ARMY MAN PLANS CITY FORTIFICATIONS CABLES SENT TO KUHIO ON STEAMSHIP BLOCKADE AND COASTWISE LAW

Coastwise Law Holds Up Hawaii

The crowded condition of the outgoing steamers will be made the basis of another representation to Congress setting forth the sad state of affairs forced upon Hawaii by the coastwise shipping laws.

Under the present law making travel on a foreign steamer a crime punishable by a fine of \$200 per passenger, there are not enough cabins available on the American ships to take away the people who want to go during the next few weeks.

The passengers so unlucky as to find themselves at the end of the waiting line at the steamship offices must sit on the beach and watch first class steamers go out empty. They can't get aboard because of the \$200 fine.

Cables were sent to Delegate Kuhio today setting the situation before him so that he may present it to Congress. It is possible that the Promotion Committee will take the matter up this afternoon.

Honolulu Will Have Rear Fortifications

"Honolulu is an objective and important port to foreign nations on the Pacific, and, in case of war, an attempt would undoubtedly be made to take this place on account of its harbor," said Major William G. Haan, Major of the Coast Artillery Corps, U. S. A., and a member of the Land Defense Board, this morning in an interview given in the Executive building.

"I am here with a view to making plans for the protection of not only Honolulu Harbor, but also Pearl Harbor, and also all inland defenses. The idea is that if an enemy should gain control by reason of a naval force, the city, harbor and other points of vantage could still be protected from behind by land fortifications. There is no doubt but that the force of soldiers now garrisoned at Fort Shafter is far too small, and in my report to

Washington when I am through here, I shall strongly recommend that more cavalry, infantry, and artillery be stationed at this important point."

HONOKAA TO ISSUE \$600,000 BONDS

Large Expenditures Were
Incurred For Many
Improvements

The Honokaa Sugar Co., Ltd., at a special meeting held yesterday, decided to float a \$600,000 bond issue. The bonds, or rather \$400,000 of them, will be issued June 30, and the rest possibly later on, the issue having been made as large as it is in order to meet with any unforeseen contingencies which may arise. No arrangements have as yet been made for the placing of the bonds, which

Fire In Old Church

(Special Bulletin Wireless)
Hilo, Hawaii, April 16.—The famous Hilo church was discovered on fire Tuesday afternoon between the boards of the walls. Painters have been at work the last few days burning off the old paint and it is believed the wood must have caught from this burning. The wood was so charred as to indicate that the fire had been burning for a day.

The first indication of the fire was when smoke was seen pouring from the tower. Quick work and hard work by Rev. Desha checked the fire before any serious harm was done. The painters were at work on the old house of worship to put it in condition for the celebration of the Fiftieth anniversary of its construction, to take place next June.

Frear On Alameda

Governor Frear leaves on the next Alameda for Washington to attend the conference of Governors called by the President.

The Governor will be accompanied in his travels by W. O. Smith, Alonzo Gartley and R. S. Hosmer. A conference with these gentlemen was called by the Governor at his office yesterday afternoon and the general scheme of the trip gone over.

The only doubtful member of the party has been W. O. Smith. He finally decided to go, having found that he could make the connections for a very hurried round trip. The assembly will be a very interesting one, as each Governor will probably be accompanied by such representative men of his State or Territory as he selects. The special purpose for which the meeting is called is a discussion of the great resources of the country.

DEVELOPERS OF KOOLAU RETURN

The members of the party of Koolau developers which went to Koolau yesterday to look over the country which it is planned to open up, returned to town this forenoon, at least some of them did, including Kellogg, the pioneer King, and Secretary Mott-Smith, while B. F. and Walter Dillingham, Geo. Denison of the O. R. & L. Co., and J. B. Castle went across country to Kahuku, whence they expect to return this evening.

"I really do not know much about what the others did," said Kellogg.

Although complete arrangements have not as yet been made for the entertainment of the Naval Committee of the House, President Morgan of the Chamber of Commerce stated today that it was practically certain that the committee would be invited to come.

G. H. Mayer In New
Incorporated
Company

Two companies, one of them an entirely new one and the other having done business here for some time past, filed their application for articles of incorporation with Registrar Hapal. The new corporation will be known as the Honolulu Construction and Draying Company, Limited, with W. H. Hoogs, J. J. Belser, G. H. Mayer, and John Walker as the founders and directors of the company.

That the firm will carry on extensive and exhaustive work in different lines of business is shown in the application for incorporation. The first capital stock is named as \$15,000, the company having the right to increase this as they see fit, or decrease it not below the sum of \$10,000. The auditor of the company is

M'Candless Not Asked

Editor Evening Bulletin:—Allow me to correct an error in your issue of Wednesday, April 15th, 1908, under the head of "Big Things Doing in Koolau District" wherein you state in connection with the extension of the Castle railroad, which now reaches from Kahuku to Kahana that "The development has been temporarily checked, mainly because of the difficulties encountered in obtaining the necessary right of way. In this connection it is said that the greatest difficulty has been encountered at Waihole, where Link McCandless holds large tracts, etc."

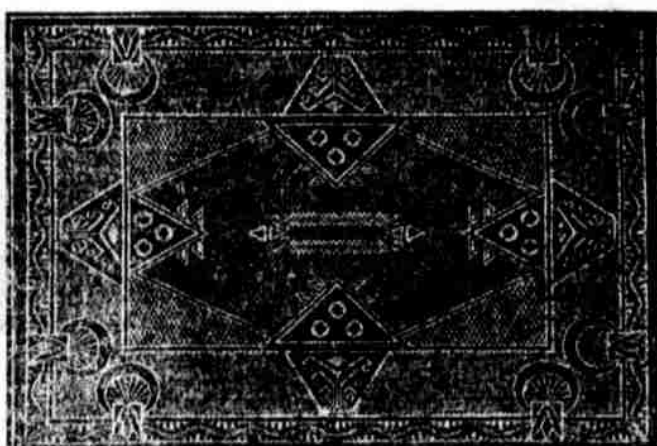

In reply to this I will say that I have never been asked either verbally or in writing by Mr. Castle or any other person for any right of way for railroad purposes through my lands at Waihole.

