

## FEDERAL SITE MUST BE BEST

### ACTING-GOVERNOR WON'T VOTE ON LIQUOR

## Citizens Called On To Obtain Whole Block

"Cable Chairman Bartholdt urging necessity entire block building."

The above is a copy of a cablegram received early this morning by the Chamber of Commerce and Merchants' Association, jointly, from Secretary McClellan, at Washington.

It is the reply of the Hawaiian delegation at the capital to the request of night before last, sent by J. P. Cooke of the Chamber of Commerce, and F. L. Waldron, of the Merchants' Association, for more or fuller information.

In spite of what may or may not have gone before, the despatch on the face of it shows that Delegate Kuhio and his secretary are firmly convinced of the importance of this step, and are probably confident that the appropriation for the additional property can be procured.

The positions of dozens of prominent business men interviewed this morning on the subject appear to be about the same. There is a slight suspicion that the whole proposition may be "loaded," or, as President F. L. Waldron, of the Merchants' Association put it yesterday, "there must be a nigger in it somewhere." This fear, it may be said, has been con-

siderably dispelled by the more flat-footed request of this morning. It now looks more like a solid proposition—or, rather, that the delegate believes he is on the correct tack, with a fair assurance of winning out.

The position of business men generally seems to be such that the following would be about their answer to Kuhio: "Get the appropriation for the increased area if possible, but do not let the effort delay the Federal building project."

The Chamber of Commerce is in a bad way at present and may find it hard to act. President Morgan, Vice President Cooke and Secretary Wood are all out of town, leaving only Acting Secretary Cooper and the rank and file of membership to transact business. It is likely that the matter will be left over, so far as the Chamber is concerned, until the return of Mr. Cooke on Sunday.

Up to this afternoon President Waldron, of the Merchants' Association had not decided what to do. There will be a meeting of the directors this afternoon on the interstate commerce and other matters, and the matter will probably be broached during the session. It may be that a special meeting will be ordered for a discussion of the subject.

## TRIPLE EXECUTIVE IS INTERVIEWED COLLECTIVELY; SILENT ON PLEBISCITE

Acting-Governor MOTT-SMITH, Secretary of the Territory E. A. MOTT-SMITH and President of the Board of Health Mott-Smith were seen in "his" office at noon today.

After the President of the Board of Health had handed the Acting-Governor a choice cigar which had been given him by the Secretary of the Territory, the Acting-Governor, the President of the Board of Health and the Secretary of the Territory were ready, or "was" ready to be interviewed.

It was a very difficult matter for the members of the evening press to interview three officers of the Territory at one and the same time, but Mr. Mott-Smith waived all formalities, and declared, obligingly, that he was ready to be interviewed in all his various triple-alliance capacities at once.

### DEPARTURE A MYSTERY.

As Acting-Governor, Mr. Mott-Smith said he did not know why the Governor, Frear, went away to the mainland. When he was asked to state, as Secretary of the Territory, why the Governor took his departure, he, as Acting-Governor, interrupted himself as Secretary of the Territory and declared that the Secretary of the Territory had no right to say. Mr. Mott-Smith went on to declare, however, that Governor Frear's trip had nothing to do with the Mahuka site and that the business of Frear was strictly his own business, although he might be roped into some important state matter before he could return.

As President of the Board of Health, Mr. Mott-Smith said he had been up at 7 o'clock this morning, chasing around in an automobile, though he didn't say where the auto belonged to the Acting-Governor, the Territorial Secretary or the Board of Health President. The auto ride was for the purpose of inspecting the health conditions of the city; to see that certain orders in regard to cleaning dirty districts had been carried out. What with the still idle scores of Russians, the health conditions of the city have to be very carefully looked after. Hence the strict inspection by the President of the Board of Health, accompanied in the same auto by Acting-Governor Mott-Smith and the Secretary of the Territory. Mott-Smith realizes the seriousness of the situation to the extent of not allowing the final inspection of conditions to be left to any subordinate, no matter how trusted.

### MUM ON PROHIBITION.

As Secretary of the Territory Mr. Mott-Smith is conducting the plebiscite election. In a few days he will appoint election inspectors. The law allows the city and county, through the mayor, to appoint election inspectors for the regular elections in Honolulu. But there have to be inspectors for the prohibition plebiscite and the Secretary of the Territory has to appoint them soon. He will see Mayor Fern and see if they can agree on the same men to serve as inspectors at the regular elections, and then he, Mott-Smith, will appoint them at once, so that they may serve at the plebiscite election.

There is no sense in having six inspectors in each booth when an understanding between the Mayor and the Territorial Secretary will reduce the number by half. The idea is to save money and to add to the convenience of the process. The inspectors appointed will serve for four years.

The Secretary of the Territory, having charge of the special election, in answer to a question as to his attitude in regard to prohibition, stated this morning that he was not certain whether he himself would cast a vote at the plebiscite or not. "I am in charge of this election," he said, "and therefore I do not believe I should express any opinion one way or the other, as to the merits or demerits of the prohibition movement."

### RUSH OF BIRTH CERTIFICATES.

Still being full of information, in his triple-expansion capacity, Mr. Mott-Smith, as Secretary of the Territory, stated that Henry Sullivan had returned from the other islands with the report that he had gathered eleven hundred applications for birth certificates of Chinese and Japanese in Hawaii. There will be 2500 applications before the month is over and all this means that the Secretary of the Territory will have to sign his name 12,500 times, so that he is earning his money as Secretary of the Territory, though he is by no means getting three salaries, though filling three important positions, and filling them full.

brother had supported the two children of the dead couple.

Deputy Sheriff Rose was advised of the tragedy at his home a little after eight o'clock, and arrived shortly before nine. A coroner's jury was immediately sworn, the inquest to be held tonight at seven thirty in the sheriff's office at the police station.

The bodies were removed to the morgue and will be buried this afternoon.

## KILLS WIFE AND THEN SUICIDES

Brooding over being separated from his wife who would have secured her divorce from him on the grounds of non-support this morning, if she had lived, caused John Aki, an employee of J. Hopp & Company, to fire three shots which instantly killed his wife Hattie, the murderer then turning the gun on himself and blowing out his brains. The double tragedy took place a little after six thirty on the road leading up to Punchbowl from Summit lane.

The unfortunate woman was the daughter of John McCarthy and Lou-

ika Kalauawa, having been born on March 4, 1890. John Aki, was, according to friends, about twenty-two years old, having been in Hopp's employ for some time. Three years ago the mismatched couple were married, two children, a girl of two and a boy of one, being the result of the union.

