## The Powers Stirred Up By Russia

(Associated Press Cable to The Star).

ST. PETERSBURG, July 19.—Germany has asked for an explanation of the recent seizure of mails by the Russian cruisers.

LONDON, July 19.—The Cabinet is considering the recent seizure of British ships by Russian war vessels.

## Another Reported Disaster

CHEFOO, July 19.—A junk from Port Arthur reports that 4,000 Japanese captured a fort on the east side of Port Arthur. The Russians thereupon exploded a mine, annihilating the Japanese forces, says the report. A steamer, believed to be the Hipsang, has been sunk by Russians, the Russians mistaking her for a Japanese transport.

WILL PROTECT KOMMANDER SEALS.

ST. PETERSBURG, July 19.—America has announced that she is willing to join with Great Britain in the protection of the seals in the waters of the Kommander Islands.

JAPANESE SEIZE STEAMER PIEPING.

SHANGHAI, July 19.—The steamer Pieping has been seized by the Japanese warships and taken to Japan. It was claimed she carried contraband articles of war.

CLAIM MALACCA AS A PRIZE.

SUEZ, July 19.—The steamer Malacca which was seized in the Suez Canal some days ago is now en route to the Baltic Sea as a Russian prize.

## PORT ARTHUR ATTACK

JAPANESE EXPECT THAT IT WILL OCCUR NEXT MONTH, BUT STRICT CENSORSHIP KEEPS THE NEWS OUT OF THE PAPERS—HEAVY SIEGE GUNS BEING SHIPPED FROM JAPAN FOR THE FINAL ATTACK.

The Japanese attack on Port Arthur is to take place early in August, according to reports which were very much current among Japanese in Yokohama and other Japanese cities, as described by Japanese passengers on the China. The press censorship is so strict all over Japan that practically nothing gets into the papers except details of events that have transpired, but there are many reports current in the cities. According to these reports the Japanese armies at the front have not yet received the heaviest guns, to be used in the general attack on the Russian stronghold.

The heavy siege guns are now on the way to General Kuroki and Oku, it is stated. Transports are leaving Japanese ports constantly with heavy guns and supplies, and it is for these that the commanders at the front will wait before making the attack. Not the slightest detail about the movements of transports or troops is allowed to find its way into the press, or to leave Japan at all where it can be prevented from doing so.

Passengers on the China also brought further details of the demolition of the house of a citizen of Nagasaki, who is alleged to have been giving information to the Russians. He is a large merchant who has been doing a heavy business with Russians and was suspected of being in sympathy with the national enemy. The report was current that he had been instrumental in giving Admiral Skrydloff the information which the admiral evidently had regarding the movements of the Japanese transports which the admiral sunk, and a mob gathered at his dwelling and razed it to the ground.

## JAPANESE WAR NEWS

According to Japanese newspapers, many of the officers of the Japanese transports which were sunk by the Russians under Skrydloff, who are supposed to have committed suicide, are alive and are prisoners in the hands of the Russians. According to the same reports there are now over a thousand Russian prisoners in Japan and a couple of hundred Japanese prisoners in Tomsk. It is stated that some Russian revolutionary literature was sent to the Russian prisoners in Japan and the Japanese authorities refused to allow the literature to be received, returning it to the senders.

The Jiji says that according to information from a reliable source, Lieut. Commander Mizoguchi, the officer in charge of the Kinshu Maru, was not

the only Japanese officer prisoner taken on the occasion of the Kinshu's sinking. Most of the military officers on board the ill-fated transport are said to have been captured. Those who were reported as having committed harakari and who were given posthumous honors, are still alive.

The Russian officer prisoners at Matsuyama have so far been allowed twice to visit the Doga hot springs and are still eager to take the natural baths at the famous resort. All the officers are pleasantly spending every day taking baths or walks except Colonel Mertchansky, Regimental Commander, who has confined himself in a room since his arrival in Japan being always depressed with grief.

## SIMS WENT TO THE CONVENT

TESTIMONY OF THE MOTHER SUPERIOR IS TAKEN WITHOUT JUDGE GEAR.

Mahomed did not go to the Mountain nor did the Mountain go to Mahomed. In other words the case of Holt against Christian continued in Judge Gear's court this morning despite the fact that no evidence was given before Judge Gear.

The witness to be examined as to the mental responsibility of Eliza Holt whose alleged marriage with Albert Christian is the cause of the suit, was Mother Superior Judith of the convent of the Sacred Heart. Judge Gear had already placed himself on record as objecting to leaving his own court room for the hearing of evidence and Mother Judith by the rules of her order is not supposed to leave the convent. The difficulty was solved by the appointment of Clerk of the court W. R. Sims as Master in Chancery for the purpose of taking the testimony of Mother Judith.

To the convent then went Master in Chancery Sims accompanied by C. C. Blinn and A. A. Wilder for the prosecution, F. W. Milverton for the defense and stenographer P. Maurice McMahon. The evidence given by the Mother Superior was to the effect that during the time Eliza Holt was at the convent she was mentally deficient. She was fourteen years of age but her companions were always the slightest girls. She was unable to learn any but the simplest things and required much more attention than other girls of her age.

