DEATH OF JANET WALDORF

THE YOUNG ACTRESS WHO FIRST CAME HERE IN 1899 AND HAS SINCE STARRED THE ORIENT AND AUSTRALIA IS SAID TO HAVE DIED IN SAN FRANCISCO THE MORNING OF JUNE 11.

Janet Waldorf, the actress, is reported to be dead. News of the death of the actress was brought by the America Maru which arrived yesterday afternoon from San Francisco. Miss Waldorf is reported to have died in San Francisco. Few details of her death or last sickness were learned.

The news came to the officers of the Maru in only the briefest, vaguest style. On the morning of June 11, the day that the America Maru was to sail, one of the officers happened to refer to the fact that Waldorf company had come across from the Orient to Honolulu with the vessel and had disbanded in this place.
"Why Janet Waldorf has just died," was the reply of a theatrical man who happened to be present.

Before further information could be elicited on the subject, the attention of the officer was attracted elsewhere and he neglected to learn more of the reported death of the woman. That she was ill was well known. The report of her death did not cause a great deal of surprise to the officers of the American Maru as Miss Waldorf was known to have been ill when she left the Orient last February.

After the close of her engagement in Honolulu, Miss Waldorf left this city and went to San Francisco. Her health became very bad and she was forced to go to a sanitarium. She was suffering from nervous disorder of some description. She had been exceedingly nervous and ill when on the American Maru coming to Honolulu. She seldom was at meals and remained much of the time in her stateroom. The worries

(Continued on Page Five.)

SPLIT THE \$150,000 ITEM

THE OAHU DELEGATION, REPRESENTATIVES AND SENATORS WRESTLING ALL MORNING WITH THE QUESTION OF WATER WORKS, THE ISSUE BEING THE NUUANU RESERVOIR PLAN OR THE PAHOA PLANT.

The battle of the rival water schemes was fought to a finish this morning among the Oahu members of the House and Senate. The fight lasted all morning, Pahoa against Nuuanu, and Pahoa won. When the smoke of battle cleared away, Nuuanu reservoir had been cut from \$150,000 to \$75,000 and the \$75,000 taken from Nuuanu had been given to Pahoa, for the purchase of water works there. Manoa went down in the fight. Representative Andrade made impassioned pleas for Manoa water works, declaring that justice demanded that the valley be provided for, but he was voted down, the legislators insisting that the Pahoa works could supply Manoa.

"This Pahoa scheme is like Banquo's ghost," said Representative Chillingworth, in the last speech of the long debate. "It will not down. It was voted down in the regular session, but it came back. It crept in through the windows and under the desks and was always there, and I believe that if members of this body return to the legislative chambers after the session has ended they will see the ghost of the Pahoa scheme walking about the halls. We have been all morning on this item and I want to say that if we are going to waste as much time on other items as we have on this, the remaining days of the session will vanish like clouds before the summer sun and then thank God we can go home."

Kumalae made a protest in which he declared that the Pahoa scheme didn't creep in but came into the House from "where the brains were," and the laugh was on Chillingworth.
"It is a lively and solid ghost," said A. V. Gear, who had been an interested listener, and so it proved.

Both Senate and House disbanded immediately after coming to order this morning and the Oahu senators and representatives met in joint conference in the Senate chamber to wrestle with the difficulties which yesterday suddenly interrupted the rapid progress the House was making with the loan bill. The Pahoa water scheme had suddenly appeared very alive and the House Oahu delegation's report on its share of the loan bill was downed in the House, leaving the delegation unable to agree.

(Continued on page five.)

OUR LONGITUDE DETERMINED

OBSERVER MORSE OF COAST AND GEODETIC SURVEY BUREAU COMPLETES WORK AT THIS PLACE—MAY HAVE TO GO TO MIDWAY TO DETERMINE LONGITUDE OF THAT FAR AWAY SPOT.

The longitude of Honolulu has been determined. Mr. Morse of the Coast and Geodetic Survey Bureau has completed his observations at this place. He has not as yet announced the result of his finding, for comparison will have to be made with the work at the San Francisco end of the line before the official figures can be determined. There was found to be but slight deviation from the old figures.

It is not unlikely that Mr. Morse may have to go to Midway for the purpose of determining the correct longitude of that place. It is a trip that he very much dreads and he is now in mortal fear that the Naval transport Solace which is due next week from San Francisco, will bring him orders to proceed on her to Midway. Mr. Smith, the other observer of the Geodetic office who did the first work at this place, is going on the Solace to Guam to make observations at that place.

It was at first thought that the observations at Guam could be conducted in connection with San Francisco and Honolulu, but owing to the nature of the cable station at Midway, this will be impossible. In order to make the observations, direct cable communication has to be secured with San Francisco and the places where the observations are in progress. Such communication with Honolulu was secured.

The cable messages have to be relayed however at Midway from the Manila end so that the instantaneous connection is impossible. The result of this is that the observations at Guam will be made in conjunction with an observer who is now at Manila. Midway will be made either with Guam or else with Honolulu. San Francisco is in immediate touch with Washington and the location of Honolulu is now known also, so that the observations can be conducted at Midway in connection with either this place or San Francisco. It is not improbable that Mr. Morse may have to go out to Midway to conduct these observations. His work will not be in connection with Guam.

BREMERTON ON THE DRY DOCK

The Site of the Northern Navy Yard Repents Thoroughly of Its Wickedness.

SEATTLE, Wash., June 9.—Every saloon in the town of Bremerton closed last night at midnight, to remain closed for all time. The town is now strictly prohibition. An ordinance has been passed providing a penalty for the violation of the liquor regulations.

There is a United States navy yard at Bremerton. The naval work of the Pacific coast was practically divided between Bremerton and Mare Island until lately. This brought many naval vessels to Bremerton, and largely increased the business of the place. For months there have been complaints that men from the war vessels were drugged and robbed at the saloons that lined the water front, and that when not drugged, were lured to disreputable places, and in one way and another their money taken from them. The baser element seemed to have secured control of the town and was in league to get every cent from the men from the war ships. These facts were reported on by officers of the navy, and finally in view of them, orders were issued that no more war vessels should be sent for repairs to Bremerton.
This action seems to have brought the solid element of the town to its senses, with the result that all saloons are abolished now.

ANGLIA DUE AT MIDWAY TODAY

CABLE SHIPS OUGHT TO REACH PACIFIC ISLAND TODAY—COLONIA SHOULD COMPLETE GUAM-MIDWAY SECTION OF CABLE TOMORROW AND REACH MIDWAY—AMERICA MARU WILL NOT STOP AT MIDWAY.

