## THINKS CLAIMS ARE RIGHTFUL

COUNSELLOR STEVENS OF THE JAPANESE LEGATION MEETS LOCAL CLAIMANTS.

BASES OPINION ON ACT OF LEGISLATURE.

Will Confer With Consul and Delegates Who Will Accompany Him to Japan.

D. W. Stevens, counselor to the Japanese Legation at Washington, is a passenger on board the Doric en route to Japan. While here he will confer with Consul Miki Saito and the committee of thirty who stood back of their countrymen's claims and now have them in charge. Miki Saito and other prominent Japanese were on the wharf as the Doric came in and an appointment was made with Mr. Stevens for twelve thirty this noon at the Japanese consulate on Nuuanu avenue.

Mr. Stevens was reticent as to his opinion or position regarding the fire claims. "Really I have nothing to say except that I am back here once more and find the islands just as beautiful as ever. Mr. Pratt will tell you all about the fire claims when he returns. I am going to be quite busy during the little time that we are in port and I really have nothing to say even if we can find time for an interview."

In the brief talk that followed regarding the status of the fire claims awards and warrants and the question as to the legal right of the Japanese, as aliens, to require financial recompense from the local government for damages sustained during the plague fire, Mr. Stevens would say but little.

Admitting that the legislation of the Republic of Hawaii as modified by the Organic Act did not include such claims among the complaints under which the government could be sued for damages, Mr. Stevens held that the succeeding act of the legislature did make such claims valid.

"I consider that these claims are legal to the amount of their awards," was all the counselor would say. "I must refer you to these gentlemen," pointing to the Japanese who were with him. "We have arranged a meeting for today when they can tell you all about it. I really cannot be quoted on this matter. Good morning."

There seems to be an impression among many of the claimants, which is now nullified by Mr. Stevens' opinion, that even in the event of cashing their warrants to the amount of the awards as given out by the Doric with board they would have a still unsatisfied and legal claim for the balance of the amount at which they assessed their damages.

Shiozawa and Ishikawa, the two delegates appointed from the committee of thirty to act in all fire claims matters will leave today in the Doric with Mr. Stevens, according to present plans, they having been endorsed by the consul. These gentlemen will take the awards as given out by the Fire Claims Commission, amounting to \$350,000 and present the same at the Foreign Office at Tokyo. The territorial warrants will thus be ignored by the Japanese claimants who hope that the awards will be forwarded to the Secretary of State at Washington with a request for payment. The appeal through the Japanese Imperial government is made from the standpoint of the local Japanese as aliens. The Japanese community is said to be very anxious to get some early settlement of their claims, as otherwise many merchants whose resources were crippled in the fire will be obliged to go into bankruptcy. The Japanese claim further that they could not afford to lose a discount, no matter how slight, their claims having already been reduced fifty per cent by the commission, owing to it is said, to the unavoidable absence by many of the claimants who were unable to protest or give evidence that would prevent the cutting down of their claims.

It was stated that the Chinese would confer with Mr. Stevens but no representative of that nation met him on arrival, nor is it thought by the Japanese that Mr. Stevens, being retained as constant counsel for the Japanese legation, could act for Chinese claimants at any rate without the consent of the legation.

Mr. Stevens was met by several mutual friends of himself and R. W. Irwin, late minister to Japan for the Kingdom of Hawaii, who is also a passenger aboard the Doric on his way to Japan.

## PRIMARY DAY NEAR

REPUBLICAN ELECTIONS NEXT WEEK.

Nominations of Delegates To Territorial Convention To Be Made the Day After Tomorrow.

Next Friday evening is the evening for the nomination of delegates to the Republican Territorial convention, and as it is only two days away, there are various states formed for the evening. The nominees are to be voted on at primaries on Saturday evening, August 2.

In one precinct of the Fourth District last night a number of those interested in politics held a meeting at which candidates for places on the floor of the convention were discussed, and a number of names were agreed on by those present. In other precincts of this district and the Fifth as well, there is a good deal of movement which may end in lively primaries at the beginning of August.

The matter of the choice of the candidate for delegate to Congress and the adoption of the party platform are left to the convention, so that there will be great interest in the nominations, and during the week between nominations and voting a good deal of campaigning will be done.

Senator Clarence Crabbe's candidacy for the delegateship is one matter that may be settled at the primaries. Crabbe has declared himself willing to run if nominated, and he will probably go into the convention and make a fight for the nomination. Some of the members of the Republican committee, however, are said to oppose his resigning as senator, and in some precincts convention delegates will be put up on this issue.

City and county government is another matter that will be practically settled in primaries. Last time the Republican platform declared for municipal government and those who favor the change will make it an issue with the men they put up in the primaries.

It is likely that a considerable proportion of the members of the party committee will be delegates to the convention. Among these are a number who were in the last convention.

## STRIKE ENDED.

CHICAGO, July 15.—With agreements reached between four railroads and their employees, the great strike of the freight handlers and teamsters of Chicago for a week is apparently broken. A majority of the strikers are expected to return to work tomorrow. Some of the more radical unionists may refuse the terms accepted by the representative committees, but apparently they will be able to yield little influence with the majority of the strikers. A mass meeting of the freight handlers has been called for tomorrow, and upon the action taken at this meeting will depend the attitude of the striking teamsters. Their national president, Al Young, has ordered them back to work tomorrow, but if the freight handlers refuse to declare the strike off officially, some of the teamsters may refuse to work. It is conceded that their officers exercise little absolute authority.

IRWIN AS COMMISSIONER. Chamber of Commerce to Ask Him To Act at Osaka.

The Chamber of Commerce committee on the Osaka exhibition will attempt to secure a promise from R. W. Irwin to act as Hawaiian Commissioner for the local exhibit, before the Doric sails this afternoon. W. G. Irwin, president of the Chamber of Commerce, was to have asked Mr. Irwin to act, but in his absence on a trip to Maui, Vice President C. M. Cooke, with Secretary J. G. Spencer will approach Mr. Irwin on the subject. It is fully expected that the ex-minister to Japan from Hawaii will accept the responsibility.

Mr. Irwin has been in close touch with D. W. Stevens of the Japanese legation on the voyage and is impersonally interested in the matter of the Japanese fire claims, he having been responsible for the introduction of Japanese to this country in any number. He is spending the time until the Doric leaves with Dr. Taylor, of this city, his brother-in-law.

## CORN CORNER CLOSED OUT

THE RING TERMINATES THE DEAL WITH SMALL PROFITS.

LONG LINE OF SHORTS MAKE SETTLEMENT.

The Real Corn Rushed Into Chicago by The Million Bushels—The Ring Afraid of the "Corpses."

CHICAGO, July 15.—The famous John W. Gates, corner on July corn came to an abrupt termination today when it became known that shorts to an extent of a good million bushels had effected private settlements with Harris, Gates & Co., and that the deal was at an end so far as the steel magnate was concerned. The July price responded to a settlement by a quick drop of 15 cents to 65 1/2 cents. Later it recovered a fraction and closed at 65 1/2 cents, substantially the price of the cash article.

Just how many bushels were subject to private settlement will probably never be known, nor is there much chance that the identity of the "big fellows" in the trade, who doubtless contributed liberally to the fortunes of Gates and the friends associated with him in the deal, will ever be positively known. Gates is at present in New York, and Scott, manager for the Gates-Harris house, would admit only the fact of a settlement by the outstanding shorts. Even the fact of a termination of the July deal was left largely to inference. But the readily figured that, with the shorts practically all in, nothing in the shape of a corner could exist.

No special excitement attended the premature puncturing of the bubble by the men whose property it was. The trade has all along admitted that Gates was right and also his ability to do what he pleased with corn, and if he chose to close the deal a couple of weeks prior to the time at which it will have ended by limitation there was no one to say him nay. The only unusual thing in the pit prior to the time at which the deal was closed was that it was at an end was the usual purchasing of July corn in small lots by various commission houses. Pit trading during the day was not much over 500,000 bushels.

Manager Scott would not discuss the settlement. The price, however, was not a matter of decided interest to the trade generally. With the knowledge that Monday night's price was 81 cents and the opening today from 79 cents to 80 cents, the consensus of opinion among the outsiders was that the deal had commanded either 80 cents or 81 cents from the people who were foolish enough to sell him corn all the way from 60 cents up.

"The length of the line" of July settled for by shorts is also a matter of more or less conjecture. Scott said it was a general million bushels, and that the length of the line had been overestimated. It has been called as high as 25,000,000 bushels, but more generally 20,000,000 bushels. It is a matter of common knowledge that since it became possible to make deliveries on July contracts the Harris-Gates people have advanced in price paid for about 3,000,000 bushels. This would leave settlements on some 17,000,000 bushels.

