CAN'T PLAY HOOKY ANY LONGER

REPRESENTATIVE JAEGER IS TO BE TOLD THAT HE MUST ATTEND THE SESSIONS OF THE HOUSE—HE CANNOT CLAIM THE PRIVILEGES OF A LEGISLATOR WITHOUT PERFORMING HIS DUTIES.

The House this morning decided to compel the attendance of Representative H. A. Jaeger, who has not appeared in his seat in the House this session and, after some discussion, during which Speaker Beckley made references to possible punishments for contempt, the clerk was ordered to notify Jaeger to attend tomorrow's session, with the understanding that if he failed to obey the summons more stringent measures should be taken. Jaeger, it is said, has his resignation ready, and will at once present it if the House attempts to compel him to attend.

The matter was brought up by Speaker Beckley immediately after roll call this morning. He mentioned the fact that Jaeger had not attended the session and said: "Representative Jaeger has claimed his prerogative as a legislator to refuse to obey a summons of a court in a criminal trial and at the same time has not attended this House during this session. If the members desire further time before acting, the clerk will address another letter to him directing him to appear. The chair is ready to issue a warrant to bring Mr. Jaeger before the bar of the House to show cause why he should not be punished for contempt for not appearing."

Kalama moved that the clerk write and Wright proposed sending the messenger. Chillingworth favored having the letter state a definite time at which Jaeger must appear and said that if the latter did not attend after such a notice, he would be ready to vote for more stringent action.

The House approved Chillingworth's suggestion and the Speaker ordered the clerk to notify Jaeger to attend tomorrow.

Jaeger, it is stated, will at once present his resignation.

TO HAVE VAST SISAL FARM

REPORTED THAT J. COERPER AND W. B. McWAYNE ARE PROMOTING SCHEME TO PLACE 100,000 ACRES KONA LAND UNDER SISAL CULTIVATION—PROJECT MEETING WITH FAVOR AMONG LAND OWNERS.

Reports of a large organization of various property interests along the Kona coast for the purpose of establishing a vast sisal farm, were brought this morning by the steamer W. G. Hall.

According to the report a number of property owners are considering the advisability of forming a hui to place 100,000 acres of land under sisal cultivation. The land in question is in the vicinity of Kailua. J. Coerper and W. M. McWayne are said to be the promoters of the scheme.

THE SPENDING OF MONEY

HOW PUBLIC FUNDS HAVE BEEN DISBURSED—HOUSE COMMITTEE ON PUBLIC EXPENDITURES MAKES AN EXHAUSTIVE REPORT IN WHICH SOME VERY SEVERE CRITICISMS AND PASSED.

The most exhaustive report of the present session was presented in the House this morning by the Committee on Public Expenditures, which has been making a thorough investigation of the expenditures of public money in all the departments. The committee found much to criticize, as well as commend, though in a majority of the departments there was little to call for comment. In concluding its report the committee says:

"Your Committee could go on almost interminably commenting upon minor extravagances in public expenditures.

"In our investigation, we have been confronted with what we deem to be a lack of sense of appreciation as to what is due the Government as well as ignorance on the part of its agents in purchasing material, supplies, vehicles, animals, etc., and effecting other liabilities.

"We believe the remedy for this condition to be the inauguration of a Purchasing Bureau under the Public Works Department, through which requisitions should pass from all departments of the Government as far as practicable.

"We are informed that a move in this direction has already been made by the Superintendent of Public Works whereby all purchasing of sub-bureaus in this Department passes through the hands of the Assistant Superintendent of Public Works. This is undoubtedly a meritorious move, but it does not go far enough. The Assistant Superintendent of Public Works has about all he can attend to when he properly performs the important duties pertaining to his immediate office.

"We feel convinced that such a bureau with a competent and honest man to run it, would effect a great saving to the Government.

"Your Committee would recommend that provision be made in the appropriation bills whereby heads of bureaus will be prevented from drawing out of current expense funds moneys to pay salaries. Nothing in this line should be drawn from these funds except for labor actually pertaining to the work for which appropriation was made. The past practice has enabled these bureau heads to make and unmake positions, lower or raise salaries, in fact, they have endowed themselves with legislative functions.

"In some cases current expenses appropriations carrying important permanent positions have run out before the end of the period, and hardship resulted. A case in point is the recent shutting down of pumping plants in this city. Had the Superintendent of Water Works asked for a proper segregation of regular pump employees in the Salary and Pay Roll Appropriation Bill, it would have been granted and that unfortunate incident would not have occurred."

The report of the committee states that the expenditures in every department have been carefully checked. Little comment is made on the Secretary's office, Judiciary department, Fire Claims Commission, Public Instruction department, Bureau of Agriculture and Forestry, Survey department, Board of Health, Band, Military and Audit departments, but there is considerable criticism of the public works office, Water Works office, Water Works department and Fire department. Permanent settlements to amount of \$12,750 were found to have been properly disbursed.

TO ADD ANOTHER BIG STEAMSHIP

ADVICES FROM HONGKONG ANNOUNCE THAT THE GERMANIC WILL BE SENT OUT BY WHITE STAR LINE COMPANY FOR THE OCCIDENTAL AND ORIENTAL COMPANY'S ORIENTAL ROUTE.