The woman, who has been living with her grandparents Kekio Kalani and Kalauawa since her marriage, was on her way to see them this morning before going to court, when she met her husband who asked where the children were. Hattie replied that they were at home, and before she had a chance to say another word, Aki whipped out an Iver-Johnson 38 caliber revolver and fired three shots in rapid succession which took effect, one entering the right breast and two at the base of the skull. As soon as he had fired the last shot at his wife, he placed the gun at the front of his head over the right eye and blew his own brains out.

When the police arrived they found the body of the man across the woman, with blood trickling from the hole the single shot had made that ended his life. Mrs. Needham, who lives at the corner of the lane where the double tragedy took place, states that Aki had been talking to her for several minutes before his wife came up the lane, from the Emma street car. "Aki was in good spirits when he was talking to me," Mrs. Needham said, "and did not seem to have any idea of committing such a terrible crime a few minutes later."

One of the dead woman's relatives, who arrived on the scene a little before nine o'clock, stated that Aki had never supported his wife from the day they were married, and that his

## "Elastic" Does Not Mean "Elastica"

There's a difference between "elastic" and "Elastica" Floor Finish.

There are many imitations of "Elastica".

Names that look and sound like "Elastica" are freely used.

Others are trying to profit by the acknowledged merit of "Elastica".

You don't have to be on your guard when you come here. There is only one elastic floor varnish—perfected by 40 years of experience—that one is "Elastica", the one we carry.

Remember, no other floor varnish stands the tests for toughness and elasticity that "Elastica" does.

It is a floor varnish that needs no care, no attention. Think of that—you who know the endless refinishing necessary of a waxed floor.

And "Elastica" goes farther than any other floor finish.

Look for this Trade-mark on a Yellow Label. All others are imitations.

Times of the tide are taken from the U. S. Coast and Geodetic Survey tables. The tides at Kahului and Hilo occur about one hour earlier than at Honolulu. Honolulu standard time is 10 hours 30 minutes slower than Greenwich time, being that of the meridian of 157 degrees 30 mins. The time whistle blows at 1:30 p.m., which is the same as Greenwich 0 hours 0 minutes. The sun and moon are for local time for the whole group.

## BOWEN-SPALDING

One of the most notable weddings  
that have taken place in Honolulu  
was that of yesterday evening, when  
Miss Alice Spalding, the beautiful  
daughter of Mr. and Mrs. Edward Ir-  
win Spalding, became the bride of  
Lieutenant George Cleveland Bowen,  
U. S. A., of Fort Shafter, one of the  
most popular young officers of the  
service set.Bishop Restarick performed the  
ceremony at Saint Andrew's Cathed-  
ral at eight thirty amidst a strictly  
military atmosphere.The decorations of the cathedral  
were marked by simplicity and ele-  
gance, the pure white altar being  
abloom with brass vases of Easter  
lilies and towering graceful palms,  
while the choir and chancel were  
banked with white daisies and maid-  
enhair ferns. Masses of Easter and  
calla lilies filled every nook and cor-  
ner. Two large quaint baskets were  
filled to overflowing with pink Duch-  
ess roses, with pink satin streamers  
and bows tied to the handles.The first three pews on either side  
were reserved for the family of the  
bride and most intimate friends of  
the groom and were designated by  
tall sprays of Easter lilies tied with  
long streamers of pink satin ribbon.Promptly at half after eight the  
choir entered, singing, and took their  
places behind the embankment of  
floral beauty. After a short silence  
the soft strains of the grand organ  
were heard in Lohengrin's wedding  
march. At this juncture, the four  
ushers in full military regalia ad-  
vanced and, stopping abruptly two on  
each side, drew forth their sabers,  
holding them on high while Lieut.  
Bowen and his best man, Lieut. Mc-  
Cleary of Fort Shafter, passed under  
followed by all the members of the  
bridal party.Preceded by eight little flower girls,  
the maid of honor and the matron of  
honor, the bride entered, a vision of  
loveliness, leaning upon the arm of  
her father. She wore an exquisite  
gown in train of white satin heavily  
embroidered in white marguerites,  
four panniers front and back being  
caught to the hem of the garment by  
clusters of orange buds. A panel of  
rose point lace marked the front of  
the gown and the turn back cuffs on  
the short net sleeves were of the  
same rare lace. She wore real  
orange blossoms in her long veil and  
carried a white prayer book.Miss Spalding and Mrs. Garrett,  
sisters of the bride, were respective-  
ly maid and matron of honor.The flower girls, led by a ring-  
bearer, were Rhoda Ballentyne, Ke-  
aloha Waterhouse, Katherine Ken-  
nedy, Alice Campbell, Margaret Cam-  
bell and Elsie Phillips.The ushers were Lieuts. Chilton,  
A. Pardee, James and Groniger.The ring-bearer was Charles Chap-  
man, the manly little son of Captain  
Chapman of Fort Shafter.The ceremony was simple but im-  
pressive and to the strains of Men-  
delsohn's Wedding March the bridal  
party left the church and entering  
autos sped out to the beautiful home  
of the bride's parents on Punahou  
street where a sumptuous supper was  
served for only the bridal party and  
family of the bride.Lieut. and Mrs. Bowen after the  
festivities drove up to Tantalus,  
where they will spend a ten-day  
honeymoon at the country home of  
General and Mrs. Davis. Their fu-  
ture home will be at Fort Shafter,  
where Mrs. Bowen will be pleased to  
receive her friends.

SEVERED LIMBSCHICAGO, May 31.—The discovery  
of a way to graft severed legs and  
arms, repair diseased arteries and  
other organs, and effect wonderful  
cures by the use of rings of magnes-  
ium by Dr. Victor D. Lepinasse of  
the medical staff of the Northwestern  
University has caused wide-spread  
discussion in Chicago.Dr. Lepinasse declares that his dis-  
covery paves the way for the success-  
ful grafting of arms and limbs, repair-  
ing diseased organs, curing of drunk-  
enness and the stopping of hemorrha-  
ge of the new-born.As proof of his discovery, the physi-  
cian had several dogs placed on ex-  
hibition. Each was cited as an ex-  
ample of the peculiar operation. Liver  
had been removed and reunited  
in some of the dogs. Legs had been  
cut off and regrafted to others.Dr. Lepinasse said the method of  
the surgeons of stitching used up to  
the present, had been unsuccessful be-  
cause it often resulted in the formation  
of blood clots and the constriction of  
arteries. He discovered the successful  
use of rings of magnesium after he  
had been searching five years for a  
substitute for the needle and thread.The several vessels are joined by  
these rings or couplers. In theory  
they do not differ from the couplers  
used by fire departments. Magnesium  
is used because it readily dissolves  
when the complete union of the se-vered ends of the tissues has taken  
place.TRUST OFFICERS  
BRING DEFENSENEW YORK, May 31.—With three  
defendants eliminated, but with the  
interest in the proceedings heighten-  
ed rather than diminished by their  
withdrawal, the resumption today of  
the sugar conspiracy trial in the United  
States Circuit Court was accom-  
panied by rumors that the govern-  
ment's long search for men still "high-  
er up" in the alleged conspiracy  
might soon be rewarded.When the government had rested  
Harry F. Cochran, attorney for James  
F. Bendoragel, opened the case for  
the defense, telling the jury it would  
be shown that Bendoragel never had  
anything to do with sugar weights,  
false or true.Bendoragel was put on the stand  
as the first witness for the defense.  
He said he had been employed by  
the sugar company for forty years,  
and as cashier had received \$6,000 a  
year. He had handled about \$4,000-  
000 a year.Bendoragel said he had never been  
in the company's scale houses and  
did not go on the raw sugar docks  
more than twice a year. Oliver Spit-  
zer, the dock superintendent of the  
dock force, had entire charge of the  
dock, Bendoragel said.