## ANNEXED EVERY THING IN SIGHT

FORMER EMPLOYEE OF YOUNG BROTHERS IN TOILS ON SERIOUS CHARGE.

G. Bietchel a former employee of Young Brothers, is under arrest charged with the theft of a quantity of articles and some money from his former employers. The pilfering is alleged to have extended over some months.

Bietchel is alleged to have taken about \$200 in money, some watches, a guitar and other articles. He disposed of them at various places, according to the charges made today by the police. While there was at first no clue to the perpetrator of the thefts, suspicion was directed toward Bietchel. The man is charged with taking about \$14 in cash from Young Brothers place at Kakaako Point last night. Captain of Harbor Police Harry Flint was detailed on the case and succeeded by some creditable work in arresting Bietchel and getting some strong evidence against the defendant. Bietchel is understood to have confessed to Flint and to be with the officer this afternoon trying to recover the stolen goods.

## ATKINSON AFTER MOSES

DECLARES THAT BERKELEY PROFESSOR DOESN'T KNOW WHAT HE IS TALKING ABOUT.

An irate man was Acting Governor Atkinson last evening when he read in the Star the strictures which Bernard Moses, Professor of history at the University of California, saw fit to pass on the people of Hawaii.

"I don't know who Professor Moses is," said the Acting Governor today, "but I do know that he has no knowledge whatever of the matter that he discusses. It is not for me to make any special pleading on behalf of the Hawaiian people but when a man deliberately puts himself on record as saying that the Hawaiians have no conception of government in the sense that such obtains among civilized people he simply writes himself down as an ass. We have had our troubles here—what country has not? The Hawaiians have asserted themselves and that fact alone shows them not to be incapable of self government but rather accentuates their right to self-government. There may have been mistakes in extending the franchise in different parts of the country but no such mistake was made here. In this respect I simply want to quote the words used by Governor Carter in his official report to President Roosevelt regarding Hawaiian affairs under date of April 27 last."

The Acting Governor turned to his files and read from the official correspondence the following paragraphs which the governor of the territory invited to the chief executive:

"Owing to the exceedingly poor record made by the legislature, almost all the different interests here were opposed to my calling a special session, urging me to conduct the government on the basis of former appropriations as provided in section 54 of the Organic Act. It was claimed that there would be only a repetition of the former session, with its dilatoriness, extravagance and scandal. Yet I felt that the question at stake was whether or not the voters of this Territory were fitted for self-government and that it was my duty to fairly test this question and that an opportunity should be given the representatives of the Hawaiian people to show their ability to meet a crisis by enacting prompt and efficient legislation."

"Of the many serious problems I have had to struggle with, since November last, none has been more difficult, and notwithstanding the fact that I could find no one to support my contention, other than members of the Legislature itself, finally determined to go it alone and appeal to the people, through their representatives, to re-establish the honor and integrity of the Territory. Having given ten days notice of the special session, the interim was employed in curtailing the expenditures of the Territory about fifty per cent, so that the legislature might at once have my suggestions as a basis for their work. The members of both houses proceeded promptly to business and passed fourteen bills within twelve days when they adjourned. All these bills dealt with financial problems and the result has been that there is at once a better understanding between our banks and the treasury with a safer feeling in business circles."

"Our legislature is composed of fifteen Senators and thirty members of the House of Representatives. Of these, eight senators and twenty-one representatives—twenty-nine out of a total of forty-five—are native Hawaiians or partly of Hawaiian blood and I am glad to be able to state that they responded nobly to the emergency. The whole session was marked by the best of harmony between the Legislature and Administrative departments. The success of their work is all the more gratifying as it was in the face of many forebodings and predictions of failure."

"Governor Carter states the whole case there" concluded the Acting Governor "and there is nothing to add to it. It is a little wearisome to hear some persons airing their views when such views are based upon nothing but the most superficial observation and that is what Professor Moses has assuredly done."

## FOUGHT TO THE LAST

FIFTEEN MEN LEFT IN A RUSSIAN REGIMENT AND THE COLONEL STILL FIGHTING.

YOKOHAMA, July 2.—On the evening of the 25th inst. 339 Russians, taken prisoners in the Teh-li-se' engagement, were brought to Shimomoseki by the Steamer Kamakura Maru. Among these prisoners there was Colonel Nelchinskisky, 59 years old, commander of the Fourth East Siberian Sharpshooters, with whom a correspondent of the Tokyo Asahi had an interview. The old officer appeared much dejected, the correspondent stated, and said that his regiment had fought so severely that it was ultimately reduced to only 15 including himself. The officer, however, stood firmly beside the regimental colors until he was thrown off his horse which was shot, and he was at last taken prisoner. The same correspondent adds that the prisoners presented a diversified aspect as to their physique and uniform.

## LAWYER STRAUSS IS SENT FOR

JUDGE GEAR WANTS TO KNOW ABOUT A SUIT THAT WASN'T FILED.

