HONOLULU, H. I., THURSDAY, FEBRUARY 22, 1900.

No. 2488.

## BRISBANE NEWS

CAULCULATIONS OF TIME DIFFERENCES.

The Australian Dispatch Declared to be Some Hours Later than Anything else Received Here.

EDITORIAL STAR: In an editorial note this morning the Military Critic of the "Advertiser" seeks to show that the good news received from Brisbane per "Aorangi" respecting the advance of the British forces under Buller was discounted by later news from San Francisco. It would seem that our learned friend is incorrect in his calculations, if he made any.

Brisbane is approximately 154 degrees of longitude east of Greenwich, and is therefore about 10 hours behind London time; as the dispatch was received in Brisbane at 10:30 P. M. on the 8th inst., it must have left London allowing for time of transmission, about 11 hours in advance of that time by London notation, this would be say 9:30 a. m. on the 9th inst.

San Francisco is in Longitude 123 degrees west of Greenwich and is therefore 8 hours ahead of London time, so that a message leaving the capital for San Francisco at 9:30 a. m. on the 9th inst., would reach the latter port again allowing for time in transmission about 8:30 p. m. on the 9th inst., or several hours after the last mail left for these islands.

On this showing there seems to be a possibility that the news received via Brisbane is correct.

Yours etc.,  
BRITISHER.

Honolulu, February 23.

WASHINGTON.  
Today, who gaze along the years, The finished time of toils and tears, That still in various peace and strife Have gone to make the nation's life, Who backward gaze must own the debt.

We owe our holiest memory yet; For all our best bequeathed, begun, We needs must honor Washington. Still first among our good and great, The grandest name that stars the state.

MARGARET E. SANGSTER.

WASHINGTON'S BIRTHDAY.  
Flags Flying From Vessels in the Harbor.

Washington's birthday was observed by a general flying of flags in the harbor and on the water-front. As eight bells rang this morning the big transport Warren and the little tug Troquais sent up decorations from stem to stern. A few other captains did the same but many needed the reminder of seeing the government vessels in their gay attire, before they realized that a holiday was being observed. One after another they then hoisted flags, some of the sailing vessels making as good a patriotic display as the steamers.

Some of the custom house officers were closed all day, others for only a half day. The stevedore work was not interrupted.

## NEW ADVERTISEMENTS

### WALMEA SUGAR MILL CO.

The books of this company will be closed to transfers from Saturday, February 24th, 1900 to Wednesday, February 28th, 1900, inclusive.

W. A. BOWEN,  
Treasurer Walmea Sugar Mill Co.

### EWA PLANTATION CO.

The books of this company will be closed to transfers from Saturday, February 24th, 1900 to Wednesday, February 28th, 1900, inclusive.

Tel. 184 409 Fort St., Honolulu

## AT KAHULUI AND HILO

ONE MORE CASE IN THE MAUI PORT.

HiLo Reported All Well Last Saturday—The Kahului Case was in the Detention Camp.

Kahului has had one more case of plague. The victim was a Chinaman, in the detention camp. He died on Tuesday of this week and the body has already been cremated. As the man had been in the detention camp since the first outbreak, the case is not regarded as a setback, the disease having been contracted probably before the quarantine was established. Kahului is still in strict quarantine and vessels calling there have no connection with the shore. The steamer Centennial is in the harbor yet.

Up to last Saturday HiLo had had no more trouble. The steamer Claudine, which arrived this morning after visiting Hawaii, Maui and Molokai, was at Mahukona last Friday and Saturday, leaving on Saturday morning. At that time it was reported that there had been no more cases of plague at HiLo. The town was still in quarantine. It is thought by many that HiLo's troubles are about over, as far as plague within her limits is concerned.

The Claudine called at Kaunakakai on the way down and loaded 250 tons of sugar into the bark lola there. The sickness on Molokai continues, but it is said to be less general than it was.

Dr. McGettigan wrote President Wood, of the Board of Health, by today's mail of a case of varioloid at Hana. The case appeared on the 12th and was straightway quarantined, so that no danger is apprehended.

## FIGHTING JOE'S ORDERLY

A VISITOR TO THE TRANSPORT WARREN.

Young Soldier Who Says He Heard Words That are the Subject of a Bitter Controversy.

"General Shafter's compliments, and his orders are to retreat one mile."

"Give General Shafter my compliments and tell him that I won't retreat one inch."

Among the many people who went to the transport Warren this morning to see General Wheeler was one of the latter's soldiers during the Spanish war, who says that he heard the above dialogue on the battle field of San Juan, on the memorable second of July before the surrender of Santiago de Cuba. The young man is private Vincent of the Twentieth Infantry, who was General Wheeler's orderly on the second of July in question. "I was standing behind the general at the time," said Vincent, "and plainly heard the words that were spoken. We did not retreat an inch, and later San Juan Hill was taken by the Twenty-fourth Infantry, colored. If we had retreated we should have been in a most perilous position. General Wheeler was never tried for disobeying orders."

"I was wounded during the fight, having one of my hands nearly shot away. It was about three hours before I got to the hospital. I seemed to me that wounded soldiers had to wait for ambulance till a lot of ladies who were using the hospital wagons for pleasure excursions got through with them."

Vincent went to see General Wheeler this morning to ask that the transport Warren take discharged soldiers from here. The young soldier re-enlisted and went to Manila after the Cuban campaign. There he contracted cerebro-spinal meningitis, being left at Honolulu on the way home, for treatment. He has recovered enough to be out, but not enough to work, and is now held here by the quarantine, with a number of others, discharged and left without resources. Vincent is a wreck compared to his former strength and it will be some time before he regains his physical powers. But for a position he secured for a time as hospital steward he says that he would have been left destitute.

The young soldier is enthusiastic in admiration of General Wheeler. "I would follow that man anywhere," he said, and so would anyone who has ever been under him."

### READY FOR BUSINESS.

Iwakami, Robinson Block, Hotel St., has reopened his place of business. The store has been completely re-fitted and a big stock of new goods has been opened. See Iwakami's announcement in the Star tomorrow.

### ZONOPHONES.

Zonophones are the popular talking machine records never break nor wear out. Cash or installments at The Bergstrom Music Co.

Fine Book and Commercial Printing at the Star Office.

## You're Another

Sufferer from the result of poor repair work. But if you bring your Bicycle, Gun, Typewriter or any article of fine mechanism to us when it needs repairs, and it will be overhauled and put in such shape that it will meet with your thorough satisfaction.

Better still, telephone us 565, and we will send for and deliver without extra charge.

## PANTHER BLOCK OPENING

HEALTH BOARD ACTS ON EACH BUILDING.

Love and Robinson Blocks All Right. Club Stables Saved—Conditions as to Other Places.

The Board of Health this morning went through Block 19, the one in which the Panther block and saloon were located, and acted upon the various houses therein with a view to reopening the district.

It was decided that the Love building might be reopened, after the small houses back of it are disinfected and new floors have been put in. That section of the premises back of the Lum Sing grocery must be taken out. The Club stables are to have new floors and to be placed in a sanitary condition in other ways. All lean-to's back of Ed. A. Williams' undertaking parlors are to come down and the wash rack removed. Uncle Sam's restaurant next door, on the town side, must be removed altogether.

On the hotel street side all lean-to's at the New England bakery and a lodging house will have to come out. Floors in the bakery and candy making establishment must be of concrete or other equally sanitary material. The front section of the store must be thoroughly disinfected. The steam laundry's office may be re-opened after a new floor is put in. Wing Lee's fruit store and the Portuguese barber shop next door may open when all the lean-to's are cleared away and new floors are put in. The Robinson block, occupied by two Japanese merchants and Congdon's wine store may open at will, the premises being in a sanitary condition.

The Gray block on the Ewa side of the lane into Fowler's yard was the subject of considerable discussion. It was decided that the Gray block, when a rat proof fence was placed behind it. The Perry block at the corner of Hotel and Nuuanu will be allowed to open when it is placed in a proper sanitary condition and a fence has been erected back of the building. The back doors Mr. Kelle will be permitted to open his billiard parlors near the corner.

No action was taken with regard to the Mechanics' home and Mr. Damon's school. It is understood that if no other cases appear these premises may be allowed to open with the others, they being in good condition.

## AMERICAN SUGAR CO.

At the special meeting of the stockholders of the American Sugar Company held yesterday, it was decided to cancel the issue of \$500,000 of additional stock made a short time ago, refunding to subscribers what they had paid in on this account. To meet the need of money which this issue of stock was expected to meet, Brewer & Company were requested to make advances to the company to the extent of \$425,000, taking as security a mortgage on the property of the company.