Associated Press Cable to the Star.
MANILA, June 18.—Midway island will be in cable communication with the world tomorrow, according to the present outlook. The cable-ship has laid 2,407 knots of the stretch between Guam and Midway and is to arrive at the latter island tomorrow. Without losing any more time than is necessary, the Anglia will start from Midway on the final stretch of cable to Honolulu.

The cable ship Anglia is due at Midway today. The cable ship Colonia is due at that place tomorrow with the end of the deep sea section between Guam and Midway completed. According to the last advices from the Colonia, the vessel was keeping up her average and there was every indication that she would arrive at Midway according to schedule.

The Anglia will, no doubt, begin with as little delay as is possible, to lay the shore ends of cable at Midway so as to be in readiness to splice the shore end with the deep sea cable when the Colonia reports. If the day be a good one, the shore end may be landed at once. Captain Rodman and Captain Pond of the U. S. S. Iroquois have looked over the situation carefully and will, no doubt, be able to advise the cable engineers regarding all of the points necessary to know in landing the cable. It takes but a short time to land a cable if the conditions are favorable.

The work of landing will however be much more difficult than marked the work at San Souci at this place. The cable ship was able to come within half a mile of the shore here, whereas the Anglia will probably be a mile or more out from Sand Island. Instead of having a stationary engine to pull the cable ashore, the vessel will have to do that work herself. It is very likely that well on to a week may elapse before the splices will have been completed and the cable station at Midway fully finished, so that the Anglia can start for Honolulu to lay the final section of the cable.

It was thought that Captain Going of the American Maru which sails this afternoon for the Orient, would run his vessel down by Midway. Owing to the time of her departure from this place, however, he will not stop at Midway on the outward trip. He has figured that his vessel would pass Midway at night, so he will not take her down in that neighborhood. It is also understood that special permission has to be obtained from the Japanese Government to enable the captains to stop their vessels at any but regular scheduled places. The Toyo Kisen Kaisha boats are run under a mail subsidy from the Japanese Government and the government claims the right to regulate any changes in their movements from the regular schedule. Captain Seabury of the S. S. Korea will take mail out to Midway. He will leave here June 25.

RELIEF AT HEPPNER

DANGER OF AN EPIDEMIC AMONG SURVIVORS OF THE FLOOD IS BELIEVED TO HAVE PASSED—THE HOMELESS AND HELPLESS ONES ARE PROVIDED WITH FOOD AND SHELTER.

Associated Press Cable to the Star.
HEPPNER, June 18.—The danger of an epidemic among the survivors of the flood is believed to have passed. The work of sending relief has been successfully carried out, and the homeless families are provided with shelter and food. Health conditions among them are fairly good.

NEW SUMMER GOODS.
All the latest designs—crisp and new—in beautiful variety at Sachs'. Also an excellent line of lace gloves, parasols and trimmings.

NOTICE TO STOCKHOLDERS.
The notice of stockholders in incorporated companies is particularly directed to the following remarkable statement of facts.
There is one corporation in the islands which has been doing business for over ten years and which is not affected by either hard times or flush times; its withdrawing stockholders have always received not only every dollar paid in on their stock, but good and substantial accumulated profits. It is called the Pioneer Building & Loan Association of Hawaii, and has just moved its office to No. 122 King street.

Sprains are often more serious than broken bones on account of not being properly treated. Apply Chamberlain's Pain Balm freely as soon as the injury is received and it will quickly restore the parts to a healthy condition. All dealers, Benson, Smith & Co., general agents.

ALL ELEMENTS ONE

BERLIN, June 5.—Professor Sir William Crookes, before the International Chemical Congress today, dealt with the possibility of reducing all the elements of matter to a one ultimate by finding that each and every element is resolvable into a single form of energy. The subject was "Modern Views on Matter—The Realization of a Dream." Sir William recited the utterances of Sir Humphrey Davy and Faraday as anticipating the possibility of reducing the elements to a simpler basis, and sketched the significance of the Roentgen rays and Becquerel rays, and the experiments of Curie and others.

BIG BLAZE ON THE HEIGHTS

RAPID DESTRUCTION OF C. W. BOOTH'S RESIDENCE ON THE HILLSIDE.

The remains of nine large oil cans on the scene of the fire which destroyed C. W. Booth's residence on Pacific Heights last night, explain the extraordinary rapidity with which the blaze completed its work, while ashes far down on Fort street show that the conflagration brought no little danger to the city generally. There was much alarm in the homes nearest to that of Booth and under his dwelling, at the top of Nuuanu avenue, while on Pacific Heights everyone turned out to watch the blaze which no one could attempt to suppress. The firemen looked at it helplessly from a distance, none of them even going to the scene.

The house was in fit condition for a quick fire. The work of painting it had already begun and the roof was covered with new paint. Booth had given orders to the Chinese contractor who was doing the work to use plenty of oil in oiling the floors, and the contractor had a lot of material on the spot. The building was not occupied, and just how the fire started will probably never be known. Within half an hour or so before the time when flames were seen coming through the roof, the building showed no signs of fire.

Mrs. Wotkyns, whose home is nearest to the Booth place and a trifle below it, was probably the first to see the fire. She was in her own home all evening, so near to the Booth place that it is an easy call, and the neighbors were wont to call good night to each other when Judge Stillman occupied the Booth residence. Mrs. Wotkyns remained in her home reading up to nearly midnight. Then she looked out and there was no blaze to be seen at the Booth place. But about half an hour later the fire attracted her attention, just after she had retired, and by that time the flames had made big progress.

The principal theories advanced to account for the fire are that a smouldering cigarette caused it, that sparks from a rubbish fire higher up on the mountain were blown down, and that the contractor left some oily rags which developed heat and finally fire as such rags often do. The fire on the hill side was caused by burning rubbish and was quite a large fire all day yesterday. The wind blew down the hill as usual and some of the lower residents took occasion to do some extra watering around their homes, with a view to preventing any spark from lighting the dry grass and brush. C. W. Booth this morning expressed the opinion that a spark from the brush fire might have landed on his building and caused the fire.

The destruction was naturally complete. Nothing that would burn was left on the site of the handsome residence and the trees and plants around it were destroyed. The fire spread a short distance in the grass and died out, but this morning there was still red fire among the ruins and Booth made arrangements to have some water turned on.

There is some criticism of the firemen for not going to the fire themselves even if they could not have taken the engines up there. The place is supplied by a water pipe from the reservoir above, and though the pipe is not a large one, the "head" or pressure is great. The department turned out but the men stopped at the head of Nuuanu avenue. Police officer Renner went up the hill and remained for a time, to watch for danger to surrounding property, but the condition of the ruins this morning indicates that a rise in the wind would have made the blazing embers a source of serious danger at any time.

