WARRIMOO ON THE ROCKS.

FLOATED OFF AT HIGH TIDE AND DOCKED.

It Was Foggy and Captain Arundel Mistook the Signals—Passengers Were Not in Danger.

About the first news that sped about town this morning was that the steamer Warrimoo, now five days overdue from Victoria, had gone ashore on her up trip. Following are the particulars of the accident from the Coast papers:

VICTORIA (B. C.) August 9.—The Canadian-Australian steamer Warrimoo is ashore three miles from Carmanah point, where the Duchess of Argyle was lost. She is afloat forward and can probably be floated with the next tide.

The tug Lorne is speeding down the coast to her assistance and the steamer Islander will follow with the Canadian Pacific Railroad officials. The latter will take the passengers, who number about 100, off if the steamship is not gotten off at once.

The passengers are in no danger, as it is calm and they could be landed at any time. If the wind springs up it is feared the ship will go to pieces, but the strongest hopes are entertained for her removal from the ledge by the Lorne.

The latest news is to the effect that the Warrimoo was floated at high tide. She is anchored off Carmanah lighthouse. The fog is very thick and nothing can be learned of the damage. A tug has gone out to her.

VICTORIA (B. C.) August 10.—The steamship Warrimoo is apparently not very much damaged by her stay on the reef near Carmanah point, but she will be docked at Esquimalt for a survey tomorrow afternoon.

She was hard and fast for five hours, being worked off at high water by a line run to an exposed reef near by. The accident was due to the dense fog and Captain Arundel mistaking his location, believing that the Carmanah signal was the Taatoosh signal. The lead was being heaved constantly, and a sounding taken only a few moments before the accident showed 200 fathoms, no bottom. There was no excitement among the passengers, as the shore was within easy reach.

FROM THE AGENTS.

Inquiry at the office of Theo. H. Davies & Co. elicits the information that the Warrimoo is all right again. She came out of dock at Esquimalt and, after discharging and loading, sailed from Vancouver for Sydney and way ports at midnight on the 22nd inst. As she will likely be pushed to make up lost time, the Warrimoo may be expected tonight or early tomorrow morning.

THE CHINESE OUTRAGES.

American Mission at Foochow Attacked by an Armed Mob.

A Hongkong dispatch of the 21st says: Another outrage has been committed near Foochow. The American mission has been attacked by a large and infuriated mob armed with various weapons. The chapel and school were wrecked and four native scholars were wounded, while the foreign teacher escaped.

There is a strong anti-foreign feeling in Foochow, which is spreading among the populace, who are parading with cries of "Drive out the foreign devils."

Dispatches of the 8th contain the following items:
Owing to the unsettled state of the province 200 Sikhs, reliable British Indian troops from Hongkong, will escort the British Con-

sul from Foochow to Ku Cheng, where the Consul will conduct an inquiry into the recent outrages.

The Shanghai correspondent of the Pail Mall Gazette expresses the opinion that further outrages are inevitable unless Great Britain "takes swift and deadly vengeance."

W. W. Ockhill, Third Assistant Secretary of State of the United States, one of the delegates to the International Geographical Congress, who returns to New York on Saturday next, said he thought it was a great mistake for the missionaries to have returned so soon to the outlying stations after the conclusion of the war, especially as they had been warned of the danger.

UNITED STATES.

Librarian Spoford Stole Thousands.

Washington is excited over the discovery that Ainsworth R. Spoford, librarian of Congress, is a defaulter and a thief on a large scale. For years he has drawn salaries for six more subordinates than he had on his staff. This irregular proceeding has cost the Government \$24,880 in the four years of which the treasury expert has cognizance. Spoford offered a short time ago to make up a deficiency of \$22,000 that had been discovered. He has made a statement in which he claims to have been guilty of no wrongdoing.

Marine Disaster.

The British ship Prince Oscar, from Liverpool, Captain Henderson, collided in mid-ocean July 13th, with an unknown sailing vessel. Both ships sank in less than ten minutes. Six members of the crew of the Prince Oscar and all on board the unknown vessel were lost. The survivors, seventeen in number, were rescued by the ship Dharwar, after being confined in an open boat, with neither food nor water, for three days. They were transferred to the steamer Capac, from Pisapua, and brought to Philadelphia.

GREATER THAN SPALDING.

MACKAY AND HOSMER HAVE THEIR EYES ON THE CABLE.

"Day Not Far Distant"—Only Fifty Cents a Word to Japan—Hawaii the Midway Station.

