EIGHTEENTH YEAR

WAILUKU, MAUI CO., HAWAII, FRIDAY, JANUARY 11, 1918.

NUMBER 931.

THE FIRST RURAL MAIL CARRIER ROUTE SOON

Will Start From Haiku On March 1 And Circle Around Twenty Miles Among The Settlers, Doing A Regular Postoffice Business --- Those On The Route Required To Have Mail Boxes

The postoffice department has ordered a rural mail carrier route started from the Haiku, Maui, postoffice on March 1st, the carrier to go over the route Mondays, Wednesdays and Fridays, provided written agreements to put up approved mail boxes are signed by the people living along the route. The Haiku postmaster has blank forms for this purpose, and persons living along the route should go to the Haiku postoffice as soon as possible and sign agreements to put up boxes.

To get the boxes at the lowest cost the Haiku postmaster will order them to be shipped from the coast all at one time. The small boxes are large enough for letters and magazines and will cost about \$1.50 delivered at Haiku. The large boxes, for letters, magazines and packages, will cost about \$3. Patrons are expected to pay for whichever box they want at the time of signing the agreement to put up a box.

The cost of the box is all that the patron on a rural carrier route ever pays for the service. This route from Haiku will cost the government \$600, a year, and the carrier will do anything for a patron that a postoffice

will do—sell stamps, collect and deliver mail, attend to money order and registry business,—yet the patron, like the person living in the city, pays nothing for the service but the first cost of a box.

This rural route reaching into the farm section opens a fine opportunity for the town people of Maui to get fresh eggs and other farm produce shipped to them at a very small cost for postage, and gives the farmer the mail service of a city dweller.

People living away from the route may put up a box anywhere along the road and the rural carrier will attend to their mail the same as though they lived near the road. The route runs as follows: From Haiku postoffice across the home-stead crossroad to Cooper's corner, then down the W. Kulaha road to the belt road at Wilbur's, then along the belt road to the E. Kulaha road, and up same to the winery, then towards Kokomo to Aheong's, then down the W. Kulaha road to Cooper's corner again and back across the home-stead crossroad to the Manning road at White's corner, then up this road to Kokomo and down past Aiken's to the Haiku postoffice—about 20 miles.

Giants Defeat Beasts In First Paia Game

The first games in the Paia Winter Baseball League series were played at Paia last Sunday afternoon, and attracted a very large crowd of enthusiastic fans. There were no charges for admission.

Father Francis was in general charge, and threw the first ball over the plate. Mr. F. P. Rosecrans was to have caught, but was not able to be present at the time, so Sam Kaleo took his place. Henry Robinson swung the willow.

The first game was between the Filipino and All Japanese team and was quite sharply contested, although a trifle one-sided. The score at the end was 7 to 1 in favor of the Japanese.

The big game of the day was between Medeiros' Beasts and the Giants. This was quite exciting. Dutra, of Wailuku, pitched for the Beasts until the last inning when he was obliged to retire. The score was then tied, 3 to 3. A new pitcher was put in, and the Giants found him for two runs, giving them the game, the score being 5 to 3.

The start of the series was very promising and undoubtedly great interest will be taken in it. The contest is for a silver cup being put by the Paia Store.

There will be another game next Sunday.

Japanese Is Drowned In Sea At Kahului

The body of Sunkuro Tokuhisa, aged 45, stevedore, of Kahului, was found floating in the sea between the beach road and Kahului wharf at an early hour this morning.

Dr. Wm. Osmera examined the corpse and, finding no marks of violence, the police decided not to hold an inquest, suicide evidently being the cause of death.

Tokuhisa had been ailing a long time and was under treatment of Dr. Ohata, of Wailuku. Last night he was very restless and was waited upon by his wife until she fell asleep at about 12 o'clock. About 2 o'clock the woman woke up to discover that her husband was not there. She gave the alarm and a search was instituted, but without result until this morning, when the body was found, as stated above.

Deceased leaves a widow and five children. One of the sons is the well known baseball player and athlete, Manao, who is a truck driver for the Kahului Store.

LIBERTY BONDS HERE

The Bank of Maui, Ltd., have just received their quota of Liberty Bonds (second issue) in denominations of \$50, \$100 and \$500. Clients of the bank are requested to call and receipt for their bonds. This is the first allotment of Liberty Bonds received on Maui.

Good Rains Continue All Over The Island

More than twice as much rain fell on Maui last week as the week before, the total for Wailuku, for instance, being 1.28 as against .63 for the preceding seven days. The greatest precipitation was on Tuesday, when .83 fell in the period from 4 a. m. to noon. The Wailuku report, prepared by Brother Frank, was as follows:

Filipino Is Buried Under Tons Of Sugar

An unusual accident happened at the new sugar flume of the Kaeleku Sugar Co., Hana district, Monday afternoon, but fortunately no one was killed and only one man injured.

It appears that while men were working around under it, the bottom of the box gave way and several tons of sugar came down on them. One man, a Filipino, was completely buried, and it took twenty men about four minutes to dig him out. When brought to the air he was almost suffocated. The doctor happened to be near and rushed the fellow to the hospital where he received prompt treatment. The next day he was out of danger.

The man has since been released from the hospital, none the worse for his experience of being buried alive in a mass of sweetness. He will probably not care for sugar in his coffee, however, in a long time to come.

Carried Wealth In Small Tobacco Bags

Monday evening the daughter-in-law of an old Chinese woman, living in Wailuku, made complaint that the former was acting queerly, creating a "rough house," etc., so the mother-in-law was taken to the police station for investigation. Upon being searched it was found that she had \$800 in gold on her person, the money being concealed in small tobacco bags and pinned to the inside of her skirts.

It not appearing that the woman was mentally deficient, she was permitted to go.

Maui To Witness Some Big Tennis

Champions And Near Champions To Appear On Puunene Courts

Maui will quite likely witness some classy tennis early in February, if the plans of Mr. D. C. Lindsay can be successfully worked out. Al Castle, who is now on the coast, has been working on the general features of a plan for a visit to the Islands of some of the best racqueteers, and, at the request of Mr. Lindsay, Maui is to be considered in making up the itinerary of the players.

Two of the noted American players expected are Miss Mollie Burstedt and Miss Mary Browne, the former in the championship class and the latter a close second. The men's doubles champions of California will also be here.

The tournament will take place on the Puunene courts, and the dates will be February 9, 10 and 11.

Al Castle and W. H. Hoogs, Jr., will accompany the visitors from Honolulu and will, also, play.

In addition to the scheduled program, there will be ladies' exhibition games.

The regular schedule will probably include two mixed doubles and two gentlemen's doubles.

In event of Miss Burstedt not being able to come, Mr. and Mrs. Thomas Bundy will be here and the latter will take her place. (Mrs. Bundy, it will be remembered, was May Sutton, champion).

This program will form the biggest tennis event of the year. Further information regarding it will be published next week.

Mrs. Lindsay Dies After Short Illness

Mrs. Eulalia Lindsay, wife of Special Officer Samuel Lindsay, of the police department, died at the late residence on upper Main street, Wailuku, at 5 o'clock Sunday morning of pneumonia.

Deceased was a native of Honokalani, Hana, Maui, and left, besides her husband, three small children.

The funeral took place Sunday afternoon at 4 o'clock, Rev. Mr. Kaumeheua conducting the services. Interment was in Iao cemetery. Sheriff Crowell and a squad of eight policemen officiated as an escort of honor.

Bankers To Banquet

At a meeting of the directors of the Bank of Maui, Ltd., the annual meeting of stockholders was set for January 19th, at 7 p. m. at the Grand Hotel, where a sumptuous banquet will be tendered the stockholders in commemoration of the passing of the million dollars mark in deposits.

REMARKABLY HIGH TAX COLLECTIONS IN 1917

Receipts Under All Heads Run Considerably Above Same Items For Previous Year And Grand Total Is \$84,547.15 Higher Than In 1916, Despite The Lower Property Rate

A remarkably fine showing in tax collections has been made by the Maui division in the year just closed. Despite the fact that the rate on property taxes was reduced from 1.332 in 1916 to 1.26 for 1917, the total actually collected ran \$84,547.15 ahead of the previous year. There was a gain in every subdivision of taxes, all the way from real estate to dogs; and the year closed on the biggest collections in the history of the division.

The totals collected in the years 1916 and 1917 were as follows:

	1916	1917
Real and Personal Taxes	\$494,182.51	\$546,720.38
Road Taxes	32,549.85	39,969.17
Poll Taxes	9,027.89	9,561.58
Dog Taxes	611.48	1,200.81
School Taxes	18,057.47	19,124.64
Income Taxes	72,925.90	88,175.63
Special Taxes	34,509.09	41,659.13

RESERVOIR IS INSPECTED BY COUNTY HEADS

Who Travel Through Showers To Observe A Big Lot Of Rain In Bulk

ROUTINE BUSINESS FINISHED UP

The county supervisors met Wednesday afternoon for the January sitting; held a second meeting yesterday and this morning went in a body to the new Olinda reservoir for the purpose of inspecting it, being accompanied by the county attorney and others. If there is time, the final session will be held this afternoon. If not, the remaining business on the table will be disposed of tomorrow.

