MANCHURIAN CONFERENCE CALLED IN PORT ARTHUR—RUSSIA SUMMONS HER COMMERCIAL REPRESENTATIVE TO ATTEND SESSION—REGARDED AS HIGHLY IMPORTANT TO WELFARE OF CHINA AND ASIA.

Associated Press Cable to the Star.

PEKING, June 29.—M. Lessar, the commercial representative of Russia in China, has been summoned to Port Arthur to attend the Manchurian conference. It is thought that this conference will bring about either the retirement of Russia from Manchuria or else affairs will reach a crisis by her refusal to evacuate the province.

RETURN MORE POSTAL INDICTMENTS

Associated Press Cable to the Star.

WASHINGTON, D. C., June 29.—Additional indictments in the postal frauds have been returned by the Federal grand jury against Machen and Groffs. Machen was superintendent of free rural delivery and Groffs is the contractor. The indictments alleged further conspiracy on the part of the two defendants to defraud the government by means of false contracts by which the government Postal department paid about 40 per cent over the market value of the articles purchased of Groffs. The profits were divided between Machen and Groffs.

SUMNER LAWYERS

ANSWERS FILED BY HUMPHREYS AND THOMPSON UNDER INVESTIGATION BY THE ATTORNEY GENERAL, WHO INTIMATES THAT HE MAY WITHDRAW PROCEEDINGS AGAINST THE ATTORNEYS.

The Humphreys-Thompson hearing in the Supreme Court was postponed this morning, after an intimation by Attorney General Andrews that he might withdraw the proceedings in view of the statements made in the answer filed on Saturday afternoon by Judge Humphreys. Frank E. Thompson filed an answer this morning and the Attorney General stated that he had not had time to examine the new answer and asked for a postponement to 1:30 today, or to tomorrow morning.

"I should like time to investigate the statements made in the answer filed by Mr. Humphreys, which I received only yesterday morning," said Andrews, "in order that I may see how those statements fit in with my facts, and if I find the statements made in the reply to be correct it may not be necessary to continue these proceedings. Mr. Thompson's reply I have not even had a chance to read through."

Humphreys stated that he himself had caused the investigation and that he had no objection to allowing the Attorney General time to prepare. "I asked for the investigation and desire that it be full and complete," said the former judge, speaking for Thompson as well as himself. "If it proceeds without giving the Attorney General time to mature his case, it will be unsatisfactory to the court, the Attorney General and myself. The request for a postponement to this afternoon is entirely reasonable, and though I am ready to proceed, I do not oppose it. On Friday when I received notice of the filing of charges I announced my readiness to have the hearing on 1:30 of that day, and I at once began the dictation of my answer. It was supplied to Mr. Thompson as it was struck off by my typewriter, and I believe that his answer is the same as far as it goes."

The answer by Thompson is the same as that of Humphreys except that it does not deal with some matters of which Thompson had no knowledge.

The court took a recess to 1:30, at which time the reading of Andrews' charges and Humphreys' answer began.

HOUSE AFTER CAMPBELL

HAWAIIAN MEMBERS LED BY VIDA ADOPT A VOTE OF WANT OF CONFIDENCE IN THE ASSISTANT SUPERINTENDENT OF PUBLIC WORKS—IWILEI ROAD BLOCKS USED ON BISHOP STREET.

The House session ended this morning in the midst of a discussion of a resolution asking Conper to call for the resignation of Assistant Superintendent of Public Works Marston Campbell, after the Hawaiians and Vida had carried a vote of want of confidence.

Majority and minority reports of the special committee appointed in the House to investigate the charge that Marston Campbell had diverted a Fifth District appropriation to the Fourth District occupied all the morning. Vida and Purdy reported against Campbell and asking the House to declare want of confidence in him, while Harris presented a minority report. The charge was that blocks purchased under the appropriation for "macadamizing Iwilei road" had been used in the macadamizing of Bishop street. The majority report said:

"On Thursday, the 25th day of June, 1903, your committee examined Marston Campbell, Esq., Assistant Superintendent of Public Works, with reference to the diversion of the road appropriation referred to in said resolution, and he admitted that he was guilty of the charge contained therein.

"He said that it was necessary to put Bishop street in condition for the opening of the Alexander Young Hotel, and that he used on said street in the Fourth District, stone purchased from the Fifth District road appropriation, and assumed personal responsibility in the matter.

"Your committee therefore recommends that Resolution No. 34 be adopted by this House.

"HENRY C. VIDA.
"WM. N. PURDY."

Resolution No. 34 is a resolution of want of confidence in Marston Campbell.

The minority report by W. W. Harris contained a transcript of testimony and report explaining that the blocks were too large for Iwilei road and had been "borrowed" to be returned by new blocks.

PINKERTON SCENTS TROUBLE

WELL KNOWN DETECTIVE SAYS THAT CHINESE IN CANTON ARE IN UGLY MOOD.

William A. Pinkerton, the head of the famous Pinkerton Detective Agency of America, is a returning passenger on the S. S. City of Peking from the Orient. Mr. Pinkerton passed through Honolulu on the outward trip some time ago on the S. S. Korea. He says that he went out to the Orient on pleasure, pure and simple. He tried to get as far away from business as possible. In the opinion of Mr. Pinkerton there will soon or later be another anti-foreign outbreak in China.

