POSSIBLE CHANCES.

The foreign news by the Alameda yesterday is a trifle more interesting than by the two or three mails previous. It is really almost interesting enough to be called exciting. The change of Ministry in England is not, under ordinary circumstances, an event of much consequence to any nation other than Great Britain herself. And it is not always a matter of importance even to her. Events outside of parliamentary circles usually pursue the even tenor of their way, as if nothing special happened. The present change, however, may mark a crisis in the affairs of Europe and Asia which will not be unfelt in these islands. The Right Hon. W. E. Gladstone's successful efforts at staving off war with Russia up to the time of his defeat may be frustrated at a very critical stage of the negotiations between the two powers. The terrible denunciations launched at the head of "the grand old man" by the men now in power, if they meant anything at all, must now be accepted, under the changed circumstances, as tokens of a less conciliatory attitude towards Russia to be adopted forthwith. If, as the Conservative leaders asserted, Gladstone's policy was a series of backdowns in the face of Russian aggression, it is but reasonable to expect that the new Cabinet will assume a bolder, if not a defiant, attitude. The Russian press, which, it is well known, dare not breathe an opinion without the imprimatur of the Government, is already discussing the probability of a freshening up of the disputes about the previous agreement of March 16th. Russia evidently does not expect the same consideration for her pleas in the British Cabinet as she has recently been accustomed to receive. If she is as anxious for a conflict as she was generally supposed to be during the past two or three months, she will now, doubtless, have sufficient opportunity afforded her of precipitating measures to that end.

HAWAII AT THE EXPOSITION.

This country was dilatory, if not reluctant, in securing representation at the Universal Exposition at New Orleans. Events have demonstrated that all the trouble and expense incurred has been as nothing compared with the benefits to this kingdom from having taken its place among other nations. Not in competition or rivalry with them, but availing itself of the opportunity afforded by the projectors of the great fair, Hawaii at very short notice presented an industrial exhibit for the world's view, of which, considering the extent of her territory and number of her population, she has no reason to be ashamed. Had the matter been taken up earlier, and with more heart, there is no doubt the country would have had, for little if any more expense, a representation of industries and products that would have been a much better criterion of her capabilities than the hastily collected exhibit sent. We might have been astonished, where we have only been interested, the visitors from all parts of the world at New Orleans. More important, however, than the exhibit sent has been the representation, by Commissioners, of this

country at the Exposition. A great deal of prejudice existed in the Southern States against the sugar interests of Hawaii in their relation to the American fiscal policy. If the feeling of antagonism to the Reciprocity Treaty, cherished by the Southern planters, has not been disarmed, it has been, to some extent, mollified by Dr. Smith's free and frank intercourse with them face to face, at the fair and also at the regular meetings of the Louisiana Planters' Association. With true Southern politeness the members of that body invited our representative to a seat and a share in their deliberations, and the benefit from the courtesy would appear to have been about equally mutual. There is no reason why there should be any jealousy of this country's planters among their American brethren, any more than between members of the guild from different States of the Union. It required, however, a capable representative of the Hawaiian fraternity to meet the Southerners on their own ground, and show them that they had interests largely in common with our planters.

Dr. Smith is endeavoring, according to latest accounts, to secure a corner for our exhibit at the Louisville Exposition. His success will ensure a still wider publicity to this country and its resources, and further obliterate the misapprehension obtaining in the Union regarding the treaty relations with this country.

SUPREME COURT of the Hawaiian Islands. In Bankruptcy.

In re Estate of G. D. Schrader, a Bankrupt. Before Mr. Justice McCully. Order of notice to creditors. Whereas G. D. Schrader was on Wednesday, June 17, 1885, in the Supreme Court of the Hawaiian Islands, duly adjudged a bankrupt upon the petition of G. J. Walder, due hearing thereof being had before the Honorable L. McCully, Justice of said Supreme Court.

It is hereby ordered and directed that all the creditors present and prove their claims before me, at Chambers, Aliolani Hale, Honolulu, on

Thursday, June 25, 1885,
at 10 o'clock a.m.,

It is further ordered that, upon said day, the creditors do proceed to hold the ELECTION of an assignee or assignees of said bankrupt estate, and that notice hereof be published in the DAILY BULLETIN and P. C. Advertiser daily previous to said day.

