WHARF AND WAVE.

DIAMOND HEAD, Sept. 9, 10 P. M.
—Weather, clear; wind, light N.E.
The ship H. F. Glad left Liverpool on August 25th, for Honolulu.
The barkentine Amelia left Eureka, Cal., on August 31st, for this port.

The Charleston has not finished coaling yet and probably she will not leave for the Orient before Friday.

The bark Rountenbeck from Liverpool and bound for this port was sighted on August 3rd, in 34 west.

The steamer Queen of the Pacific previously reported ashore, was floated on August 28th. She sustained very little damage.

The steamers leaving today are the Kaala for Kahuku at 9 A. M.; the James Makee for Kilauea and Hanalei at 3 P. M., and the Hawaii for ports on Hawaii at 4 P. M.

The German warship Marie arrived on Saturday, 24 days from Peru. She is docked at the Mail wharf to take on coal. The Alexandrine and Arcona both left for Korea on Saturday.

The Australia arrived on Saturday morning from San Francisco with fifty-seven cabin and seventeen steerage passengers and seven bags of mail. On last Friday night a concert took place on board and about \$20 was collected for the Sailors' Home.

FUNCHAL, Island of Madeira, Aug. 29.—The British steamship North Castle has arrived here and reports having been in collision on August 25 in latitude 45 north, longitude 35, with the Norwegian bark Venerata, Captain Person, from Savannah for London. The

bark sank, but her crew was saved and landed here.

A late San Francisco Examiner says that the United States steamship Adams, on her return from Bering sea, is to be sent to Honolulu, under the command of Captain Price, U. S. N. It was believed that the Philadelphia would be sent back to the islands, but the Adams has been selected instead.

The Occidental and Oriental Steamship Company has appealed from Judge Morrow's decision in the Smith case to the United States Circuit Court of Appeals. The Smiths are the children of Henry P. Smith of Sacramento, who with his daughter Myrta, were drowned when the City of Chester collided with the Oceanic on August 22, 1888. They sued the Occidental and Oriental Steamship Company to recover \$100,000 damages, and were awarded \$11,000 by Judge Morrow, before whom the case was tried.

New York, August 31.—The steamer Scandia, which reached port today, reports Tuesday she sighted a wreck estimated to be about thirty feet long. From the small size of the wreck and its position when sighted, it is not impossible that it may have been the little schooner-rigged Nina, in which Captain Aftch, the Norwegian adventurer from Milwaukee, left this port to sail single-handed across the Atlantic. The vessel left this port August 5th in anything but a sea-worthy condition.

Captain Rufus Calhoun, who recently purchased the hull of the wrecked bark Archer, picked up off Esquimaux, has petitioned Congress to pass a special Act authorizing the vessel which formerly sailed under the British flag to fly the American colors says the S. F. Examiner. The Archer was abandoned at sea last winter off Vancouver island, and when the hull was towed to Victoria it was purchased by Captain Calhoun for \$4000. He took the vessel to Port Blakely and expended about \$20,000 getting her ready for sea. If permission to float the American colors is granted the Archer will be placed in the Hawaiian-California sugar trade.

It is reported along the water front that a combine has been effected between the Spreckels Towboat Company and the Oregon Railway and Navigation Company by which the former is to share the towing business at Astoria. The Oregon Railway and Navigation Company has for a long time had the monopoly of the business at Astoria and up the Columbia river, but their tugs have not been adequate for the work outside the bar. The tug Relief is to go north. She is one of the strongest of the Spreckels fleet, and before going she will be put on the drydock for an overhauling. Captain McCoy of the Vigilant will take command of her and Captain Randall will take the place left vacant by McCoy.—Examiner.

The British ship Gosford, which was scuttled and sunk near Santa Barbara about a year ago, is to be broken up. The Gosford was bound from Newcastle, Australia, for San Francisco with a cargo of coal. On the voyage fire broke out in her hold, and it had gained such headway in her coal that the crew were powerless to battle with it. She was spoken by a passing vessel and her condition was reported in port a few days afterwards. The tug Fearless was sent to her relief, but by the time the vessel was reached her hold was a flaming furnace. It was impossible to quench the flames, and to save as much of the ship as possible, she was beached and scuttled. The Spreckels Towboat Company made an attempt to raise the vessel, but without success. Several times since plans have been arranged for another attempt, but they have as regularly been abandoned.—Ex.

SAN FRANCISCO ITEMS.

Arrivals—August 29th, barkentine W. H. Dimond, 23 days from Honolulu.

Projected Departures—Sept. 2d, schooner Transit; Sept. 4th, bark S. C. Allen; Sept. 9th, schooner Aloha, all for Honolulu.

ARREST OF A SMUGGLER.

A Young Englishman Comes to Grief While Pursuing a Life of Adventure.

TACOMA, Aug. 31.—Jack Forbes, a young Englishman, was jailed here today on an indictment charging him with smuggling opium. He has been a successful smuggler for three years, performing a life of adventure to living with his wealthy parents in England, who granted him a monthly allowance of £100 until last winter when he was bequeathed £12,000. Two trunks full of contraband opium were seized here last February, since which time he has been travelling with Billy Stewart, another smuggler, between British Columbia and Honolulu, presumably in the smuggling business. He was recognized while returning to Seattle.

Shipping.

CANADIAN-AUSTRALIAN

Steamship Line.

LOCAL BREVITIES.

A gold, fleur-de-lis scarf pin has been lost.

The band plays at Emma Square this evening.

The Boston Lunch Room will be closed from today.

Councilmen Young and Tenney have returned to town.

The Fort Street School term commences this morning.

Ehlers' Ladies Column has some interesting statements in it.

The Mexican Government has recognized the Hawaiian Republic.

At last accounts sugar was unchanged; it was quoted at 3 1/2 cents.

The sale of the Chinese Theater building takes place at 12 o'clock noon today.

A number of German sailors attended the various church services last evening.

President Dole will pay an official visit to the cruiser Charleston on Wednesday.

The Examiner of the 1st inst. says the U. S. S. Adams will be sent to Honolulu.

Two natives had a row yesterday and one had his jaw broken from the effects of a blow.

The September number of the Paradise of the Pacific will be out in time for the Australia.

The bark Edward May will leave Boston about December 15th, if sufficient inducement offers.

The lectures given by Mrs. C. A. Galloway at the Viavi office at 3 o'clock every Monday are well attended and appreciated.

Admiral Walker and Captain Barker, U. S. N., reached Washington on August 31st. Admiral Skerrett also arrived there on the same day.

A band concert was given on board one of the German ships yesterday afternoon. Quite a number of people went to the wharf to listen to the music.

There was a large crowd at the Hotel Saturday evening, to listen to the band concert given in honor of the naval officers now here. The concert was greatly enjoyed, one of the German pieces being encored three times.

An alarm of fire was turned in between 3 and 4 o'clock yesterday afternoon, from Kapiolani Park. It was for a small patch of dry grass that had, in some unknown way, become ignited. The blaze was extinguished long before the department arrived.

Those who attended the ball given Friday evening in honor of the officers of the German warships were loud in their praises of the smoothness with which everything passed off, under the able direction of Mr. Frieman, the manager of the hotel. Everything was done on very short notice, only eighteen hours being given in which to arrange everything, and the result was a perfectly appointed party.

THROUGH A MAN HOLE.

A Bad Accident Narrowly Averted By a Quiet Horse.

A man hole at the corner of Beretania and Nuuanu streets was carelessly left open last Saturday, and was the cause of what might have been a serious accident.

Two well known young ladies were driving in a phaeton, and the horse got its hind legs into the hole. The young ladies were thrown from the buggy, but were not badly hurt. The horse's legs were bruised badly, but luckily it remained perfectly quiet. It was extricated from its position, and driven to its stable.

Public Moonlight Concert.

The Hawaiian band, under the leadership of Professor Berger, will give a concert this (Monday) evening at 7:30 o'clock, at Emma Square. The following is the programme:

- PART I.
1. March—"Straight Forward".....
 2. Overture—"William Tell".....Schubardt
 3. Cornet Solo—"Silver Stream".....(new).....Rollinson
 4. Selection—"Maritana".....Wallace

- PART II.
5. Fantasia—"Musical Delusions".....
 6. March—"The Dudes".....Wagner
 7. Ballad—"Sweet Marie".....Moore
 8. Schottische—"Pretty Women".....Berger
- "Hawaii Ponoi."

POET AND MUSICIAN.

Legal Strife Between a Honolulu Versifier and a Composer.

H. W. Schmidt of Honolulu is a merchant whose hours of relaxation are devoted to the writing of the muses. G. Savlet is a San Francisco whose specialty is music. On the last trip of the Sandwich islander to this city the pair met, and the result was that the local composer set to music the Hawaiian poet's latest effusion, entitled "Hawaiian Liberty," says the San Francisco Examiner of August 30th. Savlet claims that he did so at Schmidt's request, while the merchant poet claims that such was not the case. They could come to no agreement, and on the eve of his departure for his island home Schmidt received a letter requesting him to call at a lawyer's office.

He ignored the matter, and on the next day proceeded bag and baggage on the Alameda. No sooner had he installed himself than Savlet's attorney appeared on the scene, accompanied by a Deputy Sheriff. He was proceeding to lay hands on the baggage of the sweet singer of Hawaii when John D. Spreckles interfered.

