WHOLE No. 2452.

THOUSANDS MEET IN CONVENTION IN KANSAS CITY

ASSOCIATED PRESS CABLEGRAMS

KANSAS CITY, Jan. 12 .- Thousands are arriving here today to attend the great convention of the National Live Stock Association which is to open tomorrow for a four days' session. Delegates will be present from all parts of the Union. The convention is regarded as one of the most important gatherings ever held by live stock men in the United States and during its sessions nearly all matters touching upon the live stock industry will be dealt with by some of the foremost speakers of the United States.

The convention opens tomorrow morning with addresses of welcome by Governor Dockery of Missouri and Mayor James A. Reed of Kansas City. After the annual reports have been read addresses will be made on varied topics by well known stockmen.

On Wednesday Dr. W. C. Bailey of California is to discuss "The 'Angora goat industry." D. R. Francis, president of the St. Louis World's Fair, will tell the delegates what the Fair expects to accomplish for the live stock industry. There will also be other addresses and the delegates will be taken through Kansas City's big packing houses on a tour of inspection. The governors of a number of States will lead off a big ball on Wednesday evening.

Thursday will be a big day. Governor Cummins of Iowa is expected to make a speech on "The Tariff as it Affects the Live Stock Industry," and other well known speakers for the day will be Hon. F. S. Pear of New York on "How the Stock Interests of the United States are Regarded in England and How They Compare With Other European Countries;" Dr. W. H. Dalrymple of Louisiana and Dr. Charles Creswell of California will discuss infectious diseases; J. E. Stubbs of Nevada and Hon. N. O. Murphy of Arizona will talk on irrigation; the Hon. C. J. Buell of South Dakota, Hon. E. A. Harris of Iowa, Col. John P. Irish of Califonia, and Dr. W. H. Patterson of Nevada will discuss forest reserves and laws governing them; the Hon. Charles H. Grosvenor of Ohio will give his opinion as to what Congress should do to aid the live stock growers, and several other speakers will be heard.

On Friday officers will be elected. Hon. Wm. H. Springer of Washington, D. C., and J. H. Vandusen of Nebraska will talk of the proposed combine of the packing plants of the United States. A Mexican delegate will talk on the live stock industry of his republic. Prof. C. F. Curtis, of Iowa, will speak on experimental stations and Jerry Simpson of New Mexico will tell how he evolved from a populist into a stockman.

A monster banquet has been arranged for Friday evening. Arrange-ments have been made to care for fifteen thousand people at this event, the biggest of its kind ever held. At the close of the convention stockmen will make an excursion to New Orleans.

SPECIAL CABLEGRAMS TO THE AFTERNOON PAPERS

CHICAGO, Ill., Jan. 12.-The Grand Jury of the January term of Dispatches which announce that the report of the Senatorial Com- the Cook County criminal court is investigating charges that a ring of mission on Hawaii was published in Washington yesterday and that coal dealers have sidetracked whole train loads of coal en route here it will be filed in the upper House this week, emphasize the great scoop with a view to increasing prices by making the shortage of coal worse

The shortage of fuel is such as to cause great suffering from lack of beat them by nearly a week. Mr. Walker, who is one of the most fuel during the present period of intensely cold weather, but according trusted attaches of the Washington Post, has kept close to Senator to reports which have reached the grand jurors, the coal dealers' ring Mitchell and received from him a promise to give the Advertiser the intentionally sidetracked trains of coal, delaying their arrival here while prices went up under the increasing demand for fuel. The charges have created a senation and aroused great indignation.

A Revolution's Program.

SOFIA, BULGARIA, Jan. 12.—The chiefs of the Macedonian societies in Bulgaria have decided to inaugurate a revolution in the Turkish protectorate of Macedonia next April in a stupendous effort to throw off the yoke of the Sultan.

The so-called Macedonian Committee, made up of delegates from the Macedonian societies of every village and hamlet in Bulgaria, have organized their forces in such a manner that the Turks will be shown a very stubborn contest.

Through the bands of brigands which infest the Balkans they have distributed arms and ammunition to every peasant in small Macedonia and when the rush of Turkish troops comes against them the former will be able to hold the mountain fastnesses against a very large army.

Macedonians hold high positions in Bulgaria and that country would like to annex Macedonia with the help of the latter while the Macedonians themselves wish to throw off the yoke of Turkish misrule with the help of Bulgaria and yet after that remain an independent country. The Macedonian societies of Bulgaria are organized with the avowed purpose of annexing Macedonia to Bulgaria.

The powers are watching events at Sofia very carefully for although the Turkish province in question is a very small one a revolution there might upset the peace of Europe. Sofia is the hotbed of the impending revolution. Servia and Greece are each alert as each considers that Macedonia should belong to it. Austria-Hungary and Russia are vitally interested in the revolution as both desire portions of Turkey in case that country can be dismembered.

Although the brigands of the Balkans are now only operating in small bands they constitute the skeleton of a very powerful army.

The Pretender's Turn.

MELILLA, Morocco, Jan. 12.—The Sultan's troops here are selling their arms and deserting his service. The pretender is constantly gaining followers and the Sultan's position is becoming weaker.

PURPLE MOTHER GETS 10 PER CENT LIBEL VERDICT

(ASSOCIATED PRESS CABLEGRAMS.)

SAN DIEGO, Jan. 12.—The jury has awarded Katherine Tingley, the head of the Theosophist institution at Point Loma, a suburb of this city, \$7,500 damages in the \$75,000 libel suit brought by her against the Times-Mirror company of Los Angeles. The defendant will appeal. For the trial of the second suit for \$75,000 damages, based upon renewed charges by the Los Angeles Times against the Tingley management, a change of venue will probably be asked.

Overdue Vessels Arrive.

SAN FRANCISCO, Jan. 12.-The British ship Pegasus, one hundred and eighty-seven days on the passage from Newcastle-on-Tyne for this port, arrived today. She was considered long overdue and reinsurance had been played on her. She had been quoted for reinsurance at thirty per cent and for a time it was thought that she might be the unknown vessel which is ashore at Terra del Fuego. Bad

weather off the Horn caused her long passage.

SAN FRANCISCO, Jan. 12.—The long overdue steamer Pleiades from Tacoma has arrived at Hongkong. She was reinsured.

Tariff May Go Off Coal.

WASHINGTON, D. C., Jan. 12.-It is expected that Congress will temporarily remove the duty on coal. This course will relieve the distress of the New England and Middle States by importations from Canada and Wales.

Two Hundred Drowned.

SHANGHAI, Jan. 12.-A landslide at Nankin caused great destruction and loss of life. Two hundred people were drowned by the ensuing rise of water.

No Anti-Trust Crusade.

WASHINGTON, D. C., Jan. 12.—Republican Senators say that no radical anti-trust legislation is to be expected at this session of Con-

Ventura on the Way.

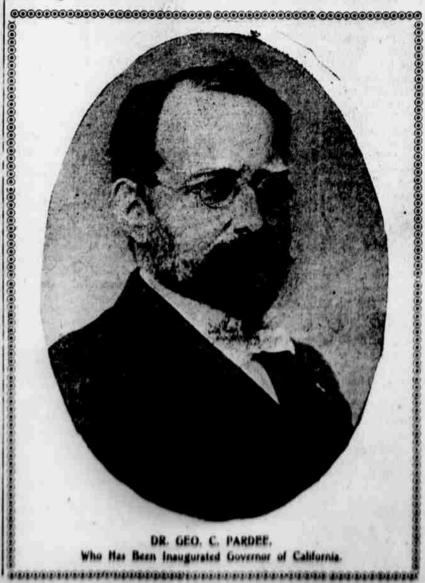

SAN FRANCISCO, Jan. 12.—The Oceanic steamship Ventura left Fanning Island for Honolulu at 3 p. m., Saturday.

Already Known Here.

WASHINGTON, Jan. 12.—The Hawaiian Commission's report will probably be sent to the Senate this week. It was forecasted here to

DR. PARDEE INAUGURATED **GOVERNOR OF CALIFORNIA**

SACRAMENTO, Jan. 12.—Dr. George C. Pardee was inaugurated as Governor of California today. Fifteen hundred people attended the inaugural ball.

ALFRED BEIT THE RICHEST MAN IN THE WORLD DYING

The Busy South African Multi-Millionaire Had a Sudden Stroke of Apoplexy.

(ASSOCIATED PRESS CABLEGRAM.)

CAPE TOWN, Jan. 9.— Alfred Beit, associated with the late Cecil Rhodes in monster African ventures and perhaps the richest man in the world, is dying of apoplexy.

Beit's condition is partly the result of overwork since the close of the South African war, for the successful ending of that war in faver of Great Britain increased the value of his African properties been informed that Baron Speck von Sternberg will be sent to Washby about one-third, and his responsibilities in proportion.

and like his partner and associate has never married. He is now forty-five years of age.

His death will make considerable difference in the mining operations in the Transvaal as he is more heavily interested there than any other single man. His wealth is enormous. He is estimated to be worth \$375,000,000. He has built this up from nothing. He South Africa and got into close business relations with Cecil Rhodes. change of Ministers simplifies the Venezuelan affair. His wealth then piled up almost faster than he could count it. Although Rhodes quit money making and launched himself into the other portions of the globe.