C. W. Booth and family were living at Waikiki and intended to move into the Pacific Heights place in a few days, after the painting was finished. An old native had been sleeping in the house as caretaker, but he was also at Waikiki last night. He was at the ruins this morning and the cover was there also. The native used little fire or light in the house for his meals were brought to him from down town and he did no cooking.

Booth's residence was a handsome one, at a commanding point on the hillside. It was insured for \$8,000 in the Phoenix Insurance Company of Brooklyn, and for \$2,500 in the Scottish Union National Insurance Co., and is said to have cost nearly \$20,000.

THE PRIVATE SECRETARY.

The Lyceum Stock Company with a repertoire of standard plays will open at the Orpheum on June 23rd, Tuesday evening, the initial performance being that celebrated comedy "The Private Secretary." "The Private Secretary" is brimful of ludicrous and lachrymal drawing situations and the dialogue is snappy, bright and highly amusing.

The Lyceum Stock Company will give two shows a week with a complete change of program each week throughout the season.

A feature of the Lyceum season is that each and every play is replete with high class specialties while specially procured scenery will add much to the Orpheum stage. Great attention has been paid to detail and Honolulu is promised abundant entertainment for the season. A second production of "The Private Secretary" will be given on Saturday, June 27th.

The management is under the direction of W. D. Adams and George Kunkel directs the stage.

The box office opens tomorrow Friday, morning at 9 o'clock and will be open each day from 9 to 1 and 2 to 5. Popular prices prevail.

POSTAL OFFICIAL DISMISSED.

PARCELS POST.

In the matter of the parcels post the United States is behind the world. It is in very few things that it is behind, but it is most decidedly in this. An effort is now being made upon the mainland to remedy this. At the present time the limit of weight which can be sent by parcels post within the United States is four pounds. Under certain circumstances the Government departments are allowed to send much larger parcels through the mails, even considerable cases being forwarded, but the private individual, the merchant and trader must confine himself to four pound parcels.

On the other hand from two European countries, through some international postal regulation, the United States post office is obliged to receive packages up to eleven pounds in weight. This is certainly an anomaly; that among ourselves we can only pass four pound packages, and can only send four pound packages away, and yet can receive eleven pound packages.

In Europe all kinds of articles can be forwarded by mail. In England at Christmas time the post offices are crammed with Christmas presents, and additional help is always required to cope with the rush of work. Under certain restrictions even perishable articles can be forwarded by post, such as game, turkeys and so forth. You can even mail a bicycle, which is certainly a bulky and an inconvenient article to handle.

That there have been great improvements in our postal system is true, but we have recently discovered that the inner workings of the post office in Washington have been very far from satisfactory, and the aids which have been unearthed undoubtedly have had an evil effect upon the whole system. When men are running a public institution for the purpose of making it a financial milk cow, they are very apt to regard everything from the personal standpoint, and disregard the convenience of the general public.

A movement to obtain greater parcels delivery advantages would be much appreciated here, since we are so far removed from all the great centers. As far as parcels post is concerned we were better off before annexation than we have been since annexation. On the other hand we have advantages in delivery which we formerly did not possess. The territory of Hawaii, however, would willingly support a movement for increasing the efficiency of the parcels post.

LAHAINALUNA.

Lahainaluna is one of the oldest established institutions upon the islands, and the traditions which surround it are almost hallowed in the Hawaiian mind. Through various causes the institution has not been carrying out its work as efficiently as it should, and the thorough reorganization which the Commissioners of Education have decided upon a step which will be highly appreciated by a number of Hawaiians to take an interest in the place and its memories.

One cause which has affected the institution has been the opening of new and better equipped schools such as the Kamehameha schools, St. Louis College and others. Lahainaluna should however have a distinct place in the educational system of the country, and while competing with such establishments, should supply a distinct want.

An institution which is dependent upon a legislative vote cannot always be as steadily maintained as an institution which is supported by endowment. The endowed institution can be planned for many years ahead. There is nothing that will interfere with its steady progress. An institution dependent upon legislative support can not be so planned, and policies with regard to its conduct are more apt to change.

The present legislature is evidently disposed to be very liberal towards all educational institutions and particularly so towards Lahainaluna. Under such circumstances the Commissioners of Education show a progressive desire to take up the question of Lahainaluna and its thorough reorganization. What line the reorganization will now have not been given forth. The Star would, however, strongly commend that the establishment be given a more agricultural and industrial character than has heretofore obtained. The tendency of all education at the present time is toward the practical, and no institution does practical work more than one which is primarily intended to educate Hawaiians.

From what can be gathered the estate of Lahainaluna is well situated, amply watered and well calculated for an agricultural college, if a proper equipment is provided and proper care is taken in the selection of instructors, specially adapted for this particular line of work. It is evident that there should be a thorough renovation of the buildings, some of which are old fashioned and inconvenient. Attention should be given to these, for poor buildings have a depressing effect upon both pupils and teachers. A man frequently loses his self-respect if his coat is out at elbows, or his toes are sticking out of his boots, and a school is no exception. To feel the same way if it is not properly housed and efficiently equipped.

The reorganization of Lahainaluna is a step in the right direction which will redound to the credit of the Department of Education. This, together with the establishment of the Industrial school for boys at Haleiwa, and the opening of the Industrial School for Girls, in the old Normal School premises, goes to show that the Commissioners are not content to get into a rut, but that they are alive to their responsibilities and their duties.

BIG FIGURES.

Figures of the sales of mineral waters in the United States, according to Bradstreet's, would be startling if their increased use was not a matter of such general observation. In 1890 47,000,000 gallons of mineral waters from springs in the United States were sold; in 1901, 55,000,000, and in 1902, 65,000,000. The value at the point of shipment reaches \$10,000,000 a year, and, taking into account the expenses of transit, bottling and the profits of retailers, \$18,000,000 or \$20,000,000 a year is expended each year for American mineral waters. Following the epidemic of any zymotic disease, there is generally reported a marked increase in the sale of mineral water in hotels, in dining cars on railroads and in theaters, and very likely this increased care in the use of water is of immense effect toward counteracting the dangers arising constantly from the neglect to care for the public water supply in accordance with the growth of population.

The productiveness of the mineral water springs of the United States is practically unlimited, and at the rate at which the product is increased it cannot be long before the amount sold each year will reach 80,000,000 gallons, nearly equivalent to a gallon per inhabitant. Americans are the greatest water drinkers in the world.

As postal scandals continue to develop, the Superintendent of the Post Office has got into trouble. A clean out there will be when President McKinley begins to take a hand.

It is to have its legislature in extra session. It is dollars to cents that the Kansas legislators will do more work in ten days than our Senators have failed to accomplish in the regular session, and the special session to boot.