He informed the attorney that the steamship company had given a receipt for the traveler's trunks and that they could not be removed. The result was that the merchant poet departed with his belongings for his tropical home, but not till he had been served with a complaint for \$250 compensation brought by the San Francisco musician. The poet, not to be outdone in politeness, immediately placed his case in the hands of Delmas & Shortridge, and soon the story of "Hawaiian Liberty" will be told in court.

WATER COLOR EXHIBITION.

It Will Open Today at the Store Occupied by King Bros.

The exhibition of water colors by Miss Bertha Lowden, at the rooms of King Bros., on Hotel street, opens today, and is worthy of careful examination. Miss Lowden studied at the Art Students' League in the city of New York—a school of art, regarded by many as the best in the United States. The instruction given there is of the highest and most critical kind. Sartain, Weir, Carroll Beckwith, Kenyon Cox, Brush, whose works are now standard in the country, are instructors. Of the pictures on exhibition, "Diamond Head," "Coconut," "Street in Chinatown," "The Waikiki Road," and "A Landscape," represent Hawaiian scenes. A number of the pictures represent scenes on the New England coast, and others present scenes and flowers of California. Water colors are growing in favor, for many reasons. No exhibition of the kind has ever been made in this city, and it should be visited by all who are interested in such work.

A LIVELY LUAU.

A Native Has His Legs Toasted in Great Shape.

The lower limbs of a native were badly burned on Saturday evening, so much so, that it was found necessary to send him to the hospital. He had been present at a luau, given in a house near the St. Louis College, and after he had filled up on gin and swipes, he went to sleep. Nothing would wake him up, so a native woman grabbed a Japanese lantern and struck him with it; it did not take long for the paper affair to burn up and in the meantime the man's clothes caught fire. The attention of Simon von Topaz was called by loud shrieks and he entered the house and finally smothered the flames.

A Cutting Affray.

Two Japanese got into an argument last evening which resulted seriously for both. One of them attacked the other with a knife, cutting him badly over the eye. He also amused himself by breaking his opponent's nose. The wounded man was taken to the hospital, and the other was lodged in the police station, charged with assault with a deadly weapon.

New Advertisements.

LOST.

ON SATURDAY AFTERNOON, about 4 o'clock, a Gold Fleur-de-lis Scarf Pin set with Pearls, between Mrs. M. Carney's on Emma street and Mrs. Dole's on the same street. The finder will be rewarded by returning it to this office. 3766-1t

JAPANESE ARMY BEATEN BACK.

Chinese and Koreans Score a Victory Near Seoul.

MOVING ON THE CHINESE CAPITAL.

An Equal Number of Mongolian Soldiers and Vessels Engage the Mikado's Forces - Russia to Send Two Big Ironclads to Asiatic Waters.

LONDON, August 28.—A dispatch to the times from Shanghai, dated August 29th, says: It is reported that the Chinese forces, joined by 5,000 Koreans, have beaten back the Japanese army, with heavy loss, to Kai-Seng, forty miles north of Seoul. The Chinese are still advancing. They are helped everywhere by the Koreans.

SHANGHAI, August 28.—It is reported here that Japanese transports, escorted by war vessels, are landing troops to the northward of Taku with the intention of marching upon Peking. Another report says the Japanese have succeeded in landing 20,000 men on the banks of the Ya-Loo King river, separating Korea from China, and thus cut off the supplies of the large army which the Chinese have sent down the Korean Peninsula.

A third report says the French Commissioner at Hong Tyong has been murdered by the soldiers of General Yeh.

SHANGHAI, Aug. 29.—The native press has received the confirmation of the reported battle between the Chinese and Japanese troops on August 18th. According to these reports 5,000 Chinese troops of all arms attacked the Japanese forces detailed to guard the Ping Nang passes in Northwest Korea, and eventually succeeded in driving the Japanese from their position.

On August 14th, according to reports received by the native press, the Chinese were reinforced by 4,000 troops from Yi Chow, and the day following they attacked the Japanese lines at Chung Ho, and the Japanese retreated.

August 16th the Chinese army was, the report says, further reinforced by 13,000 troops, and on August 17th attacked the Japanese, who are said to have lost 4,000 men and heavy baggage.

The Chinese on August 18th advanced to Huang Chow, and, passing too near the river, thirteen Japanese warships opened fire upon them, inflicting the loss of several hundred men.

At about the same day three Japanese warships found themselves grounded, and were afterward severely damaged by the fire of Chinese artillery handled from ambush.

The bulk of the Japanese forces, it is further asserted, retreated southward, pursued by the Chinese cavalry until night stopped the latter's advance.

General Yeh, the Chinese commander, made a detour and attacked the Japanese in the rear, completely routing them and capturing Huang-Chow.

LONDON, Aug. 30.—A dispatch to the Standard from Berlin says: "According to the latest communications from the East, the King of Korea is under the protection of the Chinese General Yeh. Competent judges do not believe the King declared himself independent of China."

The Japanese Government, it is reported, bought recently through an agent in Vienna 200,000 needle guns of an old model, and succeeded in getting them shipped to Amsterdam.

It is said that Russia, profiting by the Korean difficulty, has put pressure on China to compel her to make concessions in the Panchoo. China, however, refuses to yield an inch of territory.

LONDON, August 31.—A dispatch to the Times from Shanghai says: "A Tien-tsin dispatch from Chinese sources says that fourteen Japanese ships, with over 5,000 troops on board, are attacking Port Arthur. The Chinese garrison, numbering 5,000 men, and the Chinese fleet have been ordered to attack the Japanese."

SHANGHAI, Aug. 31.—A Chee Foo dispatch states that Japanese warships conveying a number of transports landed troops at Lian-tse-Shan yesterday. These troops were marched at once upon Port Arthur, the Japanese warships bombarding the forts at that place in the meantime. The object of the Japanese is to destroy the docks and forts at Port Arthur, in order to prevent disabled Chinese vessels from sheltering there for repairs. The fight was in progress at the time the dispatch was sent.

Chinese junks from New Cheung report passing many corpses of Japanese soldiers at the mouth of the Tatum river. This is taken as confirmation of a reported Japanese defeat on the river.

LONDON, August 31.—A dispatch from St. Petersburg says that Russia will send to the East Asiatic waters the warships Emperor Nicholas, an armor-clad ship of 8,000 tons, with twenty-four guns, and the Pamiat Azova, an armor-clad vessel of 6,000 tons, with thirty-three guns. Both are comparatively new and are reckoned among the powerful vessels of the Russian navy.

A dispatch from Hanoi, capital of Tonquin, says that last Monday night Chinese attacked the house of M. Chaillot, Commissioner of Customs at Monka, killed him and kidnapped his wife and daughter. Troops were sent out in pursuit of the Chinese, but failed to overtake them.

Advices to the Navy Department regarding the battle ship Oregon, which has recently made some preliminary trips on the bay, indicate that she will exceed her contract for speed and "steers like a little boat." For a battle ship the latter quality is more desirable than extreme speed, as it will make her a handy ship in maneuvering.—Ex.

WILL WAGE WAR IN CHINA.

Celestials Plotting the Overthrow of the Emperor.

HOSTILITY TO THE TARTARS.

Organization of a Tong at Omaha Where Delegates Were Chosen for the Chicago Gathering on September 9th. When Heroic Measures will be Taken.

OMAHA (Neb.), Aug. 30.—A local paper this afternoon prints a story that a convention of wealthy Chinese from various parts of the country was held in Omaha last night, the object of which was the overthrow of the present Chinese dynasty and practical interference in the war in which China is now involved. It recites that during the last few days it has been noticed that numerous strange Chinamen were arriving in the city, coming from Denver, Cheyenne, Sioux City, St. Paul, Minneapolis, Kansas City and other surrounding towns within a radius of two hundred miles. Yesterday afternoon Ling Gee, an intelligent fellow employed in Hong Kee's Harvey street laundry, told a reporter an important meeting would be held in the basement of Ling Loo's laundry, to be attended by all the visiting Chinamen, and a number of Omaha Chinamen would be initiated into the mysteries of the new society.

Gee, when properly paid, took a reporter to a brilliantly lighted room, fully fifty feet square. Suspended from the ceiling and over each of the three chairs hung a sword, meaning that the person who divulged the secrets of one of the Chinese orders would be beheaded. The reporter was sequestered in a closet.

The Chinese gathered until there were fully 150 present, representing every city between the Pacific coast and Chicago, and from St. Paul on the north to St. Louis on the South.

Wo Hung stepped upon the platform and introduced Ni Pong, of San Francisco, to explain the object of the meeting. Pong invited Joe Fow, of Denver, and W. Tong, of Kansas City, to the chairs on his right and left, after which he said he had come to Omaha for the purpose of establishing a branch of the Gee Hing, a society which had for its object the deposition of Tongg Chee, the present Emperor of China. After organizing the branch, he said that the society would elect delegates to the Gee Hing, which is to be held in Chicago September 9th, at which time and place he said some plan would be developed.

Pong said some centuries ago the Chinese were a law-abiding, peaceful race, skilled in the arts, prosperous and happy and well supplied with the goods of this world. In 1643, he said, the Tartars better known as the Manchos, then residing in the northern portion of Asia and forming the extreme northeast part of the Chinese empire, invaded the interior. After slaying thousands they marched upon Peking, the capital of the empire, where they burned, sacked and murdered, continuing the march of devastation until the sea was reached. Retreating their steps the Manchos again visited Peking and placed Tongg Chee upon the Chinese throne, but not until the end of a war which continued until 1648.