Dated Honolulu, June 19, 1885.

VENTURE.

THIS fast trotting stallion has been withdrawn from training and will now be kept for stock purposes exclusively. He has shown as much speed as ever and had it not been for an accident which befell him a few days before the race, he being dead lame on the 11th, we think that he would have given the gang a hard tussle for the money. He is now all right again, and is being regularly jogged at the track, and can show close to a 2:30 clip at any time that he is called upon. This kind of treatment has been found by long experience to be the right plan to adopt with a stallion, as by it he is not only a surer foal-getter, but also he will transmit a greater amount of speed, energy and vigor to his offspring. This plan is now the rule in all of the large breeding establishments everywhere.

To parties owning good mares this is an opportunity that should not be neglected, for Venture, with his fine breeding and great speed, I consider the most desirable stock horse in the country. Mr. Campbell tells me that of all of the horses that he has imported to this country, which is probably a dozen or more, he likes his colts by Venture better than any of them, which is surely proof enough of his qualities as a stock-getter. Mares will be taken to the Park and returned free of charge. For any additional particulars apply to corner of Punchbowl and Queen Streets.

BRADLEY PLEADS GUILTY.

THE previous charge of importing opium into the Kingdom against Henry Bradley was changed this morning to that of having opium in possession. The defendant pleaded guilty to this charge. Mr. Hartwell, who appeared for him, referred to the former sentence served, where he took the charge upon himself, and hoped the Court would take into consideration the plea of guilty and give a lenient sentence. His Honor, in passing sentence, said he had taken the former sentence into consideration, but looked upon the defendant as a man who had served a sentence for a similar offense upon a plea of guilty. The law was very severe for the importation of opium, but the Government had thought it proper to bring the lesser charge of possession. It was a large amount (\$99 tins) and evidently a matter of business with large profits. It was an entirely different matter to a man having a small quantity in possession for smoking purposes. His Honor thought he would not be doing his duty if he did not impose a severe sentence. He then fined the defendant \$250 and sentenced him to imprisonment at hard labor for six months. Costs \$3. An appeal was noted to the Supreme Court. The defendant is out on a bail bond of \$1,000.

FIRE DEPARTMENT APPARATUS.

Chief Engineer Nott received by the Alameda, a new contrivance which is used to light the fires in the engines without using matches. It is about eighteen inches long, and at one end is a cup containing acid. A crank movement is touched, which breaks a little phial also containing acid, the two acids coming together cause an explosion which sets fire to the shavings and wood. The Chief Engineer is rather afraid to use it for fear any persons should touch the crank when the engine is in the house. Of course it would only be used in case there was a certain fire. The water heaters for the two steam engines also arrived by the same vessel and will soon be placed in position.

POLICE COURT.

MONDAY MORNING.

Chun Lack and Tai Lung, charged with having opium in possession, were remanded until the 24th. Kun Hoo was reprimanded and discharged for assault and battery on Wong Pau. Manuel Pacheco, for vagrancy, was sent to prison for thirty days. Six Chinamen charged with gaming were remanded until the 25th. Walter East, for assault and battery on John Burk, was fined \$10 and \$4.40 costs. Both men are sailors on the bark Kikikat.

TUESDAY MORNING.

Al Ching was sentenced to imprisonment at hard labor for fifteen days for assault and battery on Wm. Sheldon, Custom House officer. The latter was on guard at the barkentine Ella yesterday, and the defendant came off the vessel with two baskets of bananas. Sheldon suspected him of having opium, and told him he must search him. The defendant resisted, took his carrying pole and struck Sheldon twice, and was otherwise violent. Hy. Bradley was sentenced to six months at hard labor and fined \$250 for having opium in possession. Appeal noted to the Supreme Court. Manuel Freetos, for assault and battery on a native woman, was reprimanded and discharged. This is the sequel to the row in Pauoa valley about the goats.

THAT REMARKABLE LILY.

