## A CLOSE GUARD

Proposal to Fumigate All Freight From the Orient.

## THERE IS FEAR OF PLAGUE

An Experiment to be Made at Pacific Mail Wharf—Assistant Port Physician.

The Board of Health held a special meeting yesterday afternoon to act upon several important matters which have been brought to the attention of the Board through the recent approach of the black plague.

The advisability of fumigating all freight brought from the Orient was brought up. It is well known that merchandise of all kinds forms a medium by means of which the plague bacilli may be carried from one place to another. It was the common opinion of all the members that too much care could not be exercised at this time. For this reason an effort is to be made to carry out the proposed step and fumigate all freight from China and Japan, especially that shipped from plague infected ports. A portion of one of the buildings on the Mail wharf is to be fitted up with the necessary apparatus and the experiment will be tried at an early date. It is quite an undertaking and it is not known whether the plan is feasible or not, but it will be at least attempted.

The necessity of having an assistant port physician was apparent to all the members and Dr. N. B. Emerson was unanimously appointed to the position. This is done in view of the fact that on the west the plague is raging, and on the coast small-pox prevails to a greater or less degree. Dr. Emerson will particularly guard against the entrance of the latter, and will board incoming vessels.

A resolution was passed to the effect that every passenger from the coast report to the health officer daily up to the fourteenth day after embarking from the coast. This is another measure to ward off all approach of the smallpox.

There were present at the meeting President H. E. Cooper, Secretary Chas. Wilcox, Dr. C. B. Wood, Dr. F. R. Day, Dr. Emerson, Geo. W. Smith, E. C. Winston, C. B. Reynolds and L. D. Kellogg.

## HE HAS A NEW GUN.

Col. Samuel Parker's Nice Present and the Whyfore.

Col. Samuel Parker has just received from the States a new shotgun, a present from his friend, United States Senator Clark, of Wyoming. This gun, writes the Senator, has been trained to shoot straight, to allow the manipulator to kill birds without sending stray pellets of shot into the bedroom of a guest. When Senator Clark was at Mana ranch, Hawaii, a couple of months ago, with Col. Parker, the statesman was wont to lie abed in the morning while his host sallied forth, and without going a great distance, was able to make a bag of plover. On several occasions, the birds flying in the direction of the house, the Senator heard the breaking of glass and splintering of lumber, and noticed showers of shot in his room. The visitor protested to Col. Parker, but was assured that the affair was a complete mystery to the hunter, as all the shooting had been on "the other side of the house." Senator Clark could only conclude that the Colonel had a gun with an elbow in the barrel, and in consequence has, against another visit, sent on a gun that will do straight business, that knows no tricks nor excuses. Col. Parker is delighted with the fowling piece and will give it a trial at the first opportunity.

## Cooking School Meeting.

There will be an important meeting at the Y. M. C. A. rooms this morning

formation are requested to be present, as the constitution and by-laws of the league under the patronage of which the school will be conducted will be discussed. It is important that a full attendance be had.

## H. C. Injunction Dissolved.

SAN FRANCISCO, June 10.—Henry P. Baldwin, president of the Hawaiian Commercial and Sugar Company, arrived here yesterday from the Hawaiian Islands, and in the afternoon was called as a witness before Judge Daingerfield in the action brought by the Maui Railroad and Steamship Company (Spreckels Brothers) to restrain his company from using the wharf and vessels at the harbor of the island of Maui. A temporary injunction had been granted by Judge Daingerfield, and the plaintiff wanted it continued until the suit over the wharf and other property is decided. Judge Daingerfield, however, dissolved the injunction.

## FIRE ALOFT.

Sparks From a Dance Effect at the Orpheum.

There was almost a big fire and almost a big stampede at the Orpheum Theater during the closing act last evening. The actual sum total, however, was a half-minute of feverish excitement with a little blaze and a wild rush for the orchestra entrance as features. Glorine was doing a fire dance. There was a delayed explosion. Sparks from the bomb landed in the scenery above. First one border was observed to be on fire, then a second one. The house lights were all turned on and Glorine disappeared. The stage people, under the direction of Will Prestidge, lowered the blazing drops and stamped out the flames. While this was going on about half the people in the orchestra seats assembled in a hurry at the door. A little advice and information was shouted to them and they halted. A number of the gallery people had run out by the exit from that section of the house. Marshal Brown happened to be in the theater for a moment, and there were several of his men about, but services of policemen were not required.

The Orpheum Theater and all the buildings in the block are lighted by electricity. The only light or fire other than the current allowed any place about the buildings by Mr. Desky was the exact thing that caused the blaze and the alarm. Modern extinguishers are about everywhere and every precaution is taken against a fire. All were bound to admire the manner in which the scare was handled.

## Happy Mated.

Miss Laura L. Pires and J. D. Marques were married in the Portuguese Protestant Church last evening. Rev. A. V. Soares, assisted by Rev. O. H. Gulick, officiated. Miss Ada Whitney acted as bridesmaid, and Fred Angus performed the duties of best man. Mr. Marques has for several years been an employee of Lewers & Cooke, and Miss Pires is a well-known school teacher. The couple will reside in their new home on Punahou street.

## A New Business.

The See Chung restaurant, situated on Hotel street, has changed hands. The building is to be entirely renovated and fitted up as a first-class restaurant's furnishing store. A gentleman recently arrived from Chicago is at the head of the new concern.

The See Chung Co. has bought out the restaurant owned by Charlie Lind on Nuuanu street.

## AND STILL THEY COME.

An immense shipment of dry goods has just been received by L. B. Kerr and are in shape now and ready for inspection. All are cordially invited.

The Cabinet will not meet today on account of the absence of President Dole at Koolau on land business.

## A RAILWAY INNOVATION.

The Japanese railways have introduced newspaper reading cars on some of their passenger trains. Tall piles of

## PAY IN SUMMER

Salaries for Teachers in Vacation Time.

## THERE ARE CONDITIONS

Work for Two Terms Earns the Concession—Practice School—Los Angeles Convention.

The question of paying salaries during the vacation months was the business brought up at yesterday's meeting of the Board of Education. After considerable discussion the following resolution was passed:

"That all teachers who have taught up to the end of the summer term shall be entitled to as many tenths of their salaries for July and August as they have taught months."

"That all teachers who have taught less than two terms and have severed their connection with the department before the end of the summer term shall not be entitled to any compensation for July and August."

"Teachers who have taught two terms or more shall be entitled to as many tenths of their salaries for July and August as they have taught months."

Inspector-General Townsend reported that a teacher would be needed next year for the Practice School. It was unanimously carried that during Mr. Townsend's visit to the National Convention of Teachers that he have full power to select such teacher, after having looked over the local field to see if there were any person available.

A number of applications for schools and for transfers were read and referred to the school committee.

Inspector Townsend leaves today by the Mariposa to attend the Teachers' Convention at Los Angeles. During his stay there he will deliver an address upon the school system of the Hawaiian Islands. A number of teachers from all parts of the group have booked for passage by today's steamer, but it is doubtful whether they can all secure accommodation.

At yesterday's meeting there were present Minister E. A. Mott-Smith, Mrs. E. W. Jordan, Professor Alexander, Secretary Rodgers, J. Q. Wood, H. von Holt, Inspector Townsend and Charles Hopkins.

## CONGRESSMAN MONDELL.

Member of House Cannot Remain for the Fourth.

In response to unanimous invitation from the committee, Congressman Mondell yesterday morning agreed to remain over on the Islands and to be orator of the day here on the Fourth of July. Later, Mr. Mondell found that at least two engagements he is under on the Mainland compelled him to recall his acceptance to make the principal speech on the occasion of Honolulu's celebration of American Independence Day. For one thing it is absolutely necessary that he attend the National Irrigation Congress. He has for years been a recognized authority on matters pertaining to arid lands and the disposition of the waters of the mountains and has but lately retired as assistant commissioner of public lands for the United States.