Taking from his pocket a Wah Tsz Yat Po, published at Hongkong, Pong read extracts, showing that the Chinese were in sympathy with the movement to depose Emperor Tongg Chee, and that for that purpose branches of the Gee Hing were being organized all over China. By way of explanation, he said that the copy of the paper, which he held in his hand, was a special edition printed for circulation in the United States. If the Chinese would come to the rescue with a contribution of not less than \$2,000,000, an army could be equipped that would free China from the grinding rule of the iron heel of a foreign despot.

Pong said the meeting of the Gee Hing in Chicago next month would adopt heroic measures. He said the Manchos, or Tartars, manifested the greatest friendship for the foreigners, while the Chinese, who were largely in the majority, were opposed to them. The foreign emigration to China, he said, if it were allowed to continue, meant the extinction of the principles for which Ming Sin Ton died more than two centuries ago.

WHO CAN HE BE?

A Vancouver Man Lately Wedded, Says He Has Been Here.

After traveling many thousands of miles Otto Semisch, aged 50 years, of Vancouver and Clara Schroeder, 25 years old, of Berlin, were married in Brooklyn recently. The groom is wealthy, and with his bride will soon start for San Francisco, where the honeymoon will be passed. The groom is small and wiry and the bride plump.

Semisch says he is the owner of realty and an electric light plant in Vancouver. Six months ago, while he was the representative of an electrical concern in Hawaii, he decided that he ought to get married. He resigned and returned to Vancouver, where, not finding a suitable helpmate, he left for Berlin.

He became acquainted with Miss Schroeder, and, after an electrical courtship, won her. It takes several months, Mr. Semisch says, to get married in Germany. That didn't suit his temperament, so the couple sailed for New York. Semisch said he had searched in vain for a German Justice to tie the knot, but finally succeeded and is now happy.—New York Sun.

We have no intention to copy after the originators of the

DRUG WAR.

but the cut we are making for a few weeks on one of the best selling articles we ever thought of, for the very good reason, that we have a tremendous stock on hand which we are desirous of turning over quickly, will be appreciated by everyone.

As is well known, we had made for the

Mudwinter Fair.

a ton or more of SOUVENIR SPOONS; all of sterling silver and possessing real merit. Well, we have still

A FEW

(hundred) left, and are making this tremendous cut, in order to reduce the stock, and to do it quickly.

If it is to your advantage, you will be quick to catch on, and we expect to be kept busy selling Spoons for the next three weeks, if not longer. Prices on heavy coffee size reduced from \$1.75 to \$1.25.

Prices on heavy teas reduced from most anywhere to nothing—varying from \$1.50 to \$2. Prices do not include engraving.

As this is an article on which there is a steady every day sale, it is to your advantage (not mine) to purchase now, as we make no promises as to the length of time we will keep this sale up.

H. F. WICHMAN

517 Fort Street.

Electric Lights for 21 Cts. a Month.

Honolulu uses the electric current for lighting purposes more generally than do most American cities of its population. The reasons are found partially in the climate conditions which urge the adoption of a light unaccompanied by heat or an offensive odor. Furthermore, no gas company has found our city an inviting field for investment chiefly because of its scattered condition and the consequent large cost of reaching consumers; and electricity has thus met no competitor except the original oil lamp and the tallow candle. A third cause we believe to be largely the fact that when electric lighting was first introduced by the Government, it was offered to consumers on a basis of rates, which in many cases of commercial lighting and especially for night lighting, considerably discounted the cost of oil for the same amount of illumination. The demand thus created soon reached the limit of that Government supply.

Today the Hawaiian Electric Company possesses working capacity equal to more than three times the present combined incandescent output of the Government service together with our own.

We offer lighting at the Government flat rates as follows:

Stores and offices per 16 c. p. light per month \$1.00
Residences per 16 c. p. light per month—5 lights 90cts.
Residences per 16 c. p. light per month—excess of 5 lights 60cts

We do much better than this for our consumers. We place lights in every nook and corner of your premises if you wish, measure the light you use, and charge for actual consumption only. You use light when and where you need it and you don't forget to shut it off when that need is satisfied, nor do you feel bound to keep the lights going from dusk till dawn in order to secure the value of a stipulated bill. We in turn know exactly what we have delivered to you and can figure with certainty upon a definite and rock bottom basis.

The cost of a 16 c. p. light per hour is 1 1/2 to 1 3/4 cents, varying with the efficiency of the lamp.

The probable cost to you per month is clearly indicated by the following analysis of total charges made for residence lighting during June. Average number of lights per consumer, June 30, 22; average amount paid for month's lighting per consumer \$4.54; average cost per light for the month 21cts. In view of these prices and the positive advantages of safety, convenience, simplicity and comfort, you can ill afford to use candles or oil. We furnish fittings and wiring of only the best grades and for obvious advantages at the lowest reasonable figures.

15 c. p. lamps reduced from \$8 to \$6 a dozen.

Call at our office foot of Alakea St., for particulars or ring up 390.

History of the Convention

WHICH FRAMED

THE CONSTITUTION

OF THE

REPUBLIC

OF

HAWAII!

Special Edition

To satisfy the demand for a History of the Constitutional Convention, the GAZETTE COMPANY has prepared and today issues a report of its proceedings, which terminated with the Proclamation of the New Constitution on the Fourth of July at the Executive Building.

The pamphlet will also contain a fine portrait of President Dole, and the New Constitution in full, with an index. The whole is enclosed in a most artistic illuminated cover, which of itself is worth the price charged for the pamphlet.

Early application is necessary to secure copies of this memento of the birth of the Hawaiian Republic, as numerous orders are on file, and the edition is limited.

THE Hawaiian Revolution.

DEDICATED BY SPECIAL PERMISSION

TO THE

Provisional Government

The Crisp photo process, by which "The History" will be illustrated, is acquiring a well-merited reputation for excellence, the productions being artistic triumphs.

An instantaneous success!!! The project received by the business men of Honolulu in a most enthusiastic manner.

Art connoisseurs warm in its praise. "An artistic gem of the purest ray serene" TO BE PUBLISHED IN 1894.

The historians have commenced with the frame-work of the construction, setting forth the remote causes of events and the motives of human action; and follow up their connection with other developments, and present the whole in a finished exterior of high literary worth. The foundation principles of government, the predominant sentiments swaying human minds at different epochs, the physical condition of different parts of the land, the nature of different influences brought to bear upon the people, have all been closely studied, and the effects philosophically traced. Accuracy of statement, soundness of reasoning, clear presentation, and high literary merit will be the commanding aspect of this ambitious effort. It will be published in an attractive form containing over 200 pages,—fully illustrated, supplied with many maps and plans, containing tables of useful information and a complete index, it comprises all the accompaniments necessary to complete a work of its character.

SYNOPSIS:

Chapter 1—Prof. Alexander's History of King Kalakaua's Reign.

Chapter 2—Prof. Alexander's History of Liliuokalani's Reign.

Chapter 3—A Brief Account of the Revolution of 1893.

Chapter 4—A Brief Account of the Provisional Government to date.

Chapter 5—Minister Willis' Letters to President Dole to abdicate.

Chapter 6—President Dole's Reply.

Chapter 7—Willis and Dole's Correspondence.

Chapter 8—Minister Thurston's Protest issued at Washington.

Chapter 9—Minister Thurston's Statement of the Hawaiian Case.

Chapter 10—President Dole's Specifications.

Chapter 11—Morgan's Report to the Senate.

Chapter 12—The Senate's Action on Hawaiian Affairs.

The publishers have the honor to announce that arrangements are being made for the insertion of the following Bodies:

Special note to proprietors of Trades and Industries.—There is now only room for six or seven firms in the limited space devoted to the representation of Trades and Industries, and a great favor will be conferred if those desirous of inserting theirs between the pages of the beauty spots of the city and those pages assigned to the early efforts of Hawaiian pioneers will call at the publication office

LATEST NEWS FROM MAUI.

An Opium Seizure at Wailuku by the Police.

MANUEL ROSS ARRESTED AND FINED.

A Number of Maui Natives Appointed to Government Positions—A New Chinese School—Another Catholic Church Being Built—Other Items, etc.

MAUI, Sept. 8.—During Friday night, Sept. 31st, Port Surveyor Zumwalt, Deputy Sheriff King and some policemen were on the watch for opium at Maalaea Bay, having received a "straight tip" from Honolulu. Upon the arrival of the Kinai they made discoveries, but no arrests, until Wailuku was reached.

Then, Manuel Ross, the well-known livery stable keeper, and Ah Yick, a hack driver, were apprehended by the officers of the law, charged with "opium in possession." Ross was subsequently released upon \$1000 bond. On Thursday, the 6th inst., he was fined by Judge Helekunihi \$150 and costs, and the case was appealed by his attorney, John Richardson.

The unfortunate part of the episode is that Ross had been recently married in Honolulu, and was bringing his bride home. Fifty-one tins were discovered in trunks belonging to Ross, and thirty tins in a box, presumably the property of the Chinaman. Yesterday, Ah Yick was acquitted, as the ownership of the opium was not proved.

STRAY SCRIBBLINGS.

