TAMMANY HALL.

The New York Evening Post of April 3d is likely to become only less memorable than the issues of the Times containing the exposures which led to the downfall of the Tweed Ring more than twenty years ago. The Post contains a similar expose of the character of the so-called "new" Tammany of to-day, an organization which has been fondly supposed to be purged of the gross qualities of its historical predecessor.

The facts published in the Post show that Tammany is the same organization of disreputable politicians, office holders and office seekers, liquor sellers, gamblers, pickpockets, fraudulent contractors, loafers, hummers, and even murderers, that it was when Tweed was conducting his gigantic swindling operations during the war. The operations for swindling have not proved so superb during the last few years as they were during Tweed's time, but if New York had got the World's Fair they might well have become so, and as it is some of Tammany's faithful workers have risen from the humble employment like that of a street car conductor to the proud position of independent millionaires.

The Post furnishes brief but authentic and certainly pithy biographies of the twenty-eight members of the executive committee of Tammany, an organization which at present controls the offices and governs the city of New York. These twenty-eight men are all professional politicians and aspirants for political favors. The classification of them furnished by the Post is as follows. Some of course fall into more than one category: Favored city contractors 2, nominal lawyers 2, lawyer 1, former carpenter 1, former navy yard caulker 1,

former plasterer 1, former conductor 3, former office holders 8, office holders 17, members of the Tweed Gang 6, former "toughs" 4, former pugilists 3, sons of liquor dealers 2, former liquor dealers 5, liquor dealers 4, for gambling house or "dive" keepers 5, professional gamblers 4, indicted for bribery 1, indicted for felonious assault 1, tried for murder and acquitted 1, convicted murderer 1, professional politicians 28.

Almost all come from the lowest strata of the population, a large percentage are of foreign birth or extraction. The vast majority are totally uneducated, and perhaps not more than four or five can speak or write English with any correctness. Some even who hold important posts of responsibility and trust are notorious ruffians. The Deputy Commissioner of Public Works is a partner in the liquor business with "Red" Leary, a notorious burglar, whose wife "Kate" was an expert pickpocket. "Red" Leary, Kate and "Barney" the Deputy, all lived together in the same house, so that a jeweler with premises adjoining felt compelled to put additional iron grating on his windows and doors. With regard to another, John Scannel, we cite the following extraordinary passage:

His prominence in Tammany Hall politics is due to the friendship of "Dick" Croker and "Ed" Stokes, which he secured under peculiar circumstances. The three men were all confined in the Tombs at the same time—1874—each awaiting trial for murder. Croker was innocent of the crime imputed to him, but Scannel and Stokes were both guilty. The last named was the slayer of "Jim" Fisk, and was at one time under sentence of death for his crime. The friendship contracted under these extraordinary circumstances has wielded a more or less powerful influence in Tammany Hall ever since.

The Mayor Hugh Grant or "Hughey" as he is familiarly known, is the son of a liquor dealer, the ward of a pawnbroker, and no better than his associates in Tammany. He cannot speak or write grammatically, yet he represented New York at the late Washington Centennial, and if the great exposition were to be held in that city doubtless he, or another of his stamp would have presided in 1892.

Tammany ceased to be a political organization long before Tweed's time even. It is now in reality a conspiracy, and if not a criminal conspiracy, yet at any rate a conspiracy largely of criminals, whose sole object is to get possession of the public treasury for the purpose of a grand divide among the boys. Unhappily this is not all. The taint of Tammany is all politics in the United States. The National parties have been degenerating into organizations of the same characters, for the same ends with a somewhat higher average of character in their personnel. Yet the National Republican campaign in 1888, was managed by a man little better if any, than Tammany's worst.

When we can look abroad and see such a spectacle in other countries we need not despair of our own. Elder Bush and that noisy demagogue Robert Wilcox are still a shade better than the professional blacklegs and ruffians who carry things with so high a hand in New York. Moreover there is the further consolation that while the roughs have it their own way in the empire city Bush and Wilcox have not "got there" yet.

That Tree Blight.