It will not be a very long time before some very big steamships, equal in size nearly to the Korea and Siberia, will be coming into this port. They will be on the Oriental run of the two rival lines. The Toyo Kisen Kaisha is to add two big liners to the San Francisco-Honolulu-Oriental run, just as soon as they can be turned out by the ship-builders and in addition to these boats, some larger vessels are to be sent out by the White Star line to go on the Occidental and Oriental S. S. Company's route.

There has been more or less talk on the subject of the White Star sending out, under lease to the Occidental and Oriental Company, some larger vessels than the trio now on the route, but nothing definite has, until the present time, been announced. Recent advices from Hongkong however tell of the coming of at least one large White Star boat.

The Hongkong Telegraph states that the White Star Company will send out the liner Germanic of 5,070 tons, while the new vessel is 5,070 tons, or nearly twice the tonnage of the other vessels. The Germanic is a vessel of well onto 10,000 tons gross tonnage, as the other figures are for a different system of measurement, figured on the cargo capacity of the boats.

The tonnage of the Germanic indicates that she is considerably larger than any of the O. and O. boats now on the line. The Coptic is only 2,744 tons and the Gaelic 2,690 tons, while the new vessel is 5,070 tons, or nearly twice the tonnage of the other vessels. The Germanic is a vessel of well onto 10,000 tons gross tonnage, as the other figures are for a different system of measurement, figured on the cargo capacity of the boats.

There will soon be something doing with the Toyo Kisen Kaisha line. W. H. Avery, the general agent of the company at San Francisco, is now en route on the Nippon Maru for Yokohama, to confer with the directors and managers of this line. This meeting is a general gathering of the heads of various departments of the company and is called in connection with putting the new liners into commission.

The officers of both the America Maru and Nippon Maru, the two vessels of the company to reach here within the last few days, were considerably interested in the approaching meeting of the heads of the line. The impression was that the meeting was one of the most important in the history of the company. Mr. Avery will be absent some weeks in Japan.

Senate's Expense Account

"The House vouchers will be made public when the Senate's expenses are published," said Speaker Beckley of the House recently. Below will be found a complete list of the Senate's session warrants. Since the Star published the House's list of expenses and distributions of public money among Home Rulers and grafters, the statement has been made that the Senate's ought to see the light of day, and here they are. The next question is, will the House's mysterious bundle of vouchers, which at last accounts was locked up in Beckley's desk, be any more accessible now than before?

In the Senate's list the odd "twenties" and "fifties" doled out for clerking are not so numerous as in those of the House. H. C. Birbe, Jr., has some dollar and a half and two or three dollar warrants in the upper house, to compare with the nice ones given him below. The warrants of others are less in the same way, for somehow or other the Senate didn't need as much translating, proof-reading, printing and typewriting as the House, though it did more work, ending its session with practically a clean calendar.

In the following list the only warrants omitted are for pay of members, salaries, etc., and some of the minor officials' salary warrants are included. The \$250 for A. S. Hartwell was for services as attorney for

Gentlemen: We thank you very kindly for your prompt attention in send-
ing one of your men to open our safe this morning. We also wish to congratu-
late you upon the quality of your burglar-proof safe, as the burglars who
entered our place must have worked all night and could not open the doors,
and left without accomplishing their purposes. When the detectives arrived
this morning to inspect the work, they claimed it was done by professional
crackmen and told us that if it had been a safe of any other make the bur-
glars would have got in by the way they worked on our safe. We thought we
would write you this good news as we consider ourselves fortunate. We will
send the door to your factory this afternoon and kindly see that it is repaired
and returned to us as speedily as possible. We remain,

Yours respectfully,

**SEA CAPTAINS
ARE VERY ANGRY**

SAY THAT QUARANTINE OFFICIALS REQUIRED S. C. ALLEN TO FUMIGATE SECOND TIME.

Captains of sailing vessels are severely criticizing the quarantine officials for requiring the bark S. C. Allen, to fumigate a second time. The vessel was fumigated last week, after she had discharged her cargo of general freight, as she was to go to Mahukona to load sugar for San Francisco. The vessel began loading 400 tons of coal after this fumigation, as she needed some ballast and the coal was required at Mahukona.

The quarantine regulations provide that vessels shall lay 6 feet away from non-rat proof wharves. In order to take on the coal, the Allen hauled alongside the wharf as the coal could not be conveniently handled when she was lying away from the wharf. As the result of this action, the vessel was required to fumigate a second time. The captains think that the action of the quarantine officials was unjust and unreasonable. They say that the sailing vessels are not treated fairly with the steamers. The Allen sails today for Mahukona.

The British ship Thomasina, MacLellan hauled over to the Railway Wharf No. 2 this morning and began discharging coal.

A great deal of criticism of the Public Works Department is being made on account of the condition of the coal wharf. It is claimed that the wharf is not safe. Certainly it is being patched and repatched to a degree unusual with any other wharf along the Water Front.

The ship Arthur Sewall will come into the harbor Saturday and be fumigated. She will begin loading sugar the first of next week, for Delaware Breakwater.

The bark R. P. Ritchet finished discharging her cargo today. She will fumigate and begin loading sugar for San Francisco.