## EDUCATION BADLY TREATED.

Quite the most discreditable omission of the Legislature of 1909 was the failure to appropriate any money for the erection of school-houses. It was well known that more school accommodation, together with the replacement of unfit buildings, was greatly needed on all the islands. Yet not one dollar for the purpose was voted. Additional revenue was provided for the counties with the understanding that they were to take over the maintenance of the schools, but expenditures for several other purposes were transferred from the Territory to the counties, making it entirely beyond their revenues to provide, on the same scale as before, for even the repairs and maintenance of school buildings, let alone any new structures. As showing the magnitude of this legislative omission, take the provision made for new school buildings by the Legislature of 1907. The requirements were then no greater than two years later, yet loan funds to the amount of \$110,000 were appropriated for new school houses—\$36,250 for Hawaii, \$40,000 for Maui, \$21,250 for Oahu and \$12,500 for Kauai.

At last session Senator Fairchild introduced a bill to enable the counties to levy a special tax on property of not more than one-quarter of one per cent, "for the construction of new school houses, hospitals, district court houses, jails, water works, sewers, and other new public improvements." The bill did not meet with much public favor, in fact meeting with positive opposition from Honolulu business men. It did not help a measure of that nature to have come up at the same session as one that went through imposing a special income tax of two per cent on corporations for the benefit of immigration and conservation. Nobody having an alternative scheme to propose, education had simply to submit to the axe. A record of nearly a century, of which Hawaii had boasted to the world, was thus disgraced.

It is for the people to say, in the coming election, whether the public school system shall again be treated with disregard by their representatives.

San Francisco will hardly have a walkover for securing the national exposition to celebrate the opening of the Panama Canal in 1915. According to declarations of the New Orleans deputation in Washington recently, that city and the State of Louisiana can raise fifty million dollars to give the greatest exposition ever held in this country. One of their strongest cards is that they do not intend to ask Congress for any money. All they desire is the official sanction of the federal government to start the undertaking. In the meantime it is highly improbable that action will be taken at the present session of Congress. There is a movement on foot, supported by the commercial bodies of the capital, to have a national and international celebration of the event in Washington, although it is not expected that the only official celebration will be held there.

## PACIFIC MAIL TROUBLES.

If the Pacific Mail Steamship Company makes no money on the Panama line, it should quit, the San Francisco Chronicle says in an editorial on the company's complaint that if things do not improve it will have to abandon the line. "The public is getting very tired of this periodical lamentation," the article exclaims. "If the Pacific Mail Steamship Company finds the Panama line unprofitable, why on earth does it not lay up its ships and stop groaning?" The Chronicle proceeds to show why the Pacific Mail is brought to its existing discontent, thus:

The fact is that the Pacific Mail Steamship Company once had a monopoly of this West Coast traffic, and might have kept it by rustling for business, supplying first-class service and plenty of it. If the energy which has always been at the command of the company had been expended in building up steamship traffic during the last quarter of a century, it would still have a monopoly of the business, and no power on earth could have taken it away. There would have been no American-Hawaiian line, and if there were a Kosmos line it would have had a hard struggle to get business even for Europe. Since the owners of the Pacific Mail chose in former years to be bought off by the transcontinental roads, and since in later years it has been controlled by these roads, it has lost its Panama business, and will never recover it. Its rivals are now entrenched where the Pacific Mail might have been, if it had been attending to steamship business, and that company would itself have been doing the business which the American-Hawaiian line is now doing. The public does not care a rap whether its shipments go via Panama or Tehuantepec. All it asks is quick and cheap communication. If the company had chosen to do the business for which it was organized, its position would have been commanding. Since it chose for temporary profit to sell out the interests of its patrons it is getting at the end just what it deserves. It has a lot of old tubs and a small and decreasing business. The sooner it gets out of the way of a live concern the better.

This is a true bill, Honolulu well knows, so far as the Hawaiian business is concerned. If ever a grand opportunity was missed it was when the Pacific Mail ignored the expansion of Hawaiian traffic closely following annexation. Only about a year ago, when Hawaii sought more consideration for passenger business at its hands, the company whined at Honolulu's withholding freight business from it which it had never deemed worth while coming after until its steamers were displaying their "red boot tops" owing to the decline of Oriental patronage. It was then too late.

It has come to the Supreme Court of the United States to define the difference between a star and a comet. One manufacturer of shirts has sued another for infringing on his trademark consisting of a star. The defense is that the offending symbol is not a star but a comet.

## BOXING MATCH IS PROMISED

"Spider" Owens, who recently arrived from the coast will probably be seen in the ring on Saturday night

with Young Gans, at the show being arranged by Jack McFadden.

McFadden has been obliged to get another man as Simmons of the Thetis was ordered to sea on Monday and will not be back in time to meet Gans.

Owens has made quite a good record in Nevada and other western states, and his many friends are anxious to see him wrest honors from

the best lightweight in Hawaii. Gans has made a name for himself in the local ring, and his followers feel confident that he can easily defeat the man from the gold mine district.

Owens is willing to box with any one providing that he gets down to 120 pounds on the afternoon of the match, and if Gans can make the weight he will go six rounds with Owens on Saturday.

## FOURTH OF JULY TRIPS BY SEA

The Inter-Island Steamship Company has arranged to send excursion parties to Maui on the night of the 2nd of July the steamer leaving here at 8 p. m., and returning before 7 o'clock Tuesday morning, July 5. There will be good base ball and horse races at Kahului and the other attractions for which Kahului is noted. On the afternoon of the 2nd at 3 o'clock the S. S. Mauna Kea will leave for Hilo and will carry passengers destined for the volcano for \$25 for the round trip and those who wish to spend the fourth at Hilo for \$15 for the round trip. This is cheap going and the crowd should be a record one. The Volcano is very active and the accommodations at Hilo and the Volcano House are better than they have ever been and more persons can be taken care comfortably. The summer rate adopted by the hotel and transportation company managers will go into effect on the 15th inst. Ordinarily the cost of a ten-day excursion to the volcano is \$72. After that date and until September 30 the rate will be \$57.50, which will include all expenses of the trip.