To form an estimate of apparent profit by the deal would necessitate a knowledge of the average price at which the property was bought. This can never be known, unless some time later Gates chooses to divulge it. It is estimated, however, by close observers of the transaction that Gates' profit will not exceed \$1,500,000. This amount will be divided between ten or a dozen millionaires who were interested in the deal.

Gates and his friends have between 4,000,000 and 5,000,000 bushels of cash corn which they must dispose of before the corner can be called absolutely settled. This corn represents the "corpses" which in every corner ever run has been the stumbling block to success. If holding should prove well up to the 70-cent point, the clique has on hand several million bushels of corn which cost its holders in excess of the present market price. Right here is the salient point. Will it be necessary to market this huge holding of corn at less than its cost?

The corner at one point promised many millions of profit, and the men whose well-filled cribs line the tracks of a nearly every railroad entering Chicago are held responsible for the disappointing ending of the corner. There were substantial reserves from the bumper crop of 1900 and the yield of 1901. This corn has been held for a satisfactory market. The holders did not begin to take advantage of the situation when the price of July got up in the 70s, but when it finally reached 90 cents the Chicago market was deluged with cash corn. For a while the Harris-Gates people kept the market cleaned up, but steadily increasing quantities began coming and the prospect of loading up with a lot of 80-cent corn which they might not be able to dispose of at over 60 cents became somewhat appalling. Without warning they withdrew all support, settled with the shorts and closed the deal.

DISCUSS LABOR QUESTION. The Builders' and Traders' Exchange will hold a meeting one week from tonight at their rooms, when the whole question of the supply of labor and the labor question in general will be broadly discussed by the members.

## WAS IT FANNIE KERR?

HYDROGRAPHIC CHART SAYS IT WAS.

There is Excellent Reason for Doubting Accuracy of This Information—Probably Originated on the China.

According to the August charts issued by the hydrographic department at Washington and published July 5, the derelict of the British bark Fannie Kerr was sighted in latitude 31 north, longitude 189 west on June 20. The hydrographic office did not however give any further details of the sighting of the supposed derelict, and except for the bare information that the derelict had been sighted, no further information was supplied.

It is thought more than probable, that the information originated from the report of two officers of the S. S. China which arrived here June 20 from the Orient. On the morning of June 20 a quartermaster and the third officer of the China who were on the bridge sighted a four masted sailing vessel. They saw nobody aboard the boat. When the China reached Honolulu and the officers were informed of the abandonment of the Fannie Kerr, they expressed the belief that the vessel they had sighted, was the Fannie Kerr. Captain Friele of the China took no stock in the story however, nor did any of the other officers.

The report of the hydrographic office originated from this report, for the China's officers and passengers stated in San Francisco the latter part of June that they had seen the Fannie Kerr, when as a matter of fact, it was reported that the boat they sighted was an entirely different vessel.

The dates of when the China sighted the supposed Fannie Kerr and when the hydrographic office gives the discovery of the derelict are identically the same, June 20. The only point of variance is the matter of latitude and longitude, as the vessel sighted by the China was only a few hundred miles from Honolulu, whereas the boat reported by the hydrographic office is about 300 miles north of the point where the Kerr was abandoned on May 29 which was 200 miles northwest of Kauai. A report of the derelict having been sighted has been published by any Seattle, Victoria or San Francisco paper, and as it is at only one of these ports that the report would have been made, there is excellent reason for taking the hydrographic report with a grain of salt.

It may be that the position given by the derelict on the chart is a mere computation by the hydrographic office as to where the derelict would be on June 20 if she were still floating, a computation based on the direction and speed of the currents and winds. It is known that the prevailing winds in the Pacific have been southerly and Prof. Lyons says this condition has been accentuated of late.

## THE JURY FEES RAISED

HENDRY PAYS \$3 PER DAY HERE-AFTER.

The United States Marshal Receives Notice of a Change in the Law by Congress.

United States Marshal Hendry received this morning from Washington the following notice of an act of Congress changing the law as to jury fees: "To the United States Marshal: For your information, a copy of an act entitled 'An act to fix the fees of jurors on the United States courts,' as approved June 21, 1902, is given below:

"Be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled, That on and after the passage of this act the per diem pay of each juror, grand and petit, in any court of the United States, shall be three dollars a day instead of two dollars a day as now provided by law."

"HENRY H. HOYT," "Acting Attorney General." The rate which is thus raised has been the United States jury fee rate for over a hundred years. It is the same rate as is paid by the Hawaiian Territorial courts which now allow jurors \$1 less than the federal court. United States Marshal Hendry is likely to have an easier time getting jurors hereafter.

FLYNN VISITS HILO. Delegate Flynn of Oklahoma Territory, "the most popular man in the House," left for Hilo yesterday. Mr. Flynn has not so far taken up any particular inspection of the beauties of Hawaii and the possibilities of the territory, but has up to the present, apparently regarded his trip merely as a junketing expedition. The delegate from the "strip" has been cordially received since his arrival here, but has had little time for other than social pleasures. He was not feeling very well and took the trip to Hilo on the advice of friends who thought that the change of climate might benefit Mr. Flynn, who was also desirous of making a trip around the group while here.

THE WEATHER. Weather Bureau Honolulu, 1 p. m. Wind light N. N. E.; weather clear. Morning minimum temperature, 68; midday maximum temperature, 84; barometer, 30.4 m. 29.32; falling. ## THE ADVERTISER SUED 2 DAYS LATER NEWS

BULLETIN SAYS IT HAS BEEN LIBELLED.

Damages in the Sum of \$15,000 Are Asked on Account of Some Recent Articles.

A libel suit was begun this morning by the Bulletin Publishing company against the Hawaiian Gazette company, for \$15,000 for libel, on account of two recent publications in the Advertiser regarding the business of the Bulletin. George A. Davis is attorney for the plaintiffs.

Two Advertiser articles are set forth in the complaint as libellous, being alleged to have been maliciously designed to injure the financial standing of the Bulletin corporation. The first, for which \$5,000 is asked was as follows: "The troubles of the Bulletin company in trying to make strap meet buckle meet will lead, it is said, to the suspension tomorrow of the Sunday issue. The paper has been a loss from the start owing, not so much to an increased outlay, as to the failure of the public to patronize it. This change Mr. Buckland, it is said will retire from the Bulletin employ. As to the future of the Daily Bulletin, the policy which opposes the interests of the business community has made even that problematical and the coming of the cable and the prospective loss of the special patronage it has had from Judge Huna-phreys in apparent exchange for political support, adds to the Bulletin's embarrassments. The attempt to finance the paper through the rough seas ahead has been left to Mr. Farrington, Mr. Cross of the Wireless, Mr. A. V. Gear of the firm of Gear and Lammie, Mr. L. de L. Ward and Mr. Lovette Rockwell."

The second article complained of was as follows under the heading "Sunday Bulletin Dead, A Strong Effort to Keep the Daily Alive with Wind." "As forecasted in Saturday morning's Advertiser the Sunday Bulletin with yesterday's issue, died of inanition. The publishers stated that the paper did not pay. It is said that the bona fide advertising of the sheet did not yield more than \$15 per week. The sales, though larger than those of the Daily Bulletin, brought in less than half what it cost to produce the paper."

It is alleged that the plaintiff was greatly injured in its credit, reputation and circumstances by the publication of these articles, and \$15,000 damages are claimed on account of such injuries.

## DON'T WANT SNAKES.

WASHINGTON, July 14.—Among the public orders of the division of the Philippines is one which contained a telegram showing that the protest of the people of Hawaii against the importation of snakes into those islands from the Philippines was successful. The cablegram is as follows: "WASHINGTON, July 9, 1902.—To Chaffee, Manila: Prohibit shipment on transports of animals and snakes to the United States and Hawaii, ROOT."

## PACIFIC CABLE.

VANCOUVER, (B. C.), July 15.—A large force of men will rush the construction of 150 miles of telegraph line across Vancouver island, which will connect there with the cable station and keep the ship Colonia in touch with the civilized world. The line is unique in that by this means the ship lying in the cable will be informed of all that transpires on land. The line will cost about \$15,000. It will cross the island from Bamfield creek, the northern terminus of the new cable being laid across the Pacific to Canada, and will connect with the Victoria Vancouver cable at Nanaimo, immediately west of here over the Gulf of Georgia. The ship Colonia, specially built for the purpose, is now en route from London to begin laying the longest section of the cable, which will extend from Bamfield creek to the Panning Islands, in mid-ocean. By means of the line now being constructed the men at work on the Pacific can keep in touch with the head office of the contractors in London.

## BEST LINIMENT FOR STRAINS.

Mr. F. H. Wells, the merchant at Deer Park, Long Island, N. Y., U. S. A., says: "I always recommend Chamberlain's Pain Balm as the best liniment for strains. I used it last winter for a severe lameness in the leg, resulting from a strain, and was greatly pleased with the quick relief and cure it effected." For sale by all dealers; Benson, Smith & Co., general agents.