The utmost frankness was indulged in at the meeting in laying before the stockholders the exact situation of the company and the plantation. It was stated that under the ten million gallon pump, the well at Kaunakakai had begun to yield water that was too salt for irrigation purposes, showing that if a very much smaller plantation than his very much planned would be all that could be developed. However further efforts to secure an ample supply of water will be made. A deep well will be sunk at Kaunakakai in the hope that the experience of other places may be repeated, and a supply of fresh water be secured below the present salt water. A deep well will also be sunk at Kewalo. The stock of the American Sugar Company is held in very few hands.

### TWO POSTMORTEMS.

But Both are Ordinary Cases From All Accounts.

Today—Plague deaths; plague cases, 9 suspicious cases, 0.

This is the third clear day in the plague line. The call physicians have had very little to do in any way. Two bodies are at the morgue for post mortem examination, but neither are regarded with any suspicion. The one now being operated upon is a Japanese named Okata, aged 29, from Pearl city. He was a laborer on the railway and had been ill of dysentery since the 15th, working to the 18th. Dr. Cooper saw the man after he was dead. "I have no doubt as to the cause of death," said Dr. Cooper, "but as I did not see the patient until after his death I could not give a certificate. I examined him thoroughly and found no symptoms of plague whatever."

The body at the morgue is a native man named Kahohio, aged 40. He died in a house back of the Chinese cemetery near Punchbowl. This man had been ill for a long time and was recently in the Queen's hospital. He is simply an "unattended" case.

### AN EDITOR'S LIFE SAVED BY CHAMBERLAIN'S COUGH REMEDY.

During the early part of October, 1896, I contracted a bad cold which settled on my lungs and was neglected until I feared that consumption had appeared in an incipient state. I was constantly coughing and trying to expect something which I could not. I became alarmed and after giving the local doctor a trial bought a bottle of Chamberlain's Cough Remedy and the result was immediate improvement. My lungs were restored to their healthy state.—B. S. Edwards, Publisher of The Review, Wyant, Ill. For sale by all dealers and druggists, Benson, Smith & Co., general agents, Hawaiian Islands.

The Only "Hawaiian Scenic Calendar"—the best ever published—just the thing to mail home—beautiful views—elegant work—sweet music—something that will delight those who have only read, but who have never seen the "Paradise of the Pacific." For sale only by The Golden Rule Bazaar.

## SURPRISED HER FRIENDS

MISS CLARK MARRIES HENRY NAHAOLELUA.

Her Friends Have Just Received the Announcement of It—Bishop Willis Performed the Ceremony.

Miss Marguerite Clark was married to Henry St. John Nahaolelua, February 19, Bishop Willis officiating.

The announcement of this marriage which had just been made came as a decided surprise to the bride's friends, who, even her most intimate friends, were entirely without previous intimation of it. The bride has been for two or three years past a trained nurse at the Queen's Hospital where she had won the highest admiration of the hospital authorities and the attending physicians and surgeons. She is a graduate of the training school for nurses connected with the Children's Hospital in San Francisco. Previous to coming to the Queen's Hospital she had followed her profession for several years in San Francisco and other parts of California. Miss Clark resigned from the hospital February 1, but gave no reason for it, and it was assumed that it was to take one of several other excellent situations she had been offered and had had under consideration. She has two brothers, one a physician, the other a lawyer, living in Kansas City.

The groom is the son of an adopted son of Governor Nahaolelua, one of the early governors of Maui. His mother, Mrs. Kia Nahaolelua, was the companion of Liliuokalani when the latter went to Washington in 1896, her first trip abroad after the overthrow.

Mr. and Mrs. Nahaolelua are living at Waikiki.

### NEW ROAD SUPERVISOR.

Something of Man Who Will Look after Honolulu's Streets.

Marston Campbell, superintendent for Cotton Bros. & Company in wharf building for the United States government, has been appointed road supervisor to succeed John Ouderkirck, resigned.

The new man was apprenticed a carpenter and educated as a civil engineer. He served five years as engineer in the State Board Harbor Commissioners of California and for two years was deputy city engineer of Oakland in charge of the street department. Minister Young says he is thoroughly conversant with bridge construction, road making, sewer and sanitary work in general. In fact it is felt that the department is particularly fortunate in securing his services.

Mr. Campbell will send for his family and will make Honolulu his permanent home.

### ON THE WARREN.

Passengers From Manila for the States.

The transport Warren, Captain Hart arrived yesterday from the Philippines and Guam. Since she was here last time, taking a colored regiment to the Philippines, the Warren has been to Hongkong and other parts of Luzon and to Hongkong and Guam. She has on board in addition to General Wheeler the following passengers: Miss Wheeler, Miss Davis, Lieutenant-Commander Briggs, U. S. N., formerly of the Baltimore and Glasgow, Captain Ben Johnson, quartermaster; Lieutenant R. E. Enslow, 11th Cavalry, (wounded); W. J. Rodie, General Wheeler's interpreter; S. H. Garrett, clerk; J. P. Morgan, clerk; Wm. Bengough, artist; Harper Weekly, 10 discharged soldiers. Parker F. M. Bucklin of the Warren has many friends here and regrets that he cannot get ashore to see them.

### LEHUA SAILORS.

The five deck hands from the Lehua who were charged with changing their residence without a permit, were discharged by Judge Wilcox this morning. He held that the published regulations of the Board of Health did not cover their case. They were deck hands on a steamer whose owners kept her from touching at an infected port. While at anchor in quarantine the Lehua was not in any sanitary district. Those aboard her had a right to come ashore and in doing so did not change their residence from one sanitary district to another.

### THE ORPHEUM.

The good judgement of the Orpheum's management in eliminating all objectionable turns from the program in showing itself in the return of the better classes of the community to the front seats.

The program this week presents besides its vanduvile features, dramatic work of a high order of merit. The farce "Hector" with its amusing complications is exceedingly well handled and goes with the real farcical spirit while the dramatic sketch "The end of it all" with its sensational ending produces excellent work from Mr. Rockwell and Mr. Dunn. It is a trifle gruesome for a closing piece however and would be placed to better advantage higher up the program. Antonio Pirri, the balancer, has changed his act. Richard Gale in natty male attire, the Richards in chocolate colored makeup and Rogers all continue to please. Miss Laura Oakley who has made quite a favorite of herself introduces some new descriptive ballads this evening. The rights of John Dillon's well known piece "A Cheerful Liar" have been secured for Honolulu and the bill is under preparation for next week.

### ABOUT THE SAME COST.

Everything a man needs to supply his burned laundry can be obtained of L. B. Kerr & Co., Ltd. at a little more than the cost of a wash bill.

### HAS FEW EQUALS.

For light running, easy adjustments, and good work the Singer Sewing machine has few equals and no superiors—B. Bergersen, agent, Bethel street.

Hanan creates the style and leave others to follow.

### MISERABLE SHOE STORE.

Fine Book and Commercial Printing at the Star Office.

## GUAM AND PHILIPPINES

GENERAL WHEELER ON HIS TRAVELS.

His Opinion of the Filipinos Very Favorable to Them—Guam and the Hawaiian Islands.

General Wheeler, Congressman-elect, received many visitors today at the transport Warren, though none of the callers were allowed to go on board.

The General stood on the gangway and talked with Colonel Ruhlen, Captain Pond of the Iroquois and others. He was anxious to make a visit to Honolulu, the quarantine that keeps him on the vessel is a disappointment to the general, as well as to many on shore. Whether it is of any use is an open question, to say the least. Workmen from shore have been on board to look at the machinery that needs greasing and others will go on board to handle coal. Under these circumstances it is thought that the officers on board might come ashore without adding any danger to the situation. The general looks at the slightest difference in the quarantine at San Francisco. General Wheeler gave the following account of his travels and opinion of the Philippines, Guam and Hawaii:

Few episodes of my life have left so pleasant a recollection as my visit to Honolulu last July. The more than generous hospitality of the people and the delightful climate and surroundings were most charming.

One must visit the islands of the Pacific to fully understand their character. The climate of all which I have visited is most healthful and pleasant, but that of Honolulu has advantages I have not seen elsewhere. Some parts of the Philippines are very similar to the months of rainy season which you escape is a feature which no doubt is appreciated by the people of Honolulu.

But our possessions on the farther side of the Pacific have a great variety in both altitude and latitude. The distance from the extreme north to the extreme south of the Philippine Islands is greater than the distance from Chicago on Lake Michigan to New Orleans or to cities on the Gulf of Mexico, and the altitude of some of its tablelands is such that together with changes in latitude, much variety is given in both climate and production. In many parts of Luzon, especially on the foot-hills, the climate is as bracing as at some of the mountain health resorts of the United States, and we find rice, sugar, coffee, cotton, tobacco and corn growing within the space of but a few miles.