## THE BRAVE MAN IN THE BOX

Of all the calm, brave, indomitable men I have ever met it seems to me that Johann Beck is the most remarkable. Because he had made up his mind to become an American he deliberately exposed himself to danger of death in hideous form, lay for sixteen days and nights in utter darkness in the hold of a ship, nearly perished for lack of food and water, and even then would not have been allowed to enter the land of his heart's desire but for the intervention of a reporter who believed there was a "good story" in Johann's adventures.

It lay on the very top of the cargo, a box almost six feet long, nearly three wide, and four feet high. What a craft for a hopeful adventurer setting forth to conquer a new world! One could not look at the wretched contrivance without feeling a thrill of sympathy for the poor devil who had risked his life in it, as well as of admiration for his high courage. Closer examination revealed that the box had a lid and that it was tilted back. There were three wooden buttons on each side of the lid that could be turned under strips of the edges of the box, so as to hold the lid down. Thus it was apparent that the stowaway had worked alone and unaided. Instantly appeared the mental picture of the man calling at the forwarding office and making arrangements for the shipping of the box to America; then waiting at the window of his lodgings for the express-wagon to appear, and, after seeing the men enter the house and hearing their steps on the stairs, popping into the box and silently drawing down and buttoning the lid from within. Oh, but this was good stuff that would make 'em sit up! The lantern flashed down into the box. The bottom was upholstered with a cushion of hay about a foot deep and fastened down with burlap. Wise man he must have been, to save himself hard knocks, and, if he must die, at least to lie soft and snug while dying. At one end of the box lay an old round valise, full of socks and two suits of underclothes, which had served as a pillow. On one side was a long, thick, cheap old overcoat of dull yellow-and-brown check pattern, thin at the elbows, the much-worn coat of a very poor man, a rent seam here and there sewed up with coarse black thread. Item: the box adventurer was very poor indeed, but he was clean and neat, even to the point of sewing his own overcoat where it had ripped. Pretty good sort of man for America to acquire. Tucked away among the hay were the empty cans and bottles that had contained food and water, also a few bits of wrapping paper that probably had held bread, but now were bare of so much as one crumb.—William Inglis, in Harper's Weekly.

## THE PASSING SHAKER.

Shakers are noted for their kindness to animals. They never abuse or speak a harsh word to their horses which always look sleek; while even the very chickens are cleanly housed, and so well fed that their white feathers are always a degree more snowy than other fowls, and their yellow feet almost appear to have been polished.

The Shakers are largely vegetarians, subsisting chiefly on cereals and fruit; in fact they live very close to nature, and their whole life is very well worthy of respectful attention and emulation. As regards their religion, they are spiritualists, but have no creed, and generally do not believe in the divinity of Christ. They reject the doctrine of future punishment, their real belief conforming somewhat, perhaps, to the Swedenborgian idea of life hereafter. The music of their hymns (for they are very musical) is strangely sweet and wild in composition, though the words are often crude, coming as they do from an inspiration, and written

## The Last Drop as Good as The First

"There's a reason" for it. Everything that goes into it is made in the Sherwin-Williams factory. The wonderful growth in the use of S-W.P. for houses is the very natural result of making the best paint that it is possible to make. Quality is on your mind long after the price has faded away. The real pleasure the Little Paint Man finds in using Sherwin-Williams paint, we find in selling it.

It makes friends for us. Anything but the best on your house is expensive. You are going to leave the paint you buy out of doors. Everything else is under cover except the paint. That must do the covering for you. We know it so well that we use it for all our own buildings.

## LETTERS ABOUT BUILDING SITE

Almost the entire time of the trustees of the Chamber of Commerce yesterday afternoon was taken up with hearing of the correspondence which has gone on between Honolulu and Washington in the past few weeks in regard to the Federal building site matter. No action was taken, as it was deemed best to await answer to a cable which has been forwarded requesting more complete information regarding the present status of things.

The following letter, in addition to those already published, developed as a result of the conference, it, however, throwing no new light on the subject under discussion:

Jas. F. Morgan President, etc.

Dear Sir:—Since sending you the original of the enclosed copy, the supervising architect has sent for the Delegate and myself to discuss the subject of a possible change of the Federal building site.

"The Delegate made very clear to him the fact that he would oppose any effort to secure the congressional legislation necessary for such a change, and I made equally emphatic the opposition of the business community to any further agitation of the subject. The result of it all was that the supervising architect intimated that all further discussion of any change by the department would be abandoned and we are hopeful that the ghost is finally laid."

"Very truly yours,"

"GEORGE B. McCLELLAN."

## MEXICAN RUBBER NOT A NEW THING

More than 25 years ago, Mr. Richard Gunther, U. S. A. Consul General in Mexico City, reported to his government that, as the supplies of wild rubber were so fast diminishing throughout Mexico, the Federal Government, with the Bureau of Agriculture, was earnestly encouraging the systematic cultivation of rubber trees while the wild supplies have fallen off very much more in the interval, and still continue to decrease, we find Mexico's rubber exports, irrespective of Guayule, steadily growing from year to year, last years increase having reached the very respectable value of \$250,000. It is fair to assume, therefore, that this increase is represented entirely by Really formidable plantations were established in Mexico more than 30 years ago—that is, long before Dr. Willis and Messrs. Herbert Wright, J. B. Carruthers and A. Bruce had proved the suitability of the Mi East for rubber. Mexico was, without doubt, the pioneer as regards rubber planting. A Foreign Office report, made 15 years ago, describes a Mexican plantation of 200,000 trees then eight years old, whereas neither Ceylon nor any other region can boast trees 23 years old, and certainly not in number anything like 200,000. In proof of this latter statement, I may quote the American Consul in Ceylon, who in 1893 reported officially that "the india-rubber tree is only grown here experimentally, and no appreciable quantity of the product has ever been obtained locally." Today there are in Mexico, not one, but some 40 great estates all actually shipping plantation rubber to New York, and some can boast as many as half-a-million planted trees, mostly ready for tapping.

## STILL KICKING ABOUT ELEVATOR

The board of governors of the Commercial Club took another slap at the elevator service in the McCandless building yesterday afternoon. The meeting had hardly gotten fully under way when the matter came up. A day before there had been another accident with the elevator—the second within a few days; and the board was in no good humor about it.