It is very much regretted by both Mr. and Mrs. Mondell that they are unable to be with this people longer on the occasion of their present visit. The Congressman is particularly sorry that he is forced, of necessity and under pressure of both public and private duty to forego the pleasure and distinction attached to compliance with what he characterized as the kind and welcome invitation of the Fourth of

July celebration committee. Both Mr. Mondell and his charming wife will have the warmest aloha, on their departure, of all whom they have met in Hawaii and they will be cordially welcomed on their return to the Islands. It was their intention, had they remained over to again visit Hawaii and to spend a few days on Maui and Kauai and to perhaps call at Molokai ports.

The presumption now is that the committee will again return to consideration of Mr. McClanahan or the "mixed program."

## Cabinet Conclusions.

At the Cabinet meeting yesterday the name of the railroad to be laid in Hawaii was approved. It is to be the Kohala and Hilo Railway. The draft for a charter presented by W. O. Smith a few days ago was handed back by the Cabinet. It will be submitted again on Monday, after several changes have been made.

Appropriations of about \$20,000 were made to complete the building of side and parallel roads in Oahu.

## PLANTING SUGAR.

Quest for Knowledge of a Young Lady Correspondent.

She was a real nice young lady, stylish, with an intelligent face and with an air half dependence and half independence. She was visiting Ewa mill and had credentials as correspondent of a well-known Eastern paper. She was a good listener, and her questions were polite and rather carefully thought out. She had seen everything and was waiting for the town train to come along from Kahuku. The young lady had watched cane from the time it went through the first set of rollers. She had seen the trash go to the furnaces and had followed the juice clear into the sugar room, where the raw dropped from the centrifugals, and where the bags were filled by the Japanese men and sewed up by the Japanese women. The correspondent and one of the important employees of the place were chatting pleasantly when the young lady had a vision that she had forgotten to inquire about one particular thing. Said she, grasping in her dainty hand a bit of raw sugar, "Now, when they plant this sugar do they sow it in hills like potatoes, or do they scatter it broadcast?" The mill man responded that it was scattered broadcast by the Japanese. To this the young lady gave assent and credence, and further inquired: "But how do they get it in rows, as I noticed in the fields?" The childlike and bland chief falsifier of the district answered that so soon as the tops appeared above ground the hoe was used and the beautiful and regular row effect made. This satisfied the visitor, who soon left with her storehouse of knowledge.

## Y. M. C. A. Success.

The Y. M. C. A. received returns by the Alameda concerning the educational exhibit recently sent forward to the International Convention. It was learned that each of the three papers had been awarded certificates for excellence. The three papers were: "Elementary Arithmetic," Edwin A. Irish; "Elementary Bookkeeping," J. P. Nawai and Edwin A. Irish. This is the first time this has ever been done by the local Y. M. C. A., and the teachers are greatly elated.

The Review has been delayed somewhat this month, as Secretary Coleman has been awaiting a letter for publication regarding the work of the International Convention recently held at Grand Rapids, Michigan.

## Hackfield Building.

The building now occupied by E. Vandorne near the foot of Fort street is to be replaced by a handsome two-story brick structure to be put up by Hackfield & Co. The little store has been a landmark for years for sailors and habitués of the water front. The brick building will be the first new structure that has been erected at that part of Fort street for some time.

## HAS NEW TALENT

Recent Arrivals Appearing at the Orpheum

Hartwell Sisters—Dave Marion—A Prima Donna—A Clever Entertainment.

The Orpheum theater is now giving one of the best programs that has been offered since the opening of the house or the galvanizing under the ownership of Desky and management of Post.

New people were brought by the Alameda. These include the Hartwell sisters, contortion dancers, Miss Marie Brandes, soprano ballad singer, and Dave Marion, comedian and acrobatic dancer. The sisters have a fine stage appearance and pretty costumes, dance well and perform remarkable feats of twisting and tumbling. They are great favorites already. Miss Brandes has the best trained voice that has been heard in the house and is the superior of any vocalist that has been heard in Honolulu in months. She wears stylish gowns and though a large woman is graceful and is of pleasing presence. Miss Brandes has been requested to sing "Oh, Promise Me," and a number of other old favorites and will as well during her engagement give solos from new operas. Dave Marion is a brother of Sam Marion, who was here with the McCoy sisters in "A Trip to Chinatown." Dave is an entertaining comedian, considerable of a character actor and sings a topical song well. As a dancer he has few equals on the stage anywhere. He is giving on the program of this week a coster song that is well liked. Dave is a San Francisco boy who has found a number of personal friends here. He has been with some of the best comedy organizations in the United States and has for a long time been a prominent figure in high class vaudeville. Frank Barton, rag time singer and buck and wing dancer, retains his strong hold on Orpheum audiences. His "Hello" is the hit of the season. Post and Ashley never fail to please and are giving a laughable new farce. They are always expected at the Orpheum and sorry the day they leave. Little Willie Howard, the child wonder, is this week doing an original slack wire and musical act and with his kind permission the audience smiles. Glorine has been engaged for two more weeks and her various dances are sensational as ever. Annie and Minnie Kanoho are singing Hawaiian songs at the Orpheum and their appearance is a genuine feature.

LAUGH AND GROW FAT.

When the wedding notice appeared in the paper it was announced that the ceremony was necessarily postponed for several days owing to the non-arrival of the bride's trousseau. The ignorant printer had misspelled the word trousseau.

The P. C. & M. Co. will sell you a high grade Sterling bicycle for \$60 on small weekly or monthly installments. "Begorra! Did ye ever notice how much more frequently the tram cars travel on the other track than this? Faith, we've met in or a dozen goin' the other way since we started and divil a wan goin' this."

If you want a fresh rubber tire put on to your wheel, call upon the P. C. & M. Co. They have a standing order with the different rubber manufacturers to make monthly shipments. Don't accept a rubber tire unless it is fresh, particularly in this semi-tropic climate.

"You have a nice little house, but where are your bed chambers?" "Oh, the bed chambers open off of the closets."

The P. C. & M. Co. make nickel-plating or electroplating a specialty. Don't send your work to the coast; patronize home trade and save 50 per cent. Dealer—"I'll sell you that wheel for fifty dollars. It weighs twenty-two pounds." Rube Scudder (from Hilo)—"Why, my boy, Abe bought one for twenty-five dollar day that weighed ninety pounds. You can't soak me, by gum?"

For six dollars the Pacific Cycle & Mfg. Co., Fort street, will make your old wheel look like new. Try them.

Raw Sugar Outlook.

(Willett & Gray.)

After a somewhat long rest at the level of prices attained by a series of advances, the raw sugar market has again made a new move in its upward progress. The business consummated reached quite large proportions taken altogether. At the close buyers are quite willing to go on, but business is checked by the lack of free offerings. The A. S. R. Co. secured the larger part of sugars sold. It became necessary for the Howells to buy freely on account of the reopening of the Moltenhauer refinery, which has been closed for some time past. The Arbuckle Bros. also came in as purchasers. It was the buying of these houses that advanced the market and leaves it at the close in a very strong position and ready for another improvement in the near future, notwithstanding that refiners have now enough supply here and in sight to arrive to meet their requirements for the next sixty days at least. The general conditions of the sugar situation of the

## ROYAL SCHOOL.

Much Choice Music in a Progress Hall Concert.

The entertainment given by the Royal School last evening at Progress Hall was well attended despite the rain. A good program had been prepared and was well rendered. Among the special features was the piano playing of Miss Castle, and the violin and piano solos of Miss Maud Kinney. The recitative and chorus by Mrs. C. B. Cooper and Royal School boys was warmly applauded. The program was as follows:

PART I.

Chorus—March from Norma... Bellini  
Royal School Boys.  
Chorus—"The Sea Is a Jovial Comrade"..... J. Spencer Curwin  
Royal School Boys, Fifth and Sixth Grades.  
Violin and Piano Solo—(a) Die Schicksal No. 1..... Beethoven  
(b) Barcarole No. 4..... Rubinstein  
Miss Maud Kinney.  
Trio—"Blow Balmly Breath of Spring"..... Mendelssohn  
Chinese Girls.  
Violoncello Solo—(a) Romance..... Rubinstein  
(b) Moments Musicales..... Schubert  
(c) Selection, Orpheus..... Gluck  
Mr. H. Mott-Smith.

PART II.

