Fate of Kitchin Sugar Bill Now With Senate

KEKAHA SUGAR COMPANY WILLING TO PAY TERRITORY BIG SUM FOR RIGHTS

Manager Faye Tells Governor Plantation Would Give \$200,000 in Outright Purchase of Mill Site at End of Present Lease—Also \$150,000 for 15-Year Lease of Government Lands—Official Party Investigating Kauai Problems—Progress Made Toward Settlement of Knotty Points

[Star-Bulletin Special by Mutual Wireless]
KEALIA, Maui, April 10.—Governor Pinkham and his official party visiting Kauai made a trip this morning to Anahola forest reserve, also to the Makae railroad line and Kapahi valley. Land Commissioner Rivernburgh and Territorial Hydrographer Harrison are investigating the land and water situation. The governor expects to visit President Hana Iseberg of Lihue plantation and also to see Col. Z. S. Spalding of Makae Sugar Company this afternoon.

[Star-Bulletin Staff Correspondence]
LIHUE, Kauai, April 9.—That the Kekaha Sugar Company would be willing to pay approximately \$200,000 in an outright purchase of the mill site at the end of the present lease in 1920, which site includes some 25 or 30 acres of land on which the mill, offices, shops and switches are now situated, and that the company would also be willing to pay an additional \$150,000 for Kekaha-Waimea government lands on a 15-year lease providing the ownership of the millsite was a settled fact, was stated to Governor Pinkham and territorial officials by Manager H. P. Faye last Friday. The Waimea land lease expires next year.

The conference at Kekaha was held about noon, and in the main office at the big mill. Through the open windows, as the men talked, came the sweet scent of raw sugar and the hum of heavy machinery.

The conversation on both sides was free and easy, and the question of homesteads, water and land rights was discussed from some of its many angles.

Governor Asks Public Sentiment.
Governor Pinkham began the conversation by stating that he and his men had come to look over the situation first hand, to gain every bit of information they could from as many sources as possible.

He stated furthermore that he is bound down by the Organic Act, which allows that any 25 men may be heard if they petition for homestead rights in a certain district, regardless of what leases the government may have made regarding it.

Let us know as a people what we want. He has proposed that a big mass meeting be held in the Honolulu armory, and that there the land and water question be threshed out thoroughly.

Manager Faye is not in favor of homesteads taking the present land. He declared his willingness to help the homesteaders, however, if a suitable policy could be reached by the government.

Rights Very Valuable.
He stated that he was willing to pay \$100,000 for the mauka land and water rights—assurance of cane being given if his company is allowed the ownership of the mill by purchase after the old lease has expired.

Manager Faye says he believes that if the Kekaha cane lands are turned over to homesteaders the result would be a yield of 6000 tons, per year instead of the present yield of 15,000 tons. He is sure that with ownership by the company the yield can be increased by storing more waters in the mountains.

In answer to a query as to whether he considered it feasible to have the territory to handle the distribution and regulation of water for homesteaders, the sugar man replied emphatically in the negative.

One homesteader would claim here and one there, he said, and regulation would be mighty hard.

"God, pity the man who is in charge of the distribution," he said.

Kekaha mill is making as few repairs or additions to machinery and equipment as it can get along with—this in view of the fact that its lease will soon expire.

"We did put in one \$9000 piece not so long ago," he said, "but this was because we found it absolutely necessary for the work of the mill. For the most part we are avoiding this." Bound By 25-Year Rule.

Again Governor Pinkham spoke of the fact that the Organic Act holds him fast by its 25-year rule.

"We are between the devil and the deep sea," he laughed.

1915 FOR HAWN. COMMERCIAL IS A RECORD YEAR

Balance December 31 Last is \$1,418,000, and \$500,000 to Go for Improvements

LOSS IN MAUI STORM AMOUNTED TO \$200,000

In Spite of Bad Weather, 1917 Crop Will Be Banner One, Manager Predicts

With a 1916 crop of approximately 58,000 tons, a 1917 crop expected to be a record-breaker and a balance as of December 31, 1915, of \$1,418,000, Hawaiian Commercial and Sugar Company, the territory's biggest sugar producer, expects to spend half a million this year in improvements.

The annual meeting of the company will be held in San Francisco on Wednesday. Copies of the reports of President and Manager F. F. Baldwin and of the secretary and auditor have been received in advance and mailed out to stockholders. The report will be of general interest in Hawaii.

Manager Baldwin says: "The past year, due to the abnormal price of sugar, proved to be the most prosperous year in the history of the company."

"Climate conditions were favorable to growing crops, although we were somewhat short of water during the summer months."

"We are having a very severe winter. On the 17th, 18th and 19th of January."

(Continued on page eight)

Entire Repeal of Free Sugar Plan is Urged

Senator Simmons Speaks on Behalf of Extending Tariff to May 1, 1920, While Others Are Insistent on More Radical Action

[Special Star-Bulletin Cable]

WASHINGTON, D. C., April 10.—The Kitchin sugar bill, amended by the senate to fix the period of tariff extension until May 1, 1920, was taken up in the senate today as reported from the senate finance committee.

Senator Simmons, chairman of the committee, advocated that the four-year limitation of the tariff, as reported by the committee, be adopted by the senate.

Senator Francis G. Newlands of Nevada urged a straight-out and unequivocal repeal of the free-sugar clause of the present tariff law. He said action otherwise would prove valueless to the cane-growers.

Senator Charles S. Thomas of Colorado supported the simple extension of the tariff period.

Senator Charles Curtis of Kansas favored an indeterminate repeal of the free-sugar clause. He said the Democrats should acknowledge their error in passing this provision as part of the existing tariff law and should admit that the revenue provided by the sugar tariff is necessary.

Senator Robert Broussard of Louisiana spoke for absolute repeal of the clause.

Senator H. C. Lodge of Massachusetts spoke for amendment of the dyestuffs provisions of the tariff bill and Senator Underwood spoke in opposition to it.

The debate lagged a little in the senate this afternoon and not much more is likely to occur until tomorrow.

C. S. ALBERT.

[Associated Press by Federal Wireless]

WASHINGTON, D. C., April 10.—In opening the debate today on the sugar bill, Senator Simmons asserted that he calculated it would be but a temporary measure and necessary owing to the decrease in customs due to the war. Eventually, he said, conditions would warrant a return to a free-sugar policy.

BALLOU PILOTS NAVY LEAGUE IN LARGE MEETING

WASHINGTON, D. C., April 10.—The Navy League convened today for its big meeting here with representatives of every state in attendance. Judge S. M. Ballou, attorney in Washington for the Hawaiian Sugar Planters' Association and prominent member of the League, presided this afternoon.

The president had been expected to be present but was kept in the White House by a cold which he caught while in the presidential yacht on the Potomac last week, and did not go to his office today.

TERRIBLE BURNS FROM EXPLOSION ON ASYLUM WORK

Mantel Monic, a guard at the hospital for the insane, aged 63, and Francisco Dina, an inmate, aged 25, both working on the new road work being done at the asylum, were painfully burned a few minutes after 12 o'clock today when some dynamite they were using exploded too soon.

Both men are at the Queen's Hospital and reports say their eyes have been burned out and their faces charred virtually beyond recognition. The accident occurred at the quarry.

SUBMARINE WAR CONTINUING TO GATHER VICTIMS

Several British Merchant Vessels Sunk But Loss of Life Small

NEW ATTEMPT MADE TO RELIEVE KUT-EL-AMARA

Renewal of English Advance Along Tigris Announced About Ready

[Associated Press by Federal Wireless]

LONDON, Eng., April 10.—Several more vessels have been sunk by submarines, according to announcements today. The British steamers Silkworth Hall, Glen Almond, Yonne, Zafra and Eastern City are reported sunk. Three are missing in the torpedoing of the Silkworth Hall.

LONDON, Eng., April 10.—The British are preparing for a new advance into Mesopotamia, where the relief force along the Tigris is approaching Kut-el-Amara. At the latter place a British force is beleaguered by the Turks.

PARIS, France, April 10.—The Germans today continued their battering attacks both east and west of the Meuse for possession of Dead Man's hill. They were repulsed everywhere except along one stretch of front 500 yards wide. East of the Meuse the Germans gained only small results.

BERLIN, Germany, April 10.—German attacks in the last 24 hours have isolated Bethincourt and two fortified points of the fort southwest. Here the French were cut off, losing 714 men taken prisoners and 15 machine guns. The losses of killed and wounded among the French were considerable.

GERMAN OFFICIAL CABLEGRAMS

The following cablegrams from official German sources were received today:

"German Headquarters, April 9.—Left bank Meuse; Silesian and Bavarian troops stormed two strong French points d'appui south of Hancourt, took whole position on Ridge Termit more than two kilometers wide. Enemy attempted this morning a country attack which failed. German losses were small, the enemy's losses especially heavy, also on account of treacherous conduct of some."

"Besides this, 15 officers and 699 men, unwounded, were taken prisoner, among whom were numerous recruits of year 1916."

"On the heights on both sides of the Meuse and Woerthe artillery of both sides was active. South of Soudern, in the Vosges, small German detachment advanced into a French salient position. The occupants fell, except 21 who were prisoners. The enemy's trenches were blasted."

"East front: Russian attacks also yesterday were limited to a small front of section south of Naroc lake and were flatly repulsed."

YESTERDAY'S SITUATION.

"German Headquarters, April 9.—General situation in all war theaters unchanged."

"German admiralty reports that on April 8 four naval aeroplanes attacked the Russian aviation station of Papezhorn, near Kialkond, on the Oesel, and dropped 20 bombs on the station. Four Russian aeroplanes were forced to land, but two of them were forced to land. In spite of violent shelling, German aeroplanes returned undamaged."

ARMY COMRADES SAY JESSE DUKE INNOCENT MAN

Jesse Duke, former enlisted man of the 25th Infantry, now charged with murder and recently given a new trial in the federal court, is innocent, declare his comrades of the army, and they are now raising a fund for counsel fees to defend him.

Announcement is made that a benefit shirtwaist ball will be given by the enlisted men of the 25th Infantry at the Hotel Spanish war veterans' hall on the evening of April 12, 1916.

The ball is for the purpose of helping to raise \$125 to finish the payment of \$300 lawyers' fee for the defense of Duke. The soldiers of the regiment are convinced of his innocence and have taken it upon themselves to furnish him with counsel.

There will be plenty of good music furnished by the 25th Infantry band. The admission for men will be 35 cents, women free.

LANSING AND BAKER WILL NOT COMMENT ON RUMOR OF "DEAD LINE" SET IN VILLA PURSUIT

Bandit Leader Now Believed Beyond Parral, Two Or Three Days Ahead of Americans, With More Men

[Associated Press Service by Federal Wireless]

WASHINGTON, D. C., April 10.—Categorical denial by Secretary of War Baker that there is any contemplation of a withdrawal of troops from Mexico south of the border are to be limited.

The latest report is that a "dead line" has been set, presumably at the suggestion of the Carranzistas, beyond which the American column is not to go in pursuit of Gen. Villa. Both Secretary Lansing and Secretary Baker refused to comment today on the story that an agreement had been reached to this effect with Carranza.

It is rumored in Washington that no surprise would be occasioned if the Carranzistas should soon set a date when they think the Americans should withdraw, believing that the purpose of the expedition has been accomplished in the defeat and scattering of the Villa forces.

CANTON QUIET NOW; BUSINESS NOT AFFECTED

Republicans Make Merry Over Victories; Opium Traffic Reported Doomed

[Associated Press by Federal Wireless]

AMOI, China, April 10.—Assassination was attempted today of the chief of the military police, a bomb being thrown through the window of his residence. He escaped.

The U. S. S. Cincinnati arrived here today to protect foreigners.

(Special Marconigram to Liberty News.)

SHANGHAI, April 10.—Canton is quiet at this time with the exception of the noise made by the Republicans who are firing fireworks and making merry over the victory of the Republican forces. Business in Canton has not been affected by the change in the government, and with the exception of the opium business, the city has regained confidence in the Republican party.