Attention was called to the fact that the Employer's Liability Insurance Society stood in a good way to lose if accidents were permitted to continue there. It was decided to bring the matter again to the attention of the owners of the building, with a view to securing a safer arrangement. A reminder was interjected in regard to the elevator service on Sundays, it appearing that the promise of this service had not been fulfilled. The building company will also be interviewed on this subject.

John K. Clark, of Hind, Rolph and Company was admitted to membership.

The memorial letter in regard to the death of the late W. W. Hall was formally approved. This has already been published.

James D. McInerney was appointed a committee of one to draft resolutions on the death of Wm. T. Lucas, late manager of Henry May & Co.

The treasurer's report showed the club to be in excellent financial condition, receipts being excellent, although this is supposed to be the dull season of the year.

Mr. Wesley, of Minneapolis, who addressed the club some months ago, stated in a letter that he was removing to New York city where he will become resident manager of a large securities corporation. This gentleman met a large number of business men while here and made many friends during his stay in Honolulu.

### VARIOUS STOCK NOTICES.

Notice has been given that the new stock certificates of Hawaiian Sugar Company will be ready for delivery on July 1. Stockholders are requested to surrender their present certificates properly endorsed, as soon as possible, and receive new ones. The books of the corporation will be closed from June 20 to July 1.

Kahuku certificates will be ready on the same date and a like notice is given to stockholders of that corporation.

The new certificates of Alexander & Baldwin will also be issued on July 1.

## BANK CALIFORNIA ABSORBS NATIONAL

LUSTIER INSTITUTION TAKES IN THE SAN FRANCISCO NATIONAL BY AMALGAMATION.

SAN FRANCISCO, June 1.—By the unanimous approval of the Board of Directors of the San Francisco National Bank a merger with the Bank of California has been planned, details of which will be agreed upon at a meeting of the stockholders of the San Francisco National Bank on Thursday afternoon, July 7th, at the office of the bank. Formal announcement of the proposed amalgamation has been sent to the stockholders who have been asked to be present at the scheduled meeting.

The merger, as suggested by the board of directors, is as follows: The Bank of California is to increase its capital stock from 40,000 shares, having a par value of \$4,000,000, to 85,000 having a par value of \$8,500,000, by capitalizing \$4,000,000 of its surplus and undivided profits and by authorizing the issue of 5000 additional shares. Of the proposed increase, 40,000 shares are to be allotted to the present stockholders of the Bank of California, and 5000 shares are to be used in part payment for the assets of the San Francisco National Bank.

For all of the 10,000 shares of the stock of the San Francisco National Bank the Bank of California is to pay \$375,000, and is to deliver, in addition 5000 shares of the new capital stock of the Bank of California to complete the terms of the merger.

C. K. McIntosh, at present vice-president of the San Francisco National Bank, will assume the duties of vice-president of the amalgamated banks. F. W. Wolfe, now cashier of the former bank will be made assistant cashier when the merger has been finally consummated.

The San Francisco National Bank, in the statement of its condition at the close of business May 24th shows resources of \$5,199,385.67. Of this the capital stock paid is \$1,000,000; National Bank notes outstanding, \$1,000,000; surplus and undivided profits \$377,647.72, and deposits, \$2,821,737.95.

The Bank of California National Association has called a meeting of its stockholders for Tuesday, July 12, to ratify the action of its directors. Upon the formal approval by the stockholders of the two banks the assets and belongings of the San Francisco National Bank will be transferred to the premises of the Bank of California.

### HOPP & COMPANY.

The furniture house of J. Hopp & Co. will be incorporated, the paid up capital probably being \$40,000. A good portion of the stock will be subscribed for by San Francisco parties.

## ARCHIE YOUNG HAS GOOD BEACH PLAN

WOULD CONSERVE SAND BY MEANS OF WINGWALL EWA OF MOANA HOTEL.

Archie A. Young is forward with an idea which bids fair to solve the Waikiki beach problem. He has presented it to Marston Campbell, superintendent of public works, and it has met the prompt and complete endorsement of that gentleman; and tomorrow afternoon Mr. Young will seek the endorsement of the Promotion Committee of the plan.

"It is safe to say that Mr. Young will receive the immediate and unqualified endorsement of the Promotion Committee in his plan," said a gentleman in position to speak for the committee this morning. "I have looked into the scheme and it is the best suggestion I have yet seen."

To get an idea of Mr. Young's plan it should be remembered that immediately on the town side of the Moana is a stream which washes into the shoal water. Just beyond is an undertow from the sea which sweeps around toward the Moana, and between the two currents the loose sand is kept on the move. Mr. Young's idea is to throw out a wing-wall from a point between the Moana and the Seaside, of such length and height as will thoroughly check this washing process. The effect will be to conserve the sand at the principal bathing area in place of allowing it to be swept away at present.

"I am satisfied that by this plan we will in a few months restore Waikiki beach to its original form," stated Mr. Young this morning; "and within two years it will be in better shape than it ever was before. The expense will be quite large, but we are willing to tackle it should our plan meet the approval of the Promotion Committee."

Mr. Young demurred strongly when told that the United States officials claimed to have taken only a little sand from the beach to line a manhole for an underground telephone wire. "The men making this statement must be ignorant of what has been going on," he says. "Why, hundreds of thousands of loads of sand have been taken out of there. The sand which formerly washed back and forth to points on the beach has all been removed, and it has been done by government employees. To my mind, the dredger has done little harm, if any. This dredger business is an excuse put up to shield the guilty parties."

"At any rate, the plan I now have in hand will save what sand there is left around there and will result in the rapid accumulation of a good, soft floor all over the bathing area."

### A NEW DIRECTOR.

E. H. Wodehouse was this morning appointed a director of the Hilo R. Co.

## DAHU SUGAR STOCK IN GOOD DEMAND

Oahu had almost complete control of the street between boards since yesterday although the figures were slightly off. Blocks of 100, 50, 50, 50, 70, 90, 40, 25, 10, 15 and 10 shares sold at 33.50 and on the board this morning 15 shares more found a buyer at the same. At the close of the session \$33.50 was bid for more but none of the stock offered.

Ten shares of Waiatua found a purchaser at \$134, after which more was offered at the same but \$133 was bidding limit.

Ten shares Honoum sold at \$155, the same being offered for more but holders demanding \$160.

A sale of 13 Oahu Railway stock was made at \$144.50. Another railway sale was \$500 Hilo Railway sixes at \$100. A block of \$4000 McBryde bonds sold at \$99.

A notable feature of the trading yesterday and today was that practically all deals were put through between boards, the sessions resulting merely in reports from the battle-field and a realignment for the day. This usually indicates that buying is being calmly and intelligently done.

This being the dull, summer season on the coast, there is practically nothing in the way of buying orders from that direction, and probably will not be until later on in the year unless there be an extraordinary advance in the price of sugar or some other agency calculated to revive interest.