EDITOR BULLETIN:—Your reporter's informant regarding those Water Lilies was more poetical than truthful. Mrs. Macfarlane did not dig the bulb from New York, for I dug it out of my pond and sold it to her about a year ago; and I expect it will astonish many others here, who have dozens of open flowers of the same kind every day, to be told that the above mentioned lady is the only successful one out of the many who have tried. It seems to me that those Beaver Block wags delight in playing tricks on your young man, and I am surprised that he believes a word they tell him regarding their wonderful flowers, after his experience of that "Zuleika" Rose. JOHN KIDWELL.

"Ben says you have got so proud you won't speak to him lately. He met you right in the teeth the other day and you didn't deign to notice him." "That must have been the day before yesterday. STORY OF VICTOR HUGO'S DAUGHTER.

ROMANCE OF HER BLIGHTED LIFE—WEDDED, FORSAKEN AND INSANE.

Adele, named for her mother, was her father's favorite child. She was an exceedingly handsome woman, tall and stately, with dark complexion, piercing black eyes, wavy hair of jet black, high forehead and Roman nose. Her story as told by herself is as follows:—

When a mere girl, living with her parents in Brussels, she became acquainted with a young man, one Pinsen, belonging to a wealthy family then staying in Brussels, and fell madly in love with him. He appeared to be equally infatuated with her. They became formally engaged and were secretly married, as she believed. Owing to their youth and the opposition of Pinsen's family the affair was kept private, and he promised to make her his wife publicly in due time. Mean-

while he was gazetted Lieutenant in the British Army and ordered with his regiment, the famous Sixteenth, to Halifax. Just previous to this he wrote to her to meet him in London, where they would be formally married. Victor Hugo refused to let his daughter go, and said that if Pinsen wanted to marry her he must do so at Brussels. But Adele insisted, and finally her parent gave way. Her mother accompanied her to London, but before they reached there Pinsen had started with his regiment for Halifax.

Mother and daughter returned to Brussels and shortly afterward Adele clandestinely left home, resolved to follow the man she so madly loved. Arriving in New York she made her way to Halifax and lived there for nearly three years. Pinsen proved recreant, but she seems to have followed him day and night and frequently declared to the family with whom she boarded that he should never marry another woman while she lived. She was eccentric and never went out unless deeply veiled. At night she went out alone in disguise, wearing a high hat, top boots and carrying a stick. All her letters were addressed to Madame Pinsen, and she received monthly remittances of \$100 from her father.

Pinsen repudiated all knowledge of or connection with Adele Hugo, and had not been here long before he became engaged to a daughter of J. W. Johnston, then Premier of Nova Scotia. This coming to Adele's ears, she confided her history in professional confidence to Mr. Motton, and that gentleman sent a letter to Pinsen. His alleged relations with Miss Hugo came to the knowledge of the Johnston family, and they immediately broke off all social intercourse with him. Miss Hugo's life and conversation seemed absorbed in Pinsen. She employed a good deal of her time in writing. She was a beautiful writer and one time offered to Mr. Motton all her manuscript, saying that if he would publish it some day it would startle the world and bring him a fortune. Her father, who was devotedly attached to her, used to tell her that she could write better than he could eighteen years ago.

Lieutenant Pinsen left Halifax with his regiment for Barbadoes and Adele followed him. After she went away she wrote letters to some friends here which are still preserved. At the time she was here one of the sons of Louis Philippe visited Halifax, and learning of Miss Hugo's presence in the city visited her. Some years ago she became insane, and was placed in a private asylum either in New York or Boston. The fate of the man who betrayed her is unknown.—Halifax despatch.

RARE CASE OF CONSCIENCE.

Says a Washington despatch of May 26th:—

A good-looking well-built man came with the crowd of callers at the Pension Office this morning and entered the room of First Deputy Commissioner McLean. When his turn came for an interview he asked the deputy to see the Commissioner.

"The Commissioner is busy, sir. If you wish to see about a claim or to secure an appointment we can attend to the matter here."

"I want to have my pension stopped."

The Deputy Commissioner stared at the man, then he looked at his papers, then at the man again, and finally touched his bell button and sent a messenger for the record.

