TO SAVE KULA FORESTS

FORESTER HAUGHS RETURNS FROM TOUR OF INSPECTION.

Fencing and Bird Culture Suggested Remedies—Trees Very Unhealthy. Cattle and Insects Responsible.

The forest district of Kula, Maui on the slopes of Haleakala is in danger of rapid denudation unless measures are promptly taken up both by the Government and private individuals for the protection and encouragement of the timber.

Forester Haughs, who returned on the Claudine on Sunday from Maui, where he had been to look into the matter; reports that he saw hardly a healthy tree in the district, owing to the depredations of the cattle and the boring insects.

"There are," said Haughs this morning, "several places upon which the leases have nearly run out and it would be profitable for the Government to secure these and fence them. The whole belt from the higher boundaries of the corn plantations to the timber line should be fenced and it would be profitable for the ranchers to themselves fence the upper part of their plantations at their own expense."

The timber line on the mountains has now according to Forester Haughs crept down to 5,000, the upper slopes being completely denuded; while in places the corn has been planted up to 3,000 feet.

"The matter of fencing in the land is of course made more expensive at present from the fact that where the land is leased continuous fence would be continually broken up. In one place however there is a strip where six or seven miles of continuous fencing could be used to advantage, such fencing costing approximately \$100 a mile.

In this neighborhood people who have no pasture are in the habit of turning their herds of from three to four hundred head of cattle into the forest to browse. It is Mr. Haughs's recommendation that the proposed fencing be carried out, the owners of the adjoining property paying for one half of the expense of the boundary line.

The trees are greatly molested by borers, woodpeckers and other enemies of native birds, and are being slowly wiped out of existence. The bird who thus champions the forest is peculiar to Hawaii and in some species peculiar to the different islands.

It is about the size of a woodpecker and has a back of which the upper half is considerably lower than the lower. Between the two he bears a long prehensile tongue, with which he draws the insects from their holes while clinging onto the bark with the bill. These birds are very active in destroying the borers and are thus practically immune from infestation. There are also many imported borers, common all over the world, who do not hesitate to attack a healthy tree, starting to work on the buds with the result that the buds in the Kula forests are noticeably fewer nowadays.

Naturalist H. C. Perkins of the Bishop Museum considers that the problem would be greatly simplified by the transplanting of the birds from the different islands and the establishing of a close time from October to the middle of February. A measure to effect this was drawn up by Mr. Perkins but failed to become a law.

Some of the old bird snarers who were so famous for their skill in old Hawaii are still available and might be used for the purpose of catching the birds in the different islands and whence they could be transported as suggested. Mr. Perkins states that the necessity of keeping the birds in their various island habitats is now superfluous from a scientific point of view as all the specimens necessary to determine the original location of the various species have been already secured.

Mr. Perkins stated that the Kula forests have for some time been in a bad condition, being noticeably thin ten years ago. He quoted the forest at Waialeale as an example, where prompt action in fencing restored the rapidly decreasing trees to a dense forest in the course of a year or two.

The Kula trees are principally koa and ohia and the planting of new trees such as various species of acacia is proposed by Forester Haughs.

FILIPINO SCHOOL DAYS

HONOLULU "SCHOOL MA'AM" IN THE PHILIPPINES.

Insurrectos Still Lively Near Manila. Roaches and Ants Break the Monotony—Unusual School Hours.

The following extracts from a letter written by Miss Lina Mossman, for some time a school teacher in Honolulu and who left some time ago for the Philippines, where she is now teaching; are of a "school marm" among the Filipinos.

"Miss Mossman writes from Balayan, Bantagan; dated the letter August 10, as follows: 'I came down here on the ship of July being sent here by the Government to organize a girls school. I am the only white woman here and the second only that has ever lived here. I am under the military as this province was withdrawn from civil government and resumed military rule on account of the still pending insurrection.'

"The military, have been exceedingly good to me and I am indebted to them for everything. I am living in a large house, the property of the military, all by myself and have a muckacho and a muckacha to help me. The girl does my washing and the boy looks after my meals and pushes the boy with kerosene, a very necessary precaution on account of the many bugs which thrive in these islands. The roaches and ants are really 'ferocious.' They attack you in bed and think nothing of eating up your clothes. I have mine strung on wire all round my room, so that it has somewhat the appearance of a pynshop. There are innumerable insects of other varieties most of them winged. There are also some snakes. One large one caught a good sized chicken in the street the other day and succeeded in killing it before anyone could interfere.

"Before arrangements were settled I had my meals with the officers at headquarters for a short while but now I have them sent from the hospital. They are as good as one could expect but I feel as if I should never care to see eggs, bacon or chickens again. Eggs and chicken are very plentiful and very cheap. We seldom see fresh meat and ice is an 'unknown quantity.' Sometimes we get no mail from Manila for eight days and then get one every day for four days running.

"My school hours are from 7 a. m. to 10 a. m. and 2 p. m. to 5 p. m. The only diversion here is boat sailing and at first it seems very much like being buried alive after Manila and Honolulu. The rains are extremely heavy and persistent. A few weeks ago we had the least bit of excitement to vary the monotony. Some natives came in from the outskirts and reported insurrectos who they said had been stealing their corn and horses. This town is garrisoned by two troops of the Cavite and a double mounted guard was put on the town. All night long I could hear the tramp of horses but strange to say I did not feel at all alarmed. One of the officers and thirty men are out on a 'hike' in the hills and the rest of 'us' are holding down the town.

"Balayan is only twelve miles by steamer from Manila and was once a very rich town. Not far from here is a volcano situated in the middle of a lake. We drive round town sometime in the queerest rigs imaginable drawn by water buffaloes, carabaos and oxen. The vehicle fits the steed and the rate of progress is not swift, the pace being reminiscent of Pain's chariots en route to Walkid.

"A friend came in on the Lawton the other day with a load of hay and the freight clerk went on board and told him there was a lady down at the landing waiting for him in a bullock cart. You can imagine his astonishment. Europa in an oxcart! Some of the transports are returning via New York and I may come back that way myself."

HERE FOR REGATTA DAY.
The schedules of the Kinau and the Claudine have been changed in order that these vessels can return here this week in time for the Regatta Day sports. The Kinau will arrive Friday instead of Saturday while the Claudine will get away ahead of time on Saturday morning.

SEVENTY-TWO JURORS

GRAND AND TRIAL JURORS IN COURT.

William G. Irwin is a British Subject. Parker Going to Washington—Other Excuses Offered.

Seventy-two jurors gathered in the First Circuit court this morning, 24 having been summoned as Grand Jurors and 48 as trial jurors, for the special term. All those summoned answered when called. Judges Gear and Little were the beneficiaries of a "Grand Jury" of a "school marm" among the Filipinos.

