Judge Carter heard the motion for a new trial in the case of W. J. Coetho, convicted by a jury of embezzlement of District Court funds, and took the matter under advisement. The crucial point is whether the verdict is valid, when one of the jurors had not qualified by taking the oath of allegiance. Craighton for the motion, and E. P. Dole against.

Klausen, the Japanese lodging owner, says on Heratania street who is giving the authorities a month's respite of late, is on trial this afternoon before Judge de la Vergne for running a lodging house without a license. Masatake Brown is prosecuting and Paul Lattmann defending.

JAS. A. KENNEDY,
Treasurer.

There is plenty of adverse criticism here as to Judge Bradley's action. It looks decidedly as though a very strong pull has been brought to bear on the court. The feeling is all the more intensified because of the charges made by a New York paper that certain Senators are now speculating in sugar regardless of the notoriety attached to the Havemeyer, Pearles and Chapman cases.

What was the nature of this news is what a good many people would like to know, but plantation managers are very close-mouthed and so far the knowledge has not gone beyond the innermost circles. It seems to be generally understood that Mr. Ritchie is here as a representative of a number of prominent shareholders, including Mr. Sewall, who is now in San Francisco, with the object of making contracts for the carrying of next year's crops, the present arrangement with the Sugar Trust expiring in December. This new deal is now in process of consummation, if the terms were not already agreed on at a secret meeting held in P. C. Jones' back office this morning, which representatives of all the large plantations were present. It may be stated, on the authority of one of those who was present, that after January 1 all of Hawaii's sugar will go direct to New York, except that from the plantations controlled by the Spreckels combination. The positive assertion would seem to indicate that the deal has already been arranged. As none of the money from next year's crop will be available until say after June 1, this should make it almost imperative on plantation managers to keep money enough in the treasuries to keep their plantations going until the returns come in from New York. The dividends mentioned above show they are doing directly the opposite of paying out money that two weeks

The : Perkins : Windmill

Has Proved a Great Success in these Islands as well as in the United States.

We quote from a letter received lately from a gentleman who has had much experience with Windmills. He says: "I have the Windmill erected and it works like a charm. I have three makes of Windmills on the Ranch, and the PERKINS gives me less trouble, than any of the others. There is 'no doubt' of its being a FIRST-CLASS MILL."

"HONOLUA RANCH, (Maui),
"R. C. SEARLES."

We have Galvanized Steel Mills, 8, 10 and 12 feet. Also, Wood Mills, 10, 12, 16 and 18 feet.

We have just erected a 12 foot Galvanized Steel Perkins Windmill at Moiliili at the foot of the hill, on a wooden tower sixty feet high.

We would like to have anyone, who desires to purchase a Windmill, examine this one, or any other PERKINS MILL, and he will at once be convinced of its superiority. We have also GOULD'S PUMPS of various kinds and sizes. No better pumps than these are made and the prices are very reasonable.

If you want a Windmill or Pump, or Galvanized Pipe of all sizes for conducting water, please give us a call, and we can accommodate you.

BONNETS AND GOWNS.

THE STYLES DISCLOSED BY MODISTES AND IMPORTERS.

Trimmed Skirts Have Come to Stay—Shoulder Seams Are Gradually Lengthening. Accordion Plaiting Revived—Novel Shirt Waists and Blouses—Millinery.

As the season advances the incoming fashions for late spring and summer are disclosed and doubts set at rest concerning some of the graver problems that vex women's souls earlier in the season. It is certain now that trimmed skirts will prevail, especially in thin materials. While the new dress skirts show differences in cut and decoration, the changes are not so radical as to greatly distress provident women with old gowns to make over. Many will be glad to learn that the popular bell shape, falling full at the back and close fitting over the hips, is retained on the list for the spring of 1897.

All sensible women dread any turn in fashion's wheel which brings to the top sloping shoulder effects, but the verdict has gone forth, and an effort is being made to lengthen the shoulder seams. Sleeves are smaller, and many are made ornate with shirring and tuck-

IMPORTED HATS AND GOWNS. ing. A small puff or epaulet still appears as a finish for the top of the sleeves.

Shirt waists and blouses remain, and a genuine blessing these are, the one bringing comfort on hot days and the other a dressy effect in conjunction with a black satin skirt. The modern blouse may be as simple as a shirt waist or as elaborate as the bodice of an evening gown. It may be well to explain in this connection that many of the shirt waists now preparing for the summer campaign are decidedly fanciful, being frilled, shirred and lace edged until they are many removes from the original article with its stiff linen collar.

