McBRYDE BONDS FLOATED

NEW YORK CAPITAL WILL TAKE THE ISSUE.

Col. George Macfarlane Has Gone to the East on This Mission—Seligmans Interested in Island Securities.

The rapid rise in the price of McBryde is now said to be because of the practical completion of negotiations for the floating of an issue of \$750,000 of bonds in New York. A part of this issue is for the purpose of purchasing the mill of the American Sugar Company, and the remainder is for the purpose, it is said, of reducing the number of assessments to be levied immediately.

It is stated on good authority, that the Seligmans of New York have become interested in this bond issue. It is known that they have been investing money lately in island securities. The head of the Seligman banking house was lately in San Francisco and left there the day before the Coptic sailed, for New York in company with Col. George W. Macfarlane and P. W. Lilienthal of the Anglo-California bank of San Francisco.

Among stock brokers this was considered particularly good news, as it indicated the opening in New York of a market for island securities.

A special meeting of the stockholders of McBryde is called for next Wednesday morning at the Chamber of Commerce for the purpose of considering the proposition to bond the property and assets of the company to purchase a mill and for other purposes.

SOME PRECINCT POLITICS

A LIVELY DISCUSSION IN THE SEVENTH.

Makiki Argues the Same Point and Makes an Exactly Opposite Decision—Ballot Casting This Afternoon.

The liveliest political meeting in town last night was in the seventh precinct, where there was a warm discussion over question of organization and methods of nomination of a delegate for the primary. T. McCants Stewart and W. R. Sims are the two men who will go before the voters as a result of the meeting. Mr. Stewart was the regular nominee of the club, and Mr. Sims as an independent candidate.

The principal discussion was over the question of voting for the delegate. Mr. Sims thought that men should be named in the club but not voted for, while Stewart, who was chairman of the committee on rules, defended the committee's recommendation that a candidate be voted for on the spot. The discussion lasted for a long time and ended in a decision to vote and name a candidate. The nominees were T. McCants Stewart, K. R. G. Wallace, W. R. Sims and J. L. Holt. Mr. Stewart was selected as the club's candidate for this afternoon's primaries. The others do not recognize that the club had a right to vote, however, and Mr. Sims, it is said, will be a candidate at the primaries.

The meeting was quite a large one and had a native representation amounting to about two-thirds of all present. Judge Wilcox acted as chairman. The enrollment committee reported that about 75 names were on the roll.

In the Makiki precinct the same question was discussed as in the seventh, but with the opposite result. The club held its meeting in Independence Hall, about two hundred being present. A motion to vote for selection of two men to be declared the club's choice at the primaries this afternoon was defeated. Motions to close the nominations were also defeated, though several times made. Lorrin Andrews, as chairman of the committee on organization, presented a set of rules for the club, but the rules were laid on the table, on a motion that the club had no right to make rules until the convention had decided upon its methods of procedure. J. H. Fisher made several motions, which were carried, providing that Cushing's manual should control deliberations, and adopting other rules to be in effect at the convention meets and the club is able to complete permanent organization.

Several lively fights are in progress today in some of the precincts, and the ballot-casting will be watched with the greatest of interest.

WANT HOMESTEADS.

Petition of a Koolau Hui to This End.

A native hui occupying 1570 acres of government land on the Koolau side of this island under a fifty years lease of which forty-seven years has expired, has petitioned to be allowed to surrender the remainder of their lease and take up the land as homesteads. The leasehold includes wet, dry and mountain land. President Dole has taken an interest in the matter and in company with Land Agent Brown made a trip to look over the land and talk with the people. He was met at Hauula schoolhouse by the school children who sang a number of patriotic songs.

An acknowledgment of this compliment and the spirit of the reception, President Dole has sent to the boys of the school a complete baseball outfit, and to the girls a handsome croquet set.

ANOTHER HOGAN CASE ON

BEFORE JUDGE DAVIS AND JURY THIS MORNING.

By Agreement Court Adjourns at 1 O'clock to Monday Morning—Other Matters on Trial.

Another one of the Hogan cases has held the attention of Judge Davis and a foreign jury today. At 1 o'clock this afternoon adjournment was taken to Monday morning. The case on trial was that of Hurley Thyou, a minor, represented by Hogan.

The jury consisted of the following: W. C. Alder Jr., Mr. Campbell, K. R. G. Wallace, Duke McNichol, Harry Murray, W. P. O'Brien, E. O. White, Louis Marks, H. B. Waity, John Emmeluth, Ward Bartlett and J. M. Webb. The course of the case was much the same as the first one. Mr. Swainy and Mr. Irvine, of Theo. H. Davies & Co., were the principal witnesses of the forenoon. Both were called by the plaintiff. At noon Mr. McClanahan took the stand, told his own story and was then questioned by Attorney Robertson. During this examination there were several little legal spats. At one time Judge Davis took a hand. The questions of Robertson disclosed that the Orpheum management was guaranteeing the money for expenses of the hearings. Judge Davis demanded to know the exact character of this bargain, and if there was a speculation in it. McClanahan was finally required to produce a copy of this agreement, which he will do Monday morning.