By the Australia Mr. A. Jaeger received a letter from Dr. H. W. Harkness President of the Cpl. Academy of Sciences, respecting the tree blight now found in Honolulu. The letter says, "The contents of the box to hand prove to be a living specimen of Icerya Turehase, sometimes called the Cottony Cushion scale. It is one of the most dreaded pests with which the horticulturalist has to deal. It was brought to this State from Australia and has already spread over a large area of territory, and has utterly ruined a very great number of fruit and shade trees. For a time it seemed that our orchards were doomed; lately however we have been importing from Australia a parasite which feeds upon them in which will eventually—as we hope—exterminate them. The parasite referred to is the wedalia cardinalis and they seem to be doing good work, and I would advise you to send to Australia or to California for the wedalia, as I fear that the pest you have will spread over the islands with great rapidity. Should you decide to send to this State for wedalia I would advise you to communicate with Mr. D. E. Coguet of Los Angeles who I feel sure would furnish them to you with but little expense."

Rumors.

Mr. Editor: Rumors are floating that there are commotions and dissensions among the files and ranks of the National party already in this city in your exposure of the principles publicly declared by Messrs. Bush and Cummins on their recent election tour at Koolau, especially "the abolishing of the constitution" and "to turn loose all lepers at Kalawao and Kalapapa." Some of them are so indignant disgusted with the unpardonable couple that they don't know whether the party will stand together or divide in the coming session of the house.

HILAHILA.

The United States and Hawaii.

Mr. Editor: In a recent number of the GAZETTE I see the treaty question discussed again. It ought to be evident to Hawaiians that there is no desire on the part of Americans for annexation. The policy of non-intervention in the general affairs of the world, which has so long guided our diplomatic action, will probably have to be cast aside before very long, when a systematic effort shall be made to increase our commerce.

The ardent feeling that our flag should be seen again on the ocean, the popularity of our "new navy," the liberal action in Congress as to its increase and development, all point towards an expansion of our intercourse with the rest of the world.

But our policy will hardly be that of England or Germany—annexation—but rather will it favor independent neutral governments in the Pacific. We would, I believe, much prefer that Hawaii, Samoa and Tonga (for instance) should be open to all than that they should become American, German and British.

There is, of course, a feeling that we have reaped few benefits from the sugar treaty, but one authority thinks it would have paid us to have presented Hawaii with such a sum as might have been collected as duty at Honolulu on our exports, and then to have taxed the Hawaiian sugar.

It may be added in closing that Dr. T. M. Coan of this city, has on several occasions during the past year addressed New York audiences on the subject of the islands. His lantern-slides are very fine. One or two young men who have been to the islands, have also spoken to smaller audiences here, and have done something, I trust, to remove the idea that the islands are a sort of semi-barbarous land, which some people still think.

Respectfully yours,
ANDOVER.

"The Sugar Tariff Must Go."

MR. EDITOR: In the GAZETTE of March 18th "An American" sheds light on the question of "protection, sugar duties, etc." None of the positions he takes in that article are entirely impregnable. The reason he gives for the high duty on sugar does not happen to be the true one. The duty of 2c. or more per lb., equivalent to 70 to 80 per cent. advalorem, is the only real war tax on any necessity of life that we are burdened with at this time, and that ought to follow the path made by other tariff reductions in the last twenty years.

First, because it was a war tax, pure and simple. Secondly, because it has totally failed to stimulate the sugar production in this country. Previous to 1862, the crop of Louisiana alone was as high as 459,000 hds. in a year. In 1889, or '88 possibly, ex-Governor Warmouth says the crop was the largest for many years and at the highest estimate was only 140,000 hds.

The prophecy of great things from "beets and sorghum" is a chestnut, and the late Mr. Torbert used to predict the speedy failure of American market for Island sugar from the rapid rise of the beet industry. That was thirty years ago, and the fulfillment is as remote to the thoughtful mind as it was then. This is not a sugar-growing country and nearly thirty years of a war tariff have failed to develop it to serious proportions, and in fact we scarcely grow enough to supply the annual increase in our consumption, certainly not enough to affect the price of sugar in the markets of the world.

"The reasons why the duty" ought to be "abolished" are numerous. It is a prime necessity of the poor as well as the rich, and ought not to be taxed without urgent reason. The only "sweetening" which this country can grow is "glucose," and that ought to be taxed to death or driven to the wall by foreign cane sugar. We can only produce cheap sugar here or in Louisiana with cheap labor. If we had our magnificent climate even with our smaller yield, we could hold our own, with lands far removed from our markets. Ordinarily cheap sugar production and cheap labor go together as the experience of the pioneer planters in Hawaii proved conclusively.

If there is any general public belief that "free sugar" would be no cheaper than taxed sugar why do the parties interested in trying to boom the puny sugar interest of Louisiana, Kansas, California, etc., fight so earnestly to retain it for protection?