The lady could not be found today, but the report was quite general among the Hawaiians, and it was partially confirmed by those interested in the matter. Some said that it was Mrs. Nakuina's plan to secure the job for Fred Beckley, the former Speaker of the House.

It was learned that Mrs. Nakuina had approached the Governor some time ago, bringing various charges against McVeigh, among which the

WATERFRONT NOTES

HILONIAN ARRIVES.

The Matson Navigation liner Hilon-
ian, with Captain Johnson on the
bridge, arrived from San Francisco at
3 o'clock yesterday afternoon and
docked at her regular stand at Brew-
ster's wharf. Among the many passen-
gers who arrived were Mrs. A. S.
Humphreys and children, who have
been visiting on the Coast. A num-
ber of Salvation Army officers came
down to spread the gospel in Hawaii
and.

John McGarvey, an expert wireless
telegraph operator, was among the
passengers on the Hilonian. He is
connected with the United Wireless
Company, but he has had extensive
experience in the Philippines and at
other wireless stations. He passed
through here a year ago on the trans-
port Logan.

The Hilonian did not pick up the
shore people by wireless. After the
Hilonian had passed Diamond Head,
Operator McGarvey was not able to
receive any signals from either Har-
bor's Point or Lahaina.

The Hilonian brought fifteen hun-
dred tons of general merchandise,
and on deck forty-two miles for Gas
of the Twelfth Light House
Schumann and four bulls for Fred W.
Carter, which will go to the Hind
ranch on Hawaii.

The Hilonian sighted one or two
sailing vessels soon after she left
San Francisco, but none of them had
special interest to Honolulu people.

LIGHTHOUSE EXAM.

Applications for civil service exam-
ination will be received at the office
of the Assistant Inspector, 12th Dis-
trict, Honolulu, during the next thirty
days, for establishing registers of el-
igible from which appointments of
keepers and assistant keepers of light-
houses will be made in the Hawaiian
Division of the Twelfth Light House
District when vacancies occur. Ap-
plicants must be citizens of the United
States over 18 years of age. By a
recent order of the Civil Service Com-
mission the maximum age limit was
abolished.

Blank forms can be obtained upon
application.

J. F. CARTER,
Lieut. Commander, U. S. Navy, Chair-
man Local Civil Service Board
for the Light-house Service (in
Inspector's Department).

THE OPINION WAS FREELY haz-
arded along the water front yesterday
that Captain Will Matson must feel
proud of his recently acquired sailing
feet. Late on Monday night the bark
R. P. Rithet arrived sugar laden from
Honolulu after one of the fastest
round trips ever made by a sailing
vessel leaving this port. Good as are
the well known sailing qualities of
the R. P. Rithet, to Captain Charles
McDonald, the man on the quarter
deck, must largely be credited the re-
markable record put up. The bark
occupied fourteen days on the out-
ward voyage to Honolulu and thirteen
days on the return journey. "Sure,
we had free leaning winds," said Cap-
tain McDonald yesterday in his mod-
est way, "but it was a fine trip." Many
faster sailings have been made both
going and returning between this
port and Honolulu but Captain Mc-
Donald's stands as the record round
trip for many months. Either the
bark Mohican, which has been out
twelve days from Mahukona, or the
bark Annie Johnson, out ten days
from Hilo, is expected to put into this
port at any moment with large sugar
cargoes. Another of the Matson fleet
in the ship Hawaiian Isles, Captain
Malett, seventy-five days out from
Newcastle with a cargo of coal. The
arrival of these three vessels is looked
for almost at any time by the Matson
Company, as they all hold great sail-
ing records and the captains who
guide them are accustomed to doing
things. The R. P. Rithet brought 31-
500 bags of sugar from Honolulu—

NEW RESERVOIR NOW IN USE

The new reservoir in the Nuuanu
dam is completed and is in use. Water
is coming from this reservoir into the
city water mains and for the first
time since the big work was started,
the public is getting some benefit
from it. Marston Campbell stated
that he promised to have the water
flowing into town from dam number
four within sixty days after work was
resumed, and he has kept his word in
half the time.

By the end of the week the water
will be delivered directly into reser-
voir number one, and so come straight
to town. Work is going ahead steadily
on all the parts of the construction
and should be completed in a short
time.

BRYANITES WILL CONTEST

NEW YORK, N. Y., April 15.—The Democratic State Convention in session here has chosen an uninstructed delegation to attend the National Convention in Denver. The Bryanites will now probably hold a convention of their own and send a contesting delegation to Denver with a hope of seating H. The McCarren delegates were unseated at the convention.

ONLY TWO BATTLESHIPS

WASHINGTON, D. C., April 15.—The recommendation from President Roosevelt that four new battleships be laid down was defeated in the House by a vote of 199 to 88.

SAKATANI TO AMERICA

TOKIO, Japan, April 15.—Sakatani, the ex-Minister of Finance of Japan, sailed for America today.

CONGRESS TO ADJOURN

WASHINGTON, D. C., April 15.—The indications are that Congress will adjourn on or about May 16.

DAMAGE FROM FLOOD

HELENA, Mont., April 15.—The damage resulting from the flood, following the breaking of the dam at Hauser Lake, on the Missouri river, will be a million dollars. The town of Craig is reported to have been destroyed. The flood is now subsiding. There has been no loss of life reported.

