## ATKINSON WILL TRY TO SOLVE LABOR PROBLEM

### The Governor Appoints the Secretary of the Territory President of the New Board of Immigration.

The list of appointments sent in by Governor Carter to the Legislature yesterday carried one name that created a kind of gasp. The selection involved so many possibilities. Why, it was asked about the Capitol, should the Governor appoint the Secretary of the Territory to the position of Chief of the Board of Immigration created under the law just passed by the two Houses of the Legislature? The explanation was given by Secretary Atkinson himself.

"When I was in Washington," he said, "I saw Commissioner-General of Immigration Sargent, and, of course, talked with him relative to conditions here, among them the condition of the labor market.

"Why," said Sargent to me, 'do you not get white laborers to go down there? The thing can be done, under the law.'

"It was at the suggestion of Commissioner-General Sargent that the law just passed creating a Board of Immigration was drawn. It is modeled on a law in force in one of the States, I think Wisconsin. At first it was intended to have the matter placed in my hands as a part of the duties of the Secretary.

Second thought led to the conclusion that it would be better to have the advice of other parties posted on conditions in the labor market, and so the law was framed to provide a Board of Immigration. The provisions of the new law provides that a salary may be paid to the President of the Board, but so long as I hold the position, there will be no salary attached to the place. I will take the additional work, that is all."

The new law, naturally, is an effort to provide reliable labor to the plantations, and for this purpose white labor is preferred.

Incidentally, it may be mentioned that Commissioner-General Sargent is coming to Honolulu in June, but Secretary Atkinson, who leaves for the mainland today, hopes to be back and have his new Board of Immigration organized before that time.

The message of the Governor, containing the appointment of Secretary Atkinson, with many others, was sent to the Senate late yesterday afternoon, and under the rules action was postponed until today. The matter will be taken up at 2 p. m., so it was agreed yesterday. The message, with its list of appointments, follows:

## AN ELK HONORED

### Reception for O'Brien at Hawaiian Hotel.

Draped with the American colors, the purple pennant of the Elks also conspicuous in the decorations, the Royal Hawaiian Hotel was the scene last evening of a gathering of the antlered herd of Honolulu to do honor to the biggest Elk of them all, Grand Exalted Ruler W. J. O'Brien of Baltimore. It was a notable event in Elkdom and the individual Elks showed up well. The Antlers were well polished and the owners thereof looked sleek and well fed, indicating that they had browsed and drank in bounteous places.

The janals and ballroom of the hotel were attractively decorated with palm branches and bunting, and throughout the building with its beautiful display of electric lights, there was evidence that the Elks were "it."

The Grand Exalted Ruler and Mrs. O'Brien were guests of honor at a dinner given by the chief representatives of Honolulu Lodge, No. 616. The other guests were Past Exalted Rulers, Dr. C. B. Cooper, J. H. Fisher and F. E. Thompson, Mrs. Cooper, Mrs. Fisher and Mrs. Thompson, the present Exalted Ruler, George Angus, and Mrs. Angus, and H. Wingate Lake and Mrs. Lake. The table was prettily decorated with purple asters.

During the dinner the Hawaiian Government band under the direction of Captain Berger gave a complimentary concert in honor of Mr. and Mrs. O'Brien, and in the presence of a large and appreciative audience in the brilliantly illuminated hotel garden. Alternating with the band was Solomon's Kawaihau Glee Club which played Hawaiian music. The Glee Club looked attractive in their tropical costumes of white, relieved by red Spanish sashes. In the meantime the Elks, accompanied by the gentler sex, gathered in the parlors and on the lanais. The reception was informal, and soon the guests were gliding away in the mazes of the waltz and the deus temps. It was a pretty scene throughout and one which the Grand Exalted Ruler said was one of the most attractive he had ever seen. It would impress itself on his memory and always remind him of his visit to the Hawaiian Islands.

The Nevada will leave San Francisco for Honolulu today. The next mail will be brought by the Ventura.

## WOOLLEY'S LECTURE

### Sharp Wit Heard at the Y. M. C. A. Hall.

"If you discredit a man who does not pay a note when it falls due but makes excuses for a delay how much more should you discredit a man who goes to the polls on election day owing an obligation to his God and to his country and says, 'Oh, God, oh country, if you had a ghost of a show to win I'd be with you, but you are beat and I'm going to vote with the other fellows?'"

That was the keynote of John G. Woolley's address at the Y. M. C. A. last night—that the real reason for rottenness in government is that the Christian, or professed Christian voters do not live up to their profession when it comes to politics. Mr. Woolley went straight to the point, his address was sparkling with wit and humor and even those who do not believe in the plan of prohibition that he advocates must have felt the force of his logic. It is to the discredit of Honolulu that he was greeted by a mere handful of people.

Mr. Woolley says that he has but one subject for his speeches now and that may be summed up as "Good Citizenship." Last night he especially emphasized the necessity of testimony for good citizenship on the part of those who wished for righteousness in civic affairs. He began by telling of the cry of humanity for power and how that power must come "after that the Holy Ghost has come upon you."

Continuing Mr. Woolley said in part: "I have little respect for those people who discuss very flippantly the doctrines of the Holy Spirit and whether it should be spoken of by the pronoun 'he' or the pronoun 'it,' but in politics are seen in the company of the dirtiest rascals that ever disgraced the land. One of the chief difficulties of the Temperance reform is that so many people are trying to train truth and falsehood to pull together. I give you my word that it is a pretty poor team. I know of no better example of this than the license law. A license law is composed of one drop of prohibition, for they always begin, 'Thou shalt not sell intoxicating liquors,' in an ocean of permission, for they go on, 'unless you pay \$250 per year.' Just think of it, the liquor traffic which debauches our homes and ruins our youth, acknowledge that it is a pretty poor team." (Continued on Page 4.)

## SECRETARY LEAVES FOR THE MAINLAND TODAY

### Goes to Make Arrangements for the Issuance of Bonds for Refunding the Old Debt of the Republic of Hawaii.

The Legislature having passed and the Governor having signed the bill providing for the refunding of the old Republic of Hawaii bonds, Secretary Atkinson will leave for the mainland on the Alameda today to arrange for the printing and, if possible, for the placing of the bonds. There are \$830,000 of these bonds outstanding, drawing five per cent interest, and it is the hope of the officials that new bonds may be floated at four per cent, thus making a very substantial saving of interest for the Territory.

Secretary Atkinson will go right through to New York and Washington. At the national capital he will try to have the new bonds accepted, as the last issue was, by the Secretary of the Treasury, and will close up some unfinished business that could not be concluded on his last visit to the mainland.

In New York he will attend to the printing of the bonds, look into the legal aspects of the matter, and endeavor to place the issue. The secretary himself did not know last night just how big the bond issue would be, but Treasurer Campbell had a very definite idea upon the matter. "We will not refund all the bonds," said the Treasurer. "About \$700,000 will be the amount of the new issue, I should say."

The Treasurer was closeted with the Governor until nearly midnight last night, getting matters in shape for the departure of the Secretary today. Secretary Atkinson was pretty busy, too, in putting the affairs of his office in form for his absence. However, he does not expect to be gone nearly so long this time as the last. Governor Carter wants to leave on the 8th of June, if it is possible, to meet the Taft party in San Francisco, and so the Secretary must of necessity make a flying trip, if the Governor is to carry out his plan—as he will if the Legislature gets through with the extra session in time to permit him to do it.

## LAKES LEAVE TODAY ON THE ALAMEDA

Mr. and Mrs. H. Wingate Lake leave today in the Alameda for San Francisco, after spending the past four years, off and on, in Honolulu. In that time Mr. Lake has been manager of the Royal Hawaiian and the Alexander Young Hotels, bringing the latter up to its present standard of excellence. Since it became known that the Lakes were to leave on the Alameda they have been greatly entertained by their local friends. Last evening, out of all the great gathering of Elks, other than the past and present Exalted Rulers, Mr. Lake and Mrs. Lake were invited to be present at the dinner for the Grand Exalted Ruler at the Hawaiian Hotel.

Mr. Lake has been offered the management of four hotels in California and was asked to cable his acceptance of at least one. He has, however, deferred accepting any, until his arrival at the coast. The Lakes will be given a royal send-

off this morning on the departure of the steamer.

#### SOLONS TURN IN ALARM.

A fire alarm was turned in from Box 45 at the corner of Beretania and River streets last night. It was rung in by a party of legislators who were driven to the spot in the police patrol wagon. It was their desire to test the efficiency of the fire department and the test was eminently satisfactory, the engines arriving before the Solons had time to borrow a watch. A big crowd who came out expecting to see a repetition of some of the big Chinatown fires went away disappointed.

