ANDERSON AND ROBERTSON, FREAR'S MEN SENATOR PERKINS IS BADLY HURT

Frear Support For Robertson

Indorsed Candidate For Federal Bench
—Has Praise For Judge
De Bolt

That Governor Frear recommended the appointment of A. G. M. Robertson as the Second Federal Judge of the District Court while in Washington is now definitely known. For Associate of the Supreme Court he gave an opinion favorable to the appointment of Robbins B. Anderson of the firm of Kinney, Ballou, Prosser & Anderson.

As a consequence the judgeship situation is the certainty of the appointment of Anderson to the Supreme Bench and the extreme probability that Governor Frear's recommendation will be sufficient to overcome the objections that have been made to the appointment of A. G. M. Robertson on the United States District Court bench.

When asked this morning concerning the developments in the filling of vacancies on the Supreme and Federal benches, Governor Frear stated that he had heard nothing from Washington as yet, and could hardly be expected to put himself in the attitude of announcing the probable appointments of President Taft—which might be construed from his announcement.

of any opinions he may have given to President Taft or Attorney General Wickersham.

In reply to an observation to the effect that the community seemed to think that the Supreme Court vacancy was between Judge De Bolt of the Circuit Court and Robbins B. Anderson, Governor Frear stated that he had a high opinion of Judge De Bolt's services on the Circuit Bench and believed that he was highly efficient in the discharge of his duties as a judicial officer.

"Should Judge De Bolt not be appointed to the Supreme Court it will certainly be no reflection upon him," said the Governor adding that De Bolt's long and able service on the Circuit Bench fully justified the expressions of confidence in Judge De Bolt.

The Governor stated that he had not had an opportunity to take any definite action on the filling of the vacancy in the office of Superintendent of Public Instruction, but that he hoped to make a beginning tomorrow in the consideration of the nominations.

(Continued on Page 4)

GLAVIS TURNED DOWN

WASHINGTON, D. C., Jan. 6.—Attorney-General Wickersham made public today his final report on the charges made by Inspector Glavis against the land administration and Secretary of the Interior Ballinger. These charges were connected with the famous Cunningham land frauds and gave rise to the attack on the Secretary of the Interior that has resulted in a call for a Congressional investigation.

The Attorney-General declares in his report that the Glavis charges are not proven by the facts presented.

Labor Charges Against Trust

WASHINGTON, D. C., Jan. 6.—President Taft today received a delegation from the American Federation of Labor, who formally presented to him charges alleging fourteen illegal acts committed by the Steel Trust.

This is incident to the general campaign against the Steel Trust that has been started by organized labor on account of the insistence of the trust on the open shop.

The President heard the committee and promised that a thorough investigation should be made of the charges.

Registrar Lemon reports deaths from contagious diseases from December 17 to December 31, 1909, as follows: Tuberculosis, 13; typhoid fever, 1; tatarus, 1.

Major-General Barry received an official visit from Governor Frear yesterday afternoon. The Governor was accompanied by Colonel Jones.

HAWAII'S LADY CHAMPION TO COAST

Mrs. Coulter Will Play
Tennis Against
Champions

It is practically decided that Mrs. Coulter will represent Hawaii on the mainland tennis courts this year. C. G. Bockus, president of the Hawaiian Tennis Association, will, during his visit to the Coast, arrange for matches between Mrs. Coulter and Miss Hazel Hotchkiss, the present champion of the United States.

Mr. Bockus will also endeavor to get in communication with the representatives of Miss May Sutton, and see if matches can be arranged between the Hawaiian lady champion and the world's best player.

The Hawaiian Lawn Tennis Association will defray all expenses in connection with Mrs. Coulter's trip to the mainland, and she will be the properly accredited representative of these islands. Mrs. Coulter is considered to have an excellent chance of beating the mainland experts, and it will be a great boost for Hawaii if she succeeds.

The local champion lady player will go to the Coast next May or June, and the matches will be played shortly after her arrival there.

A CABLE has been received here to the effect that the supply schooner Florence Ward has sailed from Midway Island for Honolulu on January 5th.

MOANA IS MINUS HER CHIEF OFFICER

Saunders Is Badly Hurt
By Fall At
Suva

STRONG HEAD SEAS
DELAYED LINER

Several Theatrical People of Note
Are on Board—Brings Small
Cargo and Takes But Little Away
—to Sail For Suva Today.

Chief Officer T. C. Saunders of the Canadian-Australian liner Moana, now in port, was left at the general hospital at Suva, Fiji, badly injured and unconscious as a result of a nasty fall from the vessel's deck of a coal bulk below.

The accident occurred during the unloading of the Moana at the Pillan pier. Saunders is said to have been looking after that branch of the work, and he was attending to the unloading of the coals, which to some extent, swung around and, striking the chief officer, threw him to the boat deck.

Officer Saunders rolled from the deck, and, hitting the rail of the coal bulk, sustained a series of bodily injuries which rendered him unconscious.

It was learned that the officer had three ribs broken by the fall, and there may be internal injuries, though the extent of these could not be learned until the injured man regained consciousness.

The sad accident had a depressing effect upon the corps of officers on board the Moana, where Saunders is well liked by his mates and associates.

Saunders is well and favorably known to Honolulu shipping people and he is said to have been quite keen on sports. He has been passing (Continued on Page 2.)

HAWAIIAN PAPER CO. SECURES BIG ORDER

Paper Ordered For the New Code
Book is the Largest Order For
Paper For a Single Publication
Ever Placed in Territory.

The order for the paper for the American-Hawaiian Publishing Co.'s new Code Book has been placed with the American-Hawaiian Paper Co., and is the largest order for one grade of paper ever placed in this Territory.

The paper if placed in a straight line the width of the Code Book will cover a distance of fifteen hundred miles.

BEETS GO HIGHER

SAN FRANCISCO, Jan. 6.—Beets: 88 analysis, 12s. 9d. Parity, 47c. Previous quotation, 12s. 8 1/2d.

The booking of W. H. Habbitt for a trip to the mainland on the China, due to leave here on Friday of next week, gives truth to the fact that he is off for a gathering of Porto Rican laborers.

Malkin, who was charged with vagrancy at the Police Court this morning will be a guest at Asch's hotel for the next three months. His number will be around about 75 at the popular hostelry.

SENATOR PERKINS HURT

WASHINGTON, D. C., Jan. 6.—United States Senator George W. Perkins of California suffered a very serious injury today from slipping on the icy sidewalk. The Senator fell heavily, injuring his spine and bruising his body.

Mr. Huntington Wilson, who was with Mr. Perkins, fell similarly and was badly cut.

Big Ship Idaho Stuck In Mud

PHILADELPHIA, Jan. 6.—The battleship Idaho, Captain Dunn, one of the new 20-gun battleships of the navy, is ashore in the Delaware river.

South Frozen

KANSAS CITY, Jan. 6.—The thermometer registered eighteen below zero in this city this morning. The cold wave extends through the southern States, where the ground is covered with snow.

Seligman Dead

PARIS, Jan. 6.—William Seligman, the New York banker, died here today.

THE ARRIVAL of the American Hawaiian freighter Alaskan at Salina Cruz is reported through the local agency of the line. The Alaskan sailed from Kahului on December 19 and carried a large shipment of sugar pineapples and other Hawaiian products for the Isthmus.

MARKET REVIVES FOR MANY STOCKS

Rapid Transit Common
In Demand; McBryde
Advancing

Stock dealings took on a little new life this morning, having apparently recovered somewhat from the quiet following the holidays.

Large sales of Olan at 5.75 were reported between boards and those sold on the board at that figure made a total of 625 shares changing hands.

McBryde on the other hand advanced to six dollars on a sale between boards of 525 shares, and apparently cleaned up the market. The last previous sale as shown on the stock sheet was at 5.

Ewa is selling at 32.25, Oahu at 32.75, Pioneer at 198 and Pala at 140. This is the first sale of Pala since the increase of the capital stock.

Hilo Railway stock is gradually making its appearance on the list of sales and the public evidently refused to believe that there is "nothing doing" in Rapid Transit Common stock. Another sale of the latter stock was made today at 105. This is a very high figure for four per cent or even six per cent stock in this market, and the purchaser is apparently satisfied that he will either get an increased dividend or a stock dividend during the year.

Olan bonds sold at 100.25 and Hawaiian Irrigation at 100.

Crew Fled From Doomed Ship

British Bark Driven Ashore In Heavy
Northwesterly Squall—Fear
Total Loss

The British three-masted bark Alexander Black, now ashore about a quarter mile off the Pala mill, near Kahului, is believed to be a doomed ship unless the weather moderates to considerable extent, which will permit the steamers from the Inter-Island Steam Navigation Company getting their lines out to the distressed vessel and make a combined attempt to pull her off.

The Alexander Black now lies in a small bight between Sycamoreville and Pala mill, broadside to the shore, and she is hard and fast on what is declared a sandy and soft coral bottom.

The Alexander Black went on the reef late Monday afternoon during a heavy northwesterly rain squall which Captain Griffiths, the master of the vessel, states completely obscured the land, and it was only after the squall had passed and the curtain of mist had lifted that the skipper and his men realized their perilous position. The bark went on the reef bow on, with fore and mizzen topsails set, then turned around and now lies broadside, her port side

being piled on the coral and sand, while there appears to be plenty of water on the starboard side of the ship.

Immediately after going on the reef, Captain Griffiths and his men left the ship in their own boats, and they are now awaiting orders at Kahului. The skipper and the crew abandoned all their personal effects and belongings in their haste to leave what they believed a doomed craft.

The Alexander Black has piled herself up in a position not far from where the Sparta was wrecked some five years ago. It will be remembered that the Sparta came into Kahului with a full shipment of coal.

Several ineffectual attempts had been made to pull the vessel off, but she was finally abandoned, and later on a great deal of her coal was salvaged and the vessel was finally broken up.

The position of the Alexander Black is also not a great distance from where the wooden bark Columbia went ashore some three years ago.

(Continued on Page 4)

Andrews Says Differences Have Been Settled And Wheels Ready To Begin Moving.

That Provisional Committee has practically completed its labors in repairing the fences of the Republic party. It hasn't reported to the County Central Committee as yet, but as it has until May to furnish documentary evidence of its activity it is presumed that there will be no particular rush upon the part of the committee to tell of their work.

"We have patched up all the differences we have encountered, had new precinct club officers elected when vacancies existed and in short have done the work we have set out to do," says Lorin Andrews, who has assumed one of the leading roles in the activities of the Provisional Committee. The first deputy Attorney General also states that many of the precinct differences have been adjudicated through the tactful use of the hand of the Provisional Committee.

The Provisional Committee will tell all about it sometime before next May.

BIG TENNIS PLAY ARRANGED FOR

In order to have some really good tennis on the local courts while the California cracks, Long and McLaughlin, are here, it has been decided to have a singles and doubles tournament.