The matter of the estate of the late D. B. Smith was before Judge Stanley this morning. Mamie L. Smith, the heiress, filed an affidavit that diligent search had been made for a will but that none could be found. Mr. Ballou, acting for the Anin woman, the contestant, moved that a will, the contents of which it was proposed to prove, be admitted to probate. It was insisted that this motion should be put in writing, which was allowed, and the matter was postponed to Monday.

Joseph Silber is suing Nick Brehan for \$3,200, alleged to be due for breach of contract. It appears that there was an agreement to exchange a lot on Hotel street for forty-five acres of ground in Waimea. When the day for the exchange came Brehan refused to carry out the deal.

Sarah Swinton is suing Priscilla E. Baesinger and others to declare a deed to certain Beretania street property, made by the late James Smith, null and void.

Cecil Brown has entered assumpsit proceedings against Yee Chin and others to recover \$650 on a note.

ANOTHER MEETING CALLED

The Kamalo assessable stockholders will hold another meeting this evening in Foster's hall, making another effort to straighten out the tangle in which the plantation has become involved. The plan now is to pay assessments and keep on fighting the suit.

Larry Dee, the chairman of the stockholders' finance committee, says that he proposes to advise all the stockholders to pay up in order that the plantation may go ahead. The reason formerly given for not paying the assessments, he says, was that the stockholders did not have any money, but now more money while the directors they opposed remained in office, and this reason has now been removed by the resignations that have recently been made.

The stockholders of Kamalo think they see an end of the troubles of the corporation now. The annual meeting of the stockholders takes place next month and the assessable stockholders want to get together and elect their own men for directors. Assessments will have to be paid before they can vote and now the committee which has been doing the work so far is making a campaign to get assessments paid. "Everybody ought to pay all the assessments due now," says Mr. Dee, "so that we can get the plantation into running order again when the meeting comes next month elect the directors we want."

GLADE-FUNCKE. The announcement of the engagement of Miss Frida Glade, eldest daughter of Mr. and Mrs. Conrad Glade, to Royal Chung, Major von Funke, has been received. Mr. Conrad Glade was for a long time resident in Honolulu, and Miss Glade was born here.

HURT, BUT NOT ASSAULTED. The case against Hamamoto, the Japanese charged with vagrancy at Bwa, was continued until Monday, and Hamamoto was brought to the Queen's Hospital. He was assaulted several days ago by eighty of his countrymen, six of whom were arrested. He refused to testify against them, and then he was charged with vagrancy. His injuries from the beating he says he did not receive, were so severe that he will probably be some time in the hospital.

MAFEKING NOT DISHEARTENED. LONDON, May 19.—The War Office has received from Lord Roberts a dispatch dated Zand River Camp, May 18th, saying: "I have received a most cheering telegram from Baden-Powell dated April 27th."

HACKMEN FINED. Frank Williams, Bob Harrison and John Paton, three of the hackmen arrested yesterday charged with leaving their hacks unattended, were fined \$5 and costs each this morning by Judge J. H. Boyd. The fourth one arrested at the same time, was discharged.

The Republican primaries for the election of delegates to the District convention will be held tonight. The polls will be open from 4 to 6 o'clock. Persons intending to act with the Republican party can enroll themselves and vote up to 6 o'clock at which time the polls close.

The Island of Oahu is divided into two districts, the fourth and fifth. The fourth district includes all that portion of the island lying south and east of Nuuanu street and a line drawn in extension thereof from Nuuanu Pali to Mokapu Point. The fifth district includes all the remainder of the Island.

In the fourth district there are seven precincts and seven polling places. The polling places and judges of the primary elections, for the fourth district are as follows:

First Precinct, Government Nursery—Henry Davis, Ed Towse and Jack McVigh.

Second Precinct, Beretania Street School—W. O. Atwater, E. O. White and F. C. Atherton.

Third Precinct, building at the end of the car lane, Nuuanu valley—Thomas Patton, R. Rycroft and J. Mann.

Fourth Precinct, Royal School—James Love, F. Ferreira, and George Ross.

First Precinct, Kaneohe Courthouse—H. C. Adams, J. Roberts and A. P. Aikou.

Second Precinct, Koolauloa Courthouse—H. McKubbin, J. Mahunail and B. Poepeo.

Third Precinct, Wailua Courthouse—Andrew Cox, A. S. Mahaulu and Naukana.

Each of the precincts of the Fourth and Fifth Districts is entitled to one delegate in the District Convention except the second precinct of the Fourth District, which is entitled to two delegates. Nominations for candidates for delegate have been made in many of the precincts, and in some there is likely to be a warm fight and a close contest. The nominations in the Fourth District are as follows: In the first precinct, J. H. Boyd, J. A. McCandless and Cecil Brown. In the second precinct, W. C. Parke, H. E. Waity, C. M. White, Charles Wilcox, E. R. Adams and George Paris. In the third precinct, A. S. Humphreys. In the fifth, W. M. Templeton. In the sixth, Frank H. Hoogs, Dr. C. B. Cooper and C. S. Desky.

In the Fifth District some of the nominations are: C. P. Iaukea in the third precinct; W. C. Achi in the eighth; L. A. Thurston and W. J. Coelho in the ninth; J. H. Boyd, J. A. McCandless and W. R. Sims in the tenth. Mr. Stewart in the seventh.