"I was as far south as Canton," he said this morning. "I think that there will be another outbreak on the part of the Chinese against the foreigners. There was as savage a looking lot of ruffians in Canton as I ever saw in my life. I did not have any disagreeable experiences with them, but the general sentiment of the Chinese seemed to be against the white people. I did not go

far enough north to learn much about the Manchurian trouble.

"About the only incident of that experienced was in Canton. I had occasion to get some money changed and in the pile that I received, was one counterfeit dollar, made of iron. I met the headman there. He was as fine a looking man as ever cut a throat. He was very nice and explained everything to me, showed the sword with which he decapitated the prisoners. He regretted very much, he said, that he did not have to kill anybody that day, but promised that if I would come later that week, he would be able to make it interesting for me, as there were eight fellows whose heads were to be cut off. I thanked him most kindly. I handed him a fee for his trouble. I gave him three dollars, and one of them was that iron counterfeit that was given to me. I guess if ever I go back to Canton that fellow will be waiting around in hopes of getting a chance at my neck with his official sword.

"I stopped some time in Japan. Except for the presence of a large number of warships in those waters, there were no signs of any trouble with Russia."

"No. I did not go over to the Orient in pursuit of anybody or on any professional business. I needed a rest and I took it."

The Claudine will make a special trip to Kahului on Friday.

BOUND AND GAGGED VICTIM

TWO ROBBERS VISIT CHINESE MEAT SHOP ON BERETANIA STREET EARLY THIS MORNING AND SECURED \$200—BROKE OPEN TRUNK IN WHICH MONEY WAS SECRETED—POLICE WORKING ON CASE.

A very daring robbery was committed at the corner of Artesian and Beretania streets at an early hour this morning. Exactly \$200 was secured by the robbers. They bound and gagged their victim. Yau Wo was his name.

Yau Wo and two other Chinese live at the shop, all three sleeping in one room. They conduct a meat shop. About 2:30 o'clock this morning two of the Chinese got up and started for Honolulu to secure a supply of pork. Yau Wo was left sleeping. He is not certain about the time, but he thinks about half an hour after his companion left, he was aroused by feeling some one clutching him by the throat.

There were two strange men in the room. The place was very dark and Yau Wo could not distinguish either of them. They placed a gag in his mouth and bound him hand and foot. One of the men said in Hawaiian "Mahea ke ki," meaning where was the key to the Chinese's trunk. The Chinese signified that he did not know where the key was.

The robbers then broke open his trunk and rifled the receptacle of money. There was \$100 in gold and \$100 in silver in the trunk. The robbers secured all of these funds. They wasted no time in making any further search of the premises, decamping as soon as they had found the money in the trunk. The men went out by the rear door. They had forced an entrance through the rear portion of the place, as there was no lock or bolt on that door.

Yau Wo succeeded in working loose from the ropes that held him. He reported the matter to the police and also gave them the gag which had been used on him. The gag was made of white cloth with a stick and string to hold it in place, once it had been inserted in the victim's mouth.

Detective David Kaapa went to work on the case. The officer is of the opinion that the robbers were either natives or else Chinese well acquainted with the Hawaiian language. The expression "Mahea ke ki" is pure Hawaiian, not pigeon language that a person not acquainted with the language would have used. Evidently the robbers were acquainted with the fact that Yau had considerable money concealed about his place.

SENATE FAVORS COOPER.

The only business transacted by the Senate today was the consideration of the House concurrent resolution asking Superintendent of Public Works Henry E. Cooper to withdraw his resignation and retain that office. There was no discussion of the measure. Senator Baldwin moved that it be passed. Senator McCandless seconded this motion and the Senate at once passed the measure. An adjournment until 10 o'clock tomorrow was then taken.

SERIOUS SHOOTING AFFAIR.

As the result of the accidental discharge of a gun early yesterday morning, Kahekili a native boy, lies dangerously ill at the Queen's Hospital suffering from a bad pistol wound in the abdomen. In company with George Nalwi and Joe King, the young man was practicing with a pistol at a target back of Punchbowl. Kahekili was moving the target for the other boys. While thus engaged a cartridge from a revolver in the hands of Nalwi was discharged, the bullet striking Kahekili in the abdomen and ranging into a lung. The injured man was removed to the Queen's Hospital. His companions were taken into custody by the police. An investigation went to show that the affair had been an accident.

Rev. John Osborne, of St. Clement's wishes it stated that the announcement yesterday that there would be special music at St. Clement's on that day, was a mistake.

NEWS OF DEATH OF NATIVE FISHERMAN IN HANAPEPE RIVER BROUGHT BY WAIJALEALE.

A native man named Kekui was drowned in the Hanapepe river last Thursday. The man was engaged in fishing at the time. News of the affair was brought by Purser L. Simerson of the steamer Waijaleale which arrived yesterday from Waimoa Kauai.

Kekui and some other natives were in the river rounding up the net. He was some distance from the others. In the excitement of the occupation, the natives did not pay much attention to one another. During this time Kekui is thought to have been attacked with heart failure or some sickness that rendered him unconscious. When the natives happened to look for him he had disappeared.

A search for him was instituted but not until the next day was his body recovered.

MONDAY, JUNE 29, 1903.

A DARK CLOUD.

We have now almost reached the month of July, and the rumors of war are stronger than they were in the beginning of the year though both the Manchurian and the Macedonian question were discussed during the winter months of 1902-1903. It is evident that Russia was not ready in the spring of the year and is only ready now. But whether she intends to fight now or throw the gauntlet down for a winter campaign is still problematical. She has kept the commercial powers negotiating with regard to Manchuria, she has backed the Chinese Imperial Government in a course of procrastination, and has herself misstated dates as to the evacuation of Manchuria, the last date being September. But by September the winter will be coming and a very little delay will enable her to say that she cannot move until next spring, which will mean either May or June, 1904.