The barkentine S. G. Wilder is to sail for San Francisco tomorrow morning with a full cargo of sugar. She will take a number of passengers.

The barkentine Kikikat sailed today for Port Townsend, in ballast.

The schooner Halcyone was to have sailed from Honolulu yesterday for San Francisco with a load of sugar.

The S. S. Artyll will sail tomorrow in the forenoon for San Francisco.

JAPANESE FOR MEXICO.

It is stated that the Kumamoto Emigration Company received an order for 500 working men from the Government of Mexico. The Japanese emigrants will be sent by a steamer of the China Commercial Steamship Company.—Hawaii Shippo.

GOES TO NUU THIS TRIP.

The steamer Claudine will go to Nuu this trip.

THE SAKE CASES.

Col. Fitch states that he has a cablegram from New York saying that the Solicitor of the Treasury and Messrs. Comstock & Crane, New York counsel for the Honolulu Importers of Sake, have joined in obtaining an order from the United States Board of General Appraisers in New York, deferring all action in the sake cases from Honolulu until the decision by the United States Circuit Court in New York, of a test case which has been made on a New York importation of sake.

AFRAID OF LAND-BUYERS.

Associated Press, Morning Service. SEOUL, May 25.—The Government has ordered the arrest of Koreans selling land to Russians or Chinese.

WANT AUSTRALIAN LAW.

It is said that efforts may be made to induce the Colonies to enact coasting laws between Australia and New Zealand, similar to those existing between the Mainland and the Hawaiian Islands. The purpose of doing this is to cut down the business of the Oceanic S. S. Line between Auckland and Sydney.

LIQUOR LICENSES.

Treasurer Kepolai with the approval of the Executive Council has issued the following liquor licenses: J. S. Canario, retail, at Hilo; J. R. Gaspar, wine, beer and malt, Mountain View, Oloa; Lovejoy & Co., Walluku. A beer license was issued yesterday to P. Silva for 1532 Liliha street.

BREMERTON'S MORALS.

Associated Press, Morning Service. WASHINGTON, May 25.—The repairs of warships at Bremerton have been discontinued owing to the unsatisfactory moral conditions there. Hereafter repairs will be made at Mare Island.

In January last the captain of the Oregon reported on Bremerton as follows:

The captain's report is of the same tenor of those already submitted to the department by other naval officers, but he has special features to add. He says that men on liberty were robbed and drugged and made drunk on the main streets of Bremerton on their way to the Seattle steamers, and it became necessary to forbid them to pass through the town. He had known of a man to be picked up insensible and moneyless on the streets near the navy yard gates within twenty minutes of the time he had passed out, clean and sober and with money in his pocket. In conclusion the captain says: "In forty years' experience at many seaports I have no hesitation in saying that for open robbery and organized pillage of bluejackets Bremerton surpasses all other towns I have ever known."

Then he adds this for Seattle: "I consider it due to Seattle to bear testimony to the care and protection extended by the police to visiting sailors in uniform."

**HACKFELD WHARF
IS PASSED**

HOUSE APPROVES APPROPRIATION TO PAY FOR THE WHARF—SALARIES DISCUSSED.

The House yesterday afternoon approved the appropriation for the Hackfeld wharf item, in committee of the whole. The vote was 19 to 7 in favor of placing the item in the bill. With this item disposed of there were only a few matters left in the unpaid bills act, and as these were in the hands of special committees, the committee of the whole rose and reported progress, and the House began work on Senate bill No. 2, the six months' salary bill.

There was a good deal of discussion about clerks, and Beckley objected to the employment of women in public offices. Kumalea objected to stenographers and wanted to cut down the number of clerks, in the office of the secretary.

In the Judiciary Department the old fight against Interpreter Chester Doyle was resumed. Some of the members wanted to cut his salary. The salary of the stenographers was cut from \$1200 to \$900 and the Chinese interpreter was cut to \$750. Hawaiian interpreters were left at \$1350. The question of the Japanese interpreter was not settled when the House adjourned.

DEGREES DISCOUNTED.

The highest court of Saxony has decided that the degree of certain American dental colleges cannot be recognized in Berlin, and has ordered some of the American dentists to remove the letters from after their names. The dentists will appeal the matter to the supreme court at Leipzig. The move was made through the instigation of the foreign office, which made a thorough investigation of some of our dental colleges.

BURNING THE VOUCHERS.

A queer story comes from Honolulu, with reference to the proposed intention of the lower house to burn its vouchers, and thus prevent the people from knowing how the public money has been spent. It seems almost incredible that such a thing could be true, and a legislature in the states which should do such a thing would be mobbed. For the sake of decency, the House should not do this thing, and if they do, those of them opposed to it should go on record, so that the guilty ones could be exposed to the shame of their own infamy.—Maui News.

LOOSENING UP.

There will be a general loosening up of cash in the various government departments; and this together with the money from the fire claims, a large portion of which will go into circulation, will have a very excellent effect upon the community at large. There is no doubt that the town has felt the depression seriously. The sudden cessation of all government work naturally threw a large number of the laboring class upon their own resources. There is a considerable population which depends entirely, or almost entirely upon the government work. When the government jobs come to a standstill, they come to a standstill, and the result is that they curtail their expenditures, and the small retailer suffers.