To Republicans of Second Precinct, Fourth District—Having consented to be a candidate in the precinct election for delegates to the District Convention I wish it clearly understood that I am not running in the interest of any clique or faction with an "axe to grind." I am running solely as a Republican, to work for the best interests of the country and party. CHARLES WILCOX. Honolulu, May 19, 1906.

ORIENTALS GOING HOME

COPTIC TAKES NEARLY FOUR HUNDRED.

Steerage Accommodations Increased to Make Room for Them—Half the Chinese Intend to Come Back.

The Coptic yesterday took 234 Chinese and 131 Japanese steerage passengers away from Honolulu. It was the largest lot that has ever been taken from here at once and the wharf officials had a taste of what the agents must have experienced at oriental ports in the days when steamers were bringing 700 laborers each trip to Hawaii. A force of carpenters was at work all morning on the steamer, increasing the steerage accommodations, as there was not room enough for the passengers.

The 365 passengers all arrived at the wharf at about the same time and for a couple of hours there was a circus that afforded amusement to the through passengers who were waiting on deck. The Chinese who intend to come back, about half of the total number, had to be inspected one by one and given the necessary certificates with their photos attached. There were also tickets to be examined and an enormous quantity of baggage to be looked after. The Japs carried a great deal of their belongings. The Chinese sent drays down with their stuff. At one time there were eighteen drays, piled high with boxes of travelers' possessions, waiting their turn to get into the wharf.

On deck the scene was one of excitement and confusion. Many of the passengers simply got aboard and dumped their stuff in the first place they could find. When the boxes began to heap up there was a deck full of struggling orientals, trying to sort out one another's stuff. The new arrivals dumped their stuff anywhere, breaking one another's boxes. In the middle of the confusion one Celestial cooly dug out a big box and opened it on the deck, to get a cigarette out of it. He got the cigarette, though his shirt suffered a good deal in the attempt. The steamship officials had a hard time straightening things out and when the vessel finally left, about an hour late, there was plenty for the officers on board to look after and the wharf men were glad to have done with the business.

The large exodus of orientals at this time is due to the fact that none were able to leave during quarantine. Now that restrictions are removed, all who have wanted to go during the past six months are trying to leave at once.

CARELESS BLASTING.

Ide and Ogata, charged with common nuisance in failing to take proper precautions before setting off a blast, were in the District court this morning. The prosecution presented its testimony, but a continuance was given the defendants until Monday morning because there was no competent interpreter present.

According to the testimony of the prosecution the men were blasting near Palama chapel Wednesday. They set off an unusually large blast, which sent big pieces of coral rock through the window of a Chinese store near by and precipitated a rain of rock on two women who were working in their garden.

LONG CAREER IN CHINA

DR. FRYER'S WORK IN THE EMPIRE.

Thinks the Bow Wongs Have Too Hard a Task—China Sending Out a Thousand Students.

Few white men have entered more deeply into the affairs of China, politically and otherwise, than Dr. John Fryer, who was in Honolulu yesterday as a passenger on the Coptic. Dr. Fryer speaks the Chinese language fluently, using many different dialects, and he is the author of a whole library of books in the Chinese. One of his greatest works in Chinese literature was a translation of an encyclopedia into Chinese. For several years past Dr. Fryer has held the chair of Oriental languages and literature at the University of California, teaching the Chinese language and giving lectures on Chinese history and philosophy and the history of thirty-five years in China, as an official most of the time. Dr. Fryer naturally keeps a close watch on Chinese affairs, and his views regarding the present troubles in the empire are interesting to the Bow Wongs and others.

Dr. Fryer thinks that the Bow Wongs have undertaken an almost hopeless task, but says that China has begun to follow the course taken by Japan which largely led to the latter's awakening. "I have no doubt that part of the members of the reform societies are sincere and earnest workers for the good of their country," said Dr. Fryer, "but it is almost like butting their heads against a stone wall for them to attempt to overthrow the empress dowager. It appears to me that they are coming down a little. A short time ago there was great enthusiasm and many fiery speeches were made in the meetings held in American and other cities. The great body of the people in China are too indifferent. They are satisfied if they have rice to eat and want peace at any price."

"The half dozen men who were beheaded and the ones who were condemned are not the only ones the government is after. It is said that the empress has a list of about a hundred names of men whom vengeance may visit."

"China is about to send a thousand young men to receive education in American and European colleges. This is what Japan did some years ago, and the result was much benefit. I shall endeavor to have some of the students enter the University of California. Our Oriental department is being improved and every year more attention is being given by students to the study of Chinese. It is beginning to be realized in America that the Chinese are not all to be set upon and excluded, but rather that they should be encouraged. The immense commerce that is beginning to be built up makes better relations a necessity."

Twenty years ago Dr. Fryer has been entitled to wear the clear blue button which in China distinguishes a man raised to the third official rank in Chinese civil service. Last year the government conferred upon him the first grade, Order of the Double Dragon. He is going to China to occupy the vacation period with more literary work, and will return on the Gaelic in August.

A STRONG COMPANY.

During 1899 The Provident Savings Life Assurance Society paid its policy holders more than \$1,500,000, or a total since its organization of \$17,000,000. It is especially pleased every member of this progressive company to learn that it closed last year's business with not a single death claim, that was due, left unpaid, and all these results were accomplished with a lower ratio of expenses than was accomplished during the preceding year. PLAN FOR HARBOR AT HILO

WAIAKEA RIVER SUGGESTED AS BEST PLACE

Hilo Citizens Show How River Can be Made Serviceable and Adequate—Fault of the Old Plan.

