## EXCURSIONS TO COME WITH FLEET

### Tom McKay Tells of Big Things to Come for Hawaii.

Thomas D. McKay, the original Tom McKay, he of the diamond front and the glad hand, who makes two travelers go where only one and sometimes less went before, is a passenger on the Mongolia, on his way once more to the Far East. He brings a message of cheer to Honolulu, stating that the eye of the touring public of the mainland west has been turned this way, and that the tourists will soon be coming Hawaiiwards in large numbers.

Mr. McKay is the traveling passenger agent of the San Francisco Overland route, the Pacific Mail, the Occidental and Oriental, and the Toyo Kisen Kaisha in the Orient, and is in closer touch with the traveling public than any other one man, having been in the business for thirty years, and hustled during every minute of that time. He is also one of the best friends Hawaii has, and keeps the Paradise of the Pacific right side up in his mind when he is displaying his wares about the world.

The particular message he brings at present is that there is a possibility of some special excursions being run down here from San Francisco during the time of the fleet visit, excursion talk that he did his best to push along while on the Coast.

"There is a good deal of talk on the Coast about special excursions to Honolulu, to leave San Francisco with the fleet and to keep them in sight all the way down," he said yesterday, "and already a number of people have sent in applications for rooms."

"If these excursions are made, they will bring about five hundred people with them, and I am sure that Honolulu will be greatly benefited by them."

"In every city on the Pacific Slope of any size, the people are all talking Hawaii, and I think that during the next six months a large number of tourists will come here. I know throughout the Orient, Hawaii is well known, and I do all I can to persuade people bound to the United States to stop off for at least one steamer and see all the many things that are to be seen here."

"Honolulu should be crowded the year round with tourists, for I know of no other country in the world where the scenery and the climate is as grand as it is here."

"If you had a more frequent steam—"

## DEMOCRATS WILL UPSET THE ACT

### John Emmeluth Will Lead an Attack Upon Municipal Measure.

"My idea would be for the Democrats not to bother themselves about a candidate for Mayor at all, but to take steps before the date of election to have the municipal law tested and knocked out altogether," said John Emmeluth, the Secretary of the Democratic Territorial Committee, yesterday, after denying in vigorous terms that his party had any idea of laying down on any part of the ticket, Territorial or municipal. "Why, we have two men who take vote and vote with Henry E. Cooper, and he is the best man mentioned in the Republican list."

The Democratic Secretary fears no foe, especially as he is one of the ones who holds the opinion that the municipal law is not worth the paper it is printed on. He quotes the municipal laws of the mainland to show that no municipal act is intended to cover areas including plantations, ranches, farms and sections of country that can never in the course of events become urban. On the mainland, he says, the laws are made to apply only to those sections outside the city proper that are in line to be taken in within a period of at the most fifty years.

"Here we are trying to make the law apply to sections that never can be brought within the municipality in any sense. That alone ought to be enough to throw out the law, for it contravenes the very intent of municipal acts," he said.

"Even with all the objections there are to the present system of the election of our supervisors and the way they exercise their powers, I believe that the system is superior to that attempted to be created by the municipal act."

## REGULAR CAR SERVICE WILL RESUME TODAY

"We have hopes of resuming our regular schedules in the morning," is the report given out last night from the office of the Rapid Transit Company.

As soon as possible this morning the boilers at the power house of the street car company, which were put out of commission by a double accident on Sunday, will be tested for leaks, and if all is well, as the officials expect, the regular car service throughout the city will be resumed. It is possible that the full service will not be in operation before eight or nine o'clock, however.

The three employees who were injured through being scalded by the hot water and steam when the boiler pipes burst are reported to be getting along nicely.

The service yesterday was badly interfered with, the cars running on the main lines on twenty minute time, being sadly crowded as a consequence at all times, and jammed at the busy parts of the day.

## KOA MILL IS ON THE ENTERPRISE

### Machinery to Cut 2500 Ties Every Day Will Soon Be in Operation.

Encouraging reports of operations in the mahogany operations were made at a meeting of the directors of the Hawaiian Mahogany Company held here yesterday afternoon by W. W. Harris, the manager of the company, who is here from Hilo to discuss details of the business with the directors. Among the things reported by him is that already one hundred and forty thousand feet of koa lumber have been brought down to Hilo for shipment, a part of which has already gone forward to San Francisco, and that by July 1 there will have been half a million feet delivered at tidewater ready to go forward to the Coast for the filling of an existing contract.

The small tie mill in Puna is now working, turning out 250 ties a day, while a letter received in the mail yesterday announced that the first carload of the machinery for the big tie mill, with a capacity of 2500 ties daily, had arrived at San Francisco and was being loaded on the Enterprise for delivery at Hilo.

Mr. Harris reported that one of the biggest difficulties that had to be encountered, that of securing an adequate supply of water for the use of the mill boilers at the particular spot in Puna elected as the site for the big mill, had been settled by the discovery of a pond near the site, from which a mile of pipe could be laid to bring plenty of water to the mill. The pond covers about an acre and has an average depth of three feet and this will give a supply of practically all that may be needed, although tanks and reservoirs will be erected at the millsite to catch whatever rainfall there may be for a reserve supply.

## HAWAIIAN BOY HURT.

Captain Roswell Dwight Cutler, of the smart barkentine Kikikat, now in port, in yesterday's mail received a letter from his brother, the Rev. G. B. Cutler of Boston. Rev. Mr. Cutler writes that he has discovered in the Marine Hospital, Chelsea, a suburb of Boston, a young Hawaiian, Oliver Williams, or Oliva Williams, who is a cripple through falling from the cross-trees of a schooner and injuring his spine. He can walk, but will probably never fully recover. He is without funds, and wants to come home to Hawaii. He told the Rev. Mr. Cutler that he has an uncle on the Hawaiian Board of Missions, and gave his uncle's name as L. K. Katani, or L. K. Kakahi.

Captain Cutler is interesting himself in the case to look up the young man's connections here. Perhaps his Hawaiian friends have not before known of his condition.

## LEPERS CALL THE PINKHAM ENDORSEMENT A HUMBUG

That fishy wireless from Kalaupapa which arrived here the day Pinkham expected to be reappointed, announcing his endorsement by the lepers of the Settlement, has brought the following repudiation. It now looks as if the "endorsement" had been a put-up job between Pinkham and one of his subordinates with the intent to deceive the Governor:

To Mrs. Atcherley:  
Having received word by mail of last week to this effect: That we, the leper inmates of Kalaupapa did meet and appoint a committee to extend by wireless our hearty endorsement to the Governor for the reappointment of L. E. Pinkham, Esq., as President of the Board of Health, on the 13th day of April, 1908.

Therefore, We, the undersigned lepers residing in the County of Kalaupapa, hereby wish the truth to be publicly announced, that there was, and has never been a meeting held here at Kalaupapa for such purpose on the date mentioned or any other date thereof.

Be it further announced, That Mr. Pinkham's removal from that office receives our hearty approval.

## YELLOW PERIL OF COMMERCE

### Japan's Influence Over China May Shift Commercial Center to Tokio.

(Advertiser Correspondence. Copyright by Frederic J. Haskin.)

TOKIO, April 2.—The Yellow Peril! What does it mean? Those who essay to answer the question are divided into two schools, one which declares the Peril threatens the supremacy of Occidental civilization, the other which asserts that there is no Peril.

Take the view of those who see danger ahead: Since Japan has become a first-class military power and has proved to the world that the lessons in the use of the edged tools of the white race may be thoroughly learned by the yellow, there is alarm in the minds of the statesmen of every nation of the Occident. In the whole of Asia east of the Punjab there are less than 250,000 white people, not counting the Russians, who exercise commercial and political dominion over eight or nine hundred millions of Asiatics. Thus Oriental political affairs are in a state of unstable equilibrium and a readjustment would involve the peoples of the whole world.

