EVENING BULLETIN

3:30 EDITION

This Day's News Is Printed in Today's Bulletin

An advertisement is to the merchant what sowing seed is to the planter. It may take a little time for the results to become apparent, but they are sure to come. The wise planter is not niggardly with his seed, nor the wise merchant with his advertising.

ESTABLISHED 1899. NO. 451.

10 PAGES—HONOLULU, TERRITORY OF HAWAII, THURSDAY, FEBRUARY 24, 1910.—10 PAGES.

PRICE 5 CENTS.

ORGANIC ACT BILL IS DEFENDED BY DEPEW NEW PASSENGER BOAT for INTER-ISLAND

HILO MASONIC TEMPLE

(Special Wireless to Bulletin.)

HILO, Feb. 24.—Weather splendid. Everything ready for dedication of New Masonic Temple.

KINNEY.

Hilo is taken up today with the dedication of the new Masonic Temple building. This structure is one of the finest in the islands and by all odds the prettiest and best equipped Masonic Home in the Pacific. The ceremonies take place this afternoon and the banquet will be held tonight.

RUSSIAN DISTURBER HELD AT POLICE STATION

Subject of Czar Is Placed
In Jail With
Family

ACTION TAKEN ON PHYSICIAN'S COMPLAINT

Dr. James of Quarantine Service
Calls on Sheriff Jarrett for
Assistance in Dealing With
Russian Agitator.

"Bread, bread, baby like bread," was all the English that Maria Lozenky could muster up at the police station this morning. Her husband, Andre Lozenky, is the ringleader of the bunch of Russian immigrants who caused so much trouble at the Planters' quarters on Tuesday last. This morning Dr. James, of the Quarantine station telephoned Sheriff Jarrett that the man was a continual source of trouble, and that he wished him removed to the police station.

The patrol wagon was sent down to the foot of Fort street, and there found Lozenky, wife and six children sitting in a bunch. The whole party was transferred to the wagon and taken to the police station.

The arrival of the Lozenky outfit surprised the deputy sheriff who was only expecting one man to arrive, and the genial officer was at his wits end as to what to do with the Russian family. Sheriff Jarrett was away on a business trip and will not be back till this afternoon.

The whole family father, mother and six children, ranging from nine years of age to three months, were accommodated in a private room at the police station to await the return of the sheriff. The father is a surly looking individual, and he shows by every motion and expression that he is a trouble maker.

As soon as the family was seated in the office the mother started on a begging crusade for bread. The youngsters all look well fed and healthy, and they seemed to be content anywhere that their parents were. After a hour or so the mother signified by gesture that the police authorities could cut the whole family's heads off with a knife, and still they would not consent to something. As there was no interpreter at the police station, it was impossible to make out what the family think about things or why the husband is such a pigheaded man.

One police officer tried the man in (Continued on Page 2)

MAILS MUST GO

WASHINGTON, D. C., Feb. 24.—Conditions in Philadelphia have reached such a serious stage that President Taft today issued orders to Federal authorities to see that there shall be no interference with the transmission of the United States mails.

Talks Against Ship Subsidies

WASHINGTON, D. C., Feb. 24.—Congressman Helm of Kentucky made a speech in the House today in which he opposed the principle of the government granting ship subsidies.

Third Degree Investigation

WASHINGTON, D. C., Feb. 24.—Senator Heyburn introduced a resolution today calling for an investigation of the police methods known as the "third degree."

No Arbitration for Philadelphia

PHILADELPHIA, Feb. 24.—Arrival of the State police had a somewhat quieting effect on the street railway strikers today. The situation is still decidedly tense, however, and there is no prospect of a speedy ending, as the street railway company refuses to arbitrate the matters of difference.

Madriz Runs

BLUEFIELDS, Nicaragua, Feb. 24.—The insurgent forces are nearing the capital. It is reported that President Madriz has fled.

Plantation Prosperity Reflected In Reports

WAIMEA'S LABOR PLAN WORKS WELL

Favorable Report Made
By Mgr. Fassoth To
Stockholders

Stockholders of Waimea plantation listened to a favorable report of their property at the annual meeting held this morning in the offices of Castle & Cooke. The profit and loss account shows a credit balance of \$25,105.01. Manager Fassoth reports a crop of 1871,061 tons for 1909 and an average of 6.08 tons of sugar to the acre. The crop of 1910 is being taken from 245 acres. Grinding began January 12 and up to February 15, 325 tons of sugar had been manufactured. The yield is estimated at 1700 tons of sugar.

(Continued on Page 6)

SPLENDID WATER IMPROVES KEKAHA

Great Advance Shown As
Result Of New
Development

Excellent results from the new water supply were shown in the record of the Kekaha plantation, whose stockholders held their annual meeting this morning in the offices of Hackfeld & Co., the agents. Manager Faye reports a crop of even thousand tons, or over 5.77 tons per acre. "This shows steady improvement, all due to better water," comments the manager. The financial statement shows a net profit of \$244,653.43 for the year and dividends of twenty per cent. Referring to the crops for 1910-11, (Continued on Page 6)

OLAA IN LINE OF ADVANCEMENT

Report Shows That It Is
Now On Paying
Basis

Ola's annual report does not take into account the refunding of the indebtedness through the bond issue that was made on Feb. 1. The profits for the year 1909 crops are shown as \$23,045.40, and the store profits \$11,496.07. The plantation having been put on a paying basis and its indebtedness put in proper shape the chief interest is in the future which allows of marked decrease in the running expense, and increase in the crops to be harvested. Manager Watt in his report says: (Continued on Page 6)

IS YOUNG CAFE SEPARATE AFFAIR?

Matter Of Restaurant
License Threshed
Out

This morning at the police court the case against the Alexander Young Cafe, which concern is charged with carrying on a restaurant business without a license, was heard by Judge Andrade. After hearing the evidence the judge decided to take the matter under advisement on the questions of law that were brought up.

First Deputy County Attorney Milverton prosecuted, and Attorney Olson appeared for the Cafe people. Manager Hertache was put on the witness stand and he testified to the fact that the cafe was part and parcel of the hotel, and was as a matter of fact, only a second dining room. The other was upstairs, and the guests of the hotel used either at will.

There was a separate kitchen simply for convenience, as it had been found that with one kitchen for both rooms, the orders were sometimes mixed and food intended for upstairs went to the downstairs room, and vice versa.

Mr. Milverton contended that the cafe was a separate and distinct affair from the hotel, and that it was being run as a restaurant in competition with the other restaurants in the city.

The staff was distinct from the hotel one, and there was a manager of the concern. Liquor could be gotten there with meals and people who were not lodgers at the hotel could drop in and, besides getting their meals, have liquor served them. Manager Hertache could not say off hand what percentage of guests of the hotel dined at the cafe, nor either could he say what the average attendance of transients was at the upstairs dining room.

The case is creating a great deal of interest, and the opinions of those who have heard the arguments, sum about evenly divided on the matter.

BAND NOT AT YOUNG HOTEL TONIGHT

Due to a misunderstanding there will be no concert on the Alexander Young Hotel Roof Garden tonight, the Royal Hawaiian Band playing at the Moana Hotel tomorrow evening between seven-thirty and nine-thirty instead, to which the public is invited.

Don't forget to sow thought seeds that will produce "fruits of the spirit."

PAIA SLUMPS AND MARKET DULL

With sugar quotations the highest they have been this year and the prospects good for going higher, the stock market today actually sagged and was decidedly dull.

Three hundred Oahu sold at 36.50 between boards and finally advanced on the board to 36.75. The last previous sale before the advance in sugar was 34.75. One hundred and thirty Ewa changed hands between boards at 34 and finally advanced to 34.25 on the board. Five shares of Paia went at 133.50, which is fifty cents lower than the previous prevailing price. Pioneer managed to get up to 222.50 while Ola seems fairly firm at 6.875. Hilo Railway's common stock made its first appearance and is reported as sold between boards at 12.50.

Brokers remark that the market is very firm but the business done is by no means in keeping with what might well be expected.

BIG BUSINESS IN TOURIST BUSINESS

As an evidence of the continued influx of visitors to Hawaii, one hotel man informed me yesterday that he had turned away \$15,000.00 worth of business between the first and the fifteenth of this month. Another smaller place said that thus far this month they have been compelled to refuse at least \$10,000.00 worth of business. The boarding houses are also enjoying a good patronage and the merchants generally throughout the city report business to be most satisfactory. In all of the printed matter we get out, we make a point of advertising the fact that travelers will find Hawaii a good place to shop in.—Secretary Wood's report to Pro-Secretary Committee.

Negotiations have been practically completed between Marston Campbell, Superintendent of Public Works, and Brewer & Co. for the cancellation of the lease between the corporation and the Territorial government covering the site occupied by the Brewer building, recently vacated when Brewer & Co. moved into the Fort street offices of William G. Irwin & Co.

Marston Campbell stated this morning that the details regarding the cancellation of the lease have not yet been completed, but it is known that the negotiations in that connection have been settled and that the building will soon be torn down.

POPE ASKS FOR SUMMER SCHOOL

Believes Territory Much
In Need of Such
Institution

Hawaii is in need of a summer school in the opinion of Superintendent of Public Instruction Pope, and he has addressed a circular letter to twenty-four citizens, outlining his plans and asking for a contribution of \$50 to the summer school fund, the expenses of which are estimated at \$1200.

In the course of his letter, Superintendent Pope says:

"Many requests have come to the Department of Public Instruction from the school teachers of every district of these islands, asking for an opportunity to make some preparation previous to the regular school examinations required for teachers' certificates by our school laws. At present the department finds it absolutely necessary to employ many teachers who do not possess so much as a third-grade certificate. Both teachers and department are anxious to improve this condition, and it is truly not in accordance with the wishes of our best citizens who hope to see the educational system of Hawaii brought to a higher standard.

"Examinations as given in this Territory in the past few years, without systematic preparation, tend to crowd out a large majority of our teachers. In all the other States and Territories of the Union we find that there is offered to teachers some form of preparation before examinations.

"To meet the required need we propose that there be a summer school conducted in Honolulu for the purpose of preparing teachers and others desiring to teach, for examinations required for primary and grammar grade certificates, and to give such other instruction as will train assistant teachers for principalship; this summer school to be conducted for a period of six weeks during the months of July and August next. The spring term of the present school year closes on the 24th of June, and the proposed summer school could begin July 5 and continue to August 16, with examinations on Wednesday, Thursday and Friday, August 17, 18 and 19, respectively. This leaves a period of three weeks' vacation for the teachers, in which they may rest and get settled in their assigned places before the beginning of the next school year.

(Continued on Page 6)

MASONS TO DEDICATE

Among the officers and prominent Masons who will take part in the dedication of the Masonic Temple are the officers of Kiluaea Lodge. Reading from left to right the men are: Top row—D. S. Bowman, E. H. Austin, Charles Weatherbee. Middle row—E. N. Holmes, W. H. G. Campbell, G. H. Vicars, Judge Parsons, F. A. Medc. Bottom row—Charles R. Kennedy, Jno. Napier.

KUHIO WITH THEM

SAN FRANCISCO, Feb. 24.—Delegate Kuhio of Hawaii has accepted membership on the Panama-Pacific World's Fair Committee. This formally puts Hawaii in line for cooperation with San Francisco in the development of its world's fair plans.

