WANTED LANAI ISLAND.

Sheridan and Dr. Underwood on

Trial for Conspiracy.

NEUMANN & HAYSLEDEN TESTIFY.

Testimony Adduced at the Trial—Court

Room Crowded With Eager Spectators—Plea of Not Guilty—Motion to

Dismiss on Insufficiency of Evidence.

After many postponements the conspiracy cases against Dr. Underwood

and J. K. Sheridan came up for trial in the District Court yesterday morning.

The defendants appeared calm and serene, but showed signs of

incarceration. A large number of people were present to hear the trial

and they listened with rapt attention to the various witnesses who took the

stand to tell what they knew of the supposed conspirators. Among the

number were noticed Miss Kate Field, Minister Cooper, Attorney-General

Smith and Consul Mills. Both defendants pleaded not guilty to the charge

as read.

Paul Neumann was the first witness to take the stand. He told of Dr. Underwood

calling at his office on Dec. 1 and of how he had talked of the colonization

of the island of Lanai as a scheme worthy of consideration. He

did not take much stock in the vagaries of the gentleman, but listened in

respectful silence. Dr. Underwood expressed a desire to see Mr. Haysleden

of Lanai. For his part Underwood could not see why a colonization

scheme with Lanai as the center could not be carried out successfully.

He had been the head of a successful movement of the kind in

Guatemala.

Dr. Underwood called at Mr. Neumann's residence a few days later and

inquired for Mr. Haysleden. An appointment was made with him and

his friend Sheridan for the next morning. Dr. Underwood stated that there

was a sporting syndicate in the States that wanted very much to get hold

of the island of Lanai for the purpose of turning it into a Monte Carlo, where

prize fights, lotteries and the like could be carried on. Dr. Underwood

said a concession would be asked for at the hands of the queen, should she be restored. Arms could

be landed on Oahu and a march made upon the city of Honolulu. There

were 1500 men at Hilo who stood ready to subjugate the other islands.

The sporting men would advance the money if the queen would grant the

concession. Lanai was to be used as the base of operations. The conversation

of the men was rather vague and expressed nothing definite. No questions

were asked. What they said was done voluntarily.

On cross-examination Mr. Neumann said he knew nothing of the

movements or the intentions of the men. They might have been sheep-

herders or all he knew. Thought also they might have been a couple of

illustrious Government spies. Dr. Underwood said it would be of great

advantage to the sports on the Coast if they could have the islands, as of

late they had had a great deal of trouble bucking against the laws. When

he was told there were 1500 men in Hilo ready to take up arms just about

how much stock to put in it.

After making a profound bow to the Court, Mr. Haysleden, of Lanai, took

the stand and testified as follows: While playing billiards at the Hawaiian

Hotel some time in the latter part of October, the bell-boy of the hotel

came in and said there was a man on the outside who wanted to see me.

He gave his name as Underwood. They talked for about five minutes.

The men asked questions about the island of Lanai, and then said they

were interested in a colonization scheme. As I was about to leave for

Molokai on business, the men were referred to Paul Neumann, my attorney.

Went to see Underwood in the middle of November at his boarding-house

on Alakea street. He referred to men of capital who were ready to

invest their money if there was anything definite in the project. Told

the men I could not see how the thing could be brought about without

legislative enactment; also, that did not think they could get a franchise.

Underwood said he did not see why the queen had not been restored with

all the following she has. He did not speak of restoration in any other

terms than those mentioned. Mr. Haysleden said that a man whom he

was told was called Sheridan wanted to see him. He said he was a friend

of Dr. Underwood, and told substantially the same thing about the colonization

scheme as he had learned from Underwood.

Being cross-examined, Mr. Haysleden said that a definite proposition

had been made to him in regard to the matter of obtaining Lanai. Thought

probably the men were trying to get him into trouble, and was very careful

what he said.

Fred. Weed, of the Golden Rule Bazaar, was next called to take the

stand. He had met Sheridan in the store through his own introduction.

Sheridan commenced to talk to him about politics at once.

Informed him that knew nothing at

all about politics. Upon being asked who was the best person to be seen in

regard to a proposed uprising, referred him to Sam Nowlein. Sheridan also

wanted to know if witness was acquainted with the locality of any

guns; referred to his partner, and said they had come down for the purpose

of stirring up a revolution to overthrow the Government. Said his

name was Morrow, and referred to a piece in the San Francisco Chronicle

of August 15th regarding him.

Weed admitted on cross-examination that he had four interviews with

Sheridan. Upon being asked how strong the Government was, he answered: "Just strong enough to take

care of themselves." Sheridan asked for a letter of introduction to Paul

Neumann; request refused.

Dr. Tucker testified that he was a passenger aboard the S. G. Wilder on

her last trip to this port; the defendants were both fellow passengers;

spoke to Dr. Underwood on the first Sunday after the arrival of the vessel;

had become aware that the men were under police surveillance; on the voyage

from San Francisco Underwood had been very kind to my daughter, who is a

helpless cripple; this made me feel very kindly toward him, and

upon learning of the watch that was being maintained against him, I

was determined to do what I could for him; called him to my room in the

Arlington and there quizzed him; Underwood told a straightforward

story; said he knew about the movements of would-be filibusters on the

Coast, but that he was in no way connected with them; further stated

he would be very willing to tell his story to the Government officials;

witness called on President Dole regarding the matter; next day the

President told him he had decided not to question the man; Underwood said

a syndicate of sporting men were ready to put up \$50,000; he also spoke

of wishing to get employment here.

Cross-examined, Dr. Tucker stated he learned almost immediately after

the arrival of the Wilder that the men were under surveillance; Dr. Underwood

was perfectly willing to communicate all the facts in his possession to the

Government.

Dan Mackenzie, keeper of the lodging house where the defendants

resided before their arrest, was the last witness. He said the men came to

his house immediately after the arrival of the Wilder; there were four

in all; one had already gone back to the Coast, and the other was with

him yet. Sheridan and Underwood did not room together; between their

rooms was another occupied by a lodger; could not tell whether the two

men were very intimate; both men had looked for work; Underwood

had been successful in finding employment with the new ice company.

A. G. M. Robertson, attorney for the defense, made a motion that the

case be dismissed on the ground of insufficient evidence. Judge Perry took

the motion under advisement until Tuesday morning.

RECEPTION LAST NIGHT.

Musicals and Dance Given by British Commissioner Hawes.

Mr. A. G. S. Hawes, the British Commissioner, gave a delightful

musicals and dance at the Legation, Palama, last evening, in honor

of Captain Napier and officers of H. M. S. Wild Swan. The interior of the

house was prettily decorated for the occasion. Among those present were

President and Mrs. Dole, H. E. Cooper, Minister of Foreign Affairs, and

Mrs. Cooper; Mons. Vizzavona, acting French Commissioner; T. R. Walker,

British Vice-Consul, and Mrs. Walker; U. S. Consul Ellis Mills and Mrs.