#### ARMY POST PLANS HERE.

Captain Humphreys, the local army quartermaster, received from Washington yesterday the plans for the Kahalaiki army post near this city. The plans provide for the barracks, officers quarters and other necessary buildings for a three company post.

The army transport Sheridan will bring part of the 7th Cavalry, Custer's old command, and part of the Ninth Cavalry, the famous colored regiment.

# STORMS RAGE IN BOTH HOUSES OF LEGISLATURE

## Low Oil Flash Test and Rapid Transit Speed Bills Both Pass Second Reading In the Senate.

There were storms in both the Houses of the legislature yesterday, Senator McCandless making himself the center of a hurricane in the senior chamber, and the House hurling great volumes of words at the head of Mr. Howland, head of the water works division of the Board of Public Works.

The Senate won two popular fights, just the same, one fixing the test for fuel oil at 120 degrees flash, and the other giving the Rapid Transit permission to operate its cars at a higher rate of speed, thereby enabling people who ride on the cars and who want to get any place to arrive in some kind of time. Both bills passed second reading, and in the consideration of both Mr. McCandless found himself fighting on the losing side. These measures will come up for third reading today.

The trouble in the House was over a resolution expressing total lack of confidence in Mr. Howland, and asking that he be removed from his position at the head of the water works. The discussion took an intensely personal turn.

### LEGISLATURE—FIFTY-NINTH DAY.

#### THE SENATE.

It was a hard fight, in some of its aspects, but the Senate by a vote of seven to seven, President Isenberg casting the deciding vote, yesterday stood with the people and against the would-be oil monopolists in support of the bill placing the flash-test for fuel oil at 120 degrees, fire-test. And so the gentlemen who own the Kern River oil fields will not have the market of Honolulu handed over to them for their exclusive exploitation. Also, the Senate stood by the popular desire in its action upon the bill to permit the Rapid Transit to operate its cars at increased speed.

Those were the two great fights in the Senate yesterday. The oil fight followed the street car fight on a report by McCandless from the Public Lands Committee, the report advocating the raising of the flash-test from 120 degrees, as provided in the bill, to 140 degrees. The report was signed by McCandless, Paris and Woods, all the members of the committee.

The bill came up in regular order for second reading, and was read by sections. The fight for the higher test began with the reading of the second section, where the test provision first occurs in the bill. There was a motion to adopt the committee's report providing for a high test, but it was beaten and the section passed as in the bill. There was little debate upon it, the enemies of the bill having not yet got ready for battle, apparently.

Section 4, relative to the storage of kerosene by private parties in their own warehouses, was stricken from the bill, leaving the storage in the hands of the government.

#### THE REAL FIGHT.

It was on the amendment to Section 11, or the proposed amendment by the committee, raising the flash-test from 120 to 140 degrees, that the real fight was made. McCandless, who was having a field day of defeat, made a speech in favor of the bill, saying that he had learned that the companies selling oil here had agreed upon a test of 140 degrees, once, and that they had then changed base. He pleaded that there was grave danger in low-grade oils, and said that the people should be protected by the high-flash test, which would really prove more profitable for everybody, even the plantations.

"The only thing sought to be accomplished by raising the test of oil used in this Territory is to create a monopoly," said Bishop. "That is all there is to it."

Hewitt spoke as a user of oil in favor of the high test, and Kalama spoke as a user of oil for the low figure. And both gentlemen claimed to know something about oil. The vote then came on the motion to adopt the committee's report favoring a test of 140 degrees, and it was lost on a show of hands, 7 to 7.

"I vote to leave the test at 120 degrees," said President Isenberg.

Consideration of the bill continued then without any matter of special moment arising. A determined effort was made to have the bill referred just before the reading was finished, thereby killing it, but this failed and the bill passed second reading. It was then referred to the Revision Committee to have its inconsistencies corrected.

#### RAPID TRANSIT FIGHT.

At the morning session it was that the Senate got into a fight over the speed of the Rapid Transit—or, rather, that Senator McCandless got into a fight over it. The fight was on the second reading of House Bill 225, regulating the speed of street cars. A motion to refer to the Public Lands Committee failed, and Dickey moved an amendment making the passage of the bill dependent upon the approval of Congress.

McCandless made a speech against the bill, accusing the Rapid Transit of lobbying and log-rolling to get the Senate to pass a bill that was unconstitutional.

"It is conceded by every person in this community," he shouted, "that the Rapid Transit has not kept its agreement with the people of this Territory—has withheld money that belongs to the Territory."

"Everybody in this community is

a pretty sweeping statement," interrupted Bishop.

McCandless was proceeding to enter into the matter of the bond issues of the Rapid Transit Company and had to be called to order twice before he would get back to the speed issues, and when he did get back, he argued that the present speed limit was the proper thing. Half the foreign element here, he said, had never seen electric cars until they came here. A Chinese or a Japanese got on a car, touched a button and stepped right off with the result that he had a skinned face. Many had been killed by the cars, and while he made no fight for Chinese or Japs, still their lives were sweet to them—and they were needed in the Territory, all laborers were.

#### WANTS SOME MONEY.

He said the Legislature should not amend a franchise without the consent of Congress—or, if it did, an effort should be made to get a portion of the gross receipts of the Rapid Transit, say 2 1/2 per cent, in return for the favor. He accused the Rapid Transit of hampering and ignoring the Superintendent of Public Works, and said he would insist upon an amendment calling for a percentage of the gross receipts of the company. And then he moved that the bill be indefinitely postponed. Woods seconded the motion, pending which Achi said that there was no need to refer the matter to Congress, as suggested by Dickey.

The Dickey motion to amend was lost, and so was the McCandless motion to postpone indefinitely.

Then McCandless moved an amendment to make the speed limit 10 miles an hour within the city of Honolulu, 14 miles outside, 4 miles on switches and turn-out, and 2 miles while passing Thomas Square; also providing that in case the Rapid Transit takes advantage of this concession, it shall pay the Territory 2 1/2 per cent of its gross receipts.

And he began to speak to his amendment, when Achi moved a recess until 2 p. m.

After the noon recess, giving way for the introduction of a few committee reports, McCandless went on talking about his amendments.

#### SENATORS AS WITNESSES.

"I believe there is a Senator in this room," he said, "who heard a conductor tell a motorman to run away from an approaching car at a connection when the approaching car was only about 300 feet away."

He then accused the Rapid Transit again of not dealing honestly with the Territory, going into the stock issues.

"Confine yourself to the question of speed," warned the President.

"I am speaking of my amendment to give the Territory a part of the gross receipts of the company," said McCandless, and he went on talking, saying that the Rapid Transit franchise perhaps never have been granted if it had been known that the company would water its stock.

Dickey said the question as to whether the Rapid Transit had watered its stock was a question for the courts, and its settlement was up to the Attorney General.

"Was not that the resolution passed the other day?" asked the President.

"It was something like that," answered Dickey, "but as to the 2 1/2 per cent provision proposed by Senator McCandless, I do not believe that could be inserted, even with the approval of Congress. I believe the United States Supreme Court would knock it out. The Rapid Transit franchise is a vested right, a bargain that the Territory cannot back out of."

Senator Bishop pleaded for a consideration of the question without heat and with all personal animus eliminated, in the interest of the general public. The Rapid Transit had given this community an admirable service, a service that had earned the commendation of every visitor who had come to Honolulu.

#### A POINT OF ORDER.

He believed that the people of this community wanted nothing so much as a restoration of that service. What this bill gave, was not given to the Rapid Transit. The power was given to the officials of the government to regulate speed, and if they found the speed limit dangerous, it was the government officials who could regulate it.

Achi pleaded for the passage of the bill. The Rapid Transit, he said, was a convenience to the poor men, and it was to their interest to have the cars run more quickly so that laborers could get to their work more quickly. Rich men did not need the street cars. It

was the poor, and this bill gave no favor to the Rapid Transit. That company would make no more money by running fast than by running slow. But the company paid heavy taxes and had increased property values by the extension of its lines, and it was entitled to some consideration.

Achi offered an amendment keeping the control of the line in Territorial hands.

The McCandless amendment was then beaten, and the Achi amendment carried.

Dowsett moved an amendment making the company legally liable for damages no matter what speed was maintained. The amendment carried.

Then McCandless offered an amendment providing that in case the Rapid Transit Company takes advantage of this act it shall pay to the treasury 2 1/2 per cent of its gross receipts.

Achi raised the point of order that this interjected a new subject into the bill.

"I think the point is well taken," said Isenberg.

#### MCCANDLESS BEATEN.

McCandless pleaded to have the amendment read again, and it was read.

"This is all out of order," said Achi.