The whole political map will be changed when the Oriental shatters the prestige of the white race in Asia. There is not a group of Asiatics anywhere from Tongkin to Chinese Tartary which does not know that Japan has licked the boots of Russia and thereby proved its eligibility to become the Captain of the Yellow Host that is destined to restore Oriental world supremacy. China is awakening from the sleep of centuries, and even the caste-bound millions of India are beginning to feel the stirring of a national spirit which will impel them to break the European fetters which bind them.

In the entire history of the world the possession of Asiatic trade and influence has always marked the flood of Empire, while its loss has meant the ebb of power. Three times since Macedonia first placed European shackles on Asiatic limbs has the Asiatic spirit been powerful enough to threaten the destruction of Europe—the Arab empire of trade which sapped the foundations of Imperial Rome; the fanatic rule of Islam which crossed into Europe, overthrew the Byzantine Empire, subdued Spain, and knocked at the very gates of Christian Rome; and the Mongol Empire which extended its conquests into the heart of Europe, overrunning Hungary and Poland. These things have passed away, leaving only the Sick Man of Europe on the Bosphorus as a reminder. Since the advent of modern civilization and modern diplomacy the Asiatic has been a subject race.

## CHINESE BEGIN CAMPAIGN TO INSTRUCT AMERICANS

### Well-Attended Meeting Last Evening at Which Speeches Were Made and Resolutions Passed---Chinese Consul Speaks.

Resolved, That we the Chinese of Hawaii, begin a campaign of information to furnish the people of the United States with real facts as to the Chinese of Hawaii.

Resolved, That we use every honest effort to secure a limited number of Chinese laborers, and their families, for the needful work in Hawaii, that they alone can do.

Resolved, That we believe the agricultural and commercial interests of Hawaii would be advanced by admitting the Chinese under wise restrictions to numbers, and also with restrictions as to the use of opium.

Resolved, That a copy of these resolutions be given to the Governor of Hawaii, and that we ask him, as a great favor, to present them to the President of the United States.

There was a well-attended meeting last evening at the Chinese United Society hall, to consider matters of interest to the Chinese population, at which the above resolutions were

unanimously adopted. Rev. E. W. Thwing made the leading address, outlining the history of the Chinese in Hawaii and presenting arguments why there should be some modification of the present exclusion laws.

## CONSUL SPEAKS.

The Chinese Consul was present at the meeting and spoke enthusiastically, promising to send a copy of the resolutions adopted to the Chinese Ambassador at Washington.

The following committees were appointed:

Information—Rev. Thwing (chairman), C. K. Ai, Chu Gem, G. Kim Fook and Ho Fon.

Working Committee on China—Yee Chim (chairman), Lam Kam Chin, Chang Shai, Chun Keng Hom and Mo Man Ming.

Committee on Local Influences—Wm. Y. Kwai Fong (chairman), Chun Ming, Chang Kim, Goo Kwai Long and Luke Chan.

## FAIRCHILD ASKS FOR MORE TIME

**Wants to Communicate With  
Col. Spalding Who Is on  
the Ocean.**

George S. Fairchild, manager of Ma-  
kee Sugar Company, sent a letter to  
Governor Frear yesterday afternoon in  
reply to the Governor's letter of last  
Saturday, making an offer of settle-  
ment in the Kapaa land matter. This  
letter was delivered at the Capitol by  
Mr. Fairchild in person, but Governor  
Frear had left for the day, and Secre-  
tary Mott-Smith immediately sent it  
out to his house.

The letter stated that while Mr. Fair-  
child had full authority to act for the  
Mahee Sugar Company, still matters  
had arisen which had never been  
brought to the attention of Colonel  
Spalding, the principal owner of the  
stock of the company, and therefore  
Mr. Fairchild would not like to act on  
these matters without presenting them  
to Colonel Spalding. The Colonel is at  
the present time on the ocean some-  
where between India and Italy, and  
hence cannot be communicated with by  
cable. The belief is expressed that by  
the time Governor Frear returns from  
Washington Mr. Fairchild will have  
had opportunity to communicate with  
Colonel Spalding. He therefore asks  
for further time in which to reply to  
the Governor's proposal in regard to  
the Kapaa lands.

The particular new matter which has  
arisen seems to Mr. Fairchild to  
require some time, is the portion of the  
government's proposal regarding North  
Oleeha. In the proposal made by the  
government the following requirement  
is made of the Mahee Sugar Company.  
The Mahee Sugar Company to convey  
to the government the lands of Wai-  
pouli and North and South Oleeha;  
raise the dam of northerly Kapaa res-  
ervoir about ten (10) feet or so as to  
increase the reservoir's capacity about  
70,000,000 gallons; pay the cost of said  
appraisement; and convey to the gov-  
ernment other lands acceptable to it of  
the value of \$12,876.42. (Note: In this  
estimate the government stands the  
cost of all the fencing excepting one-  
half (1/2), that across Anahola, Kama-  
lomalo and Kealia.)

The lands of North Oleeha are not  
owned by the Mahee Sugar Company,  
and hence in order to comply with this  
condition it will have to purchase them.  
There are sixteen persons interested in  
their ownership, so that naturally the  
negotiations for their purchase cannot  
be expected to be concluded quickly.  
These lands contain 222.5 acres of cane  
land, but no water. In its proposal the  
government offers, if the proposed ex-  
change is effected, to lease them to the  
Mahee Sugar Company at an upset  
rental of \$1301.62 per annum, so that it  
is to be assumed that the lands are  
appraised by the appraisers at somewhere  
near eight times that amount, which  
would be \$10,412.

These North Oleeha lands are un-  
der lease to the Mahee Sugar Company  
under a lease having about four years  
yet to run. When the lease was made,  
Judge Wiedemann was alive, and the  
portion he did not own was owned by  
three Hawaiians. One of these has  
since died, leaving a husband and four  
children, thus increasing the owners of  
this portion of the land from four to  
seven. Judge Wiedemann has since  
died, increasing the number of owners  
of his portion of the property to nine.  
Mr. Fairchild expresses himself as  
very well satisfied with the general  
principles and conditions of the propo-  
sition of exchange made. "There are  
some of the conditions which I should  
like to see changed," he said, "and I  
shall present them to the Governor. It  
is the first basis actually formulated  
on which an exchange could be made,  
and I think that the Governor ought  
to be congratulated on it."

## PLANS FOR THE THIRTY TEACHERS

**Leave Here July Sixth and the  
Coast Probably Two  
Months Later.**

Superintendent Babbitt has made  
complete arrangements for transpor-  
tation and for their stay on the coast,  
for the thirty school teachers to go  
from here to attend the summer ses-  
sion of the University of California.  
They are to leave here on the army  
transport sailing from here July 6.  
The summer session begins earlier  
than that, but some of the courses do  
not begin until July 15 and so teach-  
ers from here can attend any of these  
latter courses. In order to be back  
in time for the beginning of the school  
work in the fall these teachers will  
have to leave San Francisco by the  
transport leaving August 5. But the  
question will come up at the next  
meeting of the Board whether these  
teachers cannot be permitted to re-  
turn on the transport leaving Septem-  
ber 5, which will bring them here  
just a few days after the term begins.

The fee for the summer session is  
\$15, but Mr. Babbitt has made ar-  
rangements for a proportionate re-  
duction for teachers from here ar-  
riving after the session has begun.  
Board can be obtained in Berkeley at  
from \$25 to \$35 a month at places ap-  
proved by the dean of the University.  
During the latter part of the ses-  
sion there will be a number of most  
interesting excursions. One of these  
will be to Luther Burbank's farm.  
Another will be to the Lick Observa-  
tory.

It has not yet been decided how  
the thirty teachers who are to go will  
be selected. It will probably be by  
lot. Already seventy-five of the teach-  
ers have made application.