The Grand Jurors summoned are as follows: Henry Waterhouse, William G. Irwin, Charles T. Wilder, A. J. Peters, son, Charles M. Cooke, Philip Maylan, Landale, L. Tenney Peck, James Gordon Spencer, Charles Alfonso Graham, Horace J. Craft, Star Kapu, Charles M. V. Foster, Harry Lewis, David Kawanakos, Charles B. Wilson, F. H. Loucks, E. S. Cunha, Christopher Jones, Holt, Josiah G. Crawley, P. H. G. Middleitch, Charles W. Booth, Moses K. Nakuna, David Lawrence and Henry de Fries.

George A. Davis presented an excuse in behalf of Samuel Parker, who was present in court under the impression that he had been summoned. Parker made an affidavit to the effect that he was to leave for Washington on the 17th, on very important and urgent business, which was of such a nature that he could not entrust it to any agent.

Gear suggested that the statement that the business was important and urgent was a "conclusion," and intimated that he might want to know what the business was. The matter was settled by the discovery by Davis that Parker was not on the return at all.

William G. Irwin's excuse, also presented by Davis, was in an affidavit stating that he was a British subject, owing allegiance to King Edward VII. The court has judicial knowledge of the fact that Mr. Irwin was a member of the Privy Council and other government bodies under the old government," said Judge Gear. "The statement that Mr. Irwin is a British subject is a conclusion of law, it seems to me. I may think he is a British subject and not be."

Joseph A. Gilman's affidavit stated that he was about to leave for San Francisco on urgent business, requiring his personal attention. W. A. Kinney spoke for Charles W. Booth, who is one of the parties to a suit to be heard tomorrow in Judge Little's court. Gear agreed to excuse Booth from day to day until the suit was disposed of.

James Gordon Spencer swore in an affidavit that he had served in the February term, and that the absence of other members of his firm made his presence at business necessary.

F. G. Prescott showed that owing to the absence of the other members of his firm there was no one to look after the business. He was excused. The other excuses were taken under advisement by Gear.

The following trial jurors were called all answering to their names: Ed J. Crawford, William B. Jones, James R. Shaw, John R. Edwards, Vincent Fernandez, George R. Roenitz, Abraham D. Bolster, Frank C. Bertelman, George W. Macy, Frederick Angus, Harry J. Austin, Henry N. Almy, Henry J. Juerg, George K. Post, Manuel E. Silva, Edward Dekur, J. H. Black, Joseph Martiner, Emeal Hammer, Albin F. Clark, Q. F. Berry, Archibald J. Smithies, George T. Kluegel, Lawrence H. Dee, Charles H. Atherton, George Almy, Martin, Henry Zerbo, Southern Hoffman Jr., Frank Gilman Prescott, Richard Ivers, Charles S. Crane, F. W. Beardslee, W. R. Heilborn, E. Buffandau, Joseph Andrade, Gus Hezekiah Aes, Samuel Nalioa, Joseph A. Aes, Edward Mont, Joseph William H. Holokahiki, David K. Bent, Simons Nawa, James Old Jr., James D. Cockett, James K. Paake, Ernest Thrum, William George Ashley and Richard H. Davis.

Excuses were given to S. Hoffman, J. F. Clark, R. Ivers, D. Lawrence and Henry Martin, for various reasons, connected with business arrangements except in the case of Ivers. Ivers' affidavit stated in a general way that urgent and pressing business made it inconvenient for him to appear, and for the benefit of other jurors who thought this was not much of an excuse, Judge Gear announced that the business was getting married.

The Grand Jury was excused until tomorrow morning, when Judge Gear will decide on the excuses offered, and swear in and charge the jurors who are accepted.

HOMESTEAD LOTS AT AUCTION.
Superintendent of Public Works J. H. Boyd appeared in the role of an auctioneer in the hall of the Capitol building at noon today, selling by authority to the highest bidder Lot No. 10 of the Homestead lots situated in Nuuanu valley and abutting on the old Pali road. E. S. Boyd was the applicant whose request brought the lot to the hammer according to government regulation. A Von Soden who is connected with the Hackfeld Fertilizer Works at Kailua, was the only bidder against E. S. Boyd who dropped from the list at the \$2000 mark. Mr. Von Soden expressed his wish to pay cash for the price reached, \$1210, though the government gives the option of one fourth only of the purchase price down. The upset price named was \$1000.

PEARL HARBOR LAND SUITS

ARGUMENT OVER RIGHT TO A JURY.

Government Opposes Submitting the Cases to Juries and Holds That Estees Should Take Sole Jurisdiction.

Argument was begun this morning before United States Judge Estees on the answers to the Pearl harbor land condemnation suits, brought by the United States government to secure land for a naval station. Port Commander Meritt, Captain Bond of the Ironclads and Captain White, naval engineer, were in court all morning to hear the arguments.

United States District Attorney Baird and assistant Dunne appeared for the government, and F. M. Hatch, ex-Judge Stanley and H. A. Bigelow for various defendants. Dunne made a motion for a jury trial, contending that such a demand had no place in the answer to the suit. Dunne argued most of the morning and was followed by Hatch. At noon court adjourned until 1:30, when argument was taken up again.

The government will vigorously oppose a jury trial all through. At present the argument is on the method of raising the issue of jury trial. It is contended that the answers to the complaint filed should simply reply to the issues and leave the question of jury or no jury to be settled when the trial begins. If Estees strikes from the answers the demands for a jury the question will come up later, when the trials begin.

The question of the right to a jury in such a case is a statutory one and both sides are submitting authorities to Estees.

It is thought that a jury might be inclined to give larger sums than a judge would give, in exchange for the land, especially a jury drawn in Hawaii. The government claims that the decision of the value of the property is a question that should be left to the discretion of the United States Judge alone.

If the defendants succeed in getting juries the suits may be very long drawn out and expensive. Each defendant would have a right to a separate jury hearing, and it would take a long time to dispose of the cases.

COURTS AT WORK AGAIN

A VERY OLD SUIT COMES TO AN END.

Charge to the Grand Jury Tomorrow. Cathcart and Brown Ready With Many Witnesses.

One of the oldest pending suits on the first circuit court calendar was dismissed this morning for want of prosecution. It was an action begun in September, 1892, before Judge Perry, by the trustees under the will of his late majesty William Lunailo, against Rakaekaa Adam Kaeo Huron K., Chun let and Yee Chu Pan. The trustees were J. O. Carter, W. O. Smith and Henry Kane. This morning when the calendar for the present term was called the case was dropped for want of prosecution. It was an ejectment suit, involving the title to the "barracks block" on Beretania street. The only papers in the case after its two years' history, were the complaint filed by the trustees on September 20, 1892, and an answer in which adverse possession was relied upon as title to the land.

Thomas G. Thrum, by his attorneys Smith and Lewis has filed an answer to the suit of Moses Nakani. It is a general denial of the plaintiff's contentions.

The case of Middleitch vs. Harbottle was replaced on the calendar on motion of Bittin, for another trial. The case of Morgan vs. Butters, was also given a place, on motion of McCallister. The matter of the proof of the will of the late B. F. Ehlers was set for tomorrow morning at 9:30, on motion of Ballou.