Six of the best players in Honolulu will be picked to play in the tournament and the two Davis Cup men will be placed so that they will be in at the finish of the matches. Long and McLaughlin are settled at the University Club, where they will remain for one week. At present their plans are to go by the Alameda to the Coast.

The tennis tournament scheme has stirred up all the racket wielders of Oahu, and all the best players of the island will be able to go up against the two Californians in both doubles and singles.

Battling Nelson and Ad Wolgast have been matched for the lightweight championship, and they will probably fight on February 22, before the Pacific Athletic Club. The match will be for forty-five rounds, and the men have a side bet of \$5000 on the result.

Heavy Penalty For False Census Returns

Fine Not In Excess of \$10,000 And
Year's Imprisonment Prescribed
By Federal Statutes.

When the census man drops in for an official visit and proceeds to ask a number of questions—some of which may seem a trifle searching—tell him the truth and nothing but the truth. If you do not the law provides for the imposition of a monetary fine not to exceed \$10,000 or imprisonment for a period of not more than one year. Both fine and imprisonment can be imposed if the court sees fit.

The section of the Federal statute providing for the punishment of those attempting to evade the requirements of the census, states that "It shall be the duty of every owner, president, treasurer, secretary, director, or other officer or agent of any manufacturing establishment of productive industry, whether conducted as a corporation, firm, limited liability company, or by private individuals, when requested by the Director of the Census or by any supervisor, enumerator, special agent, or other employee of the census office acting under the instructions of said director, to answer completely and correctly to the best of his knowledge all questions on any census schedule."

* * * Any person who shall refuse or wilfully neglect to answer any of these questions, or shall wilfully give answers that are false, shall be guilty of a misdemeanor, or imprisoned for a period not exceeding one year, or both fine and imprisonment at the discretion of the court.

The penalty carries with it the stipulation that no publication will be made by the census office whereby the data furnished by any particular establishment can be identified and that only sworn employees of the department will be permitted to examine the individual reports.

Penalties are also provided for census employees who make public data contrary to the regulations. A punishment of a fine not exceeding \$2000 and imprisonment for not more than five years is prescribed for census employees who make false returns.

It is easy to understand why the shirts and collars and delicate garments sent to the French Laundry, 258 Beretania street, where all the work is done by hand, wear so much longer than when washed at laundries where machinery is used.

MOANA IS MINUS HER CHIEF OFFICER

(Continued From Page 1.)

ing through Honolulu for several years, and at one time was on the Marama, another liner in the Canadian-Australian service.

The Moana arrived off the port early this morning and was at her berth at Bishop wharf before eight o'clock. The vessel brought about one hundred and fifty tons of freight from the Antipodes, including consignments of whisky, liquors, refrigerated provisions and general merchandise. The vessel will take out a small shipment of sugar and pineapples and other Hawaiian products when she sails for Victoria and Vancouver. Twenty-four passengers left the vessel at Honolulu. In transit there are over one hundred and twenty persons who are destined for the mainland.

Nasty head winds were encountered by the Moana during the greater part of the trip from Sydney.

Mrs. Angelo, who is stopping over here, represents the Columbia Park, a traveling organization including about fifty young men who are said to have started out from the mainland about a year ago and have been making a tour of the world. Their specialty is singing, vaudeville acts and athletics. The company is said to have made a big hit in Australia, where they played to good business. The troupe is said to follow by the steamer Makura, and it is expected that they will be booked for a short season at Honolulu. Mr. Garnet Holmes is also traveling in advance of the company.

The famous American tennis player, Melville H. Long and Maurice E. McLoughlin, are among the lay-over passengers. These young men will negotiate several matches with local tennis talent.

The Moana sailed from Sydney on December 20 and Christmas, as well as the New Year, was spent at sea. The fine liner was gallantly decorated for the occasion. The presence of several theatrical people on board added greatly to the enjoyment of several of the impromptu programs which were presented for the delectation of the passengers.

The Moana's officers report that the striking coal miners continue to tie up the output from the Australian mines and that coal is already being imported from Japan to keep some of the industries going.

The Moana is scheduled to sail for Victoria and Vancouver at four o'clock this afternoon. Quite a few passengers have booked passage for the Coast by this vessel through the local agency of T. H. Davies & Co.

FOUR INCHES of rain fell on Maui near Spreckelsville yesterday, according to a report brought to Honolulu by the steamer Mauna Loa.

MAJOR WINSLOW AT FORT DE RUSSY

LOG—Major Winslow

Major Winslow was at his office this morning having returned from Hilo yesterday, whither he went to inspect the new breakwater. "There is nothing new as regards the breakwater," said Major Winslow. "Work is progressing favorably and some 1400 feet have already been completed."

The Major returned to Honolulu yesterday on board the Kukui and went at once to Fort De Russy, where he made an inspection of the new fill. Owing to the heavy rain and the filling in process which is being undertaken, the roads were flooded in many places necessitating a large staff of men being put on to keep the water within bounds.

Entrenchments have been thrown up and bags filled with sand and earth, have been placed in the weakest spots, so that the roads are now passable. Work at Fort De Russy is progressing favorably and this important post will soon be permanently established.

LARGEST BASS HATCHERY.

Eleven lakes in Forest Park, covering eighty acres, constitute the largest bass and crappie hatchery in the United States. The depletion of the streams and lakes throughout Missouri, caused by the increase in angling in the past few years, requires a large fish reserve. The purpose of the Missouri Fish Commission has been assisted in its course by the cooperation of our municipal assembly in granting the State the use of Forest Park waters as breeding ground without compensation, and in the form of ten-year leases, to be renewed at the expiration of the period for which the lease runs.

Notwithstanding the lack of sufficient labor caused by the need of funds, the bass and crappie crop for the last biennial year was the greatest in the history of the commission. From the Forest Park hatchery 65,368 black bass were distributed in private waters and 246,925 were transferred to the streams and lakes of our State, the total being 303,293, so we see the office Forest Park fills in the welfare of Missouri.

There were 159,694 crappie distributed, so the grand total is 462,987, with 138,000 on hand after distribution.—St. Louis Globe-Democrat.

Do you know of any man who is trying to get rid of his wealth because it doesn't bring happiness?

The cost of living is to be investigated in Chicago. While it is unfair, of course, to prejudice it, there is a pretty strong hunch that it is guilty.

of the steam schooner Argo, which was wrecked near Tillamook some weeks ago, has been suspended for one year by United States Inspectors Fuller and Edwards. Snyder was found guilty of carelessness and negligence in attempting to cross the Tillamook bar on a half tide and during storm weather. Four lives were lost in the wreck of the Argo.

THE OLDEST whaling vessel

flying the American flag, the bark Canton, has been wrecked on the Island of Malo, one of the Cape Verde group. The vessel was in service 74 years, first as a Baltimore packet and then as a New Bedford whaler. She has a net register of 226 tons and carried a crew of 31 men, all the latter being saved when the bark was wrecked.

A SPAR, evidently the lower mast

of a large schooner, projecting six feet above water, apparently attached to a submerged wreck, was passed on Nov. 24 in latitude 42-40 north and longitude 67-18 west by the British steamship Bostonian. The wreck lies directly in the track of steamers and is dangerous to navigation.

THE UNITED STATES army transport

Thomas, from San Francisco for Manila by the way of Honolulu and Guam, has sailed from the California port on January 5. The vessel is bringing officers, troops and casuals. The transport should arrive here on or about next Wednesday.

THE FREIGHT list brought from

Hawaii and Maui ports by the steamer Claudine, arriving at noon today, included 200 feet of ohia lumber, 20 sacks corn, 100 cases of pineapples, 10 barrels of wine, 43 bales of hides and 89 packages sundries.

Mails are due at Honolulu from points as follows: San Francisco—Per Alameda Jan. 7. Yokohama—Per Siberia, Jan. 7. Vancouver—Per Aorangi, Jan. 8. Mails will depart for the following points as follows: Yokohama—Per Korea, Jan. 13. Colombes—Per Aorangi, Jan. 8.

WATERFRONT NOTES
PURSER KIBLING of the steamer Claudine from Maui ports, reports considerable rain and northerly seas on the inward trip of that vessel. The bark Saint Francis and the Olympic are at Hilo, while the schooner Aloha was sighted off Hilo bound in as the Claudine sailed from the Hawaii port. The barkentine Makawili and the American steamer Lansing were at Kahului.

SHANGHAI, CHINA, is the destination
of the British freighter Dunedin, which will probably get away for the China coast port by Saturday. This vessel has been discharging a shipment of coal consigned to the United States Naval Station. The Dunedin will load bean cake and other lines at Shanghai intended for London.

AN INCREASE of 10 per cent, has
been made by the underwriters on the Canard Company's fleet insurance contract, with the exception of the Lusitania and the Mauretania, for which a reduction of 10 per cent is conceded under the clause providing for the payment only of the excess of \$50,000 on all claims for each round voyage.

Oil now Leads all Mineral Productions in the State of California, Gold takes second place

Gold is in second place among the mineral productions of California. Petroleum takes the lead now by a substantial margin of \$6,000,000. Ten years ago California produced 2,000,000 barrels of oil. Last year it produced more than 43,000,000 barrels, a clear gain of 8,000,000 barrels over the product of 1907. The value of the 1909 product, in petroleum, is estimated by the state mineralogist at over \$28,000,000. At the present time at least one-half of the California listed oil stocks are paying dividends, and, as the price advances, so will dividends increase and stocks advance.

All investors should get in touch with this exceptionally profitable industry. Now is the time for investment in meritorious oil stocks such as we recommend. Ask for an oil book and market letter. Sent free upon request. Our representative in Honolulu, Mr. F. L. Kibler, is a member of the California Stock Exchange of San Francisco, and will be pleased to impart full information concerning the California oil business to those interested. Call on, or write him at the Alexander Young Hotel, Honolulu, Room 50. Lincoln Mortgage & Loan Co., 166 Geary Street, San Francisco.

PRESIDENT TAFT WILL BOSS CANAL ZONE

WASHINGTON, D. C., January 5.—Though the Democrats contested every inch of ground, the House today passed the bill abolishing the Panama Canal Commission and vesting the supreme government of the Canal Zone, and control over the canal work, in the hands of the President. The call for a vote resulted in the passage of the bill by 119 yeas to 102 nays.

UNITED STATES SUGGESTS REMEDY

ST. PETERSBURG, January 5.—The Russian Foreign Office today received from the United States a proposal that the railroads in Manchuria be nationalized. This proposal is offered as a solution of the problem now facing the country in regard to the Manchurian railroads. The plan contemplates the sale of the roads to China, the idea being that the deal might be financed internationally, thereby giving the various powers equal interest in the system and its development.