I was much pleased with the Filipino people: they are intelligent, courteous and kind. They are not disposed to stand the efforts of insurgent leaders, and they are very devoted to our rule as the only possible escape from impending evil, but not withstanding the efforts of insurgent leaders they were only able to get a foreunder arms equal to about one-sixth of one per cent of the population. I found that when they learned the real character and purposes of Americans they seemed well reconciled to our government, and I firmly believe that after the establishment of a good and wise civil administration of affairs, an era of great prosperity will bless the people of the Archipelago. I do not think it correct to say that the Filipinos are indolent. It seems to me that they exhibit rather more disposition to work than is usual in tropical climate. This is especially true of the women, who impressed me very favorably. They labor in the fields, in all affairs of the household, and they are very devoted to their children, their husbands, their parents and all their relations. Their families are large and as you pass houses you often see from six to twelve children peeping out of the front windows, and from careful inquiry I learned that 8 or 9 children to the family is about the average.

I had a very interesting visit to Guam. It is a beautiful island about 29 miles long and from three and a half to ten miles in width. I rode over a great deal of it, traversing its length and crossing it three times. I visited all the towns and was much pleased with the people. Their hospitality and apparent desire to express good feeling toward Americans was very gratifying. The harbor San Luis D'Apra is very good and can be improved by a moderate expenditure. The climate is very much like that of Honolulu, except that it really has no dry season, the part of the year of least rain having gentle trade wind showers nearly every day, and often several such showers during the day.

Taking all in all, you have the best spot in this great ocean. As the Nicaragua Canal is now an assured fact, the commercial importance of the Hawaiian Islands can hardly be estimated. The only regret is that there are not more of them, and to the good kind people we have met we especially regret that there are not more like you.

### SMALL FIRE AT NOON.

At exactly 12 o'clock noon the fire department had a run to the corner of Punchbowl and Vineyard streets, near the Queen's hospital. The fire was in the cottage of Louis Adler in the point between the two streets mentioned almost directly in front of the Portuguese church. It caught in one of the rooms, which was pretty well burned out, but there the blaze was checked.

### SURPRISINGLY LOW PRICES.

A very complete line of Gents' furnishings goods, and the very latest styles can be secured at L. B. Kerr & Co., Ltd. at prices that are surprisingly low.

### AT THE OLD STAND.

General blacksmithing and carriage repairing business in all branches at the old stand, Fort street, W. W. Wright.

FOR CAMARINOS' REFRIGERATOR. Per B. S. Australia—Peaches, Grapes, Oranges, Lemons, Limes, Celery, Cauliflower, Cabbage, Pears, Plums, Fresh Salmon, Flounders, Halibut, Crabs, Eastern and California Oysters (in Tin and Shell), all Game in Season, Turkeys, Chickens, New crop of Nuts and Dried Fruits, Onions, Burbank Potatoes, Swiss, Parmesan, Rockfort, New Zealand and California Cream Cheese, Olives. All kinds of Dried Fruits.

## NUUANU STREET AWAKENS

THE OLD LIFE COMES BACK TO THE THOROUGHFARE.

Merchants are Opening Their Stores. The Hum of the Sewing Machine is Heard—Trade Re-Enters.

Nuuanu street is reawakening. From the death and desolation of quarantine it is rising to the life and activity of buying and selling and getting gain. It was only yesterday that the street was opened to traffic and the stores and shops and bazaars to the merchants and their customers. But already there is a good deal of the picturesque bustle that made it a sight for strangers and tourists in the days before the plague germ came.

From the Love Bakery building maul and on all the cross streets from Hotel toward the water front as far into old Chinatown as Smith street most of the buildings are open and doing business. There is as yet a good deal of the air of newness about it. Merchants are busier getting in goods and putting them on their shelves, than in passing them over the counters tied up in parcels to customers. There are more loaded trucks in the streets than purchasers passing through them. But business has been resumed at the old stand.

The hum of the sewing machine is heard in the re-opened Chinese tailor and dress-making shops. G. Dietz is back at his lathe and bench working as industriously over which the settings have become loose, as ever he did in the years before quarantine. Goo Kim has opened up "with an entirely new stock of goods," as the advertisements read. All the saloons in the quarantined district have reopened with brightly burnished bar trimmings and a fresh luster to the glass ware on the sideboard.

There is a spirit of hopefulness among the merchants, a rejoicing that at last they can at least offer their wares for sale. There is spring time air in the whole district.

### NEW OFFICERS.

W. C. Parke, P. A. D. G. S. assistant, by Sister S. Williams, P. G. as Grand Marshal, Sister Clara Petrie, P. G. as Grand Warden, Sister Alice Horlick, P. G. as Grand Secretary, Sister Carrie Riley as Grand Treasurer and Brother Loring, P. G. as Inside Guard installed the following officers in Olive Branch Rebekah Lodge No. 2, I. O. O. F. last night.

Noble Grand, Sister Lizzie Gurney; Vice Grand, Sister Mae Weir; Secretary, Brother James Bicknell; Treasurer, Sister Anna L. King; Warden, Sister Clara Gurney; Conductor, Sister Carrie Riley; Inside Guard, Brother G. W. R. King; R. S. N. G., Brother C. S. Crane; L. S. N. G., Sister Jean McDonald; R. S. V. G., Sister Jones; L. S. V. G., Sister Margaret McCriston; Chaplain, Sister Ella G. Munson.

### A ROAD ACCIDENT.

Wheel and Buggy Smashed up as Result of a Collision.

Dark streets caused a bad accident near the corner of Punchbowl and Bereania last night. A young man named Anderson, on a wheel collided in the middle of the road with a buggy in which were three National Guard soldiers. Anderson was thrown under the rig, badly bruised and narrowly escaped with his life. His wheel was smashed to pieces. The horse ran away the soldiers were thrown out and the rig landed between two trees on Bereania street near Punchbowl. Anderson's account of the accident is that the rig had but one light and, on the dark road he thought it to be a bicycle.

The rig came from the Honolulu stables. The soldiers attempted to take Anderson down there by force and make him pay damages, but witnesses of the affair intervened and rescued the wheelman.

### HIS EXPENSIVE GUN.

Buchanan, a Board of Health guard was fined \$20 and costs by Judge Wilcox this morning for carrying a concealed weapon. He was riding a bicycle last night and was passed on the road by some mounted police. As soon as they passed him they heard a shot fired. Believing he fired it they turned back and he tried to escape. They caught him and found the revolver on his person.

Right up to date is the

Schr. Lady, from Oahu ports.

**DEPARTING.**

Wednesday, February 21.  
Sp. John McDonald, Storer, for Hilo in ballast, from anchorage outside.  
Schr. Malolo, Lyle, for wreck of the William Carson.  
Stmr. Upolu, Dalton, for Hawaii ports.

Thursday, February 22.  
Stmr. W. G. Hall, Thompson, for Nawiliwili, Koloa, Elele and Hanalei, 3 p. m.  
Saturday, February 24.  
Stmr. Claudine, Macdonald, for Lahaina, Kahului, Nahiku, Hana, Hamoa and Kipahulu, 5 p. m.

**MAKAWELL.**

Arrived, February 20, Stmr. Charles Nelson, from San Francisco February 12; general merchandise.

**MEMORANDA.**

The schooner Malolo brought its second load of coal from the wreck of the William Carson yesterday and is now at work again, getting more out of the hold of the vessel, which is rising out of the water.

The ship Poseidon will leave for the Sound in ballast at the end of the week.  
The transport Warren will probably be in port for two or three days. Her machinery needs some repairs and she will take about five hundred tons of coal. She is at the Pacific Mail wharf.

**STABLES IN QUARANTINE**

BOARD OF HEALTH TAKES ONE STEP.

Will Now Seek to Establish Source of Infection and Will Act Later—Opinions of Members.

The Hotel stables were placed in regular quarantine yesterday afternoon, pending further investigation into the case of Ah Hung, the Chinaman who went from there into Paoa valley and died Monday evening at the pest house. The guards took charge of stables and offices and are instructed not to allow anything to leave the premises.

Most of the time of the Board of Health at its afternoon session was devoted to discussion of what should be done with the stable. Dr. Wood stated the particulars of the two plague cases traceable to those premises, was questioned by various members regarding the Japanese and the Chinaman. It appears that the Japanese had actually slept on the premises while the Chinaman had not. Both men worked in the stables. Following the death of the Japanese his bedding was destroyed and the room whitewashed. This man left the stables on January 29 and died two days later.

Mr. Hatch contended that the evidence failed to show infection of the premises. In fact circumstances rather pointed to an outside source.

Dr. Wood agreed with this idea, as regards the two men but said that the point was whether or not the premises had become infected by the two cases. Continuing Dr. Wood said that evidence showed that the Hotel stables Chinaman and the men from near the Walkiki turn contracted the disease through the stomach or lungs, either by eating or breathing the bacilli.

Dr. Emerson did not believe the stables were a seat of infection and if they were properly cleaned and disinfected there would be no danger. The case of the Pantheon was entirely different.