In the Balkan provinces she has endeavored to force the hand of Turkey by stirring up the Macedonian revolt, by manipulating Bulgaria to assist the revolt subrosa, by supplying that petty principality with trained officers, and by spreading accounts of Turkish outrages which have their effect upon the peoples of Western Europe. Moreover Russia most probably was a secret instigator of the catastrophe at Belgrade. The murdered Alexander was leaning too much towards Austria to be agreeable to Russian plans and Russian diplomacy. The Russian Government cared not one straw about the Serbian constitution or King Alexander's morals, but it did and does care that Russian influence should be paramount in all the small states of the Balkan Peninsula. Alexander's visit to the Emperor of Austria was probably the signal for his death.

In the Balkans the Russians have already made a winter campaign. The celebrated forcing of the Shipka was carried out through the snow and storms of winter and the successful siege of Plevna was accomplished, but it is no worse for the Russian than it is for other nations. Indeed the Russian counts on General Frost as a strong ally. He has often served the white Czar well.

These facts which have been thrown together point, it may be claimed as much to postponement of war, as they do to its imminence. The longer war is put off the less likely it is to occur. But now there enters another element into the problem which is certainly liable to hasten it. There is the greatest uneasiness in Russia itself. This is manifesting itself in various ways. The Nihilists are busy. There is a strong anti-semitic movement. There have been murders of those in authority in the provinces. The Finns have practically defied the attempted military draft.

Taking the last first, we find that the Czar has forgiven the Finns for defying his military scheme. Why has he done so. The Czar neither forgives nor forgets. If there is forgiveness for the Finns, it is because the Czar and his advisors have decided that this is no time to crush or even punish the Finns. They have to be promised immunity and can be attended to later. Can it be for a moment supposed that after having deliberately set to work to destroy the autonomy of "inland, having done away with its liberties, upset its school system, the Czar is going to hold his hand because the Finns are defiant. The whole history of Russia tells another tale. Let the Baltic provinces, let Poland bear witness.

Nihilism is the constant dread of the autocrat of all the Russians, and of all who follow in his train. It manifests itself in outrage and in secret murder. All efforts to repress it through police authority have proved abortive. The jails and fortresses may be full of Nihilists, the frozen posts of northern Siberia may be peopled with Nihilists, whose lives are made a burden to them by a brutal military, Nihilists may be shot and hanged by the score, and the result is only more Nihilists. There is only one way in which to effectually meet Nihilism, and that is by arousing the religious fanaticism of the mass of the people, and by a foreign war. The former can always be done by arousing an anti-semitic antagonism, and this is now being done at government dictation, undoubtedly, however much the court of St. Petersburg may deny. For the latter there is always an excuse. The most popular foreign war is in the Balkan Peninsula against the Turk, with a chance at Constantinople. The Sultan, who is well served by spies in every part of Europe is evidently prepared for such a movement, or why should he be massing troops on the borders of Bulgaria within what is known as his quadrilateral? War is imminent, and it will be forced on Russia from within and not from without. From without there would always be the chance of diplomatic procrastination, from within there can be no procrastination, and it is here that the war cloud is so dark. The safeguard of an autocracy is war. The safeguard of a Republic like our own or a free government like that of England is peace. That is why an autocracy is a menace to the world.

A MARE'S NEST.

The rubbish talked by Representative Aylett last Saturday is just what one might expect, and the ideas expressed by him were foreshadowed in The Star some months ago when the Superintendent of Public Works challenged the County bill. The representative's mind cannot take in the fact that it is one of the hardest things in the world to draw a law which is absolutely unassailable. If it were possible to draw unassailable laws, half the most expensive litigation in our courts would be done away with.

As the case of the County bill now stands one set of sections have been decided by a circuit judge as conflicting with the Organic Act. The main bill, however, is not in question and still stands unchallenged. The bill that Representative Aylett favored in 1901 would have gone to smash completely. That bill was not only in conflict with the Organic Act, but it was in conflict with common sense. It seems impossible to drive into this astute legislator's brain that a portion of an act may be contrary to the Organic Act and that the rest of it may be uninvited.

Representative Aylett has, he thinks, unearthed a conspiracy. He thinks that the bill was so drawn that it had to break down, and ergo, as he would say, or Angal, as the fool in Shakespeare says, the Republican party has betrayed him. But the bill had full debate, and if there were these fatal defects why did not the acute reasoner from the Fifth discover them? It looks very much as if Representative Aylett had betrayed himself or were anxious to be characterized in the same terms that Dodderberry desired to be written down. The discovery of mare's nests is the attribute of certain minds. People who go in search of these valuable articles always find them, but their discovery leads to very little satisfaction indeed.

Professor Curtis J. Lyons has served the Hawaiian Islands for a life time. Saturday he completed his seventieth year and is still at scientific work. The daily weather reports are made by him, not only for the Territory, but also of the Territory daily to Washington, whether they are flashed by cable and telegraph. Professor Lyons' surveys of lands, dating fifty years back are frequently to be found among old deeds, and they are always very ac-

curate. May the worthy Professor long remain at the head of the weather bureau. By the way science has a distinct influence upon longevity. It is remarkable how many scientific men are septuagenarians, octogenarians and even nonagenarians.