The true policy of protection in this country is to tax foreign productions that come in competition with our own till the industries are able to care for themselves; but when an industry under thirty years of high tariff falls off seventy per cent, and shows no sign of recuperation except in the flutulent schemes and windy talk of interested sugar refiners, it will not do for you to pin your faith on them for your future prosperity even with the mistaken views of "An American" behind them. The American public demand that the tariff on sugar must go. KAMAIIA.

Answer to Hilo's Tunesal "Liar."

A tunesal liar thinks he's made a hit;
Listen to his tale of woe.
By writing from Hilo a little bit
Of sarcastic news but he's no wit,
No wit, no wit.
Listen to his tale of woe.
He saw his darling girl turn blue;
Listen to his tale of woe.
As she sat with him at the end of the pew,
But she made herself ill with ice cream
We know,
We knew, we knew.
Listen to his tale of woe.
It would be better for him to have stayed
away;
Listen to his tale of woe.
Than trying to run down a charitable play.
But perhaps he wouldn't have had a
superior that way.
That way, that way.
Listen to his tale of woe.
He's one that would not lend a helping
hand,
Listen to his tale of woe.
To help the charities of his land,
And it was not their fault if he had
To stand, to stand;
So take no notice of his tale of woe.

The U. S. S. Charleston.

At the close of an interesting article upon this noted ship in the San Francisco News Letter of April 12th, occurs the following sentence which we republish as a pleasant endorsement of the justly popular insurance company therein referred to which cannot fail of being of interest to its many friends in Hawaii.

"The Charleston was insured for \$400,000 in the Fireman's Fund Insurance Company, loss if any payable to the United States Government. The placing of this large amount with our leading local company was most gratifying, and shows the esteem in which it is held."

Accompanying the article is a very handsome full page autotype presentation of the Charleston from a photograph by Britton & Key of San Francisco, and for sale at the Hawaiian News Company.

Mr. Stiles is interested in some of the American railroads, and having become personally acquainted with some of our unrivaled scenes and scenery, promises to recommend the charms of Hawaii, to all in search of pleasure or health in unbeaten tracks.

Supreme Court of the Hawaiian Islands, April Term, 1890, in Banco.

BEFORE JUDD, C. J., M'CULLY and BICKERTON, J. J. DOLE, J., ABSENT. LEE AHOLO VS. AIAU.

Exceptions to findings of Judd, C. J.

The findings of fact of a justice trying a case with jury waived will only be set aside when the verdict of a jury would be set aside.

OPINION OF THE COURT PER M'CULLY, J.

This was an action of ejectment, the jury waived, and tried by the Chief Justice, who found for the plaintiff for one undivided half of the land claimed and \$50 damages.

The defendant, in a bill of exceptions, claims (1) that the decision does not accord with the testimony, and (2) that the Court erred in finding that one Napahi was related to Kekuehikahi, the patentee of the premises.

We regard the first point as too vague to be considered. In respect to the second point, the testimony given in support of the relationship would have justified a jury in the same finding which the Court made, and upon well-settled principles such a verdict would not be set aside, and the finding of the justice will not be set aside.

Exceptions overruled. A. F. JUDD, L. M'CULLY, RICH. F. BICKERTON.

Supreme Court of the Hawaiian Islands, April Term, 1890, in Banco.

BEFORE JUDD, C. J., M'CULLY and BICKERTON, J. J. DOLE, J., ABSENT. J. KAMAI VS. A. G. TRASK.

A. conveyed land to B. in 1869 by metes and bounds, describing one side of the lot as bounded by a narrow lane. The same day A. conveyed by metes and bounds to C. another lot on the other side of the lane, describing it as bounded by the lane. A still owned land in the rear and had access to the street through this lane. In 1877, A. sold the remainder of his land (what had not been conveyed to B. or C.) including the lane, to the grantee of C. C. closed up the lane in 1888.

Held, that the grant of the lot by A. to B. describing it as bounded by the lane, A. owning the lane, estopped A. and his grantees from denying the existence of the lane.

The award of the Commission of private ways ordering the defendant C. to re-open the lane, affirmed.

OPINION OF THE COURT, PER JUDD, C. J.

This case comes to us by defendant's appeal from the Commissioners of private ways, etc., for the district of Honolulu.