August Johansen, a driver in the employ of the garbage department, preferred a serious charge against Attorney L. M. Strauss before Judge Gear this morning. He stated that on June 25 he had paid Strauss \$22.50 for the purpose of having a suit for divorce filed against his wife. He produced a receipt for this amount which he had been given by Strauss. The attorney, he declared, he found had never filed the papers although he had repeatedly declared that he had done so. Upon hearing this complaint Judge Gear at once issued an order for Attorney Strauss to appear and explain.

Johansen, who has been married four years, states that his wife was in habit of going out as soon as he went to his work at four in the afternoon. When chided for absences which extended over night and for frequenting saloons and other resorts with gentlemen the pleasure of whose acquaintance Mr. Johansen did not possess, Mrs. Johansen would reply that it was not of his business. Mr. Johansen demurred to the extent of applying, as he thought, for a divorce but here fate in the person of Attorney Strauss intervened.

HANLON IS LET LOOSE.

# THREATS TO BURN DENVER

DEPORTATION OF UNION MEN FROM THE COLORADO CAPITAL WILL RESULT IN A GRAVE OUTBREAK, SAYS A LABOR LEADER—THE UNION MEN HAVE STOOD ALL THEY CAN STAND.

JOLIET, Ill., June 28.—"If General Bell ever attempts to deport the union men from Denver, do you know what will happen? I will tell you. The union men will go, but before they do they will apply the torch to Denver; they will burn everything that can be burned in that city, and Denver will lie in ashes."

This statement was made today by C. O. Sherman of Chicago, secretary of the International Metal Workers' Union. Mr. Sherman was in Joliet on business connected with his union, and granted an interview, in which he predicted the burning of Denver if an attempt is made to deport the union miners from that city.

Mr. Sherman said he had a long talk with "Mother" Jones in Chicago yesterday. "Mother" Jones has been in Colorado several weeks, he said, and what she has seen is enough to stir the blood of all union men.

"The union men," she said, "were powerless to resist. The militia saw to it that these men would not have the weapons with which to defend their homes. Fathers and husbands were dumped out on the prairie without food or shelter, and their families were left behind to subsist the best way they could."

"To be a union man in Colorado now is to be put down and out. You may not even express sympathy for the miners without being marked by the despotic minions that now rule Colorado with the sword and the rifle."

"Let Bell try to drive the union men from Denver. If he ever does it Denver will sink in its ashes. There will not be left a thing that can be burned. The torch will be applied in every quarter of the city. The miners have stood about all they can. They must resent further indignities, and they will."

# RUSSIAN ACCOUNT OF BATTLE

TERRIFIC FIGHTING AND REPEATED BAYONET CHARGES BY JAPANESE AND RUSSIANS—JAPANESE DRIVEN FROM THEIR TRENCHES AT MOTIEN, SAYS GENERAL SAKHAROFF AND A COMPANY OF JAPANESE TROOPS NEARLY ANNIHILATED.

ST. PETERSBURG, July 5.—An insight into the terrific nature of the fighting which is now a matter of daily occurrence between the Russian and Japanese armies is given in a dispatch from Lieutenant General Sakharoff, chief of staff to General Kuropatkin, which was received by the general staff today. The dispatch is dated July 4, and describes an attack made by the advance guard of the Russian army operating east of Liau Yang upon the Japanese positions in the mountains near the Moa Tien pass.

Repeated bayonet charges made by the troops of both armies, and the almost complete annihilation of a company of Japanese troops, were features of the desperate battle which raged around the pass before the Japanese, according to the dispatch, were finally driven from the trenches.

The fact that Lieutenant General Sakharoff witnessed the fighting near Mo Tien pass is taken here to indicate that he is in command of the forces east of Liau Yang, which include the army corps under Lieutenant General Count Keller.

The fighting around Senu-Chen is taken to indicate that the Japanese are determined to hold the ground to the south as well as Dain pass until a favorable opportunity presents itself for an advance on Yin Kow (the port of New Chwang).

Lieutenant General Sakharoff telegraphs as follows:

"On July 3 the advance guard of the Russian force operating east of Liau Yang occupied a position at Lang Tse pass. Toward evening the same day our scouts ascertained that a detachment of the enemy's advance guard, 1,500 strong, had occupied the villages of Ekhuayuan and Teh Kumen Za on our front, the main force having remained in Fen Shui and Mo Tien passes. At this moment we discovered the movement of a Japanese detachment, consisting of a battalion of infantry, to turn our left flank positions in the Yang Tse pass in the direction of Lian Dian Sian. In order to check this movement a force consisting of five companies of infantry, two detachments of mounted hussars, and half a company of Cossacks, was sent forward in the direction of the threatened point."

"In order to learn the strength of the enemy's position in front of Lian Tse pass the commander of the detachment ordered out was re-enforced, and a reconnoitering party of ten companies was sent in the direction of Ekhuayuan, under the command of Colonel Letschitsky. With the view of making a demonstration insuring the return of Letschitsky's detachment, three companies under Lieutenant Colonel Garnitsky marched to Mahoumiza, about a mile and a half south of Ekhuayuan, to the crossing of the roads leading to Sin-Khi and the Lok river passes. Firing began at 2:30 p. m., July 4.