Professor Perkins' campaign against various noxious insects in Hawaii is said to be quite successful. He has visited all the plantations of Hamakua

CARRARA Mixed Paint

Is not an old paint in the sense that it has been in the market for many years, but the pigments used in its manufacture are believed to be old, because they are supposed to represent the re-discovery of the secret of permanent color, thought to have been lost with Michael Angelo, Leonardo da Vinci, Fra Angelico, Corregio, Murillo, Titian, Guido, Raphael and other Old Masters.

CARRARA has been in the market long enough, however to establish the fact that it gives a BETTER FINISH, lasts LONGER, under the most severe tests, covers more surface, and COSTS LESS than the best Lead, Zinc, and Oil.

If you want the Best Effect and the Best Results, USE CARRARA. Of course some people want what came over in the "Mayflower" and think that pure lead, Zinc and Oil Paint is the thing to use because "Grandpa" used it. "Grandpa" was no doubt an authority in his day, and a man of judgment; but if he were alive today, it goes without saying, that he would use CARRARA.

In passing, we may say, that we still have a balance of the OLD KIND OF PAINT, as good as can be made under the old formulas, which we were selling when our knowledge was in the rudimentary stage.

This we can give you at A BARGAIN.

The Pulse.

The rate of the pulse varies greatly
in persons of different ages.

At birth.....130 to 140
One year.....115 to 130
Two years.....100 to 115
Three years.....95 to 105
Four to Seven years.....85 to 95
Seven to Fourteen.....80 to 90
Fourteen to Twenty-one.....75 to 85
Twenty-one to Sixty.....70 to 75
Old Age.....75 to 85

However, it makes no difference in the age of a person, whenever interest is aroused the pulse increases greatly. For instance; when a person purchases the Douglas Patent Closet the pulse increases fully 100 per cent. It's a sign of contentment.

SHIPPING INTELLIGENCE

PEKING WAS LATE ARRIVING.
The S. S. City of Peking was late in arriving from the Orient. She did not get in until yesterday morning. She had 600 tons of freight for Honolulu. The delay was due partially to head winds and partially to a break in one of the eccentricities.

Among her through passengers is William Pinkerton the well known detective. He has been in the Orient.

Captain B. C. Williams is a retired British army officer going home. Colonel H. Landon is a British army officer who is going home on furlough.

The Peking sailed for San Francisco at 10 o'clock this morning.

TRIED TO ROB DEPUTY SHERIFF.

Frank Boyd a negro, was arrested Saturday night by Deputy High Sheriff Chillingworth on a charge of attempted robbery. The negro was caught trying to enter the premises of Chillingworth for the purpose of robbing the place. The negro claimed that Brady Clemons another negro had put him up to the job. Boyd thought he was going to get \$1,000 which was alleged to be in the house. "Joe" a Porto Rican stool pigeon of the police department was concerned in the job. "Joe" learned of the robbery being planned a couple of weeks ago, and warned the deputy to be at home Saturday night.

SOLACE ARRIVES SATURDAY.

The approach of the naval transport Solace was not signalled Saturday by wireless telegraph, as the vessel had not installed her apparatus.

The Solace left San Francisco Sunday morning, June 21. She had a pleasant trip. On June 25, she sighted the American bark Levi G. Burgess. Most of the passengers on the vessel are en route to Guam and Manila. The only arrival for Honolulu was G. Meisel who comes to take the place of clerk to the commandant now held by A. L. Merry. Mr. Merry has resigned. Various supplies were brought for the local naval station. The Solace will sail Wednesday for Midway, Guam and Manila.

ALCOHOL MADE FROM SAWDUST

A LARGE PLANT TO BE ESTABLISHED NEAR CHICAGO BY EUROPEAN CHEMIST.

An immense plant, says the Chicago Chronicle, for the conversion of sawdust into alcohol and charcoal is to be established near this city. Herr Classen, a famous European chemist holds the rank of privy councillor to Emperor William and used the German title of Geheimrath, descriptive of that post, in registering with Frau Classen. As head of the University of Aix-la-Chapelle he is also known as Dr. and Professor Classen, while the score of German text-books he has written on

chemistry have given his name professional fame throughout the world.

His discovery of the means whereby sawdust may be converted into alcohol and charcoal was made some time ago. The commercial importance of this chemical possibility at once impressed itself on the discoverer and he arranged to supply it in a business manner. For that purpose a site was purchased near Chicago and a plant erected for the accumulation and storage of sawdust, preliminary to the constructing of a converting factory.

Dr. Classen has already arranged, through his agents, for an immense supply of sawdust at nominal prices, the material being obtained from concerns which in the past have regarded it as waste. The low cost of the raw material, it is asserted, makes possible the manufacture of the converted products at figures likely to effect a commercial revolution in the charcoal and alcohol markets.

Details of the chemist's trip here were arranged in part by John Meigs Ewen an architectural engineer, who spent the last four years in Europe and met Dr. Classen there. Mr. Ewen has offices in the Marquette building but declined to discuss the details of Dr. Classen's enterprises, explaining that the chemist was reluctant to exploit his project until certain business features had been perfected.

Dr. Classen himself last night begged to postpone all newspaper announcements. He declined for this reason, to say whether Emperor William was personally interested in his manufacturing project, smilingly suggesting that he would answer such questions when he was prepared to make a complete statement of his plans. In like fashion Dr. Classen asked that no publication be made of the location of his present sawdust storage-houses.