George W. Smith thought that the evidence showed the stables to be infected.

It was suggested that before action was taken the home of the Chinaman in Kakaako should be discovered, as the source of infection might there be discovered.

Dr. Wood replied that the stable owners were to be considered. They wanted action of some sort taken at once. The Board should act on the evidence before it.

Dr. Day said that the strongest suspicion rested upon the premises and until the matter was cleared up the stables should be placed and kept in strict quarantine. This was put as a motion and carried unanimously.

During this long discussion Dr. Wood drew attention to the condition of all stables in the town center and said that they should be moved further out. They were set directly upon the ground and the earth beneath them was saturated with filth. It was next to impossible to keep them in a sanitary condition and they were a constant menace to health.

**TYPHOID FEVER.**

Cases Reported Along the Water Front.

A number of cases of typhoid fever are reported along the water front. They are attributed by many to the filth that is dumped into the harbor, which makes the air foul whenever the tide goes down. All over the harbor there is refuse floating about and at some places there are four cesspools that require attention. At the end of the new addition to the Pacific Mail wharf an open sewer discharges its contents into the water, above the level of low tide and at a point that is never well covered by water. At low tide this is a very ill-smelling fact as we have been able to learn. It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it liquefies the tough mucus, making it easier to expectorate, and lessens the severity and frequency of the paroxysms of coughing, thus depriving that disease of all dangerous consequences. For sale by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Islands.

**FOR THE BABIES.**

There is no better medicine for the babies than Chamberlain's Cough Remedy. Its pleasant taste and prompt and effectual cures make it a favorite with mothers and small children. It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It also cures croup and has been used in tens of thousands of cases without a single failure so far as we have been able to learn. It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it liquefies the tough mucus, making it easier to expectorate, and lessens the severity and frequency of the paroxysms of coughing, thus depriving that disease of all dangerous consequences. For sale by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Islands.

**SOCIAL PRECEDENCE ROW**  
 A QUESTION OF SEATING AT  
 TABLE.

Speaker Henderson Claims Precedence  
 Over Senator Frye, President of the  
 Senate—Chinese Minister's Acumen.

WASHINGTON, February 5.—The  
 controversy among the ambassadors  
 over rank and precedence begins to be  
 contagious, for Speaker Henderson has  
 asserted his social prerogatives and de-  
 mands the second place at the presi-  
 dent's table and the seat of honor at  
 all other social functions. It should be  
 said at the beginning that Col. Hender-  
 son does this, not from personal pride,  
 for he believes with other Scotchmen  
 that wherever McGregor sits is always  
 the head of the table, but he feels it his  
 duty to defend and vindicate the office  
 to which he has been elected. It came  
 about in this way:

When President McKinley gave a  
 state dinner in honor of the cabinet the  
 other day, he placed Mrs. Frye, the  
 wife of the president pro tem, of the  
 senate, in the place of honor, and Mr.  
 Frye was asked to escort Mrs. McKin-  
 ley to the table. Speaker Henderson  
 escorted Mrs. Hay and had the second  
 place, while Secretary Hay escorted  
 Mrs. Henderson. This arrangement  
 was made after a cabinet consultation  
 and upon the recommendation of Sec-  
 retary Hay, who waived his own claims  
 to precedence, which most people be-  
 lieve are stronger than those of either  
 Mr. Frye or Mr. Henderson. Col. Hender-  
 son made no objection to the seat-  
 ing arrangements at the time, but im-  
 mediately after the dinner sent a friend  
 to the president to explain the social  
 status, which he claimed, not for him-  
 self personally, but for the office he  
 holds, and expressed the hope that here-  
 after he might be given the seat to  
 which his rank entitled him.

Shortly after Mr. and Mrs. Frye and  
 Mr. and Mrs. Henderson were invited  
 to dine with Senator Elkins, and the  
 latter, learning of the incident, consult-  
 ed the president of the senate about  
 the arrangement of the table. Mr.  
 Frye insisted that by virtue of his office  
 he should have the first place. Mr. El-  
 kins then went to Col. Henderson, who  
 insisted that he should have the first  
 place, but, rather than embarrass his  
 host, withdrew his acceptance to the  
 dinner.

The next occasion was at a dinner  
 given by the Chinese minister, who  
 solved the problem very much as Solo-  
 mon decided the baby case, by splitting  
 the difference. He, as the host, took  
 Mrs. Frye to the table and placed her  
 upon his right hand, while he asked  
 Col. Henderson to escort his wife. Thus  
 the Speaker of the house sat upon the  
 right of the hostess and the president  
 of the senate upon her left, while the  
 wife of the president of the senate sat  
 at the right of the host and the wife  
 of the speaker at his left.

President McKinley has declined to  
 decide this question and the officials in  
 charge of the functions at the white  
 house will simply evade it by arrang-  
 ing that Mr. Frye and Mr. and Mrs.  
 Henderson shall not be in-  
 vited at the same time hereafter, but  
 nevertheless it will continue to be an  
 irritating question as long as these dis-  
 tinguished people are brought together,  
 as must be the case on social and  
 ceremonial occasions.

The law seems perfectly clear, pro-  
 vided that the social status of the par-  
 ties in question is the same as their  
 official rank, and if the order of suc-  
 cession to the presidency as fixed by  
 congress is to be accepted both Mr. and  
 Mrs. Frye and Col. and Mrs. Hender-  
 son follow instead of precede all of the  
 members of the cabinet except the sec-  
 retary of agriculture, who was not a  
 member of the cabinet when the law  
 of succession was enacted. Formerly  
 the order was different. Section 146 of  
 the revised statutes, passed in 1782,  
 provides that "in case of removal,  
 death, resignation or inability of both  
 the president and vice-president of the  
 United States the president pro tem-  
 pore of the senate—or, if there is none,  
 then the speaker of the house of rep-  
 resentatives—shall act as president un-  
 til the disability of the president is re-  
 moved or a president is elected."

As long as this statute was in force  
 the president pro tem of the senate  
 ranked the speaker of the house. Hence  
 Col. Henderson's claim to official pri-  
 ority cannot rest upon that law. But  
 in 1886 it was repealed and both the  
 president of the senate and the speaker  
 of the house were dropped from the  
 presidential succession. By an act ap-  
 proved on January 19, 1888, the sec-  
 retary of state was made the lineal suc-  
 cessor to the presidency after the vice-  
 president, and in case there should be  
 no secretary of state the secretary of  
 the treasury, the secretary of war, the  
 attorney-general, the postmaster-gen-  
 eral, the secretary of the navy and the  
 secretary of the interior inherit the  
 presidential office in the order named,  
 which is the chronological order of the  
 establishment of the departments over  
 which they preside.

A special invitation to everybody to visit Honolulu's most delict-  
 ful residence site, PACIFIC HEIGHTS.

**Via Maxima.**

Kaialani Drive—aptly termed, the via Maxima or Grand Boule-  
 vard, and in itself an artistic piece of engineering—affords easy access  
 to all points, as also scenic and marine views of exquisite grandeur at  
 every turn.

**Electric Railway.**

Contracts have been let for material, and the work of construction  
 equipping and installation placed in the hands of a competent electrical  
 engineer to be fully completed by June 1st. Having an independent  
 power plant we are prepared to furnish electric power for lighting,  
 heating and other purposes, to our home builders at most reasonable  
 rates.

**As Promised.**

Our reservoirs are now completed and water mains laid so as to  
 supply each lot. Permits for making water connections will be granted  
 on application.

An inspection of the attractive homes now building, or the name  
 of purchaser of lots, will convince anyone that PACIFIC HEIGHTS  
 is the choicest and most select of all the residence sites of Honolulu.

## AN ANNIVERSARY.

Today is the celebration of the anniversary of the birth of Washington, and the government offices honor the day, as is proper. Among the great characters of history Washington shines out with especial luster. His cause was a good one, but other men have had good causes. His abilities were great, others have had great abilities. His industry, courage and determination were phenomenal, but others have had these attributes. To the mind looking over the past Washington shines by all these, but he has the greater glory in his absolutely stainless record and his abnegation of self.

Perhaps it is the latter quality which really makes him tower above all others. Cromwell was great. Cromwell had a noble cause, and to Cromwell the British nation and its greater offshoots owe a deep debt. Cromwell had all the attributes of great ability, ceaseless industry, courage and determination, but he had not the self abnegation of Washington. He had an unbounded ambition, and "self" was to a certain extent a keynote in his character.

There is no grander scene in history than that when Washington took leave of his generals. Compare it with the theatrical one of Napoleon taking leave of his marshals. What dignity and grandeur in the one, what tawdriness and sentimentality in the other.