"Garnitsky's column reached the crossroads and dislodged a company of the enemy's advance guard, which was almost annihilated. Simultaneously Letschitsky's column dislodged the enemy's advance posts without firing a shot and approached the foot of the heights, which were surmounted by the temple. The temple is less than a mile east of Ekhuayuan, where, although exposed to a heavy frontal and flank fire, our troops dashed forward and dislodged the Japanese from their entrenchments and occupied the pass. As the enemy was preparing to deliver a frontal and flank attack our column then retired as previously instructed."

"Three companies of Garnitsky's force occupied the position which they had been ordered to secure. When Letschitsky's force began to withdraw the enemy opened a heavy fire from the heights. In spite of this the column retired in perfect order. Brave Letschitsky remained continually on the fighting line and directed the column with remarkable ability and coolness. He was the last to retire, with his chief of staff and adjutant.

TUESDAY.....JULY 19, 1904

When we first examined the photographs from which the "Forest City" series is reproduced, there was not the slightest doubt but that the work would prove of great value as a complete pictorial and descriptive record of the Fair and we were also confident that our readers would be eager to secure the different numbers as issued. We were hardly prepared, however, for the appreciation which has been bestowed upon the series; as a matter of fact the demand has increased steadily, for the reason that our readers quickly recognized the importance of securing every part as it comes out. Expressions of approval and appreciation are heard on every side, which clearly indicates that the distribution has proven to be a genuine artistic and popular success. Its popularity, of course, is primarily based on the fact that the Portfolios are offered at a merely nominal price, to cover the cost of handling, addressing, wrapping and mailing. Five parts now ready at this office.

**Open Season For Editors**

The newspaper editors of Japan have found their lives full of difficulties since the war broke out. A copy of the Japan Gazette recently arriving contains an almost plaintive account of the fining of its editor for publishing some war news which he copied from one of the vernacular papers. The news in question referred to an attack on an outpost of Port Arthur, and it appears to have been too correct to suit the authorities. Not only was the Japanese editor severely dealt with for publishing it, but the editors of two English papers, who had it translated, were arrested and fined.

The judges found that the publication was "detrimental to strategy." Though the accused did not regard it as such, they said, it was published without the permission of the Minister of War, and it was clearly calculated to give information to the enemy. "As Port Arthur is now blockaded by our army and navy," declared the judges, "it must be strategy not to let the enemy outside Port Arthur know anything such as time or direction of commencement of our Army's attack on Port Arthur." The judges' reference to the article describes it as stating "that on the 26th the Division advanced to occupy certain places (names are given), that it finally began to seize certain places (names are mentioned), that it occupied the desired line, that in the afternoon it commenced the attack on the most important height, and that it repulsed the enemy."

That newspapers should be fined for such publications as this, in Yokohama, is an impressive illustration of the severity of the Japanese censorship. In view of such careful suppression of the facts, it is quite evident that the world does not get any news, at least from the Japanese side, except what the government allows to leak out. We know nothing of the proceedings in the immediate vicinity of Port Arthur. Evidently nothing is allowed to leak out. The fined editors say in the columns of their papers that they "didn't know" they were spoiling strategy and that they intend to keep on and try to give all the news they can, but that there are many difficulties about doing so at present. If the Japanese will not allow the home papers to publish accounts of engagements which have taken place they will surely keep even stricter secrecy at the front. Incidentally it is difficult to see how the publication was "against military strategy." It was after the engagement, and the battle having been fought and won, the enemy must certainly have known about it.

**New Kind Of Labor Strikes**

The Chicago strike has led to violence almost immediately. It began its history in the approved fashion, with attacks by unionists on non-union men, and like the Colorado strike, with prospects of a struggle to the death. There are indications in almost every part of the country that the problem of unionism is becoming acute. The situation in Colorado is described by one writer as the most ominous "since Fort Sumter was fired upon."

The contest between the unions and their employers has suddenly taken on a new phase, first brought into prominence in the Colorado trouble, where the real issue between the Citizens' Alliance and the Western Federation of Miners is the right of the federation to exist at all. The Citizens' Alliance is battling with the avowed object of killing the union altogether, and there are movements in many other centers which indicate preparation to kill unionism when the time comes. This is what makes the strikes so grave in their possibilities. The unions have a new foe. It is an alliance of employers and others who are banded together against unionism as an institution.

The Citizens' Alliance movement has spread with remarkable rapidity. San Francisco has an alliance of great strength and nearly every other city between the Golden Gate and Chicago has a similar organization. With more or less frankness of purpose they are all opposed to unionism. On their side is an army of non-union workmen who hate the unions with intense bitterness. There are thousands of good, industrious laboring men, themselves tyrannized over by unions, who are ready to do battle with them.