Tomorrow Judge Gear will charge the new Grand Jury and it will begin its labors. The police department is ready to take court, as witnesses enough to keep the 24 good men busy for several weeks. Judge Gear is to charge the jurors to look into the cases of the 25 or 30 men in Oahu jail who were never given legal trials according to the First Circuit Court and Judge Estees and Attorney General Cathcart and High Sheriff Brown are ready with a large number of witnesses. The men who think they see freedom in sight will find themselves in the midst of another trial, and some of them, it is stated, in danger of a worse sentence than they got before.

Emil Ney is to be the bailiff of the Grand Jury. The hours of the court as announced by Judge Gear, will be from 9:30 to 12, and from 1:30 to 4 p. m.

BOYD LEAVES TO-MORROW

WRIGHT.

Marston Campbell Goes With Him. May Help in Putting Out the Hamakua Fire.

Superintendent of Public Works James H. Boyd and Assistant Marston Campbell leave tomorrow on the Kinau for Hawaii, to spend about a month on the island, investigating roads and bridges and other public improvements that may need work done on them, and looking into various enterprises that have come before the department.

During Boyd's absence, chief clerk B. H. Wright will have charge of the office. Andrew Brown will be in full charge of the water works. R. N. Boyd will look after the road department and Guy C. Davis will look after the office of the assistant superintendent of public works. Boyd and Campbell spent today finishing up work and turning over their offices to the men who are to be in charge.

The officials will go first to Mahukoua. From there they will travel slowly through South Kona, South Kohala, Hamakua, Hilo, Puna, Kau and North Kona, returning to Honolulu about the middle of October. They will travel by carriage, on horseback, or otherwise, according to the nature of the country they are in.

The Hamakua fire will be one of the matters that will be investigated and if conditions seem to warrant such a course Boyd may take hold of the work of fighting the fire. "I am of the opinion that it is the duty of the executive departments to take hold of such an emergency," said Boyd this morning. "If there is a serious disaster or an epidemic, the government is supposed to come to the rescue, using emergency funds, and this fire may be a disaster calling for such action. I shall make as thorough an investigation as I can of the cause and extent of the fire. Under the law the superintendent of public works has control of public property including land reservations, and I may give assistance to the people who are trying to stop the destruction of forest and cane land."

Boyd is returning from Hawaii and Campbell will go to Maui, for a similar tour of investigation. They will also visit Kauai and make trips around Oahu. The results of their investigations will settle the policy of the department in spending what money there is for new public improvements during the present fiscal period.

BECKY STILL A SPENDER

MAGOON ANSWERS HER NEW PETITION.

Says That The Gold Cure Failed To Reform Her And That She Is Relapsing.

J. Alfred Magoon today filed his new answer to the amended petition of Becky Magoon, known as "Becky Bishop" for termination of her spendthrift trust. The guardian sets forth not only that Becky was a spendthrift at the time when the trust was formed, but that she is one yet, and that she still loves the company of other loafers and inebriate. She loves them so much, it is alleged, that a gold cure experiment failed to bring about a permanent result and she manifests a growing capacity to imbibe the liquors that make spendthrifts.

The answer sets forth that at the time of the appointment of a guardian the petitioner was a spendthrift and that she "has not reformed; that she was a habitual drunkard and long after respondent was appointed guardian for her as aforesaid, petitioner, being unable to resist her desire for drink, took the gold cure, on account of which she abstained for some time the use of intoxicating liquors, but that afterwards petitioner relapsed into her former habits of drinking and has lately been drinking excessively; that not long since, while she was under the influence of intoxicating liquor she discharged a revolver in a drunken altercation and was taken to the station house, the petitioner has been repeatedly within the last year under the influence of liquor and is relapsing into her old habits of excessive drinking."

Magoon says that up to the time of the sudden filing of the petition for a termination of the trust the petitioner was friendly towards him, and gratefully thanked him at times for having stopped her wild and reckless course of extravagance, which would have made her a bankrupt before now.

KOHALA WATER SUPPLY

PROJECT ON FOOT TO TAP THE WATERSHED.

Would Conserve Billions of Wasted and Precious Gallons of Water—To Cost Two and a Half Millions.

Governor Dole and his heads of departments spent most of this morning discussing the proposal of Colonel Jones, who represents certain Chicago capitalists, to develop, conserve and distribute the water of the Kohala range.

Although the matter is one concerning public lands and improvements thereon and has been before the government for some time, nothing beyond the most general features of the matter have been made public.

The executive council were occupied with the discussion of granting the contract most of this morning and a decision is likely to be reached at 2 o'clock this afternoon. No particulars were allowed to be made public however.

The project is a brief to conserve the watershed of the dense forests growing upon the ridges and gulches of the Kohala range from Honokaa gulch in Kohala to Muliwai gulch in Hamakua, which are now going to waste; and to use this water to irrigate the sugar districts of Kohala to the west and Hamakua to the east.

The water would be conveyed through ditches, tunnels and flumes, the whole enterprise meaning the outlay of some two millions and a half of capital which will be subscribed from outside sources.

H. P. Gehr of the Hilo-Kohala railroad has had a party working in the mountains all summer measuring the water supply.

NEW CHURCH AT WAIKAEA.

HILLO, September 13.—C. C. Kennedy has recently erected a building at Waikaea to be used for church purposes and it will be opened for service on Sunday next. There will be Sunday school at 3:15 and service at 4:15 p. m. The building is airy and commodious. The building is airy and commodious. Sunday school classes will be taught in English, Hawaiian and Japanese.—Hawaii Herald.

AFFRAY IN KAUMANA.

HILLO, September 13.—On Thursday last Solomon Neffa, a Frenchman, and Emilio Bala, a Porto Rican, got into a dispute on Gamelison's plantation and the Porto Rican struck Neffa with the flat side of a sword knocking him down. Neffa came here from Porto Rico with one of the divisions of Porto Ricans expecting to secure an overseer's position. He has recently grown unpopular with his fellow countrymen.—Hawaii Herald.

DEADLY GIANT POWDER.

HILLO, September 13.—A Japanese fishing on the Pohoiki coast last Sunday with giant powder was killed by a premature explosion. The fragments of the fisherman were gathered up in a basket. A coroner's inquest was held by Deputy Sheriff, Captain Elderts.

FAILED TO PASS EXAMINATION.

The first examination of applicants for license as hack drivers took place Friday. Deputy High Sheriff Chillingworth being the examiner. The driver tried his utmost to keep off the line of the rapid transit cars but the officer insisted that the hack be driven there. The driver lacked nerve and as he was not quite up to the standard the license was refused. The applicant declares he will continue to practice until he reaches the required standard.

Fine Job Printing Star Office.

Between Men's and Boy's Clothing...