Hilo citizens have suggested and intend to agitate a scheme for improving their harbor which, on its face, seems to merit more than ordinary attention and probably the full endorsement of the Legislature.

As is well known, the Hilo wharf is of little practical value on account of its being unprotected from the sea. For ten years there has been talk of a sea wall, and a short time ago \$50,000 was appropriated for the purpose.

This much of the river opened up would give wharf room for at least twenty ships. The place is thoroughly sheltered from the sea, and would be the most comfortable in the harbor of Honolulu.

Another thing: The central government builds breakwaters and the like. It would take Hilo, about thirteen years to get an item in the appropriation bills at Washington for \$1,000,000 for a breakwater.

The inland harbor, in the opinion of men versed in those things, can be constructed by the Hawaiian government. If the United States government chooses later to pay for it, well and good.

NEILL DRAMATIC COMPANY

REASON TO OPEN AT HAWAIIAN
OPERA HOUSE IN JUNE.

First-Class Company With an Excellent
Repertoire—First Appearance in Ho-
nolulu of a Well-Known Organization.

Charles A. Parker, the manager of the
Neill Dramatic Company, will ar-
rive next week to make preliminary ar-
rangements for the appearance of the
company next month at the Hawaiian
Opera House. The company is now
playing a very successful engagement
at the California theater in San Fran-
cisco.

Mr. Neill has had the Honolulu trip
in view for some months. He is fully
informed as to the local requirements
in the way of a repertoire. He will
bring a company of undoubted excel-
lence, and the different plays will be
presented in a manner never before at-
tempted in this city.

Few actors holding stellar positions
upon the American stage have been so
careful in selecting a supporting com-
pany as Mr. Neill. Each individual has
been engaged with a view to his espe-
cial fitness for the particular line of
parts in which he is called upon to ap-
pear.

In the matter of the selection of plays
for presentation by Mr. Neill and this
organization, the question of expense
has not been considered. The repertoire
offers the best in contemporary
English stage literature. Mr. Neill has
obtained the exclusive right to many
New York and London successes, and
they are presented by no other com-
pany. The same conscientious spirit has
characterized the selection of the ar-
tists who are associated with Mr. Neill,
and in surrounding himself with an ex-
pensive supporting company he has given
expression to his determination to
give every play a worthy presentation.
That the public appreciates and will
support performances of this charac-
ter is proven by the long series of suc-
cessful engagements in the larger cities
of the east.

THE SOCIETY IS FORMED

AGRICULTURISTS IN WORKING
SHAPE.

Organization and Speeches at the High
School Last Evening—President Dole
Speaks.

The Hawaiian Agricultural Society
met at the High School last evening
and perfected organization. Allan Her-
bert presided. T. H. Gibson, for the
committee, reported the constitution
and by-laws, which were adopted unan-
imously. These laws are based on the
regulations of the Royal Agricultural So-
ciety which was born and flourished
from 1850 to 1853.

W. A. Bryan, ornithologist and taxid-
erapist at Bishop Museum, was the
first speaker. His talk was on native
and imported birds, and the effect of
each upon agriculture. He advocated
carefully investigating the destructiveness
of the mynah bird and the rice bird
and comparing this with their use-
fulness in the extermination of undesir-
able bugs. It was the off-hand opinion
of the specialist that the credit balance
would be on the side of the birds.

Miss Allen read a most interesting
paper on the subject of a girl's indus-
trial school, showing how such could
easily be established on the site of the
present reformatory school which is
soon to be removed.

Col. W. E. Fisher spoke earnestly
and impressively on the subject of small
farms in the islands.

Byron O. Clark gave details of the
work being carried on by the California
colony at Wahiawa. He said that the
one drawback was the number of pe-
riods, including cut worms, but he believed
these would soon be exterminated. The
work at Wahiawa was no longer experi-
mental.

Christian Andrews spoke of forest
fires on the other side of the island.

H. R. Hanna talked of artesian wells
and the water supply.

Prof. Edgar Wood referred at length
to the work the normal school was do-
ing in the agricultural line, and advoc-
ating more extensive industrial train-
ing in the schools.

President Dole was the principal
speaker. He treated the general sub-
ject of agriculture in the islands, say-
ing that the safety and well being of
the country's social and political life
depended largely on the establishment
of small farms which carried with them
the homes and schools and healthful
influences. He referred to the California
colony and said that he believed it
would succeed. Everyone should en-
courage this colony. The Government
intended doing so.

At the conclusion of the meeting ev-
ery one present joined the society; some
as life members, paying a fee of \$50.

OBJECTION TO ESTEE.

His Record in Radicalism Brought Up
Against Him.

WASHINGTON, May 7.—A new fight
appears to have started against the ap-
pointment of M. M. Estee of California,
for the United States District Judgeship
of Hawaii. His nomination was all
made out at the White House and
would have been sent to the Senate to-
day by the President, but for the fact
that objection was made, and Mr. Es-
tee's record brought up against him.

