PRICE FIVE CENTS

MOTT-SMITH HEADS UTILITIES BODY

FREAR NAMES THREE COMMISSIONS

SENATE WILL CONSIDER TODAY

Appointments Sent to Upper House Will Be Acted on Early This Afternoon

APPOINTMENTS.
Public Utility Commission.
Ernest A. Mott-Smith, chairman.
John N. S. Williams.
Alex J. Gignoux.
Law Commission.
Alexander G. M. Robertson, chairman.
Arthur A. Wilder.
Charles F. Clemons.
Banana Claims Commission.
William T. Rawlins, chairman.
Frank F. Fernandes.
Manley Hopkins.

Appointments on three of the important commissions created by the present legislature were made by the governor today, and this morning he sent a message to the senate containing the names of the men selected to fill the key offices.

Proceedings for the confirmation of the names has been set for this afternoon, when the senate will sit as a committee of the whole in executive session. Several objections to the appointments were heard this morning, but the majority of the senators seemed pleased with the selections made by the chief executive, particularly the public utilities commission.

The governor makes no comment on the appointments, nor does he announce his reasons for his selections. The message containing the names was received just before the noon adjournment, and a motion was immediately made for action on it to be deferred until 2 o'clock.

In addition to passing on today's appointments, the senate will act on the recess appointments of the governor, which have not yet been confirmed.

Each commission contains one Democrat, Gignoux on the utilities body, Judge Wilder on the law compilation commission and Manley Hopkins on the banana claims commission.

RED LIGHT LAW MAY NEVER COME OUT

Whether any action will be taken by the house of representatives on the Red Light Bill remains a subject of extreme doubt, which will not be definitely determined until that body adjourns this afternoon. Like the reapportionment bill, this measure is still in committee, and unless reported out today, so that it may pass second reading, cannot get beyond that stage in the present session, thus encountering an innocuous death.

The health and police committee paid its second visit to Iwilei last night. As on Saturday night, on the occasion of the first visit, foreword of their coming had been given in the matter of the tenderloin and many of the brothels, especially those inhabited by Japanese women, were closed. Despite this fact, however, about ninety women were seen, some of them interviewed, but virtually no new facts, not already known to the individual members of the party, were uncovered.

Besides the members of the committee Rev. A. Ebersole, assistant pastor of Central Union Church; Judge Whitney, William Thompson, Sheriff Jarrett, Dr. Victor Clark and Chief of Detectives McDuffie were in the visiting party.

All the squalor indigenous to resorts of the character wherever found was observed; shacks in the tumbledown stage, surrounded by seas of mire and water last night, because of the rains; some of the interiors filthy with dirt and debris, while a number of recently erected, new

POPE'S NAME PASSED TEMPORARILY BY SENATE

The senate this afternoon is in executive session on appointments by the governor. When the Star-Bulletin's second edition went to press only Harbor Commissioner F. B. McStocker and the five members now officiating on the board of immigration had been confirmed. Superintendent Pope's name and several others had been temporarily passed.

ENERGETIC CITIZEN NAMED COMMISSION CHAIRMAN

Secretary of the Territory E. A. Mott-Smith

RAILROADS TO BE REGULATED

Concurrent Resolution Asks Congress to Put Common Carriers Under Utilities Commission

Asking congress to amend existing legislation and place the railroads of Hawaii under the supervision and control of the public utilities commission, a concurrent resolution, No. 20, has been introduced in house and senate and gives every indication of speedy passage.

The resolution was introduced in the house yesterday by Representative Sheldon and was approved almost unanimously. Its scope and far-reaching character, say the legislators who have studied it, make it one of the most important measures of the present session. It was introduced in the senate this morning and is up for consideration this afternoon.

The measure is another step to place all the public utilities and common carriers of the territory under the jurisdiction and regulation of the utilities commission.

The resolution reads:

"Whereas, The legislature of the Territory of Hawaii, has by act 89 of the Laws of 1913 of said territory, provided for the creation of a public utilities commission with broad and general regulatory powers, insofar as the same may be conferred without conflict with the constitution and laws of the United States, over every person, company or corporation, who or which may own, control, operate, or manage, as owner, lessee, trustee, receiver, or otherwise, any plant or equipment, or any part thereof, directly or indirectly, for public use, for the transportation of passengers or freight or for the conveyance or transmission of telephone or telegraph messages or the furnishing of facilities for the transmission of intelligence by electricity, by land or water or air, between points within this territory, or for the production, conveyance, transmission, delivery or furnishing of light, power, heat, cold, water, gas or oil, or for the storage or warehousing of goods, and

"Whereas, The legislature of the Territory of Hawaii has also by act, entitled 'An Act relating to certain gas, electric light and power, telephone, railroad and street railway companies and franchises in the Territory of Hawaii and amending the laws relating thereto' of the Laws of 1913 of said territory, to become effective upon its approval by the congress of the United States, so amended the franchises granted by the legislature of the territory with the approval of the congress, and containing provisions making them subject to amendment by the congress or by the legislature of the territory with the approval of the congress, as to place such franchises and the holders thereof subject with respect to reasonableness

Secretary of Interior Desires Settlement Soon of Governorship Situation

(Special Star-Bulletin Cable)

WASHINGTON, D. C., April 29.—The governorship situation is undecided and the situation is unchanged. E. M. Watson had not arrived in Washington this morning, though expected at any time. Secretary of the Interior Lane is awaiting his arrival. Mr. Lane desires an early settlement of the governorship.

C. S. ALBERT.

Information received by a number of people in Hawaii is to the effect that Watson is now leading the field for the governorship. Another report heard generally today is that if Watson is found physically unfit for the governorship, the name of Judge A. A. Wilder will be brought before President Wilson and Mr. Lane, and will be given strong backing here.

CHINESE PARLIAMENT ORGANIZING; HAND OF ASSASSIN STILL BUSY

The following dispatches were received by the Sun Chung Kwok Bo last evening from its special correspondent in China:

Peking, April 28.—The documents of the five-party loans have been signed by both parties on the 26th inst. Tung Far Lung Elected.

PEKING, April 28.—The former vice president of the provisional government, Tung Far Lung, received the majority of the votes cast by the lower house and was elected speaker of the house. The Tung Ming members of the house made charges of false balloting and started an open riot. The house adjourned.

To Assassinate Minister
PEKING, April 28.—The French hospital was mobbed today with the intention of assassinating Prime Minister Jiu Hing Kwun. The minister was aware of the impending attack and secretly left the hospital before the would-be assassins arrived. It was afterwards learned that there were thirty members from the south, in Peking, commissioned to assassinate prominent government officials of the new regime.

POWERS OF THE HARBOR COMMISSION EXTENDED

By a vote of 9 to 0 the senate passed the measure to extend the powers of the harbor commission this morning. Senator Brown sought to amend the bill, restricting the powers of the commission, but was unsuccessful. In offering the amendments, however, he stated that he had full confidence in the commission. Senator Coke spoke strongly in favor of the bill.

DON'T KILL THE FAIR BILL!

Hawaii Must Exhibit at San Francisco

Hawaii must be represented at the Panama-Pacific exposition.

House and senate have split on the appropriation bill because of the amendment proposed by Representative George P. Cooke making the appropriation void if California enacts alien land legislation.

Two conference committees have failed to agree, the senate conferees refusing to indorse this amendment, the house conferees refusing to approve the bill without the amendment. As a result, Hawaii's fair appropriation of \$125,000 is endangered.

Do the members of the house wish to go on record as the men who killed the fair bill?

Do they wish to kill the bill simply because this outrageous amendment is not approved by the senate?

The Star-Bulletin has already expressed itself on the subject of this territory meddling in the delicate California situation. This territory has no business to interfere. Hawaii's help has not

(Continued on page four)

FREAR VETOES BILL FOR SECOND ELECTRIC FRANCHISE

Governor Takes Ground That Public Utilities Should Not Be Duplicated

Governor Frear has vetoed the bill granting an electric light and power franchise to Theodore Hoffman. His veto of the measure, Senate Bill 101, was sent to the legislature this morning. Today was the last day the governor had to act on the bill. His ten days would have been up a few minutes after five o'clock this afternoon.

In his veto message the governor takes the broad ground that another franchise of the kind should not be granted in this city, declaring against the duplication of public utilities and their equipment in the streets of the city.

Action in both house and senate was deferred until this afternoon.

His message says in part: "The bill, I regret to say, contains a number of defects in language, most of which apparently are due to copying defective parts correctly and other parts incorrectly from earlier acts. These defects need not be set forth here.

More serious are the objections to the substance of the bill. Only two instances will be mentioned here.

"Although an effort is now being made to provide effectively for the public control of all public utilities in the public interests and an act has already been passed at this session for the creation of a public utilities commission and another act has been passed to amend, so far as may be, franchises previously granted so that they shall be subject to the

provisions of the public utilities act, the present bill leaves to the public utilities commission, so far as the franchise in question is concerned, only the matter of the reasonableness of rates and even that not on the initiative of the commission itself. The bill does not provide that the commission shall have jurisdiction over the other rate questions or over matters that do not relate to rates.

"Again, the bill grants a franchise for fifty years from the date of its approval by congress but it does not limit the time within which such approval shall be obtained. It, moreover, allows the grantee two years after such approval in which to begin work and that, too, without prescribing a minimum of work or expenditure to be done or made within such two years, and it allows the grantee two years more in which to become prepared to supply light and power, whether on a large or a small scale. Public franchises ought not thus to be granted to begin indefinitely in the future practically at the option of the grantee. If there is a real need for a second franchise of this sort in this city, the grant should be made only on condition that the city's needs in this respect shall be met without undue delay. The grant, if made at all, should be made only for the public welfare and not for the purpose of conferring a valuable right on private persons, which they may keep to sell or use at their pleasure, whatever their present intentions may be believed to be.

"Most serious of all, however, is the objection to granting another franchise

(Continued on page three)

COMMITTEE WILL PROBE SCHOOL CONDITIONS

What senators will form the hold-over committee to investigate into the school conditions of the territory during the next biennial period, and report to the session of 1915 its findings and recommendations, as called for by the resolution introduced in the senate yesterday by Senator Penhallow, is a question which the senators were attempting to answer this morning.

President Knudsen, who will name the committee, stated that he had not yet decided upon the personnel of the committee, and would probably not announce the names until tomorrow.

The resolution was introduced in the senate late yesterday afternoon when more than two hundred teachers and pupils of the Normal School were present to oppose the proposed consolidation of that institution with the College of Hawaii. Senator Penhallow's resolution asks that nothing be done in the matter of consolidation until the report of the hold-over committee is made, which was in accord with the wishes of the Normal School delegation.

The committee, which will probably be four in number, is to be selected from the ex-scholars whose terms do expire until 1916. Senators Baker, Baldwin, Coke, Lauka, Metzger, Penhallow, Rice and Wirtz are the eight hold-over senators.

WHITEHOUSE IS ATTACKED IN MEETING

Attacking the efficiency of City Engineer L. M. Whitehouse, Supervisor M. C. Pacheco today introduced a resolution at the noon meeting of the supervisors to remove the engineer from office. The motion was tabled by a vote of five to two. Supervisor McClellan moving to table and only Supervisors Pacheco and Wolter voting against it.

Supervisor Pacheco raised the contention that Joe Dias of the road department had been unfairly discharged and after explanations by Supervisor Petrie, chairman of the road committee, and Engineer Whitehouse, brought in the resolution to discharge Whitehouse.

The resolution said: "Be it Resolved, by the Board of Supervisors of the city and county of Honolulu, That inasmuch as the services of L. M. Whitehouse, city and county engineer, are not and have not been satisfactory to this board, therefore

"Be it Resolved, That we deem it to the best interests of the city and county of Honolulu that it is inexpedient to continue said L. M. Whitehouse in said position; "Therefore be it Resolved, That we demand his resignation, the same to take effect April 30th, 1913."

BRYAN SEEKS DELAY

NEW TREATY RUMORED

CENTRAL FIGURES IN CALIFORNIA'S TROUBLES

Secretary of State Bryan

Federal Government in Communication with Japan and Convention of 1911 May Be Superseded

(Associated Press Cable)

WASHINGTON, D. C., April 29.—With the California legislature plainly impatient at the delay and hoping to take action in passing alien land legislation, Secretary of State Bryan is using every endeavor to speed off action at this time, according to information sent back from Sacramento.

The belief here is that Mr. Bryan has asked the legislature to suspend action pending the negotiation of a new treaty between the United States and Japan. Should this treaty thereby prevent discrimination against the Japanese land-owners, California would not then pass alien land legislation without violating treaty agreements. The treaty now suggested would replace the convention of 1911.

Baron Chinda, Japanese ambassador, has conferred with President Wilson and the state department.

The cabinet, assembled today, read secret messages sent by Secretary Bryan and discussed them at length.

CALIFORNIANS NOT WILLING TO DELAY ACTION MUCH LONGER

(Associated Press Cable)

SACRAMENTO, Calif., April 29.—Secretary Bryan is working to get action on land legislation postponed for awhile. The legislature are chafing at the situation. Governor Johnson is standing pat.

