WARE COMPANY.

307 Fort street.

DECEMBER 7, 1805. It is a good rule to steer clear of three fourths of the "just as good" articles which a shop keeper will try and sell you but like all other rules it has an exception. We've got one of the exceptions in our temporary quarters on Fort Street.

If you have been in the store since Monday last you noticed

the goods, that's what you came for, and you probably bought something, that's what you made up your mind not to do when you left home. The exception to the rule is what won you over. It would win any one; the student of two or three years ago is the connoisseur of today and he says our entire establishment is an exception to the rule which governs such lines of business in

exception to the rule which governs such lines of business in Honolulu And why?

Because the goods have been personally selected, culled from the best marts of Europe and the United States. Where else in Honolulu will you find such an assortment of genuine cut glass as we show? And Dordingers at that. Everyone has the government of the big Republic is relentless. Deputy marshals have for many years have been staking their lives against the illicit stilling business in the mountains of the south and the infraction of the revenue laws will be followed the same in the sugar beet sections.

The visit of the Alameda today again forces recollection of them is sing master, Capt. H. G. Morse. The ship's name and that of the retrieval "skipper" will always be associated. Capt. Morse is now what the sugar base is now and the sugar beet sections.

Exception to the rule which governs such lines of business in Honolulu And why?

Because the goods have been personally selected, culled from the best marts of Europe and the United States. Where else in Honolulu will you find such an assortment of genuine cut glass as we show? And Dordingers at that. Everyone base in Honolulu will you find such an assortment of genuine cut glass as we show? And Dordingers at that. # The

is a Perfect Filter.

The filtering blocks used in this filters are made from the Natural Tripoli Stone, quarried from the mines and turned on special machinery made for the

This stone is the only Perfect Filtering Medium Known. Impurities never penetrate the surface. Its pores are so constructed by Nature, that, while allowing the water to percolate rapidly through them, all Germs, Microbes and impurities of every description remain on the surface, from which they can be easily washed, the stone remaining white and pure.
We GUARANTEE the inside of the "SUCCESS"

blocks to be found as pure and clean after years of con-stant use in the foulest water as it was the day it was made.

The Pasteur Germ Proof Filter Co. have adopted Tripoli Stone, also the Dolton Filter Co. of Europe, who are the well-known originators of the filter business in Europe. We claim this sufficient proof of the superiority of our Tripoli Stone as a Germ Proof Filter.

We have two kinds of the "SUCCESS;" The Pressure Filter which is to be attached to the water pipe, and the Gravity Filters, which work without any pressure of water.

### There are Two Principles Involved in the Use of this Filter:

First. Filtration-i. e., the removal of all insoluble matter from the water, rendering it clean and bright. In this the filter is practically perfect.

SECOND. Aeration-i. e., allowing the air to be brought into direct contact with the filtered water, as it will be observed there are no air-escapes, such as all other filters have. The compressed air in the water pipes is filtered through the stone with the water. This operation tends to oxidize and aerate the filtered water, giving new life and vigor to it. In all other filters, scientists agree that filtered water has a flat taste to it. Not so in this one. For these reasons, together with the perfect lock joint and easy method of cleaning and taking apart, and simplicity of construction, these Filters are recommended for use in every house-hold; they have proved a great SUCCESS in Europe and the United States where they are being sold in great numbers.

This lot which came in the "Aloha" is the first ever introduced here, and we ask all our friends to come and see the most perfect Filter now in use.

### The Source of Administration.

Here is the Administration Building. Beneath its lofty dome was the mainspring of the great Columbian Fair. Better work was never done than in its graceful structure. Every day witnessed within its walls a victory of mind over matter. Steadfast and intelligent endeavor, sustaining a perfect system, wrought out a magical triumph. The Administration Building might fitly be called the keystone in the Exposition arch.

Under the direction of these incomparable administrators the highest honors at the Fair were awarded to

Dr. Price's Cream Baking Powder Superiority in leavening strength, perfect purity in make-up, and entire wholesomeness in effects, were the qualities on which the award was based. The award at Chicago has since been appropriately confirmed and justified by bestowal on Dr. Price's of the highest award and gold

medal at the California Midwinter Fair. LEWIS & CO., Agents, Honolulu, H. I.

somably handsome gown. The great m
parity of women who go to the theate
was quiet costumes, most often of son
dark worden stuff. These are concede right my attention was called to a los moire, with a fancy blonse waist of fawn taffeta. This is a new and very happy combination of color. There were loose kinfe plaits down each side of a wide box plait. This was edged with a fine knife plaiting of the same. The

med in the back with the same kind was of frosty blue satin duchess.

was of frosty blue satin duchess. The demitrained skirt was untrimmed, but superb in its own richness. The coreage was slightly pointed in front and laid a bertha in folds of crepe liess which crossed the best in Marie Antoinette style and left but a small V opening. The sleeves were of the satin duchess puffed to the chow. There was a beau-ifed little care of white and tale blue tiful little cape of white and pale blue brocade. Around it there were two rows of rose plaited mazarin blue satin rib-bons. At the shoulders were the revers of corded silk of the same shade of dark lue, and these were bordered with the rose plaiting, as were several star points of the dark silk around the neck. The neck itself had a very wide and full rose plaiting of satin ribbon with a ed edge to match the other.