### ON THE MONGOLIA.

Among the passengers on the Mon-  
golia is C. H. Kuan and his wife of  
Hongkong. He is a civil engineer, a  
graduate of Cornell University. His  
wife is a graduate of London Univer-  
sity, and is considered of the highest  
type of Chinese beauty. She dresses  
according to the European custom. They  
have been traveling extensively in Eu-  
rope. His father is reputed to be worth  
\$10,000,000, having extensive mining  
interests and silk stores in Singapore  
and Hongkong. Mrs. Kuan's father is  
reputed to be worth \$30,000,000, and re-  
cently passed through here, returning  
home after a tour of the world.

Mr. and Mrs. Kuan were guests at  
the Chinese Consulate during their stay

## M. C. C. MEN MAY PLAY

Cabled Request for a Cricket  
Match Comes From  
Suva.

A cable was received from Captain Phillips of the S. S. Aorangi by Theo. Davies & Co. yesterday, asking that a cricket match be arranged while the vessel is in port.

The cable was sent from Suva. The Aorangi is due here on the 29th inst. The request for a game has excited much interest among local cricketers, for this is the first instance of a game having been suggested by cable, as far as Hawaii is concerned.

It is probable that the Marylebone Cricket Club team, which has been touring Australia, is returning home by way of the States, and that the eleven are taking passage by the Aorangi. Robert Anderson has the matter in hand, and arrangements of some kind will be made today to accommodate the visitors. The cricket season hasn't started locally yet, and the visit of the English team, if such occurs, will benefit the game immensely.

The M. C. C. team is a fairly representative one, but lost the majority of the test matches to the Australians.

## MITSUKA MAY MEET ROBERTS

There was much talk of wrestlers and wrestling on the streets yesterday. Much praise was heard for the showing made by Froelcher, Roberts and Kanane, and the opinion seemed to be that the sailor is a comer.

Mitsuka and his trainer were on hand at the Orpheum yesterday afternoon to discuss a match with Sailor Roberts, who was represented by Hans Froelcher. Mitsuka's manager, K. Ono, failed to put in an appearance, however, and the others could do nothing without him. The crowd waited till nearly 6 p. m., and then broke up. There will be another meeting at 1 p. m. today, at which it is hoped that all interested will be present on time.

A match between Roberts and Mitsuka looks good. Roberts is strong and clever, and the Japanese is also as strong as a bull, and is said to be the most aggressive wrestler in the Territory. He is conceded to outclass all the other Japanese wrestlers in Hawaii.

Hans Froelcher leaves for the Coast today, but will return in a month or six weeks with his wife. He will then be prepared to tackle any proposition that presents itself in his special line.

## PRICKLY CACTUS JUICE WILL KILL MOSQUITO LARVAE

Editor Advertiser.—While I was in Europe last summer I was asked if we had ever tried the use of the prickly cactus (Opuntia vulgaris) to prevent the breeding of mosquitoes. I could get no reliable information as to how it was to be used, so thought no more of the matter.

However, I now find that it has been used successfully in the French colonies. Dr. Sauzeau de Paybarn, in an article in the "Annales d'Hygiene et de Medicine Coloniale," says that if the fleshy leaves of the plant are cut up into pieces and mixed with water, a mucilaginous mixture is soon made, and spreads out on the surface of the water, forming exactly like petroleum, an isolating layer which prevents the larvae of the mosquito from coming in contact with the air, thus destroying them in fifteen to fifty hours, depend-

## PRINTERS' LEAGUE FULLY FLEDGED

At a meeting of the Printers' Baseball League held last night in the roof-garden of the Young Hotel, George Henshall was elected president of the league; W. R. Farrington, vice president; Ed. Towse, secretary, and J. W. W. Brewster, treasurer and manager.

The constitution and by-laws were adopted. It was decided that the league shall consist of Stars, Bulletins, Advertisers, Paradise of the Pacific and Mercantile Printing Co.

The season will open on Sunday May 10 with games between the Star and Advertiser and the Bulletin and Mercantiles. The last games will be played on July 19.

No league players will be allowed and no player may play any of its carriers.

Sam Chillingworth volunteered to umpire the games and his offer was accepted.

Votes of thanks were passed to C. F. Chillingworth and W. H. Hoogs for gifts of medals; to Alexander Young for the use of the hotel, and to J. W. W. Brewster for his hard and disinterested work in organizing the league.

## Pumps Vim Into Worn-Out Men

If you feel tired and stupid, with no ambition to get out and hustle; if you have spells of despondency and a desire to give up the fight, you need new energy. The race is to the strong. Show me a failure and I'll show you a weakling, lacking in courage, strength and ambition, three essentials to the make-up of a successful man.

I can take a man like that and pump new energy into his body while he sleeps, and in a few weeks' time transform him into a giant in strength and courage. It is proven that energy and electricity are one and the same thing. If you lack this energy, you can get it only by filling your nerves with electricity. Electro-Vigor does this. Wear it while you sleep. Feel its invigorating stream of electric life in your nerves, its vitalizing spark in your blood. You wake up in the morning full of new life, new energy, and courage enough to tackle anything.

Electro-Vigor is an electric body battery which sends a steady current of electricity into the nerves and vitals, building up vitality and strength and removing the cause of disease. No pain can exist in a body charged with electric life. You can have no rheumatism, no weakness, no inactive parts, for the life

generated by this appliance gives health and strength to every organ.  
Electro-Vigor is not an electric belt. It never needs charging, for it makes its own power constantly.

After the use of Electro-Vigor I have regained my lost power, and am feeling strong and well again. I would not take a thousand dollars for what your treatment has done for me.

**THE PROHIBITION WAVE.**

Some Southern California towns and one whole county went dry the other day and a few towns in the north followed suit. Sonoma county, a wine-growing district in the northern part of the State, defeated the anti-saloon people, but this victory was measurably offset by the dry victory at Vacaville—an important railroad town in the Sacramento valley. At present the prospects are believed to favor a dry California outside the large cities and a few wine-growing counties, with a fair chance to bring the cities, through legislative action, under a high-license law.

The prohibition movement in the East and Middle West, is making steady progress. In the recent spring elections thirty-five whole counties have been added to the prohibition column, mostly in Michigan and Illinois, 1500 cities, towns and villages having voted against the saloon. About one-half of these constitute net prohibition gains. In addition to this, there are innumerable reports from Eastern States of villages where liquor has long been sold going dry under local option laws. We note further, in liquor trade journals, that whisky drummers, coming back from the South, report that Mississippi and Louisiana are likely to go for prohibition. All liquor journals agree that the whisky trade is greatly depressed.

Some of the reports from cities which are trying prohibition are most satisfactory in the moral and economic sense. According to reports made by City Comptroller Goldsmith of Atlanta, Ga., March 19, 1908, the city will have fully \$100,000 more to spend this year under prohibition than was provided for in the January estimates. "The increase in taxable values," declares Comptroller Goldsmith, "will range from \$3,000,000 to \$5,000,000 on real estate alone. The city's financial condition is splendid," he concluded. Atlanta's Chief of Police says: "Under high license this city reports total number of arrests from January 1 to February 15, 1907, as 2684. Under prohibition from January 1 to February 15, 1908, total number of arrests recorded was 1430. Arrests for drunkenness January 1 to February 15, 1907 (license), 676; arrests for drunkenness (under prohibition) January 1 to February 15, 1908, 134."

The Mayor of Knoxville, Tenn., says: "During the first three months under prohibition (November 1, 1907, to February 1, 1908) there were 549 arrests in Knoxville. During the same months one year prior there were 1045 arrests."

"The total arrests for drunkenness from November 1, 1907, to February 18, 1908, were 296. For the same months one year before there were 649."