AUSTRIA AND MONTENEGRO IN FIGHTING MOOD

(Associated Press Cable)

GENEVA, Switzerland, April 29.—War between Austria and Montenegro becomes daily more imminent and is today heightened to a considerable extent by the receipt of the information, and thousands of Austrian troops are now on route to the frontiers of Montenegro. Warlike plans, however, are not confined solely to the country of Franz Josef, it also being reported that the Montenegrins of Novipazar, one of the largest cities of that country, are making active preparations to resist the threatened attack, which is expected will be made on either Cattaro or Cetinje, and that resistance is being called for, and are forthcoming, from the surrounding country.

This action, following the recent report that Soutari had been evacuated, with the exception of five batteries of troops, is taken as an indication that it is the determination of the warring countries to defy the edict of the powers and fight over the spoils taken from Turkey until a settlement is reached that will prove satisfactory to Austria and Montenegro.

It is anticipated that reports of an engagement will reach here within a very short time.

TODAY'S MAJOR LEAGUE RESULTS

(Associated Press Cable)

CHICAGO, Ill., April 29.—Major League scores today:

NATIONAL LEAGUE.
At Brooklyn—New York 5, Brooklyn 0 (13 innings).
At Chicago—Chicago 7, Cincinnati 2.
At Philadelphia—Philadelphia-Boston game postponed; rain.

AMERICAN LEAGUE.
At Detroit—Detroit 5, Chicago 6.
All other American league games postponed; rain.

TAKES UP PROBE OF PAXSON'S CHARGES

Sitting in executive session the judiciary committee of the house this morning investigated the charge against the Star-Bulletin, brought by Representative S. S. Paxson in a resolution adopted by the lower branch yesterday. All witnesses directly interested in the affair of the Star-Bulletin story, published last Saturday, were examined, but the details of their disclosures are withheld until the committee's report is submitted to the house. This will be late this afternoon or tomorrow.

SUGAR FIGHT UP TO WILSON

Final Appeal for Industry's Protection Will Be Made Next Thursday

(Special Star-Bulletin Cable)

WASHINGTON, D. C., April 29.—Former Governor Carter of Hawaii has arrived here to represent the people of the territory in their fight against reduction of the sugar tariff. He has issued a statement in which he says that the sugar situation in Hawaii demonstrates that the removal of protection will ruin the industry.

Governor Carter is in the midst of an active fight. The opponents of free sugar will confer with President Wilson on Thursday to make a final appeal for protection.

C. S. ALBERT.

SAY HUERTA LOSING GROUND

(Associated Press Cable)

CHICAGO, Ill., April 29.—Attorney Robert Kerr, who has just returned from Mexico, predicts the overthrow of the Huerta regime within two weeks. The situation is serious, he declares.

MEXICO DEMORALIZED
NEW ORLEANS, La., April 29.—Many Americans are fleeing from Mexico and are on their way to this and other places. Mexican business is demoralized under the Huerta rule and life and property are unsafe.

CARGO AND CABIN

IRMGARD HAD CLOSE CALL

A close call from becoming involved in the vortex of a disastrous hurricane that ravaged portions of the south seas some weeks ago, fell to the lot of the little American barkentine Irmgard, that is now being discharged of a shipment of a thousand tons of phosphates at Honolulu.

The extent of destruction that followed in the wake of the big storm turns out to be greater than at first announced through the press dispatches.

Captain Dinsmore and his command were at Makalea at about the same time that the S. N. Castle loaded a shipment of phosphates at the islands lying near the Ocean group.

It is now learned that the loss in Toga Island had been very severe, as it was almost entirely planted with bananas, all of which were blown down. It is said that the blow started from the southeast at about 4 a. m., and continued in that direction till about 8:30, when it came up in very heavy squalls from the southwest, finishing in the north at about 10 o'clock.

All the bananas in the Navia district are ruined.

As to cane, the big or "early planting" cane has been pretty badly knocked about. It is estimated the loss on these crops is 12 per cent.

The "late planting" cane has not suffered appreciably, and should grow growing weather ensue, it should yield full crops for the mill in November and December of the 1913 season.

The Vancouver company's buildings have not suffered badly; in fact, the only houses that have been destroyed are the very "jerry built" grass shacks put up by coolies.

The biggest losers are undoubtedly the banana growers, and it is feared that to them the loss will be at least as great as that sustained by the banana planters of the district on January 23 of last year.

The Irmgard arrived yesterday in slightly leaking condition. The vessel is expected to go to the local marine railway for a general overhauling, recaulking and repainting.

While at Tahiti, officers in the Irmgard learned that the hurricane that swept the Fiji did not result as disastrously as was first reported. From Bay it is reported that the Fiji houses on the Davuilevu mission station had been much damaged, and a serious loss was sustained by the damage done to the students' gardens, there were about 500 students in the college. It is estimated that in about a fortnight they would have to be fed on rice owing to the destruction of the gardens. The roofs had been blown off some of the outhouses of the Indian mission, otherwise that institution had escaped. The high school, industrial workshops, and churches were intact.

Back From a Foreign Tour.

Donald Kent and John Henry French, two former Inter-Island Steam Navigation officers, who left the service a year ago, to tour the Far East, are through passengers in the Toyo Kisen Kaisha liner Tenyo Maru, that sailed for San Francisco this morning.

Kent and French, better known along the waterfront as "Damon and Fritches," were well high in popularity. They have completed an interesting trip during which time they spent some months in traveling the length and breadth of Japan and also gained considerable insight into the manner in which oriental steamship lines are being conducted. The expect to enter the Pacific Coast service, or confine their activities in the neighborhood of the Canal Zone.

Better Protection for Passengers.

Senator McCumber has introduced in the United States senate a bill designed for the protection of passengers on ocean vessels, reading as follows: "Hereafter no vessel over 5000 tons gross tonnage shall be cleared with passengers from any port in the United States unless there shall have been advertised and printed on each ticket issued for passage such vessel the number of passengers that she is licensed to carry, the number of persons usually composing her crew, and the total number of persons for whom she purports to be provided with life-saving facilities capable of keeping human beings afloat entirely above water for a reasonable time in ordinary weather."

Tenyo Maru Replenishes Oil Tanks.

During the stay of the Toyo Kisen Kaisha liner Tenyo Maru at Honolulu, that vessel received 4000 barrels or five hundred tons fuel oil. The liner sailed at nine-thirty this morning with destination as San Francisco taking five lay over cabin passengers. The vessel has been discharged of 2200 tons Oriental merchandise. A large quantity of rice and Japanese provisions was included in this shipment.

Iwafani Away With Lumber.

The Inter-Island steamer Iwafani was dispatched for Kaula and Makalea at noon today, taking a general cargo, including lumber fertilizer and sundries. This vessel, while carrying mail, sailed for the Big Island without passengers.

VESSELS TO-AND FROM THE ISLANDS

(Special Cable to Merchants' Exchange)

Tuesday, April 29.

MAHUKONA — Arrived, April 29, schr. S. T. Alexander, from Tacoma.

SALINA CRUZ — Sailed, April 26, S. S. Mexican, for San Diego.

Arrived, April 27, S. S. Arizona, from Hilo, April 12.

EUREKA — Arrived, April 28, schr. A. F. Coats, from Hilo, April 7.

SYDNEY — Arrived, April 28, S. S. Sonoma, hence April 14.

PASSENGERS ARRIVED

Per str. Mauna Kea, from Hilo and way ports—Thos. White and wife, E. W. Reynolds, H. R. Furniss, T. Kato, T. Masa, Y. Takakuwa, Miss T. M. Witherbee, Mrs. Geo. Martin, W. T. Stacey, Mrs. A. Hersey, H. Rosenberg and son, C. Bolte, H. Buscher, A. H. Hanna, C. H. Kluegel, R. F. Lang, H. W. Marvin, Mrs. P. T. Phillips, G. F. Bush, Prof. T. A. Jagger, R. R. Pray, W. F. Osborne, Miss C. O. Matsu, Rev. H. C. P. Judd, wife, child and servant, G. C. Banta, Dr. Sperry, Geo. Wells, M. Tanyla, T. Mori, W. G. Scott, W. A. Baldwin, S. W. Prime and wife, Mrs. Ekl and daughter, Komakuni.

PASSENGERS BOOKED

Per M. N. S. S. Honolulu for San Francisco, April 29.—Mr. and Mrs. T. P. Hall, J. C. Nelson, Jas. Hutcherson, Rev. C. G. Burnham, Mrs. Burnham, C. H. Poppenhusen, Mrs. Poppenhusen, Frank Correa, Wm. Hawkins, Rev. Wm. Gulick, J. C. Lemon, J. W. Wakefield, B. P. Ryan, Mrs. Ryan, Mrs. H. Walters, Miss M. Hutcherson, Miss Walters, G. W. Tarleton, J. E. Pierce, Mrs. L. Tarleton, S. W. GENERAL FUNSTON PAYS VISIT TO PEARL HARBOR

In order to give General Funston, who recently assumed command of the Hawaiian department, a chance to observe Pearl Harbor and its defenses from the sea side, Admiral Moore is today entertaining the department commander and staff on the tug Navajo, with a trip to the new naval station.

General Macomb, commanding the First Hawaiian Brigade, was another distinguished guest of the naval commandant. Other army officers in the party were Colonel Beach, Lieutenant Colonel Campbell, Major Conklin, Major Penn, Captain J. S. Johnston and Captain Massey, Lt. Col. Haines, Maj. Neville, Maj. Myers, U. S. M. C.; Lt. Col. Raymond, Col. French, Col. Kenyon, Civil Engineer Gayler, Admiral Stanford, L. Stevens, Major Cruikshank, Maj. Wooten.

ANNUAL LEGISLATIVE SESSIONS ARE OPPOSED

By adopting the report of the judiciary committee this morning the senate went on record as opposed to having annual sessions of the legislature. The committee reported on house concurrent resolution No. 16, memorializing congress to amend the organic act in order that the legislature may hold yearly sessions.

"Your committee disagrees with the idea of asking congress to amend the organic act to provide for annual sessions of the legislature of the territory, and therefore unanimously recommends that this concurrent resolution be laid on the table."

SENATOR WOODS FILES \$22.50 EXPENSE ACCOUNT

Twenty-two dollars and fifty cents is the amount named in the campaign expense account for the election of J. Frank Woods, the successful candidate at the special election recently held to fill the position left vacant in the senate by the death of Senator George C. Hewitt. A. G. Correa, chairman of the Democratic campaign committee, has certified to this amount in an affidavit filed at the office of the territorial secretary. Stephen L. Desha, independent Republican, the only other of the candidates to file an expense account, states that the election cost him \$93.

STAR-BULLETIN GIVES YOU TODAY'S NEWS TODAY

ALGERINE LEAVES TABLET BEHIND

Commander Brooker, of H. B. M. S. Algerine, was a most disappointed officer in departing for San Diego by the way of Kealahou bay at 8:35 o'clock this morning, because of his failure to secure a highly prized and historical copper tablet, alleged as to be in the possession of Mrs. Robert Leslie, widow of a former Honolulu mounted police officer, which memorial once adorned the last resting place of Captain Cook, the famous British navigator who lost his life on Hawaii at the hands of the natives.

The Algerine was prepared for sea yesterday, taking on coal as well as provisions. The trim little war vessel is to pay a call at Kealahou bay, where a delegation of sailors will be sent ashore to clean and repair the monument now erected there to the memory of Captain Cook.

Captain Brooker of the Algerine has made several unsuccessful endeavors to secure the original tablet made from metal taken from the bottom of the ship, upon which was inscribed in crude style, a brief account of the tragedy in which the great navigator figured.

Despite appeals to Mrs. Leslie of this city, the present owner of the tablet, which is alleged to have come into her possession through the death of her husband, Commander Brooker was refused permission to carry the memorial away with him. Offers of substantial sums of money were declined. Mrs. Leslie has been advised that in legal action, she might be compelled to turn over the plate to the British authorities.

Declining to meet with Governor Frear and Captain Brooker, Mrs. Leslie remained obdurate and the matter for the present at least has been dropped.

The Algerine is expected to leave the island of Hawaii by the first of the coming week. After making a call at San Diego, the Algerine is to steam for Esquimaux, there to go out of commission pending a general overhauling and repair.

Breakdown Delayed Mauna Kea.

Overturned bearings are said to have caused a delay in the arrival of the Inter-Island steamer Mauna Kea that reached a berth at the Inter-Island wharf shortly before 9 o'clock this morning. Bringing a small list of cabin passengers and a varied assortment of general cargo, the vessel is now being made ready to proceed to regular ports on Maui and Hawaii at 10 o'clock tomorrow morning.

Purser Phillips reports some rough weather on the outward trip. The steamer Maui was taking on sugar at Waiakua while the steamer Kaula was being discharged of cargo at Hilo.