Mills, U. S. Vice-Consul Boyd and Mrs. Boyd, F. A. Schaefer and wife,

H. Renjes and wife, Miss Kate Field, Dr. and Mrs. J. S. McGrew, Miss

McGrew, Ovide Musin and wife, H. A. Widemann and wife, A. T. Atkinson

and wife, Miss Atkinson, Marshall Brown, B. F. Dillingham and wife,

Bishop of Honolulu and Mrs. Willis, Dr. Wood, Dr. and Mrs. Herbert, Rev.

Alex and Mrs. Mackintosh, Paul Neumann, Chief Justice and Mrs. Judd

and others. Mr. Hawes was assisted in receiving by Mrs. T. R. Walker.

The musical program was as follows: Piano solo, Miss Mollie Atkinson;

song, H. M. von Holt; piano solo, Miss Harp song, Miss Kikumaru Ward;

trio for piano, violin and cello, Miss von Holt, Carl Widemann and Wray

Taylor; song, Mamma Widemann. Mrs. Musin sang "Annie Laurie" beautifully,

and Miss McGrew also gave a fine vocal number.

At the conclusion of the program dancing commenced to the strains of

the Quintet Club. An elegant supper was served in the dining room about

11 o'clock. The whole affair was most enjoyable, made so by Mr. Hawes,

who is a genial host.

Christmas Exhibition.

The Christmas exhibition of the Chinese Mission schools will take

place this evening, Dec. 24th, beginning at 6:30 o'clock, at the

Chinese church on Fort street. An interesting cantata, entitled "Shining

Stars" will be rendered. All friends are cordially invited to be

present. To those who have so generously aided in meeting the

expenses of the "Christmas treat" for the children, grateful acknowledgment

is here made.

The Eagle House has been refurnished throughout and will be

opened as a first-class family hotel on January 1st by John McLean.

Hawaiian Problem Dismissed
With a few Words.

NO RECOGNITION FOR CUBANS.

Sealing Question and Alaskan Boundary—Grateful Tribute Paid Japan
Samoa should be Left to Itself.
Favors Retirement of Greenbacks.

WASHINGTON, Dec. 3.—The following are the chief points in the President's message: Argentine confederation has admitted United States goods at reduced duties. The United States and Chilean claims commission is to be revived. In China the missionaries and their property should have steps taken for their protection. With France the Waller question is still in abeyance but there are evidences of French good will. The discrimination against American trade and American insurance companies in Germany are typical of countries whose productions are similar to those of the United States. The relations with Great Britain, always intimate and important, have demanded greater consideration than last year. The Behring Sea, the Alaskan boundary, the Canadian boundary and the Venezuelan question have all caused friction.

The Hawaiian Problem.

Early in January last an uprising against the Government of Hawaii was promptly suppressed. Martial law was forthwith proclaimed and numerous arrests were made of persons suspected of being in sympathy with the Royalist party. Among those were several citizens of the United States, who were either convicted by a military court and sentenced to death, imprisonment or fine, or were deported without trial. The United States, while denying protection to such as had taken the Hawaiian oath of allegiance, insisted that martial law, though altering the forms of justice, could not supersede justice itself, and demanded stay of execution until the proceedings had been submitted to this Government and knowledge obtained therefrom that our citizens had received fair trial. The death sentences were subsequently commuted or were remitted on condition of leaving the islands. The cases of certain Americans arrested and expelled by arbitrary order without formal charge or trial have had attention, and in some instances have been found to justify remonstrance and a claim for indemnity, which Hawaii has not thus far conceded.

Mr. Thurston, the Hawaiian Minister, having furnished this government abundant reason for asking that he be recalled, that course was pursued and his successor has lately been received. To Japan a grateful tribute is paid. The Guatemalan and Mexican boundary dispute is alluded to, as also is the occupation of Corinto by British naval force. Of Russia the message says: Correspondence is on foot touching the practice of Russian Consuls within the jurisdiction of the United States to interrogate citizens as to their race and religious faith, and upon ascertainment thereof to deny the Jews passports or legal documents for use in Russia. Inasmuch as such a proceeding imposes a disability which, in the case of succession to property in Russia, may be found to infringe the treaty rights of our citizens and which is an obnoxious invasion of our territorial jurisdiction, it has elicited fitting remonstrance, the result of which, it is hoped, will remove the cause of complaint.

Samoa should be left to itself. The belligerency of Cuba is not recognized and United States citizens are warned against interfering. Military arrests of citizens of the United States in Cuba have occasioned frequent reclamations. Where held on criminal charges their delivery to the ordinary civil jurisdiction for trial has been demanded and obtained, in conformity with treaty provisions, and where merely detained by way of military accusation under a proclaimed state of siege, without formulated accusation, their release or trial has been insisted upon. Of Turkey it is said: On the demand of our Minister, orders have been issued by the Sultan that Turkish soldiers shall guard and escort to the coast American refugees. These orders have been carried out, and our latest intelligence gives assurance of the present personal safety of our citizens and missionaries. Though thus far no lives of American citizens have been sacrificed, there can be no doubt that serious loss and destruction of mission property has resulted from riotous conflicts and outrageous attacks. The new consulates at Erzeroum, Eski-Dag and Harput, for which appropriation was made last session, have been provisionally filled by trusted employees of the Department of State. These appointments, though now in Turkey, have not yet received their ex-equats.

The consular service receives lengthy notice. In view of the growth of interest in foreign countries the service needs expansion and improvement. The message concludes with a lengthy exposition of the financial situation, which may be summarized with the withdrawal of greenbacks and advice against the free coinage of silver.

Comments on the Message. Congressman Bowers said: "The contemptible foreign policy which has made every true American ashamed is well illustrated in the message where it refers to Hawaii and the Waller case. It 'insisted' in the case of little Hawaii, but 'requested' of great France; sends the Hawaiian Minister home, but is delighted that

France proposes some time to arbitrate. Two years ago Cleveland was convinced that the Sherman law was the cause of all our troubles. Its repeal proved him a false prophet. Now he is convinced that the only practical remedy for our troubles will be found in the retirement of greenbacks and the issue of more bonds.

Congressman Barham—The President seems tired. The message is conspicuous for what it does not contain. It has only a passing reference to the Cuban neutrality laws, nothing upon the Nicaragua canal, and a few words about Thurston disposes of Hawaii. His financial idiosyncrasies are not new. He says nothing beyond what was anticipated. Mr. Cleveland is a success in one direction. He brings ill health to everything he has anything to do with. He has sickened his own party, and he scarcely has any left.

Congressman Johnson—The message struck me as being very tiresome. I listened attentively to catch some reference to the Hawaii and Nicaragua propositions, but he omitted Nicaragua entirely and touched on Hawaii very gingerly. His words and words and words on his foreign policy were merely his same old song, and failed of interest. If he would do a little more and talk less I think he might be a greater success.

English Opinion.

The Daily News, the Liberal organ, will say that President Cleveland knows better than treat the Monroe doctrine as if it were a rule of international law. It is neither dignified nor politic for the administration at Washington to take up the quarrels of South American communities which do not observe the usages of civilized nations. America will find some day that this sort of patronage involves a corresponding responsibility and they will not like that at all.

Japanese Laborers Assigned.