In Eastern Europe the anti-Semitic sentiment is very strong always, and

seems to have been vigorously stirred up from some cause or another. It is extraordinary to us who are emancipated from the medievalism of that portion of the world, that such outbreaks should occur. The American Jews, a very wealthy and a very powerful body are protesting vigorously against the cruelties and barbarities which are being practised upon their brethren. Some sort of pressure should be brought to bear upon government which permit such outrages.

Norway has started out an expedition to relocate the magnetic pole, this is more useful from a scientific point of view than the attempt to reach the North Pole. The magnetic pole moves and gradually affects the compass. The theory of variation will be checked over by this expedition.

In obtaining a Michigan professor to lecture at the Summer School, the Superintendent of Public Instruction has gone further afield. Up to the present Chicago has been the place whence lecturers have been drawn. Michigan University has many representatives among the legal fraternity, and it is well that education should have its representatives also.

Racing yachts are little cattle to deal with. The mast of Shamrock III collapsed before that yacht started on its voyage. Yesterday the Reliance carried away her top mast in a squall. Taking care of racing yachts is almost as much work, as getting a race horse into training.

There is no modesty about our loan bill with figures of \$2,387,470.75. Only half of this is available during the first year, so a number of items down in the bill will have to wait. Then again there is the floating of the loan, which will take some trouble and financial ability. There is plenty of money in the world seeking investment, but it must be assured of the soundness of the security. Our loan is perfectly sound, but we shall have to convince the investors of the fact.

King Peter is out with a motto and promises all kinds of reforms. The best reform for Serbia would be to abolish the army and get rid of its military junta. Peter will have a hard time punishing the men who have made him king.

After the experience of last night Pacific Heights residents will be agitating for a fire engine. At present the fire department could give them no assistance. If an engine could be obtained that would run on the rails it would be a great protection, as the houses are all close to the railroad track.

There will be a shake up in the Commercial treaties of Europe by the end of this year. Germany's new tariff legislation renders the continuance of her

A Great Welcome!

Now it came to pass that a young man of one score years and one said unto himself: "I will lie myself around this globe of mud and take in the sights." And when the young man of one score years and one had hied through many lands he came upon the coast of an island, and lo! and behold it was called Hawaii. And he straightway gathered up his impedimenta and squatted upon the isle. And straightway he bought a paper hoping to find in the "Help" column that he was "wanted." And even as his eye followed the print he saw that "The Douglas Patent closet" gave him a "hat off." "Truly" said he "Nothing new is there beneath the sun." Bath the plumber.

AMERICA SAW
MANY WHALES

MANY LEVIATHANS SEEN IN MOLOKAI CHANNEL—LINER ARRIVED YESTERDAY WITH MAIL.

The America Maru, Captain Going, arrived from San Francisco yesterday afternoon with two days later mail and news files. He reports a perfect trip on the way, down with smooth seas and no winds.

Coming through the Molokai channel the vessel encountered a large school of whales. This was the first time that Captain Going had ever seen any such number of whales in the island waters and he was almost as much interested in the sight, as were the passengers. Some of the whales were very big fellows.

The America Maru had 40 passengers, of whom six are stopping over at Honolulu. The vessel is going to Manila this trip, most of her passengers are bound for that place. Among the Manila passengers are three young women who are going out to become brides. Their future husbands are engaged in business in Manila. The young women are Miss Ette L. Woods, Miss Ida A. White, and Miss L. M. Jamison. Miss M. T. Glenison is another prospective bride. She is going to meet her fiancé at Hong Kong.

Mr. and Mrs. J. G. Coulter are a bride and groom going to Manila.

Among those who stop over at Honolulu are Col. and Mrs. S. A. Day. She is known as Miss Helen H. Gardner the writer.

The America Maru will sail at 4:30 p. m. today for Manila and the Orient.

BOOTH'S INSURANCE.

It is stated that besides the insurance of \$5,000 with C. J. Hutchins' agency of the Phoenix of Brooklyn, Charles Booth had an additional policy of \$2,500 with John S. Walker's agency for the Scottish Union National Insurance Company.

MARK TWAIN TO SELL OUT.

TARRYTOWN, (N. Y.), June 10.—Mark Twain's beautiful summer home at Tarrytown is for sale, and it will be knocked down to the one who will part with \$55,000. Twain paid \$47,000 for it and he considers that he is entitled to a fair commission for the trouble he had with the assessors, who valued it at \$70,000. The place contains seventy acres and is one of the highest points along the Hudson. Clemens never liked the place, so it is said and is now willing to sell it, as he intends going to Italy to live for the benefit of his wife's health.

Twenty-five cents pays for a Want ad in the Star. A bargain.

PAHOA WATER WORKS VICTORIOUS

(Continued from page one.)

The joint conference was presided over by Senator Crabbe and Representative Kumalae acted as chairman. As a basis of work the conference took a long step by adopting the House's system of apportionment, as follows:

Total loan\$2,460,000 00
Territorial items1,029,825 00

Left for counties\$1,431,175 00
Oahu's share of this791,075 87

Work went ahead rapidly when the items were taken up, until Nuanu reservoir, \$150,000 was reached. Sewer, fire station and hydrants were passed. Senator Cecil Brown moved to strike out Nuanu reservoir. "I don't believe Nuanu valley is a proper place for a reservoir," he said, "unless we want a lot of mud and dirt sent down into the city."

Harris moved to pass the item and Chillingworth seconded while Achi proposed a cut to \$100,000, allowing \$50,000 for Pahoa. He said that the Assistant Superintendent of Public Works had stated that in power the Nuanu reservoir would return 26 per cent on the investment of \$150,000. He was even willing to make it \$90,000 and \$60,000.

Cecil Brown said there was no way to store water in Nuanu. There was no constant stream to keep the reservoir clean and it would be stagnant and disease-breeding.

Kalanokalani proposed \$75,000 and Andrade said this sum was useless and called attention to districts which are without water. "We were all raised on Nuanu water," he said, "and there has not been any great sickness."

McCandless said a compromise would not do as a business proposition. "You can't build half a reservoir and then stop and leave a stream to wash your \$75,000 down the river," he said.

Aylett said that the Superintendent of Public Works had informed the House that the reservoir could not be completed in two years anyhow and that he was willing to compromise and give \$75,000 for a start.

Kumalae said that \$500,000 was not enough to make reservoirs that would supply Honolulu from Nuanu valley and he did not favor a cent more for Nuanu. The possible sites for reservoirs were too low, and water certainly would not run up hill to higher elevations. "I have before me the Johnston flood," said Kumalae, "and can imagine how these big Nuanu reservoirs break and carry away the city. Artificial reservoirs will not last. There will be a day when they will break and there will be loss of life and more damage than the plague fires caused." He wanted small reservoirs distributed about the city declaring that the friction of carrying water for long distances made the water have no force of flow, also that Nuanu water would be unhealthful. "It is the cause of the deaths of children of our race," he added. "The doctor say so and I believe it. The rich people boil their water, but poor people can't."