Chorus—"O Come to the Woods Away"..... J. A. Butterfield  
Royal School Boys.  
Chorus—"Winds Gently Whisper Through the Bowers"..... Whittaker  
Royal School Boys, Fifth and Sixth Grades.  
Piano—(a) Solfeggietto..... Ph. Em. Bach  
(b) Gavotte, from 3d English Suite..... J. S. Bach  
Miss Castle.  
Recitative and Chorus—Recitative—"There were Shepherds Abiding in the Field."  
Chorus—"Glory to God"..... Handel  
Mrs. C. B. Cooper and Royal School Boys.  
Chorus—"Hawaii Fair".....  
Music—Anna B. Tucker  
Words—Philip H. Dodge  
Royal School Boys.  
Accompanists—Mrs. Kinney, Miss Hopper and Mr. Schernstein.

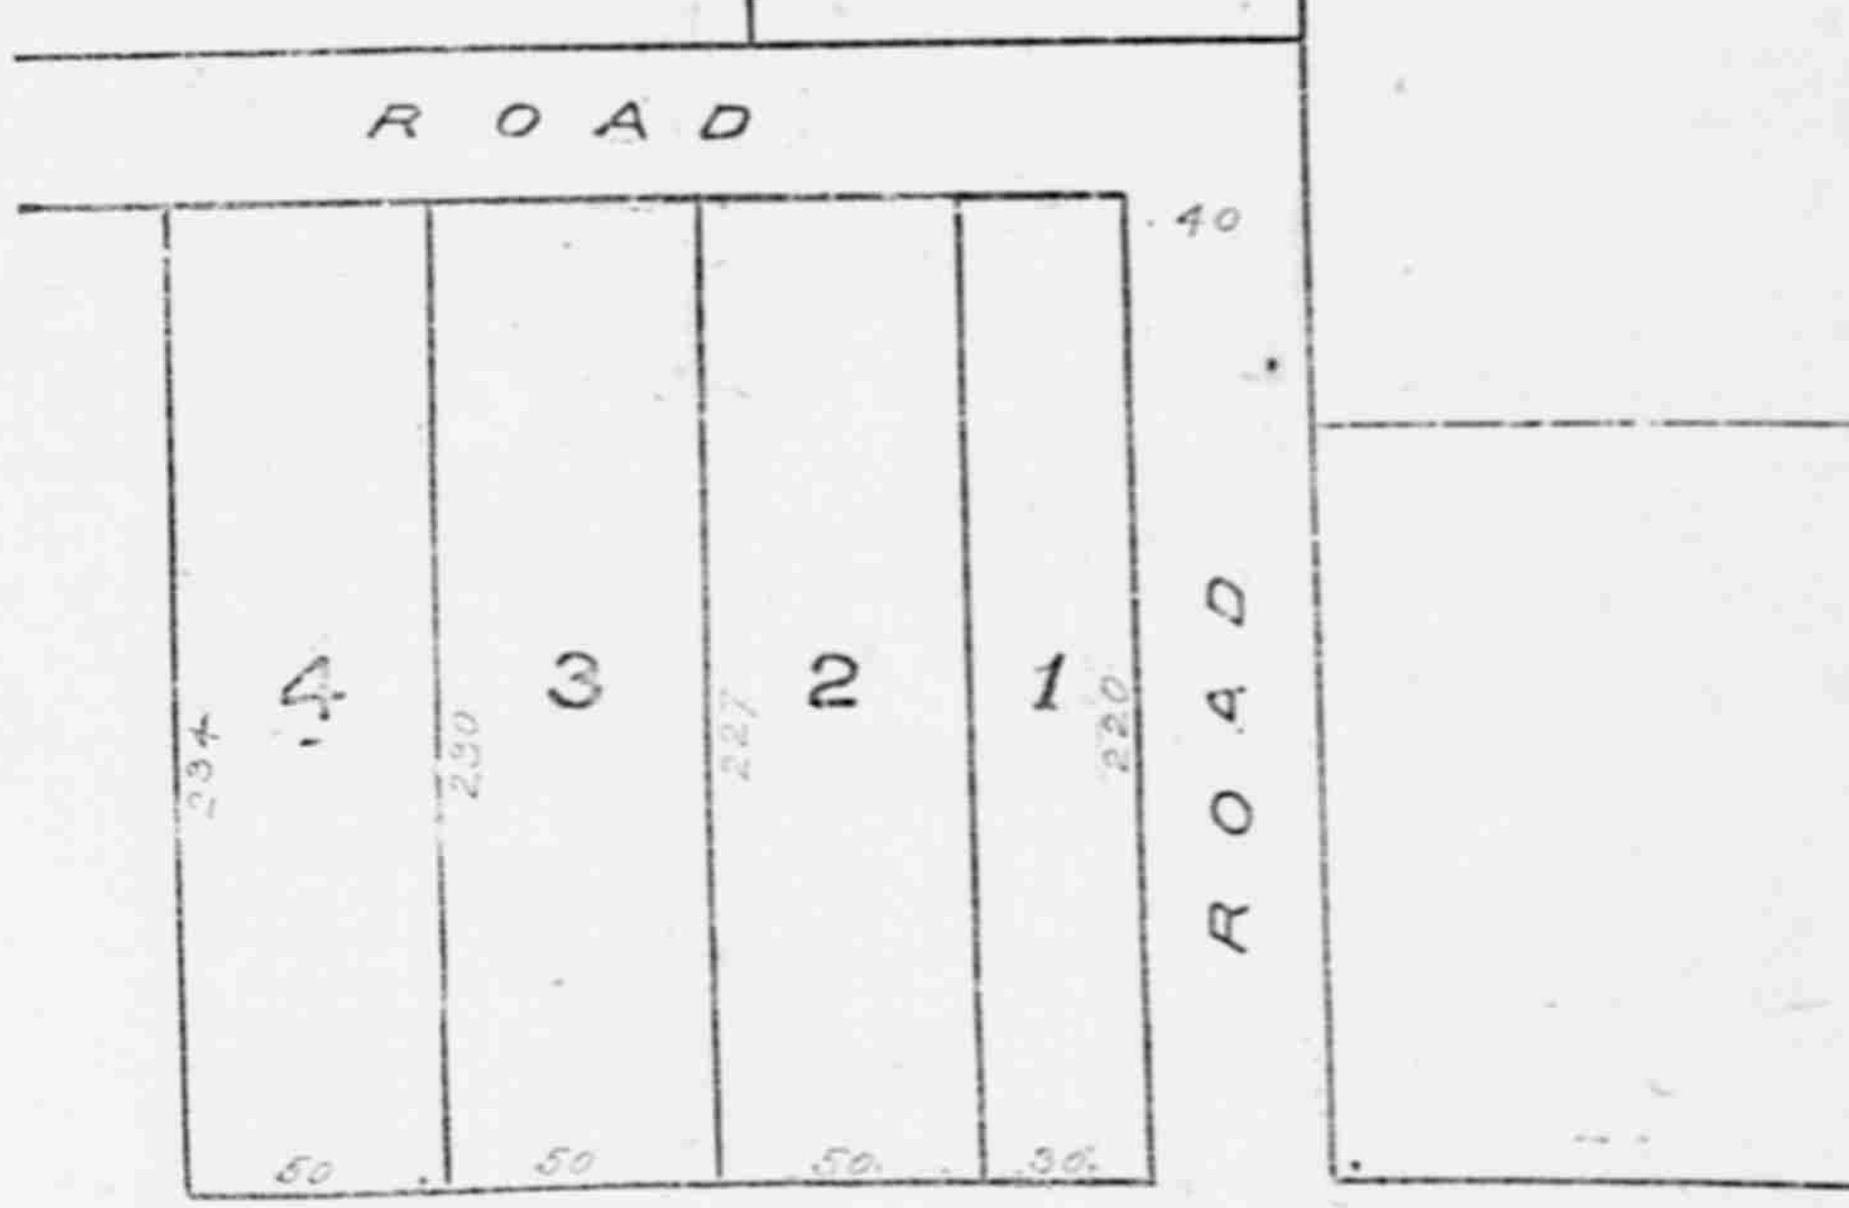

## STARS AND SOLDIERS.

Lively Base Ball Game is Promised for Tomorrow

The fans are beginning to speculate on tomorrow's baseball game between the Stars and the Artillery. To many it seems as if the former were a sure winner. But the improvement made lately by the soldiers is surprising, and it is not at all improbable that there will be another surprise party. Both teams are practicing hard, as the Stars wish to retain their laurels and the Artillery are anxious to prove they are worthy opponents. Either Hart or Babbitt will occupy the box for the home boys. Otherwise the team will be the same as the one which won out last Saturday in the rattling ten-inning game against the "Kams." The Artillery line-up will be: Bryan, pitcher; Lafan, catcher; Kuiz, first base; Huffer, second base; O'Meara, third base; McAllister, shortstop; Hawkins, left field; Craven, center; Williams, right.