YESTERDAY'S MEETING

Mr. Drummond was again absent on Thursday.

Mr. W. F. Pogue communicated with the board in regard to road construction as recommended by the Sixth Annual Civic Convention. Action deferred.

Various reports were read.

Mr. Fleming moved that the bond of J. Martin Lee as Superintendent of Lahaina Water Works in the sum of \$2,500.00 by the Home Insurance Company, be approved. Seconded by Mr. Uahinu and carried.

Mr. Uahinu moved that Mrs. Wilson be allowed to lay a concrete pipe across the Government road to Kamalo in accordance with the instructions of the District Overseer of Molokai.

Linton Appointed Circuit Court Clerk

T. B. Linton, proprietor of the Maui Bookstore, has been appointed by Judge W. S. Edings to be clerk of the circuit court, succeeding V. C. Schoenburg, resigned to take the position of manager of the bank at Schofield, Oahu. Mr. Linton will take office next Monday.

The new man is a native of Canada, American citizen, Democrat and came to the Islands to take charge of a bookstore in Honolulu, but preferred Maui, so settled here. The bookstore will be carried on as before.

INSPECTION N. G. H.

General Samuel I. Johnson, Captain G. J. Conser, U. S. A., and Captain Edward F. Witsell, U. S. A., will arrive on Maui on February 12 to inspect the local battalion of the National Guard, coming from the island of Hawaii. They will return to Honolulu four days later. This will be the annual, official inspection upon which the standing of the units will be based.

WOMAN SUFFRAGE GIVEN A SUDDEN BOOST AHEAD

The Weight Of The President's Influence Thrown In Its Favor Makes Votes For Women Practically Certain---English Lords Also Change Front On Question---Volcano In Ecuador Erupts---Hindu Cases

Washington—The House of Representatives today passed the woman's suffrage measure.

SUFFRAGE SCORES IN ENGLAND

London—The House of Lords yesterday rejected Lord Loreburn's amendment to the new franchise bill whereby he sought to exclude woman suffrage.

Guayaquil—Tungurahua volcano, situated in the province of the same name in the center of Ecuador, has been in eruption for several days. Reports state that the country at the foot of the volcano has been destroyed.

GERMANY, CHINA AND JAPAN

San Francisco—Documentary evidence introduced in the Hindu conspiracy cases shows that it was planned to use submarines with which to transport arms from China to India. The conspirators had subsidized two Japanese newspapers to propagate a secret treaty between China and Germany whereby the integrity of China was to be maintained during the war and five years thereafter in return for Chinese participation in the India revolution.

STEAMSHIP MEN "STUCK"

New York—The U. S. district court upholds the conviction of Carl Banz, Adolph Backmeister and Joseph Popenhouse, Hamburg-American line officials, charged with violating customs laws in sending supplies to German cruisers early in the war.

RUSSIA TO BE DEFAULTER

The Manchester Guardian's correspondent at Petrograd telegraphs that the Bolshevik government of Russia will soon issue a decree cancelling the national debt.

NEW HEAD NAVY LEAGUE

New York—Cameron Forbes, former governor-general of the Philippines, has been elected president of the navy league, succeeding Col. Robert M. Thompson, who quarrelled with Secretary of the Navy Daniels.

SNOW HELPS YOUNG WHEAT

Chicago—The heavy fall of snow in Texas promises to save millions of dollars in winter wheat, and is also of great benefit in Kansas and Nebraska.

WOULD RESUME PEACE TALK

Amsterdam—The Russian peace delegation has announced its readiness to resume peace negotiations at Brest-Litovsk.

THURSDAY EVENING

Honolulu—Dr. Hayes was acquitted in eleven minutes. Much evidence expected by the public was not produced at all.

City Attorney A. M. Brown says that no leniency will be shown in the cases of "Princess" Theresa and the two witnesses to the alleged forged will. No warrants issued, but defendants have been ordered to appear in court on Saturday.

The Star-Bulletin publishes a report that General Johnson has requested the resignation of the assistant to the adjutant-general, Major Will. Wayne. Neither officer will confirm or deny the report.

The Rotary Club votes unanimously for a "dry" Oahu. The board of governors of the Country Club get recommendations from the house committee to close the club bar. Indications are that the board will so order at the next meeting.

Postmaster MacAdam has been ordered to Washington on official business. He declines to state its nature.

KAHULUI SHIPPING

Inter-Island shipping has made up the total of harbor business at Kahului the past week, the exception being the departure of the schooner Wawona, in ballast, on Tuesday for San Francisco.

The Lurline will be due to arrive at Honolulu on Monday, and it is assumed that she will reach here next Thursday or Friday.

COUPLE OF ROBBERIES

A few days ago a thief entered the home of Joaquin Vincent, principal of the Kealahou school, and stole an ukulele and also \$10 in coin from the teachers' cottage. The police are working on the matter.

Tuesday night someone entered the small store of Peter Davies, at Kokomo, and got away with five to six dollars in cash.

Sheriff To Register Alien Germans Here

Sheriff Crowell has received from United States Attorney-General Gregory instructions in regard to the registration of German aliens that may be on Maui. After quoting the regulations, the Attorney-General says:

"The plan contemplated is to have the German alien enemies fill out the registration affidavits at the police stations in your city, and there receive registration cards. This Department will furnish all necessary affidavits, cards and other forms and issue instructions for the work."

"I trust to hear at your very early convenience that you have instructed your police department to administer the details of this registration under the general supervision and direction of the Department of Justice. Meanwhile will you not have your Chief of Police immediately forward to the United States Marshal in your district as accurate an estimate as possible of the number of German alien enemies in your community?"

"In view of the material assistance which this work will render to the success of the country in the war, I am relying upon your wholehearted co-operation in its performance."

"Respectfully,
T. W. GREGORY,
Attorney General."

Lahaina Items

The Sunday School of the Church of the Holy Innocents had their Christmas tree on Thursday evening, January 3rd. They expected to have it at Christmas as usual, but the presents were late getting here from New York. Each child had a gift and a very happy evening was spent after the presents were distributed.

Mrs. Agnes Judd, of Honolulu, with her sons, the Rev. Henry Judd, of the Hawaiian Board, and Mr. Charles Judd, of the Territorial forestry service were in Lahaina Saturday, on their way from Lanai where they spent a few days, the guests of Mr. and Mrs. Charles Gay. They returned to Honolulu on Saturday evening, taking the Claudine from Kahului.

Mrs. Sleeper, who has been spending a few weeks in Honolulu, returned on Wednesday's Mauna Kea to join her husband at Lahainaluna.

The following extract from a letter received this week by a Lahaina resident, from a friend in Pennsylvania, may be of interest to other Maui people and serve to make them doubly thankful that they live in Hawaii.

"We have had unusually cold weather, with heavy snowstorms, through December. For two weeks it swung from a little above zero to twenty degrees below. To make the cold worse, fuel is very scarce. The coal dealers are not able to get coal delivered to the yards and so people have to do with a very little and this week there is none to be had. Sugar is also scarce. We have been able to get two pounds at a time the most of the time, although now and then there is none to be had. And now we are threatened with a salt famine, which will be worse than a sugar famine."

John Alameda, a blind musician of Honolulu, gave a concert in the Pioneer theatre on Monday evening of this week. Mr. Freeland generously donated the theatre for the occasion. Miss Margaret McCubbin who has a real soprano voice, delighted the audience by singing two songs, both of which were encored. Mr. Alameda's playing and singing were much enjoyed. The proceeds amounted to about \$65.00.

Mr. Frauz of E. O. Hall & Son, was in Lahaina this week in the interest of his firm.

Maui School Notes

Miss Lora C. Williams, a graduate of the San Jose State Normal school, arrived Wednesday. She has been assigned to the Keahua school.

Miss Isabel Kapule is the new assistant for the Olowalu school.

Inspector Raymond will leave on Tuesday for the Hana side of the island, where he will be for about a week.

Mrs. M. R. Klester is substituting for Mrs. McKay in the Waiuku school.

The stormy weather during the early part of the week caused poor attendance at several schools, particularly in the Lahaina district.

The Camp 10 school enrollment has suffered through removal of parents and children to the Coast.

The teachers and pupils throughout the county are busy this month starting school gardens.

The enrollment of pupils by districts is as follows:

Lahaina, 847 pupils.
Wailuku, 1634 pupils.
Makawao, 1699 pupils.
Hana, 492 pupils.
Molokai, 238 pupils.

A general interest is being taken by school children in Red Cross work.

HAD THE IDEA, ANYHOW

One of the children in a school was telling the Christmas story. Coming to the place "Fear not! I bring you good tidings of great joy!" he said, "You fellow no get scared. I been tell you good kind news!"