The opium traffic is doomed, as the leader of the bureau has been killed, and his followers have decided that the Republicans will not stand for the trade in the drug. There are still a few disturbances in the provinces north of Kwantung, and Hunan may at any time announce its independence of Yuan Shih-Kai. With the Republicans in power in Canton, it is not expected that Yuan will make any move to combat the forces there. Regarding the peace situation, it does not look probable until Yuan Shih-Kai resigns as president.

OLD RECEIPTS OF NO VALUE MAKE BONFIRE

Several truckloads of obsolete records, registry and parcel post receipts and other papers which had been accumulating at the postoffice for seven or eight years, were carted down to the Iwilei garbage dump and burned today.

The receipts were of no further value. They made a bonfire, at which Superintendent of Mails Frank T. Sullivan presided, smearing oil over the mass to make it burn better. There were no pieces of mail matter or anything of value to the postoffice in the lot which weighed quite a few tons.

INQUEST AT EWA ON PLANTATION ACCIDENT

An inquest was held at Ewa at 1 p. m. today over the deaths of the Spanish girl of 15 and the Filipino man of 23, who lost their lives as the result of a labor train of the plantation company plunging down an embankment Friday morning, due to a blind switch being left open. No verdict had been reached up to the time the first edition of the Star-Bulletin went to press.

THOMPSON NOMINATION NOT YET ACTED UPON

[Special Star-Bulletin Cable]

WASHINGTON, D. C., April 10.—The senate judiciary committee again today postponed action on the nomination of J. Wesley Thompson to be judge of the third circuit, Hawaii. The committee will meet again on this nomination next Monday. Protests against the confirmation of Mr. Thompson have not yet been received, though they are reported on the way.

C. S. ALBERT.

CARRANZA BELIEVED NOW TWO OR THREE DAYS IN ADVANCE OF U. S. FORCE

EL PASO, Texas, April 10.—Gen. Villa is believed today to have succeeded in getting beyond Parral, and to be now two or three days ahead of the Americans. Perhaps his destination is Durango City, where he will join 1000 men under the Arrieta brothers.

Gen. Garcia, the Carranza commander across the border, denied today the story that a "dead line" in the pursuit of Villa has been agreed upon.

GEN. FUNSTON BELIEVES CARRANZA AID UNCERTAIN

That Maj. Gen. Funston is in need of the cooperation of the Carranza government is shown in a despatch he recently sent to the war department, which said:

"It is the opinion of Cols. Dodd and Slocum, in which I concur, that unless Villa is relentlessly pursued and his forces scattered he will continue raids. As troops of the Mexican government are accomplishing nothing, and as he can consequently make his preparations and concentrations without being disturbed, he can strike at any point on the border, we being unable to obtain advance information as to his whereabouts."

"If we fritter away the whole command guarding towns, ranches and railroads, it will accomplish nothing if he can find safe refuge across the line after every raid. Although probably not more than a thousand took part in the Columbus raid, he is believed to have about 3000. Even if he should not continue raids, he has entered on a policy of merciless killing of Americans in Mexico."

"To show apathy and gross inefficiency of Mexican government troops, an American woman held prisoner by Villa for nine days, but who escaped in the Columbus fight, states that during all that time he was undisturbed at no great distance from the border, collecting a force of about 3000. The few Carranza troops in the region fled, losing all contact with him and not even informing us as to his whereabouts."

"If it is proposed to take action suggested, I recommend no information be given out in order that we may stand some chance of surprising."

"If desired, I shall personally command. It would be desirable to replace as soon as possible from available cavalry in the United States the cavalry taken from the border."

DEATH BEATS T. S. CHOY IN RACE FOR FREEDOM FROM JAIL

Death has beaten T. S. Choy, convicted opium manufacturer and bandit, in a race for freedom that was only a few weeks away. Choy, who made considerable trouble for the federal and internal revenue officials before they finally clinched their case against him, died at Oahu Prison last night of hemorrhage.

The last thing that Choy did before he went to Oahu prison to serve six months and pay a fine of \$500, was to forge a score or more of the prescription blanks of local physicians, on the strength of which he obtained large quantities of opium. This opium was purchased in "granulated" form and Choy, by mixing it with water and boiling the mass, obtained a fair grade of smoking opium which he sold to users of the drug, the officials say.

Choy was to be buried today, following an autopsy, the city taking charge of the remains.

Additional and overnight telegraph news on Page 9.

MEXICO AND U. S. ONCE SAME SIZE; WAR COSTS LAND

Republic is Still Bigger Than France, Austria, Germany And British Isles

Mexico and the United States were once of the same size, according to a bulletin just issued by the National Geographic Society at Washington, in which some interesting figures are given.

"Before Texas became a part of the United States and the Mexican war added nearly 1,000,000 square miles to our territory, Mexico, then a Spanish colony, and the United States covered approximately equal areas of North America," says the bulletin. "Now the extent of Mexico is less than one-fourth that of the continental United States."

"Mexico," the statement goes on to say, "still has territorial expanse nearly equal to the aggregate of France, Great Britain and Ireland, Germany and Austria-Hungary, but its total area (767,000 square miles) is less than that of our five largest states—Texas, California, Montana, New Mexico and Arizona. All except Montana were a part of New Spain 75 years ago."

"None of the 31 political subdivisions of Mexico is as large as any one of the five states named, but four Mexican states contiguous to the United States aggregate an extent greater than that of Texas. Chihuahua, the largest Mexican state, approximates in area (87,000 square miles) that of Utah. Sonora (77,000 square miles) of Nebraska. Coahuila (62,000 square miles) of Georgia, and Durango (40,000 square miles) of Kentucky. Nine subdivisions of the United States (including Alaska) are larger than Chihuahua, 15 of greater magnitude than Sonora and 32 larger than Durango."

"The rugged and desert character of the Mexican border states supports sparse populations, except where mining, exploitations and cities resulting therefrom have concentrated settlement. American border 1800 miles. The United States is adjacent to Mexico for 1800 miles, and for a distance equal to that of St. Louis from New York the Rio Grande river forms the boundary. Except when in flood, this river is apparently an unimportant stream and readily crossed, for the normal flow is well utilized for irrigation in both countries, but it has carved in a part of its course canyons difficult of exploration."

"The changes wrought by freshets, which shift the channel, have demanded the attention of an international commission, whose function was to adjust a boundary along the Rio Grande to meet the varying conditions."

WONDERFUL EXPOSITION AT SAN DIEGO OPEN FOR SECOND YEAR

The SAN DIEGO EXPOSITION'S BRIDGE IS SEEN FROM THE CALIFORNIA TOWER

A VIEW OF THE CANADIAN BUILDING WHICH HOLDS THE CANADIAN GOVERNMENT EXHIBIT

WCS "SAN DIEGO 1916"

Not content with breaking all Exposition records by remaining an entire year, San Diego's International enterprise has started on its second year, with March 15 as Dedication Day.

In the face of the world war, and the Mexican complications, the United States government is participating in the San Diego Exposition in far greater degree than ever in any International Exposition. A thousand marines, a battalion of in-

fantry, a troop of cavalry, three bands, 18,000 square feet of display, requiring three complete buildings, and the presence of the 24th fleet in the bay below the Exposition grounds, constitute the government's recognition.

The 1916 visitor can find in this charming wonderland—that did not lose by comparison with San Francisco's captivating Exposition of 1915—every attraction of the year and so many new features, in-

cluding the participation of twenty nations, that it is a new corporation, and given a new name, "Panama California International Exposition."

One of the most interesting innovations of the Exposition will be the attention given to the automobile. A motor demonstration field has been built where every make of American automobile will be given an opportunity to demonstrate efficiency.

The Canadian exhibit, considered at the San Francisco Exposition the most wonderful display ever assembled by any nation, is now at the San Diego Exposition in a building given over entirely to its use. The French government's display, including the famous Napoleon relics; the Luxembourg art collection, valued at a million dollars; the \$100,000 tapestries, and the wonderful fashion show of more than fifty beautiful models, is in the California building.

Pyts. Julius J. Dennis, Alexander B. Harrison, Joseph B. King.

Pvt. Harrison will not only be missed in Company A out throughout the regiment, as he has distinguished himself during the past two years as a sprinter. In the 220-yard dash and half-mile race he is one of the fastest men in the regiment. Harrison is strictly an amateur and has more medals than he can wear at one time, won at the Carnival military athletic meets and at other field meets while a member of the regiment.

ASKED TO PROBE IRREGULARITIES IN BAIL MATTER

Judge Clemons Hints to Grand Jury That Bondsmen May Have Done Perjury

Alleged perjury by bail bondsmen, committed in their affidavits qualifying as such, is hinted at in a special charge made by Judge Charles F. Clemons today to the members of the federal grand jury for the April, 1916, term.

Judge Clemons' charge to the new inquirers was as follows:

"There is no special subject to which the court, on its own motion, desires to call your attention at this time, except that of alleged perjury by bail bondsmen committed in their affidavits qualifying as such."

"The district attorney will be given some data in cases of suspicion and they will be presented to you by him. The court's intended policy in the matter of bail has been humane and reasonable, but where, in return for the exercise of this policy, imposition and want of full deal are attempted, the offending parties must be dealt with as they deserve."

Following the presentation of his charge, Judge Clemons stated, out of court, that he has reason to believe that certain persons, in their affidavits as bail bondsmen, state that they have property sufficient to cover the amount of the bond, when, in reality, they have not.

Sixteen members of the new grand jury were present in court this morning and sworn in. Almost immediately they began the work of the term. Elwood C. Wilder was appointed by the court as foreman. Richard A. Cooke was excused, having served as purveyor within a year. J. K. Kane-puu, who is a city employee, also was excused. The name of the late George E. Miner of Makawao, Maui, was stricken from the list.

It is expected that Lambert H. Thompson of Hakalau, Hawaii; A. N. Case of Wailuku, Maui; David Forbes of Hilo and Walter E. Eklund of Wahiawa, Kauai, will arrive in Honolulu either tomorrow or some other day this week.

There are now between 25 and 30 opium cases pending investigation, and it is expected that these will be taken up by the grand jury at an early date. The case of Guy D. Randall,

Smash-up and a frenzied call for help—well!

You might just as well have had those Weed Chains, if you had only thought to stop at this store on your way out.

Putting them on after your accident won't help. It's cheap insurance.

More than 900,000 young trees and 10,000 pounds of seed were planted on the United States national forests in 1914.

WATCH SORE THROATS

because swollen glands or inflamed membranes often affect other tissues and lung trouble easily follows.

As Nature's corrector of throat troubles the pure cod liver oil in Scott's Emulsion is speedily converted into germ-resisting tissue; its tested glycerine is curative and healing, while this wholesome emulsion relieves the trouble and rebuilds the forces to resist tubercular germs and avert the weakening influence which usually follows.

If any member of your family has a tender throat, get a bottle of Scott's Emulsion-to-day. Physicians prescribe it to avert throat troubles, overcome bronchial disorders and strengthen the lungs. No alcohol or harmful drugs. Always insist on Scott's.

—If you owned the greatest newspaper in Honolulu?

—If your readers numbered the most influential and prosperous part of the population?

—If your newspaper went into the home when the day's work was done and people were anxious to study the news and advertising columns?

—Wouldn't you feel justified in saying to Honolulu Merchants:

"The advertising space you use in this paper represents the best investment you can make?"

That is our position exactly. And that is what you are offered by the

Honolulu Star-Bulletin

POLICE COURT DOINGS AND NOTATIONS FOUND ON STATION BLOTTER

The case against Charles Antone and John S. Puledon, first brought up on a chefa charge on March 24th, has been continued until next Wednesday, April 12.

Lee Young, the Korean, charged with having been driving without a chauffeur's license, was fined \$5 in police court Saturday. Lee Young is a yard boy.

John August on Saturday reserved his plea until Wednesday, April 12, on the charge of having embezzled \$83 worth of tires and auto accessories belonging to Mrs. William Kai.