The German financier is a man of small stature but of enormous energy. He has done very little openly in politics but his hand is

NEW YORK, Dec. 29.— Believing that Queen Anne's accession to the throne of England ruined all her hopes of ever ruling over Great Britain, Mrs. Jennie Weinsein of this city, says a dispatch from will examine into her sanity.

This is the second time within ten months that the woman has attempted to mutilate the picture. She tried to destroy it with a stick in March, but was arrested before any damage was done. Before her latest attempt she went to the State House and asked the custodian to remove the picture and place hers in its place, claiming that she, and not Queen Anne, should have ascended the throne. When the custodian refused to accede to her demand, she tried to pull the picture from the wall.

OAKLAND, Cal., Dec. 29.-The Southern Pacific Company has to deal with the greatest car and locomotive shortage that has ever been known in its history-taking the amount of business and facilities for handling it into consideration. And the worst phase of the case is that as the days go by the shortage will increase instead of diminish.

So bad has the situation become that as a result every car painter employed at the West Oakland yards with the exception of four, have been forced to take a lay-off, as the cars are kept in active service and are not sent to the yards for painting or repairs. The shortage is making itself felt in all the divisions and especially at the West Oakland yards, where the locomotive repair shops are kept running day and night to put disabled engines in commission. Not a locomotive is sent here unless the wheels refuse to turn. Then the locomotive is rapidly repaired and sent out again.

ST. PETERSBURG, Dec. 29.— General satisfaction is express-ed here at the turn of affairs in the Venezuelan controversy. President Roosevelt comes in for many compliments for "forcing", a recognition of The Hague tribunal. The Bourse Gazette describes Mr. Roosevelt's action as a "splendid Christmas gift to Europe."

SAN DIEGO, Cal., Dec. 29 .- The Tingley-Times libel trial was resumed this morning. The defense presented more deposition first introduced was that of Mrs. Lena Morris, 109 West Sixteenth street, New York, its subject matter covering a period about eleven years ago, when deponent was the janitress at 107 West 68th street, where Mrs. Tingley resided.

The plaintiff succeeded in excluding the answer to the question concerning Mrs. Tingley's business at the time deponent knew her and also a question: "Was there a girl living with Mrs. Tingley?"

Only the formal portions of this question were admitted. The deposition of John M. Price, of 312 West 69th street, New York, was next offered by the defendant. This deponent knew Mrs. Tingley when she attended theosophical meetings at Madison street. understood that she claimed to be the successor of William Q. Judge, the leader of the movement.

A few words of Mr. Price's deposition were admitted in which he said that he knew all of the leading theosophists in this country and in Europe, and that he knew Mrs. Tingley as living with her husband and having no business so far as deponent was aware. Questions then took the trend to general reputation and the answers

Regarding his personal knowledge of Mrs. Tingley's spiritualistic beliefs, Mr. Price answered: "She was a spiritualist in belief. I know that she was given to going into trances as a medium. to use, clairvoyancy in all her doings in theosophy.'

NEW YORK, Dec. 29 .- In her efforts to select a hiding place where her \$800 worth of diamonds would be safe from burglars, Mrs. Mary Burroughs, of this city, forgot all about the ashman, says a Herald dispatch from Philadelphia. Mrs. Burroughs the day before Christmas wrapped her \$800 worth of diamonds in a chamois and tucked them away in the toe of a well worn shoe belonging to her small son. She then left the house. Before she returned the ashman called. Mrs. Burroughs' sister threw the shoe away with other Mrs. Gould." rubbish. Mrs. Burroughs returned and her sister incidentally men-tioned the absman's visit. "I gave him those old shoes of Willie's," she said.

After a long search the ashman was found and the diamonds re-

at the end of the celebration of his silver jubiler next April by pre- respondent.

VON HOLLEBEN'S WORK NOT SATISFACTORY TO KAISER

VON HOLLEBEN.

(ASSOCIATED PRESS CABLEGRAM.)

WASHINGTON, D. C., Jan. 9.- The State Department has ington as a special Minister to represent Germany in the settlement He has led a life filled with magnificent yet quiet undertakings of the Venezuelan difficulty and other advices from Berlin indicate trade. that Baron von Holleben's leave of absence on account of illness practically amounts to a recall.

The latter's work with respect to the Venezuelan dispute has caused some anti-German feeling in America and for this reason has given dissatisfaction in Berlin.

Germany wishes to counteract this feeling and if Baron von came from a Hebrew family of Hamburg and during his early life Sternberg meets the approval of the United States he will likely reserved an apprenticeship in a Hamburg bank. Later he went to main here as Germany's chief representative. Emperor William's

Baron von Holleben was the oldest member of the diplomatic corps in Washington. Although a bachelor he gave lavish enterwork of empire building Beit has always held himself down to the tainments. He has been Germany's ambassador at the American work of amassing more money. In addition to his African interests capital since Nov. 29th, 1897, and during that time increased the he has big properties in Mexico, Chile, and Portugal and in many mission in importance. He has been popular in social circles. In his uniform as a cavalry officer of the Red Hussars of the Guard he has been a striking figure at official functions. Harvard conferred the degree of LL. D. upon the diplomat. He was the center of a

matter without causing friction for he has interests in this country. vent the disease spreading along the coast and to the interior. The Philadelphia to the Times, made an attempt to destroy the large oil painting of the Queen in Independence Hall. She was arraigned subsequently before a magistrate and held in \$500 bail. A physician wealthiest men in the West. The Baron was formerly First Secrestop at Mazatlan but it is feared that this service may be withdrawn tary of the German Embassy at Washington and later German representative at Samoa.

(ASSOCIATED PRESS CABLEGRAMS.)

PITTSBURG, Pa., Jan. 10.-The great steel works at Steelton have been closed because of the scarcity of coal. Several thousand men are out of work. A national convention has been called to meet at Washington to impress President Roosevelt with the need of immediate relief. The stringency is serious. A veritable coal famine prevails in the large cities.

WASHINGTON, Jan. 10.- Rear Admiral Geo. W. Melville, chief engineer of the navy, has been retired for age. Admiral Melville was born in New York city January 10, 1841; was educated in the public schools in New York and at the Brooklyn Polytechnic in Brooklyn; entered the United States navy July 29, 1861, as third ment and study of consumption. assistant engineer; became chief engineer in 1881 and engineer-in-chief of the navy in 1887. In the latter position he has contributed largely to the building up of the new United States navy.

the triple-screw machinery for two-shift cruisers. He has also developed a plan for increasing the speed of ships by lengthening the smokestacks. During the civil war he frequently volunteered for desperate service. In 1879 he joined the Jeannette arctic expedition. After the Jeannette was crushed in the ice and he had conveyed the crew of his own boat to a place of safety he conother boats. The story of this experience is told in his book, "In CABLE REPORTS TO THE the Lena Delta." For his heroic conduct in these circumstances Congress in 1890, passed a special act advancing him one grade.

SAN DIEGO, Cal., Jan. 10.-Mrs. Katherine Tingley, the theosophist leader at Point Loma, head of the School of Lost Mysteries, evidence immediately upon the opening of court. The deposition has filed an additional suit against the Los Angeles Times for \$75,000 damages, based on the Times' comments on the pending pay her indemnity to the Powers in silver. It has been rejected by, action for libel.

> church a man in the street fired a shot at the Royal procession. result, especially among the poor. No one was injured. The man, whose name is Feito, was promptly arrested. He said he did not wish to kill the King, but the Duke of Sotomayor, His Majesty's chamberlain.

ST, PETERSBURG, Dec. 29.-A dispatch from Moscow announces that an Armenian named Jambore was murdered while entering the church there. He was captured by brigands in the Caucasus several months ago and obtained his release by promising to pay them ransom. This he failed to do and his captors killed him in revenge.

SAN FRANCISCO, Jan. 9.-Hawaiian Commercial, \$45.25; Honokaa, \$14.75; Makaweli, \$28.25; Onomea, \$23; Paauhau, \$16.50. senting to him an almost priceless jewel. WASHINGTON, D. C., Jan. 10 .- Senator Burrows of Michigan, representing the beet sugar interests, in conference with President Roosevelt today indicated that the Cuban treaty now pending in the Senate is objectionable to the interests he represents because it does not insure the stability of the tariff provided for any specified time. The Michigan Congressional delegation will oppose the ratification of the treaty unless it is amended to fix its duration for

VIENNA, Dec. 29.—Emperor Francis Joseph today received Ambassador McCormick in farewell audience and expressed much regret at the departure of the Ambassador, whose tenure of office had been marked by such pleasant relations with all circles of Viennese society.

The Emperor presented Mr. McCormick with a signed photograph of himself in a handsome gilt frame. During the conversation. His Majesty expressed the most friendly feeling for the Gov-ernment and people of the United States and his personal regard for President Roosevelt. Mr. McCormick and Ambassador Bellamy Storer, his successor, yesterday visited Foreign Minister Goluchow-ski. The latter said he regretted Mr. McCormick was unable to make his visit longer.

Mr. McCormick starts Tuesday for Prague and thence goes ! Berlin, where he will meet his wife. He expects to reach St.