DEPEW TALKS FOR US

WASHINGTON, D. C., Feb. 24.—The Senate today took up the bill introduced by Senator Depew for amending the Organic Act of the Territory of Hawaii. An hour was devoted to the bill, during which Senator Depew was called on for an explanation of the measure and spoke at length in favor of the bill.

Senator Clark of Wyoming opposed the bill in its present form, and opposition was also voiced by Senator Fletcher of Florida.

No vote was taken and the bill was put on the calendar to come up under the regular order on Monday next.

Bar Orientals

SAN FRANCISCO, Feb. 24.—Labor unions of the city are taking steps to comply with the order of the general labor council that no members shall do work for houses that employ Oriental labor.

Refined Up

NEW YORK, Feb. 24.—Refined sugar advanced ten cents a hundred today.

One of fifteen negro girls among 10,000 white pupils won Hoboken's gold medal school prize. Score one for Andrew Carnegie.

I.I.S.N. DIRECTORS RECOMMEND NEW VESSEL

Necessity Presented To
Shareholders At
Meeting

WILL BE ON PLAN
OF THE MAUNA KEA

Another Modern Passenger Boat Declared Essential Because of the Rapid Growth of Inter-Island Traffic.

The need of an additional passenger steamer in the service of the Inter-Island Steam Navigation Company was emphasized at the annual meeting of that corporation held at the Queen street offices this morning.

The matter of a new vessel intended primarily for the carrying of passengers has been mooted in Inter-Island circles for some time past.

This morning the board of directors presented the necessity of an addition to the fleet, before the assembled shareholders in the steamship company. Their recommendation met with favorable consideration, and the result of the meeting was that the newly-elected directors will take steps towards the acquisition of additional tonnage.

It is understood that the new vessel will be of about the same tonnage as the Mauna Kea. As the matter stands at the present time, the local steamship company might be seriously handicapped in handling its increasing business should some unforeseen accident befall one of the steamers now constantly engaged on one of the several island runs.

It is possible that negotiations will be entered into for another steamer at the earliest possible moment.

The Inter-Island annual meeting drew out but few stockholders this morning, which can be taken as an indication that the business of the company for the past year has been extremely satisfactory.

General Manager J. A. Kennedy presented the year's business statement before the stockholders and directors, which proved gratifying to all concerned.

The election of officers for the ensuing year resulted as follows: President, J. A. Kennedy; vice-president, James L. McLean; treasurer and secretary, Norman E. Gedge; directors, George N. Wilcox, Albert S. Wilcox, J. M. Dowsett, W. O. Smith, Cecil Brown, C. H. Cooke and J. A. Kennedy.

RUSSIAN DISTURBER HELD AT POLICE STATION

(Continued from Page 1.)
what was alleged to be the Russian language but as it sounded like "Nook, pilikinsky byandysky pullanyak," there was no gleam of intelligence on the Russian's face.

At noon time today the whole family was taken below at the police station and treated to a meal at the expense of the County. At one thirty o'clock President Mott-Smith, of the Board of Health, arrived at the police station and he at once began to work on the case. "The man has been causing great trouble over on Quarantine Island among the other Russian immigrants, and Dr. James asked that the man be taken to some other place. The man is not out of quarantine—though he has left the Federal quarantine; he probably will have to be confined in the county quarantine until the officials are satisfied that all danger of any disease being spread by the man or his family is obviated. I, as president of the Board of Health, will not run the risk of having diphtheria spread all over the group by the last batch of Russians, and that is why they were all sent to quarantine."

This morning Sheriff Jarrett and Marshal Hendry went to the quarantine station, but on arrival found that the Russian and his family had been sent to the foot of Fort street where the police wagon met them.

Washington—Exactly \$42,430,476 will be spent on vessels of the navy under construction during the fiscal years 1910 to 1913, according to estimates submitted to congress by the navy department. Of this amount \$30,732,563 will be for hulls and \$11,697,913 for machinery. The expenditure during the current fiscal year is estimated at \$24,520,755, for 1911 it is \$13,375,320, and for 1912 and 1913 it will aggregate \$4,534,501.

Jordan & Co. are going to begin an extraordinary sale on Tuesday, March 1st. The goods to be offered are from forty-two cases of merchandise bought by Mr. Curtis in eastern markets while he was on the mainland. None of these goods will be offered for purchase prior to this date as the goods only reached here by the last Alameda and the Wilhelmina. In order to arrange for this sale the store will be closed on next Saturday and Monday.

LOST

Between Young Hotel and Bonine Theater, a gentleman's stickpin with small diamond in center. Reward for return to this office. 4551-5t

LOCAL AND GENERAL

One cent a word will carry your message to the people of Hawaii in the classified columns of the Bulletin. A thirty cent investment will place your want or wish before almost thirty thousand people.

Telephone 503 to have Laundry called for and delivered quick. There have been 507 automobiles registered at the police court up till noon today.

For a hack ring up phone 495 and ask for Frank Baker. Stand Union near Hotel St. Hack No. 57.

If you want a good job done on an auto or carriage take it to Hawaiian Carriage Mfg. Co., 427 Queen St.

Time spent at the Fashion Saloon is time pleasantly spent. This place is sometimes known as the Two Joos. Phone 5 and ask for Manuel Richard when you want an automobile. Seven-seated Chalmers-Detroit, late model.

Green stamps are given (free) when you pay cash at the store. Call at the show rooms and see what you get for Green Stamps. Beretania st. Fort.

Geo. Kaea announces in the classified for sale column, that he solicits orders for dry and green awa root in any quantity.

Now is the time to get good iron into the blood. Order a case of our Sarsaparilla and Iron. Don't forget our distilled water. Consolidated Soda Water Works Co. Phone 71.

The libel suit against the Chinese newspaper, which has been hanging on for a long time, was taken under advisement this morning by Judge Andrade.

The cases against Sam Makapo, Moses Alonzo, Naone and Logan, who were all charged with malicious injury have been nolle prossed, as the matters which refers to some rice transaction over at Hauula, will be heard in the higher court.

Three more prizes have been donated for the Haleiwa Marathon race, and they are from the following firms: Pacific Import Co., \$5 worth of merchandise; M. McInerney & Co., a contracting umbrella; Oat & Mossman, fountain pen, and Lloyd Conkling an order for \$5 worth of merchandise.

Wrestling seems to be coming into favor again and Salvo Roberts and William Dettmers will probably be matched for a catch-as-catch-can match very soon now. It has been suggested that the men wrestle as a preliminary attraction to the Wahian-Lu Re boxing contest, which is set for March 5.

The stockholders of the Waiwaka Company elected the following officers to serve for the ensuing year: G. N. Wilcox, president; J. M. Dowsett, secretary and treasurer; Henry Holmes, auditor. The directorate of this company is as follows: G. N. Wilcox, A. S. Wilcox, George W. Smith, Henry Holmes and J. M. Dowsett.

A bunch of sailors who were paid off yesterday got into a row in a waterfront saloon this morning, and the outcome of the affair was that two of the party found themselves under arrest. The rest of the sailors kept worrying the police officers to allow their mates to go, and the probabilities are that some more of the sailors will be run-in before long.

The handball tournament between the Students and Seniors at the Y. M. C. A. is not yet finished. Two more matches are to be played, and they may come off in a day or so. The men who were to compete caught colds and had to call the games off for a while. The Seniors are a long way in the lead and the Students do not appear to have much chance of winning out in the tournament.

At the annual meeting of the stockholders of Makaha Coffee Company, Ltd., this morning, the following officers were elected to serve for the ensuing year: G. N. Wilcox, president; A. S. Wilcox, vice-president; J. M. Dowsett, secretary and treasurer; Henry Holmes, auditor. The only change made in regard to these officers, is the fact that J. M. Dowsett will act as secretary and treasurer in place of A. S. Wilcox, who has been elected vice-president.

BAGGAGE

Handled right, phone your order to the CITY TRANSFER CO.

Jas. H. Love. Phone 182.

FAVOR HOLSTEIN AS COMMITTEEMAN

For the purpose of electing a successor to A. G. M. Robertson as Republican national committeeman, a meeting will be held this evening at 7:30 o'clock by the executive committee of the Republican Central Committee, at its headquarters in the Judd building.

Three names are expected to come prominently before the committee this evening, and it seems to be the general impression that H. L. Holstein will be the choice to succeed Robertson. Other names that will come before the meeting tonight are those of Jack Dowsett and Kuhio, and they will both have supporters for the place as National Republican committeeman.

PARKER RANCH INCOME \$271,855

The Parker Ranch has had a year of prosperity according to the tenth annual accounts that have been filed in the Circuit Court by Alfred W. Carter, guardian of Annie T. K. Parker.

The guardian's account, on which a master's report will be returned next week, shows that the receipts of the Parker Ranch from all sources during the twelve months of 1909 reached the total of \$271,855. The six hundred and thirty-two vouchers that accompany the accounts covering the expenditures during the twelve months' period show the disbursements of 1909 to be \$282,196, which include liberal allotments to Alfred Carter, as guardian; Sam Parker, and the running expenses of the Parker Ranch, the payroll of which fluctuates between \$3000 and \$4000 monthly.

WATERFRONT NOTES

THE STEAMER Claudine, from Hawaii and Maui ports, was an arrival at the port this morning, bringing fifty passengers and a general cargo including 20 cords wood, 43 sacks paddy, 87 sacks corn, 10 barrels wine, 1 auto, 42 bales hides, 40 head hogs and 155 packages sundries. The Claudine met with fine weather on both the outward and inward trips.

PURSER KIEBLING of the steamer Claudine, from Maui and Hawaii ports, reports the following shipping at Hilo on last Monday: American schooner Aloha and the Matson steamer Enterprise. The schooner James Rolph has discharging cargo at Hana at the time of the departure of the Claudine.

THE UNITED STATES army transport Thomas has sailed from Nagasaki, Japan, for Honolulu and San Francisco according to a cable that has been received by Captain Castner, the head of the local quartermaster department. The Thomas left Manila on February 14 and after remaining at Mariveles quarantine station for a day, proceeded to the Japanese coal port for fuel. The Thomas is expected here on or about March 7.

CAPTAIN CASTNER, in charge of the local quartermaster department, expects the arrival of the United States army transport Crook from San Francisco on Sunday. The vessel is bringing a quantity of supplies for the Hawaiian Islands.

THE A-H. freighter Mexican is the latest departure from the port of Salina Cruz with New York cargo destined for Honolulu by the way of San Francisco and Seattle. The Mexican sailed from the isthmus yesterday.

THE A-H. freighter Arizonan, from Salina Cruz with mainland cargo, via New York, is reported to have arrived at San Francisco yesterday. This vessel is to proceed to Puget Sound ports and thence to Honolulu.

THE ARRIVAL of the Matson Navigation liner Lurline is reported at San Francisco. This vessel sailed from this port on February 15. The Lurline met with fair weather on the voyage up the coast.

FROM HILO comes the report that the Matson Navigation liner Enterprise arrived at that port on last Sunday. The vessel brought a full general cargo of supplies from San Francisco.

SMOOTH SEAS and light winds have been met with by the Toyo Kisen Kaisha liner Chiyu Maru, which is now 481 miles off the port, steaming towards Yokohama.

AT NOON yesterday, the Pacific Mail intermediate steamer Asia sailed from San Francisco for the Orient, via Honolulu. The Asia is due to arrive here on or about March 1.

ARMY AND NAVY

For Chinese Navy.
The Chinese Government has decided to appropriate 18,000,000 taels for the reconstruction of the navy, and has appropriated the sum to the provinces.