The opposition press has oft-times charged the present Government with being hostile to the native race and their interests. A glance at the recent appointments on Maui proves the falsehood of such charges. To the satisfaction of his many friends, J. W. Kalua has been made Judge of the Second Judicial Circuit. E. Helekunihi has been recommended District Magistrate for Wailuku; Peter Noa appointed Police Justice for Makawao; J. M. Napulou, Judge at Ulupalakua; Kahaulio, for Lahania; Kaleo, for Hana; J. K. Pimamu, for Kipahulu; W. A. Kukamau, for Molokai, etc., etc.

Not only that, but Iosepa is re-commissioned Deputy Sheriff, for Hana, and William King appointed for Wailuku.

These are all native appointments. What more can these so-called friends of Hawaiians ask?

The foundations for a new Catholic Church at Waiakea, Kula, have been recently begun. The edifice is to be 30x42 feet. There are about 500 Portuguese in the vicinity.

A Chinese school has been recently opened at Keokea, Kula. Those wishing to learn the pure, Oriental speech should apply to the teacher, who recently arrived from China.

On Wednesday's Claudine, Major Woodhouse and family arrived and will spend the winter in Makawao District. Mrs. Heapy, the eldest daughter of John A. Moore, of Wailuku, was also among the arrivals. She will be principal of the Wailuku school.

Misses Emma Carney and Julia Lovel, of Honolulu, were likewise passengers. They are to be connected with the Wailuku school.

D. D. Baldwin and W. A. Baldwin, accompanied by some natives, during Wednesday made the ascent of the highest peak of the West Maui Mountains, from the Waihee side.

Wailuku people are returning from their vacations. Mrs. C. B. Wells has been three weeks at the Volcano House, (Kilauea). Mrs. S. F. Chillingworth has been visiting for some weeks at Waimea, Hawaii, and Miss Cunningham has spent most of the summer days at Hilo.

On the 6th inst. a fire took place in the Haleakala Ranch woods, just above Kailua. It is said that ninety cords of wood, cut and stacked, have been burned.

It is rumored that Wailuku is soon to follow Makawao's example in establishing a dancing school. Miss Cunningham is to be the teacher.

For some inexplicable reason there is an alarming scarcity of beef in the menu of the Bungalow Club at Hamakua. Echo answers "Why?"

Goodale Armstrong, of Wailuku, is the new school agent for that district. Noah Keopikar has obtained a full license to practice law at the Hawaiian bar.

Dr. and Mrs. Laidlaw are visiting the Volcano. They left Maui for good Tuesday night last.

Dr. Wood is a guest of Dr. Armistage of Wailuku.

In spite of ill health Bishop Willis has held services in Wailuku on Sunday, Sept. 23, and Wednesday evening, Sept. 25th.

Last night, the 7th inst., a successful dancing party was given at Diamond Palace, Kalaupoko, by Mr. and Mrs. B. D. Baldwin.

Manager Walton's residence at Waihae is undergoing extensive repairs and improvements.

The September evening of the Makawao Literary Society will take place at the residence of Mrs. H. G. Alexander, next Wednesday the 12th inst. An interesting programme is promised.

T. B. Harris, formerly principal of the Pahala school, is now located at Spreckelsville. His wife and family are soon expected.

At the Kalaupoko dancing party last night forty or fifty denizens of Haiku, Pahi, Hamakua, and Spreckelsville much enjoyed the festive event. The Hamakua stringed band was in finest form, the floor was everything desirable, and the walks and nooks and corners of the gardens were popular resorts between times.

On the way home in the morning by the bright light of the moon two

brakes collided at the Hamakua-poko gate, two horses got frantic and fell down and two fair ones were slightly injured. All this was "after the ball."

The annual meeting of the Maui Teachers' Association has been called for Saturday, September 15, 1894, beginning at 9:30 a.m., at Wailuku school house. It is particularly desired that all Maui feel themselves urgently invited to attend.

The barkentine John Smith, S. B. Groth master, arrived in Kahului, August 20th, with 983 tons of coal for H. C. Co. She was two days from Honolulu, having come from Newcastle. She departed in ballast Sept. 4th.

Weather—enjoyable summer atmosphere.

Mules for Hawaii.

FRESNO, Aug. 31.—E. J. Bullard shipped today two car of mules destined for Honolulu. They will go from San Francisco on a sailing ship. This is the second shipment from Fresno. John Booker and others sent a cargo of horses several days ago.

Ladies' Column.

Our QUICK SALES and SMALL PROFIT POLICY is a far better one for the public than the resurrection process known as SPECIAL SALES, GOODS BELOW COST, etc., etc., at which the graves containing goods of times gone by are opened, and the moldering corpses trotted out to make a show.

One never gets SPECIAL VALUE at SALES; one may get LOW PRICES for RESURRECTED GOODS, but special value never. SPECIAL VALUES are only obtained where you get SEASONABLE GOODS where QUICK SALES and SMALL PROFITS are the fundamental principle of the house you are dealing with.

Experience Will Teach You This

If you do not realize it now. Quick sales and small profits mean also no dull counters, no dull goods, but new styles, in fact goods that sell at prices that are just right.

Have you noticed any of those LADIES' SHIRT WAISTS we spoke of last week? If not, you are certainly not very observing, for there has been more of them sold by us last week than was ever sold in Honolulu in any two weeks. QUICK SALES and SMALL PROFITS POLICY did it. Only a few of them left. The same thing might be said of

Carriage Parasols.

We have some HANDSOME UMBRELLAS and PARASOLS.

Twelve yards dress patterns of GENUINE IRISH LINEN LAWNS in colors at \$2.50 a pattern.

REMEMBER the place; that if you have any doubts, a call at our store will satisfy you that all we say about QUICK SALE and SMALL PROFITS is a FACT!

National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.

The attention of Planters and Agents is called to the following letter from Mr. JOHN A. SCOTT, Manager of the Hilo Sugar Co., regarding the working of the National Cane Shredder, which he has just introduced into the Mill of that Company:

WAINAKU, HILO, HAWAII,

HON. WM. G. IRWIN, HONOLULU, H. I. DEAR SIR:—In reply to yours of the 16th inst. regarding the National Cane Shredder furnished by the Universal Mill Co. of New York, and erected by the Hilo Sugar Co. this past season,

I would beg to say, that it has now been in operation day and night during the past three weeks working on plant cane, and also hard ratoons, and it is giving me the greatest satisfaction. The more I see of its capabilities, the better pleased I am that I put it in, as I am satisfied that it will repay the original outlay in a short time, in saving of labor, higher extraction, etc.

It is shredding from 350 to 400 tons of cane every 22 hours with the greatest ease, and it could shred a much larger quantity if necessary. It delivers the shredded cane in an even uniform feed to the three roller mill, which receives it without the intervention of any labor, and as the cane is thoroughly shredded or disintegrated it relieves the mill of a great deal of strain, thus reducing the liability of broken shafts, gearing, etc.

There is a saving of four (4) men daily on the mill, as only one man is required to regulate the amount of cane delivered by the carrier to the shredder. It has increased the extraction from 4 to 5 per cent.

The economical use of steam is generally a serious consideration in adding new machinery, as in most mills the boiler power is taxed to its highest limit, as it was in this mill, and any increased demand necessitated an additional boiler. But I find that the shredder and use of three roller mill engines combined use no more steam than the three roller mill engine did when working on whole cane, while doing better work and more of it, and owing to the uniform feed on the mill, the engine demands very little attention.

The savings from the shredded cane makes superior fuel, and the fire has less difficulty in maintaining a uniform pressure of steam than formerly.

I will be pleased to have a call from parties interested, as it is necessary to see the machine at work to fully appreciate its capabilities.

I remain, very truly yours,

(Sig.) JOHN A. SCOTT,

Manager Hilo Sugar Co.

Plans for erection of these shredders may be seen at the office of the Agents, where prices and other particulars may also be obtained.

The Pacific Commercial Advertiser

Issued Every Morning, Except
Sunday, by the

HAWAIIAN GAZETTE COMPANY

At No. 318 Merchant Street.

W. N. ARMSTRONG, : : EDITOR.

MONDAY, : SEPTEMBER 10, 1894.

FROM this date, my connection with the Hawaiian Gazette Company ceases; and with it my general oversight of the PACIFIC COMMERCIAL ADVERTISER, the HAWAIIAN GAZETTE and the KUOKOA terminates. Having long held intimate relations as publisher, business manager or editor with each of these popular journals, and their numerous patrons here and abroad, I cannot refrain from expressing the hope that the same favor which has always been shown to these publications may be continued to them under the new administration.

It may be of interest here to state that the ADVERTISER was commenced by me July 2, 1856; the HAWAIIAN GAZETTE also, October 1, 1861, while the GAZETTE was leased by me from the Hawaiian Government in January, 1873. These are consequently the oldest English and Hawaiian papers published in these Islands, now in existence, excepting only the Monthly Friend.

H. M. WHITNEY.
Honolulu, Sept. 10, 1894.

THE mission of the ex-Queen's friends to Washington is gradually clearing the political air. It has removed grave doubts in the minds of influential friends of the Monarchy, although it brought no settlement of any question to the Ex-Queen herself, or to the natives generally. It is now highly probable that a strong party of natives will form, and advocate general registration, in the hope of securing control of the House of Representatives. The Government prefers the registration, although it is probable that if the natives predominate in the House, they will show an unfriendly spirit towards the Executive. If they do, the Government must abide by the result, whatever it may be. The framers of the new Constitution granted the natives the opportunity to be heard, in national matters, and if the legislative sessions should not be very harmonious, it will only be a necessary phase of the situation.