SERIOUS KOREAN REBELLION

TOKIO, Japan, April 15.—The rebellion in Korea is increasing in strength, and it has been decided that it will be necessary to reinforce the Japanese forces now in the field against the rebels.

GRAND JURY WILL LEAVE IT WILL ALONE

United States District Attorney Breckons this morning made the statement that he did not think the Grand Jury which is in session would do anything toward continuing the investigations in Iwilei. This was forecasted in the Bulletin some time ago.

The Ministerial Union is credited with reporting that they would be satisfied if the police took some action in the matter. Such being the case, it is improbable that Breckons will enter into the proposition any further.

PEACOCK WINS IN FALSE ARREST CASE

Judge De Bolt this morning denied a motion for new trial in the case of Peacock versus Lake and Dowsett, and set aside the case, returning a new verdict against the defendants, fining each of them \$50. In the former verdict, which was in favor of Peacock, only one of the defendants was fined for false arrest. Sheriff Brown's case being non-suited.

This case is one that has been of general interest for some time past, and it is now finally ended.

BIDS FOR FEED

Bids for three months' supplies of feed and straw for the local U. S. A. Quartermaster's Depot and Fort Shafter were opened by the Quartermaster this morning. They call for the delivery of 50,000 pounds of hay, 90,000 pounds of oats, 600 pounds of bran, and 27,000 pounds of straw. The bids received were as follows:

	Per 100 lbs.	Feed Co.	Feed Co.
Hay	\$1.20	\$1.30
Oats	\$1.62 1/2	\$1.62 1/2
Bran	\$1.62 1/2	\$1.65
Straw	\$1.12 1/2

GOOD FRIDAY SERVICE

Tomorrow at St. Andrew's Cathedral from noon until 3 o'clock the three hours service will be held. It commemorates the last hours of our Lord upon the cross. The service consists of hymns and prayers and short addresses on the last seven words from the cross. People may enter or leave the church at any time during the singing of a hymn. Christians of all names are invited to the service. Bishop Restarick will deliver the addresses.

G. G. Seong, a well known merchant of Lohaina, came down on the Claudine today. Mrs. Seong and child are booked to leave for China in the Mongolia.

KILOHANA ART LEAGUE AND FISH MARKET

Editor Evening Bulletin: Mr. Marsden Campbell has accepted with great pleasure the invitation to meet the representatives of Clubs, Institutions and Committees who are desirous to use indoor park for entertainments.

The misleading headline of a casual remark made by Mr. Campbell and the extremely clever way the Advertiser man can judge the meaning of words by the tone of the voice came as a surprise to more than one this morning.

Yesterday afternoon Mr. Campbell sent for the Art League plans and with his assistants in his drafting rooms went into the matter of how the Market could be fixed up in a dignified but not expensive manner. He has offered to have all of the work of preparing plans, receiving estimates and superintending improvements done by his department.

"There are other plans for the disposal of this place, but as Superintendent of the Public Works of Honolulu that plan which meets with the approval of the greatest number and is of the greatest benefit to the entire population of Honolulu, I am in duty bound to grant."

We all know that no one has any authority to give away permanently any public building, but we do know that the unused present state of the Market building is very soon to take upon itself a new shape which will enable the people of Honolulu not only a chance to entertain the Fleet visitors, but to improve the community spirit of our city.

This evening at seven-thirty at the rooms of the Art League a joint meeting of the societies and committees which are desirous of using the Market place for entertainments, etc., and those interested in the completion of this worthy work will meet with Mr. Campbell.

The present movement is for the establishing of a tropical indoor park with stage, floor and seating capacity to give or hold large entertainments and gatherings. It is hoped that the Fourth of July will be made very glorious under this generous roof.

KILOHANA.

KENT FOR SENATOR

San Francisco, Cal., March 25.—William Kent of Kentfield, who gave a valuable tract of land with a forest of redwoods to the Government for a National park, announced here last night that he has received many letters from Chicago friends asking him to become Republican candidate for United States Senator in Illinois. He was formerly an adherent of Chicago and still retains his residence and considerable business interests there.

Mr. Kent will leave for Chicago in a few days to confer with his friends over the matter.

Mr. Kent will be remembered as having visited Hawaii last fall.

AGRICULTURAL COLLEGE MAY GET LANDS

If satisfactory arrangements can be made for the transfer of the Highlands Park tract for other lands, the former may be added to the land already given to the new College of Agriculture and Mechanical Arts. Governor Gear stated yesterday that he had the matter in hand now and hoped to make the desired changes as soon as possible. He said that the administration was willing, and all that remained would be to confer with Mr. Desky and find out what lands he wants in exchange.

The Government has a number of exchanges in view. One was consummated yesterday when the Bishop Estate and the Government exchanged some lands. The lands in Iwilei may be transferred in exchange to private owners, on the condition that they fill up the holes and raise the street to grade.

THURSDAY APRIL 16, 1908

Honesty is the best policy.

Something doing in Koolau should
not result in someone done.

Harmony with hatchets is what
trouble-makers always try to pro-
mote.

There are some advantages in be-
ing a "possessor." The Philippines
control their own shipping laws.

Mr. Bryan is not unacquainted
with contesting delegations. They
have usually brought him good luck.

Should the Kiloahua Art League
get very "huh" Marston Campbell
will do well to provide an avenue for
speedy escape.

The excuse of a perpetual prevail-
er is that the trouble is constitu-
tional, and he convinces himself that
his nose are true.

The business section of Honolulu
should be decorated and illuminated
for the Fleet. There will be action
night and day while the boys are in
town.