The charge against Kagawa, a Japanese, has been changed from "assisting and maintaining" a chefa bank to that of selling chefa tickets. His case was also continued over from Saturday's docket.

A suspended sentence of 13 months is what Kim Tai Soon drew when he pleaded guilty of vagrancy. He is a simple-minded looking Korean, and this may have had something to do with his suspended sentence.

Seaman J. A. Kearns, U. S. N., returning on the transport U. S. S. Thomas, was allowed liberty while the ship docked at Honolulu. He failed to return, and was located by the police Saturday. Later an armed guard of marines called at the police station to take Kearns to Pearl Harbor, where he will be kept until the next transport leaves here for San Francisco, at which place Kearns will be dishonorably discharged for a previous offense.

Tom Hennessey, a Hawaiian youth with an Irish name, was fined \$5 Saturday for failing to renew his license as a chauffeur. He was let off some time ago on a like charge owing to his financial circumstances, but has since considered himself a privileged character and has defied License Inspector Lillis when that officer ordered him to renew his license. "Licenses are cheaper than fines" is an epigram that all chauffeurs must learn to observe religiously, say the police.

Lack of funds with which to summon witnesses except when absolutely necessary was the reason given Saturday by Prosecutor Chillingworth for insisting that defendant's counsel in the case against Pvt. William Mackey, U. S. A., charged with having assaulted Maria Velasquez over at Kaneohe Bay, give him plenty of notice as to whether the defense will waive the evidence of witnesses. The case will be tried next Wednesday, April 12. Bail was fixed at \$1000.

Trees about the Capitol grounds are being placarded with wooden plates bearing their scientific and common names and their habitat.

SWIMMING MEET WILL BE STAGED HERE ON MAY 6

Handicap Events Will Be Scheduled for Harbor Under Auspices of A. A. U.

Directors of the Amateur Athletic Union of Hawaii have announced a handicap swimming meet for May 6 and 7. The meet will be held in the harbor at the naval slip and arrangements will be made to accommodate many spectators.

This will be the first meet to be staged this year in which all entries will be local. Inasmuch as Duke Kahanamoku will not return from the mainland until after this date, the other swimmers will have an opportunity to win the honors.

The committee has listed 14 events which will be run off on the two days and in these events will be girls' races, diving and two special races for enlisted men. Miss Bernice Lane, who defeated Miss Frances Cowells during the Carnival, will enter, and Miss Lucile Legros, who was second to Miss Cowells in the 100-yard event, will make an effort to win from the present holder of the 50-yard event. In addition to the two young ladies it is expected that at least eight more will enter.

Clair Tait, swimming instructor of the Y. M. C. A., will have charge of the diving events, and these promise to be a feature, as a number of good divers have developed since Tait took hold of this branch of the aquatic sport. Among the divers who have made good are Lorrin Thurston, Bromley, Hjorth and Smith.

Clarence Lane and "Stubby" Kruger should make a great race in the sprint events, with the other stars showing up well in the various races. George Hawkins is coming to the front, while Mitrie Kopawalofo will make an effort to regain his laurels in the boys' race.

The program as outlined will consist of the following events: 50-yard swim, scratch; 50 yards for boys, scratch; 50-yard handicap for girls; 100-yard men's handicap; 100 yards girls' handicap; 100 yards for boys under 15, scratch; 100-yard novice, scratch; 100 yards for enlisted men, scratch; 220-yard men's handicap; 220-yard novice; 220-yard enlisted men; 440-yard handicap; 880-yard handicap, and diving exhibitions. Entries must be in by April 22. Heats will be run in sprint races.

LETTERS

(The Star-Bulletin invites free and frank discussion in this column on all legitimate subjects of current interest. Communications are constantly received to which no signature is attached. This paper will treat as confidential signatures to letters if the writers so desire, but cannot give space for anonymous communications.)

FUNDAMENTAL OBSERVATIONS AND ESOTERIC COGITATIONS.

Honolulu, April 4, 1916.

Editor Honolulu Star-Bulletin:
Sir—The causes for the injunction, "Wake up America," is doubtless misunderstood by a great many people as being a mere passing delusion, inspired by events transpiring in Europe—"military moonshine," as the Saturday Evening Post sizes up the situation—but kindly permit a word in behalf of this subject, which the writer has humbly endeavored to direct attention to since long before the European war broke out. In order to be convinced as to the truth of the proposition, the effects of its demand for the time being should be ignored, while fundamentals are being weighed very carefully. For instance, the value of a dollar rests on its demand and supply basis, but "a dollar easily gained is easily spent" is a true maximum, and therefore to realize the value of a dollar it is necessary to take into consideration the honor that sustains that value, without which there is no value in it whatever. Now the same is true as to the various phases of civilization. There is absolutely no value in a single phase alone. The whole category must be symbolized in one crowning act or deed that involves all. No half-way measures will answer, for a half-way measure means that there is another half-way measure that is nil, and consequently the whole business is outlawed, from which we can draw no just conclusions.

There is going on continuously in this country a compromise, an ominous cloud that must be met and vanquished. If we can force that gent from his stronghold in governmental affairs we can then trust the individual to handle the situation with equanimity.

That cloud is none other than old man Pluto himself!

All the progress of civilization points to the simultaneous accomplishment of two propositions, namely—universal military service industrially and absolute democracy thoroughly.

ELIGE L. KIRK.

Margaret du Bois Waring and Lieut. Charles C. Benedict were married yesterday afternoon just before the young officer departed for Mexico with his company of the 21st Infantry. The news is of much interest to Portland society for both young people have attended many social functions in Portland and have a wide circle of friends here. Lieut. Benedict is a West Point man. Mrs. Benedict will remain at Vancouver until her husband returns. —Portland Telegram.

LOCAL AND GENERAL

Federal Judge Charles F. Clemons has granted to Sang Loy a petition for discharge in bankruptcy.

Regular business meeting of the Honolulu Lodge No. 409, F. & A. M., this evening at 7:30 o'clock.

Harmony Lodge, I. O. O. F., will initiate several candidates this evening at regular meeting at 7:30 o'clock.

A movement by citizens of Hilo to have Father Louis removed as probation officer of the juvenile court probably will be the first case which Circuit Judge Clement K. Quinn will be called upon to hear after his arrival on the Big Island.

Information has been received in Honolulu to the effect that Alexander Duncan, brother of Chief Engineer George Duncan of the Olua Mill, is among the dead and missing in that portion of the British army operating near the Persian Gulf.

At a meeting of the men's Bible class at the Y. M. C. A. tomorrow night Rev. A. A. Ebersole will speak on the subject, "Is Our Government Christian? Is It Attempting to Realize the Principles for which Jesus Christ Always Stood?"

Plans are steadily progressing for the navy relief ball to be held in the National Guard armory on May 12, the affair promising to be one of the most brilliant of the local season. Mrs. C. J. Boush, wife of Rear Admiral Roush, is in charge of the arrangements.

According to the London Times of February 22, Commander Neville Florian Osborne, R. N. (wing commander), nephew of Canon Osborne, rector of St. Clement's church, this city, is officially reported to have been killed on February 21, while fighting with the Allies.

Kaneohe, on the windward side of the island, has running water in its houses now. Wednesday pure spring water from a tunnel in the mountains 3000 feet above, began running in the taps of the village. The line will be continued on to the seashore.

"Soil, Fertilization and Irrigation" will be the subject of an address which Prof. Arthur L. Dean, president of the College of Hawaii, will deliver to the members of the Outdoor Circle at a meeting of the organization at 3 o'clock tomorrow afternoon. The meeting will be held at the residence of Mrs. F. J. Lowrey, Lunaillo and Victoria streets.

As soon as the cargo of the square-rigged ship Katherine now at Pier 16 is discharged, work of surveying her hull to see if she is seaworthy will be started by the inspector of hulls, preliminary to giving her a temporary certificate of American registry. The permanent certificate will be awarded at her home port, San Francisco. She was formerly the Chilean ship County of Linnithgow.

R. S. Chase, road overseer in the Hukipuu district, was a puzzled man for a few minutes last week. For orders had come from the city engineer's office that he bring his automobile into the city at once, as the road committee had a purchaser for it. There was some excited conversation as soon as Chase had recovered his mental equilibrium, and then much explanation. Chase owns the machine he uses for the city business, but the city furnishes some of the supplies for it. Until a short time ago he used a city owned machine. There was confusion some where and he was ordered to produce his machine, under the impression that it belonged to the city.

"Bits of Verse from Hawaii," a dainty book of verse collected and published by C. D. Wright, is on sale at all leading book stores and curio stores. It makes an interesting souvenir of the islands.—Adv.

MORE DETAILS ADDED TO KAIMUKI SQUABBLE

Claiming that hula dancing, Hawaiian music, and shooting firecrackers at the home of Mrs. Hannah Morton were all done to tease and annoy her, Mrs. Mary Marques added another chapter to the Kaimuki neighborhood row in police court when she testified against David Morton on the charge of using indecent language toward her.

Mrs. Marques was found guilty and fined \$5 last week on a similar charge on a complaint brought by David's wife. When the court found Morton not guilty and discharged him, complainant's counsel moved for a setting aside of the decision against Mrs. Marques. The court held to its decision but suspended payment of the fine imposed.

MONDAY, APRIL 10, 1916.

MUST ELIMINATE VILLA HIMSELF.

Uncle Sam's work will not be finished until Gen. Francisco Villa is run down and captured.

Villa's power is broken now, say the Carranzistas, but their wish is father to the thought. If he escapes from the American columns he will be one of the great national heroes; millions of peons will hear of him as a wonderful warrior and will do what they can to aid him. Because he has been twice or thrice defeated does not end his influence or his potential power in shaping further revolutions.

Every man who followed Villa on the raid of the little town of Columbus; every man who rode with him on that long retreat to Nami-quipa; every man who survived the smashing attack of Col. Dodd's cavalry column—all these might be annihilated, but so long as Villa is alive and free he is as much a menace as ever. He can gather an army of the accepted Mexican proportions—overnight; he can continue his career of outrage and carnage; in a few weeks he would be able again to meet the Carranzistas and probably defeat them in battle, for he is a better fighter and a better leader than any man Carranza can send against him.

The moral effect of a withdrawal of the American troops now—or any time until Villa is killed or captured—would be disastrous. Every ragged bandit leader south of the Rio Grande would be encouraged to set up in opposition to Carranza and to harry the border country. There ought to be no foolish sentimentality now about letting Carranza finish the job. He won't because he can't. Uncle Sam must see it through. The Vera Cruz incident leaves a bad taste in American mouths to this day and it and other incidents are the lifeblood of the bandit campaigns. The one satisfactory thing about the occupation of Vera Cruz and subsequent withdrawal is that the American soldiers cleaned up the city and conducted themselves so finely that they won the liking and respect of everybody there, including the prejudiced natives.

No, this is no time for quitting Mexico. We have got to eliminate Villa.

YUAN SHIH-KAI'S FAILURE.

A well-informed American on his way to the mainland United States from China said to the Star-Bulletin last fall:

"Yuan cannot carry through his plan for a monarchy without the aid of some powerful outside nation—Japan perhaps. The Chinese are slow to feel resentment, but they feel it powerfully now against Yuan. They are slow to get into action, but they are getting into action now. They like Yuan as a president, but they feel that he has betrayed a national trust by secretly planning to make himself emperor. If he persists, they will destroy him. China will not return to the monarchy."

How true were his words the events since then have shown. Japan, at first seemingly acquiescent, yes, active, in aiding the monarchial plans, later informed Yuan that this was not a propitious time to carry the plans into effect. It was a diplomatic way of declaring Tokio's opposition to Yuan as emperor. The internal opposition has already grown to strong proportions. Now wave after wave of revolt has dashed against the Yuan rock and it is crumbling under the blows. The provinces are declaring their independence, the government troops are sustaining defeats.

