VOL. VI.

HONOLULU, H. I., MONDAY, FEBRUARY 12, 1900.

No. 2479.

WAS FINED IN PANTOMIME

HOW MOKE MADE HIS PLEA OF GUILTY.

The "Ordinary" Drunks were Being Disposed of—It was Up to Him and He Nodded.

The prisoners' dock was full of "drunks" for it had been a lively Saturday night and Sunday in Honolulu. There was little variety in the circumstances of the numerous cases. The men had got drunk and were arrested for it and that was about all there was of it.

"Number one, Bennett," called the Deputy Marshal. "Bennett," shouted the court officer, and Bennett rose in his place in the dock.

"The defendant Bennett is charged with being drunk in Honolulu, Island of Oahu, February 11, 1900," said the Deputy Marshal while the clerk wrote down the charge with the speed of a "Jim the Penman."

"Well Bennett, you hear the charge against you," said the court. "Getting drunk; are you guilty or not guilty?" "Guilty," replied Bennett.

"Two dollars fine and one dollar costs," responded the court. "Number two, Mahina," called the Deputy Marshal.

"Mahina," echoed the court officer. "Defendant is charged with being drunk in Hon—," began the Deputy Marshal.

"You are charged with being drunk; guilty or not guilty," interrupted the court. "Guilty," answered Mahina.

"Two dollars," responded the court. Justice was getting warmed up to action. "Fulvay" called the Deputy Marshal.

"Fulvay" was as far as the echo of the court officer got before the Deputy Marshal began. "Defendant is charged with being drunk—"

"Charged with being drunk; guilty or not guilty?" interrupted the court. "Guilty,"

"Two dollars," but before the rest of the judgement had been expressed the Deputy Marshal had called.

"Sullivan, charged with being—"

"Guilty or not guilty?"

"Guilty—"

"Two—"

It was up to Moke by this time. He knew it was, because he was the last man in the dock, and before the Deputy Marshal could call his name or the court officer echo it he was on his feet. The judge without waiting for the formality of the charge to be read or even for the reading to begin, turned to Moke. But before the judge could begin his query, Moke had nodded his head. The court completed the pantomime by a wave of his hand and the court record will show, though never a word was spoken, that Moke was charged with being drunk in Honolulu, Island of Oahu on Feb. 11, 1900, that he pleaded guilty and was fined \$2 and \$1 costs.

RAIN AT LAHAINA.

LAHAINA, February 9.—The best rain Lahaina has had for a long time occurred last Sunday afternoon and night. Fine showers also fell on Tuesday and Wednesday.

NEW ADVERTISEMENTS

Special Notice!

ARMSTRONG SMITH SICK

POSSIBLE THAT HE HAS THE PLAGUE.

Fever Developed Yesterday—Being Treated With Serum—Patient is Manager of Pest Hospital.

Local plague interest is today centered in Armstrong Smith who was taken ill yesterday at the pest hospital in Kakaako.

This afternoon it is believed that Mr. Smith's case is a suspicious one and may develop into plague, although the patient is apparently better and brighter than last night. At midnight his temperature was 100 and pulse 98.

Early this morning treatment with the plague serum began. Thus the disease was caught in the bud, if it be plague, and it is thought that recovery will be certain and rapid.

Mr. Smith is manager of the pest hospital. He went into it soon after the transfer of patients to the shooting booths and has handled every person admitted to the place since. Certainly it was a most exposed position to occupy and it is not remarkable if the case should develop into mild plague.

K. Kani, Japanese, aged 24, was taken from Wilson's camp at 9:30 last night to the pest house, with symptoms of plague. He is still regarded today as suspicious. The man was working with Wilson on the sea end of the sewerage system.

ONE PLAGUE CASE.

Dr. Davis this morning reported to the Board of Health that in his opinion the Chinese boy, Ah Choy, Queen street beyond South, aged 18 months, was afflicted with plague. During the night the swelling in the glands had greatly increased and become sensitive. Temperature had also risen. "I do not know what kept the child alive during the night," added Dr. Davis, "for the swelling alone was enough to kill it."

This case has been watched since yesterday morning. The femoral gland was distended when first examination and there was some fever. As the premises have been thoroughly quarantined from the first the patient was not removed to the pest house.

An autopsy was held Saturday afternoon on the body of Ah Choy, native aged 35, brought from Kakaako. This case was reported by C. Hagen. When the doctor arrived at the house the man was dead. There were suspicious circumstances and the usual precautions have been taken, pending bacteriological determination of the cause of death.

Matsue Hirono, Japanese female, aged one month, died at the relief camp on Punchbowl street Saturday afternoon. Dr. Mori returned a verdict of meningitis as the cause of death.

Post mortem was held on the body of A. G. Silva, who died in Miller street during the day. Arterio Sclerosis was found to be the cause of death. Deceased was 70 years of age and a respected Portuguese citizen.

THE WEATHER.

Weather Bureau, Punahou 1 p. m. Wind light south; out at sea the wind is from the north; weather fine.

Morning minimum temperature, 55; midday maximum temperature, 75; barometer, 9 a. m., 30.01 steady (corrected for gravity); rainfall, 24 hours ending 9 a. m., 0; dew point, 9 a. m., 51; humidity, 9 a. m., 52 per cent.

CURTIS J. LYONS, Observer.

Morning temperature at Alahau 52. The lowest record Prof. Lyons has is 53; but Alahau has shown a record of 50 or lower.

THAT RAT FENCE.

The rat proof around block 19 is completed. It consists of a strip of corrugated iron near the top of the wall. Many doubt that will stop a rat happening to be very anxious to escape, while others assert that it will prove most effective. Work of destroying the rats in the block will not be undertaken until Dr. Wood settles down to city business again.

HIGHLAND PARK HOTEL.

Mr. Desky has received to date 1800 names to his call for suggestions of a name for the new hotel on Pacific Heights. There has been a great deal of doubling though the list of names to select from is a very long one. The contest will be kept open until notice of its termination is given.

AT THE OLD STAND.

General blacksmithing and carriage repairing business in all branches at the old stand, Fort street, W. W. Wright.

HERE AT LAST.

"The Hawaiian Scenic Calendar" published only by The Golden Rule Bazaar, 315 Fort street, was received by the S. S. "Mariposa" and is the handsomest piece of work in this line ever offered the public. Secure one and send it to the folks at home—they will greatly appreciate it, and it only costs 50 cents.

Note Heads, Bill Heads, Statements and Fine Commercial Printing at the Star Office.

PALAMA PUMPING PLANT

THE BIDS OPEN BUT ARE NOT SATISFACTORY.

Figures Entirely too High—Nearly Three Times Cost of Beretania Station—Hoffman's Conditions.

Minister Young opened bids at noon for the pumping station in Kalihi and immediately thereafter the matter got a serious set back. When the tenders were all opened Superintendent Rowell stated that he was disappointed in the figures as they were far beyond the appropriation. The station on Beretania street had cost \$12,000, whereas the tender submitted today was over \$34,000, or nearly three times as much. It was the superintendent's opinion that the houses should have cost about the same money.

In submitting his bid Victor Hoffman wanted it understood that the money was in sight and that the appropriation would not lapse before the job was finished. A smile went round at this but Mr. Hoffman now has a contract on his hand—the Beretania school house—tied up in just that way which makes it a rather serious outlook.

Mr. Young observed, in relation to this matter, that the money would really run out March 31 and provision for finishing the contract would have to be made by the legislature. The bids were as follows:

Barry and McClellan, \$44,989, \$41,444 and \$42,859; Henry Burrows, \$34,099, \$34,949 and \$41,431; L. D. Davis & Co., \$39,565, \$39,000, and \$38,950; J. F. Fowler, \$45,675, \$43,586 and \$40,740. All of Kaimuki stone, with Palama stone about \$4,000 cheaper. Fred Harrison, \$74,300, on first specification only; Lucas Bros., \$49,526, \$47,179 and \$45,283; Victor Hoffman, \$43,799, \$44,199 and \$41,190. The terms in regard to stone are the same as follows:

Henry Burrows is the lowest bidder straight through.

NO REST FOR AH MAN.

EDITOR STAR:—I should be glad to allow Ah Man's movements to rest in peace if he did not apparently furnish a pretext for some busy-body to try to pick flaws in the work of the sub-inspectors, men who are doing their best, at considerable personal sacrifice, to keep up their arduous work.