Allegations are made that long ago he
was a member of the "Daily Varieties,"
who lost California to the Republicans.
Then, in 1894, when Debs was hurling
anarchistic firebrands, it is alleged Es-
tee sided with Debs and his followers
against the railroads. This is cited as
showing that Mr. Estee has an anarchis-
tic streak in his character, which in-
capacitates him from properly exer-
cising judicial functions in times of great
excitement. Mr. Estee still has a bet-
ter chance than any other Californian,
but this development is likely to give
the appointment to a man from another
State.

DEFINES CONTRABAND.

LONDON, May 10.—The Lourenzo
Marquez correspondent of the Daily
Mail, telegraphing May 9, says: Great
dismay was caused among the foreign
merchants here today by an order is-
sued by the new Portuguese Govern-
ment, declaring "bally" beef, blankets
and clothing contraband.

MAY BE 500 SUMMONS.

The second of the Hogan cases was
on before Judge Davis yesterday. A
new jury will be required for each of
the twenty-nine cases. This will mean
the use of 348 jurymen. As so many
will be disqualified for various reasons
perhaps as many as 500 men will be
summoned before the cases are over.

Those who have affiliated themselves with Republican clubs should turn out and vote at the primaries this afternoon, as it is essential that good men should be sent as delegates. This is the first step in the political field and it is an important one.

Hilo people are showing themselves to be progressive and have prepared a scheme for creating a harbor. This is a wise step. Hilo needs a harbor which will protect ships in all weather. The scheme proposed, which will be found in another column seems quite feasible. But it is Uncle Sam who attends to our harbors now.

The appointment of Mr. Dole to be Governor finds favor on the Mainland, where quite a number of papers have commented upon it editorially. The views of the Chicago Inter-Ocean upon the point are published in today's issue. Mr. Dole is well thought of in all parts of the States. His personality interests quite a number of people.

The Associated Charities have done good work during the past nine months. The necessity for an organization of this sort was thoroughly clear to a few thinkers a year or so ago, but it took some time to get the members of the various societies to see the point. They have seen it now, and its practical working has proved eminently satisfactory. The worthy have been relieved and the unworthy have been rejected. There is nothing more demoralizing or worse than indiscriminate charity, which gives upon impulse and takes no heed whether it is imposed upon or not. The report of the Associated Charities fully justifies the movement.

There is quite an exodus of Chinese and Japanese at present. A large number were unable to get away during the quarantine period, and the consequence is that there is a great demand for staterage passage. The Coptic had to increase her accommodations for this class of passengers. The Oriental is frugal, and when he has made money he yearns for the home of his childhood and his friends that have remained in the old country. The feeling is a natural one in the human breast, and is common to all countries. But a very large percentage of these people want to return, for they are infinitely better off here than they are in their own country. The exodus will doubtless continue for some time.

The Passion Play at Oberammergau excites a great deal of attention throughout the world. For over two hundred years it has been given as an expression of thankfulness for relief from plague by the simple villagers. The acting and elocution are traditional, and the characters pass on in some families from mother to daughter and from father to son. The people who take part have to be of blameless life and of great piety. Indeed, the whole affair is approached by the people of Oberammergau as a religious festival of great sanctity. It is this which excites so much interest, and it is this which precludes any representation of the Passion Play elsewhere. The first performance will be given tomorrow, and people from all parts of Europe and the United States will be there to see it.

FINANCIAL.

If interest on the \$4,000,000 of the public debt is to be allowed by the Secretary of the Treasury, it is calculated that a sum of \$600,000 will be due the Territorial treasury. The net loan indebtedness of the Hawaiian treasury on April 30, 1900, was \$4,884,018.50. Deducting \$4,600,000 from this would leave a debt of \$284,018.50. We had at the same time a cash balance in the treasury of \$904,186.52. We could pay off the whole of the debt and start the Territorial treasury with a cash balance of over \$600,000. Our financial future certainly does not look so very gloomy.

But we must bear in mind that we shall at once lose the income we have been receiving from the customs, and from the postal bureaus, which is very considerable, though of course, we shall be relieved of all expense in connection with them. We shall not have to pay the salary of the Governor, the Secretary of the Territory, the United States District Judge, the United States Marshal, or the United States District Attorney. The Governor's private secretary, his incidentals to the amount of \$500, and his traveling expenses when absent from the capital on official business, will also be paid by the United States treasury.

We can form some idea of what will be the reduction in salaries. The custom house takes about \$8,500 a month to run, the postoffice about \$7,500. These figures are not absolutely accurate, but they are near enough. Therefore the two departments cost us about \$16,000, or \$192,000 per year. But the returns

for the custom house alone in 1899, were \$1,296,628.95, and for the postoffice, over \$100,000. Then, again, we save the whole of the expenditure for foreign affairs with the exception of the support to the Territorial militia, and there are several salaries saved.

But it must be evident that there must be very serious thought given to the subject of financing the Territory. For a time we shall be thrown out of gear, and it will take able minds to adjust affairs to the present environment. It was in view of this contingency that Minister Damon so carefully nursed a surplus, which, unfortunately for us, had to be heavily drawn upon during our plague time.