"The Octoroon" at the Opera House tomorrow night promises to be the most successful play of the McVay engagement. Violet Dale appears in a character part and in entertaining specialties.

## BUSINESS SUITS.

Come in and look at them, examine the goods, the linings, and the way they are put together; try them on and say whether you ever saw their equal for the money. Here is more style and better material than you will ordinarily get in a made-to-measure suit at thirty-five dollars.

Think of buying suits like these \$10, \$12, \$15 and \$18, and every one warranted by the makers.

## OFF FOR OMAHA

Col. Logan Ready for the  
Exposition Season.

Preserved Fruits and Vegetables—  
School Work and Photographs.  
Governor Cleghorn.

A portion of the exhibit for the Hawaiian section at the Omaha Exposition was on view at the agricultural bureau rooms yesterday. Last evening it was boxed and crated for shipment by today's steamer. Secretary Logan also leaves today and will have personal charge of the exhibit to its destination.

Big jars contained papayas, figs, mangoes, oranges, corn and potatoes, all of which looked as natural as in their pristine state. Aid in putting up these articles was given by Byron O. Clark, M. Luttet and Geo. W. Smith. The work is very creditable. In addition to the fruits in their natural state dozens of jars of jams and preserves were temptingly arranged.

A collection of articles from Kamehameha schools showing examples of work turned out in the various departments is one that will attract considerable attention. Along with this is a number of first class drawings and relief maps sent by Bro. Frank, principal of St. Anthony's school, Wailuku. All of the articles are the work of the scholars.

One of the finest collections of Hawaiian views ever gotten together forms an interesting portion of the exhibit. The photographers have all furnished their finest specimens, and they are first class examples of the photographer's art.

There were a great many other articles. Great quantities of ferns and palms of the same varieties as grow in the Islands will be sent on. Considering the brief time which Secretary Logan has had the showing already made is a creditable one. More material will be gathered up to the time of Gov. Cleghorn's departure and will go forward under his supervision.

### BOYS' BRIGADE.

Lads Make a Good Showing at  
Palama Chapel.

The Boys' Brigade of Palama gave an entertainment and drill at the chapel last evening, which was greatly enjoyed by all present.

There were thirty boys in uniform, and their drill and dumb-bell exercises showed careful training. The first prize, a silver medal presented by Armstrong Smith, was awarded to Stephen Parker, son of Capt. Robert Parker. Solomon Kalalua obtained the second prize. The judges were C. F. Perry, commander of the Kamehameha troops; Lieut. S. Johnson, and Lieut. Boyen, N. G. H.

The Boys' Glee Club sang two selections, and the Mandolin and Guitar Club played twice. The latter is under the direction of Professor Eames, and the boys are doing well. A zither solo by Mr. See was well rendered, and he responded to an enthusiastic demand for an encore.

Refreshments were then served and the rest of the evening was passed in a social way.

### Braved Death for a Dog.

First Officer Kearney of the steamship Doric had a narrow escape from drowning while in Hongkong. Kearney has made quite a record for himself in the past as a life-saver. It is not many months since he rescued a sailor from drowning near the Pacific Mail dock at San Francisco. His latest dive, and one which almost proved fatal, was taken in the cause of gallantry. He was standing on the Kowloon dock at Hongkong talking with a lady. The lady had a dog in her arms. A gust of wind came along and carried Kearney's hat into the water. The lady remarked on the pity of the accident, and Kearney was in the act of belittling the loss, when another gust attacked the lady's hat. She put up her hands to protect the hat, and down went doggie into the water. The lady screamed and Kearney, who felt that his record as a life-saver was at stake, threw off his coat and followed the dog. He reached the dog, and then realizing that he was just as wet as possible, decided to recover his hat. There was a strong tide running, and by the time he had overtaken his headgear he was thoroughly exhausted. He yelled for help, and would have given up the struggle but for the moral support of his shipmates, who spurred him to further effort with their voices and finally hauled him ashore at the Cosmopolitan dock. The lady presented Kearney with a sweet-voiced canary in a handsome cage as a mark of her appreciation of his pluck.

IF YOU WANT to have a good laugh go to the ORPHEUM tonight.

FRIDAY : : : JUNE 23.

THE BOARD OF HEALTH.

The services of the Board of Health are not adequately appreciated by the community, because they are not of a kind that may be readily seen. Besides some of their work is technical and the value of such work is understood only by those who take the trouble to study it.

We have the advantage here of living at the gateway to the Far East, and we have also the disadvantage of being the very first to be injured most seriously by the stupidity and indifference of the Chinese in the treatment of diseases.

If the Japanese Government did not exercise the most intelligent care and supervision over passenger traffic moving to the eastward by way of this port, our peril would be constant. There is nothing to be feared so far as Japanese vigilance is concerned, and the authorities of Hong Kong are able, and vigilant, too, but until the Chinese, as a community, get better notions about malignant diseases, we shall always be in some danger.

The treatment of the case of alleged bubonic plague among the passengers of the Nippon Maru by the Board of Health has been excellent. Even if the case were not one of the plague, the Board cannot take any unreasonable risks. The members of the Board are now becoming veterans in the warfare against dangerous diseases, and do not lose their heads. As trustees for the preservation of the public health they must be somewhat overcautious, but must also see to it that travel is not unduly interrupted.

The best tribute to the efficiency of the Board of Health lies in the fact that there has not been any symptoms of a panic, or even unusual excitement, in the presence of this most fatal disease off our port. A want of confidence in its skill or integrity would have spread consternation in every direction. As it is, the confidence in Dr. Day and his associates is so strong that there has not been a ripple of apprehension, and in spite of the fact that we are now the most exposed point of the United States, we are as well protected as any port in the world is protected.

THE LAWYERS' REQUEST.

President McKinley will not be disposed to pay much attention to any petition addressed to him by Honolulu lawyers, asking him to consult his own Attorney-General about the extension of the Constitution to and over these Islands. The Attorney-General is a member of the Cabinet, in close and constant communication with the President. He advises the President verbally regarding the construction that should be put on constitutional provisions, and upon the effect of legal enactments.

Whenever he delivers a written opinion, it is not because the President requires it for his own information, but for the purpose of informing the public as to the attitude the President has taken. His opinion is that of the President, who is his superior officer.

It may be assumed that the President and his Cabinet have fully considered the relation of the Constitution to these Islands. He has adopted a policy based upon that consideration. It looks like a piece of impertinence for any body of men to ask the President to consult his subordinate about the relations of the Constitution to this territory, for the Attorney-General only expresses the President's views.

A request by a few lawyers, asking the President to tell them what he thinks about an important matter is an unprecedented affair. If the request is made, he will probably reply: "I am governing Hawaii under the joint resolution, and whenever events call for definite action on my part, I shall act officially. I am under no obligations to volunteer opinions on subjects not before me. If you have doubts about the force and effect of the Constitution in Hawaii, it is your doubt and not mine. If I have any doubts about the decisions of your local court on any subject, I shall find a way to have them properly reviewed. I admit that the present legal status of your territory is embarrassing. But the history of the Federal Government, during the last hundred years, shows a multitude of embarrassing questions, which only the Supreme Court can settle."

Even if the Attorney-General should furnish a written opinion expressing the President's views, it would be merely directory, and not binding. His opinions have frequently been "killed" by the Supreme Court.