Harris showed figures to the effect that the Nuanu plant as a business proposition would bring in an immense income for power. He didn't believe in three pumping plants and expenses of coal and engineers and wasn't opposed to Pahoa, but thought as a profitable business proposition, Nuanu was a good one. Competent engineers had stated that the water would not be stagnant and there would be power enough free to supply 125 more lights.

Aylett said there was no spring in Nuanu and the reservoirs could not be filled except during rains, and Cecil Brown said the same. He said he had been all over Nuanu ever since he was a "kid" and knew every inch of the valley.

On the vote to strike out the Nuanu item Cecil Brown, Vida, Nakaleka, Paele, Kumalae, Kupihea, Kou and Aylett voted aye. There were eight noes and the motion was lost. Only Harris, Andrade, Chillingworth, Achi and Long voted for \$150,000, and the vote for \$100,000 was the same. When it came to \$75,000 Harris and Andrade changed and opposed the scheme, but \$75,000 was carried.

Andrade moved to insert a new item of \$5,000 for Manoa water works and McCandless amended it to \$75,000. It was promptly voted down and then the Pahoa proposition came up on a motion by Kupihea to insert \$75,000 for the Pahoa water works.

The Pahoa proposition carried, after Vida had amended the wording to provide for including pumps, buildings, land, etc.

Andrade made another fight for Manoa, asking for \$40,000, but was again voted down.

DEATH OF JANET WALDORF

(Continued from page 1).

and troubles incidental to the disbandment of the company in Honolulu evidently further impaired her health and she was forced to go to a hospital shortly after reaching San Francisco.

No reference to Miss Waldorf's sickness or death is made by any of the late San Francisco papers. This fact would indicate either that the report of her death is an error, or else that she died the day that the steamer sailed. The files on the Alameda which will arrive tomorrow morning from San Francisco may throw some further light on the reported demise of the actress.

Janet Waldorf first came here in the spring of 1899 under the management of James Love and Ada Dow-Currier, starring in Shakespearean and other classic plays. In her company was Allan Dunn and W. D. Adams, now residents of Honolulu, and Herbert Shaw who was here a year ago with the Ellefords. She played an excellent engagement of several weeks at the Hawaiian Opera House, and then went on to the Orient. Not all of her company went with her. From that time until early this year, she had been continuously in the Orient and in Australia. During this time she appeared at every important city in the Orient where there is any European population from Bombay to Yokohama, including Colombo, Singapore, Bangkok, Hongkong, Shanghai and Manila. In fact she went over pretty much the same territory that Mrs. James Brown Potter did during Kyrle Bellew's process of fitting her for her London and American successes, and much the same route taken by Belasco with Mrs. Leslie Carter in his system of training for triumph.

Miss Waldorf arrived here by the American Maru about April 2 with a company that represented the recruiting efforts of Mrs. Ada Dow Currier in Australia and the Orient. The company played one or two nights at the Hawaiian Opera House, and then went to the Orpheum where it played an engagement of several weeks, finally disbanding, Miss Waldorf and Mrs. Currier separating as star and manager, some feeling being displayed on both sides. Only a part of the company succeeded in getting away from Honolulu. Miss Waldorf and two or three of her entourage sailed soon after her last appearance in Honolulu in "The Old Homestead" at the Opera House. Mrs. Ada Dow Currier remains here, and is preparing for another Oriental tour. A number of the company were stranded here.

TEDDY NEEDED IN WASHINGTON.

President Roosevelt ought to see the necessity of squaring up some of these affairs before the long summer vacation sets in. Our satrapies are disturbed, public service here at home is shaken by scandals. The cowboys and babies of the great West may well be slighted in favor of the more pressing engagements which Mr. Roosevelt has at Washington.—Boston Post.

FAILED TO MAKE
HER STORE PAY

BUSINESS VENTURE OF SENATOR STEWART'S DAUGHTER IS TO END WITH A SHERIFF'S SALE.

NEW YORK, June 5.—A special to the World from Newport, R. I. says: Miss Beattie Stewart's store is to be sold out by the Sheriff to satisfy a judgment in favor of Michael McCormick. Miss Stewart, as she is known is the only daughter of United States Senator Stewart of Nevada, who was at one time a millionaire, but lost considerable of his fortune through the low price of silver. She was married when young to Lieutenant Hooker of the Navy, but secured a divorce. She received permission to resume her maiden name, and it appears on all her signs and advertisements.

For several seasons Miss Stewart has conducted a woman's furnishing store, Society, appreciating her efforts to make a living, was a liberal patron, but not sufficiently so to enable her to more than make expenses. Business went from bad to worse and although not pressed for rent Miss Stewart abandoned the store.

McCormick is the contractor who fitted up the place last year.

Twenty-five cents pays for a Want ad in the Star. A bargain.

THE WORD OF HONOUR.

The men who do as they say; the things that prove to be what at they were said to be,—how cheering it is to come upon them. We all hate to be deceived; especially when the deception is intentional. But all men are not liars, even if David did say so in his haste. If they were society would be impossible. Everybody knows that business is based on credit, on faith. Millions are bought and sold daily on nothing more solid than the pledged promises of men,—not written, merely verbal. The Stock Exchanges are often called nests of gamblers, yet nowhere is a promise held in greater honour. Therefore when we say that the tried and effective modern remedy called

WAMPOLE'S PREPARATION

never deceives any who resort to it in hope of benefit and cure, we may expect to be believed. For this assurance is given on what it has done in the past in countless cases,—on its record. It is only recommended to accomplish what it was made to accomplish. Its action in Chlorosis, Anemia, La Grippe, General Debility, Throat and Lung Troubles, Blood Impurities, etc. is convincing. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. Dr. Austin D. Irvine, of Canada, says: "I have used it in cases where cod liver oil was indicated but could not be taken by the patient, and the results following were very gratifying." It is effective from the first dose and agrees with the most sensitive and nervous stomachs. It cannot deceive or disappoint you, and comes to the rescue of those who have received no benefit from any other treatment. It stands for the medical triumphs of the age. At chemists,

Impure Blood

Impure blood will always make you sick. You suffer from headache, great depression, indigestion, sleeplessness, a bad skin, extreme exhaustion, and you can hardly drag yourself about.

Read what Mr. H. J. Matthews, of Wellington, New Zealand, says about this. He also sends his photograph.
"I have suffered a great deal from impure blood, especially from boils on my arms and back. I felt weak all over and was greatly depressed. I began to use Ayer's Sarsaparilla. After taking only a little of it I felt better, and soon my troubles disappeared. I believe this medicine is the best blood-purifier and the strongest tonic that any one can buy."