Alum baking powders are the greatest menaces to health of the present day.

ROYAL BAKING POWDER CO., NEW YORK.

## 2 DAYS LATER NEWS

DORIC ARRIVES FROM SAN FRANCISCO TODAY.

Was Detained in Quarantine Off the Port This Morning—Going to Manila—Sails This Afternoon.

The S. S. Doric arrived this morning from San Francisco with two days' later mail and news. She had pleasant weather coming down. Two days out of San Francisco the vessel sighted the American ship Susquehanna bound to San Francisco.

The Doric is going to Manila and has several passengers for that port. She also brought a number of stop-over passengers for Honolulu.

There was considerable delay in the vessel entering the harbor this morning. A suspicious case, which subsequently proved to be chicken pox, was found among the steerage passengers, so the vessel was not passed until an hour later than would have ordinarily been done.

Among the passengers for Japan is D. W. Stevens, the legal adviser of the Japanese legation at Washington. He is going to Yokohama. Mr. Stevens conferred with Japanese Consul Miki Saito regarding the fire claims of the Honolulu Japanese.

Thomas D. McKay, the Oriental passenger representative of the Pacific Mail, the O. and O. and Toyo Kisen Kaisha Lines, is returning to his post at Yokohama, after an extended trip to the mainland. He passed through Honolulu recently on the China, and is returning to the Orient, feeling greatly improved and invigorated. His friends were at the wharf this morning to see him.

Miss Louise Becker of San Francisco, is going out to become the bride of a business man of Yokohama, and Miss Elizabeth Waite, an Eastern society girl, is passenger for Manila, where she will become the bride of a student George O. Duncan of the Fifteenth Infantry.

The Doric will sail at 4 p. m. today.

## IN CIRCUIT COURTS

WHITING MAKES REPORT AS COMMISSIONER.

Difficulty in Partitioning King Street and Waikiki Property—Paris-Magoon Case Still Being Heard.

Ex-Judge Whiting this morning made his report as commissioner in the matter of the partition suit of Harriet Bailey et al vs. Elizabeth M. Cunningham et al. As to the property on the corner of King and Bethel streets, the commissioner says that the recent judgment in the circuit court, awarding 718 of it to the Lewis heirs, is in the way of a partition. The Waikiki property is of such a character that it is not practicable to partition it among the heirs without an expensive amount of surveying, etc., and Whiting says that he does not feel disposed to incur such expenses without a further order of the court.

The case of Paris vs. Magoon was resumed again this morning before Judge Robinson and a jury. D. H. Case stenographer, was called to testify as to the record of the testimony of the late A. Fernandez in the former trial and McClanahan read the record to the jury.

In the case of Margaret Cullen vs. T. F. Lansing, an action to quiet title, too defendant filed his answer this morning. He sets forth a claim to some of the property involved, and asks that the plaintiff be restrained from any action attacking such title.

Insure your life while you can. Tomorrow you may be incapacitated. The Oriental Life Insurance Company wants you.

SWELL MILLINERY. For choice up-to-date millinery L. B. Kerr & Co. are in the front rank. The Paris model hats are certainly creations of extreme beauty.

Gottlob, James Hayes, R. W. Irwin, T. D. McKay, Miss Edith McKean, D. W. Stevens, For Kobe, F. Cole, C. J. Gaches, F. H. Smith, For Nagasaki, J. M. Dow, Mrs. J. M. Dow, Mrs. A. Long, Mrs. A. Hobbs, For Manila, A. D. Gibbs, Miss H. Gibbs, H. D. Gomer, William Gomer, G. W. Jones, H. Krust, William Ludke, Charles Nelson, Edward Nelson, Miss Elizabeth Waite, A. Well, For Hongkong, W. H. Renolds, J. H. Ward, Mrs. J. H. Ward and two children.

Departing.  
Per stmr. W. G. Hall, July 23, for Kaula ports—Nela Kala, Mr. Hartwell, J. H. Boyd, W. O. Smith and son, K. Kajita, J. V. Ekekelo, A. P. Knight, R. W. Wilcox, S. W. Wilcox and wife, D. Kalauokalani, Mrs. J. B. Mediola, Miss Wilcox, C. Maser, D. Kalauokalani Jr., J. A. Akina.

SEAMEN'S INSTITUTE.  
The Seamen's Institute has now established permanent quarters at Nuuanu and Queen streets. It is in charge of F. W. Hartwell-Everton. The rooms are open to sailors from 10 in the morning to 10 at night. A savings bank for sailors is a part of the plans of the institute.

## GRANT'S SMALL VALUE

DIFFERENCE BETWEEN PURCHASE AND SALE.

Government Paid \$600,000 For the Transport and the Highest Price Bid Is \$51,000.

SAN FRANCISCO, July 11.—Major Devo, general superintendent of the army transport service, opened bids for the purchase of the Grant yesterday. He states that all offers were much below the value of the steamship and that it is likely that the War Department will refuse to dispose of her at present. The highest bid, \$51,000, was made by John Rosenfeld's Sons. The Charles Nelson Company offered \$35,000, Pope & Talbot \$42,000 and S. Livingston \$35,000.

The Government paid \$600,000 for the transport. She has been in the transport service since 1898 and has given better service than almost any other boat in the fleet. A considerable amount of money has been paid out in repairs at various times, however, and now a full set of new boilers is needed. It was considered that it would be more economical to sell her than to make such extensive repairs. The Grant is a converted cattle boat and was formerly called the Mohawk. She is a twin screw steamer and has often proved herself capable of great speed. For the present at least, it is said, she will doubtless be anchored on the mud flats, alongside the Egbert and the Rosecrans, for both of which the bids were too small for consideration. Major Devo states that he expects some one will want them bad enough some time to pay somewhere near their value.

Shipping men say that the Government wants too much for its worn out transports. It is said that each boat when offered for sale has need of extensive repairs. The fittings, it is also said, would have to be torn out and replaced by new ones, incurring great additional expense. In consequence the bids must have many thousands of dollars added to them to approximate the value which the bidders set upon the boats.

ALARMED BY SHIP COMBINE.  
PARIS, July 2.—At a meeting today of the colonial group of Deputies, M. Etienne, vice-president of the chamber, delivered a long address, in which he pointed out the danger which threatened French naval defense and the merchant marine from the formation of the American shipping combine. He declared that vigorous measures must be adopted if the French flag was not to disappear from the Atlantic ocean.

MONEY IN CIRCULATION.  
The money in circulation in the United States on July 1, 1902, amounted to \$2,246,529,412, a decrease of \$7,886,563 as compared with June 1, but an increase of over \$69,000,000 over the corresponding date last year. On the basis of a population, estimated by the Treasury experts at 79,117,000, the circulation per capita is put at \$28.40. This represents a decrease of 14 cents for the month, but an increase of 40 cents as compared with July 1 last year.

TROLLEY LINES FOR HAVANA.  
YOUNGSTOWN (O.), July 2.—Messrs. Park & Campbell of this city have received a cablegram from their representative in Havana announcing that franchises had been granted them allowing them to construct and operate electric street railway lines throughout the city of Havana. The concessions are said to be worth fully \$25,000,000 and include all the franchises in the city of Havana.

### BIG DEATH LIST.

JOHNSTON, Pa., July 12.—One hundred and eleven are now known to be dead from Thursday's explosion at the Rolling Mill mine of the Cambria Steel Company. It is not probable that this record will be swelled to any great extent and in no case is it expected that the toll will exceed 110 or 115. The mine workings, which it was dangerous to enter yesterday, were thoroughly explored by a searching party during the night.

A CURE FOR SUMMER COMPLAINT.  
Summer complaint is unusually prevalent among children this season. A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept on hand at the home of ye scribe. This is not intended as a free puff for the company, who do not advertise with us, but to benefit little sufferers who may not be within easy access of a physician. No family should be without a bottle of this medicine in the house, especially in summer-time.—Lansing, Iowa, U. S. A., Journal. For sale by all dealers; Benson, Smith & Co., general agents.

## ANNEXATION OF CUBA NEXT

CUBAN SUGAR PLANTERS' ASSO-  
CIATION TAKES  
STEPS.

LOOK TO THIS AS THEIR ONLY  
HOPE.

Propose to Work Through Politics and  
Newspaper Organs to This End.  
Statement of Their Position.

WASHINGTON, July 15.—Important  
political developments are expected in  
Cuba. That is, the developments will  
be important if private advices and  
semi-official statements received here  
are correct. The proposition is that the  
Sugar Planters' Association shall be  
reorganized on the basis of an annex-  
ation propaganda. The news, as re-  
ceived here, is that a meeting of sugar  
planters was to be held today for the  
purpose of reorganizing, and the plant-  
ers, who have been hopeless since the  
failure of reciprocity legislation in the  
United States, are discussing the ad-  
visability of turning their organization  
into a political party.