"There is nothing before the Senate but the passage of the bill on second reading," said the President.

Gandall made an eloquent appeal for the bill, saying that the Rapid Transit had done much for the country. It had built up the country.

"And who," he asked, "was this Chinaman who is said to have fallen from the car and skinned his face? Who does he work for?"

"Not for me," said McCandless.

"Well, who is he?" asked Gandall.

"Let him be brought here to give us his testimony. We don't want any hearsay."

He proceeded to dwell at length upon the merits of the Rapid Transit service. "We don't want to go back to the slow old way," he said. "We want to move with the times. And if we are going to wait until all the people are civilized, we might as well go back to the old days of Kamehameha. And then the bill passed second reading."

#### ELECTION INSPECTORS.

Almost as the first business of the day's session, the list of recess appointments of election inspectors was sent to the Senate by Governor Carter, and action was postponed under the rules until today.

Secretary Atkinson sent notification that the Governor had signed the following bills:

Senate Bill 78 (Act 49), to provide for a Board of Immigration and defining its duties.

Senate Bill 43 (Act 50), to amend Sections 1610, 1613 and 1616 of the Revised Laws of Hawaii relating to commutation.

House Bill 146 (Act 53), to provide one fire department for the towns of Wailuku and Kahului, one for the town of Lahaina, and one for any other town in the Territory where such department is properly organized under the provisions of this act.

Dickey from the Revision Committee reported Senate Bill 141 as amended by the House and the Senate concurred in the amendments.

From the conference committee on the bill for the segregation of jurors during trial, Hayselden reported in favor of the bill and the report was adopted, Dickey voting against it.

From the conference committee on House Bill 188, Hayselden reported favoring the passage of the bill. This is the bill providing for the issuance of certificates of Hawaiian birth, such certificates to cost \$7.50. The bill passed.

#### TO REVISE TAX LAWS.

House Bill 191, appointing a recess commission to revise the tax law, was read for the second time and passed, the bill being amended to appropriate \$2500 for the expenses of the commission, instead of \$5000. The bill will be read for the third time on Wednesday.

The Judiciary Committee reported that the passage of House Joint Resolution No. 9 would be tantamount to asking Congress to amend the constitution of the United States, and recommended that it be tabled. The report was adopted. This is the Coelho citizenship resolution.

House Bill 57, the adoption bill, passed second reading.

Secretary Atkinson notified the Senate that the Governor had signed Senate Bill 139, the Dickey bill to take the assessment and collection of taxes from the counties and leave it in the hands of the Territorial officials.

The House failed to concur in the Senate amendments to House Bill 205, regarding the motive power on railroads, and Hewitt, Wilcox and Hayselden were appointed Senate conferees.

House Bill 129, to protect vested fishing rights, was read for the third time, and passed, Dowsett and Lane voting against it.

House Bill 149, regarding licenses to carry firearms on Oahu, passed third reading.

House Bill 194, the judicial set-off bill, passed third reading.

House Bill 210, to reimburse to C. M. Kani for bad money wrongfully withheld, passed third reading, Achi, Kalama, Dickey and Paris voting against it.

#### CALENDAR FINISHED.

House Bill 221, to amend Section 1634 of the Revised Laws giving parties to causes the right to hearing before a full bench of the Supreme Court, passed third reading.

House Bill 160, the anti-trading stamp bill, called up by Dowsett's motion to reconsider, was read for the third time and passed without dissent.

House Bill 189, taxing foreign corporations, was read for the second time and passed. It will be read for the third time today, being given to the Judiciary Committee for a report.

House Bill 218, providing for the expenditure of appropriations still on hand, passed third reading without dissent.

House Bill 147, to permit district court lawyers to practice in circuit courts, passed second reading. It will be read for the third time today.

House Bill 99, prohibiting government officials from practicing in civil cases during their term of office, passed second reading and will be read for the third time tomorrow.

Lane moved that House Bill 123, making Saturday a half holiday, be

The Senate then adjourned.

#### THE HOUSE.

An attack of the most direct personal nature was made in the House of Representatives yesterday by Fernandez on J. Hastings Howland, assistant superintendent of the Department of Public Works. The attack came in the form of a resolution which ran as follows, and was discussed by Fernandez, Kaniho and Aylett.

"That the House of Representatives hereby express their total lack of confidence in J. Hastings Howland, assistant superintendent of supervising engineer of the Department of Public Works of the Territory of Hawaii, and hereby demand that he be removed from office."

On motion, the matter was referred to a special committee to be appointed by the Speaker.

The Speaker appointed Long, Haia and Sheldon a select committee to inquire into Howland's conduct.

#### VETOED LEPROSY BILL.

The Governor's veto of the leprosy bill (H. B. 176), was read at the morning session of the House. In the course of it the Governor made these observations:

"It is unfortunate that extreme legislation of this character on this subject should be precipitated at this time. Congress has seen fit to pass an appropriation of \$150,000 for the establishment of a hospital at Molokai, with the object of studying the disease; and that this work will be vigorously pushed is shown by the latest advice from Dr. Wyman, United States Surgeon-General, and head of the Quarantine and Marine Hospital Service. He states that already preliminary plans have been discussed, and that he expects to arrive here in the latter part of next month."

"By the proposed act it is intended to provide a combination of a medical examination and a court trial. Arrests are to be no longer made of alleged cases of leprosy, but a citation or sort of civil summons is to issue to persons suffering with leprosy, who shall be deemed capable of spreading the disease, to appear before a board of five physicians, all of whom must be present, for the purpose of an examination to determine whether or not the person is suffering from leprosy and is capable of spreading the disease."

"It is clear that it will be impossible to issue a citation to determine a fact, when the fact must be determined before the citation can issue. The District Magistrate has no discretion in the matter. He can only issue the citation to a person suffering with leprosy. 1. he should take the statement of a witness and issue a citation, the attorney for the person cited could at once attack the same, claiming no desire or intent to disobey it, but simply that it was not legally proven that his client had leprosy, and, therefore, that the citation was issued contrary to law."

"There are other minor objections to the bill, such as the provision by which all those who are confined in the hospital for the treatment of suspects can be examined at intervals of not less than once a year. Thus even if the patient and the Board of Health are both anxious for an examination to show that the disease has been abated, while such an examination could take place, it would be, under this provision, without legal significance or effect."

"This bill simply takes away all power and control in reference to this matter from the Board of Health, and practically prevents segregation. "Legislation of this nature illustrates what radical action may be anticipated if this subject is left per-

manently with the voters and lawmakers of the Territory."

"I would not be true to the best interests of those who suffer from this disease or of the Territory of Hawaii if I signed this bill or aided in its passage."

#### HOUSE OVERRIDES.

The House deferred action until the afternoon, when it overrode the veto by 23 to 5, Greenwell, Haia, Lilikalan, Pali and Quinn being the five who agreed with the Governor.

The Senate returned the liquor bill with amendments. On motion by Rice the House refused to concur and a conference committee consisting of Rice, Harris and Holstein was appointed.

The House refused concurrence in the Senate's amendments to House Bill 205, authorizing companies to use motive power other than steam, and Smith, Coelho and Copp were appointed a conference committee on it.

The conference committee on the act authorizing the issue of certificates of Hawaiian birth reported in favor of changing \$7.50 for the certificates, thus splitting the difference. The House had favored a \$5 fee and the Senate \$10.

The conference committee on the act relating to trial jurors recommended the passage of the bill striking out the Senate's amendment providing that "economy shall be exercised" when juries are segregated. Both bills passed third reading as amended.

#### TRUST COMPANIES BILL.

The conference committee on Harris's bill to regulate trust companies (House Bill 125) reported in favor of reinserting in the bill a subdivision to allow such companies to accept money on general deposit and hold the same subject to draft or otherwise. The report was adopted and the bill passed third reading.

The House adopted the Senate's amendments to House Bill 220, striking out the section which imposed imprisonment in lieu of fine.

Secretary Atkinson notified the House that the Governor had signed the following:

House Bill 180, to amend Section 2693, Revised Laws of Hawaii.

House Bill 45, in relation to suits on open accounts.

House Bill 146, to provide one fire

## A BROKEN DOWN SYSTEM.

This is a condition (or disease) to which doc-  
tors give many names, but which few of them  
really understand. It is simply weakness—a  
break-down, as it were, of the vital forces that  
sustain the system. No matter what may be  
its cause (for they are almost numberless),  
its symptoms are much the same; the more  
prominent being sleeplessness, sense of pres-  
sure or weariness, depression of spirits and  
want of energy for all the ordinary affairs of  
life. Now, what alone is absolutely essential  
in all such cases is INCREASED VITALITY—  
VIGOR—VITAL STRENGTH AND ENERGY to  
throw off these morbid feelings, and experience  
proves that as night succeeds the day this may  
be more certainly secured by a course of the  
celebrated life-reviving tonic

## FAREWELL TO BISHOP

## Big Crowds Gather in the Cathedral Yard.

Bishop Libert and Father Valentin  
of the Catholic Mission in Hawaii bade  
farewell last evening to their parishion-  
ers in Honolulu. Both leave today in  
the S. S. Alameda en route to Rome,  
via San Francisco, Washington and  
New York. The demonstration in their  
honor was one of the largest ever ac-  
corded a prelate of any church in Ha-  
waii.

