U. S. MAY ASK RECALL OF BERNSTORFF AND HIS ATTACHES

AMERICAN LINE OF VESSELS TO ORIENT CERTAIN

Paul S. Reinsch, United States Minister to China, Says New York Financiers Plan to Buy Ships for Transpacific Run

"LINE WILL BE FACT IN COURSE OF THIS YEAR"

Hundreds of Tons of Freight and Many Passengers Left Behind When Shinyo Maru Steamed From San Francisco—Relief is Necessary

Positive and authentic information that American capitalists are taking active steps toward the formation of an American transpacific steam line, to take the place of the Pacific Mail, was brought to Honolulu today by Dr. Paul S. Reinsch, American minister to China, who arrived this morning on the T. K. K. liner Shinyo Maru, and will sail at 5 o'clock this afternoon for Yokohama.

"The matter of establishing such a line is being seriously, actively and actually considered," said the distinguished diplomat this morning on board the liner, on being interviewed by a Star-Bulletin representative. "I am not at liberty to make public the names of the American capitalists who are backing the project, but that they are doing so is true.

"At the present time, of course, the line is in a formative state, but I know that American capitalists in the East are looking the field over, with an active desire to establish a transpacific steam line. The first thing to be done is to buy ships and my information is to the effect that the line will be an actual fact in the course of the current year.

Later in the day Dr. Reinsch said that it was his impression that the new line would be under the American flag.

Dr. Reinsch is returning from a hurried business trip to the states, in the course of which he visited Washington and New York, obtaining his inside information of the proposed American transpacific steam line while in the eastern metropolis. He left China the last of June and is returning to his post in Peking.

"The Pacific Mail's withdrawal has certainly caused an unprecedented congestion of freight and passenger business in San Francisco," commented the well-known diplomat. "Hundreds of tons of freight were left behind by the Shinyo Maru because there wasn't room for it, and there was a passenger waiting list of between 50 and 60 persons."

Asked about the presidential candidate outlook, Dr. Reinsch says he does not like to make any guesses. "I have found, however, everywhere I went through the states," he says, "a very strong feeling of confidence in the present administration, and I am sure that President Wilson is higher in the estimation of the American people than ever before."

Business is gradually returning to more normal conditions, especially in New York, the diplomat says, where commerce seems quite active, although the large railroad orders for steel rails, cars, locomotives and the like, which are the backbone of business prosperity in this country, are not in yet.

"New York businessmen are studying the Seamen's Act," said Dr. Reinsch, "and there is much discussion of it in that city. The general opinion is that with some modifications it will work out well, and impose little, if any, additional burdens on American shipping."

RUSSIAN LINERS LIKELY TO MAKE CALLS AT PORT

Another new line of ships is after some of the business abandoned by the Pacific Mail and soon have three big liners calling regularly at Honolulu.

Word arriving from the coast this morning is to the effect that the Russian Volunteer Fleet Association, with headquarters at Vladivostok, is to put three of its biggest liners (ships larger than any now making this port), on the Vladivostok-Honolulu-San Francisco run, some time this fall. It is possible that a triangular run will be worked out, to include Vancouver.

The company's big ships are now running direct from Vancouver to Vladivostok, many of them carrying ammunition for Russia. The vessels to take the Honolulu run are three-funnel ships, and will carry both passengers and freight.

An official of the company, now on the Pacific bound for Vladivostok, is said to have made coaling arrangements at San Francisco during his recent stay there.

STEAMER CHINA WILL LIKELY BE ADDED TO FLEET

S. Asano, President of T. K. K., Receives Wireless Offer of Former P. M. Vessel

TWELVE SHIPS ON RUN BY FIRST OF NOVEMBER

Kobe Will Probably Be Main Port, With Feeders Down to Manila and China

President S. Asano of the Toyo Kisen Kaisha arrived this morning from San Francisco on the Shinyo Maru, and after opening 10 aerograms which were sent him early today, announced the following:

"First, that he received this morning from the Atlantic Transport Company of West Virginia, which recently bought the China from the Pacific Mail, an offer to sell the China to the T. K. K.

"Second, that the former Pacific Mail liner Peraia, recently purchased by the T. K. K., will leave San Francisco next Wednesday, September 15, for Yokohama, and will probably sail from there on her first voyage as a T. K. K. boat, October 15.

"Third, that the 12 steamers which he announced in San Francisco last week were to be put into service, will be operating on the San Francisco-Honolulu-Manila-Orient run, by the last of October or first of November.

"These important developments, meaning a great deal as concerns relief of the transpacific steam congestion now extant since the Pacific Mail withdrew its boats, were given out by the T. K. K.'s president this morning, between intervals of answering the messages, receiving a delegation of prominent Honolulu Japanese, and accepting an invitation to appear at the San-Pac-Pacific Club luncheon today."

TERRITORY CAN'T PAY EXPENSES OF CHARTER SESSION

Legal Opinion Leaves Delegates Minus Funds—Logan to the Rescue

"Nothing doing."

In much more polite and formal language—which means the same thing—the city charter convention has been told by the territory that the territory can't foot its estimated \$1200 of expenses.

Upon opinion of the attorney-general, Governor Pinkham has transmitted to W. O. Smith and the committee on expenses named by the convention a letter stating that he has no power or discretion as to the expenses of the convention and is unable to comply with the request that \$1200 be taken from the governor's contingent fund for that purpose.

In his opinion the attorney-general says:

"This convention, as well as the matter of election of delegates thereto, is purely a city and county matter. He goes on to point out that all expenses of general municipal election are to be paid by the municipality. He continues:

"It has been urged that because the legislature specifically provided that the expenses of the election for this convention shall be borne by the municipality, the only proper inference from a legal standpoint is that all other expenses were intended to be borne by the territory. It seems indisputable that the legislature considered—and properly so—this election and the convention itself as a purely municipal matter. The territorial officials, including yourself (the governor) have no control whatsoever over the expenses of the convention. The governor's contingent fund is properly for territorial matters and not for local affairs, and the amount or amounts to be expended therefrom are and must be subject to your discretion, which is not the case in the present instance.

"Moreover, in my opinion, the city and county has the power to pay those expenses if it so desires."

The opinion is rendered by Deputy Attorney-general Smith, who adds that Attorney-general Stanback concurs in it.

This decision and the governor's reply to the committee would seem to leave the convention "up a tree," but Supervisor Daniel Logan, is coming to the rescue. He is chairman of the supervisors' ways and means committee and will introduce next Monday evening a resolution appropriating \$1200 from the city coffers. Of course one of the deputy county attorneys has held that the city can't legally pay the expenses, but the attorney-general's

Samoa's Governor Thanks Star-Bulletin and Honolulu For Cargo of Reading Matter

Government House, American Samoa,
August 4, 1915.

Mr. Riley H. Allen,
Editor Honolulu Star-Bulletin,
Honolulu, H. T.

My Dear Mr. Allen:

I beg leave to acknowledge the receipt of your letter of July 12, 1915, stating that the Star-Bulletin had sent by the Oceanic Company's steamer Ventura forty-seven sacks of books, magazines and newspapers for the U. S. S. Princeton at the suggestion of Mr. A. E. Livingstone, who had recently returned from Samoa.

The kindness and cordial good will manifested by the people of Honolulu and the island of Oahu is very much appreciated by the men of the Princeton, who desire me to express their gratitude to the Star-Bulletin and the good people of Honolulu and the island of Oahu.

The forty-seven sacks of books, magazines and newspapers arrived safely and are being read with interest. I can quite understand Admiral Moore's cooperation in this matter. He has always been thoughtful in anything affecting the interest of Samoa and he well understands the isolation of this place and that the reading matter contributed will be very welcome.

I must also express to the Star-Bulletin my very great appreciation of its kindness as well as its success in the gathering and in the shipment of the reading matter.

Very sincerely yours,

J. M. POYER,
Governor.

CAREFUL TEST OF BALLAST TANKS OF F-4 IS PLAN

Investigators Will See if Leak or Defect Could Have Been Cause of Disaster

As a final effort to determine whether the ballast tanks of the F-4 had anything to do with the disaster last March tests in filling and emptying the tanks, to see if they are defective or leaky, will be made tomorrow.

This will probably be the last chapter in the investigation which has been made by the naval board of inquiry appointed to find the cause of the F-4's sinking, according to Lieut. Cmdr. J. A. Furer, naval constructor, today.

"We are going to close the openings, fill the tanks with water to see if there are any ruptured sections, and in other ways try to discover if a defect in the tanks may have had any bearing on the disaster," said the naval constructor this afternoon.

There are three of the ballast tanks amidships, and one large "trimming" tank at each end of the ill-fated undersea raider. The tanks were used to depress or raise the submarine in the water, and the "trimming" tank to keep it level while in motion. When they were filled with water their weight caused the submarine to descend, and when they were emptied by means of air forced into them, the added buoyancy made the craft rise to the surface.

Lieut. K. B. Crittenden, commander of the submarine flotilla, said today that so far as the actual investigation of the wreck is concerned, the board will have finished by tomorrow night. He is of the opinion that the board's findings as to what caused the disaster, as revealed by their investigation, should be in the navy department's hands before the close of this month.

Today was devoted to cleaning up the drydock and continuing the investigation. The remaining three submarines of the F flotilla will not be placed in drydock for repairs until the F-4 is hoisted out by means of the pontoons which raised her. When this will be neither Lieut. Crittenden nor Lieut. Cmdr. Furer would state this afternoon. It is expected to be early next week, however.

Signal honor was done the men who perished in the F-4 when their bodies were taken aboard the U. S. S. Supply yesterday afternoon for shipment to relatives on the mainland and to Arlington cemetery, Washington. The submarine bearers—their comrades of the submarine fleet—bore the eight caskets aboard the Supply up the gangplank. This is a special honor inasmuch as caskets ordinarily are hoisted aboard instead of carried.

The departure of the Supply with the four identified bodies and the four caskets of unidentified remains has removed much of the keen public interest with which the salvaging and search of the submarine have been followed. There remains now only a few hours' work on finishing the cleaning of the submarine, and then presumably it will be towed to Pearl Harbor, awaiting orders as to final disposition.

office thinks the city can and it will be given an opportunity to come to the aid of the now-indigent convention.

GREAT NORTHERN WILL HELP PINE RAISERS ON OAHU

If Hill Steamer Comes to This Run Fresh Fruit Will Be Carried in Immense Quantities

Relief in the way of adequate transportation facilities for their fresh fruit is assured the local small farmers who are growing pineapples, if arrangements are made whereby the steamer Great Northern is placed on the Honolulu-San Francisco run.

This assurance was given today by Cal E. Stone, traffic manager for the Great Northern Pacific Steamship Company, who is in Honolulu to investigate the feasibility of having the big steamer call at this port. Mr. Stone's position is that if Honolulu can guarantee 1000 tons of freight or more for the mainland every two weeks the Great Northern doubtless will be placed on the run.

Estimating 40 cubic feet of freight space to the ton, A. T. Longley, superintendent of the territorial marketing division, said today that his office probably would be in a position to ship 150 tons of crates of pineapples to the mainland in the Great Northern every two weeks, should the vessel come here.

If conditions remain as they are now, and the marketing division has every reason to believe that they will, the division will be in a position to ship to the mainland 800 tons of crates of fresh fruit every two weeks, Mr. Longley continued.

Mr. Longley also pointed out that lack of adequate transportation facilities has been the one handicap in the shipment of Hawaiian-grown fresh pineapples to the mainland. The marketing division has established a branch office in San Francisco, and reports that there is an excellent demand for fresh Hawaiian pineapples all along the Pacific coast, as well as at some eastern points.

Mr. Stone interested.