FROM MANY A CORAL ISLAND

MISSIONARY SCHOONER CARRIE AND ANNIE RETURNS FROM MICRONESIA AFTER A YEAR.

SAN FRANCISCO, June 19.—After a year's cruise among the Gilbert, Marshall and Caroline Islands, the missionary schooner Carrie and Annie reached port yesterday and will be given a thorough overhauling before returning to the islands a few weeks hence. The schooner is owned by the American Board of Commissioners for Foreign Missions, and is under the command of Captain G. C. Mitchell, Rev. A. C. Walkup, a Congregational minister, who has been laboring in the South Sea Islands for twenty-three years, returned as a passenger on the schooner on a periodical visit to his home in Illinois, and expects to go back to the islands on the Carrie and Annie. Miss Louise Wilson of Sonoma, who has been a teacher in the girls' school at Kusaie, Caroline Islands, for ten or eleven years, also returned, on her second visit home. She, too, intends to return to the missionary field. Willie Chanson, the ten-year-old son of a missionary on one of the islands, came with Miss Wilson for the purpose of attending school in this country.

The only news of interest brought by the Carrie and Annie related to the stranded and unknown vessel which was some weeks ago reported as having been seen on one of the Marshall Islands by natives. A number of islanders who board the Carrie and Annie before her departure from the Carolines reported that they had seen the stranded vessel, but had not ascertained her name, even though they had aboard the wreck. No person was found on the wreck, and it was destitute of provisions and small boats, her crew having evidently left the vessel before she went on the reef. No masts were standing hence it is not known whether the hapless vessel was a schooner, bark or ship. She was of wood, however, carried a cargo of lumber, and went ashore on the island of Mille the latter part of March or early in April. The German authorities at Jaluit, Marshall Islands sent the schooner Neptune to investigate the wreck. The Neptune is soon to arrive here.

After leaving here on June 15th last the Carrie and Annie touched at Honolulu, going thence to Butaritari, in the Gilbert group and later to the Carolines. During her cruise she had several narrow escapes from going ashore. A series of great storms last winter ruined hundreds of bread-fruit trees and young coconut trees in the islands.

HOW SOCIALISTS WIN IN GERMANY

ELECTED CANDIDATES AT EXPENSE OF RADICAL PARTIES. REICHTAG NOT CHANGED.

BERLIN, June 17.—The Socialists' victory in the Reichstag elections yesterday was largely at the expense of the two Radical parties, who voted as the Socialists did in the last Reichstag in tariff, military and naval affairs. Hence on these questions the new House is not distinctly different from the old one.

The returns received up to 11 o'clock tonight from 381 districts gave: Conservatives, 30; Center party, 82; Socialists, 52; Poles 14; Free Conservatives, 6; Alsatians, 6; National Liberals, 6; miscellaneous, 7. Total members elected, 204. Reballotting will be necessary in 177 districts.

The Socialist strength in the new

House, will probably reach eighty. The most remarkable Socialist gains were in the Kingdom of Saxony, where they elected eighteen out of a total of twenty-three members. The Dresdener Nachrichten admits that the Socialists polled 100,000 majority over all parties in the kingdom, and the Vorwaerts, the organ of the Socialists, boasts today that Saxony is a Socialist state. The Socialists gains according to their figures, are twenty-five seats, compared with the first balloting of 1898. From ninety-eight second balloting then they elected twenty-four members. The Socialists now claim fifty-seven members elected and say they expect to reach eighty through the reballoting.

The failure of either of the Radical parties to get a single seat does not mean that they will not get a number of members at the second election, as then their candidates will be supported by all the anti-Socialist parties.

The most striking result of the elections, aside from the Socialist gains, are the losses of the two Radical factions and the disappearance of the members of the Agrarian League. The latter, with four members in the present house failed to re-elect any of them.

The Barth Radicals get twenty-two reballots, against thirty-two seats which they held. Dr. Barth gets a reballot in the Koeslin district, with the apparently certain prospect of beating the Conservative candidate, through Socialist assistance.

Herr Richter must submit to a reballot in the Hagen district, where the Socialist candidate leads by 355 votes, but Richter will win through National Liberal and Center party votes.

The National Liberals elect five members, as against seven in 1898, and get 56 reballots, against 48 seats which they held.

The Center party apparently holds its own. It has elected sixty-eight members so far as reported, but forty-four districts, which have not yet been reported, will increase the number considerably. The Center party elected eighty-two members on the first ballots in 1898. No strong member of the Center party was beaten yesterday. The party probably will retain its present strength although the Socialist made inroads on many of the Center party constituents.

Prince Herbert Bismarck failed to be elected and must undergo a revote against a Socialist.

FINEST STONE IN THE WORLD

DIAMOND THAT CAME TO EARTH WRAPPED IN A COVER OF METEORIC IRON.

Some planet has hurled a diamond at the earth, says the New York Herald. This is a purely scientific deduction to account for the presence of what is certainly the rarest gem ever seen. It was placed on public exhibition in the American Museum of Natural History.

This diamond came packed in a thick envelope of meteoritic iron, some of which still surrounds it. It fell to earth in Canyon Diablo, at the foot of Crater mountain, A. T.

It isn't a Kohinoor in size, but is of a purity and hardness never found in a stone taken from the finest mines of the earth, according to George F. Kunz, gem expert and member of the Tiffany Company. It is he who owns it, and has lent the rare find, together with an interesting collection, to the museum.