When finally he gave up his royal schemes,

Yuan issued a significant mandate. In it he said:

"Advocates of a monarchy are of course working in the hope of strengthening the foundation of their country, yet their plan may work adversely in the cause of their country, unless they are always actuated by their love of the country. Those opposing the proposed replacement of the president with an emperor are working upon their own political principles. Every man should do what his good conscience commands him to do, and each member of the nation should cooperate with another and try to save his country from the situation and save the people of the Sacred Land from any quarrel among themselves. In a word, I assume hereby the entire responsibility for all that has been done in connection with the monarchy plan, and withdraw my acceptance of the offer of becoming the emperor of the country. If any one hereafter dares to cause further disturbances in the country, that man must be held responsible for the consequences. As I have the duty to govern the whole land I cannot sit idle without trying to save the people when the peace and order of the country are disturbed. Government officers, both military and civil, must try to eradicate all the existing evils and to introduce good methods of administration instead. They have to do their duties, but should not do anything to infringe the sovereign power of the country. I, too, in my administration will pay due regard both to name and reality, and try to be always impartial in giving honors and punishments in the future."

The radical republicans of China do not believe that Yuan has sincerely repented his error of judgment, but that he is merely forced by circumstances to abandon plans actuated by personal ambition. They insist that he and his followers be annihilated politically and some insist that he and his 20 leading advisers be executed.

Governor Pinkham read an address to the Kapaa homesteaders affirming his honesty and fearlessness. Nobody has questioned either in connection with the Kauai land-water-railroad tangle. The question that has been and is being raised is, Why doesn't the territorial government get busy and DO SOMETHING to straighten out the tangle and guarantee the homesteader future independence and the right to live? Reports from the governor's party show that the territorial officials are getting busy.

After Chancellor Bethmann-Hollweg's speech not even the most ardent sympathizer with the Central Powers should claim that the submarine war is necessary in order to keep the Allies from starving Germany out. The chancellor says it is absolutely impossible to starve Germany out.

The Promotion Committee will be "overlooking a bet" if it doesn't put all these highly interesting game-fishing stories in the form of a booklet for distribution on the mainland.

Norway and Sweden have asked Germany to account for their wrecked merchant vessels, but the request was in a mighty low tone of voice.

"Rumor Villa Carried On a Stretcher," says a headline. Most of the Mexican rumors apparently have been handled with a stretcher.

Delegate Kuhio's litigation to break the Liliuokalani trust is getting so complicated somebody will soon have to issue a White Book.

Censorship on a puny punitive expedition also has the value of covering up senile military blunders.—Portland Oregonian.

Preparedness is not alone in having machine guns, but in having machine guns at work when they are needed.—Detroit Free Press.

The sugar bill is now about to go through the senate centrifugal.

German official despatches indicate a run on the Meuse bank.

VITAL STATISTICS

BORN

KAHAKAUWILA—In Honolulu, April 2, 1916, to Mr. and Mrs. Manuel Kahakauwila of South and Halekua streets, a daughter, Mary.

VREDENBERG—In Wailuku, Maui, Hawaii, March 26, 1916, to Mr. and Mrs. Wilmont Vredenberg, a son.

MARRIED

ROCKWELL-PRESTIDGE—In Honolulu, April 8, 1916, A. L. Rockwell and Miss Lydia Prestidge, Rev. Samuel K. Kamaio, assistant pastor of the Kaunakakai church, Faama, officiating. Witnesses, Edward K. Panawea and George Tom COLON-ORNELLAS—In Honolulu, April 7, 1916, Pedro Colon and Miss Isabel Ornelas, Rev. Father Victorinus of the Catholic cathedral, officiating. Witnesses, Felix Torro and Maryhilda Amel.

DIED

OLSEN—In Honolulu, April 8, 1916, Miss Olga Olsen, daughter of Mr. and Mrs. Charles Olsen, formerly of Hamakua, a native of Kukaiaha, Hawaii, 20 years, eight months and 26 days old.

WONG—In Honolulu, April 8, 1916, Wong Tai Poon of School, near Fort street, widower, laborer, a native of Canton, China, 75 years, nine months and 15 days old.

PARIAS—In Honolulu, April 7, 1916, Mrs. Maria Augustus Parias of 1732 Puuowaina street, Auwaiohine, widow, a native of the Island of St. Michael, Azores, Portugal, 73 years, two months and 27 days old.

HARVEST—In Wailuku, Maui, April 4, 1916, the infant son of Mr. and Mrs. Edward Harvest, a native of Wailuku, five months old.

ROCKFORD—In Paia, Maui, March 30, 1916, Thomas Rockford, formerly of Wailuku, unmarried, barber, a native of London, Eng., 47 years old.

IRBY—In Honolulu, April 9, 1916, Phyllis L. Irby of 975 Prospect street, wife of L. T. Irby, 22 years old. Funeral from H. H. Williams' undertaking parlors at 10 o'clock this morning.

COOK—In Honolulu, April 9, 1916, Mrs. Henry Turner Cook, wife of Henry Cook of 1017 Punchbowl street, 68 years and seven months old.

MARRIAGES

With Rev. Samuel K. Kamaio, assistant pastor of the Kaunakakai church, officiating, A. L. Rockwell and Miss Lydia Prestidge were married at noon Saturday, the witnesses being Edward K. Panawea and George Tom. Following the ceremony the couple left for the country, where they will spend a brief honeymoon. Mr. Rockwell is associated with a local garage, and Mrs. Rockwell is the daughter of Will Prestidge.

Personal Mention

MRS. JOHN TRAVIS and daughter of Ewa and Miss Keoloha Hookano of the Peninsula spent the week-end at the Aubrey Hotel, Hauula.

WM. P. JARRETT, high sheriff, has gone to Hawaii to investigate the labors of the territorial prisoners on that island. He will return to Honolulu some time this week.

L. MACFARLANE, manager of the Captain Cook Coffee Company, Kealekua, Hawaii, is now in Mexico in the interest of stockholders in the Hidalgo Rubber Company, according to advices from the Big Island.

CHING QUAN of the insurance department of H. Hackfeld & Co. has received word from his friend, Allder D. Akow, that the latter will graduate from Creighton Medical College, Omaha, Neb., the last of this month.

HENRY MCCONNELL, special examiner for the department of justice, who has been examining the accounts and records of the local federal court during the last few months, expects to leave shortly for his home in Portland, Oregon, where he will spend a brief vacation.

WILLIAM T. CARDEN, second deputy city attorney, has returned to work after a two weeks' honeymoon. He is going over the proposed memorial to the governor requesting a special session of the legislature, with F. M. Hatch, newly appointed member of the memorial committee of the board of supervisors. Carden drew up the draft of the memorial for the committee.

MISS LUCY WARD left on the Matsonia for a vacation from her Humane Society work. She expected, when she left, to go directly to the home of Miss Margaret Bergin, at one

LITTLE INTERVIEWS

—JUDGE CLEMENT K. QUINN: I have not yet decided when I will leave for the Hawaii circuit bench. However, I probably will be sworn in in the supreme court within a few days.

—JUDGE CHARLES F. CLEMENS: As soon as Horace W. Vaughan qualifies as federal judge, I expect to take a brief vacation. I will probably go to the Big Island to see the volcano.

—HENRY MCCONNELL: I will hate to leave Honolulu, as I have found the bathing at Waikiki beach most delightful. However, I hope to be able to come back here some day.

—REV. NORMAN C. SCHENCK: The work of the Chinese department of the Hawaiian Board of Missions is going along splendidly. To say that I enjoy this new work would be putting it mildly.

—JOHN A. DOMINIS: The work of arranging documents in the new filing cabinets in the circuit court clerk's office is nearly completed. The new furniture certainly has filled an urgent need.

—J. WESLEY THOMPSON: I wish the department of justice would hurry along my appointment, as I want to get over to the Big Island and see what Hilo is like. They say it is a real fine little city.

—WILLIAM MILES: Plans for this year's Kamehameha Day celebration are progressing rather slowly, but the committees expect to spring a few surprises on the public when the occasion rolls around.

—HENRY W. KINNEY: Letters from mainlanders wanting jobs in Hawaii's schools continue to roll in. Although some malfeasance may be appointed next year, local applicants will be given first consideration.

—REV. HENRY P. JUDD: I cannot imagine a building any finer than the new Mission Memorial on King street. It is complete in every way and those who brought about its erection cannot be too sincerely thanked.

—WILLIAM L. ROSA: Hereafter all papers filed in federal court must be flat, not folded. Well, the government will save a little money on tape, and every time we take the documents out we won't have to go to the trouble of unfolding them.

—JUDGE ANTONIO PERRY: Judge A. Matthewman's decision in the Waimea water case, in which he finds for the territory, certainly is a well-written document. No, I am not saying this just because I was one of counsel for the government.

—MARSHAL J. J. SMIDDY: I have discovered five houses in School street where commercialized vice is being practiced. I think I can safely say that several more will be brought to light within the next few days—and they won't all be in School street, either.

—DISTRICT ATTORNEY HORACE W. VAUGHAN: The federal grand jury which has just gone out of office certainly was a fine body of men. I found it a pleasure to work with the members, and much credit is due them for the attention paid to cases presented.

Surf riding and canoe racing pictures were obtained at Waikiki by Joseph de Frenes, camera man for the Lyman H. Howe Bureau, Saturday and yesterday afternoon. De Frenes is in Honolulu taking moving pictures for a film to be entitled "On the Beach at Waikiki." He caught a number of the surf riders close up, traveling at top speed. A race between five outrigger canoes was another of the features obtained. The film, accompanied by a lecturer, will be shown throughout the United States for seven months beginning August 1.

time manager of the Associated Charities here, in Springfield, Illinois. After a few weeks' stay there she planned to go to New York with Miss Bergin and then to England to visit relatives in Somersetshire.

MRS. LOUIS HERTZ, presented a letter of introduction from Mayor James Rolph of San Francisco to Mayor Lane Saturday and at her request was taken on a tour of the city departments and afterward introduced to Henry W. Kinney, superintendent of public instruction. Mr. Kinney will take her on a tour of the schools today. Mayor Rolph says in his letter that Mrs. Hertz is "one of the most prominent and popular club women of San Francisco, who is especially interested in civic affairs and particularly in the training of children." He requested that the mayor place her in touch with the heads of departments of Honolulu's government and arrange interviews with them for her, in order that she may become conversant with the methods of government of your beautiful island city."

CHINA MEDICAL BOARD GETS SUM FOR ITS SCHOOL

Rockefeller Foundation Gives \$125,000 to Promote Medical Teaching

Several Honoluluans are interested in the work of the China Medical Board and the Rockefeller Foundation's appropriations for civilizing work in China. These will be glad to hear that the Foundation has set aside \$125,000 for the medical board.

When Dr. Wallace Buttrick, Dr. Simon Flexner and Dr. William H. Welch of Johns Hopkins were here some months ago on their way to and from an investigation of the Chinese field, they spoke of the need of more medical teaching in China. Their report to the Rockefeller Foundation has apparently led to this appropriation.

A New York despatch says:

"The China Medical Board receives \$125,000 for the purchase of additional property adjoining the Union Medical College in Peking for the promotion of medical teaching in China. The Rockefeller Foundation paid \$300,000 for the Union Medical College, the best equipped institution of the kind in China. If the plans of the China Medical Board are carried out, China will be in a fair way to come level at least with the world in medicine."

"The International committee of the Young Men's Christian Association receives \$50,000 in support of the work in the military prison camps of Europe."

"The Foundation has elected these officers for 1916: President, John D. Rockefeller, Jr.; secretary, Jerome D. Greene; treasurer, L. G. Myers; controller, Robert H. Kirk; assistant treasurer, L. M. Daishell."

The capital fund of the Foundation on Jan. 1, 1915, was \$100,048,000. Of this sum John D. Rockefeller contributed \$100,000,000; his wife, \$40,000,000.

Chiefs of Hawaii, Honolulu, Council No. 1, will meet in the K. of P. hall at 7:30 o'clock tomorrow evening. There will be initiations and routine business.