A pleasing revival is that of accordion plaiting, which appears in gowns, wraps and hat trimmings.

In illustration of the new styles may be described two imported costumes. One, in electric green china silk, has a bodice, epaulets and collar in coarse black guipure, harmonizing with the trimming on the lower part of the skirt. The bodice opens over a full front in white muslin. The draped belt is in black satin merveilleuse, shot with red. The second dress has a skirt in cream colored canvas. The blouse bodice is a good representation of the up to date blouse. It is made of flowered veiling and is set off with a bolero vest in black velvet tulle work. The belt is of black velvet. Jeweled buckles adorn the collar and belt. This style of bodice would look well in a variety of materials and colors and is very fashionable.

Many of the new tailor made gowns are decidedly smart. Indeed, the prospect is that plain tailor gowns will be in the minority. The ubiquitous bolero has invaded this department. A charming example is in violet tinted cloth. The short bolero bodice is fastened by a jeweled button over a full yoke and vest of narcissus green silk and swathed at the waist by folds of a dark violet colored satin. The narcissus green is again employed as a groundwork to a fine applique embroidery of iridescent metal cord, this serving as a border to the foot of the skirt and as an outline to the revers, yoke and cuffs of the bolero. The hat is of finely plaited straw in a biscuit shade and has scurls of

NEW TAILOR MADE DRESS. narcissus green and violet silks twisted round the crown, tying in a cluster of light and dark violet plumes at the left side.

The hats now in evidence are marked by conspicuous colors, reds and greens leading, and a jumble of flowers, feathers, tulle and chiffon. In addition to the foregoing are all kinds of hat ornaments in gold, jet, steel and jeweled effects. Aigrets are also in favor, as are

BETTING ON THE RAIN.

The Queerest Gambling Game in the
World Is Played at Calcutta.

One of the most curious forms of
gambling in the world is "rain gam-
bling," which in the winter season of
the year is at its height in Calcutta.
The principal rain gambling den is in
Cotton street, Barra bazaar.

No one who has not visited the place
can have any conception of the vast
crowds which at every hour of the day
and far into night pass in and out.

The great majority are Marwaris, who
are born speculators, but there are as
well plenty of well to do Europeans,
Eurasians, Jews, Armenians and Greeks
and women too. All swarm into the
small courtyard where this strange
form of gambling is carried on, through a
narrow entrance barely 3 feet wide.

The courtyard is about 200 feet square.
The far famed tank with a spout falling
into the courtyard is the one spot where
all eyes are fixed. The tank stands at
the edge of a second floor roof. It is
about 6 feet long by 4 feet wide and 9
inches deep, with the spout opening in-
ward, some 3 or 4 inches from the bot-
tom. From this it will be seen that it
requires a pretty heavy downpour for
at least ten minutes to cause the spout
to flow. Intermittent drizzles, which
partly fill this tank, do not count, as
the shower to fill it must pour down un-
interruptedly, and then the bets are
won or lost.

Chances are taken either for or against
the spout running. A gray haired,
wizened old man is the owner of the
den, and there is another similar place
across the road, only smaller. On the
roof, over the fifth floor, there is a
small, square watch tower, in which
are stationed five or six men, whose
duty is to scan the horizon closely and
report on the formation of rainclouds.
On these reports the odds rise or fall.

A bet made and won one day is al-
ways paid the following morning.
Everything seems to be "on the square,"
and indeed there is little chance for
cheating. The odds range as high as 1
to 75 on some days, even in the rainy
season. Many have made a fortune in a
single day. One person won over \$5,-
000 in the course of a few weeks. But
he worked the system on scientific meth-
ods.—New York Herald.

Reasons Why
There are two reasons why
people are now paying car fare
all the way from Waikiki to the
Palama Grocery and back. Reason
1. It is the only place on the
Islands where the celebrated Sal-
vation Army tea is sold. Reason
2. After paying car fare both
ways patrons find they are money
in pocket by dealing at this "live
and let live" establishment. We
also deliver goods between Dia-

The Evening Bulletin,

DANIEL LOGAN, Editor.

TUESDAY, JUNE 1, 1897.

