MUTINY ON BOARD SHIP.

Captain King and Officers Have a Hard Time at Sea.

The Japanese steamer Nanshan, Captain D. K. King, which arrived from Kobe on Sunday morning, had a very exciting passage hither. While at sea on Oct. 20 the crew mutinied and the captain and his European officers handled the steamer until she reached port. The trouble as related by one of the chief officers, who was seen by a BULLETIN reporter this morning, was

On Oct. 20 one of the quartermasters,a Japanese, was at the wheel. He did not steer properly, but kept the steamer going from one side to the other. Captain King remon-strated with the man and told him to steer properly. The quarter-master answered the captain gruffly and advised him to take a trick at the wheel himself, and started to walk away. Captain King ordered him back to his duty, giving him a shove at the same time. The man turned around and showed fight, when the captain struck him. A struggle ensued. The utmost confusion prevailed among the nine hun-dred passengers, but finally the quartermaster was overpowered and put in irons. Another Japanese quartermaster was ordered to the wheel and he refused to go. In the evening the whole crew of Japanese headed by the quartermaster, after consultation in the forecastie, resolved to rescue the prisoner and accordingly made a combined rush. The European officers armed themselves with revolvers and ordered the mutineers back, but resistance was out of the question. The men released the prisoner and broke the irons. The officers after que reflection decided not to interfere with the mutinous crew, but allow them to have their own way until the steamer reached port. The erew went into the forecastle and the European officers, with the assistance of three extra Japanese, navigated the Nanshan to port.

About 8 o'clock Sunday evening the crew made an effort to reach the bridge where Captain King and Chief engineer Focker were standing. The men used threatening language at the same time. A blue signal light was sent up and shortly afterward a guard of blue jackets arrived from H. B. M. S. Hyacinth. The blue jackets, six in number, were stationed on board all ber, were stationed on board all night, and since then a guard has been on board the steamer night and day. The mutinous crew numbering ten men are in irons in the forecastle. The few men engaged in the engine room go about their work gruilly and just about keep the fires going. A naval court of enquiry will be held as soon as possible, perhaps to-morrow. Captain Hawes, British Commissioner, a lieutenant from H. B. M. S. Hyacinth and C. D. D. H. S. Hyacinth and C. D. D. H. S. H. S. cinth, and C. A. Doyle, Japanese interpreter, visited the Nanshan this morning.

The Nanshan is consigned to T. H. Davies & Co. and brought 500 tons of freight.

We have a counter arranged this week devoted to WHITE COTTON DRESS GOODS, every piece of which we expect to 1171 21 sell before the week is out. They do not come under the head of Quick Sales and Small Profits, they will be SOLD AT JUST WHAT THEY COST US, not one cent more or On THURSDAY, Nov. 1, one cent less. We want the room for more goods coming; we have made great purchases for the fall and winter trade. So from time to time different lines of goods will be pushed just as these White Cotton Dress Goods are at ACTUAL COST PRICE. And Magoolies, Cinnamon Trees, speaking about Quick Sales and Small Profits, as a fair sample of the difference it has made in prices generally we will just mention Ladies' BLACK STOCKINGS. Those that we have always sold for \$3 per dozen, we are now selling for \$2.25 per Dozen, while those that were formerly \$5 per dozen are now only \$4 per dozen. The same thing applies to MEN's SOCKS. The \$3 per dozen ones are now \$2.25 per dozen. We simply mention these few things, because they show a fair proportion of the discounts made throughout the entire stock Do not forget to save

POST OFFICE IMPROVEMENTS.

A Ladies' Window to Be Opened on the First

By the first of November the improvements to the Post Office will have been completed. The native delivery window was opened this morning. It is at the upper corner on the Waikiki side of the Post Office, whereas formerly it was on the Ewa side. Next to the present location of that delivery there will be a ladies' window and stamp window in one office. This apartment will have for clerk Miss Clara Low of Kohala, Hawaii. The young lady arrived in town by the steamer Claudine on Sunday, and will assume her duties on Thursday next. This provision of separate windows for men and women, it is expected, will faci-litate the work of the clerks and prevent crowding and long waiting. Between the ladies' window and the old delivery window is the Japanese and Portuguese window. The new windows, with the exception of the Hawaiian delivery, will open up for business on Nov. 1. The Postmaster General is now located in a neat little office in the north end of the newspaper sorting boxes, which ma-terially reduce the labor of the attaches of the postal bureau.

As a place of residence Honolulu presents advantages to be found nowhere else in the world. For people who prefer high altitudes Nuuanu, Punchbowl or Tantalus are places where residences may be built so that magnificent views of the city and bay may be had at all times. To others who wish to be on a level with all mankind, Makiki has attractions that please. If there is a scarcity of land it will be felt Post Office, and near the steps leading to his office has been cut out a receiver of island and city papers addressed from newspaper offices.