I did not think it necessary to explain why Ah Man was not given a sub-inspector at the McLean premises because I did not think that any one with the ignorance of "X. Y. Z." on the subject would rush into the public prints to inquire. The reason is that the McLean premises are on Nuuanu street and within the quarantined district, which until January 27th was within the exclusive jurisdiction of the Board of Health and not inspected by the Citizens' Sanitary Committee at all. It was only after Dr. Wood had satisfied himself that Ah Man had been concealed in the McLean premises for three days that the Citizens' Sanitary Committee was requested to undertake the inspection of the quarantined district.

The criticism of the men of the Pantheon saloon shows equal ignorance of the facts in the case. Ah Man was taken sick on Monday night and his employer instead of "hustling him off the place" promptly sent him to Hoffman, and did not allow Ah Man to leave until Dr. Hoffman had examined him and pronounced positively that he did not have the plague.

S. M. BALLOU.

Honolulu, February 12.

FEED THE RATS.

Will E. Fisher, Inspector of the Ke-wo district has made a suggestion to the Sanitary Committee, which it approves, relative to rats.

He states that professional rat catchers always place food for several days on the spots where they intend to place poison. On the third or fourth night, having gained the confidence of the rats, poison is placed where in its deadly work without frightening the others away, whereas if poison is placed at the beginning and a rat dies from its effects, all the other rats will give the poison a wide berth. Mr. Fisher has gone in the rat feeding business and other inspectors and citizens generally are urged to do the same.

KILLED AT LAHAINA.

Japanese Struck by a Moving Railroad Truck.

LAHAINA, February 9.—An accident occurred here yesterday morning between seven and eight o'clock by which a Japanese lost his life. The man, who works for the Pioneer Mill Co., but who is not a contract laborer, was walking with others on the railroad track. The engine driver whistled to warn them and they stepped off, but the deceased afterwards stepped on again and was struck by an empty truck, injuring his head and chest. He was immediately attended by Dr. Davidson, but died about three in the afternoon.

HERE IS A CHANCE TO DO SOME ONE A KINDNESS.

If the reader of this should chance to know of any one who is subject to attacks of bilious colic he can do him no greater favor than to tell him of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It always gives prompt relief. For sale by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Islands.

HAS FEW EQUALS.

For light running, easy adjustments, and good work the Singer Sewing machine has few equals and no superiors. B. Bergerson, agent, Bethel street.

FOR CAMARINOS' REFRIGERATOR.

PLAGUE APPEARS ON MAUI

FIVE SUSPICIOUS CASES IN TOWN OF KAHULUI.

Specimens of One Adjudged Plague. Dr. Wood to Scene—Delegate Arrives. Prompt Action, The Watchword.

News reached the Board of Health office Saturday afternoon, coming by steamer Kaula from Lahaina, that four sudden deaths had occurred at Kahului within a week. The letter was from Sheriff Baldwin and was sent by horse from Wailuku to catch the steamer at Lahaina. The sheriff stated in it that he had registered specimens taken from the body of one of the patients for bacteriological examination by the Board.

About an hour later the Post Office authorities telephoned that there was a registered package in the office from Lahaina, and was immediately sent for and was found to be the glands from the body of a plague victim. The very first "smears" developed the bacilli in unmistakable form. This examination was made by Dr. Hoffman in the presence of Dr. Wood.

The President of the Board of Health decided to proceed with all haste to Kahului. The Wilder Steamship Company was communicated with and said the Maui could be gotten ready in six hours. It was finally decided, however, to take the Kaula. Dr. Wood then hastily canvassed the other members of the Board and decided upon a course of action. Dr. Garvin was selected to go to Kahului. He took with him all appliances needed, including a quantity of serum, received from Washington and Paris. By agreement the steamer was to make Kahului in ten hours and return in nine hours. She sailed at 12 o'clock Saturday night and should have reached her destination at 10 next morning.

DISCOVERY OF PLAGUE.

In Kahului there is a single solid block of houses facing the waterfront. On one end is a saloon and on the other the custom house. Near the center of this block is a Chinese restaurant, known as the "Kahului hotel" and next to it is a store owned and operated by the same man. In the block live 250 Asiatics. It was in the Chinese store mentioned that the first cases appeared and that place is believed to be the center of infection. When this was determined a cordon of sixty men was drawn around the store and the town and it was placed in strict quarantine.

The Maui authorities think they have hit upon the cause of infection. They relate that over two months ago a shipment of goods arrived from China via Honolulu to be used on Chinese New Year. These boxes were not opened until on or about January 31. It is related that most if not all of the people affected either ate or came in contact with this particular shipment of goods.

Before leaving Dr. Wood looked upon this theory as most important as it may unravel the mystery of the introduction of plague into Honolulu. It is most likely that the plague was brought here in the same shipment of merchandise from the Orient.

WHAT WAS DONE.

It appears that Dr. Armitage had charge of all four of the cases resulting fatally. He did not notice anything suspicious about them, but really he had never seen a case of plague. He subsequently remembered that there were swellings of the glands.

The excitement began on Friday when a Chinaman developed at Wailuku swellings in the armpits in addition to plague indications in the inguinal region. At the time Sheriff Baldwin had become somewhat alarmed and ordered an autopsy held on the body of a man already dead. His order was to Dr. Weddick, the Government physician, and was promptly carried out. It was like the rest of this autopsy that came to Honolulu.

It was then Saturday morning. The sick Chinaman at Wailuku had taken refuge in a small house in a neighborhood rice field. He had come from Kahului and from the same place as the other cases. The hut occupied by him was burned and the man segregated in the shooting booth near Kahului.

Dr. Armitage's verdict on the actual plague case, specimens from which were sent here, was "pernicious malaria."

Saturday a meeting of citizens was held in a car near Kahului. It was decided to place Kahului in quarantine and to despatch the steamer Lehua, then in port, to Honolulu for a plague expert and medicines. Attorney Geo. Hons, of Wailuku, was selected to make the trip and left that night, arriving here about 9 o'clock Sunday morning.

The delegate was gratified to find that the Board of Health had moved so promptly and the needed assistance was reaching Kahului about the time he arrived here. Letters from the Maui meeting was dispatched at once through Dr. Peterson to the Board of Health office. Mr. Hons then decided to wait over until the return of the Kaula and the final action of the Board before returning to Kahului. Following are the letters brought by Mr. Hons:

Kahului, Maui, Feb. 10th, 1900. Dr. C. E. Wood, President of the Board of Health, Honolulu, Oahu.

Dear Sir:—I herewith enclose you a set of resolutions passed at a meeting of the Health Committee and citizens of Maui, held at Kahului this afternoon.

"I would respectfully ask your prompt attention to the same and an immediate reply."

Mr. George Hons was unanimously chosen to go to Honolulu and present the resolutions to you. The S. S. Lehua is at your disposal and will be ready to bring whomever you may send here.

"Yours very truly,"

"D. C. LINDSAY," "Secretary."

Whereas there have been five fatal cases of fever in the Kahului district that our physicians are in doubt as to whether it is pernicious malaria or bubonic plague, and there is still a more suspicious case on hand now,

Resolved, That the S. S. Lehua be dispatched to Honolulu with request to the Board of Health there that one or

(Continued to Page 5)

CABINET TO THE RESCUE

WILL TRY TO PROVIDE FOR THE HOMELESS.

Council of State to be Asked Tomorrow for \$10,000—Camp on Vineyard Beyond the Bridge.

The Cabinet has decided to take the bull by the horns in the matter of affording relief to the homeless Japanese and Chinese. At the meeting this morning it was discussed in its various phases.

Opinion was finally centered upon the choice of the location on the extension of Vineyard street beyond the river. There is ample ground in the locality. It is higher and healthier than Kakaako and suits the convenience of the people themselves better, so it is understood.

It was decided to call the Council of State together and ask it for the further sum of \$10,000 for the completion and maintenance of the camp. The intention was that the meeting should be held this afternoon, but Mr. Bolte and some other members could not be gotten, so that a postponement to some hour tomorrow was necessary.

President Dole stated that the object of the camp was to furnish shelter for the homeless until they could be provided for in some other way or be able to shift for themselves. He thinks the Council of State has the power to make the appropriation.