Geo. W. De Long Post, although two thousand miles away from the fatherland of the Grand Army of the Republic, does not lack in any sort of material for the functions of the order. This year one of its comrades delivered the memorial sermon, and another the Memorial Day oration. Both were able efforts. It is not too much to say that Col. G. F. Little's address at the decoration ceremonies in Nuanu cemetery was among the finest delivered since the day began to be observed here. Quite unexceptionable and intensely appropriate in subject matter, it was at the same time eloquent in style eminently befitting the occasion. And if that orator had not been available, the Post need not have gone outside for one. There is General Hartwell, with perhaps one or two more on a pinch, who could have held up the credit of the order. Strange to say, this isolated outpost of the G. A. R. has had three or four parsons on its roster since its establishment, Mr. Monroe being the latest acquisition from the cloth, and one who will carry to the end the evidence of having been in very deed a soldier that stood straight in front of the cannon's mouth.

Hawaiian sugar men seem bound to prove that they have resources as well as stamina to take up arms against a sea of troubles and by opposing end them. Senator Perkins ought to take the hint and get out of Doubting Castle, or he may hear something drop from Coast interests that his course has already injured.

THE BRITISH BENEVOLENT.

Y. M. C. A. Gymnasium.

Thursday will be the closing night of the gymnasium work at the Young Men's Christian Association for the present season. Secretary Coleman has arranged some drills and apparatus work that will be very pleasing to any who can attend. The work of the past three months has been very satisfactory and the public are invited to attend the exercises Thursday night and see what has been going on in the gymnasium. This Thursday evening will conclude the regular work of the gymnasium until September, when it will be taken up again in full force. During the summer attention will be given more to "out of door" sports. The public are invited to the exercises Thursday evening.

LIFE IN OLD MEXICO

TURKEYS DRIVEN TO MARKET AND NO LADY CYCLISTS.

Some Interesting Mexican Features Briefly Set Forth in a String of Paragraphs.

American apples are retailed for \$1 a dozen.

The women have not yet adopted the bicycle.

Soldiers wear a linen uniform when on fatigue duty.

Good household servants are paid from \$4 to \$8 a month.

Cigarettes are made of pure tobacco and very cheap.

You clap your hands to stop a streetcar or call a waiter.

Men arrested for drunkenness are made to sweep the streets.

The devout Catholic always raises his hat while passing a church.

There are free band concerts in all the cities at least once a week.

You can hire the finest cab on the street for two silver dollars an hour.

It is quite the proper thing to take a little nap after the midday meal.

The peons wear sandals made of sole leather and prefer them to shoes.

It never gets cold enough to kill the grass or the leaves on the hardier trees.

The bananas that are considered best by many are only about two inches long.

The largest business houses are closed for an hour and a half in the middle of the day.

Turkeys are driven to market through the main streets of the cities, just like sheep.

The departing lady kisses her lady friends on both cheeks at the door and on the streetcar.

The weather is not a subject of comment unless it is bad. It is as a rule so fine that it furnishes no variety of conversation.

The streetcar makes better time than in any other country in the world. About half of the time they are kept on a full gallop.

Horses with tails more than 12 to 18 inches are rare exceptions, as the tails of fashionable coach horses are invariably docked.

Everybody shakes hands both at meeting and parting, even though the visit may be on the street corner and lasts only two minutes.

Banks are capitalized for immense sums and have very strict regulations, and failures among these institutions are practically unknown.

Every one is required by law to keep a bowl of water in the entry way of his house for the convenience of dogs, so that they will not go mad from thirst.

The waiter will give you a complete change of plate, knife and fork, with every separate order of meat or vegetables, and the style is to eat but one thing at a time.

A gentleman would almost feel disgraced to be seen carrying a two-pound package or his satchel on the public street. Servants and carriers are so cheap that such work is always left to them.

Fires are almost unknown. Cooking is done with a little charcoal in stoves made of masonry, and as the houses are universally built of stone and bricks and have no chimneys there is little chance for conflagrations.

Gentlemen rarely drive, and Mexican ladies never do. If they do not have their own carriage and coachman they hire cabs.

There are very few rigs, even in the City of Mexico, that can be hired without a driver. — Modern Mexico.

Buggies and Phaetons.

Gus Schuman begs to inform the public that he has on hand a fine new line of Surreys, Buggies, Phaetons, Road Wagons and Carts; Double and Single Buggy, Express and Hack Harness made specially for the Hawaiian trade. These goods are now on exhibition at the Club Stables.

When you have a portrait enlarged see that you get your money's worth. King Bros. have reduced prices to \$5.00, \$6.50, \$7.50 and \$10.00 for work that they guarantee to be firstclass. They invite comparison.

HAGY SOCIAL CLUB.

New Constitution and By Laws Adopted—New Officers Nominated.

At the regular meeting of the Hagy Social Club on Saturday evening last nearly fifty members were present. The special committee of fifteen to prepare a new constitution and by-laws, appointed last month, made their report which was unanimously adopted.