"Savings accounts are climbing, industrial insurance is being promptly paid, children and wives are better clad, and the money which formerly went to saloons is now being largely used for the betterment of home conditions."

Here is the report of L. H. Putnam, Chief Probation Officer of Birmingham, Ala.:

"Total arrests January, 1908 (under prohibition), 553; January, 1907 (license), 774."

"Arrests for drunkenness January, 1908, 50; January, 1907 (under license), 174."

The Chief of Police of Asheville, North Carolina, says: "Total arrests January 1 to February 27, 1908 (under prohibition), 349; January 1 to February 27, 1907 (under license), 417."

"Arrests for drunkenness first fifty-eight days 1908 (prohibition), 50; first fifty-eight days 1907 (license), 171."

The Mayor of Champaign, Ill., reports prohibition results as follows: "Under license, October, November and December, 1906, January and February, 1907, total number of arrests 293; under prohibition, October, November and December, 1907, and January and February, 1908, total arrests 79."

"Arrests for drunkenness, five months above noted (under license), 177; under prohibition, arrests for drunkenness, five months above noted, 51."

The stock arguments against prohibition, namely, that it does not prohibit and that, by prohibiting, it chills prosperity, contradict each other. In the places where the open sale of liquor has been abolished, the reports are in accord as to the economic benefits derived; and so far as enforcement is concerned, the verdict is with Father Kelly, who is quoted by Mr. Dooley as saying that "the Prohibitionists have made drink wrong to take, hard to get, and turr'ble bad whin ye git it."

**PROGRESS OF HARMONY.**

The retirement of A. G. M. Robertson from the chairmanship of the Republican Territorial Committee and of Harry Murray from the chairmanship of the Republican County Committee helps clear the way to party harmony.

So does the endorsement in the organization camp of a good man for mayor and another good man for campaign manager.

By a new deal all around—a complete organization of the committees to begin with—and a determination to name a ticket worthy of the party of moral ideas, the Republicans can sweep the field.

While not authorized to speak for the Civic Federation—no member of the Advertiser family, so far as we know, belonging to that body—we assume that it asks nothing of the Republican party but clean men and clean policies; and that the greater part of its voting strength will go to a reputable Republican ticket. It is a cheering sign that the organization is beginning to take notice of that strength and respect it. The lowest vote the Federation ever polled on Oahu was that for High Sheriff Henry in the special county election, a total of between 800 and 900, exclusive of the ballots that were thrown out. In a subsequent election the Federation influenced or led or acted in harmony with, a very much larger number, electing sound Democrats over unsound Republican candidates. To every politician it was plain that the Republican party could not expect to carry a straight ticket made of crooked material over the combined and federated opposition; hence the prompt and gratifying response to harmony proposals. As things are now going, the party will win by deserving to win; it will be lifted out of the atmosphere of saloons and slums and become worthy of the support of all good citizens.

**SPLENDID OPPORTUNITY FOR STUDENTS.**

The arrangements Superintendent Babbitt has made for transportation by army transport for thirty of the teachers in the public schools of Hawaii, to attend the summer session of the University of California, is something that ought to prove of very high value to the schools of this Territory. The transportation secured is practically free, the only expense being a payment of a dollar a day for subsistence while on the transport. The Superintendent has also arranged for board and lodging in Berkeley at places approved by the officer of the university who has the habilitation of students under his charge, at prices from \$25 to \$35 a month.

All this will give opportunity for a score and a half of the teachers of our public schools to spend two months of study in one of the great universities of the country at a cost little more than nominal, and during the vacation period of their own school year. This summer session of the University of California is designed to meet real purposes. The courses presented are university courses. They are presented by university professors of the highest standing. They lead to definite university credits for those who so desire. They may be taken as a definite part of a university course.

The Star thinks that Dr. Wood was a costlier President of the Board of Health than Pinkham. It is true that a sanitary fire, authorized by him, got away from the Fire Department and burned Chinatown, but that was not Dr. Wood's fault. Besides, the United States paid the adjudicated fire claims afterward. In Pinkham's case, extravagance was almost a matter of routine. To pay \$10,000 for buildings with which to bluff Wallach and his friends was a mere matter of course under the late regime.

To relieve the unemployed in Kingston, Ontario; the city opened relief works, paying the men who worked on them a dollar a day. As soon as the work started a number of union men appeared and organized the laborers, who then promptly went out on strike for union wages. This was carrying the thing to too fine a point, and the city withdrew its appropriation for the needy.

**PROF. GILMORE MAY  
HEAD NEW COLLEGE**

The Board of Regents had a special meeting yesterday to authorize Regents Gartley and Hosmer, who are going East, to make large purchases of apparatus for the new institution. Dean Pope and Regents Campbell and Smith were allotted the task of selecting a library. President Cooper received a cablegram from President Schurman of Cornell University recommending Prof. John W. Gilmore of the Pennsylvania State University for President of the Hawaii College of Agriculture and Mechanic Arts and Messrs. Gartley and Hosmer were delegated to interview Prof. Gilmore. The latter was an agricultural teacher in a Honolulu school a few years ago and went from here to the Philippines.

**EXCURSION TO COME**

(Continued from Page One.)

ship service, you would have tourists by the hundreds all the year round, but as it is now, when a person does get here, they are sometimes obliged to wait weeks before they can get back home again.

"In speaking about steamship service, I am naturally not in favor of foreign ships carrying the passengers, and I am just as naturally strongly in favor of the subsidy bill. I think perhaps that the bill will go through this year, and if it does, I understand that a number of new ships will be put on the Pacific run, which will include Honolulu as one of the ports of call. "Honolulu should have tourists, and have them in large numbers, and whenever I get a chance I always put in a good word for the Paradise of the Pacific, as well as the Paradise of the World."

"In the newest folder of the Santa Fe railroad, which is called 'To London Through America,' and which was published for my use in the Orient, Hawaii is given a good deal of space, and on this trip I am taking seventy-five large cases of them to be used in distribution all over the Far East."

"Just before I left San Francisco I talked with a large party at the Fairmont Hotel who are coming down shortly for a visit, which will extend until after the fleet leaves here."

"Regarding the special excursions that are planned to leave San Francisco with the fleet, I understand that there will be at least five ships, providing they can be filled, and from what I could learn the rates will be within the reach of all, and the tourists can either come ashore or stay on board during their stay here."

"In conclusion, I want to say that I think Hawaii has a good deal to look forward to. The note here can rest assured at any rate that whenever I can help Hawaii I will."

**A SAD MISTAKE.**

An elderly man arrived at a football ground, on the occasion of a county cup-tie, carrying two large wicker baskets. "These 'ere pigeons are to tell the people at home 'ow things are goin'," he explained. "Every goal we score I'm goin' to let a blue bird loose, and if the other side gits a goal a white 'un's goin' up." Unfortunately, a youth with an eye to fun took advantage of the fancier's attention being centered on an exciting piece of play to liberate the whole of the birds. "Now you've done it, young feller," said the old man, as he glared at the culprit; "it'll cost me sixpence for a telegraph 'ome to stop 'em from 'aving the band out. All them pigeons goin' off together was to be a sign as 'ow our chaps 'ad killed the referee!"

**CLEARING WAY FOR HARMONY.**

A. G. M. Robertson has announced his intention to retire from the chairmanship of the Republican Territorial Central Committee. He has held the position two terms. He says he does not think his duty to the party requires that he should retain the position longer. Harry Murray has announced that he will retire as chairman of the Republican County Central Committee.

**ISOLATION HOSPITAL.**

The last Legislature made an appropriation of \$1500 for an isolation hospital for contagious diseases at Hilo. This is now to be built very shortly.