Some Letters From Maui's War Children

Letters have begun to come in from the war children who are being assisted by Maui people. All thus far received are in French. Translations of them will be published in this paper, two being presented today, as follows:

Havre, 2nd Dec., 1917.

Sir:

I have received the circular from the committee for the Distribution of American Aid to the Orphans of War and I beg you to be my interpreter to the committee, and thank them for me for their kind help.

I am 11½ years old and I still go to school. I am very happy to tell you that because I work hard, my principal who is kind enough to take an interest in me, advises my mother to let me continue my studies to high school, and so I am making every effort to give satisfaction. My father was employed in a store before the war. When war was declared, he went with the 29th Infantry and has been reported missing since the 14th of September 1914, after the engagement at Courcy-Briment.

I promise to write you more than four times a year, it will be a pleasure to me, and express to you in a small way my gratitude.

Please accept, sir, the assurance of my sincere thanks.

HENRI AUFRY.

Dear little comrades of America, I hasten to write to you in order to thank you for the gifts that you have the kindness to send to us to help us, and which gave us such great pleasure.

You ask us what we are doing; we go to school to learn things, that is always useful. What did our father do before the war? He was a day laborer, then he was a private and was killed at Tarjette, Pas de Calais, the 29th of May 1915—by the bursting of a shell. You know dear little friends that one is not happy without a father, it hurts me very much.

We are very glad for what you sent us. We hope you are well,—we are all in good health.

Dear little comrades we will leave you for today, kissing you tenderly, as does our Mother who thanks you with all her heart.

The little orphans who thank you, ALICE, ADRIENNE, RENE, LUCIENNE AUZEN.

a St. Leonard, 26 Nov. 1917.

Hard At Work On Draft Questionnaire

Since last Saturday Sheriff Crowell and several assistants have been busy preparing and sending out the blank questionnaires to the registrants for the selective draft. The average completed per day has been 185, so that by tomorrow morning 1295 will have reached the persons for whom they are intended, or will be on the way to them. The total number to be sent out now is 3700, so that, at the present rate, two weeks more of similar work is ahead.

None have yet been sent to members of the National Guard, but it is assumed, that, under the latest ruling, some 300 members of the Maui battalion will have to fill out the questionnaire.

The legal board, consisting of Judge Edings, E. R. Bevins and Enos Vincent, will doubtless have to settle numerous questions before the work is finished.

Maui Investment Has Its Annual Banquet

The members of the Maui Investment Association, a local hui, together with their wives, enjoyed their annual banquet at the Grand Hotel last Sunday. Seventeen people sat at the table which was most tastefully decorated by Host Louis Distell, manager of the hotel. J. Garcia, who is secretary and treasurer of the hui, advises that the next banquet will be held at the Volcano House, as it is the intention of the members to make a visit en masse, accompanied by their ladies, to the Volcano. Officers elected for the ensuing year were J. S. Medeiros, president; C. P. Bento, vice-president; J. Garcia, secretary and treasurer; Joe M. Ambrose, auditor. Trustees: John M. Medeiros, M. G. Paschoal and J. Garcia.

Free Safekeeping Of Liberty Bonds

At a meeting of the directors of the Baldwin National Bank, held on Tuesday, it was decided that the bank would receive Liberty Bonds for safekeeping free of charge, and, moreover, would attend to the interest coupons on same.

The motive is purely patriotic, there being nothing in it for the bank, payment for safe deposit boxes not being contemplated. A short time ago attention was called to the danger of Liberty Bonds being lost, or not properly looked after, if kept in private hands, and that suggestion has brought up the idea.

Ladies knitting for the Red Cross are requested to read directions in regard to knitting, appearing under the head of "Red Cross notes" in this issue.

Permits To Cannors Limit Pack Of Beans

The United States Food Administration is sending a letter to cannors of beans, giving them a permit to can 25 per. cent of their pack of white and colored beans, as indicated in the estimates of their requirements up to March, 1918, which were recently submitted to the Food Administration.

The Tinplate Supply

The canning of beans was prohibited pending a survey of the available supply of tin plate. This survey has disclosed that there will soon be released sufficient tin plate to relieve the present situation, but the Food Administration deems it wise to limit the use of it until there is assurance of an adequate supply of the materials necessary for its manufacture.

The present permit will enable the cannors to reduce their accumulated stocks and relieve the financial strain. The cannors are warned, however, that it should not be taken as a precedent and they are advised to consider the future with caution.

Permits In The Mails

The permits have been mailed, but pending their receipt cannors who have filed applications may begin packing. They may pack at full factory capacity in order to keep down costs until the 25 per. cent has been reached.

Damage Case In Court

The damage case of W. S. Sing vs. Diego Moniz was before Judge McKay in the Wailuku district court on Tuesday and a motion for non-suit was granted. Appeal has been taken. Sing claims that he was ousted from premises in Market street on November 1, last after having paid rent for that month, and wants \$300 damages.

The new caterpillar for the Raymond Ranch, mention of which was made in these columns some weeks ago, arrived in the Mauna and was taken up to its destination on Wednesday.

"Anna" And "Annie" And Christmas Cake

A mixup in names, involving a Christmas present, was at the bottom of a case which was aired in Wailuku district court on Monday and, finally thrown out.

It appears that there were two Hawaiian women with the same last name, and there was only a slight difference in their first names, one of them being known as "Anna" and the other as "Annie."

On December 27th, a fine Christmas cake was sent to the one which may be designated as "Anna," but found its way into the hands of "Annie." "Anna," by the way, was in Honolulu that day and did not get back until the 29th. When she did arrive, however, she heard about the cake, started out to locate it and found that it had gone to "Annie."

Now, it appears that "Anna" and "Annie" had had trouble before and were bad friends. The latter admitted that she had received the cake and, believing it was intended for her, ate it. So "Anna" had "Annie" "pinched."

In court, "Annie" was very frank about the matter, and the case seemed so plainly one of a mistake only that the judge threw it out.

Steamer Being Altered

When the Manoa was at Kahului last week she had aboard sixty carpenters who were rapidly transforming the steamer from a carrier for human passengers into a transport for horses. The men came down in the vessel from San Francisco, working all the way. It is the intention to use the Manoa for transporting certain cavalry units from a certain place to another place (names omitted, in line with present newspaper policy.)

National Guardsmen Must Also Register

Not In Active Service And Are Subject To Rules Of The Selective Draft

The Daily Wireless carried the information on Monday that members of the National Guard, between the ages of 21 and 31, must register for the selective draft. Since then the order for this policy to be carried out has been received on Maui and steps taken to put it into effect. The following is the original order directed to General Johnson on the subject:

"From Headquarters Selective Draft, T. H.

"To Brig-Gen. S. I. Johnson adjutant general, National Guard of Hawaii.

"Subject: Registration of National Guard.

"1. By order of the war department dated January 5, 1918, you are hereby instructed that the individual members of the National Guard of Hawaii who may be within the draft age are subject to the operation of the selective service law.

"2. All members of the National Guard within registration age must register, file questionnaires and be classified as are other registrants.

"3. This information is to be immediately posted through the regular channels.

"By order of the Governor.

"FRANCIS J. GREEN,

"Captain, Infantry, U. S. R."

MUST REGISTER

This is the cable received from the war department by Draft Officer Green, which orders national guardsmen throughout the territory of Hawaii to register and file questionnaires:

"Individual members of the national guard not yet actually drafted nor designated by the war department to be drafted into the service of the United States must register and file questionnaires and be classified as other registrants. They are not in the military service until so drafted or designated.

Maui Very Weak On Postal Savings

WASHINGTON—That the Hawaiians are thrifty and chuck away a few dollars for the rainy day is demonstrated by the report just made on the operations of the Postal Savings system. It is further shown that this habit has been steadily growing. The eight offices in the territory had this status on January 2, 1914:

Office	Depositors	Amount
Hilo	17	\$ 1,674
Honolulu	245	37,289
Lahaina	2	2
Paia	4	167
Schofield Barracks	180	16,571
Waialua	38	3,484
Wailuku	1	1
Waipahu	7	179

At the end of the fiscal year of 1916 there was an aggregate of 409 depositors. For the fiscal year concluding June 30, 1917, the number had grown to 494, a gain of 85.

When the fiscal year 1916 ended the total of deposits was \$38,452. On June 30, 1917, the deposits had increased to \$59,547. The development in the nature of small savings compares favorably with other sections of the country.

What Huber May Do In The Das Case

The Honolulu Star-Bulletin has the following concerning Judge Edings' decision in the Das naturalization case:

With Saranghadhar Das, a Hindu residing on Maui, proclaimed an American citizen under a decision handed down recently by Circuit Judge W. S. Edings, District Attorney S. C. Huber will report the incident to the commissioner of naturalization in Washington and await his instructions as to what further steps shall be taken.