It seems that on 6th August, 1869, one Keawekalohe, who owned a piece of land at Kakaako, Honolulu, (described in Land Commission Award No. 3455), sold a portion of it to one Kailua and on the same day sold another portion of it to one James Wright. A lane was left between these two lots and each lot was described in the deeds of conveyance as bounded by this lane. Keawekalohe still owned the rear portion of the land, from which the lots sold to Kailua and Trask were taken, and had access to the street through the lane.

The plaintiff, J. Kama, is the owner, by title not disputed, of the lot conveyed to Kailua. In 1877 Keawekalohe sold to defendant, Trask, all of his land described in Land Commission Award No. 3455 which had not been conveyed to Kailua or Wright. His conveyance carried the fee in the lane to Trask. In 1883, James Wright conveyed the lot he had bought of Keawekalohe to defendant, Trask, and his wife. The lane continued open and in use by all these parties until 1888 when it was closed by defendant by his building a cottage upon it.

The Commissioners of private ways were applied to to order defendant to re-open the lane and after hearing the evidence they ordered the lane opened by defendant.

BY THE COURT.

The Commissioners were right. The general doctrine is that "a grantor of land describing the same by a boundary on a street or way, if he be the owner of such adjacent land, is estopped from setting up any claim, or doing any acts inconsistent with the grantee's use of the street or way; and such estoppel would also apply to his heirs, or those claiming under him." Howe vs. Alger, 4 Allen 211.

This doctrine is not extended to a grantor merely intending by the description to fix the boundaries, he not having any interest in the soil of the street. Id.

We have no hesitation in adopting this doctrine. In Pennsylvania it is held that when a grantor sold and conveyed lots bounding them on an alley he not only conveyed the use of the alley as appurtenant to the lots bounded thereon, but thereby dedicated it to public use. Transue vs. Sell, 105 Pa. 609.

Chief Justice Cooley in Smith vs. Lock, 18 Mich. 59, says: "The purchase of the lot described as bounded on a street, estops the grantor from shutting it up so as to prevent his grantee making use of it for his own accommodation in the enjoyment of his purchase. It is a matter of private right, and in no way depends upon the question whether the public have acquired a right of way or not." See Parker vs. Smith, 17, Mass. 413.

Appeal dismissed.

MAUI NOTES.

On Saturday afternoon at 1 p. m. occurred the fifth monthly medal shoot of the Maui Rifle Association. The wind was blowing very briskly at Kalaupani Range, and consequently bull-eyes were things of great uncertainty. Mr. N. Ormstead secured the first medal by a score of 40, Mr. J. G. Anderson the second by a score of 38, and Mr. W. von Graevemeyer the third by making 33 points. The attendance was poor owing to the fact that quite a number of our enthusiastic riflemen were absent from the island.

The Ladies' Aid Society gave their monthly "Social and Literary" at the Makawao Foreign Church last Thursday evening. The programme was short, but much appreciated. The Misses Stiles rendered a duet in a charming manner, their voices being very rich in tone and most melodious.

Rev. E. P. Baker of Hilo delivered a very instructive sketch on his favorite study—volcanoes. He holds the theory that the cause of volcanoes was the heat generated by the cooling of the earth's interior. The lecture was illustrated by some excellent diagrams kindly loaned by Mr. Frank Damon of Honolulu. Cake and lemonade terminated a most pleasant evening.

Makawao, May 2, 1890.

Sale of Shares and Bonds.

There was quite a large attendance at Mr. James F. Morgan's auction rooms Monday noon, when he offered shares and Government bonds for sale. The total amount realized was \$19,025, the sale resulting as follows:

One \$5,000 Government 6 per cent. bond sold to Mr. Andre at \$110.50—total, \$5,525; one ditto to Mr. Linderman at \$109—total, \$5,450. Twenty-five shares of the Inter-Island Steam Navigation Co.'s stock sold to V. Knudsen at \$158, and ten at the same figure to F. Ordwood; one share Kapiolani Park Association stock to T. S. Douglas for \$15; ten shares of Hawaiian Agriculture Co., to order, at \$150; fifty Hawaiian Tramways Co., to order, at \$7; five shares of Wilder Steamship Co. to Mr. Linderman at \$131. One hundred shares of Hawaiian Investment Co.'s stock and ten Ookala Plantation were withdrawn.

Police Court.

MONDAY, May 5.

Ten drunks had to make the usual contribution to the Treasury.