John W. Mackay, the millionaire bonanza king and telegraph magnate, arrived in the city from his Alaskan trip yesterday and is occupying apartments at the Palace Hotel, says the San Francisco Chronicle of August 11. With him are E. J. Mathews, one of Mr. Mackay's business associates and a capitalist of Philadelphia, and C. R. Hosmer, general manager of the Canadian Pacific telegraph line and the manager, also, of all of Mr. Mackay's telegraph interests. The party of three left Montreal on July 15th for Alaska, and have been on the move ever since. They sailed on the steamer Queen from Vancouver for the north, and upon the vessel's return they came direct to this city.

"Our trip is purely one of pleasure," said Mr. Hosmer, speaking for Mr. Mackay, "but we are looking forward to the day in the not far distant future when the Pacific ocean will be spanned by a cable and direct telegraphic communication established between this Coast, the Hawaiian Islands and the Orient. Nothing will help to stimulate the business of this Coast so much as a cable across the Pacific ocean. When the business men of this Coast can send a message to Japan or China for 50 or 75 cents a word instead of \$3 or \$3.35—I believe the rate is as high as that—there will be such a revival and increase of business as was never dreamed of before."

Mr. Hosmer is one of the foremost men directly identified with the large telegraph interests of the country, and his opinion that the laying of a Pacific cable will be realized some day in the near future will be regarded with considerable weight. He did not say that Mr. Mackay was interesting himself in the colossal enterprise, but he intimated as much.

"Mr. Mackay is no longer known as the bonanza king," he said. "He looms up today as the largest individual owner of telegraph property in the world. He has, alone and almost unassisted, built up the only successful competition ever waged against the Western Union. He has put his own private capital into the investment year after year, and is still continuing to do so. The near future will be full of surprises, both in the establishment and extension of telegraph and cable lines."

Why Was One Steamer Allowed to Break Quarantine Rules?

EDITOR BULLETIN: On Monday last a strict quarantine order was issued by the Board of Health to the effect that no steamer should leave the wharf. This order took effect at 3 o'clock on the afternoon of that day, so far so good. Let us see how far it was executed. A recently appointed manager of a Kauai plantation, at present staying in Honolulu, for private reasons, as well as to give unreliable information to the B. of H., was desirous in spite of quarantine regulations to have a steamer dispatched to the plantation he represents, presumably to carry feed to his starving mules. The event proved it was more particularly to bring down some ferns for decorating the house of his bride, as the arrival of the Jas. Makee showed, she having come into port with all her outward freight on board, the freight for which her sailing was excused, and mercilessly left the dear mules to starve, simply bringing down a few ferns in dilapidated condition. I would respectfully inquire, what is the use of enacting the farce of a quarantine, stopping all the business of the country, if such a reason as has been shown is a sufficient one to exempt a steamer from the regulations imposed on all the rest of the island steamers, to the great injury of all business?

At the Monday's meeting of the Board of Health it was decided, and for once I agree with the immaculate Board, that the safety of the public health must first of all be considered. All sensible citizens would and should assist the authorities to make that decision applicable under the circumstances, but I would remind the honorable board, "What is food for the goose, is food for the gander." I consider by dispatching the Jas. Makee under the circumstances, they themselves took the initiative in breaking their own carefully prepared mandate. PRO BONO PUBLICO.

Popular Topics of the Day.

Honolulu has as many machinists considering the population as any place we know of—and they're good machinists too, men who can take a steel rod and with the assistance of a lathe fashion it into parts for the most intricate machinery for an engine. To do this, of course, requires a knowledge of tools as well as the handling of them.

In our store room one department contains the most complete assortment of machinists, tools in the city. Look at them and you will find they are all of first quality (the price will give you the impression that they are thirds) every one of them shining like an African's heel. The assortment consists of hammers—all sizes and shapes from the cute little one used by the jewellers to the heavy one which the boiler maker uses in riveting the steel plates together. Then we have the Handy Pipe Wrench, a new device without a fault. This tool will be found a convenient one even in the house where none of the occupants are machinists. Hand vises for machinists can be had of us in every size manufactured, so can Pipe Vises and Cold Chisels. We have every thing used by metal workers in their trade.

Then we have a stock of carpenters wood working tools second to none in the city—first only in quality. You cannot call for a tool used by a carpenter that we do not have in stock. Another thing you may be interested in is an axe that will hold its edge—a new thing in axes and something every one needs about the house.