Lack of coin is the only thing that
prevents this new era of "conserva-
tive investment" becoming a "choop-
er-up-boys saturnalia of speculation.
Are you sad or glad?

Anything to beat Taft or anything
to beat Bryan is the common cry of
the opposition in the Republican and
Democratic parties. It shows you
that the man who wants to be a leader
must fight.

Do Honolulu people realize what a
large-sized proposition the coming
Fleet is? If not, they should speed-
ily try to understand, else the place
will be swamped and only half-pre-
pared when the ships arrive off port.

Sugar has dropped a little, which
means that the price is nearing the
limit justified by present and pros-
pective crop conditions. But a price
waver about four-and-a-half during
the height of the season is a happy
prospect for Hawaii.

Roosevelt does not get his four bat-
tlehips at this session, but Hawaii
has Pearl Harbor. The President
should be able to gain some satisfac-
tion from the fact that there will be
a port in the Pacific to put his four
battlehips that will undoubtedly be
authorized at the next session.

If we remember correctly, "the re-
formers" vigorously opposed legalized
Sunday baseball. Experience proves
that the level of moral standards is
better for having Sunday games.
That must suggest to the common-
sense man that the person who poses
as a moral reformer has no absolute
and exclusive hold on Righteousness.

HARMONY AND HONESTY.

Isn't it glorious to hear the talk
of harmony in the Republican party
come from a source that has been a
continual center of strife and dishon-
orable invention?

While the lamp holds out to burn,
the vilest sinner may return, but
some sinners are too vile to expe-
rience a change of heart.

One of the first requisites of har-
mony in the Republican party is that
honest men shall take an active hand
in the details of party work and be-
gin that work in the precincts, weeks
before the primaries.

Dishonest and dishonorable per-
sons who preach harmony with one
breath and maliciously misrepresent
the Territorial leader of the party,
only prove their vicious characters,
that present many elements of crim-
inality.

PREPARING FOR THE FLEET.

It is high time that preparations
for the entertainment of the Fleet
were begun.

The apparent indifference in con-
nection with the organization of this
work causes many to feel that our
people do not realize what a tremen-
dous proposition the visit of sixteen
battleships is.

Honolulu is pretty well filled with
four regulars with between three and
four thousand men are in port.

What will it do, when resting at
anchor off the port is a fleet of war-
ships with a total population one-
half as large as that of Honolulu?

This city has never known such an
influx of "citizen population" and
while it is true that the full twenty
thousand men will not all land on
the same day, the average-sized "lib-
erty parties" from the Fleet have
been, in other cities, about three
thousand men every twenty-four
hours.

This city will be literally full to
overflowing with sailors. And we
are glad that it is so.

But this means that the city must
prepare well in advance to not only
care for but entertain this magnifi-
cent crowd.

Honolulu has a reputation to pre-
serve. It should start early to ar-
range the details. Nothing like it
has ever been known before, but the
city should carry the entertainment
through so acceptably to its own citi-
zens as well as the guests that a rep-
utation may not be considered im-
probable.

THE KEPOKAI APPOINTMENT.

The reappointment of Judge Ke-
pokai was by no means unexpected
on account of the weak case that was
made against him by the opposition.

There were points offered, how-
ever, in the contest against the Maui
Judge that he will do well to con-
sider during his second term of ser-
vice.

The political activities of the

Kilauea Volcano

"It was the grandest spectacle on
earth." "The fire was thrown within
twenty feet of the top of the pit, and
the floor was covered with running
streams of lava." "I would not have
missed the sight for any considera-
tion."

These were the remarks made by
visitors who returned from the Vol-
cano by the MAUNA LOA this week.

Don't wait for the activity to
cease; book now while the show is
on.

Judge were not in keeping with judi-
cial propriety. He should quit politics
absolutely, and set an example, rather
than follow the example of the
Federal Judge who set the pace for
participation in political conventions.

The charge that the Judge's tem-
per sometimes got the best of him is
one that will remain in the memory
of those watching his future course,
with special reference to the present
opportunities for "paying back" his
opponents.

The community that has support-
ed Judge Kepokai assumes that he
will retain his excellent judicial
qualities and eliminate or curb those
tendencies that have been the chief
cause for criticism and attack.

Believing that such will certainly
be the case, the Bulletin extends
congratulations to Maui's model
judge.

FACTS OF PEACE

TOKIO, Japan, April 1.—The
official returns of Japan's foreign
trade in 1907 give a total value
of 925,000,000 yen (\$163,000,000),
of which 211,000,000 yen
(\$105,500,000) was with Amer-
ica. The exports to the United
States amounted to 131,000,000
yen (\$65,500,000). While Amer-
ica ranked third in shipping, its
trade exceeded that of any other
country doing business with Jap-
an. The figures are considered
significant as assuring peace be-
tween the two nations.

This special dispatch to the Chi-
cago Daily News illuminates the sit-
uation splendidly. The facts and fig-
ures given are more impressive than
columns of buncombe on what might
happen "if things were different."

What a fool any country would be
to pick a row with its best customer.
Japan is not in the fool column.

DEVELOPERS OF KOOLAU

(Continued from Page 1)
this afternoon. "I went to Koolau
mainly to look over my own interests—
there. The Dillinghams, Castle and
Donson went over towards Kahuku
to look over the lands on the way
there, but whether they have decided
if it is worth their while to place a
railroad there I cannot say. Mott-
Smith and Castle looked over some
Government lands between the Pali
and Heala. There is about 399 acres
of Government land in one tract which
is available, but there are other
tracts which are now under lease to
private parties, including Mr. Castle
as well as others."