The Japanese laborers ex China have been assigned to the plantations as follows: Pacific sugar mill, 50; Honokaa, 91; Waikeae, 50; Ewa, 50; Kohala, 40; Onomea, 40; Koloa, 25; Pioneer mill, 18; Kukuaii, 27; Hunuula sheep station, 3; Hutchinson, 30; Paahau, 50; Olowalu, 20; Oolaka, 50; Hilo, 25; Hakalau, 25; Kilauea, 40; Halawa, 40. Total, 649.

The majority of the laborers leave today by different steamers; the remainder will go Tuesday. There are 100 women in the lot, to be divided among the plantations according to an understood agreement.

Another Kealia Man Marries.

A year ago Kealia, Kauai, was somewhat noted for the number of bachelors residing there, but quite a change has been brought about there recently, no less than six marriages having been solemnized within the period of so many months. The latest to chronicle is that of Frank B. Smith, pay clerk, who returned by the Monowai with his bride, nee Miss Gertrude Chichester of Brooklyn, N. Y. The ceremony was performed at Jersey City, N. J., on December 2d, Rev. Dr. Warren of St. Mary's Episcopal church officiating.

Wild Swan Cricketers.

The cricket match between teams from the Wild Swan and the Honolulu Cricket Club Saturday afternoon resulted in a victory for the former with a score of 42 to 31. Only the first innings was played on account of the shortness of the afternoon. Some very good plays were made. Messrs. Read and Weston of the Wild Swan and Hatfield and Mackintosh of the Honolulu were the bowlers of the day.

It is understood that another game will be played between the teams on Christmas day.

Arrested for Larceny.

Y. Lee, an ex-member of the Salvation Army, is now in jail awaiting trial for larceny of a large amount of tobacco from the stand at the corner of Bethel and King streets about a fortnight ago. Captain Scott and others found two sacks of the stolen tobacco under the front steps of a house on Fort street next to the lodging place of Lee, which is opposite the circus tent.

Annexation Calendars.

E. O. Hall & Son are distributing a neat little calendar for 1896 to their friends on the islands. In the center of the metal piece, to which each one of these is attached, is a facsimile Hawaiian silver dollar, the coat of arms being surmounted by double stars, emblematic of the much-hoped addition to Old Glory.

UNDER THE CANVAS.

Performances of the Circus Saturday Largely Attended.

The circus tent was filled to overflowing with enthusiastic audiences at both the afternoon and evening performances last Saturday. As the stay of the troupe grows shorter the attendance increases, and more delighted crowds that witnessed the two performances on Saturday would be hard to find.

In the afternoon the children were largely in the majority and heartily appreciated the funnyisms of the clowns.

A realistic rendition of outlaw Dick Turpin's ride on his noble horse Black Bess was the main feature of the evening. The entire company took part in this act, and the sad death of the road agent's horse, after being chased many miles, brought down the house.

Lepers' Christmas.

The proceeds realized by Wray Taylor's concert at Kaunakapili church a short time ago have been put to practical use by that gentleman. There will go to the leper settlement on Monday by the steamer Lehua 6 croquet sets, 2 dozen baseballs and bats, music books for choir, strings for all kinds of instruments, assortment of music, 40 dozen assorted arated waters, games of all kinds, and cash to Mother Marianna and Brother Dutton; also croquet set and \$10 for children at Kalihi.

New Year's Eve Concert.

The committee in charge of the New Year's eve concert at the Y. M. C. A. are pushing every point to make the affair a success, and judging from the excellent numbers already obtained, the result desired will be attained. The principal musicians of the city will take part in the program. That announcement in itself is sufficient to attract a large number of people to the Y. M. C. A. on New Year's eve.

Christmas Music.

The service of the Second Congregation of St. Andrew's on Christmas day will commence at 9:30 o'clock when the following program of music will be rendered: Te Deum in D.....Vogrich Jubilate in F.....Schilling Anthem "Sing O Heavens".....Hall

From present indications the capacity of the trains to take the Christmas day excursionists over the O. R. & L. road will be taxed to their utmost capacity. Already a great many have signified their intention of taking advantage of the feature offered in order to obtain a day's rare enjoyment.

HAWAIIAN GAZETTE COMPANY

OF INTEREST TO MANAGERS
OF PLANTATIONS.

A Model Plant is not complete without Electric Power, thus dispensing with small engines.

Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pumps, Centrifugals, Elevators, Plovers, Railways and Hoists; also furnish light and power for a radius of from 15 to 20 miles.

Electric Power being used saves the labor of hauling coal in your field, also water, and does away with high-priced engines, and only involve one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers and all Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also attention is given to House and Marine Wiring.

NEWS BUDGET FROM MAUI

Report of a Strange Schooner Causes a Ripple.

Officers Chase the Smuggler—Stray Scribbles—Honolulu Visitors. Return of Residents.

MAUI, Dec. 21.—By far the most exciting bit of news on Maui during the week was the reported appearance of a smuggling schooner off Lanai. On the 11th Deputy Sheriff Carter and Baldwin, two captains of police and ten others, making up a party of fourteen men, took whaleboats at Lahaina and sailed for Lanai for the purpose of watching and capturing, if possible, a schooner with opium aboard. During that night the smuggler appeared and made signals by flashing lights, but as no answer was returned from the shore the schooner sailed away. The party "lay low" all day Thursday, and on Friday morning a boat, under the charge of Deputy Baldwin, intercepted the W. G. Hall and sent word to Honolulu concerning the course of events. On Saturday morning, as Sheriff Andrews had heard nothing from his deputies on Lanai, he chartered the steam launch Mohea and sent it in search of the party. The launch met the boats containing the police in mid-channel just returning to Lahaina. The customs authorities in Honolulu, upon receipt of the message by the Hall, immediately dispatched the tug Eleu, but failed to find any trace of the schooner.

STRAY SCRIBBLINGS.

Kula is famous for its fat turkeys. This year, as usual, during the holidays, a large number have been shipped to Honolulu. The price of a good-sized gobbler is quoted at \$2.

It is reported that a game of baseball will take place at Wailuku during Christmas. Wailuku and Makawao nines will cross bats. Per the Claudine of Wednesday, Mrs. von Tempy returned to Maui after a long visit in New Zealand. Her many friends are glad to welcome her back.

Mr. Van Dockam, Consul of the Argentine Republic to some city in Denmark, is at Mrs. H. B. Bailey's, Makawao.

Charles Copp of Makawao has returned to his old vocation and is boiling sugar at the Wailuku mill. A crayon artist advertises to illustrate evolution by means of a "chalk talk" at Makawao, December 21st.

A new store has been established at Kokomo, a branch, so it is reported, of the Paia store.

Mrs. Roland Wilbur has just returned to Hamakua from a visit to her daughter, who is teaching school near Kailua, Hawaii.

During the week "Father" Bailey of Oakland has been making a brief visit to Maunaloa Seminary. The gentleman personally superintended the construction of this school some twenty-five years ago. Mrs. W. O. Smith and two daughters are guests of Mrs. H. P. Baldwin, Haiku.

During last evening the Young Ladies' Dancing Club of Makawao again came into social existence and held a pleasant meeting at the home of Miss Eva Smith of Paia. The Paia string band furnished lively music and dancing continued until after 11 p. m.