Bird cages have been mentioned in another paper; just here we will say that the stock we carry is complete.

THE NEW LAND ACT.

(Continued from yesterday.)

Any Occupier or Occupiers, or Lessee or Lessees, holding the whole interest in a certificate of occupation of Homestead Lease, may at any time surrender such interest to the Government by delivery of the certificate of occupation or lease to the Sub-Agent with the intention to surrender such interest properly endorsed thereon and signed by him or them in the presence of the Sub-Agent and duly acknowledged. Any such surrender shall release the Occupiers or Lessees from all further duty of performance of the conditions of the document surrendered. No surrender by a minor under eighteen years of age shall be valid except through a statutory guardian. Any two holders of such certificates or of such leases in any one District who are not in default in the performance of any of the conditions of their respective certificates of occupation or lease may, with the consent of the Sub-Agent and upon the payment to him of a fee of one dollar each, exchange their certificates of occupation or leases with each other, with or without any additional consideration therefor. In case of such exchange the fact of the exchange shall be endorsed by the Sub-Agent upon the said two certificates of occupation or leases and recorded in his book of records, and the Occupiers or Lessees respectively shall be liable for the performance of all unperformed conditions of the Certificates of Occupation or leases received by them in such exchange, and shall be relieved of the performance of all conditions in the leases given up by them. An Occupier and a Lessee may not exchange with each other.

SECTION 39. The right of possession of a Lessee shall, in addition to the condition set forth in Section 41, be subject to the following special condition:

He or his successors shall continuously maintain his home upon the leased premises.

SECTION 40. If it shall appear at any time that the Lessee has failed in the performance of the said condition, or has done such acts or permitted such circumstances to exist as constitute a virtual abandonment of the said premises as a home, the Commissioners may, with or without legal process and without notice, demand or previous entry, take possession of the demised premises and thereby determine the estate created by such lease.

SECTION 41. The right of possession of an Occupier or Lessee to the premises held by them respectively under a certificate of occupation or a Homestead Lease shall, in addition to the special conditions set forth in Sections 33 and 39, be subject to the following conditions:

1. He shall pay the taxes assessed upon said premises within sixty days after the same are delinquent.
2. He shall perform any condition in such certificate of occupation or lease for the planting of trees, the protection of trees growing or to be planted on such premises, and any condition of such certificate of occupation or lease for the destruction of vegetable pests that may be on such premises or for the prevention of the future introduction of such pests thereon.

SECTION 42. The violation of any of the foregoing conditions shall be sufficient cause for the Commissioners to take possession of the demised premises with or without legal process and without notice, demand or previous entry and thereby determine the estate created by such lease.

SECTION 43. In case of the death of any Occupier or Lessee, all the interest of such Occupier or Lessee, any conveyance, devise or bequest to the contrary notwithstanding, in land held by such decedent by virtue of a certificate of occupation or a Homestead Lease shall vest in the relations of the decedent as follows:

1. In the widow or widower.
2. If there is no widow or widower, then in the children.
3. If there are no children, then in the widows or widowers of the children.
4. If there are no such widows or widowers, then in the grandchildren.
5. If there are no grandchildren, then in the father.
6. If there is no father, then in the mother.
7. If there is no mother, then in the brothers and sisters.
8. If there are no brothers and sisters, then in the widows or widowers of the brothers and sisters.
9. If there are no such widows or widowers, then in the nephews and nieces.
10. If there are no nephews or nieces, then in the widows or widowers of the nephews and nieces.
11. If there are no such widows or widowers, then in the grandchildren of the brothers and sisters.
12. If there are no grandchildren of any brother or sister, then in the Republic of Hawaii.

And all such successors, except the Republic of Hawaii, shall be subject to the performance of the unperformed conditions of such certificate of occupation or lease, in like manner as the decedent would have been subject to such performance if he had continued alive.

DESCRIPTION AND TERMS:

CREOLE is the gamest, fastest and best bred stallion that has ever been imported into the Hawaiian Islands. He reduced his record of 2:20 to 2:18 in Petaluma, Cal., August 24, 1894, distancing his whole field in the first heat; then again to 2:15 in Stockton, Cal., September 23, 1894, winning the first heat in 2:15, fourth heat in 2:15, and fifth heat in 2:19, proving that he is a remarkably game as well as a speedy race horse. ("Creole by Prompter out of Grace by Buccaneer shows that he is capable of getting a mark of 2:10 and is one of the gamest stallions seen this year, and besides being game, is one of the best formed, and remarkably intelligent."—Breeder and Sportsman, Sept. 25, 1894.) He is 15½ hands high and of powerful build throughout. His color is glossy black with one white hind foot. His disposition is all that could be desired, and his action superb. He is a sure foal getter.

