatism since he was a boy, and Hood's Sarsaparilla is the only medicine he can take that will enable him to take his place in the field." Miss Ada Dorr, Sidney, Iowa.

Hood's Sarsaparilla and Pills

Remember

that we are established many years, that our optical department has grown to proportions, such as we never dreamed of; that it is still growing, making it necessary to increase our capacity for turning out work promptly and that our work has always given utmost satisfaction.

Remember

these things, and then when in need of glasses, or when you think something is wrong, come at once. It may cost you nothing, and you can rest assured, that no glasses will be sold you, until we fully demonstrate to your satisfaction, that glasses are what your eyes need. Personal attention given to every case.

SENATORS WILL HEAR MANY PLEAS

(Continued from Page 1)

the situation. We submit if the issue of good government is forced by events, the United States should so amend its organic act as to provide a most stringent and enlarged veto power in proper hands, for the control of local affairs, Territorial and municipal.

LOSSES FROM BUBONIC PLAGUE.
The facts have been fully laid before Congress in Senate Report No. 1933, Fifty-seventh Congress, first session, and relief petitioned. The justice and necessity of such relief should be apparent.

PUBLIC FEDERAL IMPROVEMENTS.

To date they have been of minor importance, and devoted almost exclusively to facilities for operations between the Continental United States and the Philippines and the Orient.

LIGHTHOUSES.

Are inadequate and still a local charge.

HARBORS.

Are still maintained and improved at local expense.

PROJECTED FEDERAL IMPROVEMENTS.

The projected improvements at Pearl Harbor, and camps and fortifications, while of great local importance, are a vital part of the vast scheme of public defence of the entire nation, and should not be unduly weighed in our financial relations to the government.

EXTRAORDINARY REIMBURSEMENT OF FEDERAL TREASURY.

From the extracts from official statistics given below, we ask your committee to consider the remarkable reimbursement made to the United States Treasury, of not only the entire Federal government expenditures in Hawaii, but the great per cent already paid toward extinguishment of the payment on account of the public debt of Hawaii upon annexation.

FEDERAL REVENUES FROM HAWAII.

From June 14th, 1900, to March 31st, 1902.

Customs revenue receipts \$2,292,224 33
Internal revenue receipts 188,543 86

Gross revenue \$2,480,768 49

Deduct—

Expense of collection, customs and internal revenue \$ 192,135 72

Net revenue 214 mos. \$2,288,632 77

How applied and expended—

Annexing Hawaiian Islands to the United States \$ 9,848 34

Salaries, District Courts, Ter. of Hawaii 7,230 97

Salaries of Governor, etc., etc., Ter. of Hawaii 71,839 61

Contingent expenses 4,353 03

Improving Pearl Harbor 20,300 00

Quarantine service 55,809 29

Repayment to importers 27,273 89

Debentures, drawbacks, etc. 11,971 79

\$208,626 93

Net revenue above all ordinary expenditures, or at the rate of \$95,990.72 per month \$2,092,005 84

Hawaiian Debt paid by the United States Treasury—

Payment of Debt of Territory of Hawaii \$3,193,129 79

Liquidation of Deposits in Hawaiian Postal Savings Bank 761,457 52

Total \$3,954,587 31

Balance \$1,893,581 47

Balance against Hawaiian Debt, March 31, 1902 \$1,893,581 47

Should the above named average continue, by the beginning of the next fiscal year of the United States, July 1st, 1903, the Hawaiian Islands will have practically reimbursed the United States government for every dollar paid out in behalf of annexation, furnished the government with lands and sites for its various purposes, leaving the title of all public lands and property in the United States government without cost to itself.

This is an unparalleled public financial showing; and it is doubtful if ever one country was absorbed by another at no cost in so short a period.

The withdrawal of such proportionally enormous sums of money would hopelessly bankrupt any like population in numbers in continental United States, and cannot be indefinitely continued here without dire results.

RECIPROCITY ADVANTAGES.

These were not all on the side of Hawaii. A very large per cent of the accumulation from the financial benefits of reciprocity have been re-invested in new and enlarged plantations; much of it has been thus lost or become absolutely non-income producing.

The sugar situation throughout the world is a disturbing problem; to us, a vital one. The Federal government should not look backward, but adjust our relations to the conditions.

RELATIONS TO CONTINENTAL UNITED STATES.

This organization does not pretend to indicate the constitutional remedies to be applied to, or limitations that affect our status nor point out how our welfare must be brought about by enactments of Congress, but we do submit that from distance and circumstance, we do not enjoy the direct and immediate benefits that cover the continental United States and Territories in the financial operations of the Federal government.

We admit that our situation resembles more that of a colony, and that the revenues should not be unduly transferred from our Territory to the United States Treasury and expended elsewhere.

RECOMMENDATIONS.

We ask of your committee that by its recommendations it urge: That all government contracts and works so far as skilled labor is concerned, both directly and indirectly, be let only to other than alien labor, and so stipulated.

That should political unrest and incompetency continue, the fundamental law be so amended that business interests may have the protection at least of an enlarged veto power, placed in unbiased and impartial hands.

That a means be promptly and earnestly sought to, by suitable appropriations or a proportional return of revenue to the Territorial treasury, cease the Federal drain upon the resources of the Hawaiian Islands.

That there be a positive reimbursement by some legal means from the Hawaiian Federal revenues of an amount equal to the cost of the lesser maintenance, and provide for a reasonable increase, that further benefits may

accrue to these unfortunates.

In presenting these claims we seek no advantage over other States and Territories, but believing that we are somewhat situated as other new acquisitions of the United States, we ask such consideration as goes toward the maintenance of good government, American civilization and sound financial condition, and a proportional cessation of the present drain on our resources.

Respectfully submitted,

THE BUILDERS AND TRADERS' EXCHANGE OF HONOLULU, HAWAII.

A. GARTLEY,
F. J. AMWEG,
L. E. PINKHAM,
W. W. HARRIS,
Committee.

Note—In support of statistics given, we refer to the official reports of the United States Treasury Department, as contained in Senate Report No. 1933, 57th Congress, 1st Session, pages 90, 120 and 121.

Land Commissioner Boyd was called into the room and questioned as to the status of the public lands and as well the laws governing them, with special reference as to the applicability of the United States land laws. He protested that the application of the present land laws would mean the falling of the limited areas of the Territory into the hands of a few persons, and submitted to the commission the bills sent into Congress setting forth his ideas. He also filed with the commission his pamphlet on the subject. When he had talked with the members for a half hour they asked him to return this morning with all the papers, and be ready to set out before them the status of lands and as well the conditions which seems necessary to create for the best interests of the people of the Territory.

A. C. Gehr, of the Kohala Water Company, went into that matter only in the briefest way asking that there be given to the men interested time for the proper presentation of facts relating to an irrigation law. The commission heard his argument that there should be discussion of this question and assured him that there would be a time set in the future. There were any number of callers during the morning. District Attorney Breckons was presented to the commission as was Treasurer Wright, and other callers were President Gartley and L. E. Pinkham of the Builders and Traders Exchange, F. M. Hatch, Judge Silliman, A. S. Humphreys and a number of others, in addition to the officers of the Naval Station. Capt. Whiting gave the commission two orderlies who kept the surroundings of the meeting room clear of visitors, so that the senators could be cool with open doors, and yet not be interrupted. Capt. Whiting also proffered the use of a detached cottage but the commission thought it better to use the Naval Station rooms.