Ah Chang was fined \$50 with \$3 costs and sentenced to one hour's imprisonment at hard labor for having opium unlawfully in possession.

Tat Chong, for assault and battery on Ah Hoy, was fined \$15 with \$1.60 costs.

Hoopii, a young boy, who stole \$20 from John Radin, was committed to the Reformatory School for one year.

Supreme Court.

MONDAY, May 5.

G. W. C. Jones vs. Samuel Norris. Assumpsit. Jury waived. Appeal from decision of Judd, C. J., who gave judgment for plaintiff for \$667.36. The Court in banco file a decision giving plaintiff only \$300.32.

IS IT SUICIDE?

Mark Twain tells the story: that at the inquest held on the body of Buck Fauschaw—who during the delirium of a raging typhoid fever had taken arsenic, shot himself through the body, cut his throat, and jumped out of a four-story window, breaking his neck—the jury, after due deliberation, and sad and fearful, but with intelligence unblinded by his sorrow, brought in a verdict of "death by the visitation of God."

Buck undoubtedly committed suicide, and so does every one who neglects the first symptoms of approaching sickness and disease. Nature always gives ample notice of any disturbance of physical processes: sometimes it is neuralgia, sometimes a sharp shooting pain in the abdomen or side, or a dull or throbbing headache; no two persons get the same symptoms. What you have to do is to attack the first symptoms, for if consumption, dropsy, cancer or Bright's disease once gets a start, you cannot stop its headlong course to the grave. These facts there is no disputing, for all the medical skill in the world cannot do much for you when real organic disease has set in.

We emphatically recommend CLEMENTS' Tonic because we know by personal experience and by the evidence of influential and reliable people who have used it that it will do good and prevent disease. CLEMENTS' Tonic is a medicine that invigorates and strengthens the entire corporeal organism; it does not only affect certain members but strengthens the whole system, thus preventing the attacks of disease.

The Tonic and Adeloid Times says:—"CLEMENTS' Tonic certainly deserves the popularity it has acquired, we have had proof positive, in cases (under our notice) in this neighborhood, of its valuable properties."

Mr. T. Garrett, M. P., says: "I have taken CLEMENTS' Tonic with great advantage."

Mr. John Plummer, (Fort-street Public School) says: "Mrs. Plummer has frequently derived great benefit from the use of CLEMENTS' Tonic."

Mr. S. D. Wood (Vicar of All Saints Cathedral, Bathurst), writes: "That he found CLEMENTS' Tonic a grand pick-me-up and it completely cured him of low spirits, indigestion, dizziness and humming noises in the ears."

Mr. G. Swan, June Junction, who suffered from debility, cardiac weakness and nervousness, following on typhoid, took CLEMENTS' Tonic and says: "That after taking 6 or 7 bottles his health was fully restored, and that he can now eat anything and do any reasonable amount of work, whereas before taking CLEMENTS' Tonic he could do none at all."

CLEMENTS' Tonic can be obtained from all medicine dealers or from HOLLISTER & CO., 109 Fort St. 1320 102-1m

Ex Bark John D. Brewer A New Directory!

128 DAYS FROM BOSTON.

C. BREWER & CO. Patronize Home Industry.

The HAWAIIAN GAZETTE COMPANY propose to issue a new DIRECTORY AND GAZETTEER of the Hawaiian Islands, to be based on the official census returns which will be taken this present year, 1890.

The population of this group is now about 90,000, and a complete directory should include at least 20,000 names. The official returns will furnish not only the names but also the residence and occupation of each person, and other data required for such a publication, which can be obtained in no other way.

There are 15,000 voters in the Kingdom, and the name of every one of them should be in any correct Directory. Yet no Hawaiian Directory heretofore published has contained more than one-third that number of names, even including several thousand Chinese in its list.

The facilities which the GAZETTE Establishment possesses for executing work of this kind are unsurpassed, as regards workmen, types and presses.

The advantages of having a HAWAIIAN DIRECTORY AND GAZETTEER printed in Honolulu, are these:

1st—That the names and data will be obtained from official records, and therefore reliable.

2d—The proofs can all be read by persons familiar with the names and places, and thus the many errors found in such books printed abroad will be avoided.

3d—All the persons engaged in canvassing, compiling and editing the book will be residents here, including also the printers, binders and others, and consequently interested in the success of the publication and the progress and prosperity of our country.

Each full page advertiser will be entitled to one copy of the Directory gratis.