THE EXCLUSIVE SENATE.

What permanent use is the Government going to make of the old Legislative Hall in the Judiciary building? It is the finest and largest apartment in the Government buildings, next to the old throne room that was occupied by the House of Representatives at the late special session. If the Senate is to conduct its deliberations in presence of the people, it cannot do so in the virtually private chamber occupied at the late session. Indeed the people should protest against such exclusiveness, and a very effectual protest of a practical sort is available. It is to crowd into the little crib repeatedly and make the place too uncomfortable for senatorial occupancy. With such a chamber as the former Legislative Hall open for one of the houses, there is no excuse for the upper house being so cribbed, cabined and confined.

CABLE PROSPECTS.

Mr. Thurston at the Chamber of Commerce cable conference, said that Mr. Mackay had been approached on the matter of laying a cable between San Francisco and Honolulu, but would not give the proposition a moment's consideration. In today's paper will be found gratifying evidence that, if Mr. Mackay has no use for a local line to Honolulu, he is revolving in his enterprising brain the vastly greater project of a cable to Japan, which will take Honolulu in on the way. It will be notified that Mr. Mackay's telegraphic chief mentions fifty cents a word as the probable rate to Japan. Mr. Spalding's scheme contemplates bleeding our business men to the tune of one dollar a word for half the distance. This news is the first proof that has come of the idiocy of the Hawaiian Government's action, in giving an exclusive cable privilege for twenty years to Mr. Spalding without inviting any other offer for the most valuable concessions. Mr. Spalding will only be an obstacle to a cable, as all the use he can be on real cable promoters is on account of "that paper," as Mr. Widemann called the invaluable present the beneficiary carried away in his pocket. If Mr. Mackay does not choose to pay the price Mr. Spalding may demand for the franchise, the United States Government may deem it expedient to take steps for having the dishonest compact between Dole and Spalding broken. These names are used in this connection, it need hardly be said, in their representative capacities—that of the President as representing the parcel of geese who gave him the authority to commit the act, and that of Zephaniah Swift Spalding as representing himself in the role of an unscrupulous speculator.

OBSERVATIONS.

The people wanted an alcohol law and they have got one, and already they are commencing to kick about it. Ladies who want a small quantity of the fluid for toilet purposes or to take out

grease spots now have to send their big brothers or husbands to the saloons for it, as the drug-stores will not retail it without a physician's prescription.

An announcement of the latest number of a weekly journal, on the bulletin board of Thrum's bookstore, calls for a press censor and asks why official news, presumably of cholera, is not furnished. Me dear boy, most of the news you have seen in the BULLETIN about the scare was obtained right in the Board of Health office. What more do you want? Shall each paper reserve a desk, pen and pencil in its office for the president of the Board, and sue out a mandamus from the Circuit Court to compel him to "do" all epidemics for its readers?

Minister Castle passed through Chicago on the 21st inst. on his way to Washington. He said in an interview that the affairs of the new republic are in a most promising condition and that the present Government has nothing to fear from the royalists. "Most promising" means little although it sounds much. It is a pity the Minister could not speak about performance rather than promise. However brilliant may be the political prospects of the Government itself, the fact remains that the Senate held an inquiry into the dulness of trade. Is it not about time, though, to stop using the term "royalist" as a foil to every scrutiny of the real conditions of Government and people?

Marine Disaster.

The freight steamer Lyon of the New Haven (Eng.) and Dieppe line and the passenger steamer Seaford of the same line, carrying 255 passengers and a crew of 42, came into collision. The Seaford sank in 20 minutes. The Seaford's company were rescued by the Lyon, which was in no danger. Some American passengers value their property lost at \$50,000 to \$100,000. One lady lost nearly \$10,000. Many Americans who were on the Seaford called at the United States Embassy in London for assistance and advice, having lost everything except the clothes they had on.

American Notes.

The United States is going to demand of France the release of ex-Consul Waller of Tamatave, Madagascar.

Twenty-one bodies have been taken out of the ruins of the burned Hotel Ganry at Denver, Col., and the coroner believes there are many more to be recovered.

Astronomer Swift of California has found a new comet, but it has no tail.

Governor Budd of California, though he has not relapsed, was not as well at the latest date as the day previous.