The gem is of the irregular shape in which diamonds are usually found. Mr. Kunz has applied tests that show it to be nearer a state of perfect carbon than the purest and rarest of stones dug from earth. In attempting to polish the fragment, Dr. A. E. Foote of Philadelphia, to whom it was turned over by Professor G. A. Koenig, its finder, broke two chisels and ruined an emery wheel.

Polished Corundum, remarkable for its hardness, was tried upon the planetary gem, which cut through the substance like a sharp knife through bread. It was then pronounced the most perfect bit of carbon ever encountered.

Whether the carboniferous visitor was a perfect diamond when it left home is a matter for debate by Professor Bumpus and his staff of meteorite analysis at the museum. The theory is considered plausible that the formation may have been in process during the aerial trip, the tremendous velocity and the consequent heating of the surface of the mass by friction being deemed sufficient to have crystallized the carbon into a perfect diamond.

The rare find was made through the

KEPT PRISONER IN A ROOM

NICHI COMPLAINED THAT COUNTRYMEN KEPT HIM IN ROOM AND TRIED TO EXTORT MONEY.

Three Japanese are detained at the police station to answer to rather a serious charge. Their names are Saito, Sano and Nakamura.

Nichi rushed breathlessly into the police station Saturday and asked the protection of the police. He said that he had been forcibly detained by some Japanese in a room at the corner of Maunakea and Beretania streets early in the morning. They had tried to force him to surrender money.

From his statements, it appears that a Jap went to his place and asked him to come out. This was after midnight last night. He refused to go and the Jap returned. The visitor said several men wanted to see Nichi. The latter went out and claims he was seized by Saito, Sano and Nakamura and taken to Saito's room on Maunakea and Beretania streets.

Here he was accused of having stolen the wife of Nakamura. Nichi denied the impeachment. He was informed that he would be detained in the room until he paid them \$50 or \$100. He said that he did not have the money but might get it from a friend. Later in the morning he was permitted to go to Lovejoy's store on Nuuanu street. He was followed by Saito, Sano and Nakamura who evidently proposed to hold onto their prey. When Nichi got near the police station he ran away.

Accompanied by several officers he went back and effected the arrest of the trio of Japs. They will be prosecuted for having forcibly detained Nichi in a room.

KAMEHAMEHAS AND ELKS WIN

BASEBALL LEAGUE GAMES ON SATURDAY PUT THEM IN THE LEAD TOGETHER.

The Kamehamehas and the Elks forged ahead in the baseball on Saturday and they are now together in the lead of the other teams. The Elks, Kamehamehas, Punahou and H. A. C.'s were all even when the game was called and the Elks defeated the Punahou by 4 to 1, while the Kamehamehas won their game against the Maile Ilimas by 14 to 5. This leaves the Maile far behind, as they have not won a game yet.

JAS. W. PRATT,
Assessor First Division.
Honolulu, June 26, 1903.

To Whom It May Concern:

We the undersigned Manufacturers of Carbonated Beverages have formed an Association for the mutual protection of our property, viz: bottles and cases, the loss of which during the year last past has been enormous, in fact to such an extent that we have not been able to pay more than running expenses.

As a matter of business, we will, on the 1st day of July, 1903, inaugurate a system whereby a strict account of bottles delivered to and received from each dealer in Carbonated Beverages will be kept, and at the end of each month or as soon as possible thereafter our authorized agent will balance each bottle account and should there be a shortage he will collect for such deficit at the rate of Five Cents per bottle; we respectfully request each dealer in Carbonated Beverages commonly called "Soda Water" to co-operate with us to the extent of requiring a deposit of Five Cents per bottle where said bottles are taken away from their place of business.

We shall on the above date discontinue the practice which has been in vogue for some time of giving any "extra bottles" on each dozen and any discount on our prices which will be net. The increase in the cost of material and the loss of bottles has forced us to make this change in our business methods.

We thank our patrons for their support in the past and solicit a continuance of the same under the new conditions.

HUMPHREYS FILES HIS ANSWERS

DENIALS OF THE CHARGES
BROUGHT BY ANDREWS IN THE
SUMNER CASE.

Judge Humphreys on Saturday filed in the Supreme Court his answer to the charges filed against himself and F. E. Thompson in the Sumner case. Humphreys denies that he was attorney for John K. Sumner in the railway case, or in defending the guardianship suit. He says that the firm of Humphreys, Thompson and Watson was signed to Sumner's answer, but that it was done by Thompson without any knowledge as to its contents and with the express understanding that that firm were not and would not be attorneys for Sumner in any matter. The firm was representing the Ellises.

Humphreys denies that he took any part in the settlement whereby Mrs. Maria S. Davis received \$10,000, that the payment of \$30,000 to the Ellises was a part of this deal, and that the Ellises gave no consideration for the money. He alleges that the consideration was "the consent of the said Ellises to the payment by the said Sumner to the Bishop of Honolulu of the sum of \$10,000, and the payment to said Maria S. Davis of the sum of \$15,000, out of the said moneys received from said Oahu Railway & Land Company and in which moneys it was then believed said Ellises had an interest as remaindermen."

It was well understood, says the respondent, that there was to be no release signed by the Ellises when they received the \$30,000. The statement that Sumner paid the firm a fee of \$2,500 for their services to him is also denied. The money was paid out of the railway money, with the consent of all parties concerned, says Humphreys, for services rendered to the Ellises.

Humphreys denies that he made proposals to Magoon for compromise, by which further sums were to be extorted from Sumner. All offers of compromise came from the other side, says the respondent.