Das, who was called to San Francisco as a witness in the Hindu rebellion conspiracy, in which George Rodiek and H. A. Schroeder were indicted, will have to come to Honolulu and take his oath in the local federal court.

District Attorney Huber points out that, as far as a majority of authorities are concerned, there is no appeal from a naturalization case by the government. He says he will lay the entire matter before the naturalization commission, who may instruct the local office either to appeal or present a motion for the cancellation of the court order declaring Das an American citizen. Attorney Huber will take action which ever way the commissioner decides.

War Savings Campaign

Robert W. Shingle, who is conducting the war savings certificates sales campaign in the Territory, has named a committee of thirty-two men and women in the islands to assist in the work. R. A. Wadsworth is named as the head of the endeavor on Maui. The appointments were made and commissions signed by John S. Drummond, head of the department at San Francisco.

Attempt To Make Oahu Dry Island

Following is the famous Wakefield resolution, the intention of which is to make Oahu "dry" during the period of the war, which was passed by unanimous vote of the Honolulu Chamber of Commerce:

Resolution
 "Whereas congress by Section 12 of the Act of May, 18, 1917, makes it unlawful to have intoxicating liquors at any military station, or to sell any intoxicating liquor to any officer or member of the military forces while in uniform; and

"Whereas the clear intent of congress in enacting this legislation was to prevent our military forces from procuring and using intoxicating liquors during the war in order to thereby increase the efficiency of the army by raising its physical and moral standard; and

"Whereas there is in the City and County of Honolulu at the several military posts a large number of officers and enlisted men among whom are a greatly increasing number of new recruits; and

"Whereas the conditions in said City and County of Honolulu are such that the effective enforcement of the provisions of said Section 12 are practically impossible while such liquor is permitted to be sold; and

"Whereas said Section 12 provides that the President of the United States, as Commander in Chief of the Army, is authorized to make such regulations covering the prohibition of alcoholic liquors in or near by military camps and to the officers or enlisted men of the army as he may from time to time deem necessary or advisable;

"Now therefore be it resolved by the Honolulu Chamber of Commerce that we most urgently recommend that the President exercise his said authority by issuing a regulation prohibiting the sale of intoxicating liquors in the City and County of Honolulu for the period of the war, to the end that the purpose desired by congress may be attained; also that the civilian population of the City and County of Honolulu may be physically fit to efficiently comply with the demands the federal government may make upon them."

The Maui Horse Loses In Race At Honolulu

The Star-Bulletin thus reported the final race between McPhee's Mary Jay and Umpqua, at Honolulu:

Louis Warren's Umpqua not only beat Mary Jay, belonging to Angus McPhee, in a match mile race at Kapiolani Park Saturday afternoon, but equalled the time set by Oneonta in a match race with Satisfax of 1:43 4-5, a year or more ago. Over five hundred racing fans were on hand to witness the test.

Running Start
 Instead of the barrier the old-style running start was used. After two false breaks, the horses got away to a fair start. Umpqua perhaps a length to the good. Before the eighth Mary Jay had forged ahead and up to the five-eighths held the lead. At this point Umpqua got her second wind and forged into the front. It was pie after that; the Warren horse coming under the wire eight lengths to the good.

Charlie Tyler rode the winner, while Benny Rollins was up on Mary Jay. It was in June, 1916, that Satisfax made the mile in 1:40, the best Hawaiian track time, and later lost to Oneonta in a match race in which the time was 1:43 4-5.

Saturday's race proved that Mary Jay is the better horse over the five-eighths distance, but no speed-ball over the mile. Billy Lucas had charge of Mary Jay for the Saturday race, Angus McPhee having announced his retirement from the racing game previously.

Fraternal Orders And The War Loans

(Published by request of the bureau of publicity of the Treasury Department.)

Representatives of fraternal insurance organizations and societies from every part of the United States at a meeting in Washington called by Secretary of the Treasury McDoow on December 13 agreed to form War Savings associations and to conduct economy and savings campaigns all over the country and themselves invest and urge others to invest in Government War Loans.

A resolution was passed recommending to the respective organizations of the representatives present that they ratify and endorse the meeting in its purpose and cooperate in the campaigns for War Savings and Liberty Loans.

The enlistment of the united and active support of fraternal organizations in the campaign for economy and saving is a most hopeful sign. The fraternal societies of the United States wield a tremendous influence and form a body of citizens which is a great factor in our national life as well as in their respective localities. The value of their active cooperation and assistance in the War Savings campaign will be incalculable.

To Try Once More For Track Meet

A meeting of the Athletic Committee of the Maui County Fair & Racing Association will be held at the Bank of Maui, Ltd., at 7 o'clock next Tuesday evening for the purpose of discussing the proposed track meet, which was postponed from January 1. The advance idea of some of the members of the committee is to have the meet on February 22, and it is believed that a large number of competitors can be gotten together for that time.

AS TO "MEATLESS" DAYS

We quite agree with the idea of "wheatless" days on Maui, for by doing without the products of flour one day every week we are, in a small way, saving something which has to be brought from the mainland and is needed over there and by our allies in Europe. In "meatless" days, however, there is danger of a broader application of the principle than is either necessary or intended. By cutting out our steaks, mutton and pork one day a week we will have a little more to send to Honolulu and to that extent assist the city in her endeavor to keep from drawing upon the coast for these meats. When the effort is made, however, to include chickens, other fowl, sea products, etc., why, we are simply running to extremes. There is little more reason for including these items than there would be for drawing in potatoes, taro, Maui beans, or almost anything else grown here. There is far more reason in a proposition of cutting out sugar, for sugar is needed badly on the mainland, in England and in France; but somehow, we have worked around that item and appear now to be wandering rather far afield.

THE MEANING OF "GERMANISM"

Many articles have been written on the subject of "Germanism," and the term, as used in connection with the war, has been variously defined. President Wilson, himself, in his last message to Congress, defined it in a way which, to our mind, is, while concise, quite complete. He said:

"This intolerable Thing of which the masters of Germany have shown us the ugly face, this menace of combined intrigue and force which we now see so clearly as the German power, a Thing without conscience or honor or capacity for covenanted peace."

This Thing must be crushed, and if not truly brought to an end, at least shut off from the friendly intercourse of the nations, says the President, and it is only when this Thing and its power are indeed defeated that the time can come when we can discuss peace with the German people.

A "BONE DRY" OAHU

The Wakefield resolutions, adopted by the business men of Honolulu, requesting the President to declare the island of Oahu "dry" during the war period, will undoubtedly receive the prompt and interested consideration of the nation's chief executive, and it is quite likely that the order, carrying out the wishes of the proponents, will be issued. With the large garrisons of troops stationed on Oahu, and the scandals constantly arising as the result of the tabu placed upon the sale of liquor to soldiers and sailors, we are convinced that a "bone dry" Oahu in these critical times is little short of a necessity.

Just what effect a "dry" Oahu will have on the other islands, is hard to figure out now. Certainly the supply of liquor would not be cut off, it being a very simple matter for country dealers to shift from Honolulu and buy in California. Our worst danger would lie in the probability of being simply overrun by the Honolulu "joint" keepers, seeking new locations; and all the "bums" of Chinatown and the waterfront of the city. The ideal way, perhaps, for the outside districts would be to go Honolulu one better and ban liquor on their own account, for the period of the war. If not that, then surely steps should be taken to the end that the outer islands be not made Cain-hoys for the floating ne'er-do-wells of the strata known as the saloon element. However, with alertness on the part of local license commissions and police establishments, with the good judgment and nerve to properly apply the "move on" treatment, matters might adjust themselves in a satisfactory way.

FILIPINOS IN ACTIVE SERVICE

Army officers serving in the Philippines are a unit in declaring that the Filipinos are today intensely loyal to the United States, and that their offer to send three divisions or more of troops to Italy and France is bona fide and comes from a genuine desire to help America in the war. It is claimed that all tribes are equal in this splendid loyalty, even those with whom we were at war following the brush with Spain vying with the others in the effort to show their loyalty and their desire to help Uncle Sam. The decision of the war department to take the Philippines national guard into the regular service indicates that the government has confidence in the sincerity of these men. Under American officers who have seen service in the Philippines and understand those people, we believe that a Filipino army would give a good account of itself in Europe, and we would like to see the experiment tried out.

THE IMPENDING GREAT BATTLE

It is quite evident, now, that Germany will make a desperate effort to break through the line of the Allies on the western front before the Americans, in any large numbers, arrive on the scene. The cessation of efforts on the Italian front and the removal of troops from Russia to France indicate that the Germans are letting everything else go in the interest of this greater movement. It had been figured that, on account of weather conditions, there would be little activity in France and Belgium until Spring opens, when a concerted drive would be made by the Allies. But Germany is quite evidently thoroughly alarmed over the growing American storm, and is preparing to stake her all on a blow against France and England before the new peril appears.