European Items.

The United States Consul at Beyrout, Thomas R. Gibson, has been instructed to proceed to Tarsus in order to open an inquiry regarding the attack made upon the American college there.

The London Telegraph's Vienna correspondent says that two Russian staff officers descended in a balloon near Jaroslav, Austria, where they were arrested.

At the instance of United States Minister Terrill at Constantinople the Vali of Erz-roum will furnish an adequate escort to William A. Sachtleben of New York, who is searching for the remains of Frank G. Lenz, the Pittsburg bicyclist murdered on the way through Armenia.

The strike of millworkers at Dundee, Scotland, has assumed serious proportions. About 18,000 operatives are now idle. The latter struck without waiting for a reply to their demands for an increase of 10 per cent in their wages.

C. R. BISHOP'S GREAT GIFT.

ABOUT A MILLION DOLLARS FOR
HAWAIIAN SCHOOLS.

New Preparatory School Building
For Oahu College—Other Institutions Will be Benefited.

The latest number of the San Francisco Examiner states that word was received in that city by the last Australia to the effect that Charles R. Bishop, First Vice-President of the bank of California, had given \$800,000 to schools and societies in the Sandwich islands.

Mr. Bishop was seen by a reporter at the Occidental Hotel, and was requested to make some mention of the matter. The gentleman, who is a millionaire five or six times over, has his own ideas about things and is very dogmatic in maintaining them. He confirmed the truth about having made a large donation of money to the island schools, but refused to mention the sum. He did say it was a large sum, and was particular to neither affirm nor deny that \$800,000 was the amount.

"I did not wish to have my donation made public," he said last evening, with an evidently sincere show of feeling, "and I do not wish to make any comment on the subject. 'The Examiner' somehow seems to have some knowledge about my action. I cannot but appreciate that its motive is to get the news, and for that reason I will say I have given the schools down there a large donation in money."

It appears that on the death of his wife in 1884 she bequeathed her estate, which has an annual income of \$65,000, to the Kamehameha schools in Honolulu. They consist of a school for boys and one for girls. The buildings are pretentious in size and equipment, and are modern in every respect. Some 250 boys and girls are now being educated in them.

Mrs. Bishop's estate was left in trust to Messrs. Damon, Hyde, Carter and Cooke, all prominent men in Honolulu, for the benefit of these schools. Mr. Damon was formerly a partner of Mr. Bishop.

Mr. Bishop practically admitted last night that to these gentlemen will be intrusted his large donation for the benefit of these same schools, Oahu College and several other institutions of learning. Oahu College will be given a new building at a cost of \$65,000. It is a preparatory school, which has a large attendance, and at one time or another in their youth all the men now prominent in the islands have received instruction within its walls.

J. O. Carter, one of the trustees mentioned above, was interviewed by a BULLETIN reporter and shown the foregoing. He said in the main the article was correct, but that he was not at liberty to divulge more of Mr. Bishop's plans until the trust deed had been placed on record. That

deed, Mr. Carter said, had been prepared here and forwarded for Mr. Bishop's approval and signature by the last Australia. It is expected here on the return of that vessel on Tuesday, when it will be recorded. Mr. Carter also added that by the provisions of the deed certain portions of Mr. Bishop's property go directly into the hands of the trustees named to be administered for the benefit of certain educational institutions here, but which they were and the amounts each would receive he could not make public until he was assured Mr. Bishop's signature had been attached to the deed of trust.

Trustee Jones of Oahu College had no knowledge of the bequest when interviewed this morning and should be agreeably surprised when he reads his EVENING BULLETIN.

The insurgent Cubans are still holding their own against the Spaniards. An effort is to be made to get recognition from the United States for "the provisional government of the republic of Cuba."

The Mariposa will sail for the Colonies at 5 o'clock. Her mail closed at 2 for fumigation.

Mrs. Lee Yick pleaded guilty of having opium in possession and was fined \$50 and costs this morning by Judge Perry.

District Judge Wilcox occupied Judge Perry's bench yesterday afternoon in a civil case in which the latter was disqualified.

The two boy detectives were arraigned this morning for conspiracy in the third degree and admitted to bail in the sum of \$100 each.

Among the natives evicted from the old immigration station, when it was devoted to a cholera hospital, was a woman with a baby not a day old. The baby has died.

The trial of George Houghtailing is occupying the whole attention of the District Court today. The prosecution is endeavoring to prove that George sold spirituous liquor without a license.