The President will, undoubtedly, approve of the decision of our own Supreme Court, in its construction of the relation of the Constitution to this territory. It is in line with his own

policy regarding Porto Rico, which is a part of the American territory, and is governed by him without reference to the Constitution.

Some of the provisions of the joint resolution of annexation may be unconstitutional. There are strong arguments to be made in favor of that view. The President is contented to treat the act as entirely constitutional, and he will thank the justices of our territorial court for not, at the present time, making any radical decisions regarding the extension of the Constitution which might be embarrassing.

DREYFUS.

The decision of the French court in the Dreyfus case is due in a large measure, it is said, to the resolution of the Hebrews of France that justice should be done in the case. The frantic mob of anti-Semites made an issue with them, on the guilt of Dreyfus, and they had to accept it. With their enormous wealth and intellectual power, they have pressed the mob steadily back, and now, at an expense which will never be told, have proved substantially the innocence of their Jewish brother. It is the magnificent fight of a race for fair play, by simply using the moral forces of the world. They have called up out of the Frenchmen their own love of justice and right, have held the mob in abeyance by moral forces, and in the end forced the surrender of the French nation.

It is still believed by many that Dreyfus is guilty, but has been made the scapegoat in the treachery of the army officials. Whether he is, or is not, public sentiment in France now demands that guilt be proved beyond doubt, and that his case be removed from the control of men who are not above suspicion.

Prominent as the Jews are in European finances, they have now shown their sagacity, and far-reaching power as politicians by securing a victory for one of their own number when the military and civil power of a great nation had apparently crushed him, and put him in a cell beyond the sea.

Administratrix Sale  
—OF—  
Real Estate  
AT AUCTION.

On Saturday, July 1st, '99,  
AT 12 O'CLOCK NOON.

At the front or mauka door of the Judiciary Building, Honolulu, by order of VICTORIA S. ELLIS, administratrix of the estate of Nancy S. Ellis deceased, the following described real estate will be sold by me at public auction to the highest bidder for cash in U. S. Gold Coin, subject to the confirmation of the Court. (Deeds of sale at the expense of purchaser) to-wit:

Apana 1, Royal Patent 2258, Kuleana 2133, containing 586.8 fathoms, more or less.

Apana 2, Royal Patent 2397, Kuleana 1405 Hauhaui, containing 153-1000 of an acre.

Both pieces adjoin one another and are Ewa of Liliha Street, Honolulu, and directly in line of the proposed extension of School street; for maps and further particulars call at my office.

BIG PRINTING HOUSE.

Harpers and McClure to Have a Mammoth Plant.

NEW YORK, June 11.—It is said that the Harpers and McClures, who recently combined their immense publishing interests, will build an enormous printing house. There never was greater need in New York for such an institution, for every book concern in the city and environs is worked to its limit. Your correspondent knows of half a dozen books that were accepted nearly a year ago by large publishing houses that have not yet been touched simply because of lack of facilities for handling them. Book making has grown to enormous proportions and mechanical plants have not kept pace with the increase.

According to my informant, who is connected with one of two houses that recently consolidated, a plan has been under consideration for some weeks and will be definitely passed upon when S. S. McClure returns from Europe. In a general way it is planned to do work for outside houses and to make the plant the largest and most complete in the United States. If the scheme is carried out it will at once relieve the pressure that is now keeping many books from publication.

Nothing  
So Bracing  
—AS—  
PURE AIR

Everyone enjoys it; your health depends upon it. You can just as well have it as your prudent neighbor. Old and young alike endorse it.

DISINFECTINE

With the heat of summer comes the foul and disease producing air from the cesspool, vault and cellar. You must be on your guard against the accumulation of trash, garbage, etc.; it is dangerous to have around.

INSURES

No skill is required to have the air about your home pure. The cost is trifling and effect is wonderful. Disinfectine as prepared by us will serve the purpose.

PURE

We have it prepared in quantities to supply any or all demands. We will deliver to your home, if within the city limits, a trial bottle at 25 cents. Don't neglect to order a bottle at once.

AIR.

Those who are familiar with the article order it by the gallon, which proves beyond all doubt that it is the proper thing.

Manufactured only by

HOLLISTER DRUG CO.

SOLE AGENTS.

Almost Blind

Scrofula Affects the Eyes—Little Boy Treated by an Oculist Without Relief—But Now He Is Well.

"When my little boy was three months old his eyes became very sore and he was almost blind. I took him to an oculist who treated him for six months, and left him as bad as he was at the beginning. Finally Hood's Sarsaparilla was recommended and I began giving it to him. In less than three weeks he was able to go into the sun without covering his eyes, and today his eyes are perfectly well, and his ears and nose, which were badly affected, are also well. Hood's Sarsaparilla has certainly done wonders for my boy." MRS. JAMES H. PAINTER, Amador, California.

Hood's  
Sarsaparilla

Purifier. All druggists. \$1.50 for \$5.00 bottles.

TIMELY TOPICS

June 1st, 1899.

Now that spring time is here, have you given a thought about renovating your home. The nasty, wet weather we have had for the past month has delayed the usual spring work, but better late than never. ## A SCHEME FAILS

American Plan is Rejected at The Hague.

Virtual Abandonment Recorded—Progress of Peace Conference.  
The Drafting Committee.

THE HAGUE, June 9.—The Peace Conference today entered upon its most important stage when the drafting committee of the third section took up arbitration. According to a foreign delegate, the American scheme does not seem to have obtained the support of many of the delegates. The Americans, it is added, have realized this, and have virtually abandoned the idea of pressing its adoption, and, therefore, it may be considered virtually abandoned, or, at most it will only furnish material for a few amendments, which will be submitted during the debate.

The Russian project is still kept absolutely secret. M. de Staal, head of the Russian delegation, and president of the conference, has voluntarily withdrawn all claims to priority in favor of the British scheme. The Russian scheme will not be pressed and the other part will be incorporated with the British proposal in a definite scheme. The proposal of Sir Julian Pauncefote, head of the British delegation, has the advantage of not saddling the powers with the expenses of a permanent sitting tribunal, especially as the latter would have nothing to do during the greater part of the year, and the adoption of this scheme, with modifications, is considered certain. An appendix relating to organization in the Russian scheme of an arbitration tribunal proposes that the conference appoint five powers, which, when a request for arbitration is made, will each name a judge, who will form the tribunal.

The drafting committee was in session for three hours, although not a single conclusion was reached, with the exception of the acceptance of the British scheme as to the basis upon which to discuss the estimate of a tribunal of arbitration. After the session most of the members telegraphed their respective Governments, indicating that the discussion showed the necessity of having their instructions amplified.

It is understood that several of the delegates of the smaller powers expressed a wish that the permanence of the tribunal might be made more effective, and even moved amendments in this sense. The great powers, however, think it impossible, it is said, to go beyond Sir Julian Pauncefote's proposals.

### NEW CABINET FOR FRANCE.

PARIS, June 14.—President Loubet received M. Poincare this morning for the purpose of entrusting him with the task of forming a new Cabinet. M. Poincare asked for time to deliberate and will give the President a definite reply at 6 o'clock this evening.

Finally M. Loubet appealed to M. Poincare's patriotism, and the latter thereupon consented to consult his friends. Although it is realized there are great difficulties in the way of his success, it is the general impression that if M. Poincare is in earnest he will succeed in forming a Cabinet.

### DREYFUS WEPT.

LONDON, June 14.—The correspondent of the Daily Telegraph at Cayenne, French Guiana, says:

Last Friday, when Dreyfus was embarking he cast a long and tearful look upon his prison and said: "Excuse my natural emotion. I have long been accustomed to that little piece of land, and I have very much loved its good and affable population."

### KITCHENER MAY GO TO INDIA.

LONDON, June 12.—The Standard this morning says: We understand that the Viceroy of India (Lord Curzon of Kedleston) is anxious to obtain the services of Gen. Lord Kitchener in India for the economical organization of frontier defenses and expeditions owing to the urgent necessity of effecting reductions in military expenditures. It is probable, therefore, that Lord Kitchener will be withdrawn from the Sudan and appointed to a high post in India.