We make no difference in the case and furnish all attention to detail. There is no sweat-shop work on any of our suits. Is not this worth the thoughtful consideration of mothers? Isn't it worth paying a trifle more to have your boy's suit made in a proper manner. If the wife were consulted, wouldn't she insist that the husband avoid wearing sweat-shop clothing? We have just received a new line of STAR WAISTS, with and without collars. Just the thing for the school season.

Also a fine line of EXTRA PANTS FOR MEN AND BOYS.

Extraordinary efforts have been made by us to find and prepare the things needful for your good appearance and comfort—the very best SUITS FOR MEN AND BOYS; SHIRTS, HATS, OUTFIT FLANNELS, ETC.

All these are worthy of your attention, being fashionable in cut and stylish in appearance.

Our TWO BIG STORES and their service are at your command.

No orders too great for prompt attention; none too small for the strictest care.

Heart Diseaseweakens the stomach, deranges
digestion, pollutes the blood,
destroys the nervous forces and
saps the vitality of the whole
system. It causes pain in the
left side, palpitation, shortness
of breath, sinking spells, and
frequently ends all suffering in
sudden death. Dr. Miles' Heart
Cure is the only successful remedy
for diseased hearts that has
ever been offered to the public."It was impossible for me to lie down to
sleep for smothering sensations. The pulsa-
tions of my heart were very irregular, some-
times seeming to stop beating and at other
times palpating so hard it could be heard
in the room. One bottle of Dr. Miles' Heart
Cure brought relief and after using it for a
few months the heart trouble was all gone."

stantial bridge built across the wash-
out in the road at the canal. This has
long been an eye sore to the travelling
public. The approaches to the bridge
are built of stone, with a span of plank
about 20 feet long. The bridge will be
16 feet wide.—Maui News.**WANT INDUSTRIAL SCHOOL.**While the grammar schools of Maui
are all that could reasonably be expect-
ed of them, yet there is an urgent need
for an industrial high school at Wailu-
ku, in order to finish the work so well
begun in the common schools of central
Maui. The principal argument ad-
vanced in Honolulu against the proposi-
tion that we have Lahainaluna and
Maunaloa on Maui. Granted and great
things are expected and hoped for from
both these schools, but they do not ob-
viate the necessity for an advanced
industrial and educational institution
in Wailuku, as could be testified to by
many parents of central Maui adjacent
to Wailuku, who now have to send
their boys and girls to Kamahehaha
for what they should obtain at home,
and by many more parents who have
to keep their children at home because
they cannot afford the expense of send-
ing them away.—Maui News.**A GOOD THING.**There's one good thing when they feel
dry.
That business men cannot pass by.

FRANK L. HOOGLS, Manager.

MONDAY, SEPTEMBER 16, 1901.

Two messenger companies may be for the advantage of the city, but a messenger company which says it can keep its business because it is acquainted with a certain number of liasons is not likely to build up a trade. Messenger boys are supposed to have neither eyes nor ears if they want to keep their business.

The loaded gun accident is again to the fore. With the present breech loading firearms there is absolutely no necessity for a man to have his gun loaded in transit. In the days of the old muzzle loader there was some excuse, but at the present time there is none. It is the simplest thing in the world to slip the cartridges out of the gun when in transit, and slip them in again when looking for game.

With a good glass anyone who wants to follow the yacht races will find Pacific Heights an excellent vantage ground. Yesterday there were a number of yachts out, and their course could be seen very clearly. The boat races in the harbor might also be distinguished. Of course one would lose the enthusiasm and the cheers, but for any one with shattered nerves and a desire for quiet Pacific Heights would afford a view of the Regatta and a restful time.

President Loubet is rapidly driving his master of ceremonies to despair. The president will not have ceremony; it does not fit in with his happy, impetuous manner. Directly his visitors arrive he rushes forward and gives a trip of the hand before his bewildered attendant has got out with the usual announcement. And now, copying the example of the King of the Belgians, and no doubt with happy recollections of his struggling bachelor days, the president takes Mme. Loubet out to dine at a cafe in the open air.

The grand jury will commence its work today, and it has some difficult work before it. Upon the grand jury will rest the responsibility of finding true bills against men whose alleged crimes have been committed long ago. The struggle between the lawyers who wanted to release convicted criminals and the executive which desired to keep its hold upon the prisoners confined to it, is practically over, and our queer judicial jumble is now entering upon a new phase. For a student of intricacies, technicalities and counter interpretations, there is an excellent field in this territory just at present.

The head of the fire department of Rouen has suggested to the mayor a novel project in the fire extinguishing service. Inasmuch as this city is traversed everywhere by electric street-car wires, it is suggested there should be provided pumps, driven by dynamos, to take currents by means of a trolley hooked to the street-car wires at the nearest point to the fire. If this is favorably acted upon, as seems likely, Rouen will be equal, if not superior to any European city in the efficiency of its fire service. Herein is a suggestion for American cities, where street-car wires are much more numerous. And in time, when we have more street car wires, we can have the system introduced here.

The Japanese continue to supply the community with specimens of crimes of violence. There was the report of two Japanese having killed one another on Kauai, that was Saturday. Sunday morning announced that a Japanese had killed his two year old baby and had meditated doing away with his whole family. During last week, a quiet and apparently humane Japanese steward tried to murder his wife and then committed suicide. What strikes one in these matters is the disregard for human life shown by this people. It is nothing remarkable among them, as any Japanese paper will show. It is not that we have a peculiarly bad class of Japanese here. Crimes of a similar character occur all over Japan. It is curious that an ultra degree of politeness and of culture, which even the lower class of Japanese display, should be united with such an utter disregard for the value of human life. The subject is one which is capable of deep and long continued study.

AN OPINION.

Walter Scott, who knew as much about lawyers as Mollere did about the doctors of his day, gives many a sly dig at the profession to which he was bred up. Says one of his characters:

"If there be laws, there must be lawyers to explain and judges to administer them."

Joshua Geddes replies by pointing to a flock of sheep on the downs, "Were a wolf to come upon yonder flock, they would crowd for protection, doubtless, around the shepherd and his dogs; yet they are bitten and harassed daily by the one, shorn and finally killed and eaten by the other. Though laws and lawyers are evils," continues the honest quaker, "yet they are the necessary evils in this probationary state of society," and he adds "I have known many righteous men who have followed the profession in honesty and uprightness of walk. The greater

their merit, who walk erect in a path which so many find slippery."

One is apt under present circumstances to wonder whether a good many of our lawyers are not finding their path slippery. It appears to the ordinary layman that justice has long been lost sight of while technicalities rule. The sheep are assuredly being bitten and harassed by the dogs, and more be taken on the dogs seem desirous of letting the wolves out to raven on the flock rather than give it protection. Law is a very curious and intricate study, and the more law a man knows the less sense of justice he seems to possess.

AN HAWAIIAN SCIENTIST.

The exploration of the territory around the South Pole does not seem to catch the popular mind or attention, as does that of the north polar regions. When any one goes to the north on an expedition the whole world is agog. When South Polar expeditions are talked of there is no universal interest, and yet the southern polar regions are possibly a great deal more interesting and contain more things which are new and strange, beside throwing light upon scientific problems yet unsolved, than ever the north polar are likely to afford.