Mr. Longley's estimate regarding the number of tons of fresh fruit which could be consigned to the Great Northern was conveyed to Mr. Stone today. He became interested at once. The steamship company would certainly give all relief possible to the

(Continued on page two)

GERMANY MIGHT LIKE TO KNOW ABOUT HIS MISSION

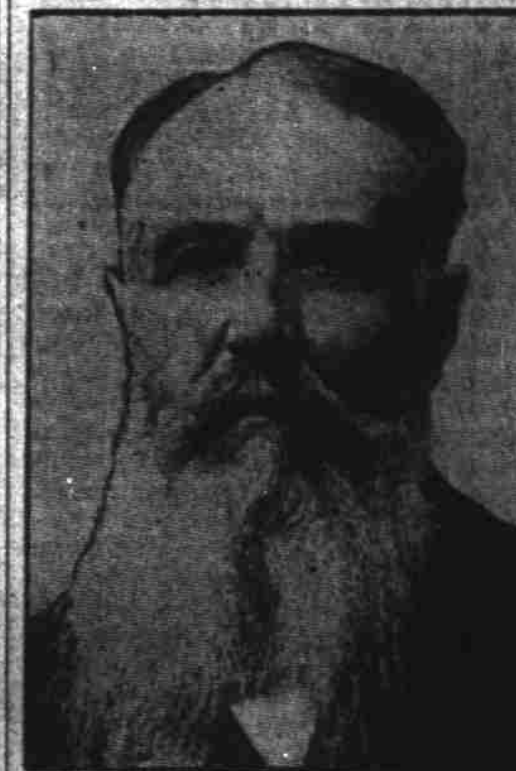

En route to France by way of Siberia, on a mysterious diplomatic mission for the French government, Hugues Le Roux, a diplomat of France, is on board the T. K. K. liner Shinyo Maru today, sailing for Yokohama.

On reaching that port he will journey to Siberia, accompanied by his wife. They will travel across Siberia in a military train on the Imperial Siberian railroad, and the only non-military passengers allowed to ride on the train.

Mr. Le Roux is going to France, and his wife is an American woman, and their mysterious journey has occasioned a great deal of discussion among the Shinyo's passengers.

CHARGES OF CONSPIRING TO START STRIKES MADE AGAINST AUSTRIAN AMBASSADOR MAY INVOLVE OTHER DIPLOMATS IN WASHINGTON

HIS COUNTRY MAY GIVE WAY TO BULGAR DEMAND

Premier Nikolaus Pasitch of Serbia. Bulgaria demands considerable Serbian territory won in the second Balkan war, and Serbia may yield in order to further the Balkan League. Pasitch was one of the men who brought on the European war by declining to yield to Austria's demands.

SON INJURED, FATHER FACES COURT-MARTIAL

Col. Lewis Goodier Said to Have Interfered With Military Aviation School

(Associated Press by Federal Wireles)
WASHINGTON, D. C., Sept. 10.—Col. Lewis E. Goodier, attached to department headquarters at San Francisco, has been ordered court-martialed under charges of conduct prejudicial to the discipline of the service. The charges are based on his alleged action in interfering with the administration of the aviation school at San Diego. His son, Capt. Lewis E. Jr., was recently injured in a flight at San Diego. This is said to have caused the father to start a movement against the management of the military aviation instruction camp.

ARSON RING IS BLAMED FOR FIRE IN HOP FIELDS

(Associated Press by Federal Wireles)
SAN FRANCISCO, Cal., Sept. 10.—Fires in the hop fields of Sonoma county are causing a loss to growers of \$50,000.

The growers blame an alleged "arson ring" of malcontent migratory workers who drift through the interior part of the state during harvest season every year. The same class of workers were held responsible for riots around Wheatland in 1913, when part of the fields were burned.

WEST SHOWS UP BEST IN TENNIS

(Associated Press by Federal Wireles)
FOREST HILLS, N. Y., Sept. 10.—In the national tennis matches today in which players from the east met players from the west, the west made almost a clean sweep. Maurice McLoughlin of California beat Karl Behr 6-4, 5-6, 6-2. T. R. Pell (east) beat Thomas Bundy 6-4, 6-2, 3-6, 6-2. William Johnson and Clarence Griffin of California beat R. N. Williams and William Washburn in the doubles.

The will of the late Francis W. Damon was admitted to probate in Circuit Judge Whitney's court today. Mary Rebecca Damon, widow, was appointed executrix, without bond. It was ordered that an inventory of the estate be filed within 30 days. The estate is valued at about \$71,010.

PLANS TO HINDER TRADE IN MUNITIONS SEEMS TO BE WIDESPREAD—RUSSIA DELIVERS ANOTHER BLOW TO TEUTONS, STRIKING AUSTRIANS AT TREMBOWLA—HAS TAKEN 15,000 PRISONERS—PETROGRAD CABINET LIKELY TO BE REORGANIZED—TERRIBLE GAS-AND-FLAME FIGHTING IN WEST—LOANS MAY BE FLOATED IN U. S.

(Associated Press Service by Federal Wireles)
WASHINGTON, D. C., Sept. 10.—The recall of Dr. Constantin Theodor Dumba, ambassador to the United States from Austria-Hungary, will not end American action against diplomats charged with conspiring against American trade.

It was said in official circles today that the revelations of Dr. Dumba's connection with plans to instigate strikes in American plants making munitions are likely to lead to disclosures that other diplomats representing the Germanic Allies have rendered themselves similarly liable to a request that their foreign offices recall them.

The request for the recall of Dr. Dumba is likely to extend to a request for the recall of Count von Bernstorff, Captain Franz von Papen, the German military attaché, and Consul-General von Nymber.

Germans Capture French Trenches With Liquid Fire; French Recapture

BERLIN, Germany, Sept. 10.—(Official)—French trenches at Schraalmann and Hartmanns-Werkkopf have been captured by the German troops.

PARIS, France, Sept. 10.—(Official)—Referring to the claim of the Germans to the capture of French trenches at Hartmanns-Werkkopf, it is stated that the Germans used gas and liquid flame in their assault on the opposing trenches. The French later recaptured the lost positions.

Russians Deliver Another Hard Blow to Austrians; Many Prisoners

LONDON, Eng., Sept. 10.—The signal Russian victory at Tarnopol has been followed quickly by another effective blow of the Slavs against their oncoming enemy. The Austrians have been defeated at Trembowla in the southeastern war arena. In the combined actions recently where the Russians have been victorious 15,000 prisoners have been taken.

The inferiority of the Russians' artillery has precluded their following up their victory and pursuing the enemy.

Huge War Loan May Be Floated in America; Foreign Commission Comes

NEW YORK, N. Y., Sept. 10.—An important commission of British and French financiers arrived today with the avowed purpose of adjusting the present troublesome and fluctuating rates of foreign exchange. They will also represent Russia in their proposals.

They plan also a meeting of American and Canadian bankers at which a proposal will be made to negotiate a loan of half a billion dollars at five per cent interest.

The commission sailed secretly from England and were conveyed by two cruisers to guard them against possible submarine attack.

Bitter Fighting Develops in Argonne

LONDON, Eng., Sept. 10.—The bitterest fighting of the western campaign is expected in the Argonne district in the next ten days. Both sides are preparing for heavy attack and beginning the artillery duels which mark the opening of attempts to take the opposing trenches.

New Cabinet For Russia is Likely

PETROGRAD, Russia, Sept. 10.—Consultations between leading government officials and the czar are now in progress, concerning the formation of a new cabinet and a drastic change in the governmental management of the campaign.

British Workmen Down Peace Plan

BRISTOL, Eng., Sept. 10.—The trades union congress in session here today voted down a resolution calling on the labor party, representing 3,000,000 men, to formulate and advocate terms of peace satisfactory to the working classes.

EIGHT INDICTMENTS BY GRAND JURY ARE PUT ON SECRET FILE

Eight indictments were returned by the special federal grand jury in a partial report to Judge Sanford B. Dole, made at noon today. The indictments were placed on the secret file, pending the arrest of the defendants.

Bench warrants probably will be issued for the arrest of the defendants this afternoon. In case any arrests are made, the persons indicted may be arraigned in federal court at 10 o'clock tomorrow morning.

The members of the grand jury have been excused until 9 o'clock Monday morning.

CONVICT IS HANGED

(Associated Press by Federal Wireles)
SACRAMENTO, Cal., Sept. 10.—Convict Fountain was hanged today at Folsom penitentiary.

BARRY MADE LIEUTENANT

Edgar S. Barry, formerly a sergeant in the National Guard of Hawaii, was today appointed a first lieutenant, and assigned to the 1st Infantry. It is probable that he will be assigned to Company C for duty.

SUGAR

SAN FRANCISCO, September 10.—Sugar: 94 degrees test, 4.49 cents. Free-trade quotation, 4.44 cents.

HAWAII'S GLORY SHE SUCCEEDS IN BLENDING RACES

Reinsch Tells Pan-Pacific Club
That China Today Stands in
Need of World's Help

"Beautiful things to look upon are what first attracted attention when arriving in Hawaii," said Dr. Paul S. Reinsch, American ambassador to China, speaking today before scores of Honolulu's most prominent business and professional men at the Pan-Pacific luncheon at the local Y. M. C. A., but before one has been here long he perceives things of deeper significance.

"When I look around this room and see the many faces of the many nations I feel that these islands make the point of convergence for the East and the West. This is the assembling place of the nations. And it is here that one can learn that great lesson that competition is the life of the world—that what the nations of the world need is to rub against each other, not in conflict as the European world is now meeting, but in the amicable competition of the business and intellectual world.

"Separated by vast distances, the nations which border upon the Pacific find one common meeting place—Hawaii, and it is to Hawaii that the important duty is left of making these different elements blend for their mutual advantage. Let it be her glory that she is succeeding, and that she is succeeding such an assemblage as this proves.

"China today is in an important period of change. She needs the help of the world. She needs to learn the lessons which she can learn in other places and learn here, and she is willing to learn. Time was in China when the individual and the problems of the individual were the center of the national life, but now she has awakened to the fact that through corporate life only can a nation most fully realize itself.

"China has resources enormous and untouched. She is in the condition of the United States in the period after the Civil War, preparing for a great time of intellectual and commercial expansion. The gates are down, the way is open to the thought and the commerce of the world. How will the world respond?"

"Here in Hawaii is the place where the Orient and China may come to study the Occident, and this is the place where the Occident may study the Orient. Here may China learn the great lesson of competitive life, the life which is above the dusty level of international hatreds and bitter feelings and suspicion of ideals.

"Hawaii in one word stands for the great lesson of cooperation, and that is the lesson which I am going to try to take back to China with me."

Dr. Reinsch sat down amid hearty applause and A. H. Ford introduced President S. Asano of the T. K. K.

"Twenty-one years ago when I first passed Hawaii there were no transportation facilities on the Pacific," said Mr. Asano. "When I went home I began to study conditions upon the Pacific, and it became the purpose of my life to bring great ships to sail upon those waters under the flag of Japan. I have seen that commerce prosper. I have seen great ocean greyhounds ploughing the waves, and I have seen at the same time that the great work of bringing the Occident and the Orient together is progressing.

"The sad war in Europe is interrupting this work. The ships of the Pacific are being taken to the Atlantic sea coasts. This cannot be helped. It is the natural result of a great demand for freighters there. But when I heard that the Pacific Mail steamship line was going out of business I felt a keen regret. They had indeed been my competitors, but still I knew that while they were playing across the seas they were acting in the good cause of bringing the Orient and the Occident, and the minds and ideals of the two halves of the world, into closer relations. Therefore I was sincerely sorry when I heard of their withdrawal and I went at once to San Francisco to see what I could do to keep them afloat. But when I found that it was to no purpose, I bought two of their ships, and made what arrangements I could to sustain the transportation facilities upon the Pacific.

"This is my life work. I see that its success is now threatened but I shall continue to work as hard as I can to keep the lines of commerce open. Commerce means civilization, and it is for civilization that I am now working.

"Hawaii is the meeting place of the two civilizations. It is upon Hawaii that the commerce of the Pacific finds a home and a resting place. It is the great inn, the half way house for two worlds. Then help me in my work, for my work is your life. Help me to bridge the Pacific, for you can."

S. Taniura, a member of the Japanese house of representatives, spoke next, and began by lamenting the fact that he had learned the English language well enough to pretend to speak it.

"Otherwise I might have had the good fortune to have a clever interpreter," he said, referring to the fact that Editor S. Sheba had translated the speech of Mr. Asano. "It's so nice

SIR ROGER CASEMENT TRYING TO FORM IRISH BRIGADE FOR KAISER

Pleads With Irish Prisoners of
War in Germany to Play
Traitor to England

B. Thompson, a Dublin man belonging to the Yorkshire Light Infantry, who was among the exchanged disabled prisoners recently returned to London from Germany, has supplied the Daily Chronicle with further particulars of the German attempt to form an Irish brigade for the German army from among captured Irish soldiers.

After telling of the circular issued to the Irish soldiers on the subject, Thompson said that out of 2,000 men about fifty accepted the invitation. Not a single non-commissioned officer, however, was among the fifty. Every officer did his utmost to dissuade the men from joining.