"Respondent admits the information as to appearances of attorneys in the suit for a new trustee, and that he prepared the answer for the Ellises without his name appearing therein, but denies that he did not appear in such answer because he knew he had no right to appear against his client Sumner." He denies that the new trusteeship suit was for the purpose of harassing Sumner. On the contrary, he avers it was prosecuted by himself and Thompson in good faith.

Finally, when he contended before the Supreme Court that the trust was irrevocable, he "did not do so with any knowledge that in the answer filed for and on behalf of said Sumner in said guardianship proceedings it had been stated that said Sumner could dispose of his property as he saw fit." He then enters a general denial to "each and every allegation, charge, statement, inference and conclusion in said information contained, which may impute to him fraud, malpractice, deceit, professional improprieties, infidelity to his clients and gross misconduct or any other conduct tending to detract from his professional or personal dignity and honor and his usefulness as a member of the bar and as a citizen."

"Respondent submits to the candid judgment of others his professional ability, but he begs leave to assert that he has never broken faith with any client or at any time abandoned a high conception of personal and professional honor," he says at the end of the historical sketch, concluding:

"And now having fully answered said information, respondent prays the judgment of this honorable court exonerating him from the charges therein contained."

THE DRAMA

The presentation of "The Private Secretary" by the Lyceum Stock company at the Orpheum Saturday night, was an excellent one and brought out some well merited applause. It is a very creditable ambition on the part of the company to present standard plays twice a week, and it is an effort that ought to be supported by the community. Plays twice a week, creditably presented, will add greatly to the attractions of residence in Honolulu. The Lyceum Company has already given, justified, both by the character of the play and the capacity of the players, that these semi-weekly performances will be well worth going to.

George Kunkel as the "Private Secretary" makes the most of an exceedingly funny character. His specialties earned him recall after recall. Bruce Hartman as "Ashford, a spinster" played the part admirably, and while resisting the temptation to buffoonery or anything broad, presented a splendid characterization. The cast throughout was excellent. The next play to be presented will be "The Judge."

CABLE NEWS.

Associated Press, Morning Service.
BOGOTA, June 27.—Congress is discussing the Panama Canal treaty. Opposition to it is growing less.

VIENNA, June 27.—The King of Roumania is indignant over the assassination of the King and Queen of Serbia and has withdrawn the decorations he conferred on the officers of the Sixth Serbian Infantry.

ST. PETERSBURG, June 27.—Arrangements have been made to build a railroad from Moscow to Port Arthur as a means of exploiting gigantic mineral concessions in Manchuria.

WASHINGTON, June 27.—To frustrate a corner in silver the State Department will convert the Plus fund into silver Philippine money and reimburse the church in gold.

NEW YORK, June 27.—Shamrock III has beaten Shamrock I so easily, in today's trial races, as to excite the wonderment of yachtsmen.

SOFIA, June 27.—Bulgaria intends to protest to the Powers against the concentration of Turkish troops on her frontiers.

ST. PETERSBURG, June 27.—The anti-Semitic agitation is growing and a general slaughter of the Jews is demanded.

EL PASO, June 27.—Floods in the Rio Grande, north of here, have rendered hundreds of people homeless.

SEOUL, Korea, June 28.—Russian troops have crossed the border line and are now in Korean territory. The government has great fears as to what the outcome of his move may be.

RIO JANEIRO, Brazil, June 28.—The government has planned an enormous system of docks for this port. Bonds to the amount of \$42,000,000 will be issued to meet the expense of the scheme.

The enormous increase in the exports of Brazil is said to be responsible for the new venture, Brazilian exports now amounting to over two hundred million annually. Brazil has lacked many public improvements in the past through the unwillingness of cabinets to go into debt but the new cabinet, which came into office with President Alves last November, is determined to make all it can out of Brazil's export industries.

Rio Janeiro is situated upon one of the finest natural harbors known. It is the coffee emporium of the world. The harbor is about one hundred miles in circumference, but in the past as a system of dock has been poor although it has had to accommodate a large amount of shipping. With railway communication to the north and east Rio can draw a tremendous amount of products for shipment to foreign countries. The port is known as the "Liverpool of South America."

NEJIRILLA, Spain, June 28.—An awful railway disaster occurred here today. A fast express train carrying a number of passengers, was wrecked and ninety people were killed. Over two hundred persons were more or less severely injured. It is said to be the worst railway disaster that has ever occurred in Spain.

HONOKAA COURT.

Judge Little publishes the following notice in the Hilo Tribune.

The grand and trial jurors, litigants, witnesses and all others interested in the Honokaa term of court, which convenes according to the statute on the first Wednesday of July, which this year falls on the first day of said month, are hereby notified that they need not attend said court until Wednesday, July 8th, to which time court will be adjourned because of the prevailing sickness of so many persons whose presence is required at the term of the court.

PERFUME AND BALKANS.

The trouble in the Balkans is having
one curious effect: it is sending up the
price of the delicate perfume known as
the attar of roses. The scent is
now being retailed at \$10 an ounce, and
it is anticipated that in a month's time
that quantity will not be purchasable
in London under \$15. The making of
attar of roses is one of the staple in-
dustries of the principality of Bulgaria.
The principal gardens are at Kazanlik,
and extend for 40 miles in the valley of
the Maritza. These wonderful and
priceless gardens have more than once
been the scene of bloodshed. There
the worst of the Turkish atrocities were
committed which in 1876 led to the
abrogation of the Anglo-Turkish alli-
ance. Now Bulgarians at Kazanlik
are once more deserting their peaceful
and poetical occupation of perfume
making in order to shoulder the rifle,
with the result that attar of roses is
growing scarce in Belgrad. Under
normal conditions the rose extract is
almost as precious as liquid gold. In
the making of one ounce 1 1/2 hundred-
weight roses are used. Bulgaria ex-
ports 2 1/2 tons of attar of roses annu-
ally, representing a consumption of 8000
tons of the flower.