REPEALING THE TREATY.

"The high contracting party, on the part of the United States, is the United States, and not the President. Hence, the notice (of the termination of the Reciprocity treaty) must come from the United States, which, in the abrogation of the treaty, speaks by Act of Congress. The treaty is a part of the law of the land, and it can be repealed only as other laws are repealed, except in the case in which the President, by and with the consent of the Senate, frames another treaty. The latter then becomes the law of the land." It is, therefore, believed that the President alone cannot terminate the present treaty with the United States.

While the above is an opinion given by able and careful lawyers, in San Francisco, it should be distinctly kept in mind by those who are interested in the production of sugar, that it is the Courts which finally make the law, in such cases. The opinions of the most careful lawyers are certainly disapproved of by the Courts. "I can tell you what the law ought to be," said an eminent counsellor, "but it is the Judges only who can say what it is."

Therefore, in any speculative ventures in matters connected with sugar, it must be kept well in mind that, whether or not the President of the United States has the sole power to terminate the Reciprocity treaty, is an uncertain matter.

If he has the power, whether he

will use it or not is another question. There is strong reason for believing that he will not terminate it. This is the belief of some men in Washington, who are in a position to judge correctly in the matter. Whatever the President's disposition may be toward the Republic, he is forced to keep the importance of Pearl Harbor in mind, even if he does not put the highest estimate upon it which naval and army men do. Speculative men will consider the chances of the continuance of the treaty as rather preponderating.

THE WASHINGTON LEGATION.

During the absence of Mr. Thurston from Washington, while doing most valuable service here, the interests of the Republic have been admirably cared for by Mr. Hastings, our Charge d'Affaires. At one time, the advantages to us, arising out of the new tariff, were in great danger of being lost, through the inadvertent action of the Senate, but the quick, effective and persistent work of Mr. Hastings removed the peril, and we shall be benefitted, during the next year, at least, by the extra inflow of several millions of dollars. Strong friends of the Republic in both houses of Congress, have expressed their gratification at Mr. Hastings' excellent work. Here, as well as elsewhere, there is danger of forgetting services rendered to the public, for the public is usually ungrateful.

Able men knowing this are disposed to refuse office. Considering the vital importance of our relations with the United States, it is important that our representatives be adequately, if not generously paid. The salary of the Minister and of the Charge in Washington are grossly inadequate. Interests here of the value of many millions are at stake, while the salaries paid are inferior to the earnings of some of the vegetable gardeners around Washington. The splendid work of the late Mr. Carter, as Minister to the United States, was more fully appreciated in Washington than here. Neither Mr. Thurston or Mr. Hastings ask any increase of salary, but those who understand the situation regret that the little Republic does not, immediately, put its representatives on a financial footing, which will enable them to work to the best advantage. People here, generally, have no idea of the importance, variety and difficulty of the work which must be done by them. Indeed, it would be singular, if their physical powers could stand the burden of it, if they should attempt to do all that it is possible to do. The best work is usually done quietly, and no credit is given for it.

Pay-Day Coming.

China and Japan will pay dearly to the civilized world for the fun of the bloody war upon which they have now entered. They will not only have our guns, ships and other implements of war to buy, but as the conflict progresses Japan, at any rate, will have to depend upon the other nations for food supplies. China is already borrowing money, for which it will pay fat interest.—Exchange.

AUCTIONEER.

September 4, 1894.

Since the good people of Maui have constructed a house at the summit of Haleakala there is no reason why a visit to the largest extinct crater in the world should not be included in the itinerary of every personally conducted party to the islands. The great objection in the past to a journey to the summit has been the lack of accommodations for tourists; it's been a climb and do the best they could for rest. Now, however, the weary traveler will be made as comfortable in so far as sleeping accommodations go as it he was at a hotel. The men who conceived and carried out the idea of a house at the summit may be looked upon as benefactors just as we have in introducing a piece of machinery like the Aermotor that has saved so many thousands of dollars to the people who are using them here on the Islands. We sold one the other day to a man who wanted to use it in place of a steam engine for cutting feed for cattle; he thought a 16-foot mill would be necessary, because it always required a 5-horse power engine to do the work. We sold him a 12-foot geared mill, because we were satisfied that it would develop all the power necessary; we believe it would cut nails. The gentleman tells us that it has proven itself a good thing far beyond his expectations. His experience is the same as a hundred or more others to whom we have sold Aermotors. It would surprise us very much to have a person tell us he is dissatisfied with his Aermotor.

Try a bath in a porcelain lined bath tub and compare it with one in an old time zinc affair. The difference is plain. One of our tubs can be kept as clean and with as much ease as a China wash bowl. The dirt which collects around the sides of a zinc tub will not stick to a porcelain one and it forever looks as new as the day it left the store. We have them in various patterns and at different prices, the smaller the tub and fewer the decorations the lower the price and the larger the tub and more elaborate the trimmings the more it costs you. It really would not make any difference if you had to pay double what we ask for them, you would not fail to be pleased with it; it's the comfort one gets out of a tub such as we sell that makes up for the difference between the price we charge and what you pay for a zinc one.

In addition to tubs we have a magnificent assortment of washstands, sinks, closets and everything needed about a bath room. If you have an idea that you want to refit your old bath room or make a new one, come to us and we will tell you to within a dollar or two what it will cost and show you pretty clearly by illustrations what the room will look like when completed. There's an advantage in buying here at home, because you see just what are you going to get and you pay no more for the article than you would by sending away for it.

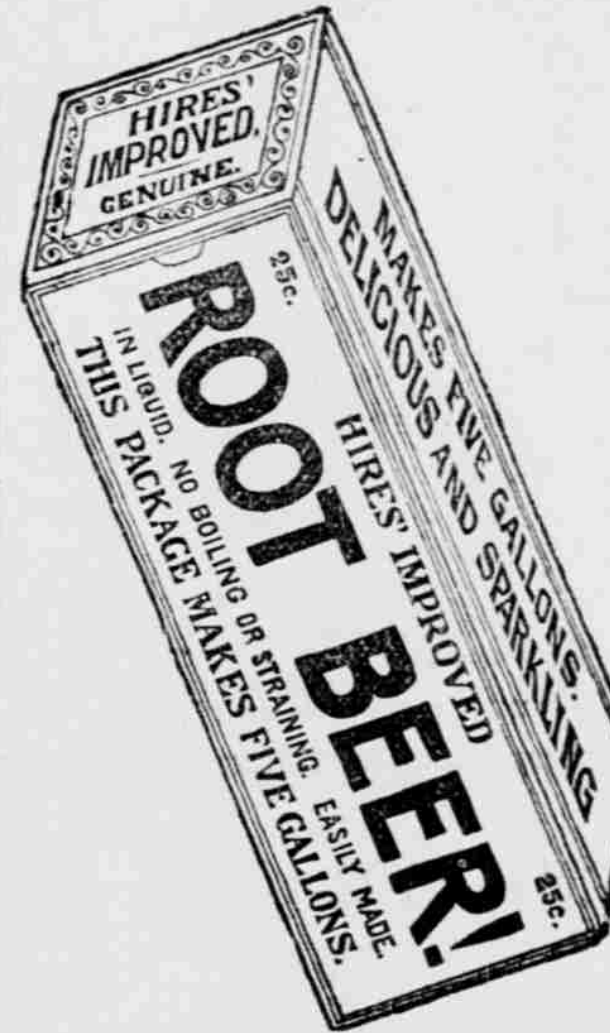

Our remarks on wire have brought us good result. Some people who wanted to build six and three quarter miles of fencing and who wanted to get a serviceable article at a low price came to us for the materials for a Jones Locked. Our wire is cheaper than it can be bought elsewhere and the quality better.

THE HAWAIIAN HARDWARE Co.,

307

FORT STREET, HONOLULU.

"If It's
Hires'
It's Good."

When folks drink more Hires' Rootbeer than all other rootbeers combined, there must be something in Hires', and there is—delicious flavor and public confidence.

Undoubtedly the reason of the popularity of Hires' Rootbeer is, because it surpasses all other preparations for making a delightful home-beverage. It is very easily prepared, and if the plain directions are followed, it will always be good. Every member of the family, from the baby to the grandfather, can enjoy this excellent summer drink. Children especially delight in Hires' Rootbeer. Its preparation interests them, and its use does them good. In thousands of homes, "Hires' Rootbeer that mother made," will be among the happiest recollections of childhood.

What others say will carry conviction:

A DOCTOR IS SURPRISED WITH THE RESULTS.

"About three months ago I bought a package of your Rootbeer, and after making it according to directions, I found it a very delicious beverage. Not only this, but I was so much pleased with it that I gave it to some of my patients, and was much surprised with the result. I have now used about 12 dozen. Dr. M. A. Somers, Plano, Ill."

SAYS ITS GOOD FOR DYSPEPSIA.

"I find great relief in drinking your Rootbeer, as I have been troubled with dyspepsia, and should feel very sorry if I could not keep myself supplied with it. I drink it when it is fermented. R. F. Scott, 2519 Meredith st., Philadelphia."

NEVER FOUND ITS EQUAL.

"I have used your Rootbeer for seven years, and have found it a superior article. I have sampled other rootbeers, but have never found any to equal Hires'. I have so much faith in it that I have persuaded ten different families to use it. Mrs. R. Stevenson, 1027 Lincoln Ave., Chicago."