The American people can look with pride upon the "Father of the Republic" because he was above all things a man. His life is an example to all future generations of his countrymen. It was pitched at a high ideal, in a time when cultivated ideals were low. It stands today as on a higher ideal than even the improved ideals of our own time. Washington was a statesman, a general, but above all this Washington stands for all time as the ideal of a MAN.

The opening of the schools until we are entirely free from plague is to be deprecated. The intimate mingling of children in the school rooms and the fact that the schools are not districted but come from all parts of the city and from all kinds of homes, some sanitary and some insanitary should be quite enough to decide the Board of Education to listen to the suggestions of the citizens sanitary committee.

## CONTRASTS.

Why Bombay has plague was graphically described by G. W. Stevens, the war correspondent who recently died in Ladysmith. It appears in his last book "In India" which was the result of his visit to that country as a correspondent to describe the reception of Lord Curzon as Governor-General of India. Mr. Stevens' writing of the slums of Bombay said:

"The huge houses, with their ranks of windows, their worn plaster, and scratched, rickety shutters, have slum written all over them in a universal language. On stamped earth floors, between bare walls, by the dimness of one tiny window, you see shapes squatting like monkeys. They stir, lithe but always languid, and presently you see that they are human. Babies, naked children, young women and youths, mothers and fathers, shriveled grandmothers and granddaughters—whole families stifle together in the thick darkness, breed, and take in lodgers. In the room, where there is hardly space to move, they sleep, and work at trades, and cook their food with pungent cakes of cow-dung. Because January is cold to their bare limbs, they shut doors and windows, to fester worse. The lower rooms are worn down beneath the level of the street and of the drains; the upper are holes beneath the sloping roof, where a man can not stand upright. On the stories between these are dens lighted only from the dark corridor. You look into them, and at first see no more than a feeble wick fluttering in a night-glass; then moist eyes shine at you out of the darkness, and again two, four, six, ten men and women are sitting motionless against the wall. They neither speak nor stir—just sit and ripen for pestilence. On the door-jamb of this house are a dozen red marks—dates with a line round them, in some semicircular, in others a complete circle. Each means a case of plague—the full circle a death, the halves a removal to hospital. For your own part you wonder that anybody in the poisonous air is left alive."

This is a very noisome picture indeed. But we had cases in our Chinatown which were almost as bad. The official description of a butcher's shop in Chinatown with its stifling atmosphere, its open cesspool reeking with filth, and its masses of flies which would rise from the cesspool and settle on the meat, and then be driven off to batten on the rotting and foetid mess within the cesspool, only to return to the meat again was as foul a picture as was ever penned, and the effect of it was heightened by its appearing in a calmly thought out official report.

The difference between Bombay and Honolulu, however, is great. There apparently they are willing to have the plague go on, merely marking with a red ring on the door jamb the number of deaths.

With such a system it is no wonder

that plague continues. In Honolulu on the other hand when a case of plague occurs we carefully burn down the premises where the disease has broken out, whether the patient dies or not, and have also burned premises where the stricken person may have been in. The Chinese store at the corner of Punchbowl had no case of plague in it, but Mrs. Franz bought goods there, and Mrs. Franz took the plague, so the store was burned. This was an understood policy. It has worked well, and by means of it the plague has been nearly beaten.

But apparently the Board is about to change its tactics and adopt the Bombay plan of letting a building from which plague stricken people have been taken remain. It should adopt the plan in toto and mark the door jambs of the Hotel stables with two red rings so that every one may know that two fatal cases of plague have been removed from there. That would be a consistent following out of the Bombay policy and an acknowledgment that in future, when plague cases occurred, it would no longer be necessary to burn the buildings, but a policy of burning would only be adopted when the building affected did not belong to people having a "pull" or an apparent pull.

Certainly, in dealing with the Hotel stables, the Board of Health is not acting consistently. It is distinctly going against its avowed policy of the place being more dangerous than the individual. Both men, who have had plague in the Hotel stables, worked there for long hours, and it is not to be believed that they did not contaminate it with excretions of some kind. There is the danger then from rats, as well as from contaminated cesspools and so forth. The city will loyally support the Board of Health but the Board must not lose its backbone.

The opening of Nuuanu street throughout its entire length is a great boon to people living in the upper part of the Valley, the Fort street system of cars was very unsatisfactory.

## RAT CRUSADE.

Because the poison issued by the citizens sanitary committee proved a failure, there is no reason why there should be any let up upon the rat crusade. The danger from rats is just as great as ever, and we never shall be safe from plague until we have exterminated the rodents. Poison is a good method, if you get effective poison, but poison will not do the work entirely even if the best is employed.

What is needed is a systematic trapping such as was undertaken in Colombo, Copenhagen and Kobe. In Colombo the city was districted, traps were bought and men appointed to do the work of rat catching. Something of the same kind should be done here. We have a considerable number of unemployed men in the relief camps, why not put them to work rat catching. With some one to oversee them and a bounty on each rat, the South Sea Islanders, Japanese and others in the camps might very easily earn good wages and be doing something towards the general good of the city which is now supporting them and giving them shelter.

In other places when men cannot get work and ask for relief, from the public, they have to give an equivalent in work. We do not follow that plan here as carefully as we should. But here is a light employment which would be advantageous to the community. The American Sugar Company regarded the deer on Molokai as vermin and forthwith paid men a small wage, with a bounty of the skin of all animals killed. Those men have made money. There is no reason why a rat catcher at fifteen cents a head or even at ten cents a head should not make on an average from \$1.50 to \$2.00 a day, and it is quite possible he might make more. There would be of course a considerable expenditure for the bounty but we can afford a good deal if we get rid of rats and idlers at one and the same time.

## THE BRIGHT SIDE OF LIFE.

It is a feeling common to the majority of us that we do not get quite the amount of happiness we are entitled to in this world. Among the countless things which tend to make us more or less miserable ill health takes first place. Hannah More said that sin was generally to be attributed to biliousness. No doubt a crippled liver with the resulting impure blood, is the cause of more mental gloom than any other single thing. A chronic dyspeptic, says an eminent English physician, is always on the verge of a mental upset. And who can reckon up the fearful aggregate of pain and fear persons thus afflicted have suffered. You can see these people everywhere. For them life can scarcely be said to have any "bright side" at all. Hence the eagerness with which they search for relief and cure. Remedies like

## WAMPOLE'S PREPARATION

have not attained their high position in the confidence of the people by bold assertions and boasting advertisements. They are obliged to win it by doing actually what is claimed for them. That this remedy deserves its reputation is conceded. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites, Extracts of Malt and Wild Cherry. Nothing has such a record of success in Fevers, Rheumatism, Scrofula, Lung Troubles, all emaciating complaints and disorders, that tend to undermine the foundations of strength and vigor. Its use helps to show life's brighter side. Genuine only is effective from the first dose. "You cannot be disappointed in it." Sold by chemists everywhere.

### REMOVAL NOTICE!

On and after February 1st the Union Express Co. will have their office with the Evening Bulletin, on King street next to Chas. Hustace grocery.

### For Sale

Forty acres, more or less, Kala, Waikiki, a frontage on the beach of 1550 feet. For particulars apply at Room 4, Love Building.

### NOTICE OF ASSESSMENT.

Notice is hereby given that the eighth assessment of ten (10) per cent on the capital stock of the Honolulu Rapid Transit and Land Company, will be due and payable to J. H. Fisher, Treasurer, at 411 Fort street (upstairs), Honolulu, on the 1st day of February inst. The shares upon which and assessment may remain unpaid after thirty days from said date, will be declared delinquent.

J. A. GILMAN,  
Secretary H. R. T. & L. Co.  
Honolulu, February 1, 1900.

### BY AUTHORITY

Honolulu, Feb. 14, 1900.

The Board of Health hereby requests that the public of Honolulu carry out the suggestions of the Citizens' Sanitary Committee in regard to the poisoning of rats and the subsequent disposition of the same.

The Board further suggests that the poison shall be placed in suitable localities each night for one week, beginning Saturday night, February 17th. By order of

HENRY E. COOPER,  
Acting President Board of Health.

### NOTICE TO SHIPPERS.

In the matter of disinfection or fumigation of freight, shippers will make no distinction between that destined for points on the Island of Oahu and that destined to points on other islands.

The original cases must be opened and the straw or loose paper wrapper removed from each bottle or tin, each bottle or tin is then to be dipped in an approved disinfecting solution; the interior of the original case is then to be washed out with disinfectant; in re-packing the already disinfected bottle or tin no wrapper may be used unless same has first been fumigated or disinfected; the filled case is to be closed up and the entire exterior is to be disinfected.

In cases where the tinned or bottled goods have no loose paper or straw wrapping, or where they are not packed in saw dust or any similar substance the entire original package, after two or more large openings have been made in it, may be dipped in a disinfecting solution; but great care must be exercised to ensure the thorough disinfection of each tin or bottle and the whole interior of the original package as well as the whole exterior surface of such original package.