During the afternoon there was a visit of form paid to the members of the commission by Governor Dole and Secretary Cooper, and then the Senators visited Quarantine Island so that Dr. Cofer may leave in the next ship for the mainland. The members met several other callers during the afternoon and evening and will resume their hearings this morning at 10 o'clock, giving Governor Dole the first time and then hearing Commissioner Boyd.

FOURTH DISTRICT COMMITTEE

MEETING NOTICE.

A MEETING OF THE FOURTH District Committee is hereby called for TUESDAY, SEPTEMBER 9, 1902, at 8 p. m., in the assembly room over the offices of Castle & Cooke, Ltd. The object of the meeting is to nominate candidates for the Fourth Representative District on the Republican ticket.

J. P. COOKE,
Chairman Fourth District Committee.
WM. SAVIDGE,
Secretary.
Honolulu, Sept. 8, 1902. 6263

SHERIFF'S SALE NOTICE.

Under and by virtue of a certain execution issued by A. S. Humphreys, Circuit Judge of the Circuit Court for the First Judicial Circuit, on the 7th day of July, A. D. 1902, in the matter of Harvey R. Hitchcock et al., plaintiffs, vs. Frank Hustace et al., defendants, I have, on this 8th day of August, A. D. 1902, levied upon, and shall expose for sale and sell at public auction to the highest bidder, at the Police Station, Kalaheua Hale, in Honolulu, Island of Oahu, Territory of Hawaii, at 12 o'clock noon of Tuesday, the 9th day of September, A. D. 1902, all the right, title and interest of Frank H. Foster, one of the defendants in the above entitled cause, in and to the following described property, unless the sum of thirty-nine thousand seven hundred and eighty-one and 83-100 dollars decreed in said cause, interest, costs and my expenses are previously paid: The land of "Makolelau," in Kona, Molokai, being Grant No. 4105 to Frank H. Foster, and containing 1568 acres, more or less, being principally grazing land adjoining land of Kamalo. Honolulu, Oahu, August 8, 1902.
CHAS. F. CHILLINGWORTH,
Deputy Sheriff, Territory of Hawaii.
6243—Aug. 9 16, 23; Sept. 1, 9.

NOTICE TO THE PUBLIC.

TO BISHOP & COMPANY:

In regard to the public notice published by you in the Evening Bulletin and Hawaiian Star of Friday, Sept. 5th, 1902, we desire to say that at no time since our incorporation have our agents by our consent or authority used your name in connection with or to promote the interests of our company.

From the date of our incorporation up to and including the 15th day of October, 1901, we were regular depositors at the bank of Bishop & Co., on which last date, for good and sufficient reasons, we transferred our accounts to another bank.

Prior to October 15, 1901, slips bearing your name as depositor were printed, but since the transfer of our accounts said slips have not been circulated.

Honolulu, Sept. 6th, 1902.

THE HAWAIIAN REALTY AND MATURITY CO., LTD.

STRANGE SEARCH

Editor Kendrick's
Mission in
Hawaii.

LOOKS FOR DEEDS
TO MUCH LAND

And Is Also Seeking Information
of His Great Grand
Nephew.

In 1794 Captain John Kendrick of the
sloop Lady Washington, which was the
first Yankee vessel after the American
Revolution to carry the new flag com-
pletely around the world, was killed in
Honolulu—some authorities say in one
way and some in another—while the
vessels in the harbor were firing sal-
utes in honor of Kalanikupule's vic-
tory over the forces of aged Kaeo in the
fierce tribal war of that year. Kendrick
was a Yankee adventurer who had sailed
the world over. He had title from
Indian chiefs to all the land upon which
the city of Vancouver, B. C., now
stands. Today, a hundred and eight
years later, his great-grand grand-
nephew, A. J. Kendrick, editor and pro-
prietor of the Fort Smith, Arkansas,
Daily News-Record, is in the city
searching for the title deeds of the
British Columbian city and looking up
the history of his ancient mariner an-
cestor. Editor Kendrick, if he finds
the deeds, will not lay claim to valuable
Vancouver, but will simply keep them
in his family as a souvenir of its early
members.

Editor Kendrick is one of those bright
men who have built up modern busi-
ness enterprises on the turbulent bor-
der of the Indian Territory and made a
success of them. Since coming here he
has gained some valuable information
concerning Captain Kendrick. Ken-
drick was one of the early sea rovers
of the type of the famous Paul Jones.
He first sailed out of Boston in the 300-
ton brigantine Columbia, and made
such a success of this venture that a
party of Englishmen fitted out for him
the Lady Washington and he sailed her
under the American flag. He made his
way into the Pacific and journeyed
from island to island gathering sandal-
wood, which he sold in China. Captain
Vancouver, an early Pacific rover, after
whom the island and city of Vancouver
were named, declared that Kendrick's
idea of making the sandalwood business
pay was foolish, yet to this day a pros-
perous trade is carried on with China
in that article. Kendrick had many
experiences in the Pacific. He went to
British Columbia and bought of Chiefs,
Maguina and Wicanish and other
chiefs 229 square miles of territory. The
deeds were duly signed by the chiefs,
and witnessed by the officers of the
Lady Washington. Attempts were
made in London in 1793 by the owners
of the Lady Washington to sell this
extensive area of land, but no buyers
could be found. Appeals were later ad-
dressed by the legal representatives of
Captain Kendrick and the owners of
the sloop to the government of the
United States for confirmation of the
title, but no action resulted.

In 1794 the adventurous skipper came
to Hawaii. When Kamehameha's star
was just coming to its ascendancy on
Hawaii, Kaeo was ruling Maui. Kala-
nikupule ruled Oahu. The former tried
to capture Oahu. The Oahu ruler was
being slowly but surely beaten when
Captain Brown with the schooner Jack-
al, Captain Gordon with the sloop
Prince Lee Boo, and Kendrick in the
Lady Washington arrived in Honolulu
harbor. Brown sold the Oahu ruler
arms and ammunition to assist him in
the war, and finally, as the battles were
going against Kalanikupule, Brown lent
him some sailors to assist in fighting
the foe. Kaeo was defeated and killed
and his army dispersed. After the vic-
tory Captain Brown fired a salute in
honor of the event. Captain Kendrick
was standing at a porthole of his ves-
sel and a stray piece of grape shot or
a wad from one of the Jackal's cannon
hit him and inflicted a fatal wound. His
funeral was the first service of the kind
ever witnessed on Oahu, and it is said
that the natives supposed it to be an
act of sorcery to cause the death of
Captain Brown.

Editor Kendrick has secured a mass
of information concerning these events
and is now trying to find the old title
deeds to Vancouver, which he thinks
were kept here. Data concerning these
may be in possession of Prof. Alexan-
der.

Telegraph Brevities.

China has abolished the likin tax.
There are rumors of revolutionary
plots in Brazil.

A great increase of highway crime
in the Sound country is attributed to
the example of Tracy.

for 1 or 2 years at 7 per cent.

Jas. F. Morgan,

AUCTIONEER.

BUSINESS LOCALS.

Order a case of Primo lager from the brewery. Telephone Main 341.

Cool and refreshing drinks at the Honolulu Drug Co., 325 Fort street.

Private tuition given in shorthand. For particulars address P. O. Box 570.