AYER'S Sarsaparilla

There are many imitations "Sarsaparillas." Be sure you get Ayer's.

Use Ayer's Pills every time your bowels become constipated, or when you are bilious or have sick headache. They cure quickly.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

CORPORATION NOTICES

STOCKHOLDERS' ANNUAL MEETING

By order of the Board of Directors, notice is hereby given that the annual meeting of the stockholders of The First American Savings & Trust Co., of Hawaii, Ltd., for the election of officers and directors, will be held at its place of business on Fort Street, in Honolulu, Island of Oahu, on Wednesday, the first day of July, 1903, at 3 p. m. of that day.

W. G. COOPER,
Secretary of The First American Savings & Trust Co. of Hawaii, Ltd.
Honolulu, June 6, 1903.

Notice to Bondholders

PIONEER MILL CO., LTD.

Notice is hereby given that pursuant to the terms of that certain Deed of Trust, dated July 1, 1900, made by the Pioneer Mill Company, Limited, to The Bank of Hawaii, Limited, the said Pioneer Mill Company, Limited will pay the whole of the issue of bonds secured by said Deed of Trust, to wit:

Bonds numbered 1 to 500 inclusive, on the first day of July, 1903, at the office of the said Pioneer Mill Company, Limited, in the Hackfeld Building on the corner of Queen and Fort Streets in Honolulu, Territory of Hawaii, together with interest that may be due thereon to said first day of July, 1903.

All of said bonds, to wit: Bonds numbered 1 to 500 inclusive shall cease to bear interest on the first day of July, 1903.

All of said bonds which shall not have been presented for payment on the said first day of July, 1903, at the place above mentioned should be presented at The Bank of Hawaii, Limited, where the same will be paid with such interest as may be due thereon to the first day of July, 1903 and no longer.

Honolulu, May 12, 1903.

PIONEER MILL COMPANY, LTD.

By H. A. ISENBERG,
Its Vice-President.

By W. PFOTENHAUER,
Its Treasurer and acting Secretary.

Notice to Bondholders

EWA PLANTATION CO.

In accordance with the terms under which its bonds were issued the Ewa Plantation Company will pay, with accrued interest, on July 1st, 1903, One Hundred Thousand Dollars (\$100,000.00) of its bonds. The numbers of such bonds to be paid were determined by lot and drawn in the office of the Treasurer on the 12th day of May 1903. The numbers of the bonds so drawn and to be paid are as follows:

1	84	195	306	403
2	87	198	308	414
3	94	200	316	418
4	98	207	320	425
5	103	215	329	428
6	109	216	331	429
7	116	220	347	435
8	122	223	349	439
9	127	229	350	443
10	134	230	365	460
11	140	237	367	466
12	142	241	370	467

Treasurer Ewa Plantation Co.

AT HEPNER.

HEPNER, Ore., June 17.—The conditions here are improved. Wreckage has been cleared away and supplies and funds are coming. A vigilance committee has been formed.

A FILIPINO WONDER

An Aguinaldo Rebel Now Chief Justice of Guam—Earthquake Again Shakes the Island.

Another earthquake has shaken the island of Guam from one end to another, but it was nothing compared to the convulsions caused by Governor Sewell's appointment of Pancrasio Palting, Filipino rebel, to the chief judicial position of the territory.

Lieutenant W. H. Pritchett, U. S. M. C., who, with four of his men, arrived at San Francisco on the transport Sheridan, says that Palting is a native Filipino of the educated class who took a prominent part in the rebellion in the islands. He was captured and transported a prisoner to Guam, where he was in confinement until President Roosevelt's amnesty proclamation of July 4th released him. Governor Sewell's aide does not speak Spanish, and Palting does speak English, so he was recently appointed Judge of the Court of First Instance, the highest judicial position in the islands. From his court an appeal lies to the Governor alone, and all of the American attaches, including Thomas Colwell, the Prosecuting Attorney, are under his direction. Even the natives of Guam, who have no love for the Filipinos, have joined the Americans in a protest against the appointment of a Filipino rebel as the chief magistrate.

The Spanish law is still in force in the island, but Governor Sewell is gradually eliminating the objectionable features and introducing American statutes and methods of procedure. At his request Captain E. E. West of the Marine Corps is under orders to proceed to Guam and assist him in his revision of the laws. The order was cabled to Washington from Manila.

"During all the time I have been on the island," says Lieutenant Pritchett, "hardly a week has passed without an earthquake. A very severe one occurred early in April in which the Governor's residence, formerly that old Spanish palace, was so badly wrecked that it was not habitable and beyond repair, so it is being razed. Tiles were torn from nearly every roof and many houses were badly damaged, but there was no loss of life."

HOW THE NEW MILITIA LAW IS CONSTRUED

MATTERS OF INTEREST TO EVERY NATIONAL GUARDSMAN ARE MADE PLAIN BY JUDGE ADVOCATE GENERAL DAVIS—NOT ENTITLED TO INCREASED PAY WITH INCREASE IN LENGTH OF SERVICE.

WASHINGTON, June 5.—Judge Advocate-General Davis has sent to the Secretary of War an opinion relative to various disputed matters of construction of the new militia law. One point raised was whether section 14 of the militia act, relating to expenditures of money for the militia, was not in conflict with the Federal Constitution, the contention being that it could take the militia from the control of the states. General Davis points out that the new militia law does not differ materially from the present law, and that all that will be necessary is a change in the forms for accounting to be made to the Treasury Department. A more important point raised concerns section 15, which provides for the participation of the militia of the several states in maneuvers and field instructions of the regular Army, but with a further proviso that the command of a military post or camp, and of the officers and troops of the United States stationed where such maneuvers occur, shall remain with the regular command of the post without regard to the rank of the commanding or other officers of the militia temporarily encamped there.

General Davis holds that such portions of the National Guard as participate in the maneuvers as operators do so for the purpose of improving their discipline and efficiency, and that in such participation they act under the orders of their respective Governors. While so engaged the several organizations of the National Guard, he says, remain under the control of their several commanders in chief, and, not having been "called forth" in the manner prescribed in the Constitution, do not pass under the command and control of the President as Commander in Chief of the land and naval forces of the United States.

He holds the point that the enlisted men of the National Guard are not entitled to increased pay in virtue of previous service in the militia, but says that officers who have served five years in the militia are entitled under the law to the same 10 per cent increase in pay that is provided for officers of the Army. The Judge Advocate-General says that in applying section 18 the drills and encampments which took place in any state or territory during the year ended December 31, 1902, should be considered in determining the right of the state or territory to participate in the benefits conferred by previous and present laws.

THE OAHU SHARE OF THE LOAN BILL

GOES BACK TO THE DELEGATION AND THE DISTRIBUTION IS RIPPED UP AGAIN.