Beside the ordinary laborer, there is also the skilled mechanic. Many mechanics take contracts from the government, and give employment to other mechanics and to laborers as well. For some time past there has been nothing doing and these men have been willing to take anything that will give them work. All this is changed now.

The men who need work can get it. The various improvements upon roads and bridges which have come to a standstill will now be pushed along, and as soon as June 30 is past, the various departments will begin to branch out upon the new plans which the new appropriations will call for. Moreover the money from the fire claims will also go into building and improvements, in a considerable measure. There is a complaint that much of this money will go into the hands of those who have advanced money on the claims. What if it does? It will not be locked up in strong boxes or safes, it will be speedily reinvested, and reinvestment means the pushing on of commercial enterprises, whether the enterprises be carried on by Caucasians or Asiatics.

That there was no need of this long delay is perfectly true, and people, now that the emergency bill has passed both houses feel that they should not look a gift horse in the mouth and seek to palliate the conduct of the legislature. There is, however, no palliation. The emergency bill was deliberately held up by some members of the House not upon public grounds, but upon private grounds. The money is no gift, it is the people's money, and should have been put to useful purpose long ago. The emergency bill should have been passed last session, and should also the unpaid bills, but both failed to pass from probably the same reason. Therefore the days of leanness which came upon so many mechanics and other workmen, must be debited to the lower house which has so persistently kept shoving the matter to one side.

Many as are the things which are required, and the difficulty is to know where to begin. One thing, however, is certain, and that is that the most instant attention should be given to the harbor. There should be no let up upon this work until it is completed. It is steady work which tells. When the harbor is improved in one place, there will be promptly another place to work at. To this the Superintendent of Public Works will have to devote his most vigorous energies. That he is fully alive to the exigencies of the time has been evidenced by the fight he made to have the appropriation increased for the harbor improvement. As he very justly said at the time, to give only half what he asked for, was merely stopping the work not aiding it.

Now that the emergency bill is passed and the unpaid bills items practically out of the way, the House will have to go into the real appropriation bill, in part for six months and in part for eighteen months. There has been an unfortunate disposition to stuff the emergency act, which fortunately lapses on June 30, and therefore many of the unnecessary items will lapse on that date. But it is to be greatly feared that the same policy will make itself apparent in the six months and the eighteen month regular appropriation. It is a thousand pities that this is so, but the fact is there, and the results will be there also.

In course of time the sense of responsibility will be felt by the members, and an effort will be made to balance appropriations, with income. It would not be a very hazardous bet to make, that a large number of the members of the House have no idea of what the probable income of the Territory will be during the next two years and from what sources it will be derived. The amount to be spent is eagerly discussed, but one fails to notice any discussion as to ways and means. Indeed no single revenue measure has been proposed by any member of the legislature, and we have no watchdog of the treasury, like Uncle Joe Cannon. The watchdog's bark is so feeble as to be unheard in our legislative halls. However it is no good being pessimistic, let us be thankful that the emergency bill is passed, and let us hope for the best about other bills.

ANOTHER STORM CENTER.

There is a portion of Asia which is a possible center of future trouble that has not had much attention from the Western Press. This is Persia. Our eyes are fixed upon the Yalu mouth, where there is such concentration of both military and naval force by Russia. Then we glance over interior Manchuria and see the mass of threatening troops in and around Mukden, ready to burst upon Peking when the psychological moment has arrived, and the rest of the world is asleep. Lastly the Balkan peninsula is being carefully watched, the Balkan peninsula where petty kingdoms and principalities are played like pieces on a chess board, ostensibly to check the Sultan, but really to beat the many minds and interests behind him.

But when a broad view of the "Eastern question," that ever constant source of irritation to Europe, is taken, the position of Persia has to be considered. From a world power, which shook the European world for centuries, till the early Caliphs broke its sway, Persia has gradually and steadily sunk into insignificance, until paraphrasing Metternich's celebrated expression about Italy "the independence of Persia has become a phrase."

According to reports from Minister Griscom to the Secretary of State, Russian officers have been training the Persian army and an agreement has been made between Persia and Russia under which no railroads can be constructed in Persia except by Russians or the Russian Government for a period of ten years. As against this one must put the statement of Lord Lansdowne, the British Foreign Secretary. Lord Lansdowne has said in the House of Lords that so far as the Persian gulf was concerned Great Britain held a position different from that of the other powers, but because it was owing to British enterprise and expenditure of life and money that the gulf was now open to the commerce of the world, and because the protection of the sea route to India necessitated British predominance in the gulf. His exact words were: "I declare without hesitation that we should regard the establishment of a naval base or a fortified port in the Persian gulf by any other power as a very grave menace to British interests, and we should certainly resist it with all the means at our disposal." This is very definite language and shows that the Persian question is a very live one in the minds of the British cabinet.

It is six hundred years and more since an English king sailed the Mediterranean. The last English sovereign before King Edward VII whose keels furrowed the "tideless sea" was Richard I. commonly known as Coeur de Lion. He went on his way to the crusade. He was married in Sicily to the beautiful Berengaria, and for an

quite peaceably where his crusading predecessor cracked skulls, climbed walls and bellowed his battle cry. Richard was taken prisoner on his return. Edward, instead, captured the hearts of thousands of people by his urbanity and tact.