GOVERNMENT TO ATTEND SUGAR BUSINESS

NEW YORK, January 5.—There is now a strong possibility that the Government may follow a new tack in its prosecution of the American Sugar Refining Company for fraud in connection with the weighing of sugar. It is reported that the authorities contemplate asking the Government to declare a Federal receivership and to appoint a receiver for the company.

FORMER HONOLULU SELECTED

WASHINGTON, D. C., January 5.—John Q. Wood of Honolulu, Hawaii, was today nominated by President Taft as Consul of the United States at Venice.

J. Q. Wood was at one time a teacher at Oahu College, and later entered Harvard University to study law.

MEDICAL OFFICERS FOR IMMIGRANT SHIPS

WASHINGTON, D. C., January 5.—Senator William P. Dillingham, chairman of the Committee on Immigration, today introduced a bill into the Senate providing that all vessels carrying immigrants shall have on board United States Government surgeons, immigration inspectors, and matrons.

CONGRESS WOULD PROBE LIVING EXPENSES

WASHINGTON, D. C., January 5.—Congress will try and decide why the present cost of living is so high. Senators Ething and Crawford today introduced into the Senate resolutions calling for an investigation into the state of affairs which has forced up living expenses.

ARMY SEY ON MONEY

WASHINGTON, D. C., January 5.—Secretary of War Dickenson today reported a deficiency of \$1,525,000 in the Subsistence Department of the army. The Secretary gives the enhanced cost of food as the reason for the deficiency.

UTAH NOT FOR BIG FIGHT

SALT LAKE CITY, January 5.—The Governor of Utah today made the positive statement that under no condition will he allow the Jeffries-Johnson fight to be pulled off in this State.

MANY FISHERMEN PERISH IN BLIZZARD

CANNO, January 5.—Forty-two fishermen are reported to have perished in a blizzard which has been raging here for days.

ECZEMA CURABLE?

PROVEN!

Attorney at Moline, Ill., Convinced by Oil of Wintergreen Compound.

There is nothing that will convince a lawyer except evidence. Now, here is some rather startling evidence of a simple home-cure for eczema which convinced one lawyer, F. C. Enriken, attorney at Moline, Ill. He tells how oil of wintergreen compound mixed with thymol and glycerine, as in D. D. D. Prescription, cured him in thirty days after thirty-two years of suffering.

"For 32 years," writes Attorney Enriken, "I was troubled with eczema, scabs all over my face, body and head. I could run a brush over my body and the floor would be covered with scales enough to fill a basket. I tried everything—salves, internal medicine, X-Ray—all without result."

"Just a month ago I was induced to try D. D. D. Prescription. The itch was relieved instantly; so I continued. It is just a month now and I am completely cured. I have not a particle of itch and the scales have dropped off."

"I can only say again CURE DISCOVERED. I am now starting all eczema sufferers on the right track." Cure after cure has been brought to our attention and always that instant relief from the awful itch. Honolulu Drug Co., Fort street.

A Good Investment

The Templer Ranch Oil Co. with 600 acres oil land, flowing oil wells and all its reservoirs filled with high-grade oil in the Templer district, Kern Co., Cal., will soon complete its three-mile gravity delivery pipe line.

This Oil Company is at present like a plantation with tons and tons of sugar on hand, ready to be shipped on the incoming steamer.

An able management, almost a square mile of proven oil land, cheap transportation of oil, high prices with steadily increasing demand for oil, will make this company an early dividend payer, and for that reason the stock of this Templer Ranch Oil Co. is recommended as a GOOD INVESTMENT by the Lincoln Mortgage & Loan Co. of San Francisco. Capitalization is \$1,000,000, divided into shares of \$1.00 each. I have a small block of them for sale at 20c while they last. Secure them NOW.

Col. and Adjutant General.

BAND CONCERT.

The following program will be rendered by the Hawaiian band at the Moana Hotel this evening at 8 o'clock:
Overture—New Year Storck
Chorus—Tannhauser Wagner
Cavatina—Samson and Delila Saint-Saens
Selection—The Bohemian Girl (by request) Balfe
Vocal—Hawaiian songs, arr. by Berger
Selection—The Belle of Bohemia Engelhard
Waltz—1001 Nights Strauss
Finale—Mary Berger
The Star Spangled Banner.

MODERN HERCULES.

The manager of the sideshow was before the bar for kidnapping. "Yes, judge," he confessed solemnly. "In a moment of weakness I sneaked into the museum and carried the fat lady away in my arms." "In a moment of weakness!" gasped the judge, who remembered that the fat lady tipped the scales at 527 pounds. "Great Scott, man! What would you have done in a moment of strongness?"

THURSDAY JANUARY 6, 1910

Give a good deed the credit of a good motive; and give an evil deed the benefit of the doubt.—Brander Matthews.

Can it be that the women must go to jail if they swear falsely when the census man asks "How old are you?"

One of Honolulu's curiosities is the man who thinks that Greater Honolulu is a myth simply because he encounters a full in trade on a rainy day.

From this distance, it looks as if President Taft had ceased to stride and is now lined up behind Uncle Joe Cannon and doesn't care who knows it.

Two years ago it was reported that Gov. Gen. Jim Smith would be taken care of with a judgeship, and nothing on the list could be more attractive than this new customs court.

Indications increase that Secretary Knox was talking to nations bigger than Nicaragua when he handed passports and a lively letter to President Zelaya's representative in Washington.

Every business man, gradually recovering from the excitement and good trade of the Christmas season, is again reminded early in the new year that he must provide for the "biggest yet" in 1910.

China's decision to arbitrate the Macao difficulty is another reminder that China is so lamentably weak that it cannot stand on national dignity and pride unless some big nation is ready to back it up.

According to a New York correspondent, the insurgent in Washington is rated by the Republican regulars as three notches below a surfragette. That's the limit, but they are all decidedly dangerous.

Congressman Victor Murdock, acknowledged leader of the insurgents, must have taken the advice credited to the late James A. Garfield, who told a young man seeking to enter public life that the best route was to associate himself with a new cause that had a future.

That counter attack on Forester Pinchot was to be expected. Before the row is finished the country may be as well informed on the land and forestry business as it was on insurance some years ago, and without doing so much injury to general business.

Hawaii's Superintendent of Public Instruction should be a man who combines the wisdom of a Solomon with the placid nature of the dove, and behind it all has the energy of a steam engine. If the Governor can find one man, of twenty-three, who fits the requirements, he will be lucky and the Territory in great good fortune.

Anyone who thinks that the United States Congress will frame a ship subsidy bill especially for Hawaii, and still allow these Islands to retain their status of equality with

the Territories of the mainland, must certainly have their trolleys connected with the wrong wire. Special legislation is not and never has been an element of strength for Hawaii, although it has looked mighty attractive at first sight.

According to advices from Washington, the Immigration Commission will not report favorably on the proposal for special laws to enable this Territory to secure European immigrants. Should this finally prove true, it will be another demonstration of the fact that Washington expects Hawaii to take general legislation as it comes, while it holds so jealously to its Territorial equality.

FUTURE FOR RUBBER.

Hawaii's producers of rubber will not lack for a market when they once prove that rubber can be secured from the locally-grown rubber forests at a reasonable figure.

For ten months of the year 1909 the United States imported \$62,000,000 worth of rubber, including gutta-percha, gutta-serena, etc., indicating a total import of \$75,000,000 a year. This is far beyond any previous record.

In the world today rubber is a serious problem of production. Nearly half the American supply is Para rubber from Brazil, but Mexico and Central America contribute substantially. Through England and Germany comes another large supply from the Congo, where the Belgian administrators until recently under the benevolent rule of the late King Leopold are accused of compelling the natives to work gathering rubber by cutting off the hands of those who shirked.

Such "red rubber" forms indeed more than four-fifths of all the exports of the Congo State, and the problem that wrinkles the brows of the Belgian administrators is how to make the savage native tribesmen continue to work without severity when so soon as their immediate needs are supplied they greatly prefer not to work. Further, rubber is gained by tapping the trees and condensing the sap. Like all such processes, it exhausts the life of the tree. All the rubber areas of the world are in tropical countries, and in comparatively few of them at the present time is any attempt being made to supply by replanting the place of the trees that die, while the temptation is strong, as in making turpentine, to kill the trees quickly by premature and excessive draining.

The modern uses of rubber for bicycle and automobile tires, for the insulation of electric wires and other purposes, have so rapidly developed that our demand has more than quadrupled in twenty years and will probably quadruple again in the next twenty unless rising prices prevent or the invention of a practicable substitute saves the situation.

APPOINTMENT OF JUDGES.

It is not known that any formal protest from this community will be filed with the President against the appointment of Mr. Robbins Anderson as Associate Justice of the Supreme Court of this Territory. The

\$1800

Cash or easy terms, will buy a nice little home of 5 rooms, 2 bedrooms, in Kaimuki, 3 minutes' walk from car line, with 1.56 acres of ground, with all kinds of bearing fruit trees and fine lawn. This place is a bargain. Let us show you.

Trent Trust Co., Ltd.

REAL ESTATE. STOCKS AND BONDS. INSURANCE

appointment of Mr. Anderson, however, will be in opposition to the general community sentiment as to the man deserving this honor and best capable, of those mentioned, to fulfill the important duties of the office.

This obvious fact is not to the discredit of Mr. Anderson. Attorneys and the people who know him have the most kindly feeling for the man who is said to have been recommended by the Governor. And for that reason there would be a general hesitancy to lodge a formal protest against Mr. Anderson.

The belief is general, however, that there are others better equipped in consequence of the finishing touch of longer active practice and the mature judgment that comes of experience. There are others whose service to the community better entitles them to the honors associated with high judicial position.

All this has been clearly manifest in the action of the Honolulu Bar Association that has of late been practically unanimous in its recommendations for the Territorial bench.

Similar ideas are expressed in business circles where the suggested appointment of Anderson develops no enthusiasm, as well as no personal criticism of the man.

The gist of the whole situation is that the average citizen in every walk of life believes that community expression should have more weight in appointment to public office than the say-so of one man; also, that when men of judicial experience, capacity and proved worth are available, the selection for judicial office should be made from among them.

BRUTE ASSAULTS AGED MOTHER

Charles Paahao, a young man of about twenty-one years of age, was convicted this morning at the Police Court of assaulting his mother. The man had a row with his aged parent over the way in which a pig should be cooked and the matter ended in the coward hitting his mother several times and knocking her down. He then kicked the poor old woman and left her senseless on the floor.

Paahao is said by the police to have assaulted his mother on a previous occasion, but the case was dismissed on the mother pleading for him. Judge Andrade this morning found Paahao guilty, and sentenced him to four months' imprisonment and to pay costs of court. "It is a pity that there is no floor-galling allowed for men like you," remarked the judge, in sentencing Paahao, and everyone in court who heard the evidence fully concurred with the judge.