Timely Topics

— ON THE —
"TRIBUNE"

The Tribune is a new bicycle which we are introducing to the Honolulu public. There is probably no piece of machinery, except a watch, where outside appearances can cover as vast a difference in quality as a bicycle. A wheel may be built to look all right as far as outside looks go, for a comparatively small cost, but it is difficult to judge whether a frame has one coat of enamel or four, or whether the plated parts have been run in nickel fifteen minutes or three hours. Also in the mechanical work it is not easy to tell when looking at a finished bicycle whether the cones and bearing posts are drilled, tapped and formed in one operation and used in the shape they come from the first screw machine, or whether they are first formed over size and then finished to gauge on hardened arbors at several times the cost. Of this latter class is the Tribune.

The purchaser of a Tribune may feel assured that he has got the finest bicycle in both design, quality and finish that good machinery and experience can produce.

All Tribune wheels are fitted with the Cycloidal Sprocket, patented. Any good mechanic knows that a gear wheel with teeth wrongly shaped, will not drive machinery properly and that the slightest variation from the correct form will cause friction and consequent wear. The object of the Cycloidal Sprocket is to remove this useless friction and cause the chain to drive as freely as the running of ball bearings.

The advantage of the Cycloidal Sprocket over other kinds is apparent when the rider is climbing a hill or forcing his wheel rapidly on an up grade or against a head wind, as a saving of 15 per cent in the power is guaranteed by its use.

We saw a little sawed-off individual trying to climb the Victoria street hill the other day on his wheel but he couldn't make it. He only came near enough to it to cause him to lose his temper. The fifteen per cent extra power given by the Cycloidal Sprocket would have enabled him to have ridden up that and similar hills easily.

Bicycle riders are invited to call and examine this new labor-saving invention. It will cost them nothing.

While we are on the subject of bicycles it may not be amiss to say that there are wheels within wheels, and one of them is the Gate City Stone Filter. With this filter in the house, the boiling of water is not necessary to protect the household from cholera bacilli, microbes and other wriggling things too horrible to think of and about which the learned physicians disagree and dispute.

We have a large stock of the Gate City Filters on hand. They are reliable and cheap, and we guarantee them to eradicate all microbes and impurities of any kind.

The swimming tank of Punahou College has been emptied during vacation, as it was only an added attraction to the numerous Portuguese boys who are in the habit of purloining fruit from the grounds of that institution.

The Building Committee of the Pauahi Memorial Hall at Punahou, consisting of Dr. Hyde, Chas. M. Cooke and Professor Hosmer made a personal inspection of the building yesterday afternoon and decided on minor matters connected with the basement, eaves troughs, etc.

Probably it is just as well that the Monowai did not take any mail, if it is true, as reported, that some of the newspaper correspondents greatly magnified the cholera scare. One of them is said to have written to the effect that coffins could not be made fast enough and consequently the dead were buried without.

Cleaning, painting and sanding the facade of the Executive building is making stately progress. The work was begun while the Legislature was in session, as some of the chosen ones have reason to remember, having got sand down their backs from over the portico on coming out of the building.

ABOUT PUNAHOU COLLEGE.

THE NEW TERM WILL COMMENCE NEXT WEDNESDAY.

Something About the New Corps of Teachers Who Will be on Hand on That Day.

Oahu college will open both its preparatory and other departments on Wednesday, September 4th, and in spite of the cholera scare no decrease of pupils is expected, except in the boarding department, which will suffer temporarily from the interruption of passenger traffic and consequent inability of scholars residing on the other islands to reach the school.

The vacant positions in the faculty caused by recent resignations have all been filled, and the new corps of instructors are all expected to be on hand next Wednesday.

The many friends and former pupils of that popular teacher of mathematics, Prof. John Q. Wood, will be pleased to learn that he will return and again be enrolled among the faculty of the college, probably resuming his former position, although the matter cannot be definitely settled until his arrival.

Prof. Arthur B. Ingalls, a rising young scientist, takes the chair of chemistry and science in place of Prof. A. B. Lyons, resigned. Mr. Ingalls was assistant professor of chemistry at Williams college the past year, and for the two preceding ones occupied a similar position at Amherst. Professor Ingalls is reputed to be a splendid educator as well as scholar, and will, no doubt, take well with the pupils. He is highly recommended by such men as President Gates of Amherst, Prof. Harris, Prof. Emerson and others.