It is denied that this proposed action  
has any connection with the scheme of  
Senator Elkins and those who were  
working with him to secure the annex-  
ation of Cuba. Yes, it is admitted to be  
true that some of the planters who  
still have credit and who think they  
could survive a period of agricultural  
ruin are active in the present plans.  
The planters having neither credit nor  
money from a large majority and with  
them it is simply a financial effort to  
save themselves. Satisfied that they  
can gain no concessions for their sugar  
in the markets of the United States,  
they feel that they can take the chance  
of openly advocating annexation with-  
out making their condition worse.

Former military officials in Cuba who  
are now in Washington say there is  
nothing surprising in this last move of  
the planters. Since the power of Spain  
was ended the majority of them have  
favored annexation and a few have sup-  
ported it openly. A planter who is in  
the movement in a recent letter says  
that the proposed reorganization of the  
association is intended in the first place  
to educate the ignorant classes on the  
advantages of annexation, and with  
that object it is proposed to establish a  
newspaper which shall champion annex-  
ation as the only means of remedy-  
ing economic ills.

## TRACY KILLS MERRILL

DESPERADO'S STORY PROVED  
TRUE.

The Cold Blooded Murderer Kills His  
Companion in a Cowardly Way—  
Body Found Near a Log.

SEATTLE, (Wash.), July 12.—Harry  
Tracy, convict, murdered and desperado,  
told the truth when he said he had  
killed Dave Merrill. For two weeks  
the body of Merrill has been lying be-  
hind a log on the side of a road little  
used, where it was pitched head first by  
his cold-blooded companion and left  
to rot. On an undertaker's slab at  
Chehalis it now lies, with a bullet  
through the back, while the man who  
shot him, and with whom he shared the  
hardships of being pursued by men and  
dogs, is somewhere to the south of Se-  
attle, supposed to be wounded, but se-  
curely hidden from the men who are  
seeking his destruction.

There is little doubt that Merrill was  
shot down from behind by Tracy, and  
was afterward shot twice as he lay on  
the ground. The fact that Tracy es-  
caped without a scratch, makes his  
story of a duel in the woods seem im-  
probable, for Merrill, too, was handy  
with weapons, and would have been  
likely to leave his mark on Tracy in a  
fight of that kind.

Thrown over a log, head first, just off  
a road almost abandoned, the head  
buried and the hands and feet spread  
out and sticking up, the body of Dave  
Merrill was found Monday morning,  
four miles southeast of Chehalis.  
Since coming into the vicinity of  
Seattle Tracy has at once claimed  
that he shot and killed Merrill in a  
duel in the woods. His story was be-  
lieved by some, but by others it was  
thought to be mere bragadoon on his  
part. A little of Merrill's story con-  
firms his statement, so far as the  
killing is concerned. The body was  
found within 200 yards of the main  
line of the Northern Pacific Railway.  
It was thrown behind an old log which  
lies alongside the road, and looks as  
if it had been pitched over head first.  
Merrill's body fell on some brush be-  
hind the log, and the murderer piled  
more brush over the form of his com-  
panion in crime to help conceal the  
body from passers-by.

On the road, within a few feet of the  
log behind which the body of the mur-  
dered convict was thrown, two .38-  
calibre cartridges were found, and  
eighteen or twenty paces to the north  
another was found. About midway be-  
tween where the cartridges were found  
stands a small cedar tree and the  
theory is that Tracy shot his com-  
panion from behind the tree and after  
Merrill had fallen, advanced and shot him  
twice more, making sure work of the  
man who had braved with him the  
dangers of breaking out of the Oregon  
penitentiary and had been his constant  
companion during the chase by the  
Oregon authorities.

The murder is supposed to have taken  
place about 6 o'clock Saturday morn-  
ing, June 28th. The body when found  
was badly decomposed. It is impos-  
sible to recognize the features, but the  
scars on the hands and foot and knee  
of Merrill are found upon this body. Ben  
Merrill, a brother of the convict, is now  
working in a livery stable in Chehalis,  
and he is satisfied that the body is that  
of his brother.

#### INDIAN FAMINE CONDITIONS.

LONDON, July 1.—A dispatch has  
been received here from the Govern-  
ment of India, Lord Curzon of Ked-  
leston, saying that better conditions  
prevail in the famine districts of In-  
dia than have been indicated by the  
recent press reports. There have been  
heavy rains in the Assam, Burmah,  
and coast districts, useful showers  
have fallen in the Rajputana region  
and in Upper India, but more rain is  
needed in the Bombay Presidency, the  
central provinces and the Berar terri-  
tory. The number of persons now giv-  
ing relief amounts to 429,000, which is  
a decrease of 20,000.

## THE INCOME TAX.

The Income Tax, which passed the last legislature, is once more to be attacked. It has been held to be constitutional, but Tom Fitch feels that he can break the law, and is willing to make a fight for it upon a contingent fee. It has always been a measure which has been earnestly fought. Twice it has passed the legislature and twice it was so drawn that it would not hold water. The last legislature passed an act which did hold water, and taxes were collected under it. It is possible that there is some flaw in it. Tom Fitch seems to be certain that there is a good fighting chance, and others think that the tax will be regarded by the Supreme Court of the United States as unconstitutional without the shadow of a doubt.

The Income Tax here has always had strong advocates upon the ground that a large number of people, especially professional people escaped taxation. A man making \$10,000 a year from his profession, might have a small amount to pay upon his furniture and his horses and carriage, but if he lived in a hired house, and owned no real estate he escaped with very little taxation indeed. The disproportion between his taxes and the taxes paid by the poor man who had an income of from \$300 to \$500 a year was clearly shown and strongly commented upon. The tax certainly last year reached a number of people who had never been properly reached before.

Taxes, however, which cause a large amount of friction are to be deprecated, even if there is no constitutional objection to them. It is one of the fundamental rules of taxation that taxes should be such as can be easily and economically collected, and such as cause the least amount of friction in the collection. If a tax is objectionable to the whole community, some other plan should be sought for raising the necessary funds for carrying on the work of government.

It is no use now going into the arguments which have been used in passing the Income Tax bill through the legislature. That the reasons were cogent is proved by the fact that it passed such a legislature as the last. It was carried in a House and a Senate which was intensely opposed to the Governor and the Territorial government. The question now stands on an entirely different basis. If the Supreme Court of the United States declares it unconstitutional, that ends the matter once and for all. If the same court does not find it unconstitutional the objectors will have to fight the matter once more in the legislature, and the arguments already urged in its favor, can be brought once more to bear. It must be remembered that the Supreme Court of the United States has never declared a state or territorial Income Tax unconstitutional. It has pronounced an unconstitutional the particular federal income tax law which was brought before it.

## WARNING GUNS.

The preparations for a vigorous campaign are pretty nearly completed. All parties have prepared their line, and we may look for vigorous work. There is far more earnestness than was shown two years ago, and the fight for supremacy will be very much more carefully conducted than it was at that time. Men of all classes have learned a bitter lesson, and they more fully recognize the necessity of work before the election. They realize that the work must be done before election and that it is hopeless to attempt anything after.

In 1900 a fair fight was put up for the delegateship. It was, however, no fight to a finish. It might have been a very much stronger fight. The majority which seated Robert Wilcox in the place was after all only a narrow one, just a little over 200 in a vote of over 5,000. It was no sweeping victory, though it was heralded as such. More thorough work could have easily overturned that narrow majority into defeat for the Home Ruler and into victory for the Republican.

Out of evil cometh good, out of the strong, sweetness. A party may learn more from defeat than ever it can gain from victory. We now know the value of the Delegate in Congress far better than we did two years ago. We have learned, and the Hawaiian voter has learned, that the man who represents the Territory in Washington must be an able man and not an incompetent idler. The position of Delegate calls for work, and work of the hardest kind. The Delegate has to represent the whole Territory and not one section of it. The Delegate must be diplomatic and must win friends both in Congress and in the Administration. He must work with and through the party in power. His information upon the resources and needs of the Territory must be broad and thorough. Such is the man that the Territory requires. When it elects such a man, it may expect to obtain what it wants and what it urgently needs from Congress.

The cry of "anything to beat Wilcox"

is really not a true cry. It is union of parties to send a man to Congress who will truly represent the Territory, who understands the needs of the Territory, and who will work for the Territory, that is the true cry. Wilcox is but a feather weight in the matter, and the utter incompetence of Wilcox is now discovered. He and his gang have been clearly shown to be completely self-seeking and selfish and unable to grasp the situation, and view it from a broad standpoint. It is not anything to beat Wilcox, the man, but it is dire necessity to beat the lack of policy, the childishness, the incompetence which Wilcox represents and which he would perpetuate. The campaign is not a personal one. It is a campaign of principle.

Who cares for the personality of Wilcox. No one. But the Territory at large does want the sound principles of an earnest and faithful public servant in its Delegate at Washington. It does not want a time-server, a fifth-class politician or an ignoramus to represent it.