SUNDAY LAWS.

Wing Loy and C. Ying Lang, Chinese merchants were before the district court this morning charged with violating the Sunday laws by keeping open their stores and selling goods yesterday. Judge Wilcox said that in view of the conditions existing here, when so much necessary work in connection with detention and relief camps had been going on, and the usual habits of personal and household purchases had been upset, he did not think it right to deal too harshly with these or other individual cases. He there fore fined Wing Loy, who pleaded guilty \$1. Deputy Marshal Chillingworth said he agreed with the court and nolle prossed the case of C. Ying Lang.

PORT TOWNSEND QUARANTINED.

Three vessels from Honolulu were in quarantine at Port Townsend at latest reports. They are the schooners Esther, Buhne and Ethel Zane and the bark B. P. Cheney. The steamer Bloemfontein, which left here a week ago Saturday, is also probably held at this time.

WHICH?

EDITOR STAR:—Since it seems to be settled that this is the end of the nineteenth century and the beginning of the twentieth century, will you tell me how to write the year 1900 in Roman numerals is it MDCCC or MCM?

INQUIRER.

DEATH OF A. G. SILVA.

Was a Highly Respected Member of the Portuguese Colony.

A. G. Silva, a widely known and highly respected member of the Portuguese colony died Friday evening at his residence on Miller street of pneumonia. The funeral was held yesterday from the Portuguese Protestant church, and was very largely attended. The funeral services were conducted by Rev. Soares and Rev. Ernest Silva a son of the deceased. The interment was at Makiki cemetery.

The deceased was about seventy years of age, and came here from Madeira about ten years ago, a number of his children having preceded him. A widow and a number of children survive him. One of his sons is president, and another treasurer of the Lusitana Society. Two sons are protestant clergymen.

WILL OF LATE JAMES DODD

MOST MONEY GOES TO NIECES AND NEPHEWS.

Brothers of Dead Man Get \$100 Each. More Claims for Lingerie Burned in Chinese Laundries.

The will of the late James Dodd has been filed and will shortly come up for probate. It is dated July 3, 1899, and is witnessed by D. W. Rouch and R. W. Cathcart. Rebecca A. Dodd, of San Francisco, and R. W. Cathcart are named as executors. Following is the way the estate is divided up:

Brother, William Dodd, \$100; Adam Dodd, brother, \$100; Samuel Dodd, brother, \$100; widow of deceased's brother, Francis, \$100; Mary A. Corrough, sister, \$2500; Beattie Dodd, niece, \$3000; Inez Dodd, niece, \$3000; Anna Dodd, niece, \$1000; another niece, name not given, \$3000; Minnie Green, \$500; and to the wife, a widow's dower. All the rest of property to nieces and nephews, share and share alike.

Two more claims for clothes, etc., destroyed in the great fire were filed in the Supreme Court today. One is from Mrs. Rosalie Weir, who wants the sum of \$35.75 for wearing apparel burned up in a laundry on Beretania near Smith streets. The lady's daughter, Miss Mae Weir, puts in a couple of bills. Her lingerie she considers to have been worth \$35. Besides that she had \$8.65 worth of books in her school room in the basement of Kaunakapili. Henry Smith filed the bills and will turn them over to the court of claims when such is established.

S. M. Damon today filed his first and final account as executor of the will of the late A. L. D'Oliveira, charging himself with \$19,806.36 and crediting \$1,525.31, leaving quite a healthy balance.

Peremptory exceptions are taken by the Wilder Steamship Company in the Circuit Court to the case brought against it by George U. Hind and others, owners of the William Carson, who claim that their vessel was cut down at sea by the steamer Claudine.

TO HELP WORKERS.

Mr. and Mrs. A. S. Wilcox of Kaula sent up to Mrs. P. C. Jones a check for \$500 to be distributed among the sufferers at the fire.

MEMORANDA.

The Poseidon is taking on ballast for Portland.

A ship, a bark, and a barkentine were sighted at about six o'clock this morning. The ship and barkentine were East and the bark was Southeast.

The Mokoli is to go on the dry dock for repairs of the damages her keel received when she went ashore at Lanai. The Japanese Steamer Doyo Maru got away for Portland yesterday after being thoroughly fumigated.

The schooner Golden Shore has taken ballast for the Sound and will leave on Wednesday.

SAVING THE CARSON WRECK

A PROFITABLE JOB FOR THE PURCHASERS.

A Hull Worth Many Thousands Bought for a Few Hundred Dollars—Coal Being Taken Out.

The barkentine William Carson is now very likely to be saved. She has begun to rise out of the water and right herself, since the wreckers commenced lifting the coal out of her. The gasolene schooner Malolo came in from the wreck yesterday with about fifty tons of the coal that was lifted out.

The work of taking out the coal is very slow and costly and will prove expensive enough to eat up all the money that the coal is worth. There were thirteen hundred tons of coal in the vessel when she was struck by the Claudine, and at the present rate it will be a long time before it is all saved. If the vessel can be righted, however, and made to float, she will be towed into the harbor. The coal is being loaded into baskets by divers who enter the wreck below the water. William Lerrell, Sam and Alec Lytle and a native are the divers at work.

The Carson is lying very lightly on the bottom in shallow water. Since the coal was taken out she has risen so that she moves a little in the water and one of the masts has been above water at times. When she swings she may settle down, if air escapes from her hold, but she will be in such shallow water that this will not interfere with the work.

If the hull of the barkentine is saved, the wrecking operation will be one of the most successful ever done here. The vessel is a new one and her hull is the principal part of a craft that cost about \$50,000. The whole wreck, including cargo, did not bring over \$500 at auction, being bought by the Wilder Steamship Company. With the coal that is rescued paying for the operations, the recovery of the hull will be accomplished for a comparatively small sum.

COLONEL COCKRANE.

Lieutenant-Colonel Cockrane, so well known and so popular here as captain of marines in the United States navy is now a full-fledged colonel of marines. He was promoted on January 11.

DIED.

OLIVER—Died at the home of his daughter, Miss E. M. Oliver, February 6, 1900, of heart disease, S. K. Oliver of Magog, Canada, in the 68th year of his age. (Canadian papers please copy.)

A NEW FUEL.

Dr. William Calver, a scientist of Washington, claims to have solved a problem that has been puzzling the wise men of the earth for 3,000 years, and says that he has devised a method to utilize the heat of the sun as a substitute for fuel and power. His discovery is based upon the simple principle of the burning glass, and by an arrangement of mirrors he can gather to a focus of a few inches all of the rays of the sun that fall upon an acre of ground. He can melt iron and steel as if it were ice, and obtain a heat of several thousand degrees Fahrenheit. He also has devised a method by which the natural heat of the sun, gathered in that way, may be stored in reservoirs and applied both to stationary and locomotive engines. Dr. Calver has a laboratory on the outskirts of Washington and has a number of inventions to his credit in the patent office.

Pyramid Builders.
Barring the Egyptians, the ancient Mayas of Yucatan seem to have been the greatest pyramid builders the world ever saw.

THE BEST MEDICINE FOR RHEUMATISM.

"I think I would go crazy with pain were it not for Chamberlain's Pain Balm," writes Mr. W. H. Stapleton, Herminie, Pa. "I have been afflicted with rheumatism for several years and have tried remedies without number, but Pain Balm is the best medicine I have got hold of." One application relieves the pain. For sale by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Islands.

REMEMBERED BY FRIENDS

TOKEN FROM GUARDS TO "JACK" ATKINSON.

On Day of Parting Superintendent is Presented With Handsome Fob and Locket—Mr. McCombe.

Superintendent A. L. C. Atkinson was treated to a genuine surprise at the kerosene detention camp Saturday afternoon in the way of a handsome present from his co-workers. The token was a watch fob, set off by a handsome locket carrying quite a large diamond in the center. On the back of the locket is this inscription: "Plague epidemic. A. L. C. Atkinson, from his fellow workers, kerosene warehouse detention camp, Honolulu, 1900."

Just before 6 o'clock Saturday afternoon Mr. Atkinson, who was busy about the camp, was sent for to adjust some matter with the guards. He hurried to the office, apprehending anything up to a strike. There he found the guards drawn up. J. L. McCombe addressed the superintendent and made the presentation. Mr. Atkinson responded in a happy vein. Three cheers were then given for the superintendent.