Britain and France, however, will not be caught napping. They are fully alive to the situation. They expect the blow, and are fully prepared for it. We have the assurance that they view the prospective results with confidence, and the world is prepared to believe that they have good reason for that confidence. At the same time, the signs indicate that the impending battle will be the greatest the world has ever known, and it may be the beginning of the end. If Germany loses, it is hard to see how she can escape retirement behind her own borders.

We are due, in a short time, to hear some very interesting news.

Meat conservation might be helped along some by Kahoolawe, Lanai and sections of other islands on which goats abound to the extent that they are a pest. Kid meat has been regarded as pretty fair all the way back to the time of Abraham, and we would not be setting any strange precedent by resorting to it. It has been estimated that there is enough available kid meat in the Islands to supply the entire Territory for six months. If that is so, and it were utilized, it might mean a relief to the beef stringency of no small importance. There is a more or less general prejudice against goat meat, and this has extended to the meat of kids—quite unfavorably so. As a war-time proposition this prejudice should be forgotten in the interest of the more important considerations which we have in hand.

The endorsement of woman suffrage by the President as a nationwide proposition was followed quickly by the passage of the measure in the House of Representatives, and it is next to certain that the Senate will follow suit; for Democratic senators will not likely oppose the wishes of Mr. Wilson, and many Republican senators are already committed to the policy of votes for women. The advent of the fair sex into the political field will be an innovation little short of startling in many States, and will force a new alignment of calculations in the Islands. In the older communities of the mainland we are of the opinion that the influence and power of women at the polls will be healthful. It will mean the end of many institutions, or agencies, which we will not regret to see wiped out of our national life. Whether it will work out the same way here, no one can foresee; for it may mean increasing the majority of influence which has not always been perfectly right. However, general, political conditions are improving, locally. We can all remember when they were worse, in the Islands; and there is quite possibly reason to hope for even better things under the new deal.

It has been known for a long time that the use of food in Germany had been restricted greatly, but the worst was yet to come. No less an authority than the Berliner Tageblatt says that German beer now "is wet and that is about all." In the north of Germany a bitter feeling exists among the brewers against the Bavarians, who, it is charged, are being favored by the government in the matter of obtaining barley and malt, this giving the Bavarians something which at least resembles the beer of old. In the meanwhile, throughout most of Germany, real beer, which means so much to that people, is now merely a dream of other days.

Hilo won the big Volcano-to-the-sea marathon, and deserved to win it. It was a very large undertaking, worked out under difficulties at a time when general circumstances were against its success. The promoters, officials and successful racers are to be complimented. Maui would have taken a shake at the race, but we did not have runners enough and Hilo would not let us use a horse for a sixth man.

The statement by Secretary Baker yesterday that a good-sized American army is already in France may possibly come as a surprise to some, but not to those who have carefully noted the minute items concerning the movements of troops that have seeped through in censored news from time to time. "Leave it to Uncle Sam" as to what the next few months will show.

The Maui News is indebted to the Honolulu Star-Bulletin for the excellent cut of the Maui boy gardeners, Governor Pinkham and Mr. Mathews on another page of this issue. The Star-Bulletin has started another garden contest, which includes Maui; and the News hopes that all school children in position to do so will enlist in it with enthusiasm.

In the death of Mrs. F. J. Lowrey, Honolulu has lost one of her hardest workers for a more beautiful and better city.

The heads of the National Guard at Honolulu, who have assured us all along that their sole motive in working for the largest possible organization was to render the greater assistance to the United States, should now feel gratified that many of their charges may be accepted into the service of Uncle Sam through the agency of the selective draft.

The reports of much larger deposits in our banks and greatly increased public revenues from a lower tax rate do not suggest that we, on Maui, have yet been seriously "pinched" by the financial demands of war.

OFFICIAL NOTICE.

The Secretary of State for the State Department of the United States of America, has authorized the undersigned to extend valid passports of the United States, when presented for extension, within thirty days from the date of their expiration. Passports may be extended for two periods of six months each.

Governor of Hawaii.

NEWS AND VIEWS OF THE CONTEST GARDENS

Champion Gardeners

The Maui News will print letters from the five champion, boy gardeners who went to Honolulu, written in their own way. The first one, herewith presented, is from Paul Knyser, of Paia, 14 years of age. Paul writes as follows:

Paia, Maui, T. H.
Jan. 8, 1917.
The Editor of the Maui News,
Wailuku, Maui, T. H.

Dear Sir:
Our party including Mr. Mathews, who was looking after us, James Kaai, Hisashi Hasegawa, Albert Camara, Naoki Matsuda and myself went on the Claudine and set sail from Maui December 26, 1917.

The trip was very rough and some of us were seasick. We reached Honolulu Thursday morning at six o'clock from the boat. We got Mr. Mathews' machine and went around Honolulu.

On the afternoon we went to the Y. M. C. A., and saw the swimming pool, the game hall and other rooms. During the rest of the day we played billiards and read magazines.

On Friday morning Mr. Mathews took us out to the Bulletin Office and we had our picture taken with the Governor. After seeing the old Hawaiian throne, we went to the library of Honolulu. On the afternoon we rode around Diamond Head and then went to Waikiki to go surf riding in one of the large Outrigger Canoes.

On Saturday morning Mr. Mathews

easy. Thursday the steamer reached Honolulu and we got off. On the wharf I met Mr. Coale. We had breakfast and went to Palama Settlement, the place where we stayed. Afterwards we went to the Y. M. C. A. There we played in the Boy's Department. We visited the Star-Bulletin and saw the newspaper plant. We always ate at the Y. M. C. A. cafeteria. We met the Governor and were photographed with him. We also visited the library. In the evening we always swam at the Y. M. C. A., swimming pool.

Friday we visited the "Advertiser" and went through the building. We visited the Bishop museum and saw ancient Hawaiian kings crown, sword, cloak the big whale, etc. After this we went to Fort Shafter and saw the trenches and barracks. We spent a time in the Hawaii theatre this night.

On Saturday we visited the Mutual Telephone Co., and then the Pan-Pacific Building. When we went to the Aquarium we saw fishes, crabs, lobsters, eels and octopus. We went around Diamond Head and passed barracks and guns placed on Diamond Head. After this we went to the Kaplan Park, and saw monkeys, two lions, Daisy, an elephant, a bear, leopards, birds, etc. We went to the Outrigger Club and went canoe riding.

On Sunday we went around the is-

ENLISTING THE BOYS AND GIRLS IN GARDEN WORK

Good Results Already Obtained Afford Much Encouragement For The Future

TIMELY ADVICE BY AN EXPERT

(By F. G. KRAUSS)

Garden work for boys and girls at home and in the schools is gaining commendable headway in Hawaii and especially on Maui. The splendid success of the Star-Bulletin garden competition, followed by the first garden contest inaugurated by the Maui County Fair & Racing Association which are to be followed immediately by a second contest on the part of both organizations certainly speaks well for the patriotism and public-spiritedness of our island community. Who can tell what ultimate and far-reaching effect these practical demonstrations will have upon our young people as well as upon our older folk? An introduction to the fascinating art of making things grow cannot but help awaken the finer qualities of mind and soul, and once we catch the enthusiasm our interest and support is likely to become permanent.

Plans For 1918 Garden Contests

Mr. Mathews Asks Co-operation In Order That Success May Be Achieved

L. R. Mathews, director, has issued a letter to many people on Maui concerning the new garden contests. In view of the importance of this matter, and the general interest felt in the success of the proposition, the following parts of the letter are reproduced:

Another Children's Gardens Contest has started and will end June 15th. You have helped make the first one a success,—will you also help make this second one an even greater success? We earnestly hope you will.

The world needs food—Hawaii needs it and these children will be doing a distinctly patriotic service by having gardens. That is the appeal we are making to them,—not alone that they "win prizes" fine as that is, but that they serve their country.

We are also going to have an Adult's Garden Contest which will be along exactly the same lines except that money prizes will be given, \$25.00 for the six best gardens, etc. Three regulations govern this contest: Husband or wife or both must do the work themselves; they cannot

In the afternoon we went to Kapiolani and saw all the funny animals. After this we visited Bishop museum and looked at many ancient Hawaiian relics.

Sunday was the best of all for we took the trip around the island.

We stopped at the Pali and all of us thought that the view was beautiful. Then we went on until we reached Pearl City, where there is a large wireless station. It was three o'clock when we got back to Honolulu, after the best time any of us ever had.

On Monday morning we packed our things, and did a little shopping. At five o'clock we went on board the S. S. Claudine all ready for home.

We reached home on Tuesday morning, all feeling very thankful for such a nice trip and ready to plant even better gardens.

Yours truly,
PAUL KNYSER.

Editor, "Maui News"
Dear Sir:
I am sending you an account of my trip to Honolulu.