This is typical weather for root beer drinking. Drink all the other beverages and you will die of disappointment if you don't try Hires'.

Just sample some once when rightly made, and we know the result—you will endorse Hires'.

It is doing more to advance practical temperance than many people realize. It is used and recommended by the most cautious and conservative temperance people. The most scrupulous abstainer can enjoy it and recommend it to others as an agreeable and healthful substitute for the strong drink which he opposes.

Storekeepers will find Hires' the only Rootbeer extract that has a safe sale and can be recommended to their patrons. We give elegant pictorial advertising matter with each order. Liberal discount to the trade.

THE WORK TO BEGIN SOON.

The Salvation Army Will Commence the War This Week.

CAPTAIN MILSAPS AND HIS SOLDIERS.

The Army Will Begin its Onslaught on the Devil as Soon as it Can Get Into its Hall—The Many Editions of the War Cry, the Organization's Paper.

Staff Captain Milpsaps, the officer at present in charge of the Hawaiian branch of the Salvation Army, arrived Saturday with his five comrades, and will begin at once to prosecute his war on the devil in this city. He was seen yesterday at F. W. Damon's, where he is at present staying.

The captain is a Texan, but contrary to the general idea of the inhabitants of that supposedly "wild and woolly" state, he is most mild-mannered. He

STAFF CAPTAIN MILSAPS.

(The officer who is in charge of the detachment of the Salvation Army which will attack the Devil in his Honolulu stronghold.)

is a good-looking man, and is most earnest in his support of the army. He is the editor of the Pacific Coast War Cry, the organ of the Salvationists, and a paper of an immense circulation.

"We will begin holding services here as soon as possible," said Captain Milpsaps. "We have selected a hall, over John Nott's store, on King street, and as soon as the necessary alterations can be made we will begin work. This will probably be by Wednesday or Thursday at the latest."

"We do not confine our work to any one class of people," said the Salvationist, in answer to a question. "Our mission is to reach the unreached. There is a large floating population here, people who never go to church, and these we shall try to influence first. Of course, we try to reach the natives as well. This is our policy in all the many countries in which we labor."

"A number of people may not be aware that this is what we members in the army of the Lord call our jubilee year. It was just fifty years ago that our leader, General Booth, became converted, and we are celebrating this jubilee by extending the army work in all directions. This 'opening up,' as we call it, of the Hawaiian Islands is one of our new ventures. We also have a man in Japan, and will probably begin our campaign there in a short time. Other places to be attacked are Malta and Gibraltar, which so many English sailors and soldiers pass on their way to India, Java, Egypt, and possibly Jerusalem. We are especially anxious to reach the soldiers and sailors, and Gibraltar will be a splendid place to begin operations. A large number of man-of-war-men belong to our ranks, and I know of one English ship that has over twenty sailors who are members of the army."

"There are five members of the army with me. They are Adjutant Egner and his wife and child, Captain Zimmer, Lieutenant Jeffers, and Sister Viola Monroe. I shall stay here about a month, and see everything in good working order before I return to my San Francisco duties. When I leave, Adjutant Egner will be left in charge of the work here. We have great hopes of accomplishing much good in Honolulu."

A number of interesting statistics concerning the army were given by the Captain during the progress of his talk. The War Cry, of which he is the Pacific Coast editor, is published in about twenty languages, among which are English, French, German, Dutch, Flemish, Danish, Swedish, Norwegian, Finnish, Italian, Spanish, and several of the dialects of India. The work itself is carried on in nearly all the countries of the world, even among the Zulus and the Hottentots. The army contains about 12,000 commissioned officers, and over 40,000 non-commissioned, such as the sergeants. The army itself numbers nearly 500,000.

Ten years ago the army had a hard struggle. It was ridiculed by the press and the people, and the tough element took delight in forcibly breaking up its meetings, and even the police took a hand. Now the army has the support of nearly all the newspapers of the United States. It is allowed to hold its open air meetings unmolested, and the good it has done is being acknowledged by everyone. The usual course of holding outdoor meetings will probably be followed here. A short service will be held on the street, and then the crowd will be invited to the hall, where the regular services will be held. As Captain Milpsaps said: "We attract a crowd by making a noise, get its curiosity excited, and then it follows us."

Captain Milpsaps will send accounts of the work here to the War Cry, and when he returns he will take with him a number of cuts to illustrate the islands.

Roman law forbade the use of silk by men.

PROVERBS ABOUT TREES.

Beautiful Thoughts Elegantly Expressed by the Most Eloquent Mind.

Many are the proverbs relating to trees which are to be heard in India. Among the proverbs that speak of the banyan, there is one which says, "As the banyan, so are its hanging shoots; as the father, so the son." This probably means that if the tree be in good soil and well nourished it will be strong and thriving; so will its shoots. Just so the father's health and character will be reflected in his son. Tales of brinjals growing on a banyan tree is an expression equivalent to "travelers' tales"—a gentle hit that the narrator is drawing the long bow. The nimb (Azadirachta indica) recalls a saying of the appropriateness of which can be understood by those who know its thick shade, and who know also what the burning heat of a tropical sun is, "A mother's love is like the shade of the nimb tree."

It is a beautiful thing, this Hindoo mother's love, seldom, if ever, absent, and carried often even to such excess that it becomes weakness. It is so deep and true that it cannot understand—the action is altogether beyond its comprehension—that a mother could part with her young children for them to be educated in another country. The wild fig tree is said not to flower at all, yet people believe that it really does so, only it is at night, and then but for a minute or two, although if procured it is marvelously beneficial; hence it comes to be applied to a visit from a friend after long absence—a great rarity. Another form of it is, "To meet with the flower of the wild fig and to meet you are alike." There is a description of laziness than which it would be difficult to find anything more explicit, "To die from starvation beneath a ripe fig tree."

The teak tree (Tectona grandis) is the one tree of all others in India that is useful and indispensable. It is not, therefore, surprising to find this belief expressed as follows: "Among trees there is only one—the teak. The rest are old women." The same truth is expressed in a different way, "Wood of the teak and the child of a king." But these are the very best of their kind; as is the importance and rank of a prince among subjects, so is the quality of the teak among trees. Two sayings relating to the mango (Mangifera indica) may be given: "Let us throw a stone in the mango tree and see. If it hit, it will hit. If it doesn't, it won't." It is the equivalent of "having a shot" at a thing—trying to get something out of a good and benevolent man. If it succeed, well. If not, then there is nothing lost.—Times of India.

Testimony of Finger Prints.

When a finger or a finger print is closely examined under a lens of only moderate power, it is seen to abound in minute peculiarities. These are caused by the branchings of some of the ridges, the sudden appearance of new ones, the formation of rings, or ovals, like eyelets, and the abrupt stoppage of ridges without any apparent cause.

It is in these countless little peculiarities even more than in the general character of the pattern that the value of finger prints as proof of identity lies, for these appearances, however minute, do not change in the smallest particular during life. A pattern may be traced on the fingers of the babe when born; it will be found the same on those fingers when he has grown to manhood and may be imprinted from the fingers of the dead without change in the smallest point, though a hundred years should intervene between birth and death.

The pattern grows together with the finger. Its proportions vary with fatness or leanness. They may be further affected by wear, gout or age. But such changes appear in the pattern as a whole, never in the form of correlation of its constituent parts. The pattern may become altered in length or breadth by hard wear of a peculiar kind, but the number of ridges that concur in forming the pattern, their embankments, their archings, loops and other minute characteristics, are not subject to change. They are indestructible as the finger.—All the Year Round.

Train Ferries in Europe.

English engineers, finding it necessary to adopt our system of train ferries, and not wishing to give us credit of inaugurating that system, have managed to discover a Sir John somebody who worked the whole thing up 15 years ago. A New York paper says: "There seems to be nothing in the way of running unbroken trains between London and Paris, except the necessary capital and the employment of sufficient technical skill. If the London, Chatham and Dover would combine with the Northern of France and employ an experienced American engineer to plan and construct the docks and appliances for embarking and landing the trains, and at the same time send to any of the shipbuilding establishments on our great lakes for a man to construct the ferry-boats, the arrangement could be perfected in a year and a half or two years, when freight and passengers could be transported from any part of Great Britain to the continent, and eventually to all of Asia and Africa, without change of cars or break of bulk."

The system of train ferries will no doubt be established throughout Europe in a few years and will do much to expedite and cheapen transit.—Engineering Mechanic.

Patriotic.

"Yes," said young Mrs. Milder, "Charley was out rather late last night, but I didn't have the heart to scold him. He was engaged in a patriotic celebration."

"How do you know?" asked the woman whose husband was out with Charley.

"Because he came home with a lot of red, white and blue pieces of ivory. I don't know just what they are for, but the colors show they have something to do with patriotism."—Washington Post.

Canada has a debt of \$50 per head on her population.

FASHIONS FOR HOT WEATHER.

At the left is shown a pretty shirt waist of chestnut brown dotted taffetas. The sleeves are cool looking gigots. The waist may be worn with any skirt. The two handsome yachting gowns are of white pique and duck. The swaggar cap for such a costume is a sailor's cap of white duck.

HAWAIIAN NEWS COMPANY

Homes at Pearl City!

THE OAHU RAILWAY & LAND CO.

Offer the Public Another Great Opportunity to Secure Homes in One of the Most Delightful Localities to be Found in the Paradise of the Pacific.