Shippers having the interests of the entire island community at heart will exercise very cheerfully every precaution and assist rather than impede the efforts of the Board of Health in preventing a further spread of bubonic plague in these Hawaiian Islands.

Willful infringement or careless disregard of these or other regulations of the Board of Health on the part of shippers will be followed by the immediate withdrawal of privilege of shipment of any goods whatever by those engaging in such infringement or carelessness.

## SENATE AND HOUSE TANGLE

UPPER HOUSE MEMBERS HAVE A CONFAB.

Lower Body is Organized Under Local Constitution, But Upper is Not—New Technicality Arises.

Senators Henry Waterhouse, John N. Wright and J. A. McCandless met at the office of the first named yesterday afternoon to discuss what should be done in the matter of a Senate session. It was considered too late to begin and that the situation was so complicated that only a call of President McKinley could straighten it out. The meeting informally adjourned without action further than this.

During the afternoon, preceding this meeting, Attorney-General Cooper communicated by telephone with President Wilder of the Senate and Senator Waterhouse, expressing the view that the body should meet in some manner and adjourn. Mr. Wilder replied that he had no authority to call the Senate together and would not attempt to do so until instructed by President McKinley.

The action of the House in meeting has been commented upon in various ways about town, but the consensus of opinion seems to be that the stand of Speaker Kauuloku was correct. It is agreed that the Constitution has been complied with and that the House is now in session on proper lines. Any technicality in this regard has been removed. It only remains now for the sergeant-at-arms to notify country members that the House is in session according to law and their presence is required.

On the other hand the Senate has not met in accordance with the Constitution and can not adjourn from day to day as the House is doing. Who is going to fix a new date for the assembling of the Senate? Suppose President McKinley's instructions are to meet as prescribed by the Hawaiian Constitution, which is not unlikely to be the case?

These are questions much discussed at present. Senator Waterhouse thinks the situation is so tangled that the President will have quite a time straightening it out. Senator McCandless wonders why the Hawaiian Executive did not present the matter before.

### THE FLOWER SOCIETY.

Annual Meeting and Report of a Beautiful Work.

The annual meeting of the Hospital Flower society was held in the Y. M. C. A. parlors yesterday afternoon. The President Mrs. Swanzy occupied the chair. The secretary Mrs. George R. Carter being absent the treasurer read her report.

The society has done more in the past year than ever before. The committee reported that an excellent arrangement had been made to carry out the project of a garden on the slopes of Punchbowl, and the land granted to the society by the Hawaiian Government. But the disappointment was great when it was announced that the land reserved by the U. S. Government for the Marine Hospital included the two acres set apart for the Flower Society, and the project is at a stand still until word comes from Washington.

Flowers were distributed on every Wednesday morning at the Queen's hospital. At Easter, Thanksgiving and Christmas to the sick in the city, as well as on other occasions. On Christmas also sixty bouquets were sent to the soldiers at Buena Vista Hospital. The flowers were always received with appreciation.

A vote of thanks was tendered to the following ladies, who have distributed the flowers for the year: Mrs. T. R. Walker, Mrs. Clive Davies, Mrs. Frank Brown, Mrs. A. Brown, Mrs. J. G. Spencer, Mrs. E. R. Adams, Mrs. G. W. R. King, Mrs. Herrick, Mrs. Galt, Mrs. Bowen, Miss Pinder, Miss Wier, Miss Jordan, Miss Stapleton, Miss Morse, the city nurses, Captain Mills of the Salvation Army and Mrs. George R. Carter who has also acted as secretary in the absence of Mrs. Du Roi. A vote of thanks was also tendered to generous friends who had contributed money and flowers through the year. Regret was expressed at the continued absence of Miss Lewers the secretary.

The re-election of officers resulted in the re-electing of Mrs. Swanzy, president; Mrs. A. F. Judd Jr., vice president; Miss H. E. L. Castle, secretary; and Miss Von Holt, treasurer.

Members and friends of the society may send flowers to the Hospital every Wednesday morning by nine o'clock for distribution by the ladies of the committee.

### AT CENTRAL UNION.

Friday afternoon at 3 Miss Yarrow will meet the children in the church parlor for a meeting of their own, in which one feature will be instruction in the meaning of the Christian life. A large number from ten years upward have already planned to be present.

## BY AUTHORITY

NOTICE TO SHIP AGENTS AND MASTERS OF VESSELS.

HAWAIIAN SODA WORKS.

## Commissioner's Sale of Real and Personal PROPERTY.

Pursuant to an order made by Honorable A. Perry, First Judge of the Circuit Court of the First Judicial Circuit, filed the 21st day of January, A. D. 1900, I am directed to sell at public auction, subject to confirmation by the Circuit court,

ON SATURDAY, MARCH 3, A. D. 1900, At 12 o'clock noon of that day, all the right, title and interest of Genevieve Dowsett, Marion C. Dowsett, being an undivided one-twelfth interest each of said minors, and also the one-twelfth interest of Madeline C. K. Dowsett and Anne H. K. Dowsett, minors, in estate of James I. Dowsett deceased, in and to all those certain pieces and parcels of land situate on the Island of Oahu, Maui, Hawaii and Molokai, and more particularly described as follows:

1. The land situated in Nuuanu Valley, Island of Oahu, described in deed from John H. Wood to the Honolulu Dairy Company, dated April 20th, 1892, and recorded in the Registry of Conveyances in Honolulu in Liber 136 at pages 174 to 177, containing an area of 271 acres, more or less.

2. The land situated at Kapalama, in Honolulu, Island of Oahu, known as the Akopo lot, being a part of Royal Patent No. 5572, and described in deed made by Kahea and J. W. Akopo to James I. Dowsett, dated the 3rd day of February, 1892, and recorded in Liber 73 on pages 210 to 212. Containing an area of 1.13 acres.

3. The land situated at Apua, in Honolulu, described in deed from A. Francis Judd to David Kahanu, dated March 21st, 1870, recorded in Liber 29 on pages 424 and 425, and the land described in the deed from John O. Dominis and E. Mahial, Administrators of the estate of Josta Kaaukai, to David Kahanu, dated June 7th, 1866, and recorded in Liber 31 on pages 315 and 316, and in a deed from Kahanu and Keohokil, her husband, and Kahuahine to David Kahanu, dated September 14th, 1866, and recorded in Liber 23 on pages 106 and 107.

4. The land situated at Kakaako in Honolulu, described in the deed from Moekolohe and Nainoa to David Kahanu, dated March 30th, 1880, and recorded in Liber 63 on pages 415 and 416. Containing an area of 1-5 of an acre.

5. The land at Aala on Liliha street, in Honolulu, described in the deed from Nika and Puniakala, his wife, and Keaka to David Kahanu, dated October 8th, 1869, and recorded in Liber 29 on pages 40 and 41; also the land described in the deed from John Thomas Waterhouse and Eleanor, his wife, to David Kahanu, dated January 25th, 1878, and recorded in Liber 56 on pages 63 and 64; also land described in the deed from Kila, Nahuoleia and Nahuie to David Kahanu, dated January 10th, 1876, and recorded in Liber 49 on pages 385 and 386. Containing an area of 3.03 acres.

6. The land situate on King street, in Honolulu, described in the deed from F. M. Hatch to James I. Dowsett, dated October 18th, 1888, and recorded in Liber 115 on pages 68 and 69. Containing an area of 17-100 acres.

7. The land situate at Kapahala, Kapalama, in Honolulu, being a portion of Apana 1, Royal Patent 2256, L. C. A. 24408, described in the deed from Thomas Carry and Mary, his wife, to James I. Dowsett dated June 14th, 1887, and recorded in Liber 106 on pages 193 and 194. Containing an area of 1900 square feet.

8. The one undivided half of the lands situated in Honolulu, known as the land of Kakaohao and Kakaohalo, L. C. A. 153 to Wm. Sumner, dated March 5th, 1849.

9. The land situated at Puhawai, Waianae, Island of Oahu, described in Royal Patent 1073, L. C. A. 7465, and in the deed of Pine and Kinikaku to James I. Dowsett, dated April 30th, 1888, and recorded in Liber 119 on page 256. Containing an area of 6.74 acres.

10. The land situated on Pearl River Bay near Honolulu known as Puloa, and containing an area of 2244 acres, and described by metes and bounds in the deed from Kekanonohi to Isaac Montgomery, dated September 7th, 1849, and recorded in Liber 4 on page 4.

11. The land situated at Honolulu, at Ewa, on the Island of Oahu, comprising 56 acres, more or less, now under lease to Sing Chong & Co.

12. The land situated at Kapalama, Island of Oahu, described in Royal Patent 2366 issued to John Meek, and comprising 9.58-100 acres; and also the land situated at the same place part of the III of Kahuopa, described in L. C. A. 8515, Apana 1, Part 1, and comprising 1.25-1000 acres, more or less, which said two last mentioned parcels of land are now held under lease dated September 15, 1896 by Y. Ah In.