Wednesday I went to Wailuku and met Mr. Mathews and all the boys. The boys were:

1. Paul Knyser of Paia.
2. James Kaai of Kaunakakai.
3. Albert Camara of Keahua.
4. Naoki Matsueda of Pauwela.

In Hana a girl won the prize, but she preferred to take her trip in summertime. We went on board the "Claudine" which left the harbor about 6 o'clock, via Lahaina. None of us enjoyed the trip when we were sailing. We were seasick and were very un-

land. We saw soldiers guarding as we went on. We came to the famous Nuuanu Pali over which Kamehameha drove his enemies. Afterwards we passed villages, pineapple fields, taro patches, rice fields and the Libby Factory. We passed Schofield Barracks too. This was the big stunt on Sunday.

Monday we sailed home.
Your respectfully,
HISASHI HASEGAWA.

Mr. Dodge, Traveller

Rev. Rowland B. Dodge is just now making of himself quite a traveller. Last Saturday he went over to Molokai in a sampan to look over the site of the new church at Waialua, returning Monday. That night he left for Honolulu to attend committee meetings. He will return home again Sunday morning, after having been on the "go" for eight days.

ly assured.
Our Editor asks that this paper be made suggestive and of a cultural nature. Well then, let it be suggested that Maui permit no loafing garden patches, during 1918. Let us pledge ourselves to reclaim and plant every waste place with some useful thing. It is possible by this means to increase our truck crops several fold over last year with benefit to ourselves and the community at large. It is the duty as well as the privilege of each and every one of us to lend a hand.

To Produce Larger Yields and Better Quality.

Our average yields and quality as well as variety is poor. Not alone should we take advantage of the idle virgin patches in neglected corners, which are often most fertile, but we must give better and more intense culture to the old garden plots so that every square foot of land will do its bit.

Principal Yield and Quality Factors In Gardening.

Three principal factors over which the gardener has control which have to do with increasing the yield and improving the quality of the product are:

1. Increasing the productive power of the land by heavy manuring or fertilization.
2. Planting seeds of high quality and suitable variety.
3. Practicing proper and thorough tillage. Of these factors the last named is the simplest, but most often neglected. With soil of even average fertility, the preparation of the seed bed by proper tillage and after cultivation may make or mar the final product.

Tillage
Tickle the soil and the crop will smile at you.

hire someone to do it or they cannot let their children do it. They must have at least 1,000 square feet of land, more will be better and they must not lay off from work to take care of their gardens. If the plantation authorities or your local committee report any breaking of these rules their names will be dropped from the list of contestants.

The same regulations will apply to the Children's Gardens as last year with the following exceptions: Not less than 300 square feet of land, more will be better. Any number and kind of vegetables. Buy their own seeds unless in your opinion certain children cannot afford to do so. If you will notify us of these cases we will send seeds.

The boys who went to Honolulu had a glorious time and learned many things. The prizes are worth while but the service you, and they, can render is worth infinitely more, to Maui and to the Country.

The texture of the soil is nearly always more important than mere "richness." A fine mellow soil is much more productive than a hard lumpy one of the same chemical composition. It affords greater feeding ground and more favorable environment for the plant roots, absorbs and retains more moisture, has better aeration and variable extremes of temperature. It promotes nitrification and the development of available plant food, by giving favorable conditions for the development of soil bacteria and for the desintegration and solution of the soil minerals. Thus does proper and thorough tillage render the plant food more available and affords a more congenial place in which the plants may grow.

Plantations On Maui Exempted From Excise Tax

That the Haiku Sugar Co., as well as the six other plantations controlled by the Maui Agricultural Co., need not pay excise taxes for the year 1909 is the finding of Federal Judge Horace W. Vaughan in a decision handed down recently. The government held that, by reason of the consolidation of the plantations under one head in one year, certain additional taxes were due. The amount it was held was due from the Haiku Sugar Co., was \$4503.73. The total amount aggregated several thousand dollars.

The seven corporations formed a joint stock company and turned their property over to a board of managers, agreeing to share profits and losses at a fixed rate in proportion to the value of their respective shares or interest in the corporation.

It was contended by the government that the amount entered to the credit of the defendant on Dec. 15, 1909, showing an increase of its interest in the capital of the Maui Agricultural Co., of \$600,000 should be included in computing the income of the defendant for the year 1909 for the purpose of ascertaining the amount of excise tax it should pay for that year.

The court now holds that the transaction—the consolidation of the plantations—did not increase the income of any of them, and that the amounts with which they were credited in the capital assets account should not be included in computing their income for 1909. The defendant was represented by the law firm of Smith, Warren & Sutton. District Attorney S. C. Huber appeared for the government.

Rainfall In 1917

The figures for rainfall at the Haiku sub-station in 1917, by months and total, were as follows:

January	3.93 inches
February	3.62 "
March	4.04 "
April	8.58 "
May	7.16 "
June	3.58 "
July	2.16 "
August	2.04 "
September	6.43 "
October	1.83 "
November	6.24 "
December	3.16 "

Total 52.77 inches
In regard to this showing, Mr. F. G. Krauss comments as follows: "It is interesting to note that the rainfall of 1914 approximated 104 inches, or practically twice as much as in 1917."

New School Buildings For County Of Maui

The sum of \$70,000 was allotted by the last legislature for new school buildings on the island of Maui and the money is now available. Superintendent Kinney went up to Hilo Wednesday on the matter of new buildings for Hawaii and it is assumed that the Maui improvements will also be taken up without delay.

The district of Lahaina will get \$10,000 for new building purposes. Wailuku will come in for \$20,000, while \$32,500 will be expended in Makawao. For Hana, \$2,500 is allowed and \$5,000 will be expended on Molokai, a small item in the latter being for Lani. In Makawao district the need for greater school accommodations is urgent.

The general policy, it is understood, will be to construct buildings of a permanent character, with consideration at the same time, to climatic conditions.

Weekly Market Letter

January 2, 1918.

The Honolulu food market this week is quiet due to the holidays and the fact that the merchants have not begun to stock up again. Prices remain practically the same and the conditions of last week have not changed.

The principal item of interest this week is the difference in prices of the sweet and Irish potatoes here and on the mainland. The average price of sweet potatoes today in Honolulu is \$1.15 a bag while the last reports from San Francisco shows that they are selling there for \$4. On the other hand Irish potatoes here bring about \$2.75 and on the coast only \$1.65. This difference in price of the sweet potatoes is evidently caused by the large stock on hand here with the inability of the growers to ship them out of the islands because of quarantine laws. Whether or not there is a shortage on the mainland is not known. As a result of the movement started here last spring to make Hawaii self-supporting as far as possible a much larger acreage was planted than usual.

The banana market is unchanged, but the Territorial Marketing Division is endeavoring to relieve the condition as much as possible by having on hand at all times a stock of bananas which it will sell to people who call for bunches at from 30 to 70 cents, according to the size.

The Maui bean crop is coming in slowly but as the merchants are fairly well stocked up with this commodity they are not moving as fast as it is wished. The Territorial Marketing Division has 400 bags on hand and on the 15th of this month will begin paying \$3.50 a bag as an advance payment for all which are sent in, the balance to be paid when they are sold.

RED CROSS ITEMS

Maui Red Cross knitters, please read carefully the following directions and cut out same for frequent reference.

Knitting Directions

Because of a difference in the size of knitting needles in the United States, there being three manufacturer's gauges, which, unfortunately, do not correspond, the American Red Cross ask that the women follow the printed directions as nearly as possible, but try out their needles and yarn to see just what measurement a definite number of stitches gives them.

Following are the sizes the articles should be:

Sleeveless Sweaters: Length 25 inches. Width across chest from 16 to 20 inches—no wider—preferably 18 inches.

For those who knit loosely, the 80 stitch sweater is best for heavy yarn like Germantown. For tight knitters the 96 stitch is preferred.

Muffler: 11 inches wide—(cast on about 56 stitches, 68 inches long.

Mittens or long wristlets: 12 inches long. Two openings (of 2 inches each should be 3 inches from each end of wristlet, so that it can be reversed when worn out at one end.

Socks: Length should be 14 inches from top of leg to division of heel. Width of leg and of foot 4 inches. Foot 10 1/2 inches to 12 inches. 11 and 11 1/2 inches average length.

All knitters are urged to follow these directions more carefully than they have in the past.

Why Eggs Are So High

Haiku, Maui, Jan. 8, 1918.

Editor Maui News:

With the Haiku Egg Circle charging the apparently extortionate price of 90 cents a dozen for its eggs, I feel that some explanation is due the public. It may make it easier for those who pay such a price to know the side of the producer.

When I could get corn for \$2.00 a bag, scratch feed for \$2.65 and wheat for \$2.85 I made a reasonable profit with eggs at 50 cents a dozen. Since the United States entered the war, the poultry products I have sold have not brought in sufficient to pay the feed bill,—to say nothing of labor, interest, depreciation, taxes, profit, etc., and I believe that the same has been the case with the other members of the Circle. Wheat was dropped for patriotic reasons, scratch feed went beyond \$4.00. Still we had island corn, and stayed by that until it went to \$3.60 and thus became higher than imported barley. Then the increase in freight rates put barley above even that figure.