Maui presents the compliments of the season to Oahu, Hawaii and Kauai.

No shipping items. Weather:—Pleasant, with heavy trades blowing the most of the week.

SUCCESSFUL ENTERTAINMENT.

Pupils of St. Andrew's Priory Delight a Large Audience.

The entertainment at St. Andrew's Priory Saturday evening by the pupils was a great success. The schoolroom was crowded in every part. At one end was a raised platform, decorated with flags, evergreens and flowers. Among those present and occupying front seats were President and Mrs. Dole, British Commissioner Hawes, Sir Robert Herron, Mr. and Mrs. A. T. Atkinson, Dr. and Mrs. Myers, T. May, W. H. Baird, the Misses May, Miss Layton, Mrs. W. H. Clarke, Captain Napier of H. M. S. Wild Swan, Mrs. King, Mrs. Robertson, and others.

The program opened with a musical play by Diehl, "Quarrel of the Flowers." The pupils who represented the various flowers acquitted themselves, and the flowers were very realistic. The musical portion of the play was performed by Joseph Rosen (violin), Wray Taylor (cello), and Mrs. Stella

Cockett (piano), and was very effective. A German song, "Die Loreley," was next sung by a number of the smaller pupils dressed in white. Then came an instrumental trio played by Mrs. Cockett, Messrs. Rosen and Taylor. An extravaganza, "Our Toys," was very amusing and decidedly well played by the young ladies. The incidental music was capitally sang. Mr. W. L. Stanley gave "Queen of the Earth" with a pleasant baritone voice. A tambourine drill and Highland Fling in costume brought a most interesting and pleasing program to a close.

Nearly \$200 were realized. This afternoon the program will be repeated for the benefit of young children at an admission of twenty-five cents.

A young Chinese, Yin Tet, was ordained a deacon by the Bishop of Honolulu at St. Andrew's Cathedral Sunday morning in the presence of a large congregation. Among those present were British Commissioner Hawes, Captain Napier, officers and men of H. M. S. Wild Swan.

The wife of Mr. D. Robinson, a prominent lumberman of Hartwick, N. Y., was sick with rheumatism for five months. In speaking of it, Mr. Robinson says: "Chamberlain's Pain Balm is the only thing that gave her any rest from pain. For the relief of pain it cannot be beat." Many very bad cases of rheumatism have been cured by it. For sale at 50 cents per bottle by all dealers. BENSON, SMITH & Co., agents for H. I.

A MUSICAL FEAST.

Fashionable and Enthusiastic Audience at First Musin Concert.

A very fashionable and enthusiastic audience assembled in the Y. M. C. A. hall Saturday evening to hear the first concert by the Ovide Musin party, who arrived by the Monowai. Had it not been for many counter attractions, there is no doubt the hall would have been packed to overflowing.

It is about three years since Musin was here, and his wonderful playing at that time is still fresh in the memory of our music loving People. The program consisted of eight numbers and was a real musical feast. Musin was heard at his best, and his marvelous handling of the violin was a revelation to his audience. His reception was a brilliant one. Annie Louise Musin sang superbly, her sweet voice and fine execution being particularly effective in the first number, "The Bird Merchant." Loud applause greeted the gifted lady, who has many warm friends in this city.

As a solo pianist and an accompanist Edward Scharf ranks high, and it is a long time since such brilliant playing has been heard in Honolulu.

The company appear again this evening in a capitally arranged program, and there should be a large audience in attendance. See program printed elsewhere.

CHRISTMAS GREETING.

MERRY CHRISTMAS TO OUR READERS. Goodwill and good wishes pass from friend to friend, and the GAZETTE has many friends to all of whom we wish the very brightest compliments of the season. It is right that there should be some time in the year specially devoted to kindness and good will. Mankind is not unkindly at heart, but it is terribly choked up by cares and the selfishness which the struggle for life entails. One never sees the Christmas time come round but the spirit of the great prose-poet of Christmas rises before one's eyes. That kindly, whole-souled writer whose scenes and characters have gone straight to the hearts of the great Anglo-Saxon race, whose words are a treasure, who was the very spirit of Christmas, Charles Dickens. There will be generations of Scrooges but there will also generations of families like that to which Tiny Tim belonged to open the flinty heart and make it show the true metal of gold that lies within. This season makes us all think of the home land, with its snows, its cheerful hearths and above all the merry peal of its church bells, commemorating the birth of him whose whole teaching, however man may have perverted it, was love and peace. The Christmas Chimes are dear to every heart. We dedicate to our readers the following echo of

CHRISTMAS BELLS.

Chime, Christmas bells, in old cathedral tower,
O'er frozen field and snow wrapped vale,
Chime, Christmas bells, though storms may darkly lower,
Chime out to all the happy tale,
Of Peace on Earth!

Chime, Christmas bells, o'er southern sunlit shore,
O'er wave-kissed isle and fern-clad hill,
Chime, Christmas bells, and let your music soar
On high. To man proclaim Christ's will
For Peace on Earth.

Chime, Christmas bells, proclaim the end of strife,
Let love prevail, let faction cease.
Chime, Christmas bells, arouse to higher life
Our better selves. Proclaim sweet Peace,
Aye, Peace on Earth!

ALATAU T. ATKINSON.

THE opium smuggling case has gone over till today. We hear of some people in town looking very yellow about the gills. What all this, we wonder?

THE conspiracy case will be continued today. The evidence for the prosecution is published in our columns. On a case "sub judice" we cannot comment, but our readers will be able to form a good idea of the condition of the case so far.

WE quite agree with the Bulletin. It did good service to the Government when it poured ridicule upon the customs officials. It lulled the suspicions of the smugglers and so got them caught. Perfectly satisfied with your work, Bulletin.

WITH a teapot conspiracy nipped in the bud and the proof that opium cannot be landed with impunity, the agitators at the Coast will have quite an unhappy time of it. They will be hard put to it to prove that our police are inefficient and the whole machinery of government rotten.

ANOTHER instance of what Japanese competition can do has come to hand. A woolen firm in Oakland has set up, under contract, its mills in Japan, and finds that, even after paying duty upon the goods entering the States, it can undersell all competitors. It is not patriotic, but it is good business and shows the way the wind blows.

MINISTER HATCH arrived in Washington November 29th and was received by the President December 4th. At the same time that Mr. Hatch was received, Mr. W. R. Castle, the retiring Minister, presented his letter of recall. The remarks made on this occasion show that, in the first place, Minister Castle has, even during his short stay in Washington, established pleasant, official and private relations with the officials in Washington, notwithstanding the Cassandra-like prophecies of the unhappy here. President Cleveland's reply to Minister Hatch shows that

in an official way the course of Hawaii will be smooth with the government of the United States during the latter part of the presidential term, while the society standing of the Minister is alluded to in pleasing terms.

THE true character of people will come out in time. There has been an instance of this within the last month that will doubtless make a considerable change in the aspect with which the events of a couple of years ago are likely to be regarded in certain quarters. A keen sense of honor and honesty is not compatible with overhauling private papers in the absence of the owner.