Caseement and Priest Active.
Thompson also showed the Chronicle a written statement by another interned prisoner telling of the activities of Sir Roger Caseement and an unnamed American priest in connection with the affair. The statement reads:

"On the 7th of December all the non-commissioned officers were paraded in the barrack room. A tall gentleman, accompanied by a staff of German officers, entered and spoke to us. He said: 'I am engaged on a dangerous mission. I am now here for the purpose of forming an Irish brigade of the war prisoners here.'

"We were naturally dumfounded as it dawned on us what he was getting at. I was the youngest non-commissioned officer there and some days afterward I was sent for from his hotel at Limburg. He gave me a book and told me to enter up the names of Irishmen in the camp.

"Mass was to be said the next morning and all the men had gathered in the room when our noble friend made his appearance and said it would be a good opportunity to speak to the men. Our fellows were very angry at being fooled. He attacked

LITTLE INTERVIEWS

Work was started today on the foundation of the new Emergency hospital building.

Circuit Judge Whitney today appointed Henrietta Marshall as administrator of the estate of Marie Marshall under bond in the sum of \$400.

The case of Mary Leong against Pak On Leong, an action for divorce, has been continued in Circuit Judge Whitney's court until 9 o'clock Monday morning for further trial.

Bond in the sum of \$7500 was filed in circuit court today by the Hawaiian Trust Company as administrator of the estate of Carl Sheldon Holloway, late of Honolulu. The National Surety Company is surety.

The defendant in the case of Freeman W. Bowley against the Honolulu Brewing & Malting Company, an action alleging trespass on the case, today filed its answer in circuit court, denying each and every allegation in the complaint.

Under bond in the sum of \$6000, Fred E. Harvey has been appointed to sell certain lands in Honolulu described in the plaintiff's bill in the case of Lizzie K. Cathcart and Abel Cathcart against Hattie Kawelo Aka, an action for partition. The appointment was made in an interlocutory decree handed down by Circuit Judge Stuart today.

Buck Chung sells ice cream. That is, Buck Chung thinks he sells ice cream, or tries to make people believe he sells ice cream, but he could not make the court believe it this morning, and was assessed a \$10 fine for being a poor ice cream seller. Chung had some of the ice cream in court this morning, and it looked as much like ice cream as a candy bird looks like a duck. Chung promises to read up on the amount of butterfat to be used before he tries to sell his mixture again.

The Matson Navigation Company, named as one of three garnishees in an action for debt brought by Harry T. Mills against Arthur L. Soule, master of the steamer Hiloan, filed in circuit court today a pleading asking that it be discharged as a garnishee. The company alleges in the disclosure that under section 4536 of the revised statutes of the United States, and section 12 of an act for the public welfare of American seamen in the merchant marine of the United States, that "the pay or wages of said defendant"—Soule—"are not subject to garnishment, attachment or arrestment by any court."

to come here and meet all these friends to Japan—all these men who shake one's hand. I had heard much of Hawaii, but it is better to come here and see how far it passes all description. In return let me beg of you to come to Japan and see its beauties."

Mayor Lane then made a short speech, saying that for the city of Honolulu he gave them an Aloha.

"And Aloha means at the same time farewell and welcome," he said; "therefore when you leave us carry our farewell and our welcomes in your hearts and take them to your homes."

GREAT NORTHERN WILL HELP PINE RAISERS ON OAHU

(Continued from page one)

pineapple growers by transporting as much of their fruit as possible, he declared, if it is decided to bring the Great Northern to Honolulu.

Mr. Stone pointed out that the Great Northern has about 20,000 cubic feet of freight space in which crated fresh pineapples might be shipped to the mainland. This space would accommodate approximately 500 tons of fruit.

He called attention to the fact that no provisions are made for ventilation, but he continued, "why could we not put the fresh pineapples in the refrigerated space? There it could be kept at any temperature that the shippers might deem necessary."

"Pines Would Help Out."
"These proposed pineapple shipments certainly would help out," Mr. Stone went on. "The ship is a large one and we have got to have weight in her. She is a fast steamer, and has to be held down. I do not think there would be a bit of trouble in handling these proposed pineapple shipments."

Attention was called by Mr. Stone to the fact that the company of which he is traffic manager might be able to assist the local pineapple growers in establishing a market for their fruit in the Northwest. The steamship company is running lines north, and fruit destined for Seattle, Tacoma, Portland or Spokane might be transhipped from the Great Northern at San Francisco and sent north.

As regards Mr. Longley's proposition, Mr. Stone said that it would be an easy matter for the Great Northern to take 150 tons of crated fresh pines every two weeks.

"If these growers are in need of relief the company doubtless would take the chance and help them out," he added.

Mr. Stone laughed when asked regarding the story which appeared this morning to the effect that negotiations had been about completed which would result in the Great Northern coming here.

"That is a joke," said the genial traffic manager. "Frankly, I do not even know myself what will be done. Changes of routes are not made in a minute. A good deal of information has to be gathered and presented to the executive officers of the company."

"I am delighted with Honolulu. I have received every courtesy at the hands of Honoluluans," he added.

Mr. Stone and G. W. Wiley, marine superintendent of the Great Northern Pacific Steamship Company, will leave for Hilo tomorrow to visit the volcano.

"If the Great Northern is put on the Honolulu run would a side trip to Hilo be included?" Mr. Stone was asked.

"That has not been considered," he answered.

EAST INDIAN STORE HAS LACE BARGAINS

The East Indian Store, in the Blaisdell building on Fort street, has a most attractive window display of laces and embroideries. This unique store has been having a sale of these goods for the last few days and will continue for the balance of the week. Those interested in fine laces and embroideries have an unusual opportunity presented in this sale.

Morning on 'CHANGE

An extra dividend of 50 cents a share, totaling \$10,000 on the 20,000 issued shares, has been declared by the directors of the Hawaiian Commercial & Sugar Company. The dividend will be payable October 5, with the regular monthly dividend due on that date. The market this morning was featureless, only three sales being made. Oiaa has slumped another quarter of a point, and is now to be had in large blocks at \$5.50.

Dr. R. S. Norton, H. W. Mist and B. F. Beardmore were named as a committee on nomination of officers for the coming year, at a meeting last night of the Manoa Improvement Club in the club house at the Manoa tennis courts. In addition to the work of the regular meeting, considerable time was given to the discussion of the road injunction case of Manoa citizens against the city and county, which is to be carried to the supreme court.

THE WORKSAG.

To make silk stockings last from three to four months longer than usual darn the heel and toe before wearing. When the stockings begin to wear it will be the darning cotton that will be worn off; pull out and redarn.

One needlewoman darna hers with a thick thread, four strands. By watching them carefully she redarns a pair of stockings 12 or 14 times without having the stockings show signs of wear. She also darna them at the top where the garter chaps. It keeps the stockings from the running droptail.

Anticipating a shortage of coal this winter, the Pennsylvania Railroad is storing thousands of tons at convenient points along the system.

General Pablo Gonzales, Carranza commander of Mexico City, warned all foreigners that they would be expelled if they attempted to protect Mexican properties under foreign flags.

Your Sale must close SATURDAY!
After that the regular cash price prevails.

(Signed) HOOSIER MFG. CO.

Your Last Chance.

You can still get "White Beauty" Hoosier Cabinet at a saving of \$2.50 until tomorrow night. BUT NOT LATER.

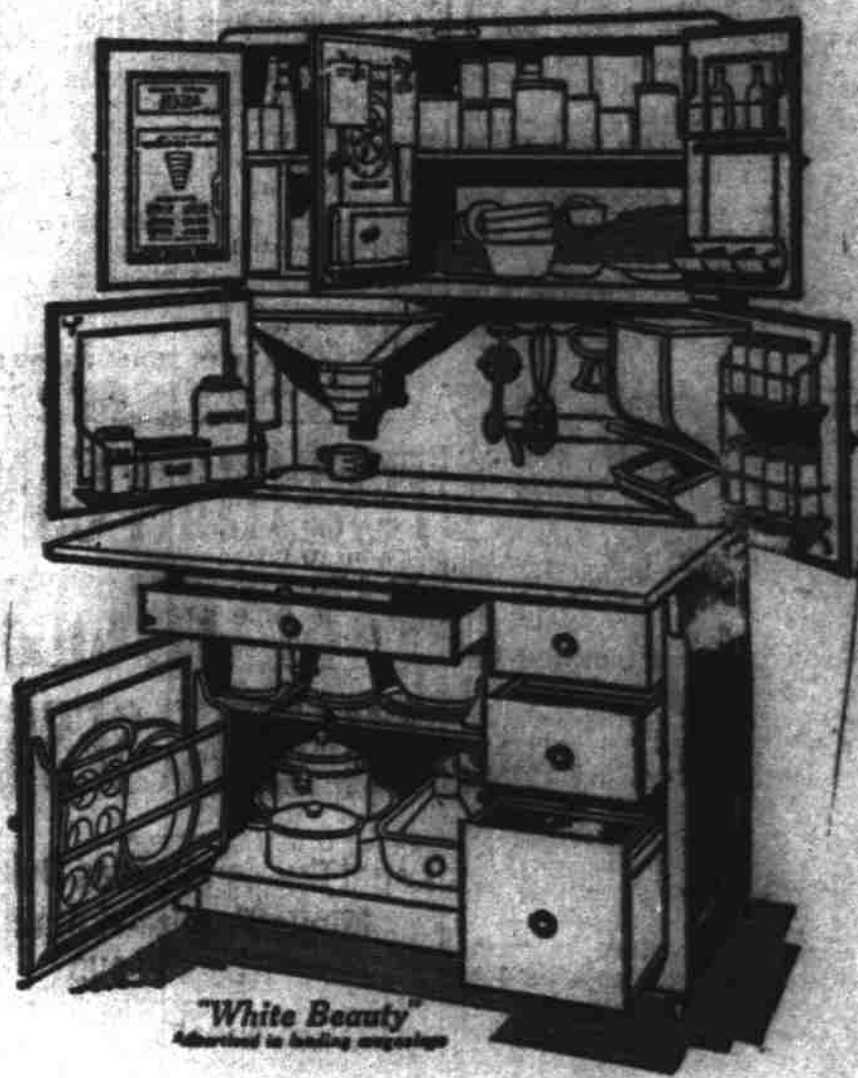

A Hoosier Cabinet at the regular price is a bargain. "White Beauty" is the most complete Hoosier ever built. At \$2.50 less than the cash price, this "White Beauty" sale is literally a chance of a lifetime. And now, for the last time, you can make this saving and have "White Beauty" delivered to your home by

Paying Only \$1

The balance is only \$1 weekly. No extra fees. No interest. Just the cash price less \$2.50.

Isn't This Common Sense?

If "White Beauty" will save you miles of steps; if it will save you time and energy; if it will put your whole kitchen at your fingers' ends, and enable you to get through more quickly and keep your kitchen always in order, isn't it common sense to come down tomorrow and examine this wonderful cabinet while you can still save \$2.50? It won't take you five minutes to decide. You couldn't spend five minutes more profitably.

"White Beauty"
advertised in leading magazines

A few of the 17 Features Exclusive in the Hoosier

The new patented shaker flour sifter shakes flour through instead of grinding it through. It is the most important improvement in the entire Hoosier Cabinet. The simple bookkeeping system puts an end to troubles with the market man. The cook-book holder keeps your book open at the level of your eye. The Food Guide answers the eternal problem, "What shall I cook for dinner?" The pencil holder keeps your pencil always handy. There is a special compartment for string, and a sliding metal shelf for cake. The list might cover this page, and still not complete the reasons why you want a Hoosier Cabinet.

You Want It Because It Is So Low in Price

No article ever put into a kitchen has been better built than the Hoosier. More than twelve hundred parts go into every cabinet. Every joint is perfectly finished and braced. The outside finish is especially made to stand kitchen wear. A Hoosier Cabinet will last you as long as you live.

You Want It Because It Will Last a Lifetime

You can't measure the value of an article that will save you miles of steps every day, but the present low price of the Hoosier measured against any standard known, makes it the greatest furniture bargain ever sold.

Decide Tonight to Save \$2.50 Tomorrow! Monday Will Be Too Late

This is your last opportunity to get this Hoosier Cabinet on these remarkable terms. Other women who have postponed are making their decision now. Tomorrow is the final day—positively the last. Come in early, because there are just a few "White Beauties" left.