The cutting off of the water seems less necessary than ever in view of the fact that the emergency bill was passed on Saturday. It showed very little knowledge on the part of the executive as to what the legislative branch was going to do. The bluff did not injure the city very much, but it caused more friction than had been known for many a long day.

It is well that S. C. Allen was spared the knowledge that his adopted son had actually landed in the penitentiary, though the aged merchant must have known that the case was very strong. It is an irony of fate that the young man should be doing time, while the estate of \$2,000,000 to a large part of which he once was heir, is now being administered for the benefit of others.

The leper question in the Philippines must be a very serious one. No less than 30,000 Chinese and Filipinos are said to be infected with the disease, which is now reported to have made its appearance among our soldiers. As there is no effort at segregation the disease continues to increase, and threatens to become one of the most serious of the many serious problems in the islands. In most Asiatic countries lepers are segregated upon a principle of ostracism. Once a person is a leper he is at once cut off from the community and compelled to live apart. The people of the Philippines, however, have not reached that stage of self preservation, and they and those who have to live among them are exposed to very great and continued risk.

One hundred and thirteen suits upon the introduction of Koreans as laborers is probably the record. The fines if the cases are carried to a successful issue will amount to \$113,000. Mr. Sargent, who knew about the introduction of the Koreans, did not see the necessity of bringing any suits. The United States District Attorney brought no suits. Therefore from a government point of view there was no necessity to attempt to punish the introducers of

Latest Books

A short time ago an article appeared in the "Argonaut," being a special and reporting an interview with Booth Tarkington in which the gifted author informed the newspaper man of the status of the great strike started by the authors and poets. At last accounts an agreement was expected between the publishers and the striking writers. This stroke, which threatened the literary world, has now been adjusted, we are informed, and the first book to be published is now in wide circulation. The plot hovers over the home life of a happy pair. The usual trials arise. While the plot is quite after the ordinary story is well written and one scene in particular is very interesting. It deals with a wordy war over the installing of a Douglas Patent Closet. Published by Bath the Plumber.

THE GALLEY SLAVE.

Elleford's Draw Crowded Houses For Last Week.

The Elleford's gave an excellent performance of the Galley Slave at the Orpheum last evening, the play being staged and played throughout in most creditable fashion. Some special scenic effects were vigorously applauded. As usual the actors performed their roles in earnest and artistic fashion, leading up to the strong climax of the piece in a manner that won hearty applause. Jessie Norton played the part of Francesca most effectively, being well backed up by the remainder of the company. The bill will be repeated tonight.

There will be two performances tomorrow, one in the afternoon when the Celebrated Case will be given as a benefit performance for the Home for Consumptive Actors, and a reception held upon the stage after the play, and a second production in the evening when Man's Enemy is the bill. This is the last week of the Elleford engagement and opened most auspiciously last night with a crowded house.

YACHT RACES.

There will be races under the auspices of the Hawaii Yacht Club on Saturday, Decoration Day. The races will be sailed over what is known as the "Ocean Course" consisting of the same track as used on Regatta Day last.

The race includes all the four classes of the club's craft and cups will be given to the winners. The boats are to start at three in the afternoon from a line opposite the harbor lighthouse. Thence they will sail out past the channel buoys to a stake boat off Castle's residence at Waikiki, thence to a stake boat off Kalia Channel and return to the lighthouse. The course will be sailed over twice.

TOM JAMES QUILTS THE MOANA

THE SPENDING OF MONEY

(Continued from page one.)

The Judiciary expenditures were \$132,056.83, the report says, and this sum is not sufficient for the next period.

The Public Instruction expenditure of \$563,106.50, of which \$443,268.35 went for teachers, was found to be correct. The committee recommends that the building of school houses for this department be turned over to the Public Works department.

The Land department spent \$24,210.76 and the Agricultural bureau \$22,184.31. In the latter department fifteen Asiatics are employed at \$18 per month, and the committee recommends that the pay be raised and citizens employed.

In considering the Board of Health's expenditures the committee reports that an excessive price is said for poi, and recommends that every effort be made to encourage the two patches at the settlement.

The Band, Military and Audit department appropriations' expenditures were checked and found correct, though in the Audit department the committee finds that salaries paid to employees are not equitably divided according to services performed, and the report recommends that the House readjust the scale, making it two clerks at \$150, one at \$100, one at \$75 and one at \$50. Regarding Fire department expenses of \$47,770, the committee says:

"Of the Current Expense Fund, \$17,010.72 was expended. In checking this, your Committee found that \$60 per month was being paid to W. L. Frazee, Superintendent of Honolulu Electric Lights, for services in maintaining Fire Alarms System. He was also paid \$150 per month as Superintendent of Electric Lights, and could not therefore legally draw the extra \$60. Upon calling the attention of the Superintendent of Public Works and the Auditor thereto payment was stopped forthwith. The actual work of maintaining the alarm systems has been performed by Mr. Reeves who has been paid out of Police Department funds, Mr. Frazee having general supervision of same. An item of \$25 for literary work, should not in our opinion have been allowed by the Commissioners of the Department.