Organized labor is itself largely responsible for the organization of employers against it. The unreasonableness of some of the demands of unions seem almost incredible. In a recent meeting of Chicago retail butchers one employer described how his shop was closed for days, at heavy loss to himself, simply because the teamsters' and butchers' unions could not agree as to who should "hang up the meat" delivered at his store. The butchers were naturally enough forming an Employers' Association. They are naturally enough opposed to unionism and if the day of struggle comes, they will be ranged against unionism in any form. So in cities all over the United States. Employers, in many cases driven to measures of self-protection by tyrannical demands of unions, are preparing to defend themselves, and when the day for doing so comes, as in Colorado, they are likely to go further and join in an attempt to crush unionism altogether.

In Colorado, the employers have won a natural victory by virtue of the lawless methods of the unions. The Citizens' Alliance has taken the position that no workingman shall belong to a union at all. It is now not merely that the demands of the unions shall be resisted. The employers have declared that they will not have a union man in their mines at all. One mine which was employing union and non-union men together was forced to close, because its manager refused to discharge all the union men at the demand of this citizens' alliance. The military, under Governor Peabody, is on the side of the alliance, holding it to be the side of law and order, and it appears that unionism is being effectually crushed in the affected district. It is to be presumed that it will quickly rise again when normal conditions are restored, in spite of a declaration by the Alliance that no man in the employ of its members shall be a member of a union.

It is the organization of these Citizens' Alliances that makes for especially dangerous conditions in future strikes. The strikes of the past have mostly been over specific propositions of rate of wages, number of hours' work per day, and similar details of arrangements between employer and employee. A far-reaching strike such as is a possibility when the Unions are confronted with the Alliances, in which the issue is whether unions shall be allowed to exist at all, would take on a much more serious complexion, and it is not to be wondered at that serious observers are inclined to compare the beginning of such a struggle with the firing on Sumter. The comparison is a very ominous one.

"Cleveland is a 6—old rhinoceros," said John R. McLean of Ohio, but McLean came to the conclusion that a rhinoceros was the only animal the country wanted for president, for in the same breath he declared that he was for the nomination of Cleveland, regarding him as the only man who could win.

The experts on war are getting more and more careful as the contest goes on. Certainly prophesying is a most dangerous business. The Boston Advertiser of nearly a month ago contained the following: "This week," so said last night at Washington one of the highest officials, who has exceptional means of knowing what is going on in Asia, just now, "will settle forever the question of Russian or Japanese victory in Asia." The man who made this prediction holds so high a place that his positive word on that point implies a certainty. History is now making fast in the Manchurian battle ground. We can all remember how, last winter, Kuropatkin went into the war with the idea of dictating peace at Tokyo. His army was the best that Russia could raise. It has been under his orders from the beginning. He was to sweep the Japanese entirely out of Korea, and was then to cross to Japan and finish the task. The only way of interpreting the remark we have just quoted from Washington must be, then, that Kuropatkin has been driven to a point where he must fight or surrender; and if he fights, evidently the belief is that he must be whipped. If so, Russia may keep up the war longer, but it must be with danger of revolt at home, with the spirit of her troops broken, with the rest of Europe egging the Czar to make peace and stop a war which can only end in disaster to himself. For with Mukden lost, the Russians will be in no position to carry on any sort of winning campaign."

Later accounts of the Port Arthur and Vladivostok movements of Russian vessels seem to indicate that the purpose of Admiral Skrydloff's cruise from Vladivostok was to draw some of Togo's strength from Port Arthur. The two Russian commanders were probably acting in concert. At about the time that the Vladivostok squadron made its appearance, the Port Arthur fleet came forth. It is said that the Russian commander was surprised to find that Togo was still on watch in full force, having expected that Togo would weaken himself by sending some vessels after Skrydloff. The Russians returned and Togo is still watching.

The Rev. Dr. Silas C. Swallow, Prohibition nominee for President sent Bryan a telegram after the Democratic convention. It was as follows: "My Dear Bryan: Read Numbers, tenth chapter, twenty-ninth verse. Come." It is to be presumed that Bryan dug up a Bible after receiving this message. If he did he found the verse to be as follows: "And Moses said unto Hobab, the son of Raguel, the Midianite, Moses' father-in-law, 'We are journeying unto the place of which the Lord said, I will

give it you; come thou with us, and we will do thee good, for the Lord has spoken good concerning Israel."

Speed limits for ocean travel are constantly being extended. Recently The Star published an account of the planning of a vessel which is intended to cross the Atlantic in three days. Now comes a New York sea captain who says he has a model of a boat that will make the trip in two and a half days. The secret of the increased speed capacity, according to the inventor, is described as follows: "The hull is divided into three sections, running lengthwise, with deep grooves between. Instead of plowing the water, as the ordinary hull does, having tons of resistance to overcome, these grooves allow the water to pass right through the hull, and the resistance is reduced to a minimum. Then I propose to have the propellers, three in number in the forward part of the hull instead of at the stern. The propellers are made with a large hoop instead of a small one. Those in use at present have small diameter and fit close to the shaft, and this requires tremendous power to overcome the resistance to the propeller blades, but with a large hoop there is less resistance, and, again, the speed is increased. By placing one on the central ridge of the hull and all of them where they can work in smooth undisturbed water under the hull, there is an increase of power, increase of speed, and consequent saving of time and cost of fuel."