THE Nicaragua Canal cuts no figure in the President's message. The present Congress will most probably pass the Canal bill and then President Cleveland will have to come out and either approve or veto it. It matters very little to us which way the canal goes, whether by Panama or Nicaragua but most decidedly from the point of view of the United States the Nicaragua route should have the strongest support.

GREAT credit is due to Marshal Brown for the promptitude with which he acted last Saturday. Marshal Brown is a cool-headed, careful man, ever on the alert and not to be caught napping. The police are his devoted followers, because they believe in him. When asked whether, after the schooner was sighted from the Marshal's boat, they would go back for the tug, there was no hesitation, as one man they said, "Go ahead for the Henrietta."

THE manner in which the Minister of Finance has handled his department reflects great credit upon both himself and his assistants. The coming financial statement will be a very satisfactory one, and this in the face of great difficulties. To finance a country through a revolution and an epidemic required decision and skill. That this has been done in the manner it has,

shows that the finances are being handled to the best possible advantage. The position of Finance Minister is no sinecure at any time, but it becomes a very heavy burden indeed during times of depression or public calamity.

THE entertainment to be given at St. Andrew's Priory should draw a large audience. Apart from the fact that the entertainment to be given will be a pleasure to witness, the object for which it is held is a very worthy one. St. Andrew's Priory has for nearly thirty years given a home and an education to hundreds of Hawaiian-born girls. The Sisters who preside over the institution have given their lives to the work. The cholera reduced the income of the school materially and added the expenses. To meet the deficiency the Sisters ask for aid from the community. It should be given liberally and with ungrudging hand.

THE letters to Mr. McStocker, Deputy Collector of Customs, published in our issue of today show how well informed our Customs officials are. They have means of knowing what most vessels sail with. Collector-General Castle and Deputy Collector McStocker are thoroughly efficient officials who have quietly attended to the management of their office. They have done their duty undeterred by the senseless howl of derision set up by people who would rather see dozens of cargoes of opium landed than have the Government officials succeed. With them it is anything to beat the officials, anything to thwart the most honest efforts. Slipped up this time. The opposition press was facetious a little too soon. He laughs best who laughs last.

THE women of Honolulu have produced a bright paper in the woman's edition of Time. The main object of the publication is to aid the Kindergarten movement, but aside from that there are articles, bright, argumentative, thoughtful and humorous, upon woman in Hawaii, her work at the present and her position in the future. The editors and writers prove that Honolulu women can unitedly give a lively paper and handle their subjects judiciously. In speaking of the "Possibilities for Women" no mention is made of the women who are principals of large mixed schools. The "possibilities" of woman in this direction are admirably exemplified by Miss Deyo of Hilo, Miss Malone of Waihee and Miss Angela Crook of Pahala. There are also some of the sex who have shown their aptitude in direct business as collectors and financial managers. We congratulate the women of Honolulu upon this edition of Time.

BOTH Republican and Democratic papers in the United States devote a great deal of space and much solid thinking to the financial question. Congress will have to consider some revenue measures for improving the natural finances and the necessity for currency reform is sure to come in for a large share of attention. Among many suggestions made some of the press urge relief by funding the Treasury notes of 1890, leaving the greenbacks undisturbed, which is by no means Mr. Cleveland's plan. Again others are in favor of a popular loan act, the passage of a bill authorizing a temporary loan by the issue of certificates and a very popular proposal is to add a dollar or even two dollars a barrel to the beer tax. Another proposal is to put a twenty per cent. duty upon tea and coffee. It is calculated that the extra tax upon tea, coffee and beer would raise the revenue three hundred millions of dollars. But taxing such articles is not likely to be popular. They are hardly the luxuries, they are now the necessities of the laboring classes of the community and such a tax would be apt to unite the temperance and non-temperance sections of the country. Speaker Reed in a caucus of the Republican Congressmen early in this

month counseled a policy of allowing things to wait. He said: "Rather than run risks we can afford to wait till well-matured plans give us assurances of permanent benefit. Crude and hasty legislation is above all things to be shunned."

THE MESSAGE.

THE President's message devotes a good half of its space to foreign affairs and the remainder to financial matters. The South American Republics come first under review. Japan and China occupy considerable space and it is announced that the relations with both countries are in a satisfactory condition. The diplomatic disputes with other foreign countries are next reviewed. The evidence adduced in the support of the charges against Waller has not been yet laid before the United States Government and the case at the time the message was delivered had not advanced beyond its preliminary stages. With Germany the trouble is over the rivalry in trade which excludes American food products from the German markets and, under certain circumstances the policy of retaliation is suggested. The disagreements with Great Britain refer to "several vexatious questions left unsettled by the Behring Sea canal arbitration tribunal." The Alaskan boundary is another source of trouble, as also the unsatisfactory line of delimitation along the lakes between the United States and Canada. The Venezuelan boundary question is treated in a very firm manner. The following words are very significant: "The traditional and established policy of this Government is firmly opposed to a forcible increase by any European power of its territorial possessions on the continent." The United States protests against the enlargement of area of British Guiana.

TO Hawaii the message devotes a very small space. It is practically non-committal. It reviews the royalist uprising of January last, and adds that certain cases coming under the military court had justified remonstrance. It might have added that, after the other side of the case had been presented, the "remonstrance" would not be much heard of. On the Cuban question a position of strict neutrality is urged, while in Samoa the withdrawal from the tripartite treaty is evidently shadowed forth.

THE financial part of the message is very lengthy. The suggestion is to withdraw greenbacks and replace them with bonds of small denominations bearing interest. The financial perplexities are laid largely to the laws of 1878 and 1890, which compelled the purchase of silver. In expressing himself strongly against the proposition for the free coinage of silver, the President admits that many of his countrymen, whose sincerity he does not doubt, believe in it firmly. His tone is courteous to his opponents, but is firm in the defense of his own argument.

THE message, as far as foreign affairs go, may be regarded as non-committal; it is the opinion of a man and a Cabinet who evidently expect to go out of office. In financial matters it is a statesmanlike document, written with infinite pains and intended to bear great weight in the immediate future.

THE OPIUM SEIZURE.

Oh no! neither the customs officials nor the police are any good. The use of the tug was a useless expense. It was filibuster that the Government boat was after. It was merely the groundless fears of the President that kept the officials on the alert. Thus the opposition press of the city. Well, the officials did keep on the alert and late on Saturday night a schooner with 1400 pounds of opium on board was captured off Keau, a little beyond Waianae. There was no fuss about it and the capture was made in a quiet and business like manner. Our authorities are certainly awake much to the sorrow of those who make a nefarious income out of the

import and sale of the drug. A most unwarrantable attack was recently made upon the Custom's authorities, in which it was charged, by innuendo, that some of them were implicated in the importation of opium. A more outrageous charge could not have been made. Our Custom House officials are men of tried integrity, well known among the community as incapable of the crookedness implied. Our police is composed of a trusty body of men, alert and fearless in the performance of every duty.