WITH ITS WONDERFUL DECORATIONS by Albert Herter in the cafe, symbolizing the gifts of the Old World to America; the Lounge, inspired by the Chateau Brissac, in which society assemblies daily for afternoon tea; the stately, spacious Rose Room, where dancing is enjoyed every evening; the Italian Room, walled and ceiled with beautifully carved hazel wood and famed for its portal of gleaming twisted pillars surmounted by a golden image; the Colonial Room, in which the fashionable world produces original plays in a completely equipped theatre—with countless original artistic details (such as Arthur Putnam's puma motive) in its many public rooms—with such unique and exclusive service as the Turkish and Roman baths for ladies (11th floor) and for gentlemen (12th floor), supplied with salt water pumped directly from the ocean; the Electric Grill, where table d'hôte meals are served at moderate prices—the Hotel St. Francis is one of the most interesting show places in San Francisco, and a place at which interesting people invariably gather.

THE HOTEL ST. FRANCIS, the largest hotel in Western America (over one thousand rooms), faces an entire side of Union Square, "the center of the city's life and color," where the activity of all famous carnivals like the Portola, Native Sons' fiesta, and New Year celebrations are focused, and where military displays on such occasions as the visits to the St. Francis of President Roosevelt, President Taft, Prince Fushimi of Japan, Prince Tsai Hsun of China, Admiral Evans in command of the battleship fleet, and other dignitaries, have provided historic spectacles.

NOTE—While the Hotel St. Francis will never lower its rates beneath the point at which it is possible to provide a service at least equal to that of the best metropolitan hotels in the world, it respectfully invites comparison between its charges and the tariff established by any other hotel of the first rank.

EUROPEAN PLAN

74TH MASONIC ANNIVERSARY IS CELEBRATED IN GREAT BANQUET

More Than 160 Masons Assembled Saturday Evening to Commemorate Coming of Order to Islands—Many Visitors and States Represented

More than 160 members of the Masonic Order assembled Saturday evening at the dinner given at the Young Hotel under the auspices of Oceanic Lodge, No. 371, F. and A. M., to celebrate the seventy-fourth anniversary of the coming of Masonry to the Hawaiian Islands.

The first lodge established in the islands was instituted by the captain of a French trading vessel who had a commission from the Grand Lodge of France to establish Masonic lodges in the Pacific. He established Lodge l'Progres de l'Océanie, No. 124, A. and A. S. R., on the evening of April 8, 1842. The present Oceanic lodge is the old Lodge l'Progres under a new name and transferred since annexation to the California jurisdiction.

One of the very interesting features developed at the close of the evening's set program, when a call for the membership of various jurisdictions among those present showed 21 state jurisdictions represented and one man from a lodge in Bermuda.

The sixth floor cafe of the Young Hotel was appropriately decorated for the occasion, the square and compass being outlined in colored lights at either end of the room. Midway the American and Hawaiian flags were draped about a picture of the late King Kalakaua in the full regalia of a Knight Templar. During his reign King Kalakaua served as worshipful master of Lodge l'Progres. Prominent among the guests was Past Master John Neill, one of the oldest Masons in the territory and the oldest living past master of Hawaiian Lodge No. 21. Masters and past masters of the local lodges were the guests of Oceanic, and also the officers and men of the army and navy, who were especially well represented.

Worshipful Master Lawrence A. Kerr called the diners to order for the opening of the after-dinner program, briefly introducing W. R. Farrington, the last past master of Lodge l'Progres previous to its members passing over to the American jurisdiction, as the toastmaster.

The first toast by Past Master Ed Towse was an instructive historical sketch of the first coming of Masonry to Hawaii, previous to any lodge being established in any part of the mainland west of the Rocky Mountains. He gave historical detail of the association with the lodge in its early days of the Hawaiian kings and the business, social and political leaders of that day.

Judge C. W. Ashford responded to the toast "In the Days of Kalakaua." Judge Ashford knew the late King Kalakaua through his association with the Knight Templars rather than the blue lodge of which the king was head. He spoke as a friend and Masonic brother and told of the deep interest which Kalakaua had always shown in Masonic history, as well as the regular work of the Masonic activities.

Past Master James F. Fenwick, the local representative of the Grand Lodge of California, spoke to the topic "When California Came to Hawaii." His remarks were centered about facts in the history of Hawaiian lodge, California's first representative here and one of the earliest lodges to give allegiance to the Grand Lodge of California. Hawaiian lodge now has a membership of over 300.

Past Master Norman E. Gedge, the lately appointed deputy of the Supreme Council of the Scottish Rite, responded for the Scottish Rite, first brought to the islands by the late John Dominis, husband of Queen Liliuokalani. This rite now has active lodges on three islands of the groups.

Masons of Service Represented. "Masonry as a Character Builder" furnished the text for Chaplain Scott of Fort Shafter to deliver a splendid address on the active moral force of Masonry. Chaplain Scott took occasion to refer especially to the cordiality with which the Masons of the service have been received in all Honolulu Masonic activities and expressed his belief that this was one of the strongest links to bring together the men of the Service and the civilians of the islands.

Worshipful Master Walter Shields responded for Hawaiian lodge, calling attention to the historical fact that Hawaiian lodge carried forward Masonic work and interest during one of the periods in the history of Lodge l'Progres when it was all but dormant. He brought a message of praise for the past and bright hopes for the future.

Past Master George W. Smith spoke for Honolulu lodge. This organization like l'Progres began its career under a foreign jurisdiction, the Grand Lodge of Scotland. It had grown and prospered and had changed its jurisdiction for the sole reason that an American allegiance was natural destiny. Mr. Smith extended congratulations to the officers and members of Oceanic.

Youngest Lodge Heard From. Schofield, the youngest Masonic lodge of the islands, was represented by Jay C. Schugart, U. S. A. of Schofield, who briefly and pleasantly referred to the happy relations existing between the youngest lodge and the representative of the oldest.

Answering impromptu calls from the toastmaster, Past Master John Neill told something of the old days; Mr. Phillips, a member of California No. 1, responded with the statement that he had to come all the way to Hawaii to learn that these islands held the honor of having the first Masonic lodge west of the Rockies; and Brother J. W. Wickwire from the state of New York told of his entrance into the order 53 years ago and proved that he is still a very vigorous and enthusiastic member. This gave Huron Ashford the inspiration

to suggest that the state jurisdictions be heard from, and 21 state jurisdictions were heard from, all the way from Florida and Texas to Vermont, Minnesota and Washington.

The musical feature of the program was well taken care of by Harry Denison and Dr. Fairweather, past master, gave a recitation to add variety and life. It was well after midnight when the banqueters left the table, and though the program was nearly four hours long there was not a dull moment in the whole evening.

Mason Names. L. A. Kerr, Oceanic 371; C. W. Ashford, Oceanic 371; James F. Fenwick, F. M. Honolulu Lodge 409; Walter C. Shields, W. M. Hawaiian Lodge 21; C. Schugart, Schofield 443; E. W. Ely, Schofield Lodge 443; W. C. Bonner, West Point 877, N. Y.; G. J. Boisse, Oceanic Lodge 371; A. F. Clark, Oceanic Lodge 371; J. E. McBrien, Schofield Lodge 443; Geo. S. Curry, Oceanic 371; C. W. Jordan, Naval 87, Vallejo, Cal.; John Fothergill, Canso Lodge No. 79, Canso, Nova Scotia, Canada; Henry T. Haustein, St. Paul's No. 14, Newport, Rhode Island; John E. PUUKUI WINNER IN DECLAMATION TROPHY CONTEST

August Puuki won the declamation contest last Saturday night at Mills school in competition for the Wall & Dougherty cup offered in annual competition. Puuki's oration was the familiar "First Oration Against Catiline," by Cicero, and his delivery was judged very good by the committee, David C. Peters, Miss Maud Hastings and Arthur E. Larimer.

Al Soon Nam, winner of the trophy last year, was second, getting honorable mention, and Kiyochi Doi third. A crowd of relatives, friends and other students filled Wilcox hall and applauded the competitors. This was the fourth annual competition in declamation.

COLLINS WRITES FOR EXPERT'S SERVICES

Honolulu may have the services of a federal road expert to advise on its road problems. George M. Collins, city engineer, has written to Logan Waller Page, director of public roads of the department of agriculture, asking for information on the subject. If it is possible, as is asserted by Supervisor Larsen, to get the advisory services of a government expert free, a formal request for them will be made by the mayor.

SHIPPING & WATERFRONT NEWS

RECORD CARGOES WILL COME AND GO TOMORROW

Carrying 8000 dead-weight tons of cargo, and as much measurement cargo as she has room for, the Matson steamer Lurline will steam from Pier 19 at noon tomorrow, very heavily laden with island sugar, canned pineapples and molasses. Passengers out will be 20 cabin and 12 steerage. Every pound of cargo the steamer can carry will be crowded into her hold. Much of the measurement cargo will include empty barrels. The steamer is due to reach San Francisco on Wednesday morning, April 19. She returned from Kahului at 6:15 yesterday morning.

The Wilhelmina is reported on time, and will dock at 7:30 tomorrow morning from San Francisco at Pier 15. She is bringing 6500 tons, exactly 809 more than her rated capacity. She has 82 cabin passengers, 17 steerage, 813 bags of mail and 5716 tons of cargo for Honolulu. Only three autos are on board, as there was not room to load any more.

The Oceanic liner Ventura is reported on time by the local agents, C. Brewer & Company, and will be off port at 6:30 tomorrow morning, docking about an hour later at Pier 10, and sailing at 5 tomorrow afternoon for San Francisco. She has room for 800 tons of sugar and 50 tons of general cargo from this port. There are plenty of passenger accommodations.

Advices to the Merchants' Exchange say the T. K. K. liner, Nippon Maru, steamed from San Francisco at 6:10 Saturday afternoon. She is on time and will arrive here Saturday morning bringing another mail from the mainland.

At 4 o'clock this afternoon the U. S. S. Supply is steaming for Guam. She is taking from this port Chief Boatwain Hugh J. Duffy, former captain of the yard here, who is bound for Guam for sea duty, his land duty here having expired several months ago.

I-I. BOAT ROUTING CHANGED FOR MONTH

Several changes in routing of inter-island boats are effective today.

The Maui is sailing at 4 o'clock this afternoon for Kukuhaele and Honolulu on the Hamakua's run. The Hamakua has been taken off the Hamakua coast run temporarily to carry cattle.

At 5 this afternoon the Kinau is leaving on the Maui's run to Kauai ports.

Steaming at 5 tomorrow afternoon, the Mauna Loa will substitute for the Kinau on the run to Kauai ports. She will keep the Kinau's run for about a month.

The Kilauea is substituting for the Mauna Loa on the run to the Kona-Kau ports of Hawaii.

DRIVING TEST PILES FOR BIG COAL WHARF

Test piles are being driven today at the site of the inter-island new coal plant wharf at Kalia and it is expected, according to General Superintendent J. E. Sheedy of the corporation, that casting of the concrete piles will begin some time this week.

About 800 of the big piles will be cast. They will range from 20 to 75 feet in length. The number of piles to be made is only about half the number that will be required for the entire wharf, only 350 feet of the total contemplated length of which will be built under the present contract.

114,000 TONS ISLAND SUGAR ARE SHIPPED

Sugar to the amount of 227,390,303 pounds, enough to supply every man, woman and child in the United States, with a two-pound package, has been shipped from the territory to the mainland from January 1 to March 31, according to customs-house records.

This big tonnage, almost 114,000, is mostly raw sugar, but includes considerable of the refined product. By months the following amounts of island sugar have left Hawaii net: January, 50,306,298 pounds; February, 109,986,395; March, 67,627,610.

TOKIO SECRETARY VISITS LOCAL "Y"

An interested investigator of Y. M. C. A. activities in Hawaii is J. M. Davis, advisory secretary of that organization in Tokyo. Mr. Davis is spending a week in the islands, and is now in Hilo, and will leave on the Nippon Maru on Saturday, returning to Honolulu from Hilo on Tuesday.