As a healthy resort—Pearl City has already established an enviable reputation. Many good citizens in this community have experienced the wonderful effect produced by a few days sojourn in that dry, cool atmosphere, and give grateful testimony to the relief they have almost instantly gained from severe and long continued attacks of asthma. Physicians acquainted with the climate of Pearl City recommend it as a natural sanitarium.

The Water Supply is Ample.

And can be increased to meet the needs of a population equal to the largest city in the world.

Prof. A. B. Lyons of Oahu College is our authority for stating that the water supply is the purest yet discovered in this country.

SPECIAL INDUCEMENTS TO EARLY SETTLERS!

For many days from date we will sell lots on SPECIAL TERMS favorable to bona-fide settlers. For a term of three months from date, lumber and all building materials will be supplied, and delivered at Pearl City at much lower price than ever before obtained.

For further particulars, call at this office or on any of the lumber dealers in this city. Those who now own lots as well as those who propose to become residents of that growing city, will do well to embrace this opportunity, inasmuch as they will receive the following benefits:

For a term of ten years, this Company will carry such residents and their families from Pearl City to Honolulu in the morning (arriving a little before seven o'clock), and from Honolulu to Pearl City in the evening (leaving Honolulu station a little after five o'clock), for ten cents each way, a rate less than one cent per mile. The rates on all other passenger trains running during the day or night will be 1½ cents per mile first class, and 1 cent per mile second class.

A good school is about to be opened in the Peninsula, in the fine, large, new school-house erected by Mr. J. T. Waterhouse. Residents living at Pearl City heights, (above Pearl City station) and those having homes on the Peninsula, will be allowed to ride free on regular trains between Pearl City stations to and from the Peninsula.

Those who want to continue to send their children to schools in Honolulu, can have transportation on all regular trains to and from Pearl City, for the purpose of attending school at five cents each way for each pupil. This is equal to 24 to 26 miles ride for ten cents.

Equal inducements for those desiring to secure homes in this country have never before been offered to the public.

This Company has been requested from abroad to name the price of all their unsold land in that locality.

Should a clearance sale be made to a syndicate, no opportunity like the present would again occur for the purchase of homes at Pearl City.

"A word to the wise is sufficient!"

OAHU RAILWAY & LAND CO.,
B. F. DILLINGHAM, General Manager.

The Pacific Hardware Co. have received invoices of new and staple goods direct from the manufacturers by The Amy Turner.

SOMETHING MORE

ABOUT SODA WATER.

The First Requisite in Making Soda Water is Pure Water.

HOLLISTER & COMPANY'S FACTORY was the only one in Honolulu that made use of the most improved method of purification—the Hyatt System—that removes all animal and vegetable matter, even microbes, and this is the kind of water we use in our Factory for our customers.

As for the Gas,

it is immaterial whether it is obtained from chalk, marble, whiting, marl or bi-carbonate of soda, the gas will be identical in either case.

Bi-carbonate of soda has been used exclusively by HOLLISTER & COMPANY for over 26 years, and the TAHITI LEMONADE WORKS since its foundation, because

It is Cheaper

than any of the other sources, and easier to handle. But the gas must be cleansed before mixing with the water.

In generating the gas, the material is sometimes carried over with the gas and must be thoroughly eliminated. Most Soda Water manufacturers are satisfied by running the gas through one purifier. We are not. We run it through three. In using any one of the lime carbonates it would do no harm to any one if some did slop over as they are all insoluble and can be seen in the glass; but with bi-carbonate of soda it is different, because the bi-carbonate is converted into sulphate of soda (Glauber Salts) a very good horse medicine, but not very agreeable to have in a glass of Soda, and which is soluble and therefore cannot be detected by the eye.

We do not dispense Soda Water ourselves, but furnish the pure Soda Water to every fountain in Honolulu but one, and we guarantee the Soda Water to be pure.

Each dispenser of soda will use the kind of syrup that suits his trade, but this has nothing to do with the purity and wholesomeness of Soda Water.

stands today king of harness horses. The great son of Hartford, driven by Ed Geers, today made the fastest mile ever paced in harness, lowering the world's record of 2:04 to 2:03 1/4.

A Bell on Wheels.

TERRE HAUTE, IND., Aug. 23.—The Standard Wheel Company of this city has begun work on a truck on which the Columbia Liberty Bell, the duplicate of Independence Bell, made of metal composed of moneys and art treasures contributed by the educational institutions of the country, will make a tour of this country and nearly all foreign lands. The workmen at the wheel works will donate their laborer. The truck is a big affair, as the bell weighs seven tons. The flanges of the hubs have been made out of the overflow metal at the time the bell was cast. The truck is to be constructed so it can be used in the streets or can be run on a railway car now being made for it in St. Louis. The bell will go from Chicago next month to the G. A. R. encampment at Pittsburg and from there to Mexico, where President Diaz is arranging for a grand reception. Afterward it will be exhibited in the principal cities of this country, when it will go to England, France, Germany, Russia and wherever civilization has set its foot.

Chinese Deserters.

PORT TOWNSEND, August 30.—The next steamer from the Orient takes from here three Chinese, Mock Shong, Mock Koon and Lum Bik Hop, who were recently arrested as contrabands at Plattsburg, N. Y. The men skipped away from the Celestial Kingdom to avoid military duty in the present war with Japan. When it became known that the deserters would be sentenced to death on their return steps were taken by several local philanthropists to see if the destination could not be changed to British Columbia, they offering to pay \$50 a head, the tax charged across the line, if the act could save their lives.

Today the committee in charge received the surprising information from a responsible Americanized Chinese merchant that although the men will be sentenced to death, they will not necessarily have to pay the penalty with life. For \$50 a week's grace there are hundreds of river coolies who would gladly take their places on the executioner's block.

An Anarchist Leader Captured.

ST. PETERSBURG, Aug. 31.—Baron Unger Steinberg, charged with being implicated in dynamite outrages at Liege, Belgium, has been arrested here. He is said to be the chief of an international band of anarchists.

A Cattle Quarantine.

BRUSSELS, Aug. 31.—Belgium has ordered all cattle from America subjected to forty-five days' quarantine on account of sickness, alleged to be pleuro-pneumonia, in a shipment from Kentucky.

Plot to Kill Greece's King.

ROME, August 29.—The police of Milan have arrested an anarchist in whose possession were papers detailing the plans of a conspiracy to stab the King of Greece.

To Tax British Silver.

LONDON, August 29.—The Pall Mall Gazette publishes a dispatch from Johannesburg which says: "The Government of the Transvaal is being urged to place a tax of 7 1/2 per cent upon British silver."

SMUGGLING BY A SEALER.

Carrying Opium to Hawaii as Profitable as Hunting Seals.

VICTORIA (B. C.), Aug. 31.—The owners and crew of the "sealing" schooner South Bend, which left here in April last and returned with empty hatches only a few weeks since, do not appear to be particularly despondent over their hard luck. In fact, though their voyage was a fruitless one, so far as the catch goes, the men seem supplied with money and can afford to indulge in the luxuries of life even more freely than fortunate sealers are wont to. It was after a few days of such indulgence that one of the crew yesterday supplied the context.

"We go sealing and come back without a skin," he said, "but we are not losers, for we know a better trick. Of course, we clear for the Japan coast on a hunting and fishing cruise. That is part of the game. But the only catch we saw was that of Maui island, and the stores we carried on the hunting and fishing cruise looked much like 'dope' to those who did not know what they really were. Who outfitted the schooner? Well, I think our ship chandler's name is Tai Yuen. Billy Stuart can tell you for certain.

"You see opium is still a profitable thing to run to Hawaii, though it takes more time and capital and involves more risk than dropping it across the line the old way, as we used to. And then there aren't such quick returns. It pays, though, even if you have to do as we did and lie around the islands a couple of months before getting a chance to land anything."

The South Bend is one of the smallest vessels ever fitted out for sealing, and has had a checkered career, having been brought here with contraband cargo, and being seized by the Canadian customs officers. She was then bought at sale by Captain Durham, her present owner.

Dailey Company Coming.

Manager William Dailey writes that his new company will arrive here on the Mariposa, due here on the 27th instant. He will play a season, lasting about six weeks, and present a strong repertoire of new plays. Two people on Mr. Dailey's staff are now in town; they arrived in the Australia. Mr. Howard will get up some mechanical effects for the coming season, and Mr. Schloth, a scenic artist, will paint some new scenery.

WITH A FORK.

A Stabbing Affair which May End Seriously.

A serious stabbing affray took place yesterday morning about 1 o'clock. A man named F. Naylor, a professional trainer of prizefighters, was stabbed several times with a table fork, by Tom Carpenter, a hard character, well known to the police.

Carpenter was having a mid-night meal in a restaurant, when Naylor entered, and asked him for a match. In some way a dispute was started, and Carpenter being enraged, seized a fork and stabbed Naylor.

Carpenter was arrested, charged with assault with a deadly weapon, and still remains at the station house. Naylor was taken to the hospital for treatment.

The Rev. Robert Hutchins, of Los Angeles, preached at Central Union Church both morning and evening yesterday.

BY AUTHORITY.

Scaled Tenders

Will be received at the Interior Office until FRIDAY, September 14th, 1894, at 12 o'clock noon, for making certain additions and alterations to the interior of the Post Office Building, Honolulu.