The Matson Navigation steamer Hyades is expected to depart from Hilo for San Francisco tomorrow.

Laupahoehoe Leads the List

The single consignee of sugar awaiting shipment on the island of Hawaii is stored at Laupahoehoe according to a report received in this city with the arrival of the Inter-Island steamer Mauna Kea. The sugar list includes the following: Olua, 16,000; Waialea, 22,000; Hawaii, 11,000; Hilo Sugar Co., 27,000; Onomea, 26,688; Pepeekeo, 16,200; Onomea, 7500; Hakalau, 22,000; Laupahoehoe, 32,550; Kailua, 7500; Kaula, 4400; Hamakua Mill, 2700; Kauai, 22,000; Honokaa, 2200; Kukuihale, 3200; Honouapo, 2260 sacks.

Zealandia Transferred to Auckland

The Canadian-Australasian liner Zealandia which for the past two years has been a regular visitor to Honolulu as a liner in the Vancouver, Honolulu, Suva, Auckland and Sydney service, has been transferred to a direct run between Sydney and Auckland, according to advices received here.

The new Australian liner is to depart from the Australian port for Vancouver and Victoria on May 6th, taking the place formerly occupied by the Zealandia in the Canadian-Australasian line.

Passengers Crowd the Honolulu

When the Matson Navigation liner Honolulu sails for San Francisco at six o'clock tonight as planned, all available cabin accommodation in that vessel will be occupied. The liner has been supplied with a full cargo including a large quantity of sugar, and shipments of green pineapples, preserved produce, bunches of bananas, also coffee, hides, honey and sundries. The vessel will be given a late mail destined for the mainland. The Honolulu is expected to arrive at San Francisco on next Tuesday afternoon or Wednesday morning.

Two Departures This Evening.

The steamers Kinan and Mikahala are listed for dispatch at 5 o'clock this evening, the former vessel proceeding to Kaula ports with the usual assortment of cargo, and consignments of mail and a fair sized list of passengers. The Mikahala is scheduled to call at the regular Maui, Molokai and Lanai ports of call, taking passengers and freight.

OLAH HOLDS ANNUAL MEETING

The special annual meeting of the stockholders of Olua Sugar Company, Ltd., was held in the company's board rooms in Bishop & Co.'s building, Bethel street, at 2 o'clock this afternoon. Its stated business was the receiving of the fourteenth annual reports and the election of officers.

The election resulted as follows: L. A. Thurston, president; W. F. Dillingham, first vice president; E. A. Mott-Smith, second vice president; A. W. T. Bottomley, treasurer; A. W. Van Valkenburg, secretary; J. Harris Mackenzie and Robert Catton, additional directors; Audit Company of Hawaii, auditor.

Only routine business was transacted. Since the preparation of the reports, as already reported in the Star-Bulletin, John Watt resigned as manager and C. F. Eckart was appointed in his stead.

Manager J. Watt reports that the crop of 1912 was harvested from 5804.55 acres and yielded 22,253.147 tons of sugar, an average of 3,837 tons per acre. On account of the shortage of water for the flumes, 522 acres had to be left over to be harvested with the 1913 crop. The yield was a slight decrease from the 1911 crop, that being 3.87 tons per acre. For the crop of 1913 the area to be harvested is 6325.95 acres, being 1233.63 acres planted and 5092.32 acres ratooned. Mr. Watt estimates a production of 22,464 tons of cane, or about 25,500 tons of sugar. Grinding began January 6th and the average sucrose in the cane to date (March 8) is 12.01 per cent, against last year at even date 13.05 per cent. The Demerara 1135 cane planted at Mountainview (170 acres) and Nine Mile section (165 acres) has grown fairly well, but it has a rather low sucrose content compared with any tests made in past years.

"The dry weather of last year kept on until well into October," the manager says, "when we got a heavy rain. The cane started off with a heavy growth, and this fact accounts for the low sucrose in cane. I estimate that it will take nine tons of cane to make a ton of sugar."

For the crop of 1914 the plantation will have 720.50 acres of plant cane and 4638.94 acres of ratooned cane, a total of 5359.44 acres. All of this cane is in a good state of cultivation and looks well at the present time. There will be a total area of about 6900 acres for the crop of 1915. Three hundred acres will be planted at Olua, besides what may be planted by landowners, and about 140 acres in Puna.

A three-roller mill complete has been added since grinding stopped in October, giving the plantation a twelve-roller mill, and Mr. Watt says they are well satisfied with the change. Various other improvements in the mill are mentioned, and the manager remarks: "We are now in a position to grind about 55 tons of cane per hour, and do good work."

Referring to general conditions, Mr. Watt tells of 50 new steel cane cars, giving the plantation 82 altogether, which, with two 50-ton locomotives have no difficulty in handling all the cane that has to be got in by rail. One of the cane for the 1913 crop is nearly twenty-five miles from the mill. A new locomotive machine has been built at a cost of \$16,874.81, which has concrete foundations and bits.

"A great deal was spent on flume repairs," the manager says in conclusion. "We were well supplied with labor during the year, and did more work in the fields than we have ever done before in any one year. Our field work at the present time is better in hand than at any time in the past."

Treasurer J. L. Cockburn's accounts show sugar sales net, \$1,497,120.37, and total receipts, \$1,791,100.56. Net profit on the crop of 1912 was \$15,458.20, and the balance of profit and loss account on December 31 was \$302,662.58. Assets, including this balance, amount to \$3,135,155.05, other items being \$4,732,497.35 property accounts, \$1,065,421.69 crop accounts, \$1913-1915, \$327,971.95 planting contracts, \$865,128.11 holdings in other corporations, \$384,740 treasury stock, and the rest divided between stores, supplies, cash, accounts and bills receivable. Liabilities balancing assets include \$4,939,720 capital stock, \$2,500,000 bonds and \$638,165.37 agent's account.

JAPANESE HURT IN COLLISION

Captain R. S. Offey, driving automobile numbered 998, came in collision with a Japanese named Masuda, while proceeding along King near the intersection of Punchbowl street yesterday, with the result that the Japanese was sent to the hospital suffering from several minor injuries. Masuda was riding a wheel at the time of the accident and failed to turn out in time to avoid meeting the heavy machine.

A wall rent the air in the vicinity of South street, Kewalo, when Makado, alleged by the police as much under the influence of liquor, attempted to demolish a sewing machine, the property of a Japanese woman. Following a riot call for assistance, the man was placed in cold storage awaiting a disposition of his case before the district court.

Believed demented, an aged Hawaiian woman was brought to central police station today and will await an examination under the direction of Dr. Emerson. The woman declared that she had done her husband a ter-

rible injury, but outside of this she had nothing further to add.

Conveyed to Queen's Hospital today, Sam Mochao, an Hawaiian, is suffering from several injuries and bruises about the body and head. Sam attempted to gain the hurricane deck of a sea-going back last night presumably during a time when rough weather prevailed and storm signals lighted the pathway of the hardy mariner along Hotel and King streets. The police allege that Sam was slightly under the influence of something other than the climate when he met with the accident that sent him to the dry-dock for repairs.

The air was laden with choice Celestial explosives, when, this morning, back number 87, driven by Ah Chien, and a heavy dray belonging to Ah Leong, collided on Maunakea street between King and Queen streets. The back came out second best in the encounter as the top of the passenger vehicle was torn asunder through having come in too violent contact with the shaft of the dray. The horse became frightened, though luckily no one was injured.

Failing to seek the friendly shelter of a bomb proof vault or a cyclone cellar, Kado, a Japanese laborer with the Honolulu Construction quarries at Moiliili, is an inmate of Queen's hospital, having been removed following an accident through falling rock.

The Japanese neglected to heed the warning whistle from the foreman to gain cover as a heavy blast sent several tons of material heavenward. Bruises about the head fell to the lot of the Japanese.

Stating that Samuel D. Hausman, the septuagenarian now on trial in the U. S. district court for concealing and attempting to facilitate the sale of unstamped opium, attempted to get to him the contraband article and that, as soon as he discovered that the tin was not stamped, he refused to purchase the "hop." Chin How this morning gave important and unexpected testimony.

Sugar Reaches Market.

Alexander & Baldwin, Ltd., received a cablegram from New York this afternoon, stating: "Kauai sugar arrived today, basis 3.375c. First half of Mexican cargo. All four varieties selling refined at 4.30."

RAILROADS TO BE REGULATED

(Continued from page one)

ness of rates, prices and charges and in all other respects to the provisions of said Act 89 of the Laws of 1913 of the Territory and all amendments thereof and all other laws of a general character that may be enacted hereafter by the legislature of the territory for the regulation of public utilities in said territory, and

New Under Commerce Commission.

"Whereas the railroads and express companies operating in the territory are now under the jurisdiction of the interstate commerce commission, and subject to the provisions of the interstate commerce law, the safety appliance acts and other like congressional legislation, and therefore not subject to direct regulation under the law of the territory providing for a public utilities commission, or laws which cover subjects similar to those concerning which provision is made in the federal laws aforesaid, and

"Whereas on account of the geographical position of the Territory of Hawaii, and its distance from Washington, the regulative control of the interstate commerce commission over common carriers in the territory is difficult of enforcement, and of necessity must entail great expense, not only to complainants and to the common carriers involved but to the commission as well, and it is therefore deemed desirable to place all public utilities now subject to the provisions of the acts or congress aforesaid, under the jurisdiction of the territorial public utilities commission, and subject to the provisions of said act 89 of the laws of 1913 of the territory, as amended, and to all general laws which may be enacted regulating public utilities, in like manner and to the same extent as other local public utilities are so subject.

"Therefore, Be it resolved by the house of representatives of the legislature of the Territory of Hawaii, the senate concurring, that the congress of the United States be and it hereby is respectfully petitioned to amend the act to regulate commerce, approved February 4, 1887, as now amended by an act approved March 2, 1889, by an act approved February 10, 1891, by an act approved February 8, 1895, by an act approved June 29, 1906, by a joint resolution approved June 30, 1906, by an act approved April 13, 1908, by an act approved February 25, 1909, and by an act approved June 18, 1910, and to amend the act to promote the safety of employees and travelers upon railroads approved March 2, 1893, as amended by an act approved April 1, 1896, and by an act approved March 2, 1903; and to amend the act to supplement the act to promote the safety of employees and travelers upon railroads approved April 14, 1910; and to amend the act to promote the safety of employees and travelers upon railroads by limiting the hours of service of employees thereon, approved March 4, 1907; and to amend the act to promote the safety of employees on railroads, approved May 30, 1908; and the act to promote the safety of employees and travelers upon railroads by compelling common carriers engaged in interstate commerce to equip their locomotives with safe and suitable boilers and appurtenances thereto, approved February 17, 1911; and to amend such other acts as may be necessary for the purpose, in such manner as the congress may deem proper, so as to exempt the common carriers now subject to the aforesaid acts from their operation, and to place said common carriers under the jurisdiction of the public utilities commission created by said Act 89 of the laws of 1913 of the Territory of Hawaii, as from time to time amended, and to make them subject to the provisions of said act 89 and all amendments thereof, and of all other laws of a general character which may be enacted hereafter by the legislature of the territory of Hawaii for the regulation of public utilities in said territory; and

"Be it further resolved that copies of this resolution be sent to the president and the vice-president of the United States, the speaker of the house of representatives, and to the delegate to the congress from Hawaii."

The Chinese government has appealed to all Christian churches in China to set aside April 27 as a day of prayer for the guidance of China in the problems which beset her.

NEW TODAY

DENIO TELEPHONE FIRE ALARM COMPANY OF HAWAII, LIMITED.

Election of Officers.

At the annual meeting of the stockholders of the Denio Telephone Fire Alarm Company of Hawaii, Limited, held at the office of the Henry Waterhouse Trust Co., Ltd., in Honolulu, on April 25th, 1913, the following directors were elected to serve for the ensuing year:

R. W. Shingle.
Alfred L. Castle.
Chas. B. Potter.
A. N. Campbell.
E. M. Campbell.

and at a subsequent meeting of the said directors, held on the same date, the following officers were elected to serve for the ensuing year:

R. W. Shingle President
Alfred L. Castle Vice-President
E. M. Campbell Secretary
A. N. Campbell Treasurer
E. M. CAMPBELL, Secretary.

Honolulu, T. H. April 25, 1913.
5533-Apr. 29, May 9, 10.

SENATE ACTS ON REPORTS FROM COMMITTEES

The morning of the next to the last day of the session was largely spent in the senate in hearing conference committee reports and acting on them. The committee with the direct primary bill reported that the house committee had agreed to the amendments of the senate, and the committee on the general

THREE CONFERENCES ON FAIR BILL SCHOOL AFFAIRS

For the third time a conference committee was appointed in the senate this morning to reach an agreement on senate bill No. 52, carrying an appropriation for an exhibit at the Panama-Pacific Exposition.

For the second time the conference committee of the senate announced that the house of representatives had refused to take out the "rider" which makes the appropriation available only upon the condition that California does not pass an alien-land act.