Sisal plants in any quantities are offered for sale. See our classified ads.

Suits and top coats of the Stein-Bloch pattern for \$15.00 and up at M. McInerney, Ltd.

Dr. R. W. Anderson, the dentist, has resumed practice at his offices on Alakea street.

Ladies' writing desks and dressing tables at all prices, just received, at Hopp & Co.

Max Schlemmer gives notice that he has revoked the power of attorney given to E. Olmsted.

Large stock with small prices is what Coyne Furniture Co. advertise about their iron beds this week.

A silver watch with monogram W. T. C. on case was lost last Saturday in Oahu College grounds. Reward is offered for the return of the same to this office.

A new florist in the field. J. W. L. McGuire announces in another column that he is prepared to furnish floral decorations, etc., at the Hawaiian Bazaar in the Masonic building.

Coulson & Bell, Emma street, just off Beretania, are offering one week only, choice bargains in toilet soaps, notions and stationery. Special line of pocket knives, pencils and tablets for school children.

FUSION ACHIEVED.

The Democrats Accept the Agreement With the Wilcoxites.

"The fusion agreement has been signed, sealed and delivered."

In this explicit and terse statement Col. Charles McCarthy, chairman of the Democratic Executive Committee, reported to the meeting of Democrats last night that the fusion between the Democrats and the Home Rulers had been effected satisfactorily at noon yesterday.

He reported that the sub-committee had met the Home Rulers on Sunday and the fusion was then made complete. The report of the sub-committee was laid before Democratic executive committee at noon yesterday at which time it was accepted.

"The Home Rulers showed us a list of possible candidates and all were satisfactory with one exception," said Col. McCarthy, "and he will probably be dropped out."

Y. W. C. A.

Annual Meeting of This Vigorous Young Organization.

The annual meeting of the Young Women's Christian Association was held last evening in the new gymnasium of the extended quarters which now comprise one-half of the entire upper floor of the Boston block. Reports for the year were read and the healthy condition of the Association was shown by a cash balance of nearly \$700. The expenses have been large owing to the many improvements made. The meeting was largely attended and was followed by a social. The gymnasium was decorated and all the rooms were brilliantly lighted.

The financial report showed total receipts of \$4903.67; total expenses \$4233.54; balance \$670.13.

The Boarding Home is being actively canvassed, \$300 having already been expended on the plans. It will be erected on Pensacola street.

Jared Smith on Molokai.

Special Agent Jared G. Smith and A. W. Judd have returned from Molokai where they spent nearly a week in inspecting the American Sugar Co.'s ranches. The party with Mr. Carter drove over the entire plantation examining the various kinds of grasses, etc., used for fodder. Prof. Smith of the Agricultural Department said yesterday that the fodders grown on the big ranch were of great variety and generally of good quality. He reports the grasses to be remarkably free from insects and blight.

Kimura Will Hang.

At 10:30 p. m. the jury in the case of Kimura, a Japanese charged with murder, brought in a first degree verdict. Kimura killed a woman, Kane Yamana, on May 18, at Waiakua. On the stand he made statements contradicting two others which he had previously made. Unless the Supreme Court reverses the finding of the Circuit Court Kimura will hang. Judge Gear will sentence the prisoner on Friday morning at 10.

Fifth Circuit Court.

Judge Hardy made an eloquent charge to the grand jury of the Fifth Circuit Court at Lihue on Wednesday. The attorneys present were A. G. M. Robertson, E. B. McClanahan, Chas. Creighton, J. M. Davidson, S. K. Kaeo, Edmund H. Hart, M. F. Prosser and J. D. Willard. T. Brandt was appointed foreman of the grand jury. Twenty-one cases were presented during the term and true bills were found in 15 cases.

Portuguese Politics Hot.

The Portuguese Political Club had an exciting meeting at San Antonio hall last evening at which Frank Andrade's resignation was accepted. Joseph Fernandez tried to resign by letter but that method was not favored. M. T. Furtado was bitterly denounced for statements in his letter to the Advertiser. Fealty to the Republican party was reaffirmed and the club adjourned to attend the District Convention.

It was reported last night that a slight earthquake shock had been felt at about 8 o'clock in the evening in Honolulu.

LOCAL BREVITIES.

There was no Executive Council meeting yesterday.

Excelsior Lodge meets tonight for work in the first degree.

The funeral of the late Geo. E. Boardman was held yesterday.

Hawaiian Lodge No. 21 meets tonight for work in the third degree.

The public schools opened for the winter term yesterday morning with a full attendance.

Judge Estee naturalized Gus J. Bechert of Germany and John B. Freitas of Portugal yesterday.

Will J. W. Smith, writer of a recent communication about the Claudine's passenger list, call at this office?

The Woman's Guild of St. Andrew's cathedral will hold a special meeting this afternoon at 2 o'clock, with Mrs. Koepke, Kewalo street.

C. W. Dickey, the architect, who was booked to leave in the China, cancelled his reservation and will not start on his vacation for some time yet.

Keola, the native driver of one of the government sprinkling wagons, died yesterday as a result of injuries received by a fall from his wagon on Sunday.

A commemorative diploma has been awarded the Department of Public Instruction for the educational exhibit made at the Pan American Exposition.

Mrs. L. G. Blackman will commence her French classes on Monday, September 15th, at College street. Lessons will be given on Mondays and Thursdays at 3 o'clock.

Candidates for election to the Legislature on all the islands except Oahu must file their nominations with the Secretary of the Territory not less than 30 days before the general election.

S. K. Marsh of the Benson, Smith Drug Co., leaves today in the Ventura for San Francisco to take a position as travelling man for a mainland drug firm. A farewell dinner was given for him last evening.

F. C. Rhodes, a former compositor on the Advertiser, died in San Francisco on August 28. He left here nearly a year ago, having passed the civil service examination for the government printing office in Washington.

A native girl from one of the other islands stepped off a rapidly moving electric car on King street last night and was knocked unconscious with a wound in the head. She is attended by one of the company's physicians.

The Exposition committee met yesterday morning to consider plans for a Hawaiian building at the St. Louis Fair. Plans have been drawn for a building of beautiful design, but the committee will take no action until it is learned how large an appropriation the legislature will make.

Col. Cornwell entered Waverley hall last evening after the Democratic meeting had adjourned, and asked for instructions as to the campaign on Maui, as he leaves for his home in today's steamer. A short conference was held and he will be expected to work among the Democrats and Home Rulers there in accordance with the terms of the fusion agreement made here.

In Circuit Court yesterday morning McCants Stewart withdrew his claim of \$150 attorney's fee against T. B. Cummings. J. A. Magoon opposed the payment of the fee, and Stewart said that if Cummings would say that he did not owe it, he would acknowledge that it wasn't owing. This the boy did when placed upon the stand, saying his brother had already paid Stewart what his services were worth.

L. A. Thurston states that the rumor of the critical illness of F. B. McStocker's little son, who is with his mother in San Francisco, is incorrect. The boy had a severe cold and high fever, but five days before the Korea left, the fever had disappeared and the patient was on the mend. Mr. McStocker has been sent for, however, to accompany his wife and son back to Hawaii. A wireless message was sent to him when the Korea came in.

Children When Teething have more or less diarrhoea. This should be controlled and can be, by giving Chamberlain's Colic, Cholera and Diarrhoea Remedy. Every household should have a bottle at hand. Get it today. It may save a life. Benson, Smith & Co., Ltd., wholesale agents, sell it.