There have already been provided and where they can sit and and where they can sit and view the grandeurs of a semitropic sunset. There is very little available land toward Dia-Residents on Emma street were mond Head and as time passes startled yesterday afternoon by cries of "help!" and other evidence of an assault being made. Shortly after a telephone was received at the Station for a police officer. Lieutenant Holi responded to the call, and found the trouble to be in a house occupied by a prominent lawyer. It appears the latter was moving his furniture, a draw being in front of the start of the land of furniture, a dray being in front of the gate to cart the things away.

The housekeeper objected to certain articles being taken, claiming owner articles articles are the transfer of the taken are the transfer of the taken articles are the taken are the tak surv balance would be the result. If there were more lots would live there and improve them. Every dollar of improve-Indiana, are never without a 'bottle of Chamberlain's Cough Remedy in the house," says Jacob Brown, the leading merchant of the place. This Remedy has proven of so much value for colds and croup in children that few mothers who know its meant so much for the government by way of taxation and that alone should be an inducement for it to extend roads wherever it is possible.

Ever since we started business we have aimed to secure such goods as we believed to be suited to the tastes of the people on the Islands. Anything in the way of a novelty when it is believed to be really good is secured by us and offered to the public almost as soon as it is introduced in the United States or Europe. One of the latest is the Metallic Re-On THURSDAY, Nov. 1st, frigerator for use in the bedroom. We think this is a good thing because it obviates the necessity of people going to the kitchen or pantry for milk or anything else that is needed during the night. For these who like luncheon in their bedroom late at night it is indispensible, as it is admirably arranged to hold a large cold bottle to go with a small warm bird. The price of this novelty is low enough to put it within the reach of everyone.

As we have mentioned several times before, the Wertheim On WEDNESDAY, Oct. 31 Triplex Sewing Machine is the best in the world. It is the only machine that will change the stitch from chain to lock | The : Entire : Household : Furniture, without bothering with a separate and bungling attachment. It is the only one we know of that will sew three stitches by simply moving a thumb screw. Nor do we know of any that has such magnificent tables as those on the Wertheim, Every part of the mechanism is constructed with a view to simplicity; the running parts are so evenly balanced that a five year old child can run it with ease. The necessity for water motors or dynamos for sewing machines died with the introduction of the Wertheim. We sell them for less money than you pay for an ordinary hard running one stitch sewing ma-

The S. S. Nanshan arrived on

Sunday from Kobe, Japan, with 900

Japanese immigrants on board When the steamer was first sighted off Waiauae she was taken for a mauof-war, and it was so reported. As the Nanstan was over eighteen days | sorted to every device to gain that coming over she was allowed to come alongside the Pacific Mail posted up before the voter, addresswharf. Yesterday the immigrants were taken to the Quarantine Station, with the A. U. P. candidates already where their effects will be fumigated. The immigrants will not be allowed to come into town until they have been examined on their financial status or their ultimate destination. She brought 500 tons of freight and was consigned to T. H. Davies & Co.

Running Off With a Rg. A gentleman and his wife paid a visit to some friends at l'alama yesterday evening in a family carriage. The horse was tied to a telephone post and the couple went into the house. When they were ready to return the rig was not in sight. The parties walked along King street towards town and just in front of the old warehouse of the California Feed Co. they beheld the family phaeton coming along the road, with two boys in it. They cried "haul in," and in about ten minutes an officer arrived, who took the boys to the Station. The boys had in a funny mood taken the rig and driven about town. They had been absent about an hour.

H. Klemme Nearly Knocks Out One of the R golar Ticket.

Election Day passed off quietly in Honolulu and the country districts of Oahu. The only element of excitement was the running of Harry Klemme, an independent an nexationist, to make a break in the regular ticket of the American Union Party for Representatives. He nearly did it, the returns showing him but four votes behind E. C. Winston. It may be necessary to explain that Fourth and Fifth Districts for Representatives refer to the whole Republic and not to the Island of Oahu. This island is the Third District for Senators, Below are the returns. Further statistics of the election in preparation will ap-

pear later: VOTE FOR SENATORS.