Strong sentiment against the action of the house in holding out for the "rider," thus seriously endangering the passage of the bill, was shown in the senate this morning when senators Rice, Pak and Coke were named as the new committeemen.

The house did not appoint its new conference committee this morning.

MORE IMPORTANT MEASURE DEAD

While punch of the important legislation of the 1913 session has been disposed of, a number of interesting measures remain on the calendar for final consideration tomorrow. Among these are house bill 79, the direct primary law; H. B. 265, the Hawaiian fair bill, and the general appropriation, or budget.

Final reports from one or two committees were received this morning. One, coming from the finance, returned sixty-four resolutions, and twenty-one petitions, sending them back in bulk and recommending that all be condemned to the same fate—the pigeonhole. The report was adopted. Many of these related to subjects on which the legislature has taken action, by incorporation in the budget or by separate enactments.

One of the features of the morning's work was the death of the proposed "Blue Sky" law, incorporated in Senator Baker's S. B. 108. A similar bill, the last of the session to be introduced in the house, offered by Representative Spalding, was tabled when the senate document appeared. The finance committee recommended, however, that the matter of protection of investors from wild-cat mining and other stock salesmen be given consideration by the senate hold-over committee, with a view to commencing the enactment of a similar law two years hence. The principal reason for rejecting the present bill was that sufficient time could not be found for a careful analysis of the measure before the close of the session.

It also became certain this morning that workmen's compensation legislation is dead, for the next two years. Three measures handling the matter directly as workmen's compen-

sation or as industrial insurance were tabled in the senate some days ago. The two house bills, H. B. 5 and H. B. 33, dealing with the subject, were tabled by the latter body today on the judiciary committee's recommendation.

This, like the Blue Sky law, is referred to the senate hold-over committee for careful investigation during the next two years, with a view to action by the next legislature.

RED LIGHT BILL

(Continued from page one)

houses with comparatively clean interiors were examined.

One of the features of the nocturnal quest was the discovery that the denizens of Honolulu's underworld are subjected to no definite medical examination and regular fee. In answer to the committeemen's queries the women told of different prices paid different physicians. At some places the appearance of the investigators seemed a signal for a display of health certificates, the women bringing out the paper slips bearing a doctor's signature before the visitor had an opportunity to ask for it.

At a session of the committee at 1 o'clock yesterday afternoon, not intended to be public but practically compelled to be such by the sudden appearance of several scores of business and professional men, strong pleas on behalf of the Red Light bill were made by Attorney M. F. Prosser, James Wakefield, Dr. William C. Hobdy, Dr. Scudder and John R. Galt.

SITE FOR POSTOFFICE

The concurrent resolution to turn over the "Honolulu Hale" property on Merchant street to the federal government to be used as a postoffice site was passed in the senate this morning. Senators Rice and Metzger objected to the resolution. The Oahu senators had favorably recommended the passage of the resolution.

ELECTRIC CO., LTD.

REFERRED TO COMMITTEE

As early as 2 o'clock yesterday the teachers and pupils of the Normal School began to file into the chamber of the senate, and by 3 o'clock every available chair was taken, as well as the standing room.

When President Knudsen called for the consideration of the report of the joint committee on education, the large audience moved nervously about, as if anxious for the promised fight to begin.

Senator Judd rose first. "After reading the report carefully," he said, "I have come to the conclusion that all this senate can do is to order the report filed. There are no recommendations made in the report. The only ones which are made are found in the report of the sub-committee, and are only referred to in the joint committee's report. That being the case, I ask that the report be filed."

Report Simply Filed. There is a marked difference in adopting a report and filing one. In the former case the senate is obliged to carry out its recommendations, and in the latter case it merely becomes the record of the legislature. His motion prevailed.

Pending the reading of the school budget bill, which passed its final reading in the senate yesterday while the Normal delegation listened, Senator H. B. Penhallow, chairman of the education committee, prepared a resolution, not, however, in his capacity as chairman of the committee, calling for a special hold-over committee to investigate school conditions in the territory during the next two years, and report to the senate of 1915.

WARM DEBATE ON OPIUM BILL

After a brief but warm debate that once verged on personalities, threatening to involve the veracity of Chairman Coney of the health and police committee, senate bill 124, which would make it a misdemeanor to smoke, use or have in one's possession opium in any form, finally passed the house today.

It escaped by a narrow margin, after being once tabled, two members being absent at that time. Taking it up later, however, the house passed it, the original number of opponents standing by their guns, with a vote of 11 against to 17 for.

Chairman Coney favored its passage, and in the course of his epousal speech asserted it is indirectly the ruin of many young Hawaiian girls. He said the girls were lured into the opium dens by Chinese and there suffered their downfall.

It is Niino Gento who has filed a suit for divorce in the circuit court.

The threatened strike of switchmen of nineteen railroads in Chicago has been averted and satisfactory agreements made.

SENATE

FIFTY-NINTH DAY

Third Reading.

H. B. 309—Extending the powers of the harbor commission. 9-5.

H. B. 228—To encourage agricultural pursuits by appropriation therefor. 13-1.

H. M. 239—To facilitate marketing of fruits and repeating certain sections relating thereto. 13-0.

H. B. 312—Appropriation to indemnify persons whose property was destroyed by order of board of health. 12-2.

H. B. 303—Making it misdemeanor to pass fictitious commercial paper. 14-0.

H. B. 293—Making appropriation for payment of certain warrants. 14-0.

H. B. 257—Making it misdemeanor to defraud a common carrier of fare. Passed Second Reading.

H. B. 311—Regulating use of artesian wells.

Second Reading.
H. B. 314—Referred select Oahu.
H. B. 313—Referred judiciary.

Deferred Action.
S. B. 148—Deferred 2 o'clock.
H. C. R. 20—Deferred 2 o'clock.
H. C. R. 20—Deferred 2 o'clock.
H. B. 298—Deferred tomorrow.

Committee Reports.
From conference committee, reporting agreement on S. B. 40; adopted; and conference committee on S. B. 52 reporting disbursement and asking discharge; adopted.

From select Oahu, recommending passage of H. B. 311 with amendments; and on H. C. R. 19, recommending adoption; both adopted.

From conference committee reporting agreement on H. B. 79; adopted.

From conference committee on H. B. 300, reporting agreement; adopted.

From judiciary committee, recommending tabling of H. C. R. 16; adopted.

From conference committee reporting agreement on H. B. 230; adopted.

From conference committee reporting agreement on H. B. 268; adopted.

Communications.
From house reporting passage of H. C. R. No. 18, and H. C. R. 20.

From governor, reporting signing of S. B. 146, H. B. 306, 322, 299 and S. B. 132, 129, 304, 291, 104.

From house, reporting passage of S. B. 107 with amendments; and passage of S. B. 151; and passage of S. B. 148 with amendments.

From governor, vetoing Hoffman electric bill (deferred).

HOUSE

FIFTY-NINTH DAY

Third Reading.

S. B. 107 (Baker)—Amending an act to regulate the sale of intoxicating liquor. Passed 17-1. Goodness dissenting.

S. B. 124 (Chillingworth)—Making it a misdemeanor to smoke opium or have it in possession. Failed to pass, 15-11. On reconsideration passed, 17-11.

S. B. 148 (Judd)—Relative to the authority of the City and County of Honolulu in the matter of street lines. Passed, 27-0.

S. B. 151 (Judd)—Amending an act of the 1913 session relative to the water and sewer works and their transfer to the City and County of Honolulu. Passed, 27-0.

S. J. R. (Rice)—Relative to receiving and paying hours of the territorial treasury. Passed, 27-0.

Reconsideration.
H. B. 231—Senate amendments. On reconsideration house refused to concur in them. Watkins, Spalding and Paole appointed house conferees.

Second Reading.
S. B. 150—To amend the laws relating to elections. Third reading tomorrow.

Governor's Message.
Vetoing S. B. 101, granting electric light and power franchise in Honolulu.

Conference Committee Reports.
On S. B. 40—Gas franchise for South Hilo; recommending its passage with amendments. Action deferred temporarily.

On H. B. 79, direct primary bill; recommending its passage. Report adopted.

On H. B. 265, making appropriation for Hawaiian Fair; recommending its passage, eliminating senate amendments. Report adopted.

On H. B. 306, electric light and power franchise for Lihue, Kauai; recommending its passage with amendments. Report adopted.

On S. B. 40, granting gas franchise for South Hilo; recommending its passage with house amendments. Report adopted.

Committee Reports.
No. 502—Finance, on 64 resolutions and 21 petitions; recommending they be tabled. Report adopted.

No. 503—Finance, on S. B. 108 (Baker), the Blue Sky law; recommending it be tabled, and holdover senate committee be requested to investigate subject. Report adopted.

No. 505—Judiciary, on H. B. 5, workmen's compensation act; recommending it be tabled. Report adopted.

No. 506—Judiciary, on H. B. 33, workmen's compensation act; recommending it be tabled. Report adopted.

No. 506—Judiciary, on H. R. 115 (Kupieha). Filed.

No. 507—Minority judiciary, on S. B. 141, authorizing commission to compile the sanitary codes; recommending it be tabled; Asch, Paole and Coney dissenting. Report not adopted.

No. 508—Majority judiciary, on S. B. 141; recommending its passage. Report adopted. Third reading tomorrow.

No. 509—Agriculture, on portion of the governor's message sent down early in the session. Filed.

GOVERNOR VETOES 2ND ELECTRIC FRANCHISE

(Continued from page one)

chise of this kind in this city under the existing circumstances. Only extraordinary conditions could justify this. The disadvantages to the public are many and great. Two franchises of the same kind would mean two sets of poles and wires and double mutilation of trees to interfere with the use of the streets and mar the beauty of the city. It would mean in large part a double investment of capital and double cost of maintenance, and consequently higher rates in order that there might be fair returns on the investment. It would mean also in large measure a double price to be paid by the city in case it should ever desire to purchase the property of the companies and conduct the business itself.

"There are two methods of regulating private business. One is by competition; the other is by public control. Most businesses other than public utilities may safely be left pretty much to competition. Not so, however, public utilities, especially those that use city streets. These, as almost universal experience has shown and as the highest authorities agree, should be conducted as legalized but regulated monopolies.

"Whether competition or public control is relied on for the regulation of public utilities, in either case there must be double obstruction of the streets and higher rates, if there are two companies. But competition cannot be relied on. It is a snare and a delusion in such cases, for the different companies sooner or later almost of necessity consolidate or enter into mutual agreements or understandings as to rates. On the other hand, if public control is relied on, as it must be, one company may be controlled more easily and better than two companies and the rates may be kept lower because of the smaller investment.

"It is true that in some cities there are two or more electric light and power companies, for, as a writer has recently said in one of the best works on this subject: 'In spite of the practically uniform experience of cities, the (public) authorities still cling to panies, but giving each the right to the regulation of public service utilities. Year after year and decade after decade, the same old story is repeated, of franchises granted to new street railway companies, gas companies, electric companies, telephone companies, which in a few years, by the inevitable logic of events, either absorb their predecessors or are absorbed by them.' There is no occasion for two companies of this nature in a city no larger than this. In some of the larger cities, where it has been thought best to grant two franchises, the evils have been partially avoided by dividing the area between the companies. However, have changed place its wires on the poles of the other in the latter's area.

"Conditions, however, have changed since the passage of this bill. A public utilities commission bill has now become law and a bill has been passed to bring under the provisions of that law the present electric light and power company. That company also has signified its readiness to be brought under the provisions of that law.

"The public interests alone should be considered in this matter. Neither a feeling of generosity towards those interested in the proposed new company nor a feeling that the present company has not done its full duty to the public, if such a feeling exists, nor the phantom of the remedy by competition, should be permitted to mislead us into ignoring the lessons of past experience and plunging the city into difficulties from which those who follow us will not find it easy to extricate themselves and for which they will not thank us. Let us at least first make a fair trial of the remedy by public control, for the adoption of which as a general principle the present legislature deserves so much credit."

MOTHER FOLLOWS SON TO GRAVE IN FEW DAYS

With her son preceding her to the grave by but a few days, Mrs. Anna Mueller, mother of Ernest Miller, who died in this city last week, passed away at her home in Kaimuki at six o'clock last evening following a lingering illness. Mrs. Mueller was 68 years old. The remains will be shipped to relatives in Richmond, Va.

RILEY H. ALLEN

EDITOR

TUESDAY APRIL 29, 1913

All I have seen teaches me to trust the Creator for all I have not seen.—Emerson.

GOOD MEN AT THE HELM.

General satisfaction will be felt with the make-up of the public utilities commission as it is proposed. And particular satisfaction will be felt that Secretary of the Territory Mott-Smith has been chosen by Governor Frear to head the commission.