At 7 o'clock there was a benedictory  
service in the Cathedral at which the  
Bishop officiated. This was attended  
by hundreds of people.

Afterwards the Bishop, Father Valen-  
tin and the clergy went to the reception  
hall of the Mission, where for nearly two  
hours they welcomed the multitude.  
Throughout the evening the old Catho-  
lic Mission band played on the prem-  
ises, the music serving to draw a large  
number of people. The Bishop and  
Father Valentin, who will be his chap-  
lain on the long journey to the Papal  
City, stood in the center of the hall.  
Near by were the clergy, French Con-  
sul Vizavona, Portuguese Consul Can-  
avarro, and a delegation of members  
of a Portuguese society. The room  
was draped with the American, French  
Papal, Portuguese and Hawaiian flags.  
Men, women and children, old and  
young, bent the knee before the Bishop  
and reverently kissed the signet ring  
on his hand.

At noon the Bishop and Father Valen-  
tin were the guests of honor at a  
luau given by Hawaiian communi-  
cants. The table was laden with Ha-  
waiian delicacies. Toasts were drunk  
and responded to by the Bishop and  
Father Valentin, and Consuls Vizavona  
and Canavarro. Other prominent  
guests present were Messrs. August  
Dreier, F. W. Macfarlane and John  
Ena.

The Bishop and his chaplain leave in  
the Alameda this morning at 9 o'clock,  
at which time there will be a popular  
demonstration in their behalf. They  
will go to Washington, where they will  
be presented to President Roosevelt by  
the Catholic dignitaries there. They  
also have a letter of introduction from  
Governor Carter. Thence they will go  
to France and then to Belgium to visit  
the Mother House of the order to which  
they belong, which is now located in  
Louvain, Belgium. Before the priestly  
orders were expelled from France, the  
Mother House was located in Paris.  
Afterwards the Bishop and his Secre-  
tary will go to Rome, intending to  
visit the Pope before the end of June,  
as at that time the Cardinals will be  
leaving the Eternal City.

The Bishop was presented with a  
purse containing a goodly sum.

## GEMS FROM KAU WEEKLY

### GEORGE IS POPULAR.

George Kawaha has a little son. He  
acts just as though it was nothing new  
to him. We congratulate you George.  
You and your good wife deserve such  
a blessing may he grow up as popular  
as his daddy.

LOCAL ASPECT OF THE WAR.  
Russian and Jap met at Waiohinu  
on the 14th. The Russian is in retreat  
to an imaginary Mukden. \$2.75 worth  
of supplies of enemy captured by the  
Jap.

### THE VERY LATEST.

Master Kiule's baby worm died at  
Chas. Thompson's, Honouapo, Monday,  
April 17th.

### A TOUCH OF POLITICS.

Senator Paris and Representative  
Smith evidently have decided not to  
keep in politics judging from their  
stand against their constituents. Sen-  
ator Paris could have offered to have  
been a little modest considering that  
he only had one majority. He will  
never get that much again.

### QUEER BIRDS.

The Honouapo Human Geese is still  
laying the rotten eggs in the cracks. It  
is reported that a Korean has joined in.

### MOST REPREHENSIBLE.

\$100 for spite but not one cent for a  
telephone which would save money and  
the annoying of other people.

### GIVEN FAIR WARNING.

It is now quite evident that the half-  
Dutch or laughing Jackass in the store  
is one of the chief spies employed to  
lie about his betters. Take a hint you  
grinning fool for there is a horse whip-  
ping due you and will get it before  
long. Better you leave the district  
quickly.

### WHO IS AFRAID?

Some well-known half crazy man  
asked to the district magistrate to  
sign a warrant of arrest, because he  
is so afraid of Mr. Makino, and he  
was told by some one that Makino  
carrying a half dozen of pistols in his  
pockets to shoot him. Poor fellow  
must have had some bad dream the other  
night, better send for ice and cool off  
your head little bit, then you will be  
all right.

Don't be scared yourself too much,  
there is no coward Russian blood in  
Makino's family. He is a genuine  
descendant of the royal Englishman.

By the way we are all afraid of you  
crazy man.

Yesterday was the twentieth anni-  
versary of the death of Queen Emma,  
and an Hawaiian commemorative ser-  
vice was held in St. Andrew's cathed-  
ral.

## ELKS' MINSTRELS IN FULL REHEARSAL

Full rehearsals of the Elks' Minstrel  
show have been taking place nightly,  
and from the character of the re-  
hearsals it bids fair to be the best  
Minstrel show ever given in Honolulu.  
The great double first part is full of  
novel features, and many of the songs  
and choruses will be whistled and sung  
upon the street on the morning after  
the performance. Many of the songs  
first selected have been laid aside for  
the simple reason that the public seem-  
ed to have "caught on" already and  
every effort has been made to have  
everything brand new and up to date.

The first part is followed by the  
Comedy Four, who have a rollicking  
act which will bring down the house.  
Those who have not heard Mr. C.  
Schwartz in Dutch dialect will think  
that Kolb and Dill are not "such-a-  
much" after all, and his versatility  
will be shown in taking the place of  
"Kapellmeister" Berger, and leading  
the only band. Guy Livingston, Has-  
ings Howland, Jas. Dougherty, will  
make up the balance of the quartet,  
and they will illustrate a number of  
popular songs in a way entirely new.

Miss B. Gertrude Hall and Mr. W. D.  
Adams will appear in a sketch called  
the "Happy Pair," which offers the best  
of opportunity for refined comedy work.  
Both Mr. Adams and Miss Hall have  
been seen here often in dramatic work,  
and the versatility of Miss Hall will  
be shown in a quick change from the  
rollicking comedy of an end "man" to  
the quieter mirth of this little sketch.

The Richardsons, new to Honolulu,  
will next be seen in a musical sketch.  
Mr. Richardson and his daughter are  
en route to England, from Kimberly,  
South Africa, and have consented to  
appear for the local Antlered Herd.  
Mr. Richardson is a conceitina player  
of a very high order, while his daugh-  
ter is an accomplished pianiste who,  
in the language of the late William  
Baxter, "certainly knows her way  
around the ivories." Those who have  
heard Mr. and Miss Richardson pri-  
vately have been charmed with their ex-  
quisite music, and predict a big hit in  
the coming show.

Mr. Hugo Herzer, baritone, needs no  
introduction to the Honolulu public.  
His splendid voice has often been  
heard here and has won him hosts of  
friends and admirers.

The closing act is the farce, "A Coun-  
try School" which is guaranteed to  
cure the most acute case of hypochon-  
dria. Every line is a laugh, and the  
farce has plenty of local hits, and  
catchy music. Tickets for the per-  
formance are now on sale at Wall,  
Nichols & Co., and those wishing to  
secure seats should apply at the earli-  
est opportunity, as the number of good  
seats is rapidly diminishing.

## NUUANU STREET IS GETTING OIL COAT

Immediately following the installa-  
tion of the new gas mains, Nuuanu  
street has been regraded and the street  
is being oiled. Already the thorough-  
fare shows that it is likely to become  
as good as the Waikiki road, the first  
real practical test for oiled roads in  
Honolulu. The street has been com-  
pleted to Beretania street.

### BOYS' FIELD DAY.

St. Louis College, Mills Institute and  
the Y. M. C. A. have entered teams for the  
field day on May 13. The following even-  
ing field day on May 13. The following events  
have been decided on: Senior events: 50-  
yard dash, 100-yard dash, 220-yard  
dash, 440-yard dash, 1 mile run, 1 mile  
relay, 120-yard low hurdle, high jump,  
broad jump, pole vault, 12-pound shot-  
put. Junior events: 50-yard dash,  
100-yard dash, 220-yard dash, 440-yard  
dash, half mile run, half mile relay,  
high jump, broad jump.

Entries close at the Y. M. C. A.  
May 10.

The Democrats are beginning to talk  
about their county ticket for Oahu, but  
the wisest of the leaders believe that  
the validity of the County Act should  
be first tested.