THE capture of the Henrietta is a feather in the cap of the authorities and will silence, for a time at least, the little knot of chronic kickers who sigh for the good old days when opium could be run in under the very noses of the officials. That it should silence them for good and all is not likely. Their grumbling is the salt of their lives and they do not intend to pass a flavorless existence. To check smuggling is one of the hardest things in the world, every civilized nation is troubled with it. Especially it is difficult to check on islands which have so long a sea-board as ours. Our authorities have all along shown the most commendable energy in trying to meet the difficulty and the capture of the Henrietta will certainly give the opium smuggling a very decided black eye. The opposition press has done the Government this good service, by constantly deriding our officials and representing them as venal, it has lulled the smugglers into a false security from which they have received a very rude awakening.

OF course the matter will come before the Courts and the schooner people will try to prove that they are but innocent traders who simply put into Keau for water. As they have told several different tales and had a very ample supply of water on board, the story has a very ancient and fish-like smell. It will have a very much stronger odor when all the information that the authorities have is laid before the public. Honor to whom honor is due, our officials have fully vindicated themselves and deserve the greatest praise. The chronic grumblers can give us a rest.

Hawaii and the Big Canal.

EDITOR ADVERTISER:—The eminent English geographer, Arthur S. White, in discussing the benefits of the Nicaragua canal in the current number of the North American Review, says, among other things: "In the question regarding Hawaii, America lost a favorable opportunity of acquiring a naval base that may be absolutely essential to her in the future—indeed, the chief strategic position in the Pacific."

"When the Nicaragua canal is opened British freight to San Francisco will be handicapped, as compared with cargoes from the Eastern States of the Union. At present the distance from New York to San Francisco, by Cape Horn, is 15,900 miles, and from Liverpool 16,900 miles, or 6 per cent. further; but when the canal is opened New York will be 4200 miles from San Francisco and Liverpool 8200 miles, or no less than 96 per cent. further, thus doubling the distance of Europe as compared with the Atlantic States from the Pacific Coast. ***

"In conclusion, I may be permitted to formulate a new doctrine, as against the Monroe doctrine:

"First, that the welfare of the United States of America is bound up with the maintenance of the British Empire.

"Second, that when the Nicaragua canal is opened the United States will be in a position to assume or reject the rank and responsibility of a world power; and

"Third, that the United States, in alliance with Great Britain and her colonies, would inevitably lead to the hegemony of the English speaking race." X.

FUNERAL OF MABEL VON SEGGERN. Mabel, the six months old daughter of William and Hannah Von Seggern, was buried yesterday in Makiki cemetery. The little girl had been sick for about two weeks with whooping cough. She was supposed to be recovering, when unexpectedly on Thursday she began to sink and died on Friday at 11 p. m. Mr. Von Seggern is an employee of the Ewa Plantation Company.

Timely Topics

FOR THE HOLIDAYS.

You often hear the remark made about "Silver Beauties" but we are the first to adopt the phrase "Aluminum Beauties."

These goods are one of the many useful as well as ornamental articles we offer our patrons for the holidays.

ALUMINUM TOILET SETS

These goods are something new in Honolulu and should be seen to be appreciated.

The sets consist of hand mirrors, comb and brush. They are guaranteed PURE ALUMINUM and will not tarnish like Sterling Silver, is not as heavy and has no plating to wear off. In speaking of the merits of the Hair Brush we are warranted in saying that it is the most sanitary brush made, the entire surface is aluminum, and the bristles besides being surrounded by the aluminum, are securely held in a strong cement that is absolutely unaffected by water, whereas the wooden blocks ordinarily used, quickly shrink from frequent wetting and drying and become loose, and it is impossible to keep them clean.

We have these sets in engraved back and raised gold filigree work. The combs in white celluloid and tortoise shell. The mirrors are of the best French plate and heavily silvered. These goods are remarkably cheap; you will be surprised when you hear the price. In connection with these goods we wish to mention our Pocket Whiskey Flask. This article is made of heavy silver with neat design in silver and enamel. Especially appropriate for gifts to your traveling friends.

The Bradley and Hubbard Lamp is the standard for the world. Where you see the stamp B. & H. on a lamp you can rest assured that you are getting the BEST. It gives the best light, is as easy to light as gas and has the double center draught. No soiling of hands in extinguishing or lighting of this lamp. We carry a fine line of this lamp in the Piano, (with stand) Banquet, Study, Hanging and wrought iron hanging styles.

Another neat contrivance is the 5 o'clock Tea Lamp, placed on a wrought iron stand with Brass Lamp and Kettle, and is a work of art in metal goods.

When making presents to your friends why not give them something useful instead of an article that is all for show. They will constantly use any or all of these articles we have mentioned, and consequently their attention will always be attracted to the articles and the donor.

DIAMOND HEAD CHARLIE.
 He is to Receive an Adequate Christmas Purse.
 The good people of Honolulu have not forgotten Diamond Head Charlie or his many good deeds during the past year. He is to have a substantial Christmas gift this year, as usual, with perhaps a much larger amount than on previous occasions. Col. J. H. Soper has taken charge of the matter and yesterday succeeded in collecting over \$85 to gladden the hearts of Mr. Peterson and his dear ones on the hill away from the bustle of the city. None who know the kindly and obliging lookout keeper will refuse to add their mite toward a generous fund for the watchman who is at his post day and night, ever on the alert for the sight of a sail or the smoke of a steamer, whether bound for this port or not.
 The citizens will have further opportunity to-day to subscribe, and it goes without saying that the purse will be an adequate one and in keeping with the good work accomplished by the veteran guardian whose life is spent in solitude that the people of the city may be kept posted on the arrival of all kinds of vessels.

A Significant Departure.
 With the departure of another year when a review is made of the condition of affairs, it is only right that some thought be given to the physical body which enables everyone to battle with life's problem and figure for themselves the profit or loss on the tria' balance sheet. Though the bank account may be large and each one's material gain be great, it would not be surprising if it suddenly dawned upon many that good health has been greatly impoverished by the low condition of the blood. It is in this state that the lactic acid in the vital fluid attacks the fibrous tissues, particularly the joints, making known the local manifestations of rheumatism. Thousands of people have found in Hood's sarsaparilla the great blood purifier, a positive and permanent cure for rheumatism. HOBBS DRUG CO., wholesale agents.