Petersburg January 8th.

TO SECURE

Joint Committee Makes Its Plans.

When the meetings of the Chamber of Commerce and Merchants' Associa-ation are held next week there will be laid before them a definite plan for the inauguration of the exploitation of the advantages of Hawaii as a resort for tourists. The committee which has such matters in charge met yesterday afternoon and after hearing reports adjourned to meet again on Monday after-noon at 4 o'clock, for the purpose of completing the preliminary work.

There is nothing lacking in the plans which have been proposed by the members of the joint committee, the several features of the organization of a tourist bureau being fully covered, and the work being placed where it can be organized without trouble, under the diprovided in the general scheme. The lecision of the committee, made up as it is from members of both trade bodles, was unanimous, and this gives promise that the inauguration of the plan of the tourist seekers will be pushed right through to a successful end-

The question of greatest importance, perhaps, is that of the raising of funds for the carrying on of the work. It was decided by the committee that the parent bodies should be asked to set aside the proceeds of the tax which has heretofore been levied for the purpose of taking care of the expense of the quarantine regulations, to the fund for the carrying on of the work of the tourist bureau, and further that there be so. licited subscriptions from the railroads. the transportation companies in general, and the hotels and resorts, which may swell the proceeds of the tax and make available such a fund as will render it possible to carry on the plans of the committee.

There was a full membership present when Chairman Wight called the meeting to order. There came up first a matter of the organization of the proposed bureau, and after some general discussion the report of the committee on that feature of the work was submitted by Chairman Cooke. Mr. Cooke reported that the committee favored the selection of rooms for the use of the tourist organization, on: large apartment to be chosen for fitting up for a trade and general museum, another for an office, and a third for the use as a reading and writing room in connection with the tourist bureau. The employment of a secretary and super-intendent was deemed advisable and the committee finally asked to withhold its report until Monday for the purpose of permitting the members to examine other locations for the bureau.

F. W. Macfarlane, for the committee on advertising matter, reported that the tion of the main office and committees, large cost of the special number of the "Paradise of the Pacific" rendered it such that the committee could not rec-ommend the purchase of the proposed special edition. As to the folders which it was proposed should be used for advertising purposes, the committee re- follows:

Taken From Lanai By the Police Guard.

All because they had to eat, and consequently had to take the live stock wherewith to satisfy their appetites, John Wise and his supporters, who have been representing John F. Colburn and F. H. Hayselden, in holding the fort at the ranch house at Lanal, are now held under arrest at Lahaina

Hayselden and Attorney Ashford, with others to reinforce the guards, left at midnight for Maul on receipt of tele-graphic information. Their intention is to bail out the men to return them to their station at Lanai, and to proher early youth in Kona, going to Maui during Wednesday and Thursday, vision them to withstand any slege school and at St. Andrew's Priory in with rain for several hours during the that may be enforced by the minions

This latest turn of affairs in the drama of Lanal, came late yesterday afternoon, after arrangements had been made to send supplies and dispatches by the steamer Hawaii, which had only arrived from Molokai with cattle. The first intention was to send succor to Wise, who was represented to be almost in the throes of starva-tion, because the police, in seizing the personal property of the Gibson estate, had taken all the eatables, and the guardians of the property in the in-terest of the trustee, found themselves in a position which soon would have become untenable. When the men arisland castle, they will have plenty of pol and condensed milk, biscuit and tinned goods, and they will be able to keep up the blockade as long as is

The latest turn in affairs was dis ties should take the matter in hand and closed here on the arrival of the steam-Friday, when it was known that the police had served an attachment on all ing officers. The remaining twenty per against Mrs. Hayselden, in the suit of cent might be made up in the towns of Walluku and Lahama. But after all were preparations by the attorneys to of Wailuku and Lahama. But after all were preparations by the attorneys to is the craving for news so strong that make a fight for what it is claimed is the right of the administrator with the will annexed and trustee of the estate of Walter Murray Gibson, Fred H.

The police, under the leadership of Lieut. Leslie, from here. ed everything'. The chickens, the and the administrator-with-the-will annexed held the fort and simply sent down a cry for supplies. They could not even milk a cow or pick The police held the eatables, leaving only the house for Wise.

Before food was sent however, At torney Ashford, for the estate, sent a demand for release to the police, alleging that the assets of the estate could not be held under an execution egainst Mrs Hayselden, and notifying them that it was the intention to ship cattle at once, and warning the police that any interference would be the signal for suits for damages. The Hawaii therefore will have other business than simply to carry supplies, for instructions were sent to make the attempt to ship the cattle, and as the police are firm, it is said that there will be a second act in the drama, as soon as the steamer returns.

TUESDAY

I I JANUARY 13

THE COMMISSION'S REPORT.

The special mail advices which the Advertiser prints this morning from its Washington correspondent, in the paragraph speaking of Senator Mitchell's work on the report of his commission, says: "The Senator has assured me that the Advertiser shall have the carliest possible word when the decisions of the committee are made up and ready for publication. It will be no surprise if a brief word about the decision reaches Honolulu by cable before this letter arrives there.

It occurs to the Advertiser that the telegram announcing what the commission had recommended may have preceded the actual filing of the report. The cabled message was skeletonized, and left this paper in some doubt as to whether the recommendations had been merely settled upon or introduced. The message in its brief way ran as ditch, fireclaims, Washington control lands, two districts etc.," to the con-cluding paragraph about "immediate the early forenoon of January 6, and to the surprise of the Advertiser the subject was not handled on that day by the Associated Press. That the news did not come later was hardly remarkable, inasmuch as this paper cabled the Associated Press not to duplicate it.

impression, however, that the news was an advance tip to our correspondent became strong and was conirmed a day or two ago when the President cabled inquiries as to the meaning of the protests from Hawaii. It was plain that no report from the commission had been filed in the Senate up to that time.

The only indications concurrent as t date with Mr. Walker's dispatch that the report had been filed, was a cable-gram printed in the Bulletin in wording quite different from his, that "Senators Mitcheil, Foster and Burton, the subcommittee on Pacific Islands and Porto Rico, who visited Hawaii last summer, rendered their report today."

It seems quite probable that the Advertiser's correspondent beat Congress itself with the news. Possibly the Senators thought that advance publication at such a distance as Hawaii would not matter, or they may have taken the time honored course of giving a tip so as to measure the extent of the public protests before actually putting theraselves on record.

SUBMARINES AND SUBMERSIBLES

The French government is moving towards an entire change in its method of Naval warfare. The chief of the Admiralty has recently published a long and exhaustive article in the Revue Maritime, in which he claims that large battleships will soon be useless. He believes that the Naval battles of the future will be settled by "submersibles and submarines." In the latest maneuvers of the fleet, the use of these methods was fully tested, and the French flicers are satisfied that they are abundantly able to contend with and destroy battleships, especially if those ships are near the shore and can be reached at easy distances. According to to this high official the submersibles and submarines have passed the experimental stage, and are perfectly reliaable as war engines.

Our own Naval officers have, for many years, kept in view this method of warfare, especially for defense, and many of them have not favored large investments in battleships.

Of course, the final test of these machines is actual war. As there has been no Naval war, between any of the great powers, for over fifty years, this final test may not be made for a long time to come. In the meantime, there will be persistent efforts made to improve this service.

There has been an extraordinary improvement made in the gunnery practice of the British Navy. By the aid of a new gun sight the gunners score twice as many hits as they formerly Admiral Charles Beresford says that if he had six ships, with gunners trained as Captain Scott of the battleship Terrible has trained his men, he would be willing to fight twelve ships with gunners not under a like training.

The lesson on the firing line, given by Spain, has been quickly learned by the British. Our Naval men must be up to some new "wrinkle" in order to maintain their superiority. It has taken the British nearly a hundred years to understand the cause of the superiority of our gunners in the war of 1812. Pracin gunnery is a most expensive

European navies. All this is good. The sooner the back heavy burden, the sconer the powers

THE WHITE MAN IN THE TROPICS.

The popularity in these Islands of athletic sports is an encourage ing sign of the times. Not only are clean contests of physical skill and endurance a means of keeping young men out of the groggeries and of entertaining crowds with manly spectacles, but they go a long way to solve the question of whether the white man can thrive in the tropics. The right kind of sport stops the physical and moral deterioration that comes to a northern race which, when transplanted to a warm climate, gives itself up to complete relaxation. Idleness his old home on Kaual under the vertical sun is the forerunner of decay, not only for whites but for aboriginal natives. In the days when the Hawaiians had saying that when the band reaches to struggle for existence by wresting food from the elements—when there he will be at the disposal of a they were farmers huntsmen, fishermen, warriors and navigators—they were as perfect a race physically as were the ancient Greeks.