A rumor that Mr. Davis was to be employed to promote association work on the other islands was denied by President Frank C. Atherton. Mr. Davis speaks Japanese like a Nipponese, having been born of missionary parents in that country where he also received most of his education. He is considered an authority on mission and association activities in Japan, and has been connected with the Tokyo association for 10 years.

BUILDING PERMITS.

C. H. Thurston, owner. Location, Royal Grove, Waikiki; corner Koa avenue and Kihuna Drive. Bath house. C. H. Thurston, builder and architect. Estimated cost, \$800.

HARBOR NOTES

A big mail, 813 bags, will arrive tomorrow morning in the Matson steamer Wilhelmina.

Saturday the schooner Meirose, from the Columbia River March 12, arrived at Kahului, bringing a lumber cargo.

The Oceanic liner Ventura, due off port at 6:30 tomorrow morning, is bringing 12 sacks of mail from Sydney and Pago-Pago.

The Inter-island steamer Mikahala brought 18 cabin and nine deck passengers from Maui, Molokai and Lanai yesterday morning.

Tomorrow night the American-Hawaiian steamer Texan will sail from Port Allen for San Francisco, taking sugar to the coast.

Yesterday morning the Matson steamer Lurline returned from Kahului. She will sail at noon tomorrow from Pier 19 for San Francisco.

Late Saturday night the Inter-island steamer Claudine arrived from Maui with 26 cabin passengers. Cargo ran from scrap iron and chickens to a roller.

Next mail for the mainland will leave at 5 o'clock tomorrow afternoon on the Ventura, mails closing at 3:30, an hour and a half before her departure.

The steamer Belridge is expected any time from San Francisco with oil for the Union Oil Company. She will take her cargo to Pearl Harbor. The Belridge left the coast April 3.

At 4 o'clock tomorrow afternoon the U. S. army transport Logan, which arrived this afternoon from Manila and Nagasaki, will sail from Pier 6 for San Francisco.

Radio advices to the Merchants' Exchange report the U. S. army transport Sheridan 994 miles off port at 8 last night. She will arrive Thursday morning from San Francisco.

Collector of Customs Malcolm A. Franklin has sworn in Reinhold Friederich, sampler and verifier of the customs service, as examiner to succeed Mark Weil, now in California on sick leave.

After a voyage of 4 days, 13 hours and 35 minutes the Hill liner Great Northern arrived at San Francisco at 8:05 yesterday morning. She will not be seen in Honolulu again until next November or December.

The Mauna Loa reports Kanai's list of cargo awaiting shipment to be: Kekaha, 2500; Gay & Robinson, 18,000; Hawaiian, 14,000; McBryde, 34,976; Koloa, 21,058; Lihue, 13,000; Kilauea, 45,000; Kilauea, 1600.

Yesterday two American-Hawaiian steamers, the Mexican from San Francisco and the Georgian from Tacoma, sailed. The Mexican discharged her 14,000-ton island sugar crop in four days, as she arrived at San Francisco April 5.

The steamer Wilmington, according to Hilo advices, is bringing lumber to that port instead of Honolulu from Eureka. She left the California port Thursday and will carry 1000 tons of sugar to San Francisco from Hilo for the Matson line.

Calling here to land a sick cook, Martin Nelson, the schooner W. F. Jewett, from Eureka for Sydney with 605,000 feet of lumber, anchored in the offing yesterday morning and may resume her voyage late today after a new cook is signed on.

Arriving from Kauai on the Kinau's run, the Inter-island steamer Mauna Loa brought 47 cabin and 55 deck passengers to Honolulu yesterday morning. Inward freight included 6900 bags of K sugar and a big amount of miscellaneous cargo.

The American steamer Yucatan sailed at 9 o'clock this morning for Kobe and Shanghai. She took bunker coal and oil here yesterday. The steamer sailed from San Francisco March 30 and is taking 2700 tons of merchandise, including a good deal of explosives, to the Orient.

Good catches of ulua, kaku, species of barracuda, and other fish were made Saturday between this port and Pearl Harbor by a fishing party consisting of Capt. H. H. Blodgett, J. A. Balch, J. F. Brown, II and Harold L. Morris, making the excursion in Morris' fishing sampan Dixie Maru.

Due to steam from Victoria and Vancouver Wednesday, to arrive here April 19 and leave the same afternoon for Australia, is the Canadian-Australasian liner Makura. Only two or three are booked at the office of the local agents, Theo. H. Davies & Company.

Expected April 16 from San Francisco is the American-Hawaiian steamer Mexican. The Georgian is due April 17 from Seattle and Tacoma with 8000 tons of New York and Northwest cargo. The Georgian sailed Saturday night and the Mexican yesterday.

The schooner Kitsap, formerly the Garden City, is in port today at Pier 16 discharging 507,641 feet of lumber she brought here yesterday for the Lee Chu Lumber Company after a 29 day voyage from Seattle. This is the second cargo the schooner has brought for this company since changing her name.

Customs Inspector C. M. Neal con-

Aloha's Camel Was Shanghaied By Islam Bunch

Pride of Local Shriners Abducted and Smuggled into San Francisco, Says Radio

The pride of Aloha Temple, its papier-mache camel, has been located! A radio received by officers of Aloha from the Arab Patrol of Islam Temple, San Francisco, says that the beast arrived there safely, and if the local Shriners want to get it back they will have to come after it.

This shows that the handsome brute was shanghaied by Islam's patrol, smuggled on board the Great Northern here, and carried with pomp and ceremony to San Francisco. The camel's mysterious disappearance worried Edgar S. Barry, its official chaperone, greatly until the radio telling of its abduction arrived yesterday a few hours after the Great Northern docked at 'Frisco.

The camel's old side-kick, the elephant, has been found and is reposing in safety with the rest of the temple's properties in charge of Mr. Barry. It misses the camel greatly, however, as both came from Germany together and have been inseparable.

MCCULLOCH 850 MILES AWAY YESTERDAY

That the coast guard cutter McCulloch will not arrive here from San Francisco before Thursday, is the opinion today of officers of the coast guard cutter Thetis based on her position as reported yesterday by radio.

Presumably at noon yesterday, the McCulloch reported that she was 850 miles from Honolulu. The message was sent to the transport Sheridan to be relayed and was caught by the naval radio station in this city yesterday afternoon.

As there is no need for her to use more than the regulation speed, eight or nine knots, the standard required when a cutter is not going on an emergency voyage to vessels in distress, the McCulloch will probably not arrive before Thursday.

The McCulloch will convey the Thetis to San Francisco. She will probably not need more than 24 hours to take coal and supplies here for the return voyage. The Thetis was moved today to the Waikiki side of Pier 7 from Pier 6 to make room for the U. S. army transport Logan, which arrived this afternoon from Manila.

VESSELS TO AND FROM THE ISLANDS

SAN FRANCISCO—Sailed, April 8, 5:10 p. m., str. Nippon Maru for Honolulu.

SAN FRANCISCO—Arrived, April 9, 8:50 a. m., str. Great Northern, hence April 4.

TACOMA—Sailed, April 9, str. Georgian for Honolulu.

SAN FRANCISCO—Sailed, April 9, str. Mexican for Honolulu.

KAHULUI—Arrived, April 8, schr. Meirose from Columbia River.

Radio Messages.

U. S. A. T. SHERIDAN—8 p. m., April 9, 944 miles off port; arrives Tuesday.

STR. SANTA CLARA—Will arrive from Port San Luis Tuesday afternoon or Wednesday morning.

U. S. A. T. LOGAN—Due off port 1 p. m. today.

STR. VENTURA—April 9, noon, 585 miles off port; arrives and departs as before noted.

JAPANESE ARRESTED FOR PHOTOGRAPHING U. S. S. SUPPLY TODAY

Arrested by Ship Keeper W. M. Kennedy on the navy wharf about 9 o'clock this morning while taking a photograph of the U. S. S. Supply, a Japanese man was taken to the naval station, where the exposed film was removed from his camera and kept in the possession of the navy authorities. It will be turned over to the commandant.

A navy regulation forbids anyone taking photographs from the navy wharf. The Japanese, when questioned by Chief Boatwain J. H. McDonald, captain of the yard, appeared not to understand English and did not answer questions asked him concerning his occupation, place of address, or reason for taking the photographs. The man was released after the film had been taken from his camera. He had only snapped one picture of the ship before he was arrested.

Attempts to improve at Queen's hospital, and his physician, Dr. George F. Straub, hopes to have him taken home about Wednesday.

At last the old schooner J. M. Weatherwax has arrived at Australia. She reached Melbourne Thursday, although when she sailed from this port January 10, on her second attempt, she was bound for Sydney. The Weatherwax first arrived here from Victoria June 24 in distress. She was repaired in August, started out again and put back to Honolulu October 5, leaking badly.

ALBERT D. AKOW WILL GRADUATE AS PHYSICIAN

Graduating soon from the Creighton Medical College of Omaha, Nebraska, Albert D. Akow, Honolulu boy, will later come to the islands to practise medicine.

Akow is a Chinese boy who made a good record at St. Louis College and later at the College of Hawaii, where he will graduate on April 29. He will do some work at Providence hospital, Oakland, this summer and attend the summer school of the University of California and then come to Hawaii.

He is 23 years of age and has many friends in the islands.

URGES DUTY OF CIVIC ACTIVITY

Asking that the members of the Chamber of Commerce give more time to their civic duties, George W. Smith, the new president, has prepared a statement for the chamber's official publication which says in part:

"One of the objects of the Chamber of Commerce of Honolulu, as set forth in the by-laws, article 1, section 2, is 'to inspire in its members a sense of individual civic responsibility and an active interest in community affairs.'"

"While the association, through its legislative and county and municipal affairs committees has interested itself in public matters with notably good results, it is open to question whether the membership, as a whole, has realized the 'individual civic responsibility' and taken that 'active interest in community affairs' that are leading purposes of our organization. An Example is Set.

"The example set by the Chamber of Commerce of the United States is one that each member body could well follow. The larger body has actively interested itself in public affairs that concern the nation, as a whole, and the business affairs of the country in particular. The larger body urges on its member constituents that they, too, exercise that duty to its fullest extent."

CAPT. BERGER BUILDS UP BOYS' ORCHESTRA AT INDUSTRIAL SCHOOL

Capt. Henri Berger, "director emeritus" of the Hawaiian band, is fairly busy with music nowadays though he has retired from the active supervision of the band which he headed for more than four decades. Just now he is much interested in building up the stringed orchestra at the Boys' Industrial school and expresses himself as pleased with the progress made by the lads at the reform institution.

He makes visits to Waialea to direct the boys and both Superintendent Anderson and the boys themselves urge him to continue.

"It's not easy work but it gives pleasure to 150 boys," said Capt. Berger today. "They take hold in good shape."

HONOLULU'S MONEY IS AIDING BELGIANS

Honolulu's money collected last Christmas through a "Tag Day" is buying clothes for little Belgians. Word has been received by Mrs. Dorothy Emerson from the Belgian minister of state and the under secretary to the king and queen of the Belgians that the cash received in London has been converted into clothing and it has been distributed among the refugees.

Mrs. Emerson's letter and that of Queen Elizabeth have been forwarded to Queen Elizabeth, she was informed. Thanks of the people for the aid rendered them by Honolulu was expressed in the official's letters.

UTILITIES OFFICERS RETURN FROM KAUAI

Charles R. Forbes and Henry O'Sullivan, chairman and secretary respectively of the Public Utilities Commission, returned yesterday morning from Kauai, where they conducted an investigation of the Kauai Telephone Company, the Lihue Electric Company and the electric plant of W. O. Crowell. Mr. Forbes went as a member of the party of Governor Pinkham, but killed two birds with one stone or three rather, as he also looked over some road making the department of public works is doing.

Report of the investigation will be made at the regular meeting of the commission tomorrow afternoon.

RITUALISTIC CEREMONY FOR CHARLES KIBLING

A ritualistic funeral ceremony over the ashes of the late Charles Kibling, of several years' nurse of the Claudine, was performed by the members of Honolulu Lodge of Elks at the club rooms yesterday, members of the family and friends of the late Elk being present. At the cemetery a brief burial ceremony was conducted by Exalted Ruler Fred T. Buckley and Chaplain Clifford Spitzer.