FREAR SUPPORT FOR ROBERTSON

(Continued from Page 1)
The remark of the Governor this morning to the general effect that he wished he knew more about the Federal Judgeship situation, coupled with the local knowledge of his endorsement of Robertson, bears out the report that there will be complications with a possibility of the developments being unfavorable to Robertson and favorable to Henry E. Cooper, the second candidate, or some nameless "dark horse" in the race for the U. S. toga.

SALVATION ARMY WORK IN HONOLULU

Adjutant Mianie T. Bryant, who sells the War Cry in Honolulu and has been nearly twenty years in the service of the Salvation Army, writes of Honolulu as follows in the current issue of the War Cry: "The work of Mrs. Commissioner Estill and Mrs. Colonel French was arranged especially for the opening of the new home in Honolulu for women and children, but our zealous new D. O. made the opportunity to get in some public and private meetings for the Honolulu corps and for the officers present on the island of Oahu."

While Mrs. Estill was at the Central Union church for the Sunday night, Mrs. Colonel French gave us a good talk in the open air and a very interesting Bible lesson inside. Her remarks received close attention from the large audience present, and in the live prayer-meeting that followed five souls knelt at the pentecost. Hallelujah!

On Monday night Mrs. Estill and Mrs. French gave a very heart-to-heart talk and some counsel at the D. O.'s quarters. Mrs. Estill acknowledged she was very tired, but was glad of this opportunity thus to meet us. She did not fail to give us some of the cream of her experience, and also point out some of the blessedly true and beautiful promises from the Bible from the fourth chapter of Philipians. She encouraged us to remember our comrades in other lands, and generally, when tempted through loneliness and lack of opportunity, to attend councils, officers' meeting, etc. She said some of our comrades in different parts of the world were sometimes two and even three years without this privilege. God came into our midst, and all present were softened and very much blessed. We were, too, exceedingly grateful for the very beautiful, spirited and helpful counsel.

Mrs. Major Willis, though not feeling any too well, had arranged for simple refreshments of cake and pineapple lemonade after the council. These were duly appreciated by all, and we felt it to be an "at home" council that touched our hearts to make us better.

God bless our dear leaders, and help us to live up to and live out the spirit of that blessed council!

Jack Battersby, a well known Wai-kiki young man, returned from a trip to the mainland recently. He feels much better than when he went away and all his friends are glad to see him looking so well.

A Japanese woman did the usual stunt yesterday afternoon when getting off an electric car. Instead of facing the way the car was going, she got off backwards and landed on her car. She was taken to the Queen's hospital, and it was found that she was not dangerously injured.

JAPANESE WOULD PHOTO DE RUSSY

Post Guard Catches Nipponese With Camera Near Fortification—Man Captured Before He Had Made Any Exposures—Plates Examined by Post Expert.

Last Wednesday a Japanese photographer was held up by the United States officers while trying to get some snap shots of things in general and of the fortifications in particular, around Fort De Russy.

The post photographer made an examination of the plates in the Japanese camera, also of those in the carrier while the Japanese was detained pending the investigation.

The result of the examination of the plates showed that the smart son of the land of the setting sun had ran up against people smarter than he. It seems that he and his camera had been gathered in before he had a chance to "snap."

After the examination he was allowed to leave the post.

CREW FLED FROM DOOMED SHIP

(Continued from Page 1)

When that vessel came down from San Francisco with a large shipment of sugar-milling machinery. In the case of the Colusa, however, the inter-island steamers got their lines to the vessel and she was finally pulled off without a great amount of damage being done to the bark.

The inter-island steamer Mauna Loa returned to Honolulu this morning, having made a hurried round trip to the scene of disaster. The Mauna Loa brought Manager Kennedy of the inter-island, John Waterhouse, representing Alexander & Baldwin, to whom the twenty-seven hundred tons of nitrates from Chile come consigned, and J. M. Dowsett, who is looking after the interests of the insurance companies. The Mauna Loa was not able to get within range of the distressed vessel, so returned to port without delay.

The Alexander Black stands a fair chance of being saved, provided moderate weather prevails, is the basis of the opinion of the officers of the inter-island steamer Claudine, which also returned to Honolulu at noon today.

Captain Bennett, master of that vessel, in company with Captain Parker and a few others, visited the scene of pilikia on board the Alexander & Baldwin launch. They were within a dozen yards of the ship, but the weather and strong swell would not permit of their going on board.

The seas from a southerly direction are said to be washing over the stern of the vessel, and her hold is apparently well filled with water. The bark has already lost her rudder, and the rudder-post, while remaining intact, with most of the steering gear, is jammed up through the deck and projects about fifteen feet above the deck of the vessel.

The wind has veered and a north-east trade was blowing at the time the Claudine and Mauna Loa visited the ship. The Maul and the Like-like, of the inter-island fleet, have arrived, but it is believed impossible to get lines to the Alexander Black until the seas go down to considerable extent.

There is a possibility that some of the cargo of nitrates stowed in the tween decks may be saved, but that portion of the shipment that lies in the holds is surely affected by the water coming in through the parted seams, as well as the seas that are continually sweeping her decks and have succeeded in removing a portion of her hatches.

One thing that favors the distressed bark is the fact that she lies in a small pocket of soft sand and coral, and was at the time on an even keel. There is a considerable depth of water on the port side of the vessel.

The Alexander Black is a steel three-masted bark and has seen nineteen years of service. She is of British registry and 1493 gross and 1391 net tons. The bark is rated in Lloyd's at 11 A1, and was launched from the Dumbarton yards of A. C. McMillan & Sons in April, 1891. The bark, which may leave her bones off the reefs near Kahului, is owned and operated by Chadwick, Wainwright & Co., with headquarters at Liverpool, England. The owners have been notified of the disaster. The vessel is 241 feet long, 37 feet broad and 21 feet deep. Her skipper, Captain Griffiths, has sailed in the ship for a number of years and has been rated as a careful and conservative navigator.

The Alexander Black sailed from Mejillones, Chile, on November 11, with destination as Kahului. She is one of two other sister ships owned by the same company, one being the Birkdale and the other the Francis Fisher. The three vessels are very nearly the same tonnage.

Mr. Waterhouse has reported to the local agency of Alexander & Baldwin this morning concerning the likelihood of saving a portion of the shipment of nitrates. The cargo is one of considerable value, and at the present time is rated on the market at about forty dollars a ton.

Baronet's Wife Who Eloped to United States

LADY CROFTON

A domestic sensation of international importance will reveal its second chapter when Sir Morgan George Crofton arrives in England with his beautiful young wife, Lady Crofton, who ran away to America two months ago and was found by her husband in a New York hotel. On the same ship that took Lord and Lady Crofton back to England was James Douglas Montagu, of a prominent English family, who was reached before Lord and Lady Crofton sailed for home, but the case is believed that a reconciliation was reached before Lord and Lady Crofton sailed for home, but the case is certain to cause a sensation on the other side, where all the parties to the episode are prominent in English society.

VINEYARD STREET TOUGHS FINED

A. Souza and A. Machado, two of the Vineyard street gang, got off lightly this morning when Judge Andrade fined them \$25 each and costs, for assaulting Chinese. The costs amounted to another \$25, so the pair or their pals, had to dig up \$50 each before they could be set free.

C. F. Chillingworth, who defended Machado, put up a good fight for his client and even went as far as to produce Mr. Wajler, to prove that Machado was a regular church goer.

The evidence of the Chinese was very clear, however, and church or no church, the man was found guilty. Judge Andrade gave the two men, and in fact the whole gang, who were present as spectators in court, warning that if they appeared in court again and were convicted, they would go in for six months' sure.

Chief McDuffie is going to break up these gangs somehow, and he will be on the watch all the time for the toughs. At the slightest sign of their attacking Chinese or any one else again, wholesale arrests will be made and the bunch will surely get the limit in court.

Several other gangs have been kept in check by the stationing of an officer in uniform in the bad districts. Sheriff Jarrett may decide to do the same as regards Vineyard street.

J. P. Rodriguez, who was charged with not having procured a license to carry on his store, was ordered to pay the costs of court amounting to three dollars.

Chafing Dishes

We have recently opened up a new line of Mission Style Chafing Dishes with ebony handles and stands.

Artistic, harmonious and rich in design.

Just the thing to keep your house in readiness for chance callers.

Leading Jewelers.

EVENING SMILES

Cornelius V. Collins, New York's superintendent of state prisons, said at a recent dinner in Troy:

"Then there is the faddist type of prison warden, the man with some hobby or other that he quite runs into the ground."

"I know one such warden. It is his hobby to give to his prisoners congenial work—work which they like and are accustomed to."

"He said one day to a new convict: 'Young man, I see that you are sentenced to hard labor. Now in providing you with work I shall take your former occupation into account. What were you?'"

"An anarchist, sir," the convict replied.

"Ahem," said the warden, turning to his assistant: "Then we will put this man to road blasting."

"Andrew Carnegie," said a Pittsburg millionaire, "enjoys a joke" hugely. One of his jokes made me laugh on my last visit to Skibo Castle.

"Mr. Carnegie was entertaining at the time a Montenegrin prince. The morning after the prince's arrival we set out in a huge motor-car for a long run, and as we whizzed past an inn a great crowd of Highlanders rose from the benches before the inn and saluted us."

"The prince seemed amazed at the Highland dress."

"Why," he asked, "do these men go bare-legged?"

"It is a local custom," said Mr. Carnegie; "a mark of respect for you, sir. In some places people take off their hats to show honor to distinguished visitors; here they take off their trousers."

Special Offer

NO OTHER BOOT HAS AS MANY WATER-PROOF QUALITIES.

For a short period only we will sell Strong & Garfield's water-proof boots, 14 and 17 inches high, at \$8.50 a pair.

The best boot of its kind made.

There will be a meeting of the Ha-
waiian Entomological society this af-
ternoon at 3 o'clock at the H. S. P. A.
experiment station on Keeaunoku
street.

A very important meeting of the C.
S. A. Society will take place this Fri-
day at the convent at 3 p. m. All
members and friends are respectfully
requested to attend.

Associate Justice Perry of the Ter-
ritorial Supreme Court is expected
back from the coast on one of the
early boats. He has been spending a
few weeks' vacation on the Coast.

M. T. Simonton, clerk of Judge Rob-
inson's department of the Circuit Court,
has been granted an extension of leave
and will not be back in the Judiciary
building until the middle of February.

Attorney General Hemenway is ex-
pecting a decision at any time by the
United States Supreme Court on the
Lahaina case, which he argued for
the Territory on his last trip to Wash-
ington.

Marion Carosa, who was alleged to
have used language that would have
made the Army in Flanders blush, was
treated to a suspended sentence of
thirteen months at the Police Court
this morning.

Governor Frear expects to have ap-
pointed a new Superintendent of Pub-
lic Instruction by the time of the next
meeting of the Commission of Public
Instruction, which convenes on the
15th of the month.