This paper has had gratifying occasion several times in the past few months to call attention to Mr. Mott-Smith's achievements in progress work in this territory. The latest comment of this kind, if memory serves correctly, was called forth by Mott-Smith's announcement of his intention to retire from public office. That, at the solicitation of the governor and at the dictates of his own strong public spirit, he has reconsidered his determination, is distinctly to the gain of the territory. He has been called upon in several instances to take hold of and organize public departments and each time has made good. A good many years ago he took off his coat and "sailed into" public work with an energy and exuberance of spirit that brooked no thought of defeat. And his strenuous efforts have kept his coat off ever since.

J. N. S. Williams is a practical railroad man, who recently gave up an important position because he felt that he had earned for himself a vacation and the right to get away from the harness for awhile. He is independent of means and of character.

A. J. Gignoux is a type of rising and progressive young businessman, a former president of the Merchants' Association and fairly fitted to speak for Hawaii's diversified business interests. Every one of these men has essentially the viewpoint of the average citizen, and that's a good deal. Incidentally, Mr. Gignoux leaves the commission with a Democratic flavor.

The first two years of the new utilities commission will be trying. They will be largely experimental. But the membership of this important body should largely determine its ultimate success, and the make-up as is now proposed will, we believe, meet very general favor.

REVOLUTION IN CABLE METHOD

While steady advancement has been made in wireless telegraphy, the march of invention has not halted with regard to metallic circuit telegraphy. Just two weeks ago on Sunday last a revolutionary achievement was accomplished in submarine and land telegraphy in conjunction. Up to that time cable messages were transmitted by a different method from that of land telegraphing. Instead of the Morse code being ticked off on a sounder, which the operator read by ear and which was recorded on the tape in disconnected dots and dashes, the message was traced in a wavy line by a siphon pen on the tape, the jogs in the line being translated into dots and dashes by the receiving operator. The marking is like that seen in the instrument recording the temperature in the weather bureau's clock on Hotel street. This is the system that was in vogue when Honolulu first had cable communication, and is the system employed in all cables today. It is an improvement on the original method of reading the messages in flashes of light upon a mirror in a dark chamber.

The achievement above mentioned will probably lead to a complete change in the mode of submarine telegraphy, bringing it into direct conjunction with land telegraphs. On Sunday, April 13, a cable message was transmitted direct from London to Montreal, where it was taken off the Morse sounder by the receiving operator. It had to be transmitted by land line from London to the cable station on the coast of England, thence by cable to Canso, N. S., and from thence to the C. P. R. office in Montreal over about 900 miles of land wire. The land lines on either end were linked up with the cable and the message was sent through on one electric circuit, so perfectly as to draw from the assistant general manager of the C. P. R. telegraphs the remark: "Why, it is as firm and strong as though the man sending the message were only the other side of the road."

This was not all. After the new invention had been tested thus far, Toronto, several hundred miles farther west, was added to the circuit, then Victoria, B. C., and finally the Pacific cable station at Bamfield on the far side of Vancouver island, London talking clear through and its

words being picked up easily en route at all the intermediary offices mentioned.

"The man who is responsible for this triumph," says the Montreal Witness in reporting the event, "is John Gott, chief electrician of the Commercial Cable Company since its organization in 184, and the rights to the invention have been acquired by the Commercial Cable Company, which has taken out patents all over the world. This invention surpasses anything that has been added to the submarine cables since Sir William Thompson (Lord Kelvin) and Cromwell Varley first made the practical operation of long-distance submarine cables possible fifty-five years ago."

It is stated that even the great Edison failed in an attempt to apply the land-wire system to the cable. Some years ago he took an automatic Morse arrangement to England and in the course of his experiments tried to send the dot and dash code through a cable about 1,000 miles long, coiled in a tank. When he signalled a dot it came out on the tape at the far end in a mark twenty-eight feet long. Mr. Edison laughingly confessed his failure, saying, "I thought that dot was never going to end."

As the Commercial Pacific cable is a member of the Mackay system along with the parent Commercial owning this new invention, the probability appears strong that Honolulu will before long be in a position to be thrown into direct wire communication with Washington, as well as the great commercial centers of the mainland. What this would mean in great emergencies is something whose importance can only be imagined. Think of the commander of the land forces here, or the admiral of the Pacific fleet, being in conversational touch by wire, without the delays of relaying messages, with the supreme military and naval authority at the capital.

CONQUERING THE FLOODS

Science, conqueror of many ills, has been called upon to conquer the floods that have racked Ohio, Indiana and several other states recently.

The most substantial suggestion for preventing a repetition of the immensely costly and destructive floods is that of a national board of public works, with a cabinet officer at its head. The national drainage congress, which met two weeks ago in St. Louis, threw aside all of its previous plans of discussion to deal with the problem of floods suddenly made vital and pressing, and the suggestion for the public works department was the result. Ex-Gov. David R. Francis and Col. George W. Goethals, the canal builder, have each been mentioned as possible heads of the department in the Wilson cabinet. Such a portfolio, of course, would have to be created by act of congress.

Engineers have estimated that the Mississippi river could be deepened and widened and its waters otherwise controlled so as to be safe from floods at an expense of \$60,000,000. Property worth two or three times that amount was destroyed in the recent disaster, to say nothing of the lives lost. Experts agree almost unanimously that several of the large valley waterways should be deepened and the dykes strengthened, but the work is beyond any state and there is no national provision for it. The haphazard, pork-barrel scheme of river and harbor legislation furnishes no method of permanent relief, for it is political, not scientific. Nor is the federal government's regular engineering work of broad enough scope to handle such a comprehensive improvement scheme. Not until the task is put on a sound footing can effective preventive work be planned and carried through.

The first American submarines, having become obsolete, are to be used as targets for the navy. The aeroplanes never last long enough to become obsolete.

This is the time of the session when a lot of the legislators announce their retirement from public life. The voters reserve their opinion until election day.

Has city beautiful planning come to a standstill? The kind of city planning that doesn't succeed is the kind that gets no further than the plans.

It is just possible that Secretary of State Bryan has gone to Sacramento to pour oil on the troubled fires.

Anyhow, the active harbor commissioners will get money for the much-needed wharf work.

LETTERS ON TIMELY TOPICS

[The Star-Bulletin invites free and frank discussion in this column on all legitimate subjects of current interest. Communications are constantly received to which no signature is attached. This paper will treat as confidential signatures to letters if the writers so desire, but cannot give space to anonymous communications.]

JAPANESE LAND LAWS

Editor Honolulu Star-Bulletin.

Sir—A dispatch from the capital city of Japan was published throughout the country recently, in which was quoted the Japanese law in reference to the ownership of land by foreigners in that country.

The dispatch starts off with the preamble that "foreigners domiciled or resident in Japan" shall "enjoy the right of ownership in land" provided that Japanese are extended the same privilege in other foreign treaty countries. This shows generosity on the face of it, but wait for the explanation that is included in the rest of the law, if one but looks carefully.

In article 2 of these Japanese land laws will be found the foundation for the little joker. Article 2 provides that "foreigners cannot enjoy the ownership and right in land" in Yeze,

Formosa, Sakhalin and "districts necessary for the national defense," the latter districts to be "designated by imperial ordinance."

Now, then, Star-Bulletin readers, get out your map of Japan and you may be surprised to learn that the islands that have been named above include all of the large islands of the Japan group except the main island of Hondu and those smaller and so close to it as to form a part of it. What the land law of Japan, as regards foreigners holding land, is this: Foreigners may "enjoy the ownership of land" on just one Japanese island of importance in the group, and on that one island there may be exempted from alien ownership "districts for national defense."

If there was ever a gold brick in a land law that is to be handed to a foreigner, it is in the land law of Japan.

If this island was to enact a land law for foreigners that read as follows: "Foreigners may own and enjoy land on the island of Oahu except east of Waikiki, north of Beretania street and west of Nuuanu stream,"

and so much of this may "be exempt for national defenses" we would have a copy of the Japanese land laws.

Sauce for the goose is sauce for the gander. WHITEMAN.

DON'T KILL THE FAIR BILL

(Continued from page one)

been asked by either side. Members of the house who insist on tying up the fair appropriation bill in this manner are putting themselves in a position unfortunate for the entire territory, sincere though the dissenters may be. We don't want meddling legislation. We cannot afford to have it. We need California's friendly assistance and cordial cooperation, now as never before. This territory stands to gain millions of dollars in tourist trade and traffic from an adequate exhibit at San Francisco in 1915. It would be business folly now to tie up the fair appropriation on what the California legislature may or may not do. There is no connection, so far as Hawaii is concerned, between the exposition and alien land legislation. These two propositions, so far as Hawaii is concerned, should be emphatically and finally divorced.

And is the legislature, are these few house members, to force the Hawaii fair commission in the embarrassing and untenable position it will be forced into by the killing of the fair bill?

The commission has gone about its work faithfully and well. It has labored for nearly two years, with the assurance that funds would be provided at the session of the legislature. It has pledged its faith with the exposition officials of California; it has pledged the faith of the territory to make an exhibit in 1915. The legislature cannot in justice cut off the appropriation and leave the commission dangling in the air. Such a course would be worse than absurd—it would be insulting.

And from the standpoint of California's exposition management?

The Panama-Pacific fair officials have assigned a site for Hawaii's building. Hawaii had first choice. Hawaii has been treated with every courtesy, and the exposition has justifiably advertised Hawaii's participation. For Hawaii to withdraw now would be graceless, inexcusable.

Today businessmen and fair-minded legislators are laboring to bring about a new conference between house and senate and are asking the house conferees to recede from their unreasonable position.

The situation simply is that Hawaii has every reason to exhibit at San Francisco, that any meddling on our part in the California alien land situation is quite uncalled for, and that this territory cannot afford for its exposition bill to be killed. Perhaps before this statement appears, the way to agreement will have been opened. We hope so. Every fair-minded citizen must earnestly hope to see house and senate come together this afternoon or tomorrow and pass the fair appropriation measure in reasonable, practicable form.

Miss Nell Grant, granddaughter of Gen. U. S. Grant, has announced her engagement to Lieut. Comdr. William Piggott Cronan, U. S. N. Because his wife refused to forgive him after a quarrel, a man of Hanford, Cal., blew out his brains at her bedside.

GIFFORD CONCERT PROGRAM READY

In preparing the program for the violin recital he will give at the Young Hotel on May 6th, John Gifford, the young violinist who has made a name for himself both in California and in this city, chose the most popular selections for that instrument and ones that are familiar to lovers of violin music. One of them, played by the majority of violinists, is "The Air for the G String" by Bach. Another melody, one that is familiar to all musicians is the "Hungarian Rhapsody" by Hauser. The program also includes Veracini's Minuet, Shding's "Vogeln in Hain" and Reiz's "Adagio" and "Gondoliera."

Mrs. G. K. Tackabury, well known here, will sing an aria from "La Reine De Saba," by Gounod, "Lo! 'Tis the Hour" by Frederick Logan and Godard's "Berceuse" (Jocelyn).

Mrs. L. Tenney Peck will be at the

piano and will share honors with Gifford and Mrs. Tackabury.

Although it has not been decided as yet there have been many requests made that Gifford shall play Beethoven's Minuet as an encore. When he rendered this selection in a concert here some time ago, he received the praise of many local musicians. Seats for the recital are on sale at the Hawaiian promotion committee rooms in the Young building.

BOY SCOUT COUNCIL

Meeting Tuesday evening, at 8 p. m., adobe house, 4 Kawaiahao St., May 5, 1913. Election of Officers. You are urgently requested to attend. G. C. POTTER, Secretary.

INTEMPERANCE BROUGHT HOME

The train of terrible evils following upon a life of intemperance were fittingly depicted last night, when the Post Company at the Bijou Theater departed from their regular line of musical comedy to present a brief and original interpretation of the powerful temperance sermon, "Ten Nights in a Bar-room."

In the presentation of this sketch several old and familiar songs of several decades ago were heard with pleasing effect. The Post Company opened the week with the little musical skit, entitled "The Man From Maui." In this Post, as well as his bevy of charming young ladies, occupied a conspicuous part. The entertainment last night was well received. Tonight, Manager Adams has enlisted an original bunch of amateurs who are predicted will launch a number of thrilling surprises.

In bringing an engagement to a close the Newman Company at Ye Liberty promises some startling features in the way of late mainland successes along the line of photo plays. The amateur sketch presented last night received an enthusiastic reception at the hands of a large audience.

MANY HEARING HAWAII LECTURES

Letters received by the promotion committee this morning from Walter G. Smith tell of the success of the series of lectures upon Hawaii which he has just completed in the Southern states. During the Southern tour his lectures were well attended and that he received ample publicity through the medium of the press is shown by the many newspaper clippings accompanying the letters.

Writing from Jacksonville, Florida, on April 14, Mr. Smith says:

"I am back from Miami and other Southern points and have had a good tour. The enclosed notices from various newspapers will show the preparations for the good audiences which I have spoken to and I believe for further good results. On the way here from the South I met many people who had been in my audiences at Miami and they were full of questions that showed a wish to visit Hawaii. I believe that Florida will be a good territory for us to work in at any season. The tourists are nearly all gone at present, but I find the right kind of people living here. Like other Americans, they want to see something of the outside world, and they are coming to think that Hawaii is a place of peculiar interest to the traveler. It does not disturb them that Hawaii is a competing point, but it gives them interest to know how we do things and how our attractions as a summer resort differ from theirs. Irrespective of the tourist class, a great many Floridians are going to visit us."