It is understood that it is planned
to have the leases of some of these
tracts surrender their leases in order
that the lands may be immediately de-
veloped, especially by placing them
under pineapple cultivation. One of
the questions which have arisen in this
connection is the size of the individ-
ual holdings into which it is planned
to cut up the lands, some of these
interested wanting to make them
forty acres in area each, while others
want to limit them to twenty-five
acres.

The Fleet is coming. Let us clean
up the City.

MORE RESULTS OF THWING AGITATION

Iwilei Inmates Arrested In "Richards" Camp

From the calendar of the Police
Court this morning it would seem as
if the majority of the inmates of Iwilei
who were forced from that place
as a result of the Thwing and Rich-
ards agitation, had gravitated to the
Richards camp on Vineyard street.
No less than four of the cases which
appeared were those of people who
were arrested in that camp on charges
of violations of the laws made to pro-
tect the public morals.

One of these couples was made up
by Felicitia, alias "Monkey", one of
the most notorious inmates of Iwilei,
and C. Christiansen, a young Norweg-
ian who is alleged to have been liv-
ing with the woman for some weeks.
They were arrested by Joe Leal Jani
night. Both pleaded guilty. Christian-
sen was bent on contracting one of
those marriages which have been so
severely frowned upon by the authorities
since they became prevalent as an-
other result of the agitation, their
only purpose being quite apparently a
desire to evade the punishment of the
law.

"I want to marry her," announced
Christiansen as the Court was about
to impose sentence.

"You ought to be ashamed of your-
self," answered Judge Andrade. He
then sentenced both the defendants to
imprisonment for ninety days.

The case of Mrs. Patrick Walsh
and Manuel Perez, charged with
adultery, another couple which was
arrested in the Richards camp on a
charge of adultery, was continued at
the request of J. A. Mason, who ap-
peared for the prosecution.

Six Japanese who were charged
with violating the Board of Health
regulations by eating swill in cen-
tainers others than those prescribed
by the Board, were fined \$10 and
costs each.

The case of Joe Fernandez, the
back driver who is charged with pro-
secuting young Hawaiian girls for im-
moral purposes, was continued.

FLOWERS AND FERNS

Easter-tide is here and with it
comes beautiful thoughts and flowers.
Mrs. E. St. Taylor, of the Young build-
ing, has both, and though you can not
see her thought, you can see the
pretty flowers and ferns she has on
sale. Imagine lilacs of the valley in
Hawaii, and similar too, raised by her
labor and thoughtful care. It will do
you good to at least see these and
others even if you do not buy, and
Mrs. Taylor will take pleasure in
showing them to you.

HONOLULU WILL HAVE

(Continued from Page 1)

When the real value of the harbor
of Honolulu is taken into considera-
tion, situated as it is, in the center
of the Pacific, it seems a wonder that
work of this kind has not been at-
tended to before. But this is exactly
what I am here for. Inland fortifica-
tions will be built; that is, I shall
make plans and recommendations for
them now. The city of Honolulu will
be fortified in the rear as well as in
front. I shall recommend that more
heavy guns and artillery be sent here
to be kept permanently.

"It was only a short time ago that
I completed a large bit of work in
subdividing the National Guard in
the State of New York, so that in
case of war, should the enemy have
control of the sea by reason of their
naval forces, as they undoubtedly
could in the Atlantic at the present
time, there would be a set program
of inland defense laid out in a de-
finite manner. This I shall attend to

Stein - Bloch Styles Spring and Summer

THE NEW STEIN-
BLOCH styles are
being shown.

Where did they come
from?

Styles—as this house
presents them — repre-
sent no one man's ideas.

Stein-Bloch advertising
presents to you photo-
graphs of the current
Spring and Summer mod-
els according to the
world's best usage. They
are genuine composites.
They bring together into
one suit or overcoat the
various points included
in reports received from
Stein-Bloch outposts in
the acknowledged fash-
ion capitals.

Stein-Bloch commis-
sioners go at seasonal
intervals to all those
places on both sides of
the Atlantic where ad-
vance fashion ideas are
brought together into one
procession by the limited
trains and the ocean grey
hounds. The observations
of these men meet in the
Stein-Bloch designing
and cutting rooms.

At one time it is a new
fabric from exclusive for-
eign looms, to be accurately reproduced for Stein-Bloch use. At
another time it is a trim top-coat idea from the box of a tallyho
at a race meet in England. Again an afternoon coat worn on Fifth
Avenue by a man who has time and means to indulge his clothes
whims. Or it may be a smart suit idea from the floor of the
Stock Exchange—or a hot weather suit from Palm Beach.

Whichever it is, it is authentic, and shaped out to present to
you as the most economical and sensible solution of a serious mod-
ern problem.

DUNDEE ARRIVES

After a passage of 126 days from Leith, Scotland, the German ship Dundee, Capt. Gustafson, came into the harbor and docked at Blackford wharf today. This is her first trip here. During her voyage there was no mishap of any description. She brought 1950 tons of general cargo, some of which consisted of sulphur ammonia. About 2000 tons of the freight is for Seattle.

"We had a poor southeast trade wind. It was calm at the equator," said the captain. "When in latitude 54.52 South and longitude 63.20 west, we saw an English bark with letters Y. V. P. B. She was from Kurland. This was on February 12th."

NEW VICE-CONSUL

COUNT OKUMA EXPLAINS

Tokio, March 10.—A few days ago Count Okuma received a deputation from the Japanese residents of Sacramento, Cal., and from the Japanese newspapermen of San Francisco, who wished to solicit his views on the emigration problem. The Count is reported to have said that it was very difficult to find out wherein lay the object of the dispatch of the American battleship squadron to the Pacific Coast at this time. A good deal has been made of the movement by the European press, and it was looked upon there as an occurrence of unusual significance, he said.