Mr. Atkinson has the reputation of being the strictest disciplinarian in the camp service. He has worked untiringly himself and required everyone under him to do the same. With certain elements of guards he would have made himself very unpopular, but he was fortunate in having men about him who appreciated the necessity of clear-cut business methods and who themselves took a great interest in the success of the camp.

J. L. McCombe, first assistant at the camp, was also remembered. Before the proceedings were over he was presented with the following memorial from his fellow workers:

"Honolulu, H. I., Feb. 10, 1900."

"Mr. J. L. McCombe, Asst. Superintendent Kerosene Detention Camp: "We, the undersigned guards at the Kerosene Detention Camp, Kakaako, during the plague epidemic, 1900, take this as a means of expressing our gratitude toward you, as you have always been a true friend of us. We still further wish to make special mention of the efficient way in which you performed the duties of your responsible position and which you were truly qualified to perform. While we are not to be associated in this camp many more days, and when the quarantine has been raised you will find a great many of us branching out and taking up our abode elsewhere in this world and while we depart let us wish for you a future full of prosperity."

DESIGNS FOR NEW MONEY

ENGRAVERS AT WORK ON A NEW ISSUE.

The One and Two Dollar Notes have been issued—The Fifties will be Taken Up Later.

The bureau of engraving and printing is at work upon a new issue of notes. The plates for the \$1 and \$2 denominations having been completed and the notes issued, the engravers are now at work upon the \$5 plate and will take up the \$10 plate within a few days. It will be five or six months before either will be ready for use.

The \$20, \$50, \$100, \$500 and \$1000 plates will be taken up in turn and the engravers will be required to complete. The new plates are being prepared by the regular engravers of the bureau without assistance, and they can devote to them only such time as can be spared from their regular duties.

Before work upon the new plates was commenced a design was adopted which will be followed in the entire government issue of money. The plates now in hand are intended for the silver notes, and duplicates with the necessary changes in wording to suit the character of the government obligations will be prepared for the treasury and United States notes. A distinguishing mark will be the difference in the color of the treasury seal; that on the silver certificates being blue, while brown and red will probably be used for the treasury and United States notes, respectively. Great care will be used in preparing the new plates to weave in details and lathe work, so as to make counterfeiting difficult, but the government will attempt to protect the people against crime more by the exposure of unusually large surfaces of the silk fiber paper, which cannot be imitated, rather than by artistic workmanship of the engravers.

The new \$5 certificates will present as the central figure a magnificent type of the Indian chief in full feathers. A large "W" with the word "five" arched through it, will also be used. The new \$10 note will show a battleship under full headway. Worked into the border on the side will be a vignette of Decatur, while on the other will appear one of Commodore Bainbridge. The back of the new ten will be a departure from all previous designs on paper currency, and will represent an arcade consisting of three open arches, supported at either end by Corinthian columns. The two side arches will be left blank to expose the silk fibre. In the central arch will appear a delicately engraved female figure typifying progress. She holds aloft a flaming torch, while in the background the world rolls in her path.

UNFAIR PROMOTION.
 Secretary Long has written an earnest letter to congress recommending that some method be devised by which officers of the navy may be rewarded without injury to their comrades in the service. Every time a naval officer is promoted out of his regular course a certain number of his seniors must suffer, and the case of Capt. Clark, who brought the Oregon around from San Francisco and did the best work at the battle of Santiago, is cited as an example. Although no one will deny that Clark is quite as much entitled to honor and reward as any officer of the army or navy, he has been punished by the promotion of nearly all the captains of Dewey's fleet over his head, and is three numbers lower on the list today than he was before the Spanish war.

A CHANGE IN CIRCUMSTANCES.
 He—"Don't you think that girl over there is beautiful?"
 She (coldly critical)—"Oh, I don't know. Who is she?"
 He—"Mrs. Nuter. Just been married."
 She—"Yes, I think she is—quite beautiful."

Hawaiian Electric Company.

The "cleanest, brightest, safest and really in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came running down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."
 This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light.
 Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.
 We have a complete stock of everything in its line and have just received a lot of the very latest designs.

GOOD AIR. GOOD VIEW. GOOD HEALTH.

A special invitation to everybody to visit Honolulu's most delightful residence site, PACIFIC HEIGHTS.

Via Maxima.

Kaialani Drive—aptly termed, the via Maxima or Grand Boulevard, and in itself an artistic piece of engineering—affords easy access to all points, as also scenic and marine views of exquisite grandeur at every turn.

Electric Railway.

Contracts have been let for material, and the work of construction equipping and installation placed in the hands of a competent electrical engineer to be fully completed by June 1st. Having an independent power plant we are prepared to furnish electric power for lighting, heating and other purposes, to our home builders at most reasonable rates.

As Promised.

Our reservoirs are now completed and water mains laid so as to supply each lot. Permits for making water connections will be granted on application.

An inspection of the attractive homes now building, or the name of purchaser of lots, will convince anyone that PACIFIC HEIGHTS is the choicest and most select of all the residence sites of Honolulu.

MONDAY, FEBRUARY 12, 1900

There was a decided cold snap last night. If we could only have our regular trade wind weather we should be very much better off in health. It is the continuance of southerly winds and north winds that causes so many colds and attacks of bronchitis. What we want are sunny skies and balmy breezes.

There seems likelihood of considerable changes in the command of the British merchant marine, if all the Naval Reserve Men are to be mustered into service. There is no doubt that an extremely efficient set of officers will be called together, for these men have been in active service as far as fighting the elements is concerned for many a long year.

The illness of Armstrong Smith is viewed with anxiety by all his friends, and that includes the whole city. Mr. Smith has done a noble and self-sacrificing work, and it would be hard indeed, if, just as that work is over he should be seized with the malady. It is to be hoped that it will only prove to be a slight feverish attack brought in by mental anxiety and overwork. The physicians have, however, taken precautions against plague.

The suggestion of P. C. Jones that the funds put in his hands should be applied to the purchase of tools for mechanics, and sewing machines for women is a good one. If the means to earn livelihood are given, the livelihood will be earned. Two of the camp superintendents who have been spoken to on the matter agree that the idea is thoroughly practical, and commend it as the best way of applying the money. The more chance there is given to revive remunerative industry among these people, the better.

According to the report of Consul Everett of Batavia, the Java sugar people are in a difficulty about packing sugar. The matted bamboo, which has been the means up to the present, has given out, and the consul writes that the planters can find nothing suitable. As the Hawaiian sugar is packed in sacks that are imported from India, there seems to be no reason why Java should not use the same, at a less cost, as the freight to Java must be lighter. But the Java planters say that what is suitable for a voyage from Hawaii to San Francisco, or from Cuba to New York will not suit them with their long voyage. The Javan planters need not worry. Our bags go the long voyage from Hawaii round the Horn to New York, and there is never a complaint about them. But being wedded to mats they don't like to take to bags.

KAHULUI.

An outbreak of plague on Maui comes as a bolt from the blue. With us in Honolulu, hope has run high during the past few days that our siege of the plague was approaching its end, and that within a comparatively short time we should be pronounced an uninfected city and port. And now there comes upon the island community an attack from an unexpected quarter, with the reason for it buried in mystery at present. What the discoveries of Dr. Wood may be remains to be seen.

That Kahului should prove a home for infection, if the germs of plague ever reached that delectable spot, is by no means to be wondered at. Kahului proper is a row of Chinese shacks quite as bad as any in Chinatown. It stretches in a curve facing the sea, and contains cheap restaurants, low lodging houses and opium joints which are tumble down enough on the seashore, but whose back yards contain a mass of filth breeding pools, pig pens, and lean-toes such as the plague microbe loves. Added to this there is a slaughter house some little distance away, on the beach, and when the wind sets in the proper direction, the celestial smells are mingled with the odors of decaying offal which adds much to the sanitary conditions.

There are many insanitary spots on the islands, but few can beat Kahului. What has saved Kahului from epidemic has been the sand upon which it is built, the strong wind which has swept all effluvia across the barren isthmus and the hot sun which is calculated to finish up all microbes. But even natural advantages can eventually be overcome by Oriental filth, and the latter has apparently succeeded.