There is now being undertaken a very thorough examination of the south polar regions, two countries being engaged in the work. Germany and England have both expeditions starting out upon this exploration. The German sphere takes the portion which is approachable from Patagonia and Kerguelan Island, the latter being the German headquarters. The British sphere can be approached from Australia or New Zealand.

It is a matter of interest to us here, because one of our leading scientific men, and we have few enough of them, always maintained that exploration of the southern polar regions would vindicate his theory of earth formation. This was the late William Lothian Green, whose theory of the tetrahedral collapse of the earth was set forth in his "Vestiges of the Molten Globe." When the work first appeared it was derided, and of course the heehaws of the Islands grinned at "Green's folly" as they called it. But Mr. Green's theories have of late found acceptance in American Universities, and his memory is being vindicated. These present investigations in the south polar regions will no doubt add to a reputation not made for a life time, but for all time.

It was not only in science that William Lothian Green was before his time. He was the pioneer of inter-island steam navigation, but others stepped in and made the money. He was also the pioneer of the Iron Works of Honolulu. The wealth from those works goes into other pockets, but the brain that conceived, and the energy that started those works belonged to none else than W. L. Green.

W. L. Green's theory required a continent of something like the size of Europe at the South Pole. Writing in 1875 he said "Although perhaps a singular cloud to that which veils from us a clear view of the Antarctic continent still hangs over the Arctic Ocean each navigator who penetrates it tells of more sea, just as each one who succeeds in approaching the South Pole reports land."

The quarter of a century which has elapsed since those words were written has given information, meager, it may be, but information which certainly strengthens Green's theory. The reports of the Belgica, 1898 and of Borchgrevink, 1900 all point to continental conditions in the south polar regions, while all Arctic exploration has shown nothing but isolated and tiny island groups in the north polar regions.

The names of those who have ventured to the south can be counted on the fingers of one's two hands, while those who have attacked the northern problem would require a column or more to chronicle. Captain Cook made the first circumnavigation of the southern pole and reached as far south as 71.10. Ross' expedition in 1840-2 really gave us the fullest information of the century. He got his ships to the 78 parallel and discovered Victoria land, with the extraordinary volcanic action going on, in the midst of the eternal or rather paleocrystic ice, boiling water and lava and flames on glacier clothed Mount Erebus.

Commodore Wilkes was round the South Pole about the same time, and named Wilkes land. The Commodore afterwards visited these islands and has left an interesting account both of these islands and our great volcano. Dumont D'Urville, a French navigator, was also at the south in 1840 and discovered Clariland. He also came here, and his carpenter and boatmen were so much struck with the islands that they returned and settled. They were named Raymond and Bernard. They lived at Ewa, and the present Raymond Grove commemorates the spot where they spent so many years of their lives. It is a far cry from the South pole to Ewa.

After the interest shown in 1840 and a few years later, nothing was heard much of the south polar regions till the Challenger expedition in 1874. The Challenger, however, did not attempt to go far south, she practically skirted the ice pack and touched the Antarctic circle. Then again there was silence till the Belgica broke it in 1898. This was followed by Borchgrevink who in 1900 got a few miles further south than Sir John Ross had done sixty years before. Finally the German and British Governments have decided to make a determined effort at getting a knowledge of the South polar regions and have fitted out respectively the "Gauss" and the "Discovery" to tackle the problem. Both vessels will be away three years, and both will bring information which may support or break W. L. Green's theory.

FATHER STRANGLES BABY

DESPERATE JAPANESE CHOKES
HIS CHILD.

Unable to Work Kasaburo Plans to
Kill Himself and Family—Wife is
Left Destitute.

Crazed, as it would seem, by brooding
over his inability to work and support
his wife and three children, Funaki Ka-
saburo, a Japanese living on upper Li-
liha street, formed the plan of killing
his children and then himself. Satur-
day he started to execute his plan. At
about 10 o'clock Saturday morning he
took the youngest child, a little girl of
two years and two months, and started
for the mountains above where he lived.
He called to the other two children to
follow him, but for some reason they
did not. He seems to have re-
mained up in the mountains all day
unable to bring himself to commit the
crime he had planned, for a Japanese
has been found who saw the father and
child up there. At that time the father
seemed to be caring for the child in a
fatherly way, feeding it "uavav."

The first that was known of the mur-
der was when the father appeared at
the police station about 11 o'clock Sat-
urday night and laid a bundle on the
clerk's desk, and stood as if waiting to
be questioned.

To the clerk's inquiry he replied that
the bundle contained his child and that
he wanted to be arrested. Deputy High
Sheriff Chillingworth and Chester Doyle
were at once sent for. Through Doyle as interpreter Ka-
saburo told the story of how his right
arm was paralyzed so that he could not
work to support his family and, that
they should not suffer he had deter-
mined to kill his three children and
then himself. After he had killed his
child, which he said he did about 5
o'clock in the afternoon he was afraid
to go back to his home for the other
two children to carry out his purpose
because he did not know what to say
to his wife when she should ask him
where the youngest child was. Brood-
ing over his situation with the body of
the child which he had strangled with a
piece of a Japanese kimono sash, fear-
ing to go to his wife, fearing to kill
himself by hanging as he had intended,
he finally decided to give himself up to
the police. He took an old blanket
from a tent he found not far from the
scene of his crime, and wrapping the
body in it took it to the police station.

All of the time that he was telling his
story he seemed as one dazed, welch-
ed down by the enormity of what he
had done, unable to fully realize it, yet
vividly conscious of the separate inci-
dents of it.

He chose the youngest child to kill
first, he said because it was the one
most in the way of the mother upon
whom he had devolved the support of the
family. Yet he said she had never
complained either of the child being in
the way or of the burden of supporting
the children.

From the man's disconnected story
it appears that after strangling the
child he did seek to kill himself by
hanging supposedly from a tree.

He recovered consciousness to find
himself on the ground with the body
broken by his weight. From that time
until he reached the police station he
seems to have been laboring under the
delusion that the child was still alive.

The Japanese Benevolent Society
have taken the matter in hand and
will see that the family, consisting of
the wife, a girl of 10 and a boy of 6 are
provided with food and shelter. The
unfortunates had only fifty cents when
aided by the society. Anyone wishing
to contribute towards their support is
requested to communicate with K. J.
Imahishi, the president of the Japanese
Benevolent Association.

After securing the man's statement,
Deputy Chillingworth went out to the
home and found the mother. She knew
nothing of the death of the child,
though she was very much worried at
both its absence and the father's. She
corroborated the father's statement as
to the time he left the home and of his
calling to the other children to follow
him, and their unwillingness to do so.

A post mortem and an inquest was
held on the body of the child yester-
day. The jury returned a verdict of
death from strangulation at the hands
of the father. The child's name was
Kini. It was buried at Makiki cem-
etery yesterday.