"Following my lecture here this evening I shall go to Tampa and then make a very short trip to Havana, returning by a Southern Pacific steamer to New Orleans. In the latter city I shall connect again with the S. F. and can use their agents all along the way back to California to promote the objects of the lectureship."

Mr. Smith delivered his return lecture in the First Baptist Church of Jacksonville on the evening of April 15, which was attended by an audience which filled both the body and the galleries of the church. More than 750 persons were present, and the audience contained many of the remaining tourists and the better class of townpeople. A collection was taken up to pay the church expenses and to start a fund for further lectures.

"My impressions of Florida as a lecture point continues to be a good one," writes Mr. Smith in a personal letter to Secretary Wood, "and I believe

TALES OF OTHER DAYS INTEREST CLUBWOMEN

A large and interested gathering was present at Mrs. Winne's home on Bates street today, to hear the tales of old Hawaii and the romances of another day, as related by The Daughters of Hawaii. This date was selected for their meeting—one that is as near as possible to the birthday of Kamehameha the Great—so as to lend historical emphasis to the occasion.

To mark the famous spots on Hawaii, to keep up the local spirit and Hawaiian customs which gradually, day by day, seem to be slipping into the maelstrom of American advancement, is the aim and ambition of the club.

A committee which has been investigating suitable memorial for the birthplace of Kamehameha III, made its report, the results of which are not yet known. Some little time ago the club erected a bronze tablet up the Pali, many other spots having been similarly commemorated.

The membership of the Daughters of Hawaii is limited to those—both Hawaiian and Anglo-Saxon—who were born here during the romantic days of the monarchy. At today's meeting, however, which was the annual one, a great many outsiders were invited to be present and to gain some idea of the historical significance of the club, which has been in existence for several years.

WRESTLING AT BIJOU TONIGHT

Among the many amusing and entertaining features that will be submitted to the public tonight (amateur night) at the Bijou theater will be a catch-as-catch-can wrestling match between Soldier King and a Mr. Andrade. The best two out of three falls wins.

This is but one of many stunts that Manager Adams has gathered for one of the best shows ever put on the boards of this city.

It is said that the fortune left by J. Pierpont Morgan will not total over \$50,000,000, and that the capital owned by the firm was smaller than that of several other international banking firms.

That the state will prove a profitable one for travel lectures, though I think that at the height of the tourist season there will be more opportunity in churches and public halls than would be afforded by the hotels."

Safe for Woman's Use

Nothing is more annoying to a refined woman than offensive perspiration or body odors. Those who have used Tyree's Antiseptic Powder know it to be the one remedy which never disappoints. For general use—dependable in all cases—it should be in every household. Unequaled as a douche. Recommended by physicians everywhere, as it contains no poisons. One 25c box makes two gallons standard solution. All druggists or write for booklet and free sample.

'Y' LYRIC CLUB TO GIVE CONCERT

Following extensive preparations, which have included weeks of hard practice, the members of the Y. M. C. A. mandolin and guitar club will give their first concert on the evening of May 13, beginning at eight o'clock. The club was started some months ago under the direction of Prof. L. A. de Gracia and is the first revival of the mandolin orchestra which has taken place in this city for the past several years. The program for the evening will contain only high grade selections and the time which has been spent in their practice now enables the members of the club to render them with all the expression necessary to make them effective.

In company with the selections rendered by the orchestra, a number of vocal solos will be given by Mrs. Charles L. Hall, who has delighted many a local audience and who needs no further recommendation. Mrs. Elsa Howard will give two piano forte selections and Professor de Gracia will render several numbers on the violin. The program promises to be one that will please the most critical, and the concert will without doubt, be the musical event of the month. Although the orchestra is now composed entirely of men, it is being planned to admit a number of local women during the coming year as several have already expressed a desire to join.

The first program will be as follows:

- 1-Selection, "La Traviata," Verdi
- 2-Piano Solo—(a) "Prelude," Y. M. C. A. Orchestra
- 3-Song, "April Morn'g," Batten
- 4-Violin Solo, "Berceuse," Jocelyn
- 5-Mandolin Quartet, "Fregheira," Leon
- 6-"Serenade," Schubert
- 7-"Flower Song," Lange
- 8-Piano Solo, "Rhapsodie Hongroise," Liszt
- 9-Song, Aria from Madame Butterfly, Un-Bel di Vegremo, Puccini
- 10-Violin Solo—(a) "Le Cygne," Saint-Saens
- 11-Mandolin Trio
- 12-"Soloret," Allen

The personnel of the orchestra is as follows: Mandolins—Charles R. Frazier, A. D. Fairweather, H. V. Gear, L. R. Medeiros, Arthur Myhre and S. W. Green; guitars—L. D. Mackaye, Olaf Oss and Dr. N. S. Fairweather; flute—Dave Larson; cello—Walter Beakbane; violin—Prof. L. A. de Gracia, director.

BISPHAM BEGAN CAREER AS AMATEUR

In connection with David Bispham's operatic career it is interesting to note that an amateur performance was largely the means of attracting the attention of professional managers to his exceptional talent. It was after he had completed his studies and made his concert debut in London that he took part in two operettas given under royal patronage. Mr. Bispham's singing and acting so outshone his associates that D'Oyley Carte, the light opera impresario, who with Sir Arthur Sullivan, the composer, had witnessed the performance, promptly came forward with an offer of a part in "Ivanhoe," which had

Mr. Harry Gilbert Pianist with David Bispham

been running for some time. The offer was not accepted, but at the conclusion of the piece's run, Mr. Bispham was given the excellent high-comedy role of the Duke in Messager's beautiful opera, "The Baccara."

Mr. Bispham set about studying the part with the same painstaking energy that has since characterized everything he has undertaken. He worked at comedy with a French actor then in London, and at tragedy with a Shakespearean actor, the late Herman Vezin, and the result was a finished performance that met with the highest praise.

The list of operatic roles that the famous baritone has since sung is a long one, ranging from widely varied characters as Beckmesser in "Die Meistersinger" and Wotan in "Die Walkure" to Falstaff and Iago, with many other parts in French, German and Italian.

"I earned my early experience in the only way possible," said Mr. Bispham, in a recent interview, "the way open to ambitious singers and actors of today as surely as it ever was and always will be. I worked like a slave, studying, studying, never satisfied, and my progress was uphill slowly with ambitions, hopes and confidences and frequent successes to spur me on."

Mr. Bispham will sing at the opera house Saturday, May 3rd, and Monday, May 5th.

Lame Back

One of the most common ailments that hard-working people are afflicted with is lame back. TWENTY-FIFTH INFANTRY
TO ENTERTAIN THE FIRST

[Special Star-Bulletin Correspondence]
SCHOPIEL BARRACKS, April 29.—The Twenty-fifth Infantry mess will inaugurate a series of afternoon teas on next Friday afternoon when they will entertain the officers and ladies of the First Infantry. Owing to the limited accommodations of the mess rooms and porches, it is impossible to entertain all of the garrison at one time, so at the tea planned for the following week the officers and ladies of the mounted regiments will be entertained. Thereafter certain days for similar functions will be set aside and these teas will continue throughout the season. There will be music by the Twenty-fifth Infantry band.

LOCAL AND GENERAL

Honolulu Lodge No. 469, F. and A. M., will meet in Masonic Temple at half-past seven tonight for work in first degree.

Seeking divorcees from their respective husbands, Higa Miyasato and Katsujiro Matsumoto yesterday filed papers in the circuit court.

The regular monthly meeting of the Woman's Guild of St. Clement's church will be held this afternoon at three o'clock in the parish house.

S. Ozaki, the pioneer Japanese merchant, returned by the Tenyo Maru yesterday from a pleasure trip to Japan. He is accompanied by his bride.

United States District Attorney Robert W. Breckons has contributed to the Yale Law Journal for April a paper entitled "The Federal Judicial Code With Some Incidental Observations on its Application to Hawaii."

FILIPINO DEAD; WOMAN IS HELD

Declaring upon his deathbed that he is the victim of an accidental discharge of a .32-caliber revolver, Hypolito Deracho, a Filipino who came to Hawaii from northern Luzon some months ago, died at Queen's Hospital this morning.

Rosa Josephs, a Filipino girl, well known as an habutante of local dance halls, is held at the central police station, pending a complete investigation of the affair by Deputy Sheriff and Coroner Rose, who will hold an inquest.

Previous to his death the Filipino is said to have offered a statement exonerating the girl from any and all responsibility for his death. The story as told the police is in effect that the pair had left a Kukui street dance hall at an early hour Sunday morning, the couple proceeding to the home of the girl. While in the room the woman is said to have taken up the gun and, making inquiry whether it was loaded, snapped the trigger, the weapon exploding and the ball penetrating the thigh of the Filipino, and lodging in the intestines.

SUGAR STOCKS RULE STRONGER

Although next to nothing was done on the stock board today, there is a cheerful aspect to the list of sales reported. Pioneer has recovered an eighth point in sales of 245 shares, in five lots ranging from 10 to 150 shares, at 18.12 1/2, while Hawaiian Commercial shows an advance of one quarter point in a sale of 15 shares at 27, with 5 shares more on the board at the same price. Oahu is unchanged at 13.25 for 15 and 40 shares, and Olaa at 1.87 1/2 for lots of 50, 50 and 40 shares. Besides Hawaiian Commercial, the only stock sold at session was McBryde, steady at 2.50 for 20 shares. A quarter point advance is asked for McBryde, Oahu and Hilo railroads are weak in the using column, also Pineapple, while the two Malay rubbers are strong.

DR. SPERRY RETURNS

Dr. Lyman B. Sperry returned to Honolulu this morning from Hawaii and Maui, where he had gone for the purpose of delivering a number of addresses and obtaining additional photographs for his lecture upon the Hawaiian Islands, which he intends to give on the mainland this summer. Doctor Sperry delivered three lectures in Hilo and eight on the island of Maui. He will leave for the coast on the Sierra May 3.

Real honesty is shown when a person purchases protection for himself and family from such dangers as fire. There's a time to C. Brewer & Co.—BEFORE the fire.

Ladies who keep in style and prefer to be right up to the minute in certain color effects of gown and shoes should see the bronze button boots and pumps at Ye Regal Boot Shop.

"Ah, what enjoyment! The pipe is good, of course, but the man who invents the Owl cigar was a genius—and three-quarters of a million people burn Owl incense to him every day."

There's not only beauty but lots of pleasure in having a good lawn and plenty of flowers. They need lots of water. Put the water on with a rubber hose from Lewers & Cooke, Ltd., 177 S. King street.

BUSINESS ITEMS

Centrifugals, 96 test, were 3.36c to 3.39c in New York yesterday.

Hawaiian stocks in San Francisco closed yesterday as follows: Hawaiian Commercial, 27 bid; Hawaiian Sugar, 27 bid, 30 asked; Honokaa, 4.50 bid, 5.75 asked; Hutchinson, 16 asked; Kilauea, 12 asked; Onomene, 21.50 bid; Paauhau, 13.50 bid, 15 asked; Union, 20.75 bid, 24 asked.

Announcing his arrival at Washington, George R. Carter, in a cablegram to W. H. Babbitt, adds: "Universal discussions tariff from Pacific to Atlantic. Nobody seemed pleased." The sugar protection committee will send Mr. Carter samples of letters received by merchants here in reply to the appeals they sent to their correspondents on the mainland. Hundreds of such have been received, nearly all of which evidence a powerful agitation against the removal of protection to sugar.

As a result of terrific raiding by the bear interests, new low records for a score of stocks were established on the New York exchange yesterday morning. Near 11 o'clock the market rallied from a half point to a point on active covering. London was buying despite the depression abroad. Afternoon prices for important issues were on a level with Saturday's close, the market giving an unexpected indication of recuperative power. After the bear raiding was stopped, business became intensely dull on the rise.

The manual of Hawaiian securities for 1913 has been issued by the Honolulu stock and bond exchange. Its information is complete up to April 1. The manual gives financial and crop statistics of the sugar plantations, together with data of other corporations and bond issues. A section is devoted to general information, with tables of production and consumption of sugar, while another section shows the range of prices on the stock exchange for a year. It is a work invaluable to investors, and the Star-Bulletin is indebted to Duisenberg & Co. for a copy.

CHONG'S BONDSMEN FAIL TO QUALIFY

Appearing before Judge Robinson's court yesterday afternoon, Attorney A. D. Lightfoot was unable to convince his honor of the eligibility of the several bondsmen willing to go the bail of Goo Tai Chong, the former trusted employee of the First American Trust and Savings Company, recently found guilty on a charge of embezzlement. His honor, however, when questioned this morning, scouted the idea, as represented in the morning paper, that security to the amount of \$160,000 will have to be found before Chong can have respite from prison bonds. "The amount of Chong's bond is \$20,000," Judge Robinson explained, "and, under the law, one bondsman is sufficient if he is the owner of double that amount of unencumbered real estate. If such a bondsman cannot be found, two bondsmen, each of whom can present securities amounting to \$40,000, will be sufficient to lift the bond."