The plans for this adjustment will have to be formulated in the Legislature, and upon the character and ability of the men who set in that Legislature will depend the proper arrangement of our finances, and thus of our future progress. This is everyone's business. Poor financing will wreck the most prosperous of states or territories. Take the bankrupt condition of Spain or of Turkey, and it is not because they lack resources, but that their finances are conducted upon entirely wrong principles. Here we have had for many years an excellent system of finance. But when that system is for a time disarranged, we must look for the best methods of re-arrangement. Whether it shall be well arranged, or shall be botched, depends entirely upon our own efforts. It lies with ourselves to elect the men who are capable of handling a difficult question on broad-minded principles. It is to the interest of the native Hawaiian, as it is to the interest of the white settler, that the financial policy of the Territory should be put on a sound basis. This point cannot be too much emphasized.

GERMAN LABOR.

A day or so ago the Star quoted from the report of Consul Kehl of Stettin, relative to wages of German artisans and laborers. He there gave a list of skilled mechanics of whom the highest wage was gotten by molders. These men received \$6 a week, while the ordinary unskilled laborer received \$3 a week.

This is certainly not a rich return to either the skilled laborer, or the unskilled laborer. Few men, brought up on the generous diet of the west would care to live and work on a diet of rye bread, sausage, or cheese, and potatoes, with a wild chance of blowing in seven cents for sundries. It is not to be wondered at that the men who are working on the best sugar fields of Germany are only too eager to get out of the weary grind of endless toil and no remuneration.

Compared with the kind of wage and the work done on our plantations, in the various capacities that men are employed, Hawaii shows a Golconda. Why, even the most unskilled laborer saves money if he is so disposed, and has a far more generous diet than rye bread and sausage and potatoes. Our laborers get better wages, and a far more generous diet than the German laborer gets, according to Consul Kehl. It must also be remembered that Consul Kehl, writing from Stettin, is unacquainted with the conditions of the southeastern part of Germany. There they are very much worse off than in Consul Kehl's jurisdiction.

But when consideration is taken of the prices of food articles, the hard condition of the German laborer will be more readily realized, for small wage may be compensated by cheap food. But articles which the American laborer regards as necessities are not cheap. Beef is 23 cents a pound, mutton 20 cents, pork 20 cents, veal 30 cents, ham, raw or cooked, is 30 cents a pound; tea, \$1.45 per pound, coffee 23 cents, sugar 7 cents, and flour 5 cents.

These are all in excess of what the same articles can be obtained for on the Mainland, and are even higher than they are in such an expensive city as Honolulu. Prices here have gone up in the direction of meat, and we complain considerably, but they are by no means as high as the prices quoted by Consul Kehl. But with us beef ranges from 11 to 18 cents, veal from 10 to 15, mutton from 8 to 17½ cents, and the whole list might be gone through with a showing of from ten to fifty per cent in cheapness.

It can be a matter of no surprise then that there is a constant stream of emigration to countries where higher wages and cheaper food give the laborer a chance of enjoying some of the luxuries of life.

A REVIVAL.

The revival of the old Agricultural Society is a step in the right direction, and will meet with the approval of all who are interested in the small industries which go to build up a country. The smaller industries will have a great deal better chance now than ever they had before and an agricultural society can do much towards assisting in pushing such industries forward.

It is interesting to know from Byron O. Clark that his industrial colony at Wahiawa has passed the experimental stage and can now be regarded as a practical success. The Territory needs more of such colonies. They form the backbone of the future population. There is ample room for such colonies. The population of these Islands ought in the course of the next twenty years to more than double, probably it will quadruple.

With an agricultural society that makes experiments, that stimulates industry and collects information, the path of the future small cultivator will be considerably smoothed. He will know where to go for advice and practical instruction. The names of those who are taking an interest in the society augurs well for its permanence and its success.

POLITICS ON THE MAINLAND

BRYAN IS NOMINATED BY THE POPULISTS.

Middle-of-the-Road Populists Nominate Wharton Barker and Ignatius Donnelly—Senator Cullom is Endorsed.

SOUTH BEND (Ind.), May 4.—Benjamin F. Shively, a lifetime friend of William J. Bryan and the Democratic nominee for Governor of Indiana in 1896, announced his candidacy for Vice-President after a nine-hour secret conference with the Nebraskan here today. The manner of McKinley's entrance into the race gives his candidacy the stamp of Bryan's approval, and it is confidently predicted that if he needs assistance from the silver leader it will not be lacking.

CHICAGO, May 8.—A special to the Times-Herald from Washington says: The name of President McKinley's running mate in the coming campaign is now known. It is John Davis Long of Massachusetts, at present Secretary of the Navy and formerly a Representative in Congress and Governor of his State. Secretary Long's nomination for the Vice-Presidency has been practically decided upon by the friends of the President, with the sanction of the President himself. It is, of course, possible that something may arise to change this decision, but that is not probable.

CHICAGO, May 10.—United States Senator Cullom arrived in Chicago today from attendance upon the Peoria convention. He expressed himself highly satisfied at the result of the convention battle between the forces of Governor Tanner and his own. He said:

"All I desired was a dignified indorsement, which was given me, with the declaration that it was the sense of the convention that I should be returned to the United States Senate. I could not ask for more."

SIoux FALLS, S. D., May 11.—The National Populist convention concluded its session at 1 o'clock this morning, and adjourned sine die after nominating W. J. Bryan for President and Charles A. Towne for Vice President. The nomination of Mr. Towne was only accomplished after a struggle of several hours duration, in which an effort was made to have the question of nomination of a Vice Presidential candidate referred to a committee to confer with the Democratic and Silver Republican parties in the national conventions. A motion to this effect was defeated by a vote of 268 to 492.