**A WONDERFUL DISCOVERY.**

This is the age of research and experiment, when all nature, so to speak, is ransacked by the scientific for the comfort and happiness of man. Science has indeed made giant strides during the past century, and among these—by no means least important—discoveries in medicine comes that of **THERAPION**. "This preparation is unquestionably one of the most genuine and reliable Patent Medicines ever introduced, and has, we understand, been used in the Continental Hospitals by Ricord, Rostan, Jobert, Velpeau, Maisonneuve, the well-known Chassaignac, and indeed by all who are regarded as authorities in such matters, including the celebrated Lallemand and Roux, by whom it was some time since uniformly adopted, and that it is worthy the attention of those who require such a remedy we think there is no doubt. From the time of Aristotle downwards, a potent agent in the removal of these diseases has (like the famed philosopher's stone) been the object of search of some hopeful, generous minds; and far beyond the mere power—if such could ever have been discovered—of transmuting the base metals into gold is surely the discovery of a remedy so potent as to replenish the failing energies in the one case, and in the other so effectually, speedily and safely to expel from the system the poisons of acquired or inherited disease in all their protean forms as to leave no taint or trace behind. Such is the New French Remedy **THERAPION**, which may certainly rank with, if not take precedence of, many of the discoveries of our day, about which no little ostentation and noise have been made, and the extensive and ever-increasing demand that has been created for this medicine wherever introduced appears to prove that it is destined to cast into oblivion all those questionable remedies that were formerly the sole reliance of medical men.—Diamond Field Advertiser, Kimberley.

## ALL TRAFFIC WILL BEAR

### The High Comparative Rates of Travel in Hawaiian Waters.

The world's record highest fares charged for water voyages of between two and five hundred miles are as follows.

#### THE 200-MILE RECORD.

Hawaii—Honolulu to Kapaa, Kauai (return), 200 miles, \$14.00, or seven cents per mile.

Australia—Mackay to Bowen (return), 210 miles, \$11.00, or 5 1/4 cents per mile.

New Zealand—Gisborne to Napier (return), 172 miles, \$5.50, or 5 cents per mile.

Hawaii wins hands down, Australia comes second, New Zealand third, and the rest of the world, including America, is out of the race.

#### THE 300-MILE RECORD.

Hawaii—Honolulu to Laupahoehoe (return), 374 miles, \$25, or seven cents a mile.

New Zealand—Taumaranui to Wanganui (return), 300 miles, \$19.25, or 6 1/2 cents a mile. (River trip down and up rapids—lower rates to actual settlers.)

Australia—Mackay to Cairns (one way), 370 miles, \$15.00, or 4 cents a mile. (Return fares at greatly reduced rates.)

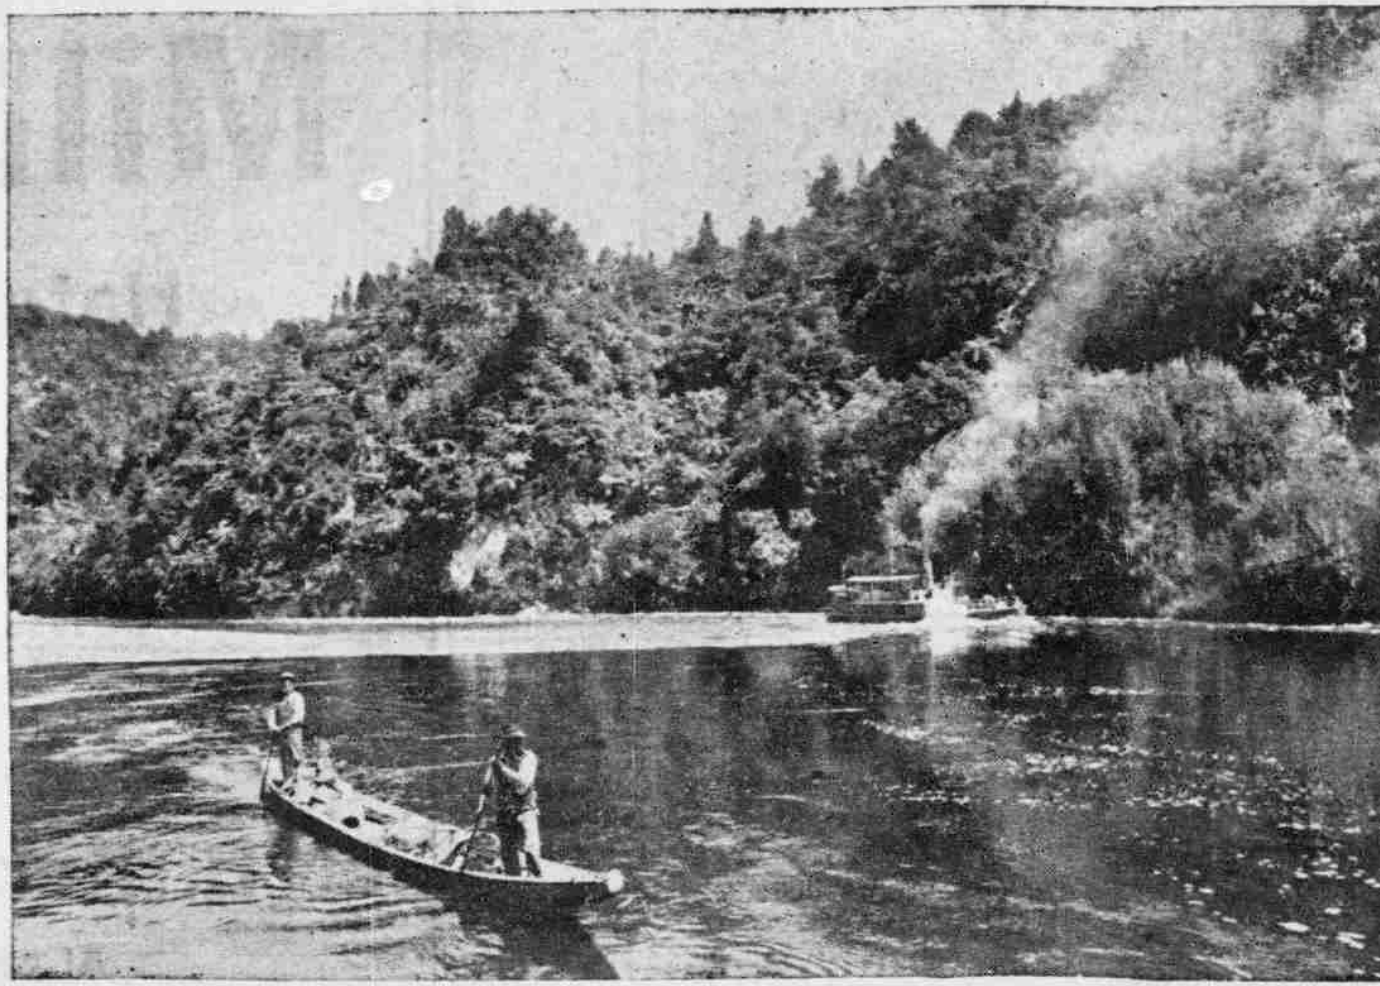

In transportation charges by water, Hawaii stands superlative; hers are the highest in the world, and have been for half a century. In 1865 it cost \$25 to go to Hilo and return from Honolulu, and that is the fare today. Until recently it cost \$2.25 for the round trip from San Pedro to Catalina Island, California, nearly 4 cents a mile. The Californians cried extortion, and the rate was lowered to 2 1/4 cents a mile, but Hawaii seems content to forever stand still, so far at least as the transportation problem is concerned. All inter-island fares are quoted at or about seven cents a mile—the highest water mileage rates in any part of the seven seas.