Don't be surprised if they are gone by noon. Remember, you pay only \$1 to try the Hoosier right at home. Then, if you are anxious to keep it, pay only \$1 a week for a few more weeks. Money back if you are not delighted with it.

CHICAGO TEAM APPRECIATIVE OF LOCAL AID

Manager Page Thanks Those
Who Have Made Their
Visit a Success

Manager "Pat" Page and the University of Chicago baseball team sail for their Oriental tour this afternoon with the warmest of regard for Hawaii. Manager Page has written the following letter of appreciation to the Star-Bulletin:

"As the 'all too brief' visit of the Chicago baseball team is brought to a close we wish to express through the columns of your enterprising newspaper our sincere gratitude to Mr. A. L. Castle, former Harvard University man and now a Honolulu booster, for his interest in our journey to the Far East.

"His efforts in promoting clean-cut baseball sport along with the press has been greatly appreciated by Chicago men. In response we have endeavored to give our friends in Honolulu some typical spirited college exhibitions. Our youngsters play for the love of the game; at times erratic in the field, yet always working to the end.

"We believe Capt. Stayton and his assistants handled our games in an able manner. I hope the time in baseball will soon arrive when no one will be allowed to 'ride' the slightest decision for it greatly upsets honest work and disgraces the public.

"We hope to return some day and again enjoy the hospitality of our many friends made in the Pacific's Paradise—Honolulu.

"Sincerely,
"PAT" PAGE, Manager."

Light Sidelights on Police Court Scenes

"He told me that the Germans would whip the whole world," said V. O. Teixeira this morning in police court; "and I said, 'That can't be. You don't know what you are talking about. The Allies will whip the Germans in six months. You're crazy. Then he hit me in the jaw.'"

The big war question was aired again this morning in the police court when Laelae was brought into court on a charge of assault and battery preferred by V. O. Teixeira, a Portuguese. The argument and scamp started over an article in a German newspaper.

Laelae claimed that the Portuguese called him names and said that the Germans were no good, and Laelae being a strong admirer of Von Hindenburg immediately proceeded to demonstrate a few of the war office methods, a la Teixeira, and Teixeira hit the ground. Judge Monsarrat decided that Laelae had gone too far in his admiration for the Germans, and assessed him \$10 for his war tax.

Hong Sin Saw was given 10 days in jail this morning on a charge of striking at a Korean friend of his. Officer H. Kihachi made the arrest.

Florentine Calub, Simplecio Nolas and Francisco Bakmoun were arrested this morning on a charge of using wire nets to catch fish in Kaula Bay. They were brought to the station by Walter Davis, deputy sheriff, and the trio were fined \$20 each by the judge this morning.

H. Goldstein and L. Bills, who were driving a machine near the entrance of the polo field, ran into a bunch of mules last evening, and headlight and radiator of the car was smashed.

Hamada, a Japanese, was riding on his motorcycle last evening when he ran into a hack at Gulick and King streets. Hamada was thrown from the cycle, suffering from a broken wrist and was taken to Queen's hospital.

ELECTRIC TEST MAY BE CAUSE OF EXPLOSION

Report of Supt. Forbes on Fatalities at Standard Oil Tanks Adopted

At a conference held in the executive chamber this morning between Governor Pinkham, Charles R. Forbes, superintendent of public works, and officials of the Standard Oil Company, the report submitted to Governor Pinkham by Mr. Forbes several days ago on the oil tank explosion at Iwilei, was declared correct and no criticisms were offered. Three men lost their lives as a result of injuries sustained from the explosion.

It was requested by the superintendent of public works that the oil company mark all tanks as to their contents. It was also requested that the present wooden stairway leading to the tanks be torn down and an iron or concrete one substituted in its place. The company agreed to both requests.

Superintendent Forbes' report relative to the accident stated that the explosion occurred shortly after 10:30 o'clock on the morning of August 26 in one tank out of a group of seven. The dimensions of the tank were 35 by 45 feet, and its capacity was 416,787 gallons.

The report states that C. Elrich, who lost his life, was a competent engineer engaged in installing a "Foam System," work similar to what he had done on the coast. Antonio Schieber, a regular employee of the company, and Ralph Harrub, an employee of the Hawaiian Electric Company, also lost their lives, death resulting from injuries received in the explosion.

The report reviews statements from A. S. Prescott, manager of the company; Mr. McKellar, Joseph Kelley and T. U. DeFrees. Mr. Prescott was not at the plant at the time of the accident. The three latter were working near the scene of the explosion, but could offer no explanation of it.

The tank did not show much evidence of fire and the pipes were not distorted, although somewhat blackened. The top of the tank was charred near the hatch, showing the effect of fire for a radius of approximately 12 feet. Directly under the hatch cover showed the effect of fire more than did the top of the tank. The tank was filled within two plates of the top with distillate. On the surface of the distillate were floating several large patches of light-colored substance.

Mr. Forbes' conclusions in the matter after a careful study of the data summarized above, is as follows:

Conclusion.

"From the above data the following conclusions are drawn:
"That there was an explosion in tank No. 2. The fire caused by the explosion was of very short duration.
"The condition of the tank indicates that an explosion took place inside the tank and the explosion was caused by the ignition of the gas in the tank containing distillate.

"From the plans in the possession of the superintendent of public works it is indicated that electricity is required to operate the apparatus in the foam tower.

"The presence of foam on the surface of the liquid in the tank and the short duration of the fire indicates that the 'foam system' was in working order.

"The fixture shown on sheet No. 2 is the electrical part of the system connected to the tank. The threads (a) indicate that a cap of some description should accompany this fixture. This cap could not be found and the other tanks were not disturbed to see what kind of a cap is used.

"The cap is no doubt composed of a brass rim threaded in order to screw down over the fitting. The top of the screw cap is composed of a metal that would easily fuse.

"The two metal plates 'BB' are insulated from each other, consequently the electric circuit is broken.
"If a fire should occur in the tank the top of the cap would melt and drop down on the two plates 'BB' connecting the two and thus completing the circuit; the circuit being complete, the apparatus in the foam tower is set in operation and the foam discharged into the tank.

Was Thrown 46 Feet.
"Mr. Harrub was found on the ground, approximately 46 feet from the hatch. To throw a man this distance would require considerable force and to receive this force he would have to be directly over the hatch.

"The fact that his clothing was burned almost from him within a very few minutes, indicates that he was in very close proximity to the explosion, hence, presumably, directly over the hatch. The location of his body when found indicates that he was on the side of the hatch opposite the electric fixture.

"The clothing of Elrich being burn-

MUCH 'CHATTER' ABOUT AFFAIRS IN CHINA TODAY

United States Minister Reinsch Attaches No Importance to Reported Plea for Monarchy

"Too many of the statements which are made concerning the conditions in China today are the mere chatter of men who have literary opinions concerning the abstract desirability of democracy and monarchy," said Dr. Paul S. Reinsch, United States minister to China, in conversation at noon today, during a discussion of the purported statement of Dr. F. J. Goodnow, that a monarchy would be better for China than a republic.

Dr. Goodnow, the great American authority on international and constitutional law, is now in China, employed by the Yü-shan-kai government to draft an ideal institution for the Chinese people.

"I attach no importance to the statement of Mr. Goodnow that China is today unfitted for the democratic government."

"He may have reasons behind his statement but just what they are I do not know. As a matter of fact the government of China is not in the new form absolutely democratic, but is a mild form of controlled representative government. When I say 'controlled' I mean that the representatives are selected only from the upper classes of the Chinese people. It is the effort to make the Chinese parliament not so much representative of the rank and file of the Chinese people as to make them reflect the thought of the men who have had a broad education and who are large property holders. In a manner we may say that the parliament which meets in China this fall is an aristocracy of wealth and mental activity, which is certainly not true of any other so-called democratic government in the world."

"The body will pass upon the constitution which has been framed for the country by Dr. Goodnow. Great things are expected of the new form of rule. It is true that there are many natives who do not approve of the new rule, but the mass of the upper middle class, which is always the best part of any people in any country and at any time, are strongly in favor of the democratic system as it will be exemplified in the Chinese parliament. They think that it means progress, and they do not wish to trust on the one hand to the unchecked bias of a mob, or on the other hand to the dictates of tyrannical imperialism."

ed from the waist up would indicate that he was leaning over the hatch at the time of the explosion.

"The clothes of Schieber not being burned would indicate that he was not near enough to the hatch at the time of the explosion for the fire that followed to reach him, and he may have jumped.

"Mr. Harrub was probably down on his knees working on the fixture and the cap being removed from the top. It is likely that Elrich was leaning over the hatch directing Harrub while Schieber was probably standing a few feet away.

"In some way or another an electrical contact between the two plates 'BB' was completed, and the completion of the circuit immediately set in operation the 'Foam System.' When the contact between the two plates 'BB' was broken a spark was the result, consequently the gas was ignited, causing the explosion and fire.

"Two pieces of wire were found on Tank No. 2, which evidently were used for connecting up to a battery, and if the test was made at the top of the tank for locating the ground, there can be no other conclusion but that this was the cause of the explosion.

"However, the three men who were employed on this work are dead and it will be extremely difficult to arrive at the real cause of the disaster.

Did Not Know Contents.
"An examination of the Hawaiian Electric Company's foreman brought out the fact that he was unaware that the tank contained distillate, and of course there was no means of him knowing the contents of the tank unless he was informed.

"The electrician's helper states that dry cells were taken from the shop to the tank, but claims the same were not used.

"The foreman electrician for the Hawaiian Electric Company also states that the manhole was taken off the tank, and had the same not been tightly closed there is no question but that there was an escape of gas and any attempt to test out the circuit at that time and on the top of the tank, would, in my mind, result in an explosion.

"This Department has made an inspection of all the oil companies' premises, their tanks, etc., as well as all garages, stores carrying explosives of every nature, and proprietors have been furnished a copy of Act 152, which gives them specific instructions relative to the storing of explosives.

"There has been no money available for this inspection and it has been necessary to request the Governor to pay such inspection from his Contingent Fund. I endeavored to have a fund created by the last legislature for this purpose, but was not successful.

"The Department of Public Works has an inspector of explosives at work at the present time checking up concerns which are handling explosives, the character, quantities, etc., and it is my intention to compel dealers and handlers of such explosives to comply with the law as set forth in Act 152.

"In addition to the precautionary measures taken by the oil companies, I will direct that each tank be plainly marked with good-sized letters designating its contents."

LOCAL AND GENERAL

Goo Wan Hay has been sworn in as Chinese interpreter for the special term of the federal court.

The case of Mrs. Inosole Ahuli against Yip Lan, an error to the district magistrate of Makawao, was argued and submitted in supreme court yesterday.

In the supreme court yesterday the contestant's bill of costs in the matter of the estate of J. Oswald Luffted was taxed in the sum of \$14.75.

A jury in Circuit Judge Stuart's court today found for the defendant in the case of Mrs. Hiwaui against Joe Quintal, an action for damages. The plaintiff asked \$200.

Mayor Lane has signed the contract with J. G. Correa for constructing an emergency hospital and ward for delinquents. The work will be completed about October 19.

A declaration of intention to become an American citizen was filed in federal court today by Adolph Jacobek, a sailor and a native of Vienna, Austria.

On complaint of J. H. Fischer, Duck Chung has been arrested on a charge of selling ice cream said to contain only 1.4 per cent butter fat. This is one-tenth of the minimum fixed by law.

Charged with malicious injury, Charles Martin has been arrested by the police. John A. Bortfield, who swore to the complaint, alleged that Martin burned the baseboard of his fence.

Among the returning passengers from the coast this week was John E. Fernandes. Mr. Fernandes went to the fair a month ago and upon his arrival here immediately left for Kauai by the steamer Kinau.

The case of Albert Keawekane, charged with assault and battery, was nolle prossed in Circuit Judge Ashford's court today "because the prosecution was unable to find competent witnesses," it was stated.

Francisco Bakmoun, Simplecio Nogallas and Florentino Calub have been arrested on a charge of using a wire net to take food fish from Kaula Bay, Koolapoko. The complaint was made by Deputy Sheriff Robert W. Davis.

A notice of an appeal to the supreme court from Circuit Judge Stuart's decision in the case of Keanaona Kaleheana et al. against John Keahipaka et al., a bill for accounting, was filed in circuit court today by the defendants.

Notification of an extension of the parcel post division, effective at once, has reached Superintendent of Mails Frank Sullivan. Maximum girth and length of parcels is now 84 inches instead of 72. The 75-cent limit on packages is increased to \$100.