Miss Florence Kelsey, who arrived on the Mariposa this morning, will assume charge of the classical department. Miss Kelsey comes from Smith college, Northampton, Mass., and has spent several years in study in Europe. She is said to be eminently qualified to fill the responsible position for which she has been selected.

In the preparatory department a male principal will have charge. He is expected to arrive on the Australia, but as no chance has been had to hear from him since the position was offered to him his name is withheld for the present. After his arrival other appointments and changes in the various grades are to be made.

At 7:30 o'clock last evening the ceremony that united Miss Kama-kee Cummins and George H. Fairchild as man and wife was performed by Rev. Alex. Mackintosh in the drawing-room of Judge Widemann's elegant mansion at Punahou.

The house and verandahs were beautifully decorated with flags, flowers and ferns and the grounds brilliantly illuminated. Miss Gertrude Widemann and Miss Helen Parker were bridesmaids and David Kawanakoa and Christian Conradt groomsmen.

After the marriage ceremony a reception was held, which was attended by some three hundred of the elite of the city. Dancing to the music of the Kawaihau club was indulged in, and refreshments were abundant.

REMINDS US

To remind you that we have a Sewing Machine in which we place so much confidence that we will send it to you on trial free for a week and if not satisfactory you may return it at our expense.

We make this offer because we know our goods. Our Machine costs a trifle more wholesale and sells for a trifle more retail than any other Machine in the world, but it is worth it. Listen: It makes five stitches to the revolution while others make but three and one half. In other words you do what is three days' work while. Paste this in your bonnet.

The "Standard" has both chain and lock stitch. The "Standard" gives a written guarantee for five years. It does every thing that can be done on a Sewing Machine, what more do you want? Sold on the installment plan at Eastern prices. \$10 discount for cash. For rent by week or month.

Burning Pain

Erysipelas in Face and Eyes

Inflammation Subdued and Ter-
tures Ended by Hood's.

"I am so glad to be relieved of my tortures
that I am willing to tell the benefits I have de-
rived from Hood's Sarsaparilla. In April and
May, I was afflicted with erysipelas in my face
and eyes, which spread to my throat and neck.
I tried divers ointments and alternatives, but
there was no permanent abatement of the burn-
ing, torturing pain, peculiar to this complaint.
I began to take Hood's Sarsaparilla and

Felt Marked Relief

before I had finished the first bottle. I con-
tinued to improve until, when I had taken four

bottles, I was completely cured, and felt that all
signs, marks and symptoms of that dire com-
plaint had forever vanished." Mrs. E. E.

Perfectly
Wretched!

PAINE'S CELERY COMPOUND
RESTORED MRS. DARROW
TO HEALTH AND HAPPINESS.

This is the Medicine That
Makes People Well!

WELLS, RICHARDSON & Co.,

Gentlemen:—I was very much run down, had no appetite at all, was very nervous, had no sleep night or day; to sum it all
up, I WAS PERFECTLY WRETCHED. But thanks to Paine's Celery Compound I can now eat and sleep and work just as
well as I could before I was taken sick. When I commenced taking the Compound I weighed 136 pounds; I now weigh 158
pounds and do all the work for my family of five. I have recommended the Compound to three families already and they are
very much pleased with it. I am now taking my fifth bottle, and would RECOMMEND IT TO ALL WHO ARE SUFFERING
WITH STOMACH TROUBLE OR NERVOUS TROUBLE.

Yours respectfully,

MRS. AUG. DARROW.

PERSONAL.

Three clergymen arrived by the Mariposa.

Sidney Clementson, the Boston wool man, is here again with his wife.

W. N. Hires, the root beer man, is bound for Sydney on the Mariposa.

Mrs. A. Fuller, Miss C. M. and Master Fuller are welcomed home after a long absence.

Robert Cowes, formerly chief steward of the Mariposa, came down by that steamer.

Mrs. J. G. Rothwell is home again from a protracted visit abroad for her health.

Henry Varley, the celebrated gospel preacher, is a through passenger by the Mariposa.

T. B. Cusack-Smith, British Consul at Samoa, is going back to his post by the Mariposa.

Mr. and Mrs. J. J. Egan and Miss A. E. Paty have returned home by the Mariposa. Welcome.

Prof. M. M. Scott is home again, and now arrangements will be expedited for starting the high school.

Principal Theo. Richards of Kamehameha School, is back from the Coast, and his many friends are pleased to see him.