The growth of eucalyptus through-
out the islands was given a boost at
the meeting of the agriculture and
forestry board yesterday afternoon.
Other papers of interest were dis-
cussed at the meeting.

E. A. Mott-Smith, secretary of the
Territory, president of the Board of
Health Acting Superintendent of Pub-
lic Instruction and ex-Acting Governor,
is taking a few days vacation from his
manifold duties in the Territorial gov-
ernment.

Marston Campbell, in the capacity
of Commissioner of Public Lands, sold
at auction yesterday noon the timber-
ing license to 12,000 acres in the Puna
forest reserve. This amount com-
prised about one-half of the reserve.

F. B. McStocker was the only bidder,
and made the purchase in the interest
of the Hawaiian Development Com-
pany. The price paid was \$5 per acre.

A cablegram received this morning
announced the death, in San
Francisco, of J. L. Campbell, father
of Albert N. Campbell and Eugene
Campbell of this city. Mr. Camp-
bell has been in failing health for
some months, but it was not felt
that his life was so near its end. He
was long a resident of Nevada, but
retired from active work some years
ago and has made his home in San
Francisco.

Marston Campbell is quoted as say-
ing that the City Supervisors are ex-
ercising on both ends of the controversy
regarding the digging up of the public
street by the gas company. Mr. Camp-
bell states that when issuing a permit
to the gas company or to any other
corporation or person to dig up the
public street he at once notifies the
Board of Supervisors of the fact, which
was done in the present case. The
trouble seems to be that when such a
communication has been sent to the
Board, there being no one to give it
attention at once, it lies there for
probably a week or so. In the mean-
time the parties who have received a
permit to dig up the street has gone
pretty well into the work.

JORDAN'S

The 12th POULTRY SHOW

While you are there, do not forget to put in a little time looking over our display of

INCUBATORS, BROODERS, POULTRY FOODS AND SUNDRIES

We will have the CYPHERS INCUBATOR at work hatching out a lot of eggs, and as it is under the immediate charge of Mother Henables you can figure on seeing some pretty fine chicks, though the late thunderstorms and New Year's bonus may reduce the size of the hatch this year.

Keep the Poultry Show in mind—don't fail to see it—and also keep in mind the fact that we have CYPHERS' fine line of POULTRY SUPPLIES in stock.

E. O. Hall & Son, Ltd.

Scenes In Nicaragua War Zone

The true conflict between representatives of President Zelaya of Nicaragua and General Estrada of the insurgent force, took place near Bluefields, and it was reported that a battle was fought immediately afterward. This, however, was not true. The citizens of both Bluefields and Greytown, or San Juan del Norte, were anxious for the American bluejackets to land. Several times it has been reported that massacre was in progress in Bluefields when there was no foundation whatever for the statement, the whole thing being started by the excited people, who have a wholesome fear of Zelaya.

TEMPER WITH CHILDREN MAY FORGET RESPECT

No Matter How Severe the Punishment to the Child, Do Not Get Mad—Different Temperaments Are Affected Differently.

To lose one's temper with a child is one of the greatest mistakes a parent can make. Yet to keep the voice free from irritation when sorely provoked is a difficult task, but one that must be accomplished, for childish minds have the capacity for criticism developed to an extraordinary degree, without the ability to make allowances for fatigue or illness on the part of the offender. There is only one fact; that "mother was mad," and if "mother" was very "mad" she drops perhaps unconsciously, in the eyes of her offspring. To be mad is to be naughty, and mother was naughty. Therefore mother ceases to be quite so infallible and altogether right as she was before the occurrence. It is something like discovering feet of clay in the idol. The form may be as beautiful, but the reverence ceases to be sincere.

There is just exactly one way in which a mother can right herself later if she has lost her temper, and that fact to the child. This may be by making frank admission of a dangerous procedure, and would be if the offense were often repeated. But if mother is sorry because she was angry, at least her naughtiness is lessened by contrition, and it is better to be thought contrite, and aware of the failure to do right, than to have been bad and refuse to admit it. There is this point, however—A woman who puts herself in a position where she must apologize to her children often loses a certain

authority over them. She becomes as likely as they to error, a frailty that no successful parent should have in the eyes of her offspring.

Children who have been naughty are almost invariably best controlled and more easily brought to a condition of submission by being quietly dealt with. The mere fact that the little one has been naughty is in itself terrifying to her. If to her own uneasiness of mind is added the confusion of a parental voice raised in anger, the effect is bound to be unfortunate, affecting different children according to their temperament. Some, in the greater fright, become sulky, others are impudent, while another type may burst into noisy tears. Calm rebuke or explanation of where in lies the fault will bring any of these children to a sense of regret and sorrow, in nine cases out of ten. In any case, loss of temper on the part of the parent will do no good morally to the child, even if outward obedience appears.

HER FAVORITES.

Reggy Sapp—"Ah, do you like outdoor sports, Miss Rose?"
Miss Rose—"No, they are too cheap. I prefer sports that can take a girl indoors and order an oyster supper."

Reginald Pickle—"There are places in the African jungles where one may enter and not be heard from for months. I sometimes feel as if I would like to hunt there."

Miss Tabasco—"Oh, if you only would, Reggy!"

Some men who expect a mansion in the sky will have no kick coming if they are even permitted to occupy an attic room.

FORT DE RUSSY ITEMS

Arrangements are being made to send out the survey detachment, which up to the present time has been at work at Kahuku and Kahanu, on Monday next. The officer in charge of the detachment and Sergeant Charles Ford left this camp this morning to decide upon the future camp for the detachment. The tents and camp equipment will be sent out the last of this week, and a permanent camp established. A wagon train has been arranged to carry supplies to and from Fort De Russy to this sub-camp. Sergeant Charles Billsborough will be in charge of the instrument work, and Sergeant Charles Ford in charge of the camp. The detail will consist of about thirty men and will be under the command of Lieutenant L. H. Watkins, Corps of Engineers.

No Handball.
The rain necessitated the postponement of the handball games between the teams from this camp and the survey detachment. As the games now stand, the teams are about equal, and if the weather will permit the series will be finished before the detachment leaves this post. The games which were to be played last evening will be contested this afternoon and tonight, and some close playing is sure to be seen. Handball has taken a great hold on this camp, and is encouraged on account of the fine exercise attached to it, as well as the enjoyment afforded to all.

The survey detachment located near Pearl City has been divided, so that it will now cover two portions of that part of the island. Sergeant Edward Gartz and a detail of men will work in the mountains, while the balance of the detachment will continue the mapping of the plantation lands at that point. Sergeant Bush will accompany the detachment which is to go into the mountains, while Corporal Terrien will be in charge of the Pearl City camp.

Private Ciel Witten, from the Pearl City camp, arrived at Fort De Russy for a few days' stay here. He will return to his detachment by buggy and remain at the main detachment camp.

Private Meek left this post for the camp of the survey party of which up to the present time has been at work at Kahuku and Kahanu, on Monday next. He performed this duty for the detachment which was stationed at Makaha before the holidays.

New Office.
The department of the post quartermaster moved yesterday into its new office, which is located in a headquarters building and is so arranged that it is adjoining the quartermaster storehouse. This department is at present receiving many supplies both from local market and from the States, which are for the use of the Engineer troops now at the post and also for the proper equipment of the new officers' quarters that will be erected at this post.

Company G of the Engineers is receiving supplies for the survey detachments. These supplies are mostly received from the Engineer depot at Washington, D. C., and are forwarded to the outlying detachments by the company quartermaster sergeant, Frank Babel.

To Hospital.
Private Ford of Company G, 2nd Battalion of Engineers, was sent to the hospital at Fort Shafter today for treatment of his eyes. He has been under treatment here, but it was thought that a complete examination of his eyes should be made. Private Land was sent to the hospital here with a badly cut hand, but prompt treatment of the wound makes it possible for him to be back to duty with his company shortly.

New Telephones.
In addition to the present telephones at this post, requisition has been made to the Signal Corps for three complete telephones for use of the quartermaster department. These phones will be used for connection of the various buildings used by this department, as well as from the post stables and headquarters. At present the post has two telephone systems, and with these new telephones communication throughout the entire post will be possible. They will be installed under the direction of the post quartermaster department.

FORT SHAFTER NEWS

The B. A. Glee Club met Monday night as usual in the assembly hall at Fort Shafter. Four new members were voted on and accepted. There is now a membership totaling 28 and more have applied but have not been voted in as yet. The new music has not yet arrived. When it does arrive practice will begin in earnest as the club intends to get in shape for an entertainment as soon as possible. Many invitations to furnish music have been received by the club but owing to the delay in not receiving proper music none could be accepted. Invitations are extended to visit the club at the regular weekly meeting to all that are interested in helping the club to succeed.

Ralph Jones, private, Hospital Corps, stationed at Fort Shafter, entertained the club with a number of very beautiful selections on the mandolin accompanied by the guitar. Jones is a professional with the mandolin, lately from the coast and formerly played with the orchestra of the National theater. His meeting closed at about 10 o'clock and the visitors all claim to have enjoyed a very pleasant evening and declare their intentions of coming again.

The Filipino stowaways, under detention here, are rationed with Company E, 20th Infantry. Some of them were very poorly dressed and they will be furnished with clothing by the Q. M. department.

Private Morris, 159th Company, C. A. C., and Private Wolf, Company E, 20th Infantry, pursuant to authority granted in special orders No. 3 dated Fort Shafter, Hawaii, January 3, 1910, have departed on the U. S. army transport Sheridan and will proceed to Presidio of San Francisco, and report to the U. S. military hospital at that place for further observation and treatment.

Resume Duty.
The regular drills and garrison duties began again Wednesday after ten days' recreation without any duty except that which is absolutely necessary.

Corporal Rowe, Company G, was marked from quarters to duty Tuesday morning. Corporal Rowe has been unable for duty for almost two months, owing to a broken arm which he sustained in an accident at the skating rink.

To the Coast.
The men that were ordered to proceed to various posts in the United States left Fort Shafter to board the transport about noon Tuesday. The following are the names and destinations of all the men of Fort Shafter who departed on the Sheridan: Sergeant Miles, Presidio of Monterey, Cal.; Corporal Reed, Presidio of Monterey, Cal.; Corporal Thomas, Presidio of Monterey, Cal.; Private Drews, Presidio of Monterey, Cal.; Sar-

gent Forbes, Angel Island, Cal.; 1st Class Private Hartridge, Angel Island, Cal.; Private Morris, Presidio, San Francisco, Cal.; Private Wolf, Presidio, San Francisco.

The garrison school began again Wednesday. School has been suspended during holidays.

The weather was so bad the students of the Kamehameha school were not out on the range Wednesday for their target practice.

Artificer Vicory and Private Plummer of Company G were busy Wednesday making seats for the lawn tennis court.