We have hoped against hope for government relief in some stabilizing of prices. It has not come. We still hope to produce eggs at reasonable prices by the use of homegrown feeds,—banana, papaya, cassava, sweet potatoes, pigeon peas, skim milk,—but we have not yet got these crops in sufficient quantity. In the mean time we want the purchaser of eggs to know that we are merely passing on to him the exorbitant feed bill we have to pay, without a bit of profit added to it for the work we do. This is no complaint,—it is an explanation.

Very truly yours,
EDWIN C. MOORE.

GERALDINE FARRAR, the famous opera star, who will appear in the feature film, "Joan the Woman", at the Wailuku Orpheum next Tuesday evening.

AT THE THEATERS

Intense Human Interest Brought by "Joan the Woman"

Of all the motion pictures ever made, none has ever had a finer purpose than "Joan the Woman," the great photoplay in which Geraldine Farrar, the famous opera star, will appear in at the Wailuku Orpheum on Tuesday next, the 15th. It is not merely awe-inspiring as a spectacle and thrilling in its heroic moments, but there is something bigger and more ennobling back of it than stage craft.

It shows to what heights a woman can rise when it comes to a moment of sacrifice, the heights to which Joan, one of the fairest characters in all history, arose. No one can hold back the big lumps that come to the throat when they see this wonderful peasant girl of France, with one of England's greatest invading knights at her feet in the humble supplication of genuine love, hold back her emotions because her country needs her. And in the continuance of this throbbing love story every soul must be stirred to see the girl, Joan, hard as adamant on the battlefield, twice save the life of her suitor only to find in the end that he is the one selected to trap her for the King of England. Historical and wonderful in pageantry it is, but after all the thing that will make it take rank with the greatest motion pictures of our time is the way Joan's great love story is woven through it all, showing that the girl who wore armor and led the gentry of France into historic combat, had just as much heart as any young girl of today.

Cecil B. DeMille, the producer, has created an epoch in photodramatic history with this thrilling and artistic achievement.

"The Squaw Man"

Having scored such a pronounced success in "The Golden Fetter," Wallace Reid, supported by Anita King, will be seen at the Wailuku Orpheum on Saturday next, in the Lasky-Paramount "The Squaw Man's Son," a sequel to the popular drama, "The Squaw Man," by Edwin Milton Royle, and prepared for the screen by Charles Maigne.

Wallace Reid is the most popular of the younger masculine screen stars and was recently seen in the Lasky-Paramount production "The Prison Without Walls." As Hal, in "The Squaw Man's Son," he has a part exactly suited to his personality and ability.

Anita King, also one of the youngest of the screen favorites, is seen as an Indian girl, a character similar to the one in which she made her first screen appearance with the Lasky Company.

By a strange coincidence, "The Squaw Man," Edwin Milton Royle's famous drama, was the first story ever pictured by the Lasky Company. So great was its success and so great was the demand of the amusement-seeking public to know what became of little Hal, son of Nat-urich and the Squaw Man, that Edwin Milton Royle was easily induced to continue the story. "The Squaw Man's Son" shows little Hal as a young man. He has gone to England to enjoy his father's title and estates and is married, but the call of the west is so strong that he returns to his people and he is first seen as chief of the Indian police of a western reservation.

Here he meets Wah-na-gi, a young

Carlisle graduate who is teaching the Indian school. The two fall in love. The Indian agent who is the representative of the asphalt trust, attempts to rob the Indians of their valuable concessions.

How Hal thwarts this, returns to England only to be called back to again protect his people and how he is finally free to marry Wah-na-gi and saves her from death on the grave of his mother, is brought about in a most exciting and gripping manner.

Besides Anita King, the cast supporting Mr. Reid is composed of such well known players as Raymond Hatton, Donald Bowles, C. H. Geldert, Frank Lanning, Ernest Joy, Dorothy Davenport, Mabel Van Buren and Lucien Littlefield.

"The Long Trail"

The Cast: Lou Tellegen, Mary Fuller.

The story tells of Andre Du Bois, a trapper, who lives in a little Canadian town with his sister, Michette. Robert Graham, a wealthy fur dealer, comes to the place accompanied by his ward, Louise, and her fiancé. Louise soon becomes interested in Andre, and arouses the jealousy of her fiancé, Wallace Newton. In a fit of temper Newton breaks his engagement with the girl, and events finally lead to a marriage between Louise and Andre.

In the meanwhile Louise's brother Paul, who is a thorough scoundrel, by a series of deceptions, is the cause of Michette's death. Andre, totally ignorant of the fact that the man who had wronged his sister is the brother of his wife, resolves to have revenge, and starts in pursuit of Paul. In a gambling fight Paul kills a man and becomes a fugitive from justice. During his flight he comes to Andre's cabin, where his identity is disclosed just as the trapper is about to kill him. In a big dramatic scene Andre decides to assist his new-found brother-in-law to escape arrest. Trooper Joyce of the North Western Mounted Police shoots and kills Paul as he is escaping. He then arrives at Andre's cabin to arrest him for aiding and abetting the criminal. He is prevented from doing so by the confession of Louise that the criminal was her own brother and that she herself had provided Paul's equipment. Thus it is that in this double sacrifice Louise and Andre find themselves.—Adv.

BY AUTHORITY

PUBLIC LANDS FOR HOMESTEADS

Opening of Public Lands for Homesteads on the Island of Maui.

Notice is hereby given that the public land hereinafter described will be opened for homesteading as follows, in accordance with law and subject to withdrawal before their selection:

1. LOCATION OF LAND. The land to be opened is on the Island of Maui, and is known as the Haleakala Homesteads, in the District of Makawao.

2. CHARACTER OF LAND. The land in this tract is agricultural-pastoral land.

3. TERMS AND METHODS OF DISPOSITION. The persons entitled to take up said land will be determined by drawing or allotment. Either husband or wife, but not both, may make application to participate in the drawing.

Each person may take one lot. These lots may be taken only by Right of Purchase Lease, conditions of lease to be such as imposed by law.

Possession will be given at once. Exceptions and reservations will be made for existing flumes, ditches, reservoirs, streams, wire and pipe lines, trails and railroads. No lot will be sold as wet lands with appurtenant water rights. All waters are reserved for the public or common use and benefit.

4. APPLICATION FOR PARTICIPATION IN THE DRAWING. All persons qualified to take homesteads may, on or before Monday, January 14th, 1918, at 4 o'clock P. M., but not thereafter, present to the Commissioner of Public Lands, Honolulu, by ordinary mail, but not in person or by registered mail, or otherwise, sealed envelopes containing their applications for participation in the drawing herein provided for; but no envelope shall contain more than one application or any other paper than the application and no person shall present more than one application for this drawing.

All such applications must be made on blank forms furnished by the Commissioner of Public Lands or his agent, and must show the full name, mail address, age, height, weight and sex of the applicant, and whether he or she is single or married, and be sworn to by him or her before a sub-agent of public lands, notary public, judge or other officer authorized to administer oaths, and must be mailed in envelopes furnished by the Commissioner or any such agent.

All such envelopes shall have printed upon them the Commissioner's address and the words "Application, Drawing for District of....." the blank in which quotation must be filled in with the district in which the land desired is situated; and no such envelope shall indicate the person by whom it was presented or mailed or bear any mark of identification. All envelopes must be securely sealed and should have the requisite stamps attached thereto before they are placed in the mail.

Any person who presents more than one application for this land drawing, or any application in any other than his true name, shall not be permitted to participate in such drawing.

All envelopes which indicate by whom they are presented or mailed will be opened as soon as received and the application therein will forthwith be returned to the applicant.

5. DRAWING AND ASSIGNMENT OF ORDER OF SELECTION. Upon receiving any such envelope properly addressed and properly endorsed as above required, the Commissioner will deposit it in a suitable container, into which will be deposited only and all such envelopes as are properly endorsed for the drawing, and such container will be so constructed and so kept as to prevent envelopes deposited therein from being removed therefrom without detection until they are publicly opened on the day when the drawing and assignment are made.

At 9 o'clock A. M., at the Capitol Building, Honolulu, on Tuesday, January 15th, 1918, or as soon thereafter as may be, the container for such land drawing will be publicly opened and all the envelopes therein will be thoroughly mixed, and will then be taken, one at a time, impartially and indiscriminately, from such container and the applications contained in such envelopes when correct in form and execution, will be numbered serially in the order in which they are taken, beginning with number one, and the numbers thus assigned shall determine the order in which the persons named therein may select and take lots.

A list of the applicants to whom numbers are assigned showing the number assigned to each of them, will be conspicuously posted, and furnished to the papers for publication as a matter of news, and notice of the number assigned and the time and place he must appear to make his selection will be promptly mailed to the address set forth in the application of each person to whom a number is assigned.

All applications which are not correct in form and execution will be marked "Rejected, imperfectly executed," and filed in the order in which they are rejected, and notice thereof will be sent to the persons who presented such applications.