In seeking for causes of outbreak of plague we always regard it as having come from abroad, and as a fact have every reason to think so, but there is just a bare possibility that such places as Chinatown, Kewalo and Kahului have bred their own filth disease, and in investigating causes it is well to consider this side of the question. Among the causes now thought of is freight that was taken up a couple of months ago, which was opened out at Chinese

New Year. If this prove to be the cause how more than careful we should be over Oriental freight. It is also asserted that the three Claudine sailors who died suddenly, before the outbreak of plague had been handling the freight and might have caught infection. It is true that post mortems were held and it was pronounced that they had no traces of plague, but this was by a physician who pronounced no symptoms of plague in one or two of the earlier cases that occurred in Honolulu. On the other hand men who have handled similar merchandise on the wharf have not suffered.

As far as Kahului itself is concerned it is not a difficult place either to isolate or to destroy. It is easy to draw a cordon round it. It is easy to burn it down without injuring any surrounding property. The danger to Maui lies not in Kahului, now that the plague is known to be there, but the danger has been in the past fortnight when people have been moving from that den to various parts of the island. People have undoubtedly gone from there to Wailuku, to Hamakua, to Hailuku, to Spreckelsville, to Kula and even to Lahaina and Hana. It is in this that the danger lies. Kahului is a sort of rendezvous for the Asiatic population, and during the Chinese New Year there must have been a good deal of passing to and fro and mingling of people from various districts. It will need the greatest vigilance to watch. And it will be harder to watch than in a city, because though plantation laborers can be controlled and inspected twice a day, the outlying cottages occupied by irresponsible people will be more than difficult to inspect thoroughly. Still with determined effort it could be done.

It is to be hoped, however, that the disease is confined to Kahului, and there it certainly ought to be stamped out readily. A residence in a camp with proper hygienic supervision will do the population of Kahului a mighty deal of good, as it has done our residents in Chinatown.

TRANS-PACIFIC CABLE.

The Jiji Shimpo points out that there are difficulties about the laying of a trans-Pacific cable touching at Japan. According to that paper a contract was concluded some years ago between the Japanese Government and the Great Northern Telegraph Co., when Japan constructed a cable in the Fusan channel, to the effect that the right of monopoly in laying a cable connecting Japan and her dominions with the continent of Asia, the Philippines, Saghalien and other islands adjacent to the continent should be given to the company. Owing to this circumstance, the Great Northern Telegraph Company would lay a line to Formosa and there tap the main cable or the Great Northern might be bought out.

However there is another route by which this difficulty might be overcome. Should the Pacific cable have a terminus at Guam, there is nothing in the agreement which would prevent Japan from making a junction at that island by herself laying a cable by way of the Bonin group.

As far as the Government line is concerned, the main points which it desires to reach are the Hawaiian Islands, Guam and the Philippines and for this scheme the telegraphic experts have made their calculations and are ready to go to work. There are means of communicating with the Asiatic continent other than Japan. It is the private lines which are anxious to have a line to Japan.

As things have been framing within the last five weeks or a month it looks very much as if the government cable would have the pull. The jarring interests of the private bills have a tendency to neutralize one another. There is no doubt that the government must have telegraphic communication direct with its island dependencies and the government measure will be the only alternative. This is evidently what is thought in naval and military circles.

THE HOMELESS.

Major Wood of the Salvation Army is quite right when he says that a large number of orientals fear to enter the relief camps lest they may be subjected to further quarantine and in consequence the homes of their friends are overcrowded, while others sit round the stores during the day and at night sleep under bushes or what shelter they can find.

The major suggests that the Japanese and Chinese Christian workers should unite in making an effort to get these poor people into proper shelter. To carry out the plan, some night work would have to be done, Thomas Square and other localities would have to be examined, but if this were properly done a great deal of distress might be relieved.

The Honolulu of the night, that is of the late night, is known to few outside of the police and the newspaper reporters. There are many cases of homelessness at present and there have been in the past. It is not only now that the homeless are with us, though there are more now than then ever have been before.

In dealing with the homeless celestials there must be some one who thoroughly understands their language and can gain their confidence. They must be made to understand that the relief camps are really relief camps and that they will not be interfered with in any way beyond the necessary discipline of a camp where a number of people are congregated. If the congestion of many of the small Chinese houses around town can be relieved it will be really a good thing, for many of them are full to overflowing. But it is impossible to turn people out as they must have shelter, and the women and child should have privacy.

FOOLING CUSTOM GUARDS

NEW TROUBLES FOR THE OPIUM CHASERS.

The Guard Who Tried to Pull up the Anchor Chain of a Large Foreign Steamer.

The practical joker got in his work yesterday on the water front, at the expense of a customs guard. Some of the best finds of opium made here have been packages hauled up from the bottom of the sea or harbor, where they were thrown with a string attached and a float on the end of the string to mark the spot. The customs guard who fell a victim yesterday saw such a float near Brewer's wharf. He thought there must be a package of opium under the water and got a boat to haul up the rope. There was a lot of old iron and stone at the end. The scheme had worked so well that this morning there were half dozen floats near the wharf, all having very suspicious looking ropes attached to them. The experience of the guard with the fake float was not quite as bad as that of a guard at a foreign steamer last week. He was on watch at night. While rowing round the vessel he discovered a small float of the usual opium-locating appearance. He pulled on it for a while, nearly overturning his boat, but it was as firm as though ten tons of opium were below. Thoroughly convinced that he had made a big find, the guard pulled for the shore as fast as he could and hurried to the Port Surveyor's office to get help. It looked like one of the biggest catches on record until he had got through his story and told where the float was. Then he was informed that it was the anchor float of the steamer, and he went to think it over through the watches of the night. Wharf rats with nothing better to do are making more decoys. Incidentally they furnish opportunities for operations of the real sort. If there were opium at the bottom of the bay just now it would be comparatively safe, as it is a brave guard or inspector who would pull a float up now and stand the jokes afterwards.

PLAGUE APPEARS ON MAUI

(Concluded from page one)

more physicians who are conversant with bubonic plague and properly equipped to determine the nature of the case be dispatched immediately for Kahului.

D. C. LINDSAY,
Secretary.

An unfortunate feature of the case is the proximity to Kahului of several large plantations with thousands of laborers upon them. In sight of the town are vast estates of the Hawaiian Commercial, Paia Sugar Company, Kilauea, Hamakuaopoko mill and the Wailuku Sugar Company. The Board of Health realizes the seriousness of the disease getting a foothold at these points and Dr. Wood will take extraordinary precautions to prevent such. Maui is fortunate just now in having a bountiful supply of disinfectants. All the plantations are equipped. By the last Claudine 1500 pounds of sulphuric acid were shipped to Kahului for the Hawaiian Commercial. This invaluable material at this juncture was probably still on the wharf at Kahului on Saturday.

Mr. Hons was very certain that there was no infection on Maui outside of Kahului and stated that the plague there was confined to a very small area in the town. "All of the cases that have occurred as well as every case that we might now be inclined to think was suspicious, came from the stores that are now in strict quarantine," said Mr. Hons. "I do not think the disease is likely now to spread beyond that section. There have been no reports of sickness that can be called dangerous from any other part of the island. It is true that there have been rumors from other places, but they had no other foundation than a number of cases of fever, which are not of a serious kind."

The shipment of Chinese goods for New Year is thought to have been the means by which the plague reached here. Some stuff that has been at Kahului for two months was opened at New Year's time and then began the suspicious illness. Not a case has occurred that has not been traced to contact with these goods in some way.

"It is my intention to go back to Kahului as soon as the Lehua can get away. The Board of Health is now holding us here to await the arrival of President Wood, who may have something to say to us. If we had known at Kahului that Dr. Wood was going to visit the place at once, I should not have come here. As it is I passed him on the way."

AGAINST FISHMARKET STORAGE.

The Citizens' Sanitary Committee has sent the following to the Board of Health. That body has approved it and sent it to the Minister of Interior:

Resolved, That the sense of this Committee is, that it is improper to continue the storage of Oriental goods in the Fishmarket, and that if no other means of disposition are available, a new shed should be built for these goods."

KILAUEA HOU AND KAUAL.

The steamer Kilauea Hou was expected in this morning from Hilo, where she went with Representative Loebenstein last week. The Kaual was also expected from Kahului, with President Wood of the Board of Health on board.

Note Heads, Bill Heads, Statements and Fine Commercial Printing at the Star Office.

DRAFT LOST.