13. The land situated on the Island of Maui, known as Rose Ranch, comprising all the lands described in certain Royal Patents and deeds as follows: All the land described in the deed from Parker N. Makee and others to James I. Dowsett, dated March 3rd, 1886, and recorded in Liber 101 on pages 209 et seq.; also the leasehold estates in the following lands: Lease of the Hawaiian Government of the Ahupuaa of Kanaia to Catherine N. Makee, Number 292, dated February 9th, 1861. Lease from John M. Kapena to James Makee dated December 22nd, 1876, and recorded in Liber 47 on page 498. Containing an area of 21,650 acres.

14. The land known as Kauiu situated at Ewa, Island of Oahu, being part of Hoaeae. Containing an area of about one acre.

15. The land with an orange grove situated at Hana, Island of Maui, known as Dowsett's land. Containing an area of 1 1/2 acres.

16. The taro land situated on the Island of Molokai described in Royal Patent 2330.

17. The land situated at Waipio on the Island of Hawaii known as Dowsett's land.

18. The land situated at Kapulone in Honokaa, Island of Hawaii, formerly leased to J. M. Horner & Sons and now occupied under said lease by the Pacific Sugar Mill. Containing an area of 17 1/2 acres.

Also the leasehold estates in the following lands: The land of Halaawa, the land of Kahaui, the land of Lelehu, the land of Mikilua, the land of Nana-kuli and the land of Aiea, all situated on the Island of Oahu.

Also all the live stock belonging to the Estate of James I. Dowsett, deceased, comprising 6,000 head of cattle, more or less, 60 head of oxen and bulis, and 212 head of horse and mules.

Also all and singular, the lands, chattels, choses in action, and property, real and personal, belonging to the Estate of James I. Dowsett, deceased, or to which said Estate may be entitled, whether herein enumerated and specified or not.

Terms of sale are cash in U. S. Gold. Deed at the expense of purchaser. For further particulars apply to

PAUL NEUMANN, ESQ., or GEORGE LUCAS, Commissioner.

# Sure Cure

For General Weakness.

The debilitating effects of a warm climate and exposure to all kinds of weather are sure to bring on disorders of the blood and weaken the system. Mr. Charles Geddes, of Mt. Malcolm, W. A., sends us his photograph, and tells of a sure cure for these conditions.

"For some time I have been landlord of the Royal Hotel in the Mt. Margaret gold fields district, eighty miles from the nearest railway. I have sold a great deal of Ayer's Sarsaparilla, and it gives the most universal satisfaction. When miners, prospectors, and others become run down by lack of fresh vegetables and fruits, and from exposure to all kinds of weather, their blood becomes very impure and the whole system greatly weakened. But

## AYER'S Sarsaparilla

is always a sure cure. I have known miners to send a hundred miles for it, such is their faith in it."

To cure constipation, biliousness, indigestion, and sick headache, there is no remedy equal to Ayer's Pills.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

## BY AUTHORITY

SANITARY REGULATIONS OF THE BOARD OF HEALTH FOR HONOLULU DISTRICT.

The following regulations shall apply to, and be in force within, the portion of Honolulu described as follows:

Beginning at the seashore, at the west corner of Loko Kuwili 2 near the east corner of the Kapalama Detention Camp and running mauka, along the Waipilo road to the old line of the Oahu Railway, thence along Oahu Railway to the boundary of Maunakea, thence mauka, along the Mokaukaea boundary and the Kaili road to the survey station at the lower end of Mokuauka ridge, thence in a straight line to the survey station above the north end of Wyllie street, thence along the central line of Wyllie street to Nuuanu street, thence in a straight line to the forks of the Manoa road, thence in a straight line to the corner of the Waiata road and the Kapahulu road, thence down the Kapahulu road and along Campbell Avenue to Monsarrat road, and thence in a direct line over the summit of Diamond Head to the seashore at high water line, and thence to the initial point.

### REGARDING BUILDINGS AND YARDS.

#### RAIN WATER.

1. Where the space between the buildings is less than fifteen feet, the water from the roofs of the buildings on the sides of such space shall be conducted in water tight leaders and made to discharge into suitable drains leading into street or alley gutters; and if the building abuts on an alley or roadway of like width the same rule shall apply.

#### AIR SPACE BETWEEN BUILDINGS.

2. There shall be a clear air space of ten feet between all buildings except those fronting on a street. No building except such as fronts on a street shall be built within five feet of a boundary line. The word "buildings" in this paragraph shall be construed to mean and include sheds, lean-tos, privies, and all other structures.

#### LIGHT AND VENTILATION OF DWELLINGS.

3. Each and every room intended or used for human habitation shall be provided with at least eight square feet of window area having unobstructed access into the open air for each 100 square feet of floor space in said room, and free access shall at all times be had to the same by the occupants of the room; and at least one-half of such window space shall be movable and available for ventilation.

#### AIR SPACE UNDER BUILDINGS.

4. Every building shall have on an average at least twenty inches of clear space for the circulation of air between the floor timbers and the ground, and shall have sufficient openings for ventilation in the outer walls to admit a free circulation of air; but, in case this air space cannot be secured without reaching "ground water level" then there shall be no air space, but the floor shall be of concrete or masonry.

#### YARDS, AREAS, COURTS, ETC.

5. Yards, areas, courts, alleyways and other open spaces within or between buildings, where water is used for washing of any kind, shall be properly graded and cemented, or paved so as to be water proof, and drained into trapped drains properly connected with sewer or cesspool, and no permanent wooden floor or grating shall be maintained over the same.

#### WATER TIGHT FLOORS.

6. All houses, structures, rooms or parts thereof, in which water is used, or intended to be used, in such quantity as to render the floor or floors thereof constantly damp, shall have such floor or floors made absolutely water-proof, with proper drainage into trapped leaders conveying the water away into cesspool or sewer; and the water proofing of all such floors shall be done in a manner satisfactory to the Board of Health.

7. No building or structure shall be used as a residence or place for human habitation or abode which is situated upon land where there is standing water within eighteen inches of the surface of the ground; nor shall any building or structures be so used that is placed on land that has been made by filling in with refuse or garbage, or that is declared by the Board of Health to be of foul or corrupt material.

#### REGARDING PRIVY-VAULTS AND CESSPOOLS.

8. No privy-vault, sink or cesspool

in Honolulu, shall hereafter be located or constructed within fifty feet of any stream, lake, pond, well or spring of water, nor within two feet of the line of any lot; nor shall it be made more than eighteen or less than six feet deep or placed in such a position that it is not easily accessible for emptying and cleaning.

9. When deemed necessary by the Board of Health, the sides and bottom of any privy-vault, sink or cesspool, shall be made either wholly or in part water tight, so as to prevent any saturation of the ground about the said vault, sink or cesspool, and shall be provided with suitable ventilating arrangement.

10. No structure or cover shall be put upon or over any privy-vault, sink or cesspool, until it has been inspected by the proper Agent of the Board of Health and approved as meeting the requirements of these regulations and of public health.

11. Any privy-vault, sink or cesspool, already constructed in Honolulu which has become a nuisance, or in any way dangerous to life or detrimental to health, shall be removed, re-constructed, or altered to meet the requirements of these regulations and of public health, as directed by the Board of Health or its Agent.

12. The Board of Health or its Agents may cause the emptying or disinfecting of any privy-vault, sink or cesspool that may be deemed offensive, or when required by public health, at the expense of the owner or occupant of the premises.

13. Within thirty days after the public sewer system is put into operation the use of privy vaults and cesspools shall be entirely discontinued within the limits of such sewer system, and all privies shall be removed, except in so far as permission may be granted by the Board of Health to transform the same into approved water closets connected with the sewer system.

14. No privy vault or cesspool shall be excavated or maintained within ten feet from any dwelling-house or inhabited building or cook-house or place where cooking is done.

15. No privy vault or cesspool shall be maintained or excavated in any place where for any reason free and unimpeded access may not be had to the same by an excavator cart.

16. No privy shall be built or maintained so as to entirely cover the cesspool or vault under the same, but the cesspool or vault shall project out on one side beyond the superstructure in such a manner as to allow the inspection and removal of the contents of said cesspool or vault. The contents of any privy vault or cesspool shall not be allowed to rise within eighteen inches of the top of the same or to such a height as to flow out onto the surface of the ground.

17. No cesspool or privy vault shall be built or maintained in any location except the same shall have a substantial water-tight curb which shall retain the earth without and the contents of the cesspool or vault within, and shall be provided with a substantial water-tight cover, having a small, movable lid in the same to facilitate examination and removal of the contents.