LAST CHANCE

This is the Last Week of

SACHS' MAMMOTH Removal Sale

No Lady can afford to miss this opportunity to buy goods at such a stupendous reduction. We move this week and this is positively your last chance.

COULSON & BELL, Emma St., just off Beretania.

Children's School Shoes

We want to sell every boy and girl in Honolulu a pair of strong, comfortable school shoes. We've got the shoes to do it. A school shoe must be strong, to stand hard wear, and it must fit perfectly, so as not to injure the growing feet. These qualities are combined with low prices at our store.

Boys' Velours Calf School Shoe

Lace, in all sizes from 11 to 5. Sizes 11 to 2, \$2.75. Sizes 2 1-2 to 5, \$3.00

Boys' and Girls' Security School Shoes

Not iron shoes but wear like iron. Full line of children's sizes, \$2.50.

Manufacturers' Shoe Co., Limited, 1057 FORT STREET.

Growing.

Our business is growing because we pay closest attention to every part of it. Our greatest ambition is to make a success of this drug store—not an ordinary 30c. success, but a success that will be talked about far and wide. Our plan is to treat every customer so agreeably that we will hold every one. Then every new customer represents just so much growth to our business.

We cordially invite you to our store and make us as useful to you as possible. Let this be your down town stopping place where you can meet your friends, use the telephone, leave packages or in any way make the drug store useful to you.

Hobron Drug Co

Ehlers' Block, Fort Street.

Why They Come

The work done by the New York Dental Parlors has stood the test of two years in Honolulu. Our oldest patrons are sending their friends to us because their work was satisfactory.

Do not experiment. We have established a reputation in Honolulu that is past the experimental stage.

Full Plate of Teeth \$5.00
Gold Crowns 5.00
Bridge Work, per Tooth 5.00
Gold Fillings \$1 and up as to size
Fillings 50c to \$1 accdg. to material

If money is an object to you, come and see us. We will tell you in advance exactly what your work will cost. No charge for examination. All our instruments are thoroughly sterilized.
Hours, 8 to 6; Sundays, 9 to 12.
Ladies in attendance.

HARDWARE DEPARTMENT

Theo. H. Davies & Co., Limited.

MONDAY, SEPTEMBER 8TH.

Children's Black Hose

Extraordinary reductions offered this week—Regular 35c and 25c hosiery all goes at

3 pairs for 50 cents

The following are the sizes:

09 Extra heavy, sizes 7 1/2 to 10
10 Lisle Thread, " 6 to 10
06 Cotton " 6 to 10

Colors are guaranteed fast black and stainless. See them in our window.

Shell Combs

There have been no real satisfactory combs in town for some time, but we've got them now. Ask to see the new Vassar Back Combs, new shell hair pins, side combs, hair retainers, etc.

Beautiful New Waistings

Exquisite flannel material, solid white and colored grounds with the latest stripes. These are really elegant and you will want to see them.

White Chamois Skins

They're just a little too heavy to sell readily, but we reduce the price from \$1.25 to 50c. That ought to make them wanted.

Children's Bathing Suits

One piece suits in fast pretty colors; price \$1.50.

Finger Purses

You'll want one as soon as you see them. Made of handsome Alligator and Seal leather.

Brocaded Moire Silks

A new shipment just received from New York. Colors are in Pink, Black, Blue, White and Red. We haven't marked the prices yet but will advertise them next week. Some of the prettiest goods we have ever seen.

Bathing Trunks

For Men 65c
For Boys 25c

Men's Furnishing Dept.

We have an assortment of men's half hose, ahead of any in town and at the lowest prices. We invite inspection.

MEN'S LINEN MESH UNDER SHIRTS.

Will close out what we have at \$2.50 each. They are standard goods and sell everywhere at \$3.00.

STRIKE ARBITRATION.

The Coal Lock-Out May Soon Be Adjusted.

WILKESBARRE, Pa., Aug. 30.—At the close of the sixteenth week of the anthracite coal strike the talk of arbitration is again revived. Despite the statement issued by the presidents of the coal-carrying roads that they will not agree to arbitrate, the hope is still strong in the strike regions that the differences now being brought to bear upon the operators will have the desired effect.

It is rumored here tonight on good authority that President Mitchell will have a conference with United States Senators Quay and Penrose at the St. Charles hotel, Atlantic City, tomorrow.

It is said that yesterday President Mitchell and Senator Quay had a talk over the long-distance telephone and they agreed to meet at Atlantic City and discuss the situation.

British Vice Consul Hurt.

LOS ANGELES, Aug. 30.—British Vice Consul William Allen of San Diego, who arrived in this city last evening, sustained injuries tonight in East Los Angeles that may prove fatal.

While he was boarding a street car bound for the city an east bound car struck him on the back and flattened him against the one on which he had gained a foothold. The shock was so violent that his grasp loosened. He dropped helplessly to the ground and rolled partly under the eastbound car. One of the wheels passed over Allen's right leg just below the knee, shattering the bone and crushing the flesh. His left ankle was dislocated and he has a scalp wound extending from the forehead to the back of the skull. Mr. Allen was removed to the Good Samaritan hospital.

GERMANY ASKS WHY?

BERLIN, Aug. 30.—President Roosevelt's fresh declaration of the Monroe doctrine has been received here with an air of wonder. The tone generally assumed is one of surprise that the doctrine should be reaffirmed so energetically at a moment when no European power disputes it, least of all Germany.

However, it is asserted that Germany gave her assent to the doctrine soon after President Roosevelt's assumption of the Presidency, and that the State Department has abundant knowledge that Germany does not even contemplate securing coaling stations in the western hemisphere. Some suspicious critics suggested that something must be going on behind the diplomatic screen to occasion the President's enunciation.

The Foreign Office announces that official circles by no means share the newspaper excitement. It reads the speech in connection with the definition of the doctrine contained in the President's last message to Congress, which thoroughly well satisfies Germany. The disposition in some quarters in regard to President Roosevelt's speech as directed against Germany is wholly inadmissible, because Germany, as the American government knows, never designed to territorial acquisition of the American continent.

Several of the newspapers here crowd their references to the King of Italy from the chief editorial position in order to comment on President Roosevelt's speech.

The Lokal Anzeiger says: "His assertions are impregnated with an imperialistic spirit, and one is disposed to connect his utterances with what is occurring in Venezuela, since Germany is the only European power which, for the protection of its own interests, might be tempted to occupy temporarily Venezuelan territory. But the unequivocal declaration has been made that the Berlin cabinet has never considered the question of annexation. The self-control which our squadron maintained in the presence of wild doing of the revolutionists in the coast towns in which Germans reside is proof positive that Germany does not intend to act in a way to touch the sensibilities of the United States."

The Vossische Zeitung remarks: "The President's words sound like a defense from attack. But who is attacking the United States' favorite dogma? Germany and Russia shortly after Mr. Roosevelt became President expressly recognized the Monroe principles."

The Tagblatt deprecates the British comment which scents in the President's speech a covert warning to Germany and other organs are inclined to see no foundation but a domestic motive in Mr. Roosevelt's utterance, namely, preparing of the public mind for further enlargement of the navy.