New Zealand thought until recently that hers was the glory of charging the tourist the highest regular rates by water. On the Wanganui river, the pride of Maoriland, a charge of \$19.20 is made for a round trip of 300 miles; but the government, public and tourist bureau raised such a protest that the rates were lowered for the actual residents on the river, and in all probability the government will be compelled by public clamor to either take over the Wanganui line, or authorize the Tourist Department to purchase and run rival boats at a fair rate of passage. It is due the Wanganui Company to state that it has spent tens of thousands clearing the river of obstructions. The start of the journey is made with a steam launch strong enough to thump broadside over shallow ledges of solid rock, and change of steamers is made twice before the end of the run is negotiated. Then, again, these boats are handled up stream by chains and wire ropes. Talk of expense! And yet we hold the world's record of over-charging the passenger, and have held it for fifty years.

Australia has tried to compete with New Zealand and Hawaii in startling the tourist by charging what she believed to be the highest passenger rates in the world, but she comes a poor third, with barely 5 cents a mile to her credit, and that for a local run along the forlorn coast of North Queensland between Mackay and Bowen.

It is the boast of Australasia that her laborers are the highest paid in the world, and that the minimum wage of two dollars a day of eight hours, with double pay all round if a Marlinpike is turned over by one of the crew of a Sunday, makes it necessary to charge fares that startle foreigners; but even then she falls far below the high-water mark set by our Hawaiian inter-island transportation companies half a century ago, and still maintained.

In other parts of the world the cost of transportation has steadily decreased. Ten years ago Thomas Cook & Co. ran an excursion steamer from New York city to the Mediterranean, charging a minimum of one thousand dollars for the cruise. The Germans saw that there was money in this—there usually is in anything that Cook conducts—so they put on a bigger and better boat, cutting the cost of the cruise to \$700.

GOING UP NGAPORO RAPIDS, NEW ZEALAND.

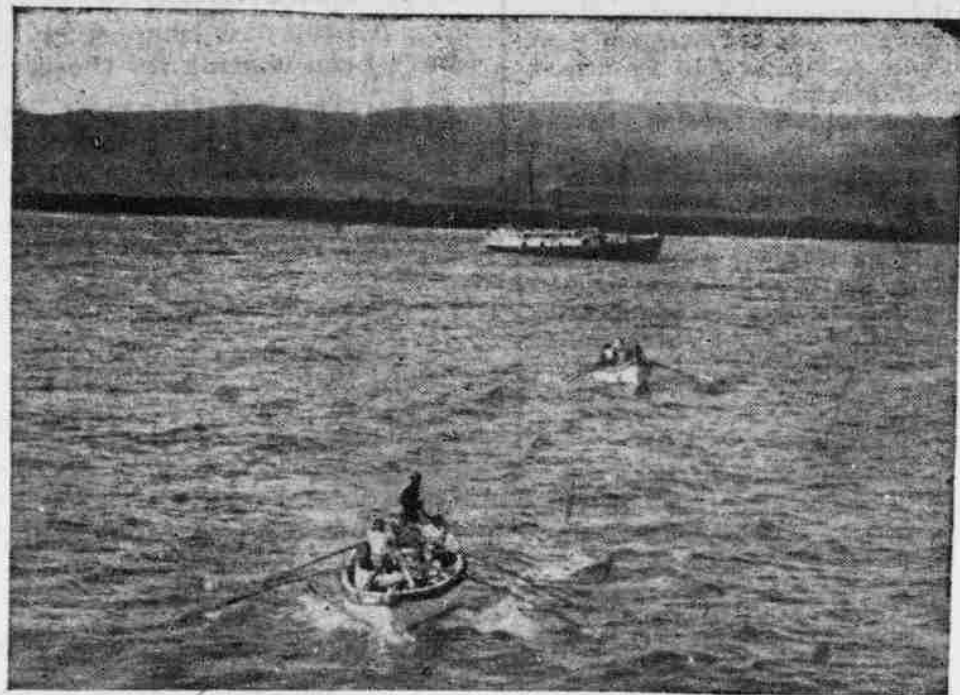

The second most expensive bit of water travel in the world, the Wanganui river trip, six cents a mile.

Then another company put on a still finer boat, and reduced the cost to \$500. A bright American got up an annual cruise to the Orient, chartered the largest steamship in the world, and gave a 72-day Mediterranean cruise for \$400. The Hamburg-American cut it to \$300 for a 90-day palatial cruise, and England began sending pound-a-day cruising yachts to the Mediterranean; they all make money, and now, instead of five or six hundred Americans, at most, making the Mediterranean cruise, ten thousand embark annually, one cruising vessel alone carrying each February from New York 700 cruisers, mostly school teachers and clergymen's families, for \$400, including all shore expenses, and a 72-day cruise, or about the cost of a return from New York to Honolulu and a side trip to Hilo—a journey of 23 days at most.

It costs \$50 on almost any of the big liners to cross the Atlantic in the off season, a journey from 50 to 100 percent longer than that from San Francisco to Honolulu. Even in the season, there are splendid vessels of 8000 tons that carry first-class passengers across for \$50 and \$60—against the \$75 paid for the Honolulu-San Francisco

compelled progressive moves that benefited both public and stockholders. The company learned that low rates meant increased passenger traffic, more settlers, more freight and a building up of the country in a way that vastly benefited the carrying company. Some day, and it is bound to come, keen-eyed capital in America will note the opportunities that are being thrown away in Hawaii, and relief will arrive, and our proud spirit be broken, for to some other land will then pass the proud record of the world's highest water passage rates. New Zealand has made the South Sea Islands the happy hunting grounds of the Australasians, by conducting cruises among them at a moderate cost to the cruiser. A foolish Federal coastal regulation, wrongfully applied to Hawaii, holds us back, but the invitation for others to come in and exploit our inter-island trade is so strong that, with a little proper promotion, it must soon come—and then, perhaps, we will show New Zealand what we can do when we make up our minds to go in for the "square deal."

Los Angeles is organizing a Hawai-

trip on boats not nearly so fast as those on the Atlantic.

What an invitation for some steamship company—such as the United Fruit—or for a party of capitalists to organize a Hawaiian exploiting company and reach out for the rich, golden harvest that is being neglected in Hawaii. The men who made the islands of the Caribbean Sea the happy stamping grounds of the American tourist by putting on a service of popular priced passenger boats, would do well to exploit Hawaii, and a little active promotion in that direction would perhaps bring results.

New Zealand built up the fourth largest steamship company flying the British flag in twenty-five years from a tiny steamer not larger than the smallest of our inter-island fleet, by just such methods that if pursued in connection with these islands would make the fortunes of the promoters and develop our resources to an extent we little dream possible today. Fortunately for the New Zealand company, it had a government to deal with that did not fear its growing monopolistic methods, but by law

ian Island cruise. It is among the first of its kind, and necessarily more or less in the nature of an experiment, and therefore more costly than the South Pacific or Atlantic Ocean cruises, but once the rut is formed, regular Hawaiian Island cruises must follow—that is as inevitable as were the Caribbean cruises from the Atlantic States, and the South Sea Island cruises from Australia.

Australia and New Zealand combined have not the population of our Pacific States, but their people have been systematically trained and tempted to travel by the offer of low transportation fares, with the result that freights have followed the passenger. Fortunately for Hawaii, it seems now that diversified farming and other kindred interests are to have an opportunity. It will no longer be possible, perhaps, for one concern to corral everything. Already there is a breaking away. New interests are beginning to demand better and more reasonable communication between the islands and with the Coast, and even the old interests are beginning to see that the colossus

they have built up is of clay and needs strengthening. A little fearless agitation at the crucial moment and a victory can be won that will lift transportation in these islands from the jogging that is has followed so drowsily for fifty years.