The Hilo term of court opened last Monday, with Judge Little presiding. The coming of the white man, his paternal care, the creation of charities and easier means of livelihood, gradually changed the con-ritory ditions of native life until now the majority of Hawaiians do nothing by hard work unless driven to it by the last degree of want. few years ago a Coast writer said he had never seen but one Hawaiian doing anything and he was falling off a house. That story made city attending court. Mr. Blacow re- care H. S. Copeland, Pike Road, Ala. up in wit what it lacked of strict veracity; but there was enough of ports that during the year 1902, 275.46 truth in it to point a moral. The general result of this racial idleness is seen in both mental, moral and physical degeneration. Ka-vation of 4,000 feet the fall was 180 maainas who visit the new American port of Pago-Pago speak of inches.—Hilo Tribune. the natives there as resembling the Hawaiians of fifty years ago. They are stalwart active men and healthy, comely women and chil-They are stalwart active men and healthy, comely women and chil- of Honolulu attorneys will go over for dren, mentally alert and unmoral rather than immoral. Physically, the trial. The Richardson will case was the difference between them and their kindred, the modern Hawaiians, is strongly marked. But as certain as the time will come is settled upon Mrs. Wakefield in adwhen they shall lapse into sloth under conditions which enable them

to live without hard work, they will begin to decay. So much more the unacclimated white man. Coming from his crisp, ancestral climate, losing the stimulus of cold air and changing seasons, he must, unlike the natives, make himself over to meet the demands of a new world of warmth and ease. His vitality must stand heavier drafts than that of the native; he must constantly re-Sub-committee recommends new his strength and mend his stamina. He cannot do this by eclaims. Washington control eating more; rather should he eat less. Experience teaches that if he is to keep well-and keep his posterity well-he must take regumunicipalities." The telegram came in lar, systematic and even fatiguing exercise in the open air. This keeps his liver in order and his blood in active circulation and arrests decay. The benefit derived is not for himself alone but it extends Mirlam Auld have filed an answer obto the third and fourth generation.

Hence the value of any pastime here which employs physical strength. Young white men who frequent the cricket field and join the flying wedge and hurl the ball are doing themselves more good than they may know and are, besides, fitting the race for tropical conditions. Perhaps they are doing better than that. It may be that they are creating a finer type of the race than the one their fathers brought from the old home. Open air life the year around the question of pardons some day this does wonders for the white man in California who now averages better in height, breadth and vitality than his Eastern brother; and, Oahu prison who have been recomwith proper exercise added, it ought to have the same effect here. Jallor Henry for a pardon, and these The white Hawaiian of 2003 should be a physical giant and have a long average of life. If he is he will have his ancestors of 1903 to thank.

But there is one peril in athletics, a purely moral peril, which every young man of sense should avoid. That is the betting habit. It has ruined scores of people in Honolulu and we know of no instance where it has enriched one. Eliminate this danger and athletics becomes one of the most satisfactory of the uses to which a young or middle-aged man can devote his spare time.

THE PLAGUE IN MEXICO.

The plague will not be wanting in good to Mexico if it compels the people in favor of the Mexican town.

Keeping clean is one of the standard covery. marks of a higher civilization. The Dr. Lorenz's methods are simple. In progressive nation is the one that builds dealing with dislocations of the blu he houses with bathtubs in them, and streets with sewers. The conquering does not use the knife. He pulls the steam yacht Vallhalla, which is the race is the one that buys the most soap. The Anglo-Saxon takes to water like a duck. The Japanese, who are keeping down plague at home, are forever bathing; the Chinese merely rub themselves once in a while with a damp cloth or some oil, and the Mexican peon never gets wet except when it rains. In studying the causes of Latin decline, aversion to the bath should not be overlooked.

When the plague gets into a population like that of Mazatlan or Guaymas or La Paz, it is likely to make a long stay. Cleanliness would seem to be an easy remedy, but it may be doubted that even the resources of President Diaz will be more than enough to force an external pretence of sanitation Against any household innovation like soap and water, stand the traditions of a thousand years.

THE SALE OF FARM PRODUCTS.

A gentleman living at Napoopoo, Hawall, writes the Advertiser as follows: In Tuesday's paper (January 2) you

say; "On all the Islands there is a scarc-ity of taro." I have about three scres instance of those whose structure and our Navy during the late war with ready to pull, and cannot find a purabout twenty bags at 75 cents per bag. I hear of many acres where the taro is I put mine in tara was \$2.50 per bag; now it does not pay to pull.

And yet at all the principal markets tare is scarce and high. In some of the business, and was avoided by all the minor ones there is a glut. The trouble seems to be in the lack of a thoroughly organized business system at Honolulu of the war camel is broken by the by which all growers may be kept apprised, by a reputable buying agency, of will abandon the building of fleets and the state of the demand for their products. As it is, many people consign If our government should adopt the farm commodities to Ronolulu without views of the French, as a confirmation special inquiry, either as to the state of the market or the reliability of the consigners, and the results are often disappointing. Other grow their products at a distance from commercial centers and fry to dispose of them in the neigh-borhood. The system is a hit or miss

and it usually misses. What Hawaii needs for the encourassument of the small farmer, is a fight the work which falls to the great hospispeculative produce gachange. Includental to this, lower freight rates Rounda t Pater

HAWAII AND ITS **POWER TO FRAME** MUNICIPALITIES

The Plans for a Honolulu Weather Station May Be Delayed Eighteen Months.

(SPECIAL MAIL ADVICES TO THE ADVERTISER)

WASHINGTON, D. C., Dec. 29.-The Hawaiian legislature has full power to organize municipalities and to authorize those municipalities to assess taxes and collect the same. As much has already been announced to the Advertiser by cable but by this letter I am able to send the text of the decision and likewise to specify some of the restrictive features, which do not appear in the decision itself. The authorities in the case were examined in the Department of Justice but transferred to Assistant Attorney General Van Deventer, whose office is in the Interior Department and who rendered the decision, which the Secretary of the Interior approved. Judge Van Deventer is one of the soundest lawyers in the employ of the government and has had wide experience in examining such abstruse ques-

But while the Territorial legislature has power to authorize the assessment and collection of taxes for municipal purposes, it must be within the restriction of Federal statutes affecting the Territories. One of these limits the amount of bonded indebtedness, which a Territory may assume, as shown in a law approved July 30, 1886, and printed in 21 United States Statutes, page 170. Still other restrictions on the powers of Territories to impose municipal taxation are found in a statute approved June 8, 1878, and found in 20 United States Statutes, page 101. These are not referred to in the decision of Judge Van Deventer but I was assured at the Interior Department today that those statutes constitute the chief restrictions in the general laws affecting territories and therefore applying to Hawaii, as to the taxation schemes.

TEXT OF THE DECISION.

The complete text of the decision is as follows:

December 22, 1902.

The Secretary of the Interior. The Secretary of the interior.

Sir: The Governor of the Territory of Hawaii has addressed a communication to the Department, inquiring (1) Whether the Hawaiian legislature may empower counties, towns and city municipalities, in the Territory, to impose taxes upon residents and property within such counties, towns and city municipalities, and provide for the collection of taxes so imposed; and (2) As to the extent of power which may be granted to such corporations. This communication has been referred to me for an opinion upon the questions presented.

The power to create such counties and towns and city municipalities within The power to create such counties and towns and city municipalities within the Territory, and provide for the government thereof, is specifically conferred upon such legislature by Section 56 of the act of April 30, 1900 (31 Stat., 141,151.). As will be seen by reference to Rogers vs. Burlington (3 Wall., 654, 662.), and Board of Trustees, etc., vs State of Indiana (14 How., 268, 278.), the same power is conferred by the following provision in Section 55 of the

That the legislative power of the Territory shall extend to all rightful sub-

jects of legislation.

This provision of Section 55 is identical with a provision in Section 6, act of June 12, 1838 (5 Stat., 235, 237), entitled "An act to divide the Territory of Wisconsin and to establish the Territory of Iowa"; with a provision in Section 6, act of September 9, 1850 (9 Stat., 453, 454.), establishing a territorial government for Utah; and with a provision in Section 1851, Revised Statutes,

common to all the Territories.

With respect to the provision as it appears in Section 6, act of September 9, 1850, the Supreme Court, in Cope vs. Cope (187 U. S., 682, 684), said:

With the exceptions noted in this section, the power of the Territorial leg-

With the exceptions noted in this section, the power of the Territorial legislature was apparently as plenary as that of the legislature of a state.

In passing upon the provision as found in Section 6, act of June 12, 1838, the Supreme Court, in Rogers vs. Burlington (3 Wall., 654, 662) held, in effect, that under it the Territorial legislature of Iowa could create such public corporations as counties, cities and towns, and clothe them with all the powers, functions and attributes necessary to effectuate their objects. Among the powers necessary for counties, cities and towns to possess is the power to impose these and provide for their collection.

the powers necessary for counties, edges and towns to possess is the power to impose taxes and provide for their collection.

While the legislative branch of a government (State or Territorial) has the exclusive power of taxation, it may, unless restricted by organic law,, delegate this power to counties, cities and towns. When such corporations are created, the power of taxation "is Vested in them as an essential attribute for the purposes of their existence, unless its exercise be plainly prohibited."

—Dillon on municipal corporations, 2d Ed., Vol. 2, Sec. 741.

All the Territorial legislatures, with the exception of the Hawalian, have, under the above provision in Section 1851 of the Revised Statutes, provided for the creation of counties, cities and towns, and empowered them to exercise all the powers and functions necessary for their existence and government, including the power to impose taxes and provide for their collection, and the authority of such legislatures in the premises has never been questioned in the Supreme Court of the United States. Board of Trustees, etc., vs. State of Indiana (14 How. 268, 273.); Rogers vs. Burlington (supra, p. 662.) Union Pa-

cific Railway vs. Cheyenne (113 U. S., 516.).