HILO MUST PAY THE FREIGHT

SENATE DECLINES THIS MORNING TO APPROPRIATE MONEY TO DEFRAY EXPENSE OF BAND.

There was a very short session of the Senate this morning. A petition from Judge J. W. Kalua to be paid \$1,500 on account of the alleged violation of the palat contract with Judge Kalua by the Board of Health, was presented by Senator J. T. Brown. The petition was referred to the Public Expenditures committee.

Senator Dickey reported on the petition from residents of Hilo asking that money be appropriated to defray the expenses of the Territorial Band in visiting that place July 4. Senator Dickey reported that the current expenses bill had passed and that the item could not therefore be inserted. The only way to pass such an item would be to enact a separate bill covering it. The report did not consider the nature of the item to be of sufficient importance to warrant any such special bill being drafted. The report was adopted.

Two communications were received from the House. One was the announcement that the Senate Bill appropriating money to defray the expenses of the extra session, had passed third reading. This bill went to the Governor yesterday. The other communication was House Bill No. 4 appropriating money to pay the unpaid bills of the last session. The bill was passed first reading by the Senate. An adjournment until tomorrow morning at 10 o'clock was then taken.

TRAVIS IN SHANGHAI.

The Manila Sunday Sun of April 19 has the following:

Joseph L. Travis, a former Manila newspaperman, is now manager of the Shanghai Daily Press. Mr. Travis, with his customary, and it must be confessed, commendable, enterprise is reaching after Manila advertising. In a letter sent to the manager of a Manila hotel, he calls attention to a proposed "Mail, Steamship and Passenger Supplement" which his paper proposes to issue. Mr. Travis says:

"Strange to say, the majority of people who travel in the Far East avoid Manila, simply because they are told that there is not a decent hotel there, that the place is unhealthy, and that there are no amusements there, and that people living here and in Japan think that these things are true."

Continuing, Mr. Travis calls attention to "our style of ad. setting, which, you must admit, is superior to anything down your way."

Mr. Travis further says: "The Manila colony in Shanghai is increasing daily, so I expect we will be forming a society here by and by. Charles Bond presides over this paper and Volcano Marshall and Sam Trissel are running the Times for a wealthy American syndicate, with 'Dad' Campbell as an understudy."

It is too bad that Manila should have such a bad name in Shanghai and Japan, and it is further to be deplored that "people who travel in the Far East avoid" us. We haven't really noticed it before, don't you know. It has seemed to us that Manila is rather a popular port of call. I have personally noticed quite a number of strange appearing creatures about Manila hotel quarters after the arrival of foreign vessels, and have been informed that those with veils hanging down the backs of their bonnets were Australians. The males of this species affect baggy trousers and roomy coats, and seem intent upon shapeless hats. Mr. Travis must be mistaken in so far as these tourists are concerned at least. And as for amusements, there isn't a town in the Orient that is more amus-

ing to live in. Where can so much farce-comedy with occasional bits of tragedy be found? Echo answers certainly not in Shanghai.

"Joe" Travis, "Sam" Trissel, "Vai-cano" Marshall, and "Dad" Campbell are undoubtedly losses to this community. And there are others in Shanghai. But fate has deprived us of them, and in the meantime we shall endeavor to scrub along as best we can, knowing that there is always the chance to advertise in the "Mail, Steamship and Passenger Supplement" of the Shanghai Press and thus remedy all our evils, and recoup all our losses.

THE STATUE TO ZOLA

PARIS, May 15.—The statue to the memory of the late Emile Zola, when completed, will represent him standing in an attitude of vehement controversy. A symbolic figure of Truth is pointing out his path. This is believed to be suggestive of Zola's course in the Dreyfus affair.

WASHINGTON, May 15.—The Navy Department has finally accepted the torpedo boat destroyer Paul Jones, built by the Union Iron Works, and now at the Mare Island Navy Yard.

WISCONSIN TO SAIL THURSDAY. The battleship Wisconsin will be ready for sea Thursday morning. She will probably get away in the morning for Yokohama. She will be open to inspection tomorrow afternoon between the hours of 1 to 5 o'clock.

A CONTENTED WOMAN.

Aside from form or features, she has an attractiveness all her own. The bloom on her cheek, the elasticity in her step, the ring of her voice, her enjoyment of life—all these are magnets which draw others to her side. Wonderful and valuable as it is, health is not so difficult a thing to obtain as some discouraged ones think. Most of the troubles of women arise from impure blood, impaired nutrition, low vitality and general debility. Modern science furnishes the most successful of remedies for these conditions, namely WAMPOLE'S PREPARATION.

It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. Taken before meals it improves the appetite, makes fat, restores vitality, enriches the blood and cures those weaknesses peculiar to the sex, which are the seat of their troubles. It is a blessing to Tired Wives, Nursing Mothers and Girls growing into womanhood. It colours the pale faces and rounds out the hollow chests. In a word, it nourishes and develops the entire body, and brings happy surprises to feeble, hopeless and discouraged sufferers. Dr. E. J. Boyes says: "I have found it a preparation of great merit. In a recent case a patient gained nearly twenty pounds in two months' treatment, in which it was the principal remedial agent." It is the typical medicinal success of our age, for time has proved our claims are supported by results, and a remedy which acts in harmony with nature's own efforts and processes. No demand has been made upon it for relief and cure, that has not met with instant response. Effective from the first dose. "You cannot be disappointed in it." At chemists.