Japan, however, had received the assurance of the United States government, he continued, that it was not intended as a menace to Japan, but was merely undertaken for the purpose of training officers and men. Nevertheless, whatever the real object of the movement might be, it was indisputable that Japan's emigration policy had been considerably affected thereby and it was not easy to see entirely the dispatch of the fleet from the policy Japan had lately pursued toward the United States in this connection.

The analogous problem in the Dominion of Canada had likewise a bearing upon the case. Canada was British territory and Great Britain was under obligations to protect the interests of her colony. The count was, therefore, of the opinion that the British Government had tendered to the Tokio cabinet certain advice, either directly or indirectly, in view of which it had become impossible for the Japanese government to adhere strictly to what might be termed a strong foreign policy, and the country had been compelled to acquiesce to a certain extent in the negotiations obtaining abroad.

China Is The Center

WILL BE THE SCENE OF FUTURE TROUBLE IN ORIENT—JAPAN'S AMBITIONS

Newton, Mass., March 21.—"Japan is desperately hard up, but her people, flushed with victories over China and Russia, clamor for more war, and circumstances may force the Mikado to fight the Emperor of China, backed by the Czar and the Kaiser."

That is the essence of a speech made before the Newton Club tonight by Congressman Edwin Denby, of Detroit, who was in China's eastern service ten years while his father was American Minister at Peking.

After critically analyzing Japan's finances, Mr. Denby said, among other things: "Summarizing these facts, we find a country already taxed to the limit of human endurance, yet continuing to maintain an enormously expensive army, making every possible effort to increase its military strength."

"What are the plans of Tokio? Certainly she will not disarm. Her people, drunk with success, would not permit it. Surely she will not repudiate her foreign debts; her people would rather die than face that dishonor."

"There seems to remain only the third alternative—war, or conquest with or without war."

"That her chosen antagonist is the United States is a presumption so absurd as to scarcely merit consideration. No question promises even to disturb the amicable relations of the two countries. Furthermore it must be evident to the statesmen of Japan that while war with the United States would be disastrous to us it would be more suicide for Japan."

"It is possible that her statesmen have not been averse to permit the suspicion to grow that Japan had designs upon a part of the United States—it may have been a convenient cloak to cover other plans."

"Asia is not yet mastered. Japan's course in Manchuria lends color to the theory that she would be happy to defend her conquest against China with war if need be."

"She must be prepared to meet the power of Russia and Germany as possible allies of China and to fight out with them to a final issue the question of trade mastery of the Orient."

"Her battle would be single-handed for it is not to be imagined that an aggressive campaign of that character Great Britain would lend her aid. As a matter of fact, if Japanese ambitions are crowned with success, England will be the chief sufferer."

"Boundless ambition, high ability, unique success, unbearable taxation and the propinquity of the richest unexplored market and territory in the world now in the hands of a feeble government—these are the elements."

A RELIABLE REMEDY FOR THE

Whisky and Beer Habit

Very few men become drunkards because they like liquor. It is frequently the moderate drinker, who frequently realizes his condition, has become a drunkard. The nervous system, having become accustomed to stimulants, is unable to do the same amount of quality of work without liquor, hence the victim drinks more and more. This is a state of disease and should be treated by Orlin. It destroys the desire for liquor, so that the drink is not missed. There is no loss of time or detention from work when it is used.

Orlin is prepared in two forms: No. 1, the secret remedy which can be used in food or drink without the knowledge of the patient; No. 2 for those who take the remedy of their own free will. Both forms are guaranteed. A registered guarantee in every box.

Treatise on how to cure drunkenness free on request. The Orlin Co., Washington, D. C. The price of either form is \$1 a box, making the cost of the complete cure less than one-tenth what it is usually charged at sanitariums, with a guarantee that the expense will be nothing unless a cure is gained. Mail orders filled in plain sealed package on receipt of price.

Orlin is for sale by Honolulu Drug Co., Ltd.

Takahira Doubtful

DOES NOT CONSIDER IMMIGRATION MATTERS SETTLED. TAFT DOES

Paris, March 21.—"The agreement which is being negotiated by Japan and America regarding Japanese immigration to the United States will give fair satisfaction to both countries, although it will not satisfy certain elements in Japan."

This statement is attributed to Baron Takahira, Japanese Ambassador to the United States, by Andre Tardieu, foreign editor of the Temps.

M. Tardieu, who was in America recently, interviewed President Roosevelt, Secretary of War Taft, Baron Takahira and probably some other persons.

Tardieu quotes the Japanese Ambassador further:

"Japan does not wish her workingmen to go to America. She desires them to remain in Japan or else go to Korea or Formosa to help to develop those countries."

"As to the American fleet, it will be welcomed by the Japanese."

"Japan desires peace."

Tardieu remarks on his own account that the present agreement between Japan and America has "only a temporary character." Japan does not acknowledge America's right to restrict immigration, but for the present Japan wishes to utilize her citizens nearer home. Japan's contention against America may be used later, Tardieu predicts, as a basis for fresh negotiations, even as a pretext for new difficulties. M. Tardieu points to the fact that America's arrangement with Japan concerning immigration is not satisfactory to the people of California.

M. Tardieu in an interview with Secretary Taft, published in yesterday's World, quotes Mr. Taft as saying:

"I consider that the agreement made as an accomplished fact; Baron Takahira spoke of it as 'pending.'"

Besides, Mr. Taft is quoted by M. Tardieu as saying:

"If our fleet should go to Japan, which is not certain yet, the reception given it would surprise the pessimists."

Baron Takahira is quoted above.

"The American fleet will be welcomed by the Japanese."

Tardieu had the interview ten days or a fortnight ago. It was announced last Friday that the American fleet will go to Japan. Takahira said, "Will," Taft said, "Should"—"It is not certain yet."