By the act of April 30, 1900 (31 Stat. 141.), the legislative branch of the government of the Territory of Hawaii has, subject to Congress, the exclusive power of taxation within the Territory. Congress has not prohibited such legislative branch from delegating thispower.

In express terms, the act authorizes the legislature to create counties and town and city municipalities within the Territory, and provide for the government thereof. Impliedly, the act confers upon such legislature the authority to clothe such corporation with all the powers, functions and attributes necessary to effectuate their objects and necessary for their existence and government, including the power to impose taxes and provide for their col-

tion. Very respectfully WILLIS VAN DEVANTER. (Signed.) Assistant Attorney General E. A. HITCHCOCK, Secretary.

AWAITING THE CABLE.

The Postal telegraph office in this city has been waiting for two or three days the ticking of the wires that shall announce the opening of the Pacific Commercial cable to Honolulu. The Associated Press dispatches have announced from day to day the progress of the cable ship across the Pacific and the last bulletin was the buoying of the cable end in 450 fathoms of water within sight of the island of Oahu. The progress of the cable ship has been followed by many public officials here with the keenest interest and two or three cablegrams have been filed at the postal office here for two or three days waiting to go forward at a moment's notice to Honolulu.

AS TO A WEATHER STATION.

Secretary of Agriculture Wilson and Prof. Willis Moore, chief of the Weather Bureau, were discussing a few days ago the wisdom of some time establishing a weather station in Honolulu on the completion of the cable. There is authority in the Agricultural Appropriation law of the current year for the establishment of a weather station

in Honolulu but no specific appropriation has been made therefor.
"In due time," said Prof. Moore to me today, "we shall take up the question of a weather station in Honolulu and seek an appropriation for the work, but it will not be this year, probably not for eighteen months yet. Honolulu is too far distant from the Pacific coast to furnish weather warnings of much value to the mainland. This is for the reason that a storm might pass the Hawaiian Islands and die out before it ever reached sight of the mainland. And again a storm might develop many hundreds of miles this side of Honolulu and yet strike the mainland with tremendous force. If we could have four or five ships anchored in the Pacific ocean some hundreds of miles apart, they would form excellent observation points for the establishment of a system of weather observations for the benefit of the Pacific Coast.

THE MITCHELL REPORT. Senator Mitchell continues to drive in the reports his special sub-

HON, ABRAM S. HEWII NEW YORK IS DYING

(ASSOCIATED PRESS CABLEGRAMS)

NEW YORK, Jan. 11.-Abram Stevens Hewitt, iron and steel manufacturer, former Congressman and ex-mayor of New York, is

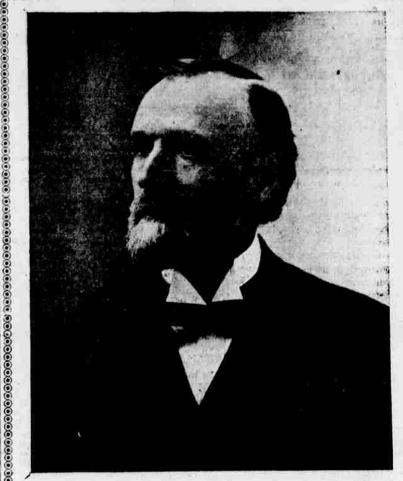

Mr. Hewitt is now over eighty years of age, and a multi-millionaire. He has led an active life and this has told greatly on his constitution. A New Yorker by birth he has always made New York his field of operations. He was a member of Congress from 1874 to 1887 and then became mayor, serving until 1889. During the seventies and eighties he was very prominent in national democratic politics as a Presidential aspirant.

Thousands in New York are personally interested in Mr. Hewitt as he was the secretary and organizer of the Cooper Union which has done much towards educating the middle and poorer classes of New York and in the advancement of science and art. Hewitt married a daughter of Peter Cooper, the philanthropist, for whom the Union was named, and who provided the funds for its endowment.

CONGRESSMAN TONGUE DEAD

WASHINGTON, Jan. 11.-Congressman Thomas H. Tongue of the first district of Oregon died today.

He was one of the best known of Western Republican Congress-men. He was born June 23rd, 1844, in Lincolnsire, England, and has

The Late Congressman Thomas H. Tongue, of Oregon.

lived in Oregon since 1859. He was a graduate of the Pacific University of Oregon and was admitted to the bar in 1870. He engaged in the practice of law at his home at Hillsboro and at the same time be- direct to New York. came interested in a large way in farming. Mr. Tongue did not develop into a politician until eighteen years after first taking up law and his first public office was that of State Senator from 1888 to 1892. He was chairman of the State Senate's Judiciary Committee and in 1890 was chairman of the State Republican Committee and for the next four years was prominent in the organization and management of the many Republican clubs established in Oregon. His State sent him to the 1892 convention in Minneapolis as a delegate and he was the vice-president for Oregon of that convention.

From this time on to his death his career in politics was an active one. In 1894 he was chairman of the State Republican Convention and was a member of the State Central committee from 1886 to 1896 He was chairman of the Congressional committee of his district from the time of its organization until he received his own nomination for Congress. He has served in Congress since 1897.

committee took in Hawaii the past summer. I called at his rooms in the Cochran Hotel a few nights ago. He was up to his ears in a mass of papers and almost nervous from the exhaustion of his labors. It is as though I had taken thirty cases in the Supreme Court of the United States," said the Senator to me, "and had to make out a careful brief in each one of the cases. It involves an infinite amount of work.

The Senator has assured me that the Advertiser shall have the earliest possible word, when the decisions of the committee are made up and ready for publication. It will be no surprise if a brief word about the decision reaches Honolulu by cable before this letter arrives

BURTON AND CHINESE.

Senator Burton is very active in behalf of Chinese labor for the islands, along the line of the amendment which he pressed in the Senate a couple of weeks ago. President Gompers of the American Federation of Labor, whose offices are in this city, has been considering the subject and has had some conferences with Senator Burton about the matter. It is said that Mr. Gompers is not entirely adverse to some such amendment as Senator Burton proposed. He is looking into the matter carefully and if he arrives at the conclusion with labor leaders that Chinese may be admitted to the Hawaiian Islands under careful restrictions as to their return to the Celestial Kingdom, there will be some strong hope of such legislation in Congress. But it is yet too early to make any confident predictions on the subject.

BEET SUGAR CONFERENCE

The meeting of the beet sugar conference in this city within a few days is of overshadowing importance on the Cuban question, because of the influence the decision of that conference will have upon the ratification of the Cuban reciprocity treaty, now pending before the Senate Committee on Foreign Relations. The way seems pretty smooth for the ratification of the treaty, but as I wrote in a previous letter, there are numerous little complications, no one of which would be of serious effect but all of which may delay or even defeat the ratification. But just at present the conservative forecast would be that the treaty will be ratified.

The holidays have not been prolific of news, interesting to Hawai ians. There will be nothing in the line of legislative activity for a week yet for Congress does not meet till January

THE COLD CAUSES MUCH SUFFERING EAST AND ABROAD

Heavy Winter Weather in Great Britain and Floods in Ireland Are Reported.

(ASSOCIATED PRESS CABLEGRAMS.)

LONDON, Jan. 11.-Severe cold now prevails throughout Great Britain and serious floods are reported from Ireland.

CHICAGO, Jan. 11.-Extreme cold is reported throughout the Mississippi Valley. In Minnesota lakes and streams are deeply frozen and much suffering has ensued.

NEW YORK, Jan. 11.-Sharper winter weather accents the need of fuel. But little coal is reaching the city and this is being doled out in small quantities. Hotels and all public buildings where heat is free are thronged with people who have no other business there except to keep warm.

ALBANY, N. Y., Jan. 11.—The forest sections of New York State are being denuded and many picturesque places ruined in the effort to provide wood fuel for large towns and cities. Thousands of cords of wood are shipped from here to New York daily.

PHILADELPHIA, Jan. 11.-It is stated that, owing to the scarcity of coal, several of the largest iron mills and factories will be run

HERMOSILLO, Mex., Jan. 11.-Two deaths have occurred here from bubonic plague. The disease was brought by Chinese from the coast on their way north. It is spreading in the interior along lines of travel. Coast ports have quarantined against Mazatlan where the situation is worse.

Hermosillo, the capital of Sonora, is a city of 15,000 people. A' railroad connects with Guaymas, a port on the Gulf of California, north of Mazatlan. The Sonora railway, which runs through Hermosillo, connects with the Southern Pacific system.

WASHINGTON, Jan. 3.-Dr. Herran, the Colombian Charge here, and Mr. Cromwell, counsel for the Panama Canal Company, called at the State Department today by arrangement, separately, though in pursuit of a common purpose. Naturally, in the incomplete state of the canal negotiations, the State Department officials are unwilling to discuss the details. Mr. Cromwell, however, was willing to be quoted to the effect that now in the judgment of the canal company officials the negotiations are progressing satisfactorily, and promise to result in a settlement and the signing of a treaty.