The schooner Florence Ward is expected to go on the local marine railway for a general cleaning and repainting, before proceeding to Fanning Island to take supplies for the British cable station. The Florence Ward is believed will get away for the South Seas on or about May 1.

MANAGER BROWN'S WORK FOR SUGAR HITS MAINLAND MARK

Effective Campaigning Reached Not Only Congressmen but Pres. Wilson as Well

Unusually effective work in the campaign for sugar protection is being done by George A. Brown, manager of the Hawaiian Sugar Company. As a result of his activity in bringing the sugar situation to the attention of business associates and interests on the mainland, the mainlanders have taken the matter up not only with a number of influential senators and representatives, but with President Wilson directly as well.

Among the many letters Mr. Brown has received showing how his letters have hit the mark is the following from Henry C. Eames of the H. B. Claffin Company, a big shoe concern of New York. Mr. Eames writes:

New York, April 10, 1913.
Mr. Geo. A. Brown, Manager Hawaiian Sugar Company, Ltd., Honolulu, T. H.
Dear Mr. Brown:—Replying to your favor of March 24, addressed to the firm in regard to the sugar tariff, would say I enclose clipping from the Journal of Commerce of yesterday, April 9. This article was written by my brother, the first vice-president and manager, to our President Woodrow Wilson, and shows how we stand and what steps we have taken to obviate the cutting down of the tariff on sugar. I am also enclosing under separate cover full newspaper of this same date with the article marked. This is not the only tariff revision article that my brother or the firm has entered into extensively. The new

session of congress met last Monday and they are now working along the tariff revision line, but at this date have not got down to debate the tariff, being the caucus session now. I trust very much that they will not change the tariff on sugar and on several other articles that are before the house at the present time. They were elected under a tariff revision and President Wilson will endeavor to do all he can to lower the tariff, and of course put on an income tax to raise revenue where loss is made by the reduction of other articles.

Trusting you will be pleased with this letter of my brother's to the president, and with kind regards and hoping to hear from you soon again, I remain, very truly yours,

H. C. EAMES.

The article referred to by Mr. Eames is a column and a half long and goes into the sugar situation fully. The commercial destruction of the Hawaiian Islands under a free sugar program is emphatically prophesied. The article is taken up largely with the republication of letters from Hawaii, among them being one from C. C. von Hamm, of the von Hamm-Young Co.

Another effective piece of campaigning was done by Mr. Brown with the U. S. Dunn Co., shoe manufacturers of Rochester, N. Y. In reply Mr. W. H. Dunn writes that he has taken up the question with Senators Root and O'Gorman, and also with New York representatives, and hopes to have put the matter favorably before them.

Several other letters are also cited showing that Mr. Brown's letters have gone directly to congressmen as arguments against tariff-altering.

HAWAII WOMAN DOES GOOD WORK IN SUGAR FIGHT

William J. Kline will be remembered by many friends in Honolulu and other islands as the proprietor of the Amsterdam (N. Y.) Recorder who has twice visited the islands and is to be reckoned as a constant friend of all that is best for Hawaii.

The Star-Bulletin has received a copy of the Evening Recorder of April 16, in which the following appears as the leading editorial:

MRS. JUDD'S APPEAL.
"Mrs. A. Francis Judd, of Honolulu, widow of Chief Justice Judd, of Hawaii, who is one of the most highly esteemed women of the territory, says in a personal letter to the editor of the Recorder:

"All the people out here who are the most interested in the best welfare of these islands, deplore the prospect of the free sugar bill passing in Washington, under the new administration, and are doing all they can to defeat it. I beg that you will use your influence and help us in our hour of need.

"If the tariff is taken off Hawaiian sugar, it means disaster to all the best interests of the islands. Only think how the finest and noblest men of this country have worked and slaved and risked everything to make Hawaii what it should be, and sugar is the main industry.

"Sugar is not high priced now, even with the tariff on it. If the free sugar bill passes the only people benefited will be the trusts, which turn up like vultures to get all they can in whatever way possible. The poor people will not be benefited, and those who have risked so much for the islands' sake will be the sufferers. Business interests here will go back and down.

"It seems such a pity when affairs are so prosperous now. Everyone here is doing all that is possible to save the life of the territory, and to protect the interests of all Americans in Hawaii.

"There are large gatherings held here to voice the sentiment of the public on the sugar tariff question, and we hope they will be productive of great good. We have to act at once."

"Mrs. Judd has a comprehensive grasp of the situation and her appeal should receive careful attention. To an unprejudiced mind it would certainly seem that the proposed action

SUFFRAGE BILL PASSED BY HOUSE

"While the adoption of this resolution means that Paxson's seat in this house will be forever vacant, nevertheless I move its adoption." Thus spoke Representative Paxson in the house yesterday afternoon. He smiled broadly, and all the members smiled with him, though Paxson was sincere, believing his statement to be true.

It was the equal suffrage resolution, introduced last week by Speaker Holstein, asking congress to grant a plebiscite in Hawaii, to let the voters say whether the women shall be enfranchised. The resolution was reported favorably by the Oahu delegation, of which Paxson is chairman, and was adopted by the house. Thus the representatives have done their duty in the matter, and have provided artillery for the next political campaign.

All except Paxson, however. His action in the school department investigation apparently has incurred the enmity of the female school teachers, some of whom, two days ago, openly boasted of what they would do to him after they were given the ballot.

No poll-tax was taken on the resolution, as such action is unnecessary, so it is not known just who would have appeared in active opposition. The measure must yet be passed by the senate before it can go to congress.

At a massmeeting in Tokyo 20,000 people cheered the demand that the Japanese government resort to war in protest against the alien land bill now being considered in California. The newspapers in the city denounce the hysterical element.

of congress with regard to the sugar tariff menaces the interests of Hawaii. No other conclusion is possible from the point of view of any one who believes in even moderate protection. Delegate Kalaniano'le says: "The Hawaiian Islands form an extreme example of a one-industry country. Ninety-nine per cent of the commerce of these islands is based either directly or indirectly upon sugar production; necessarily, therefore, the wiping out of four-fifths of our plantations by free sugar legislation will mean industrial disaster for the Hawaiian Islands. The economic effect upon our islands will be to change Hawaii from a one-industry to a no-industry country."

The Book of Experience tells the wonderful help of SANATOGEN to Nervous and Run-Down People

Professor Thomas D. Sullivan, M.S., Ph.D.
The well-known research chemist at Stevens Institute, writes:
"The chemical union of the constituents of Sanatogen is a true one, representative of the highest skill in the manufacture of a product containing phosphorus in the organic form, which is easily assimilated, and is combined with glucose and stimulation of the system are rendered complete with the greatest ease."

St. Gilbert Parker, M.P.
The eminent novelist, statesman, writes from London:
"Sanatogen is to my mind a true food-tonic, feeding the nerves, increasing the energy and giving fresh vigor to the overworked body and mind."

David Belasco
The eminent dramatic author, writes:
"I give my pleasure to tell you how the wonderfully beneficial results I have experienced from the use of your Sanatogen. It has a most invigorating effect upon the nerves, and I heartily recommend it to all who, like myself, are obliged to overwork. After my personal experience I can readily vouch for its recuperative qualities."

John Burroughs
The distinguished naturalist and author, writes:
"I am sure I have been greatly benefited by Sanatogen. My sleep is fifty per cent better than it was one year ago, and my mind and strength are much improved."

George Ade
The humorist, writes:
"I have given Sanatogen a trial, and I am convinced of its merits."

Lady Henry Somerset
The prominent social reform advocate, writes:
"Sanatogen undoubtedly restores sleep, invigorates the nerves and braces the patient to health. I have watched its effect on people whose nervous systems have been notably undermined, and I have proved Sanatogen to be most valuable."

Hon. Wm. F. Chandler
Former Secretary of the Navy, ex-Senator from New Hampshire, writes:
"Sanatogen is a pleasant purgative for cases of indigestion, dyspepsia, and constipation without irritating and promoting acidity to the stomach."

Hon. John W. Kern
U. S. Senator from Indiana, writes:
"As a restorative and tonic, Sanatogen has been a great benefit to me. I feel sure that this preparation is deserving all the praise that has been bestowed upon it."

Charles D. Sigbee
Former Assistant U. S. Navy, writes:
"After a thorough trial of Sanatogen, I am convinced of its merits as a food and tonic. Its beneficial effects are beyond doubt."

Victor Kordock
Member House of Representatives, writes:
"I have taken Sanatogen at the suggestion of a friend and am very pleased with the result. This preparation exerts a very agreeable and beneficial action upon one's digestion and imparts a feeling of strength and vigor."

Prof. C. A. Ewald
of Berlin University, Doctor honoris causa Johns Hopkins Medical School, Baltimore, writes:
"I can say that I have used Sanatogen in a great number of cases (that is, in those disturbed conditions which were mainly of a nervous or rheumatic origin), and have obtained excellent results."

Hon. Geo. C. Perkins
U. S. Senator, former Governor of California, writes:
"I have found Sanatogen to be a very pleasant and effective remedy in all conditions of nervousness and indigestion."

Hall Caine
The dramatist, writes:
"The effectiveness of Sanatogen has been that in 3 weeks' time I feel as more than one condition benefited by it."

Mrs. Sarah Orne
Author of the "Heavenly Twins," writes:
"I began to take Sanatogen after nearly four years' enforced illness from extreme debility, and felt the benefit almost immediately. Now, after taking it steadily three times a day for twelve weeks, I find myself able to enjoy each work and play, and also to do as much as I ever did."

Prof. C. von Noorden
of Vienna University, writes:
"Sanatogen is of special value in various forms of anemia and general debility. It is an excellent alimentary preparation."

David Warfield
the beloved actor, says:
"I am pleased to say that Sanatogen has done all you claimed for it. It not only restores the appetite but is a real blood-builder and a remarkable restorative for an overworked nervous system."

Hon. Wm. L. Chambers
Former Chief Justice International Court, Samoa, writes:
"Sanatogen has been used in my family with the most excellent results, and I do not hesitate to recommend this valuable remedy to those whose systems need building up. It is a most invigorating tonic."

The King of Samoa's Private Physician
Surgeon General Professor Dr. Williams writes:
"I am and shall always be a great admirer of Sanatogen."

Mrs. Amelia E. Barr
The well-known author, writes:
"I send my sincere thanks for the Sanatogen which I have derived from the use of Sanatogen. When I commenced it seven weeks ago, I was in an extremity of nervous weakness brought on by long continued mental work, accompanied by the shock of a bad fall backward. Slowly, but surely, it restored me to my normal state, and now I have almost my usual good health."

Hon. Excellency Prof. Dr. von Leyden
Director First Medical Clinic, Berlin University, writes:
"I have gladly and frequently prescribed Sanatogen to cases of delicate patients in my clinical as well as my private practice and am extremely satisfied with the results."

Hon. Miles Polinder
U. S. Senator from Washington, writes:
"I am sure Sanatogen has benefited me greatly. A few weeks' use of it has produced better digestion, better sleep and a feeling of greater strength."

Late King Edward's Physician
Dr. Ernest Ott, writes:
"I have been using Sanatogen for a number of years in my practice with excellent results. These results have been nothing good but the case of elderly people when it is desirable to build up the strength, to stimulate the bodily functions, and to improve the circulation of the blood."

Hon. Shelby M. Culbert
U. S. Senator from Illinois, writes:
"I can state that I have been decidedly benefited by the use of your Sanatogen. I found this preparation very valuable as a restorative of the nervous system."

The Rt. Rev. the Bishop of Bath and Wells
The Bishop, Wells, Somerset:
"You may like to hear that I am informed by my private secretary that a member of his family has derived very remarkable benefit from using Sanatogen."

WHEN famous men and women, the leaders in thought and action, acknowledge the splendid help of Sanatogen, when 15,000 practicing physicians record in writing their experience of its wonderful, revitalizing effect, when leading medical journals and text books publish the beneficent results of its use—can there be any room for doubt that Sanatogen will help you?

At one time or other we all need "something to strengthen and tone us up." We feel run-down and nervous, and suffer from poor appetite and digestion. These danger signals the wise will heed in time. We must replenish the sources of our strength and vitality and nothing will do this so effectively as Sanatogen. Composed of the two life-giving substances, purest albumen and organic phosphorus in scientific combination (protected by U. S. Letters Patent) Sanatogen gives strength to the nourishment of the starved tissues and cells, regenerates digestion and assimilates the very foundations of physical health and strength. This has been the recorded experience of more than 15,000 physicians and of thousands upon thousands of men and women in every walk of life. If you are wise you will be guided by an experience so overwhelmingly convincing.