Among the arrivals on the liner Makura last Wednesday were four young men from Bellingham, Wash., who will teach school in the islands. Lytton M. Schwartz and Albert F. Hemmings go to Kauai, while Walter R. Fogley and Edwin N. Nattrass are going to Hawaii.

Since August 30, 12 Filipinos have filed in the local federal court their declarations of intention to become American citizens. Gerónimo Farrallon Credo, laborer, who was born in Zamboanga, Philippines, filed his declaration today.

Plans for a municipal garage will be proposed to the board of supervisors at the next meeting. Purchasing Agent Bots has given out figures showing that the cost of upkeep for 24 automobiles belonging to the city in the last six months was \$4957. Mr. Bots favors the erection of a garage by the city.

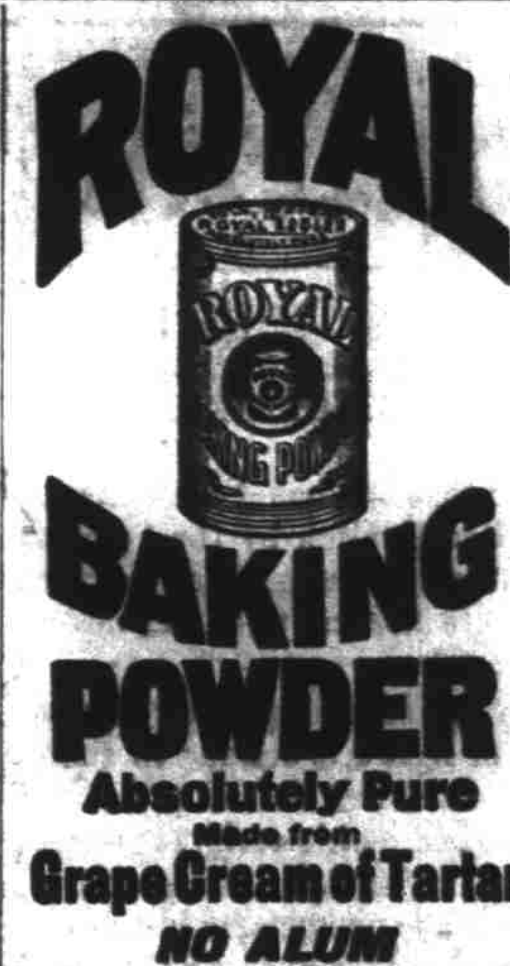

The trial of Libert Nakai, charged with manslaughter, will begin in Circuit Judge Ashford's court at 9 o'clock on the morning of September 15. It is alleged that several months ago an automobile driven by Nakai crashed into an army motor truck. The top of Nakai's machine was torn off and one of the passengers in his machine was killed as a result.

After an unsuccessful attempt to get his bail reduced from \$1000 to \$250 James P. Curran, charged with assault and battery on James Terry, a structural iron worker, left for the coast in the Sonoma yesterday. The first trial of Curran's case resulted in a disagreement. A second trial is scheduled to begin in Circuit Judge Ashford's court on October 25.

A special meeting will be held at the Kakaako mission, Queen street, tonight. Prof. John McTaggart of the College of Hawaii manual training department will preside. A brief address entitled "Chemical Tricks" will be given by Miss Alice A. Ball of the department of chemistry of the college. It will be illustrated by experiments. Miss Elsie Meinecke will render special music.

At lunch in Cooke Hall yesterday 40 members of the flag day committees of the Pan-Pacific Club discussed plans for presentation of flags on Pacific Day, September 25. The ceremonies will occur at the capitol at 3 o'clock in the afternoon, when Queen Liliuokalani, ex-President Dole and Governor Pinkham will receive the flags. Probably the Hawaiian flag will be presented by eight Hawaiian princesses.

A veritable shower of gold coins passed over the clerk's desk in circuit court a few days ago when Lee Chuck and 45 others, arrested by the police on a charge of being present at a gambling game, paid fines at the rate of \$10 each. When Police Judge Mon-

arrat ordered that Lee Chuck et al pay fines the case was appealed to circuit court. The appeal was withdrawn and the case stricken from the calendar in Circuit Judge Ashford's court today. The total fines paid was \$460.

Having given good reason to the court, the following trial jurors were excused for the term by Circuit Judge Ashford today: T. H. Andrews, S. K. Fukumura, E. C. Gonsalves, B. F. Heilbron, John Lennox, G. W. Nawaaka, G. W. Wallace and F. W. Wichman. The following persons were selected to fill the panel: G. E. Macfarlane, R. W. Perkins, Louis F. Feary, Sam Nuuanu, J. A. Noble, William Brede, Ralph E. Turner and W. K. Hutchison.

Secretary Raymond C. Brown of the Chamber of Commerce has just received a letter from Carl F. Deichmann, American consul at Bombay, asking for information on the importation of Hawaiian canned pineapples. Mr. Deichmann says that he considers the prospects of trade in this commodity between Honolulu and India very good, and wishes to get in touch with officials on the subject. Secretary Brown has turned over the letter to the Hawaiian Pineapple Packers' Association for consideration.

Yesterday afternoon about 3:30 a fire started in the upper floor of the Hong Sing Company building at King street near Kekaulike street. The cause of the fire is unknown, although the wife of the proprietor with her three children were in an adjoining room. The company had a large quantity of trunks, traveling bags, suits and dry goods on this floor, and the stock was completely destroyed or damaged. The firemen were engaged more than an hour in fighting the flames and working to keep them from spreading. The stock was insured for \$10,000.

FRIDAY, SEPTEMBER 10, 1915.

THE CASE OF DR. DUMBA.

It seems certain that President Wilson and Secretary Lansing would not ask for the recall of Dr. Constantin Dumba unless the Austrian ambassador were guilty of the grave offense charged against him. That offense—of proposing to his government plans to instigate strikes in American munition factories—is peculiarly odious. It is no secret that agents of both the Allies and the Germans are abroad in the United States seeking to buy or tie up munition outputs, and each seeking to harass the other. So long as these agents do not infringe upon the law, the United States has no recourse against their embarrassing activities. With the accredited plenipotentiary of Austria the case is different. The United States is on terms of official friendliness with that country. Dr. Dumba is in honor bound to do everything in his power to promote that friendliness. As an administration official in charge, he has taken advantage of his position to violate the good faith of his office and to conspire against the legitimate trade of the United States, he can no longer be tolerated. His recall is the logical course.

From Dr. Dumba's standpoint doubtless he acted from patriotic motives. He took as truth the doctrine of the ruthless belligerent—that to serve the "vital aims" of his country international law and the usage of friendly nations might be thrust aside. And it is well to remember, as explanation if not excuse for Dumba's apparent violation of courtesy, that this is the ambassador Former Secretary Bryan was reported to have approached with the comfortable suggestion that the American notes meant less than they said. It was reported that Bryan told Dumba the United States under no circumstances would break with the Teutonic nations, even after the Lusitania incident. If this is true—and adequate denial has never been forthcoming—it may serve to explain why Dr. Dumba trespasses on American relations to an intolerable degree. But it will excuse neither him nor other officials of embassies who have gravely overstepped propriety.

"HELPING JAPAN."

(From the Seattle Post-Intelligencer.)

Coincident with the hauling down of the flag of the Pacific Mail Company on the five vessels of the fleet, which are to be now withdrawn from the transpacific trade, there comes an announcement from Japan that the Osaka Shosen Kaisha, a Japanese line to this coast, has placed a contract for the construction of six new steamships, each of 12,000 tons measurement, which will take the place vacated by the American line. No single blow ever struck to American shipping or to American commercial prestige on the Pacific in previous history compares with that which was struck by the Democratic congress of this country in its last session.

Following the departure of the Pacific Mail line from the transpacific trade there comes a loud war from Hawaii. Under the American coastwise law all commerce between the Hawaiian Islands and the ports of the mainland of this country must be carried in American bottoms. The Pacific Mail vessels en route to the Orient have uniformly made Honolulu a port of call. With their withdrawal Honolulu is deprived of a great share of its transportation facilities. The vessels which are left are mostly freighters, with meager passenger accommodations. Under the seamen's law the expense of operating these vessels is so largely increased that they will be compelled to advance their freight rates.

As a result, in Hawaii a demand has gone up that the islands be taken out from under the coastwise shipping law and permitted to use foreign ships in their carrying trade. It is natural that the demand should be made, because there are no longer enough American ships left to handle the business. Yet, if it is granted and cheaply operated foreign ships are permitted to enter the field, necessarily they will run out the American ships, and the trade of Hawaii, like that of the Orient, will be left exclusively to the foreign ships, necessarily on this coast Japanese ships.

The Post-Intelligencer is apparently mistaken in one point—the extent of the demand for suspension of the coastwise passenger law. The Chamber of Commerce meeting on this subject showed conclusively that Hawaii's businessmen intend to stand by the American companies. In return they want to be assured of adequate passenger facilities to care for what should be a rapidly expanding tourist traffic.

THE DISGRACE OF NICOLAIEVITCH.

The disgrace—for that is what it amounts to—of Grand Duke Nicolaievitch by the Czar is probably the result of some intrigue at the Petrograd court, where Nicolaievitch has never been particularly popular.

Without question the scheming court circles saw in this powerful figure a danger to their own futures. For Nicolaievitch is said to be impossible to "reach," and as his early successes in the war increased, he became Russia's foremost figure. But he made enemies by his dominant rule. Nicolaievitch is said to be the man who forced the Czar to issue the anti-liquor proclamation, a rule which he has rigorously observed in his own private life. Furthermore, every man in his army, from the highest officer to the rawest recruit in the ranks, has to observe the rule. It is on record that the grand duke publicly degraded two of his officers whom he found drinking in a cafe.

While he was displaying brilliant military genius in commanding the Russian armies, invading Galicia and worrying the Germans by the dashes into the Mazurian region, his enemies were busy at home, and the incompetence and corruption of the government, as well as its incurable slowness of action, were fighting against him. Munitions failed at a critical moment, and failed largely because the government organization broke down. Many of his officers proved undependable. General Soukhomlinoff, the minister of war, was removed and Polivanoff named in his place. Polivanoff is said to be at heart an opponent of Nicolaievitch.

The grand duke's popularity and prestige were such while he was winning that his enemies could make little headway with the Czar. But when the Russians sustained defeat after defeat, they apparently succeeded in getting the ear of Nicholas and presumably the same insidious influences that have prevailed on him in the past to carry out reactionary programs have now prevailed upon him to send the grand duke into the Caucasus.

It may be true that the grand duke will be able to make this Caucasus campaign what it was intended to be—an active cooperation with the attack of the Allies on the Dardanelles. If he can drive the Turks before him and approach Turkey along the shores of the Black Sea, he may do Russia a service which will confound his enemies.

SUCH IS FAME.

Supervisor Ben Hollinger, hark to this comment from the Phoenix, Arizona, Republican:

"A kangaroo and a player-piano are among the recent important purchases made by the county government of Oahu, the island on which Honolulu is situated."

"Important purchases!"

An issue of the Fremont Herald shows that this hustling little Nebraska city is moving along the municipal road toward the short-ballot government. At least the citizens are talking of it, and when they begin talking, action will follow some day, just as in Honolulu, for the merits of short-ballot city government are undeniable.

Japan's domestic disagreements do not prevent her from building up formidable commercial and military establishments in the South Sea territory she seized from Germany.

Heavy bombardment in the National and American leagues is now heralding the final battles. And there is terrific slaughter in the "dope."

That Mexican invasion of Texas is a strategic impossibility as long as the hordes south of the border have to wade through water to accomplish it.

If eloquence were a deciding factor in the European war, David Lloyd-George would be the man of the century.

Britain's bloody effort to drive through the Dardanelles is certainly creating a new "all red route."

Germany regrets the Arabic incident. American sentiment is somewhat stronger than that.

Up to date Col. Bryan hasn't been invited to make any addresses at military training camps.

Hereafter the sign language for Dumba.

PASTURE LANDS IN HAWAII GOOD FOR ALL CROPS

Practically Entire Arable Area Can Be Devoted to General Farming, Says U. S. Bulletin

WASHINGTON, D. C., Aug. 30.

"There is no valid reason," says a recent bulletin of the Hawaii Agricultural Experiment Station, Department of Agriculture, "why practically all of the arable land in Hawaii should not ultimately be devoted to general farming. At the present time only a very small percentage of this area has been brought under cultivation, the main portion being still used for pasture. The acreage of cultivated land, however, is slowly increasing and general farming should become more universal."