LOST WALLA WALLA IS HEARD FROM

EUREKA, Aug. 30.—After floating in the waters of the Pacific for just eight months, an empty bottle containing on a rough scrap of paper a message from one of the victims of the steamship Walla Walla, wrecked eleven miles off Cape Mendocino on the morning of January 2, was picked up in Humboldt Bay today. The message in the bottle was as follows:

4 a. m., January 2—Wrecked from steamer Walla Walla off the coast of Cape Mendocino. Nine of us in an open boat. Death stares us in the jaws.

A. E. WILLIAMS, a passenger.

The discovery of this relic of the lost ship was made by workmen at Carson Mill this afternoon. The bottle, which was unusually large, evidently had contained liquor of some kind and it is presumed the message was inserted after the receptacle had been emptied of its contents. The message was well preserved.

An inspection of the list of the doomed at the time of the disaster shows the name of Williams among the missing and unaccounted for. It is definitely known that Williams never came ashore here, where a majority of the survivors were landed several days after the wreck; neither did his name appear in any of the lists of survivors picked up by other steamers. It is practically certain that he met the death of which he wrote in the message cast to the sea.

The relic is attracting considerable attention here, as it is the first of the kind ever picked up in these waters.

Kaiser Salutes Americans.

BERLIN, Aug. 20.—At the autumn parade of the Guard Corps today, Emperor William, who usually on these occasions does not acknowledge salutes, singled out the American generals, turned his head sharply around and raised his baton to his helmet. All those in that part of the field, especially the ambassadorial cluster, were much interested.

After that his Majesty devoted himself to the King of Italy and the duties of the day, not speaking to any of the foreign officers except the Italian.

Brigadier General Wood, who arrived here last night, was not in uniform, his military trappings being with his delayed baggage, so he saw the review from a carriage with John B. Jackson, secretary of the United States embassy at Berlin.

About 30,500 troops, one-third of the number being cavalry, took part in the review, which was the customary brilliant spectacle.

Emperor William's aid-de-camp, gave a luncheon today to Major General Corbin and Mrs. Corbin, Lieutenant Colonel Johnston and Mrs. Johnston, Major General Young and Lieutenant James F. McKinley.

The visiting American generals, beginning Monday, will be Emperor William's guests and his Majesty will pay their hotel bills in Berlin, their transportation to the scene of the army maneuvers and the expense of their lodging at Frankfurt-on-the-Oder.

General Corbin and Colonel Johnston will be quartered at the residence of the Tax Assessor, Herr von Jacobi; General Young and Lieutenant McKinley will lodge with Gymnasium Director Laubert, and General Wood will be quartered with Major von Randow.

TAKEN FROM
THE KOREAChinese Family Held
by Writ of Ne
Exeat.

There were five persons who had booked passage on the Korea for Hong-kong who did not stand on that big vessel's deck when she swung out into the stream yesterday afternoon. With bag and baggage the little party was brought ashore by Federal officials and sent up town in a hack, while a lawyer was at the police station awaiting the arrival of the head of the family. The party consisted of Chang See Yun, formerly a business man of Hilo, his wife and three little children. A writ of ne exeat was issued from Judge Gear's chambers about noon to prevent Chang See Yun from leaving the country, and he was apprehended shortly before 3 o'clock. The family and baggage were brought ashore at once and Chang See Yun taken to the police station.

The writ was obtained by the Wing Sing Company vs. Chang See Yun et al. Y. Ahoo, one of the plaintiffs, states in his affidavit that Chang See Yun is justly and actually indebted to the plaintiffs in the sum of \$2132.53 for money paid to defendant and for goods sold and delivered to him, and the assertion is made that he has fraudulently converted to his own use the property and assets of the firm of Kwong Hip Chan of which he is a member, and was about to abscond from the islands for parts beyond the seas, to wit, the Empire of China. The plaintiffs were about to file a bill in equity against Chang See Yun for the purpose of setting aside certain fraudulent conveyances made by him of the assets and property. The plaintiffs were informed that the defendant intended leaving in the Korea, and applied at once for the writ of ne exeat.

The wife of Chang See Yun stoically bore her disappointment on being prevented from sailing back to the land of her birth, and quieted the children, who wept bitterly on being taken down to the dock.

RICH LAND

—IN—

Central Kona
FOR SALE

By order of REINNE RODANET Trustee, I offer for sale those certain parcels of land situate at Onouli, South Kona, Island of Hawaii, described by Royal Patent (Grant) No. 1162 to F. O. Schulze, and containing 174 acres. Royal Patent (Grant) No. 2862 to Awaaku, and containing 739 75-100 acres, situate at Keopuka and Onouli, Island of Hawaii.

This is a tract of land of over 919 acres, situated in the most fertile and richest portion of the Island of Hawaii. It faces the new Government road which extends to the sea, and is five minutes walk from Kealahou Bay, by way of the old Government road which runs through the property. Portions of the land are already under cultivation.

This tract is so situated that it is about midway between Kailua and Hookeana, and five miles from Nanopoo, three most important ports of the Kona district. It has sufficient elevation, running up to fourteen hundred feet, to be particularly healthful, and its soil is well adapted to the growth of sugar cane, coffee, fruits, dairying, or for the promotion of diversified farming.

Occupants of this land have easy access to several ports for export, and with the advent of the Kona Railroad will find themselves in close communication with the thriving City of Hilo. This, of course, affords a splendid opportunity for the exporting of farm products to the California markets.

With the revival of the Kona Sugar Co., considerable portions of this land can be successfully planted to sugarcane.

This is one of the most splendid opportunities for a good investment that has been put upon the market for a considerable period of time.

MASSIVE OCEAN LINER KOREA LEFT
YESTERDAY ON VOYAGE TO THE ORIENT

P. M. S. S. KOREA ENTERING THE HARBOR.

(Photo by Rice & Perkins.)

When the liner Korea steamed into Honolulu harbor old Tantalus showed its pleasure over the event by permitting a brilliant rainbow to appear among the clouds scattered about its summit. Yesterday it gave the steamer a monster aloha in the shape of fine cloud effects and another rainbow which could be seen just as the steamer was leaving the dock. It was four o'clock when all the Korea's lines had been cleared away from the wharves and a moment later the tug Fearless was busy in pulling her stern out into the harbor.

Before the vessel had finally been turned so that her bow pointed toward the channel she had been drawn back nearly to the Oceanic wharf and in this position her great size could be appreciated more readily than at any time since she had been in port. "She practically filled the harbor," said one man.

The Korea carries a large number of people from Honolulu. In addition to her European passengers from this port three hundred and fifty Jap and Chinese passengers embarked here. This is a larger number than has left here for the Orient on any vessel since annexation. The "European" passengers from Honolulu were Frank Vida, J. F. Bishop and wife, Mrs. M. F. Childs, Mrs. E. W. Hinkle, John Reid, Jr., Mr. Goddard, Mr. Sturgis and Mr. Eager. As the vessel was going out the channel Vida, loaded with leis, was the last person that could be seen and he was waving a hearty farewell to all of his many friends here.