The usual garrison duty of the post began Wednesday morning after ten days of recreation and rest. The drills for Wednesday were the usual company drill for one hour, 7 a. m. to 8 a. m., and an hour of gymnasium drill for Companies E and F. Otherwise the duty for the day was the regular garrison, all the companies furnishing the details for guard.

The Governor of the Territory visited the post and paid his respects to Major General Barry Wednesday afternoon and received the usual salute.

The rain for the past week has been a great saving on the water supply at the post. In dry weather the supply gets quite low.

E. Chilton, brother of Lieut. Chilton Billy Chapman, Private Stuart, Company F, 20th Infantry, and two boys from Honolulu left Fort Shafter Monday morning for a pleasure trip around the island. They left Fort Shafter early and proceeded by escort wagon to Koko Head and from there they will proceed the remainder of the way with pack mules as the only means of transportation. This will be a trip of much pleasure and recreation and a very novel way of travel. They are expected to complete the trip within a week.

BALLINGER USES HIS AX FREELY

AFTER INQUIRY THE SECRETARY ORDERS SEVERAL CHANGES IN RECLAMATION OFFICE STAFF.

WASHINGTON, November 12.—Replying to charges made in a magazine, Secretary R. A. Ballinger of the Interior Department today denied many reports recently circulated concerning the conduct of his department.

"To say that I ever advised, ordered or lent support to any effort to perpetrate fraud upon the Government," he said, "is not only false, but is intentionally so, if made by anyone who has taken the trouble to inquire into the facts."

In explanation of the charges in connection with the Alaska coal lands he went into the history of President Roosevelt's withdrawal from entry of all coal lands of Alaska in 1906, showing that the order was so modified by Secretary Garfield as to validate all applications made prior to May 16, 1907.

He then called attention to the fact that, in his annual report of 1907 as Commissioner of the General Land Office, he had recommended action by Congress to prevent any formation of combinations or trusts by claimants to coal lands, and added: "The anti-trust clause of the Alaska coal act, as finally passed May 28, 1908, was not submitted to Gifford Pinchot, but was signed by Representative Herbert Parsons of New York, in his letter of May 7, 1908, and favorably considered and indorsed by the Secretary in his report to Congress."

Charges Charges Falsehoods.
Ballinger then stated that no Alaskan coal claims have been patented and says that the investigation of all such claims with a view of determining their validity or invalidity has been vigorously prosecuted. Ballinger denounced as "a plain ordinary falsification" a report that he is interested in 155,000 shares of the Alaska Petroleum and Coal Company.

"The statement that I or my former firm was attorney for this company, or ever advised or counseled it in its effort to acquire title to public lands, is also without basis in fact," he added. Ballinger said it was true that, in his private practice after he had resigned as Commissioner of the Land Office, he had been consulted in the preparation of articles of incorporation under the law of 1908, which had been approved by the President and which permitted the entry of as much as 2560 acres of coal land, but not true that either in this or in any other connection he had given any advice looking to a fraudulent act against the Government.

Asked about a statement that he had said that the proper course to take with the public domain was to "divide it up among the big corporations and let the people who know how make money out of it," Ballinger replied: "So asinine a statement hardly merits a denial. Of course, I made no such statement. Such a thought could not be entertained by any normal intelligence."

Famous Editor And Poet Who Died In New York

RICHARD WATSON GILDER

Richard Watson Gilder, poet, lecturer and editor-in-chief of the Century Magazine, who died suddenly in New York, was born in Bordentown, N. J., on February 8, 1844. After completing his education he enlisted in a Philadelphia battery, serving during a part of the Civil war, after which he was for a time engaged in the railway business. In 1865 he took up newspaper work in Newark and in 1870 became managing editor of Scribner's monthly. He was honored with degrees at Harvard, Princeton, Yale, Wesleyan and many other universities, and his writings have been read in all civilized countries.

Marie Correll declares that "Englishmen prostrate themselves before American belles because of their beautiful faces." And their green backs.—Rochester Post-Express.

BY V. L. STEVENSON.

DAVIS CUP MEN STAY ONE WEEK

LONG AND McLOUGHLIN DELIGHTED WITH TRIP TO AUSTRALIA
—HAD GOOD TIME AND PLAYED FINE TENNIS—WILL MEET
LOCAL CHAMPIONS.

"Australia is all right, there are no better sportsmen on the face of the earth than the Australians, and although we were beaten, yet we received as much applause as if we had actually won the cup." These were the exact words that Melville H. Long used when interviewed on the Moana this morning.

Melville H. Long and Maurice E. McLoughlin were chosen to represent the United States in a series of international tennis championship games in Australia for the Davis Cup. They have just returned to Honolulu and will stay here for one week in order to play a series of singles and doubles with the best tennis players on this island. They will leave by the Alameda next week for San Francisco. Long has been playing active tennis since 1906, when he won the Pacific Coast championship. In 1907 McLoughlin took that championship from him after one of the closest contests that has ever been played on the Coast. The following year however, Long recaptured this coveted trophy. Since that time these champion tennis players have been meeting each other on every possible occasion.

Such good form did they show that they were asked to go East and play a series of games in Chicago, Minnesota, and New York. While in New York, R. L. they were chosen to represent the United States in the Davis cup matches, which cup had been won by the Australians from England the previous year. After playing a number of exhibition games in Rhode Island they both went to Philadelphia and met the international players from England and the United States, and played a series of practice games.

The Californians beat the Englishmen easily. They did not however play Larned and Clothier as these players were team mates. Feeling that they were in excellent trim to meet Wilding and Brookes, the two Australian champions, they left San Francisco for Sydney.

The first match was against Wilding at Sydney, Long being chosen to tackle this strong opponent, while McLoughlin was assigned to meet Brookes.

Both Californians were beaten after a hard tussle in these singles. The doubles were then played and proved to be the closest games of the contest. Everybody declared that these doubles were the finest exhibition of skill and endurance that has ever been witnessed in Australia.

The scores for the singles were as follows: Wilding versus Long, 6-2, 7-5, 6-1. McLoughlin versus Brookes, 6-2, 6-4. The scores for the doubles are as follows: Long and McLoughlin versus Wilding and Brookes, 12-10, 10-8, 6-3.

On the final day of the meet Brookes beat Long 9-7, 8-6, 6-4, while Wilding beat McLoughlin 1-6, 7-5, 6-3, 6-2. When asked what they thought of the Australian tennis courts, both players were unanimous in declaring that they were perfect. The courts were not in very good condition on the first day of play, owing to the heavy rain of the night previous. In fact the games for the first day had to be postponed as the courts were too soggy. Brookes wished to postpone the games on the second day also but the sun came out and such an immense crowd was present that play was called. All the big matches were played on grass courts.

The crowds for the three days of the championship games averaged not less than 5000 people. The Australians made tennis week a society event, and the grounds were not only decorated with the Stars and Stripes interwoven with the Union Jack, but hundreds of carriages lined the grounds filled with exquisitely dressed ladies. The crowd was at all times impartial and applauded the losers whenever they made brilliant strokes.

Long is a student of the University of California, and McLoughlin is a student of the Lowell High School at San Francisco, but will enter the University of California next year. The former has received a letter from Major B. B. Ray asking that they play a series of singles and doubles against the best players in Honolulu. They have accepted the invitation and will remain here for one week, returning to San Francisco by the Alameda on the 12th of this month.

pen in the Mediterranean class; best pen in the English class; best pen in the game class; best-conditioned bird in the show; best-shaped male in the show; best parti-colored female in the show; best parti-colored female in the show; best solid-colored male in the show; best solid-colored female in the show; best live capon; heaviest Tom; best 12 white eggs; best 12 brown eggs; best 12 duck eggs.

As soon as the entries have been all classified and numbered, the lists will be printed and distributed at the show.

Two Soccer Games On Saturday

On Saturday next at the league grounds the soccer football series will be continued, and two interesting games will be played. The weather is still rather damp, but if the rain clears off the ground will soon dry and become fit to play on. The first game will be between the Honolulu Iron Works and the Punahou, and judging from the form shown by both teams in the past, the result should be a fine close match. The H. I. W. boys have been practising hard and have improved a lot in their punting. The Puns will have to do real good work if they want to defeat the boys who make machinery.

The Punahous are showing good form, and as they are a bunch that never know when they are licked, they may give the Iron Works men a surprise. At any rate, the games should be first class and exciting enough for anything.

The second game will be between the Males and the High School, and it, too, should provide some real good soccer. The Males always play a good game, and they may be depended on to make the ball do some swift journeys from one end of the field to the other. The school will not be backward, either, in the punting line, and the team will keep the Males on the qui vive all the time.

After Saturday there will only be one more day of soccer, as the final games are scheduled for Saturday, January 15. There is an abandoned match to be played; it was stopped by heavy rain some weeks ago, and may be pulled off after the regular games are all finished.

Hayes and Kao May Race Here

Should Hayes and Fitzgerald come to Honolulu, as is half expected, the largest ground in this city will hardly hold the crowd that will roll up to see Antonio Kao, our wonderful old runner, go up against the best long-distance men in the world. And there is no saying how the old "Waiaina Horse" can improve on the time he has put up on the local tracks. He has never been really hard pressed as regards making the pace, and if he had someone to make a lively clip for the whole Marathon distance, he would, no doubt, get down close to the times put up by the best of the runners.

All Hawaii would be worked up over a Marathon in which Hayes and Kao competed, and the other islands besides Oahu would certainly send their contingents of sports along to root for Kao.

McGrath is managing the runners, and he has spoken of bringing both Hayes and Fitzgerald to Honolulu. It is good news and everybody hopes that the runners do come soon.

NEWS NOTES FROM KAMEHAMEHA SCHOOLS

The Kamehameha Cadet Battalion left the school yesterday morning, under arms, for a week's encampment at Moanalua. The battalion left the school grounds at 8 a. m. Khaki uniforms were worn. Articles of civilian dress were not allowed to be taken to camp. Second Lieutenant W. Kamaloipi, in addition to his regular duties is appointed police officer. Sergeant Awa is appointed steward and Sergeant Ellis second steward of the cadet mess. They will have direct supervision of the cadet supplies, and the preparation and serving of all meals.

While in camp the cadets will take up extended order drills and gait duty. Part of the day will be given over to cadets for games. After the return from camp the boys will turn out for good hard practice for the soccer team, which has not been indulged in for the last two weeks.

Captain Frank Chance of Chicago leads all the National League first basemen in averages for the past year. His percentage is .994 for ninety-two games.

HERE'S a pointer for you. If you are Hunting for Health drink a glass of Primo Beer with your meals.

It aids digestion, induces sleep, and quiets tired, worn-out nerves.

The little alcohol is too slight to be considered, except as it aids the digestive functions and gives a slight stimulation.

One of the best things it does is to flush the system. Water does not taste good enough ---you don't drink enough of it; that's where one of the virtues of Primo Beer comes in.

Ask your physician about it.

Primo
The Beer That's Brewed
To Suit The Climate.