Owing to the ignorance of the Portuguese voters as to the method of voting, Harry Klemme lost a large number of votes. There were several mistakes made in their voting. Instead of the figure 3 the letter E was marked after Klemme's name. One German had six crosses for Klemme. Other voters marked turee ones (111) for the independent candidate. These of course were thrown out. Yet the Portuguese were not the only voters who made mistakes. There was an astonishing amount of ignorance shown at the polls by electors who are readers of

defeated Winston.
The workers of the A. U. P. candidates did all in their power to de-feat the lone independent, and reend. In voting stalls a dodger was ed, "To American Union Voters," marked. These puzzled a good many unsophisticated electors. Klemme's name was on the list and

opposite it was a blank. The headquarters of the independent candidate were in the Beretania street armory, the rear hall be-

ing merrily decorated with Hawaiian and American flags. A large portrait of President Dole hung on the wall, in the rear of the chair-

man's table. T. B. Murray was the A. U. P. puller at the Bell Tower, J. A. Kennedy at the Beretania street schoolhouse, J. A. McCandless at the Nursery, J. S. Martin at Nuuanu

reservoir. Several of the wholesale jobbing houses in town closed for the day. The saloons opened at 7:30 o'clock in the evening.

The election was the quietest ever held in Honolulu, the day being like a Sunday. There was very little traffic, and many people took advan-tage of the holiday for an outing in

the country.

There was only one voter in the 7th precinct, fourth district. It cost \$32 to have his vote recorded, and then he spoiled it by voting impartially for all four candidates.

Mr. Winston, who was absent from town during the election, may thank two of his friends who plumped for him for his return. They thought that it might be possible he would need the extra votes, and he did.

THE OTHER ISLANDS

Partial Returns Received by the Steamer W. G. Hall.

By the steamer W. G. Hall this afternoon partial returns are re-ceived from Hawaii and Maui. There is no opposition on Hawaii for Senators, but the following vote was cast in the third (Kailua) and fourth (Kona Waena) precincts of the second district—Kohala, Kona

There are two Representatives to be elected in the same district, and there are five candidates. Returns thus far are as follows, the 1st, 2nd, 5th, 6th and 7th precincts being to hear from, consequently the issue is very uncertain at this distance:

POINTER!

The rainy season is coming, and if you want to shed water like a duck you must be provided with a Rain Coat. I have just received a new invoice of Ladies' English Mackintoshes-in fact, I shall make a leader of these goods for the next few weeks and at such prices that I expect to see every lady in Honolulu properly clad for rainy weather.

White Shoes will not be worn in muddy weather. The reason is apparent and doesn't need

explanation. Tan Shoes

will probably take the place of the white ones for the next few months, and to match these I have an elegant line of Tan Stockings in numerous shades.

Hats.

Oh, yes, Trimmed or Untrimmed? Untrimmed! All right. Just pick out the shape. They are all new and the very latest. After you have selected one that suits your peculiar style of beauty I will introduce you to our expert milliner, who will help you select the trimming and I guarantee to finish you a hat that you won't be ashamed of.

Belts. Nothing looks so pretty around a lady's waist (except an arm) as one of our Belts. I have both Silk JUST THINK OF IT and Leather with new designs of Buckles. If you don't believe me come and

great transformation has been going on at Pearl City Peninsula. Where once a dense and thorny thicket covered the ground, clearings have been made on which comfortable cottages have risen like the apocryphal work of fairies. Two lots from the shed of the boat clubs is a lot belonging to S. Roth. This has been culled of trees and graded to the beach, and upon it an elegant villa has been erected. A seawall bulwarks the front, and a neat boat landing has been made. The lanai is designed for the greatest possible comfort and enjoyment of the harbor's beautiful scenery as well as both land and water breezes. Its walls are hinged in large panels at the eaves, on one side and at the sea end, so that when raised, as they are kept in fine weather, all the luxury of outdoor atmosphere is brought indoors and the charming landscape of the loch exposed to unobstructed vision. Mrs. Roth has been working hard at beautifying the place, re-sults appearing in fern-ciad rock-eries and potted plants on the har-bor front. Many of Mr. and Mrs. Roth's friends visited their pretty erib on Sunday, sharing in a homelike feast. About thirty people sat down at their hospitable board. Henry Waterhouse has had a pretty boat landing constructed at his place beyond Mr. Roth's, besides

a little cottage where he rests from the cares of business and of state. J. A. Magoon has begun to build on his lot, on the near side adjacent to the place described, a servant's house being the first erected thereon. Mr. Schwanek has built a waterside cottage near by, together with a large chicken coop. On the other side of the peninsula, below the railway station, stands the handsome beach residence of John A. Hassinger. John Thomas Waterhouse, besides the "chapel school," has cottages for rent all over the town plot. They are all to be esteemed fortunate who have secured water lots at the Peninsula and possess means for building thereupon.

SATURDAY NIGHT'S PLAY.