Last fall I sprained my left hip while handling some heavy boxes. The doctor I called on said at first it was a slight strain and would soon be well, but it grew worse and the doctor then said I had rheumatism. It continued to grow worse and I could hardly get around to work. I went to a drug store and the druggist recommended me to try Chamberlain's Pain Balm. I tried it and one-half of a 50-cent bottle cured me entirely. I now recommend it to all my friends.—F. A. Babcock, Erie, Pa.

## CONFIRMATORY.

Beet Sugar Interest and Trust Favorable to Hawaii.

(The Financial Letter, S. F., June 2.)

The full and permanent protection of Hawaiian sugars against semi-domestic productions, as well as against foreign competition, is completely assured. Private and reliable advices from the East say that the beet sugar interests have been semi-officially informed of this fact, and in consequence will make no effort at the coming session of Congress to have a duty imposed on Hawaiian sugars. In the case of those of Puerto Rico, Cuba and the Philippines, however, tariffs will be imposed in the protection of the beet sugar industry. A measure to that end will be introduced in Congress and will have the support of the Secretary of Agriculture. These are either conquered or militarily occupied territories, and the Government has full discretion in the premises. It is different in the case of the Hawaiian Islands. They were not only annexed by treaty between the former Government of those Islands and the United States, which treaty was ratified by Congress, but the document contained a clause restricting future legislation by Congress in respect to Hawaii to the government of those Islands. In other words legislation is confined to matters relating to their interior government, and it is not in the power of the American Government to legislate on subjects pertaining to matters between them and the United States proper, such as would be the imposition of a tariff on their sugars. The Administration, fully understanding this restriction, has made the situation apparent to the beet sugar men, which explains their abandonment of any attempt to place a tariff on Hawaiian sugars. They know it cannot be done.

At one moment Hawaiian touched as low as 92.50, but this was followed by a revulsion. An advance was made to 93, then to 95, 95.50, 95.25, and on Thursday, the 8th, \$100 was again reached.

The changes in price of the other listed sugar stocks were slight. Most of them regained whatever ground had been lost.

Paauhau will pay its fourth dividend of 30 cents tomorrow. This company has a large surplus on hand for the payment of dividends, its present crop is assured, and the outlook for the next campaign is most favorable. Its stock has ranged from 41 to 39.75.

## The Wyfield for Manila.

The United States Government on June 11th chartered the big British tramp steamer Wyfield to carry stores to Manila. The Wyfield has been engaged in carrying coal for John Rosenfeld's Sons for some time past. Her coal charter expired and she secured another to carry general merchandise from here to Australia and coal from the colonies to San Francisco. Her charterers gave way to the Government, however, for one trip, and will charter a sailing vessel to take her place temporarily. When the Wyfield returns from Manila she will be placed on the Australian run. The Wyfield is a large carrier, and will take between 6000 and 7000 tons of Government stores to the Philippines.

## WAR ON TUBERCULOSIS.

First Steps Taken by the Chicago Veterinary Society.

CHICAGO, June 9.—Public war on tuberculosis was formally declared last night when the Chicago Veterinary Society at a meeting decided to take the initiative in the crusade against the scourge. To that end the society called a joint conference of the veterinarians and physicians of Chicago to meet on Wednesday, June 21st, at a place to be decided upon after it is determined whether the public shall be admitted. Mayor Harrison, Governor Tanner and the Aldermen will be admitted. The purpose of the meeting will be to form specific plans for the prevention of the sale of milk in the Chicago market that is not known to have come from non-tuberculous cows. A committee was appointed to confer with the Chicago Medical Society and other institutions in reference to the details of the conference.

WOULD NOT SUFFER SO AGAIN FOR FIFTY TIMES ITS PRICE.

I awoke last night with severe pains in my stomach. I never felt so badly in all my life. When I came down to work this morning I felt so weak I could hardly work. I went to Miller & McCurdy's drug store and they recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. It worked like magic and one dose fixed me all right. It certainly is the finest thing I ever used for stomach trouble. I shall not be without it in my home hereafter, for I should not care to endure the sufferings of last night again for fifty times its price.—G. H. Wilson, Liverman, Burgettstown, Washington Co., Pa.

This remedy is for sale by all dealers.

**NOTICE  
TO EWA PLANTATION  
STOCKHOLDERS.**

It having been voted to increase the capital stock of the Ewa Plantation Company to \$5,000,000 and to issue certificates of stock of the par value of twenty dollars (\$20.00) each, for the full amount thereof to the present holders of the stock, now THEREFORE the stockholders are hereby notified to at once produce and surrender their present certificates of stock to the Treasurer of said Ewa Plantation Company in order that such exchange into \$20.00 shares may be made. It is requested that the stockholders make CLEAR INSTRUCTIONS IN WRITING to the Treasurer as to the number of certificates, and number of shares each, in which he may wish his certificates issued. It must be borne in mind that there will be due on each new share issued (covering the increase of stock voted) a charge for revenue stamps as required by law.

Notice is further given, that in all cases where such new issue and allotment will involve fractions of shares, the persons who may become entitled to such fractions must within thirty days make such arrangement either by sale, or purchase of other fractions, as will obviate the issue of fractional shares, whereof notice must be given the Treasurer, or such fraction of shares will be sold at public auction and the proceeds divided among those entitled thereto.

A Model Plant is not complete without Electric Power, thus dispensing with small engines.

Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pump, Centrifugals, Elevators, Pumps, Railways and Hoists; also, furnish light and power for a radius of from 15 to 30 miles.

Electric Power being used, saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Cables, and Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also, attention is given to House and Marine Wiring.

### TO REPLACE GAELIC

White Star Line to Have a New Ship in the Ocean.

SAN FRANCISCO, June 11.—Plans have just been approved by the White Star Line Steamship Company and turned over to Harland & Wolff, of Belfast, the builders of the Oceanic for the construction of a steamship for the trans-Pacific trade. While the matter has not yet been definitely settled, the new boat will probably take the place of the Gaelic, and will run under the flag of the Oriental and Occidental Steamship Company in connection with the Pacific Mail and the Toyo Kisen Kaisha. The new steamship will be one of the biggest and best ever seen on this coast. She will be 560 feet in length, 56 feet beam, 36 feet deep, and will have a mean draft of about 27 feet. She will be equipped with twin screws and all the most modern appliances for the convenience and comfort of passengers and the rapid handling of cargo. When the New Oceanic and Pacific Mail steamers and this White Star liner go into commission the Pacific Coast shipping world will be able to form some idea of the modern steamer as she really is. Harland & Wolff recently turned out a vessel for the White Star line, the Cymric, which is looked upon as the perfect type of a modern cargo steamer. Her measurement capacity is about 19,400 tons, and her dead-weight capacity about 12,000 tons, excluding coal. Her cargo space is divided into seven holds, each of which is subdivided into three compartments. Five of these compartments are fitted as refrigerators, with a total capacity of about 2200 tons. There are nine hatchways, fifteen derricks and seventeen steam winches for cargo purposes. The capability of these appliances was illustrated recently when the Cymric commenced discharging a full cargo at 7 a. m. on Monday, and had completed loading to her full capacity, taken on 1600 tons of coal and was on her way to sea by noon of the following Friday. Her average discharging rate is about 300 tons weight per hour. It is understood that the new trans-Pacific liner will be built to outperform and outsteam the new steamers being built by the Pacific Mail and the Spreckels company.

### Reading Matter Wanted.

Editor P. C. A.: In talking with a very intelligent soldier the other day, I learned that the camp at Waikiki is nearly or quite unprovided with literature, and that much time consequently hangs heavy on the hands of men who would be thankful for almost anything to read. I have sent a few books to my informant, for the benefit of himself and the others, and wish, through your columns, to suggest to generously disposed people that they follow the example. I am sure the Adjutant of the post would receive anything in the shape of books or magazines for the men, and that nearly every house in Honolulu has something—be it ever so little—that it could spare to swell the total. Here is a chance for some kindly disposed lady or gentleman, acquainted with this section, to make a canvass for the object. Surely several hundred of our "defenders" encamped so close to us, ought not to suffer for such a simple thing as reading matter, near a community so generous and intelligent as this. L. B. P.