Plans and specifications for the work can be seen at the office of the Superintendent of Public Works.

An approved bond for one-half the amount of the contract awarded, will be required for the faithful performance of the same.

The Minister of the Interior does not bind himself to accept the lowest or any bid.

J. A. KING,
Minister of the Interior.
Interior Office, September 7th, 1894.
3785-3t

All Ministers of Religion holding licenses to perform the Marriage Ceremony in the Hawaiian Islands prior to September 1st, 1894, are requested to return the same to the Interior Office with locality of present residence in order that the same may be renewed.

J. A. KING,
Minister of the Interior.
Interior Office, September 6, 1894.
1584 3784-3t

In accordance with section 691 of the Civil Code, the Customs charges in the Appraiser's department are hereby prescribed as follows:

If the appraised value of merchandise subject to ad valorem duty exceeds by 10 per cent, or more, the value declared on the entry, then in addition to the duties imposed by law on the same, the charge for appraisal shall equal 20 per cent, of the appraised value of such goods. If such excess be less than 10 per cent, of the value entered, the charge for appraisal will be \$5. Labor at the rate of 40 cents per ton. Cartage to be charge by the drayman directly to the Importer.

S. M. DAMON,
Minister of Finance.
Department of Finance, Honolulu,
July 1st, 1894.

(Successors to Lewers & Dickson.)

LATE NEWS FROM ABROAD.

Cleveland Said to Wish the Reciprocity Treaty Terminated.

WASHINGTON, August 31.—The St. James Gazette this afternoon gives prominence to a letter written by an Anglo-Canadian, charging serious poaching on the part of American schooners in Hudson bay, especially on the McKenzie river. The writer says: "Brother Jonathan is an exceedingly smart practitioner. While inviting the powers to adhere to the Behring sea award he is poaching on his own account."

WALKER'S REPORT ON PEARL HARBOR.

Gresham Protests Against the Arrest of Americans at Bluefields—A Chance That the Corbett-Jackson Fight May Take Place After All—Adamsto Come.

CHICAGO, August 30.—A Washington special to the Chicago Daily News says there is a well-founded assertion that the President said lately he would terminate the Reciprocity Treaty with Hawaii. His object is to make sugar from Hawaii dutiable. The new tariff bill expressly continues the Hawaiian Treaty, which, it is asserted, gives the Sugar Trust a great advantage. Under its terms the treaty may be terminated after twelve months' notice.

Admiral Walker's Report.

WASHINGTON, August 31.—Rear Admiral J. G. Walker, recently commanding the Pacific station, accompanied by Captain A. S. Barker—who was relieved several days ago of the command of the cruiser Philadelphia—reached this city this morning direct from San Francisco.

The Admiral came to the department late this afternoon and had an audience with the Secretary of the Navy. It is understood that the Admiral has already completed his report on his mission to Hawaii and will hand it to Secretary Herbert upon the latter's return from his present inspection trip along the Atlantic Coast.

It is doubtful whether this report will ever be made public for the reasons that it contains numerous references to diplomatic occurrences which, it is said, are of such a nature that they would be liable to arouse the nations to whom they refer. It is understood that the report refers to the friendly relations which exist between Great Britain and the Hawaiian royalists.

Affairs at the islands were quiet at the time of Admiral Walker's departure. It is, I understand, however, that in view of this apparent feeling of sympathy between the royalists and the English Government the report recommends that a United States warship be kept at Honolulu until there can be no doubt that the new republic is able to withstand any force that the royalists may bring against it.

The greater portion of Admiral Walker's report is devoted to a description of Pearl Harbor and the advantages it possesses as a site for a coaling station. It is understood that the Admiral earnestly recommends that the United States begin to dredge the harbor and otherwise prepare it for a coaling station without further delay.

Gresham's Protest.

WASHINGTON, August 30.—The State Department has as yet received no communication from Minister Baker at Nicaragua about the arrest and banishment of American citizens by the Nicaraguan Government. It is claimed that British subjects as well as Americans concerned in the revolt were arrested, and that none of them have been granted a fair trial.

Rather tardily, Secretary Gresham cabled Minister Baker to demand that the Americans who had been arrested, and whose property had been seized, be released immediately.

It is said in official circles here today that the high-handed actions of the Nicaraguan Government in arresting American citizens and carrying off prisoners from Bluefields to Managua without the formality of a trial is something unprecedented, and that this Government will be compelled to take some vigorous action if Minister Baker's protest against these summary arrests and banishments is not respected.

Corbett and Jackson May Fight.

NEW YORK, August 31.—Now that the Sioux City Athletic Club has come forward and posted two certified checks of \$2500 each, to be paid to Corbett and Jackson for training expenses, there is a strong probability of a settlement between the big fellows. There is apparently only one chance for a hitch, and that is with the club, as the principals have declared themselves as willing to fight under the auspices of the Western club. The matter that is likely to cause a disagreement is the stipulation to the checks, to the effect that the money is payable to the club if Corbett and Jackson fail to sign articles of agreement satisfactory to its officials. This was done, however, more to protect the Sioux City men rather than to cause complication.

Holocaust in China.

HONGKONG, August 31.—A terrible fire has occurred on the Canton river, hundreds of flower boats being burned. At least 1,000 natives perished in the flames.

The flower boats were moored stern

and stern in rows and a large number of persons lived upon them. The spread of the conflagration from one boat to another was so rapid that many unfortunate Chinese had no time to cut the n from their moorings, a strong wind materially helping to increase the fire. Many hundred persons leaped overboard and were drowned.

Defeat of the Dutch.

AMSTERDAM, August 28.—The defeat of the Dutch troops sent to punish the Rajah of the island of Lombok, not far from Java, seems to have been more serious than at first supposed. It is now asserted that 164 Dutch soldiers and fourteen officers including General Vanham, were killed and many were wounded. The Dutch residents at Lombok succeeded in escaping.

Poaching in Hudson Bay.

LONDON, August 28.—The St. James Gazette this afternoon gives prominence to a letter written by an Anglo-Canadian, charging serious poaching on the part of American schooners in Hudson bay, especially on the McKenzie river. The writer says: "Brother Jonathan is an exceedingly smart practitioner. While inviting the powers to adhere to the Behring sea award he is poaching on his own account."

Called an Adventurer.

TERRE HAUTE (Ind.), Aug. 31.—When Major Ross was asked today if he wanted the word "adventurer," as applied to Russell B. Harrison, to stand, he replied, "Yes, sir; I do." In a prepared interview, printed today, Harrison bitterly assailed Major Ross and Councilman Crawford for trying "to place burdens on the street railway company in order that it might not be a competitor in the electric-lighting field." Crawford is the chief owner of the electric light company. It is in the course of a two-column interview this evening that Major Ross calls Harrison an adventurer.

Christians Alarmed.

LARNICA (Island of Cyprus), Aug. 29.—Orders have been received here for the evacuation of the Island of Cyprus and the British garrison is preparing to leave. The news has caused a panic among the Christian population, who believe the island is about to be restored to the possession of the Khedive.

LONDON, Aug. 29.—A representative of the British Foreign Office today explained that the withdrawal of the British garrison from Cyprus was due to military exigencies only and had no political meaning.

Wine for Germany.

HEALDSBURG, Aug. 30.—Dehlmens & Co., the Alexander valley winemakers, have made a sale of thirty carloads of wine to a firm in Germany. This is the first instance in the history of wine-making in Sonoma where an extensive sale of wine was made to Germany.

No Thoroughfare.

WASHINGTON, August 30.—Some of the visiting Knights of Pythias brass bands have found themselves victims of the same law that Coxey violated. Nothing like a parade is allowed to enter the Capitol grounds except on inauguration day, or by special permission, and bands which have gayly approached with drums beating and wind instruments blowing have been turned back.

Justin, Junior, Marries.

LONDON, Aug. 31.—Justin Huntley McCarthy, son of Justin McCarthy, and himself an ex member of Parliament and an author of some repute, was married at Edinburgh Wednesday, before the Sheriff, to Gladys Loftus, the youthful mimic and star of the London music halls. The marriage is the sensation of the hour. The bride is still extremely girlish in appearance and manner, and is rather pretty.

The Peruvian Rebellion.

GUAYAQUIL, Aug. 31.—The Peruvian rebels are marching on Lombay, where Carceres has a large force awaiting them. The Peruvian Government is still conscripting men. Carceres has offered a reward for the capture of Flores, dead or alive. Carceres says the rebellion is practically ended.

Ran on a Sand Bank.

PORTSMOUTH, August 28.—The Queen's yacht Effie, with Princess Louise of Lorne and suite on board, after having crossed the Solent from Cowes, today ran ashore on a sand bank at the mouth of the harbor. The Effie's party was landed in the yacht's boats.

Peace Conference.

ANTWERP, August 30.—In the International Peace Congress today an American delegate spoke at length on the growth of arbitration as a symptom that the most highly civilized nations were preparing to give up war.

Victims of the Cholera.

BERLIN, August 29.—For the week ending at noon August 29th in the German empire there were seventy-eight fresh cases of cholera reported, and during the same period thirty-eight deaths from the disease were announced.

AMSTERDAM, August 29.—Two fresh cases of cholera and one death from that disease have been reported here. At Maastricht there has been an additional death from cholera.

Hongkong Free From Plague.

HONGKONG, Aug. 31.—This city has been declared free from plague.

The World's Record Broken.