CINCINNATI, May 10.—For President, Wharton Baker of Pennsylvania. For Vice President, Ignatius Donnelly of Minnesota.

Above is the ticket placed in the field today by what is commonly known as the Middle-of-the-Road Populist party, but which, according to leaders of the movement, is the one and only People's party.

MARSHALL FOUND GUILTY

GIVEN SIX MONTHS AT HARD LABOR.

Jury Says He Committed Malicious Libel in First Degree—Appeal and Prisoner is Out on Bail.

William H. Marshall, editor of the Volcano, was found guilty by a jury yesterday afternoon in the first degree, and sentenced to imprisonment at hard labor for six months. Bail was fixed at \$1000. The same money formerly employed as bail, which was contributed by friends of the ex-newspaper man in small amounts, was delivered to Marshall Brown, and the prisoner was released. This happened late yesterday, so that Marshall did not spend the night in jail.

The case was concluded in court yesterday afternoon about 2 o'clock. Mr. Marshall, in his own behalf, being the last witness. Argument of attorneys began. This was short and desultory as to points. Judge Stanley then delivered his charge and the jury retired to make up its verdict.

The verdict as returned was guilty of libel in the first degree. Three dissenting.

Mr. De Bolt, attorney for the prisoner, noted an appeal to the Supreme court on law points. One of the points was that the court would not give certain instructions requested to the jury. In sustaining the prisoner Judge Stanley stated that the jury had brought in a verdict of libel in the first degree. It was in the power of the jury to fix the degree. The court sympathized with the prisoner on account of his family, a wife and children. These were innocent defendants in the matter. Such considerations inclined the court to leniency, but in the circumstances of the present case there could be no swerving from what appeared to be justice. The jury had found the accused guilty of malicious libel and the court had no recourse but to sentence accordingly.

"The Chief Justice," said Judge Stanley, "has had a long and honorable tenure of office. Those who are personal acquaintances of the Chief Justice attach no importance to the libel contained in this paper; but it is true that incalculable damage may result in having such a libel spread broadcast throughout the land. It tends to bring justice in these islands into disrepute. Mr. Marshall, the District court sentenced you to a term of imprisonment of six months. I see no reason why this sentence should not be confirmed. I regret exceedingly to sentence you. The sentence of this court is that you be imprisoned at hard labor for six months."

THE BRIGHT SIDE OF LIFE.

It is a feeling common to the majority of us that we do not get quite the amount of happiness we are entitled to in this world. Among the countless things which tend to make us more or less miserable ill health takes first place. Hannah More said that sin was generally to be attributed to biliousness. No doubt a crippled liver with the resulting impure blood, is the cause of more mental gloom than any other single thing. A chronic dyspeptic, says an eminent English physician, is always on the verge of a mental upset. And who can reckon up the fearful aggregate of pain and fear persons thus afflicted have suffered. You can see these people everywhere. For them life can scarcely be said to have any "bright side" at all. Hence the eagerness with which they search for relief and cure. Remedies like

WAMPOLE'S PREPARATION

have not attained their high position in the confidence of the people by bald assertions and boasting advertisements. They are obliged to win it by doing actually what is claimed for them. That this remedy deserves its reputation is conceded. It is palatable as honey and contains the nutritive and curative properties of Pure God Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites, Extracts of Malt and Wild Cherry. Nothing has such a record of success in Fevers, Rheumatism, Scrofula, Lung Troubles, all emaciating complaints and disorders, that tend to undermine the foundations of strength and vigor. Its use helps to show life's brighter side. Genuine only is effective from the first dose. "You cannot be disappointed in it." Sold by chemists everywhere.

The cast of characters is as follows: Jasper Roseblade.....J. A. Thompson. Jonathan Roseblade, father of Jasper and Claude.....C. H. Rose. Claude Roseblade.....J. McCann. Humphrey Higson, steward to the Earl of Milford.....Mark Houghtaling. Jonas Hurdle, formerly a poacher.....H. E. Murray. Rev. Owen Hilton, Vicar of Milverstone.....C. K. Hopkins. Sergeant Stanley, counsel for prosecution.....S. Jacobsen. Binkey Brown, eccentric sport.....A. Fernandez. Squinty Smith, eccentric sport.....B. Zablan. Sir Henry Harrington, magistrate.....Ben Houghtaling. Clerk of the Court.....D. McCarriston. Usher.....A. Rosa. Sheriff.....E. Legros. Gamekeepers, officers, barristers, Jurymen, reporters, etc.

The proceeds of the entertainment will be devoted to improving the society's quarters. The box plan will be at the Bergstrom music store on Monday, when seats may be secured. By the time the performance is given Beretania street will be opened so that the college may be easily reached from any part of the town.

Hawaiian Electric Company.

The "cleanest, brightest, safest and really in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."
This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.
We have a complete stock of everything in its line and have just received a lot of the very latest designs.

APPOINTMENT ENDORSED

CHICAGO TIMES-HERALD UPON GOVERNOR DOLE.

Sketches the Political Career of President McKinley's Appointee to the Gubernatorial Seat—Is Satisfied.