6. SELECTION OF LOTS. Beginning at 12 o'clock, noon, on Saturday, February 2nd, 1918, at the Court House, Wailuku, Maui.

Any persons holding numbers assigned to them for any such land drawing may make their selection of the lots that are open to selection and desired by them in the order in which their applications for participation are numbered.

If any person who has been assigned a number at the drawing fails to appear and make his selection when the number assigned to him is reached and his name is called, his right to select will be passed until the other applicants assigned have been disposed of, when his name will be called again, and if he then fails to appear and make his selection, he will be deemed to have abandoned his right to select.

7. PROOF AT TIME OF SELECTION. At the time he appears to make his selection, each applicant must be prepared to show his qualifications to take a homestead by affidavit in the form prescribed by the Commissioner, and otherwise. If any applicant is not a citizen of the United States by birth, he must present at the same time either the original of a certified copy of his declaration of intention to become a citizen, or of the order of the court admitting him to citizenship; and if an applicant who is not born in the United States claims citizenship through his father's naturalization while he was under twenty-one years of age, he must present a certified copy of the order of the court admitting his father to citizenship.

No person who appears to be disqualified to take a homestead will be permitted to make a selection, or in case he has made a selection, to receive the necessary papers or take or retain possession of the lot selected.

8. FORMS, MAPS, INFORMATION. Blank forms of applications, addressed envelopes for applications, blank forms of affidavits of qualifications, other necessary forms and information in regard to the lands to be opened and the terms under which they may be taken, may be obtained from the Commissioner of Public Lands at Honolulu, or from Sub Agent W. O. Aiken, Paia, Maui.

To the service in the Wailuku Union Church Sunday evening the Kanhaman, Chinese and Japanese churches of Wailuku are most cordially invited. The service will be a union service, the sermon by the minister of the Union Church.

The 1918 Outlook

The Rev. A. Craig Bowdish at the Makawao Union church spoke last Sunday morning on "The 1918 Outlook." He centered his thought on a portion of Paul's letter to the Colossians where he outlined the just relations between people. Wives and husbands need to be mutually thoughtful. Parents and children must heed each other patiently and sympathetically. Employers and the employed must deal justly with one another before there can be real democracy and peace. For centuries the world has ignored or only played with this mutual relationship.

The Epiphany
"The Epiphany" is a festival of the Church which always falls on the 6th day of January, 12 days after Christmas. For that reason it is sometimes spoken of as "Twelfth Day." It completes the Christmas cycle, and commemorates the visit of the wise men from the East to the infant Jesus at Bethlehem, to whom they brought gifts of "gold, frankincense, and myrrh" and with these, their personal homage, adoration, and worship. The Epiphany this year falling on Sunday last, Rev. J. Charles Villiers made it the subject of his sermon at the Church of the Good Shepherd. "Worship" was his point of emphasis. He said, in part:

Though a majority of men and women in every community are casting about and trying to find in one way and another, a substitute for worship, they do not, in reality, find one. There is no substitute, at least, no adequate substitute, for worship. The community which ceases to have reverence for God, and is controlled, if not wholly, yet, in the main, by those things which perish in the using, the things temporal, and moral, and which regards "Public Worship" as of secondary, or, indeed, of less than secondary importance, is a long way on the road to loss of spiritual vision.

Worship is so interwoven, so identified with the religious life, and with the very essence of religion, as to be inseparable therefrom. Where worship is neglected, religion is not developed, and where religion is not developed, immorality ensues. Therefore, to treat public worship as if it were of no moment to either, the individual or the community, is to prove that one's spiritual vision is dull, and dim.

But evidence abounds in this community, as in every other, that perhaps the majority of men and women are indifferent to worship. A Saturday night dance, or movie picture show, or social feature is of more importance to them than is the worship of God on Sunday. Their attitude to the church is not, perhaps, one of hostility, and contempt, but it is one of indifference. Their abstention from church services is, often, made a matter of boast by them. They are too busy with other affairs to go to church.

And this boastfulness of indifference to church services is often expressed in a way to suggest that they believe that such indifference has the approval of Jesus Christ. Where this spirit exists it indicates a peculiar form of moral, if not mental, density, in relation to the teaching of Jesus Christ, and also to his example. He was sinless, yet, we are told, He went up into a mountain to pray. He worshipped, sabbath by sabbath, in the synagogue, with the people of Nazareth. He joined in the Temple services, and reminded those who, under the plea of necessity, had come to think of religion in terms of material gain, and not in terms of spiritual life, that the Temple was His Father's house, the place of common, and united prayer. Both by His teaching and by His example Jesus put first things first. He taught that the worship of God, and the service of man are the complement of each other.

While charity may precede worship yet by worship we are inspired to charity, and our deeds of charity are leavened by Christian grace. The end of worship is to gain knowledge of and enter into fellowship with God, in Christ, and out of such knowledge and fellowship learn the better to love and serve our fellowmen.

A non-Christian civilization, materialistic, self-seeking, in its aim, can never furnish adequate motive to human life, to make that life all it should be; all it ought to be. Even philanthropy itself will prove to be no adequate substitute for spiritual religion.

Christian America, and that section of it known as the territory of Hawaii, has reason to beware lest it forget the solemn words of Jesus Christ: Thou shalt worship the Lord thy God, and Him, only, shalt thou serve.

Pertinent Paragraphs

A coast mail will arrive here by the Claudine Tuesday morning and another coast mail by the Kilaua Tuesday night.

Going back to his establishment in Wailuku about 7 o'clock Monday evening, M. J. Moura found two small boys crouched beneath his desk. He kept them there until another man came along, when the police were notified. The boys were detained awhile, given a lecture, but on account of their youth, were allowed to go. The boys gained access to the place through a partly open window.

Joel B. Cox, county engineer, has received his commission to go to France to assist in reconstruction work, and will leave sometime in February. The fact that Mr. Cox would shortly receive his commission, and the particulars regarding it, were recently published in this paper.

V. C. Schoenberg, who will leave on Saturday for his new post with the bank at Schofield, Oahu, will be succeeded as registrar for the select draft by Charles F. Rose.

TAX RETURNS MONTH

This is the month for making Territorial tax returns. If returns are not made before the first of February, the tax assessor may fix valuations from which there is no appeal.

BAKER TELLS OF ARMY PREPARATION

Washington—Secretary Baker stated before the investigating committee today that there has been no failure in the war department in the present campaign. No army of similar size in history in any country has been so quickly raised and equipped. No other army in the world has such thorough provision for its welfare. He says that a good sized army is already in France, completely armed and fully equipped, and that a million and half more will soon be prepared to take the field. He admits some confusion at first, but says that all defects have been remedied and everything is now working smoothly.

Washington—The President told a delegation of House leaders that he favored the enactment of the Anthony amendment granting national women's suffrage, and added that he would issue a statement making his position clear, and last night threw support to suffrage, which will be voted on today. On the eve of the vote twelve Democratic members called at the White House with word that they and many of their colleagues wanted advice from the head of their party and the President dictated a statement. The delegation later announced: "The committee found that the President had not felt at liberty to volunteer his advice, but when we sought his advice, very frankly and earnestly advised us to vote for the amendment as an act of right and justice to women of the country and of the world." Thus the suffrage campaign will certainly see victory today, as the result of the President's stand, where a few days ago it was privately conceded to be defeated.

The Present Situation

(With apologies to the Detroit Free Press.)

My Tuesdays are wheatless,
My Fridays are meatless,
And I'm getting eatless each day.
My home it is heatless,
My bed it is sheetless—
They are sent to the Y. M. C. A.

The barrooms are treatless,
My coffee is sweetless;
Each day I get poorer and wiser.
My stockings are feedless,
My trousers are seatless—
My, how I do hate the Kaiser!

A Great Cannery Headed This Way

Hilo Hears Of Enterprise To Be Started Soon At Or Near Kahului

After recording the failure of Judge Cooper to negotiate a sale of Palmyra Island to California canning interests, a Hilo paper says:

"The story back of this statement, is said to be that a large cannery is to be constructed on Maui, at the cost of half a million dollars. Carl Envoleson, representing the cannery interests made a trip to Palmyra with Judge Cooper in the Lucha some months ago. Since his return he has steadily refused to talk for publication, but it is known that he has inspected various possible cannery sites all over the Territory, and report now has it that he has definitely pitched upon one near Kahului, and that an option has been taken. Rumor, which is neither confirmed nor denied by the cannery man says that the deal has been advanced far enough to permit of the final papers being forwarded to the mainland for the signature of the heads of the cannery syndicate. It is also asserted that half a million dollars will be expended on the plant which will be constructed on Maui, and that work will begin as soon as assurances can be had that there will be no hitch in the transportation of the machinery and building materials. It is also declared that arrangements are under way for chartering a vessel to bring down the heavy cannery machinery for installation in the Maui plant."