(SPECIAL CABLE TO THE ADVERTISER.)

WASHINGTON, D. C., Jan. 10.-The House Committee on Territories unanimously adopted a favorable report on the Hawaiian Fire Claims bill.

The Caypless election amendments were shelved.

The Coinage Redemption bill, having passed both houses, has gone to the President.

NEW YORK, Jan. 3.-Henry C. Rouse, chairman and president of the Missouri, Kansas and Texas Railroad who accompanied General Miles in his trip of inspection of the American army in the Philippines and in China, left Peking on December 30th, according to advices received in this city and is now returning home by the Siberian railway. After a brief stay at St. Petersburg, Mr. Rouse will proceed

MANILA, Jan. 11.—Governor Taft is being strongly urged to remain in the Philippines. At a great popular demonstration the Governor assured the people that, if he left, no change in the policy of the insular government would ensue. Governor Taft's administration has greatly strengthened popular respect for the United States.

LONDON, Jan. 11.—All Europeans have now left the city of Fez. The Sultan is preparing to attack the rebels.

DENVER, Jan. 11.-Freight trains collided near here in a snowtorm. One man was killed and two injured.

PHILADELPHIA, Jan. 11.—Edward Powers, a merchant of this city, has been killed by a highwayman.

CHICAGO, Jan. 12.—Reports from every part of the upper Missisippi Valley, and the Eastern and Middle States show that the cold s intense all over this great stretch of territory. Suffering both of live stock and of human beings is intense. The suffering among the people is greatly increased by the fact that coal is so scarce and dear. Many deaths, some of them from actual freezing to death, and others from the continued exposure to the cold weather with insufficient clothing and fuel, are reported from all parts of the country.

ROME, Jan. 12.—Negotiations for raising the Venezuelan blockade are proceeding without any obstacles having developed so far. The only question remaining now is that of providing a guarantee for the payment of the awards of damages that will eventually be made. It s expected that when a satisfactory guarantee is made the blockade will be abandoned and Venezuelan commerce may be resumed.

WASHINGTON, D. C., Jan. 12.—The House Committee on Territories has favorably reported the Senate bill for payment of the claims against the Territory of Hawaii for losses incurred in the suppression of plague in Honolulu.

SOFIA, Bulgaria, Jan. 12.—The chiefs of the Macedonian revolutionary movement in Bulgaria have decided upon an insurrection this spring. They will begin operations next April.

SAN PEDRO, Dec. 29.—It is authoritatively stated here that the Pacific Wireless Telephone and Telegraph Company will begin the erection of a large station in San Prancisco about January 10th for the purpose of establishing trans-occanic wireless communication with Henolulu and points along the Alaskan coast, as well as the interior of that country. The company will within a few months prepare for an extension of the system to the Philippines, Chica and Jaros.

"It is the company's intention," said General A. L. New, manager of the Pacific Company, today, "to begin work on the San Francisco station some time in January. The equipment will be large and costly, and the instruments installed will be of the post powerful make. We hope to establish a complete system of wireless communication with Homolulu within three or four months, so that the stations may be thrown open for commercial business at once.

"We are estimated that there will be no trouble in setting threshold, as our experiments already made between White's point and Avalon demonstrate clearly that with possibly a little more power the distance can be overcome."

VENEZUELA WANTS PRESIDENT CASTRO TO ABDICATE

MIRAFLORES, THE PALACE OF DICTATOR CASTRO AT CARACAS.

WASHINGTON, Jan. 9.—President Castro is being urged to abdicate. With his country hopelessly in debt and foreigners blockading his ports to insist on payment, people in Venezuela are beginning to ask where all the money has gone to. Much of it has been shipped to the continent where Castro has a bank account said to amount up into the millions. The Republic now owes the Bank of Venezuela about \$3,000,000 and its credit is stopped there and in every other direction. The better element of the country say that the only thing that will save it now is to get rid of Castro and another revolution is imminent with the accomplishment of this in view. LONDON, Jan. 9.—Great satisfaction is expressed here in Government circles over Castro's readiness to submit to the demands of the Allies. This, it is believed, will greatly improve the situation.

Venezuela has suffered three years of maladministration under Castro. "The man of many troubles" has ruled his country as an absolute dictator although he is only supposed to be the head of a republic. Ever since Castro took charge four years ago he has been spilling blood at home and diplomatically fighting everyone abroad. Castro overthrew President Andrade on the ground that the latter was a usurper and then quickly stole the whole country himself. Since then by a system of blackmail and practical brigandage he has coined money, slain many people, warred with Colombia, and placed his country under the feet of foreign powers.

Even now that arbitration of the latest difficulty is in sight it is probable that Castro will not be president much longer and that he will never resign his office, but will quietly leave the country to spend the remainder of his life, as a millionaire, among other rich political outcasts in Paris.

WAITING

How the Honolulu News Was Received There.

San Francisco kept busy speculating over the delay in landing the cable Mrs. tween the message sent when the Mrs. S. A. Gilman, Honolulu..... ment that a connection had been made. Mr. In its issue of Jan. 2, the chronicle

San Francisco and Honolulu are con-passed under the ocean through 2610 Miss Pope, proceeds of recital at miles of insulated rope a few moments after 11 o'clock last night. The wire worked perfectly.

Mrs. A. Robins, Madison, Ind....
Y. P. S. C. E., Central Union

worked perfectly.

The Silvertown just before splicing the ends, some thirty miles off shore from Honolulu, telegraphed both ways for the land stations to wait till 11:10 o'clock, San Francisco time, before trying the cable. That time was desired to insure the perfect hardening of the gutta percha in the splice after the joint should be lowered overboard from the ship in about 2500 feet of water.

at Honolulu and in the cable office on most dark on the 24th, one at 9 o'clock, and 7 new garments. to signal first.

A few moments after 11 o'clock, be fore the time limit was up, the signal went from this end to Honolulu. It

"S. N. (the regular cable call to attract attention) N. O. K. Hu." This practically meant: "Hello! All right, Honolulu.

Instantly the little needle began zigtagging with its reply from Honolulu, making queer little sawtooth lines along the receding narrow ribbon of white paper. The operators eyed it keenly. All it spelled out was: "Min u are reversed." But they instantly interpreted that as "Wait a minute, you nuts, 28 new garments, toys, books are reversed."

'Now repeat," cabled Honolulu. "How are you?" asked San Franciso, meaning the condition of the cable

"Rather wandering," replied Hono-

"We are nicely," assured San Franciso, meaning this end of the cable was

That first little response from Honolulu came into the San Francisco office at exactly 11:03 o'clock. It was then exacty 8:03 o'clock. It was Honolulu, the time difference being two hours and wenty-two minutes and a few seconds,

Hilo Bociety.

The Hilo Cotillion Club gave a mas-querade bail at the Hilo Hotel New Year's night at which over a hundred guests were present, forty or fifty going masked. The costumes comprised every conceivable variety of makeup and in nearly all cases effectively concealed the identity of the wearers. The music was furnished by a Hawaiian quintette. The dancing was in the din-ing room which had been lavishly decorated. The next dance to be given by the Cotillion club will be on the evening of Pebruary 12, a grand colonial german being planned for that date.

Tax Office Changes.

Numerous changes have been made in the personnel of the Tax office force ple, among whom are: and several merited promotions are on the list. James Hoit has been advanced. to the deputyship made variant by the Mrs. retirement of Robinson. George math. Mrs. is has been given a deputyship. Mrs. Thomas King and Paul Jarrett have been promoted while clerkships have been promoted while clerkships have been flied by the passes of Glovanni things.

Campbell Estate Holdings Sold.

By the transfer of the holdings of the Campbell estate in the First National Bank and the First American Savings and Trust Company to a syndicate composed of friends of the management, all the complications which have surrounded those institutions are cleared away, and when the meeting of the first named is held on Tuesday next it will have for its business the reelection of the present board of directors and the officials who are now in control of its business. The announcement of the deal was

made yesterday, and, although the names of the buyers are withheld, it was the gossip of the street that a combination of capitalists were interested and, indeed, one of the number whose name was connected with the rumors refused to deny the statement last evening. The names which have been connected with this, one of the largest recent deals in local shares, are those of Cecil Brown, M. P. Robinson, L. L. McCandless, August Dreier, A. Kunst, Harry Armitage, W. G. Cooper, and others. All of these interests are in accord with the policy of the control of the institution, and the stock will therefore be voted in connection with these previous holdings, which, it is said, means that of the 5,000 shares there will be nearly 3,000 in the majority party in the First National meeting. This showing is such that it is believed that every cloud which has been projected across the horizon of the institution will be dissipated, and that the sers, 3 waists, 2 pairs slippers, 2 large bank will continue in its course of suc-

The sale of the shares held by the The Pacific Hardware Clerk, palette. Campbell estate was the result of a The Pacific Hardware Co. sent 1 box long negotiation. SAYS THERE WAS NO LOSS

Filed Brief in Income Tax Appeal.