## NO QUORUM FOR EVENING SESSION

The House of Representatives was to  
have met at half past seven last even-  
ing but at that hour only a corporal's  
guard had put in an appearance.  
Speaker Knudsen possessed his soul in  
patience for three quarters of an hour  
but even then all who were present  
were Kalaiaia, Harris, Waterhouse,  
Rice, Mahikoa, Sheldon, Greenwell,  
Lewis, Coelho, Nakuina, Long, Lili-  
kalanii, Holstein and Kalliao. These  
with the speaker only made fifteen and  
one more was necessary to form a  
quorum.

Speaker Knudsen was at a loss to  
know what to do and Liliakalani filled  
in the blank by making an impressive  
oration in which he counselled waiting  
awhile to see whether any more mem-  
bers turned up.

Holstein strode round looking as  
melancholy as Hamlet in the first act.  
The sergeant-at-arms went out to dig  
up a member or two but returned with-  
out making a kill.

At half past eight Coelho burst into  
song and entertained the waiting mem-  
bers with a rendition of "Toni, Toni."

That finished matters and the Speaker  
dreading a repetition declared that  
the House was adjourned.

town where such department is prop-  
erly organized.

The Education Committee referred  
the rebuilding of the Smith street  
school to the fifth district delegation.  
The Public Lands Committee refer-  
red the item of \$10,000 for 4500 feet  
of pipe line at Wailuku and Kahului  
to the Maui delegation.

The Public Lands Committee recom-  
mended the passage of Senate Bill 144,  
providing for the construction of roads  
through and from public lands opened  
for settlement to Nuuanu street.

### MAUI ELECTRIC.

The Committee on Public Lands and  
Internal Improvements recommended  
the indefinite postponement of Senate  
Bill 97 (Hayselden), to authorize E. A.  
Wadsworth and others to construct,  
operate and maintain an electric rail-  
way and works on Maui. The report  
was adopted.

Senate Bill 54 (Bishop), respecting  
the establishment of branch banks,  
passed third reading.

Senate Bill 117 (Dickey), relating  
to permission for relatives to visit the  
Leper Settlement, passed third read-  
ing.

Senate Bill 87 (Dickey), to compel  
owners of buildings of over two stories  
to construct fire escapes of metal, was  
tabled.

Senate Bill 123 (Dickey), respecting  
income tax, passed third reading, de-  
spite Harris's protest that the mea-  
sure should be a Territorial tax, as oth-  
erwise the Territory will lose \$200,000  
in taxes.

Senate Bill 102 (Achi), relating to  
personal taxes, passed third reading.

The House took a recess at 5 o'clock.

### HALEIWA.

The Haleiwa Hotel, Honolulu's fa-  
mous country resort, on the line of  
the Oahu Railway, contains every  
modern improvement and affords its  
guests an opportunity to enjoy all  
amusements—golf, tennis, billiards,  
fresh and salt water bathing, shoot-  
ing, fishing, riding and driving. Tick-  
ets, including railway fare and one full  
day's room and board, are sold at the  
Honolulu station and Trent & Com-  
pany for \$5.00. For departure of trains  
consult time table.

On Sundays, the Haleiwa Limited, a  
two-hour train, leaves at 8:22 a. m.;  
returning, arrives in Honolulu at 10:10  
p. m.

Yesterday Governor Carter refused a  
request of Representatives Harris,  
Greenwell and Holstein to extend the  
present session of the legislature even  
for the few days remaining of this  
week. The legislative session expires  
by limitation today, and after the ad-  
journment—in all probability tomorrow,  
the Governor will issue the call for the  
extra session to meet on May 1 and con-  
sider the appropriation bills. And that  
is all that it will be asked to do. At  
that, the work will require about thirty  
days, although it should be finished in  
fifteen.

## IS THE VOLCANO A TOURIST ASSET?

We have been doubtful at times since the Mount Pelee tragedy at Martinique of the advertising value of the volcano of Kilauea. To be sure Kilauea is a tame crater, in a dying condition, but the trouble is that people at a distance do not know that and are prone to associate it with the sleeping monsters of nature which now and then awake and devastate great areas of fertile land, ruin cities and destroy populations. This misconception, we are sorry to say, is spread by an otherwise intelligent press. During the Martinique trouble Honolulu was described as lying under the lee of a dangerous volcanic mound—with pictures of Punchbowl for evidence—and speculation was rife as to what would happen to this place if the mound exploded. Nobody took the trouble to explain that Punchbowl is no more threatening than are the extinct volcanic cones of the Adirondack range in New York. Indeed, as geologists affirm, there has been no eruption on the Island of Oahu since about the time of Abraham, Isaac and Jacob. The whole story of volcanoes in this group and its dependencies, is one of development and extinction on a route, about eight hundred miles long, extending from the northwest to the southeast, with Oahu in the extinct area. What are now the low-lying bird islands were volcanoes tens of thousands of years ago, and then Kauai, Oahu, Molokai and Maui had their turns, the latter probably losing or beginning to lose its fires when the great island of Hawaii was created—an island of really vast antiquity which should, in the course of ages, give up its volcanic primacy to a new island farther to the southeast. Hawaii, as the traveling public ought to know, is so far from the island upon which Honolulu is situated that an eruption may take place there without anyone knowing it here until somebody sends the news. Twenty hours by sea are needed to bring a sightseer from Honolulu to the landing place on Hawaii, whence access may be had to the volcano over a road thirty miles long. No one here feels any more sense of peril from Kilauea than the people of San Francisco do from Shasta.

But observe the point of view of the great public to whom we look for tourists. Harper's Weekly, in its inauguration number, has a cover vignette of Hawaii, showing the Honolulu judiciary building in the foreground and back of it, in a bay, some four or five miles distant, a conical, smoking volcano like Soufriere or Vesuvius. Nobody, if a stranger, can look at this pictorial misrepresentation without thinking of the fate of Pompeii and of the villages about Krakatoa and Martinique. Yet, to reach the time when lava flowed and ashes fell within sight of Honolulu harbor, one must go back to the period of the earliest scriptures.

Would it not be wise—we merely put the question—to devote no space whatever in our Promotion literature to the volcano, letting people find out about it after they arrive? Or would it be wiser to begin a campaign of education on the subject and tell the world all about Kilauea's record, its distance from the centers of local population and how clear is the geologic evidence that many islands of this Territory have not, for ages, known the presence of an active crater? Surely the matter is worth considering, for, to our mind, a public misunderstanding about Kilauea is one of two or three main reasons why our dribble of tourists does not become a broad and revivifying stream.

## THE DANGER OF GLANDERS.

A well-known merchant writes the Advertiser as follows:

"A while ago I read a very timely article in your paper on the subject of glanders. I believe this disease among horses and mules is much more prevalent than most people believe or are willing to admit. On page 9 of the Breeder and Sportsman, March 18, 1905, is an article which is worth quoting in support of the argument you put forward in the article I read as above stated."

The Advertiser has often enquired of Dr. Monsarrat as to the prevalence of glanders and learned that it exists here and has done so for many years; but the doctor, whose business it is to look after such things, says that there is no epidemic of the malady, nor is there likely to be. Nevertheless, as the Asiatics and others of the laboring and truck-farm classes conceal such cases so as to get all possible value out of an infected horse before it dies, the need of close and general inspection is clear. How widespread is the efficiency which Dr. Monsarrat shows on his own particular beat, this paper has no means of knowing. One man cannot oversee one town, to say nothing of a whole Territory. The most he can do, perhaps, is to see that no infected animals are landed. Following is the Breeder and Sportsman article referred to:

"A most valuable address in 'Glanders—Its Nature, Distribution and Prevention,' was delivered by Dr. Paul Fischer, Ohio State veterinarian, before the Ohio Live Stock Association. He classed this as the most dangerous disease of the horse, known for centuries before Christ. This disease is a bacterial one, or germ, and infects all animals, including man, excepting the ox and fowl. It usually occurs with humans that have handled glandered horses. Hostlers have it more than other people, and in Germany of a list of 1000 who died of it 129 were hostlers. The disease is very common and has a very great economic bearing on horse-flesh. In Massachusetts, with one-fifth the horses of Ohio, 2250 were condemned during three recent years, valued at \$200,000.

"Glanders is also known as farcy, and is detected by injecting Mallein into suspicious cases, an increase of temperature showing prevalence of glanders. A most dangerous feature of the disease is its insidious character. A horse may look sound, yet be very dangerous. In Denmark seventeen cases were found in one year, in spite of rigid inspection covering many years, while in Massachusetts during the same year 737 cases were reported—this is a State where attempted control is more recent. In Germany during the Franco-Prussian war glanders existed in 966 horses out of every 100,000, and doubled after the war in prevalence.