The family is destitute and five of the
jurors turned over their fees to the
mother. Deputy Sheriff Chillingworth
also made up a purse for her, and J.
Alfred Magoon who heard of the des-
tinate condition of the family paid a part
of the funeral expenses.

Rev. T. Okumura, pastor of the Jap-
anese congregational church has inter-
ested himself in the matter and chil-
dren and will try and see that they are
provided for.

KASABURO will probably not be
brought before the district court, as the
grand jury is in session this week and
the case will be taken directly to it.
High Sheriff Brown says that as at

FATHER STRANGLES BABY

DESPERATE JAPANESE CHOKES
HIS CHILD.

present advised he will not have an in-
quiry made as to the man's sanity if
he is indicted, but will allow that ques-
tion to be determined by the trial jury.
Funaki Kasaburo was among the
first Japanese to come to Hawaii. He
has been here about sixteen years. He
is a harnessmaker by trade and worked
for a long time on Sorekeleville plan-
tation. About two years ago he prick-
ed himself with an algaroba thorn in the
thumb. Blood poisoning set in and
his thumb had to be amputated. Fol-
lowing this operation his arm became
paralyzed. When he could work no
longer on the plantation because of his
physical condition he moved to Hon-
olulu. He had saved up some money
which was on deposit in the Yokohama
Specie Bank. But the expenses inci-
dent to his injury, and the expenses of
living since had exhausted his savings,
and the gloomy outlook with his sav-
ings gone seems to have preyed on his
mind.

His wife has been able to earn about
\$4 a week doing washline and other
work, and it is these earnings which
have lately supported the family.

Kasaburo is in custody awaiting the
process of the law.

MANY GO INTO FIGHTS

Fights seem to be of very unusual
frequency lately. This morning no less
than ten cases of affray and assault
and battery were on Judge Wilcox's
calendar. Hialeka and Hokea were
fined \$5 each for affray. Malilolo and
Makaha were fined similar amounts.

Keloh and Kona were also charged with the same affray were
not tried when the other cases were
disposed of.

Watanabe and Miamoto, Japanese,
were also arraigned for affray. W.
Woodhull a hack driver was charged
with assault and battery upon Emma
and Rosa Thomas. A Menez was charged
with assault and battery upon Joe
Welsh.

In addition to this formidable array of
fighters, the police have Bob Samoa
and two other native sailors from the
village of Kona under arrest pending an
investigation. Samoa and his com-
panions participated in it said in an-
other battle with the Kakaako band of
roughs and got decidedly the worst of
the encounter. The fight occurred on
the sand lot by Punchbowl street Sun-
day night. Members of some of the
Wilder's boats are reported to have gone
to Kakaako Saturday night for the
purpose of "doing up" the Kakaako gang.
This was not the first time that such
an encounter had been attempted as the
two forces met some time ago on the
Water Front and a furious battle with
rocks occurred.

Deputy High Sheriff Chillingworth
had anticipated trouble however and
sent some officers down to Kakaako, so
when Samoa and his friends met the
police the sailors retreated. Last night
Samoa and his friends are said to have
retreated and a fight ensued. Samoa is
said to have been knocked out by a
sailor called "Sharkey." Officer Leslie
and some other officers arrested Samoa
and two others. The trio will be held
until more can be caught.

KAAUI'S CIRCUIT COURT

The vice of gambling is receiving
some hard knocks on the Island of Ka-
uai, in the shape of sentences of \$100
from Circuit Judge Harvy. In the term
just ended this was the fine imposed in
all cases of convictions. Attorney J. T.
de Bolt, who went to Kauai to re-
present the Attorney General's depart-
ment, returned on Saturday, after a
very successful term, there being only
two acquittals out of 16 cases. There
is much gambling among orientals in
the outer districts, says de Bolt, and the
police have given some of the players
surprise parties. There was also a very
large proportion of criminal assault.
The following cases were tried before
Hardy during the term:

Hoy Sing alias Ah Sing, gambling,
\$100 fine.

Kamui, Leong On, Tong Wo, gam-
bling, \$100 fine each.

Tok Fun, Ungoo, Choy Hip Hong,
gambling, not guilty.

Ah Hoy, Larceny, forfeited \$250 bail,
\$50 fine.

Ah Hai alias Ah Ha, gambling, \$100
fine.

Ah Sam, selling liquor without a li-
cense, \$150 fine; appealed to the Su-
preme court on exceptions.

Ah Yan, Ah Lai, Ah Chun, all con-
victed of rape, under section 84 of the
penal laws, six months each at hard
labor.

Wikoli Kalumathakol, criminal as-
sault, continued on account of absence
of witnesses.

Lee See Foo, Cam Mohuohai and Ka-
malai, gambling, not guilty.

Robert Walealea, who was charged
with embezzlement, died at the begin-
ning of the term, before his case was
tried, and a nolle prosequere was there-
fore entered in his case. In the case of
Thomas Ledward, charged with bur-
glary, a nolle prosequere was also entered.
He will be indicated for malicious in-
jury.

The cases were all appealed from
Kauai District court.

GOOD NEWS FOR BOHEMIANS.

The resort which good Bohemians
have so long craved in Honolulu has
come at last. To D. G. Camarinos is
due the credit of providing such a
place. "Cammy" has located his Bo-
hemian headquarters on Alakea street,
just makai of Kina. There he has re-
produced the Hawaiian Islands in mini-
ature. He has planted bananas, pine-
apples, coffee, dates and the various
tropical fruits and plants which are
produced here. "What is the use of
people, especially strangers, having to
ride five or six miles to the plantations
when they can come in here and see
these things growing right in town," he
says. "They can have refreshments
served to them right out here on the
broad lanais and enjoy themselves to
their heart's content."

Losing your hair? Do you bring out
a combful each morning? Has it lost
its natural brightness? Is it beginning
to look faded and dead?
Do you like this condition of things?
Certainly not. Then stop this falling of
the hair at once. Stop it before your hair
is thin, short, and lifeless. Make your
hair beautiful, glossy, silky, abundant.

Ayer's Hair Vigor Is a Hair Food.

When your hair is well nourished it
does not come out. 'Tis weak hair,
starved hair, that falls. It's just so
with thin hair, short hair, rough hair.
Such hair needs feeding. This is why
Ayer's Hair Vigor stops falling of the
hair.
If your hair is gray, and you don't
care to look at thirty as if you were
sixty, then you should use Ayer's Hair
Vigor. It always restores color to gray
hair, all the dark, rich, beautiful color
it had when you were young.

DAYS OF BIRD HAND BOOKS

SCHOOLS OF THE TERRITORY ALL
OPEN.

Both Public and Private Schools Show
An Increase of Attendance—Oahu
College Opens This Morning.

The schools of the Territory both public
and private are now open. The public
schools and many of the private
schools opened last Monday. A few
opened the week before. Today
thousands of children are at school.
The following have been received, all the
schools, both public and private, open
with increased attendance.