"The soils of Hawaii are usually very heavy in character," continues the bulletin. "They can not, however, be classed as clay soils in the true sense. They are characterized by a high content of iron and aluminum hydrates and by a low silica content. After rain they rapidly become closely compact and the lack of drainage and proper aeration are serious drawbacks. The effect of green manuring is strikingly beneficial."

"In almost every section of the islands heavy rains sometimes occur and in some regions the rainfall is excessive. One of the most perplexing questions, therefore, especially for pineapple growers, is a proper system of drainage. Generally, the open ditch system has been adopted, but no thoroughly satisfactory method has yet been devised. Lime has been tried in order to lighten the heavy clays, but the results have been doubtful."

"In their chemical characteristics the Hawaiian soils are rather below the average in their potash content, but what they have is rather more soluble than usual and, in consequence, more available. On the other hand, phosphoric acid is comparatively abundant, but its availability is rather low. Except where the humus content is high, therefore, phosphate fertilization is usually necessary. As with phosphoric acid, the humus content is usually high, but its availability is low on account of poor aeration. On this account the nitrogen does not become available fast enough for the maximum growth of crops, and only by maintaining large amounts of humus can the soils be kept in a suitable condition."

"Crop rotation provided the answer to this problem if green manuring crop be ploughed under occasionally. Humus," says the report, "is the key to successful soil management in Hawaii as elsewhere. Sugar planters are now recognizing this fact and instead of burning the trash and crop residue are plowing these under. In the pineapple lands a green manuring crop should be grown between crops. The single crop system has given poor results and, it is said, must inevitably give way to diversification."

In the report already mentioned, which is published as Bulletin No. 40 of the Hawaii Agricultural Experiment Station, are a series of tables giving the chemical composition of Hawaiian soils, the amount of humus, humus ash and nitrogen in them, and their mechanical composition. No attempt has been made to make a soil survey map of the islands such as is made for counties in the continental portion of the United States, because both the chemical and physical composition vary greatly within very short distances.

LITTLE INTERVIEWS

—RAYMOND C. BROWN: I am getting along well with the collection of Hawaiian woods which I am making at the request of the Smithsonian Institution. The College of Hawaii is giving valuable aid. It is said that there are about 50 different woods which may be collected in the islands.

—L. W. DE VIS NORTON (publicity agent for the island of Hawaii): I am glad that Mayor Lane has been the cause of giving so much publicity to the Naha pohaku. Undoubtedly the other islands of the group can be much benefited by a more extensive advertising right here in Honolulu. Most of the travelers who pass through see nothing save Fort street and Waikiki beach, and they quite forget that there are eight islands in the group.

—A. P. TAYLOR (secretary of the Hawaii Promotion Committee): Hawaii is still reaping the fruits of the congressional party visit. This morning I received a letter from Representative Janet A. Fear of Hudson,

BACK TO CHINA AFTER TRIP TO SEE PRESIDENT

Bishop Bashford Entertained By Honolulu Friends During Stop-Over of Shinyo Maru

Bishop James W. Bashford.

En route to China after several months passed in the states in the interests of Methodist religious activities, Bishop James W. Bashford, bishop of China for the Methodist Episcopal church, is in Honolulu today. He arrived in the Shinyo Maru this morning and sails this afternoon for the Orient.

En route in the bishop's party number 11, and include his niece, Miss Marian Frank, Mr. and Mrs. H. S. Leisig, Mr. and Mrs. M. C. Johannaber, and Mr. and Mrs. E. C. Gale and family. The Gales have been home on a furlough, and the Johannabers and Leisigs are going out to China for the first time as missionaries.

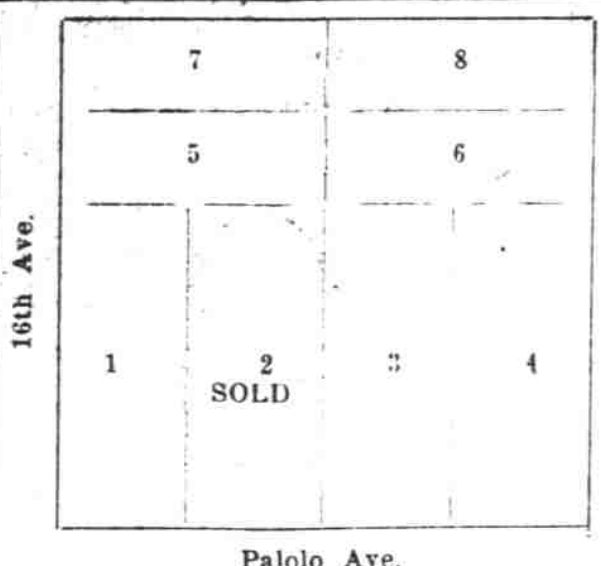

Bishop Bashford was met at Pier 7 by F. C. Atherton and other Honolulu friends, and was entertained here today. He has been Methodist bishop of China for eight years, fulfilling a life-long ambition to serve in Christian work there. He was rejected as a missionary to China when younger, because his health was poor, and when he became a bishop chose China as the field of his Christian work.

One of the reasons for Bishop Bashford's trip to the United States was to confer with President Wilson concerning Japan's demands for concessions from China. The bishop did not say whether the conference had been successful or not, and would not comment on Japan's activities in China.

So crowded was the Shinyo at San Francisco that one of the missionaries planning to go on the boat gave up his berth to the bishop, in order that the latter might not have to wait until he could obtain accommodations on a later ship. Bishop Bashford is a D. D. and L. L. D.

Seven new teachers have been secured for the year's school work at Mid-Pacific Institute, which is to begin on Monday, September 20. The new teachers at Kawaiahae Seminary, the girls' department of the institute, are Mary F. Campbell, matron; Ruth Yeomans, fourth and fifth grades, and Mrs. Isabel Hinkley, nurse. Four men have been secured for Mills School as follows: Harold H. Yost, who has already arrived in the city, and William E. Berney, H. Minor Blowers and George E. Merritt, who will arrive on the Matsonia next Tuesday.

Wis., stating that he had received the Promotion Committee's stereopticon lantern slides and hoped to be able to put them to good use in a few days. I also had a letter from Gov. G. W. P. Hunt of Arizona, saying that he hoped to be able to respond to our invitation soon and spend some time in the islands.

Personal Mention

JUDGE W. A. McRAY of the Waikiki district court is on a visit to the city.

FEDERAL JUDGE C. F. CLEMONS and party left Honolulu today for a leisurely tour of Oahu by automobile.

WILLIAM J. COELHO has been drafted a two months' leave of absence from the land office. Coelho was appointed clerk and interpreter for the charter convention.

J. B. M'SWANSON, who has been taking George Henshall's place as editor of the Hilo Tribune, has returned to Honolulu. Mr. Henshall recently returned from a visit to the exposition.

MISS CHARLOTTE L. TURNER of Maui is the house-guest of Miss Helen Alexander in Manoa. She recently remained from settlement work in Wailuku, and expects to leave for San Francisco to visit the exposition.

JAMES L. COKE, territorial senator of Honolulu, has been having some time deer hunting in the Rogue River mountains in Oregon, where he has been visiting his brother, Judge John S. Coke, says a recent issue of the Portland Telegram.

MISS GRACE P. HAVEN is the house-guest of Miss Helen Alexander in Manoa. She recently returned from a year's travel and study on the mainland, and expects to leave shortly for Paia, Maui, for work at the Maunaloa Seminary.

MR. and MRS. HARRY W. TAYLOR of Wenatchee, Wash., who have just sold the Wenatchee hotel, are coming to Honolulu to spend the winter, says a recent issue of the Spokesman-Review of Spokane. They will be accompanied by Mr. Taylor's mother.

CHALMERS A. GRAHAM, an old-time and popular visitor here, arrived this morning on the Shinyo Maru for one of his regular visits to his old "stamping grounds." Mr. Graham

Have you a Signet Ring?

A Signet ring is the most popular and at the same time the most proper ring of all.

We have a very nice assortment of them.

H. F. WICHMAN & CO.
Leading Jewelers

was for many years a kamaaina here, and has dozens of friends. He is connected with the San Francisco office of a New York oil company, and travels a great deal to and from the Orient.

Y. SOGA, editor and president of Nippon Jiji, leaves this afternoon, accompanied by his family, for a trip to Japan. Mr. Soga will not return to Honolulu before December. Though not a member of the party of fifty-odd Japanese leaving on the Shinyo Maru today to see the coronation of Japan's emperor, Mr. Soga will make it a point to witness the ceremony.

R. MILLER, engineer in the office of the superintendent of public works, is the architect of a landscape drawing, done in ink, showing the proposed improvements on the territorial building and capitol grounds. Prints of the work have just been returned from the engravers. The drawing, besides being correct in detail, is neat and artistic.

The department of justice is in full accord with the action the United States district attorney at San Francisco in bringing about indictment of British and German consular officers charged with violating neutrality laws. The annual playout of the New England Veterans' Foremen's League brought 25 tubs to Marblehead.

A cozy bungalow, on an excellent lot in "Makiki Beautiful," can be secured by a first payment of \$500, the other payments to follow regularly at the rate of \$48 monthly. The total cost of home and lot will be \$3450. There are just 5 of these opportunities.

Farm Homes for Portuguese in God's Country

PORTUGUESE ATTENTION!

YOU AND YOUR FAMILIES FUTURE MAY DEPEND UPON YOUR
READING THE FOLLOWING

I believe in freedom not slavery.

I believe in a Man's Children having a show for a future above rags and roof to cover them.

I believe in encouraging among all classes ambition, the great exponent of which is ownership of land the cultivation of which means a profitable home.

I believe in lifting up a deserving people, not keeping their nose to the ground.

I believe in the industry, honesty, determination and thrift of the Portuguese laborers now in these islands.

I also believe, as long as they are laborers here, their future will not improve.

Believing these facts, and wishing to better their condition and myself as well---

I went to California and in the beautiful fertile valley of the San Joaquin, I found what I was looking for---

A Garden of Eden for the Industrious Portuguese

And I have made such arrangements, that the poorest amongst you can go to the lands, and become in a few years comparatively rich and independent.

An Impossibility If You Stay Here

The land I offer is from one to three miles from thriving towns. One of them is a junction and division point of the Santa Fe Railroad, with a payroll of \$25,000.00 per month. There are two other railroads connecting at points on the land that I have for sale. The property is only 100 miles from San Francisco, 25 miles from Stockton.

There is an abundant supply of water for irrigating purposes which is distributed by one of the best irrigating systems in California, over this tract. The cost of the water is nominal.

To own in California a farm with rich soil and water in limitless quantities for irrigating, is to have plenty, comfort and happiness.

California Calls You Portuguese

I can offer you, only for a short time, farms of twenty acres, planted to Alfalfa, level land, irrigated. The creameries adjoining will sell you Portuguese from Hawaii the cows you require on long time, deducting each month from your cream checks a small amount to pay for them. The trucks from the creameries taking the cream from your door, leaving the warm skim milk for your calves and pigs. Your cream checks are mailed to you every two weeks.

You have free mail delivery, telephones, churches, schools, no need to leave your ranch unless you so desire.

The canneries and packing houses, in the adjacent towns, will employ your older children every day in the year. Their wages being from \$1.00 to \$2.50 per day.

The corporation owning these lands have agreed to give you, the Portuguese of Hawaii, ten years to pay for the land you buy.

Most of the land I am selling is planted to Alfalfa now. After you have built your little house, the creameries deliver the number of cows you wish. You start in feeding and milking. Twelve hours after you arrive on your land, your income is greater than your expense. No waiting. Your market comes to you by the creamery trucks taking away your milk.

The richest farmers in this great valley are Portuguese, Italians and Germans. THEY SAY TO YOU—"COME!"

It Is Your Opportunity---Grasp It

Go to California, where your son or daughter can rise from a dependent laborer to an independent owner of a paying farm; not as here, where you live, grub, and slave for others. In this 1915 you are the same as you were in 1910, and in your future here there is NO HOPE.

Let Me Show You The Future Here---In Hawaii

The other day a corporation sold a sugar plantation on Hawaii to Japanese. Can you work on that plantation? Can you on any plantation compete against the Japanese? The answer is no. In a few months when sugar is at the price it was prior to the war, or even less--how many plantations will either shut down or be sold? Who will buy them? THE JAPANESE. Will you be able to get work on them? NO.