## MAKAWELI ALSO ACTS ON INCREASE

Cable advices have been received by Alexander & Baldwin to the effect that stockholders of Makaweli Sugar Company (which is the California end of the Hawaiian Sugar Company) have held a meeting and voted an increase of stock to conform to the increase decided upon by Hawaiian Sugar here, so that a share in either will represent a share in the other, as at present.

Notice is given that stockbooks will close at San Francisco on June 30, so that Honolulu stockholders will just about have time to endorse their certificates and get them over there before the change takes place.

### MERCHANTS ASSOCIATION.

A meeting of the Merchants' Association will take place at 3 o'clock this afternoon.

The Promotion Committee is in receipt of three immense onions raised by Manuel Rosa at Makawao, Maui. They weigh about one pound, five ounces each, and are said to sell at six cents a pound in the stores. W. G. Scott, of Paia, adds a letter to say that these onions are average specimens grown on Maui.

## QUINN CAREFUL WAGON WAS DARK

Tomorrow morning comes argument in the case of Tom Quinn, alleged to have been at fault in the upsetting of a couple of Orientals through bumping them with his auto.

This morning the case was completed before Judge Andrade.

Several witnesses had the stand today. Lieutenant Birchfield and his orderly, who were Quinn's passengers, testified that Quinn, the chauffeur, used every precaution and that he was not to blame. Their testimony appeared unassailable.

The fact brought out in the trial was that the wagon had no light. Attorney Lightfoot represents Quinn.

SAN FRANCISCO, May 30.—Fast time and interesting races marked the opening of the good roads automobile and aviation meet yesterday on the Tanforan track. In fact, the automobile races proved a feature of the meet, the competition of the motor cars being one of the best ever witnessed on the local tracks. The honors of the meet were captured by the Ford car, which, driven by Arthur Ruddle, won the five-mile chassis race and the 10-mile free-for-all handicap.

## Plans Are Completed For The Big Races

Plans for the last marathon skating and the 24 hour race are about completed, and all that is wanted now is clear weather. Fifteen men including Joe Forrest have entered the third race for the McCandless cup and Hustace medal and if Forrest should win tomorrow as he probably will, he will take possession of the handsome trophies.

On account of the twenty-four hour race being started at ten thirty, the marathon race will start at 8:15 sharp and should be over by ten o'clock at the latest providing fast time is made.

In addition to the two first prizes four more will be given to the second, third, fourth and fifth men to finish. Forrest will make another attempt to lower the world's record for the 26 miles, 385 yards, and if he does as well as he did last Saturday night he should make a new record easily.

Sarcone will be seen in the race tomorrow night, and it is hoped that he will be able to finish this time as he is a plucky skater. Markham, Freitas, Marcus and in fact nearly all the men that started last week will be in the race again tomorrow.

The track will be seventeen laps to the mile instead of seventeen and a quarter, nearly four laps being necessary to cover the 385 yards. The same officials who officiated in the last race will have the same duties again tomorrow night.

Skating will be stopped at eight o'clock, and the race started fifteen minutes later.

Immediately after the finish, the men who will compete in the "go as you please" race will line up to receive their final instructions before starting on their 24 hour journey. Mayor Fern will start both races.

Kaoo will arrive in Honolulu tomorrow morning, and will pair off with Han as the Hawaiian team. Entries for both the races close today, and judging from the men already entered the public will be treated to some good sport.

### TENNIS POSTPONED.

On account of the rain which fell nearly all of yesterday afternoon, the final match in the mixed double tennis tournament which was started on the Beretania courts, was postponed until this afternoon.

The first set was won by Mrs. Coulter and Mr. Nowell 6-1, the score in the second set when the match was called off, being 4-2 in favor of the same pair.

Miss Ward and Dick Cooke did not play their usual game, both players being rather wild at times in both service and returns. The remainder of the second set will be played this afternoon at four o'clock on the Beretania courts.

### OUTRIGGER PLANS.

The Outrigger Carnival at Waikiki will last all tomorrow afternoon and evening. At three p. m. the sailing races will be pulled off and after that until chowder time at five p. m. the youngsters will disport themselves in the surf, contesting for the Clark cups and pulling off canoe races.

The chowder will be served in the bid Outrigger lanai from five to eight and then the illuminated canoe parade will arrive from Levers beach and the lantern bedecked canoes

drawn over the beach into the lagoon. The surf experts will go out on boards to come in with red light displays from the big surf. Those more expert in dancing will disport themselves on the floor of the two hotels and the big Outrigger lanai. The stage on which Royal, Miss Elliott, Spensight, Miss Aspinwall, the Center children and others will give the vaudeville show is located on the Outrigger lawn. Around the amphitheater are arranged the booths in charge of the ladies of the club and their friends.

Hundreds of electric lights and colored lanterns will be strung and ashore and in the surf the Outrigger premises will seem like a bit of fairy land.

### PLAY FOR SATURDAY.

A committee consisting of A. M. Nowell, A. L. Castle, W. H. Thompson and J. W. W. Brewster met this morning at Nowell's office and drew the teams entered for the Progressive tournament which will be played all day Saturday, June 11.

The following teams will play commencing at nine o'clock:

Stoere-Singlehurst vs. Wall and partner, on No. 1 Beretania court.  
Bento-Nolan vs. Cunha-Richards, on No. 2 Beretania court.

Greenwell-Macaulay vs. Brewster-Case, on No. 3 Beretania court.  
Waterhouse-Sinclair vs. Greenfield-McKeever, on No. 1, Neighborhood court.

Collins-Schmidt vs. Wilbur-Turner on No. 2, Neighborhood court.  
Castle-Nowell vs. Ekland-Godfrey on No. 1, Pacific court.

All teams are requested to be ready the team winning the most number of games will be declared the winner. In the event of a tie on any court the players will toss up to see which one will progress. The teams losing on any court but the head court, will remain where they are.

All teams are requested to be ready to play at nine o'clock sharp, as if any team should default the whole tournament will be blocked. Two silver cups will be given to the winning team.

## CHINESE WILL ENFORCE BOYCOTT

San Francisco Chronicle, June 1: While waiting replies from various commercial organizations at the different Chinese ports regarding their cabled requests for aid and co-operation in their projected boycott of American goods, the Chinese League of Justice members are busy at work collecting data to be embodied in the report, which is to be sent across the Pacific, giving a full account of the injustices which, it is claimed, their countrymen are subjected to.

Agents of the League of Justice, the newly organized society for the protection of Chinese interests in this country, Canada and Mexico, were very busy yesterday collecting evidence from newly landed Orientals regarding their treatment at the detention sheds on Angel Island.