In addition, 2,000,000 taels will be annually defrayed as ordinary expenditure for the maintenance of the navy. Of the construction expenses to the amount of 18,000,000 taels, 16,500,000 taels will be applied for the construction of warships and the remaining sum for the construction of various arsenals, and schools.

An army correspondent suggests that, as a penalty for offenses growing out of the indiscreet use of liquor, the culprit should be required to deposit with the paymaster a certain portion of his pay, to be returned to him upon his discharge. This will deprive him of the means of procuring liquor and prevent the feeling of discontent or injustice which leads to desertion. He knows one company commander who has tried this method with the best results, and he has the fewest number of men in the guardhouse of any company commander at his post. Our correspondent adds: "Although this captain has the name of being a hard man to soldiers under him, I never met a man of his command who complained of being wronged or imposed upon by the captain or his non-commissioned officers." While drunkenness is an offense that must be strictly dealt with, it is not in itself a crime, and should be treated in the spirit of charity for a weakness which not infrequently shows itself in men who are otherwise good soldiers.

Captain Frank A. Grant, U. S. A., has been placed in charge of the army water transportation at San Francisco, with headquarters on the army transport wharf, where he established himself in the office hitherto occupied by Captain Duan, the dock superintendent. Colonel von Schrader, who was superintendent of the transport service and was promoted recently to be chief quartermaster of this division, will still have supervisory jurisdiction over the water transportation, but Captain Grant will be the executive officer.

Captain Grant's jurisdiction will extend over the transports and will include the fleet of army boats operating on the bay between the various army posts. The new arrangement practically separates the transport service from the rest of the quartermaster's department, and later it may be operated as a distinct branch of the service.

Captain Grant said yesterday that for the time being he would make no changes in the dock force. What he will do in the future will depend upon circumstances. Captain Grant has had considerable experience in the kind of work to which he has been assigned.

He first acquired fame when he was placed in charge of water transportation at Manila, where his first act was a liberal blue penciling of the pay roll. Thirty heads he severed at one clip, but as they were all superfluous the work of the office did not suffer.

As he became familiar with conditions he did more pruning and when he left Manila in 1903 the work was running smoothly with about one-fifth of the hired help that was considered necessary when he took hold.

He was in charge of the transport service at Seattle for two years, was depot quartermaster at Newport News and from May 17 last year until June 10 was assistant to the chief quartermaster in the department of the east in charge of transports and maneuver work. His reputation as an executioner of superfluous employees preceded him and his arrival at the transport wharf caused some trepidation in spite of the fact that the force is now smaller than ever before.

Captain Grant went to Manila in 1893 as commander of the Utah light batteries. While in the Philippines he fitted out and commanded a small fleet of gunboats. This work led to his recognition as an expert on water transportation. After his return from the Philippines he resumed his business career in Utah, but a year later was given a commission in the quartermaster's department of the army.

FRIDAY NOON should see the arrival of the Toyo Kisen Kaisha liner Tenyo Maru, from San Francisco, according to the latest available wireless information. The vessel is meeting with fine weather on the way down from the coast.

JAPANESE MAY BE DEAD IN HARBOR

Late last night two drunken Japanese broke a window in a Chinese house on Pauahi street, and when the Celestials rushed out in pursuit of them, the Japanese dashed down toward the waterfront.

The chase led down to the wharf near where the Hongkong Maru is berthed, and as soon as the wharf was reached, one of the Japanese, who is alleged to be a resident of Honolulu, dived off into the water. Apana, the Chinese detective, however, grabbed the other man and took him to the police station.

This morning Interpreter Bergan accompanied the Japanese to the Hongkong Maru, and he was there identified as a member of the crew of that vessel.

The sailor sticks to his story that his comrade dived overboard and never came up again. Whether this is true or not will not be known for a couple of days, when, if the man is really drowned, his body will rise to the surface of the harbor.

At the annual meeting of the shareholders of the Honolulu Iron Works Company, this morning at 10 o'clock in the offices of Messrs. Theo. H. Davies & Co. Ltd., the following officers were elected for the ensuing year: F. M. Swany, president; G. H. Robertson, 1st vice-president; E. D. Tenney, 2nd vice-president; T. C. Davies, treasurer; E. H. Wodehouse, secretary; H. W. M. Mist, auditor.

L. L. McCandless has purchased the city real estate holdings of Mrs. F. C. Pickerton. The property extends from Hotel through to King street on the Ewa side of Nuuanu and adjoins property of Mr. McCandless in that vicinity.

A gentleman's stick pin was lost last night somewhere between the Young Hotel and the Bonine Theater. A reward will be paid for return to this office.

ELKS' CARNIVAL A FINANCIAL SUCCESS

Trail Was Money-Maker, And Antlers Are Happy

The local lodge of Elks has cleared over three thousand dollars through their successful Carnival, and by the time that all the returns from the several amusement enterprises are in and proceeds counted, the amount is expected to reach a figure close to the four thousand mark.

The trail from a financial standpoint, is declared to have been a huge success.

The Elks are naturally inclined to extreme elation over the result of their maiden efforts along carnivalistic lines.

While some of the booths cleaned up larger amounts than others, the voting contest is now believed to have netted the biggest sum, while the aplegate court has followed a pretty close second in the contribution of good old dollars to the Elks building fund.

In order to show their appreciation of the efforts from the general public who materially assisted in the suc-

cess of Honolulu's First Grand Carnival, the Executive committee takes the opportunity of extending their heartfelt thanks in the following manner:

Honolulu Lodge No. 616, B. P. O. E., through its committee, takes this public opportunity to express its thanks and appreciation to those who assisted in the production of the carnival, to the many committees whose untiring efforts went far towards making it the success that we feel it has been; to the merchants of Honolulu for their generous use of program space, to the press for their many courtesies in keeping the extravaganza before the public, and last but not least, to the ladies who so kindly entered into the spirit of true Elksdom, in an endeavor to make the first annual carnival, a success.

JAMES D. DOUGHERTY,
Chairman,
GEORGE T. KLUEGEL,
G. W. R. KING,
S. A. WALKER,
J. WALTER DOYLE,
Executive Committee.

Don't forget that true happiness was never found through selfish motives.

PEARL HARBOR TO BE GREATEST NAVAL BASE

NEWARK, Feb. 23.—President Taft, in speaking at a banquet here tonight, announced himself as in favor of adopting the budget system in figuring upon the nation's finances. Such a system, explained the President, would result in the elimination of the deficits which the country has faced after the last few sessions of Congress, during which heavy appropriations were made.

The President explained the retrenchments which are now being carried out and showed where Congress must go slow in its appropriations in order to avoid a deplorable deficit this year. The reductions in the appropriations for the army and navy the President characterized simply as postponements, explaining that there is no intention of skipping the preparations for national defenses, but that the shortage of funds makes it unwise to appropriate the full amount asked for by the secretaries of war and the navy.

In speaking of defensive work in the Pacific, the President said: "Pearl Harbor, on the island of Oahu, in Hawaii, is destined to become the great naval base of the Pacific. Concerning this there can be no doubt. It is unanimously conceded by naval and military experts that we do not need a naval base in the Philippines, but that we must rely upon Hawaii as our great Pacific Ocean base."

"It will be necessary to make Corregidor as nearly impregnable as modern military and engineering skill can make it, and we must establish a supply station at Subig Bay, but it is upon Pearl Harbor that we must depend as our great base."

"The carrying out of this plan will necessitate the expenditure of an immense sum of money in Honolulu; in fact, the present appropriations for the Pearl Harbor work are small in comparison with the appropriations which will have to be made in order to carry out the plans which have been made for the great Hawaiian naval stronghold."

STATE TAKES HAND IN RIOT.

PHILADELPHIA, Feb. 23.—Unable to cope with the situation here, the police have called upon the State for aid. Two hundred constables of the State mounted police will arrive here today. It is believed that they will be able to get the situation in hand.

The rioters are growing more desperate, and every effort to start the street cars with strikebreakers has resulted in trouble. It was in the hope of preventing further bloodshed that the chief of police concluded to ask State assistance.

MILK-PRICE BOOSTERS INDICTED.

NEW YORK, Feb. 23.—Eight directors of the milk exchange were today indicted for conspiracy. It is charged that the indicted dealers conspired to raise the price of milk.

THEATER FIRE KILLS FIFTY.

TRUJILLO, Peru, Feb. 23.—Fifty persons were killed here tonight in a panic following a fire in a theater.

SUBSIDY BILL IN DISCUSSION

Humphrey And Dougherty Exchange Hot Shot

(Special Correspondence.)

WASHINGTON, February 23.—The administration's ship subsidy bill has been reported to the House and efforts will be made to have it passed at an early date. This bill, which was introduced by Representative Humphrey of Washington, contains three distinct propositions:

First, to increase the mail pay to American ships on routes to South America, China, Japan, the Philippines and Australasia to \$4 per mile outward voyage where the voyage is 4000 miles or more; second, to increase the tonnage taxes on the trans-oceanic trade; and, third, free ships, that is, admit foreign built ships to American register for the foreign trade.

"The first of these propositions is the most important," says Representative Humphrey. "It is proposed by this section to amend the act of March 3, 1891. This law is unknown even to some members of Congress, yet it has been on our statute books for eighteen years, and no man has ever suggested its repeal or criticized what has been accomplished under it. This law is directly responsible for every American vessel on the Atlantic ocean, and if it was repealed the American flag would entirely disappear from that ocean within sixty days."

Representative Humphrey said that if the section of the bill providing for new tonnage taxes was adopted it would bring into the national treasury about a million dollars a year, all of which are carrying 55 per cent. of the commerce of the United States on the seas and are receiving \$200,000,000 a year from the American people for this service.

Under the free ship provision of the bill, Representative Humphrey said, an American citizen can buy a vessel, built anywhere, put the American flag on it and run it exclusively in the foreign trade. Such vessels are not to receive any Government aid.

The ship subsidy was ordered favorably reported by a vote of ten to seven.

Representatives Wilson, of Illinois, and Swagerty, of Maine, voted with the Democrats against the bill. Representatives Hobson, of Alabama, and Maynard, of Virginia, both were present. The vote was taken after a stormy session. It was the first hearing that had been held on the measure and its opponents were taken completely by surprise when Mr. Humphrey announced after a session of about two hours, that the committee would go into executive session to consider the bill.

Representative Alexander objected. "You mean you are going to vote on this bill today," he asked.

"Yes sir," replied Mr. Humphrey sharply.

"I protest against this railroad," declared Mr. Alexander. Representatives Wilson and Hardy joined in Representative Alexander's protest.

"This is the first hearing we have had on the bill," said Representative Wilson. "I have given two days to the opposition," answered Mr. Humphrey. "I have other matters pressing and I want a vote."

"You haven't given anything," was the angry retort of Representative Wilson. "You haven't given anything and you have nothing to give. We demand a hearing on this bill."

Humphrey Makes Charge.

Earlier in the hearing a spirited tilt occurred between Mr. Humphrey and Attorney James M. Dougherty, of New York, representing the Merchants' Association of New York each impugning the sincerity of the other in his attitude toward ship subsidy.

"You can't fool me," said Representative Humphrey addressing Mr. Dougherty. "You are here pretending to be in the interest of American ships, but you are really for the foreign ships."

"I would demand a withdrawal of that statement if I were not appearing before a Congressional committee," retorted the attorney.