A Remarkable Book FREE upon request

We ask you earnestly to get acquainted with Sanatogen. Investigate our claims first if you like and we are only too glad to have you do so. Ask your doctor about it, and in any case write at once for our book, "Our Nerves of Tomorrow," the work of a physician-author, written in an absorbingly interesting style, beautifully illustrated and containing facts and information of vital interest to you. This book also contains evidence of the value of Sanatogen which is so remarkable as to be conclusive.

Sanatogen is sold in three sizes, \$1.00, \$1.50, \$3.00

PROTECT SUGAR FOR SAKE OF CONSUMER

Willett & Gray's Sugar Trade Journal: Beyond the amount a reasonable rate of income tax would bring, the government needs some thirty million dollars of revenue, which can be assessed upon sugar at a reduced duty and give consumers cheaper sugar, and at the same time permit the domestic sugar producers and manufacturers to live and compete in trade.

If this revenue is not assessed on sugar it will be assessed in the form of increased income tax, as the government must collect it from the people in some form.

No tax can be more equitable than the tax on sugar, which every person in the country will pay in proportion to his income.

to their consumption of sugar, and amounting annually to so small a figure as 35 cents per capita, that it will not be felt. This is based on a duty of 80 cents per 100 pounds Cuba sugar, against present duty of \$1.34, or 40 per cent reduction.

This reduction would decrease the profits of the beet sugar manufacturers some \$7,000,000 and would be so large a cut that only those factories could stand it as are suitably located and properly managed.

Inasmuch as the people must pay the tax in any event, it will be better to assess it on sugar and save and continue a legitimate industry, which is a good thing for the country in protecting the general consumer by producing at home a sufficient quantity of a necessity of life to prevent advantages being taken by foreigners.

If all duty is taken off sugar, the closing of domestic factories will give the trade to foreigners, who will eventually advance prices, and our people will receive no benefit by the removal of duty but must still pay the increased income tax while the benefits go to foreigners.

The consumer gets cheaper sugar under the protection of duty to the home industry than he will without

such protection against the European speculative sugar exchanges. Today sugar is 74 cents per 100 pounds below world's prices. This is equivalent to a duty of 81 cents per 100 pounds on Cuba raws instead of \$1.34 because our free and privileged supplies of sugar have so increased under protection that we are independent of European prices and now under the influence of competition among the sugar producers at home.

It might be said that if the domestic sugar industry is no longer an infant industry requiring protection on its own account, it has reached a point where it requires protection on account of the domestic consumer.

Let us reduce the duty, but leave sufficient to insure a successful production large enough to successfully compete with foreign countries, in the interest of the general consumers of America.

Stearns' Wine of Cod Liver Extract gives to delicate children a new vitality, fills out hollow cheeks, and makes them strong and robust. Easy for them to take it too, the taste is so pleasant—advertisement.

MOTT ASTOUNDED AT GROWTH OF HONOLULU

"I am indeed surprised at the wonderful development which has taken place in Honolulu since my last visit here 11 years ago," said Dr. John R. Mott, the noted Christian worker, this morning prior to his departure for the mainland on the Tenyo Maru. "During my brief stay I have taken time from my other duties to make observations and I find that the growth of your city during the last ten years has exceeded all my expectations. I am deeply interested in the several great problems which are now confronting Hawaii, and I have every confidence that they all will work out well eventually."

The Mott party spent a strenuous day yesterday, ten addresses being delivered by various members of the party. More than 600 persons attended the meeting in the Opera House last evening at which time Mr. Mott delivered his last address. He chose no special topic, but spoke generally along the lines of the need of an extended system of mission work in the Orient and in Asia, advising those present to aid in the movement which is carrying Christianity to millions of persons in foreign countries. He related a number of incidents during his recent stay in Japan and China re-

garding the interest which is being shown in furthering Christianity in those countries. That the introduction of Christianity is the one way to silence the guns of war was the opinion set forth by the speaker. In this way, he said, the great racial condition which now prevails will be broken down and the people will be brought together.

Following his address at the Commercial Club yesterday noon, Mr. Mott spent the rest of the afternoon in conference with the officers and directors of the Young Men's Christian Association, outlining new plans of work and telling of his wide experience with associations in all parts of the world. His address at the Opera House last evening came to a close at 9 o'clock, after which, in company with a number of his associates, he attended the annual meeting of the local Japanese Young Men's Christian Association, where he also made an address. The Japanese officers of the association had arranged for a stenographic report and Mr. Mott's speech will be printed in pamphlet form in Japanese and English.

Every member of the Mott party has friends in Honolulu and was entertained during the stay here. Mr. and Mrs. Mott and son were the guests of Mr. and Mrs. Theodore Richards at their residence on Kinau street.

Upon reaching San Francisco Mr. Mott will go directly to Lake Mohonk, N. Y., to attend the world's conference of city associations of America, and later to Edinburgh, Scotland, where he will attend the great convention of Sunday School and religious workers.

DR. RUFFO SAILS ON CHIYO MARU AS SURGEON

By bringing into play at an opportune moment his training for the medical profession received in one of the largest Paris universities, Mr. Juan Baptista Ruffo, refugee from Mexico and at one time adviser of the late President Madero, is now en route to the Orient as chief surgeon on the T. K. K. liner Chiyo Maru.

Following his arrival in Honolulu a few months ago from Mexico, having had to leave the republic upon the downfall of Madero, Doctor Ruffo secured a position in the quarantine service and was working under Doctor James in taking care of the last party of immigrants to arrive here. Last Friday, when the Chiyo Maru docked at the Alakea wharf, an ambulance was in waiting which conveyed the chief surgeon of that vessel to the Queen's Hospital. During the voyage from San Francisco the surgeon had slipped on the deck and suffered a broken leg. The agents of the steamer were at a loss as to where to obtain a substitute, and as none could be found a serious delay in the sailing schedule was threatened. Hearing of the accident and of the need of another surgeon to make the trip to the Orient and return, Doctor Ruffo offered his services, was duly signed on, and left with the vessel. With the return of the vessel to Honolulu on the round trip, Doctor Ruffo will sever his connection with the company and resume his duties on quarantine island.

"I do not want my friends to think that I have skipped out without any warning," he said, a few moments before the boat sailed. "Another month will see me back at my work in the quarantine service."

OFFICER BELMONT LEAVES THE SERVICE

Officer Fred V. Belmont, who for the past two years has been connected with the police department and a member of the staff of plain clothes men under Chief of Detectives McDuffie and Deputy Kellett, has tendered his resignation, to take effect immediately. Belmont has officiated in the district court as Spanish and Porto Rican interpreter. He says that he is leaving the police department to take up private interests that now demand his whole time and attention.

Mascoto Enters Plea.
Manuel Fernandez Mascoto, indicted for the alleged murder of his wife far up in the Kalia valley of weeks ago, has entered a plea of not guilty in Judge Robinson's court. No definite date has as yet been set for the trial.

CAVALRY TEAM IS DARK HORSE OF RACE

[Special Star-Bulletin Correspondence]

SCHOFIELD BARRACKS, April 29. —The newly organized baseball team of the Fourth Cavalry made its first appearance on any diamond last Saturday afternoon, and threw a bomb into the camps of the various other regimental teams of the Post by defeating the First Field Artillery, with a display of form that showed mid-season condition, to the tune of 11 to 4. The Cavalry team has been regarded by a few of the post fans as a possible dark horse in the approaching post series, but generally the fans have only thought of the team as a candidate for the also-ran class. Saturday's exhibition against the Artillery, a team that has already defeated both the First and Twenty-fifth Infantry teams, leaves no doubt in the minds of the cavalrymen that their team has more than a show.

As this is the first regimental team in the history of the regiment, the cavalrymen have not been very much enthused over their prospects, but today a more delighted and confident bunch of ball fans cannot be found anywhere. They offered in the game on Saturday a pitcher named Oakes, of C troop, and when he retired in the seventh inning with the game sewed up, the Artillery had not made a hit, and the score was 9 to 0 in the Cavalry's favor. Zinatour, a recruit pitcher of L troop, who succeeded him, was not so fortunate, being plainly nervous, but he is without doubt a clever little pitcher and when he has gathered a little confidence and experience will be a formidable twirler. The fear of the Cavalry that they had no pitcher for the inter-regimental series that has been troubling them, proves to be unfounded. They have four good men who will probably stack up with any other pitching squad in the post. In the batting line the Cavalry showed up strong. Glamath, on third, making the sweat of the game. Rowenski, who caught in his usual fine form, has recently transferred from the Artillery. The Cavalry will play their second game with the wagon-soldiers this afternoon. Work on the grandstands on the Cavalry-Artillery grounds will begin tomorrow and they will be completed in time for the Artillery-First Infantry game which opens the season on Saturday afternoon.

Dr. W. W. Campbell, director of the observatory at Berkeley, Cal., has the theory that the universe is shaped like a grindstone, with our solar system somewhere near the center.

CASTORIA

for Infants and Children.

What is Castoria?

CASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance (Narcotics stupefy). Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The signature of *Dr. H. H. H. H.* is on every wrapper of genuine Castoria. Physicians Recommend Castoria.

"My patients invariably praise the action of your Castoria." W. W. TUNNEY, M. D., Buffalo, N. Y.
"During my medical practice I know of several cases where your Castoria was prescribed and used with good results." K. MONAGHAN, M. D., St. Louis, Mo.
"Your Castoria is certainly the greatest remedy for children I know of. I know no other proprietary preparation which is its equal." B. S. SCHWARTZ, M. D., Kansas City, Mo.
"I use your Castoria and advise its use in all families where there are children." J. W. DUNN, M. D., Chicago, Ill.
"Your Castoria is the best remedy in the world for children and the only one I use and recommend." ANNE T. SWARTZ, M. D., Omaha, Neb.
"I have used your Castoria as a purgative in the case of children for years past with most happy effect, and fully endorse it as a safe remedy." M. D. BARNES, M. D., Philadelphia, Pa.

AUCTION SALES

Nuuanu Valley Property

Joining

Oahu Country Club For Sale

Under instructions from H. Cushman Carter, of Honolulu, the trustee under deed of trust made by John A. Cummins and Kahalewai Cummins to Joseph O. Carter, dated October 1, 1896, and recorded in the Hawaiian Registry of Conveyances in Liber 165, pages 183-189, I will offer for sale at public auction at my auction rooms at Fort and Queen Streets in said Honolulu, on Saturday the 17th day of May, 1913, at twelve o'clock noon, the tract of land containing an area of 12.735 acres or thereabouts known as Haipu on the Ewa side of Nuuanu avenue, Honolulu, with a frontage on said Nuuanu avenue of 980 feet or thereabouts and adjoining at the rear the golf links of the Oahu Country Club, and more particularly described as follows:

All that portion of the land described in Royal Patent (Grant) No. 860 to Thomas Cummins, whose metes and bounds are as follows:

1. 145° 24', 590 feet along stone wall;
2. 148° 06', 211.1 feet along stone wall and across stream;
3. 225° 30', 115.5 feet, along land Reg. Petition No. 188, Oahu Country Club, to point 45° 00', 0.3 feet from concrete monument;
4. 259° 50' 30", 164 feet, along same to point 298° 22', 19.7 feet from concrete monument;
5. 204° 47', 392.7 feet, along same to 338° 50', 0.3 feet, from concrete monument;
6. 235° 30', 194 feet, along same to point 9° 40', 1.2 feet, from concrete monument;
7. 312° 37' 30", 103.6 feet, along fence, along property of J. G. Spencer;
8. 329° 15', 265 feet, along stone wall, along same;
9. 324° 45', 142 feet, along stone wall, along same to Nuuanu Ave.;
10. 30° 55', 735.1 feet, along north-west side of Nuuanu Ave., to point of curve;
11. Southwesterly along same, following a curve to the right of 5704.6 feet radius, the direct azimuth and distance being 32° 12', 245.3 feet, to the initial point.

Containing an area of 12.735 acres. The said premises will be sold subject to an existing lease (which ex-

pires January 1, 1915) of a portion thereof containing one acre or thereabouts at a rental of Sixty Dollars (\$60.00) per annum, and taxes. The portion covered by the lease is in the southwesterly corner of the tract and is described as follows:

Beginning at a point on the southwesterly boundary of the premises to be sold as aforesaid, 310 feet distant from the stream, running approximately through the southwest corner of said premises, and running northwesterly along said southwesterly boundary to said stream; thence northeasterly along the easterly bank of said stream 116 feet; thence, southeasterly and parallel to said southwesterly boundary, 330 feet; and thence in a straight line about 135 feet to the point of beginning; and containing an area of about one acre.

Terms: Cash; a deposit of ten per cent (10%) of the purchase price must be paid at the time of the sale; deeds and stamps to be paid by the purchaser.

For further particulars apply to H. C. Carter, 87 Merchant street, or Abies & Armitage, 83 Merchant Street, or to me, the undersigned.

O. A. STEVEN,
Auctioneer.