The brief filed for the assessor in the Hawaiian Commercial Company income tax case in the Supreme Court sets out many points of general interest to the plantations. The assessor contends that the abandoned property cannot be deducted from the incomes. "The Hawaiian Commercial and Sugar Company has not lost any income by erecting improvements on its plantations," the brief states, "neither has its property as a whole depreciated in value by reason of these improvements. On the contrary, its property has been improv-ed thereby to the extent of the value of the added improvements, and it has thus put itself in a position to increase its income, and we contend that even forced abandonment of property does not constitute a loss within the meaning of the statute in question. To constitute a loss the injury must have accrued by reason of some act or circumstance not done or created by the owner of the property.
"In this case the use of the old prop-

erty was voluntarily abandoned by the corporation because by such abandonment the company evidently considered that it would enhance the value of its property as a whole, and eventually increase the profits.

"Such circumstances do not constitute a 'loss' in any reasonable sense of the word."

A Note of Dissent.

The claim of certain Hawaiians for \$1,500,000 for the destruction of Chinatown in Honolulu in the efforts of the health officials to stamp out the bubonic plague in that city, which is now before the committee on territories of the House of Representatives, involves an interesting question. That is, whether the United States government shall be held liable for expenses incurred by the government of our insular possessions in the performance of their duties. This claim has been referred to a sub-committee on territories composed of Representatives Powers of Maine, Cushman of Washington, and Robinson of Indiana, and these Congressmen have been busy giving hearing to the claimants and their wit-This sub-committee will prepare its report at the conclusion of its labors and on their report will depend the action of the full committee and probably of Congress. The matter is being watched with a

great deal of interest, especially among Democratic members of Congress. These say that if the claim should be acted on favorably it will result in the bringing forward of similar claims against the Federal government by inhabitants of the Philippine Islands and Porto Rico for damages sustained by them in enforcing the quarantine regulations. If Congress should pass this claim it is not easy to see how it could discriminate against claims of a similar nature from our other possessions. Democrats say that the insular governments ought to be held responsible, if anybody is, for such claims, and they purpose to see that this shall be done. -Washington correspondence Chicago

COFFEE GROWERS

Coffee growers of Hawaii will be represented at Washington to urge the passage of the bill, which is to give a bounty of four cents a pound on coffee. if the plans which are now under con-sideration go through. Among the arrivals in the Mauna Loa yesterday were A. L. Louisson, who has been most ac tive in the propaganda for the granting of a bounty on coffee, and who, as well, by his work, has stirred the coffee growers of Porto Rico to action.

Soon after his arrival Mr. Louisson met with others who are interested in growing of coffee, and a genera talk over the situation was had. There was expressed the desire that some one familiar with the industry here go on to Washington, and it was announced later in the day that probably Mr Louisson would accept the commission If so he will leave as soon as possible for the mainland.

The idea is to have some one, well up in the trade, at the capital so that in the event of any information being de sired he will be able to furnish it.

Berriman Deserves Appointment.

Shipping men are generally pleased with the appointment of Captain S. F. Herriman to the command of the Sonoma. Captain Herriman has not been long on the Pacific but had a good record on the Atlantic and has handled the Alameda well during the time he been on the run between San Francisco and Honolulu.

Chamberlain's Cough Remedy is intended especially for coughs, colds, croup, whooping cough and influenza-It has become famous for its cures of these diseases over a large part of the civilized world. The most flattering testimonials have been received, giving the hole presented a some surface of the hole presented a some surface of the proceeded to examine it. It was was an artificial hole, and peering into it he discovered a large number, nearly a dozen, ancient calabashes, and fragments of tapa cloth which had evidently been hidden there many years ago, perhaps with the bones of a dead chief. The calabashes with the bones of a dead chief. The calabashes are of all dangerous results. It is expectally prized by mothers because it contains nothing injurious and there and cures civilized world.

EDWARD M. BOYD.

Miney and not stocks absorbed the attention of the Street during the pasweek; every broker had something to say of what he considers the in funds, and yet speaking in a general way, the year has opened with many features of brighter prospects for Honolulu and Hawaii as well. Stocks are changing hands at fair prices, the mortgage market is firm, with money be had on gilt-edged propositions, and the tone of the market continues better, in that strong hands are taking over the shares which are coming out. Mercantile orders are reported better though collections do not show any increase, and everyone is looking hopefully to the spring sugar shipments to bring perfect contentment.

The fluctuations of the sugar market have been reflected only slightly in the local share market, in this furnishing a contrast to the Coast Exchange transactions. In San Francisco each change of a fraction means that the brokers at once begin to hammer or boost sugar stocks. There have been several changes in the quotations there which can have no other interpretation, and the market is justly styled a broker's list. Here the shares of local corporations are not dealt in on margin, and the result is that investors make the price on their accurate knowledge of the estate, and the market is

Reports which came down from San Francisco recently indicate that Makawell is now quiet there, and as well that two Honolulu capitalists had a hard race for a block of the stock, which, in the gossip, is placed at \$200,000 in value. There was for some time a sharp advance in the quotations of Makaweli, due in part at least to the differences of opinion of Strassburger and Alexander & Baldwin, which led to buying on both sides. According to the reports, which I give as they are gaining currency, J. A. McCandless, whose hurried departure in a foreign ship some time ago caused some comment, heard of a chance to get hold of a fair block of the stock. He made arrangements for taking up the shares and slipped off, but he was only a few days ahead of J. B. Castle, who had the same information but just a little later. According to recent 16. blk. 37. Kaimuki Tract, Honolulu, reports Mr. Castle's agents made the turn, and the shares are now with the

majority holding of the estate. Incidentally the delay in issuing the Hawaiian Sugar Company's bonds which has been delayed for some time, will not continue longer, and this brings up the tale of the trip of S. E. Damon to Scotland. When the recent decision of the Hawaiian Sugar to issue bonds for the construction of new works was reached, an examination of the titles to the land disclosed an irregularity in the record, which while slight was sufficient to make a flaw which had to be corrected. When the plantation was organized, the options from Gay, Robinson and Sinclair were transferred from George W. Macfar lane to Sir William Rennie Watson. The plantation was decided upon on one of the visits here of Sir William, who saw the lands and at once said he would float a corporation of \$1,000,000. When Col. Macfarlane went on to London and met the Scotch capitalist the Fowlers were invited into the deal and they entered the combination taking half the stock. Henry P. Baidwin arrived, with E. M. Walsh, and wanted to get in and the corporation was capitalized at \$2,000,000, Mr. Baldwin taking a half million, the other half million being divided between Scotch and Hawaiian capitalists.

This made it wiser that the corporation be organized here, and the retransfer of the options from Sir William Watson to the new company was made by Col. Macfarlane under a power of attorney. But when the deeds were filed, the power of attorney was not placed on record, and later it disappeared. So the flaw in the title came about, and when the bond issue came up this had to be cleared away. It could not be done by correspondence and Bishop & Company sent S. E. Damon, armed with an affidavit by Col. Macfarlane, setting forth that his action had been ratified by Sir William Rennie Watson as shown by letters, to secure signatures of the heirs of the Watson estate, Sir William having died in the meantime, to a contract of ratification. This he has done and now the issue will be completed. Sir William was the head of the sugar machinery making firm of Glasgow, and had large interests here, he having furnished many of the older plantations with their sugar house equipment.

One of the first effects of the combination of the local stock exchange with that of San Francisco has been a nearer approach in the quotations. The discrepancies are about evenly divided as to the advances being here or abroad, the sale yesterday of 150 Hawaiian Sugar at \$26 showing a tendency to approach to the San Francisco price of \$28. The local figure \$15, which was paid for 200 Honokaa during the week fixed the price % above the Coast price. There has been little added trading on account of the new conditions but this will come later, in the opinion of brokers.

The greatest amount of the trading of the week past has been in Ewa which has led for some months. With a sale of 150 shares at the beginning of the week, at \$23.50 and 105 more later at the same, the market was quiet until at the end there were further sales of 500 shares, representing two holdings, at prices about the first named figure and \$23.50. McBryde was fairly active, 400 shares changing hands at \$4.50, the old price. Kihel was fairly sustained with seventy-five shares sold at \$8.50, but twenty-five Kahuku went at a point off or \$21. There was a single sale of Olaa at \$10.75, while Oahu scored the advance of the week with seven shares transferred at \$95. December report shows sales of 3325 shares, Ewa having 1311 and McBryde 762.

Outside of sugar shares there was little doing, Honolulu Rapid Transit alone scoring. This stock has now gone to \$70, a substantial advance, and is about the strongest stock on the market. There were ninety-two shares sold. One Hawaiian Government bond of \$1,000 was sold at \$99, which is a point and a half above former quotations.

San Francisco prices of yesterday were: Hawaiian Commercial, \$45%; Honokaa, \$14%: Makawell, \$28: Onomea, \$23, and Paauhau, \$16%.

Mail sugar advices yesterday were on the old basis of 3.944c., which is above the recent cable advices, and the remark is made in them that the market is weak. There were cable reports of a ten cent advance in refined, but this means nothing but the struggle for territory which is always going on between refiners.

REAL ESTATE AND BUILDING.

There is still stagnation as the rule in realty, though the small lot market is brisk in the suburbs. There have been the usual sales at both ends of the city, Kaimuki having a record of a dozen lots in the past two weeks. Downtown real property is quiet and there is little offered at figures which seem to attract buyers. There has been one small sale of River street improved property, W. R. Castle buying, but the price showed no change in values.