"The remark will not be withdrawn sir," answered Mr. Humphrey. Amid loud calls for order, Mr. Dougherty, facing the Washington member, angrily shouted:

"I don't believe you are in earnest in your apparent desire to close the door against foreign ships in this mail subsidy. Your bill isn't strong enough. If you are sincere, why aren't you willing to accept the amendment we propose stating specifically that foreign built ships admitted to American registry shall not share in any subsidy or subvention on the part of this Government."

"It doesn't make a particle of difference what you think," was the heated reply of Representative Humphrey. "I'll not stand for your telling me what I should do."

Mr. Humphrey made a vigorous defense of the bill, denying Mr. Dougherty's charge that it left a loophole for foreign ships to share in the mail subsidy.

The full text of the bill follows: Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

PLEA OF HAWAII HEARD BY TAFT

Petition For Improvement In Land Laws Received

A petition signed by hundreds of Hawaiians which was submitted to William H. Taft, President of the United States, has been received by the Executive at the seat of government at Washington, and an acknowledgment is now in the hands of Mayor Joseph J. Fern of Honolulu.

President Taft has turned over the petition to the department of interior and through its secretary, Mayor Fern has been notified of its receipt and the Head of Honolulu municipal government has been favored with a copy of a bill which has to do with the amendment of an act to provide a government of the Territory of Hawaii which was approved April 30th, 1900.

A copy of a report made thereon by the Special Senate Committee on Pacific Islands and Porto Rico has also been received.

The report was prepared and ordered printed on January 31st of the present year and it comes from Senator Chauncey Depew for the Committee on Pacific Islands.

Senate Bill No. 3360 was also introduced by Depew which has been up for two readings and is now in the hands of the committee.

tonnage duties paid in respect of the entry in the United States of that vessel from that voyage.

Sec. 6. That section forty-one hundred and thirty-two of the Revised Statutes is hereby amended to read as follows:

"Sec. 4132. Vessels built within the United States and belonging wholly to citizens thereof and vessels which may be captured in war by citizens of the United States and lawfully condemned as prize, or which may be adjudged to be forfeited for a breach of the laws of the United States, and seagoing steel steamers of two thousand and five hundred gross tons or over, wherever built, and to engage only in trade with foreign countries or with the Philippines, being wholly owned by citizens of the United States, and no others, may be registered as directed in this title. Foreign-built vessels registered pursuant to this Act shall not be entitled to mail compensation under the Act of March third, eighteen hundred and ninety-one, entitled 'An Act to provide for ocean mail service between the United States and foreign ports and to promote commerce,' or to any compensation under this Act, and shall not engage in the coastwise trade or transport from one port of the United States to another port of the United States either directly or via a foreign port or for any part of the voyage passengers or merchandise under penalty of two hundred dollars for each passenger so transported, and the forfeiture of the merchandise so carried."

That so much of section thirty-six of the Act approved August fifth, nineteen hundred and nine, entitled 'An Act to provide revenue, equalize duties, and encourage the industries of the United States, and for other purposes,' as conflicts with this section is hereby repealed.

Sec. 5. That on proof to the satisfaction of the Commissioner of Navigation that a vessel of the United States has on any foreign voyage carried a boy or boys, a citizen or citizens of the United States, under twenty-one years of age, suitably trained during that voyage in seamanship or engineering, in the navigation of one for such vessel, and in addition one for each one thousand tons of her net registered tonnage, there shall be paid to the owner or owners of the vessel, out of any money in the treasury not otherwise appropriated, an allowance equivalent to eighty per centum of the

ATHERTON LEAVES

Amongst the passengers who left by the Wilhelmus this morning were Mr. and Mrs. Frank Cooke Atherton and Miss Marjorie Atherton. Mr. Atherton is going on a six months' vacation for the benefit of his health. After spending a few weeks in California, Mr. Atherton will make a tour of the Eastern States and spend a few weeks in the neighborhood of Chautauque, N. where he will attend the month. Until quite recently Mr. Atherton has been manager of the Sugar Factors Company. He resigned on November 1, 1909, to take a needed rest, and will take up no active duties until after his return.

TUESDAY FEBRUARY 24, 1910

How far that little candle throws its
beams!
shines a good deed in a naughty
world.
—Shakespeare.

Someone needs to step in and play
a part of the great pacifier among
Russian friends.

Honolulu apparently wants eight
cent sugar before showing signs of
flourishing real prosperity has finally
ripped.

Honolulu will soon be growing so
proudly that the people must needs
sle to guard against being bowled
er in the rush.

Dr. Cook must have some friends
who are calling on Perry to show
a proofs that his photographs of the
orth Pole are genuine.

If they can't lead the people into sup-
er of the American merchant mar-
e, they are doing their utmost to
ghten them to some action.

If you don't support your own town,
u with your money will be a nat-
al victim for the bunco steerer with
re propositions that look well at a
stance.

It would be difficult to imagine
ything more remarkable than the
cord of the Stock Exchange fol-
wing the latest advance in the
ice of raw sugar.

When Honolulu and Oahu contain
a most valuable real estate posses-
y the United States in any part
of the world, it stands to reason that
Honolulu home is a mighty good
vestment for the average American.

Assuming that Leslie Shaw was say-
g what he believed to be true, why
ould Congress take action in regard
to the coastwise shipping laws that
it put the avenues of communication
etween this naval base and the main-
nd in the hands of an enemy.

Perhaps the plebiscite will be a
od thing to settle the Prohibition
estion once and for all, and save the
rice of maintaining Mr. Woolley
Washington. A great amount of
od for local citizens could be done
h these funds in a campaign of
ucation for temperance in all things.

City officials can't let conditions
at made the Van Kirk case possible,
ndine and expect to retain the
ndence of the people. The police
ation force should be made up so
at every woman who has the mis-
rtune to be turned over to the po-
e shall have the care and attention
at only a woman can give.

With all due respect to H. L. Hol-
in, the Republican national com-
tee man from this Territory should
J. M. Dowsett. Mr. Holstein is
o far removed from the center of
litical activity, and likely to be
ely involved in political troubles
his own district that will demand
a undivided attention. It is also
li to remember that Delegate Ku-
o's tour of Hawaii was one of the
ves strongly urged by Mr. Hol-
n, and if that move was a polit-
cal success the ordinary political
rkers have yet to hear any wild
proval of it.

EVENING SMILES

"What'll be a powerful machine,"
d a native of the North of Scotland,
a motorist, the other day.

"It's a splendid car," replied
neer, proudly.

"Suppose a car like that will be
only a hundred horse-power?" sug-
sted the countryman.

"Oh, no," said the motorist, modest-
ly. "It is only ten-horse. A hundred
horse-power is very much larger."

"I wasn't going by the size," the
chlander dryly explained; "I was
ing by the smell of it."

A Swede, intending to leave the
entry, started for the steamer accom-
panied by a friend. As they
ached the dock the boat was leav-

HONOLULU'S FUTURE.

President Taft has again called
public attention to the great future
that is in store for Honolulu through
its proximity to Pearl Harbor.

"Again" is the word used, because
the President put the seal of assur-
ed expansion and permanence on the
future of this city and its suburbs
when he, in his official capacity, ap-
proved the plan for making Pearl
Harbor the naval base of all Ameri-
can operations in the Pacific.

So far as Honolulu is concerned,
the money that may be expended on
Federal public works in this vicinity
means a great deal, but the perma-
nent population that will be brought
to the city is of vastly more im-
portance. It is an absolute guaran-
tee to the business man, the trades-
man, the men and the women—
everyone, in fact, who lives here,
hopes to live here, or is in any way
interested in the progress of the city.

One of the largest naval stations
of the country has on its payroll
between eight and ten thousand
American citizens. It is impossible
for the greatest naval base of the
country to have any less number, and
in addition to this will be the offi-
cers and enlisted men of the army
stationed at the various forts in and
about the city.

To estimate the in-
crease of population as ten thousand
Americans in the next two years
will be to put it very mildly. This
means doubling what is usually
spoken of as our American popula-
tion, and best of all the new resi-
dent citizens will be of the skilled
mechanic class that is the most de-
sirable and the most sought by every
growing community in the country.

Having been caught once in a
boom, the conservative people of Ho-
nolulu are ultra conservative in their
plans and expectations for the fu-
ture. Many of them are afraid they
will go too fast and get ahead of the
city's legitimate growth. The pres-
ent-day danger is of the people mov-
ing too slow. The time is approach-
ing when they will discover that
they can't build the houses fast
enough, that people are coming in
such numbers that proper accommo-
dations are not available.

Get out of your thoughts the very
oft repeated suggestion that the his-
tory of 1910 may be repeated if
great care is not exercised. The ex-
pansion of 1910 that went too far
was based on the prospects that have
not materialized until the present
day. We are just beginning to real-
ize on them, and the result is sure.

Now we have the plantations de-
veloped and on a splendid paying
basis. The great question of Pearl
Harbor has been definitely settled.
The public works to be carried on
here by the United States Govern-
ment will be works occupied by an
ever-increasing population, civil and
military. It is not a case, as it was
in 1910, of building new blocks with
local capital and waiting for some-
one to wander this way and occupy
them.

The crowds of Honolulu's future
population are on the way now. It
is up to Honolulu to hustle and be
ready for them.

The people who grow agile dodging
automobiles are not revenged by see-
ing the men who ride in them dodging
their taxes.

Don't expect the other person to
work your problems if you desire to
learn the rule yourself.

ing. The friend excitedly exclaimed
"Yump, Yon, yump! I dank you can
mak it in a couple of yumps."

Two Irishmen, Pat and Mike, stood
looking at bricklayers who were work-
ing on a building that was being
erected when the following conversa-
tion was overheard:

Mike—Say, Pat, kin yez tell me
what kapes them bricks together?
Pat—Sure, Mike, it's the mortar.
Mike—Not be a blame sight; that
kapes them apart.

Little girl—A pound of steak, please,
and cut it tough, will you?
Butcher (surprised)—Why?
Little Girl—Cause, if it's tender
father'll eat it all.

"HUMANITY" TALKS ON VAN KIRK CASE

Lessons Drawn From Local Affair—What Other Cities Do

Editor Evening Bulletin:
—There are some things one would
ask permission to present bearing
upon the Miss Van Kirk incident
of so recent occurrence in our midst.
The exceptional feature in this
case I regard not to be the fact that
there has been such an occurrence,
and that here in Honolulu, but the
fact that the attention of the public
was so early and so forcibly drawn
toward it, and public sentiment
awakened regarding it.

The fact is still to be regretted,
however, we believe, that the end
of it seems little better than the be-
ginning. A lady comes to Honolu-
lu—a city noted for its hospitality,
and as possessing exceptional advan-
tages for needed rest and quiet and
benefits to health—yet almost im-
mediately upon her arrival she finds
herself under most embarrassing and
harassing circumstances, because of
a peculiar physical ailment; circum-
stances calculated to but aggravate
the cause of her sufferings, and en-
tail upon her further misery and suf-
fering; and now, without sufficient
time to rally even in a measure, she
must retake a seven-day voyage, and
this without her own expressed wish
in the matter so far as we yet know,
or such direction given, except to
herself, by friends at a distance.

If such decision comes from friends
who know the lady best, the pro-
ceeding is a justifiable one, but if
not, does not the action justify in-
severe criticism both here and
abroad? We believe it does, and
that the whole conduct of the case,
from beginning to end, is most lam-
entable.