The scenes about the wharf and on the vessel before her departure were

almost indescribable. Hundreds of people stood for two hours on the hot cement and hundreds more were parading the decks of the steamer. On the promenade deck the Territorial band was dispensing its best selections. No steamer enters this port that has larger promenade deck than the Korea. One imagines in strolling up and down it that he is on a large pavilion at some far away Long Island seaside resort. The band, people in holiday attire, a grand ocean view, and in front and beneath—for the promenade deck is thirty feet higher than the level of Honolulu—the panorama of the city makes the scene one to be remembered and admired. "The Stars and Stripes," in honor of the vessel's flag, followed by Hawaiian airs, and many other airs familiar to those who leave Honolulu by steamer were well played. Mrs. Alapai and Miss Keilua seemed to sing with greater enthusiasm and with more force and sweetness than ever before. Grizzled old Captain Seabury, the proudest old man on the Pacific today, waltzed about the decks nodding to this one and shaking hands with that one until he must have been much fatigued.

Passengers led friends around and showed them the sights. One man, a grey-haired one at that, was leading an old friend and finally showed him a pling pong table on the deck. Both laughed at some joke until their sides were hoarse. The continual cry of the Chinese gamblers and the rattle of dice in small China boxes among the Oriental passengers in the after portion of the ship could be heard above all other noise. On the fore's head a quartermaster was telling the story of the Korea's lost anchor. He declared that the missing one had twice held the vessel from going to certain destruction on the rocks in the Straits of

Magellan during tremendous storms while the vessel was making her trip around from New York. He thought it had played a mean trick by breaking, after standing such heavy strain, with only a small strain upon it while the vessel was anchored off the Golden Gate.

On the Iroquois at the other side of the wharf Captain Rodman was entertaining the senatorial party and their friends.

There were hundreds on the wharf who could not gain the deck of the Korea. They stood measuring her with their eyes. One woman remarked: "I wonder how deep that vessel goes down into the water?" Another answered: "It sets up so high it must set down quite a distance." This took the cake.

As the steamer was towed into the stream a rousing cheer was given on board for "the senators" and an answering shout of hearty good will for the skipper and passengers of the Korea went out from the Iroquois.

Captain Seabury stated before leaving port that he might be able to make some speed on the return trip. "You see," he explained, "we couldn't get a crew in San Francisco. The government would only allow us to take such Chinese from the Gaelic as we could prove had been members of the City of Peking's crew. The remainder they refused to let us have on the grounds that they were contract-laborers. But on our return trip we will have a full crew and it may be possible that we will come along a little quicker than you might expect."

Captain Seabury looks the picture of health now and declares that he feels a few years younger than he has for sometime. All of the passengers on the vessel declare that she is a splendid sea boat and that she rolls very little.

WANT A BUILDING
FOR HAWAII

Exposition Association Sends Plans
So as to Receive
Estimates.

Reading of the many claims for space now being made upon the St. Louis Exposition management, and determined that Hawaii shall have as good a showing as any other part of the country, the Exposition Association met yesterday morning and took steps which will lead to an early settlement of the question as to the building which will be erected for the Territory and the amount of expense which will be attached.

When the association was called to order by President Irwin there was a good attendance, and the first business was of importance. Letters were read from the headquarters of the Exposition society which showed the interest felt there in Hawaii. There has been tendered all the assistance of the officials in the matter of site and building, and as a result of this plans for a building for the Territory were ordered sent on with a request for an estimate of the cost of construction. The proposed headquarters for Hawaii will be a two-story cottage, to be finished in tropical style, built of wood and covered with staff, so as to give the effect of a stone structure.

The plan was not entirely satisfactory, as some of the members were of opinion that there might be a much more tropical building erected. It is probable that there will be submitted later other plans, of the same relative cost, so that the association may choose between them. The building which is now under consideration will be of two stories, and approximately of fifty feet square, there being something like 5,000 square feet of exhibition space in the structure.

The association adjourned to meet at the call of the chair.

WHAT IS PAIN BALM?

Chamberlain's Pain Balm is a liniment and, while adapted to all the ordi-

nary uses of a liniment, has qualities which distinguish it from other remedies of this class. Pain Balm is especially beneficial for rheumatism. Thousands of cases can be cited in which it has effected a cure when the sufferer had previously tried the best medical service without securing relief. Pain Balm is positively guaranteed to give relief in the most severe cases of chronic or acute rheumatism.

Pain Balm heals bruises, burns and scalds in less time than any other treatment. It is "antiseptic" that is, it prevents putrefaction and by so doing, generally prevents an unsightly scar remaining after the injury is healed. For lame back, lumbago and neuralgia, Pain Balm has no equal. It has the quality of "getting to the right spot." No sufferer from these distressing affections should defer a trial of this remedy. One application gives relief. Try it. Benson, Smith & Co., Ltd., wholesale agents, sell it.

Frame fitting.

Few glass wearers realize the importance of properly fitting frames.

This MAY seem of minor importance to you, but your comfort and that of your eyes depend much upon the set and fit of the frame.

Without proper proportions and adjustment of the spectacles or eye glass frame, it is impossible to derive the full amount of benefit from your glasses.

We make a specialty of frame fitting as well as eye fitting, and guarantee an exact and correct adjustment to all faces and eyes.

NEWS OF THE WATERFRONT.

THE AMERICAN SHIP JOHN CURRIER.

This vessel is a very fast sailer and since leaving Puget Sound has broken three records for quick passages, being those between the Sound and Capetown, Capetown and Newcastle, and the latter port and Honolulu. She is under the command of Captain Murchison. The above photograph was made while the vessel was at Capetown and shows the celebrated Table Mountain which rears itself at the back of the South African city.

KOREA IS LIABLE TO A LARGE FINE

Came Into Port With Seals Broken and is Liable to \$500 Penalty.

A breach of the customs regulations may cost the Pacific Mail Company a fine of \$500 as a result of the first visit to Honolulu of the big steamer Korea. When the new liner arrived in port Saturday and was boarded by the customs inspectors it was discovered that the seals placed upon the starboard cordage room by the United States officials at San Francisco had been broken open and replaced by seals of the Pacific Mail Co.

Upon investigation it was learned that these seals had been broken by mistake, and the twenty barrels of whisky, advertising matter, etc., contained in the cordage room had not been disturbed.

It seems that on the trip to Honolulu on September 3rd the bartender aboard the Korea became intoxicated and was so loud and boisterous as to disturb every one in his vicinity. The second officer on the steamer was ordered by Captain Seabury to place the man in custody in the port cordage room which was empty. Force was necessary, and the bartender created such a disturbance that the second officer forgot all about the order and tried to place his man in the starboard cordage room, in which were the bonded stores. The seal was broken and the door opened before the mistake had been discovered, and then the drunken man was taken to the proper place of custody in the port cordage room. Purser Thompson was then notified and the room was again sealed up, but with Pacific Mail Co. seals.

The federal authorities are now investigating this breach of the regulations. Under the statute a fine of \$500 may be imposed for such a violation of the law.

"HARBOR NEEDS MORE WATER"

Captain Seabury's Way of Speaking of Deficiencies in Port of Honolulu.

"What does Honolulu harbor need to have done to it to give it accommodations to handle a vessel like the Korea or the sister vessel Siberia properly? I will tell you. It needs more water in it." This was the briefly expressed opinion of Captain Seabury of the Korea in discussing the inability of the big liner to get alongside of the Pacific Mail wharf.