# Kau Lost Count Of Earthquakes

Earthquake shocks have been constant during the last week in the Kau district. News of the shocks was brought this morning by the steamer Mauna Loa. The shocks have been so frequent that no attempt was made to keep a record of them. Some of the shocks were quite strong and lasted from ten to twenty seconds. No damage was done however.

The Mauna Loa brought a number of passengers from Hawaii and Maui ports, some of those from Hawaii being tourists from the volcano.

The vessel brought an unusually large shipment of freight. She had 8,500 bags of sugar, which was being discharged at the Oceanic wharf.

On the outward trip the vessel experienced choppy weather with moderate winds from the northeast. In Kau, the sea was rough with strong easterly winds and rain squalls, making the work of discharging and loading difficult. Rains have been general all over the island of Hawaii for the past week. During the last three days six inches of rain fell in the Honokaa district. Rain was falling in Kau when the steamer left Kailua.

Coming home the Mauna Loa experienced fine weather. Light northeast trades and very moderate seas were encountered crossing the channel.

The sugar on Hawaii is as follows: Honokaa, 2,500 bags; Honuapo, 170 bags; Punaluu, 4,000 bags; Kukuihaele, 2,000 bags; Kailua, none.

## GIVES PASSES

Superintendent Bailey of the Rapid Transit Company today notified the government that passes would be issued to the Sanitary Inspectors for use while they are on duty between the hours of 7 a. m. and 6:30 p. m. Officials of the Health department express the greatest satisfaction over the extension of this privilege as the inspectors have to report twice a day at the department and, as there is no appropriation for the payment of car-fare, considerable hardship has been worked on the men as well as there being a waste of time which might be given to their duties.

A. L. Wyman, formerly of the Alexander Young Hotel, has accepted a position with George Lyeurgus of the Union Grill.

## GOVERNOR HAS THE RIGHT END

ATKINSON'S IDEA AS TO DIVISION OF HOSPITAL FUNDS ENDORSED BY ATTORNEY GENERAL.

"The President of the Board of Health in my opinion, can send indigent sick to such of the designated hospitals as he sees fit and make arrangements for their care therein out of said fund. But he cannot subsidize these hospitals, regardless of the number of Territorial patients for whom they care, as was previously the custom. By doing so, he is merely substituting himself for the Legislature and subsidizing the above named hospitals to the amount of \$21,000, dividing said sum among them as he sees fit. There is no way in which, at present, the President of the Board of Health can ascertain how many indigent sick it will be necessary to provide for in each hospital during the ensuing year, so that a division now of the \$21,000 between the hospitals named or an agreement to pay to said hospitals each a certain amount is not a compliance with the statute that the money is to be expended in 'maintaining patients in said hospitals.'"

This opinion formally expressed by the Attorney General in answer to the query of Acting Governor Atkinson, practically settles the controversy over the division of the money appropriated by the Territorial legislature for the relief of the indigent sick.

As The Star explained some days ago President Pinkham of the Board of Health suggested after a meeting with the treasurers of the three hospitals that the appropriation of \$21,000 should be divided on the following monthly schedule: Queen's Hospital \$1250; Leahi Hospital \$250; Maternity Home \$150. The Acting Governor took issue with the President of the Board of Health and the opinion of the Attorney General coincides with that of the Acting Governor.

## CITIZEN LABOR A HILO ISSUE

YOUNG MEN'S REPUBLICAN CLUB OBJECTS TO THE EMPLOYMENT OF NON-CITIZENS.

The following resolutions have been adopted by The Young Men's Republican Club, First Representative District of Hilo:

Whereas, the Young Men's Republican Club of the First Representative District of the Territory of Hawaii, has received information from a source which is deemed to be entirely reliable, that the Superintendent of Public Works of the Territory of Hawaii, on the 2nd day of May, 1904, advertised for bids for the construction of the main road between Ooaka and Kukaui, Hamakua, Hawaii, and thereafter on or about the 23rd day of May, 1904, accepted the bid of one L. M. Whitehouse for the construction of said road, and said L. M. Whitehouse has entered into a contract for the construction of said road and that said L. M. Whitehouse, in the construction of said road has employed and threatens to employ upon said public work, Oriental laborers, notwithstanding the fact that there is in said contract the following clause:

"Labor: Contractors shall employ all citizen labor or eligible to become citizens that is available on this work." And Whereas, an investigation has been made by representatives of the Young Men's Republican Club of Hilo with the result that it has been found that there is a sufficient number of citizens who are ready and anxious to labor in the construction of said road, Therefore

Be it Resolved, that it is the sense of the Young Men's Republican Club of Hilo that the action of the said L. M. Whitehouse in employing Oriental and non-citizen labor in the construction of said road is in plain violation of the letter and spirit of the contract for the building of said road and is also in violation of the letter and spirit of Act 37 of the Laws of the Territory of Hawaii, Session 1903, entitled "An Act to Regulate the Employment of Labor on the Public Works of this Territory."