From pronounced censure upon
such how can we hope to escape un-
less by prompt and efficient effort
toward change in conditions reveal-
ed to us by this exceedingly unfor-
tunate occurrence?

The first move in this direction
has already been suggested by the
Bulletin, viz. the establishment
of a receiving station, or at least a
detention room, and a matron.

The great need for these is cer-
tainly apparent now. In the lack
of these, it would seem that for an
emergency case the humane officer
would have been willing to be cal-
led upon, a woman of intelligence,
and within the precincts of the po-
lice station; or the Associated Char-
ities be called upon; or a nurse de-
tailed from one of our several hos-
pitals; or the Woman's Exchange be
notified of the need. From any or
all of these we are sure there would
have been prompt response, and the
lady subject been afforded counsel,
sympathy and sense of friendly pro-
tection, and saved the awful humili-
ation from which true womanly in-
stinct naturally shrinks, and to
which this lady was subjected—
shameful in itself and shameful in
the dire consequences made possible
by it.

To the suggestion already made by
the Bulletin toward reform in
conditions, the writer would add an-
other—that of the selection of a wo-
man as one of the members of the
Lunacy Board. One belonging to
the medical profession might per-
haps be an advantage, but waeter

this or not, essential qualifications to
be sought for we believe to be clear,
unprejudiced judgment, intuitive
perceptions, and sympathy guided by
wisdom. We offer this suggestion
because of having seen the advan-
tages of such selection in other cities
on like boards.

And still another suggestion we
would make, and one that will prob-
ably be regarded upon first thought as
being so unnecessary as to be a
foolish suggestion, but it is one
based upon no mere theory, but on
actual experience. This is for pro-
vision for the right of appeal from
the decision of a lunacy board to a
jury trial, if circumstances seem in
any wise to call for such appeal.

The special experience referred to
was this: In one of the large cities
on the mainland I was once called
upon hastily, and to my surprise, to
go to the receiving hospital and see
a lady there under arrest under cir-
cumstances very similar in many re-
spects to those involving the taking
charge of Miss Van Kirk. Being al-
most a stranger myself in that city,
I knew nothing whatever of the pro-
visions for such cases, and felt my-
self as possibly unable to render any
aid, but I answered the call. Upon
arrival at the hospital I was ushered
into the cell where the individ-
ual lay on a cot. A shudder of hor-
ror crept over me as I saw, without

TRY THE WIRELESS

Office Open on Sunday Morning
From 8 to 10

a moment's warning, the heavy iron
door swung and bolted behind me,
and realized I was not only with one
entire stranger to me, but with
with one whom, for aught I knew,
might upon some sudden thought or
impulse become a raving maniac.

So commonplace a subject as the
weather may oft be made a topic
with which to open a conversation.
At any rate, I soon found myself
quite interested in the trend of our
interview, and within half an hour
had secured from the lady several
names of parties with whom she had
had business or other relations in
past times and other cities. To my
great surprise, two of the names she
mentioned were of persons with
whom I myself had personal ac-
quaintance, and for whom I held a
very high esteem.

When I emerged from that cell I
found the warden interested in the
outcome of the call, and the sympa-
thies of the matron enlisted. These
facts I felt would be a mighty force
in the progress of the case.

The lady's urgent solicitation to
see me was the hope that I could
perhaps secure a lawyer with whom
she could consult before the hour for
her examination with the lunacy
board. The hours intervening were
none too many, but interest was en-
listed in the case, and the outcome
was an appeal to a jury before a
jury, which being sustained and the
case was thus established as a
precedent in that State, one of the
largest in the Union, for like appeals
when circumstances seem to call for
or demand such. And a worthy
precedent it was, for after the great-
er part of three days' session in the
courtroom, the final arguments, the
charge of the judge to the jury, the
verdict after ten minutes' delibera-
tion was "Not guilty." That jury
was not satisfied with this, however,
but made request that a testimonial
be drawn up expressive of their com-
mendation of the lady's conduct
through the trying ordeal, and the
presentation of it to her with a purse
made up by the twelve jurors. This
was all carried out to the letter.

We all at times perhaps realize
the force of the saying, "Truth is
often stranger than fiction."

HUMANITY.
Honolulu, Feb. 23, 1910.

PLAIN AMERICAN

Editor Evening Bulletin:
The liquor prohibition bill, framed,
signed, sealed and delivered by John
G. Woolley and his following of Civic
Feds, along with another dozen or so
prohibitionists, failed even to pass
the committee in Congress assem-
bled. This man Woolley is prob-
ably being paid a good sum of money
by his employers and at the same
time he is asking from Congress what
no State in the Union would ask: as
such would show such State to be in-
capable of enacting its own laws. In
this way the Woolley outfit have at-
tempted to do a lot of harm to this
Territory, by trying to show Congress
that we are not capable of enacting a
law to suit the majority of our vot-

ers. The bill, as it is, is a ridiculous
specimen they have drafted of the
wall's first lady asking for woman's
suffrage on this important question.
They ought to have known before tas-
ing the initiative that such a thing
as woman's suffrage would never be
granted to them by the educated men
in Congress; indeed such absurdity
has never been heard of in any State
of the Union, let alone among such
a conglomerated population of voters
as we have here in this Territory. The
bill, if it had been accepted and
passed, would have suited the planta-
tion owners, consisting of a few
churchmen and a handful of their
parasites to a nicety. This element,
consisting mostly of millionaires,
would have taken away from the
workingman his right to indulge in
his 10-cent glass of beer, while the
sugar magnates would be free to drink
the best of wine at \$5 or more per bot-
tle as long as the hands of the clock
went round.

If the so-called prohibition and
Christian temperance leaders are such
great lovers of the Hawaiians, why
don't they give them a chance to earn
the necessities of life, in place of
spending \$75,000.00, as I am told in
Washington on a course which I firmly
believe is doomed to impossibility.
The Hawaiians showed plainly how
cager they were to work for \$1.50 a
day at the time of the strike, and God
only knows that this is little enough
to sustain a family upon. Why not
try and find work for the Hawaiians
out of employment now. It would be
a cause worthy of the women leaders
of the Territory to help out these fam-
ilies.

Say, Mr. Editor, this world is too
good, and right here is to the wheel
on which the world revolves. Death
is a thing that all are sure of. If life
were a thing that money could buy, the
rich would live and the poor would
die; but, thank the Lord, this is not
so and the rich and the poor together
must go.

Sincerely yours,
A DEMOCRAT.
Honolulu, T. H., Feb. 24, 1910.

IMPARTIAL WAS MALIHINI JUDGING

So much interest has been shown in
regard to the creditable manner in
which the Malihini judges awarded
the prizes at the Floral Parade, that
a brief statement as to how these
judges performed their work so im-
partially will be of interest.

Each owner of a car, entered for the
parade, received a printed card on
which he wrote his name, the occu-
pants of the car, the color scheme, and
the class in which the car was rated.
These cards were handed to the judges
of the respective classes, i. e. all
cards marked class A, went to the
judges of that particular class.

The judges also were supplied with
cards, arranged in the form of score
sheets. These contained blanks to be
filled in by each judge. The points
were awarded for conception of de-
sign, consistency, color scheme, com-
pleteness and consonance of occu-
pants.

The highest possible number of
points that could be obtained were
one hundred. Twenty points were the
highest to be awarded for each of
these five special features. The three
judges of each class worked independ-
ently and noted down on their cards
the exact number of points they con-
sidered each feature deserved.

After the three judges had each not-
ed down on their cards the number of
points they considered each feature
was worth, they compared their notes
and took an average of the number of
points awarded each feature. Thus,
if one judge noted down on his card
15 points for consistency, the second
judge only gave 10 points for that
particular feature and the third judge
considered it worth the full amount,
viz. 20 points, these three awards
were added together and the average
taken.

This plan was followed out in each
feature and after the average had been
taken for the whole five features per-
taining to each car, these averages
were added up and the total compared
with the totals of the average taken
in other entries and the car having
the highest number of points was
awarded the prize.

In this way the judging was ab-
solutely impartial and has been much
appreciated by the thousands of peo-
ple who witnessed the judging. It is
hoped that Malihinis will be appoint-
ed next year to act as judges as this
year's awards have given so much sat-
isfaction to the majority of our vot-

CASTORIA

for Infants and Children.

Don't Poison Baby.

Forty years ago almost every mother thought her child must have paregoric or laudanum to make it sleep. These drugs produce sleep, and a few drops too many will produce the sleep from which there is no waking. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody, without labeling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrup," etc. You should not permit any medicine to be given to your children unless you or your physician know of what it is composed. Castoria does not contain narcotics.

The signature of *Dr. J. C. Watson* is on every bottle of Castoria. Physicians Recommend Castoria. "I have frequently prescribed Castoria for children with good results." W. A. CRANDALL, M. D., Buffalo, N. Y. "I find your Castoria is very beneficial in the treatment of children's ailments." F. D. SMITH, M. D., Chicago, Ill. "As the father of thirteen children I certainly know something about your great medicine and, aside from my own family experience, I have, in my years of practice, found Castoria a popular and efficient remedy in almost every home." Wm. J. McQuinn, M. D., Omaha, Neb. "I object to what are called 'poison' medicines, where mother alone knows what stuff is put into them, but I know the formula of your Castoria and I feel free to prescribe it. It is just what I have been looking for, as well as harmless family medicine." S. B. SMITH, M. D., Brooklyn, N. Y.

RETURNS COMING FROM PROMOTION

Strangers Adding From \$4000 to \$7000 a Day To Prosperity

Secretary Wood in his weekly report to the Promotion Committee says:

"During the first three or four years of the committee's work, many discouragements were met with, and at times it seemed as though but little or no progress was being made, yet every letter sent out, every effort put forth by the committee, was undoubtedly along right lines, and we are now reaping the benefit of this persistent painstaking work. A larger number of strangers are enjoying our delightful winter weather at the present time than ever before, adding from \$4000 to \$7000 per day to the local circulation. We have many fifty per cent. more tourists here at this time, and now that the change of our summer climate and the beauty of our summer flowers and to large are getting to be better known, Hawaii is rapidly becoming an all-the-year-round resort. The plan of work for the 1911 season contemplates a wider distribution of our folders and an increased activity along all lines. A special effort will be made during the next few months to reach every automobile owner throughout the United States and Canada, in an endeavor to convince them of the fact that Hawaii, with its splendid roads and dependable climate, is the very best winter tourist resort the world over for the man with an automobile, and while on the lookout for the wealthy tourist, the man of moderate means will not be forgotten, for we shall be able to convince him that one can live cheaply and well in Hawaii, that, in fact, Hawaii is the ideal vacation spot. The truth about the islands offers so much in the way of inducement and attraction to the home-seeker, health-seeker and tourist, that our work is rendered comparatively easy—Hawaii is satisfying."

OLAA IN LINE OF ADVANCEMENT (Continued from Page 1) Crop 1909. The total area harvested was 6,323.45 acres, giving a total yield of 19,179 tons sugar, or an average production of 2.8 tons sugar per acre. This not very satisfactory showing is partly attributed to poor returns from a large area ratooned from too thin plantings and plantings from "hollyhock," an inferior article, when Yellow Caledonia seed was scarce and expensive four years ago. There were also included in this crop 500 acres of Rose Bamboo, the last of this variety, which has proved unsuitable for conditions at Olaa and which no longer will be planted. The cost of the crop was also excessive owing to the amount of re-planting done on the fields so as to admit of more economical plowing and cultivating in the future, and also on account of the great amount of hoeing necessary on a large area of plant cane.