DARING ROBBER CAUGHT.
 Ah Loy, an Old Offender. Again in the Toils.
 Japanese Hotel Entered and \$236.60, Mostly in Gold, Taken—The Thief Makes a Confession.
 One of the cleverest and most deliberately planned robberies in the police record of the islands was perpetrated last Sunday night in a Japanese boarding house near the corner of Maunakea and Beretania streets by Ah Loy, an old jail bird, who is notorious for his many daring escapades in the matter of appropriating other peoples' property. Under cover of darkness Ah Loy, with deft fingers, obtained an entrance to the house and made off with \$236.60, mostly in gold.
 The details of the midnight robbery are very interesting, as they show how far practice makes perfect. According to the testimony of Japanese inmates of the boarding house for the past month or six weeks Ah Loy had been seen in the vicinity many times, and more often in front of the house which was robbed. Although the thief could not have entered without some of the Japanese seeing him, he was nevertheless acquainted with the minute details of the interior of the house, as seems to be well proven by his method of procedure.
 Entering an alley which led to the rear of the premises, he obtained a large chopping knife from the next house, and, walking to the back entrance of the boarding house, removed a slat, put his hand through, unlocked the door and found himself in the kitchen. He then walked to the bed-room of Nacayama, the hotel-keeper, who, with his wife, was sleeping soundly. The door was locked, but again having recourse to the knife the door was opened from the inside and the midnight prowler walked in. A dim light was burning on a chair and near it stood a flask of whiskey. To better prepare himself for the work before him Loy gulped down half the contents of the flask. Stooping over the Japanese woman, who was sleeping on the outside of the bed, he slid one hand under the husband's pillow and pulled out a bunch of keys. These he fitted into a trunk not three feet away and found the one containing money. The trunk was opened and the large amount of money mentioned, together with papers of value to the Japanese hotel-keeper, taken out. The thief did not deign to touch a gold watch which stared him in the face, and this was one of the facts which led to his apprehension later. Ah Loy, in his former escapades, was careful to take only money. He went out of the room and took the precaution to lock the door in the same manner as he had unlocked it, thus giving him advantage of his victims. He spread the papers out on the kitchen table, and, finding them of no value to him, left them scattered about the place. As he was pocketing the money, Nacayama awoke and, becoming alarmed, made a break for the door, receiving only a severe bump in the nose for his trouble. By the time he reached the kitchen Ah Loy was climbing various and sundry fences, in what direction Nacayama had no means of telling.
 Detective Kapaa got to work immediately after the matter was reported to him on Monday, and, after taking a calm survey of the thief's plan of action, he located his man, made a few inquiries, nabbed him, and, through clever manipulation, obtained from Ah Loy most of the money which he had taken, together with a confession of the crime which will assist materially in landing him behind prison walls.
 Ah Loy is a small, puny Chinaman, but "For ways that are dark and tricks that are vain," he takes the prize. His arrest does not seem to trouble him in the least, and he spent all day yesterday napping on a bench in the station house yard.

BIG CATCH OF OPIUM.

Schooner Henrietta Seized Near
Waianae Saturday Night.

FOURTEEN HUNDRED POUNDS LOT

Captain Claims to Have Put In in Dis-
tress—Passenger Arrested by De-
puty-Sheriff Sheldon—History of the
Cruise and Different Accounts, Etc.

There was considerable excitement in the circles Saturday afternoon when it was known that a strange schooner had come ashore, and one of the crew, who had come ashore, presumably for water, was under arrest. All kinds of stories were soon afloat, and much praise given Deputy-Sheriff Sheldon for bringing the supposed smugglers up with a sharp turn.

On Saturday Deputy-Sheriff Sheldon was notified by one of his constables that a small schooner had anchored off Keau and landed a passenger. Sheldon immediately started out to locate the man and the vessel. The man was met a short distance from Waianae and placed under arrest. The schooner was then located and notification sent Marshal Brown at once. Deputy Collector McStocker was communicated with and he immediately ordered the tug Elu to be placed in readiness. In a few minutes the tug was ready, and with Deputy Collector McStocker, Marshal Brown and a detail of police, set out for Waianae.

Sheldon was picked up near Waianae and the tug proceeded to the place indicated by that officer. When that point was reached it was deemed advisable on account of the hazy weather, that a small boat in charge of Marshal Brown, Deputy Sheldon and the police should pull along and come in to shore, while the tug followed further out. All lights were ordered out and strict silence demanded. After searching for about three hours a light was seen, the tug stopped and soon Sheldon came alongside and reported that Marshal Brown was in charge of the schooner, which was anchored very close in to shore, less than a distance of a quarter of a mile.

Deputy Collector McStocker, Surveyor Sanders and three policemen went into the boat, Sheldon remaining on the tug in charge of his prisoner, who had been brought aboard at Waianae. Upon reaching the schooner, Mr. McStocker called for her papers, and upon inspection found on the manifest sundry cases of drugs.

He quietly notified Surveyor Sanders to inspect the cargo. This was done and opium found. Deputy Collector McStocker informed the captain that he would take possession of the schooner for violating the revenue laws of the Hawaiian Islands by bringing contraband goods into its waters. The tug was signalled, the schooner taken in tow and the party started for Honolulu, arriving at 9 o'clock Sunday morning.

The captain, crew and passenger were taken to the station and locked up, all being placed so that no communication was possible.

The cargo of the schooner was found to be forty boxes of opium, packed in oblong packages, containing about 1400 pounds. It was present in the vault of the Customs House.

When Marshal Brown went alongside the schooner some one shouted what was wanted. The Marshal said he wanted to come aboard, and did so. Only one person was seen at that time. Upon being asked who was the captain, the man replied he was and that his name was Anderson. Replying to another question the captain said the schooner was the Henrietta, bound for Mexico, and that he had put in there in distress, being short of water and provisions.

When Deputy Sheriff Sheldon arrested the passenger, who gave his name as C. E. Gale, he said the schooner was the Kate and Annie, going to Hongkong. He said further the captain had heard that Waianae was a good place to put in for water and provisions, as it would not be necessary to enter and clear. Captain Anderson said to Marshal Brown that he had a passenger aboard, and said the schooner was from Victoria, left there on Nov. 7, sighted Molokai last Friday.

When the officers searched the schooner no log could be found and no clearance papers. It is thought these were destroyed in order to prevent the name of the port from which she sailed becoming known in event of capture. The health bill, however, showed that the schooner cleared from Victoria, B. C., on Nov. 7, her destination given as La Paz, Mexico. Captain Anderson told the officers that he had been among the islands for about two weeks, which time will correspond with the movements of the suspicious schooner seen in different localities by several stevedores of the local fleet.

Besides Captain W. B. Anderson, the crew of the Henrietta is composed of three white men—Mike Connel, H. W. Wheeler, J. H. Brown and H. Wal (Chinese cook), and C. E. Gale, the passenger mentioned. Shortly after Gale was arrested by Deputy Sheldon he wrote a letter to Captain Anderson, telling him to put out and return in about two weeks; also that a steamer was coming in chase of him and would reach the locality where the Henrietta was anchored during the night. He was induced to do this through the solicitation of the Waianae officer, who promised to help him out of what was considered a bad hole. That letter never reached Captain Anderson, but is now safe in the hands of the authorities, and when it is read in court the writer will be, perhaps, surprised.

The manifest of the Henrietta calls for identically the same amount of opium as was shipped some time ago by the Government to E. P. Rithet at Victoria, but was packed in new containers. When the schooner was searched, 500 gallons of water and a full store of provisions found. The vessel was leaking a little, but not more than is the case with others of a similar kind.

As there has been so much talk of late concerning the trips of the tug, and prophecies that no good results would be obtained by such, the appended extracts from letters received by Deputy Collector McStocker show that the officials in Honolulu knew what they were about. The first is from San Francisco, and dated Nov. 1, 1895. Enclosed please find copies of telegrams forwarded our office by our special agent in Victoria. They refer to the schooner Henrietta, which cleared for La Paz, Mexico, with a cargo of opium. Late information, however, indicates her destination as the Hawaiian Islands. This was obtained from—, who arrived today from Victoria. Enclosure:—Cleared for La Paz, Mexico, Henrietta, centre board, schooner rigged, low in water, black, broad beam, small house aft, slow sailer, Anderson, master. Cargo boxes of opium, iron bound, with large, red seals, seal bearing a small sloop, marked Honolulu.