And Be it Further Resolved, that it is the sense of this Club that a respectful but vigorous protest be made to the Government officials of the Territory of Hawaii, having this matter in charge.

And Be it Further Resolved, that the Secretary of this Club transmit to the Governor of the Territory and to the Superintendent of Public Works of the same each a copy of these resolutions. (Signed) JAS. D. LEWIS, President.

(Signed) G. F. AFFONSO, Corresponding Secretary.

## TO IMPROVE EMMA SQUARE.

Orders have been given by the Superintendent of Public Works for the improvement of Emma Square. Some of the trees which have been growing untidily are to be cut down and others are to be trimmed. The lawn will be resown with grass seed and the band will not accordingly, play there again until the grass has a chance to grow.

## COULD ELIZA READ AND WRITE?

MRS. HANAKAULANI HOLT HAS A SUGGESTION TO MAKE AS TO HOW TO FIND OUT.

Mrs. Hanakaulani Holt does not understand the mysteries of the law surrounding the taking of evidence otherwise she would not have made one of the most sensible suggestions heard in a court room for a long time. It was in Judge Gear's court yesterday during the hearing of the case for the annulment of the marriage of Albert Christian and Eliza Holt on the ground that the girl is mentally incompetent. Mrs. Holt is the girl's aunt and counsel for Christian, in cross examination, was trying to get her to admit that the girl was in the habit of reading the newspapers and telling them all the news.

This struck Mrs. Hanakaulani as being something of a joke when the question was interpreted to her and she laughed loud and long when the counsel insisted upon repeating his suggestion.

"She says 'If that lawyer thinks Eliza can read, why does he not get her up in the witness box and give her a paper to read instead of keeping the witness there and wasting her time,'" explained the interpreter. The suggestion struck the lay mind as having much merit but it was not acted upon nevertheless.

John Holt, father of the girl was cross examined today but very little of importance was obtained from him. The case proceeded this afternoon, some of the different witnesses who at different times have had the girl in their care being called.

## R. W. HOLT ESTATE.

Argument on the demurrer in the matter of the Estate of R. W. Holt, which was to have commenced in Judge Gear's court yesterday was continued until Wednesday morning at 9:30.

## PHILIPS ESTATE.

Cecil Brown executor under the will of the late William Philips yesterday filed a petition in the circuit court asking for examination of accounts and discharge. The schedules show the estate to amount in all to \$19,978.88 with charges against it of \$2,082.35 leaving a balance of \$17,896.53.

## WILL SUCCEED CONSUL HOARE.

R. de Layard arrived by the S. S. China yesterday from Nagasaki to become temporary British consul at Honolulu. Consul Hoare is to leave Honolulu by the S. S. Miowera July 27 for England on a leave of absence until the end of the year. Consul Hoare will then have reached the age for retirement in the consular service and he will, in all likelihood, be placed on the retired list with a pension. On the retirement of Consul Hoare, Layard will, in all probability, become permanent consul at Honolulu. Layard has been British representative at Nagasaki. Consul Hoare has been in the British consular service for 33 years. He has been here 5 1/2 years. He and his daughter have many friends in Honolulu and the departure of the Consul and Miss Hoare will cause great regret.

## TASTE IN CLOCKS.

A Birmingham clock-maker discovered that a rival was sending out large stocks of cheap clocks to the heart of Africa, and doing good business with them. He spent a large sum in making better clocks, and shipped thousands of them to the same market. Strange to say, his sales were small, although his rival, turning out a cheap and inaccurate timepiece, was selling all he could make. Finally he found a key to the mystery. Savages like noise. The clocks made by the first exporter had a particularly loud and aggressive tick. His competitor had made a better clock but it was almost noiseless and the savages would have none of it. The next cargo of clocks which the Birmingham maker shipped to the Guinea coast ticked louder than anything ever heard there, and they sold like pink lemonade at a circus.—The Hour Glass.

## ROD OF AARON.

The "divining-rod," or "rod of Aaron," is a forked branch, usually of hazel sometimes of iron or brass and copper, by which minerals and water are supposed to be discovered beneath the surface of the earth. Suspended by the two prongs or between the balls of the thumbs it is thought to show by a clear inclination the spot where a mine or spring is hidden under ground.

## WHISTLING TREE.

A species of acacia which grows abundantly in Nubia and the Sudan is called the "whistling tree" by the natives. Its shoots are frequently distorted in shape by the agency of larvae of insects and swollen into a globular bladder from one or two inches in diameter. After the insects have emerged from a circular hole in the side of this swelling, the opening, played upon by the wind, becomes a musical instrument suggestive of a sweet-toned flute. The whistling tree is also found in the West Indies.

## VALUABLE WATER.

East of Colorado Springs Col. is a great prairie, 10 feet under the surface of which have been discovered subterranean streams which traverse the territory like a cobweb. The waters are formed from the seepage from the divide at Palmer lake. Pumping stations are now being built and thousands of acres will be developed by irrigation into garden spots of great value.