From now on, ratoons will constitute the larger part of our annual crops and will, of course, be much cheaper to raise. All the heavy planting necessitated by changing the cane on the entire property has been done, and paid for, and the advantages from ratooning are now available. Yellow Caledonia ratoons very readily at Olaa for three successive crops. Today all the ratoons on the place are first class and in many cases better than the plant cane.

Crop 1910. The area to be cut for this crop is 6,133.44 acres, all of it good cane and so far ahead of the 1909 crop that I estimate we will have more sugar this year than last, although we have 700 acres less to harvest. I figure the production for 1910 will be in the neighborhood of 29,000 tons.

Crop 1911. The area of plant and ratoons to be harvested is 6,456.16 acres. The planting was finished in July and the cane, both plant and ratoons, is much further ahead at this season of the year than it has been for any previous crop. The field work is well advanced and most of the cane is at that stage of growth where it will be able to take care of itself as far as weeds are concerned. In the spring of the year I intend to give the fields a dressing of sulfate of soda or sulphate of ammonia as the case may be. Experimental applications of these fertilizers made during 1909 have shown markedly beneficial results. With average weather this crop will be considerably larger than any that has been harvested in the past. In consequence of the advanced stage of this crop it will require much less expenditure during the year 1910 to bring it to maturity than was expended on the crop of 1910 during the past twelve months. I also estimate that this crop will show an increased yield over the estimate for 1910 of from 4,000 to 5,000 tons of sugar.

Crop 1912. The area to be planted (exclusive of outplant) will be between 500 and 600 acres. The Yellow Caledonia cane is ratooning so well that it will only be necessary to plant

this small area, which will be a great saving in field work. The total area for this crop will be approximately 6,400 acres.

Expenses. The expenditures on the field accounts during the 12 months ending December 31st, 1909, show an increase over that of 1908. On the other hand, the crop for 1911 is very much further advanced than the crop of 1910 was December 31st, 1909.

Plantation in General. The field work is further along at this time than in any previous year. The fields are in a better physical condition and the cane much further advanced than at this date a year ago. Demerara No. 1135 cane continues to do well at Mountain View Section and we are extending the area planted to this cane as fast as possible.

With much larger crops in sight, costing less to raise, and with decreased interest charges consequent upon the consolidation of the company's debts in the new bond issue, the outlook for the plantation is more promising than it has been for many years.

SPLENDID WATER IMPROVES KEKAHA

(Continued from Page 1.)

Crop 1910—We have at this writing, February 4, milled about 4500 tons of sugar of this crop, and fields are coming fully up to expectation. The estimate for this crop is 12,500 to 13,000 tons of sugar, depending largely on the yield of the mauka lands which were partly planted late in November and December, owing to the late installation of power and pumping plant. This cane is all mauka of the ditch at an elevation of 300 feet, and has been irrigated with water pumped by the electrical pumps.

Crop 1911—We have planted 150 acres of new land for this crop at an elevation of 165 feet above the 300-foot level, and although it was planted late I think it will give a fair yield. Besides this we have also planted about 50 acres new land below the 300-foot level. This is all new land and with the 200 acres long ratoons will give us 400 acres to harvest from the mauka lands for the 1911 crop. I estimate that we will have about the same crop for 1911 as for the present crop, 12,500 to 13,000 tons sugar.

Ditch—The ditch water supply is keeping up fairly well, but with the extra land taken in above the ditch, we have at times had to run our maki pumps. The maki pumping expenses, however, have not been very large, and the water in the wells is very much improved, only containing a very small amount of salt.

We have had to do a good deal of repairing on the ditch during the year, and have lately had to construct a flume for 400 feet. This will, however, put the ditch in fine condition and the upkeep for next year should not be very large. * * *

I am pleased to be able to report that the plantation is now in very fine shape, all due to the new water supply, which will benefit us to an even greater extent for the coming crops. The officers elected are: President, G. N. Wilcox; first vice-president, H. P. Fay; second vice-president, Paul R. Isenberg; secretary, F. Klamp; treasurer, Wm. Pfotenbauer; auditor, Armin Haneberg; other directors, A. S. Wilcox, George Rodlek.

WAIMAEA LABOR PLAN WORKS WELL

(Continued from Page 1.)

The 1911 crop will be taken from 280 acres and a yield of 1900 tons is expected.

The general condition of the plantation is good," reports Manager Fasoth. "Every machine is kept in good condition and repair. The mill building is almost new and in excellent order."

The laborers' quarters are in poor condition and should receive attention the coming year. "Labor condition on this plantation is excellent, the contract made with the Japanese Co. for the entire care of the fields and delivery of cane to the mill, I am glad to say, has worked very satisfactorily for the last seven years; they are working faithfully and are satisfied with their engagement, realizing that they are working for themselves as much as they are for their employers."

UNIQUE EDITION OF NEW TESTAMENT

Revised Version, Many Years in Preparation, Ready for Printer.

LONDON, February 12.—Bible students are keenly interested in the announcement of a new edition of the revised version of the New Testament, with full marginal reference. The task has taken thirty-eight years, having been begun in 1873 by the late Dr. Frederick H. Scrivener and the late Professor Moulton. The revised version published in 1898 contained only abridged references. In recent years Professor J. H. Moulton and Dr. A. W. Greenup have been engaged in completing the work. To many verses of the gospel and the epistle they have added nearly one hundred marginal references, each bearing upon the text or meaning of the verses. "I often worked ten or thirteen hours a day during my vacations," said Dr. Greenup today. "To aid me I had large sheets printed with the gospel text in large type and ample margins."

WILHELMINA ALOHA WAS FERVENT

Many Witness Departure Of Newest Liner

Captain Peter Johnson, master of the new Matson Navigation liner Wilhelmina did not forget his old love, the Hilonian, as he trod the bridge of the latest addition to the Matson Line in passing the older and smaller vessel at the time of leaving the harbor this morning.

The Wilhelmina's siren tooted a fond farewell to the sister ship and Captain Johnson can be pardoned any outward expression of his emotion as he doubtless recalled many pleasing incidents connected with his former command.

The Wilhelmina sailed for San Francisco this morning taking ninety passengers in the cabin and thirty-five booked for the steerage.

There was a large crowd present at the Matson wharf to bid Aloha to the initial departure of the Wilhelmina on her maiden trip to San Francisco.

The Wilhelmina left this port well down at the head. The vessel is taking a large general cargo for the mainland. Included in the shipment of Hawaiian products was about four thousand tons of raw sugar, 800 tons of refined sugar, 1800 bunches of bananas, 400 sack of rice and a quantity of sundries including hides, empty barrels and various articles.

There were many who paid a visit to the Wilhelmina for the first time this morning. The stay-at-homes were loth to leave the vessel even after the sounding of the whistle and the songs. The reception on board prior to the sailing while prompt was a delightful one.

The Wilhelmina is leaving in the command of the well known and popular Peter Johnson, with C. Peterson as Chief Officer, Jos. Baker, Chief Engineer, J. Lombardo, Steward, Charles A. Drew, Purser, and Dr. L. H. Schwein, Surgeon.

PROMINENT Y. M. C. A. MEMBER COMING

John F. Moore of New York City, the traveling secretary of the international committee of the Y. M. C. A., will be here on March 17 and will remain about ten days. Mr. Moore travels through the United States and Canada to help and advise the Y. M. C. A. in regard to their work. He is coming to this city on a special invitation from the board of directors of the local Y. M. C. A. to examine the work this Association is doing and make suggestions in regard to the growth of the Association and the building plans for the new building.

During his brief stay here, Mr. Moore will study the military situation with a view to providing Y. M. C. A. buildings and secretaries for the enlisted men of the Territory. He will speak in the Central Union church on Sunday, March 20, and in a number of other places during his stay.

This evening there will be a bi-weekly meeting at Fort Ruger, at which Rev. A. C. McKeever of the Christian church will speak. His subject will be, "The Christian's Armor." This is the last of a series of four addresses which Rev. McKeever has given at Fort Ruger, under the auspices of the Y. M. C. A.

POPE ASKS FOR SUMMER SCHOOL

(Continued from Page 1.) year, which has been set for September 12, 1910.

"We have in the Territory at present excellent home talent that may conduct such a school, as well as several well-equipped school buildings, any one of which would give ample room."

"It is believed that this summer school will greatly improve the teaching force throughout the Territory, and that the evidence of the good work will be ample to convince the next Legislature that such a school needs financial support."

"With this hope in view there could be a committee appointed near the close of summer school session which could work in conjunction with the instructors selected to conduct the school, preparing a detailed outline and list of practical questions on such subjects as are necessary, that the various teachers may do some home work if they choose during the next school year, preparatory to a second summer school in 1911; and with the understanding that it is the intention that the series will extend over a period of three summers. Such an extended course will build up the efficiency of the service and result in a much improved educational system in Hawaii."

On these I compiled a list of references. The references to a single verse occupied me from first to last thirteen years, returning to it, as I did over and over again. The publication will take place in a few days and I presume that Bible students throughout the world will want the new work."

How to Mix Sherwin-Williams Paint, Prepared, Properly.

To secure the best results from S. W. P., or any other good prepared paint, it must be properly mixed. The illustrations and their explanations tell how to mix S. W. P. properly and in the least time.

 <p>1. Shake the package violently.</p>	 <p>4. Stir the pigment and remaining oil with a strong, smooth paddle that is of a shape which will admit of getting around the edges and bring up all of the pigment. Do this until the mass is smooth and entirely uniform throughout.</p>
 <p>2. Cut out the whole top.</p>	 <p>5. Begin returning the surplus vehicle a little at a time, until all has again been added, stirring constantly.</p>
 <p>3. Pour off into another package at least two-thirds of the vehicle that has raised above the pigment.</p>	 <p>6. Then "box" the paint—that is, pour it back and forth from one pail to another from half a dozen to a dozen times, each time leaving about one-quarter of the paint in the pail which is being emptied.</p>

SPORTS

BY V. L. STEVENSON.

BOXING.

McFADDEN IS ON WARPATH SURE

LIGHTWEIGHT BOXER

HAS TWO MATCHES

Will Box Clarence Reynolds in Hilo and Later On Will Tackle Leilehua Champion—M. Wilson Manages Hilo Show.

Jack McFadden is getting back into the fight game with a vengeance, and now has no less than two contests on his hands. Jonathan, left yesterday on the Mauna Kea for Hilo, where he will take on Clarence—chase me, girls; that's it, Clarence—Reynolds in a fifteen-round go.

It is hard to imagine Jack doing anything to a man named Clarence, unless it was to kiss him or give him a real hard smack on the instep. But as a match has been arranged by that good sport Al. Wilson, and the purse is a decent-sized one, there will be a scrap that will make Hilo sports think that Honolulu can turn loose a boxer or two.

Sam Hop and Heine both "got theirs" good and hard in Hilo within the last couple of months, and now should Jack McFadden lose there will be only one thing for the local sports to do, and that will be to get Dick Sullivan back in the ring and have him knock the block off some middleweight from the Rainy City.

McFadden will soon after his return from Hilo travel out to Lelihu and there tackle a "Fighting Fifth" lightweight who thinks he has the Honolulu boy's measure. Well, a lot of amateurs have thought that way, but they have been quickly convinced that McFadden has a punch that, landed on the proper spot, is good for dreamland pastures.