"Glanders occurs generally over the United States. It became very prevalent during the Civil War, and is most common among range horses today in the West. It occurs in both an acute and chronic form, the former ending with death in a few weeks, the latter covering months and even years. Animals may appear healthy, yet be badly diseased. With both forms of disease the lungs are the principal seat of the malady, and they may be affected before any outward sign of the disease. Later the glands of the jaw enlarge and the membrane of the nostrils becomes affected and a discharge is commonly thrown off. All cases of chronic discharge are suspicious. Small ulcers or boils will appear under and on the skin also. This form is known as farcy. These ulcers often develop into bad sores on the body and hind limbs.

"The disease is spread by nasal secretions on the woodwork of the stable, on posts, water troughs, etc. When on wood will dry and as dust be taken into the lungs and the disease generated. Humans become inoculated through wounds on hands generally. The germs live three or four months.

"This disease is incurable and should not be treated. It is commonly subject to State supervision, and all cases are promptly killed, serviceable horses being made good by financial recompense from the State. All suspicious cases should be reported to the State veterinarian."

The appointment of Mr. Estep as Secretary of the Board of Public Instruction put a good man into a congenial office. Mr. Estep is efficient and practical. While the retirement of Dr. Rodgers is a matter of regret to his many friends, it is gratifying, in a public sense, that a man like Estep can be found to continue his work.

No one who knows the good traits of John Cummins would object, on any personal grounds, to the repayment of his \$5,000 fine, but it would be difficult, we think, to find legal justification for the cash settlement of any such claim against the extinct Republic of Hawaii by the Legislature of the Territory of Hawaii.

If ten out of nineteen men, selected at hap-hazard, are found to be delinquent in their taxes, one can begin to get a new point of view about the financial troubles of the Territory.

The weak side of the Rockefeller issue is that the American Board solicited the money which it is now urged to refuse.

Mr. W. L. Bernard, who occupied a position in Calgary, Canada, corresponding to the American office of District Attorney, is in the city on a visit. He is very much pleased with Honolulu.

## WOOLLEY'S LECTURE

(Continued from Page 1.)

edged by the first clause of the license laws to be wrong, is permitted to go on unchecked for only \$250 a year. We are willing to sell our souls for a paltry \$250 a year! A drop of prohibition in an ocean of permission! And the mixture is stirred up a little at every election, just enough to befuddle the brain of the average voter.

"There are those who seem to be conscientious in spots, geographical Christians, topographical saints. At home they dispense with wine for conscience sake but at the convention of the party they dispense with their conscience for the sake of the liquor vote. There is no local truth, no Honolulu truth, different from the standard of other places. Truth is truth and that is all there is about it.

"Some people are afraid to stand up by themselves and testify for the right. They say 'What is the use of my doing right all alone and making a holy show of myself?' What would you think of a witness in a case who, when he was asked the first question said, 'Excuse me, I want to run around the corner and see what the other fellows are going to testify?' I do not know whether either the Republican or the Democratic party can ever be reformed so that they will stand for the right. I do not know whether the Prohibition party with which I am connected will ever win the victory. I doubt it very much. But I would rather belong to a small clean party than a big unclean one, better a hundred clean defeats than one dirty victory."

Mr. Woolley then went on to tell of the effect of testimony, illustrating his remarks with the case of the power of the flag on the American cruiser sent to Brazil to protect the Monroe Doctrine when the newly formed republic of Brazil was threatened by the European powers. He then told of the policeman who stood at the corner of Broadway and Fulton streets in New York and started or stopped the great tide of traffic there by a simple motion of his hand. Continuing Mr. Woolley said: "It is not the strength of that policeman, although undoubtedly he is an athletic man; it is not his unusual activity, for I presume none of you ever saw such a thing as uncommon activity in a policeman; it is not his weapons for he only carries a light club at his belt and even if he was armed to the teeth with guns and knives and had a whole battery of artillery at his back he could hardly check the vast flood of traffic. It is that by his uniform, by his white gloves, by the star on his breast, he gives testimony to the power of the millions of people who constitute the great municipality whose servant he is. So important is our testimony for the right.

"Perhaps a policeman may walk his beat for ten days at a stretch and find nothing to do but to chew tobacco and exhibit his form and uniform but some day there will be a runaway and he must dash out and grasp the bridle no matter what the consequences. Some day there will be a threatening mob whose course he must oppose, some day there will be a fleeing burglar to be shot and he must shoot without first stopping to inquire as to whether he is a member of the legislature or not. Then his true heroism will show in his devotion to duty. We must not be more remiss in our duty at the polls.

"The dress parade of the police on Decoration Day or Labor Day or any of the other great days is a fine sight and is probably worth all in cost to impress the vulgar, common mind, but it is worthless unless it is backed up by the devotion to duty of each individual member of the force. So the eleven o'clock dress parade on Sunday morning is a fine sight. The men appear with their Prince Albert coats and the women with their Prince Albert hats and the preacher compresses into thirty or forty minutes of eloquence the work of six days in his study. It is one of the most splendid sights, I reckon, to impress the vulgar, common mind. Yet unless each individual church member has the backbone to stand up for righteousness in the state as well as in the church and turn the rascals when there are rascals to be turned out of public office, the Sunday morning parade is an empty show." Mr. Woolley closed with an eloquent plea for interest in questions of civic righteousness on the part of Christian voters.

## CAUGHT IN THE ACT.

A. E. Todd, a boy of about 19 years and formerly employed as a bellboy at the Young Hotel, was arrested yesterday on a charge of larceny in the second degree. For some time past money has been missing from lockers at the Y. M. C. A. Thirty-five dollars belonging to J. Brolan, a conductor on the Rapid Transit, disappeared and smaller sums were lost by other members. Suspicion pointed to young Todd and a purse containing money was put in the pocket of some clothes yesterday and the clothes were hung in a convenient place. A spy kept watch and saw Todd take the money and hide it. He is accused of the other thefts also though the evidence is circumstantial.

**SHOULD MR. ROCKEFELLER'S  
MONEY GIFT BE ACCEPTED?**

Editor Advertiser: Around this question rages a conflict of great severity. It is not altogether with pain that we may observe or take part in it. We may regard it as a welcome symptom of moral health. It is the pang and throe of a keen and active conscience, which is likely to bring forth fruits of righteousness.

A dispassionate consideration of all that is clearly known of the business methods by which Mr. Rockefeller has acquired his enormous wealth, while sufficient to justify strong condemnation, is probably inadequate to sustain an extreme severity of denunciation. He may very well be able by special pleading to construct such justification as deceives the tribunal of his own conscience. But after the powerful public scrutiny that has searched out his conduct, this at least appears to be beyond question, that he is the most prominent representative in America of a giant system of monopoly which relentlessly crushes out all competitors by any not wholly illegal means in its power. It is a system of business, most remorselessly selfish, which has enormously enriched Mr. Rockefeller and his associates of the Standard Oil Company. They have already been searched out, tried and condemned by the great tribunal of public opinion in America.

This seems to dispose of the allegation that we have no right to assume Mr. Rockefeller's guilt and treat him as a criminal in respect to the money we are asked to accept. We may not understand the whole of his case, nor be able to measure the degree of mitigation of judgment to which he is entitled in the systematic and crushing severity of his dealing with all competitors. We know infallibly that he stands out like Diamond Head as the foremost representative of the cruel system of monopoly against which American society is waging desperate war. There can be no more doubt of that than there is of the guilt of Mrs. Chadwick, whose money surely no one would dream of taking.

But let it not be understood that by accepting donation of money inequitously gained, we thereby become participants in that iniquity, nor that the money is itself tainted, because it comes from a corrupt giver. The evil comes, to use the language of the first Protesters, in that "the acceptance of such a gift involves us in a relation implying honor towards the donor," in that it puts us under an obligation of silence as to his iniquity. One cannot well take a man's money and then denounce him for the way he gained it.

If I have a son in need of education, and Mr. Rockefeller generously offers to pay the expense, shall I take his money? Never! If I accept his gift, I thereby come under obligation to him. Honor and gratitude forbid me to denounce and oppose him. And I teach my son to hold in esteem an evil doer. I break down my son's integrity and conscience, which are infinitely more important to him than any other education. Rather let me say to that erring man, "Thy money perish with thee!"

If the Missionary Board of the Congregational Churches of America accepts the donation of Mr. Rockefeller, they become thereby practically debarred from denouncing his evil and oppressive business methods. They become practically muzzled. We already see, in most of the advocates of acceptance the tendency

"I suffered greatly with rheumatism, which laid me up for a long time. I tried a great many medicines, but they were of little or no use. A friend who had taken Ayer's Sarsaparilla induced me to try it. I thought it would be just like all the other medicines. But there was a great and pleasant surprise in store for me, for after taking one bottle I was better. The swelling began to go down, the pains began to leave me, and I felt better in every way. After taking only five bottles I was completely cured. While I was taking the Sarsaparilla I also took Ayer's Pills to keep my bowels in good condition."