Nothing has done more to injure the Hawaiian in the eyes of American statesmen than the election of such a Delegate as was elected to the fifty-seventh Congress and such a legislature as disgraced the capitol building in 1901. This is realized by the young Hawaiian party. It is not that the Hawaiian is incapable. Those who have lived with the Hawaiian for the greater part of a life-time, or who have been brought up in intimate contact from childhood, know a great deal better. But it is that the men who were put up to represent the Hawaiian, utterly misrepresented him, and made him look like a child, thinking of only childish things.

This election will remedy this, if not completely, at all events in a great measure. The misfortune of the error of 1900, however, is that an impression once made is hard to eradicate. The first election for the Territory of Hawaii made an extremely bad impression. It was the more so because there was every reason to think that it would be different. The disappointment of the friends of Hawaii in Congress was keen. When the actions of the legislature came to be understood and appreciated the disappointment was still keener.

There is, however, a very evident determination that this coming election is going to show that the Hawaiian voter is not the unthinking creature which the present Delegate and his followers misrepresent him to be. The position is far better understood than it was two years ago. The illustrations can now be drawn from fact and not from theory. There is nothing which can be more cogently used in argument than fact. An ounce of fact is worth half a ton of theory any day.

Certainly we can go into this campaign with far greater hopes, with nobler aspirations, than we did two years ago. There will be general improvement among all the parties, and there will be increased strength among the Republican party.

The hobo is not wanted in this community, any more than he is sighted for upon the mainland. If most hobos could have a turn at coal passing when rounded up, it might serve as a deterrent upon the more enterprising of the fraternity who come down here to enjoy a "dolce far niente" life, a picnic of "sweet doing-nothing." The hobo is part whining beggar, part sneak thief and whole blackguard.

Wray Taylor's idea that essays upon the fair should be written by the school children in competition for prizes is by no means a bad one. Unfortunately the fair comes during the vacation, and many of the brightest and most advanced pupils have taken the opportunity of visiting the mainland, or the other islands. There ought to be competitors, however, among those who have elected to stay at home.

The question of labor is one which will occupy the attention of the Central Committee of the Republican party, and should occupy the attention of the committees of all parties. The Japanese workmen come here now ostensibly to compete with American citizens. They are not imported by the planters as laborers, and rise from that position. They come trained and equipped to compete with the American and Hawaiian mechanics.

The festive thief is around and has annexed various articles of value. How jewelry is got rid of here is one of the small mysteries. In other countries the stones are broken out and the gold goes into the melting pot. There are of course regular "fences" away from here, but the "fence" of the Territory is an amateur. It is said, however, that boxes of jewelry and watches find their way to the coast from here, and the "stuff" is put on the market in various inland towns.

Nothing shows the necessity of extending the saloon limits more than the amount of illicit liquor selling. When ever there are no saloons within easy distance, there will always be illicit selling. The police, who have to deal practically with the illicit selling, are fully convinced of this. Many a man who is strong for temperance recognizes, as soon as he is Sheriff or Deputy Sheriff, that there are two sides to the temperance question, and that prohibition is not the safeguard it is theoretically represented to be.

## ITALY AND RUSSIA.

WEIRBALLE (Russia), July 12.—King Victor Emmanuel of Italy, who left Rome Thursday for St. Petersburg to visit the Czar, arrived here this evening. He was received at the railway station, which was decorated with Russian and Italian flags, by Russian Princes, and the party proceeded for St. Petersburg.

## LARGE FORCE REMAINS.

LONDON, July 9.—The Daily Mail this morning says the permanent garrison in South Africa is to be 50,000 men under command of Lieutenant General Lytton. Besides this force, the system of having a large number of reservists scattered throughout the country, either on farms or in official positions, will be extensively followed. The reservists could be called upon for service in case of an emergency.

## CHAMBERLAIN WILL PROSECUTE.

Collector Chamberlain has sworn to a warrant before United States Commissioner Gill charging Kawasaka with selling liquor in violation of the internal revenue license laws. Kawasaka was arrested by the police and pleaded guilty before Judge Wilcox. He will now have to answer to the federal authorities.

## CAPTAIN GREEN ILL.

The Nippon Maru's Commander Suffering From Overwork.

SAN FRANCISCO, July 15.—Although seriously ill from the effects of long vigils on the bridge and an attack of sunstroke while in the port of Honolulu, Captain W. W. Greene of the Japanese liner Nippon Maru insisted upon leaving his room as he neared the Golden Gate Monday afternoon, and bringing the big steamship into the harbor. He has since been confined to his bed on the steamer, which is still held in quarantine, but will probably come ashore today. On her last trip to the Asiatic coast the Nippon Maru put in at Manila, where a detention of six days followed, on account of the poor facilities existing for the discharging of the steamer's freight. There was more or less annoyance to Captain Greene, in consequence of this loss of time, and the navigating of the steamer through strange waters, and he was seldom absent from the bridge. On the return trip, when Honolulu was reached, Captain Greene was not in a condition to withstand the heat that was felt on the bridge, and he was forced to relinquish command of the vessel to Chief Officer Mori, a Japanese. For the remainder of the trip Captain Greene kept to his room until the pilot boarded the steamer outside the Heads.

T. W. Hobron recovered sufficiently to come down town for a few minutes this morning.

## The Oahu College

## WANTED.

When we called attention a few weeks ago to our new preparation called **Casara** we felt there was a demand for a really good article made from Casara Sagra. We were not mistaken and we are greatly pleased that the community has appreciated our efforts.

We offered to give free samples of **Casara** but few asked for them preferring to take the regular package being sure that we would not recommend it as we did unless there was real merit. They were right. This has always been our policy and customers know if the preparations are not as represented they get their money back. No risk taken in dealing with us.

**Casara** is a pleasant-to-take laxative made from the bark, Casara Sagra, which is well known for its most excellent cathartic qualities. It tones and strengthens and is a cure for habitual constipation. Children take it readily. Samples free.

PRICE 50 CENTS.

**HOBRON DRUG CO.**

FORT STREET,  
EHLERS' BLOCK.

## EDWARD ON HIS YACHT

THE KING LEAVES BUCKINGHAM PALACE.

Accompanied by the Queen he Goes Aboard the Royal Yacht and Arrives At Cowes, Isle of Wight.

LONDON, July 15.—King Edward left Victoria station at 11:35 o'clock this morning for Portsmouth. The King was conveyed from Buckingham Palace to the railway station in an ambulance drawn by two horses. The only other occupant of the ambulance was Queen Alexandra. The vehicle was drawn at a walking pace. Although there was a small crowd at the station, there was no demonstration in compliance with the expressed wish of the king. The doctors and nurses awaited the arrival of the ambulance and a party of blue-jackets removed his majesty from the vehicle to a royal saloon car formerly used by the late Queen Victoria. Absolute privacy was secured by a lofty screen of red plush which surrounded the platform.

PORTSMOUTH, July 15.—King Edward arrived here from London before 2 p. m. The removal of his majesty from the train to the royal yacht, Victoria and Albert, was safely accomplished by blue-jackets, and the King's couch was placed in a reception room which had been specially constructed on the upper deck. The war ships in the harbor fired a royal salute as the King embarked and all the vessels dressed ship and manned yards or decks. The royal yacht steamed off almost immediately after the transfer was completed.

COWES, (Isle of Wight), July 15.—The royal yacht, having on board King Edward, Queen Alexandra and the Princesses, anchored in Cowes roads today at 4:30 p. m. after a short cruise. The King was not fatigued by the journey nor in the least distressed by the transfers, and that his majesty expressed great pleasure at the change.

## RACE DAY FEATURES.

Programme Promises Exciting Events For Saturday.

Three entries have been made for the cowboys' two mile relay race and the event promises to be one of the features of the race program at Kapiolani Park on Saturday. Each contestant has two horses, each of which will run one mile. The relay horse must be saddled, bridled and bitted, hackamores not being allowed. The Gentlemen's riding race has eleven entries for competition over the mile, which, it is rumored will be negotiated in less than two minutes and a half. D. H. Davis, W. E. Albert, George Lucas, Robert Ballentine, W. H. Allen, W. E. Bellina, C. H. Bellina, Bert Colburn, Dr. Joe Shaw and James Quinn. As some of these are not experts in the saddle, however good they may be in the sulky, much merriment is expected from the race. All the harness races have been filled and the horses are being worked daily at the track. Some close finishes are expected.

The Jockey Club will hold a meeting tomorrow afternoon at 5 o'clock when the proposition for a pony race, with three tentative entries, will be presented for their approval. The baseball league meets this afternoon to consider a proposal to postpone the regular league games until Tuesday. This leaves Saturday clear for the races. Monday will see the baseball match between the All-Honolulu and All-Maui teams and Tuesday afternoon the postponed matches from Saturday will be played.