Instead of passing the loan bill yesterday the House referred the Oahu items back to the Oahu delegation. Vida's appeal from the ruling of the chair, which denied him the right to call up the items for reconsideration, was sustained, and the Oahu delegation held a meeting after adjournment to prepare its report again.

Vida's objection was to the item of \$10,000 for Manoa road, which he insisted had never been voted in the report, while Harris declared that it had. The reconsideration was taken advantage of by Kumalae, however, to attack the Nuuanu reservoir appropriation and he succeeded in having it cut out. This action is regarded as favorable to the Pauoa job which occupied so much time in the regular session. There was a protest from Harris and it was finally decided to defer the matter again this morning, when the Senators from Oahu will be present. Kumalae and Kupieha wanted more for streets, mentioning \$150,000 for Keolu as one of their demands, and there was almost a general reopening of Oahu county items. The committee adjourned with a lively meeting in prospect for this morning and a possibility that Oahu county would present two reports, thus turning over its loan funds to the tender mercies of the whole house.

DISTINGUISHED AUTHORESS HERE

HELEN H. GARDENER ARRIVES WITH HER HUSBAND TO STOP OVER ON A VISIT.

Helen H. Gardener the novelist and writer, arrived by the America Maru last evening from San Francisco in company with her husband Lieutenant Colonel Selden Allen Day, U. S. A.

Mrs. Day has long been recognized as an authority in sociological subjects. Her best known novel is "The Unofficial Patriot." Colonel Day was in command of American forces in Porto Rico after the cessation of hostilities and it was he who raised the first American flag on that island.

Mrs. Day is recovering from serious illness which prevented her from continuing her literary work. She and her husband will remain in Honolulu some weeks and then continue to Japan.

They were married a little over a year ago. The early part of their married life was passed in the Shenandoah Valley of Virginia. It was in this valley that her husband first saw service during the Civil war and also where her father who was the inspiration of her book "The Unofficial Patriot" lived and fought.

The last visit that she paid to California was in 1897, when as Miss Gardener, the authoress was the guest of the sixth annual Congress of Women. She has strong views on the subject of heredity and does not hesitate to express them.

It is not unlikely that some of the local women's organizations will invite Mrs. Day to address them.

MIDWAY ISLAND. Associated Press, Morning Service. WASHINGTON, June 17.—Captain Rodman of the U. S. S. Iroquois has been requested by the superintendent of the cable at Midway Island to establish and enforce laws and regulations there.

FRAZIER'S NEW BOOK ON HAWAII

IS A SPLENDID CREATION OF HALF TONE AND LETTER PRESS - A GOOD AD.

A few copies of Charles R. Frazier's new handbook of Hawaii were received by him from the Chicago printers. The title of the book is "Hawaii," the title appearing at the bottom of the first page of the outside cover, which is a striking picture of a canoe in the surf, fully manned, with Diamond Head in the background, and a conventionalized coconut palm rising right through the center of the scene.

On the title page, the title is given "Hawaii: Its People, Climate and Resources." Opposite the title page is a map, showing graphically the relative position of Hawaii to the continents to the East and West and to Australia to the south.

It may be said that Mr. Frazier has published the best book of the kind that has yet appeared. It is without doubt the finest in letter-press and illustration, the most comprehensive in scope and the most consistently carried out, that has appeared, at least for many years.

It is conveniently broken up into sub-divisions, beginning with a brief description of Hawaii's position and people, followed by sufficient description of how to reach Hawaii, its climate, its home sites, its land for settlers, and the opportunities for them. Each island of the group is then taken up in detail and its characteristics given. The financial and commercial interests are then dealt with under the subheads of trade of Hawaii, shipping, Chamber of Commerce, Merchants' Association, banking institutions, agriculture, manufactures, fisheries.

The educational interests and progress of the territory are given full treatment. Honolulu is described in detail. Several pages are devoted to Hilo. The sports and pastimes of the islands are given treatment. Internal transportation comes under review. Christianity and civilization are dealt with. A chapter is given to our volcanoes. The final chapter is devoted to various institutions, including public works, postal facilities, agriculture and forestry, bureau of conveyances, the national guard, the Y. M. C. A., the Hawaiian Evangelical Association, Woman's Mission Board, Catholic Benevolent Union, Hawaiian Historical Society, fraternal orders, and Sons of the American Revolution.

The book is profusely illustrated, the pictures being in all cases, splendid examples of half-tone and in an unusually large degree really illustrating the subject and the text. While some of the pictures are of the old familiar type, for the most part they are new illustrations chosen because they illustrate conditions as they are today.

Mr. Frazier has gotten out a book that to the extent it is circulated, can hardly fail to benefit the territory, both by giving correct ideas of the matters with which it deals, and by attractive picture and pleasing letter press interesting possible visitors to the islands. The text is by Daniel Logan.

GOVERNOR WEDS SALESWOMAN.

TOPEKA (Kans.), June 8.—Governor Bailey of Kansas and Mrs. Ida M. Weed of Kansas City, will be married in Kansas City tomorrow evening. This statement was given out today by Governor Bailey's private secretary. Mrs. Weed is a widow and is employed by a Kansas City cloak company. Governor Bailey is expected to arrive in Kansas City late this afternoon.

PETER PROMISES REFORMS.

Associated Press, Morning Service. GENEVA, June 17.—King Peter has issued a manifesto accepting the throne of Serbia and promising reforms. His motto is "For the Sacred Cross and Cherished Liberty."

Associated Press, Morning Service. BELGRADE, June 17.—The manifesto of King Peter is approved here and peace is assured.

Associated Press, Morning Service. ROME, Italy, June 17.—King Victor Emmanuel has extended his formal congratulations to King Peter I of Serbia.

Associated Press, Morning Service. LONDON, England, June 17.—The government of Great Britain has partially resumed its relations with the new Serbian Government. There is no probability that Great Britain will offer any protest to the new conditions, though it is pursuing a conservative course in recognizing the new regime.

THE SIX MONTHS BILL.

The legislative conference committee of the six months appropriation bill concluded its work last night. The item of \$10,000 for J. G. Pratt's trip to Washington on fire claims matters was stricken out. The appropriation to reimburse merchants for money advanced the Board of Health to pay inspectors was passed, and the Paradise of the Pacific subsidy of \$1,250 was approved. Brown and Harris and Fernandez were appointed to prepare the report of the committee.

VICTOR TO TEDDY.

WASHINGTON, June 8.—King Victor Emmanuel has sent to President Roosevelt a gift of rare value, which will be presented to the president next Monday by Signor Mayor des Planches, the Italian Ambassador, who, at his majesty's request, will be received in special audience at the White House. The gift is one of books, and consists of the war reports of Prince Eugene of Savoy, the illustrious Italian General and a copy of Dante's "Divine Comedy" with a comment in Latin by Stefano Talice da Ricadine. The books are elegantly bound in full red morocco and bear the royal crest, with the King's monogram in the four corners of each volume.