The removal of the immigration station to the island is the leading cause of complaint on the part of the local Chinese and the present agitation is mainly for its return to San Francisco. Women who have been questioned by the interpreters on matters which, it is claimed, were not necessary in order to determine their fitness for admission to this country, told their experiences and all this is being embodied in the report which is to be scattered throughout China.

According to one of the leading members of the new organization, the projected boycott against American goods and products in general will be extensive and is confessedly aimed to affect all American trade interests in the Orient. The embargo will be extended to ships sailing to this and other American ports, and intending immigrants will be warned not to take passage on such vessels, but to go by Canadian and Mexican points of entry.

Passengers sailing from San Francisco for the Orient will be requested to use Japanese boats in preference to American vessels and, altogether, an effort is to be made to hurt American interests as far as possible until the Chinese obtain what they declare to be their rights.

While many of the leading merchants of Chinatown profess to be against the proposed boycott it is generally agreed that they are, at heart, in full sympathy with the movement and are merely protesting against it publicly from motives of business policy. Since the announcement in the "Chronicle" two days ago of the formation of the new League of Justice, inquiries have been received from all over the State for information regarding the movement and promises of support have been received by the organizers from Chinese all along the Pacific Coast.

### NORWAY'S SIMPLE KING.

The Scandinavian is distinguished by a certain simplicity of bearing far exceeding that of the more sophisticated English-speaking world, and certainly the people of Sweden display rather more of the great-world manner than the Norwegians. Indeed, the western side of the peninsula is comparatively rural, and the young King, seated upon a little throne is more like the president of a rustic democracy than a crowned monarch, so at one is he with the common people. It is like playing at royalty, and one almost feels that he might at any moment tilt his crown a bit askew and wink his eye.

A pretty little anecdote met us in Christiania, lately. It seems that a quiet tailor-made little lady went into one of the shops one day and bought a pair of shoes, and when the saleswoman asked her address she replied "You need not deliver them."

## FRIENDLY ENEMIES AT LAST?

TOKIO, June 9.—An announcement  
was made yesterday of the final con-  
clusion of a complete understanding  
between Russia and Japan regarding  
affairs in the Far East. The two na-  
tions which were foes in the late war  
are now in perfect accord. By the  
terms of the agreement Japan's rights  
to her acquisitions in the war are  
fully recognized, and the two nations  
will hereafter act in accord in the  
development of the Far East, having  
agreed as to commercial privileges  
and spheres of influence.

### ROOSEVELT FOR HOME.

LONDON, June 9.—Colonel Roose-  
velt will sail for New York tomor-  
row, ending a long vacation trip. The  
ex-President was under medical treat-  
ment today for his throat trouble,  
which interfered with his Oxford  
speech.

### KILLED BY VOLCANO.

NAPLES, June 9.—J. H. Silon, an  
American, believed to be from San  
Francisco, lost his life yesterday on  
Vesuvius. Climbing the volcano he  
ventured too near a fissure and was  
killed by the fumes of sulphuric gas.

### AID THE SUFFERERS.

CALITRI, Italy, June 9.—Thirty-  
two bodies have been recovered from  
the ruins of buildings wrecked by the  
earthquake.

The King and Queen spent the  
whole day amid the ruins. They  
were thirty-six hours active among  
the sufferers without any time for  
sleep. Last evening they left for  
Rome, and there was a touching de-  
monstration of gratitude when they  
took their departure. Both were  
almost prostrated.

REGGIO, June 9.—Severe earth-  
quakes were felt here last night, caus-  
ing much terror among the people.

### BEATEN AFTER 20 YEARS.

DES MOINES, June 9.—With re-  
turns from only five counties missing,  
the returns of the primary elections  
show that Gov. B. F. Carroll is re-  
nominated by only 706 majority,  
where two years ago in the Republi-  
can primaries he had a majority of  
23,000 over Garst. Eight progressive  
Republicans and three standpatters  
have won.

DES MOINES, Iowa, June 9.—Com-  
plete returns from the primaries show  
the defeat of Congressman Hull for a  
renomination, and the insurgents are  
enthusiastic over getting the scalp of  
another prominent Cannon man in  
the house. Hull has served ten terms  
in congress and is one of the old Re-  
publican guard. He was elected in  
the last campaign by a vote of 24,931  
against 17,620 for his nearest oppo-  
nent.

Hull is chairman of the house com-  
mittee on military affairs and a pro-  
minent standpatter. His failure to  
get a Republican nomination in the  
primaries ends his twenty years' ser-  
vice as a congressman.

### OLD AIDS TO TRADE.

Hats have in England been subject  
to very severe protective enactments.  
The blocked beaver hat, for instance,  
imported by Sir Walter Raleigh from  
the low countries, won its way rapidly  
that in 1571 Queen Elizabeth passed  
an act to protect the making of  
"thrummed" caps, made from wool,  
for the advantage of the landed pro-  
prietors whose sheep furnished the  
material. The statute provided that  
"every person, except ladies and Jews  
(why were Jews excused?) shall on  
Sundays and holidays wear on his  
head a cap made of velvet wool made  
in England." Penalty, ss. 6. per day.

About a century later the law, for  
which there is nothing too high or too  
low, having taxed men's shoes, turned  
its attention once more to their  
hats, and soon put a check on all im-  
provements in the trade by requiring  
every vendor of hats to take out a  
license under a heavy penalty. Sub-  
sequently a stamp duty was imposed  
on all hats, which were officially  
marked inside where the maker's  
name now appears. The penalty for  
selling a hat without a stamp was  
£10, and the penalty for forging a  
hat stamp was—death! Whence, no  
doubt, the modern custom of the man  
into his hat—to read his maker's  
name!—London Chronicle.

At the opening night's auction sale  
of the Yerkes collection a painting  
called "The Frugal Meal" sold for  
\$19,500, next to the top price. It must  
have been a fine example of the real-  
istic school.—Providence Journal.

## WASTED MONEY ON MARRIED MAN

PITTSBURG, May 31.—"I would like  
to be in New York tonight," said Miss  
M. K. Morrell, a prominent society  
woman of Seattle, Wash., while she  
was dining with Harry R. Winkler  
at the Hotel Dorset, Pittsburgh, last  
Christmas eve. The conversation fol-  
lowed a violent flirtation which, in a  
few hours, had progressed to the point  
that Mr. Winkler felt no embarrassment  
in acknowledging that he was shy  
of cash.

Miss Morrell was well supplied with  
ready money and later proved she had  
an almost unlimited credit on the Puget  
Sound Bank, Seattle, and the pair made  
the trip to New York. Later,  
tiring of the cold weather, they  
journeyed to Buenos Ayres, South  
America, Miss Morrell paying the  
bills. They returned to America on  
March 31st and Mr. Winkler went to  
Chicago on business. Miss Morrell  
came to Pittsburgh.