Garden yesterday that quite took away my breath. The body of the cape was of black velvet. Around the shoulders there

be safer. A few days ago a prominent gen-tleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it dome at once, no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."
This, is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want. We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers.

P. & B. Paints & Compounds

Roofing, Pile Covering and Building Papers,

FOR SALE BY

WM. G. IRWIN & Co.

The building papers are 1, 2, 3, and 4 ply. They come in rolls, each roll contaming 1000 square feet. They are water proof, acid and sikali proof and vermin proof. A house lined with building paper is far cooler than one that is not. There is also a cheaper grade of paper adapted for use under matting keeping out insects.

Hosolulu, July 29th, 1895, MESSRS. W. G. IRWIN & Co., LTD. GENTLEMEN:-In reply to your is quiry as to how the Ideal Roof Paint you sold me lasted; I would say that painted the roof of my house 12 month ago with your Red Ideal Roof Pain and I find it is as fresh and bright in ap earance today as when first applied; looking as well as others lately painted with other paints. I am more tha

J. G. ROTHWELL.

Have you a leaky gutter? If you have, make it perfectly clean and dry, apply a good coat of No. 3 P. and B. Paint over the leaky spots; then take a piece of stout Manila paper, or a piece of common cotton cloth, paint it well on both sides; lay it over the first coat, giving the whole a final coat, and there will be no more leak there. Or if the whole gutter is bad, make it clean and Jry, and apply a paste of P. & B, Paint and Portland Cement,

THEATER AND EVENING GOWN

LINCOLN BLOCK, KING STREET coats are modifications of the Louis XVI, and some are double breasted reefers, short and having two or at most four buttons. These, however, represent the amount of pearl that a season ago would have made a baker's dozon. This material Groceries and Provisions Fresh Goods received by every Stear from San Francisco. little boys or used to cover the family lonnge. Gray, tan, prune brown and fawn are the colors most often used. saw one neat and fine suit of this. There was a skirt, a snug basque, with two funny little postilions and a tight red ingote for the suit. Around the botton there was a two inch band of rascorder, and this was also used to trim col lat, cuffs, revers and pocket lids. The redingote did not reach to the bottom The color was fawn. A friend of min is now having a full costume of this material made in the same style, but in the dark prune.

placed upon skirts, still there are some with novel and often rich garniture. One of the most tasteful fancies in this was to have three inch wide ruffles of as

Real Estate' Stocks, Bonds. General Merchandise, MILLINERY PANCIES colors matched those in the dark wool clan plaid. Others have fan inset gores of a color and material different from Pacific Brass Foundry the stuff in the gown. Some, and particularly the tailor gowns, have straps and flat smoke pearl buttons. A few fine cloth gowns have six or seven rows STEAM AND GALVANIZED PIPE, EL BOWS, T-WAYS GLOBE-VALVES of very narrow soutache braid, and this may be of wool or of gold or silver. Then there are quite a number of skirts with light or heavy designs worked over them in narrow braid, interspersed with

taste. The wide belts and fancy buckles are also "in for a run," and, worst of all, the stout women are the most anxious to wear them.

I scarcely know what to say about hats and bonnets or where to begin, there are so many ideas wrought into them. There is no one prevailing style, unless one might say that the empire plumes make one, as they are seen everywhere and upon everything. The broche satin ribbons are very much admired, and are quite new. They are mostly in rather dull colorings. There are stripped taffeatas, and these are bound with velvet—in one instance with seal-skin—and loosely gathered around the crowns of the "pork pie" hats. There is no end to the jet devices.

The new gloves for winter are made of degakin and have heavy clasps. They are lined with fleece, far or that soft velvety stuff used in men's overcoat pockets. All gloves are worn now a couple of sizes larger than they used to be, and it is rather a mark of the aristocrat to have one's gloves wrinkle on the knockles. LEWERS & COOKE, LUMBER, BUILDERS' HARDWARE CCRRUGATED IRON,

to have one's gloves wrinkle on th knuckles. Henriette Rousseau.