The Chicago Times-Herald, a paper that stands close to the administration, and is frequently its mouthpiece, published the following editorial in a recent issue:

"The President has acted very wisely in selecting Judge Dole to be the first American Governor of Hawaii. There will be no doubt, we think, in the minds of people who are familiar with Hawaiian affairs that the choice is the best one that could have been made. 'Probably there is no man on the Islands who enjoys public confidence to the same degree that Judge Dole does, and this indeed might be inferred from the manner in which he came to the head of the provisional government. The feeling was that he was pre-eminently the person for the place, and it was in obedience to an almost universal demand that he left the bench to assume the then exceedingly grave responsibility of the executive. Throughout those troublesome times no Hawaiian ever thought of accusing him of self-seeking. Criticism was confined to the anti-annexation press of this country, while it was generally understood in the new republic that its president was animated by no desire for office, but that he was making a sacrifice of his personal inclinations in order to fulfill a public duty. 'Not until annexation was assured and the long battle in which he had taken such a creditable part was over was there any suggestion of an anti-Dole faction, and this was the invention of and was manipulated by certain politicians from the States. It represented nothing but selfishness and personal ambition, and it is decidedly fortunate that its schemes have come to naught. 'Spite of all that it could do Dole has retained the undiminished trust and respect of all the better classes, native and foreign, and his fitness for his new office is apparent on other accounts. One great point in his favor is that he belongs in the truest sense to the Islands. He has spent his life upon them, grown up amid their associations, learned to know them as only an Islander can. His feelings are imbued with the predilections, the customs of brown Hawaiians and white, the native traditions, the old laws and the new. No man of ten or a dozen years' residence in Honolulu could have his sympathetic insight into the people. A fresh arrival from this country would be an ignorant tyro by comparison. 'The cares, responsibilities and severe discipline of the last few years have added to an equipment already large, and completed the training which now gives the state a strong, experienced, well-balanced public servant. If the precedent established by President McKinley is followed, Hawaii will never have cause to regret annexation."

THE OBERAMMERGAU PLAY

CELEBRATED PASSION PLAY ON MAY 20.

Some Changes in Personnel of the Actors—Josef Mayr Cannot Play Part of Christus.

With the exception of a few minor changes of personnel, the Passion Play at Oberammergau remains this year practically the same spectacle that has been seen at intervals of a decade, since its establishment in 1633. The play of 1899 is discussed by a writer in the Westminster Gazette (London). He says: "Some seven hundred persons of all ages will appear in the representation this year. The part of Christus, worthily upheld by Josef Mayr in 1880 and 1886, will pass into other hands. Mayr had hoped to sustain his former role, but an accident in the woods in 1896 left after-effects which have made it quite out of the question for him to take the part of Christus again. He will this year recite the prologue, a part for which his splendid elocutionary powers make him peculiarly fitted. 'The Christus this year, says the writer, will be Anton Lang, a young man whose blameless life, gentle, reverent face, and quiet dignity of manner render him, it is said, an ideal Christus. He was chosen by acclamation, and has the great advantage of being reverently and carefully trained by Mayr in every detail of the great going to the play. The other great part, that of the Madonna, will also be represented by a new player, Anna Flunger, described as a young woman of much beauty and holiness of life. Says the writer: 'She is the daughter of the village postman. As at present arranged, Bertha Wolff will play the part of St. Mary Magdalen, Andreas Braun that of St. Joseph of Arimathea, and Peter Rundl that of St. Peter. The old wooden theater has been demolished and one of iron erected in its place. The new building will be roofed over, not open to the sky like its predecessor; but it

will be open toward the mountain and the stage, so that the background will not be destroyed. The new playhouse will accommodate 6,000 persons. There will be a grand rehearsal on May 20, and performances on the 21st and 27th of that month. There will be six performances in June, July and September, and seven in August, in addition to several supplemental representations; and on each occasion the performance will last from 8 a. m. until 5 p. m., with an interval of an hour and a half. Some half a million of visitors are expected."

HILLO'S HERO. John Siemsen of Hilo, who was killed by the rebels in the Philippines, was a son of one of the founders of Honokaa Plantation, and a brother of Mrs. Geo. C. Ross of Honolulu. He was engineer of an American train at the time of the fight and was wounded seven times, the last shot taking effect in the head. Not until late in the day did he forsake his post of duty. Siemsen was regularly enlisted in one of the regiments.

JAEGER ESTATE.

Valued at \$15,000. Most of Which is Insurance.

A petition has been filed in the Circuit Court to have James E. Jaeger appointed administrator of the estate of the late Gustave H. A. Jaeger. The estate is valued at \$15,000, of which \$15,000 is life insurance.

The Supreme Court has filed a decision in the case of William Brown vs. Koloa Sugar Company in favor of defendants and dismissing the appeal of the plaintiff from the decision of the lower court. The Maul term, Judge Kalaui, will begin June 6.

JUST A COMPARISON.

Lord Russell of Killowen (when Sir Charles Russell) was once examining a witness. The question was about the size of certain hoofprints left by a horse in sandy soil.

"How large were the prints?" asked the learned counsel. "Were they as large as my hand?" holding up his hand for the witness to see.

"Oh, no!" said the witness honestly; "it was just an ordinary hoof."

The Judge then had to suspend examination, while everybody laughed.—Chicago Times-Herald.