Under the new constitution the principles and objects of the Association are defined as: Total abstinence from all intoxicants, including the use of opium, morphine, cocaine or other pernicious and deleterious drugs; but the use of tobacco is permitted; good fellowship, brotherly feeling and mutual assistance to each other, irrespective of race, color, condition, or politics. There are three classes of membership, active, honorary, and life, all of whom have the same privileges, even to participating in debates and voting. Active and honorary members must be total abstainers in conformity with the principles of the Association. Life members are donors of \$50, or the equivalent in books, etc., or articles of use or ornament. Officers are elected semi-annually. Dues are 50 cents a month, and the initiation fee for honorary members \$1, with the same dues as active members. The club now has a piano, a billiard and pool tables, card tables and other attractions, besides a small library, which it is hoped will soon grow to larger proportions.

The following nominations for officers were made, the election taking place next Saturday evening: For president, Robert S. Scrimgeour, W. Horace Wright, Allan B. Scrimgeour; vice-president, J. G. M. Sheldon, J. Mahiai Kaneakua; secretary, Chas. Henry White, Frank Metcalfe; treasurer, A. B. Scrimgeour, W. H. Manning; J. R. Weatherbee, Chas. Lind; sergeant-at-arms, W. C. Lounsbury. Executive and Relief Committee, W. Horace Wright, Frank Metcalfe, Chas. Lind, J. T. Copeland, J. K. Stewart, J. W. Yandley and G. R. Harrison.

GOOD AMUSEMENT.

Musical and Dramatic Entertainment at St. Louis College Hall.

On Saturday evening the St. Louis College Literary Society, assisted by the college orchestra and the pupils, gave an entertainment at St. Louis College hall, which was greatly enjoyed by a goodly sized audience. "Marmaduke," a drama by John L. Carleton, adapted, was presented by E. A. Berndt, C. H. Rose, J. A. Thompson, B. Zablan, F. W. Weed, H. E. Murray, John C. Crowder, M. and Ben Houghtailing, John Leal and A. Ross. Thompson was the heavy villain, and Murray the comic man, in a Paddy role. These two sustained a lively interest all through, and were ably supported by the rest of the company. The smugglers' cave and the jail scenes were capitally laid, and there was good acting in both of them. Irish airs played in beautiful style by the orchestra added greatly to the pleasure.

The second part began with two choruses by 60 or 70 pupils, with orchestral accompaniment, which won loud applause. "Down You Go," a one act comedy, was then played, O. Berndt, C. A. Hopkins, E. Legros, S. Zablan and a tame bear, personated, coming into the cast besides several leaders in "Marmaduke." The tilting stairs, although an old device, made old as well as young roar every time a character took a tumble to the bottom. Thompson, at least, was at home sliding to the base.

Wm. Holona sang the comic solo, "Little Ah Sid," the chorus being taken up by a Chinese orchestra. The college orchestra then played the audience out for home with Souza's march, "El Capitan."

The entertainment will be repeated Friday evening.

SOME PAINTINGS.

At the Spring Exhibition of the Kilo-hana Art League.

This is the last week of the spring exhibition of the Kilo-hana Art League. It is open from 2 to 5 afternoons, and 7 to 9 Saturday evening. There is no charge unless one desires a catalogue at a quarter.

Some of the work has been already noticed. Mrs. Kate M. Wells, whose portraits attracted admiring attention in former exhibitions, evinces much versatility this time, dealing with a variety of subjects and all very ably.

Miss Parke has a goodly number of landscapes, surpassing in technique even her former admired work. She is acknowledged by good judges to be in the front rank of local artists.

Mrs. Kelley strikes out from her specialty of flowers and fruits, while giving some beautiful studies in this line, essaying a child's head with good effect.

Philip H. Dodge has a few well-drawn landscapes, showing, in comparison with former efforts, his conscientious pursuit of ideals in art. He is keen in discovering elusive moods of nature, especially upon the sounding seashore.

Other exhibitors on canvas are E. A. Mott-Smith, C. W. Dickey, Miss M. G. Beckwith, Mrs. A. B. Tucker, Miss Bessie F. French, R. C. Montague, Mrs. Pierre Jones, Bessie Afong and Mrs. Dakota. Mr. Hitchcock's work has been previously noticed. Although smaller than several preceding exhibitions, there has been none of more general excellence, besides special superiority in the work of some, than this one.

There are sixteen pieces of decorated china, of which Mrs. Dillingham contributes six in Hawaiian fishes—a subject in which her art had formerly been lustrous upon paper and canvas. Miss Nolte, the pioneer in this branch, shows four beautiful floral pieces. Miss Bessie Afong furnishes six pretty pieces in native flora.