The schooner Henrietta cleared yesterday for La Paz, Mexico, having for a cargo the opium which has lain in bonded house and was consigned by your Government to parties here. Although her destination is stated as Mexico, I have positive knowledge that she is destined for your islands, probably the second island below your port. She is a slow sailer, and you should have no difficulty in catching her if once located.

These are the letters which caused the recent activity of the customs officials. Mr. McStocker, upon their receipt, presented them to the Cabinet through Collector Castle. He secured an order to use the steam tug Elu, he immediately communicated with Marshal Brown, and both departments prepared circular letters to the several Collectors and Sheriffs warning them to be on the qui vive. On December 4th Marshal Brown received a letter from Sheriff Wilcox of Kauai that a schooner of the description mentioned had tried to make Hanalei harbor, but had again stood off to sea. This date, December 4th, having been pre-determined as about the date to expect the Henrietta, everything was in readiness and the tug put to sea. Her several cruises have been the occasion of much comment here, but her last and successful cruise is chronicled above.

While Deputy Collector McStocker was on a visit to British Columbia on official business he entered into arrangements with the American secret service whereby movements of smugglers bound for these islands could be kept track of. Realizing that California opium might become a drug in the northern market and likely to be sent this way, strict watch was kept on suspicious vessels and their cargo.

The Henrietta is lying at the Oceanic dock in charge of the customs authorities. Further investigation will be made of the vessel this morning.

More Money for Lepers.

On the last evening before the arrival of the Monowai Ovid Musin and his company, with other passengers, gave a concert for the benefit of the Lepers at Molokai. The sum of \$100 dollars was realized. In a letter to this paper Messrs. J. F. Humberg, E. Flor and Oscar F. Maht turned the money over to the Hawaiian Gazette Company for transmission to the Board of Health.

Oakland Elopers.

Walter Emery and Leila Bowen, two Oakland youngsters who eloped from that city recently, tried to come to Honolulu by the Monowai, but as the vessel was detained the couple went north. Emery is aged 19 and the girl 15.

Miss Atkinson Gets It.

In the Time dictionary contest last evening, Miss Mollie Atkinson came off victorious with a vote of 3096. Miss Edith Mist second with 1210, and Miss Bessie Reynolds third, 753.

Which is Self-Ex-
planatory.

From the Journal, Taylor, Texas.

BEAUMONT, TEXAS, AUG. 20, 1895.

TO WHOM IT MAY CONCERN:—This is to certify that I have been afflicted with rheumatism for the past five years off and on and have tried several remedies and got no relief, and for twelve months at a time was not able to do any farm work at all; most of the time was confined to my bed. I began using Dr. Williams' Pink Pills about last October, and used five boxes, and I am today in better health than I have been in fifteen years, and take pleasure in recommending Dr. Williams' Pink Pills to the public.

E. J. GARDNER.

State of Texas, ss.

Co. of Williamson, ss.

Before me, the undersigned officer, this day, personally appeared E. J. Gardner, known to me to be the person whose name is subscribed to the foregoing instrument and acknowledged to me that he signed the same for the purpose and intents therein expressed.

Given under my hand and seal of office, this 20th day of August, 1895.

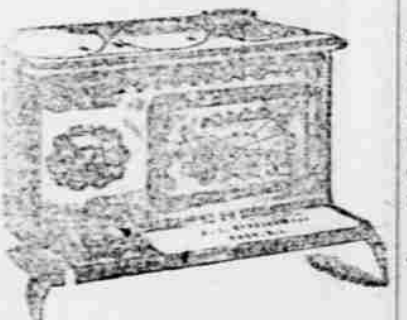

J. W. DULANEY, J.P. and ex-officio,
Notary Public.In and for Williamson County,
Texas.

Dr. Williams' Pink Pills for Pale People are considered an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la grippe, palpitation of the heart, that tired feeling resulting from nervous prostration; all diseases resulting from vitiated humors in the blood, such as scrofula, chronic erysipelas, etc. They are also a specific for troubles peculiar to females, such as suppurative, irregularities, and all forms of weakness. In men they effect a radical cure in all cases arising from mental worry, overwork, or excesses of whatever nature. Dr. Williams' Pink Pills are sold by HOLLISTER DRUG COMPANY, wholesale agents for the Hawaiian Islands and all dealers in medicine.

In 1892, Mr. A. L. Goldwater, who owns three retail drug stores in New York City, having learned of the great value of Chamberlain's Cough Remedy for colds, croup and whooping cough, ordered a supply for his customers. It met with so much favor that he found it necessary to soon order more, and during the winter sold over two gross of the remedy. He says it gives the best satisfaction of any cough cure he has ever handled. For sale at 50 cents per bottle by all dealers. BENSON, SMITH & CO., agents for H. I.

A MERRY CHRISTMAS

To All Honolulu!

(Copied from Woman's Number of the Time. By Permission.)

Your old friend, "SANTA CLAUS," received a very cordial invitation from the Business Manager of the "Time's" Christmas Number to add his mite to the Kindergarten Fund by purchasing a column of space, for which opportunity he is only too grateful.

Now let me see. What good use can I make of this valuable space?

Ah! ha! ha! Ha! ha! ha! I know! I know! I will charter a train from the Oahu Railway and Land Company, and have a grand EXCURSION TO WAIA-NAE on Christmas Day. I will give the "New Occidental" Hotel keeper a surprise party, and am so tickled over the enterprise, he has shown that I will pay him myself for every lunch service on Christmas.

Waianae fish make the best chowder to be found in the wide, wide world. Come, come all! and sample at my expense the delicious chowder at Waianae.

Who pays for the 66 mile ride by rail? Why, I do of course! And who pays me? Why, the people who go will pay me \$1.75 for each round trip ticket, and I will give with each ticket a check for a FREE XMAS LUNCH.

What am I going to do with the money I get for the tickets? People say I have no use for money. No use for money? Well, I like that. Aside from the fact that I bring to the dear children of all ages so much joy, how do they think that I manage to fill so many orders for "sweet charity"? Perhaps it never occurred to them that I frequently take a hand in paying off church debts, or supplying funds to build new ones. Just now, I propose to give the good Methodist people a helping hand in their effort to rear a house of worship free from debt. But since the dear people are so anxious to know what I am going to do with the dollar and seventy-five cents I have asked each one to pay for a delightful ride through a beautiful country with charming scenery, a free bath and good lunch, I will tell them that I will pay for their lunch ticket, settle with the Railway Company and pay every cent of the balance (a fair percentage of the whole) to the Methodist Church Building Fund.

Surely, no one will accuse me of "begging," either for myself or the Church. I simply ask them to a treat to themselves and their loved ones to a delightful outing, and in blessing themselves, they will also help a worthy cause.

Train will leave the Honolulu Station for Waianae, Christmas morning at 9:15 and return at 3:30 p.m. Round trip ticket and lunch check, \$1.75. Be good to yourselves and come along.

Santa Claus.