Once upon a time a boxer named Morch tackled Jack at the Lelihu, and for several rounds the "sailor," as he was called, waltzed around Jack and endeavored, with but poor success, to land one where it would do the most good. Then, then sized up the ball of muscle that kept jumping around him, and then suddenly put a right swing to the jaw and it was curtains for the sailor.

Many ringsters at that contest have declared that the punch that put Morch away was the cleanest knockout they had ever seen. The sailor simply collapsed like a wet rag, and it was some time till he recovered sufficiently to leave the ring. Jack McFadden has a punch, sure, and if in condition should account for both the men he is to meet.

MEETING OF HAWAII YACHT CLUB TONIGHT

Members Will Discuss Trans-Pacific Race and Committee to Manage Affair Will Be Elected.

This evening at 8 o'clock the Hawaii Yacht Club will hold a meeting at which the matter of the trans-Pacific race will be taken up. A committee will probably be selected to look after the arrangements for the race, and all the details will be left in their hands.

Formal invitations to the yacht clubs on the Coast will be issued, and the committee will get into communication with those yacht owners who are thinking of entering for the race. T. W. Hobson, an old Honolulu man, has written to Charles T. Wilder about the race, and has suggested that the smaller yachts that compete in the event should be allowed to return to the mainland on some steamer. It is thought that nominal rates might be secured from the steamship companies, and if the boats can be shipped back there will be a larger number of contestants in the race than otherwise. The yachtsmen cannot get a couple of months vacation, and at least that much is necessary if the men have to sail their craft back to San Francisco after the race is finished.

The Hawaii will, of course, represent these islands in the race, and it is probable that the Kamehameha will also sail in the race. The Winsome, which sails from San Pedro, is about the same size as the Kamehameha, and if the two start in the trans-Pacific race there will be a very interesting contest between the pair, irrespective of the main event.

Don't forget that most of the children of God are still in the wilderness and it may be your duty to be a signboard.

MARATHON.

HALEIWA EVENT NOW ASSURED

NIGEL JACKSON IS

HARD ON THE JOB

Many Prizes Donated for Running, Bicycle and Motor-Cycle Races—Entry Book Now Open at E. O. Hall & Son's—Race March 27

Nigel Jackson is hard at work on the Haleiwa Marathon race, and he has resigned his position with the laundry in order to devote all his time to the details of the big annual affair.

The prize list is growing at a great rate and already many good trophies have been donated by the merchants and business men of the city. The men who last year donated prizes so liberally, are again coming through with the goods and the prize list is growing to a big one.

The race is to take place on March 27, and the entry list is now open at E. O. Hall & Son's. The entry book will remain open till March 25 and by that time there should be a large number of names down for the Marathon and other events.

The motorcycle race will attract a large number of entries and it is thought that at least 30 machines will compete in the thirty-two mile run. Some of the motorcyclists like Berger, Herrick & Co. will do very fast work over the distance, and the race will be something new for the public.

Then the bicycle race will be a good one, too, and at least a dozen riders will start on the long journey. The prize list so far is as follows: The Diamond Silver Cup, which is to be won three times before it becomes the property of anyone—Jackson has one left in for this trophy. Five-dollar pair of shoes presented by E. W. Quinn, gold medal from Joe Cohen.

Five dollars worth of laundry work from Territorial Manager Service five pounds French candy, Palm Cafe 400 choice Magnolia cigars from Hawaiian Tobacco Co., pair of \$5 shoes from Jim Quinn, half dozen choice neckties from Clarion Clothing store, half gallon Highland-American Oil from Dr. Pottle, gold Gillette razor from Hollister Drug Co., three dozen rainier beer from Rainier Bottling Works, Panama hat from Hub Clothing Store.

All the above prizes are well worth winning and the list of trophies will grow longer every day. Jackson is hard at it rousing up probable donors of prizes, and how it is up to the runners, cyclists and motorcyclists to get in early and enter for the events. Connie Hayes is training hard for the Marathon, and does his running in company with Jackson. The pair run twenty miles a day at present, and both are making good time.

HANDBALL.

MARINES VS. Y. M. C. A. AT HANDBALL

CAMP VERY BOYS

WIN OPENING GAMES

Three Matches Played Yesterday—Half-Wets Won All—Two Easy Victories and One Close Game.

Yesterday afternoon at the Camp Very handball courts, the much-discussed tournament between the Marines and Y. M. C. A. teams was started. Only three games were played, and two of them resulted in easy victories for the half-wets. The third game was also won by the Marines, but by a very narrow margin. In the first match Blanchard met Sterling, and for the early part of the game the Y. M. C. A. man held his own. Sterling then bucked up and made a big winning run that landed him a winner by a score of 45 to 23.

Blanchard's hobnob number of points seemed to affect the other players, and "Oh, Gee, You Are Easy" got away with Lewis to the tune of 45 to 20.

Then the best game of the day came up, and in it Queenan and Johnston fought out a tight finish, the former managing to win by four points—45 to 41. It was a great go, and the Y. M. C. A. man did good work in getting so close to his opponent.

The score at present stands 135 points in favor of the Marines, and 84 for the Y. M. C. A. Fifty-one points is a big lead so early in the

tournament, and the Marines would appear to have the affair clinched—that is, if they do not go to pieces altogether.

Two sets of games are to be played, and eight men a side will compete. One part of the tournament will be played at Camp Very, and the other at the Y. M. C. A. gymnasium.

This afternoon the following men will meet, and some exciting games are expected to ensue: J. A. Williams vs. Nott, 4 o'clock; L. R. Williams vs. Marcellino, 4:30 o'clock; Picariello vs. Webster, 5 o'clock.

The tournament is attracting a lot of attention, and handball has certainly come to the front as a sport with a vengeance. The game is being played everywhere, and if no regular alley is available, the side of a house and a little space surrounding it is as good as anywhere else for practicing.

TUG-OF-WAR.

SIX TEAMS WILL COMPETE IN PULL

ARRANGEMENTS

NEARLY COMPLETE

All Nationalities Will Be in Struggle—A. K. Vierra in Charge of Contest—Athletic Park Scene of Tussle.

A. K. Vierra is hard at work on the tug-of-war contest, and it would appear that there will be one great day's sport on March 13, when at least six teams will meet at the Athletic Park.

The Hawaiian team is thought to have the best chance in the affair, although the Marines are determined to give them a hard go, and should be able to make the natives extend themselves. The Portuguese bunch will also do good work, and it would appear that the winning team will come from the three mentioned.

The Chinese team will have a go at the competition, and as they are light, according to Sam Hop's idea, it would seem to be a good scheme to divide the prizes up into at least six parts, so that all the teams will get something for their hard work. To only give two prizes of large amounts would be discouraging to the teams that have really little chance of getting into the first places.

Sam Hop's idea is to have a fairly substantial first and second prize, and then to arrange that every team gets some sort of a prize, even if it be only a dollar ahead, for the team that runs—or pulls—last in the tournament.

The Japanese team will be very light, but the men are a wiry lot of fellows, and as they are just balls of muscle, there will be some tough pulling if the Japanese run up against the Chinese for a starter.

If the police enter a team there will be a different complexion put on the competition, and the boys in blue will make the whole outfit sit up and take notice. It is to be hoped that the "cops" do get into the tug-of-war contest, and then the joy will be complete.

As the weather seems settled now, there will no doubt be a big crowd at the Athletic Park on the day of the great struggle, and the excitement should run high, especially if a couple of the teams get "frozen" and hang on for an hour or so. All the details are being arranged by A. K. Vierra, and he will announce the final arrangements in a day or so.

"Our plant is our pride, and we are always glad to conduct other motor car manufacturers through the factory," says W. C. Leland, general manager of the Cadillac Motor Car Company, in commenting upon the numerous visits of other builders to the Cadillac plant in the last few months. "We fully appreciate the fact that our plant and our methods are unique in thoroughness of detail which is insisted upon and ably carried out in every department."

"It is particularly interesting to another manufacturer to observe the operation of our machinery—much of which was built right here in the Cadillac plant because it could be procured nowhere else, and much of which was built under Cadillac specifications by the leading machinery manufacturers. Some of our machinery is unlike any to be found in any other automobile factory in the world. The reason for this is that the fineness of fit demanded between many of the reciprocating parts of Cadillac cars precluded the possibility of attempting to make use of ordinary machinery."

"Another feature of our methods, that holds absorbing interest for the manufacturer and engineer is the extreme fineness and marvelous accuracy of our measurements. The unit, as the motor car world pretty generally knows, is the thousandth part of an inch. Gauges and micrometers by which the various parts are sized are set by a combination of standards which we believe to be the most accurate in the world. These are manufactured in Sweden, and the process is so painstaking that but a few sets can be produced each year."

SPECIAL MESSAGE WELL RECEIVED

New Tariff Is Working Perfectly—Big Gains In Revenue

WASHINGTON, D. C.—While the special message of the President was temporarily overshadowed by more sensational subjects from the newspaper standpoint, still it was received throughout the country with almost unanimous approval. Nor did it create any anxiety in financial and industrial circles, many railroad magnates admitting that legislation carrying out the President's recommendations would not be hostile to their interests. In fact it was not so intended. Mr. Taft has at heart the best interests of the whole people, and proposes that all new legislation shall be fair to all.

The Ballinger-Pinchot controversy is now centered in the investigating committee selected by both Houses of Congress, and all fair-minded people will await the report of this committee before taking sides in the matter. There is no doubt that the investigation will be thorough and absolutely impartial, and the decision will be accepted as final.

While the newspapers are devoting columns to a discussion of more or less sensational matter regarding the President and members of both Houses of Congress, Mr. Taft and his Cabinet officers as well as Republican Senators and Representatives are busy in their official capacities. It is agreed that much work is to be accomplished at this session, and committees are unusually busy with hearings and in the preparation of bills. The public at large hardly appreciate the immense amount of work that devolves upon the President and his Cabinet and members of Congress. Many such officials work from early morning till midnight.

High prices and consequent high cost of living continues to be a burning issue. The prominence given to the subject has, however, resulted in acquainting the people with the fact that the present high prices are not due to the tariff, although many merchants have taken advantage of the situation and in giving their reasons for raising prices have dishonestly attributed it to the tariff. But duties were reduced or remain stationary in all the necessities of life and the dishonest price raiser is being found out.

Little is now being said in any quarter against the new tariff. It is working perfectly, and the results of its operation are giving us unprecedented records in every feature of our commercial life. The revenue, too, is constantly on the gain, it being already nearly \$40,000,000 in excess of a year ago. The President and party leaders are being constantly congratulated on the outcome and the promised period of prosperity seems to be assured.

There is no longer any concealment of the reason why certain magazines are so vicious in their opposition to the Republican party. They believed that they could compel the putting of print paper on the free list, and because the tariff only makes a substantial reduction they propose to take revenge by unwarranted and untrue attacks on the administration and dominant party. The statement in the President's message that a large part of the postal deficit was due to the votes on magazines has again stirred them up, and they propose to do all kinds of things.

These magazine editors do not seem to realize that low prices and low wages go together, and that both advertising and subscriptions would all off tremendously if the tariff was further reduced. Of course the importers for a time would be in clover, but eventually we should be where we were in 1896 under the Wilson-Gorman law. To continue prosperity we must do our own work and keep out competing products that if admitted free or at a low duty would shut up our mills and give us idle millions.