"Have you considered this step sufficiently, sir?" he asked. "You are, I see, receiving \$72 a month, nearly \$1,000 a year."

"Yes, I have considered it. The Government has done enough for me. I want to give it up."

"Have you a great abundance of means?"

"No. But I have enough for comfort."

"Well, I guess you had better see the Commissioner."

Colonel McLean thereupon introduced the visitor to the Commissioner.

After a short interview a record of the case was taken in order that the pension might be cancelled "upon the claimant's request."

The man's name is Snyder. He belonged to a New York regiment. General Black says that this is not the first case of this kind within his knowledge. Not long after he entered office a Kentuckian, one Stevenson, sent on his certificates with a request that his claim might be cancelled. He surrendered at the same time quite a large fund of accumulated pensions which he had never drawn. He wrote that he was convinced he had fully recovered from his disability.

FOREIGN NEWS.

THE INDIAN TROUBLE.

A Washington special in the New York Times, headed "Crook's Bad Policy," charges that the military had two days' notice of Geronimo's intention to break out, which, if promptly acted upon, would have prevented the raid. That paper says that Gen. Crook appears to have been mistaken about the possibility of civilizing Geronimo and Chitto. It is hinted that his representations about the superior tilling of lands held by these chiefs is not warranted. Letters from Arizona state that it has been well known about Fort Apache for the last year, that when these Indians should again break out they would go to the Black Range, where they are now, yet not a soul in that region were notified until the savages were upon them. Should the Indians escape into Mexico and occupy their old haunts in the Sierra Madre, many Indians now in the vicinity of Apache and San Carlos will join them, and the entire business of hunting and civilizing these savages will have to be done over. It is said the strictures in the Times are evidently written from the old standpoint of opposition to a peace policy in Indian affairs.

THE CHINESE MINISTER.

Mr. John Russell Young, late American Minister to China, goes on to Washington to post his successor, Mr. Denby. After that business is despatched, Mr. Young will re-enter journalism on the Philadelphia News. In a letter he has said he did not regret leaving China. The United States Minister to Peking, one of the most expensive of cities for a foreigner, is obliged to maintain himself on an inadequate salary, surrounded by Ministers of other countries that regard China as a first-class mission. The salary of \$12,000 is reduced to about \$7,600, in consequence of legislation of one year ago, which compelled the Minister to pay out of his own salary certain expenses formerly charged to the contingent fund.

JUDGE LYNCH.

At Bonham, Texas, a masked mob of a hundred men got the keys of the jail at the point of the rifle, and proceeded to the cell occupied by Eli and Sam Dyer, charged with the murder of Sheriff Ragsdale and Deputy Sheriff Buchanan on the 18th ult. The prisoners were brought out, carried a few yards from the jail, and hanged to a tree.

John Evans, a negro, was lynched at Live Oak, Florida, for an assault upon an aged white woman.

JOHN CHINAMAN IN CANADA.

The Dominion Secretary of State was to have introduced a resolution to provide for a Chinese interpreter at a salary of \$3,000. Parliament was being flooded with appeals from the people of British Columbia to take up the question of Chinese immigration immediately. The \$50 tax measure falls far short of the restriction demanded by the Columbians.

A YOUNG BEECHER.

Herbert N. Beecher, son of Rev. Henry Ward Beecher, has been appointed Collector of Customs at Port Townsend, Washington Territory. He is a resident of that port, and engaged in steamboat business. His father persistently refused to speak in behalf of his son's appointment, or to allow any member of his family to do so.

CENTRAL AMERICAN UNITY.

Ex-President Zaldivar of San Salvador says he is still sanguine of the union of the five Central American Republics brought about by projected railways and telegraphs improving the facilities for an interchange of ideas among these States, but not by such means as Barrios initiated.

LAND IN SCOTLAND.

The desperate condition of the Scotch land market is shown by the surprising number of Scotch estates now offered for sale. One auctioneer alone lately advertised to sell Scotch estates valued at \$2,520,000. Many Americans are in the market, looking at Scotch properties.

RUSSIAN TRAIN WRECKERS.