A fearless appeal to the Interstate Commerce Commission, a petition to Congress to legislate on Territorial transportation fares by land or water, an arousing of our own people to bring facts and figures of inter-island and Hawaiian-Pacific Coast commerce before the coming Territorial Legislature, and agitation, agitation, agitation, will educate men of means at home and abroad to the wonderful possibilities before those progressive enough to take in hand the intelligent development of transportation facilities to and among these islands. Then, and not till then, perhaps, will the smaller resources of Hawaii be permitted to expand and develop. It may be a matter of pride to some that transportation charges among the Hawaiian Islands are the highest in the world, but to the many a change that would tempt the small farmer, rather than forbid him, to come and locate, and not to insult the intelligence of the tourist that he passes us by, must seem preferable.

The whole world is educating its people to travel by offering cheap transportation rates, and the dividends of the transportation companies are increasing. Hawaii alone remains aloof and rebuffs the stranger wishing to cruise to and among the most beautiful bits of island scenery in the whole world. A remedy is in the hands of those in charge of the present transportation facilities; it also is within reach of the people, either through combination or legislation. A united request from all the islands for a reduction of fares in Hawaii to an equality with those prevailing in other parts of America might arouse the patriotism of those who now control the destinies of these islands. If not, then a plain presentation of facts and figures to both Legislature and Congress must certainly remove from Hawaii the obstruction and stigma of maintaining—as she has for half a century—the most forbidding transportation rates in the whole world.

THE HONOLULU Y. M. C. A. BUILDING.

## QUARTER OF A CENTURY OLD

### The Silver Jubilee of the Y. M. C. A. Building Today.

Twenty-five years ago today the Y. M. C. A. building, certainly one of the skyscrapers of that era, was dedicated to the uses which have made it such a permanent and valuable adjunct to the development and growth of Honolulu. This notable anniversary is to be observed at noon and this evening under the leadership of several of the identical men who had the dedication ceremonies in charge in 1873.

The program contemplates a short praise and thanksgiving service from 12:05 to 12:30 during the noon hour and a reception and social at 8 in the evening. Mr. W. W. Hall will preside at noon and the speakers will be Rev. J. W. Wadman and Capt. Bray. This will be a sort of rapid-fire convention or gathering and is intended to attract every man who can spare the time to visit the building. Mr. Hall of course is a well known veteran in the association work. Mr. Wadman is one of the city's most popular speakers. Capt. Bray, in the days of "when we were twenty-one," was the first secretary of the association.

At eight in the evening the directors of the association, with Mr. T. Clive Davies at the head, will be in the receiving line. After this formality there will be three musical numbers. Mrs. Mackall, the soprano, and Mr. Chester Livingston will sing and Mr. W. A. Love will render a violin solo. Mr. P. C. Jones, who was chairman of the dedication committee in 1873 and who remembers all about it as if it was only day before yesterday, will give reminiscences for five or ten minutes. Mr. Jones' happiness in this line has been a very pleasant feature of a number of similar gatherings lately.

All friends of the association are invited to both the noon and evening affairs. In the New Spirit of this body there is a deep intent to acquaint the community with its purposes, methods and various activities. The Honolulu Association has a big plant, is trying to do big work and wants the cooperation and moral support of the whole town. In the last twenty-five years it has certainly kept pace. Thousands of young men have been materially benefited in the several departments of the association. It has played a distinct and effective part in the "Life of the Land." It has contributed largely to education, to athletics and to that genuine service for which all 100 per cent are striving.

That the association has done and is doing work that has appealed to the community at large and that has commanded "aid and comfort" from every direction is best evidenced from the fact that the present building is right now outgrown. For the next term of the Educational Department it will be necessary to carve three rooms out of the auditorium upstairs. The establishment is cramped for room everywhere and the plant is growing right along. Both Mr. Trent and Mr. Super may say something about these things this evening while the refreshments are being brought in from the Young Cafe.

## MARINE

Under a new commanding officer,  
Captain Henry E. Morton, the Pacific  
Mail steamship Mongolia arrived yes-  
terday afternoon from San Francisco.  
She left the Coast on April 14, Tues-  
day last, and brought three days later  
mail, 191 sacks.

There were seventy passengers for  
Honolulu, including Mr. and Mrs. W.  
M. Alexander, Mrs. M. E. Alexander  
and nurse, A. W. Bottomley, J. S. Bull,  
J. A. Dougherty, Mr. and Mrs. A.  
Humburg, Rev. Leopold Kroll, Mrs. L.  
Kroll and child, Master Leopold Kroll  
III, Master Adolph Perrine Kroll, A.  
Lewis, Jr., Mrs. C. D. Lumkin, Captain  
Corwin P. Rees and wife, Mr. and  
Mrs. H. D. Sloggett and children,  
George P. Thielen, Mr. and Mrs. Wil-  
liam Waterhouse, and M. J. Dow.

The Mongolia came with 210 cabin  
passengers and 200 in the steerage,  
dropping seventy cabin passengers here  
and picking up a number for the  
Orient, whither she sails at 1 o'clock  
this morning from the Hackfeld wharf.  
Among the through cabin passengers  
are a number of prominent tea mer-  
chants going to buy for the American  
market, J. C. Whitney of Chicago, C.  
E. Wyman of New York, and William  
Hohmeyer of Formosa being of the  
number.

Charles Conlish and wife of San  
Francisco are bound for Hongkong.  
Conlish was formerly a newspaper man,  
and is now connected with the San  
Francisco Gas and Electric Company.  
He is going to China for a vacation.

## MONGOLIA'S CARGO.

P. M. S. S. Mongolia carries 3000  
tons of cargo for the Orient, consisting  
of cotton, sewing machines, boots and  
shoes and provisions. She brought 100  
tons of general for this port.

## CHINESE PRISONERS.

Aboard the Mongolia are thirty-six  
Chinese prisoners ordered deported by  
the American government. She also  
carries treasure, \$500,000 in silver bars  
for the Chinese banks.

## SHIPPING NOTES.

The tank steamer Lansing is bring-  
ing from Port San Luis 40,000 barrels  
of crude oil in bulk, valued at \$24,000.  
In docking at the Hackfeld wharf  
yesterday afternoon the Mongolia part-  
ed her bow line, her stern swinging so  
that her port side just touched the  
steamer James Makee across the slip.  
Fortunately the force was not suffi-  
cient to injure the smaller boat.

## THIS BIT OF LAND IS A MAVERICK

Land Court Decree Shows It Has No Legal Ownership.

Over near the Japanese Methodist church on River street, there is a little triangle of land which nobody claims. The fact that nobody claims it became known in the course of proceedings for a registered land title for a small lot of land facing on Achi lane and running back almost to the Japanese church lot.

These proceedings themselves have had many curious features and have brought out many curious features of old land surveys. The proceedings were originally brought by J. A. Magoon's father in 1904. But by reason of a mistake of the surveyor, the land described and the land claimed proved to be widely separated. So a new proceeding was begun, and another mistaken survey was discovered. Then the original petitioner died and J. A. Magoon began a proceeding under a deed from the father. After several amended maps were filed and a good many surveys were made a decree was rendered by Judge Weaver from which an appeal was taken to the Supreme Court. The Supreme Court reserved this in part and there was another entered. A first decree has now been entered. The map of the registered land and the surrounding land which is made a part of the decree shows a triangular piece between Magoon's land and the Japanese church for which there is no claimant. It is six feet wide at the widest part and 78.8 feet long. It is just about wide enough for a series of graves.

**ARRAIGNMENTS.**  
The following were arraigned before Judge Robinson yesterday:  
Harry Lyman, larceny, second degree, not guilty, J. L. Kaulukou was appointed to defend him.  
Wong Chang and seven others, assault and battery with a weapon on Chick Wa, pleaded not guilty. They put up cash bail for their appearance.  
Louis James charged with stealing beer from the Seattle Brewing and Malt Company, pleaded not guilty.

**NO BILL RETURNED.**  
The grand jury returned a no bill against William Mahuka charged with assault and battery, and Judge Robinson ordered his bond cancelled.