The Korea could not approach closer than within twenty feet of the Mail wharf. When she got that close she struck a mud bank and could not be moved closer alongside. Later she was put into the Navy wharf which has been dredged to a depth of thirty feet and is the only wharf in Honolulu that can properly berth the Korea at the present time. Even the Navy wharf was not long enough for the vessel as her stern stretched out past the end of the wharf for a distance of over sixty feet so that the baggage of Chinese passengers embarking here had to first be loaded on to Hackfeld's scow and then transferred again to the after deck of the Korea.

It is understood that work will be started at once in dredging out the Pacific Mail dock to a depth that will accommodate the Korea, and the Siberia which is expected at the end of this year.

CAPTAIN MURCHISON OF THE AMERICAN SHIP JOHN CURRIER.

NEVADAN HAD DAY'S LATER NEWS

The Oil Burner Made a Good Run From the Coast.

The oil burning steamer Nevadan of the American-Hawaiian Steamship line arrived in port yesterday afternoon after making a good run in eight days and two hours from San Francisco, having left that port at ten a. m. on Sunday, August 31st. She carries no mail but brought copies of the San Francisco Sunday papers of the morning on which she departed which contained one day's later news.

Captain Weedon is elated over the success of oil burners in his steamer. He says that they have given even better satisfaction than was expected. On the trip down from the Coast they had no difficulty in keeping up two hundred pounds pressure of steam while using only a moderate amount of oil. The vessel is berthed at the Railway wharf. She has about a thousand tons of cargo for Honolulu and two thousand tons for Kahului. Among her cargo are two thoroughbred horses and two milch cows, one of the latter giving birth to a calf just before arriving here.

Fire Has Disappeared.

Late yesterday afternoon President Wright of the Wilder Steamship Company received the above message by telegraph from Manager Waldron of the Volcano House. There was not another word, to convey the cause of the subsidence; but the message bears the date of September 8th, indicating that there was no time lost in notifying the people here of the darkening of the lake of fire.

For Sprains, Swellings and Lameness there is no better liniment than Chamberlain's Pain Balm. Thousands can testify to the merit of this remedy. One

application gives relief. Try it. Benson, Smith & Co., Ltd., wholesale agents, sell it.

JAPANESE STATESMAN

Viscount Watanabe Entertained in Town.

Viscount Watanabe, ex-Minister of Finance of the Empire of Japan, and the man who steered the country through the grave financial responsibilities of the Japan-Chinese war in 1894, departed in the Korea for Japan yesterday afternoon after a pleasant two days' stay in Honolulu as the guest of K. I. Imanishi of the Yokohama Specie Bank. His son, and Mr. Matsugata and his wife were also of the party. On the arrival of the big ocean grayhound Saturday afternoon Viscount Watanabe was met by a delegation of the representative Japanese business men of Honolulu, and later was driven to the residence of Mr. and Mrs. Imanishi. In the evening a dinner was given in honor of the distinguished statesman at the Imanishi residence, covers being laid for thirty-two guests. Among those who were present were the leading Japanese merchants, bankers, physicians of the city and the attaches of the Consulate. Addresses were made and the Viscount told of his appreciation of the cordial greeting given him by his countrymen in the middle of the Pacific Ocean.

On Sunday the party was driven about the city and every opportunity afforded that Honolulu should be thoroughly comprehended in the drive. Pacific Heights was ascended and the Viscount there stated that he had not before realized that Honolulu was so extensive. He admired everything and thought the Islands had a splendid commercial outlook. The presence in port of the big steamship Korea, on which he was a passenger, was touched upon as the forerunner of greater commercial possibilities both for Hawaii and his own country.

A luncheon was given yesterday for the Viscount and he was afterwards driven to the steamship where a number of Japanese were waiting to bid him good-bye. In a brief talk with an Advertiser reporter Viscount Watanabe said the islands were much greater in extent and commercial possibilities than he had supposed. He admired the city very much and hoped he would have an opportunity to again visit here. He is returning to Japan from a tour of the world which was taken for the benefit of his health and also for the purpose of studying the financial systems of foreign governments.

Mr. Matsugata, who will some day become a Count, is returning from a tour of the world and joined the Viscount at San Francisco. He spoke in glowing terms of the delight he had experienced in coming to Honolulu and was very glad that the Korea had remained here for two days, as it gave him ample opportunity to learn more of the city and the islands and of his people here than otherwise.

SHALL WE DISPUTE

The Opinions of Scores of Our Fellow Citizens.

Residents of Honolulu, like other American citizens, in making an investment want to be sure of getting the worth of their money. They want to know all the whys and wherefores, and in a direct ratio to the value of the investment they burrow and ferret until satisfied with the collateral. Take an instance in the realm of proprietary articles. If we know of a friend who has been cured we have some faith in the preparation; if we know of two or three our faith increases. If the cures reach scores all well known citizens, anyone who still maintains that there is nothing beyond ordinary merit in the said preparation, can safely be left to the care of his fellow tax-payers. If he wishes to pick a quarrel with them on the question of their judgment and veracity, he has ample opportunity in Honolulu to do so. Begin with this case.

Mr. H. H. Smythe, of Inter-Island S. S. Co., this city, writes to tell us that he was afflicted with a lame back for a number of years. "Ascribing the cause of this to the kidneys and hearing about Doan's Backache Kidney Pills, I got some of them at the Hollister Drug Co.'s store. They relieved me so much that I am perfectly satisfied with the result of having taken them, and can recommend the pills to others, suffering from backache."

Doan's Backache Kidney Pills are becoming popular in Honolulu because they are always endorsed by Honolulu people. Doan's Backache Kidney Pills are sold by all druggists and storekeepers at 50 cents per box (six boxes for \$2.50) or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

Have you seen the round cornered doors and chilled steel plate lock mechanism protection of the Diebold safes and vaults? Pearson & Potter, agents.

ONLY TWO

Lots left on King Street in the PAWAA TRACT, but the 8 lots now remaining on Young Street are equally as good for a home and more quiet and just as convenient to the ELECTRIC CARS on account of the very artistic lane which is now being laid out and which runs through the center of this property to King Street. The contract is now let for macadamizing Young Street through this property, thereby rendering it a beautiful drive-way, city width, running through from Punahou to McCully Street; but the choicest lots of all yet remaining unsold in this tract are those on Beretania Avenue opposite the beautiful Dillingham Place, as they face the mountains and are the highest lots in the tract. The terms and prices for which these lots can be bought are the most reasonable this side of Chicago, for if you wish to buy a lot you can do so from \$50 to \$100 down and \$10 a month for which you will receive a Warranty Deed with the title guaranteed as perfect. If you want to buy a home, house and lot and a for from \$1,500 up on easy terms, do not fail to visit the Pawaa property at once for the price of this property will positively be advanced 20 per cent after the 15th of this coming month. Welch & Company writing from San Francisco to their local correspondents, Castle & Cooke, with reference to the sugar market, under date of August 30th, say in brief:

Centrifugals—There has been no change in the price since our last advices; and there is very little of interest to report concerning the market, other than that holders are not disposed to yield anything. On the other hand, the market being quite well supplied and with sufficient supplies in sight for the near future, buyers are not very anxious. But two sales have been reported since our last, viz.: Aug. 26th, 500 tons spot 3½c.; Aug. 28th, 200 tons to arrive 3½c.

Granulated—There is no change in price.

Beets—Have fluctuated but a little, closing at slightly reduced prices.

A. S. R. Co.'s Stock—We give you below the closing quotations day by day:

August 23rd, \$132½, \$120½; 25th, \$133½, \$121; 26th, \$132½, \$121; 27th, \$132½, \$121; 28th, \$132, \$121; 29th, \$131½, \$122.