The Japanese are building their own pineapple canneries here now.

These islands will occupy in five years, the unique position of United States lands operated by Japanese, under the protection of United States soldiers, forts and warships.

There is a movement on foot now for the National Guard of Hawaii to be increased, and for headquarters to be in the crater of Punchbowl. You Portuguese come to California--and join the guard of profitable farm homes. It is better for your children.

For all particulars regarding the above, address me care of the Young Hotel.

I shall shortly journey around this island, stopping at all plantations and shall be glad to furnish all information you may desire. I will notify your locality of the date of my arrival.

O. A. STEVEN

P. S.--My primary idea is for one or both of the Portuguese societies, together with your Consul at Honolulu to pick two men whom I will take to California, at my own expense, for a personal investigation of this opportunity, returning them to Honolulu and abiding by their decision as to the merit of this proposition.

SHIPPING & WATERFRONT NEWS

T. K. K. CAN'T TAKE ALL THREE SHIPS
ALL TRAFFIC OF OCEANIC TO
OFFERED CARRY MAIL
STEAMER CHINA
WILL LIKELY BE
ADDED TO FLEET

(Continued from page one)

Crowded to the guards, after leav-
ing nearly 60 prospective passengers
behind in San Francisco because there
was no room for them, the T. K. K.
liner Shinyo Maru docked shortly after
8:30 o'clock this morning at Pier 7,
en route to Yokohama, Manila and the
Orient. She sails at 5 o'clock sharp
this afternoon.

Only four lay-over passengers came
in on the boat today for this port, the
through passenger list totaling 187
persons. A large number will sail for
the Orient this afternoon from Ho-
nolulu, including many local Japanese
going to Japan to witness the coronation
of Emperor Yoshihito. In Novem-
ber at Kyoto.

The Shinyo brought in 297 sacks of
mail, and Capt. W. C. T. S. Floyd re-
ported a calm and enjoyable trip all
the way. Purser J. P. Bourne re-
ported that owing to the Pacific Mail's
withdrawal, every T. K. K. boat from
now until the Nippon Maru, due to
sail from San Francisco the last of
October, is sold to full capacity.

Nearly 600 tons of freight was left
behind because there was not room for
it on the liner.

Among the notables on board the
Shinyo today when it came in were
President S. Asano of the T. K. K. line,
Dr. Paul S. Reinsch, American
minister to China; E. L. Chermont,
Brazilian minister to Japan; Comdr.
T. Imamura of the Japanese navy,
Lieut. Comdr. H. Poorten and Capt. G.
E. Fisser of the Dutch navy, en
route to Java, a Dutch possession, on
government business.

The Shinyo is carrying 200 bars of
silver to Hongkong, but has no gold
shipments of consequence on board.
When she goes out at 5 o'clock, she
will be carrying 21 passengers.

All the commotion that several hus-
ky pairs of turkey gobblers and hens,
also numerous blue-blooded pigeons
and other poultry could make caused
the reefing of the T. K. K. liner Shinyo
Maru to furnish an excellent im-
itation of feeding time on the ark this
morning.

Cackles, coos, sputterings, gobbles
and other feathered language floating
out across the waves made custom
inspectors and newspapermen on the
boarding launch wonder whether a
poultry show was being held on the
big liner when she anchored off quar-
antine about 7 o'clock. "Reminds me
of Thanksgiving time," remarked the
launch's engineer.

It. L. Sherman of Manila is the own-
er of the feathered pets, and is tak-
ing them to the Philippines. They are
prize-winning "turks" and pigeons, and
he hopes to create a sensation among
poultry fanciers in Manila upon their
arrival.

John M. Madden of Lynn, Mass.,
closed a contract with the Russian
Government agents for 4,000,000
cartridges, to cost \$12,000,000.

Prisoners of war held by the Austro-
Germans total more than 2,000,000, of
whom 1,645,000 are Russians.

Definite announcement reached Ho-
nolulu today for the first time that all
three ships of the Oceanic Steamship
Company, the Sonoma, Ventura and
Sierra, will hereafter carry mail from
Honolulu to the coast, when east
bound from their runs to Australia.

Wireless news of the new contract
left the matter in doubt, when news
of the mail contract with the Sierra
was given out. The formal announce-
ment, mailed from the postoffice de-
partment at Washington, follows:

"Postmaster-general Burleson has
concluded arrangements with the Ocea-
nic Steamship Company whereby the
steamers of that company plying be-
tween San Francisco and Sydney via
Honolulu and Pago Pago, Samoa, will
sail from San Francisco and Sydney
once every three weeks instead of
once every four weeks as heretofore,
and will call at Pago Pago and Ho-
nolulu on each of the homeward trips
as well as on the outward trips. This
will put an additional 16-knot Ameri-
can steamer on the route, making
three altogether, all of which are sub-
ject to the call of the government in
time of war for use as auxiliary naval
cruisers, as provided by the Ocean
Mail Act of March 3, 1891. It also
assures regular and expeditious ser-
vice from which at present is via Syd-
ney and thence to San Francisco, as
the steamers do not call at Pago Pago
on the homeward trips. The new ar-
rangement will commence with the
sailing from San Francisco October 26,
1915."

COUGHAN MAY BE
NEW SKIPPER OF
LINER SIBERIA

That First Officer J. J. Koughan
of the Oceanic liner Sonoma, which
sailed from here at 5:30 o'clock last
evening for San Francisco, is to be
promoted to the captaincy of the Si-
beria when that steamer sails on her
first run to Honolulu and Australia
after undergoing extensive repairs in
San Francisco, was stated today from
authoritative sources.

The Oceanic's new steamer schedule
will become effective October 25,
provided a 21-day calling schedule for
steamers to and from the coast and
Australia, instead of the present 28-
day schedule, is arranged.

The Sierra's former captain, Mr.
Houdlette, retired on a pension re-
cently, after serving the Oceanic line
for many years.

Holland is inquiring for 15,000 tons
of steel billets and bars.

WEEKLY PRODUCE REPORT

By A. T. LONGLEY, Marketing Superintendent.

WEEK ENDING SEPT. 9, 1915.

HONOLULU WHOLESALE PRODUCE MARKET QUOTATIONS.
Issued by the Territorial Marketing Division.

Wholesale only.	BUTTER AND EGGS.	POULTRY.
Eggs scarce. Demand good.	Broilers, fat, 2 to 3 lbs., 35 to 37 1/2	Young roosters, lb., 25 to 27 1/2

Maru. To these we will add three
more, the Persia, which we recently
purchased from the Pacific Mail, the
Anyo Maru, now on the Japan-South
America run, and the China, which

Sick Women Attention

Is it possible there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, which proves beyond contradiction that this grand old medicine has relieved more suffering among women than any other one medicine in the world?

We have published in the newspapers of the United States more genuine testimonial letters than have ever been published in the interest of any other medicine for women—and every year we publish many new testimonials, all genuine and true. Here are three never before published:

From Mrs. S. T. Richmond, Providence, R. I.

Providence, R. I.—For the benefit of women who suffer as I have done I wish to state what Lydia E. Pinkham's Vegetable Compound has done for me. I did some heavy lifting and the doctor said it caused a displacement. I have always been weak and I overworked after my baby was born and inflammation set in, then nervous prostration, from which I did not recover until I had taken Lydia E. Pinkham's Vegetable Compound. The Compound is my best friend and when I hear of a woman with troubles like mine I try to induce her to take your medicine. —Mrs. S. T. Richmond, 84 Progress Avenue, Providence, R. I.

From Mrs. Maria Irwin, Peru, N.Y.

Peru, N.Y.—Before I took Lydia E. Pinkham's Vegetable Compound I was very irregular and had much pain. I had lost three children, and felt worn out all the time. This splendid medicine helped me as nothing else had done, and I am thankful every day that I took it. —Mrs. Maria Irwin, R.F.D. 1, Peru, N.Y.

From Mrs. Jane D. Duncan, W. Quincy, Mass.

SOUTH QUINCY, MASS.—The doctor said that I had organic trouble and he doctored me for a long time and I did not get any relief. I saw Lydia E. Pinkham's Vegetable Compound advertised and I tried it and found relief before I had finished the first bottle. I continued taking it all through middle life and am now a strong, healthy woman and earn my own living. —Mrs. Jane D. Duncan, Forest Avenue, West Quincy, Mass.

Write to LYDIA E. PINKHAM MEDICINE CO., (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

THEATRICAL OFFERINGS

TEN ACTS FOR O'ROARK BENEFIT

"Ten big acts have been arranged for the Jane O'Roark benefit at the Bijou theater next Wednesday night," according to the window cards which were placed today. Those in charge of the affair, however, state that they rushed to print, so far as these cards were concerned, just a trifle early, and predict a 50 per cent increase in this number of offerings. Miss O'Roark, while but a short time in this city, made numerous friends and many have come forward and volunteered their services in any capacity whatever.

While the program is now almost

complete the promoters of the benefit are desirous of completing same before making any announcement as to the talent. However, they promise that a number of old-time Honolulu favorites will appear to good advantage and that a number of excellent vaudeville acts, entirely new to this city, will also be presented.

The Ad Club and several other local organizations are behind this benefit performance and it is guaranteed to be up to the high standard demanded by Honolulu's wide awake organization. Tickets are now on sale by the Ad Club committee in charge of the affair.

CALLS JOLIVET 'AMERICAN BEAUTY'

"The Unafraid," featuring Rita Jolivet, scored a decided hit at the Liberty theater upon its premier last night. There seems to be little information at hand as to just who Miss Jolivet is. The manager of the Liberty terms her "the American Beauty," but, judging from her work in this picture it would not be a far guess to brand her as a "French beauty." In any event the word "beauty" is applicable. Miss Jolivet is a finished actress and has fine support furnished

her by Jesse L. Lasky. House Peters is seen opposite to Miss Jolivet.

Strange scenery and strange costumes are the order of things in "The Unafraid." The plot of the story is laid in Montenegro.

The third episode of the "Adventures of Kathlyn" are the most thrilling of this serial thus far shown in Honolulu, while the "Pathe Weekly," carries a number of excellent naval pictures in connection with the European war.

SCENES ARE LAID IN HIGH SIERRAS

Max Figman and Lolita Robertson are splendidly cast in "Jack Chanty," the photo-play running at the Popular theater this week. These stars since entering the "movies" have produced some good romantic plays.

"Jack Chanty" is a five-part feature of the open country, and the plot is laid in the gold country forest of the far West, among the mountains of the Sierra Madre. Indians take an important part in the production—in fact, a quarter-breed Indian maiden (Miss Robertson) is the heroine of the picture. The story is diverted sufficiently to inject into the play scenes and incidents of society life in a great eastern city.

"Jack Chanty" will run until Monday night, inclusive, at the Popular, with the usual Saturday matinee tomorrow. It will be followed by "Damon and Pythias," a remarkable picture of which the members of the Honolulu Pythians will be the patrons.

PIANO RECITAL NEXT THURSDAY

Frank Moss, the well-known California pianist who recently arrived in Honolulu, will give his first public recital in this city on Thursday evening of next week, September 16. The recital will be given at the Charles R. Bishop hall, Oahu College, beginning at 8:30 o'clock.

Mr. Moss, who may locate permanently in Honolulu, was, before leaving the coast, the dean of the California Conservatory of Music at San Francisco.

BANK OF HAWAII TO AID DEPOSITS OF LOCAL SAVERS

Formal notice is being given today by the Bank of Hawaii that owing to a desire expressed by a number of persons receiving money after banking hours on Saturday afternoons to make deposits in the savings department, the Bank of Hawaii's saving department will be open from 7 to 9 p. m. each Saturday, to receive deposits only. The new plan will begin tomorrow and continue regularly. No payments will be made during these hours.

HEALTH BOARD GRANTS PERMITS TO PRACTISE

Gilbert J. Waller, who recently was appointed by Governor Pinkham to succeed Commissioner George R. Carter, resigned, attended his first meeting of the board of health yesterday in the capacity of a member. Among other things the board, acting on a recommendation from the board of medical examiners, granted licenses to practise medicine and surgery to Dr. T. Suzuki, Dr. Unpei Shimamoto and Dr. Nubukichi Morisugi. Dr. Russell C. Lichtenfels was appointed government physician for the Hana district, Maui.

After an almost continuous service of 12 years, Cecil Killehua, superintendent of the quarantine hospital at Kalihii, was granted a month's leave of absence. He expects to visit the exposition in San Francisco as well as other California points. An order was passed by the board to the effect that no government physician or board of health inspector incur any liability without the sanction of the chief sanitary inspector.