THE BOOK HE DIDN'T WRITE.

Count Leo Tolstoy recently told an in-
terviewer an amusing incident which
had occurred during his last stay in the
Crimea. A rich American arrived in
his yacht, accompanied by a party of
friends, and asked permission to see
the great Russian, promising that they
would be content with a glimpse, and
would not trouble him with talk. Leave
was granted. Tolstoy sat upon his bal-
cony, "like a Buddhist idol," as he said,
and the whole party of Americans de-
fied slowly and silently before him,
taking their gaze as they passed. One
woman, however, refused to be bound
by the contract. She stood still for a
minute, and shouted, "Leo Tolstoy! Leo
Tolstoy! all your noble writings have
had a profound influence upon my life,
but the one which has taught me the
most is your—where she forgot the
name of the work. The sick author
leaned over the rail of the balcony, and
whispered, with a smile, "The Dead
Souls?" "Yes, yes!" she replied. "That
book," said Tolstoy, "was written by
Gogol, not by me."

HERR MOST HAS REFORMED.

John Most has reformed, it reports
from Chicago can be credited. In a
speech out there he advised his hear-
ers to do no violence and support the
constitution of the United States. If
John said it, he deserves a meal ticket.

TO EVANGELIZE THE ISLANDS

PLAN TO BRING A SUCCESSFUL
EVANGELIST TO HAWAII ADOPT-
ED BY MINISTERIAL UNION.

A campaign of evangelization for the
entire group was decided on at the
meeting of the ministerial union this
morning at the meeting held at Central
Union church this morning. The plan
adopted was one prepared by a com-
mittee appointed some time ago.

This committee after setting forth
the religious conditions existing in the
islands proposes that an evangelist of
recognized character ability and suc-
cess shall be secured from the mainland
to come here, and with the co-operation
of all the evangelical churches begin a
serious evangelizing campaign beginning
at Honolulu and extending all over the
territory.

As to the difficulty of language, it is
hoped to overcome that to some extent
by the aid of interpreters, and by
arousing enthusiasm among the reli-
gious workers in the several languages.

A committee consisting of Rev. G. L.
Pearson, Rev. E. S. Muckley, Rev. Wil-
liam Morris Kincaid, Rev. John Lead-
ingham and Rev. W. D. Westervelt.
No names of evangelists were discus-
ed.

IROQUOIS GETS BACK FROM MIDWAY

REPORTS THAT EVERYTHING
WAS PROGRESSING FAVORABLY
WITH CABLE WORK.

With details of the landing of the
cable at Midway, the U. S. S. Iroquois,
Captain Rodman, arrived early yester-
day morning from her special trip to
the westward. The vessel was away
since May 28. Everything was pro-
gressing favorably at Midway up to
June 22, the date that the Iroquois sailed
for Honolulu.

The Iroquois arrived at Midway June
3. The steamer Hanneli reached Mid-
way June 11 and two days later, the S.
S. Coptic arrived from Honolulu. The
cable ship Anglia made her appearance
June 15 with the shore ends of the
cable. On June 18, the Colonia arrived
from completing the longest section of
the cable system. The Colonia buoyed
her end about two miles from Mid-
way.

Great difficulty was experienced in
landing the shore end of the cable.
The cable was transferred from the An-
glia onto a pontoon and floated in shore
through Welles Harbor to as close to
San Island as was possible. The cable
was then unrolled and run ashore. This
part of the work was the difficult fea-
ture. Captain Rodman loaned every
man from his vessel, 27 in all, to help
draw the cable ashore. About 50 men
from the Anglia were also at work
with this landing. The work was not
completed until late at night. This
was on June 19.

On the following day the shore end
for the Honolulu section was landed.
This was accomplished much easier, as
it was paid out from the pontoon out
in the deeper water. The Guam end
was spliced on June 21 and on June 26,
a shag subsequently been learned, the
Anglia completed the Honolulu con-
nection and started this way. She was
expected to pay out at the rate of about
200 knots a day. She is expected July
3.

The cable between Guam and Mid-
way was laid with only a minor hitch.
About 3,500 fathoms was the greatest
depth in which the cable had to be
laid. The Nero Deep was avoided.
The night before the Colonia reached
Midway a flaw was discovered in the
cable. The cable had to be taken
aboard the vessel again and be repaired.
A delay of 8 to 9 hours resulting.

Captain Pond remained at Midway
and will return on the Anglia to Hon-
olulu. Mr. Pinkerton of the electric
staff of the telegraph of the Telegraph
Construction and Maintenance com-
pany and operators Moore and Butler
were left at Midway by the company
for the purpose of waiting 30 days, un-
til after the cable will have been for-
mally accepted by the Commercial Pa-
cific Cable company.

The Iroquois left Midway June 22 and
stopped at Lisiansky and Laysan Is-
lands coming home.

ABOUT SOME "DEAD ONES."

Some of our greatest politicians may
feel at heart as Lord Chesterfield did
when he said that "old Lord Blank and
myself have been dead two years, but
we don't want it to be generally
known." Is Mr. Hanna in that cate-
gory?