COLLEGE PROFESSOR ERECTS OBSERVATORY

The College of Hawaii is going to have an observatory, even if the professors of that institution have to do the work themselves, and that is just what they are doing.

It was discovered some time ago that the funds for building a proper observatory house were not sufficient, and that something desperate must be done, and to that end Professor Gilmore, Professor Young and his assistant turned to and, putting on a carpenter's apron, tackled the job of finishing up the building.

It is now an assured fact that there will be a suitable building from which to have a peep at the comet when it shows up some time along about the end of next month.

It Will Pay You

FREE THEATER TICKETS

A Beautiful Picture Film of
YOSEMITE VALLEY
Is now being exhibited at the

ART THEATER

All Ladies who have entered as candidates in the **BULLETIN'S POPULAR VOTING CONTEST**, or desire to do so, will be given Complimentary Tickets to the Art Theater. This offer is good only until Saturday evening. Tickets are good for both Matinee and Evening shows.

In addition to the Yosemite Views an interesting program of pictures and music is given at the Art.

Contest Manager, Bulletin Office

3000---Free Votes---3000

IN THE BULLETIN'S GREAT DOUBLE POPULAR-VOTE CONTEST

PRIZES—FIVE FREE TRIPS, FOR FIVE POPULAR LADIES OF HAWAII, TO YOSEMITE NATIONAL PARK AND TOUR OF CALIFORNIA.

THE ACCOMPANYING NOMINATING BALLOTS are good for 3000 FREE VOTES in the Evening Bulletin's GREAT DOUBLE POPULAR-VOTE CONTEST which opens SATURDAY, March 5, 1910, and if clipped out and properly filled in, will entitle the woman whose name appears thereon to 3000 Votes. These coupons must be properly filled in, giving the full name and address and the district in which the candidates live, and must be deposited at the EVENING BULLETIN office on or before MARCH 5.

Each contestant is allowed only one of these ballots, and if more than one appears for the same contestant, they will be thrown out and not counted.

Remember, the contest opens SATURDAY, MARCH 5, 1910, and those who intend proposing some young woman in this popularity race should do so at once. All you have to do to enter someone of your choice is to clip this coupon from this issue of the BULLETIN, and mail or bring same to the BULLETIN office, and when the first announcement of the names is made she will have 3000 votes opposite her name.

You may, if you wish, nominate candidates for both a Trip and Chaperone Contestant.

Chaperone Contestant Nomination Coupon

Good for 3000 Votes until 5 p.m. Saturday, March 5th

I hereby nominate as a candidate in the Evening Bulletin's Double Popular-Vote Contest, for Trip Chaperone,

Mrs.

COMPLIMENTARY TICKETS FOR CONTESTANTS

INTEREST CENTERING IN CANDIDATES for CHAPERONE

Several Candidates Have Secured Subscription Books And Begun Campaigning

The excellent picture film of the Yosemite Valley being exhibited at the Art Theater this week is attracting the attention of the ladies who are going to be contestants in the Bulletin's Popularity Contest. Complimentary tickets are being issued to prospective candidates by the Bulletin. Any lady who will signify her intention to be a candidate in this contest will be supplied with one of these tickets.

Indication of Interest.

If the number of inquiries received daily in regard to the contest are any indication of interest, this contest is going to be one of the greatest ever conducted by the Bulletin. Three of the prospective candidates called at the Bulletin office today and were supplied with the contestants' subscription books, with which to begin collecting subscription money. No votes will be issued until Monday, March 6, but any money collected now by the contestants can be retained until that date, and when presented at this office votes will be issued according to the schedule printed below. The Chaperone Selection.

The matrons of the islands seem to have all approved the plan to elect the chaperone by popular vote. All the married women who have commented on this part of the contest have unreservedly said that they believed that it was just what should have been done in the past contests when young ladies were elected to travel to the mainland. There will be some difficulty experienced by the Bulletin readers in making the selection, though, because so many estimable women are going to be nominated.

Chaperone a Candidate-at-Large.

There seems to be a slight misunderstanding as to just how the chaperone is to be selected in this contest. The names of all matrons submitted to this office will be entered as candidates for chaperone honors, excepting such as the Bulletin management will deem it advisable to bar. The votes for the chaperone will be issued on the same coupon as the one that is given out for the young ladies, running as district contestants. It can be readily seen from this plan that a matron and a young lady can combine their campaign efforts and work together, as they will not be opponents.

No doubt some of the contestants have already arranged to do this, but if they have not, the contest manager will gladly explain in detail to all candidates how this can be done, if they will call at the Bulletin office during the hours given in the contest advertisement.

THE DISTRICTS ARE AS FOLLOWS

District No. 1 includes the City and County of Honolulu.
District No. 2 includes the County of Hawaii.
District No. 3 includes the County of Maui.
District No. 4 includes the County of Kauai.

Don't forget the candidates for chaperone are candidates-at-large. You may take the trip any time you choose, singly or in groups.

VOTES ON SUBSCRIPTIONS ALLOWED AS FOLLOWS

One month's subscription to the Evening Bulletin—Old subscription, 100 votes; new subscription, 125 votes.
Three months' subscription to the Evening Bulletin—Old sub-

scription, 350 votes; new subscription, 450 votes.

Five years' subscription to the Evening Bulletin, \$40.00.

One year's subscription to the Weekly Bulletin, \$1.00.

Five years' subscription to the Weekly Bulletin, \$5.00.

TRAVELLING MAN'S PARADE IMPRESSIONS

Editor Evening Bulletin:—I would say that the Parade was one of the best of its kind that I have seen. Being a traveling man I naturally take quite an interest in anything that helps a town, but what strikes me as an odd thing is that the judges in awarding prizes don't seem to take any interest in the artistic taste and neatness of a float more than a child with a toy. All that glitters is not gold. That German float was the real thing, yet the Orientals got the prize. No doubt sentiment had something to do with it.

I come here every year from New York, where, when a parade is on, outside of a circus, all cars stop; even in "Frisco. Yesterday was the limit on your local "Rapid" transit, cutting in at King street, and their excuse made in the morning paper, which I understand the said manager was connected with before he took up railroad, may account for accident news not mentioned in your way.

Now without any "blatant" talk the Evening Bulletin expresses the sentiments of Honolulu business men from what they tell me. It has really more news and less "hot air" of the islands.

Go to it and you will win out. Street railroads have no soul at their best and what they want and get in their way is "dollars." If anything happens to the riding public, why it's always the public's fault, not the railroad. That "legal obligation" excuse gets your nerve and "without delays too."

Yours,
A. TRAVELLING SALESMAN.

HEAD, BACK AND LEGS ACHE?

Ache all over? Throat sore, with chills? That is La Grippe. Perry Davis' Painkiller will break it up if taken promptly. All dealers, 25c, 35c and 50c bottles.

Bulletin Business Office Phone 255, Bulletin Editorial Room Phone 185.

RECREATIONS

ROPER AT THE NOVELTY.

Nan J. Aspinwall, known professionally as "The Mountain Girl," champion lady lariat twirler of the world, which title she won while at the Madison Square Garden in New York City, will give an exhibition for the last time in Honolulu the last three days of this week. The act consists of technical work with a rope and is the best ever seen in this country. She earned her title honestly and by exceedingly hard work. The feature of her act is the roping of a person using two ropes, roping both arms at once, throwing two half-hitches at the same time, on feet, hands, and head, using both hands. She opens a sixty-five foot half-inch, linen rope on foot. Her prize, silver mounted saddle, made by L. D. Stone of San Francisco, is on exhibition at C. R. Collins, Bethel street, as is also her hair bride. Upon leaving Honolulu she will go direct to San Francisco to close her agreement to take a transcontinental ride, from San Francisco to New York alone on horseback.

The "Princess Omene," doing her East Indian dance continues to draw good houses nightly.

Edna Wall, in popular songs and the new moving pictures complete the best bill the house has had.

BAND CONCERT.

The Hawaiian band will give a public concert this evening at the Pleasanton Hotel at 7:30 o'clock. The following program will be rendered: Introduction—Carmen Bizet
Overture—Dame Valentine Suppe
Finale—Rigoletto Verdi
Selection—Madame Butterfly Puccini
Vocal—Hawaiian Song, by Berger
Selection—Three Twins House
Gavotte—Glowworm Linke
Finale—Good Comrades Teike
The Star Spangled Banner.

KEANAE CELEBRATED

(Special to the Bulletin)
Keanae, Maui, Feb. 21.—The Keanae school kept Washington's birthday by having some patriotic exercises on Monday, February 21. The program follows:

Song by First Grade.
Address by Principal Abel M. You.
Song by Receiving Grade.
Monologue by Elsie Saunders.
Monologue by Henry Kaia.
Monologue by Jno. Kaia.
Song by First and Receiving Grades.
Monologue by F. Yau.
Flag Drill by Receiving Grade.
"My Country 'tis of Thee."
"Star Spangled Banner."

MOVING PICTURE SHOW FOR SUNDAY SCHOOL

Church Will Draw Children With Theatricals; Attracts Members With "Gym."

ST. LOUIS, February 4.—The pretty little cards used to attract children toward regular attendance at Sunday school have been supplemented in the Union Methodist Episcopal Church by tickets to a moving picture show.

Commencing Sunday each child will get a ticket to a show the following Sunday afternoon in the church basement. A regular nickelodeon equipment has been purchased.

The church has a staff of six attorneys, who spend each Sunday evening in the church giving legal advice free to members of the congregation.

A gymnasium and swimming pool with a physical director, will be added to the church equipment February 1st.

A few more triumphs for the wireless method, and corporations will not have to maintain lobbies at Washington.

SOZODONT

Teeth preserved to middle age are pretty sure to last out one's lifetime. The greatest known preservative of the teeth and purifier of the mouth is Sozodont Liquid. It penetrates the minutest crevices of the teeth destroying the deadly mouth acids. Its antiseptic effect in the mouth is most lasting.

Benson, Smith & Co., Agents.

Let Us Supply Your Footwear, Madam

Do you know that right in our store you can obtain the identical shoe styles that are now being worn by women of fashion in New York and other metropolitan centres? Do you know that we can fit your foot as perfectly as if you had your shoes made to order? We can do this because we sell

FORT SHAFTER NEWS

An accident occurred Tuesday when the troops started to the city to parade. The 2nd Battalion, 20th Infantry, was in line waiting for transportation at the end of the carriage and the cavalry came by. The road was crowded with many vehicles and an auto ran up behind one of the cavalry band horses and the horse became excited, wheeled and fell on the rider, breaking two ribs and cracking his shoulder. The man is now in the Fort Shafter hospital.

The entry in the parade bicycle section from Fort Shafter, by Private Frank Merwer, Company G, won second prize.

Suspend Duty.
On account of the battalion participating in the parade Tuesday, on Wednesday all duty was suspended except the necessary guard and fatigue.

A good fast game of basketball was played at the post gymnasium Monday afternoon.

On account of the work going on on the parade ground, guard mount is now being held on the lawn between Company F and Company H.

It has been ordered that the men on the ball team will be excused from gymnasium drills.

The band and first squadron, 5th Cavalry, that have been encamped at Fort Shafter for the past three days, for the purpose of attending the Floral Parade, broke camp Wednesday morning at 8 o'clock and started on their journey home to Schofield Barracks.

Sergeant Barton, Troop I, 5th Cavalry, Schofield Barracks, H. I., has been ordered to report at Fort Shafter for medical treatment by the first available transportation.