The Dailey Company Give Another

Good Performance. "Caprice; or, Only a Country Girl," was played to a fairly good house Saturday evening by the Dailey Stock Company. The per-fermance was evidently pleasing to the audience. although, in the opinion of many, it was one of the least interesting dramas, as a whole, of any thus far produced by the company. The characters of the heroine and the college professor are largely calicatures. However, Miss Dal-gleish as the leading lady gave a charming representation of Mercy, the country girl. Particularly in the decomment did she give a pretty interpretation of the now durated and refined country girl, who had sarrificed five years in retirement to gain cultivation wherewith to win back the love of her husband, which she had in reality never lost. Louis Beimo ir never failed to excite morth in the auditors by his comical representation of the professor. There was an agreeable diversion all reled in the topical song and chorus, "What are the wild vaves saying." by Messrs. Dailey, Weiner and Belgiour, and Misses Dalgleish and Stockmeyer. Mr. Dailey gave a solo, "After nine," which also took well. The other parts in the drama itself were well sustained by Messes Snow, Nannary, Weiner, Scott and Dailey, and Misses Belmour, Nannary and Stock-

meyer. This evening "Saints and Sinners," a play that has attracted a great deal of interest in the States, will be produced.

PUTTING UP A JOB

Using the Sunday Law to Victimize

a Chinaman. Two natives went to a Chinese

store near the corner of King and Richards streets on Sunday and asked the Chinaman to sell them three bowls, adding that they had no containers at home to hold poi and they were hungry. The storekeeper pitied the men and sold them the bowls. No sooner had the money passed when a cop popped in and poor John was arrested for violating the Sunday law. It appears that the men had stationed the officer outside and played a game on the Chinaman. The man pleaded guilty in the District Court to day and was sentenced to pay a fine

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamber-lain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia is quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine had to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of WIELAND - EXTRA - PALE the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it. between China and Japan will cause prices for their silk fabrics to go higher; no country can fight and weave silk at the same time. The 100 Yards Down to Enough price has already advanced and the papers state that the war is likely to be "on" for two or three years. It behooves the careful buyer to purchase now. We had an immense stock of Japanese Goods ordered before war was declared, consequently we can continue to sell at the old prices as long as our present stock holds out, and then the War will force prices up. Our last consignment consists of Silk Dress Goods, both figured and plain; Morning Gowns for Ladies and Gents, Sith Kimonos, Smoking Jackets, Sick Pajamas, Japanese and China Ware, Screens, kets, etc., etc.

There is probably less coal used here in private families than in any city to which that article is exported. The reason is plain-wood is cheaper and of better quality. Nature provides Hawaii nei with the wonderful and rapid growing algeroba and it supplies the fuel for the people. Anyone who has ever visited the neighborhood of Waialae has been attracted by the forests of trees of this description. People who have gone there to inspect Mr. Isenberg's ranch have marveled at the care and attention given the cutting of trees for the market. As the supply cuts some of the ice in regulating the price of a commodity so the thousands of trees on Waislae Ranch act as a factor in putting down the price of wood. Mr. Isenberg sells wood cheaper than anybody else and delivers it free in any part of Honolulu. Ring up either telephone and get a cord.

If you've had any trouble with your milk try some from the Waialae stock for a month.

Six years of actual use in exterior house painting in California (the most trying climate for paints), in the burning heat of the Arizona Desert, the Arctic cold of Alaska, and on the Atlantic coast, have fully and practically shown that Lucon always outwears Linseed Oil under the same conditions. All the acid works in San Francisco have discarded Linseed Oil for Lucot.

PROOF THAT LUCOL IS MORE ECONOMICAL.

Break up 12 lbs. paste white lead in one pint of Lucon, and the same quantity in one pint of Linseed Oil. Spread the paints on similar dark surfaces for comparison. The Lucol paint spreads as far as and covers much better than the Linseed paint, To get equally good covering with the Linseed paint you have to use 24 lbs. of white lead to one pint of Linseed Oil. This means a saving of 3 1b. of paste lead to each pint of Lucot used, or 6 lbs. to every gallon, equivalent to your saving more than half the first cost of the Lucon. Republican Diplomacy.

THE RESERVED AND ASSESSED ASSESSED.