Commissioner's Sale of Real and Personal PROPERTY.

Pursuant to an order made by Honorable A. Perry, First Judge of the Circuit Court of the First Judicial Circuit, filed the 31st day of January, A. D. 1899, I am directed to sell at public auction, subject to confirmation by the Circuit court,

ON SATURDAY, MARCH 3, A. D. 1900, At 12 o'clock noon of that day, all the right, title and interest of Genevieve Dowsett, Marion C. Dowsett, being an undivided one-twelfth interest each of said minors, and also the one-twelfth interest of Madeline C. K. Dowsett and Annie H. K. Dowsett, minors, in estate of James I. Dowsett, deceased, in and to all those certain pieces and parcels of land situate on the Islands of Oahu, Maui, Hawaii and Molokai, and more particularly described as follows:

1. The land situated in Nuuanu Valley, Island of Oahu, described in deed from John H. Wood to the Honolulu Dairy Company, dated April 30th, 1892, and recorded in the Registry of Conveyances in Honolulu in Liber 126 at pages 174 to 177, containing an area of 271 acres, more or less.

2. The land situated at Kapaemahu, in Honolulu, Island of Oahu, known as the Akepo lot, being a part of Royal Patent No. 5572, and described in deed made by Kahea and J. W. Akepo to James I. Dowsett, dated the 3rd day of February, 1882, and recorded in Liber 73 on pages 210 to 212. Containing an area of 1.13 acres.

3. The land situated at Apua, in Honolulu, described in deed from A. Francis Judd to David Kahanu, dated March 21st, 1870, recorded in Liber 29 on pages 424 and 425, and the land described in the deed from John O. Dominis and E. Mahiai, Administrators of the estate of Josia Kaaukai, to David Kahanu, dated June 7th, 1866, and recorded in Liber 21 on pages 315 and 316, and in a deed from Kahanu and Keohokila, her husband, and Kahuahine to David Kahanu, dated September 14th, 1866, and recorded in Liber 22 on pages 106 and 107.

4. The land situated at Kakaako in Honolulu, described in the deed from Moekolohe and Nainoaia to David Kahanu, dated March 30th, 1880, and recorded in Liber 63 on pages 415 and 416. Containing an area of 1.5 of an acre.

5. The land at Aala on Liliha street, in Honolulu, described in the deed from Nika and Puniakala, his wife, and Keaka to David Kahanu, dated October 9th, 1869, and recorded in Liber 29 on pages 40 and 41; also the land described in the deed from John Thomas Waterhouse and Eleanor, his wife, to David Kahanu, dated January 25th, 1878, and recorded in Liber 66 on pages 63 and 64; also land described in the deed from Kia Nahoelua and Nahoelua to David Kahanu, dated January 10th, 1878, and recorded in Liber 49 on pages 385 and 386. Containing an area of 3.03 acres.

6. The land situate on King street, in Honolulu, described in the deed from F. M. Hatch to James I. Dowsett, dated October 18th, 1888, and recorded in Liber 115 on pages 68 and 69. Containing an area of 17-100 acres.

7. The land situate at Kapaeha, Kapalama, in Honolulu, being a portion of Apana 1, Royal Patent 2236, L. C. A. 2440B, described in the deed from Thomas Carry and Mary, his wife, to James I. Dowsett dated June 14th, 1887, and recorded in Liber 106 on pages 193 and 194. Containing an area of 1900 square feet.

8. The one undivided half of the lands situated in Honolulu, known as the land of Kahaohao and Kanohio, L. C. A. 153 to Wm. Sumner, dated March 5th, 1849.

9. The land situated at Puhawai, Waianae, Island of Oahu, described in Royal Patent 1073, L. C. A. 7465, and in the deed of Pine and Kaniakua to James I. Dowsett, dated April 30th, 1888, and recorded in Liber 110 on page 258. Containing an area of 6.74 acres.

10. The land situated on Pearl River Bay near Honolulu known as Pualoa, containing an area of 2244 acres, and described by meter and bounds in the deed from Kekanonohi to Isaac Montgomery, dated September 7th, 1849, and recorded in Liber 4 on page 4.

11. The land situated at Honolulu, at Ewa, on the Island of Oahu, comprising 86 acres, more or less, now under lease to Sing Chong & Co.

12. The land situated at Kapalama, Island of Oahu, described in Royal Patent 2566 issued to John Meek, 1864 comprising 9 58-100 acres; and also the land situated at the same place part of the III of Kahuona, described in L. C. A. 8515, Apana 1, Part 1, and comprising 1 728-1000 acres, more or less, which said two last mentioned parcels of land are now held under lease dated September 15, 1899 by Y. Ah In.

13. The land situated on the Island of Maui, known as Rose Ranch, comprising all the lands described in certain Royal Patents and deeds as follows: All the land described in the deed from Parker N. Makee and others to James I. Dowsett, dated March 3rd, 1886, and recorded in Liber 101 on pages 200 et seq.; also the leasehold estates in the following lands: Lease of the Hawaiian Government of the Ahupuaa of Kanania to Catherine N. Makee, Number 292, dated February 9th, 1891. Lease from John M. Kapena to James Makee dated December 22nd, 1876, and recorded in Liber 47 on page 496. Containing an area of 21,650 acres.

14. The land known as Kaulu situated at Ewa, Island of Oahu, being part of Hoaeae. Containing an area of about one acre.

15. The land with an orange grove situated at Hana, Island of Maui, known as Dowsett's land. Containing an area of 1 1/4 acres.

16. The two lots situated on the Island of Molokai described in Royal Patent 2230.

17. The land situated at Waipio on the Island of Hawaii known as Dowsett's land.

18. The land situated at Kapulona in Honokaa, Island of Hawaii, formerly leased to J. M. Horner & Sons and now occupied under said lease by the Pacific Sugar Mill. Containing an area of 17 1/2 acres.

Also all the leasehold estates in the following lands: The land of Halawa, the land of Kahauiki, the land of Lilehu, the land of Mikilua, the land of Nana-kuli and the land of Alea, all situated on the Island of Oahu.

Also all the live stock belonging to the Estate of James I. Dowsett, deceased, comprising 6,000 head of cattle, more or less, 60 head of oxen and bulls, and 212 head of horses and mules.

Also all and singular, the lands, chattels, choses in action, and property, real and personal, belonging to the Estate of James I. Dowsett, deceased, or to which said Estate may be entitled, whether herein enumerated and specified or not.

Terms of sale are cash in U.S. Gold. Deed at the expense of purchaser. For further particulars apply to PAUL NEUMANN, ESQ., or GEORGE LUCAS, Commissioner.

Its ideal for home use—a trial convinces.

Chills

Ever become chilled through and through?

The acute sensation of cold is followed by feverishness and aches in all parts of the body. Finally the whole trouble settles in the throat and lungs in the shape of a cough. There is nothing so bad for a cough as coughing.

Ayer's Cherry Pectoral

will cure these chills and coughs. A few doses are sufficient at first. More time is required later on.

Stop coughing and you will get well. Keep coughing and you invite bronchitis, pneumonia, or even consumption itself. Better stop your cough at once and thus end the whole matter.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U. S. A.

BY AUTHORITY

SANITARY REGULATIONS OF THE
BOARD OF HEALTH FOR HO-
NOLULU DISTRICT.

The following regulations shall apply to, and be in force within, the portion of Honolulu described as follows:

Beginning at the seashore, at the west corner of Loko Kuwili 2 near the east corner of the Kapalama Detention Camp and running mauka, along the Waipio road to the old line of the Oahu Railway, thence along Oahu Railway to the boundary of Maunakea, thence mauka, along the Mokuauia boundary and the Kahihi road to the survey station at the lower end of Mokuauia ridge, thence in a straight line to the survey station above the north end of Wyllie street, thence along the central line of Wyllie street to Nuuanu street, thence in a straight line to the forks of the Muna road, thence in a straight line to the corner of the Waiata road and the Kapahulu road, thence down the Kapahulu road and along Campbell Avenue to Monsarrat road, and thence in a direct line over the summit of Diamond Head to the seashore at high water line, and thence to the initial point.

REGARDING BUILDINGS AND YARDS. RAIN WATER.