### Chas. Nelson Returns.

The transport Charles Nelson arrived from Manila at San Francisco June 11. She had only five passengers, all discharged soldiers. The Charles Nelson made good time throughout the voyage and came from Nagasaki to port in twenty-two days. She sailed from Manila thirty-two days ago with six passengers, but one of them, Corp. J. J. Ryan, of Battery B, Utah Light Artillery, was left behind at Nagasaki. Ryan was in poor health when he left Manila, and by the time Nagasaki was reached he had developed a bad attack of fever. The Nelson carries no surgeon, and as Ryan's condition seemed to demand proper medical attention, Capt. Anderson sent him ashore at Nagasaki. He was in the hospital and progressing favorably when the Nelson sailed.

The Nelson will be returned to her owners as soon as the Government supplies on board have been discharged.

### GERMANY'S OBJECTION.

LONDON, June 12.—The correspondent of the Daily News at The Hague says: I learn that Dr. Zorn, the German delegate, spoke on Friday against arbitration. When I asked him for a copy of his speech I got a blank refusal. Dr. Zorn said: "All that I can tell you is that Friday's sitting was extremely interesting, and that I presented Germany's objection to the scheme for a permanent arbitration tribunal."

I wish to say that I feel under lasting obligations for what Chamberlain's Cough Remedy has done for our family. We have used it in many cases of coughs, lung troubles and whooping cough, and it has always given the most perfect satisfaction. We feel greatly indebted to the manufacturers of this remedy and wish them to please accept our hearty thanks.—Respectfully, Mrs. S. Dory, Des Moines, Iowa.

W. J. GUNN,  
Real Estate Agent.  
410 Montgomery St.  
San Francisco, California.

The attention of those having capital to invest is called to the fact, that no city in the United States or probably no city in the world offers better opportunities to make profitable or fortunate investments in Real Estate than does the city of San Francisco at the present time.

A great many reasons can be given why San Francisco really will advance in value from now on.

I offer my experience and knowledge of values to intending buyers of business properties or residence sites. I can submit some very desirable purchases of Real Estate that will yield a fine income and steadily advance in value.

Information cheerfully given. Parties coming from the Islands who desire to invest are requested to call. I will be happy to correspond with any who may wish to obtain information in regard to San Francisco Real Estate.

Full charge taken of property and taxes paid for absent owner.

THE PEACE CONGRESS AT THE HAGUE.  
All the world is profoundly interested in the peace conference now being held in  
the Palace of the Woods, at The Hague. The important work of the conference is  
being done by committees. Baron de Staal, the czar's representative and chairman of  
the conference, and Count Munster of Germany are prominent figures.

## COLUMBIA.

Launching of the Hull of the New Cup  
Defender.BRISTOL, R. I., June 19.—America's  
new cup defender, the representation of  
the best boat-building skill and mate-  
rials of which the Western continent  
can boast, was carefully lowered into  
the water at the Herreshoff works at  
8:30 o'clock tonight, and as she start-  
ed down the way Mrs. Oliver C. Iselin  
christened her "Columbia." The  
launching of the latest protector of  
Uncle Sam's sailing laurels was prob-  
ably one of the most spectacular that  
has ever occurred, for the light of day  
had almost faded when she started  
down the ways, and three powerful  
calcium lights played upon her white  
stern and shining golden underbody  
with theatrical effect. As she fairly  
cleared the shed a large silk American  
yacht ensign was broken out over her  
stern, the colors of her owners ap-  
peared on a small jury mast, stepped  
in place of the regular mast, and the  
New York Yacht Club pennant flew in  
the waist of the boat.With the lights playing on the flags  
and twenty or more of the crew lying  
about the deck, the scene was filled  
with animation and color. Ranged on  
both sides of the dock were 5000 spec-  
tators, while off the end were clustered  
fifty or more yachts of all kinds, so  
that there was plenty of noise, cheers,  
whistles and guns to help out the bril-  
liant effect of the lights.

## DEWEY.

PHILADELPHIA, June 12.—Admiral  
Dewey has sent a cablegram to a  
friend in this city declining the offer  
of a house at the hands of his coun-  
trymen, and expressing a desire that  
the money be used for a home for  
sailors. The Washington committee  
will continue collections, however.SINGAPORE, June 12.—Admiral  
Dewey landed today from the United  
States cruiser Olympia, his flagship,  
to pay a visit to the Governor of the  
Straits Settlements, Lieut.-Col. Sir C.  
B. H. Mitchell, at the Government  
House. He was received with milita-  
ry honors. On his return to the Olym-  
pia he was visited by the Governor.  
The Admiral declined an invitation to  
stay at the Government House, pre-  
ferring to stay quietly on board the  
cruiser. The Admiral declines to be  
interviewed and refuses all invita-  
tions to attend social functions.The Only High Grade Baking

popular prices.

## AEOLIAN

I often come home from a long piano recital so hungry for real music that I have to sit down at my piano and play a Chopin prelude to appease the craving; or I come home from a symphony concert so starved for orchestral expression that I have to sit down and play a piece on my Aeolian, which, I say it in all seriousness, can be played with infinitely more expression than one hears at a majority of concerts by professional "artists."

That is what a great musical critic thinks of the famous Aeolian

## Minerva Mirillo.

The new effervescent aperient for the Liver, Blood and Stomach.

Invaluable for persons of sedentary habits.

SOLD EVERYWHERE

### Minerva Mirillo

Is a mild and pleasant, but exceedingly effective aperient, keeping the blood pure, regulating the liver, clearing the complexion, removing gummy matter from the system, and generally warding off disease. Made from, and containing all the valuable properties of, ripe fruit. Prized by travelers, seafaring men, and residents in hot climates. A sure preventive of diarrhoea, and a delightful invigorator of the constitution. When used simply as an effervescent beverage, it has most salutary results. Valuable for all persons of sedentary habits, removing depression and head affections, and generally bracing up the nervous system.

## WAR PAINT IS ON

Wolsey Figuring on Trouble in S. Africa.

Transportation Arranged—Officers Warned—Transvaal Blue Book Out—Money Matters.

LONDON, June 12.—Commander-in-Chief Lord Wolsey has been busy for several days and evenings at the War Office preparing for possible eventualities in South Africa. The effective lists of the first-class reserve have been prepared and transportation for the First Army Corps has been provisionally arranged. The officers on furlough have been warned to hold themselves in readiness to return to their regiments. The general trend of news, however, is more pacific.

NEW YORK, June 12.—A cable to the Sun from London says: A blue book has been issued giving the correspondence with the Transvaal regarding its claims against Great Britain growing out of the Jameson raid, apart from the well-remembered demand for £1,000,000 for moral and intellectual damages. The British Government disputed several of the items of material damage, and asked for particulars. Colonial Secretary Chamberlain wrote that he could hardly suppose that the Transvaal was serious in claiming the enormous sum of £600,000.

M. Reitz, the Transvaal Secretary of State, replied that there could be no question as to the justice of the claim, which was reckoned not only on material loss, but also on the abstract insult. He submitted details, which included £39,480 for clothing and £2422 for shoeing horses, while only £234 was claimed for relatives of killed and wounded Boers.

The accounts were sent to the British South Africa Company, which severely criticised them, contending that they were in the main unjustifiable, and suggesting arbitration. Chamberlain declared that the suggestion was reasonable, and is awaiting the Transvaal's acceptance of it.

GEN. CHAS. KING.

Health of Soldier and Novelist Seems in a Bad Way.

TACOMA, Wash., June 12.—Brigadier General Charles King, who arrived from San Francisco last night, is seriously ill here at the home of his cousin, Mrs. P. H. Kershaw. The malarial trouble which attacked him in the Philippines has not left him and it will be months before it will be fully eradicated from his system. The trip north from San Francisco quite exhausted him, and he was compelled to lie down immediately on reaching Mrs. Kershaw's home. He rallied sufficiently to attend dinner. A party was given in his honor last night and later he spoke to three local militia companies which serenaded him. In the midst of his address to the militiamen exhaustion again seized him.

Gen. King retired at once and a doctor was sent for. The latter found Gen. King in need of absolute rest. His engagements to lecture here and at Seattle were accordingly canceled.

WORK ON WAR SHIPS.

