Measures For Bawaii.

WASHINGTON, March 5 .- During the closing hours of the session there were passed three bills or clauses which greatly affect the Hawaiian Islands. The most important, perhaps, is a bill which puts in the power March 4th. of the Secretary to the Treasury the creation of such sub-ports of entry as may be considered desirable in the Islands. In the bill which allows the depositing of customs receipts in national depositories in Porto Rico Alaska and Hawaii the amendment to section 5153 of the Revised Statutes will stop an annual drain of nearly a million dollars from the Islands. the money heretofore having been sent to the Sub-Treasury. In the sundry civil bill there is a clause which authorizes the redemption of the bonds of the Republic of Hawaii and appropriates over \$3,000,000 for that purpose and payment of interest, which will be due before payment may be

No Trace of Wreck.

San Francisco, March 4 .- The Japanese divers, who are proving themselves to be wonderful workers at extreme depths, were out again for several hours yesterday trying to locate the wreck of the Rio. On Saturday they began with the red buoy and the spot where Pilot Jordan "located" the wreck, and worked backward and forward for nearly a mile to the west. They changed their tactics yesterday, trying the bottom nearer the shore and close up the reef. In most of their work they walked on the bottom, following their boat, which was in tow of the the Jesuits in Spain and Portuga's tug Alert. Again they found no trace.

Attacked The Emperor.

Berlin, March 7 .- An attack upon Emperor William by Dietrich Weiland. was made while the former was driving from the Rathskeller to the railway station. The Emperor was struck on the cheek just below the right eye. He was not seriously injured.

The assailant of Emperor William in trying to escape fell under the horses of the escort riding behind the carriage. The escort handed the man over to the police.

Consul Wildman could have explained many things, if he had lived to reach Washington, but back of his explanations would still have remained the greater truth unexplained. There is no doubt but that at first it was the plan to establish the Philippines as a republic, with Aguinaldo as president. But graphic descriptions of the wonderful riches of the Philippines fired the heart of the American people with an unholy greed for the possession and ownership of the Islands, and the administration found itself unable to stem the tide of popular feelings, consequently Wildman and Williams and even poor Dewey were compelled to stultify themselves, in order to satisfy the change of sentiment which had grown up in the United States. The administration is not to be blamed for the present unsatisfactory condition of affairs in the Philippines, but rather the dear people themselves, and that front of us. There were then no is the truth.

It is reported that the law against kahunaism is to be repeal d at the present session of the legislature. While that will hardly there in 1832, a little later, Probe done, still no particular harm would result if this law were bably Rev. Lorrin Andrews had just epealed. It will require faithful and careful espionage on the part of the police to find the right parties, and a strenuous effort on the part of the public prosecutor to effect convictions, but such time and care on the part of the police department would be very productive of fruit in the matter of repressing incipient criminalism.

As to the matter of expunging or suppressing records of what shall be considered as its "proceedings," there is no doubt but that the legislature has that power. About ten years since. on the motion of the assemblyman from Siskiyou, a scathing report condemning Assemblyman Bruner of Sacramento was refused to be allowed to be printed in the daily journal of the proceedings of the lower house of the California legislature. Senator know assuredly that he has had some if raisins ain't grapes what are they?" Kaiue was right, if not wise in the matter.

The News once more enters a solemn protest againt the vari ation in time at the different points on the Island of Maui. There is neither sense nor excuse to be urged in favor of the present diversity of the clocks and watches at the different plantations and towns, and the Planters' Association or some other organized and working body should take hold of the matter with the assurance that the majority of the people on Maui will sanction the move toward unanimity in our time pieces.

A beef trust has undoubtedly been formed on Maui, and unanately there is no law in force consigning the whole outfit to ie reef for about ten years. And the worst of it is that owing to imporary financial stringency, the News man was not able to et in on the ground floor for a thousand or so of shares.