The exhibition should not be missed by any lover of art, especially who desires to see it flourish in these islands. Wonderful progress has been made already, in the short history of the Kilo-hana Art League.

BIRD CAGES, TROPICAL FRUITS, ETC.**

Everyone knows that a bird in the hand is worth two in the bush and this is particularly the case when the bird is a pet canary and a good singer. Nice birds should be kept in nice cages and then they will have no desire to take to the bushes. We have just opened up a variety of Bird Cages in painted wire at \$1.50 to \$2.50; and in brass \$1.50 to \$4.50; in the prettiest and newest designs imaginable.

The mango season is now on in all its force and the small boy is engaged in his yearly tussle with that luscious fruit. In former years for every mango fit to eat the boy knocked down with a rock he destroyed eight or ten unripe ones besides half ruining the tree. All this is changed now since the introduction of our Wire Fruit Pickers. With one of these attached to a long pole any particular mango can be plucked without hurting the tree or knocking off the unripe fruit. By using one of these handy pickers one gets several times more fruit in better condition than by the old way of firing rocks at the tree. They cost only 50 cents each and a child can use them.

SUGAR MEN IN SESSION.

Continued from 1st Page.

ago they intended to hoard up. The only explanation that can be made of this is that the terms of the new deal carry with them the assurance that the profits from Hawaiian sugar will not be materially interfered with at present, in spite of the present attitude of the Senate and the Trust.

Since the above was in type another gentleman who was present at the meeting assured the BULLETIN that the subject under consideration this morning was not any proposed new deal with the Sugar Trust but rather to discuss the present situation and adopt such measures as might be agreed on to offset its evident hostility to Hawaii. Asked about the truth of the statement that all Hawaiian sugar would be shipped to New York next year he replied:

"Yes, that is strictly true. We have decided to send every pound of sugar that is not directly controlled by the Sugar Trust to New York where it will be sold in open market. We have done with the Trust and if they want our sugar they will have the same chance to buy it as anyone else. We came to the conclusion that there was no other course left open for us."

"Does Mr. Rithet represent the Trust?" asked the reporter.

"No, certainly not," was the reply.

"Is the Sugar Trust secretly favorable to Hawaii, as is still asserted by some?"

"No, it is not. If the sugar clause in the Senate Tariff bill was not dictated by the Trust then I am woefully mistaken. If that clause was not directly aimed at the injury of Hawaiian sugar and for the benefit of the Trust then I can't read the English language. No, the Trust is no friend to Hawaii. No, I can't answer any more questions."

Have You An Account?

This is a serious question, one at which some folks take offense, yet salesmen are under the necessity of asking it. Some folks deal near home, settle infrequently, never investigate to see whether they pay more than they should and too often allow their accounts to go long over due. If you don't care what the family expenses are it's a poor way to do if you want to leave your children in affluent circumstances when you are gone. Now it is quite an advantage to have an open account at a well-known house, who can execute your order promptly. Often persons say they don't want an account and will pay in a few days. But we cannot keep memoranda of charges; it isn't safe or good business. The stock found in ordinary stores is usually stale, uninviting and inferior, while the stock in our store is turned so frequently and so carefully watched that it is at all times fresh. Our stock in trade consists of the luxuries and delicacies from every civilized nation. Send for our catalogue and prices and note the variety offered. Telephone us—240.

THE NEW SPRING WRAPS.

Dressy Pelerines in Many Materials—Russian Coats and French Jackets. There are a sufficient number of the new spring wraps in sight to establish the fact that accordion plaiting is to figure largely in their make up. The most dressy little capes or pelerines, which is the more suitable name since they are shaped in at the waist, are a

succession of accordion plaited frills of chiffon, edged possibly with a row of black satin or velvet baby ribbon. These form the entire portion over the arms, and the main part of the garment is of accordion plaited green and black changeable silk or of velvet or moire silk. The writer of the foregoing explains in the New York Sun that there are all sorts and shapes in this little wrap, so that every figure can be suited, and it would seem from one glance at the new models that any sort of material and any combination of materials is quite permissible here. One rather unique arrangement is a wrap of ecrin linen in rather a coarse open and heavy quality, checked all over with jet embroidery and lined with black taffeta, and the sleeve portion is of black lace and pinked taffeta silk frills of petunia and black.