POULTRY SHOW ENTRIES CLOSED

Yesterday afternoon at 5 o'clock the entry list for the poultry show, which will open next Wednesday at the drillshed of the N. G. H., was closed, and a very good lot of birds are on the list. The entries total just about the same as last year, but the class of fowls, according to President Brown, is much better.

The lessons taught at the last exhibition were taken to heart, and the standard of flocks has been much improved. No Asiatic breeds are represented in the entry lists, but all the more popular breeds are freely entered. Pigeons, ducks, turkey and geese have also been entered in their respective classes, and a strong showing will be made in their departments.

The public will, no doubt, patronize the show well, as nearly everyone takes an interest in birds of all sorts. The premiums and prizes offered are as follows:

Poultry Prizes.
The American Poultry Association offers a grand prize silver medal for the best cockerel in the American, Asiatic, Mediterranean and English classes, competition open to the world.

The American Poultry Association offers a diploma for the best male under one year old in all standard varieties, competition open to the world.

Trophy Cups.
Governor's Cup—The Governor of the Territory of Hawaii offers a silver cup for the largest and best exhibit of birds in the American class.

Mayor's Cup—The Mayor of Honolulu offers a silver cup for the best-colored, Hawaiian-bred chicken, any variety, in the show.

Directors' Cup—The directors of the Hawaiian Poultry Association offer a silver cup to the exhibitor

showing the largest number of birds in the poultry classes scoring 90 points or over.

The Hawaiian Poultry Association offers a silver cup for the best "collection" (cock, cockers, hen and pullet) in the American class. A silver cup for the best collection in the Mediterranean class. A silver cup for the best collection in the English class. A silver cup for the best collection in the game class. A silver cup for the best male chicken in the show. A silver cup for the best female chicken in the show. Mr. H. Jeffs offers a silver cup for the heaviest chicken in the show.

Cash Prizes.
Five prize ribbons will be awarded, and cash premiums will be paid according to competition in poultry classes (which include turkeys, ducks and geese); viz., cocks, hens, cockerels, pullets and pens, of all varieties.

Pigeon Prizes.
Five prizes will be awarded, and cash premiums will be paid according to competition in pigeon classes, viz., cock, hen and pairs, under the following schedule:
Trophy Cup—The Hawaiian Poultry Association offers a silver cup for best exhibit of pigeons; and also cash prizes.

Special Prizes.
In determining awards, no birds shall be considered that are not in competition with four or more birds; \$5 for the largest and best exhibit of pigeons; \$3 for the second largest and best exhibit of pigeons; \$2 for the third largest and best exhibit of pigeons.

Ribbon Specials.
Special prize ribbons will be awarded by the association for the following exhibits: Highest scoring Hawaiian-bred bird in the show; best pen in the American class; best

What Army and Navy Folk Are Doing

WASHINGTON, December 15.—Early next year President Taft will have the appointment of three brigadier-generals and the chief of engineers. These vacancies occur on January 24th, upon the retirement of Brigadier-General J. G. DeKnight, who attained that rank on November 13th, vice General William H. Carter, who becomes major-general on that day by virtue of retirement of Major-General John Weston; March 14th, when General Morton retires and November 14th, when General Myer retires. General Marshall, the chief of engineers, retires on June 11th.

The impression prevails that in filling the first of the vacancies that occurs in January, President Taft will be governed by the consideration of seniority alone. It is believed further that the President will select a cavalry officer for promotion and in that event his choice will be between Colonels Hatfield, Durst and Anderson, who are relatively senior in rank to the senior colonel of infantry, Colonel Corman.

The retirement of General Marshall, now the chief of the Panama Canal Commission, is a little speculation as to his successor. The most prominent officer in line of selection is, of course, Colonel Goethals, now the chief of the Panama Canal Commission. It is doubtful if Colonel Goethals would care to leave his work at Panama, the successful completion of which will make his name immortal, but it has been suggested that President Taft could well make him chief of engineers and detail him to Panama as in charge of the most important work now under construction by the engineer corps, and that the work at Washington could be performed by another engineer officer detailed for that purpose.

There are also fourteen prospective vacancies on the General Staff of the Army to be filled by the board which has been recently appointed for the purpose. Five of the vacancies will be created by the promotion of members of the General Staff.

WASHINGTON, Dec. 2.—The following army and navy orders were issued today:

Army orders—Captain Herbert C. Gilmer, medical corps, is relieved from duty at the general hospital at the Presidio of San Francisco and will proceed to Fort McDowell, relieving Captain Robert L. Carswell, medical corps, who, upon being relieved, will proceed to San Francisco and report to the commanding general of the department of California for duty at the general hospital at the Presidio of San Francisco.

First Lieutenant Madison H. Bowman of the medical reserve corps will proceed from the Presidio of Monterey to Fort Lawton for temporary duty on the transport Dix during the absence of First Lieutenant James B. Ferguson.

Second Lieutenant Warder H. Roberts, First Infantry, will proceed to San Francisco and report to the commanding officer of the general hospital at the Presidio of San Francisco for treatment.

Navy orders—Captain L. Young is detached from duty at the navy yard at Mare Island.

Captain B. Tappan is detached from the command of the Indiana to the navy yard at Mare Island, to be captain of the yard.

Lieutenant M. S. Davis is detached from the command of the Paul Jones to the navy yard at Mare Island and as assistant engineer officer.

Lieutenant C. E. Brigant is detached from the command of the Probie to the navy yard at Mare Island, to be assistant to the engineer officer.

Lieutenant C. E. Smith is detached as steward to the navy yard at Mare Island.

VALLEJO, Dec. 1.—With the reorganization of the affairs of the navy yard, in accordance with the directions of Secretary Meyer, Rear Admiral Phelps will again assume supreme authority. Naval Constructor Holden A. Evans, who has been in control, will have charge of the division of hulls. The new order restores to the commandant the power exercised before the Newberry regulations were put into effect a year ago. It will require several days to rearrange matters at Mare Island on the basis prescribed by the new orders.

One of the most important changes is the division of the manufacturing department into two branches, machinery and hulls. Commander C. A. Carr will have jurisdiction over the former and Constructor Evans over the latter.

The department of construction and repairs is again separated from the steam engineering division. The old bureau of steam engineering is recreated. The effort to combine these two departments went on for years and caused much friction. It was finally accomplished under the Newberry order.

The department of yards and docks again falls under the authority of the captain of the yard, as was the case before the Newberry order was issued. Captain Lucien Young will again assume control of this work. Civil Engineer Leweryn will be associated with him as formerly.

Under the new order all civil service employees having charge of the system of accounts will be transferred to the department of supplies and accounts. The paymaster who will have charge of this department has not been named, nor has any officer been assigned as chief of the inspection department.

The officers at Mare Island express great satisfaction with the new arrangement and state that the yard will be placed on the most businesslike basis it has known for years.

The requirement of physical tests for Navy Officers has resulted thus far in the performance by Navy surgeons of twelve operations on officers wearing trusses for rupture. This demonstrates the value of physical tests. Some of these officers have for years continued on duty under peace conditions without making any report of their physical condition.

In case of war such officers would have been wholly unfit for active duty, and in the meantime officers in lower grades, who should have been perfecting themselves for duties in a higher grade were held back. It would seem that a proper regard for the general welfare of the Service would prompt an officer physically disqualified to report the fact to the Navy Department, and either seek to correct the defect or retire.

The first set of flats for Army officers' quarters to be completed has been finished at the Presidio of San Francisco. These apartments are intended for junior officers with small families and pay inadequate to a more extended scale of living, and prove very popular. They have large bedrooms with ample light, spacious dining rooms and parlors, bath room for the family and for servants, and the plan arrangement is exceptionally convenient for the conditions of life in Army posts. There are seven other sets of these flats under construction throughout the country.

San Francisco, December 11.—This little war, or rumor of war, between the United States and Nicaragua has an added interest to us in San Francisco, as Capt. Albert P. Niblack is to command the United States cruiser Tacoma and protect our interests at Bluefields.

Captain Niblack married Miss Mary Harrington, one of San Francisco's belles, a few years ago.

In addition to her own endowments, several years of study abroad made her the much sought after guest of all our smart social functions.

Since her marriage her friends, unfortunately, have seen but little of her, as Captain Niblack has been stationed in the Hawaiian Islands and more recently at Annapolis. He has often been spoken of as the pet of the Navy and desirable diplomatic stations have fallen to his lot.

Mrs. Niblack's friends are hoping that she will decide to spend several months here during her husband's sea duty. If such is the case she can be certain of a most cordial welcome from her friends, whose name is legion.

In the mail, received by the Hilonian, the commission of Lieut. Comdr. Victor S. Houston, U. S. N., arrived from Washington. The commission like that of Admiral Rees, was delayed some where, and should have been here some time ago. The promotion of Mr. Houston is excellent news to his friends, particularly as his new shoulder-marks came from Uncle Sam as a Christmas present. Lieutenant-Commander Houston is practically an island boy, as his mother, one of the Brickwood family, of Honolulu, married Lieutenant Houston of the navy, who finally became an admiral. Lieutenant-Commander Houston has the distinction of being one of the finest swordsmen in the Navy. He is in charge of the lighthouse work in Hawaii.

For several years about New Year's Day statements are published that the naval observatory, with the assistance of the telegraph and cable companies, will flash the advent of the new year at Washington around the world. It now appears that such a feat never has been accomplished. In officially discussing in his annual report the attempt made last New Year's Eve, Rear Admiral Cowles, Chief of the Bureau of Equipment, says that the signals were transmitted "as far as Buenos Ayres, Australia, Honolulu, Guam, Manila and Japan." The statement that it has never been successful in flashing the New Year's signal entirely around the world.

A man fools himself when he imagines other men never tire of hearing him talk.

Vapo-Cresolene

(Established 1879)
FOR WHOOPING COUGH, CROUP, ASTHMA, COUGHS, BRONCHITIS, SORE THROAT, CATARRH, DIPHTHERIA

Vaporized Cresolene stops the paroxysms of Whooping Cough, Ears-Drained Croup cannot exist where Cresolene is used. It acts directly on nose and throat, making breathing easy in the case of colds, croup, the sore throat and stops the cough. It is a boon to sufferers from Asthma.

Cresolene is a powerful germicide, acting both as a curative and preventive in contagious diseases. Cresolene's best recommendation is its thirty years of successful use.

The American Horsewoman

"THERE is no better horsewoman in the world than the American woman," said a well known authority recently. She has the same command of her mount as the Englishwoman and at the same time possesses superior suppleness and daring. There is nothing the American woman won't attempt on horseback, and in addition to being the most graceful and daring ordinary rider she is in great demand for equestrian circus acts, for she is much more nifty, original and quick in her ways of managing a horse than the foreign performers.