1. Where the space between the buildings is less than fifteen feet, the water from the roofs of the buildings on the sides of such space shall be conducted in water tight leaders and made to discharge into suitable drains leading into street or alley gutters; and if the building abuts on an alley or roadway of like width the same rule shall apply.

AIR SPACE BETWEEN BUILDINGS.

2. There shall be a clear air space of ten feet between all buildings except those fronting on a street. No building except such as fronts on a street shall be built within five feet of a boundary line. The word "buildings" in this paragraph shall be construed to mean and include sheds, lean-tos, privies, and all other structures.

LIGHT AND VENTILATION OF DWELLINGS.

3. Each and every room intended or used for human habitation shall be provided with at least eight square feet of window area having unobstructed access into the open air for each 100 square feet of floor space in said room, and free access shall at all times be had to the same by the occupants of the room; and at least one-half of such window space shall be movable and available for ventilation.

AIR SPACE UNDER BUILDINGS.

4. Every building shall have on an average at least twenty inches of clear space for the circulation of air between the floor timbers and the ground, and shall have sufficient openings for ventilation in the outer walls to admit a free circulation of air; but, in case this air space cannot be secured without reaching "ground water level" then there shall be no air space, but the floor shall be of concrete or masonry.

YARDS, AREAS, COURTS, ETC.

5. Yards, areas, courts, alleyways and other open spaces within or between buildings, where water is used for washing of any kind, shall be properly graded and cemented, or paved so as to be water proof, and drained into trapped drains properly connected with sewer or cesspool, and no permanent wooden floor or grating shall be maintained over the same.

WATER TIGHT FLOORS.

6. All houses, structures, rooms or parts thereof, in which water is used, or intended to be used, in such quantity as to render the floor or floors thereof constantly damp, shall have such floor or floors made absolutely water-proof, with proper drainage into trapped leaders conveying the water away into cesspool or sewer; and the water proofing of all such floors shall be done in a manner satisfactory to the Board of Health.

7. No building or structure shall be used as a residence or place for human habitation or abode which is situated upon land where there is standing water within eighteen inches of the surface of the ground; nor shall any building or structure be so used that is placed on land that has been made by filling in with refuse or garbage, or that is declared by the Board of Health to be of foul or corrupt material.

REGARDING PRIVY-VAULTS AND CESSPOOLS.

8. No privy-vault, sink or cesspool

in Honolulu, shall hereafter be located or constructed within fifty feet of any stream, lake, pond, well or spring of water, nor within two feet of the line of any lot; nor shall it be made more than eighteen or less than six feet deep or placed in such a position that it is not easily accessible for emptying and cleaning.

9. When deemed necessary by the Board of Health, the sides and bottom of any privy-vault, sink or cesspool, shall be made either wholly or in part water tight, so as to prevent any saturation of the ground about the said vault, sink or cesspool, and shall be provided with suitable ventilating arrangement.

10. No structure or cover shall be put upon or over any privy-vault, sink or cesspool, until it has been inspected by the proper Agent of the Board of Health and approved as meeting the requirements of these regulations and of public health.

11. Any privy-vault, sink or cesspool, already constructed in Honolulu which has become a nuisance, or in any way dangerous to life or detrimental to health, shall be removed, reconstructed, or altered to meet the requirements of these regulations and of public health, as directed by the Board of Health or its Agent.

12. The Board of Health or its Agents may cause the emptying or disinfecting of any privy-vault, sink or cesspool that may be deemed offensive, or when required by public health, at the expense of the owner or occupant of the premises.

13. Within thirty days after the public sewer system is put into operation the use of privy vaults and cesspools shall be entirely discontinued within the limits of such sewer system, and all privies shall be removed, except in so far as permission may be granted by the Board of Health to transform the same into approved water closets connected with the sewer system.

14. No privy vault or cesspool shall be excavated or maintained within ten feet from any dwelling-house or inhabited building or cook-house or place where cooking is done.

15. No privy vault or cesspool shall be maintained or excavated in any place where for any reason free and unimpeded access may not be had to the same by an excavator cart.

16. No privy shall be built or maintained so as to entirely cover the cesspool or vault under the same, but the cesspool or vault shall project out on one side beyond the superstructure in such a manner as to allow the inspection and removal of the contents of said cesspool or vault. The contents of any privy vault or cesspool shall not be allowed to rise within eighteen inches of the top of the same or to such a height as to flow out onto the surface of the ground.

17. No cesspool or privy vault shall be built or maintained in any location except the same shall have a substantial water-tight curb which shall retain the earth without and the contents of the cesspool or vault within, and shall be provided with a substantial water-tight cover, having a small, movable lid in the same to facilitate examination and removal of the contents.

18. All cesspools or privy vaults shall have four-inch cast-iron vent pipes with caulked lead joints, or galvanized iron pipes, extending not less than twelve feet into the open air, and if within twenty feet of an inhabited building the top of such vent pipes shall extend above the roof of the highest building within a distance of twenty feet of the same. All such vent pipes shall run as direct as possible. Every privy shall have proper seats with hinged lids to cover the opening of same, which shall be kept closed when not in use.

19. All connections to cesspools or privy vaults shall be made with cast iron, lead or vitrified, sewer pipe. All urinals shall be connected to cesspools, vaults or sewer by trapped waste pipes.

20. All cesspools shall be properly cleaned out at once, and hereafter at least once every four months, and shall be thoroughly disinfected at least once each week with such disinfectants as the Board of Health shall direct; all such cleaning and disinfecting to be at the expense of the owner of the property.

21. All waste, soil, sewer or drain pipes shall be of cast iron, lead or vitrified clay. If of iron or lead the joints shall be caulked with molten lead; if of vitrified clay, they shall have tight cement joints all joints to be smooth in the inside; open drains may be of water tight masonry.

22. All cesspools or privy vaults when abandoned and the use thereof discontinued shall be at once entirely emptied of liquid and solid contents, and shall be disinfected and filled with earth, sand, ashes, or other such clean materials; and the wooden curbing about the same removed to a depth of at least four feet below the surface of the ground. In no case shall refuse, garbage or any unclean material be used in filling such privy vault or cesspool.

23. All buildings and premises which do not conform in every respect to the requirements of the foregoing regulations are hereby declared nuisances and dangerous to the public health.

REGARDING GARBAGE.

24. Garbage will be carried away free of charge by the Board of Health carts within these limits, i. e.: School street mauka; Alapai street east; Liliha street west; and seaward by the water front.

25. It shall be the duty of each house owner, householder, lessee, or tenant who is a housekeeper, within the district in which the free removal of garbage is provided, to supply, and keep ready for use suitable container or containers, of not more than eighteen cubic feet capacity and provided with tight covers, for the reception of all garbage, and to cause the same to be set out in such places and at such times as the Board of Health shall direct for the convenience of garbage collectors. All empty containers shall be kept clean and thoroughly disinfected.

26. Yard scrapings, tree cuttings and stable manure will not be removed by the Board of Health carts.

27. All garbage and refuse which is subject to decay shall be collected by householder or occupiers of dwellings each day; and if within the limits named in section 24 the same shall be placed in containers as provided in section 25 for collection; and if beyond said limits the same shall be burnt or removed.

28. No garbage shall be used for filling house lots or other tracts of land.

29. No garbage shall be deposited in any place not authorized by the Board of Health.

Extract from Penal Code:

"Section 874. Every person who shall violate any regulation of the Board of Health, after the same shall have been published, as provided in the last preceding section, shall be fined not exceeding one hundred dollars."

C. B. WOOD,
President Board of Health.

OFFICE OF THE BOARD OF HEALTH.

Honolulu, Feb. 7, 1900.

Section 28 of the Sanitary Regulations of the Board of Health is hereby amended so that said section shall read as follows:

"Sec. 28. No garbage, stable manure, night soil, or animal or vegetable refuse of any nature which is subject to decay shall be used for grading purposes, or for filling up any house lot or other tract of land."

C. B. WOOD,
President of Board of Health.

THE HAWAIIAN HARDWARE CO

FORT ST., opp. Spreckels' Bank.