Weak Nerves

Are you ever nervous? Do you lie
awake nights, suffer from despondency,
and often feel discouraged? It's a terri-
ble life to lead. Don't suffer in this
way any more. Get strong and well.

Follow the advice of Mrs. Thomas Fritchard,
of Adelaide, South Australia. She sends us
her photograph and says:
"I had a terrible illness which left my
nerves all unstrung. I had severe headaches,
indigestion, sleeplessness, and my nerves
were just as weak as they could be. I then
tried Ayer's Sarsaparilla and I began to im-
prove at once. My appetite returned, my
digestion improved, and my nerves became
strong and steady."

AYER'S Sarsaparilla

There are many imitations "Sarsaparillas."
Be sure you get Ayer's.

Use Ayer's Pills with the Sarsaparilla.
These are purely vegetable pills. They cure

on Narragansett bay today. The new
boat gained the credit of being the fast-
est submarine torpedo boat thus far
tried. The surface of the bay was per-
fectly smooth, making conditions satis-
factory for the run.

The course was between Despair and
Rose islands, and on the run to the
former island the Moccasin under four
cylinders exceeded the speed contract
of eight knots. After a series of speed
runs on the surface the tanks were
filled and the Moccasin disappeared and
ran from Despair island to Rose Island
under her motor for the endurance test,
after which she made two short dives
of three minutes' duration each.

A KENTUCKY FEUD.

Associated Press. Morning Service.
JACKSON, Ky., May 25.—Curtis Jett
and Tom White have been indicted for
the murder of Marcum. The town is
full of troops.

James Marcum, one of the most prom-
inent attorneys of Kentucky, was as-
sassinated on May 4. He was the coun-
sel of the Fusionist party which was
contesting for the offices of sheriff and
other places now held by the Demo-
crats. He was a member of the party
of James Cockrell, the town marshal
who was killed last July in front of
Jackson courthouse and since that
murder has been regarded as a "mark-
ed" man. When entering the cour-
thouse to file some papers he found that
the corridors were filled with his op-
ponents but he stood talking with a
friend when two shots from the crowd
laid him low. Jett and White were
members of the Hargis faction which
has been opposing Marcum.

Marcum was a trustee of the Ken-
tucky State College and represented the
Lexington and Eastern Railroad and
other large corporations, and was also
United States Commissioner from his
district. He had practiced law in
Breathitt County for fifteen years. He
had avoided feuds and until he took
charge of the election cases, which in-
volved the Hargis faction, had been a
friend of members of both factions.
For three months, beginning last July,
he did not leave his home, and after
four months was always accompanied
by his wife and women friends or car-
ried one of his children with him for
protection.

A WIRELESS TELEPHONE

INVENTOR AND HIS FRIENDS TRY INTERESTING EXPERIMENT BETWEEN FERRY BOATS.

NEW YORK, May 8.—The Journal says: By wireless telephone today a conversation was carried on between two ferry-boats going in opposite directions on the North river. The voices were heard distinctly, and the sound did not have that metallic twang so annoying in the ordinary telephone. Noted scientists who accompanied Professor A. F. Collins, the inventor, declare that his idea is practicable, and that, when perfected, the wireless telephone will prevent collisions in fog and be of great value to harbor and shipping interests.

The injunction was granted on petition of the Kaploani estate, which alleged that the defendants were taking its property for street widening.

PUBLIC WORKS.
Those Under the Six Months Bill Will Be Completed.

In the Senate yesterday when the work of fixing the amounts of the several items had been completed, Senator Dickey moved an amendment to Section 3 of the bill so as to provide that public works begun under appropriations of this act which are uncompleted December 31, 1933 shall be completed under the direction of the Board of Public Institutions or the Superintendent of Public Works. Achi thought these works ought to be completed by the counties, but the rest of the Senate agreed with Dickey and after some changes so as to make the whole bill consistent, the amendment carried. After January 1, when the road boards are wiped out by the County bill, the Supervisors are to approve vouchers for road work.

The bill as finally amended passed by a vote of fourteen ayes, and no nays, Senator Cecil Brown being absent. Senator Paris moved a reconsideration of the vote by which the House bill No. 1 appropriating \$13,000 for the House for the return of the bill intending to seek to amend it by inserting the senate expense bill in it, so that the House could not hold up one as it had threatened to do, without holding up the other. But he afterwards withdrew his motion on learning that the house had passed the senate bill.

A petition was received from citizens of Hilo asking for an appropriation for the expenses of the band to Hilo for the Fourth of July festivities there. It was referred to the Miscellaneous Committee. The Senate then adjourned until 10 o'clock this morning.