The length of spring wraps can be anything you desire, between the point of the shoulder and the waist line. Black and white lace combined form some of the dressiest capes, and there is usually a mixture of jet and sometimes a touch of color. Two novel garments are a combination of bolero and cape, and velvet moire, chiffon and jet are the materials employed. A jacket for theater wear in broadened gray silk has cuffs and an odd collar of black, with an edging of silver cord and rhinestone embroidery.

Spring jackets are as varied as the wraps and come in three different lengths, with both high and low collars, so it is impossible to decide yet which will be the leading style. They are made of ladies' cloth, serge and melton in both dark and light shades, and the pale tint of yellow ecrin lined with some delicate shade of satin is considered very elegant. The Russian style of coat has a place on the list, and the French jackets display quite a little decoration besides buttons and stitching, according to the authority quoted.

BY POLICE AT CALLAO.

Inquiry here confirms the story coming from Lima to the effect that the State Department has lodged a demand with the United States charge of legation at Lima for the release of the mate of the American bark "Uncle John." He was ashore on December 19 last at Callao, and was arrested because of his constant demand for "Rainier Beer." On tap or in bottles at the Criterion Saloon.

Nicely furnished rooms at the Popular House, 154 Fort street, from \$1.00 per week up.

Torchon and Valenciennes laces are still in great demand. L. B. Kerr has a choice lot, which he is selling at lowest possible rates.

Before giving your order for a portrait, see what King Bros. have to show in crayon enlargements and judge for yourself whether they can give you the best value for your money or not.

Kroeger Pianos, sweetest in tone, Jas. W. Bergstrom, sole agent, cash or installments. Warerooms at G. West's, Masonic Temple. Office at Thrum's Book Store. Tuning and repairing. Telephone 347.

Printed ducks are just as good, if not better than anything else for boys' shirt waists. They wash and wear well, two very important considerations. Kerr has them in a large variety of patterns at eight yards for one dollar.

It's one thing to take an order for a portrait and quite another to fill it satisfactorily. King Bros' portraits have always been known to give satisfaction and now that they have reduced their prices so low, an extra inducement is offered. See what they have before you invest.

We don't expect you to give us the preference if what we have to sell is inferior or our prices higher than our rivals, but when we offer a superior article for less money, you do yourself a wrong by not looking into the matter. Call and see our samples of portrait work. King Bros., 110 Hotel street.

Mr. C. W. MACFARLANE—It affords me pleasure to recommend, to any one whose hair is falling out, the use of **DR. POTTIE'S HAIR OIL.** My hair was coming out at such a rate as led me to believe that I would soon become bald. After using the oil for five weeks this ceased entirely; none whatever is now falling out. I consider it the best and only worthy remedy for this trouble and also recommend it as a stimulant to new growth.

Uncle Bill—I'd give \$100 to be out of this, George.
George—It strikes me we shall both be out of it for nothing presently.

Uncertainty and a Certainty.

The attention of the public is now fully occupied and diverted in the consideration and discussion of several important current and prospective happenings. Annexation, as yet unsecured, Reciprocity threatened; the coming of the Naniwa, and her mission after arrival; the outcome of the war between Greece and Turkey and, whether or no, all Europe will eventually become involved; the settlement of the quarantine squabble—are all themes of much conjecture and uncertainty, and while opinions are freely offered, none can accurately foretell the outcome of any of these matters. Nevertheless, it is becoming more apparent, as each day passes, that Buffalo and Hoffbrau are the favorite brews, and it is gratifying that assurance is given that regular shipments of these wholesome and strengthening beverages can be depended upon, and that they will, as heretofore, be dispensed at the Royal, Pacific and Cosmopolitan Saloons, and that the interchangeable check system is an established fact.

A water tank with capacity of 10,000 gallons is placed on a tower at an elevation sufficient to give a good water pressure in second story of the Main Building. This tank is supplied from an Artesian well on adjoining premises, owned by Dr. J. S. McGrew.

The buildings and grounds are thoroughly lighted with Electric Light.

Plans of the Buildings and grounds can be seen at the office of the Minister of the Interior.

In case there is no bidder to purchase the property at the above upset price, a lease of the same will immediately be offered for sale at an upset price of \$4000 a year for a period of thirty years under the conditions set out in Act 7, Laws of 1896—and more particularly of Sections 2 and 4 of said Act which reads as follows:

"Section 2. Every such lease shall contain a covenant on the part of the lessee that he shall, during the first four years of the term of the lease, cause to be erected upon the leased premises a fire proof building of Brick, Stone or Metal, in a workmanlike manner, satisfactory to the Minister of the Interior at not less than a stated cost; and keep the same suitably insured at not less than two-thirds of its value for the benefit of the lessor; and shall keep the building in good repair during the remainder of the term of lease, reasonable use and wear thereof only excepted; and in case of damage or destruction of such building by fire, shall make good such loss or damage by the necessary repairs or reconstruction or else surrender the insurance to the lessor.