The 1900

Columbia, Rambler and Hartford Bicycles seem to be just about the right thing. We have had supplies of these wheels and will have a big stock by the Australia in two weeks. Most of the chainless Columbias are sold to arrive there is such a demand for this wheel. They are 4 pounds lighter this year and are fitted with the "Special Tropical Tire" which makes them a perfect mount for these Islands. The Columbia Chainless weighs less than 25 pounds and we guarantee it for any rider weighing up to 300 pounds. Our "Hartford" and "Rambler" chain wheels are beauties, call and see the samples. We have a complete repair shop as ever, though it is not conveniently located at present. During this year we expect to get back to the old corner, where a fine modern department is to be fitted up in our new store. At present we sell, rent and repair wheels in the brick building on the upper side of King Street opposite to where our old stand was and are able to do the best repair work done in town, rent the well known Columbia Chainless, and sell any model of Columbia, Rambler, or Hartford for cash or on easy installments. We want your custom.

MAJOR WOOD SUGGESTS

WOULD HAVE STRAGGLING REFUGEES LOOKED AFTER.

The Salvation Army Officer Points Out a Work That Needs to be Done at Once.

EDITOR STAR:—With regard to your editorial on Friday's issue on reference to extending the present relief work and suggesting that the Salvation Army should undertake it: I desire to say that we will be only too glad to do anything that lies on our power either to assist on the relief work at present in operation or take charge of any extensions of it that may be planned; and seeing that the need is likely to be only a temporary one your idea of a large tent being erected is a good one but it should be as near the center of the city as possible so that its occupants could have a good opportunity of attending their work.

It is patent to all that the need at present is great and that whatever is done should be done quickly. One great difficulty in dealing with the unfortunates who are told that they may return to their several detention camps until they have some other abiding place, is that they do not return but prefer to herd on, and overcrowd, the tenements or shacks occupied by their friends, or walk the streets uncareful until they drop with exhaustion and hunger; simply because they believe the returning to a camp will mean a further term of quarantine. This illusion can only be dispelled through the efforts of those who understand their language and personal dealing.

Amongst the hundreds of Japanese who left the drill shed camp three days ago were Rev. Mr. Takahashi, the minister of the Japanese church and a number of his native christian workers. Their church was destroyed in the great fire and it may possibly be quite a time before it can be replaced and their work go on. Much I do not throw out as a suggestion that their co-operation be sought in hunting up the destitute and homeless of their nation and no doubt the Chinese workers in connection with the Chinese church could be secured to do the same amongst their people.

We have now a great opportunity as a Christian community to let these Asiatic wards of ours see that we recognize them as our brothers and sisters and are prepared to carry out the Golden Rule.

GEO. WOOD,

Major, Salvation Army.

Honolulu, February 10.

GONE TO THE PHILIPPINES.

Col. F. F. Hoffer, who was connected with the Latin-American bureau of the World's Fair, has been sent to the Philippine Island under the direction of the Smithsonian institution to collect an exhibit for the Pan-American exposition of Buffalo in 1901.

INCREASED EARNINGS.

According to official statistics, coal miners in Illinois have averaged \$100 more in earnings per capita than they did last year.

NEWS IN A NUTSHELL.

Bits of Paragraphs that Give Condensed Notes of the Day.

The Orpheum opens tonight. The band will play at Thomas square tomorrow evening.

There were no sanitary fires yesterday and will be none today.

The steamer W. G. Hall will leave tomorrow afternoon for Kailua.

The bark Top-Gallant leaves this afternoon for Port Townsend in ballast.

The coming legislature will be asked to extend the fire limits to Nuuanu stream.

A concert will be given by the band on the grounds of the Executive building at 7:30 this evening.

One of the largest audiences ever seen at Makiki Island heard the concert there yesterday afternoon.

Ed. A. Williams has temporarily removed his undertaking parlors to a room opposite his old stand.

The Japanese ladies relief society has received a donation of \$25 from Mr. and Mrs. J. B. Atherton.

Gus Murphy has entered upon his duties as head clerk in the office of the superintendent of public works.

The Lehua is ready to leave for Lahaina, stopping at Molokai, ports, as soon as Dr. Wood returns from Maui.

Three foreign vessels were outside the harbor early this morning, but none of them managed to make port till afternoon.

The Doyo Maru, leaving her anchorage outside the harbor yesterday, was mistaken for a newly arrived foreign steamer by many people.

Adelaide, infant daughter of Mr. and Mrs. F. F. Lutz of Makiki died Sunday night. The funeral will take place from the Catholic cathedral.

Quite large congregations attended the churches yesterday. It was the first church day since all meetings were suspended in January.

A special meeting of the stockholders of the Union Feed Company is called for Friday, the 16th inst. at 10 o'clock in the Judd building.

The third assessment of 10 per cent or \$2 per share on the assessable stock of Nahiku Sugar Co. is due and payable on March 1, 1900.

The plague in the case of the Johnson girl in Iwilei has been traced to a piece of Chinese cake bought from a shop near King street bridge.

Attorney General Cooper is again president of the Board of Health, having been asked to take the chair in the absence of President Wood at Maui.

A new house on Queen near Millam streets, condemned by the Board of Health as not being on sanitary lines, is being torn down and will be rebuilt.

A cargo of sugar from Spreckelsville left Kailua only a few days ago on the Lurline. It is likely to be detained at San Francisco if news of the Maui outbreak reaches the coast in the meanwhile.

The valley water supply is increasing every day now. Superintendent Brown hopes and expects that by the end of this month the reservoirs will be full and will have a considerable mountain supply to draw from.

Captain Lydie, formerly head of the commissary department here, resigned from the army because Colonel Barber was made a brigadier general. The captain felt that when this happened it was about time to quit.

Dead crabs have been observed floating in the channel in large numbers during the past few days. It is supposed that they have been killed by the corrugated iron and other stuff which the Board of Health has been dumping outside the harbor.

Many visitors have been to the old ship Kaimiloa at the marine railway, to look at the historic old craft as she appears out of the water, and the price of shells and sponge from her bottom went up yesterday. The hull has been scraped all over.

The steamer Walaleale is still held in quarantine outside the harbor, on account of the finding of a sick man on her. The case was not plague, but it is stated that the man was a new comer on board and that quarantine rules must therefore have been broken.

The Sugar Planters' Association, under whose auspices the fumigating of the Golden Shore was done, claims that the captain refused to follow instructions in the matter of securing a tin vessel for the burning sulphur, and the association therefore refuses to pay any damages.

A large quantity of uncalled for perishable freight on the Pacific Mail wharf was sold at auction Saturday morning on the wharf. There is a lot more that will have to be destroyed. The stuff was uncalled for on account of the quarantining of the consignees in many cases.

SOCIALIST VOTE.

The last election at Rochester, N. Y., showed a gain of 30 per cent in the Socialist Labor vote, as compared with former elections.

VARIETY.

Peru possesses such a diversity of elevations and climatic peculiarities as to be able to produce almost any product known to man.

MILITARY CALLED OFF.

At noon today Minister Mott-Smith issued an order recalling the military from Kailua camp. As soon as possible the companies will be mustered out of active service. Extra guards supplied by Marshal Brown will in future take care of affairs at the camp.

CHICAGO SANITARY CANAL.

Chicago feels inclined to view the acts of St. Louis in a charitable light. Persons who have been drinking Missouri river water for years can hardly be held responsible for everything they do.—Chicago Record.

Chicago will wait until the frost is out of the ground before it begins the work of piping its river water to other cities. St. Louis will thus be some weeks ahead of New York, Three Oaks and other villages.—Chicago Record.

Reports from the health department on the city water show that Chicago is already beginning to get something for its money that was spent for the main drainage channel.—Chicago Record.

St. Louis engineers have not yet discovered any method of lifting the water bed so the Chicago river can be made to flow the other way occasionally.—Washington Star.

If St. Louis does not like Chicago's drainage plans why does it not cause the Mississippi to flow uphill like the Chicago river?—Chicago Record.

Some cities are supplied by nature with pure water, some acquire it at much expense and a few fortunate cities like St. Louis have pure water thrust upon them.—Chicago Record.

St. Louis cannot be blamed for not getting its injunction in time. It had only six years in which to secure the document.—Chicago Record.

The demand of St. Louis for a Federal commission to investigate the effect upon its people of Chicago sewage seems like trying to lock the stomach after the microbe has stolen into it.—Seattle Post Intelligencer.

St. Louis is mistaken when it thinks Chicago is opposed to its centennial celebration. Chicago has taxed itself about \$30,000,000 in order to furnish pure water for the occasion.—Chicago Record.