"A black week," said Henry Freitas, building inspector, as he added up the estimated valuations of the building permits issued last week. But, 15 permits, with an estimated valuation of \$23,010 were issued, he found.

The supreme court has upheld District Magistrate William A. McKay's action in overruling a demurrer filed to the complaint against W. H. Field of Maui, charged with driving an automobile without a chauffeur's license.

"Coffee Don't Hurt Me"

Can he get away with it?

The drug, caffeine, in coffee, about 2½ grains to the average cup, hurts many coffee drinkers, at some time of life, and often hurts them hard.

Caffeine is a powerful irritant that unsteadies the nerves, races the heart, disorganizes the digestive organs and plays havoc with the health of a large proportion of coffee users.

Of course, there are some who go on drinking coffee for years, without apparent harm, at least they don't suspect it, until the cumulative drug, caffeine, has got in its work. Isn't it the best plan to play safe with health—quit coffee and use

Instant Postum

This pure food-drink made of wheat and a small portion of molasses tastes much like mild, high-grade Java coffee, yet contains no drug or other harmful element.

Postum comes in two forms: the original Postum Cereal, must be well boiled. Instant Postum, the soluble form, can be made in the cup, at table, by adding hot water. Both kinds are equally delicious and the cost per cup is about the same.

The better health that follows quitting coffee has shown thousands.

"There's a Reason" for POSTUM

ARMY & NAVY

Lieut. Milton
Obeys Orders
With Celerity

Former Officer of 4th Cavalry
Learns Exigencies of
Army Life

Stepping from a transcontinental train to a troop train in response to a telegram which he had just received from the war department, 1st Lieut. Alexander M. Milton, recently with the 4th Cavalry, Schofield Barracks, carried out the soldier's idea of promptly obeying orders. Under date of March 23 the Minneapolis Journal gives the story, through its Chicago correspondent, as follows:

"With the four troops of the 5th Cavalry Regiment from Fort Sheridan, who today are en route to the Mexican front, is 1st Lieut. Alexander M. Milton, who yesterday experienced one of the exigencies incident to war. Lieut. Milton has been on duty in Honolulu, but was recently ordered to report for duty at Fort Sheridan. When he arrived in Chicago yesterday he was handed a telegram ordering him to the front. He stepped from the transcontinental train to the troop train and soon was on his way to the border."

ARMY OFFICERS' PRIVATE MOUNTS TO BE INSPECTED

Private mounts, for which army officers receive an allowance of \$150 a year, will have to come up to the standards of the army mounts hereafter, according to a general order issued by the war department, copies of which were received in Honolulu last week. The private mounts will be inspected at least once a year and will have to meet all the requirements of law if the owner is to draw additional pay on their account.

"In the future private mounts owned by officers of all grades in the army, for which the government expends funds in the matter of maintenance and care, or additional pay, must at least equal the requirements contained in the specifications prepared under the direction of the Quartermaster General of the army," reads the order, and then outlines the specifications.

The inspection is to be made by the post commanders.

RUMOR OF 4TH CAVALRY MOVE NOT CONFIRMED

Regarding the rumored movement of the 4th Cavalry from Hawaii, Gen. J. P. Wisner, commanding the Hawaiian department, informs the Star-Bulletin that he has received no information, either officially or unofficially by him to the effect that the 4th Cavalry may be moved, that he does not contemplate such a move, has made no recommendations whatsoever concerning it, and that there is no trouble whatsoever regarding the water supply on Oahu so far as the cavalry is concerned.

'BLIND PIG' IS FINALLY PENNED

After several months of close surveillance, Liquor License Inspector Fennell and his assistants yesterday finally succeeded in catching Mrs. Kallepahu in the act of conducting a "blind pig," they say. Private A. Schwartz, U. S. A., of Co. G, 1st Infantry, was also arrested as an accomplice.

The officers were enabled to make the arrest by following Schwartz up and down Beretania in the vicinity of King street. They say he was selling booze to thirty pedestrians. He was followed to the Kalepahu home on Cook street near Hualala, and an assistant of Fennell's entered the place offering a marked dollar for a bottle of gin. All went well until the woman noticed Fennell near the entrance. Suspecting the trap, she threw the dollar out of an open window, and it was some time before it was recovered. At the time of the arrest, a merry company of drinkers and guitar players were seated around the room enjoying their defiance of the law.

pany I, and Robert Krohn, Company G, 1st Infantry.

ORDERS OF THE HAWAIIAN DEPT.

Headquarters Hawaiian Department,
Honolulu, April 5, 1916.

Special Orders No. 57.

1. The journey performed by Capt. Edwin S. Hartshorn, 2d Infantry, from Fort Shafter to Schofield Barracks, T. H., and return, on March 27, 1916, in connection with his duties as recorder of the board of officers appointed by paragraph 2, Special Orders, No. 47, War Department, current series, is confirmed and made of record as having been necessary in the military service, it having been impracticable to issue formal orders in advance.

2. Pvt. 1st Cl. William P. Conway, Quartermaster Corps, Schofield Barracks, T. H., is transferred as a private to Troop I, 4th Cavalry, at that post, and will report to the commanding officer of the organization to which transferred for duty.

3. 1st Lieut. Charles M. O'Connor, Jr., Medical Corps, upon his arrival in this city in the transport Sheridan, on or about the 14th inst., will proceed to Schofield Barracks, T. H., reporting on arrival to the commanding general for duty. The travel directed is necessary in the military service.

4. The following named enlisted men of the Hospital Corps, upon their arrival in this city in the transport Sheridan on or about the 14th inst., will proceed to the stations indicated after their respective names, reporting on arrival to the commanding officers thereof for duty: Sgt. 1st Cl. Andrew S. Donnan and Sgt. George W. McWorter, to the Department Hospital, Honolulu; Sgt. Harry Birch, to Fort Shafter, and Sgt. Claud J. Wilson, to Schofield Barracks, T. H. The Quartermaster Corps will furnish the necessary transportation. The journeys are necessary for the public service.

5. Under the provisions of General Orders, No. 31, War Department, 1914, the following named enlisted men will be discharged from the army by the commanding officers of their respective stations, by purchase: Pvt. Peter Madsen, Company E, 2d Infantry, Fort Shafter, and Pvt. Sam W. Thompson, 104th Company, Coast Artillery Corps, Fort Armstrong, T. H.

6. 1st Lieut. Robert R. Love, Cavalry, is detailed as judge advocate of the general court-martial appointed to meet at Schofield Barracks, T. H., by paragraph 3, Special Orders, No. 25, the Hawaiian department, current series, relieving 2d Lieut. Alexander L. P. Johnson, 4th Cavalry.

By command of Brig.-gen. Wisner.
ARTHUR S. CONKLIN,
Major, General Staff,
Chief of Staff.

Official: ARCHIBALD CAMPBELL,
Adjutant General,
Department Adjutant.

Special Orders No. 58.

1. A general court-martial is appointed to meet at Schofield Barracks, T. H., on Monday, April 10, 1916, or as soon thereafter as practicable, for the trial of such persons as may be properly brought before it.

Detail for the court: Maj. Frank H. Albright, 25th Infantry; Capt. Samuel P. Lyon, 25th Infantry; Capt. Alexander J. Macnab, 25th Infantry; Capt. Josephus S. Cecil, 25th Infantry; 1st Lieut. Edward G. McCleave, 25th Infantry; 1st Lieut. George C. Keleher, 25th Infantry; 1st Lieut. Charles L. Wyman, 25th Infantry; 2d Lieut. Carl J. Ballinger, 25th Infantry; 2d Lieut. Ernest J. Carr, 25th Infantry; 1st Lieut. Karl Truesdell, 25th Infantry, judge advocate. The employment of a stenographic reporter is authorized.

2. Under the provisions of General Orders, No. 31, War Department, 1914, the following named enlisted men will be discharged from the army by the commanding general, Schofield Barracks, T. H., by purchase: Priv. Earle J. Upchurch, Battery E, 1st Field Artillery; Steve Skirk, Com-

AGREEMENT REACHED BY PINE PACKERS, GROWERS

Those pineapple planters on Maui who have stopped planting probably will begin again if a proposition presented at a recent meeting of representatives of the Hailu Fruit & Packing Company, and pineapple planters of the Valley Island, is accepted. The plan proposed to the packers provides that the price paid for fruit be based upon the price paid to the packers for the finished product of the cannery. Under the plan, the grower will not furnish fruit at a loss unless, at the same time, the packer is losing proportionately.

SATURDAY OUTING PLAN OF LOCAL ASSOCIATION

Beginning next Saturday the Honolulu Y. M. C. A. will inaugurate a series of Saturday afternoon outings similar to the ones which proved so popular last fall. The new series, which will constitute five outings, will be both for recreation and education. The first one will be a trip over the Mauna Kea trail with Prof. J. F. Rock of the College of Hawaii to study trees.

CAPT. MASSEE SAYS FAREWELL

Captain E. K. Massee, instructor in military training at Punahou since military training was adopted there some months ago, bids farewell today to his cadet battalion, as he is to leave soon for the Mexican border, where he is to rejoin his company. He is to be succeeded by Captain Hickman, U. S. A., who takes up his new duties just as the new term of school opens. Many new pupils enter the school for the ensuing term of ten weeks, and Captain Hickman will have much work to do in training his student cadets. He has had four years experience elsewhere in training students. Captain Massee has also been department judge advocate for several years.

Program beginning 1:30 p. m. until 4 p. m.

GOVERNOR AND PARTY MEET MANY KAUAI HOMESTEADERS; HEAR VIEWS

President Isenberg of Lihue Plantation Suggests Government Commission Might Handle Water Rights—Visitors are Kept Busy Every Day

(Star-Bulletin Staff Correspondence)

LIHUE, Kauai, April 9.—Much good has been gained, in the belief of the territorial officials as well as homesteaders, through Governor Pinkham's visit to Kauai—some good which will be experienced immediately, some which will develop with time.

From noon on Saturday to late in the afternoon the governor, Land Commissioner Bertram G. Rivenburgh and other officials of the territory met the homesteaders of Kapaa one by one or in small groups, talking over with them various specific problems and putting questions directly to them for answer. The questions which the governor has given to each homesteader are as follows:

- 1—Give your name.
- 2—Give the number of your homestead and series.
- 3—What is its area?
- 4—What area is cultivated?
- 5—What area is planted to cane?
- 6—What area is planted to pineapples?
- 7—What area is planted to other products?
- 8—Does your land require irrigation?
- 9—At what time or times of the year?
- 10—Have you made any provision for water? If so, from what source?
- 11—From whom do you expect to obtain water for irrigation?
- 12—Have you arranged for transportation by wagon or rail of your products to market?
- 13—With whom have you arranged your rail transportation?
- 14—Do you require financial assistance?
- 15—If you are willing to so state, please name the maximum amount you think you will require.
- 16—Have you any loans at present?
- 17—How do you expect to repay?
- 18—Are the prices and terms offered for your pineapples and cane satisfactory?

Ask About Contract Terms.

- 19—Would an agreement covering money and labor advances for a term of five years be satisfactory to you?
- 20—Are you aware the government has never approved agreements covering a period exceeding five years and that the great majority cover but two to four years?

The governor arrived at the Kapaa school house, which lies in the heart of the homestead district, just before noon on Saturday, finding a crowd of 200 homesteaders and their families awaiting him.

From the big banal of the second story school building he spoke to his audience, declaring that he had not intended to speak until wholly unjustified communications to the press had compelled him to do so.

Governor Outlines Position.

His speech was as follows:

"I had not intended to make any preliminary remarks, but the wholly unjustified inspired communications to the press comprising gossip, insinuation and social detraction compel me to break silence.

"Fear is something I have yet to experience. Money or money power never has and never will control me. Such an attempt would not be advisable.

"The power of the press or of politics only influence me when I believe it used honestly and unselfishly for the public good.