EDITOR BULLETIN:-

Mr. Thurston is quoted in Ameri-Mr. Thurston is quoted in American papers as saying: "There is no limit as to the length of time that I will remain abroad. My Government has given me quite a task to perform. It is the desire of the Republic of Hawaii to offset as much as possible Asiatic influences in our plantle caused by the pressure of islands, caused by the presence of Chinese and Japanese, by encourag-ing European immigration. * * * This labor problem is a very perplexing one to our people and we are willing to resort to almost any mea-sures to root out the Chinese and Japanese now on the Islands. * *

* The rooting out process is exemp-lified by the arrival here within the past forty-eight hours of a Japanese steamer with nine hundred more Japanese laborers. So much for the honesty of Mr. Thurston's utterances, who knew of the expected arrival of this shipload when he left

Mr. Thurston was talking to the American people in the interests of annexation, knowing as he does that one of the objections made to anone of the objections made to annexation is the presence here of so large a number of Japanese and Chinese. Messrs. Thurston and Stevens' republic is becoming so much of a burden to the junta engaged in holding it on its legs that annexation is the only hope for relief to the tired republicans. It is well-known too that Mr. Thurston has hardly succeeded in veiling his contempt for the planting interest contempt for the planting interest in these islands. He looks upon planters as a sordid lot of mortals whose patriotism is governed by their pockets. Mr. Thurston knows that the withdrawal of the Japanese laborers on these islands, whom he professes we are only too anxious to "root" out, would wreck every sugar estate here. Following at the heels of its idol the official organ insults the Japanese Minister, whose recall by his Government has been recently announced, by styling him a little great man and giving the impression that his mission here has been to attend to the distribution of Japanese immigrants upon sugar estates. All this is done to create a false impression in Washington. It is a continuance of the policy of deceit. Comparisons may be odious, but it is not unfair for me to say that the monarchy sent to Washington as its representatives gentlemen who held the respect of the Washington authorities, while the Republic has been so unfortunate as to send an uncouth, reckless blatherskite, who knocks in vain for entrance to Wash-

ington official society. FAIR PLAY.

Where Do the People Come Off? EDITOR BULLETIN:-

Do you readily recall, and can you tell me in what presence these saga-cious words of caution and heartfelt entreaty were spoken?

"The Convention, altho' having the power to appoint a President, cannot constitutionally do so. It would be right to let the loyal voters, who elected this Convention, do so. They have a right to an expression of their opinion in the

Who added that it was due to the speaker referred to above, and "to the people, that they should have the opportunity, thro' their duly elected representatives, to elect him. For a Convention called for another purpose to do this looked too much like a sharp more.'

But submitting, as we must and do with all humility, to the un-righteous deed done on that momentous "Blue Monday," some of the unique provisions, fundamental to the last "republic" of the 19th cen-

tury, may be noticed. In the distant future, in the last half of the year of grace, 1900, a successor to the present unwilling incumbent is to be chosen by the Legislature or rather an attempt may be made. A majority cannot elect, nor can even two-thirds. The vote of the 15 Representatives with seven of the 15 Senators, that is 22, may be powerless against that of the other eight Senators. This bare majority of the Senate, who have already been elected by, and who represent a privileged minority of the

legal voters of the nation, may have it in their power to prevent an election or any change of administra-tion as long as their endurance will last.

Does ours exemplify the form of government which, it was the as-piration of the martyred Lincoln, might never fail upon the earth? A government of, for and by the people? Here it is in its nakedness and deformity. The President appoints the Supreme and Circuit Judges, the District Magistrates; the Boards of Health, of Education, of Immi-gration, of Prison Inspectors and all other boards, and the Cabinet.

This Cabinet, each member a possible President ad interim, appoints and removes at will the Superintendents of Public Works and of Water Works, the Surveyor-General, the Postmaster-General, the Collector-General of Customs, the Registrar of Conveyances, the Tax Assessors-in-Chief and Collectors, the Marshal and heads of all other bureaus, and all these in turn, the direct ap pointees of the Ministers, indirect of the source of all power, are to ap point and remove all the officers under them.

How is this for a democratic republic? Where can civil service come in? I hear "the voice of Jacob but the hand is the hand of Esau. Some may be obsequiously grateful for the beggarly sop of a vote for legislators. Having sworn to three thimbles and failed to catch the little joker, I remain,

HAWAIL.

Is It a Life Presidency?

EDITOR BULLETIN:-

"On the third Wednesday of September, 1900," the fifteen claimants of the Senatorial togs, and the fifteen mis-representatives "shall meet to elect a President." Can ten of the first class, who do not represent the people in any source. the people in any sense, or even a majority of the electorate of the Islands, prevent any change in the Executive! Such seems to be the meaning and design of Article 24. Their pluck and endurance lasting for four months -everything is possible, some things are probable and nothing is surprising in our revolutionary atmosphere -can eight men add six years to the current presi-dential term? There was little dis-cussion of this feature in the Convention, and the plot, if such there were, was not discovered, for the 4th of July, the forcordained day of parturition, was coming on apace.
An auspicious birthday is worth
more than luck.