PARLIAMENT AT CAPE TOWN.

CAPE TOWN, June 5.—The Governor of Cape Colony, Sir Walter Hely-Hutchinson, opened Parliament today. In his speech he said he hoped shortly to be able to relax the remaining restrictions on liberty, in consequence of the success which attended the notice

faces were settling down to ordinary life.

The present session was called to ratify the customs convention drawn up at Bloemfontein and to sanction the construction of several new railroads. With the continuance of the present buoyancy of the revenue, the increased expenditure would not involve additional taxation.

SAYS CORBETT HAS NO CHANCE.

CHICAGO, June 9.—Robert Fitzsimmons, who is in this city, en route to California, where he will work with Jeffries for the latter's fight with Corbett, says that Jeffries will win the fight in ten rounds. "It's a cinch," is the way the Cornishman puts it. "Jeffries simply outclasses Corbett. The stories about Jeff's dissipation are all wrong. He was in good physical condition when I left him at the end of our theatrical engagement, and by August will be in prime shape to put up the fight of his life. Corbett never was the fighter Jeffries is and he has no chance to win. I expect to see Jeff put him away within ten rounds."

Fitzsimmons arrived in Chicago today and will spend two days here before starting for the Coast. He has been sparring in exhibition bouts with the champion all winter, and knows the man well, and it is the general belief that he is just the one to prepare the big fellow for Corbett. Fitz has fought both men and his advice should be valuable both during training and at the ringside.

HE WAS SAVED.

Jones—Is marriage a failure? Smith—Not in my case. It saved me from one.

Change of water often brings on diarrhoea. For this reason many experienced travelers carry a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with them to be used in case of an emergency. This preparation has no equal as a cure for bowel complaints. It can not be obtained while on board the cars or steamship, and that is where it is most likely to be needed. Buy a bottle before leaving home. All dealers, Benson, Smith & Co., general agents.

ROBBERS ON BERETANIA STREET

The residence of Mrs. I. Weight on Beretania street was entered by a robber last night. The family was absent at the band concert. When they returned they discovered the burglar in the bath room. The man was scared away before he could take anything of value. He is thought to have been a Porto Rican.

LEGISLATORS AT BASEBALL

CAPTAINS CRABBE AND KNUDSEN ARRANGING THEIR TALENT FOR TOMORROW'S GAME.

The sale of tickets for the baseball game between the House and Senate has been large, and there will be a big crowd on the campus tomorrow when game is called. This afternoon is the last chance for practice and the members of the House will be out on the field in front of the drill shed again. Vice-Speaker Knudsen, captain of the team and second baseman, is carefully trying out his men with a few exceptions he has found an evenness of badness that makes it hard to place the men, but Knudsen is going at it in earnest and already improvement has been made by some of the men, who could not very well appear on a field without making some improvement.

Secretary Carter has been suggested for umpire, on the ground that his salary cannot be changed by either house. When approached on the subject the secretary said that he had never played baseball and knew nothing about the game. This is believed to make his selection almost certain.

This morning members of the House were offering bets on their team. Since they have seen Kellinot and Kalama bat they are filled with new hope, for the things both men did to balls pitched by Greenwell would put the Senate out of business in one inning. Kellinot is slated for pitcher, while Kalama will probably hold down first base. Long is to be catcher and Andrade shortstop while Kumalae will be at right field, Damien at left and Nakaleka at center. Lewis is to do the honors at third. The House has plenty of talent left and Knudsen knows where to draw from when Kellinot gets a glass arm and Long a broken thumb or Kalama a baseball finger.

Captain Crabbe of the Senate is figuring on Isenberg to hold down Sonny Cunha's place behind the bat and Achi as the man to throw balls at him. Kalauokalani is to be the man to do the reaching at first, Cecil Brown will play second and John T. Brown third. Wilcox and Dickey will be at right and left field and McCandless in the center.

Both these lineups are subject to change as the members develop new talents, for which there is recognized room, and there will have to be substitutes on hand to take the places of those who can't keep up the terrible pace. The league players will be on hand, getting pointers for Saturday's games.

SHORT SESSION OF SENATE.

This morning the Senate passed the bill appropriating \$12,500 for the cost of furnishing the countries with blanks and blank books, and amending the period in which the expenses of the present session can be paid. The Senate bill appropriating \$1,500 for the expenses of the remainder of the session was passed second reading. Third reading was set for tomorrow. The Senate adjourned until 1 o'clock tomorrow morning.

SIGHTED THE WHITTIER

The America Maru sighted a steamer showing a searchlight Tuesday night about 200 miles off these islands. Captain Going of the America thought that the searchlight was thrown from a warship and when he arrived he inquired if any warship had left Honolulu recently for the Coast. Evidently the searchlight was thrown from the steamer Whittier. That vessel carried such a light. The Whittier left Kahului last Tuesday towing the barkentine Fullerton to Ventura. The Whittier had had time in which to reach the point where the American saw the searchlight and the unknown steamer. Nothing was seen of the Fullerton. The America did not pass close enough to the steamer however to make out whether the barkentine was with her or not. The Fullerton was probably towing all right however, as the weather has been very calm since they left.

SOLD THE BOXES FOR BALL SEASON

THREE BOXES DISPOSED OF FOR
\$40 EACH AT MORGAN'S AUCTION
ROOMS.

The sale of the boxes at the base ball park for the season was held at Morgan's auction room today at noon. There were five six seat boxes and five five seat boxes offered. An upset price of \$40 for the first class and \$35 for the second was named. The following were the purchasers: T. A. Hays box 1, \$40; R. Ivers box 2, \$40; Honolulu Athletic club, box 3, \$40. There were no other bids. There is to be no further auction sale of the remaining boxes.

The directors announced before the sale today, that smoking would be permitted in the boxes.

yield to the persuasive powers of Royal Malt Extract, the well known tonic. When you take anything of this kind it is always well to know what it is. Now Royal Malt Extract is the best preparation of its kind. It is made from wholesome barley and is a tonic far excellence. It will restore the appetite, tone up the stomach and digestive organs, and give you vim, snap and energy. If you are troubled with insomnia, Royal Malt Extract will give you sound, refreshing sleep.

You haven't got to take a case of this tonic before you feel the benefits. The first bottle will probably convince you. Then, its not expensive. Twenty-five cents the bottle; \$2.50 the dozen.

Here's a caution—be sure you get the genuine. "Just as good" isn't Royal Malt Extract. Accept no substitute, but insist on having the genuine.