All the lighting arrangements have been placed in the Merchants' pavilion.

## GOES TO BE MARRIED.

A. W. Dow, the traveling man for E. O. Hays & Son, leaves on the Alameda this afternoon for San Francisco to be married to Miss Caroline Howland of this city. Miss Howland went to the Coast on the last trip of the Zealandia. The marriage will occur at the home of Mr. Dow's mother, Mrs. M. C. Roe, at Mount View, Santa Clara County, California, and will be held soon after the arrival of Mr. Dow. Mr. Dow and his bride will return to Honolulu September 19 on the Sonoma, and will be at home at the Melrose after September 15. Miss Howland is the youngest of the three Howland sisters and has been a teacher in the Kaula school.

## IN THE POLICE COURT.

Much of the session in the police court this morning was occupied with trying seventeen Chinese alleged to have been present where gambling was conducted. The crowd was found guilty and fined \$5 and costs each. The police court will hold a session this afternoon when the several cases against Mr. and Mrs. August Herling, Charles Hazard and Henry Espinosa, whose arrests were made as the result of trouble over the possession of certain land by the Honolulu Plantation will be called.

A number of assault and battery and selling liquor without a license cases are also to be heard.

## WATER AT PUULOA.

The well being bored for water on the Dowsett Estate at Puuloa, Pearl Harbor, has struck plenty of water at a depth of 1200 feet. This is the regular Ewa level for finding the water and the Puuloa well presents other characteristics common to the water of that district. It is at present, while slightly brackish, perfectly useful for irrigation and cooking purposes, and is perfectly clear and quite cold. Ewa well boring has usually found the water at the twelve hundred foot levels to be slightly brackish, a quality entirely missing on going down to the fourteen hundred level. This will be done. The present strike was made exactly according to the forecast of the engineers in charge.

Star want ads pay at once.

## HONOLULU'S MUD BANKS

Many of the merchants in the vicinity of King and Fort and Merchant and Fort are complaining strenuously against the digging out of the sewer refuse from the corner sewers and leaving the mass to lie close to the curb for several hours during the hottest portion of the day.

On the corner recently occupied by the Hobron Drug Company and across from there, masses of black mud which had been dug up from the corner sewers early in the morning and were piled nearly a foot high, were still lying untouched or uncared at 2 o'clock this afternoon. The odor is objectionable and the mass is contiguous to the street crossings. Another deposit lies in front of the Pacific Hardware Company on Fort and Merchant.

It is claimed by the merchants that the deposits are breeding places for germs and the odor unhealthy as well as unpleasant as the hot sun slowly dries the surface of the mass. Such deposits should, they claim, be emptied directly into a dump cart and not left as a menace to public health and an eyesore to the cleanliness of the city. They declare that such action would not be thought of or permitted in a mainland city.

## ONE TWIN BEHIND TIME.

EL PASO (Tex.), July 15.—A Mexican woman in El Paso has given birth to two healthy children, the second was born six weeks after the first. The case has caused considerable comment among physicians.

## BAER'S NEW JOB.

NEW YORK, July 15.—John Willis Baer, secretary of the Christian Endeavor Society, has resigned that position to accept one as assistant secretary of the Presbyterian Board of Home Missions. He will take up his new duties on October 1.

## BEET SUGAR GRINDING.

LOS ANGELES, July 15.—Grinding will begin in the beet-sugar factories in Southern California about August 1st. The season's output is expected to be as large as it was last year. A force of men has been at work for months putting the machinery in the Los Alamitos factory in order for operating. Owing to the prevailing cool and foggy weather the beet crop has been slow in maturing, but has all the while been making tonnage, and the conditions have brightened the prospect for a good crop.

Many artesian wells have been put down since the last campaign on the lands tributary to the factory, and water from the factory wells has also been used to good advantage in irrigation. The draining system has been so changed that water from this source will be used for irrigation purposes upon land not largely productive heretofore. Last year's grind aggregated 69,000 tons of sugar.

## BALFOUR PREMIER

LONDON, July 14.—A. J. Balfour was today formally greeted as Great Britain's Premier and the new regime began its work. The momentous change was marked by only one dramatic incident, namely, the resignation of Sir Michael Hicks-Beach from his post of Chancellor of the Exchequer.

## FAMOUS TOWER FALLS

VENICE, July 14.—The Campanile (detached bell tower) of St. Mark's Church, ninety-eight meters high, collapsed at 10:40 o'clock this morning and fell with a great crash into the piazza. The Campanile, which was entirely detached from the cathedral, collapsed where it stood and is now a heap of ruins. Close investigation showed that the structure, in falling, carried away the Sansovino loggia and the liberty of the royal palace.

## CHALLENGES WRITER.

SAN JUAN, (Costa Rica), July 15.—Ex-President Iglesias has published a challenge to the author of certain anonymous articles in the local press. A sensational duel is expected to occur.

## SERIOUS RIOT IN IRELAND.

BELFAST (Ireland), July 15.—A report has reached here that a score of policemen and a district inspector were injured while attempting to quell a riot tonight at Newry, counties of Down and Armagh. A number of the Orange and Nationalist combatants also were injured. H. Bredin, a Presbyterian clergyman, was knocked from his bicycle and severely injured by a blow on the head with a stone.

## FOR ANGLO-AMERICANS.

A special to the New York Herald from London says: A meeting was held at the Carlton Hotel today to take the first steps for the formation of an Anglo-American Club, to be known as "The Pilgrims." The object of the club is social intercourse among Anglo-Saxons. General Joseph Wheeler presided. An organization committee was appointed, consisting of General Wheeler, Colonel Mahon and Messrs. Brittain, Hutchinson and Russell, which was empowered to frame a statement of the purposes of the club and articles for its government. At first headquarters will be established only in New York and London, but with the growth of the club branches are likely to be located at Paris, Berlin, Chicago and Washington.

## THE REASON.

Yes, count, in all the park there is no place I like so well as under this old, old tree." (Sighing sentimentally.) "There the tender associations, you see." "Aha, I comprehend, mamma. You have yourself planted the tree!"—Punch.

If you are young, you naturally appear so. If you are old, why appear so? Ayer's Hair Vigor will surely restore color to your gray hair, and will give to it all the wealth and gloss of early life. It will stop falling of the hair also; and will keep the scalp clean and healthy, entirely free from dandruff.

And it makes the hair grow thick and long. This is because it is a hair-food, giving to the hair just what it needs to make it grow as nature intended.

### Ayer's Hair Vigor

There's a pleasure in offering to you such a preparation; while you will certainly feel a sense of security in using something that others have used for half a century.

Do not be deceived by cheap imitations which will only disappoint you. Make sure that you get the genuine Ayer's Hair Vigor.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

## THE SHERIFF APPEALS

ANIM'S SMALL JUDGMENT FOR DAMAGES.

Says Brown Seized the Wrong Property  
And Is Awarded \$75 Damages—Other  
Appeals from Dickey.

High Sheriff Brown has taken an appeal from a judgment of District Magistrate Lyle A. Dickey awarding \$75 damages to Young Anim, on account of the closing of Anim's restaurant by the sheriff in carrying out an execution against the Yee Wo Chan Company. Anim's restaurant was on Maunakea street, and he swore that it was making a profit of \$20 a day. Deputy Sheriff McGurn appeared with an execution against the Yee Wo Chan Company and seized all the property in the restaurant, valued at \$100, closing up the place.

Anim sued for \$300 damages, claiming that the restaurant and all property therein were his, and had nothing to do with the Yee Wo Chan Company. He was awarded \$75 and costs by Dickey, and the High Sheriff has now taken the matter to the circuit court.

J. O. Carter et al. have appealed from Dickey's decision against them in the case of E. A. Carter et al. vs. Sylvester Nobriga. The suit was for taxes amounting to \$36 on property which Nobriga was alleged to hold under a lease which required him to pay the taxes. He did not do so and the plaintiffs paid the money and sued to recover it. Dickey gave judgment for the defendant, Nobriga, disclaiming the lease.

In the case of the Washington Mercantile company vs. Fu Tuo Kee, a suit for \$242.56 on notes in which a non-suit was granted, an appeal has been filed also.

The Robert Greive Publishing Company has taken out an execution against J. M. Foepoe for \$92.89, on a judgment given by Dickey.

### MEXICAN BONDS.

In the spring of this year \$5,000,000 Mexican government bonds, bearing 5 per cent interest, were issued and about one-half were disposed of by private sales and subscriptions. The remainder have been placed on the New York and foreign markets. The bonds are in denominations of \$100, \$500 and \$1,000 and in coupon form and the interest is payable semi-annually, but the income to the investor depends somewhat upon the rate of exchange for Mexican dollars. The April coupons were paid at the rate of .44c which assuming the purchasing price of the bonds to be par, is an income of 5.35 per cent. The bonds, at last accounts, were quoted at \$94.00 and accrued interest in current United States funds for each \$1,000 in Mexican money. That practically means par. The total indebtedness of Mexico, computed in United States gold, is \$168,348,440, or \$13.35 per capita, and its interest charge is less than any of the great nations, except the United States and Japan. The Mexican Secretary of Finance estimates the total revenues for the fiscal year 1902-1903 at \$64,823,400 Mexican money, which is an increase of \$2,465,714 over the past fiscal year.