## SHOULD CUMMINS HAVE REPAYMENT?

Editor Advertiser: In your editorial of yesterday you do me the honor of mentioning the pamphlet on the Cummins case just issued by me.

If you had read it carefully you would not have come to the conclusion that "the Queen virtually made a tool of Mr. Cummins that landed him in a felon's cell." On the contrary, excepting his going to Washington on a mission for the Queen in 1894, he had no personal relations with Liliuokalani after her removal from the throne.

On the removal of the Queen in 1893, on his own responsibility, he wrote to General Schofield, who was an old friend, and that letter went on the S. S. Claudine, which bore the P. G. Commissioners on their errand to Washington to tender Hawaii to the United States. In that letter he explained the whole recent occurrences and asked the opinion of the General. General Schofield answered "that he had forwarded the letter to President Cleveland; that personally he was sorry for what had occurred but that the navy wanted Hawaii." The latter was well known to Mr. Cummins for years and is so stated in my pamphlet.

As to the immediate effect of the issuance of the pamphlet being an opening of old sores, I do not think that is so material, at this late date, as that it have the effect of arousing the sympathy of the legislature and community to the grave injustice done to Mr. Cummins and his inherent right to have the wrong done to him rectified.

The truthfulness of every quotation in the pamphlet cannot be questioned. When the seven gentlemen who presided at the trial of Mr. Cummins say over their own signatures that "a plea of misprision would have fully met the circumstances of the case and that he was the least guilty of the persons involved" it is apparent that a punishment was a cruel and unusual punishment. There were quite a number who were tried, found guilty, fined, and discharged without payment of fine for the reason that their evidence was valuable against others, as his was. Mr. Cummins was not treated in that manner, probably for the reason that it was known that he could raise the money by mortgaging his estate.

As he had acted in accordance with the constitution and the laws and had sought by every possible means to keep out of treasonable entanglements it was doubly severe that he should have been incarcerated in a felon's cell and coerced into paying an enormous fine.

You fail to quote one part of the pamphlet in regard to the bald report made to President Roosevelt by Governor Dole on the case, in answer to a request by the former for a report, wherein I stated that for some ulterior reason the evidence in the case was withheld. It was the whole rest of the case and if it had gone forward there is no doubt but the government of the United States would have directed that this great injustice should be rectified.

There is no "jab at the crushed old lady" in the whole pamphlet farther than quotations from history. The comparing of the mercilessness of the Queen and the mercilessness of the Republic of Hawaii is not "a jab at the crushed old lady." More was to be expected from a well advised Republic than from a Queen who was isolated from advice, as had the advisers present she would probably have been restored to the throne.

When I say in the pamphlet "as long as he lives and this stigma remains on his name this old Hawaiian chief should hang his head in shame" I mean in shame at a government which would stoop to rob a citizen, not for any crime on his part. No man was ever guilty of a crime unless coupled with an evil intention.

As for "opening old sores" there is a radical remedy for prevention of opening old sores, or of keeping them open, and that is by making atonement to the injured. If the authorities are convinced that a wrong was done to this old chief who has done so much to entertain foreign visitors and who has held so many prominent positions they can remedy the wrong as far as possible by returning to him the amount out of which he was mulcted, and legal interest during the time of its detention. Naturally he cannot be compensated for the days spent in a felon's cell nor for the indignities heaped upon him but it would be soothing to the old gentleman to know that the community sympathizes with him.

### COL. DAVIS PROMOTED.

Lieut. Col. Edward Davis of the Artillery Corps, attached to the military secretary's department, and on duty at the War Department, has been appointed a brigadier general and retired. Gen. Davis is from Kentucky, and, during the Civil War, served as second lieutenant of the Fifth Kentucky United States Cavalry until October, 1863, when he was appointed a cadet at the United States Military Academy. Graduating four years later, he was appointed second lieutenant, Third Artillery. During the Spanish War, while serving on the staff of Lieut. Gen. Miles, he was appointed a major and assistant adjutant general in the volunteer army and was honorably discharged in April, 1899. In December, 1902, he was detailed to the adjutant general's department and continued in that department after it was merged into the present military secretary's department. He received the grade of lieutenant colonel of artillery in January, 1904.—Washington Star.

### Acquiring Horse Sense.

In point of maturity a horse ten years old is said to be the equivalent of a man of 40. Both, declares the Chicago Tribune, ought to have acquired good horse sense at that age.

## The Hospital

Thankful are They Who Escape The Surgeon's Knife

Thousands of surgical operations are performed every year in our great city hospitals upon women afflicted with serious female troubles. Sometimes the operations are successful—oftentimes they are not.

It is safe to say that certainly nine out of ten operations for female troubles might have been wholly avoided.

The most valuable tonic and re-builder of the female organism, the medicine with a record of thousands of cases literally snatched from the operating table, is

## Lydia E. Pinkham's Vegetable Compound

Do not consent to an operation which may mean death until after you have given Lydia E. Pinkham's Vegetable Compound a fair trial. Note what it did for Mrs. Paul Oliver, whose letter follows:

DEAR MRS. PINKHAM:—I was suffering from pains in my side and womb. The doctors said to get well I must have an operation performed, but I would not consent to that.

I heard of Lydia E. Pinkham's Vegetable Compound and sent for a bottle; the first dose did me good, and after taking the first bottle I could sleep all right and I did not have those pains around my womb which I had all the time before. Now I can ride ten miles in a carriage, my color has returned, and I am full of life. I owe all this to the Vegetable Compound.

It has also done wonders for my thirteen-year-old daughter. I will never cease to praise it and recommend it to my friends.

MRS. PAUL OLIVER, St. Martinsville, La.

Thousands of women, residing in every city and town in the United States, bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound. It cures female ills and creates radiant, buoyant female health. For your own sake try it.

## LADY SINGER IS COMING

Word has been received by cable that Mrs. Ida Gray Scott of Chicago, a celebrated mainland vocalist, has accepted the offer made by the local musical festival people and will arrive here from San Francisco by the S. S. Ventura.

Mme. Scott will be a distinct acquisition to the Congress of Song, for she possesses rare talent and a great, rich soprano voice of dramatic quality. She will sing solos on both days of the songfest.

The concluding day of the festival will be Saturday, May 6th, instead of Monday, May 8th, as previously arranged. It is thought that Saturday afternoon will give the general public a better chance to hear the competitive singing in the Boys' Field, the day being a half holiday.

Training is going on enthusiastically in the city schools, the children taking up their work with an unprecedented vim.

### WHEN WOMAN ENVIES MAN.

When he gives his hair a neat brush and his coiffure is complete. When he doesn't have to kiss his sworn enemy, and tell him how sweet he looks.

When the children cry and he can whistle a tune, get his hat, bang the door, and go out.

When he trips up the street ahead of her on a rainy day with his trousers jauntily turned up and no skirts to carry.

When he doesn't have to twist his arms to hook his bodice up the back or drag six superfluous yards of dress goods behind him—and do it gracefully, too.

## MR. WOOLLEY LIKES THESE ISLANDS

John G. Woolley has written the Promotion Committee as follows about Hawaii and the volcano:

Gentlemen: I have been delighted with Hawaii, its climate and its scenery, but especially its people. The coast of the Island on the trip to Hilo by the Wilder steamships is quite unique in world scenery and absolutely unsurpassed by any coast view I have ever witnessed. The great volcanoes are impressive beyond description and the Volcano House at Kilauea is excellent in every detail.

## HEINZ'S India Relish

The most competent house-wives have pronounced this to be the most perfect of sweet relishes. It is prepared from finely chopped vegetables specially selected for the purpose. These are highly spiced, with a view to obtaining that pleasant piquancy which lends a zest to appetite when eating meats of all kinds and the result has fully justified our best efforts to produce a relish that should have no equal.

The form of the bottle, low and wide-mouthed, makes it very convenient for table use.

## THE LIQUORS ARE EXEMPT

### Supreme Courts Hands Down Decision in Moana Case.

Yesterday the Supreme Court gave a decision in the Moana Hotel liquor repeal case, reversing the Circuit Court decision in favor of plaintiff in the case entitled the Hawaiian Trust Company vs. A. M. Brown as High Sheriff. The suit grew out of a seizure of liquors in the Moana by Brown under an execution issued against the hotel many months ago. The court holds that the liquors are not included in the mortgage trust deed and decides against the trust company.