Among Wild West riders Miss Louise Golden, Miss Mulhall and Miss Van Ohi stand prominent. The latter, indeed, makes it her boast that there is no horse too vicious for her to ride, and she has even tried equestrian performances on a steer. She is absolutely fearless. One of Miss Golden's favorite tricks is hanging head downward across the horse's back with her head touching the ground. She can recover her seat in the twinkling of an eye and not abate a jot of the pace. As for Miss Mulhall, every one who has seen this daredevil little rider cannot fail to admire the way she manages an unruly steed.

Mrs. Thompson is another clever American equestrienne who gives exhibitions in London every now and then, where her apparently reckless riding wins great applause. She is rather fond of riding her trickiest horses in the park and thinks nothing of suddenly causing her horse to rear, as in the picture, or to stand on his fore legs, much to the consternation of the bystanders, who do not appreciate the fact that the quiet little woman in the dark riding habit is one of the best masters of horses in the world.

Among society women there are many clever riders. Mrs. John Deeken of New York is one of the principal exhibitors at all the horse shows. She not only is splendid in the saddle, but an unequalled whip as well. Her stables are filled with blue ribbon winners. The picture shows her riding one of her favorite thoroughbreds, Marion.

Miss Eleanor Sears is an authority on polo ponies and rides these tricky little animals to perfection. She also affects trotting horses harnessed to runabouts.

Miss Emily Randolph makes a specialty of riding tall hunters and leaping high fences. Recently she rode in a jockey race for women, which was

MRS. THOMPSON.

MRS. JOHN GEPPERT

PUBLIC ROAD TO THE BEACH

MUST MOVE MOANA ANNEX TO OPEN PUBLIC RIGHT-OF-WAY FROM KALAKAUA AVENUE TO WATER'S EDGE

The verdict returned by the jury in Judge Whitney's court yesterday, after but a very few moments deliberation, in the case of the Territory vs. Frank Hestace and others, makes it imperative that the cottage known as the Moana Annex must be moved or taken down, as it at present occupies a piece of land that belongs to the people.

A vigorous contest over this equestrian case has been going on for some time. The land in question is a strip thirty-two feet wide and 205 feet long. The contention of the plaintiff was that it was dedicated to the people by King Kalakaua about twenty-eight years ago. It was used as a public highway for about twelve years, but sixteen years ago it was seized by a private individual and a house erected partly on the land by Frank Hestace. The Territory claims never to have abandoned its right to the land, and contends that no private individual had a right to close up the right of way.

The piece of land which has been in dispute is the only connecting highway between Kalakaua Avenue and the beach.

Many a woman has induced her husband to give up smoking by presenting him with a box of bargain-counter cigars.

RACE WASTE IN CHILD DEATH

STATISTICS SHOW THAT THOUSANDS OF BABIES DIE YEARLY FROM CAUSES WHICH COULD BE PREVENTED.

WASHINGTON. — American race waste—more serious than race suicide—is pointed out in census mortality bulletin No. 104, in which it is estimated that annually in the United States from 100,000 to 200,000 babies under five years of age die from preventable causes. This great loss of life among the little ones at the period when they are most loving and most lovable could be prevented, is the opinion of Dr. Crassey L. Wilbur, chief statistician for vital statistics of the Census Bureau, who prepared the bulletin, on the basis of present-day knowledge of sanitary measures. For the accomplishment of effective preventive work in this direction, Dr. Wilbur holds that the prompt registration of all births and the more careful and precise statement of causes of death by physicians are essential.

Of the total number of deaths, 691,574 returned for 1908 from the entire registration area, nearly one-fifth were of infants under one year of age and over one-fourth of children less than five years of age. It is declared that the brute force of the figures representing the actual deaths is more impressive, however, than any ratios or more than the rates of infant mortality. More than one-eighth of a million babies, under one year of age and fully 200,000 children, under five years of age, died among about one-half of the total population of the United States; the figure mentioned. It is considered

the closing feature of Captain Edward B. Cassatt's race meet at Chesterbrook Farms, Maryland.

Miss Lucie Charbonnier also rode in the same race, and her horse ran away and took a high rail fence, but even this incident did not prevent the plucky Baltimore girl from conquering him and making him finish the race.

Miss Belle Beach makes a specialty of taming the unruly horses of New York society women. She is made of solid pluck and has been thrown, bitten and kicked so many times it would discourage a woman less daring and really fond of horses.

Miss Gloria Morosini and Miss Mary Harriman are adepts at managing four and six coach horses.

probable that fully 200,000 more died in those cities and states not included in the Census Bureau death-registration area. In this connection Dr. Wilbur quotes Professor Irving Fisher's conclusion that of all the diseases of infancy, having the median age one year, 47 per cent may be prevented; and that of the diseases of childhood having median age two to eight years, 67 per cent may be prevented.

"It does not seem unreasonable," Dr. Wilbur states, "when we consider the fact that there is apparently no reason why infants, if properly born, and this means strictly the prevention of ante-natal disease and the improvement of the health and conditions of life of their parents, should die at all in infancy or childhood, except from the comparatively small proportion of accidents that are strictly unavoidable."

The possibility of great saving of human life during infancy and early childhood is emphasized in the estimates made by Professor Irving Fisher, on the basis of independent medical opinions, as to the ratio of "preventable" deaths from cause named to all deaths from cause named for certain diseases of early life. Out of every 100 deaths that occur from each disease in which the median age at death is under 5 years, there could be prevented the following numbers: Premature birth, 40; congenital debility, 40; diarrhoea and enteritis, the most important cause of infant mortality, 60; measles, 40; acute bronchitis, 30; broncho pneumonia, 50; whooping cough, 40; "croup" (which means diphtheria), 75; meningitis, 70; diseases of larynx other than laryngitis, 40; laryngitis, 40; diphtheria (under its proper appellation), 70; scarlet fever, 50.

CHICAGO'S LIVE STOCK EXHIBITION

HOLDS WORLDS RECORD

All cattle trails now lead to Chicago, and the reason thereof is the great international live stock exposition, which began on Nov. 27 and lasted to Dec. 10. During the second week of the live stock exposition the Chicago horse show was held, and the events combined brought to the city by the lake the champions of all the other horse and cattle shows of the year. Chicago had the biggest crowd since the World's fair of 1893 and provided a series of surpassing entertainments for the visitors. Every ranch and horse farm in the country that boasts pedigreed stock was represented at one or the other of the big events, and it is estimated that the sales of blooded horses and cattle reached far into the millions of dollars. The prize list of cups, medals and cash was the biggest ever offered to the cattle and horse breeders in this country. Both shows are open to the world. A feature of the horse show was the draft horse class, which brought together a finer array of heavy horses than did either the London or New York show.

FLAG RARELY SEEN IN FOREIGN PORTS

American Globe-Trotter Takes Particular Notice

"It is a positive disgrace to the United States that there is scarcely an American ship to be seen in any port of the world," was the emphatic statement made by George Comper, the well-known entomologist, who returned in the liner China from a trip that encircled the globe.

Comper has done more than any other man to rid California orchards of insect pests. In the opinion of prominent horticulturists, in his peregrinations over the world having discovered and introduced here scores of parasites which have eradicated various orchard pests.

On this last voyage, which began in June of last year, Comper visited Europe and the Orient, occasionally sending home beneficial insects to the State Horticultural Commission at Sacramento. He brings with him six species of red-scale parasite for the orange pests of the Southern California orchards, the insects having been found in the Philippines, Japan and China.

Speaking of the scarcity of American merchant vessels, Comper waxed eloquent. "Nowhere, except in the port of Hongkong or the intermediate ports at which they call, do you see anything but an occasional Pacific Mail steamer flying the American flag, and these steamers of the Pacific Mail are not present in any great numbers in the foreign ports. It is exceedingly seldom that one sees the American flag in any of the ports of the Orient, or in any foreign ports for that matter.

"So utterly poor is the showing made by the American flag, in fact, that one hears it commented upon everywhere and I confess that I have frequently felt very much ashamed of the condition of our shipping. And men of other countries do not seem to hesitate to speak about it, and ask pertinent questions. It is so everywhere I have been—no American ships or steamers, and pointed remarks about it by foreigners.

"At the same time one sees the great steamships of the North German Lloyd Company carrying hundreds of thousands of dollars' worth of merchandise and machinery to ports which should be served by American vessels. The same with the British and others—all carrying big cargoes to the Far

CUBA MAKES BIG SUGAR INCREASE

All of Last Year's Crop Has Been Shipped. Holds Enough For Home Consumption.

Consul Max J. Baehr of Cienfuegos furnishes the following information concerning the last and the coming sugar crop of Cuba:

With recent shipments of sugar to the United States all sugars sold for export through the different ports of the island have been shipped, there only remaining in storage that which is needed for home consumption. Present indications not only point to an increase in the coming over last year's sugar crop, the largest ever produced in Cuba, but also to an unprecedented price, which is presumably due to a shortage of 100,000 tons in the European crop.

An indication of what is in store for the sugar growers are the sales which have been effected here during November. An important plant or sold direct to the United States three shipments (60,000 to 80,000 sacks) at prices varying from 2 5-8 to 2 3-4 cents per pound, cost and freight, to be shipped in January and March. It is known also that another sale of from 50,000 to 75,000 sacks has been made, varying probably from 2 5-8 to 2 11-16 cents per pound.

Advance payments have been made for sugars to be received in January and February at prices that

will exist in the market on the day of delivery.

That part of the coming sugar crop which will be exported from Cienfuegos is estimated at 2,030,000 bags, the output of estates which produced during the two last sugar seasons 1,650,000 and 1,174,000 bags, respectively.

NEW VARIETY.

Sam Sundowner—"Yo' am think of going away and playing policy in de east?"

Pete Persimmon—"Yess, I am thinking about going to Washington en investigating dat 'open door' policy yo' heah so much about."

CASTORIA

for Infants and Children.

What is Castoria?

CASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance (Narcotics stupefy). Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The mother's Friend.

The signature of *Dr. J. C. Fletcher* is on every wrapper of genuine Castoria.

"My patients invariably praise the action of your Castoria." W. W. TUNNEY, M. D., Buffalo, N. Y.

"I use your Castoria and never see its use in all families where there are children." W. W. TUNNEY, M. D., Buffalo, N. Y.

"During my medical practice I know of several cases where your Castoria was prescribed and used with good results." E. MONAGHAN, M. D., St. Louis, Mo.

"Your Castoria is the best remedy in the world for children and the only one I use and recommend." ANNE V. SWEETLAND, M. D., Omaha, Neb.

"Your Castoria is certainly the greatest remedy for children I know of. I know no other proprietary preparation which is its equal." B. S. SCHWARTZ, M. D., Kansas City, Mo.

"I have used your Castoria as a purgative in the case of children for years past with most happy effect, and fully endorse it as a safe remedy." H. D. BARNES, M. D., Philadelphia, Pa.

Children Cry for Fletcher's Castoria.

In Use For Over 30 Years.