An M. D. On

Kidney Disease

Writing on kidney disease, the medical term for which is Nephritis, Dr. J. W. Chismond says in the "MEDICAL BRIEF":

"The insidiousness of it is as curable as any malady that the system is heir to. IN ITS SECONDARY STAGE WE POSSESS NO SPECIFIC FOR ITS CURE."

Where does that leave the kidney medicine that have been taking?

And just as we have said over and over, it doesn't make much difference what you call kidney trouble, if it fastens, physicians and druggists have had no successful treatment for it. True, it commonly gets well at first, but if it does not, it enters the second stage that was incurable up to the discovery of Filton's Renal Compound, which is the first thing known to reduce inflammation in kidney disease.

When does the second stage commence? Dr. Chismond says: "IT DEVELOPS SO UNCONSCIOUSLY IT IS AS A RULE FAR ADVANCED BEFORE IT IS DISCOVERED."

In view of these acknowledged facts, people with kidney trouble should do some serious thinking before taking futile kidney medicines under which the kidney disease have risen to over 150 per cent. Even if the inflammation is in the first stage, a course of futile medicine is delay that develops the very condition that Dr. Chismond says is "irreparable" and that was irreparable up to the date of Filton's beneficial discovery.

If you have kidney trouble, either starting or seated, how can there be any question about your taking the only known remedy for the kidneys, which, ineffectual or chronic, is the real difficulty with kidney-troubled people?

LOCAL

Polo Players Are Now Preparing

The Oahu Polo Club in conjunction with some local assistance propose and is now getting the initial portion of its program ready to have a grand gala fete-day on that historical Hawaiian holiday, the coming Kamehameha Day, June Eleventh. Although yet in its incipency the plan has met with so much approval among poloists and others whom it is proposed to interest that there is little doubt but what the event will be forwarded to a successful issue. The day itself, once one of the most generally celebrated of all Hawaiian holidays, when master, man and maid hied to Kapiolani Park and became part and parcel of the vast throngs that filled that umbrageous resort, has of late passed somewhat quietly by, but the intended action of the Polo Club will make the old-timers and the new-comers sit up and take notice when it is told them that under the auspices of the club it is proposed to have horse-racing, several speedy automobile races, run with turns to be made the same as chariot races, and a grand finale in an exciting polo contest between two of the Island teams. And they go further, these good polo sports; they propose not to ask a copper for admission to view the events. All the horse races, running and harness, the puff, clatter, honk and nerve-trying contests of the red and black devils, of autos, and the polo contest, all "pro bono publico," except such amount, small or large, that a well-intentioned public may of their own sweet will deliver up in the contribution boxes at the gates. Thoroughly Hawaiian is the idea, the well-noted hospitality of Honolulu bubbling up and finding outgo through the good heads and hearts of the Oahu Polo Club.

BASEBALL NOTES

The representatives of the League baseball teams met, at the rooms of Thompson & Clemons today at noon, and, after a somewhat heated discussion over the reported action of the Rapid Transit Company, which seemed to the representatives to be inimical to the League interests, the schedule of the season's games proposed to be drafted at this meeting was postponed until next week. Those present were Gleason, Falk, Wise, Lemon, Fernandez and Steere, representing League teams, and Frank Thompson, secretary.

If the following information is considered worthy of notice by the trustees of the local League it would be well for them to take heed and lay in a good stock of the elusive rubber for the coming prospective busy season. The information is to the effect that with the price of high grade baseballs advanced and whispers in the air that another advance is contemplated by the manufacturers, Young America will have reason this year to be "real sore" on the so-called rubber trust. One of the principal reasons given by the manufacturers is the advance in the price of rubber, a large percentage of which is employed in the composition of the first-class ball. The cheaper grades of balls will retain for the same prices as formerly.

The Coast League, which now, more than ever before, calls attention from here, on account of the local acquaintance with the Mique Fisher tourists, seems to be very well balanced. An expert says: "Where is there a weak club? Los Angeles won't be as strong as it was last season. Berry will miss Cravath, Carlisle and Burns, but he will have a good team at that. San Francisco must have a good team from all accounts. I haven't seen the Seals play, but they all tell me that they can go some. Portland is represented by a fast bunch. McCredie's new men have all the action of good players."

Manager Gleason of the St. Louis team, promoter of the project to get the college teams of Tokio, Japan, and Santa Clara, Calif., to visit here, reports having received very favorable advices from the Santa Clara team and indicating they could come in June or July.

It will be a great time for the fans when the expected Santa Clara team and the local St. Louis mix it up on the diamond. The Coast Saints carry an average batting record of over 300.

The Riverside Baseball League will meet this evening in A. L. C. Atkinson's office to arrange the final details for opening the League season Sunday, April 26.

OUTRIGGER CLUB AND FISH COMBINE

Mr. Herbert Suggests And Ford Does Business

H. L. Herbert and Alexander Hume Ford met this morning at the office of R. H. Trent to consider plans for uniting the anglers with the proposed "Outrigger" Club.

Mr. Herbert stated that he and his Isaac Walton devotees were in the habit of using outrigger canoes for fishing parties within the reefs near Waikiki, but that there was some time a difficulty in finding a place to keep the canoes when not in actual use. The proposition was that the anglers unite with the Outrigger Club and that certain canoes be set aside for fishing purposes, and the club be not only a surfing, but also a fishing club. Mr. Herbert and his friends will attend the first general meeting of the Outrigger Club and the two organizations will probably combine and unite their efforts to revive old Hawaiian surfing sports.

Often a boat load of the anglers make a catch of seventy-five or a hundred fish within a few hours, and certainly the stranger within our gates will most gladly welcome an opportunity to indulge in a day's sport of this sort.