18. All cesspools or privy vaults shall have four-inch cast-iron vent pipes with caulked lead joints, or galvanized iron pipes, extending not less than twelve feet into the open air, and if within twenty feet of an inhabited building the top of such vent pipes shall extend above the roof of the highest building within a distance of twenty feet of the same. All such vent pipes shall run as direct as possible. Every privy shall have proper seats with hinged lids to cover the opening of same, which shall be kept closed when not in use.

19. All connections to cesspools or privy vaults shall be made with cast iron, lead or vitrified, sewer pipe. All urinals shall be connected to cesspools, vaults or sewer by trapped waste pipes.

20. All cesspools shall be properly cleaned out at once, and hereafter at least once every four months, and shall be thoroughly disinfected at least once each week with such disinfectants as the Board of Health shall direct; all such cleaning and disinfecting to be at the expense of the owner of the property.

21. All waste, soil, sewer or drain pipes shall be of cast iron, lead or vitrified clay. If of iron or lead the joints shall be caulked with molten lead; if of vitrified clay, they shall have tight cement joints all joints to be smooth in the inside; open drains may be of water tight masonry.

22. All cesspools or privy vaults when abandoned and the use thereof discontinued shall be at once entirely emptied of liquid and solid contents, and shall be disinfected and filled with earth, sand, ashes, or other such clean materials; and the wooden curbing about the same removed to a depth of at least four feet below the surface of the ground. In no case shall refuse, garbage or any unclean material be used in filling such privy vault or cesspool.

23. All buildings and premises which do not conform in every respect to the requirements of the foregoing regulations are hereby declared nuisances and dangerous to the public health.

### REGARDING GARBAGE.

24. Garbage will be carried away free of charge by the Board of Health carts within these limits, i. e.: School street mauka; Alapai street east; Liliha street west; and seaward by the water front.

25. It shall be the duty of each house owner, householder, lessee, or tenant who is a housekeeper, within the district in which the free removal of garbage is provided, to supply, and keep ready for use suitable container or containers, of not more than eight-teen cubic feet capacity and provided with tight covers, for the reception of all garbage, and to cause the same to be set out in such places and at such times as the Board of Health shall direct for the convenience of garbage collectors. All empty containers shall be kept clean and thoroughly disinfected.

26. Yard scrapings, tree cuttings and stable manure will not be removed by the Board of Health carts.

27. All garbage and refuse which is subject to decay shall be collected by householder or occupiers of dwellings each day; and if within the limits named in section 24 the same shall be placed in containers as provided in section 25 for collection; and if beyond said limits the same shall be burnt or removed.

28. No garbage shall be used for filling house lots or other tracts of land.

29. No garbage shall be deposited in any place not authorized by the Board of Health.

#### Extract from Penal Code:

"Section 874. Every person who shall violate any regulation of the Board of Health, after the same shall have been published, as provided in the last preceding section, shall be fined not exceeding one hundred dollars."

C. B. WOOD,  
President Board of Health

#### OFFICE OF THE BOARD OF HEALTH.

Honolulu, Feb. 7, 1900.

Section 28 of the Sanitary Regulations of the Board of Health is hereby amended so that said section shall read as follows:

"Sec. 28. No garbage, stable manure, night soil, or animal or vegetable refuse of any nature which is subject to decay shall be used for grading purposes, or for filling up any house lot or other tract of land."

C. B. WOOD,  
President of Board of Health.

## 1900 Ramblers are here

Out of sight too, regular beauties. We received but 20 by this "Australia," all the San Francisco house could spare on account of the great demand there. Call and see what a 1900 Rambler looks like and you will want one, but come soon as several are sold to arrive and as we had no stock when these got here 20 will not last long.

## Repair Work

This is our strong point as we have the best repair man in the islands and are thus able to guarantee our work. We undertake any kind of bike repairs, no matter how badly a wheel is smashed up we can make it as good as new. We know we are not located well at present and our customers and selves are put to a good deal of inconvenience, but a good start has been made on our new quarters and after a few months we will show you bicycle and sporting goods quarters that will be a credit to any city in the United States. In the mean while we will have to hoomanawani.

If the next Australia brings us what we have ordered in the wheel line we will have something interesting to tell you when she comes. When you want to rent a wheel come to us.

## NEWS IN A NUTSHELL.

Bits of Paragraphs that Give Condensed Notes of the Day.

Orpheum tonight.  
Iwakami, Robinson Block, has reopened and is ready for business.  
Work is wanted by an American. Address The California, Emma street.  
Mr. McGonigle is assistant to Dr. Meyers at the public dispensary on Likelike street.  
A meeting of the Commissioners of Education will be held at the usual hour this afternoon.  
The Red Men's ball this evening is to be in Progress Hall and not Waverley as has been stated.  
A public concert will be given by the band on the grounds of the Executive building at 7:30 this evening.

Smith-Premier typewriters, sold, rented and repaired at the Agency in Masonic building. Telephone 111.  
Yesterday afternoon the fire department burned the cluster of shacks near the corner of King street and Waikiki road.  
Whitney & Marsh are agents for the Princess Metternich skirts, well known for correct design and superior workmanship.

The funeral of the late Mrs. Catherine Morgan will take place from the Catholic Cathedral at 3 o'clock this afternoon.

Carbolic laundry soap is recommended as an additional safeguard against disease of all kinds. Get it of the Hobron Drug Co.

It is on Saturday that the Rio will be due with a great deal of later news. Many people in town expect to hear of the relief of Ladysmith.

Announcement of the marriage of William B. Nott to Miss Florence E. Atwood, which occurred yesterday, is being sent to friends today.

The U. S. Transport Warren, sailing on Saturday, will take a mail to San Francisco. This will be the only outgoing mail before March 2.

The Board of Health has declined to approve Mr. Russell's fence around Chinatown and has referred the matter to C. B. Ripley to straighten out.

The stock books of Ewa Plantation Co. and Waimea Sugar Mill Co. will be closed to transfers from Saturday, the 24th to Wednesday, the 28th inst. inclusive.

William Bengough, the Harper's Weekly artist, is on the transport Warren, on his way home from the Philippines, where he made many drawings for his paper.

Mrs. Marshall has on exhibition in the window of the Pacific Hardware Company a striking oil painting of the ruins of Kamakapu church and the surroundings.

The Christian Endeavor society will give a Washington social in the parlors of Central Union church this evening. All attending will be expected to wear eighteenth century costumes.

The Board of Health has referred the matter of opening schools to the Department of Education with instructions to act upon the question of expediency and not of health.

## THE WEATHER.

Weather Bureau, Punahou, 1 p. m.  
Wind light south east; sky clear; high barometer has driven away all signs of rain.

Morning minimum temperature, 64; midday maximum temperature, 81; barometer, 9 a. m., 30.12 irregular (corrected for gravity); rainfall, 24 hours ending 9 a. m., 0; dew point, 9 a. m., 61; humidity, 9 a. m., 61 per cent.

CURTIS J. LYONS, Observer.

## PUBLIC CONCERT.

The band will play on the grounds of the Executive building at 7:30 this evening, presenting the following numbers:

PART I.  
Overture—"Washington Birthday" .. Claus  
Selection—"Popular Airs" .. Contorno  
Vocal Selection—"Il Trovatore" .. Verdi  
Four new Hawaiian Songs .. Berger  
(a) "Ko Leo," "Milihai Pua,"  
Miss J. Kellia.

(b) "Ka Inuawai," "Kuwiliwili Iho Au."  
Mrs. N. Alapai.

PART II.  
Selection—"American Melodies" .. Beyer  
Intermezzo—"Cavalleria Rusticana" .. Mascagni  
Finale—"Lucia de Lammermoor" .. Donizetti  
Two Marches—"Olympia and Baltimore"  
"Star Spangled Banner" .. Berger

## AGUINALDO.

The talk in administration circles in Washington as to what shall be done with Aguinaldo when he is captured suggests the best known receipt for cooking a hare. Nevertheless the English are already talking of what they will do with Paul Kruger when they get him, and it is perhaps just as well to be ready in such matters.

## ALLEGED MUTINEERS.

They Petition the Supreme Court for Habeas Corpus.

A petition for habeas corpus was filed in the Supreme Court yesterday afternoon on behalf of the twelve sailors from the British ship Inverness-shire who are charged with mutiny. The writ was issued by Justice Frear returnable before himself at 10 o'clock this morning. At that time Marshal Brown had the twelve men in court with his return setting out the authority under which he held them. The hearing of the writ was then continued until 10 o'clock Tuesday morning to await the result of the hearing on the charge of mutiny before the consular court organized by British Consul Hoare. The hearing before this court will begin at 10 o'clock tomorrow morning.

The petition for the writ alleges that the men are held and deprived of their liberty without authority or process of law. George A. Davis appeared before Justice Frear on behalf of the petitioners and will defend them in the consular court.