"Individual petitions and desires I always listen to, and no person, whatever his station in life, has been re-

fused an audience either at the executive chamber or my residence, and their representations given due consideration.

"Very often individuals desire that which is contrary to public interest or that which is inopportune or premature.

"As the land commissioner will disclose, the government does not this day know the consensus of opinion and desires of the homesteaders nor how the differences can be coordinated into sound ethical and business conditions.

"He will request formally such information as he deems desirable. It can be given openly or privately, as you may desire, and you are not obliged to reply if you so determine."

The speech was interpreted in 'Ia-wa-lan and Portuguese by J. M. Kane-kua and M. G. Santos.

Rivenburgh also spoke to the crowd, telling them that he wished to learn of their various needs and feelings in order that he might better act. He called attention to the complicated condition of things as they exist in regard to water and transportation, and stated that he would do his part in settling affairs as rapidly as possible.

Forbes also spoke briefly, asking the homesteaders to come forward and present their claims.

In overalls and boots they came, hard-handed tillers of the soil, and many accompanied by their wives and children.

They had gathered as for a picnic—long rows of cars, wagons and automobiles having assembled since early in the forenoon.

Long Afternoon's Work.

It was a long afternoon's work. The governor ate his lunch as he talked, and the homesteaders, waiting in little groups here and there about the yard lunched picnic-fashion.

When called into the room to meet the executive he talked in straightforward fashion, giving their stories. It is estimated that all but two or three of the whole number of settlers of Kapaa lands were present in person.

Judge Arthur A. Wilder, representing the homestead folk, and Frank E. Thompson, attorney for Lihue plantation, were both at the meeting, but did not address the crowd.

Homesteaders who have stayed with Lihue—six of them—are thankful in the outlook of having their cane handled by Lihue's new plan of a portable track and a cable car for bringing the cane to the plantation.

Government Commission Suggested.

President Hans Isenberg of Lihue favors no plan of joining in a railroad or water company with Col. Z. S. Spaulding.

Isenberg thinks water rights could be well handled through a government commission, made up of territorial officials living for the most part on Kauai.

He would have government water leased out to plantations, and in turn distributed to homesteads, the commission regulating this distribution.

Isenberg says there would be many pitfalls to a combination, and that it would not be fair to the government. He believes that a quarrel with Col. Spaulding would be the ultimate result.

He says that with a commission represented by one acting man, even and just distribution of the water from plantations to homesteaders would result. If one system had a surplus of water this could be conserved and sold to another system.

He says that with a commission represented by one acting man, even and just distribution of the water from plantations to homesteaders would result. If one system had a surplus of water this could be conserved and sold to another system.

1915 FOR HAWN. COMMERCIAL IS A RECORD YEAR

(Continued from page one)

uary Maui suffered from the severest kona storm on record.

"Walluku suffered the most. On the morning of the 18th a torrent of water came down Iao Valley, sweeping everything before it. Thirty houses were washed away and 13 people were killed.

"At Puunene the storm did a very considerable amount of damage, for, after having had four inches of rain on the 25th and 26th of December and a six-inch rain on the 7th and 10th of January, which left the land soaked with water, we were not prepared for another storm.

"Besides the rain, a terrific gale of wind was blowing, which did much damage, especially in the blowing down of trees, which closed up our roads and railroads, and, in many instances, put ditches out of commission.

"The gulches were running in torrents and six railroad trestles were carried away. Fifteen flumes were washed away, and the plantation ditches in many places were filled with mud and gravel.

"At Well One, Kihel, the tunnels that supply water for the pump were filled with mud for several hundred feet.

"About 40 acres of young cane and about 50 acres of big cane were buried in mud.

"Both the Wahee ditches were put entirely out of commission, several flumes and one pipe line having been washed away. A house going down Iao Valley crashed right through the big flume on the Lower Wahee ditch, loss about \$200,000.

"The cost of repairs will not exceed \$25,000. The total loss, taking into consideration the damages done to the 1916 and 1917 crops, will probably amount to about \$200,000.

"I am pleased to say that at this writing most of the repair work has been done. The Upper Wahee ditch was ready for use on February 7 and the lower ditch will be ready in about two weeks from now.

"The young cane that was buried has practically all been saved and we will not lose much of the big cane that was buried, although during the last months of harvesting we will probably find a good deal of rotten cane, as a good deal of mud was washed into many of the fields.

"Harvesting was commenced on November 12, 1914, and was finished June 12, 1915.

"The crop was estimated at 56,000 tons of sugar and actually yielded 58,780 tons.

"The tons of cane per ton of 95 degree sugar for the various months of the crop year were as follows:

Tons of cane per ton of 96° sugar.

November, 1914 8.27

December, 1914 7.49

January, 1915 6.93

February, 1915 6.59

March, 1915 6.52

April, 1915 6.26

May, 1915 6.50

June, 1915 6.82

Average for the crop 6.72

Sugar bagged for the various months of the crop:

November, 1914 2,028,620

December, 1914 6,754,890

January, 1915 8,208,020

February, 1915 9,219,100

March, 1915 10,116,825

April, 1915 9,493,750

May, 1915 7,579,375

June, 1915 3,379,375

Total tons 58,780,000

Crop of 1916.

"As we were short of accommodations for early shipping, and as the cane was slow in maturing, we did not start grinding until December 2. On account of the wet weather, which interfered with harvesting, and several delays in the factory, we have only bagged up to date 14,262 tons of sugar. However, it is just as well that harvesting has been delayed, as we have had difficulty in finding ripe cane.

"We have harvested up to date 1880 acres that have yielded 7.67 tons of sugar per acre, giving a total of 14,262 tons of sugar due to cane ground. As we have 4668 acres yet to harvest, the crop is estimated at 58,000 tons of sugar.

Crop of 1917.

amounted to 10.11 per cent, which is the smallest manufacturing loss ever sustained by this factory, and is worthy of comment considering the fact that the mills were driven harder than in any previous year.

"The motor-driven shredders that were added during the last off-season as a part of the permanent installation in front of each mill, are doing excellent work. They have not given any trouble and we are now obtaining 98 per cent extraction and grinding over 110 tons of cane per hour.

"The mills have a flexibility heretofore unknown. Their capacity is now governed by the crushers, which are far too small for the mills.

"The new continuous subiders and clarified juice filters are giving excellent results and the operators are well satisfied with them.

Pumps.

"After an unusually busy pumping season our pumps are now being overhauled and repaired. At Well 3, Kihel, the timber lining of the 300-foot shaft is beginning to give out and we are patching it up, removing loose stones that are pressing against the lining.

We now expect the shaft to last another four or five years.

"The installation of the 600 horsepower Diesel oil engine and the two-stage turbine pump of 12,000,000 gallons capacity was completed in March, 1915. This unit replaced two 6,000,000-gallon Worthington pumps, which were very extravagant in fuel and out of date generally.

"It took some time for those in charge to handle the Diesel engine to advantage, and, due to this and minor mechanical troubles, there were a good many delays. One of the principal troubles that caused delays during the first three months was the failure of the oil filters to clean the lubricating oil. This, however, was overcome by using a better filtering system.

"The plant was shut down for several days during July when, due to the breaking of a crank box bolt, the fourth cylinder was disabled. The engine was then operated for six weeks with three cylinders until a new cylinder could be obtained from the factory.

"The crank shaft was slightly bent in the breakdown and therefore we were not able to get thoroughly satisfactory results up to the end of last season. The shaft has now been repaired and we have good reason to believe that the service of this plant will be satisfactory this year. The engine burns the low grade of fuel without delay and the economy is all that is claimed.

Improvements 1915.

"The statement for improvement expenditures for the year 1915 totals \$480,597.17.

"We put more extensive improvements in the sugar factory that was contemplated at the time of writing the last year's report. This was done with the object of bringing the factory up to a higher standard.

"The mill improvements included two Searby shredders, three boilers, a new filtration plant to filter all the juice coming into the house, continuous subiders, four centrifugals, six crystallizers and several motors and pumps.

"All the other 1915 improvements were taken up in last year's report. Contemplated improvements for 1916.

"As we had a good cash surplus at the end of the year, and as we are taking off a crop of not less than 58,000 tons, for which we will in all probability get a good price, it has been decided to follow last year's policy and spend about \$500,000 on improvements.

"By putting in substantial improvements during good years we will be able to keep the plantation up to the necessary standard and will be in a good position to cut down expenses when the price of sugar goes down.

"The improvement work will be along the same lines as last year, and while it is impossible at this early date to give an accurate detailed estimate, the following will give a general idea of what we expect to do in this line for 1916:

Mill \$50,000

New sugar room 35,000

Pumps 40,000

New cane cars 10,000

Tools 10,000

Ditches 210,000

Livestock 15,000

Buildings 65,000

Warehouses 15,000

Camp water supply 50,000

Total \$500,000

"I would comment on the principal items as follows:

"Mill, \$50,000. This will include two new boilers, a crusher, two sets of Ramsay scrapers, a vacuum pan, two mud presses and several motors.

"New Sugar Room, \$35,000. The roof of the sugar room is in bad shape, and as we need additional capacity to store about 13,000 tons of sugar instead of 5500 tons as at present, we propose to put a new roof over the sugar room. This will be built over the present sugar room so that the installation can be made without interfering with the storing of sugar for this crop. We propose to build a tar and gravel roof, supported by steel columns.

"Pumps, \$40,000. Our pumping capacity is about 80,000,000 gallons of water in 24 hours, which will not furnish the necessary amount of water required during dry summer months. We therefore propose, during the next two or three years, to increase the capacity of our Pumps 2 and 3, which are out of date. The water at these two stations is excellent.

"As soon as we can determine what design of pump should be installed at these two stations we will probably place an order for one pump for 1916 delivery.

"Ditches, \$210,000. This will include

WOULD NOT TAKE GOVERNORSHIP IF OFFERED TO HIM

This is Emphatic Statement of Judge Stuart; is Booster for McCandless

Commenting today on persistent reports that he is being groomed by local Democrats as Hawaii's next governor, Circuit Judge Stuart stated emphatically that he would not accept the office were it offered to him.

Judge Stuart added that the possibility of becoming governor had never been given the least consideration or thought by him.

"I have never had any word with Washington regarding the governorship, and Washington has had no word with me about it," he said.

As to local reports to the effect that he is being groomed for the executive office, Judge Stuart expressed his ignorance of them.

"I am now, and always have been, a booster of L. L. McCandless for governor," he said.

Judge Stuart was asked the name of the official with whom he has placed his resignation.

"It is reported that you have placed it with Senator John Shafroth of Colorado," the jurist was told. Senator Shafroth is chairman of the senate committee on Pacific Islands and Porto Rico.

Judge Stuart laughed.

"If I answer that question, I might be telling you just what you want to know," he countered.

Then he added: "My resignation is in the hands of more than one."

The jurist added that he does not know just when he will leave Hawaii.

work on the East Maui ditches, Wahee ditches and the ditches on the plantation. We are enlarging the Honomenu ditch and expect to enlarge the old Haiku ditch from Maliko Gulch to the plantation. We expect to do considerable ditch building and lining both in the ditch country and on the plantation. We are now relining the Koolau ditch, as the old lining is in bad condition.

"Buildings, \$65,000. When it is taken into consideration that most of the buildings on this plantation are old and a great many of them poorly designed, it can readily be seen that this is not a large sum to spend on buildings.

"Camp Water Supply, \$50,000. This water system, which was mentioned in last year's report, has been in the course of construction since the first of last year, but will not be completed until the last of this year. It is a costly investment, but will give us a good supply of pure water for all of our 24 camps.

"Labor. We have sufficient labor for all branches of the work.

Bonus.

"The total bonus for the year 1915 amounted to \$70,000. This was much appreciated by our employees.

"While we are somewhat behind with some branches of the work, due to conditions that we could not control, still, with the assurance of big crops for 1916 and 1917, our prospects are unusually bright.

"In conclusion it is a pleasure to state that the loyalty of our head men and their faithful and conscientious work have been no small factor in the results obtained."