On Hawaii there are eight private
schools, five in the Hilo district, one in
Kau, and two in Maui. On Maui there
are six: on Molokai, two; on Oahu,
twenty-nine; on Kauai, two.

Oahu college and Punahou preparatory
opened today. Oahu with an attendance
of about 100 and Punahou preparatory
with about 235. There are
some changes in the faculty of Oahu.
Prof. C. G. Bailey succeeds Prof. William
Williamson. He comes from the
University of California, and is an excellent
athlete. Miss Mary G. Ridgeway
succeeds Miss Helen Johnson in charge
of the art department.

Miss Institute. P. W. Damon's
school for Chinese opened last Monday
with sixty boarding pupils and a large
attendance of day pupils. Avery
Searle, a graduate of Pomona College,
is one of the new instructors. As is
Edward Powers of the University of
California, and Leopold Blackman.
Liliue, Kadai, September 13.—The
public schools of Kauai opened throughout
the island last Monday. The attendance
at all is larger than last year, and
in some schools, owing to the influx
of Porto Rican laborers, the number of
pupils is in excess of the school
accommodations. The Liliue German
school will open next Monday. The
indications are for a larger attendance
than ever.

PAIA, Maui, September 14.—Maunaloa
Seminary opens Monday next for
the fall term. The number of applications
make it certain that the attendance
this year will be larger than ever.
Hilo, September 13.—The public
schools of Hilo opened last Monday under
bright auspices. The corps of thirteen
teachers were all in their places and
the registration of pupils is the
largest in the history of the schools.
The number entered the first week is
350, which will probably soon reach 400,
a figure not reached at any time in the
past. The school children of Hilo all
told number about 1000. The Catholic
schools take care of about the same
number that find accommodation in the
public schools and the Boarding school
cures for nearly 100 more, and others
attend private schools.

Fifty percent of the school children
are Hawaiian or part Hawaiian; twenty
percent are Japanese; the remainder
equally divided between English and
Portuguese, with a sprinkling of Chinese.
Hilo Tribune.

WAILUKU, September 14.—The Wailuku
school opened last Monday morning
with a good attendance especially in
primary grades. Mrs. McKee, principal
Miss Nape and Miss Pihl constitute our
present corps of teachers.
Mr. Kellum requests the presence of
the teachers of Wailuku District at the
school house, Wailuku, on Friday
September 20, at 1:30 p. m. for the purpose
of organizing a District Teachers Circle.
Wailuku, Waikapu, Kahului and
Spreckelsville schools may close at noon.
All others interested in educational
matters are cordially invited to attend.
—Maui News.

MAUI'S YEARNINGS.

Is it not about time that some sort of
literary club should be established in
Wailuku? There are plenty of bright,
bravely people here and their number is
being augmented continually. Being
off the travelled line of theatrical
troupes, there are but few sources of
legitimate amusement for our evenings.
A Chautauque, a reading or essay club,
or even a debating society once a
month would go far to relieve the
tedium, and would prove a success if a
few live people would take hold of it in
earnest.—Maui News.

THE HAMAKUA FIRE.

The Hawaii Herald's Account of Its
Present Status.

HONOKAA, September 11.—Nearly
all of the homesteads were threatened
with devastation yesterday through a
change in the direction of the wind. On
Sunday persons visited the scene of the
forest fire and it was then at least a
mile distant from Horner's homestead
house. On Tuesday the wind changed
and the fire swept toward the sea with
great rapidity and the Horner house
was destroyed. The building cost
about \$2,700 two years ago. The other
homesteads are threatened.

The men engaged to fight the fire in
the timber gave up work on the second
day on account of doubt as to payment
for services. They declined to wait for
the Legislature to appropriate the
funds. An effort is being made to have
the agents representing the different
plantations in peril to pay the men.
Young cane is being cut in several
places in order to save as much as possible.

Horner's ranch has sent about 400
head of horses to Waimaea besides a
number to Laupahoehoe and Hilo.
There has been no rain during the
past week and no indications of it.
Several families are moving to Waimaea
to be nearer water. Yesterday the surrounding
country looked as though it was
burning up and a report was current
that the fire was in Paauhau cane,
but the rumor was unfounded.—Hawaii
Herald.

MORE COURT DECISIONS.

Geary and Little Dispose of Several
Suits.

The suit of Hobron vs. Helm was decided
by Judge Little on Saturday, in
favor of the defendant. It was the second
decision in the case, a jury having
decided formerly that Hobron could not
recover. A new trial was granted. Hobron
sued for \$2,000 which he advanced to
Helm to enable the latter to go to the
Klondike and work the mines on a
"divvy" arrangement. Hobron was inclined
to think that Helm never went
farther north than Seattle, and he
wanted the money back. A jury was
waived in the second trial, but Judge
Little's decision was the same as that
of the former jury, as he granted a non-suit.

The suit of J. Loeffler against the
Palama Co-operative Grocery company
came to an end Saturday afternoon,
when Judge Little granted a non-suit.
The case was being heard by the following
jurors: W. E. Rowell, J. Zablan,
M. P. Robinson A. Fernandez, J.

A. Legros, O. Cox, J. A. McCandless,
J. S. Walker, G. Nawakoa, E. S. Holt,
S. M. Damon and H. F. Bartmann.
The jury was dismissed for the term,
ending the last service of the panel for
last term.

In the case of Joseph Gouveia vs.
Manuel Pacheco Judge Little dismissed
the appeal of the defendant, on account
of the insufficiency of the bond and for
lack of prosecution.

LEAGUE BASEBALL.

The league game of baseball at Punahou
on Saturday afternoon was placed
to the credit of E. O. Hall and Son's
team, who gained the victory over the
Capitol boys by a score of twelve to
six, after an unevenly game. The
percentage of the League now stands as
follows: Custom House, 100; Hall and
Son, 50; Police, 50; Capitol, 0.

ASSOCIATED ASSEMBLY

PLANS FOR PROPOSED COTILLION CLUB.

The Season Will Extend Through Five Months—First Assembly and German To be Given in October.

The movement to organize a cotillion club in Honolulu for the coming season is assuming definite shape. The following announcement signed by James D. Dougherty has just been mailed to a number of people whom it is sought to interest in the matter.

"With the idea of more thoroughly introducing the cotillion in Honolulu, and thus providing not only amusement, but a fresh medium for social intercourse, it is the intention to organize a cotillion club which will extend through a season of five months, the first Assembly and German to take place about the middle of October. Final arrangements will be concluded as soon as the desired number of persons necessary for the venture are selected.

"For many years the cotillion has been universally acknowledged as the pastime par excellence of the cultured. Aside from social prestige, the cotillion on its own merits, fully deserves its distinction. The size of the room, the yielding pleasant surprises, the delights of chosen companionship, the pretty favors, the light laughter, the changing music, all combine to crown it the King of dance measures.