Charles T. Wilder, Hawaiian Consul General at San Francisco, arrived by the Mariposa to spend a vacation at home. Charlie must be awful glad to have got here in time to escape the cholera and to see the decisive baseball game of the season. He's an old "Star."

What better investment than a light office coat, these sweltering hot days. Cool, comfortable and cheap. McInerney.

Speaking of window curtains, we will sell beauties at 75 cents a pair, during the clearance sale at the Temple of Fashion September 2.

Mechanics' Home, corner Hotel and Nuuanu streets, lodging by day, week or month. Terms: 25 and 50 cents per night \$1, and \$1.25 per week.

Blood Diseases,

When the blood is diseased and the system Anemic or Scrofulous, it carries sickness through the whole body, for the current of human life is in the blood. This proves how necessary it is to have pure rich blood, because an impoverished condition of it brings on Fevers, Malaria, Rheumatism, Bowel Complaints, Lung Scrofula, General Debility, etc.

Wampole's

Preparation, perfected and tasteless, of Cod Liver Oil with Compound Syrup of Hypophosphites, Extracts of Malt and Wild Cherry Bark, resists the attacks of all disease germs in the blood, is highly recommended as the best modern treatment to clear your system and to bring back robust health and strength. Is really a family medicine chest.

WELL! WELL!! WELL!!!

Just Look at the Mistakes.

When people order by telephone of another Furniture Store and then walk into C. E. WILLIAMS & SONS Store and ask why the goods are not delivered on time they make a mistake. When a lady telephones to the store of C. E. Williams & Son to come and take back a piano that was sent to her by another furniture man she makes a mistake.

It is a Mistake to think that C. E. WILLIAMS has left the country without a return ticket.

It was a Mistake to try to stop him from going.

It is a Mistake to imagine that he will not return with a stock of goods, with prices that will make the public happy and paralyze some folks.

It is a Mistake if Clark's school of embalming from which Mr. ED. A. WILLIAMS graduated last year is not the best on Earth,

It is a Mistake if you think we do not covet all the trade in town; we do! We would like the Earth and Necker Island thrown in.

It is a Mistake if you think (all insinuations to the contrary) that we do not still remain, Yours as ever,

MME YALE'S HAIR TONIC

LADIES AND GENTLEMEN: It affords me great pleasure to call the attention of the public to my Yale's Hair Tonic, which is the first and only remedy known to chemistry which positively turns gray hair back to its original color without dye. I personally endorse its action and give the public my solemn guarantee that it has been tested in every conceivable way, and has proved itself the only Hair Specific. It stops hair-falling immediately and creates a luxuriant growth. Contains no injurious ingredient. It is not sticky or greasy; on the contrary, it makes the hair soft, youthful, fluffy, keeps it in curl and removes dandruff. For gentlemen and ladies with hair a little gray, streaked gray, entirely gray and with BALD HEADS, it is specially recommended.

All druggists Price \$1; also Yale's Skin Food, \$1.50; Yale's Complexion Cream, \$1 Yale's Face Powder, 50c; Yale's Beauty Soap,

TO OWNERS OF BUILDINGS.

The undersigned having purchased the exclusive right, title and interest for the Manufacture and use of the PEERLESS PRESERVING PAINT in and for the Hawaiian Islands, desire to call the attention of owners of Buildings to the superiority of this Paint for the purpose of Preserving Shingles, Metals, Iron, Steel, Bridges, Posts, etc., against rust, corrosion, decay and leakage. One generous coat of the Peerless Preserving Paint has been found equal if not superior to three coats of any other Paint, and we guarantee it will not scale, crack, or run, it being composed of a body when applied in which there is no OIL, SPIRITS OR EVAPORATIVE SUBSTANCE. In using this Paint upon a shingle roof its FIRE-PROOF qualities are one of the chief advantages, as it renders the roof impervious to sparks which may fall upon it in the driest season without the slightest injurious effects. The main features which the PEERLESS PRESERVING PAINT offers for its use upon roofs are its thorough resistance to any action of heat or cold, and its wonderful PRESERVING qualities which fully prevent any action from either RUST OR DECAY.

We are prepared to execute and carry out special contracts for the application of the PEERLESS PRESERVING PAINT on any of the Islands. All contracts undertaken by us will be fully GUARANTEED. Our prices for this class of work are extremely moderate, and roofs to which Paint is applied by us are guaranteed against leaks, cracks, scales or runs for a period of years, estimated upon the age of the roof when the work is performed.

Examinations made and estimates given in all work free of charge, and references given by application at our office.