The most important transaction, in more ways than one, was the sale consummated yesterday by the land department of the B. F. Dillingham Company, in handling the transfer from the Oahu Railway and Land Company and the Dowsett Estate, to Wilder & Company, of two acres at Kahololoa. immediately back of the Oahu prison. The land will be used for lumber yards the buyers being given right of way for service tracks from the railroad wharves, while a switch from the line will be run in. The yards will be used by March, and it may be predicted that there will be a general exodus to that end of the harbor if the present arrangements prove successful. The only downtown building under immediate consideration is the new

structure for the Robinson estate, on the site of the burned block in Queen street. This will be a two-story structure, of brick, and will cost about \$30,000.

The iron for the new O'Neill building has arrived, and the work of placing in it has commenced.

The excavation of the foundation at the corner of Beretania and Fort streets is going on, but Contractor Fred Harrison, the owner of the lot, will

DR J. COLLIS BROWNE'S CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE. Coughs, Colds, Asthma and Bronchitis.

DR. J. COLLIS BROWNE'S CHLORODYNE.—Vice Chancellor SIR W. PAGE WOOD stated publicly in court that DR. J. COLLIS BROWNE was undoubtedly the INVENTOR of CHLORODYNE; that the whole story of the defendant, Freeman, was deliberately untrue, and re regretted to my it had been sworn to. See the Times, July 18, 1864.

DR. J. COLLIS BROWNE'S CHLORODYNE is a liquid medicine which assuages PAIN of EVERY KIND, affords a caim, refreshing sleep WITH-OUT HEADACHE, and INVIGORATES the nervous system when exhausted. Is the GREAT SPECIFIC FOR CHOLERA, DYSENTERY and DIABB-HOEA.

The General Board of Health, London, reports that it ACTS as a CHARM; one dose generally sufficient.

Dr. Gibbon, Army Medical Staff, Calcutta, states: "Two doses completely

Dr. Gibbon, Army Medical Staff, Calcutta, states: "Two doses completely cured me of diarrhoea."

DR. J. COLLIS BROWNE'S CHLORODYNE is the true paliative in NEURALGIA, GOUT, CANCER, TOOTHACHE, RHEUMATISM.

DR. J. COLLIS BROWNE'S CHLORODYNE rapidly cuts short all attacks of EPILEPSY, SPASMS, COLLIC, PALPITATION, HYSTERIA.

IMPORTANT CAUTION,—The immense Sale of this Remedy has given rise to many Unscrupulous Imitations.

N. B.—Every Bottle of Genuine Chlorodyne bears on the Government Stamp the name of the inventor, DR. J. COLL' BROWNE, Sold in bottles, is 1½d, 2s 9d and 4s 4d, by all chemists.

Sole Manufacturers. J T Davenport. 33 Great Russell St., London.

BERTILLON SYSTEM FOR

Chinese entering ports in the Hawatian Islands from China and elsewhere are to be measured the same as criminals if Secretary of the Treasury Shaw's recommendation that Congress

allow the Treasury department to adopt the Bertillon system in the enforcement of the exclusion laws be accepted.

All Chinese look alike to the inspectors, and photos have been found worthless. The Chinese have found that they can leave the United States and return to China, where there are regularly organized companies willing to buy thier certificates with the photos and then send some coolie back to America.

Secretary Shaw believes the only method by which the Chinese can be prevented from fraudulently entering the United States is by measuring them with the Bertillon system. This system is now regarded by the police and government officials as the only sure method of identification There are certain physical measurements which cannot be counterfeited.

Secretary Shaw proposes that when a Chinese wants to return to China he shall be measured, and these measurements put on his certificate. On his return if the measurements do not agree, he will be deported. Secretary Shaw also believes it would be a good plan for Congress to provide that all Chinese now in the United States shall be compelled to present themselves to the proper officials of the treasury and be measured for future identification.

This system of measurement derives its origin from Alphonse Bertillon of Paris. In 1880, as chief of the identification bureau of the police service of Paris, he established a system of measurements that made the recognition of lapsed criminals practically a certainty. Of the 700 identifications which had been transmitted to him by the examining magistrate during the six preceding years, not a single error had been found. His method was adopted throughout France, with a central bureau in Paris, where there occurred a speedy and most marked decrease to the number of professional

take a threefold form: consisting of measurements of the bony and least changing parts of the adult, that is, the length and breadth of the head, length of spine, forearm, finger, nose, ear, etc., giving color and other char-teristics of the eye, color and quality of the hair, etc., giving marks the re-sult of disease, wounds, or tattooing. warts, moles, etc. It is claimed that chances for error in identification are one in 13,000,000. The advantages are many. Photographs cannot be sent by telegraph and measurements can; photographs are uncertain as men are apt to change in general appearance, but not in measurements.

WHOSE FAULT IS IT? The world is full of disease and

pain. Whose fault is it? Everybody's: therefore often the fault of the sufferers themselves. But the pressing question is,—what to do, how to relieve, how to cure. What would become of us if means were not found to destroy disease? Why, then, of course, disease would destroy us and the world would be depopulated. Until we learn how to prevent disease, we must be thankful for the means of abating and curing it after it has seized upon us, and stands, like a savage with uplifted axe, ready to take our lives. Especially do we need some sure and speedy form of treatment for those complaints which are universal,-which arise in every country and climate. We allude to such ailments as Nervous and General Debility, Hysteria, Scrofula, Chronic Diarrhoa, Asthma, Throat and Lung Complaints, Blood Impurities, and the ills of women and children. For these WAMPOLE'S PREPARATION

comes as near to being an actual specific as any medicine yet discovered. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypo-phosphites and the Extracts of Malt and Wild Cherry. You may almost say that it is life itself embodied in a single article made by human hands. Dr. J. L. Carrick says: "I have had remarkable success with it in the treatment of Consumption, Chronio Bronchitis, Catarrh and Scrofu-lous Affections. It is of special value in nervous prostration and deprayed nutrition. It stimulates the appetite and the digestion, promotes assimilation, and enters directly into the circulation with the food. I consider it a marvelous success in medicine." Every dose effective. "It cannot disappoint." Sold by all chemists.

HOBRON DRUG CO. DISTRIBUTORS

he became the commodore of its Atlan-tic fleet. He resigned in 1876, and "That is all, said Lawyer McCarthy. from then until 1885 he was a director and manager of the Oregon Railroad and Navigation Company, doing business on this Coast. In 1885 he en-tered the service of the Oceanic Company as commander of the Zealandia. on the Sydney route, later taking the Alameda and still later the big liner Sonoma. Throughout all his long service on the sea there has been no accident resulting in loss of life on any of his steamers.

TREATMENT OF COAL MINERS

Testimony Before the Strike Arbitration Commission.

"Coll is aged and bent. His face and hands are scarred by the cruel cuts of falling coal.

" 'I worked for Markle & Co. for nineteen years,' he said, 'and lived in one of the company houses until a few days ago, when I was evicted. My family consists of my wife, my two adopted children, my own son, and my motherin-law, who is said to be one hundred and two years old, and who has been blind many years.'

"'Were you ever hurt in the mines?" asked Mr. Darrow.

"'Hurt?' said the old man. 'I haven't a whole bone in my body. My skull was fractured, an eye put out, and one leg is as bad as a wooden one.'

"Coll, who is fifty-seven years of age, tried to say this cheerfully, but his voice broke.

"'Once I was hurt so badly that I was laid up for a time. The other miners contributed money, and Mr. Smith the superintendent, gave \$50. The money was all turned over to the company

"Bishop Spalding turned suddenly in though he will be almost constantly in his chair and hid his face as Coll told 'After the strike I got no work. I

"'Where is your son now?"

"In an asylum. He got melancholy and had to be sent there." "'When did you first know that you were to be evicted?" 'Well, I had a six-days' notice, but I

could not believe that that would be enforced, for I had been there so long improvements, and I shall examine into but one day Sheriff Jacobs came and estimates and recommendations told me that I would have to get out. I told him my wife was sick with tonsilitis and it would be dangerous for her to leave the house. I asked him suggested on the islands which I want for one day's time. He said he would see Mr. Markle, and started up the road. I saw him stop and speak to Mr Markle, and then he returned and said: You cannot have five minutes now Then the deputies pushed in the front door and took everything out.

"'My people were carried out. My old, blind mother-in-law was carried down stairs and taken to a house two blocks away. My wife went out in the bridges to be built in and about Hilo rain and tried to gather the household goods and pack them into barrels. It was raining and I was sure she would get worse, but I had to go to Hazleton and find a home for them. I found a house, such as it was, and I got my family into it, but my wife got worse

"I didn't have money for a doctor and she wouldn't go to the Miners' Hospital. She got so bad that I finally arranged for a doctor. My wife and I were to see him, for we didn't have signed his position and will retire from gave it back to me. She grew worse active life on the sea. He has a hand- and worse, and the other night she woke me up and said: "I'm choking."

'Died?' he asked

the German steamship company until he added: 'And her old mother may be

who had taken up the examination. "'Yes,' said Judge Gray, 'that is all, and it is enough.'"