## HAWAII HOWLED FOR HEARST.

ST. LOUIS, July 8.—Delicious with delight, California's delegation roared and howled and whooped for Hearst a full half hour tonight. D. M. Delmas had concluded his speech, placing Hearst in nomination when the Californians, Joseph Simmons leading and waving the Democratic standard of the State, started the demonstration for the aspiring editor. In the wake of the Californians marched bearers of placards on which were printed the names of Iowa, Wyoming, Nevada, Arizona, Hawaii, Rhode Island, Illinois, Washington, Minnesota, Kansas, South Dakota and New Mexico.

Yesterday the police received word from the Hackfeld building that a Russian beggar was about the place annoying people. Under ordinary circumstances Officer Toma Abe, who is generally around the police station, would have been sent to arrest the man, but the fact that Toma was a beggar and the Russian caused the station Clerk to delegate somebody else. Officer Dias, Portuguese, was sent to make the arrest.

When Dias got to the building he found a Russian named John Manonoushsky sitting down. Dias declared him under arrest. The man replied that he was a cripple and could not walk. Dias left him and went to call for the patrol wagon. But Dias' "Kings' Touch" has been working on the "cripple" for the instant that Dias took his hands off the Russian and went to the telephone, the Russian jumped to his feet and started to tear along the street. Dias had to chase six blocks before he overtook the "cripple." This morning Judge Lindsay gave the Russian three months on the reef for vagrancy. Manonoushsky declared it was a shame for Kuropatkin need him in Manchuria.

Lightfoot won his case today. Attorney declared board of health to be moribund, had wordy war but won out.

Attorney Lightfoot raised quite an interesting point this morning in the police court and incidentally succeeded in getting his client discharged. Lee Wai was charged with violating rule 4 of the board of health regulations, in failing to start the construction of a building on King street near the fish market, so as to provide an open space of 20 inches between the ground and the floor. Inspector Nort testified against the defendant.

Lightfoot moved after the prosecution had closed its case, to discharge the defendant. The attorney claimed that the legislature did not have the right to delegate its powers to any other body. The board of health might have authority to make rules but it did not have the right to make laws and the legislature had no constitutional right to delegate such authority to the board. The attorney further raised the point that no person could be convicted of an offense that he might commit in the future. While the plans of the defendant for the construction of the building, might have shown that he would in the future violate the ordinance, it had not been proved that he had done so.

The attorney denounced the board of health. In fact he was quite fierce. Deputy High Sheriff Chillingworth said that Lightfoot had indulged in a lot of oratory. Lightfoot resented this remark; the proceed g-g-g quite lively. What Lightfoot had said was to declare the Board of Health to be moribund. The deputy did not argue the matter of the constitutionality of the case. It was not necessary, for the court pointed the defendant on the other point raised by Lightfoot so the constitutional question raised by defendant's attorney, was not passed upon.

Senator Palmer Woods has written to Col. C. J. McCarthy again, stating his intention to resign in McCarthy's favor as Democratic National Committeeman as soon as the national committee has organized. Woods says that he is not certain what procedure to take in the matter, but that he will send in his resignation as soon as opportunity offers.

The Hawaii senator will probably send his resignation to the chairman of the national committee, whose appointment was expected today, together with a recommendation that McCarthy be appointed. In the meantime the local party organization will be asked to act in the matter, giving its endorsement to McCarthy. A meeting of the central committee has been called for this evening to arrange for primaries and attend to other business.

C. G. Cook reported to the police that he lost a watch and a chain at the Hackfeld wharf where the S. S. China was lying last night. The police have a clue while the thief, if the outfit was stolen, has the watch and chain.

## Dias HAS THE KING'S TOUCH

Laid his hands on a helpless cripple and transformed the man into a sprinter.

Yesterday the police received word from the Hackfeld building that a Russian beggar was about the place annoying people. **CULMINATION OF SCHOOL ROMANCE**

EX-SHERIFF MARTIN OF KAU AND MISS ZERBE MARRIED QUIETLY AT WAIHOUNU.

A marriage of more than usual interest occurred at Waihounu last Wednesday night. Henry K. Martin, former deputy sheriff of Kau, was married to Miss Alice K. Zerbe. Both are well known throughout the islands. The bride has been teaching school in Kau. The marriage is the culmination of a long romance that started when the pair were school mates. The marriage was a very quiet affair and was known to very few people.

**BERGER CALLS FOR MORE SEATS**

Bandmaster Berger was a caller at the Capitol this morning and the burden of his plaint was that there should be more seats in the palace grounds.

"It is that there are sufficient seats enough not," said the Keppelmeister. "It is that on Sunday that there is not the place for everyone to sit upon when the band is playing already yet."

"That fact has been borne upon me several times when I have been passing on my way to Sunday School," said the Acting Governor and he immediately gave instructions to have the matter placed in a long list of things which are to receive his serious consideration.