WASHINGTON, June 13.—According to a report made to Chief Constructor Hichborn, the battleship Kearsarge is 91 per cent advanced toward completion, the Kentucky 89 per cent, the Alabama 85 per cent, the Wisconsin 70 per cent, the Illinois 65 per cent, the Maine 6 per cent, the Ohio 5 per cent. The Albany, building in England, is 80 per cent advanced.

Of the monitors under construction the Wyoming is set down as 8 per cent, the Florida 7 per cent and the Connecticut 6 per cent. The Chesapeake is 90 per cent advanced, and the submarine boat Plunger is 85 per cent.

The torpedo boats and destroyers range from 97 per cent in the case of the Dahlgren to 2 per cent in the case of the Stewart.

ACQUITTAL OF PICQUART.

PARIS, June 13.—The Court of Indictments today decided that there is no case against Lieut.-Col. Picquart, charged with forgery in the Dreyfus case, or against Maitre Lelouis, his counsel. The judgment of the Court thus finally exonerates Picquart, who was released from prison June 8th, after being nearly a year in confinement. The Court declares that the charges against Picquart and Lelouis are entirely incompatible with the judgment recently rendered by the Court of Cassation, and that therefore there is no case against them.

CONGRESSMAN BLAND.

LEBANON, Mo., June 14.—Richard P. Bland slept well all night and awoke at 10 o'clock, much refreshed and stronger than he has been for several days. He partook of breakfast, eating more heartily than usual. At noon Dr. Macomb called. He found the patient asleep and thought there was no change in his condition from yesterday.

### Fire on the Sheridan.

A fire, caused, it is supposed by spontaneous combustion, broke out on the morning of June 10th on board the army transport Sheridan, at Folsom-street wharf, San Francisco. Col. Long's first action on perfecting the organization of a transport staff, was to form an auxiliary fire brigade. The dock was provided with a chemical fire extinguisher, and all the employees were given instructions as to what would be expected of them in case of fire, either on the dock or on board any vessel tied up alongside. This precaution on Col. Long's part saved the Sheridan, if not from total destruction, at least from very serious damage. The fire broke out in the sail locker, and soon manifested its presence by volumes of thick black smoke that poured out of every opening in the forward end of the ship. An alarm was turned in without delay, and the fire brigade got to work at once. By the time the chemical engine from the station at New Montgomery and Mission streets arrived the amateur firemen had got the fire located and under control, and it required but a few minutes' work on the part of the local fire brigade to extinguish the flames.

### SLAVONIC LABORERS.

CHICAGO.—Slavonic laborers are being brought by the wholesale to South Chicago. The majority are promptly given employment by the Illinois Steel Company. The United States immigration inspectors have been watching this great influx, and are convinced that there have been many violations of the contract labor laws. One batch of men has been sent back to their native land, and efforts are being made to get evidence sufficient to return 2000 more who have arrived in South Chicago since last fall.

### AN ELECTRIC FIRE WAGON.

The Paris Fire Department has recently been provided with an electric wagon, which will carry eleven persons in addition to a supply of ropes and ladders. The vehicle was recently tested with a load of passengers and equipment, and succeeded in maintaining a speed of fifteen miles per hour.

## THE REGENT CYCLONE

At Kirksville, Mo., dropped a KIMBALL PIANO

Through the roof of a house, after carrying it 1000 feet, landing it almost totally uninjured, while all the buildings in the vicinity were completely demolished. This clearly shows the solidity of construction of those Elegant Instruments. We have no cyclones to drop pianos here, but have dropped the instruments to \$10.00 per month, so that any family of moderate means can own one of our KIMBALL or KROEGER Pianos.

**E. HENRIQUES,****MASONIC TEMPLE.**  
TELEPHONE 444.**FOR BIG PARADE**

Committee Offers Liberal Cash Prizes.

Bicycles—Hacks—Unofficial Floats.  
Fire Engines—Good Line of March.

Col. Jones announces that the committee offers prizes as follows for the Fourth of July parade:

Best decorated bicycle .....	\$15.00
Second best decorated bicycle ..	10.00
Third best decorated bicycle .....	5.00
Fourth best decorated bicycle .....	5.00
Fifth best decorated bicycle .....	2.50
Sixth best decorated bicycle .....	2.50
Best decorated tandem .....	10.00

**UNOFFICIAL FLOATS.**

Best decorated .....	\$50.00
Second best decorated .....	25.00
Most original .....	50.00
Second most original .....	25.00
Best decorated fire engine .....	30.00
Second best decorated fire engine ..	20.00

**HACKS AND PUBLIC VEHICLES.**

Best decorated .....	\$20.00
Second best decorated .....	15.00
Third best decorated .....	10.00

**BUSINESS AND DELIVERY WAGONS.**

Best decorated .....	\$25.00
Second best decorated .....	20.00
Third best decorated .....	15.00
Fourth best decorated .....	10.00

There will also be two elegantly decorated official floats.

The procession will form at Richards and Hotel streets and move down Richards to Merchant, to Nuuanu, to King, to Fort, to Vineyard, to Emma, to Alakea, to King and thence past the reviewing stand at the entrance to the Executive grounds beyond which it will disband.

The parade will probably begin at 9 a. m.

The various committees are hard at work. Each is trying to make its part of the celebration the feature. The parade is to be full of gorgeous color and brave soldiery, such as will stir the enthusiasm of all. Col. Jones is chairman of this committee and is preserving his reputation for a hustler. The literary program under the direction of W. R. Farrington, is rapidly assuming shape. Maj. McCarthy, chairman of the sports committee, promises some interesting athletic events. The feature will be a match game of base ball between the Stars and the "Kams." A horse racing program is being arranged. It is said that the principal event will be a two-mile dash between Sympathetic's Last, Amarrino and Garteline. Such a race would create great interest. The ball is to be given on an elaborate scale. It will probably be held in the drill shed. Mr. Kennedy, chairman of the fireworks committee, though handicapped on account of not having had time to send away for fireworks, promises that the display will hold its own with the other features of the day.

**SUPREME COURT.****Three Appeal Cases Are Argued and Submitted.**

The following three cases were argued and submitted in the Supreme Court yesterday:

Hana et al. vs. Pioneer Mill Co.; appeal from Circuit Court, First Circuit. Hatch for plaintiffs-appellant; Kinney, Ballou, McClanahan for defendant.

Nettie L. Scott vs. J. K. Nahale; appeal from District Court, North Kona. Andrews for plaintiff-appellant; Achil, Johnson for defendant.

Wong Kwai vs. Lilluokalani; appeal from Circuit Court, First Circuit. Thurston, Carter, Andrews for plaintiff-appellant; Robertson, Wilder for defendant.

The matter of M. F. Scott vs. Kahale Apau, writ of error, was struck off the calendar. This leaves seven cases not yet disposed of. The term will probably be concluded in the early part of next week.

**HAWAIIAN STOCK EXCHANGE.**

## WHARF AND WAVE.

The Kohala steamer Upolu sails today.

The schooner Luka is being overhauled on the marine railway.

The barkentine Robert Sudden sails for San Francisco with a full cargo of sugar at 8 a. m. today.

The gasoline fishing schooner Malolo shipped a white crew yesterday and was to sail last night for the Molokai banks.

The schooner Honolulu cleared at San Francisco June 13 in ballast. She first goes to Alaska with passengers, thence to Honolulu, and thence to San Francisco with sugar.

The four-masted barkentine Wm. Carson and the schooner James Rolph are nearly ready for launching at Eureka. They are being built for the firm of Hind, Rolph & Co. and are intended for the Hawaiian trade.

The quarantine steamer City of Columbia changed her moorings yesterday forenoon with the use of the donkey and winch. A new engineer was placed on board during the day.

A boat will leave the landing at 6 a. m., 12 noon and 3 p. m. for the Columbia, carrying messages or packages to the quarantine passengers.

The chartered transport steamer St. Paul arrived in San Francisco June 9 from Manila with thirty-seven passengers on board. There were three civilians, two officers, two wounded soldiers and one dishonorably discharged soldier on board. The other passengers were soldiers whose time has expired or who have been discharged for physical disability.