Mr. Herbert is an enthusiast on reef fishing from an outrigger canoe and thinks it would be quite an advertisement to the islands to have tourists go out with the native fishermen and see how our fish are speared, after being discovered through the glass box. As a sportsman, however, Mr. Herbert prefers the line. He would have native fishermen employed by the club, who could act as guides to all the good holes in the reefs and show the baale how to catch shrimps, without which bait reef fishing loses much of its zest.

As stated in the Bulletin some time ago the Outrigger Club proposed to build a lanai on the grounds of the Seaside Hotel, where it would keep a number of canoes and about one hundred surf boards, the idea being to revive and keep alive surfing sports of every kind, as one of the great attractions of Hawaii.

The dues for those who wish to invite friends from the Coast to enjoy the privileges of the club, including use of canoes and surf boards, it is proposed to put at ten dollars a year, while actual surfers and school boys will pay five dollars per annum. A call, setting forth the objects of the Club, is being sent out and is signed by James F. Morgan, A. H. Ford, James A. Wilder, Wm. R. Castle, J. A. Gilman, Richard H. Trent, J. Winterhouse, J. A. McCandless, H. P. Wood, A. M. Brown and A. L. C. Atkinson.

About one hundred members have been secured and those wishing to become members of the club are requested by the promoters to send their names to C. R. Frazier, 122 King street. Phone 371.

WITH OAR AND SAIL

"Jack" Atkinson, the president of the Heanani Boat Club, stated yesterday that it was his intention to call a meeting of the club during this week. Jack could not tell the day, although there were but three days of the week left, nor could he tell what the subject for consideration would be.

Pete Barron, the herculean trainee of the Heanani club, is a fine specimen of the "human form divine." Professor Pete although 49 years of age is as clean-skinned, clean-limbed and muscular as a man of 45. He carries his 205 pounds easily and well and is the picture of health.

Supervisor Dwight of the County Fathers might give his attention to the making of a pathway or sidewalk, even of boards, along the roadway leading by the boat houses, and many lady visitors to the clubs would call him blessed.

The Myrtle Boat Club members are still undecided over the Fleet races preparations. If anything is to be done in the way of making a good showing, it seems to be high time to get into practice.

The Hawaii is being rapidly and well rigged by the riggers in charge under the watchful eye of Capt. Alec Lyle. The yacht is now becoming more pronounced as to her appearance as a sea-going boat.

The sampan fleet, near the Myrtle boat house, is an interesting place to view. The heaps of miscellaneous matter, which belongs to a single sampan is a curiosity to stranger or resident.

The Kamehameha will, very probably, take one of her long stretches to windward on Sunday. There is generally a jolly crowd of guests on board who enjoy the cruise.

Track Gambling Ended At Washington

WASHINGTON, D. C., April 6.—The race track gamblers are after Senator Carter of Montana and are trying to get him to reconsider his determination to push the anti-gambling bill through the Senate. Carter has been made chairman of the sub-committee having the measure in charge and he has announced that he intends to push it through. There is a great demand in Washington to have the gambling suppressed. It has been the ruin of many men, and clerks in the departments, men working in stores and in many other walks of life, have spent their money on the horses while their families suffered. Senator Carter was out in an interview one morning saying that he intended to favor the bill and almost before he had finished his breakfast one of the race track men was at his house trying to convince him that he was taking the wrong course and ought to reconsider his declaration. But it is no use. Gambling at the race tracks is doomed so far as Washington is concerned. Congressman Simms of Tennessee is the man who pushed the bill through the House. He had a hard time doing it, but he took the bill through all its parliamentary stages and beat every objection and point of order that was made against it. Simms says he did not want to do this because he has been pressing the prohibition bill ever since Congress opened and declares that he does not want to get the reputation of being an all-round reform crank. At the same time, as there was no one else who would take up the bill for suppressing gambling, he did so and made a success of it.

ATHLETICS

Poster, the late addition to fistic athletes, is part-colored. He is a fighter with a record, and from his appearance and experience would make a good match for any 140-pound man.

It is to be regretted that the trustees do not appoint an athletic instructor for the Kamehameha Schools. Plenty of good material, with beneficial results.

The Punahou boys are practicing for the coming baseball season. They have good coaches besides their athletic instructor and will make quite a showing during the season.

AUTOS AND AUTOING

Auto trips toward Tantalus to the view-point on Punchbowl are being made by many residents these beautiful moonlight nights.

Haleiwa is a favorite across-the-country run now and the popularity of the hostelry is increasing in the estimation of autoists.

Speedy skirmishes are of daily occurrence between autoists on Kalaheima avenue.

There are 215 automobiles listed as being licensed in this city.

ST. LOUIS TEAM

The following players will constitute the team of the St. Louis club for the coming season. The positions have not been yet directly assigned to each, but a good guess may be given where each one will play. This is the list: En Sue, Asai, Arclia, Markham, Aylett, Jim Williams, Jno. Williams, Barney Joy, Bushnell, Ayau, Soares, Bruns, Bill Williams.

The Gladys has been overhauled, repainted and generally made good for the coming yachting season. She is at her usual anchorage off the Young brothers' boat house.

The Ring Dove, Pakoona, Gladys and Hawaii, will, if the weather is propitious, probably take a spin toward Pearl Harbor on Sunday next.

The senior crews of the Heanani club will probably engage in practice within a week or two. Nothing doing at present.

The game at the League grounds the coming Saturday will be between the St. Louis and Diamond Heads, in another try-out match.

Tomorrow afternoon there will be a game at Aala Park between teams of the Riverside Junior League.

Remember that the Garbage Department has promised to cart away the refuse when you clean up your sidewalk. Call up the department when your part of the work is done.