Then the woman learned that Wink-  
ler was married. She wanted the  
money returned she spent in showing  
Winkler a good time, and caused his  
arrest at Detroit Saturday.

## OPIUM SAUSAGE

Dickens in the Pickwick Papers re-  
lates a story of a woman whose hus-  
band disappeared. Some weeks later  
she discovered one of his trouser but-  
tons in a sausage which she was eat-  
ing for tea. More recently Harry  
Lauder told in song the story of a lit-  
tle dog which suffered the same fate  
as the owner of the trouser button.

There have been other instances of  
foreign substances of various descrip-  
tions found in the links, but it reman-  
ded for Wong Nim, a Chinese, who ar-  
rived in this city on the Korea last  
Friday, to introduce a novelty in sausage  
stuffing. Scorning the timeworn  
button and the dog, Nim swelled the  
curves of his sausage casing with \$300  
worth of prepared opium, thinking,  
perhaps, thus to create a demand for  
the article at delicatessen emporiums.

Lacking a better sample case he  
used the false bottom of his trunk as  
a storage place for his treasure.  
When his baggage was investigated by  
Inspector P. O. Hugaker of the  
Surveyor's Department his property  
was confiscated by a cold and unfeeling  
Government.

Nim will not be prosecuted, as he  
had not succeeded in getting the drug  
into the country within the meaning  
of the law.—S. F. Chronicle.

## AN ADDRESS BY MR. FRENCH

The regular monthly meeting of  
the Hawaiian Engineering Associa-  
tion will be held at 8 o'clock tonight  
at the Association quarters in the  
College of Hawaii, Beretania and Victo-  
ria streets.

Owen B. French, M. Am. Soc. C. E.,  
of the United States Coast and Geo-  
detic Survey Department, Washing-  
ton, D. C., will deliver an address on  
the Coast and Geodetic Survey. Mr.  
French has been connected with the  
United States Coast and Geodetic  
Survey for more than twenty years  
and has had much to do with the per-  
fection and improvements of methods  
in that department. He has develop-  
ed many interesting features in Geo-  
desy, among which are his experi-  
ments with Invar tapes, which was  
presented before the American Society  
of Civil Engineers in 1907.

Mr. French has been in these is-  
lands several months, and has been  
working out the last link of location,  
by connecting the Island of Oahu to  
the Island of Kauai with triangulation.

This lecture promises to be of great  
interest. Come and bring your friends  
and learn about the locating of Ha-  
waii Nei in the mid-Pacific.

### CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY.

When you fail to provide your fam-  
ily with a bottle of Chamberlain's  
Colic, Cholera and Diarrhoea Remedy  
at this season of the year, you are  
neglecting them, as bowel complaint  
is sure to be prevalent, and it is too  
dangerous a malady to be trifled with.  
This is especially true if there are  
children in the family. A dose or two  
of this remedy will place the trouble  
within control and perhaps save a life,  
or at least a doctor's bill. It has never  
been known to fail even in the most  
severe and dangerous cases, and its  
cost is not beyond the means of any  
one. For sale by all Dealers, Ben-  
son, Smith & Co., agents for Hawaii.

### WHAT IT MEANT.

We could all see that the man with  
the bristling whiskers was going to  
ask the man with the newspaper in  
the street car a question. He hitched  
around. He glared. He snuffed. Final-  
ly, he said:

"Sir, there was an election for Con-  
gressman in New York State the other  
day."

"Yes," was the reply.  
"A Republican boss was running."

"He was."

"He was backed by the machine...  
'He was.'"

"They bet five to one that he would  
be elected by 15 majority."

"They did."

"But he wasn't elected at all, sir.  
He was beaten by 5,000 votes."

"He was."

"And, sir, what did the great change  
in public sentiment mean? Yes, sir, I  
ask you what it meant? Yes, sir, I ask  
you why Aldrich was defeated? Will  
you answer me, sir, or will you dodge  
the question?"

"Oh, I won't dodge," replied the  
man with the paper. "Mr. Aldrich  
was defeated. What does it mean? Why,  
sir, that the other fellow got  
the most votes!"

## DR. ATCHERLEY IS TO HAVE HEARING

San Francisco Examiner, June 1:  
Dr. John Atcherley, whom the board of health refuses to allow to practice further among the lepers of the isolation hospital, appeared personally before the Board of Supervisors yesterday to ask that body not to take action confirming the Health Board's order until he had been given a hearing. It had been the intention of the hospital and health committee to recommend such confirmation because of the receipt of a letter from the Sheriff of Honolulu stating that Atcherley had been adjudged insane while in that city and had also been declared a person not safe to be allowed at large.

"There are two sides to every story," said Dr. Atcherley, addressing the board, "and I'd like mine to be heard."

Miss Sarah Frey, who warmly supports Atcherley's work among the lepers, urged that he should be given an opportunity to test his ability to do good by treating a single case at the home of the patient's relatives.

The hospital and health committee will give Dr. Atcherley a hearing.

Mer Silks, French Waistings and Fancy Tucked Lace Yoking.

When making your plans for this summer's trip be sure to make a note to have your baggage handled by the Union-Pacific Transfer Co., Telephone 58, and so avoid all worry in connection with it.

The closing exercises of Kawaiahae Seminary will take place at Atchertown Hall tomorrow at 3 p. m. The program will consist of games in native costumes, music by the Hawaiian band and the school, a May-pole, and the presentation of eight grade diplomas. All friends of the school are cordially invited.

## FLAG DAY

"Only one flag! for four years we defended,

Only one flag! through war's sacrifice ended,

Only one flag! proudest, grandest in story,

Only one flag! our beloved Old Glory."

The Grand Army of the Republic call on all loyal citizens to observe "Flag Day," June 14th, by display on their premises on that day of United States flags.

The schools, both public and private, are urged to have special patriotic exercises on that day.

C. H. DICKEY,

Patriotic instructor Geo. W. DeLong Post, G. A. R.

## RUMORS DENIED

The numerous friends of Mrs. Janet L. Rogers (the wife of the well known specialist in ear and throat diseases), have been, for several months past, worried on account of rumors—starting no one seems to know where—of this lady having died suddenly of heart failure. A recent mail has however, brought news which allows the absolute denial of such rumors. Mrs. Rogers, after leaving in the beginning of May, the sanatorium at Montreat (N. C.), where she had spent several months to the great benefit of her health, went to Washington D. C., and thence to Philadelphia and New York, where she expected to meet Dr. Rogers, on his return from Germany about June 10th. She will probably afterwards return for a while to Montreat, before coming back to Honolulu.

All the principal barber shops in the city will close at noon on Saturday June 11 Kamehameha Day.

WAITING.

Elaborate plans are being made to welcome Colonel Roosevelt home. News Item.