**WILL PROBATED.**  
Judge Lindsay yesterday admitted to probate the will of the late Paul Lemke who died February 11 last. The estate is devised to the widow Agnes Lemke, during her life or widowhood, and on her remarriage or death it is to be divided equally among their three children. The estate consists of lots in Kapahulu and in Nuuanu valley and of Kihel, Waialua and Ewa shores, promissory notes and cash in bank, the personal property being valued at \$5078.12.

J. H. Schnack, W. L. Howard and J. Marcellino were appointed appraisers to act without compensation.

**LIQUOR CASE.**  
Before Judge Robinson yesterday morning the case of Lam Yip Kee, charged with selling liquor without a license was on for hearing. A plea in bar was filed which was set for hearing at 3 o'clock in the afternoon and the jury was dismissed for the day. Lam keeps a place on King street opposite Aala Park.

**DIVORCE GRANTED.**  
Helen W. Kelsey has been given a decree of divorce from Henry E. Kelsey on the ground of neglect and failure to provide. The libelee is required to pay costs and libellant's attorney fee. The decree was granted by Judge Lindsay.

**TRUSTEE RESIGNS.**  
Judge Lindsay has accepted the resignation of James B. Castle as trustee of certain property of Elnor Henry Castle, a minor, and has appointed L. Tenney Peck in his place.

**GETS THIRTY DAYS.**  
August Sheldon pleaded guilty to an indictment of burglary in the second degree before Judge Robinson yesterday and was sentenced to thirty days imprisonment.

**FEDERAL INDICTMENTS.**  
The Federal grand jury yesterday returned sixteen indictments into Judge Dole's court. In three cases the indicted persons are not under arrest and these indictments are on the secret file.

George Davis, who played ball last season with the Diamond Heads is indicted for violation of the Edmunds act; Hikiri and Kiku Kanisage, and Iwataro Kaisan for the same offense; Takami for adultery; Jacob Rosenberg for receiving property stolen from the United States; Eddie Matson for smuggling cigars from the Dix; Kaaelehul, bigamy, and Manuel Perez and August Walsh, violation of the Edmunds Act.

Those indicted will be arraigned this morning.

**KOKI INDICTED.**  
Three indictments were returned by the Federal grand jury yesterday against Moses Koki, late postmaster at Kamuela, Waimea, Hawaii. One charges him with the embezzlement of a registered package addressed, Manager Pacific Sugar Mill, containing 100 dollar gold pieces; another with embezzling a registered package addressed, Manager Pacific Sugar Mill containing 100 five dollar gold pieces; and a third for embezzling a \$1500 registered package addressed to the Hamakua Ditch Company.

**BIG DAMAGES ASKED.**  
Judge DeBolt and a jury were engaged all day in the trial of the suit of Caroline Vierra against the Waialua Agricultural Company for \$25,000 for the death of her husband. Her husband was killed November 22, 1907, while operating cars on a trestle at a fill on the Waialua plantation. Besides his widow, he left three small children.

## NOT PIRATES BUT COMMON THIEVES

The Men Who Wrecked the Lady Indicted for Larceny.

From being pirates, Soldiers Charles Duesbury and Stephen Smith are now charged with being just common thieves. They stole the schooner Lady, took her out to sea and wrecked her but the Federal grand jury in an indictment returned before Judge Dole yesterday simply charges them with stealing stuff from her after she was wrecked.

The indictment alleges that these two, "from a certain American schooner called 'Lady,' then and there the property of Frederick C. Miller, the said Frederick C. Miller being then and there an American citizen, and the said American schooner 'Lady' being then and there wrecked, lost, stranded, and cast away upon a place within the admiralty and maritime jurisdiction of the United States, to wit, upon a reef and bank of the Pacific Ocean bordering on the Island of Oahu, in the said Territory and District, feloniously did plunder, steal, take and carry away certain goods, merchandise, and effects, to wit, two pillows of the value of two dollars, one bedspread of the value of one dollar, and one awning of the value of fifteen dollars, and all of the aggregate value of twenty-one dollars, the said goods, merchandise and effects being then and there the property of the said Frederick C. Miller and then and there belonging to the said American schooner 'Lady,' contrary to the form of the statute in such cases made and provided, and against the peace and dignity of the United States of America."

Smith and Duesbury will be arraigned this morning.

## R.W. ATKINSON TRUSTEE FOR OAHU BONDHOLDERS

Robert W. Atkinson has been appointed trustee under the deed of trust of the Oahu Railway and Land Company given to secure the bond issue of the company.

The appointment was made April 16 by W. F. Frear sole trustee under the power given in the deed. The deed was to W. F. Frear and Thomas W. Hobron. Hobron resigned some time ago and Atkinson has been appointed in his place.

Declaration of appointment was filed with Registrar Merriam yesterday. It is signed and executed by W. F. Frear. It sets out the original appointment of Frear and Hobron, the resignation of the latter and the failure of the Oahu Railway and Land Company to appoint a successor. Wherefore under the powers given in the deed Atkinson is appointed.

## WOMAN'S POWER

The healthy woman; strong mentally and physically, whose ambition and magnetic influence urge men to deeds of grandeur and heroism; such women are all-powerful. Weak, sick and ailing women have little ambition; their own troubles occupy all their thoughts. They dwell upon their pains, suffer from nervousness and headaches; often are extremely melancholy, and avoid society. For thirty years

**LYDIA E. PINKHAM'S VEGETABLE COMPOUND** has been saving women from this awful condition.

Mrs. Louise Jung, of 332 Chestnut St., Detroit, Mich., writes: "I suffered from a very severe female weakness for a long time. Lydia E. Pinkham's Vegetable Compound, restored my health. I hope it will do other women as much good as it has me."

Mrs. Emma Wheaton, of Vienna, W. Va., writes to Mrs. Pinkham: "I was a walking shadow. My husband insisted upon my writing to you and trying Lydia E. Pinkham's Vegetable Compound, which I did. It relieved all my pains and misery, and made of me a very different woman."

**FACTS FOR SICK WOMEN.** For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, irregularities, periodic pains, backache, that bearing-down feeling, dizziness, or nervous prostration. Why don't you try it?

Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice.

### A GOLDEN WEDDING.

The London Times of a late date has the following:

"Mr. and Mrs. Hoffnung held a reception, which was numerously attended, on Tuesday evening at the Hyde Park Hotel, to celebrate their golden wedding. Mr. Hoffnung (who was formerly the Hawaiian Charge d'Affaires) and Mrs. Hoffnung had the honor of receiving a gracious message of congratulation and good wishes from the King. The first set of lancers included Mr. and Mrs. Hoffnung and their three daughters with their husbands. In the next set were included three of the bridesmaids who attended Mrs. Hoffnung in 1858."

### KNOWN IN HONOLULU.

Dr. Chas. Cuthbert Hall, President of the Union Theological Seminary since 1897, died lately in New York city. Dr. Hall was a cousin of Mrs. A. Francis Judd and Mrs. James H. Pratt of this city. He passed through Honolulu a year ago with his wife and two daughters on his return from his second lecturing tour in India.

Music for both events will be supplied by the famous Kaal Glee Club of Hawaiian singers. All tourists will be made specially welcome, and the management extends its usual cordial invitation to the local Army and Navy folk and the Seaside's usual patrons.

### EASTER SERVICES AT LEAHI HOME.

A very enjoyable and impressive Easter was had at the Leahi Home by both the inmates and the nineteen Christian Endeavorers of Central Union church, who had charge of the meeting. A vocal solo was rendered by one of the members in a pleasing manner. The meeting closed with the distribution of fruit and flowers.

Emmons H. Clark, a traveler for Lanman & Kemp, of New York, who spent some time here last December on the way to the Orient, committed suicide on board a Pennsylvania Limited train near Jersey City on April 2, while on his way back to his home from the Far East. The New York papers state that he was despondent through ill health.