"Section 4. Every such lease shall also contain a covenant on the part of the lessor, that upon the request in writing by the lessee or his representatives, before the expiration thereof, the premises with the improvements, shall, if all of the conditions to be performed by the lessee have been satisfactorily performed, be put up at auction for a lease for a term of not over twenty years; unless said premises shall be required for public uses, of which the lessee shall receive at least one year's notice. Such auction sale shall be held not more than six months nor less than one month before the expiration of said term."

The cost of building to be erected in accordance with Section 2 as above quoted, is placed at \$50,000.

Mortgagee's Notice of Intention to Foreclose and of Sale.

Notice is hereby given that by virtue of a power of sale contained in a certain mortgage, dated the 25th day of June, 1891, made by Charles Lehmann and Johanna Lehmann, his wife, of Honolulu, Oahu, to Paul Lemke, of Honolulu, Oahu, recorded in the Register Office, Oahu, in Liber 181, on Pages 208 and 209, notice is hereby given that the mortgagee intends to foreclose the same for condition broken, to wit: Nonpayment of interest when due.

Two sailors of the ship Reaper who were released yesterday from jail have refused to work and are making all the trouble they can for the captain.

Yesterday afternoon the American four masted schooner Aloha arrived from San Francisco after a passage of 23 days. The Aloha brought a full general cargo, and 62 mules, 5 horses and 3 cattle on deck. The livestock was in good condition. The mules are for W. H. Rice.

The steamer Mauna Loa tied up at the wharf at 1 p.m. today. This trip she brought from Hawaii the largest lot of sugar she ever carried. Genial Purser Matthews now furnishes reporters with written passenger lists on arrival, which is much appreciated by the scribes. No important news from Hawaii. The volcano is smoking a good deal. Yokohama's Dry Dock.

The new dock of the Yokohama Dock Co. was opened on 26th ult, when the Saikio-maru was taken in. Work on the dock was commenced in January, 1895, and it has therefore been built in about two years, which is less than was originally anticipated that the work would require. It is built of large blocks of granite and is 351 feet on the blocks, its length from the outside of the entrance to the head, is 49 feet 10 inches and from the outside caisson to the head, 400 feet 3 inches. The width of the entrance is 60 feet 3 inches at the top and 45 feet 11 inches at the bottom. The depth is 35 feet 1 inch on the inside, and 31 feet 2 inches on the blocks. The depth of water on the blocks is 27 feet 2 inches at spring tides, 26 feet 2 inches at ordinary springs and 19 feet 8 inches at low water of spring tides. This is the smaller or No 2 Dock of the Company. The No 1 Dock, work on which was begun a few months ago, will be nearly 550 feet long, and will hold the largest vessels coming to the East.

That Gougling Affair.

Other spectators of the affair over which the morning paper made serious charges against Lieutenant Kekai and others of the police force give an entirely different version to that published. Marshal Brown has obtained the names of many who saw the affray and questioned them yesterday. Gus Cordes was not present and therefore could not have used the bad language reported. It is intimated that he will enter suit against the Advertiser for libel.

In the police court yesterday the cases of James Herrickson, charged with assaulting a policeman while in the execution of his duty, and Johnson, for obstructing an officer, were continued until June 3, to await the investigation into the matter now being made by the Marshal.

Gave the Officer the Slip.

While the men-of-war's men were drilling at the baseball grounds today, the truant officer captured two Portuguese youngsters. Holding each one by the collar, he marched off with them. A Portuguese in the grand stand shouted something in his native tongue. Immediately on hearing the words from the grand stand, the two youngsters made a break for liberty in opposite directions, one of them succeeding in getting off. While the policeman gave chase the crowd of spectators yelled, enjoying the fun greatly.

AMUSEMENTS.

He remarked that only the best of hops and malt were used; thus insuring a healthful beverage. On tap or in bottles at the Criterion saloon.