The decision says that under the contention that the liquors were a part of the property conveyed by the deed "the written consent of the trustee would have been necessary every time a drink was sold," and adds that if it had been the intention to include liquors some provision would have been inserted in the deed, to provide for daily disposition of them. The trust deed was drawn carefully and included all the parties intended and if liquors had been intended to be included they would have been mentioned.

#### COURT NOTES.

In the United States District Court yesterday, Judge Dole sentenced Oyama and Ukuda, charged with illicit distilling, to seven months imprisonment, and fines aggregating \$1100 each. This is the minimum penalty for the number of offenses proven.

Judge Dole likewise sentenced Yoshimura, charged with adultery, to six months imprisonment.

Judge De Bolt has postponed hearing on the motion for a new trial for Ah On until next Saturday morning. This is the case about which the fistfight between Judge Humphreys and George Davis arose. Humphreys was in court yesterday when the matter came up.

The Supreme Court yesterday set aside the verdict and ordered a new trial in the case of Harry J. Johnson vs. Lee Tama & Co., action for breach of agreement.

The case of Lelaloa K. Al et al vs. Kapolani Estate, Ltd., ejectment, is being heard before Judge Lindsay today.

The case of Kaalhue, alias Kaalua, charged with selling liquor without a license, was taken up by Judge De Bolt this forenoon.

#### ADMITTED TO BAR.

Claudius Harley McBride, at present cashier of the experiment station of the Hawaiian Sugar Planters' Association, was on Tuesday morning admitted to practice as an attorney-at-law in the courts of the Territory of Hawaii. Mr. McBride was for three years secretary to the Judge of the U. S. District Court, as well as official court stenographer, at Nome, Alaska. He expects to engage in practice in a few months.

## SOME TROUBLE FOR PALOLO LAND BUYERS

The deeds of nine purchasers to Palolo valley lots have been held up, pending an examination as to whether the applicants for them are delinquent in their accounts with the Tax Assessor. Under the law, any person who has not paid his taxes cannot become a purchaser of public lands—and if he attempts to purchase while withholding information as to his delinquency, he then becomes disqualified from ever buying public lands.

Tax Assessor Holt, Land Commissioner Pratt and Attorney-General Andrews were investigating the cases of the nine Palolo applicants yesterday, with a view to ascertaining whether there had been any attempt to get the better of the Land Office.

"It is not likely that anything more will be done than to stop their purchase of the lands under their applications, even if it should be found that they are delinquent with the tax office," said Mr. Andrews last night. "There are extenuating circumstances in the three cases that have been specifically called to my attention, and the other cases are still in the air."

A new tract of land in the neighborhood of the Palolo valley is shortly to be thrown on the market, this time private land. This is the Waialeale tract, of about 130 acres, belonging to the Long estate. It will be cut up into tracts of from one to five acres, and sold under right of purchase lease on the same terms as the government lands in Palolo. This land, according to Assemblyman Long, will be ready to put on the market next week.

HAWAIIANS AT  
PALO ALTO

The Palo Alto Times of April 13, says:

A delightful gathering of former residents of Hawaii took place last Friday evening at 324 Emerson street, Mrs. A. D. Larnach being the hostess. The purpose was the formation of a social club which has, largely through the efforts of Mr. and Mrs. Larnach, and Mr. Alvin Seale, now been organized. Business affairs were speedily disposed of and the evening was spent in progressive whist. Each guest was decorated with a lei made of tiny white roses in true Hawaiian fashion, and score cards in the shape of diminutive lauhala fans were used. The ladies' prize, won by Mrs. Allen, was a dainty basket of Hawaiian weave, while the prize for the gentlemen, a native mat blotter, was won by Mr. Robinson. A consolation prize, also Hawaiian, fell to Mr. Schnack. After refreshments, all joined in singing Hawaii Ponoi. Those present were Mr. and Mrs. A. D. Larnach, Mrs. Anna Perry, Mr. and Mrs. Ben Allen, Mrs. Clement E. Jordan, Miss E. M. Robinson, Miss G. D. Featherstone, Miss E. R. Pierce, Mr. T. E. Robinson, Mr. W. J. Galbraith Jr., Mr. F. D. Mahone and Mr. F. J. Schnack. Several others who were unable to be present are expected to join at the next meeting. The club is to be known as the Hui Hawaii and meetings will be held about once a month at the homes of the various members. Mrs. Allen will be the hostess at the next meeting which will be held May 5.

Everything comes to he who waits, says the old adage.

The mid-day lunch at the CRITERION comes to the dinner without any waiting. You take your seat and the fare's on the table as soon as ordered.

This is a tip to the busy man, the take-a-snack-and-then-gotter-see-a-man man.

A cold glass of beer with the lunch, 25 cents squares the account.

Corner Hotel and Bethel Streets.  
C. J. MCCARTHY, Proprietor.

## BUSINESS LOCALS.

See Morgan for a home.

Why do you pay rent? See Morgan.

The use of Sugarbrun for horses and stock cuts your feed bill in half. E. J. Walker, King and Smith streets.

The Hawaiian Trust Co.'s safe deposit boxes defy fire and burglars. Five dollars and upwards, per year.

In the spring a housewife's fancy lightly turns to thoughts of ice. Hawaiian Electric Co.'s ice is good ice.

Go to Miss Power's for real swell millinery, elegant goods, exclusive styles, popular prices. Boston building, Fort street.

Wheat and oat hay in quantities to suit will be sold at public auction today at noon on the Bishop wharf by Jas. F. Morgan.

Regular Saturday auction sale at Fisher, Ables Co.'s salerooms, Fort and Queen streets. See list of articles to be sold in their advertisement.

Not how much you eat but what you eat is the question. The Sanitarium Food Co.'s specialties as supplied by Henry May & Co. are potent factors in food reform.

Forenoon at 10 o'clock the Fisher, Ables Co. will sell the entire household furniture and furnishings at the residence, 727 Lunalilo street, makai side, just beyond Alapai. The sale will begin at 10 o'clock sharp.

CLAIRE'S PARLOR MILLINERY

Is a new place just opened, and in order to get acquainted we will have a special sale on Thursday, April 27, of elegant dress hats for ladies and misses. There will be an assortment of twenty-five or more that are worth from \$7.50 to \$10.00. All will be sold on Thursday only for \$5.00 each. Come early and get the best selections. Remember the place, Portland block, corner Hotel and Union streets, upstairs.

WELCOMING THE KENTUCKIAN.

Ex-Congressman Asher G. Caruth, of Kentucky, tells this story of an experience he once had on a visit to a little Ohio town.

"I went up there on legal business," he says, "and, knowing that I should have to stay all night, I proceeded directly to the only hotel. The landlord stood behind the desk and regarded me with a kindly air as I registered. It seems that he was a little hard of hearing, a fact of which I was not aware. As I jabbed the pen back into the dish of birdshot I said,

"Can you direct me to the bank?"

"He looked at me blankly for a second, then, swinging the register around, he glanced down swiftly, caught the 'Louisville' after my name, and an expression of complete understanding lighting up his countenance, he said:

"Certainly, sir. You will find the bar right through that door at the left."—Harper's Weekly.

## LOCAL BREVITIES.

## UNIQUE DINNER OF COAST GIRLS

For novelty of decorations and general uniqueness of design the dinner given at the Royal Hawaiian Hotel last evening by the Misses Zweig, Schmidt, Heuter and Howe of San Francisco to nearly a score of the friends they have made in Honolulu during their stay of several weeks, was by far the best that has been essayed here for many seasons. The dinner was given in the private dining room in the annex. It was an Easter dinner and everything about the table and in the decorations gave sign of this idea. From the ceiling were suspended the shells of fifty dozen eggs, colored to every conceivable hue. Each shell dangled from a separate thread, and the mass of color was pleasing and novel.

The long table was a masterpiece of unique decoration. Down the center ran a raised platform the lower parts of which were hidden beneath lava stones. Between the interstices the red glow of electric lamps could be seen, to commemorate the young ladies' visit to the volcano. The platform was entirely screened in by large mesh wire. The interior was fitted out as a barnyard in which were rabbit hutches, miniature ponds for a score of noisy ducklings and roosts for tiny chickens. The place cards gave the names of each guest twisted about backwards, and to each card was attached a paper mache rooster. Covers were laid for twenty-two, and the menu fairly bristled with delicacies of the season, interspersed with great quantities of wine.

The five young ladies, for there are two Zweigs, Miss Heuter, a Miss Howe and a Miss Schmidt, have spent many enjoyable weeks in Honolulu. They are a lively set of girls and have seen about all there is to see in and about Honolulu, including the volcano of Kilauea. Another thing in their favor is that they are wealthy. They leave for San Francisco today in the Alameda.