A train was thrown off the track on the railway from Kostoff to Rostoff, on the River Don, June 8th. Seventeen persons were killed and wounded. The robbers plundered the train. It was derailed by a bar of iron placed across the track.

A WEEDING-OUT PROCESS.

Four men interested in a whisky case at Berea, Kentucky, met after the trial, and, after some words, began shooting. The episode closed with two of them shot dead and a third fatally wounded.

SUFFERING IN WEST VIRGINIA.

Hundreds of families in Jackson county, West Virginia, are on the verge of starvation. The owner of a mill said people were coming to him, at the rate of a dozen an hour, bringing a pint or peck of grain, or a few ears of corn, to be ground. He knew men who had gone without food for five days, and he himself would soon be a sufferer.

FIRES.

The lunatic asylum at Williamsburg, Virginia, was burned on June 8th. All except one of 200 female patients were rescued. Loss about \$130,000.

One-half of the town of Suffolk, Virginia, was burned on June 7th. Loss over \$300,000.

LIQUOR LAW DECISION.

The Supreme Court of Ohio decided, two judges dissenting, that the assessment paid under the Scott liquor tax law, before declared unconstitutional, would not be returned to saloon keepers. The amount involved is about \$32,000,000.

THE MONUMENT DAMAGED.

The capstone of the Washington monument proves to have been shattered by lightning. The break is on the northeast corner and four fragments fell to the ground, where they were found forty feet from the base of the monument.

NECROLOGY.

Commander Lewis Clark, of the U. S. steamer Alliance, died, June 7th, at Key West, Florida. Gen. Covier Grover, U. S. Army, died suddenly at Atlantic City, New Jersey, June 6th.

PANAMA.

Panama is under martial law, but everything is quiet. The people are reported to be anxious that the United States should take permanent possession of the country.

THE WHEAT CROP.

A Chicago estimate places the spring wheat crop at 130,000,000 bushels, but even this full crop will not make up the shortage in the winter wheat belt.

MISCELLANEOUS.

The Spreckels trial is still on. M. De Lesseps has been appointed President of the Paris exhibition of 1889.

Another British fishing smack has been captured in the North Sea by the German despatch boat Pommerania.

Ex-President Arthur is in bad health, said to be from Bright's disease. He is preparing for a sea voyage.

Cholera has made its appearance among the laborers on the Quettah railway, and also at Rinde Buhn, the depot of the Commissariat camp.

A gas explosion in the coal bunkers of the British iron turret ship Inflexible, off Portsmouth, June 8th, severely injured fifteen of the crew, three of them fatally.

Myriads of mosquitoes have appeared along the Atlantic Coast, several weeks earlier than usual. Wisacres are divided as to whether this means an unhealthy summer or not.

The business men of South Carolina have, with scarcely an exception, signed a strong protest to the Secretary of the Treasury against the continued coinage of the present silver dollar.

The Matchless Metal Polish

Best Made—Has no Equal.

Give it one trial on Tarnished Metals and be Convinced.

It is a vegetable polish and warranted free from Acids, Poisons or Gritty substances, and is superior to anything of the kind heretofore offered to the public for cleaning and polishing Metal Signs, Railings, Show Cases, Harness Mountings, Band Instruments, Brass or Metal Lamps, Faucets, Stair Rods, Locomotive Headlights, Gun Barrels, Brass, Copper, Silverware, Nickel, Tinware, Zinc, Steel, AND ALL METALS.

It is especially adapted to Marine, Railroad, Stationary and Fire Engine Works (hot or cold), and being free from acids or grit, will not injure journals, bearings, the black lettering on metal signs, harness leather, or scratch the finest polished surface. The cleanest and best Polish for Ladies to use for Household and Kitchen use. It is put up neatly and conveniently to suit all, in 4, 8 and 16 oz., and five pound boxes, and every box guaranteed perfect.

Prices, 25c, 50c, 75c & \$1.

Aside from its unequalled polishing qualities, its strongest claim on the public favor rests in its absolute purity and cleanliness, being a clean, creamy paste, easily and conveniently applied. For Sale only at