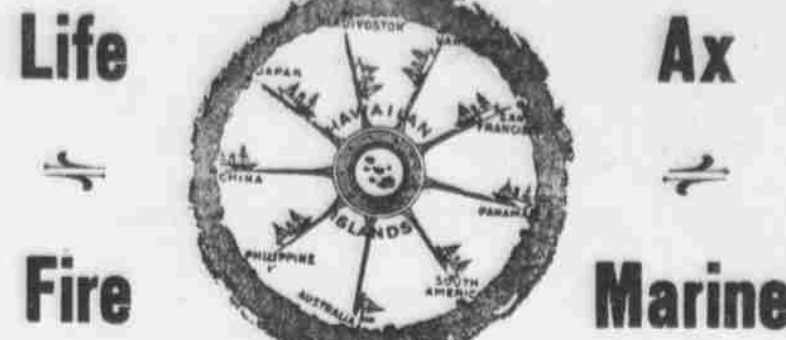

THE WILY NATIVE.

PAIA, May 23.—Yesterday a Hawaiian named William Punial of Omaopio, Kula, was tried by Judge Copp of Makawao and fined \$100 and costs of court for the larceny of a horse.

Some months ago a Makawao Japanese named Kitcher lost a horse and offered \$5 reward for its recovery. Several weeks since a friend of Kitcher, seeing an animal on the premises of William Punial of Kula, took possession telling the people there, Punial being absent at the time, that the Hawaiian should as soon as possible come to Haleakala ranch, the home of Kitcher, and explain matters.

Two days later Punial put in an appearance with a paper in the Japanese language stating that a certain Horibe (of Punene) had given him the horse to break in so that it could be ridden with a back cinch and had advanced him (Punial) one dollar on account and on the 21st of April would pay him another dollar providing the horse on that date would tolerate a back cinch. The Deputy Sheriff believed the Hawaiian's version of the affair and upon the 27th of April sent a policeman in company with Punial to Punene to deliver the horse and arrest the thief. Approaching a cane field at Punene, Punial leaving the policeman at the road, entered the cane field and bargained with an unintelligent looking Jap, to buy the horse for a dollar.

AT 12 O'CLOCK NOON.

At my salesrooms, 42 Queen street, Honolulu, I will sell at Public Auction, by order of Miss M. A. Burbank, those most desirable premises on Wyllie street, Honolulu, formerly occupied by Mrs. M. L. Hoffman, as a residence.

The lot has a frontage of 234 feet on Wyllie street, and a depth of 297 feet with an area of over two acres, and lies between the homestead premises of Mrs. J. T. Waterhouse and the stream.

The buildings on the premises consist of a good one-story cottage of seven rooms, and outhouses, and all in suitable condition for immediate occupation.

The grounds are proved with many fruit trees, ornamental trees and plants, the view of mountains and sea is very fine and the drainage excellent, and there is a fine spring of pure water on the place.

The Liliha street line of electric cars run within 100 feet of the premises. The terms of sale will be all cash; or, one-third cash and the remaining two-thirds on two notes for equal amounts payable in two and four years respectively, secured by mortgage on the premises, with interest at the rate of six per cent per annum, payable semi-annually, with privilege of paying sooner.

An unusual opportunity is thus offered for obtaining a beautiful home upon most advantageous terms. For further particulars inquire of W. O. Smith, Judd Building.

THE JUROR WAS CALLED A LIAR

MURPHY CASE JURY WARNED
AND QUINN COMPLAINS OF INSULT FROM BAILIFF.

While the members of the House were discussing cutting down the salary of the Japanese interpreter of the circuit court yesterday, the Murphy murder trial was furnishing some examples of the importance of the position. Several Japanese witnesses were called yesterday and today as well, and their testimony was of much importance. Interpreter Chester Doyle gave the questions and answers with a readiness that showed his command of the language, and the trial went on much more rapidly, and with more accurate interpretations. It is stated, than have been the rule in the past.

The case began this morning with an admonition to the jury from Judge Robinson, to which Juror Quinn responded with an angry protest against George Sea, the bailiff in charge of the jury. The court said that two of the jurors had been reported as having left the others, and cautioned all to obey the orders of the court to keep together.

"I was one of the two," said Quinn, "and I was with Mr. Girdler. We went into the dining room of the hotel this morning ahead of the rest, thinking the other jurors were following behind. They didn't and so we were alone for a couple of minutes. There was no one else in the room. Bailiff Sea came in and I told him how we happened to be apart from the others and he said 'You lie,' and charged that we were leaving the rest, and I don't propose to be called a liar by any bailiff."

Judge Robinson gave some more warning, telling the jurors that any misconduct on their part would necessitate a new trial, and then the taking of testimony was resumed. The case will probably go to the jury tomorrow.

POUNDS OF FLESH.

A St. Louis woman has just been given a verdict that would have made Shylock's lost jewels seem like real rhinestones to him. She was injured in a street car accident, which caused her to lose 20 pounds of flesh, and was awarded \$200 a pound damages.

FAVORITE CONCERT HALL.

The Favorite Concert Hall, corner Hotel and Bethel streets, is a popular meeting place and, is well patronized every night. The hall is cool and has been made very attractive. Concerts by the Hawaiian Quintette Club are given three times each week—on Tuesdays, Thursdays and Saturdays. While listening to the music, patrons can enjoy sandwiches and be supplied with either Primo or Rainer Beer. The concert hall seems to fill a long-felt want. Everything is very orderly and no disagreeable characters are allowed entrance.