JAPAN AND THE ISLANDS.

en into new hands, who have not yet come to understand the steady effect of responsibility, and the Foreign Affairs Committee of the Senate, which votes in secret, and has not the responsibility of carrying out the measures it declares for, is swayed only by the prejudice of the hour. A Government which is a compromise between a feudal dependence and an English Crown Colony is the suggestion of the moment, but the constitutional party in the States hesitate to accept a rule, the effect of which may recoil on themselves. The country which, after the United States and in some respects before, has the largest interest in Hawaii is, of course, England. * * * * * Naturally England is in the present state of affairs out of the question. The men who gained their ends by means which will not bear the light of day, have little cause of wonder if they find like measures taken against themselves, and the Japanese Government seems to have concocted a scheme which shows how lightly the amenities of her newly found position rest upon them. This was the introduction under the name of free laborers of carefully drilled soldiers. The motive, of course, has not come to hand, but it is generally believed in Hawaii that the object was to foment a rising amongst the already numerous class of Japanese residents on the islands, with the ulterior aim of annexation by Japan. The scheme, whatever it was, seems to have had a directly contrary result to that intended. It has certainly spurred the somewhat languid desire for annexation existing in the United States, and will be made use of as an excuse to restrain the influx of any more of the Japanese element. But, even if the United States were to stand idly by and witness the coercion or annexation of the island by Japan, it is not likely that England would be an indifferent spectator. We have too many interests at stake in the Pacific to permit the most important station in it to fall into the hands of so self-assuming and untrustworthy a nation as Japan. It is true that the British Government has not yet awakened to the importance of her interests in the North Pacific; the Colonies, however, have been more alert, and though no overt steps have been taken we feel sure the subject has not passed without discussion in Ottawa and Sydney. The vacillating action of the United States has hitherto passed in Japan as a sign of acquiescence, but it would be well for England and America, however different may be their views as to the ultimate government of the Islands, to unite in giving notice to Japan that no interference on her part will be permitted in Hawaiian affairs.

AGAIN IN TROUBLE.

The Japanese Hotelkeeper on the Plains Re-arrested.

Kimura, the Japanese who was arrested lately for running a hotel out on Beretania street, near Makiki, without a license, is again in trouble. He pleaded guilty on his former trial and sentence was suspended on his promise to procure a proper license.

Since that time in order to evade the law he claims to have sold out his hotel to a Japanese hui consisting of 25 of his lodgers. That this scheme was only concocted with the intention of defrauding the government was the decision arrived at in the Marshal's office as soon as it was reported and Japanese interpreter Doyle with detective Toma were put on the case. Toma got a couple of his men to go to the hotel and engage lodgings by the week. They did so and stayed two weeks in the place, during which time they obtained abundant evidence to show that Kimura was still running the place. They engaged the lodging from him and paid him therefor at the rate of a dollar a week.

Kimura's former conviction on which sentence was suspended will now be revived and he may have to answer additional charges. Marshal Brown fixed his bail at \$100 cash.

If you contemplate ordering a portrait enlargement we invite your attention to the superior work we offer and would ask a comparison of prices and workmanship before placing your order. King Bros., Hotel street.

THE LABOR CONVENTION.

Delegates to Meet and Discuss the Hawaiian Labor Question.

When the California Labor Convention adjourned sine die shortly after the adjournment of the last Legislature it was believed that its mission was ended. Its purpose was to take such action as was necessary to secure the passage of certain laws of advantage to labor. An effort is being made to revive the convention, as will be seen by the following notice sent out to all of the delegates:

San Francisco, May 16, 1897.

Dear Sir and Brother: You are earnestly requested to attend a special meeting of the delegates of the California Labor Convention, to be held on the evening of the 18th at the usual place, for the purpose of acting upon the report of Labor Commissioner Fitzgerald in regard to displacing Asiatic with white labor in the Hawaiian Islands.

J. ROSE, Chairman.

While many may attend the meeting tonight at 915 1/2 Market street, there are many who will not. The latter take the ground that the convention went out of existence when it adjourned sine die, and that they as delegates were discharged by their respective labor unions and therefore have no right to represent their unions at tonight's meeting. Those favoring the reassembling of the convention declare that by virtue of the words sine die (without day) the convention did not set a special date for reassembling, but that the chairman has the right to make a day for calling the convention together again.—The Call, May 18.

Fitzgerald Should be Chained.

Labor Commissioner Fitzgerald may be big enough to handle himself on American soil, but when he becomes a self elected diplomatic representative of this country to Hawaii, he painfully illustrates the difference between ability and absurdity. His threat made to the planters that Congress would oppose annexation if the islanders did not open their arms to the unemployed of the Pacific Coast, who are supposed to be anxiously peering over the bosom of the ocean toward the cane fields of the Hawaiians, was a stretch of the Fitzgerald imagination. Our Labor Commissioner should be chained up in his office, or sent to join the ranks of the unemployed himself.—S. F. News Letter.