"The cotillion has been but little exploited in Honolulu, although wherever introduced under skillful leadership it has always proved a favorite, and there is little doubt that its success would be assured should it be vigorously taken up. Mr. Dougherty has had several years' experience in cotillions, having been member of several of the prominent clubs in San Francisco, and is the possessor of a number of new and brilliantly conceived figures.

"Your name has been submitted as one likely to accept the opportunity offered of becoming a member of The Associated Assembly Cotillion Club now being formed in Honolulu for the season of nineteen hundred and one and nineteen hundred and two, and, as the membership is limited to sixty persons, it is very urgent that you give this your immediate attention. The dues will be \$10.00 for the season, which cover all the expense."

WHERE RUSSELL SHINES.

HILO, September 12.—Senator Russell claims to have broken the record of seed cane cuttings. He cut and sold from one-fourth of an acre in Olaa twenty tons of seed. It was of the yellow banded variety grown at 17 miles. The seed cane record before was with Dr. Hill of 23 miles, whose biggest cutting was 70 tons to the acre.

AT SPRECKELSVILLE.

WAILUKU, September 14.—About 15 acres of cane were burned at Camp 6, Spreckelsville on Monday night. The cane was cut and ground at once, so that the loss was nominal. One of the large rollers at the Spreckelsville mill split in halves on Tuesday. Fortunately they had a roller which they put in place of the broken one. And the mill started up again yesterday.

There are yet about 800 acres of this year's crop of cane to be ground at the Spreckelsville mill. The total yield this year will be about 27,000 tons. With an adequate supply of labor, it would have reached the 35,000 ton mark.—Maui News.

MAUI ROADS.

There was a fire, not long since, when the road from Wailuku to Maalaea Bay was one of the finest roads on the islands. Today it is simply a rut, and is steadily getting worse. The same is equally true of the road leading from Wailuku through Kahului to Spreckelsville, Paia and Makawao. Of course nobody is to blame for this deplorable condition of affairs, but it should not be endured much longer. A remedy should be found and applied before our roads become worse than they are now.—Maui News.

PARA GRASS.

A very commendable enterprise has just been inaugurated on Maui by W. C. Aiken of Paia, who has introduced the use of Para grass for the double purpose of furnishing a valuable fodder for horses and cattle, and also for the further purpose of driving out Hilo grass. The result of Mr. Aiken's experiments will be awaited with much interest.—Maui News.

GUAVA JELLY.

Now the duty has been taken off guava jelly, a fortune is awaiting some one who will come to Maui and manufacture guava jelly on a large scale. It would take quite a tidy capital to establish this industry on a paying basis, for reputation would have to be built up for the production of an absolutely pure jelly free from all adulterations. When this is done and a trade is built up, fancy prices could be realized.—Maui News.

HE OWES HIS LIFE TO THE FORE-THOUGHT OF A COMPANION.

While on a camping trip in Webster county, Mr. S. L. Stump, of Norman-town, W. Va., had a severe attack of bloody flux. He says, "I firmly believe that I owe my life to the forethought of one of the company who had taken along a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy."

Medical. Procure a bottle of this remedy before leaving home. It cannot be obtained when on a hunting, fishing or prospecting trip. Neither can it be obtained while on board the cars or steamship, and at such times and places it is most likely to be needed. The safe way is to have it with you. Thousands of travelers never leave home on a journey without it. For sale by all dealers. Benson, Smith & Co., general agents, Hawaiian Islands.

BOY PROVES GOOD SAILOR

STRIKE BRINGS OUT YOUNGSTERS
QUALITIES.

Took His Trick at the Wheel and Furl-
ed Sails With Any Able Sea-
man.

The ship George E. Curtis arrived this morning, 14 days out from San Francisco, with a non-union crew. Captain Calhoun says that he had as fine a crew as he could desire, even though two of the "able seamen" were mere boys. One of the juvenile seamen was Robert Dow, the 14 year old son of H. M. Dow, the clerk of the High Sheriff.

"Dede" has been through an experience that seldom falls to the lot of a 14 year old boy and he has developed into a practical sailor. When he went away from here four months ago on the Curtis, "Dede" was supposed to be going under the special care of the skipper. On the way up "Dede" did not essay to become an able seaman. He was content to remain the best boy yachtsman of the Hawaiian Islands. The strike troubles in San Francisco however gave the boy a chance to show the stuff he was made of.

When the ship reached San Francisco the strike was at its height and "Dede" went to work helping the captain and steward about the vessel. The youngster used to go up town regularly to make purchases for Captain Calhoun. For a few days "Dede" left the vessel to visit friends in Stockton and Oakland but he preferred the ship and returned to her.

On the way down "Dede" acted as able seaman. Captain Calhoun had to take such a crew as he could get, and among them in addition to young Dow, he securing another boy about 15 years of age who also acted as an able seaman. "Dede" took his turn standing watch and on every watch he would take his hand at the wheel steering the vessel two hours and a half out of every four hour watch. He did everything which an experienced sailor before the mast would be expected to do. He went aloft and unlashed the main skysail when the boat was going ten knots an hour and in fact performed all that any older men could have done. When the vessel came into port this morning Mr. Dow was down at the dock looking for his boy. To his consternation he did not perceive the long absent youngster individual clothed in an old sailor's hat, a pair of dirty trousers, a dirty shirt and dilapidated shoes. A second look and he saw that the diminutive begrimed sailor who was rushing about to execute the orders of the captain was none other than "Dede," turned able seaman. Mr. Dow did not interfere with the boy but let him finish his work and then come ashore. "Dede" made a nice little sum of money for himself by working on the vessel and so delighted was Captain Calhoun with him that he wants the boy to remain on the vessel.

The Curtis brought a quantity of feed and general cargo but had no flour.

evenings when you can have
your room free of them by using
the latest invention, the

SKEET-GO

This small device is used over
ordinary lamp chimneys, and a
teaspoonful of powder will last
an evening. It possesses so many
valuable features that once used
you will never be without a
Skeet-Go. They are smokeless,
and produce an agreeable odor
from a powder which many le-
test owing to its objectionable
smoke, injuring the eyes and
lungs. All the bad features from
burning powder are removed. It
is twice as effective as using the
powder in the old way.

Get one and spend a pleasant
evening without the buzz of these
flying tormentors.

Shirt Waist Collars

Style and Comfort
Combined

BE ADVISED AND TRY ONE!

"My dear," said the groom, "Why do
you insist on turning in the neck of your shirt
waist like that? It isn't at all artistic."

"Because, John, its so hot here," said the
bride, "And, besides, low neck is all the style
in the East now."

Two good reasons; true ones, too; but
we wonder if that bride had been introduced
to the SHIRT WAIST COLLAR. Made
of dainty laces and ribbons it can be worn with
any shirt waist, adding prettily to the appear-
ance of that garment, and taking away the un-
finished look which it has when the neck band
is merely folded in. They don't cost much
either. A quarter will enable you to try the
experiment.