### HUI KUOKOA MEETING.

Constitution Adopted By the New Party Last Night.

The Hui Kuokoa held a meeting last night in Foster's hall for discussion of the constitution of the party. Prince "C" presiding. The constitution was approved, with the exception of the following in the preamble, referring to the failure of the last legislature to accomplish anything: "Owing to such failure and the fact that the majority of both houses was composed of Hawaiians, the capacity of native Hawaiians for self-government has been seriously questioned." Some of those present at the meeting were disposed to think that there was a reflection on Hawaiians in this paragraph and after a good deal of discussion it was ordered translated into Hawaiian and held for further discussion.

The rules and by-laws were passed, and next Thursday evening was decided on as the day for holding the party mass meeting. The meeting will be held in the Orpheum.

### BUILDING EXCHANGE FUND.

Contingent Fund to be Raised by Small Commissions.

The board of directors of the Builders' and Traders' Exchange at a meeting last night adopted reports and rules making operative a motion which provides for the payment into the funds of the exchange one-half of one per cent on all contracts performed by its members in Honolulu, Pearl City or Pearl Harbor, this includes agents commission for sales of real estate or insurance written on buildings under construction and the fund thus realized is to be known as the special contingent fund to be loaned or otherwise invested until it attains sufficient dimensions to constitute the building fund of the exchange. One part of the adopted rules provides for a discount of one half of one per cent to be received from any member buying materials from another member of the exchange. This discount will be applied to the fund. The report of the Legislative committee was received and a special meeting called for Wednesday, July 30 when the matter will be considered.

### A LONG DRIVE.

Dr. E. M. Koonce, a missionary at Rampart, Alaska, drove 1200 miles in a dog sled on his way to attend the Presbyterian anniversary held in New York recently.

## THE FIRE CLAIMS FEE

MAGOON DEMANDS RETURN OF SUM PAID.

Question of the Right of the Commission to Charge to Go to Supreme Court.

The question of the right of the court of Chinatown fire commissioners to charge fees for the certificates that are to be taken to the Supreme court, on an agreed submission of facts, J. Alfred Magoon who paid his fees under protest, has made a demand on the commissioners for the return of his money, amounting to nearly \$200 and the commissioners having refused the demand, the question of the legality of the charges will be submitted to the Supreme court.

The fees paid by Whiting and Robinson, amounting to about \$2,100, were also paid under protest, but that firm has not made any appearance so far in the contest of the fees. The matter was referred to Attorney General Dole who with Magoon, will probably agree upon a statement of the facts of the case, which are simple, and ask the Supreme court to decide the law. The facts are simply that the fire commissioners, under the Chinatown act of 1901, imposed certain charges upon claimants for the making of certificates.

Section five of the act creating the commission declared that it should have the right to "make all necessary rules and regulations for conducting its business." It is claimed that the charging of fees comes within this rule, and that the fee-charging is enforcement of a rule adopted by the court.

In Section 16, however, the act appropriated \$17,400 for the expenses of the commission, and it is claimed that this section was intended to limit the expenditure to the amounts it set forth, though it does not expressly do so.

## BITTING FOUND OUT

CHINESE SHOWED WHAT HE WANTED TO KNOW.

Attorney Given a Practical Illustration of How an Alleged Assault and Battery was Inflicted.

The first of the numerous assault cases growing out of the land dispute between the Honolulu Plantation and August Herring was heard in Judge Wilcox's court yesterday afternoon. The first hearing resulted in a victory for Herring the defendant. Herring was charged with assault and battery with a weapon obviously and imminently dangerous to life, a Chinese named Buk Hook being the complainant.

C. C. Bitting appeared for the defence while F. F. Thompson conducted the prosecution. It appears that the Chinese was on the land which Herring claimed and when ordered away, the Chinese refused to leave. Herring was alleged to have shoved a revolver under the nose of the Chinese and then caught the Chinese by the back and shoved him along.

Bitting was very careful in his cross examination of the witness. The attorney wanted to learn how the defendant had used the right hand in catching hold of the Chinese when the alleged revolver was held in Herring's right hand. Bitting got the Chinese to stand down from the witness chair and insisted on the witness explaining the position that Herring and the Chinese had been in when Herring was alleged to have caught hold of the witness. The Chinese tried, through the aid of an interpreter, to explain how the assault had occurred but this was not satisfactory to Bitting who persisted in the Chinese explaining the matter further and more in detail. Suddenly without an instant's warning, the Chinese made a rush at Bitting, grabbed him by the back and shoved and rushed him violently down the center aisle of the court room almost jam against the judge's bench. This practical illustration of the alleged attack was so sudden that Bitting stood bewildered after the Chinese had released his hold, while the court and every body in the room simply roared with laughter. This illustration effectually closed that particular line of cross examination.

Herring was discharged by Judge Wilcox however as the evidence did not justify holding the defendant to trial.

Herring's wife did not fare so well however. She was charged with assault with a weapon on Deputy High Sheriff Chillingworth. She was accused of having pointed a weapon at the officer's head when she thought he was going on the land which her husband claims belongs to him. She was committed to the circuit court for trial.

### A COMING WEDDING.

Mr. and Mrs. Ulrich Thompson have issued invitations to the wedding of Elizabeth Williams Paris and Louis John Warren, to occur Monday, August 4, at 8 p. m., at Kamehameha. Mr. and Mrs. Warren will be at home after September 15, at 1259 Lunalia street.

### FERREIRA'S CASE WAITS.

Owing to the continued absence of Judge Gear the case of Domingo Ferreira, habeas corpus, was postponed again yesterday by Judge Robinson. The hearing of the matter was begun by Gear before he left. The hearing is now set for July 29.

THE PORTLAND  
ARRIVES SAFEFREE FROM THE ICE PACK AND  
GETS TO PORT  
TOWNSEND.THRILLING MOMENT WHEN THE  
FLOE BROKE.Vessel Lifted Up Quivering On the  
Crushing Ice and Dropped Back In-  
to the Water.

PORT TOWNSEND (Wash.), July 15.—The steamer Portland, Captain Lindquist, for which fears were entertained in the ice floes of the Arctic seas, came into port this afternoon looking none the worse for her experiences in the north. While conceding that the vessel had a very narrow escape, Captain Lindquist asserts that he felt throughout the trying days of her imprisonment that she would come out all right. His principal fear centered about the time the jam would take place, and the events at that momentous time showed that he had good cause for fear.

When the smash-up occurred the staunch Portland was lifted like a cork high out of the water, held a few moments, which seemed centuries on top of the quivering mass, and then the ice settled out from under her and the vessel was dropped violently back into the water, churning up a mighty wave that drenched the packet from stem to stern.

From May 7th until June 27th the Portland was at the mercy of the ice floes, and in that time was carried from latitude 59 deg. 15 min. north and 168 deg. 2 min. west to 69 deg. 8 min. north and 169 deg. 5 min. west, every passing day having its terror concerning the final dissolution of the floe. The calm determination of Captain Lindquist and his officers went for toward convincing the passengers and few gave utterance to their fears.

When the pack passed Cape Prince of Wales, four venturesome passengers left the Portland to make their way ashore. After proceeding forty miles, the party returned bearing W. S. Biles of San Francisco with both feet frozen. This was the only accident marking the entire trip of the Portland.

Captain Lindquist ascribes his vessel's predicament to overenthusiasm in the race to reach Nome first with tidings from the outside to the people who had been isolated for many months. The Portland being in advance of the procession, was more firmly caught than were the other vessels, which met only the slush ice and were enabled to back out when the pack came down on them. May 19th the heavy pack came down and the Portland was cut off from all possible chance of escape.

Several days later the Jeanie appeared on the scene and was soon a prisoner, and the two vessels remained in the ice until June 27th, escaping within a few hours of each other. On June 5th the Portland was carried through Behring straits at a high speed on the floating field of ice, impelled by a strong northerly current. Twenty days later the highest point was reached, the vessel being then 69.08 degrees north and 168.06 degrees west. Two days later the watch from the forepeak shouted "Clear ahead!" and after that the break-up occurred.

After being raised high and then plunged back again into the icy water Captain Lindquist knew that the long-looked-for opportunity had arrived, and soon had the Portland bucking with all her weight and the full strength of her engines against the apparently insurmountable barriers of the ice between her and freedom. Time after time the plucky vessel bounded back from the wall of ice, but, nothing daunted, Captain Lindquist persevered, and, after six hours of the hardest sailing ever done by the Portland, she forced the ice apart and went scudding out into her native element.