FROM WILLETT & GRAY.

The Week—Raws declined 1-32c. to 1-16c. Granulated unchanged. Net cash quotations this date are: Muscovados, 2.875c.; Centrifugals, 3.375c.; Granulated, 4.41c. Receipts, 34,376 tons. Meltings, 45,000 tons. Total stock in Four Ports, 137,515 tons, against 148,139 tons last week, and 199,616 tons last year. Beet Sugar quotations, f. o. b. Hamburg, 68, 2½d. per cwt. for 88 deg. analysis, equal to 3½c. for 96 deg. test. Centrifugals at New York. First marks German Granulated f. o. b. Hamburg, 7s. ¾d., equal to 4½c. New York, duty paid.

Estimated afloats to the United States from Cuba and West Indies, 45,000 tons; Javass, 240,000 tons; Hawaii, 45,000 tons; Europe, 3,000 tons; Peru, &c., 10,000 tons; total 345,000 tons, against 335,000 tons last year.

Spot Foreign Granulated—The demand is light and the supply moderate. Fine Austrian, 4.40c. asked. For import Dutch Granulated, prompt shipment, 9s. ¾d. c. and f. Fine Austrian Granulated for prompt shipment, 8s. 10½d. c. and f.

This week's summary of the statistical position shows stocks in the United States and Cuba, together, of 382,515 tons, against 426,129 tons last week and 278,080 tons last year, an increase of 104,435 tons over last year.

Statistics by Special Cables—Cuba.—The six principal ports: Receipts, 3,000 tons; Exports, 35,800 tons; Stock, 245,000 tons, against 87,464 tons last year. 2 Centrifugals grinding, against 1 last year. Europe—Stock in Europe, 1,624,000 tons against 715,101 tons last year. Total stocks of Europe and America, 2,006,515 tons against 993,181 tons last year at the same uneven dates and 2,610,949 tons at the even date of July 1, 1902. The excess of stock is 1,013,334 tons, against an excess of 1,067,399 tons last week, and an excess of 556,682 tons January 1, 1902.

Hamburg—2,000 tons refined sugar shipped to America. 1,000 tons freight engaged.

Raws—The week under review opened with a rather easier tone on sales at 3½c. for 96 deg. test Centrifugals, 2½c. for 89 deg. test Muscovados and 2½c. for 89 deg. Molasses sugars, showing a decline of 1-32c. to 1-16c. This reaction was due to the indifference of refiners who have large supplies on hand and aloft, and to the reluctance on the part of holders to risk the expense of storing their sugars. There is no probability, however, of any great quantity being put on the market and pressed for sale in the immediate future and, notwithstanding large arrivals are expected during the next few weeks, the indications are that such unsold sugars as may come in can be readily placed on basis of 3½c. for 96 deg. test. Holders of sugar in Cuba are not offering freely, as they hope to do better than the last price obtained, which was about 1 9-16c. c. and f. basis 94 deg. test. A steamer cargo of Javass, for August, has lately sold at 8s. c. and f., equal to 3.47c. duty paid for 96 deg. test. This cargo will be due to arrive in October. Sellers are now asking 8s. 1½d. c. and f. for August-September shipment. A large part of the Java crop will be shipped, unsold, in sailing vessels for which charters have been made to the extent of 120,000 tons. These sailers should arrive in February, March and April next year, when they will compete with the next Cuba crop.

The European market ruled quiet and steady during the greater part of the week, but closed firmer at an advance of ½d. per cwt. The improvement there is due partly to the exceptionally cool and rainy weather experienced in the principal sugar beet districts of Central Europe, where a spell of dry, warm and sunshiny weather is needed, as recent tests show that the crop has fallen off in weight and saccharine compared with the crops of the last few years.

Beet contracts for May delivery are offered today at 7s. f. o. b. Hamburg.

A month ago we stated that the Cuba crop was likely to give an output of considerably over 800,000 tons. The visible production now amounts to 816,000 tons with two central grinding and, allowing for receipts for the remainder of the season, on the same basis as that of last year, the total crop of the island will probably reach 840,000 tons. The exports from Cuba for the week are large, amounting to 35,800 tons.

Receipts at United States Four Ports are not very heavy this week, being 34,376 tons, or say, 11,000 tons less than requirements for meltings, but there is so much sugar from Cuba, Hawaii and Java, near by, that the arrivals next week may reach 60,000 tons. Under such conditions we cannot expect any immediate improvement in prices, but the indications are that they will remain steady.

Refined—The demand has been moderate throughout the week, while list prices have remained unchanged, with Arbuckle 10 points lower than others on soft grades. American and Howell allowed a concession of 5 to 10 points on such grades of softs as were not oversold, from time to time, but all refiners have been firm on granulated and other hards and the indications are that prices will be maintained for the immediate future. There is a little delay in shipments, of certain grades, therefore buyers should not let their stocks run too low. Refiners will book orders to thirty days delay, if required, and give guarantee to arrival.

The distribution is good from the many distributing points where refiners have sugars on consignment. The demand should be good throughout the next four or six weeks, as there is bound to be a very large actual consumption during that period, especially for canning purposes. We are publishing reliable reports from our correspondents in various parts of the country in response to our special enquiry, and these show that in most of the territory the fruit crops are much larger than last year while the local stocks of sugars are very light. The refineries are thus insured a busy season.

Cuba—Press reports from Havana state that it is unlikely any attempt will be made at present to float the proposed loan of \$5,000,000 as the movement is not supported by President Palma and his Cabinet. In an interview yesterday, President Palma is reported as saying:

"I am opposed to trying to float a large loan until the Administration can establish the fact that it can run the Government economically and end up its first year's experience with a surplus. I appreciate the fact that we have not established any credit, and that we cannot expect to borrow money advantageously now. The budget has not yet been made up, and until this is done it would be folly to go on the market for a large loan. I would advise, for the present, a loan of \$4,000,000, to be distributed among the cane growers of the island; this would stimulate industry and put money in circulation among a class in this country whose sad condition, I fear, is not realized in the United States."

Porto Rico Crop—Ponce, P. R., Aug. 12th, 1902.—"According to our calculations the sugar crop of 1901-1902 will not exceed in production 85,000 tons, taken in all. The steamer "San Juan" loaded here a couple of days ago 9,000 bags of Centrifugal sugar which were sold and shipped direct to New Orleans. We understand that the price paid therefore was 3 1-16c. c. i. f. We now calculate that after this shipment there will come forward in our island from 17,000 to 18,000 tons more, which will complete the balance of our crop, and then the above mentioned quantity of 85,000 tons will be reached. The prospects for the coming crop remain bright, although the drought is making itself felt as regards the canes, which need some showers, but as the rainy season makes its appearance about the middle or end of this month, there is no danger of the said canes suffering to any extent. As all over the island the planting of sugar canes has increased, we have no doubt that the next crop will go beyond 100,000 tons. Our sugar market has been influenced by low quotations from your side and last sales were made at the rate of 3½c. cost and freight."

To the Public.

In order to accommodate children who wish to be admitted to the Kona Orphanage a new building should be erected. There are not sufficient funds to buy material. Five hundred dollars is needed. Those wishing to assist in raising this sum can leave the money at Bishop's bank.