When Your Eyes Need Care Try Murine Eye Remedy

BISHOP ESCAPES CLAD IN BLANKET

"What Happened to Jones?" just seems to be unable to keep from making people laugh at the Bijou theater these nights. Incidentally the title might have mentioned almost anyone else in the cast just as well as Jones, for the reason that something is happening to somebody every minute during the run of the five reels.

Jones meets and weds a young lady attending an exclusive academy. He decides that the young lady must become his wife, but how? That's the question. Jones hasn't the remotest idea until he attends a prize fight, escapes when the police raid the fight and insists upon escorting home the professor in charge of the academy. Jones insists upon being protected, and the professor, expecting a visit from his brother, the bishop of Timbuctoo, introduces Jones as the brother. Shortly the real bishop arrives, is rushed to a room, relieved of his clothing and locked in. The bishop escapes with only a blanket for clothing. About the same time a lunatic escapes from a nearby sanitarium similarly attired. Then the fun is fast and furious.

"OO-YI MY CORN-NI" H-M, USE "GETS-IT"

Then You'll Have No Corns to Bump! Your Corns Will Come "Clean Off." Quick!

Did you ever see a corn peel off after you've used "Get's-It" on it? Well, it's a moving-picture for your life! And you hardly do a thing to it. Put a little "Get's-It" on, it dries at

once. There's nothing to stick. Put shoes and stockings on right over it. No pain, no fuss, 48 hours—corns gone. "Get's-It" never hurts the true flesh, never makes the toes sore. If you have tried almost everything else for corns, you will be much more surprised to see how quickly and easily your corns and callouses will come right off with "Get's-It." Quit limping and wrinking up your face with corn-wrinkles. Try "Get's-It" tonight on that corn, callous, wart or bunion and you'll be glad you read this.

"Get's-It" is sold by all druggists, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago. Sold in Honolulu and recommended as the world's best corn remedy by Benson, Smith & Co., Ltd., Fort and Hotel Streets, and Hollister Drug Co.

KAMEHAMEHA IS READY TO BEGIN WORK FOR YEAR

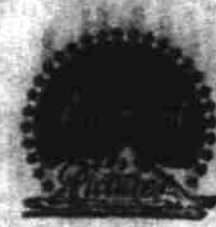

Charles R. Boatwick, the new principal of the Kamehameha manual school, is busily at work preparing for the opening of the school on September 13. He is working out a schedule of study for the shop work during the coming year, and is giving attention to other matters which will tend to somewhat enlarge the work of the department.

The Kamehameha athletic field is being enlarged, the work including a 220-yard straightaway under track. The erection of six grandstand sections will provide ample seating space for attendants at the football games and other athletic contests. The work of altering Bishop hall is about completed. Office space for the president, principal and auditor has been provided and the building has been equipped with white marble lavatories.

Kamehameha has enrolled 51 students to date. It is expected that by the time school opens this number will have increased to more than 300. The teachers in the preparatory department are ready for work, and this year there will be three new instructors—Miss Farwell, Miss Campbell and Miss Mitchell. Miss Alice Knapp will continue as principal of this department. Miss Abbie Newton has been appointed principal of the girls' school. George Andrews, who has charge of the school's music, has returned from a visit to the coast. Messrs. Livingstone and Bartlett, who have been on Maui, have returned with their families.

ALL CHARTERS SUBMITTED MUST BE PRINTED TO AID DELEGATES

Pacheco Thinks Success Depends Upon Adequate Appropriation for Expense

Chairman M. C. Pacheco of the charter convention yesterday afternoon formally called upon T. P. Thiele, manager of the Young hotel, and extended to him the thanks of the convention for the generous offer of the makal pavilion as a meeting place. Hearing that the convention was hard put to find a meeting place large enough and quiet enough, the management of the Young hotel two days ago made the offer of the pavilion.

Since all charters which may be prepared by any citizens, or any fragments of charters, or any suggestions thereon, will be welcomed by the committee of 15 of the convention, Mr. Pacheco is making arrangements to set aside a room for the clerk at the Young hotel, so that all suggestions from the public may be readily filed. The room will also furnish a convenient place for the meetings of the charter committee of 15.

In order to facilitate the accuracy and speed with which the convention

may work, the Chamber of Commerce has formally tendered to it the use of the chamber's bureau of information, which may be used by members of the convention as a reference library in connection with their work.

Mr. Pacheco said this morning that he thought the procedure of the convention would be to read each presented charter by title to the convention, the members of which would in the meantime be supplied with copies of the proposed measure. After this brief reading the charter will be referred to the committee of 15 which will give it consideration in detail.

"Much depends," said Mr. Pacheco, "upon the success of the finance committee in obtaining the appropriation from Governor Pinkham. Without a sum of several hundred dollars it will be impossible to print every charter for distribution among the members of the convention, yet it is upon just this point that the convention depends for successful work. We must bring every proposition in black and white before the eyes of each delegate."

No charters have been yet submitted, but it is expected that the several which have been prepared will be available by the end of the week.

ENGINEERS CERTAIN OF ENOUGH RECRUITS TO MAKE UP COMPANY

Preliminary to the company's organization, 30 men, prospective members of the engineers' company, National Guard of Hawaii, met last evening in the armory for a get-together program.

Much enthusiasm was manifested at the meeting, which was addressed by Charles R. Forbes, who has been named captain of the company; Col. Samuel I. Johnson, the adjutant-general, and Lieut. W. C. Whitener.

Petitions are now in the hands of several prospective company members and are being circulated. There is no doubt that at the next meeting more than the requisite number of men necessary to form a company, 55, will have been signed up. More than that number have been promised.

Those signing the petitions last night include J. W. Caldwell, S. T. Carr, G. S. Wright, F. B. Schaefer, A. C. Wheeler, W. L. Wayne, John C. Morgan, Arthur G. Rutherford, E. C. Hodges, W. E. Griffin, L. Grata, Fred Oht, W. B. Carson, W. C. Furer, Harry H. Allen, S. T. Hill, W. F. Sinclair, R. I. Creik, U. Matsuo, W. C. Wood, L. S. Cain, R. Miller, F. C. Palmer, Ben Hollinger.

TWELVE TAKING OAHU EXAMS.

Examinations are being conducted at Oahu College today for entrance into the freshman class this fall. Twelve students are taking the examinations. When school closed last June 30 students took the entrance examination, which means that approximately 30 new students will enter the academy when school opens Monday.

The preparatory school will conduct entrance examinations tomorrow. It is estimated that about 25 students will take the tests. At the entrance examinations held last June 15 students applied for admission.

Keep Your Lungs Strong

This advice is doubly important with the knowledge that every three minutes some one in the United States succumbs to consumption and many refuse to realize they are afflicted until it is too late.

It is after colds or sickness, from overwork, confining duties or when general weakness exists that tubercular germs thrive because the resistive powers of the body are weakened.

Only with fresh air, sunshine and abundant rich blood can one hope to arrest their progress, and the concentrated fats in Scott's Emulsion furnish fuel for rich blood, and its rare nourishment helps strengthen the lungs while it builds up the forces.

If you work indoors, tire easily, feel languid or run-down Scott's Emulsion is the most strengthening food-medicine known and is free from alcohol or stupefying drugs. Avoid substitutes.

14-53 Scott & Borne, Bloomfield, N. J.

MORI'S BROTHER ASSUMES TITLE OF COUNT NOGI

Peers of Japan and People Get
Brother of Viscount to Take
Name of Dead Hero

(Special to Hawaii Shimpoo.)
TOKIO, Japan, Sept. 10.—The brother of Viscount Mori, as the wish of the peers of Japan and by the common desire of the Japanese people, will assume the name and title of Count Nogi.

Count K. Nogi so distinguished himself in the Russo-Japanese war as to become the hero of the Japanese people. What Washington is to the Americans and Nelson to the English, Nogi is to the Japanese. During the war he lost his two sons under fire, and as he was survived by no daughters, the family of Nogi, one of the oldest and noblest in Japan, went out of existence.

This is looked upon by the people as a national tragedy, and the appointment of Mori to succeed to the title of Count Nogi comes as a natural development of the will of the people.

Unostentatious and great only in deeds, Count Nogi won the entire love of his race and his death was considered as a national disaster. After the death of the emperor under whom he had fought, Nogi as a token of love for his lost ruler committed harikari with his wife. It is customary when performing this rite to have an assistant standing behind who cuts off the head of the sacrificer at the same moment that he makes the insertion of the knife. But Nogi and his wife sat down face to face and gave their lives to the soul of their emperor.

They were found in this position next morning, and the whole nation mourned.

ARMY NOTES

Capt. Paul McCooke, 1st Infantry Schofield Barracks, Hawaii, registered yesterday at department headquarters—San Francisco Examiner.

Captain John W. Glibreth, Jr., 1st Field Artillery, who is expected here from Schofield Barracks, Hawaii, on the transport Sherman, will proceed to Fort Sill, Okla., upon his arrival to deliver certain government property—San Francisco Examiner.

Wild Rats, Mongoose and Bees Make Pilikia For Water Surveys

They Want to See How the Machinery Works and Get Into Serious Trouble

The division of hydrography of the bureau of agriculture and forestry is having a lot of trouble in connection with its stream measurement work on account of the innate curiosity of the wild rat and mongoose and because wild bees and wasps have decided that the well and shelter which are housing the water measuring instruments, were constructed for their especial benefit.

Recently, C. D. Dore, who was formerly in charge of the hydrographic work on Kauai, found that one of his instruments was not operating correctly. An investigation showed that wild bees had entirely plugged up a 12x12 inch float well with their nest and these bees put up a pretty classy battle to protect their home. Dore finally won out but he was almost unrecognizable and had a decided aversion to get into the saddle for several days.

On Oahu, recently, mud wasps plugged up the opening of one of the

clock registers and on Maui a large wild field rat took possession of a vertical three-inch pipe in which was operated a bottle float in connection with a water stage recorder. Fortunately the rat was operating with his dangerous end downward and when finally dislocated was at a disadvantage. He was killed after making quite a battle.

Last month when H. A. R. Austin approached a stream measurement station near Kahuku on Oahu he was greeted by odoriferous evidence that all was not well. Investigation proved that a large mongoose had become marooned in the corrugated iron well maintained in connection with the measurement station which is kept full of water and had taken refuge in the large copper float which is suspended from the instrument by a small G. I. cable. From the record shown by the instrument he had done an almost continuous tango on the float for about 30 hours after which he committed suicide by biting the suspending cable in two which resulted in his sinking to watery oblivion.

SCHOOL BOOKS AND SUPPLIES AT ARLEIGH'S

Everything your children need in the line of books, writing materials, drawing or painting supplies, etc., etc., are now ready at Arleigh's. Also teachers' supplies for the desk or schoolroom. There's plenty of every kind, but the early purchasers of course have the subject of their minds the quickest.—adv.

ONE OF JAPAN'S GREAT PRIESTS TELLS WILSON DESIRE IS FOR PEACE

Attired in a silk hat reminiscent of one of Tad's famous characters and wearing a long, flowing robe fashioned like a kimono, Rev. Hioki Mukusen, one of the foremost Buddhist priests of Japan, arrived here on the Shinyo Maru this morning and will sail with the boat at 5 o'clock this evening.

Rev. Mukusen met President Wilson in Washington August 23, following the close of the International Buddhist Congress in San Francisco earlier in August. He said today he told the President that the entire Japanese people are desirous of maintaining peace between Japan and the United States. Prof. S. Yamakami of the Japanese Buddhist University, accompanied Rev. Mukusen on his trip to Washington.

INVITE THAYER TO BIG CONVENTION OF STATE SECRETARIES

Wade Warren Thayer, secretary of the territory, was just received a letter from Stuart F. Reed, secretary of the state of West Virginia, inviting the Hawaii secretary to attend a general conference of all the secretaries of the states and territories, to be held in Cincinnati, O., on October 21 and 22.

Mr. Thayer says that the distance is so great to the Ohio city that he does not feel he will be able to go, although he is heartily in accord with the objects of the meeting.

The purpose of the conference, as stated by the secretary of West Virginia, is to form an organization known as the college of American premiers, or such other name as may be deemed fit by the members, and to carry out an appropriate program.

The Chamber of Commerce of Cincinnati has written extending a hearty welcome to all of the delegates to the convention.