The rejoicing on board was something indescribable, tears and cheers intermingling with the shrill scream of the whistle signalling victory to the Jeanie.

With this vessel the same course was pursued. Six hours after the Portland was free the staunch old Jeanie, Captain Mason, came steaming out to join her and both proceeded to Nome, where they were received with great enthusiasm. The Portland had sustained no injury whatever in the rough experience among the icebergs. The Jeanie had her propeller broken and had to be assisted to Nome, where she still was when the Portland left.

In the cargo discharged at Nome were several large and finely constructed dorries not on the manifest. These were the result of the care and foresight of Captain Lindquist, who had them constructed from the lumber aboard to be used if an emergency required the passengers and the crew to take to the boats.

The Portland sailed from Nome on July 4th, at which time the cutter Thetis had not returned. She should have been back several days before, and some uneasiness was felt for her. It being the intention when the Portland sailed to send out other ships in search of the Thetis at once, to relieve her if in distress and to communicate the news of the safety of the Portland and Jeanie, for which she had been prosecuting such a dogged though unsuccessful search. The Thetis is a staunch craft, built especially for the ice sea work, and little fear is manifested except that her machinery may have become disabled, in which event assistance would be necessary to bring her back to port.

The Portland left here tonight, bound for Ladysmith to coal prior to sailing for San Francisco to make her second trip to Nome.

## IROQUOIS WILL STAY

CAPT. RODMAN IS NOT TO TAKE  
MIDWAY CRUISE.Failure of the Navy Department To  
Send an Extra Officer Causes the  
Trip To Be Abandoned.

Captain Rodman has abandoned his cruise to Midway Island and the other islands lying to the northwest of this group. The Navy Department has aimed to have the Iroquois make a cruise to that section of the Pacific every year, but last year the trip could not be made by Lieutenant Commander Pond, who was then in command of the vessel, and now Captain Rodman, the new commander, is unable to make the trip. The delay and final abandonment of the trip was due to the failure of the Navy Department to send an assistant officer to the Iroquois. Captain Rodman could not have made the trip with no other officer along to assist in the navigation of the vessel, so the exploration of the waters about the islands will not be made before next year.

The particular section of the Pacific to which it was proposed to dispatch the Iroquois, is one of the most dangerous in that ocean for the reason that it lies out of the track of usual routes taken by vessels, and little exploration of the place has been done. It was proposed to rechart the various islands and reefs and take soundings, as it is thought that there are many uncharted reefs and dangers to navigation, of which sailing people have no knowledge. The trip will be quite an important one when undertaken, and it is thought very probable that arrangements will be made by the Navy Department by which the Iroquois can make the voyage next spring.

It is expected that Captain Whiting, the new commandant of the local naval station will arrive here the end of the month.

Assistant Paymaster Hall was examined yesterday by a medical board for physical injury sustained some time ago by being trampled upon by a horse. While the board seemed to think that Lieutenant Hall might improve by leaving this station, he expressed the desire to remain in Honolulu.

Admiral Merry has made arrangements with Wray Taylor, the Commissioner of Forestry, to secure cuttings of the various floral trees of the islands for the purpose of planting them in the Waikiki end of the Naval grounds. The Naval station beyond the grounds has been filled in and will be shortly planted with the cuttings and plant seeds secured from Commissioner Taylor.

Admiral Merry has been highly successful in his work of beautifying the naval station, and by his capable administration here has made it into one of the prettiest spots in the city. The cost of administration has been very low and when he retires from command of the Honolulu station, it will be with the satisfaction of having conducted the affairs of the Navy Department in these islands with marked success.

## FUEL OIL IN THE NAVY

ADMIRAL MELVILLE MAKING  
EXPERIMENTS.

Many Kinds of Oil Burning Apparatus Offered. A large per cent Worthless. Careful Tests of Others.

WASHINGTON, July 12.—Admiral Melville today discussed the Navy's experiments in the use of oil for fuel. An experimental plant consisting of a typical marine boiler fitted with all scientific appliances for testing the steam-making qualities of coal and oil has been set up on the banks of the Potomac here. Tests of coal fuel have been made for years past at this plant and accurate records kept, which will be compared with the record made by oil fuel. It is thought the experiments will cover a year's time, employing all oils produced in the United States, but particularly California and Texas oil. "We have received 2500 different oil burners," said Admiral Melville, "some of them patented. Ninety per cent of them are practically valueless and will be discarded without testing. The other 10 per cent will be carefully tested. The experiments are in charge of Lieutenant-Commanders Edwards, Wythe, M. Parks and F. H. Bailey.

"You will die of old age, my boy, before oil is used as fuel in the Navy," said Admiral Melville. "There are a thousand reasons, but the principal one is that coal is available for the Navy's ships all over the world, while oil is not. We will not abandon our projects for four coaling stations on the Pacific Coast just yet. But it makes little difference to the public whether the Navy uses oil or not. The Navy has only 600,000 tonnage to 60,000,000 tonnage of the merchant marine. The Navy will be using coal for fuel when the merchant marine will be using oil.

"I believe that oil is the coming fuel for a large proportion of the merchant vessels. Our experiments will therefore be of great value, even though the Navy itself does not adopt oil fuel.

"I am satisfied our tests will show oil superior to coal from an economic standpoint, which is the first consideration in the merchant marine. It is not the first question to be considered.

PELEE ACTIVE.  
FORT DE FRANCE, July 11.—There was a fresh eruption of Mont Pelee this morning.

ST. THOMAS, July 11.—Advices received here from the island of St. Vincent says that three earthquake shocks were experienced there Tuesday within four hours.

The Kuokoa party will hold a mass  
meeting at the Orpheum Theater,  
Thursday evening, at 7:30.

Some new handsomely illustrated cat-  
alogues of "Al Vista" cameras being  
distributed gratis by Honolulu Photo-  
Supply Co.

A. H. Crook, formerly with the De-  
partment of Public Instruction, has  
been admitted to the bar by the Su-  
preme court.

Sam Parker and Judge Gear are ex-  
pected back on the Mauna Loa next  
Friday morning. The last mail brought  
a letter from Gear stating that he  
would be back on Friday and would  
hold court next week.

There will be a special meeting of the  
Hawaii Fertilizer Company tomorrow  
morning, the same having been post-  
poned today for the lack of a quorum.

Important questions relative to plan-  
tation interests are said to be on the  
 tapis for discussion.

The Chamber of Commerce officials  
will meet R. W. Irwin this afternoon at  
a quarter past two to consider the  
proposal for Mr. Irwin to act as the Ter-  
ritory's commissioner at Osaka, Japan,  
during the forthcoming exposition at  
which Hawaii has decided to exhibit.

The third annual report of the Asso-  
ciated Charities has been published in  
pamphlet form. The receipts for the  
year were \$1,710.41; the balance over  
from the previous year \$754.64, and the  
disbursements \$2,132.02. It is stated  
that it costs \$2,500 a year to carry on  
the work.

MADE INVOLUNTARY ASCENT.

MILFORD, Mass., June 30.—Three  
thousand people stood breathless yester-  
day while Louis Ward, aged 29,  
made a thrilling involuntary balloon  
ascension, hanging by the foot, while  
he was carried 3,000 feet high and  
landed in safety a mile from the start-  
ing point.

Ward was assisting Prof. Hillman, a  
professional aeronaut, who has been  
giving balloon ascensions and para-  
chute exhibitions at Hoag park. Ward  
started to get out of the way as the  
balloon was released, but his foot  
caught in one of the guy ropes and, to  
the horror of the several thousand  
spectators, he was carried into the air  
suspended head downward. His weight  
held the balloon on its side, in danger  
of an immediate collapse and certain  
death to both men. Hillman acted  
quickly. Ward dangled from the bal-  
loon about ten feet above the aeronaut  
and beyond his reach. If the balloon  
was brought to an upright position  
there was some chance for Ward, so,  
after a few words of advice as to how  
to secure himself and draw himself  
upright, Hillman released the para-  
chute when but 200 feet in the air and  
came safely to the ground.

The balloon, freed from this weight,  
righted itself and shot upward to a  
height of 3,000 feet and across the lake,  
which is about half a mile west. The  
balloon soon began its descent, coming  
down easily and gracefully and Ward  
landed in a tree unhurt.

MINE DISASTER.

SALT LAKE (Utah), July 16, 2:30 a.  
m.—A telephone message just received  
here from Park City says that the ma-  
chine on the 1200-foot level of the  
Daly-West mine exploded at 1 o'clock  
this morning, causing great loss of life.

One hundred and fifty men were at  
work in the mine at the time of the ex-  
plosion. At this hour, 12:30 a. m.,  
eighteen bodies have been recovered,  
and it is feared the death list may ex-  
ceed 100.
